Total	<u>\$11,733,458</u>	Total	<u>\$11,733,458</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutory dedication budget authority by \$11,733,458 in the Safe Drinking Water Revolving Loan Fund (SDWRLF), administered by the Office of Public Health (OPH). The original source of the statutorily dedicated fund is a grant from the U.S. Environmental Protection Agency (EPA).

The \$11,733,458 has already been awarded to public water systems and is available for distribution to the 31 construction projects that are currently in progress. See the list below. These construction projects are being completed at a faster pace than initially estimated. Without this BA-7 approval, OPH will not have adequate budget authority to pay contractors when cash draws are requested.

Note: The SDWRLF program was established pursuant to the federal Safe Drinking Water Act Amendments of 1996 (SDWA). The SDWRLF is a direct loan program. The SDWRLF program provides low-interest loans to publicly and privately owned community water systems and nonprofit non-community water systems in financing needed drinking water infrastructure improvements. The OPH is responsible for the operations and administration of the SDWRLF program. The SDWRLF does not have any employees. As of 5/8/20, the balance of the SDWRLF is \$111,374,480.

Total	<u>\$3,202,016</u>	Total	<u>\$3,202,016</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal expenditure authority in the amount of \$3,202,016 in FY 20 for the Office of Elderly Affairs. The funds are associated with an 18 month federal grant award and will be used to provide home-delivered and packaged meals to seniors during the coronavirus pandemic. The grant was awarded to the Office of Elderly Affairs by the US Department of Health and Human Services. The grant period is 3/20/20 through 9/30/21. The agency will draw down the entire grant award this fiscal year and distribute it to the local councils on aging. The local councils on aging will have until the end of the grant period to expend the funds. There is no state match requirement associated with the grant award.

The funds will be distributed to the local councils on aging as follows:

Beauregard Council on Aging	\$45,045
Bienville Council on Aging	\$30,122
Bossier Council on Aging	\$67,082
Caddo Council on Aging	\$141,327

Total	\$3,202,016

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The federal grant began 3/20/20 and continues through 9/30/21. However, the Office of Elderly Affairs will draw the full grant award and distribute it to the local councils on aging by 6/30/20. The local councils on aging will have until 9/30/21 to expend the funds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE

DEPARTMENT: Veterans Affairs

AGENDA NO.: 1

AGENCY: Department of Veterans Affairs

ANALYST: Jodi Mauroner

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Claims	\$0	0
Self-Generated Revenue:	\$118,701	Contact Assistance	\$0	0
Statutory Dedications:	\$0	State Approval Agency	\$0	0
Federal Funds:	\$0	State Veterans Cemetery	\$118,701	0
Total	<u>\$118,701</u>	Total	<u>\$118,701</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase expenditure authority out of self-generated revenues in the amount of \$118,701 in FY 20 for the Cemetery Program in the Department of Veterans Affairs (LDVA). The amount of \$45,000 will be used on repair work in the Northwest Louisiana Veterans Cemetery located in Keithville. The amount of \$73,701 will be used to pay an invoice for a project completed in June 2019 at the Northeast Louisiana Veterans Cemetery in Rayville.

The LDVA constructs and operates veterans cemeteries in Louisiana for any person who is eligible for burial in a National Veterans Cemetery. There are currently four such state cemeteries which are operational and one scheduled to open in Spring 2020. While cemeteries are constructed with federal grants, administration, operation, and maintenance of a VA-supported state cemetery is solely the responsibility of the state. The US Department Veterans Affairs (VA) is authorized to pay a plot or interment allowance to a state for expenses incurred in the burial of eligible veterans in a cemetery owned and operated by the state if the burial is performed at no cost to the veteran's next-of-kin. However, cemeteries established under the federal grant program must conform to the standards and guidelines prescribed by the VA. Operational standards and measures are determined by the National Cemetery Administration (NCA); such standards apply to operations, grounds maintenance, headstones and markers, equipment maintenance, facilities, and personnel.

The LDVA has received notice that NCA surveyors will conduct an audit in Spring 2020 to determine whether the Northwest Louisiana Veterans Cemetery located in Keithville will continue to be accredited and eligible for reimbursement for interment of Louisiana veterans. Due to the terrain and geography of the location the LDVA has experienced issues with headstone and marker alignment. While it has been working to address these issues, the LDVA does not believe it has the expertise to rectify these issues prior to the audit. The department believes a vendor with more experience would be able to complete the work in three to four weeks, based on past projects, and enable the LDVA to replicate that process for future headstone placements. It anticipates awarding an RFP by February 1 and is requesting \$45,000 to fund a professional services contract.

Additionally, the LDVA is requesting \$73,701 to pay an invoice from Dumas Construction for the 10% retainage amount withheld from the contractor and payable upon completion of all deficiencies. The repairs at the Northeast Louisiana Veterans Cemetery in Rayville were completed on June 14, 2019. The contractor received the Notice of Final Acceptance from the state Office of Facility Planning and Control on July 25, 2019. The LDVA did not submit a BA-7 request to carryforward FY 19 funding to FY 20 as it believed the project had been closed.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 2

AGENCY: Tourism

ANALYST: Monique Appeaning

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Marketing	\$3,133,112	0
Self-Generated Revenue:	\$3,533,112	Welcome Centers	\$400,000	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$3,533,112</u>	Total	<u>\$3,533,112</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the Fees & Self-generated budget authority by \$3,533,112 for the Department of Culture Recreation and Tourism, Office of Tourism from \$26.5 M to \$30 M. The revenue source is Louisiana Tourism Promotion District (LTPD) accumulated fund balance as of July 1, 2019. NOTE: The Revenue Estimating Conference is anticipated to recognize the LTPD accumulated fund balance as of July 1, 2019 in the amount of \$10,558,881 as reported by the State Treasurer's Office at its next meeting. This BA-7 requests \$3,533,112 for expenditures outlined below.

REVENUE

LTPD was created as a special taxing district by Act 1038 of 1990 to promote and develop tourism in Louisiana. The District is a political subdivision of the state with the authority to levy and collect a 3/100 of 1% sales and use tax on retail sales of personal property and services subject to Revised Statute 47:331 (Imposition of Tax).

Historical Beginning Balances of LTPD

FY 20 beginning balance was \$10.6 M

FY 19 beginning balance was \$9 M

FY 18 beginning balance was \$6.6 M

FY 17 beginning balance was \$3.8 M

FY 16 beginning balance was \$3.9 M

EXPENDITURES

The \$3.5 M increase provides for the following:

Welcome Centers Program - \$400,000

Welcome Center Upgrades - \$400,000 - provides for interactive kiosks and guest book, social media and video wall, platform (Content Management System) extensions and mobile apps for the New Orleans and Vinton locations. It is estimated that each kiosk will cost \$100,000. The Vinton location is estimated to have three kiosks because of the number of visitors and the size of the welcome center. The New Orleans location is anticipated to have one kiosk. This funding provides enhancements and upgrades to these welcome centers for digital options to get information to visitors. Currently the Slidell Welcome Center is the only welcome center that has this type of kiosk.

Marketing Program - \$3,133,112

Rural Tourism Product Development - \$350,000 - provides technical assistance, educational workshops, hands-on assistance, as well as statewide products such as trails, byways and a heritage area, to serve as avenues for Louisiana parishes to link to state projects, creating a stimulus for economic development. This effort is part of the Louisiana Rural Tourism initiative. This grant program will require a 20% cash grant match. Each grant award is anticipated to not exceed \$10,000.

Travel South USA - \$100,000 - provides for Baton Rouge to host the Travel South Domestic Showcase in March 2020. This is a

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

marketplace event with more than 500 tourism professionals gathering for three (3) days of meetings. The goal is to deliver more visitors to the south to spend more money and time with a specific focus on travel in the southeastern region of the United States.

International Marketing - \$600,000 - provides for increased marketing efforts for international flights and ports of entry for cruise lines. In 2018, Louisiana experienced a 23% increase in Mississippi River cruises. The request provides for advertising in international airports such as London, Frankfurt, Paris, Montreal, and others encouraging travel to Louisiana.

Marketing and Advertising - \$1,560,000 - provides for expansion of Mardi Gras campaign, creation of an additional TV commercial, expansion into new, emerging markets, such as Australia, and additional media buys.

Emerging Markets - \$600,000 - provides for Australia in-country rep firm to prepare appointments, media appearances, and interactions with tour operators. It also provides for unscheduled media buys with news outlets and with publishers in advance of arrivals to help guarantee success in booking.

Advertising - \$198,700 - provides for media buys with "Hulu" for targeted visitor profile population. This provides \$29,000 per month (Jan-June) national spend. The remaining amount (\$24,700) provides for transmitting the spots to the various channels and to optimize performance throughout the six-months.

Advertising - \$75,950 - provides for one additional TV spot for the "Today You're in Louisiana" campaign for creative development, casting, talent buy-out, onsite video production, props, make-up, lighting, sound design, and editing.

Advertising - \$685,350 - provides for "Carnival (Mardi Gras) Campaign" for new creative efforts (photography, video, music, etc.) and media buys, transmission of media, etc.

Communications - \$75,000 - provides for increased recruitment efforts to attract more national and international journalists, radio & television hosts/producers, and social media influencers. It also provides for growth of tourism market into Australia, China, Japan, Italy, Brazil and Mexico.

Essence Festival 2020 - \$448,112 - will facilitate payment for a line item appropriation in Act 10 of the 2019 Regular Session. CRT had \$500,000 SGR allocated to Essence Festival in its base budget. These funds in part provide for legislative approved operating assistance to the Essence Festival of Culture. Currently, negotiations are underway between state officials and Essence Festival Productions, LLC. It was reported that 2020 Essence will stick to its traditional three nights of concerts in the Mercedes-Benz Superdome but will expand its daytime events throughout the city of New Orleans to five days, July 1-5. The total funding (including this line item) is \$948,112.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have a negligible impact on future fiscal years that is primarily associated with the updates at the two (2) Welcome Centers for ongoing maintenance fees as a result of the technology updates. It is estimated to cost not more than \$15,000 to cover equipment failures, software updates, and other operational elements.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon the REC recognizing the accumulated fund balance of the LTPD as of July 1, 2019, at its meeting on January 31, 2020.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive	\$6,000,000	0
Interagency Transfers:	\$0	Management & Finance	\$0	0
Self-Generated Revenue:	\$0	Technology Assessment	\$0	0
Statutory Dedications:	\$6,000,000	Atchafalaya Basin	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$6,000,000</u>	Total	<u>\$6,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the statutory dedications out of the Oilfield Site Restoration Fund (OSRF) in the amount of \$6 M for the Office of the Secretary within the Louisiana Department of Natural Resources (DNR).

DNR is requesting this additional budget authority from the OSRF in order to plug fourteen urgent or high priority wells in Terrebonne and Lafourche parishes. The majority of the existing budget authority was spent on an emergency situation with a well in Jefferson Davis Parish that was "blowing out" (high pressure at the surface). This situation required DNR to hire a contractor with particular expertise and cost over \$6.3 M. Therefore, DNR requests additional budget authority to plug nine urgent and high priority wells at an estimated cost of \$4.8 M. These nine wells pre-date the legislation requiring security and therefore require 100% department funding.

The remaining five wells to be plugged are low priority and will cost an estimated \$1.2 M to be plugged. While these wells are low priority, they have been chosen to be plugged due to a secondary criteria – wells which have collected financial security in an escrow account. These five wells have \$800,000 in financial security to be used to plug the wells. However, DNR is required to finance the plugging of the wells and then be reimbursed from the financial security.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request **contingent upon the REC recognizing the accumulated fund balance of the OSRF as of July 1, 2019, at its meeting on January 31, 2020.** *This has been revised since the original write-up.*

January 31, 2020

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fisheries	\$65,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$65,000			
Federal Funds:	\$0			
Total	<u>\$65,000</u>	Total	<u>\$65,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutory dedication budget authority in the amount of \$65,000 for the Office of Fisheries in the Louisiana Department of Wildlife & Fisheries (LDWF). LDWF is requesting this additional budget authority from the Shrimp Marketing & Promotion Account in order to purchase two law enforcement drones to assist in the enforcement of shrimping regulations.

The Shrimp Marketing & Promotion Account was created under LA R.S. 56:10(B)(1)(b)(i) and authorizes the expenditure of all funds to be administered by the Louisiana Shrimp Task Force. The Shrimp Task Force is charged with the development and expansion of markets for shrimp harvested off the coast of Louisiana. The task force believes that the enforcement of regulations is vital to ensuring a sustainable harvest, marketability, and market price. Therefore, the task force met on July 31, 2019 and passed a motion to utilize funding from this account to purchase two drones for the enforcement of shrimping regulations. The use of these drones aides in the enforcement of regulations by LDWF in that they save manpower hours, allow for undercover enforcement, and allow for enforcement at night.

LDWF has received a quote for the purchase of the drones in the amount of \$65,000. LDWF has been using the same type drone for the enforcement of oyster regulations and has seen valuable results. LDWF hopes to have the drones purchased and ready for use for the May 2020 shrimp season.

All funds specified in this BA-7 request are intended to be spent prior to June 20, 2020.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office does not recommend approval of this BA-7 request.

LA R.S. 56:10(B)(1)(b)(i) creates the "Shrimp Marketing and Promotion Fund" and states that "all expenditures and allocations of monies from this fund shall be administered by the Louisiana Shrimp Task Force to be used for the development of markets for shrimp and creation of marketing strategies for the development and market expansion for shrimp harvested from Louisiana waters." The Legislative Fiscal Office does not believe that the acquisition of equipment for the enforcement of shrimping regulations falls within the scope of the statute regarding the allowable uses of the fund.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutory dedications out of the Artificial Reef Development Fund (ARDF) in the amount of \$2 M for the Office of Fisheries within the Department of Wildlife & Fisheries (LDWF).

In 2018, the Louisiana legislature enacted Senate Resolution 95 which called for a comprehensive evaluation of red snapper in order to understand the health of the species. The resolution requested that CPRA and LDWF secure funds to monitor red snapper and other reef fish impacted by the Deepwater Horizon oil spill, specifically to develop and submit a proposal seeking Open Ocean TIG and RW TIG Funds. However, the Open Ocean TIG Fund is only for use by federal agencies and the RW TIG Fund is only for projects that span across all gulf states. Therefore, neither of these funds are available to conduct the study of red snapper in Louisiana.

SCR 95 also called for LDWF to dedicate funding from the Artificial Reef Development Fund, the Saltwater Fish Research and Conservation Fund, and Sport Fish Restoration Funds to supplement the Open Ocean and RW TIG Funds. Since the TIG funds are not available, LDWF presents this BA-7 request to increase budget authority from ARDF. LA. R.S. 56:639.8(E)(4) allows for the use of funds not to exceed two million dollars to be used for the administration and conducting of the saltwater fish estimate. LDWF has received a proposal from LGL Ecological Research Associates, Inc. to conduct a study to estimate the total abundance of red snapper in Louisiana for a cost of \$2.6 M. LDWF has re-prioritized some projects in the current fiscal year to free up partial funding for the red snapper study, but requires additional budget authority of \$2 M to pay the remainder. LDWF plans to sign a contract with LGL as soon as possible following budget approval and believes that the study could be completed by the end of the current fiscal year. However, should weather or other environmental conditions delay the study, then LDWF will request a carry-forward BA-7 to complete the study and pay for the remainder of the contract in FY 21.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request could have an impact on future fiscal years. LDWF may need to request a carry-forward BA-7 in FY 21.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This BA-7 request seeks to increase Statutory Dedication authority by \$5,000 from the Shreveport Riverfront & Convention Center and Independence Stadium Fund. The proposed increase is funded by an available undesignated balance in the fund. Approval of this request will provide for payment of funds due to the Louisiana Redbud Festival from FY 19 as stipulated in R.S. 47:302.2(C)(1)(g)(i). The payment is a bona-fide obligation but was inadvertently excluded from the carry forward request processed on August 15, 2019. Revenues deposited in the fund are derived from state sales tax receipts on hotel/motel room rentals in the city of Shreveport.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The appropriation levels in FY 20 will not exceed projected fund revenues as recognized by the Revenue Estimating Conference.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority associated with two federal grant programs in Other Requirements - Agriculture & Forestry Pass Through Funds. The first grant is pass-through funding to regional food banks and the second is a new grant for the eradication and control of feral swine. The expenditures associated with this BA-7 request are budgeted in the Other Charges category.

The first grant is the Emergency Food Assistance Program (TEFAP) in the amount of \$1.6 M. TEFAP is a federal program that helps supplement the diets of low-income Americans, including elderly people, by providing them with emergency food assistance at no cost. These funds will flow to food banks throughout the state for costs associated with the administration as well as the storage and distribution of food commodities. The LA Department of Agriculture and Forestry administers this program for the state of LA. The amount allocated to the state is calculated by the U. S. Department of Agriculture, Food & Nutrition Service Program using a formula based on state unemployment and poverty levels. LA passes 100% of TEFAP funds received to five state-wide food banks. The TEFAP program is currently funded at \$1.6 M. Approval of this BA-7 request will increase the budget to \$3.2 M for FY 20.

The second grant program is the Feral Swine Eradication and Control Pilot Program (FSCP) in the amount of \$457,849. FSCP is implemented jointly by the USDA's Natural Resources Conservation Service (NRCS) and the Animal and Plant Health and Inspection Service (APHIS). The FSCP was established by the federal 2018 Farm Bill to respond to the threat posed by feral swine to agriculture, native ecosystems, and human and animal health. According to the LA Department of Agriculture and Forestry, Louisiana's feral swine population of approximately 700,000 causes nearly \$60 M in agricultural damages.

The Louisiana FSCP Pilot Program will consist of three pilot control areas that total approximately six million acres of public and private land in the following parishes:

- Pilot Area #1 - Red River, Natchitoches, Winn, Grant, and Rapides Parishes
- Pilot Area #2 - Madison, Tensas, and Concordia Parishes
- Pilot Area #3 - Cameron and Calcasieu Parishes

Total funding for the LA FSCP pilot program is \$1.5 M for three years with a 25% match of \$500,000 provided by eight Soil & Water Conservation Districts (SWCD). Authorized use of grant funds include hiring technicians to assist with feral swine trapping including purchasing the necessary traps, bait, trail cameras, drones, and ATV/UTV vehicles and trailers. To the extent that technicians are hired, SWCDs will need to secure ongoing funding when the grant is no longer available or terminate the positions.

II. IMPACT ON FUTURE FISCAL YEARS

The Feral Swine Eradication and Control Pilot (FSCP) program is a \$1.5 M grant for three years. The grant is anticipated to budget as follows: FY 21 - \$487,880, FY 22 - \$443,642, and FY 23 - \$110,629.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$170,321</u>	Total	<u>\$170,321</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate funds to provide for the operational and maintenance costs of the Crescent City Connection Bridge. Act 866 of 2012 created the Crescent City Transition Fund and provided for allowable uses, including appropriating funds to the New Orleans Regional Planning Commission for lighting of the eastbank and westbank approaches to the Crescent City Connection Bridge (including General DeGaulle and the Westbank Expressway approach through ground level), improvements to ingress and egress points, lighting, maintenance, grass cutting and landscaping of the Westbank Expressway and connecting arteries.

The current FY 20 appropriation from the Crescent City Transition Fund to the Operations Program is \$387,684 and represented the department's estimated unencumbered FY 20 fund balance as of April 2019. Approval of this BA-7 request will increase the total appropriation from this fund to \$558,005 for allowable operating expenditures in FY 20.

The remaining balance in the Crescent City Transition Fund on 6/30/2019, was \$5,933,279. Of this amount, \$5,396,258 is encumbered for capital outlay project expenditures. This BA-7 seeks to appropriate an additional \$170,321 that represents the remaining unexpended balance from the FY 19 appropriation plus interest earnings. This appropriation will provide for additional operating expenses during FY 20 as well as close out remaining fund balances set aside for operating expenses when the Crescent City Transition Fund was created. The only balances remaining in the fund will be those encumbered for capital projects (plus potential interest earnings).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. Act 866 of 2012 deposited into the Crescent City Transition Fund all monies collected pursuant to Sections 4.21 and 12.1 of the Amended and Restated Indenture and Deed of Trust between DOTD and Bank One Trust Company, N.A., dated November 1, 2002, or any funds possessed, controlled or due to the Mississippi River Bridge Authority or the Crescent City Connection Division. Act 866 specified certain capital expenditures and provided that remaining monies would be appropriated to the New Orleans Regional Planning Commission annually to pay for certain operating costs of the Crescent City Connection Bridge (functional and ornamental lighting, improvements to ingress and egress points, maintenance, grass cutting and landscaping of the westbank expressway and connecting arteries) until the remainder of the funds were expended.

Approval of this BA-7 will expend the remaining balance of funds set aside for operating expenses. In the future, the operating costs of the Crescent City Connection Bridge will be the responsibility of DOTD and enhanced operations above the department's baseline operating expenditures for such bridges will either be unavailable or require alternate means of financing.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate funds from the Fiscal Administrator Revolving Loan Fund in order to provide a source of funds from which loans can be made to local municipalities that are determined to require appointment of an independent fiscal administrator. Monies shall be distributed in accordance with La R.S. 39:1357(D), providing "the monies in the fund shall be appropriated and used only for the purpose of providing financial assistance to a political subdivision for which a court has appointed a fiscal administrator . . . by providing a source of funds from which the political subdivision may borrow in order to pay the costs and expenses associated with the independent fiscal administration of the political subdivision, including but not limited to all costs and expenses incurred by the fiscal administrator, the legislative auditor, the attorney general, the state treasurer, and any other persons engaged in connection with the independent fiscal administration."

The state treasurer utilized the emergency provisions of the Administrative Procedure Act to promulgate an emergency rule on October 1, 2019, to facilitate disbursement of loans from monies appropriated by the legislature to the Fiscal Administrator Revolving Loan Fund.

This BA-7 has been submitted to address specific circumstances addressed in La R.S. 39:1351(2)(a), which reads, "if it is determined by the unanimous decision of the legislative auditor, the attorney general, and the state treasurer at a public meeting [Fiscal Review Committee] to consider such matters that a political subdivision is reasonably certain to not have sufficient revenue to pay current expenditures, excluding civil judgments, or to fail to make a debt service payment, the attorney general shall file a rule to appoint a fiscal administrator for the political subdivision as provided for in this Chapter." Two municipalities are currently utilizing fiscal administrators that are anticipated to require loans from this source due to insufficient cash reserves, the town of Sterlington and the town of St. Joseph. Additionally, the Fiscal Review Committee has determined that two additional municipalities (the town of Clayton and the village of Clarence) currently meet the requirements of R.S. 39:1351 and the Attorney General has approached the local courts to request appointment of an independent fiscal administrator.

The remaining balance in the Fiscal Administrator Revolving Loan Fund on 6/30/2019, was \$450,000. Monies were deposited into the fund through Act 362 of the 2019 Regular Session of the Louisiana Legislature (Funds Bill). Since the initial deposit, the fund has realized interest earnings of \$1,063 as of 8/26/19. This BA-7 seeks to appropriate the original deposit of \$450,000 to provide a source of funds from which a political subdivision with a court-appointed fiscal administrator may borrow in order to pay the costs and expenses associated with the independent fiscal administration in addition to other authorized, associated expenses.

The Legislative Auditor's Office reports that the total sum of \$450,000 will likely be insufficient to fund expenditures anticipated in FY 20 and that an additional funding source will likely be necessary later in the year. Additional municipalities are also in danger of being declared financially unstable during FY 20, which may create additional potential obligations for the Fiscal Administrator Revolving Loan Fund.

October 18, 2019

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no direct impact on future fiscal years. However, additional municipalities are on the verge of financial instability and in jeopardy of having an independent fiscal administrator appointed. Approval of this BA-7 will essentially deplete the initial monies deposited into the Fiscal Administrator Revolving Loan Fund and preclude additional loans without additional deposits into the fund by the legislature. Over time, the fund may be replenished or partially replenished by municipalities repaying these loans. There is a strong possibility that additional monies will be required before loan repayments generate sufficient balances to make additional loans. Additional appropriations will likely be required from the Fiscal Administrator Revolving Loan Fund in future fiscal years, and possibly in the current fiscal year. There is no recurring funding source for this fund except loan repayments, and the fund will likely require an infusion of additional SGF in the near future.

CF 6	01 - 129 Executive LA Commission on Law Enforcement	<p>The purpose of this BA-7 request is to carry forward \$700,000 SGF in the State Program from FY 19 into FY 20 to pay for bona fide expenditure obligations that were not liquidated prior to the close of the fiscal year. In conjunction with the Criminal Justice Reinvestment Initiative, these funds will be used for the establishment of the Capital Area Family Justice Center (CAFJC). All the required documentation was not received for its establishment as a non-profit until the end of FY 19.</p> <p>BACKGROUND On 1/14/19, the LA Commission on Law Enforcement (LCLE) received \$750,000 from the Department of Public Safety & Corrections - Correction Services to establish a family justice center in East Baton Rouge parish. This center will provide services to victims and survivors of domestic violence, sexual assault, dating violence and stalking by providing more coordinated services in a single location. A Memorandum of Understanding (MOU) between LCLE and the CAFJC was entered into on 5/24/19. <i>Note:</i> The initial budget includes one-time expenditures that include \$300,000 for build out (renovation expense estimate) and \$60,000 for office furniture and equipment.</p> <p>NOTE The MOU with this non-profit provides for some recurring expenditures that may have a fiscal impact in future fiscal years if the funding source remains the same. The non-profit's expenditures include the following: salaries and related benefits for an executive director at \$80,000, additional staff at \$40,000 and combined benefits at \$30,000; annual rent (including electric, water, sewage and internet) of \$198,900 for 12 months plus deposit; general liability insurance for a) property and casualty and b) directors and operators at \$18,000; professional services at \$6,500 for expenses such as accounting fees and advertising for staff and agency; janitorial services at \$9,600 for 12 months; and supplies at \$7,000. LCLE indicates that it plans to continue funding of the CAFJC in future fiscal years using justice reinvestment proceeds. Should these funds become unavailable, an alternate means of finance would be required in order to continue operations.</p>	\$0	\$700,000	\$0	\$0	\$0	\$0	\$700,000
CF 8	04A - 139 State	The purpose of this BA-7 request is to carry forward a total of \$819,787 in SGF (\$428,460) and SGR (\$391,327) funding from FY 19 into FY 20 to pay bona fide expenditure obligations that were not liquidated prior to the	\$428,460	\$0	\$391,327	\$0	\$0	\$0	\$819,787

CF 35	09 - 309 Health South Central LA Human Services Authority	The purpose of this BA-7 request is to carry forward \$23,641 IAT for the South Central LA Human Services Authority (SCLHSA) from FY 19 to FY 20. The source of the IAT funds is a federal grant awarded to the Office of Behavioral Health by the Substance Abuse & Mental Health Services Administration to implement the LA State Opioid Response (LaSOR) program. SCLHSA reports that the funds being carried forward are to purchase one additional vehicle (2019 Dodge Grand Caravan, P.O. date 5/24/19) to add to its fleet for use by its Crisis/Outreach Mobile Team for LaSOR operations. The Crisis/Outreach Mobile Team consists of a licensed practical nurse (LPN), licensed mental health professional (LMHP), and a peer support specialist that will use the vehicle to provide outreach services across SCLHSA's 7-parish region (Assumption, Lafourche, St. Charles, St. James, St. John the Baptist, St. Mary, Terrebonne) regarding opioid use and misuse for various populations, such as emergency room patients, criminal justice populations, pregnant women, state-recognized tribes, and veterans. SCLHSA anticipates vehicle delivery in early September.	\$0	\$23,641	\$0	\$0	\$0	\$0	\$23,641
CF 36	09 - 310 Health Northeast Delta Human Services Authority	The purpose of this BA-7 request is to carry forward \$55,491 for the Northeast Delta Human Services Authority (NEDHSA) from FY 19 to FY 20. NEDHSA reports that the funds being carried forward are to purchase three (3) additional vehicles as follows: a Ford Fusion sedan (\$17,169); a Ram 1500 truck (\$17,647); and a Chevrolet Equinox SUV (\$20,675). All vehicles have a purchase order issuance date of 5/1/19. The three vehicles are replacements for existing fleet vehicles with mileages of 106,841, 93,216, and 87,859. NEDHSA further reports that the latter two vehicles have maintenance costs in excess of the current value of the vehicle. Reported vehicle uses include travel by NEDHSA staff to their clinics and client homes within their 12-parish service area. Two of the three vehicles (Ford Fusion and Ram 1500) have been delivered to the LA Property Assistance Agency and are awaiting payment of final invoice and pickup by NEDHSA. NEDHSA further reports that the Chevrolet Equinox has been manufactured and anticipates vehicle delivery from the manufacturer prior to the end of August.	\$55,491	\$0	\$0	\$0	\$0	\$0	\$55,491

Warren Taylor Price, and TN Armstead buildings on the ELMHSC with an associated P.O. issuance date of 04/11/19. The amount being carried forward from FY 19 to FY 20 represents the entire value of the P.O. OBH reports that the sprinkler system in the aforementioned buildings were outdated and need to be anti-ligature compliant. The installation of the new sprinkler system is complete, but a State Fire Marshal inspection revealed improper sprinkler head installation and leaks. OBH is withholding payment until all system issues are resolved.							
4) <i>Buffalo Electric</i> - \$77,000 (\$46,200 SGF, \$30,800 IAT): Funds for the installation of new light poles on the ELMHSC with an associated P.O. issuance date of 05/21/19. The amount being carried forward from FY 19 to FY 20 represents the entire value of the P.O. OBH reports that the light poles are for heightened security at ELMHS and that final work on the light poles is pending completion. The anticipated completion date is 08/30/19.							
5) <i>Bayou Rapides Corporation</i> - \$24,723 SGF: Funds for anti-ligature renovations at the Central LA State Hospital with a P.O. issuance date of 03/15/19. The amount being carried forward is the remaining balance on a P.O. with a total value of \$44,950. The work has been completed and OBH is awaiting final invoice.							
6) <i>Offshore Air & Refrigeration</i> - \$26,762 (\$16,057 SGF, \$10,705 IAT): Funds to replace a chilled water air handling unit at the Parker Building on the ELMHSC with an associated P.O. issuance date of 06/06/19. The amount being carried forward is for the total value of the P.O. OBH is awaiting final completion of the work with a projected finish date of 07/31/19.							
7) <i>ChillCo Mechanical</i> – \$12,450 IAT: Funds to replace a chilled water air handling unit at the Oakcreast Building on the ELMHSC with an associated P.O. issuance date of 2/11/19. The amount being carried forward is for a portion of the P.O. with a total value of \$124,500. The work has been completed and the amount being carried forward is a 10% retainage fee OBH is obligated to pay upon receipt of a clear lien certificate.							
8) <i>Cornerstone Commercial Flooring</i> - \$8,800 SGF: Funds to replace flooring on the first floor of the Center Building on the ELMHSC with an associated P.O. issuance date of 5/14/19. The amount being carried forward is for a portion of the P. with a total value of \$88,000. The work has been completed and the amount being carried forward is a 10% retainage fee OBH is obligated to pay upon receipt of a clear lien certificate.							
9) <i>R&S Corporation</i> - \$6,617 SGF: Funds to replace two existing swing gate locks on the ELMHSC with an associated P.O. issuance date of 5/24/19. The amount being carried forward represents the total value of the P.O. The existing locks were not operating properly and created a security risk

		for the compound. OBH is awaiting final completion of the work and anticipates a completion date of 09/30/19.							
		<i>Acquisitions</i>							
		1) <i>Gerry Lane Chevrolet</i> - \$27,307 (\$16,384 SGF, \$10,923 IAT): Funds for the purchase of a 15-passenger Chevrolet Express 3500 van with a P.O. issuance date of 2/26/19. The amount being carried forward from FY 19 to FY 20 represents the total value of the P.O. This vehicle is an addition to the fleet at ELMHS corresponding with Phase II of the bed expansions associated with the Cooper/Jackson Settlement. ELMHS staff will use the vehicle to transport patients to medical appointments, court hearings, and other necessary outings.							
		2) <i>Courtesy of Acadiana</i> - \$21,753 (\$13,052 SGF, \$8,701 IAT): Funds for the purchase of a Dodge Ram 1500 Crew Cab with a P.O. issuance date of 2/27/19. The amount being carried forward from FY 19 to FY 20 represents the total value of the P.O. The truck is an expansion of the fleet at ELMHS and will be used by the Work Therapy program to increase the program's capacity to transport clients, equipment, and tools to their jobs at horticultural and lawn care firms, as well as property movement groups. The truck has an anticipated delivery date of 8/05/19.							
		Behavioral Health Administration & Community Oversight Program - \$42,297 SGF							
		1) <i>Courtesy of Acadiana</i> - \$42,297 SGF: Funds for the purchase of 2 Dodge Caravans with a P.O. issuance date of 2/4/19. The amount being carried forward from FY 19 to FY 20 represents a portion of the P.O., which has a total value of \$65,585 and is for 3 Dodge Caravans. One of the three vehicles has been delivered and the other two are still pending final delivery and invoice with an anticipated delivery date of 9/13/19. The 2 new vehicles are replacements for existing fleet vehicles that have mileages of 223,216 and 158,032.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the statutorily dedicated DNA Testing Post-Conviction Relief for Indigents Fund in the LA Public Defender Board (LPDB) Program for court-ordered DNA testing for individuals declared indigent and convicted of a felony. Revenues in this fund are derived from a transfer from the 20-XXX Funds (SGF equivalent), and any unexpended deposits remain in the fund. The fund received a \$28,500 appropriation for FY 19 and carried over an unexpended balance of \$41,061 from prior fiscal years. The Code of Criminal Procedure (CCRP 926.1) restricts expenditures from this fund to court-ordered DNA testing and further provides that no other public funds may be expended for this purpose. As of this writing, the fund has remaining budget authority of \$4,275 from which to pay court-ordered DNA testing, after which LPDB will be unable to make any further payments. LPDB indicates current outstanding requests total \$37,010. The proposed BA-7 request would appropriate the fund balance carried over from prior fiscal years and allow LPDB to continue to pay for additional court-ordered DNA testing.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority from the statutorily dedicated LA Military Family Assistance (MFA) Fund in the Administrative Program for travel expenses for LA National Guard soldiers scheduled for deployment. The LA Military Family Assistance Board has approved the payment of travel expenses of soldiers for two (2) Louisiana National Guard units set to deploy in 2019. The first unit, consisting of 199 soldiers, deployed in February 2019, and the second unit, consisting of 163 soldiers, will deploy in April 2019.

The MFA fund is primarily used to pay need-based claims for family members of activated or honorably discharged military personnel and to pay transportation and other related costs of activated military personnel as authorized by the LA Military Family Assistance Board. To date, the Louisiana Department of Veterans Affairs (LDVA) has expended \$95,924 of the \$115,528 FY 19 appropriation. LDVA indicates the current unexpended appropriation of \$19,604 is required to address need-based claims that may come before the MFA board throughout the remainder of FY 19 and cannot be utilized for the payment of travel expenses of soldiers scheduled for these two deployments. This BA-7 request would allow the LDVA to utilize a portion of the prior year fund balance to make payments to these soldiers. A summary of the MFA fund revenues along with a projected fund balance is provided below. For informational purposes, revenues in the MFA fund are largely derived from donations, gifts, and grants.

\$ 441,402	Prior Year Fund Balance
<u>\$ 31,958</u>	FY 19 year-to-date Collections
\$ 473,360	Total FY 19 Revenue

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal authority by \$3,233,541 to cover a projected year-end budgetary deficit within fifteen federal grant activities. All the funding in these programs must be spent in accordance with National Guard Regulation 5-1 and the limitations set forth in the individual appendices. This projected deficit is estimated by Military Affairs from each federal program's spending worksheets using actual expenditures, encumbrances, and forecasted monthly expenditures. Historically, Military Affairs has had sufficient budget authority to cover these expenditures, but the incremental expenditure increases over the last six years for these federal programs is now projected to exceed their current authority.

<u>Federal Program/Activity</u>	<u>Projected Deficit</u>	<u>Requested Expenditures</u>

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$11,334</u>	Total	<u>\$11,334</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the LA Emergency Response Network's (LERN) budget authority by \$11,334 in fees and self-generated revenue. The original source of SGR is a one year private grant awarded by the Living Well Foundation, a nonprofit organization in Ouachita Parish, with intent to provide support to the "Stop the Bleed" initiative in their parish. No state match is required.

The funds will be used to buy supplies for the "Stop the Bleed" training initiative, which is a federal initiative to encourage bystanders of an emergency to become trained to assist in emergency bleeding situations.

There are 37 schools in Ouachita Parish. In FY 18, the Living Well Foundation provided funding for training at 11 schools in the parish that were selected on a first come, first served basis in response to an outreach effort from the LERN training coordinator. In FY 19, the funds in this BA-7 will be used to provide training at an additional 12 schools in the parish. If additional funds are received from the Living Well Foundation in the future for this purpose, it is anticipated that the remaining 14 schools in the parish will be served.

LERN personnel will host the educational seminars to train faculty and staff at the schools. The funds requested in this BA-7 will be used to purchase supplies that will be used in the training as well as distributed to the 12 schools.

The funds will be used for the following supplies:

Stop the Bleed Educational Booklets (1,084 @ \$1 each)	\$1,084
Quick Clot Bleeding Control Stations (12 @ @ \$800 each)	\$9,600
Blue Training Tourniquets (25 @ \$26 each)	\$ 650
Total Supplies	<u>\$11,334</u>

II. IMPACT ON FUTURE FISCAL YEARS

Statutory Dedications:	\$0			
Federal Funds:	\$974,808			
Total	<u>\$974,808</u>	Total	<u>\$974,808</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal expenditure authority in the amount of \$974,808 in FY 19 in association with two federal grants awarded to the Executive Office.

First, the U.S. Department of Justice awarded a grant of \$1,270,538 to the Office of the Governor under the federal FY 18 Improving Outcomes for Child and Youth Victims of Human Trafficking program, authorized as a cooperative agreement by the Justice for Victims of Trafficking Act of 2015 and the Trafficking Victims Protection Act of 2000, as amended. The state FY 19 portion of this grant to be appropriated totals \$224,808, with the remainder to be appropriated across FYs 20-22. Expenditures will be incurred via sub-contracts with local Child Advocacy Centers throughout the state to employ regional child and youth trafficking coordinators. These individuals will serve as central points of contact for their respective regions for needed child and youth trafficking efforts and resources. Additionally, grant funds will provide training and implementation of national best practice risk screening tools for service providers statewide.

The second grant is awarded through the U.S. Department of Health And Human Services for the State Sexual Risk Avoidance Education program in accordance with The Bipartisan Act of 2018 and the Bipartisan Budget Act of 2018. The total grant award is for \$1,248,563. The state FY 19 portion of this grant to be appropriated totals \$750,000, with the remainder to be appropriated in FY 20. Expenditures will be incurred via sub-grants to organizations across the state that promote positive youth development and sexual risk avoidance through various programs and initiatives. Current Louisiana Youth for Excellence staff within the Executive Office will facilitate contract monitoring.

The Federal funds will provide for FY 19 expenditures in the Other Charges expenditure category as follows:

Department of Justice Grant:	
Travel	\$13,422
Professional Services	\$176,760
IAT	\$31,500
Supplies	<u>\$3,126</u>
	\$224,808
Health and Human Services Grant:	
Public Assistance	\$750,000

II. IMPACT ON FUTURE FISCAL YEARS

The Department of Justice Grant provides funds for a 36-month period. Approval of this BA-7 will require federal funds appropriations totaling \$418,830 in FYs 20 and 21, and \$208,070 in FY 22 to complete the grant terms. The Department of Health & Human Services Grant provides funds for a 12-month period. Approval of this BA-7 will require a federal funds appropriation of the grant balance totaling \$498,536 in FY 20 to complete the grant terms.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Total	<u>\$292,862</u>	Total	<u>\$292,862</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the State Veterans Cemetery Program in the LA Department of Veterans Affairs (LDVA) for additional expenses related to erosion repairs and mitigation at the Northeast LA War Veterans Cemetery in Rayville, LA. The source of SGR revenue is unexpended burial fees (\$700) collected for the burial of family members in the cemetery and held in an escrow account.

Significant erosion was caused by severe thunderstorms and flooding during March and April 2016 that washed away several areas of dirt and landscaping at the cemetery in Rayville, LA. Total cost for the repairs is \$492,862 with 75% (\$369,646) reimbursable by FEMA. In FY 17, \$200,000 SGR was transferred from the Southeast LA Veterans Home in Reserve, LA to LDVA to begin the repairs. This BA-7 request is for the remaining \$292,862 expenditure authority (\$492,862 - \$200,000) required for the project, which is schedule to be completed in March 2019.

As reimbursements are received from FEMA, LDVA will repay the \$200,000 to the Southeast LA Veterans Home (FY 17 amount) and \$169,646 to the escrow account. In total, \$123,216 SGR will be expended by LDVA in the Cemeteries Program for the 25% cost share of this project.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Approved By JLCB**

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 5

AGENCY: State Museum

ANALYST: Monique Appeaning

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Museum	\$0	0
Interagency Transfers:	(\$150,000)			
Self-Generated Revenue:	\$150,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to request a means of finance substitution in the Office of Museum by decreasing the IAT budget authority by \$150,000 and increasing SGR budget authority by \$150,000. SGR revenues were collected by the agency for three consecutive fiscal years (FY 16, FY 17 and FY 18) over budget authority. This BA-7 proposes to increase SGR to utilize the aforementioned revenues generated that exceed budget authority and decrease its IAT from the Office of Tourism utilizing LA Promotion District funds. This will result in no overall increase to this agency's budget.

Revenue

SGR historical budget authority, actual collections and over-collections:

	Budget Authority	Actual Collections	Collections over Budget
FY 16	\$502,845	\$693,883	\$191,038
FY 17	\$605,800	\$726,762	\$120,962
FY 18	\$875,800	\$1,031,061	\$155,261

The predominant revenue source used to support this request is from an admissions fee charged at the New Orleans Jazz Museum at the Old U.S. Mint. The agency began charging an admissions fee to visitors July 2017. During FY 18, the agency collected \$166,563. In the current fiscal year as of November 2018, the agency collected \$76,293. The agency anticipates meeting or exceeding the prior year collections of the admissions fee charged to visitors.

Expenditures

There is no change to the level of funding for expenditures. However, the expenditure categories identified by the agency that will be impacted by the means of finance substitution are salaries (\$75,000) and related benefits (\$75,000).

II. IMPACT ON FUTURE FISCAL YEARS

In accordance with LA Revised Statute 39:2(27) (see below) the revenue source from the admissions fee charged to visitors is recurring. The expenditures (salaries and related benefits) identified in the BA-7 are from a recurring source and the impact on future fiscal years would be impacted by any unanticipated changes to this revenue stream.

R.S. 39:2(27) - "Nonrecurring revenue" means revenue received by the state from a source identified by the Revenue Estimating Conference as being of a nonrecurring nature. "Nonrecurring revenue" does not include revenues received by the state from any source which has been available for the preceding two fiscal years or which will be available for the succeeding two fiscal years.

The purpose of this BA-7 request is to increase the Fees & Self-generated budget authority by \$2 M for the Department of Culture Recreation and Tourism, Office of Tourism. The revenue source is Louisiana Tourism Promotion District (LTPD). On June 26, 2018, the Revenue Estimating Conference (REC) Official Forecast increased the revenue forecast of LTPD by \$3 M, from \$26.2 M to \$29.2 M. This BA-7 requests \$2 M for expenditures outlined below.

NOTE: The revenue estimate recommendations presented by the state's economists to the REC on November 27th and December 10th, if adopted would have lowered the LTPD forecast by \$3 M (DOA) or \$6 M (LFO). While there is a potential that current year revenues may not fully cover the \$2 M in the BA-7 request, there is a sufficient fund balance to draw funds if the current revenue forecast is not realized.

REVENUE

LTPD was created as a special taxing district by Act 1038 of 1990 to promote and develop tourism in Louisiana. The District is a political subdivision of the state with the authority to levy and collect a 3/100 of 1% sales and use tax on retail sales of personal property and services subject to Revised Statute 47:331 (Imposition of Tax).

Historical Beginning Balances of LTPD

FY 19 beginning balance was \$9 M

FY 18 beginning balance was \$6.6 M (Currently recognized in June 26, 2018, REC Official Forecast)

FY 17 beginning balance was \$3.8 M

FY 16 beginning balance was \$3.9 M

FY 15 beginning balance was \$2.9 M

EXPENDITURES

The \$2 M increase provides for the following:

1) Welcome Center Upgrades - \$390,000 - provides for interactive kiosks and guest book, social media and video wall, platform (Content Management System) extensions and mobile apps for the Slidell, New Orleans and Mound locations. Currently one welcome center (Vinton) has these types of updates. This funding provides enhancements and upgrades at three (3) additional welcome centers to offer digital options to get information to visitors. NOTE: there are currently 10 welcome centers, including the Vinton welcome center that are open statewide.

2) International Marketing - \$770,000 - provides for increased marketing efforts in Canada, France, United Kingdom, Germany, China, and Japan through billboards, digital ads, video screens, print ads, tour operator coops, travel agent training, and taxi/bus wraps. This will occur through Brand USA, the commerce department's international tourism marketing agency, as well as the Louisiana Office of Tourism's official advertising agencies. Additional plans are to investigate entering the Australian market. In FY 18 the agency expended \$554,775 with Brand USA and in FY 17 \$245,225. In FY 19, the agency has approved two work orders that total \$887,000. Brand USA is a non-profit, private partnership dedicated to increasing inbound international travel to the United States. Established by the Travel Promotion Act of 2009 as the nation's first public-private partnership to spearhead a globally coordinated marketing effort to promote the United States as a premier travel destination and communicate U.S. entry policies.

December 13, 2018

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

- 3) Spring Advertising Campaign - \$600,000 - provides funding for advertising in existing and new markets with additional print and digital ad buys as well as cable. In the current budget, \$2.3 M is budgeted for the Spring Advertising Campaign. This will increase the budget to \$2.9 M. In FY 17 and FY 18 \$1.75 M was expended annually.
- 4) Clicktivated - \$90,000 - provides funding for a customized on-demand interactive video like a chef preparing a meal on LouisianaTravel.com that could provide the recipe or the restaurant. In FY 18, the agency tested this new technology at a cost of \$60,000 to evaluate its worth.
- 5) Pop-Up Kiosks - \$150,000 - provides for three (3) branded Louisiana pop-tents that will have digital assets to allow visitors to sign-up for the Louisiana Bayou Krewe program and LouisianaTravel.com newsletters. In FY 17 funding was provided for one Kiosk. The additional Kiosks will expand the agency's reach and brand awareness at promotional events.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have a negligible impact on future fiscal years that is primarily associated with the updates at the three (3) Welcome Centers for ongoing maintenance fees as a result of the technology updates. It is estimated to cost not more than \$15,000 to cover equipment failures, software updates, and other operational elements. While the agency plans a spring campaign each year, these requested funds are for designated one time expenditures.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Natural Resources

AGENDA NO.: 16

AGENCY: Office of Secretary

ANALYST: Willis Brewer

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive	\$3,000,000	0
Interagency Transfers:	\$0	Management & Finance	\$0	0
Self-Generated Revenue:	\$0	Technology Assessment	\$0	0
Statutory Dedications:	\$3,000,000	Atchafalaya Basin	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$3,000,000</u>	Total	<u>\$3,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA7 request is to provide \$3 M Statutory Dedications out of the Oilfield Site Restoration Fund to plug and abandon six (6) high priority wells and a potential four (4) emergency wells in FY 19. Department of Natural Resources (DNR) is currently budgeted to restore 178 orphaned well sites during FY 19 and 40 of these are identified as urgent and high priority.

Contracts include the following:

Poole Field (\$150,000) to plug one high priority well in Bossier Parish; Breton Sound (\$350,000) to plug one high priority well in Plaquemines Parish; Valentine Field (\$250,000) to plug one high priority well in Lafourche Parish; and South Timbalier Block 8 (\$1,250,000) to plug three high priority wells in Terrebonne Parish, remove the associated facilities, and restore the site. The final \$1 M in budget authority is for financial security and emergency funding for projects that may arise due to unforeseen events during the fiscal year that would require immediate attention. Based on an average cost to plug a well (\$250,000), these funds would be able to plug four high priority wells.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Executive

AGENDA NO.: 1

AGENCY: Department of Military Affairs

ANALYST: Ryan Guidry

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Military Affairs	\$25,053	1
Interagency Transfers:	\$0	Education	\$1,967,708	60
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$1,992,761			
Total	<u>\$1,992,761</u>	Total	<u>\$1,992,761</u>	<u>61</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal authority by \$1,967,708 and sixty (60) T.O. positions in the Education Program and to increase federal authority by \$25,053 and one (1) T.O. position in the Military Affairs Program for the creation of the Louisiana National Guard Job Challenge Program (JCP) at the Gillis W. Long Center in Carville, LA. This BA-7 request is for the 75% federally reimbursable cost share and would require an additional 25% state match (\$664,254 SGF). The agency has indicated that if the federal funding for this program were discontinued, both the program and the associated positions would be eliminated unless an alternate funding source was secured.

LA has been selected as a finalist by the National Guard Bureau (NGB) to receive 75% federal funding to operate a JCP, which will serve as an extension of the Youth Challenge Program (YCP). The Louisiana JCP will be a 5-month residential program designed to provide continued opportunities for academic preparation, apprenticeship opportunities, and vocational skill training in partnership with the LA Community & Technical College System (LCTCS) and private industry. Vocational training will include: welding, computer aided drafting, electrical, industrial maintenance, culinary arts, patient care technician, heating, ventilation and air conditioning, carpentry, pipe fitting, heavy equipment operator, and commercial drivers licensing (CDL).

Enrollment in JCP will be restricted to YCP graduates from all 3 LA programs who are between 17 and 19 years of age, have passed at least 40% of the High School Equivalency Test (HiSet), agree to remain drug free, and are eligible to work in LA. JCP will conduct two residential cycles each year with a target graduation rate of 75 cadets per cycle (150 cadets per year), with the inaugural JCP class beginning in July 2019.

Of the \$1,967,708 being requested in the Education Program, \$1.275 M has been allocated to JCP for start up funding from NGB to prepare the facility, establish initial purchases and contracts, and to begin hiring and training staff. Beginning in October 2018, JCP will hire 17 of the 61 positions and begin renovating facilities, installing security cameras, purchasing furniture, classroom and cadet supplies, and establishing fixed operational costs. Total start up funding for this program is \$1.7 M (\$1.275 M Federal, \$425,000 SGF).

On 4/1/2019, the JCP Program will receive an annual federal appropriation of \$2,812,500 (program year April 1, 2019, through March 31, 2020). The remaining \$692,708 being requested (\$1,967,708- \$1,275,000) represents 25% of the total annual allocation for expenditures in April 2019 through June 2019 to align with the state fiscal year. Beginning April 2019, JCP will hire the remaining 44 positions for training and prepare for the inaugural class beginning June 2019.

A breakout of the requested positions in the Education Program is provided below:

9	Administrative (Director, Deputy Director, managers, and (3) administrative specialists)
2	Counselors
3	Instructors
2	Placement Coordinators
34	Cadre (Commandant, Asst. Commandant, Shift Supervisors, and Team Leaders)
2	Medical (RN and LPN)
5	Dining Facility (Shift Supervisor and 4 cooks)
3	Logistic/Maintenance
60	Total

October 19, 2018

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Additionally, this BA-7 request includes \$25,053 Federal authority and adds one (1) T.O. position (Administrative Specialist) in the Military Affairs Program, which is responsible for the human resource functions for the Education program. Approval of this BA-7 request would result in a 15% increase in staffing levels for the Education Program. This position would be responsible for the human resources workload increase associated with JCP and would be 100% federal reimbursable through the JCP cooperative agreement.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will require annualization of expenditures in subsequent fiscal years for a total of \$3.75 M per fiscal year, including \$937,500 SGF and \$2,812,500 Federal.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office (LFO) does not have a recommendation on this BA-7 request.

The proposed BA-7 request does not include \$664,254 state matching funds (assumed to be SGF) required as a 25% match to the available federal funds. The Department of Military Affairs (DMA) does not have sufficient funding to absorb these new costs. If the JLCB chooses to approve the BA-7, DMA will require an FY 19 supplemental appropriation to both its operating and capital outlay budgets. Of the \$1.7 M (\$1.275 M Federal, \$425,000 SGF) start up funding for JCP, \$802,836 (\$602,127 Federal, \$200,709 SGF) has been identified as facility renovations that the department could undertake with existing capital outlay funds reserved for backlog of maintenance and repair. DMA would delay planned capitol projects at various facilities and readiness centers across the state to address the JCP facility renovations until a supplemental appropriation could be made. The remaining \$463,545 SGF match would be temporarily absorbed in the Education program operating budget by delaying various expenditure requirements for the Youth Challenge Programs until a supplemental appropriation could be made. If this plan is approved, this BA-7 request should be reduced to \$1,390,634 Federal to reflect projected FY 19 operating budget expenditures. This revision reduces the original request by \$602,127 for the facility renovation expenditures and assumes that those will be expended out of the agency's capital outlay funds (to later be replenished through supplemental appropriation).

The LFO will continue to analyze information that has been provided and any additional information that may be received. The LFO will report any pertinent information to the committee.

DEPARTMENT: Health

AGENDA NO.: 2A

AGENCY: Behavioral Health

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$0	Behavioral Health Community	\$1,809,768	0
Self-Generated Revenue:	\$0	Hospital Based Treatment	\$0	0
Statutory Dedications:	\$0	Auxiliary Account	\$0	0
Federal Funds:	\$1,809,768			
Total	<u>\$1,809,768</u>	Total	<u>\$1,809,768</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal funds budget authority for the LA Dept. of Health, Office of Behavioral Health (OBH) by \$1,809,768. The source of the funds is a grant from the federal Substance Abuse and Mental Health Services Administration (SAMHSA). OBH will use the grant funds to implement the Louisiana Partnerships for Success II (LaPFS II) program, a program designed to address underage drinking behaviors, consequences, and risk factors among persons aged 9-20. The grant term is 9/30/2018 - 9/29/2023 with a total award of \$11,300,000. There is no state match associated with this grant.

OBH will pass through \$1 M of the grant to 7 Human Services Authorities/Districts to assist in implementing LaPFS II in the 10 parishes of highest need as determined by the department (Avoyelles, Evangeline, Franklin, Jefferson Davis, Ouachita, Sabine, St. Helena, St. Landry, Tangipahoa, and West Feliciana). Each of the 7 Human Services Authorities/Districts receiving funds has an accompanying BA-7 request comprised in whole or in part of funds associated with implementing LaPFS II. OBH reports that authorities/districts receiving funds will use them to hire 1-2 coalition coordinators each via contract, job appointment, or by hiring a WAE position that will be tasked with creating partnerships with local stakeholders to address underage drinking in the 10 aforementioned parishes. Disbursements to the authorities/districts include funding for coordinator compensation, supplies (laptops, printers, office supplies, etc.), training, and travel.

Each of the authorities and districts, as well as the associated passthrough funding they are receiving, are as follows: Acadiana Area Human Services District - \$200,000; Imperial Calcasieu Human Services Authority - \$100,000; Central LA Human Services Authority - \$100,000; Northwest LA Human Services Authority - \$100,000; Florida Parishes Human Services Authority - \$200,000; Capital Area Human Services District - \$100,000; Northeast Delta Human Services Authority - \$200,000. LDH reports that the same authorities and districts will receive funding for the duration of the grant.

OBH will utilize the balance of the grant funding, \$809,768 in FY 19, to fund a number of contracts with governmental and non-governmental entities as follows:

- 1.) LA Dept. of Revenue (LDR) - \$217,000: Funding for a contract with the LDR, Office of Alcohol and Tobacco Control (ATC) to conduct alcohol compliance checks in each of the 10 identified parishes, as well as producing reports on outcomes and dispositions of violations.
- 2.) Louisiana State University (LSU) - \$297,878: Funding for a contract with LSU to provide program evaluation for LaPFS II, including data collection, analysis, and reporting.
- 3.) State Epidemiology Workgroup - \$131,490: Funding for a contract with the Office of the Governor's Drug Policy Board, State Epidemiology Workgroup (SEW) to serve as the lead policy analyst and develop strategies for promoting the use and understanding of collected data for implementing and evaluating LaPFS II strategies at the the local level. OBH reports that the SEW will collaborate with stakeholders to use data to guide decision-making.
- 4.) Website Development - \$64,000: Funding for an undetermined contractor to develop an LaPFS II website, which will serve as the project portal.
- 5.) Governor's Office of Community Programs - \$99,400: Resources for a systems coordinator to serve as liaison between OBH and the Office of the Governor, as well as build partnerships between state and local stakeholders. OBH will transfer the funds to the Office of Community Programs via IAT.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 is anticipated to be annualized in FY 20. The grant term allows for expenditure of the \$11.3 M in funds from 9/30/2018 (FY 19) to 9/29/2023 (1st quarter of FY 24). Based upon the reported schedule in the BA-7 request, OBH will expend approximately \$1.81 M in FY 19, \$2.26 M in FYs 20-23, and will have a balance of \$450,232 in the first quarter of FY 24. Due to the grant term, all funds must be expended by 9/29/2023.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$0			
Total	<u>\$200,000</u>	Total	<u>\$200,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This request is a companion to BA-7 #2A. The purpose of this BA-7 request is to increase IAT authority for the Acadiana Area Human Services District (AAHSD) by \$200,000. The source of the IAT is a federal grant from the Substance Abuse and Mental Health Services Administration used to implement the LA Partnerships for Success II (LaPFS II), a program designed to address underage drinking behaviors, consequences, and risk factors among persons aged 9-20.

The AAHSD will use the IAT resources to contract with two persons to serve as coalition coordinators to implement LaPFS II in the parishes of need identified in its service area (Evangeline and St. Landry). The coordinators will partner the AAHSD with local prevention stakeholders to develop a parish-level substance abuse prevention coalition. Included in the funds for AAHSD are resources for professional services contracts for the coalition coordinators (\$143,305), supplies (\$29,180), travel (\$3,913), operating services (\$2,174), and a \$21,428 administrative fee totaling 10.7% of the grant appropriation. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 is anticipated to be annualized in FY 20. The grant term allows for expenditure of the LaPFS II funds from 9/30/2018 (FY 19) to 9/29/2023 (1st quarter of FY 24). OBH reports that the same authorities/districts receiving resources through this grouping of BA-7 requests will receive IAT resources from the LaPFS II resources during the grant term. Therefore, this BA-7 request will affect the AAHSD's budget through the first quarter of FY 24.

I. SUMMARY/COMMENTS

This request is a companion to BA-7 #2A. The purpose of this BA-7 request is to increase IAT authority for the Imperial Calcasieu Human Services Authority (ICHSA) by \$100,000. The source of the IAT is a federal grant from the Substance Abuse and Mental Health Services Administration used to implement the LA Partnerships for Success II (LaPFS II), a program designed to address underage drinking behaviors, consequences, and risk factors among persons aged 9-20.

The ICHSA will use the IAT resources to hire a WAE coalition coordinator to implement LaPFS II in the parish of need identified in its service area (Jefferson Davis). The coordinator will partner the ICHSA with local prevention stakeholders to develop a parish-level substance abuse prevention coalition. Included in the funds for ICHSA are resources for coordinator compensation (\$36,931 salary, \$13,050 related benefits), supplies (\$3,819), computers and associated equipment (\$4,200), training and evaluation (\$11,000), operating services (\$3,500), and travel (\$15,500). The ICHSA will also retain \$12,000, totaling 12% of the grant funding, to perform any administrative tasks associated with implementing LaPFS II. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 is anticipated to be annualized in FY 20. The grant term allows for expenditure of the LaPFS II funds from 9/30/2018 (FY 19) to 9/29/2023 (1st quarter of FY 24). Federal Funds:	\$1,172,804			
Total	<u>\$1,172,804</u>	Total	<u>\$1,172,804</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal funds budget authority for the LA Dept. of Health, Office of Behavioral Health (OBH) by \$1,172,804. The source of the funds is a grant from the federal Substance Abuse and Mental Health Services Administration (SAMHSA). OBH will use the grant funds to implement SAMHSA's Promoting Integration of Primary and Behavioral Health Care (PIPBHC) program, a program designed to promote integration and collaboration in clinical practice between primary and behavioral health care providers for persons with serious mental illness, substance use disorders, chronic physical health conditions, and/or chronic diseases. The grant term is 9/30/2018 - 9/29/2023 with a total award of \$10,000,000. There is no state match associated with this grant.

OBH will utilize a majority of the grant funding, \$1,112,083, to fund the integration of primary care and behavioral health care services at the local level via passthroughs to the Capital Area Human Services District and the Northeast Delta Human Services Authority, as well funding contracts with three entities which are outlined below. Furthermore, OBH reports that entities receiving funds through this grant will receive them for the duration of the grant's term.

1.) Capital Area Human Services District (CAHSD) - \$280,774: Proposed project will utilize staff from the Open Health Care Clinic FQHC to provide on-site co-located primary care services at the CAHSD Center for Adult Behavioral Health and Addiction Recovery Services in addition to outpatient behavioral health services provided by the CAHSD. Anticipated primary care offerings include preventative screening, referral, assessment, diagnosis, treatment, and follow-up. Furthermore, the CAHSD proposes expanding existing services such as tobacco cessation, nurse-led health education, and the peer-led whole health self-management program. The funds will be disbursed to CAHSD via IAT.

2.) Northeast Delta Human Services Authority (NEDHSA) - \$250,959: Proposed project will utilize the resources to fund additional primary care services in the Bastrop and Tallulah service areas for adults with mental illness that also have co-occurring physical conditions or chronic diseases, as well as for adults with substance use disorders. Primary care services will consist of screening and assessment for chronic illnesses such as diabetes, hypertension/high blood pressure, asthma, and high cholesterol. NEDHSA's nurse care coordinator will refer screened individuals to primary care partners as necessary.

3.) Start Corporation - \$262,502: A contract for the Start Corporation, a 501(c)(3) non-profit organization whose services include behavioral health services,, to partner with the Teche Action Clinic FQHC to integrate primary and behavioral health care services for clients. Start Corporation and the Teche Action Clinic intend to use these funds to expand mental health treatment, substance abuse treatment, recovery support, specialty care linkages, dental care, and integrated treatment planning.

4.) Daughters of Charity Health Centers (DCHC) - \$262,500: A contract with the DCHC, a nonprofit primary health care provider in the Greater New Orleans area, to enhance its capacity to provide psychiatric services; provide behavioral health counseling, treatment, and case management services; and enhance current primary and behavioral care integration. Furthermore, another goal of the contract is to develop a fully integrated primary and behavioral health care system with the Metropolitan Human Services District, with whom the DCHC is already partnered.

5.) LA Public Health Institute (LPHI) - \$55,348: A contract to provide performance assessment, monitoring, and evaluation services for OBH over the duration of the PIPBHC project.

OBH will utilize the balance of the grant, \$60,721, to support a program manager for the PIPBHC project. OBH will fill a currently vacant non-T.O. FTE position to serve as the program manager. The program manager will be tasked with attending meetings, training events, and the beginning of project activities at provider locations, as well as monitoring providers

Approved By JLCB

throughout the life of the program. The breakdown of expenditures supporting the program manager position are as follows: wages - \$35,523; related benefits - \$17,308; in-state travel - \$4,590; general supplies - \$700; Office of Technology Services (laptop computer, docking station, monitors, etc.) - \$2,600.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request is anticipated to be annualized in FY 20. The grant term allows for expenditure of the \$10 M in funds from 9/30/2018 (FY 19) to 9/29/2023 (1st quarter of FY 24). Based upon the reported schedule in BA-7 request, OBH will expend approximately \$1.17 M in FY 19, \$2 M in FYs 20-23, and will have a balance of \$827,196 in the first quarter of FY 24. Due to the grant term, all funds must be expended by 9/29/2023.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$3,749,879			
Total	<u>\$3,749,879</u>	Total	<u>\$3,749,879</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal funds budget authority for the LA Dept. of Health, Office of Behavioral Health (OBH) by \$3,749,879. The source of the funds is a portion of a grant awarded by the federal Substance Abuse and Mental Health Services Administration (SAMHSA) during State Fiscal Year (SFY) 17. OBH was unable to expend the portion of the grant allocated for Federal Fiscal Year (FFY) 18 due to program startup efforts taking longer than anticipated. Furthermore, OBH required approval from SAMHSA to utilize the balance of its grant resources remaining from FFY 18 in FFY 19. OBH received such approval from SAMHSA on September 7, 2018, but does not have sufficient budget authority to expend the grant funds in SFY 19, necessitating this BA-7 request. The grant funds will be used to implement Louisiana's Opioid State Targeted Response (STR) to further implement the program. The grant term is 5/1/2017 to 4/30/2019. There is no state match associated with this grant.

A majority of the grant resources totaling \$2,775,653 are associated with 12 professional services contracts with non-governmental providers used to implement the STR program statewide. A majority of these contracts are with providers to enhance services associated with combating opioid use. OBH reports that contractors are using these resources to sustain current patients, increase capacity to take on additional patients, provide transportation services for patients, fund additional case management personnel to align with patient volumes, purchase and distribute additional naloxone kits, and increase patient capacity for medication-assisted therapy (MAT). Furthermore, included in these contracts is funding for training for providers, patients, and the general public. The following paragraph breaks out the spending by contract.

The contract amounts are as follows: Behavioral Health Group (BHG) - New Orleans Treatment Center - \$794,945; various statewide training for providers and the general public (Peer Employment Training, Wellness Recovery Action Plans, Whole Health Training, Peer Support Supervisory Training, Generation Rx) - \$504,020; Baton Rouge Comprehensive Treatment Center - \$350,053; Center for Behavioral Health - Shreveport - \$320,606; Family Success - Bossier City - \$179,200; Women's Foundation - \$129,000; Community Anti-Drug Coalitions of America - \$127,643; Behavioral Health Group - Lake Charles - \$126,298; Center for Behavioral Health - Monroe - \$116,589; LSU Health Sciences Center - \$72,000; Baymark Health Services - Breaux Bridge - \$31,539; Opioid Treatment Programs - \$23,760.

Additionally, grant funds will be disbursed to governmental entities via IAT as follows:

1.) Capital Area Human Services District (CAHSD) - \$84,953: Funding for individual and group counseling services provided by a licensed mental health professional (\$62,313 estimated salary and related benefits), as well as bus passes for an anticipated 100 patients and sober supports (family members, friends, loved ones, etc.) to attend treatment groups, individual sessions, peer support, and other recovery support services (\$5,850). Lastly, CAHSD will use funds for an inpatient opioid withdrawal protocol for individuals with opioid use disorders that do not have insurance (\$3,200), as well as provide opioid-related training to providers and patients (\$4,488). The balance of the grant funding, \$9,102 (10.7% of the grant award), represents an administrative fee that will be used to defray any administrative costs associated with implementing the STR program. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

2.) Florida Parishes Human Services Authority (FPHSA) - \$150,867: Funding to provide biweekly support groups for survivors of opioid use disorders, as well as for loved ones of individuals who have passed away from opioid overdoses (\$11,520). Furthermore, FPHSA will provide transportation for 250 individuals for treatment (\$12,500), as well as provide peer recovery

October 19, 2018

ANALYSIS OF BA-7 REQUEST
Approved By JLCB

support specialists at four clinics in its service area to engage opioid use disorder patients with salaries and related benefits for the 4 specialists totaling \$106,683. Furthermore, FPHSA is allocating \$4,000 in travel for the peer recovery support specialists. Lastly, the FPHSA will use the remaining balance (\$16,164, or 10.7% of the grant award) to fund any administrative costs it may incur while implementing the STR program. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

3.) Northeast Delta Human Services Authority (NEDHSA) - \$92,948: Funding to provide one peer recovery support specialist (\$17,500 salary, \$8,654 related benefits) and one grief counselor (\$30,000 salary, \$14,835 related benefits). The grief counselor will provide services and support to families of persons who have lost family members or loved ones to opioid use disorders and overdose survivors. The peer recovery support specialist will provide outreach and support services. The balance of the grant funding will be used for travel (\$12,000) and administrative fees (\$9,959, or 10.7% of the grant award). For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

4.) South Central LA Human Services Authority (SCLHSA) - \$75,988: Funding to provide for one peer recovery support specialist for the River Parishes Behavioral Health Center in LaPlace (\$46,154), as well as a part-time physician to provide medication-assisted therapy (MAT) for pregnant women (\$19,692), travel (\$2,000), and a grant management fee of \$8,142 that totals 10.7% of the grant appropriation. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

5.) Dept. of Corrections - \$412,040: Additional funding for treatment services for up to 300 individuals with opioid use disorder in Dept. of Corrections facilities.

Lastly, the remainder of this BA-7 request includes \$144,000 to purchase naloxone kits for opioid use disorder patients located in residential treatment facilities and for use by Louisiana State Police, \$8,430 in travel expenses for three staff members to attend the Community Anti-Drug Coalitions of America National Leadership Forum, and \$5,000 for training materials for peer recovery support specialists and their supervisors working at 10 Opioid Treatment Providers.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The grant associated with these funds terminates in FY 19.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This request is a companion to BA-7s #2A and #3. The purpose of this BA-7 request is to increase IAT budget authority for the Florida Parishes Human Services Authority (FPHSA) by \$350,867. The source of the funds is an interagency transfer of portions of grants awarded by the federal Substance Abuse and Mental Health Services Administration (SAMHSA) to the Office of Behavioral Health (OBH). The grant funds are to implement Louisiana's Partnerships for Success II (LaPFS II) program, a program designed to address underage drinking behaviors, consequences, and risk factors among persons aged 9-20, and the Opioid State Targeted Response (STR) program. Outlined below is how the FPHSA will use the funds by source.

LaPFS II Funding - \$200,000

The FPHSA will use the IAT resources to contract with two persons to serve as coalition coordinators to implement LaPFS II in the parishes of need identified in its service area (Tangipahoa and St. Helena). The coordinators will partner the FPHSA with local prevention stakeholders to develop a parish-level substance abuse prevention coalition. Estimated costs for the two contract positions are as follows: salaries and related benefits - \$165,520 (\$82,760 per position); travel - \$4,080; computers and printers - \$4,000; and supplies - \$2,400. Furthermore, LDH anticipates FPHSA to allocate 12% of grant funding (\$24,000) to defray administrative costs associated with grant implementation by retaining a 3% (\$6,000) and passing the remaining 9% (\$18,000) through to the contractor. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

STR Funding - \$150,867

Funding to provide biweekly support groups for survivors of opioid use disorders, as well as for loved ones of individuals who have passed away from opioid overdoses (\$11,520). Furthermore, FPHSA will provide transportation for 250 individuals for treatment (\$12,500), as well as provide peer recovery support specialists at four clinics in its service area to engage opioid use disorder patients with salaries and related benefits for the 4 specialists totaling \$106,683. Furthermore, FPHSA is allocating \$4,000 in travel for the peer recovery support specialists. Lastly, the FPHSA will use the remaining balance (\$16,164, approximately 10.7% of the grant appropriation) to fund any administrative costs it may incur while implementing the STR program. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

II. IMPACT ON FUTURE FISCAL YEARS

A portion of this BA-7 is anticipated to be annualized in FY 20. The grant term allows for expenditure of the LaPFS II funds from 9/30/2018 (FY 19) to 9/29/2023 (1st quarter of FY 24). OBH reports that the same authorities/districts receiving resources through this grouping of BA-7 requests will receive IAT resources from the LaPFS II resources during the grant term. Therefore, this BA-7 request will affect the FPHSA's budget through the first quarter of FY 24.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This request is a companion to BA-7s #2A, #3, and #4A. The purpose of this BA-7 request is to increase IAT budget authority for the Capital Area Human Services District (CAHSD) by \$465,727. The source of the funds is an interagency transfer of portions of grants awarded by the federal Substance Abuse and Mental Health Services Administration (SAMHSA) to the Office of Behavioral Health (OBH). The grant funds are to implement Louisiana's Promoting Integration of Primary and Behavioral Health Care (PIPBHC) program, a program designed to promote integration and collaboration in clinical practice between primary and behavioral health care providers for persons with serious mental illness, substance use disorders, chronic physical health conditions, and/or chronic diseases. Furthermore, funds from grant awards to implement the Louisiana Partnerships for Success II (LaPFS II) program, a program designed to address underage drinking behaviors, consequences, and risk factors among persons aged 9-20, and the Opioid State Targeted Response (STR) program are included in this BA-7 request. Outlined below is how the CAHSD will use the funds by source.

PIPBHC Program Funding - \$280,774

Project will utilize staff from the the Open Health Care Clinic FQHC to provide on-site co-located primary care services at the CAHSD Center for Adult Behavioral Health and Addiction Recovery Services in addition to outpatient behavioral health services provided by the CAHSD. Anticipated primary care offerings include preventative screening, referral, assessment, diagnosis, treatment, and follow-up. Furthermore, the CAHSD proposes expanding existing services such as tobacco cessation, nurse-led health education, and the peer-led whole health self-management program. The funds will be disbursed to CAHSD via IAT.

LaPFS II Program Funding - \$100,000

The CAHSD will use the IAT resources to contract with an individual to serve as a coalition coordinator to implement LaPFS II in the parish of need identified in its service area (West Feliciana). The coordinator will partner the CAHSD with local prevention stakeholders to develop a parish-level substance abuse prevention coalition. Estimated expenditures for the coalition coordinator are as follows: salary and related benefits - \$94,760; travel - \$2,040; computer and printer - \$2,000; and supplies - \$1,200.

STR Program Funding - \$84,953

Funding for individual and group counseling services provided by a licensed mental health professional (\$62,313 estimated salary and related benefits), as well as bus passes for an anticipated 100 patients and sober supports (family members, friends, loved ones, etc.) to attend treatment groups, individual sessions, peer support, and other recovery support services (\$5,850). Lastly, CAHSD will use funds for an inpatient opioid withdrawal protocol for individuals with opioid use disorders that do not have insurance (\$3,200), as well as provide opioid-related training to providers and patients (\$4,488). The balance of the grant funding, \$9,102, represents a 10.7% administrative fee that will be used to defray any administrative costs associated with implementing the STR program. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

I. SUMMARY/COMMENTS

This request is a companion to BA-7s #2A, #3, and #4A. The purpose of this BA-7 request is to increase IAT budget authority for the Northeast Delta Human Services Authority (NEDHSA) by \$543,907. The source of the funds is an interagency transfer of portions of grants awarded by the federal Substance Abuse and Mental Health Services Administration (SAMHSA) to the Office of Behavioral Health (OBH). The grant funds are to implement Louisiana's Promoting Integration of Primary and Behavioral Health Care (PIPBHC) program, a program designed to promote integration and collaboration in clinical practice between primary and behavioral health care providers for persons with serious mental illness, substance use disorders, chronic physical health conditions, and/or chronic diseases. Furthermore, funds from grant awards to implement the Louisiana Partnerships for Success II (LaPFS II) program, a program designed to address underage drinking behaviors, consequences, and risk factors among persons aged 9-20, and the Opioid State Targeted Response (STR) program are included in this BA-7 request. Outlined below is how the NEDHSA will use the funds by source.

PIPBHC Program Funding - \$250,959

Project will utilize the resources to fund additional primary care services in the Bastrop and Tallulah service areas for adults with mental illness that also have co-occurring physical conditions or chronic diseases, as well as for adults with substance use disorders. Primary care services will consist of screening and assessment by for chronic illnesses such as diabetes, hypertension/high blood pressure, asthma, and high cholesterol. NEDHSA's nurse care coordinator will refer screened individuals to primary care partners as necessary.

LaPFS II Program Funding - \$200,000

The NEDHSA will use the IAT resources to contract with two individuals to serve as a coalition coordinators to implement LaPFS II in the parishes of need identified in its service area (Franklin and Ouachita). The coordinators will partner the NEDHSA with local prevention stakeholders to develop a parish-level substance abuse prevention coalition. Estimated expenditures for the two contract positions are as follows: salary and related benefits - \$104,000 (\$52,000 per position); travel and training - \$28,500; supplies - \$13,052; operating services - \$31,271; professional services - \$5,000; and a 9.1% administrative fee totaling \$18,177. For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

STR Program Funding - \$92,948

Funding to provide one peer recovery support specialist (\$17,500 salary, \$8,654 related benefits) and one grief counselor (\$30,000 salary, \$14,835 related benefits). The grief counselor will provide services and support to families of persons who have lost family members or loved ones to opioid use disorders and overdose survivors. The peer recovery support specialist will provide outreach and support services. The balance of the grant funding will be used for travel (\$12,000) and a 10.7% administrative fees (\$9,959). For reference, local governmental entities are allowed to retain up to 12% of grant funds to defray any administrative costs associated with grant implementation.

Statutory Dedications:	\$0			
Federal Funds:	\$64,897			
Total	<u>\$64,897</u>	Total	<u>\$64,897</u>	<u>1</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal authority and one (1) T.O. position in the Military Affairs Program to begin implementation of the Louisiana Army National Guard (LANG) Integrated Solid Waste Management Program (ISWMP) and the Qualified Recycling Program (QRP). These programs are part of the Adjutant General's established goals for better environmental stewardship and management of resources. Expenditures for these programs would be 100% federally reimbursable through an existing cooperative agreement.

This request would allow for the hiring of one (1) Solid Waste Program Manager within the LANG Construction & Facilities Management Office (CFMO), which would be responsible for the development and implementation of the LANG ISWMP and QRP. The goal of these programs would be to reduce the volume of solid waste requiring disposal while generating additional revenue through the sale of recyclable material such as brass, cardboard, paper, and plastics. Recyclable materials would be collected from the three (3) training centers, range complexes, maintenance shops, and other LANG facilities.

The agency anticipates filling this position in October 2018 with the start of the federal fiscal year. The amount of this BA-7 request reflects funding for 9 months, with annualization of these expenditures in subsequent fiscal years. A breakout of expenditures by fiscal year and category is provided below:

<u>FY 19</u>	<u>FY 20</u>	
\$34,486	\$47,820	Salaries
\$18,211	\$25,005	Related Benefits
\$9,000	\$12,000	Travel
<u>\$3,200</u>	<u>\$3,200</u>	Operating Services, Supplies, and IAT
\$64,897	\$88,025	Total

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request reflects nine (9) months of expenditures associated with the requested position. Annualization of this BA-7 request for FY 20 will result in an additional \$23,128 for salary, related benefits, and associated travel.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0	State Approval Agency	\$0	0
Federal Funds:	\$0	State Veterans Cemetery	\$0	0
Total	<u>\$40,000</u>	Total	<u>\$40,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR authority in the Louisiana Department of Veterans Affairs (LDVA) Contact Assistance Program to purchase the VetraSpec electronic claims management system. The source of SGR is local funds collected in support of parish and consolidated service offices statewide. For FY 19, LDVA has an SGR balance of \$181,306 of which \$40,000 will be utilized to support this request. In subsequent fiscal years, LDVA will bill parishes for the cost of this software.

The U.S. Department of Veterans Affairs (VA) is converting its system to collect veterans' claims electronically, and VetraSpec is a secure, web-based application that is approved by the VA to serve as an electronic claims management system. Currently, LDVA submits veterans' claims via mail and fax to a central processing office where these claims are manually sorted, scanned, and input into the VA's system. For informational purposes, LDVA processed 153,452 claims in FY 17.

With this request, LDVA would enter into a 3-year contract with VetraSpec to develop a state database, create LDVA specific forms, and provide video-based training. The contract would also include annual, per-user license fees for access to the VetraSpec software for the electronic submission of veterans' claims to the VA. LDVA anticipates that implementation of this software will result in expedited claims resolution and reduced claims loss/errors. The total contract amount would be for no more than \$120,000, with the \$40,000 in this request reflecting the anticipated expenditure total for FY 19.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will result in a \$40,000 SGR increase in subsequent fiscal years. The initial contract would extend into FY 20 and FY 21 at \$40,000 per year. Beginning in FY 20, the additional SGR would be collected from the parishes as support for the parish and consolidated service offices.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

CF 10	06 - 261 Culture, Recreation & Tourism Office of the Secretary	<p>The purpose of this BA-7 request is to carry forward SGR funding for the LA Seafood Promotion & Marketing Board (LSPMB). The source of the SGR is British Petroleum (BP) Funds. LSPMB was awarded a total of \$487,720 between FY 14 and FY 18. Of that amount, a total of \$443,264 was expended and \$29,268 was eliminated as a result of mid-year budget cuts in prior fiscal years (FY 15 and FY 16). The remaining balance is \$15,188. Approval of this carry forward request of \$15,188 would allow the Board to continue promoting LA seafood in various markets. The funds donated to LSPMB were donated with the specific intent to promote LA seafood after the BP oil spill.</p> <p>Grant Award Information From BP Oil Spill Original Grant Award of \$200,000 in FY 14 Additional Grant Funding of \$37,720 in FY 16 Additional Grant Funding of \$100,000 in FY 17 Additional Grant Funding of \$150,000 in FY 18 Total Grant Amount (since inception) = \$487,720</p> <p>Mid-Year Cut Reductions FY 15 = \$17,500</p>	\$0	\$0	\$15,188	\$0	\$0	\$0	\$15,188

CF 11	06 - 265 Culture, Recreation & Tourism Cultural Development	<p>The purpose of the BA-7 request is to carry forward SGF for the Office of Cultural Development (OCD) associated with two (2) grants that were awarded during FY 18. The first award was to Texas A&M University (TAMU) for the conservation endeavor associated with the Red River Dugout Canoe Project. The second award was to National Main Street (NMS) to provide training and technical assistance to Main Street programs in LA.</p> <p>Red River Dugout Canoe Project - \$86,111 (SGF) TAMU is to provide restoration and stabilization services for a historic artifact, namely a 33.5-foot long canoe recovered from the banks of the Red River near Shreveport, LA. The amount of the grant award was \$156,571 and there is a remaining balance of \$86,111. The agreement terms began 6/1/18 and shall terminate 5/31/21.</p> <p>Main Street Programs in Louisiana - \$25,000 (SGF) NMS is to provide professional and technical assistance to LA Main Street staff and to assist with the implementation of specific programs to establish “main street” communities in LA by planning, organizing, and facilitating a two-day Transformation Strategy Workshop. The terms of the agreement require NMS to plan, organize, and facilitate two (2) quarterly meetings for State, Contractor, and attendees to share real world experiences, new and/or common solutions, and techniques to help position local Main Street Programs and communities to thrive. The agreement also requires NMS to plan, organize and facilitate a Main Street University training focused on new executive directors and highlight the critical issues they will encounter on the job. The amount of the award</p>	\$111,111	\$0	\$0	\$0	\$0	\$0	\$111,111

		was \$25,000. The agreement terms began 1/1/18, and shall terminate 12/31/18.							
CF 12	06 - 267 Culture, Recreation & Tourism Tourism	<p>The purpose of this BA-7 request is to carry forward SGR funding in the Marketing Program (\$98,112) and the Welcome Centers Program (\$81,735) from FY 18 into FY 19 to pay bona fide expenditure obligations that were not liquidated prior to the close of the fiscal year. The SGR is generated through sales and use tax per R.S. 51:1286 that, <i>“provides funds for the purpose of assisting the state in the promotion of tourism.”</i></p> <p>The Marketing Program has the following bona fide obligation:</p> <p><u>Essence Festivals Productions, LLC</u> – <i>Essence Festival Productions, LLC.</i> \$98,112 (SGR) – provides operating assistance to the Essence Music Festival. Since the festival is held over multiple days around the 4th of July holiday, the final report and deliverables are not available by June 30th. Per the terms of the cooperative endeavor agreement (CEA) between Culture, Recreation & Tourism (CRT) and Essence Festival Productions, LLC, a state’s right fee of \$98,112 is retained and subject to CRT’s timely receipt of Essence’s Final Report. The CEA between CRT and Essence includes the 2018 Essence Music Festival dates of July 6th, 7th and 8th with the terms of the CEA from 10/1/17, through 9/30/18, for which obligations and benefits are contingent upon the annual appropriation of funds by the Legislature to fulfill the requirements set forth in the agreement. The FY 18 budget allocation was \$500,000. Of that amount, \$401,888 was expended for advertisements with the remaining amount of \$98,112 to be paid upon obtaining the final report.</p> <p>Recent funding support for Essence is reflected below by fiscal year. The revenue source for each year was SGR from Tourism District funding: FY 12 through FY 16: \$948,112 FY 17 and FY 18: \$500,000</p> <p>The Welcome Centers Program has the following bona fide obligations:</p> <p><u>Atchafalaya Welcome Center</u> – <i>The Belltech Group, Inc.</i> \$69,900 (SGR) provides funding for purchase and installation of four custom metal, energy-efficient double doors to replace wooden ones. The wood doors have rotted and are unable to be painted/repaired. The purchase order issue date was 5/21/18. The deliverables of the contract were not completed by June 30th.</p>	\$0	\$0	\$179,847	\$0	\$0	\$0	\$179,847

		\$474,145							
		Pennington Biomedical Research Foundation obligation: \$1,000,000							
		FY 18 supplemental funding for collaboration between LDH and Pennington to develop a model for medical management delivery for Type 2 diabetes.							
CF 30	09 - 309 Health South Central LA Human Services Authority	<p>The purpose of this BA-7 request is to carry forward \$149,930 SGF from FY 18 to FY 19 for the LA Dept. of Health, South Central LA Human Services Authority (SCLHSA). The SGF resources being carried forward are associated with a contract to construct an addition to the Lafourche Behavioral Health Clinic (LBHC) consisting of six (6) offices and a conference room. Furthermore, the contract includes construction for an additional wall to separate the LBHC’s kitchen area from its dining area and workspaces, as well as any necessary debris removal. For reference, LBHC staff currently share offices and use the building kitchen as a conference room.</p> <p>The SCLHSA contracted with J.E. Boudreaux Services, Inc., on 6/12/18, to perform the construction with a contract that terminates upon completion of the project. The contract has a total value of \$149,930. Construction on the building addition was not completed prior to 6/30/18, due to weather delays, requiring the funds associated with the contract to be carried forward from FY 18 to FY 19. SCLHSA staff anticipate the construction to be completed in late September or early October.</p>	\$149,930	\$0	\$0	\$0	\$0	\$0	\$149,930

CF 31	09 - 310 Health Northeast Delta Human Services Authority	<p>The purpose of this BA-7 request is to carry forward \$195,843 in SGF for the Northeast Delta Human Services Authority (NEDHSA) from FY 18 to FY 19. The resources being carried forward are for acquisitions and construction and maintenance projects for NEDHSA facilities. Outlined below are the resources being carried forward for major acquisitions and construction projects within for NEDHSA.</p> <p><i>Acquisitions</i></p> <p>1) Gerry Lane Chevrolet (\$66,087 SGF) - Purchase of three Chevrolet Equinox vehicles associated with a purchase order dated 3/29/2018. NEDHSA anticipated that the vehicles would be delivered by mid-June 2018, but on 6/19/18 the dealer notified NEDHSA that the vehicles would be ready for pickup on 7/3/18. The vehicles are currently at the dealership and NEDHSA is awaiting final invoice. These are replacements for current vehicles with mileages in excess of 100,000.</p> <p>2) Courtesy of Acadiana (\$22,577 SGF) - Purchase of one Dodge Caravan associated with a purchase order dated 4/16/18. NEDHSA anticipated that the vehicles would be delivered by mid-June 2018, but on 6/19/18 the dealer notified NEDHSA that the vehicles would be ready for pickup on 7/3/18. The vehicle is currently at the dealership and NEDHSA is awaiting final invoice. This is a replacement for a current vehicle with mileage in excess of 100,000.</p> <p>3) HON, Inc. (\$67,728 SGF) - Purchase of new furniture for clinics in Monroe, Bastrop, Columbia, and Winnsboro with purchase orders dated 5/9/18 to 6/20/18. The furniture has been delivered to the vendor's warehouse, but has not yet been scheduled for delivery. NEDHSA requires the funds to pay for the final invoice for the furniture upon delivery.</p> <p>4) Motorola, Inc. (\$27,232 SGF) - Purchase of 8 new emergency radios from Motorola as a result of the State entering into a new contract with Motorola in May 2018 to replace NEDHSA's current dated and inoperable radios. The purchase has an associated purchase order date of 6/25/18. The radios have not yet been received and NEDHSA is awaiting final invoice.</p> <p>5) Action Moving & Storage Inc. (\$2,200 SGF) - Resources to pay for moving services for the aforementioned furniture acquisition in Item #3. The services are being paid using a state purchasing card and the SGF resources are the cash used to back the credit card purchase. The first phase of the move has occurred and totaled \$1,000. The second phase has not occurred but will cost an estimated \$1,200.</p> <p><i>Construction and Maintenance</i></p> <p>1) SOL Construction, LLC. (\$5,200 SGF) - Repair of damaged stucco at the</p>	\$195,843	\$0	\$0	\$0	\$0	\$0	\$195,843

		<p>Monroe Behavioral Health Clinic (MBHC) with a purchase order issued on 5/18/18. The stucco repair was completed prior to 6/30/18, but NEDHSA was not satisfied with the quality of the work and the vendor agreed to attempt the repairs a second time. The stucco has been repaired by the vendor and NEDHSA is currently awaiting final invoice for the repairs.</p> <p>2) Joe Banks Drywall & Acoustics, Inc. (\$2,620 SGF) - Purchase and installation of new carpet for two offices in the Columbia Behavioral Health Clinic with an associated purchase order date of 6/12/18. The installation was not completed prior to the close of FY 18 because the vendor had to order the carpet. The vendor delivered the carpet and NEDHSA is currently awaiting final invoice.</p> <p>3) Eason Portable Buildings (\$1,300 SGF) - Purchase and installation of steel doors on outdoor storage unit at MBHC used to house lawn equipment. The purchase was made on a state purchasing card and the SGF resources are the cash used to back the credit card purchase. NEDHSA is having the doors replaced due to two break-ins in the last year, the most recent of which occurred in May 2018. NEDSHA received the initial quote for the doors on 6/4/18 and installation was scheduled for 6/20/18, but the work was not completed prior to the end of FY 18 because the vendor ordered ill-fitting doors. The vendor has since received and installed the correct doors and NEDSHA is awaiting final invoice.</p> <p>4.) Acme Glass and Mirror (\$461 SGF) - Purchase and installation of a new glass window at the check in desk at the Columbia Behavioral Health Clinic. The purchase was made on a state purchasing card and the SGF resources are the cash used to back the credit card purchase. The glass was ordered on 6/26/18, but the vendor has not received or installed the glass due to a manufacturer delay. NEDHSA is still awaiting final invoice for the purchase and installation of the glass window.</p> <p>5) Kelly's Ironworks, LLC (\$438 SGF) - Fabrication, purchase, and installation of new handrails at the Columbia clinic with an associated purchase order dated 5/22/18. The handrails have been installed and the final invoice has been received.</p>							
CF 32	09 - 320 Health Aging & Adult Services	<p>The purpose of this BA-7 request is to carry forward \$117,608 (\$4,857 SGF and \$112,751 IAT from Medicaid) in the Office of Aging & Adult Services (OAAS) for the following obligations:</p> <p>1) Contractual obligation with the Office of Technology Services (OTS) within the Division of Administration for IT enhancements to the OAAS participant tracking system (OPTS). The services were received in June</p>	\$4,857	\$112,751	\$0	\$0	\$0	\$0	\$117,608

the Behavioral Health Community Program. Outlined below are the resources being carried forward by program for major acquisitions and construction projects, as well as the accompanying purchases and services associated with the funds being carried forward.							
<u>Hospital Based Treatment - \$521,683 (\$32,205 SGF, \$489,478 IAT)</u>							
<i>Acquisitions</i>							
1) ARCCO Company Services, Inc. (\$67,915 IAT) - Purchase of a 150 kW towable, trailer-mounted generator for the Central LA State Hospital in Pineville that had to be built by the contractor and was not available prior to the end of FY 18. The generator will be used in the event of emergency electrical outages in Central LA State Hospital buildings that are not generator equipped. The purchase order was issued on 5/15/18. The generator has not been received, but has an anticipated delivery of late August 2018.							
2) Norix Group, Inc. (\$97,460 IAT) - Purchase of 88 anti-ligature bedroom wardrobes for the Eastern LA Mental Health System (ELMHS) that were not received prior to the end of FY 18 due to the time between the initiation and execution of the order. The purchase of anti-ligature furniture is necessary for patient safety and facility licensing standards. The resources being carried forward are the reminder of a purchase order totaling \$213,279 issued on 3/23/18. The wardrobes are currently pending delivery.							
3) Gerry Lane Chevrolet (\$54,612 IAT) - Purchase of 2 Chevrolet Express 3500 15-passenger vans for ELMHS associated with a purchase order issued on 4/3/18. The vans were not received prior to the end of FY 18 due to a delay between the initiation and execution of the order. The amount being carried forward represents the full purchase price of both vans. The anticipated delivery date of the vans is 8/15/18.							
4) Courtesy of Acadiana (\$56,464 IAT) - Purchase of 3 Dodge Ram trucks for ELMHS associated with a purchase order issued on 4/3/2018. The trucks were not received prior to the end of FY 18 due to a delay between the initiation and execution of the order. The amount being carried forward represents the remainder of a \$98,053 purchase order. The anticipated delivery date of the trucks is August 15, 2018.							
5) Tiles in Styles, Inc. (\$38,802 IAT) - Purchase of 8 medication carts and accessories for ELMHS associated with a purchase order issued on 5/22/18. Due to the timing of the purchase order and execution of the purchase, the carts were not received prior to the end of FY 18. The vendor delivered the carts on 7/17/18 and payment of the final invoice is pending carryforward of funds.							
6) Buffalo Electric, Inc. (\$12,000 IAT) - Purchase of an overhead 15 kV overhead switch associated with a purchase order dated 5/3/18. The

		switch had to be ordered and was received in mid-July, after the close of FY 18. The switch is necessary to cut power to all buildings on the ELMHS campus so that a generator may be installed and protected as buildings on generator power are activated. The switch has not yet been installed and installation is pending cooler weather, as power must be shut down campus-wide.							
		7) 1 Stop Electronics Center, Inc. (\$4,648 IAT) - Purchase of 4 Maytag Commercial Washers and 2 Maytag Commercial Dryers for ELMHS patient living areas with a purchase order dated 6/19/18. Bids for the purchase opened on 6/8/18. The vendor delivered the appliances on 7/30/18 and OBH is awaiting final invoice.							
		<i>Construction and Maintenance</i>							
		1) C-Co Mechanical LLC (\$74,200 IAT) - Purchase and installation of a chiller at ELMHS associated with a purchase order dated 5/15/18. The work was unable to be completed prior to the close of FY 18 because the chiller had to be ordered and arrived in July. The project has an anticipated completion date of 8/3/18.							
		2) Baton Rouge Sewer & Drain Service/Roto Rooter (\$48,600 IAT) - Purchase and installation of a backflow preventer at ELMHS that was not completed prior to the end of FY 18 due to manufacturer's delay in ordering the part. LDH reports that backflow installation is a regulatory requirement cited in the recent water systems survey performed by the LA Dept. of Health, Office of Public Health. The purchase order was issued on 6/5/18 and LDH reports that the work is approximately 80% complete. However, completion of the work is pending OSP approval of additional work associated with this project.							
		3) Sun Industries, LLC (\$27,560 SGF, \$14,840 IAT) - Replacement of an existing electrical distribution subpanel for a kitchen in ELMHS. The subpanel required upgrading because the previous subpanel was 40 years old and could not accommodate all necessary equipment for food preparation. The project has an estimated completion date of 8/1/18.							
		4) Various Contractors (\$4,645 SGF, \$19,937 IAT) - Encumbered funds for five construction projects to pay for a 10% retainage held for construction bonds. The five projects have associated purchase order dates ranging from 5/8/2018 to 6/12/18, and all work is complete. However, the retainage on the bonds will be held until clear lien certificates are received.							
		<u>Behavioral Health Community - \$4,000 SGF</u>							
		1) Keith Poche (\$4,000 SGF) - Contractor of the Office of Technology Services that provides data analysis services for OBH. OBH has received an approved final invoice for the services and the invoice will be paid in

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health

AGENDA NO.: 1

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	(\$118,118,095)	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$25,518,116	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$188,396,575	0
Federal Funds:	\$44,760,364			
Total	<u>\$70,278,480</u>	Total	<u>\$70,278,480</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is twofold. First, the proposed BA-7 reallocates funding between 2 programs within Medical Vendor Payments (Medicaid) to allocate funds in the appropriate programs. This technical adjustment is neutral and shifts revenues from Private Providers Program to the Uncompensated Care Costs (UCC) Program. The second purpose of this BA-7 is to increase budget authority in the UCC Program to provide additional Disproportionate Share Hospital (DSH) payments from the UCC Program to certain hospitals. The source of federal funds is Title 19 federal financial participation. The state match source used for these payments are SGR from Intergovernmental Transfers (IGT) transferred from participating hospitals.

Reallocation of Funding: The FY 18 budget reduced funding in the UCC Program and increased funding in the Private Providers Program by a like amount (approximately \$118 M) for base rate per diem increases as part of a hospital payment reform package projected to be implemented in FY 18. However, information provided by the LA Department of Health indicates hospital payment reform analysis will not be complete for FY 18, and the department is requesting to reverse the FY 18 initial adjustment between programs.

MOF	Private Providers Program	UCC Program
State General Fund	(\$42,888,680)	\$42,888,680
Federal Funds	<u>(\$75,229,415)</u>	<u>\$75,229,415</u>
Total	(\$118,118,095)	\$118,118,095

Increase UCC Program Spending Authority: Proposed BA-7 requests to increase funding to 2 qualifying hospitals (Willis Knighton in Shreveport and St. Francis Medical Center in Monroe) under the authority of the "Major Medical Centers Northern/Central Louisiana" State Plan Amendment (SPA). Current funding in FY 18 under this SPA is \$35.7 M. The BA-7 increases DSH funding under this SPA by an additional \$70,278,480 to cover uncompensated care costs. The state match used for the \$70.2 M in total payments is public Intergovernmental Transfer (IGT) revenues (\$25,518,116) sent from local entities, including LSU Medical School in New Orleans. The IGT will be used to draw federal matching funds under the SPA to make a DSH payment to the hospitals.

State Plan	Med Centers SPA
Fees & Self Generated	\$25,518,116
Federal	<u>\$44,760,364</u>
Total	\$70,278,480

II. IMPACT ON FUTURE FISCAL YEARS

This funding is not annualized in the FY 19 Executive Budget. Additional funding under this SPA in future fiscal years will require similar means of finance used as a state match source.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

April 18, 2018

Total	<u>\$1,385,265</u>	Total	<u>\$1,385,265</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$1,385,265 from the Overcollections Fund to the LSU Health Care Services Division (HCSD), Lallie Kemp Regional Medical Center (LKMC). LKMC is requesting the resources from the Overcollections Fund to appropriate the balance of a \$1,764,923 appropriation from the fund originally included in Act 2 of the 2nd Extraordinary Session of 2017. The initial appropriation was derived from revenues totaling approximately \$35.8 M authorized to be transferred from the LA Dept. of Revenue Escrow Account into the Overcollections Fund by Act 1 of the 2nd Extraordinary Session of 2017. However, due to revenues not materializing in amounts sufficient to fund the entire appropriation, LKMC received \$379,658 of revenues appropriated from the Overcollections Fund in FY 17. Therefore, LKMC is requesting the balance of the original Act 2 appropriation due to transfers into the fund associated with Act 1 materializing in amounts sufficient to complete the initial appropriation. For reference, transfers into the Overcollections Fund associated with Act 1 currently total \$23.7 M.

AGENDA NO.: 3

AGENCY: Local Housing of State Adult Offenders

ANALYST: Monique Appeaning

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Local Housing of State Adult Offenders	\$5,011,737	0
Interagency Transfers:	\$0	Transitional Work	\$0	0
Self-Generated Revenue:	\$0	Local Reentry Services	\$0	0
Statutory Dedications:	\$5,011,737			
Federal Funds:	\$0			
Total	<u>\$5,011,737</u>	Total	<u>\$5,011,737</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority for Local Housing of Adult Offenders (LHAO) by \$14,498,154 in Statutory Dedications from the Overcollections Fund to provide \$13,331,055 funding for the Local Housing of Adult Offenders Program, \$841,299 for the Transitional Work Program and \$325,800 for Local Reentry Services. This request will permit LHAO to re-budget a portion of what was originally appropriated in the supplemental bill (Act 2) of the 2017 Second Extraordinary Session. Act 2 appropriated \$18,660,000 to LHAO; however, only \$4,014,009 was allocated to LHAO during FY 17 leaving a remaining uncollected amount of \$14,645,991. When comparing this BA-7 request (\$14,498,154) to the remaining uncollected amount (\$14,645,991), there is a difference of \$147,837 compared to the Act 2 appropriation. Act 2 provided funding for 1,956 offenders in the Local Housing of Adult Offenders Program, 210 offenders in the Transitional Work Program and 8 Local Re-entry Centers and 4 Day Reporting Centers based on projected expenditures.

Overcollections Fund Activity

FY 17 Supplemental Bill from Overcollections Fund	\$18,660,000
FY 17 Actual Cash Received from Overcollections Fund	(\$4,014,008)
FY 18 BA-7 Request from Overcollections Fund	<u>(\$14,498,154)</u>
Difference	\$147,837

Overcollections Fund

As of April 4, 2018, per State Treasury, the Overcollections Fund has a fund balance totaling \$22.9 M. Of that amount, the LA Department of Health has \$6.9 M remaining to expend from that fund, leaving approximately \$16 M available to fund this BA -7 request for LHAO.

Overcollections Fund Balance as of 4/4/18	\$22.9 M
Department of Health Projected Expenditures	(\$6.9 M)
BA-7 Request	<u>(\$14.5 M)</u>
Remaining Fund Balance	\$ 1.5 M

Local Housing Deficit

LHAO carried forward a deficit of \$20.1 M (LHAO at \$19.2 M and Transitional Work Program at \$0.9 M) from FY 17 into FY 18 to pay prior year invoices out of the current year appropriation to local authorities for housing state inmates.

As of 4/4/2018, the Department of Public Safety & Corrections - Corrections Services reports a projected deficit of approximately \$5 M in LHAO for the fiscal year ending 6/30/2018. This BA-7 will purportedly address the projected deficit (\$5 M) and also provide for a projected or anticipated bona fide obligation created by criminal justice reinvestment savings as contemplated by Act 261 of 2017.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 contains a revenue source that is not recurring. The current FY 19 recommended appropriation is \$134.8 M as

April 18, 2018

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the appropriation of dedicated funds for the West Calcasieu Community Center Authority and to carry forward available funds for the West Baton Rouge Convention & Visitors Bureau, so available funds can be accessed during the FY 18 budget year. The respective requests and funds are briefly detailed below:

1) West Calcasieu Community Center Fund (\$725,000): The West Calcasieu Community Center Authority requests this adjustment to access \$725,000 in their Community Center Fund, including projected collections in excess of existing budget authority in the amount of \$240,758, and a balance of \$484,242 carried forward from prior years. The intended purpose of the funds is to provide for for capital improvements, maintenance, and operating expenses for the West Calcasieu Community Center.

2) West Baton Rouge Parish Visitor Bureau (\$262,233): The West Baton Rouge Convention & Visitors Bureau requests this adjustment to access a balance of \$262,233 carried forward from prior years. The intended purpose of the funds provides for upgrades and improvements to the 16-year-old Convention & Visitors Center building.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

contained in HB 1 Original, which reflects a \$40.4 M reduction below the EOB base at 12/1/2017 of \$175.2 M. To the extent that funding needs in FY 19 to house state inmates at the local level exceed the current recommendation, additional budget resources (assumed to be SGF) will be required in HB 1.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office (LFO) recommends approval in the amount of \$5,011,737 to address the agency's current projected deficit as reported to the LFO by Corrections Services on 4/6/2018. The remaining \$9.5 M is recommended to be included as a separate item in a supplemental appropriation or separate legislative instrument pending calculation of the projected or anticipated bona fide obligation as provided in Act 261 (see below).

The LFO acknowledges that had the full supplemental appropriation been effectuated during FY 17, eliminating all but \$1.4 M of the FY 17 deficit (\$20.1 M), LHAO would likely end FY 18 with a projected surplus to be available for reinvestment under the auspices of Act 261 of 2017. Per Act 261, 70% of identified savings pursuant to Justice Reinvestment shall be available for allocation to eligible programs in the subsequent year. If this amount is not authorized in this BA-7 request, the LFO acknowledges that a separate appropriation will be necessary for a projected or anticipated bona fide obligation to meet the requirements of Act 216, whether that appropriation be made in FY 18 and carried forward or as an allocation of the recommended budget in FY 19.

For informational purposes, Act 261 of 2017 provides in part: For Fiscal Year 2017-2018, seventy percent of the savings shall be deemed a bona fide obligation of the state and shall be allocated by the department according to Subsection B of this Section. For Fiscal Year 2018-2019 and each fiscal year thereafter, fifty percent of the annual savings shall be deemed a bona fide obligation of the state and shall be allocated by the department according to Subsection B of this Section and twenty percent of the annual savings shall be deemed a bona fide obligation of the state and shall be allocated by the department for juvenile justice initiatives and programs.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Veterans Affairs

AGENDA NO.: 1A

AGENCY: Northwest LA War Veterans Home

ANALYST: Ryan Guidry

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Northwest LA War Veterans Home	\$175,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$175,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$175,000</u>	Total	<u>\$175,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR expenditure authority at the Northwest LA War Veterans Home to be sent via IAT to the LA Department of Veterans Affairs (LDVA) to cover upfront capital costs for the expansion of the columbarium and the in-ground cremains burial area for the Southeast LA Veterans Cemetery in Slidell, LA. These funds will essentially act as seed to a federal grant for design and construction for the expansion in Slidell. All design and construction expenditures will be reimbursed 100% by the U.S. Department of Veterans Affairs, National Cemetery Administration and those funds will be reimbursed to the Northwest LA War Veterans Home. The source of SGR is insurance co-payments, pensions, private pay, room rental, and monthly fees that are used to cover costs of care expenses for veterans. LDVA anticipates receiving federal reimbursement within a year.

Northwest LA War Veterans Home has sufficient existing and projected SGR fund balances in FY 18 to allow seeding of the startup costs.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0	State Approval Agency	\$0	0
Federal Funds:	\$0	State Veterans Cemetery	\$175,000	0
Total	<u>\$175,000</u>	Total	<u>\$175,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT expenditure authority in the LA Department of Veterans Affairs (LDVA) to be sent via IAT from the Northwest LA War Veterans Home to cover the upfront capital costs for the expansion of the columbarium and the in-ground cremains burial area for the Southeast LA Veterans Cemetery in Slidell, LA. These funds will essentially act as seed to a federal grant for design and construction for the expansion in Slidell. All design and construction expenditures will be reimbursed 100% by the U.S. Department of Veterans Affairs, National Cemetery Administration and those funds will be reimbursed to the Northwest LA War Veterans Home. The source of SGR is insurance co-payments, pensions, private pay, room rental, and monthly fees that are used to cover costs of care expenses for veterans. LDVA anticipates receiving federal reimbursement within a year.

Although the expenditures for the expansion are 100% federally reimbursable, the state will be responsible for ongoing upkeep, maintenance and operating costs. LDVA reports that current funding levels are sufficient to absorb these additional costs.

Since the construction of the Southeast LA Veterans Cemetery, the number of cremation interments have exceeded the 10-year projection, and the facility is nearing capacity. This expansion will include four (4) additional columbarium walls with approximately 1,100 additional niches (275 per wall) and approximately 500 additional in-ground cremain burial spaces. Based on recent projections, this expansion will provide adequate cremation interment space for the next five (5) to seven (7) years.

LDVA will provide burial services free of charge for veterans and allow burial of family members for a fee of \$700. LDVA receives an allowance of \$762 per interment as reimbursement from the U.S. Department of Veterans Affairs.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 1

AGENCY: Agriculture & Forestry

ANALYST: Ryan Guidry

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$30,000	0
Interagency Transfers:	\$0	Agricultural & Environmental Sciences	\$977,312	0
Self-Generated Revenue:	\$0	Animal Health & Food Safety	\$317,969	0
Statutory Dedications:	\$1,325,281	Agro-Consumer Services	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
		Soil & Water Conservation	\$0	0
Total	<u>\$1,325,281</u>	Total	<u>\$1,325,281</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedications expenditure authority in the Department of Agriculture & Forestry (LDAF) to expend prior year fund balances that were recognized by the Revenue Estimating Conference (REC) on 12/14/2017. The table below summarizes the requested distribution of the specific Statutory Dedications between programs.

	<u>Structural Pest Control Commission Fd</u>	<u>Feed & Fertilizer Fd</u>	<u>Program Totals</u>
Office of Management & Finance	\$30,000	\$0	\$30,000
Agriculture & Environmental Science	\$538,211	\$439,101	\$977,312
Animal Health & Food Safety	\$0	\$317,969	\$317,969
Fund Totals	<u>\$568,211</u>	<u>\$757,070</u>	<u>\$1,325,281</u>

These fund balances were generated in prior fiscal years by an increase in the number of inspections performed for pesticides, feed, and fertilizer. Additionally, LDAF increased the fee for standard and wood destroying inspect reports as authorized by Act 201 of the 2015 Regular Session.

The requested fund balances will be expended in three programs. From the Structural Pest Control Commission Fund, \$30,000 will be expended in the Office of Management and Finance program on supplies for support services associated with the Structural Pest Control Commission. From the Feed & Fertilizer Fund, \$317,969 will be expended in the Animal Health & Food Safety Program for costs associated with the increased inspections of feed. The remaining fund balances (\$977,312) will be expended in the Agricultural & Environmental Sciences Program on replacement of outdated testing equipment and software for training, testing, certification, and reporting for inspectors and licensees.

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 2

AGENCY: Cultural Development

ANALYST: Monique Appeaning

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Cultural Development	\$326,552	0
Interagency Transfers:	\$0	Arts	\$0	0
Self-Generated Revenue:	\$326,552	Administrative	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$326,552</u>	Total	<u>\$326,552</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the SGR authority by \$326,552 in the Office of Cultural Development Program. The funds will be used for expenditures associated with the customer/project database maintenance, additional user licenses, software upgrades, staff training, site visits, fleet maintenance, service maintenance, and other miscellaneous operating costs. This funding will also be used to fund job appointments (other charges) and replace one computer.

The SGR revenue sources are from the following:

\$60,000 is based on a fee charged by the LA Division of Archaeology (LDA) for online access to its database. Private entities and federal agencies that choose to use the service will remit payment in accordance with the LA Administrative Code. The fee is \$1,300 per state fiscal year for each public or private entity with one or more professional archaeologists on staff or an individual professional archaeologist who will use online access. There are an estimated 50 online access requests to be processed in the current fiscal year. The current budget authority allocated for LDA is \$5,000; therefore, this BA-7 request is asking for an additional \$60,000 to bring the authority level to \$65,000.

\$266,552 is based on a fee charged by the LA Division of Historic (LDHP) Preservation to process applications related to the rehabilitation of historic structures. Commercial and residential property owners claiming a tax credit for rehabilitation costs must be reviewed by LDHP to ensure that costs are eligible and in accordance with the U.S. Department of the Interior's standards. An estimated additional 248 rehabilitation applications are projected to be processed that will generate additional revenue. The fee structure is based on a graduated scale from \$250 to \$5,000 per application for qualified rehabilitation expenditures (QREs) for repairs.

The expenditures are for the following:

\$13,000 is for travel costs associated with site visits, training, and hosting a conference. Staff travel on a weekly basis to visit sites undergoing tax credit-related rehabilitation. Historic property owners and contractors frequently need technical assistance throughout the construction process to ensure that the property is eligible and that building renovations are in accordance with the U.S. Department of the Interior's standards. Another cost is for technical training and for hosting the tax credit portion of a LDHP conference.

\$55,000 is for operating services to cover software and database maintenance, annual license fees (customer/project database costs, user licenses, system upgrades, and server maintenance), with a small allocation to vehicle repairs/maintenance (fleet maintenance).

\$6,000 is for supplies to purchase folders, toner, and fuel. Color toner is needed to print photos and maps, and fuel is needed for state vehicles for site visits.

\$244,052 is for other charges to cover salaries and related benefits for three positions for 6 months for a combined total of \$98,758 (Architectural Historian 2, Admin Coordinator 4, and an Archaeologist). The remaining funds are included for costs associated with consolidating three databases into a single new database (\$125,000), contract costs for scanning old files into the consolidated system (\$3,198) and a vehicle replacement (\$17,096).

February 22, 2018

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

\$1,500 is for acquisitions to replace a computer and monitor that is beyond its 5-year useful life.

\$7,000 is for interagency transfers to cover services provided by the Office of State Printing for the reproduction of printed material, and the Office of Telecommunications Management for telephone fees.

II. IMPACT ON FUTURE FISCAL YEARS

This is an anticipated recurring revenue stream and expenditures will likely continue in future fiscal years. However, the purchase of the vehicle and consolidating three databases into a single new database are one-time expenditures.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$1,824,527	Management & Finance	\$1,824,527	0
Federal Funds:	\$0	Environmental Assessment	\$0	0
Total	<u>\$1,824,527</u>	Total	<u>\$1,824,527</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the budget authority for the Department of Environmental Quality (DEQ) by \$1,824,527 out of the statutorily dedicated Waste Tire Management Fund.

The total request of \$1,824,527 encompasses \$580,768 as a result of an increased REC forecast adopted in December 2017 as well as the \$1.24 M fund balance from FY 17. This would increase the total FY 18 budget authority to \$13,259,759.

In FY 17 the department spent all of their budget authority, but due to the REC forecast being lower than actual collections DEQ was not able to fully spend cash on hand to pay remaining FY 17 obligations and had to pay those obligations in FY 18.

Historically, requests for processor payments and program expenditures exceed actual revenue collections of the program.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to receive reimbursements from the states of Texas, Georgia, and Florida, as well as the U.S. Virgin Islands and Puerto Rico to cover expenses incurred by activation of LA's Emergency Assistance Compact (EMAC) when providing assistance during Hurricane Harvey (August through September, 2017), Hurricane Irma (September, 2017), and Hurricane Maria (September, 2017, through January, 2018). This BA-7 will increase GOHSEP's SGR authority to provide sufficient budget resources to receive reimbursements for expenditures realized by multiple state and local governmental entities for responses during multiple disaster declarations as noted.

EMAC is an all hazards - all disciplines mutual aid compact that serves as the cornerstone of the nation's mutual aid system. EMAC is a national disaster-relief compact ratified by the U.S. Congress and signed into law in 1996 (Public Law 104-321). Through EMAC, 50 states, the District of Columbia, Puerto Rico, Guam, and the U.S. Virgin Islands have enacted legislation to become EMAC members. EMAC offers assistance during governor-declared states of emergency or disaster through a responsive, straightforward system that allows states to send personnel, equipment, and commodities to assist with response and recovery efforts in other states.

This BA-7 increases authority in the Other Charges expenditure category associated with activation of the EMAC as detailed below.

Hurricane Harvey response:

- GOHSEP - \$56,824 (deployment of 2 EMAC A-Team members, GOHSEP Forward Command Post in Orange, TX; deployment of liaisons to TX Emergency Operations Center; deployment of planning officer)
- LA Dept of Wildlife & Fisheries - \$800,309 (deployment of search and rescue teams and equipment)
- LA State Fire Marshal - \$3,898,470 (provide local law enforcement and security operations; conduct swift, surface and flood water rescues; conduct urban search, rescue and recovery operations; conduct emergency assessment of structures for safety and reentry in Port Arthur, TX)
- LA Dept of Agriculture & Forestry - \$1,974,906 (provide fuel and fuel dispensers for search and rescue efforts and for transportation of evacuees; pet sheltering operations)
- LA Dept of Military - \$744,127 (conduct search and rescue operation, sheltering, communications, transportation, logistics, command and control support and other support missions; air medical supply movement and search and rescue for Port Arthur/Beaumont, TX)
- LA Dept of Corrections - \$179,378 (deployment of search and rescue teams and equipment)
- Statewide (DCFS, LWC, DOTD, LSP, LDH, Calcasieu Parish Police Jury, Rapides Parish Police Jury) - \$7,254,929 (state shelter and medical special needs shelter in Alexandria, LA; state shelter in Shreveport, LA)
- LA Sheriff's Association - \$491,608 (deployment of law enforcement support to backfill local Texas departments)
- Local Parishes (Ascension, St. James, St. Mary) - \$235,921 (deployment of search and rescue teams and equipment to San Jacinto County, TX)

Hurricane Irma response (Florida, Georgia, U.S. Virgin Islands):

February 22, 2018

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

- GOHSEP - \$104,827 (deployment of EMAC A-Team members, deployment of public assistance team)
- LA Dept of Health - \$972,365 (provide nurses and ancillary staff for shelter locations and Florida)
- LA Dept of Wildlife & Fisheries - \$991,163 (deployment of water search and rescue teams and equipment)
- LA State Fire Marshal - \$737,112 (deployment of urban search and rescue personnel and equipment; deployment of Incident Management Team personnel; conduct swift water rescues)
- LA Dept of Military - \$123,442 (deployment of one engineer to provide mission command and coordination of repair, maintenance and construction of air/ground lines of communication, emplacement of culverts, force protection, and clearing operations)

Hurricane Maria response (U.S. Virgin Islands/ Puerto Rico):

- GOHSEP/LA Dept of Military - \$413,842 (deployment of EMAC A-TEAM member; provide housing strike team to assist with planning and development of housing solutions for displaced citizens)
- LA Dept of Health - \$1,574,984 (provide nurses and physicians to support shelter operations; deploy pharmacist and liaison)
- LA Dept of Military - \$2,380,711 (provide horizontal engineer capability and water assets for hydration support in impacted areas; provide wide area security and military police)
- New Orleans Fire - \$129,195 (deployment of 10-person incident management team)

Federal Funds:	\$54,670			
Total	<u>\$54,670</u>	Total	<u>\$54,670</u>	<u>2</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority and add two (2) T.O. positions in the Military Affairs Program for a Visitor Control Center (VCC).

The department has received additional federal funding through the Army National Guard (ARNG) Security Guard Activities cooperative agreement to implement a VCC. The VCC will be located at Camp Beauregard and require two additional T.O. for a VCC Coordinator and a VCC Clerk. The VCC will be responsible for screening and vetting all personnel and contractors entering installations and armories statewide in accordance with Army regulations and instructions, and the VCC will have access to the National Crime Information Center (NCIC) database to perform control checks on all personnel that have not been previously vetted.

The department will expend \$41,002 on salaries and related benefits for the two positions, and \$13,668 for computer and furniture acquisitions to stand up the VCC. The department will receive federal reimbursement for all of these expenditures.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will result in the need add two (2) T.O. and to annualize the federal authority to a total \$120,000 in FY 19 and beyond by legislative instrument during the 2018 Regular Session.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Military Affairs Program in order to receive reimbursement from the Sewerage & Water Board of New Orleans for expenditures incurred in response to declared disaster 95 JBE 2017.

Following the declaration of a state of emergency by the governor following the flash flooding on 8/10/2017, the Department of Military Affairs entered into a cooperative endeavor agreement with the Sewerage and Water Board of New Orleans to provide support beginning 8/21/2017, through the end of hurricane season on 11/30/2017. The department provided two individuals, one (1) state employee and one (1) LA National Guardsman on state active duty, to provide procurement, contracting and logistical support. Additionally, the department provided seventeen (17) LA National Guardsmen on state active duty from August 24-31 and October 6-8 to assist with manning the pumping stations, ensuring continuity of operations, and providing reports to the Interim Emergency Management and Support team.

The department incurred \$124,948 of expenditures through 11/30/2017, and an invoice has been sent to the Sewerage & Water Board of New Orleans for reimbursement of these expenditures. This BA-7 request will provide the department the budget authority needed to receive this reimbursement.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$1,282			
Federal Funds:	\$0			
Total	<u>\$10,282</u>	Total	<u>\$10,282</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the LA Emergency Response Network's (LERN) budget by \$1,282 in Statutory Dedications from the LA Emergency Response Network Fund and \$9,000 in fees and self-generated revenue. The SGR is from a one year grant awarded by the Living Well Foundation, a nonprofit organization in Ouachita Parish, (\$8,000) and a private donation (\$1,000). The funds in the LA Emergency Response Network Fund represent the remaining balance of SGF that was transferred into the fund per Act 12 of 2015.

The funds will be used to buy supplies for the "Stop the Bleed" training initiative, which is a federal initiative to encourage bystanders of an emergency to become trained to help in bleeding situations. The agency will host educational seminars to train "Stop the Bleed" instructors. Training will be held at 5 schools in Ouachita Parish. The agency has funds in its existing budget to cover personnel and travel expenses associated with providing training. The funds in this BA-7 will be used to purchase supplies that will be used in the training as well as distributed to the 5 schools.

The funds will be used for the following supplies:

Hemorrhage Control Training Kits (4 @ \$950 each)	\$3,8000
Quick Clot Bleeding Control Stations (7 @ @\$800 each)	\$5,6000
Personal Bleeding Control Kits (7 @ \$70 each)	\$490
Shipping Costs	<u>\$392</u>
Total Supplies	<u>\$10,282</u>

II. IMPACT ON FUTURE FISCAL YEARS

The Living Well Foundation grant began 1/1/2018 continues through 12/31/2018. This BA-7 provides budget authority for the first 6 months of the grant period in the amount of \$8,000, but the full grant award totals \$13,853. To provide authorization for the continuation of this grant through the entire award period, LERN will require SGR budget authority of \$5,853 in FY 19.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0			
Total	<u>\$8,747,529</u>	Total	<u>\$8,747,529</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority within the Tax Collection, Alcohol & Tobacco Control, and Charitable Gaming programs. The SGR funds are generated by delinquent penalty and interest fees, and licensing and permit fees.

The requested authority is for technology systems, software licensing and maintenance, hardware replacement, and the LaSalle building remodel for enhanced security. The increases in budget authority by program, as well as the corresponding expenditures, are outlined below.

Tax Collections - \$5,599,121

- 1) LaSalle Building Remodel (\$788,800) - Various building modifications for employee security and to accommodate more walk-in clients. Includes reception area cubicles, bulletproof glass, cameras, chairs, desks, and wall and millwork modification.
- 2) Office of Debt Recovery replacement software system (\$1,750,000) - Current system has limited functionality and is unable to fully meet needs of the agency; it is only able to store records. Replacement system adds basic data processing and accounting capability.
- 3) GenTax Software Licensing Support (\$1,357,803) - Increases the DELTA system licensing and maintenance for support services that keep the software current and operational. Increase based on a set contract price.
- 4) SANS for Datacenter (2) (\$1,094,618) - Replaces current storage area networks that are near end of life and will no longer be supported by the vendor.
- 5) Lease of desktops and laptops (\$413,100) - Equipment refresh for laptops older than 4 years and PCs older than 5 years. Replaces equipment utilizing a 4-year lease with fixed monthly costs.
- 6) Ancillary Database upgrades (\$99,000)
- 7) Economic Model licensing and maintenance (\$49,000) - Increases the usage allowed of the current economic modeling software, allowing LDR personnel to simulate changes in various types of tax and incentives and analyze outputs.
- 8) Microsoft Licensing (\$45,000) - Annual license increase based on historical price increases and expected additional product usage.
- 9) Human Resources electronic records storage (\$1,800) - Converts current microfiche storage of LDR employee personnel files to electronic storage.

Alcohol & Tobacco Control - \$2,648,408

- 1) Licensing and Enforcement system application (\$2,531,704) - Replaces current Licensing and Enforcement application that operates without documentation or support and integrates extensive third-party software. New application eliminates most or all third-party software, and allows for support.
- 2) Lease of desktops and laptops, support services (\$116,704) - Leasing of computers and service hour charges for current support of equipment and systems.

Charitable Gaming - \$500,000

- 3) Bingo, Licensing, Accounting, and Inventory Reporting (BLAIR) System (\$500,000) - Replaces aging BLAIR monitoring system due to current limitations and age of software coding.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

II. IMPACT ON FUTURE FISCAL YEARS

The appropriations bill gives the Department of Revenue authority to retain unappropriated SGR from late payment/delinquent fees and negligence fees from one fiscal year to the next. Appropriation and expenditure of an additional \$8,747,529 for this request will decrease the SGR available for appropriation in future fiscal years. In the current year (FY 18), the Office of Revenue carried forward approximately \$43.9 M in excess collections from prior fiscal years due to higher than expected self-generated revenues from late payment/delinquent fees and negligence fees.

LDR will require additional SGR appropriation from this source in FY 19 and beyond due to recurring expenditures related to lease of desktops, laptops, and ongoing I.T. service support agreements (\$116,704 in all years). Other recurring expenditures related to items in this BA-7 were already included in the Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request. However, the LFO recognizes that many or all of these expenses could be considered during the Regular Legislative Session in either a supplemental or the General Appropriation Bill.

Federal Funds:	\$0			
Total	<u>\$157,471</u>	Total	<u>\$157,471</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR authority in the Auxiliary Program to move expenditures associated with morale, welfare, and recreation (MWR) activities on-budget for the remaining 7 months of FY 18. The agency is authorized by R.S. 29:28.1(A)(3) to maintain MWR facilities, service member clubs, and exchanges on military lands. There are currently 5 installations operating MWR facilities (Camp Minden, Camp Cook, Camp Beauregard, Gillis Long Center, and Jackson Barracks), each operating with an individual checking account regulated by the U.S. Army. The expenditure of these funds is overseen by the LA National Guard MWR Council, consisting of the adjutant general or his representative and senior enlisted advisors from around the state. The proposed BA-7 request would keep the existing oversight in place, but allow the agency to deposit the balances and revenues associated with the individual MWR checking accounts into the state treasury. The MWR revenues and expenditures will be moved on-budget and flow through the state's financial system, and the existing off-budget checking accounts will be closed.

Summary of Projected FY 18 Expenditures

\$26,833	Other Compensation (for existing WAE positions providing MWR planning and oversight at facilities)
\$2,888	Related Benefits
\$10,208	Operating Services (facility and equipment maintenance)
\$117,542	Supplies (operating and recreational supplies for MWR activities)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will result in the need to annualize the SGR appropriation to total \$269,950 in FY19 and beyond.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0			
Total	<u>\$9,631,574</u>	Total	<u>\$9,631,574</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Overcollections statutory dedication funding budget authority by \$9,631,574 in the Department of Children & Family Services (DCFS) Management & Finance Program. The funds will be used to continue the design and development of an Integrated Eligibility (IE) Solutions System with the LA Department of Health and DCFS. The system will integrate the online application process for Supplemental Nutrition Assistance Program (SNAP) and Temporary Assistance for Needy Families (TANF) with Medicaid eligibility.

The FY 18 appropriation is \$9,631,574 less than needed to cover the FY 18 estimated cost of the project, which is \$60,143,875. The BA-7 is requesting to increase DCFS's Overcollections statutory dedication funding budget authority by \$9,631,574 to cover the unfunded costs.

Note: In Act 2 of the 2017 Second Extraordinary Session, DCFS received a supplemental appropriation of \$9,991,828 from the Overcollections Fund to begin implementation of the IE project in FY 17. The original source of funds in the Overcollections Fund is from disputes with businesses that owed sales tax. However, only \$360,254 in Overcollections was disbursed to DCFS because the remaining balance (\$9,631,574) had not yet been received by the Treasury at the close of FY 17. The Treasury has indicated that sufficient funds from the disputes have been received and deposited in the Overcollections Fund to cover the request in this BA-7. Availability of these funds is subject to recognition by REC.

The FY 18 appropriation to DCFS for the IE project is:

\$4,401,665	SGF
\$33,674,723	IAT from Federal Medicaid administrative match funds
\$12,435,913	Federal funding from TANF and SNAP
\$50,512,301	Total DCFS Existing Budget for the IE project
\$9,631,574	Overcollections funding requested in BA-7
\$60,143,875	Total FY 18 Funding for IE project in DCFS

Expenditures:

<u>Existing Budget</u>	<u>BA - 7</u>	<u>Total</u>	
\$3,698,393	\$0	\$3,698,393	DCFS Salary & Benefits
\$4,326,503	\$0	\$4,326,503	OTS Project Management Officer and Staff
\$324,625	\$0	\$324,625	DCFS Operating Costs and Supplies
\$0	\$729,344	\$729,344	Public Consulting Group Contract
\$1,876,465	\$0	\$1,876,465	Hardware
\$9,210,817	\$1,577,605	\$9,210,817	Software
\$27,504,039	\$7,000,000	\$34,504,039	Deloitte Contract
\$5,473,689	\$0	\$5,473,689	DCFS Change Order Pool
\$50,512,301	\$9,631,574	\$60,143,875	Total FY 18 IE Expense Budget in DCFS

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

The BA-7 increases IAT by \$7 M and Other charges by \$2,631,574.

Interagency Transfer (\$7 M) - DCFS will IAT \$7 M of Overcollections to DOA Office of Technology Services for contractual obligations with Deloitte Consulting associated with the design of the shared eligibility system. Contract deliverables in FY 18 include system design, a system testing plan, and system user training materials. The new system is scheduled to go live in FY 19.

Other Charges (\$2,631,574) - These expenses are for software and contractual obligations with Public Consulting Group (PCG) to assist with monitoring the design and development of the IE system to ensure compatibility with DCFS's in-house proprietary systems.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Note: The total cost of the IE project for DCFS is \$87,662,267 over 3 years and is being financed with Medicaid Admin, SNAP, TANF, Overcollections, and SGF dollars. The IE project will utilize Centers for Medicare & Medicaid (CMS) enhanced Medicaid match, which is approximately 90% federal and 10% state. This BA-7 allocates one time funding of Overcollections in lieu of SGF in FY18.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request, contingent upon REC recognition of the funds.

Statutory Dedications:	\$0			
Federal Funds:	\$27,765			
Total	<u>\$27,765</u>	Total	<u>\$27,765</u>	<u>1</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate federal dollars and add 1 T.O. position to the Military Affairs Program associated with the addition of an assistant procurement/purchasing agent position. The new position will assist the Senior Procurement Manager in the LA Army National Guard Construction & Facilities Management Office. Expenditures associated with this position will be 100% federally reimbursed through the current Master Cooperative Agreement between the LA Department of Military Affairs and the National Guard Bureau. Expenditures are limited to the salary (\$17,307 for remainder of fiscal year) and related benefits (\$10,458) of the new position.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will result in the need for a total federal appropriation of \$53,354 in FY 19 and beyond for expenditures associated with this position. The LFO assumes this position will be annualized in the FY 19 executive budget document when presented in early 2018.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

DEPARTMENT: Veterans Affairs

AGENDA NO.: 2

AGENCY: Department of Veterans Affairs

ANALYST: Ryan Guidry

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$325,000	Claims	\$0	0
Self-Generated Revenue:	\$0	Contact Assistance	\$0	0
Statutory Dedications:	\$0	State Approval Agency	\$0	0
Federal Funds:	\$0	State Veterans Cemetery	\$325,000	0
Total	<u>\$325,000</u>	Total	<u>\$325,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT expenditure authority at the LA Department of Veterans Affairs (LDVA) to be sent via IAT from the Southwest Veterans Home to cover the upfront capital costs to begin work on the Southwest LA Veterans Cemetery in Jennings, LA. These funds will essentially act as seed to a federal grant providing for the design and construction of the new cemetery in Jennings. All design and construction expenditures will be reimbursed 100% by the U.S. Department of Veterans Affairs, National Cemetery Administration and those funds will be reimbursed to Southwest LA War Veterans Home. The original source is SGR derived from insurance co-payments, pensions, private pay, room rental and monthly fees that are used to cover cost of care expenses for veterans.

Once the cemetery is completed and open, the state will be responsible for ongoing upkeep, maintenance and operating costs. Total cost of the cemetery's design and construction was estimated at \$7.48 M as included in HB 2 of the 2017 2nd Extraordinary Session.

Facility Planning & Control provided the following estimated construction startup costs for the Southwest LA Veterans Cemetery:

\$290,871	65% of estimated design fee of \$447,355.
\$20,000	Topographic and Geotechnical Surveys
\$1,100	Advertisements
<u>\$13,119</u>	Miscellaneous (contingency set-aside for design and surveys)
\$325,000	

LDVA will provide burial services free of charge for veterans and allow burial of family members for a fee of \$700. LDVA receives a veteran burial allowance of \$762 per burial as reimbursement from the U.S. Department of Veterans Affairs.

II. IMPACT ON FUTURE FISCAL YEARS

Once construction of the Southwest LA Veterans Cemetery is complete, the LDVA will be responsible for providing ongoing operations, upkeep and maintenance. As such, LDVA will require additional budget resources upon cemetery opening. LDVA estimates the annual operating cost at \$341,883 with a projected opening date in the Fall 2019. At opening, the entire operating cost will require SGF. The SGF requirement will decline somewhat as burials begin at the cemetery resulting in both federal reimbursement and SGR collections, but those amounts are indeterminable at the current time.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$634,468,032			
Total	<u>\$634,468,032</u>	Total	<u>\$634,468,032</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority for the Division of Administration (DOA), Community Development Block Grant (CDBG) Program by \$634,468,032. The source of the federal funds is three federal appropriations under public law as a result of the March (Disaster # 4263) and August (Disaster # 4277) floods of 2016. The Disaster Recovery Unit (DRU) within CDBG estimates to utilize approximately \$634.5 M during FY 18 for flood related expenditures, including direct grants to homeowners and rental housing owners, loans and/or grants to small businesses and farmers, as well as providing funding for administrative costs, infrastructure repairs and enhancements, and watershed modeling and planning.

Explanation of program categories within disaster recovery funding allocation:

Homeowner's Program: \$577.8 M requested for FY 18 (assumes \$557.8 M in FY 19, \$136.8 M in FY 20, \$12.6 M in FY 21 and \$14.5 M in FY 22 for a total of \$1.3 B over five fiscal years)

Provides grants to repair, reconstruct, elevate, or buy out approximately 36,000 flood damaged residential owner-occupied structures. Eligible homeowners will be able to select one of four solutions: 1) the Road Home Program can manage construction activities through it's contracted administrator, 2) the owner can manage construction activities with his or her own contractor, 3) the owner can seek reimbursement for construction activities previously completed, or 4) the owner may agree in certain circumstances to a voluntary buyout of a property where the state determines it is more cost effective or in the public interest to do so.

Rental Housing Program: \$11.4 M requested for FY 18 (assumes \$27.9 M in FY 19, \$27.9 M in FY 20, \$22.4 M in FYs 21 and 22, \$22.2 M in FY 23 for a total of \$134.2 M over six fiscal years)

Provides assistance to owners of large developments (multi-family structures of 20 or more housing units) for repairs and other eligible costs necessary for the repair and sustainability of affordable rental units. The program will focus on addressing rental availability and affordability for low-to-moderate income families in the flood impacted areas.

Small Business Loan and Grant Program, Small Business Technical Assistance: \$5.0 M requested for FY 18 (assumes \$20 M in FY 19, \$25 M in FY 20, \$10 M in FY 21 and \$2 M in FY 22 for a total of \$62 M over five fiscal years)

Provide loans and/or grants to businesses and farmers that realized qualifying losses. Provide grants to entities that provide technical assistance services to businesses.

Infrastructure - FEMA Nonfederal Share Match: \$30 M requested for FY 18 (assumes \$30 M for FY 19, \$20 M for FY 20 and \$10.4 M for FY 21 for a total of \$105 M over four fiscal years)

Provides payment to state agencies, eligible organizations, local governments or other local entities for eligible activities within approved FEMA projects and programs. This program will provide match requirements for eligible FEMA projects requiring state or local match.

October 20, 2017

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Watershed Modeling and Planning: \$1.96 M requested in FY 18 (assumes \$1.96 M annually for FYs 18 through 22 for a total of \$9.8 M over five fiscal years)

Provides for modeling current and future flood risk across each watershed in the disaster impacted regions of the state in order to determine optimal investment in structural and non-structural infrastructure projects that will help protect flood impacted and CDBG-Disaster Recovery assisted neighborhoods from future flood risks.

Administration: \$8.3 M requested for FY 18 (assumes \$7.5 M for FYs 19 and 20, \$7.4 M for FYs 21 and 22, and \$5.5 M for FY 23 for a total of \$44.5 M over six fiscal years).

Provides personal services, operating expenses, travel and supplies for approximately 41 FTE positions to administer state efforts with regard to the Restore Louisiana Program. The DOA estimates first year expenses as follows:

\$4.1 M - DRU - Personal services and operating costs for approximately 41 FTEs.

\$40,000 - DRU - Travel for flood related activities providing service to 56 of the state's 64 parishes.

\$849,115 - Operating expenses for information technology and related services, contracts to support the Restore Louisiana Program, and provide for operating service costs of office space at LaSalle and Benson Towers.

\$2.98 M - Provides for administrative professional service contracts for planning, research and technical assistance to grantees. Provides for administrative costs of grantee programs.

\$94,500 - Provides for interagency transfer for statewide prorated services including financial services, legal services, risk management, technology services and capitol security.

\$243,044 - Funding for the Louisiana Housing Corporation's administration and Multi-Family & Neighborhood Program and Rapid Rehousing & Permanent Supportive Housing Programs.

II. IMPACT ON FUTURE FISCAL YEARS

Through three federal appropriations under public law, LA will receive an estimated \$1.71 B in Federal Direct monies as a result of the March (Disaster # 4263) and August (Disaster # 4277) floods of 2016. This BA-7 request seeks to appropriate \$634.5 M in FY 18. The Disaster Recovery Unit estimates future drawdown of federal dollars as reimbursement for state expense at approximately \$665.2 M in FY 19, \$229.1 M in FY 20, \$64.7 M in FY 21, \$48.2 M in FY 22, and \$27.7 M in FY 23.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request, but at a reduced total of \$334,468,032. This recommendation incorporates reducing the Homeowners program by \$300 M to \$277.8 M. The other programs are recommended at the requested levels noted above. The LFO further recommends that DRU make monthly reports to the JLCB regarding total disbursements of funding, updated spending projections as they become available, and any relevant program updates that may be of interest to the legislative body. DRU indicates that after a few months, the agency should have a sufficient baseline of distribution rates and is able to return to JLCB on short notice to request additional authority as needed. Approval of the smaller amount will provide sufficient cash authority for the program to ramp up distributions to homeowners while allowing JLCB to receive future updates regarding the pace of distribution as DRU returns to report and request additional federal authority if needed.

The Restore La Program is still in early phases and has not yet initiated distribution of recovery dollars sufficient to develop a solid projected drawdown of federal dollars during FY 18. DRU indicated to the LFO that it has established an aggressive timeline to distribute most funding to homeowners on a two-year timetable and thus requested \$577.8 M toward that program in FY 18. However, as the program ramps up over the coming months, the LFO is not certain whether the agency will realistically be able to distribute that volume of grant awards over the next seven to eight months. Thus, the LFO recommends reducing the \$577.8 M related to the Homeowners program by \$300 M to \$277.8 M. Within a few months, DRU should be able to provide a more accurate forecast of federal drawdown and whether it estimates the need for additional federal authority during FY 18.

Statutory Dedications:	\$0			
Federal Funds:	\$183,333			
Total	<u>\$183,333</u>	Total	<u>\$183,333</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority for the LA Department of Economic Development (LED), Office of Business Development by \$183,333. The source of the federal funds is a grant awarded by the federal Small Business Administration's (SBA) State Trade and Export Promotion (STEP) grant initiative, with the primary objectives of increasing the number of small businesses exporting and to increase the value of exports for small businesses currently exporting. The grant has a cash match component totaling approximately 33%, or \$61,111, of the grant award. LED is dedicating existing budget authority, personal services expenditure authority, and personnel associated with administering the grant to act as the in-kind match. The grant's term began on September 30, 2017 and ends on 9/29/2018.

LED intends to use the grant funds to assist eligible firms in export efforts by providing partial reimbursement of travel expenses for export-related events such as international trade shows and international buyer program shows. Eligible firms may receive a total reimbursement of up to \$5,555 for export-related activities during the term of the grant. LED will only reimburse travel expenses that it has pre-approved. Companies are selected to participate in the program on an application basis and must meet certain eligibility criteria - such as being based in LA, meeting the SBA definition of "small business," and having a developed exporting strategy - before being allowed to participate.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request has a potential impact on FY 19, as the grant's term extends to 9/30/2018. As a result, LED may carry forward grant resources to fund expenditures associated with Louisiana STEP in the 1st Quarter of FY 19 to the extent resources are still available. However, LED will not be able to expend funds associated with this grant award after the 1st Quarter of FY 19 and subsequent FYs.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$122,137	Management & Finance	\$0	0
Federal Funds:	\$0	Environmental Assessment	\$72,212	0
Total	<u>\$122,137</u>	Total	<u>\$122,137</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority in the amount of \$122,137 from the statutorily dedicated Environmental Trust Fund (ETF) in response to two different settlement agreements. DEQ received the signed settlement agreements from Citgo Petroleum Corporation in May of 2017 and Vertex Refining LA, LLC in June of 2017. The Attorney General's Office finalized the settlement agreements in July and August of 2017.

ETF funds totaling \$49,925 were received from Citgo Petroleum Corporation on 8/24/2017. Per the agreement, the department shall use the monies to purchase a generator for the DEQ's Southwest Regional Office located in Lake Charles. This settlement is the result of alleged violations and noncompliance by Citgo which caused an unauthorized discharge of untreated contaminated storm water runoff and oil into waters of the state, as well as alleged noncompliance in submission of information required to the department.

ETF funds totaling \$72,212 are anticipated to be received from Vertex Refining LA, LLC by 10/20/2017. Per the agreement, the department shall use the monies to purchase a community air monitoring station* which shall be located in the vicinity of Marrero on property owned and leased to DEQ by Jefferson Parish. This settlement is due to investigative findings which alleged that Vertex was releasing a higher than permitted amount of emissions that were causing residents in the area to be concerned about the odor. Further it was alleged that Vertex did not provide the department with all of the relevant facts regarding the facility.

The monies collected by the department will be deposited into an escrow account, and the department anticipates beginning the procurement process upon approval of this request.

***Note:** A community air monitoring station is stationary, and allows employees to collect direct measurements of air pollutant concentrations, analyze and interpret data. These stations do not require an employee to be present full time, and an existing employee of DEQ will be able to assume responsibility of this additional station. There are approximately 40 stations throughout the state.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Total	<u>\$101,184</u>	Total	<u>\$101,184</u>	<u>2</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority in the Education Program and to add 2 T.O. positions in order to open an additional classroom for the STARBASE Program at Jackson Barracks. The additional classroom will facilitate providing services to an additional 560 5th grade students from at-risk elementary schools in the New Orleans area, doubling the annual service level at Jackson Barracks from 560 students per year to 1,120. Statewide, the STARBASE program will realize a 28% increase from 2,000 students per year to 2,560.

The funding for the 2 positions will be 100% federally reimbursed through a cooperative endeavor agreement as authorized for federal FY 18. Expenditure of these funds is limited to salaries (\$71,188) and related benefits (\$29,996) for one instructor (Coordinator 1) and one program assistant position. The funding source is anticipated to be recurring.

Assumed annual compensation:

	<u>Salary</u>	<u>Related Benefits</u>	<u>Total Personal Services</u>
Instructor	\$39,988	\$16,850	\$56,838
Program Assistant	\$31,200	\$13,146	<u>\$44,346</u>
			\$101,184

Program Information:

STARBASE is a U.S. Department of Defense nonresidential youth program focusing on elementary students (primarily 5th graders). The goal is to motivate students to explore Science, Technology, Engineering & Math (STEM) activities and careers. Students are provided with real-world applications of math and science through experiential learning, simulations, and experiments in aviation and space-related fields. STARBASE serves students that are historically under-represented in STEM. Students who live in inner cities or rural locations, those who are socio-economically disadvantaged, low in academic performance or have a disability are in the target group. Youth are exposed to technological environments and positive civilian and military role models found on Active, Guard, and Reserve military bases and installations.

II. IMPACT ON FUTURE FISCAL YEARS

The BA-7 request assumes these expenditures and the federal revenue sources to be recurring. Approval of this BA-7 will result in the need to appropriate an equal total from Federal (Direct) in FY 19 and beyond for personal services expenditures related to the increase of 2 authorized positions.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Executive

AGENDA NO.: 3

AGENCY: LA Public Defender Board

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Public Defender Board	\$25,537	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$25,537			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$25,537</u>	Total	<u>\$25,537</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is to increase SGR budget authority for the LA Public Defender Board (LPDB). The LPDB is making this request after receiving a grant totaling \$25,537 from the non-profit Laura & John Arnold Foundation to fund the development of a distribution formula for the LPDB's District Assistance Fund (DAF). As of this writing, the LPDB has received the entirety of the grant from the Laura & John Arnold Foundation.

The DAF is the portion of the LPDB's appropriation that is disbursed to the 42 local public defender offices statewide. The LPDB's goal is to develop a distribution formula using collected data and local practice variables (e.g. litigating death penalty cases, transfers of juveniles to adult courts, juvenile life without parole cases) as well as the local offices' primary staffing practices (full-time vs. part-time staff) that will allow the LPDB to more effectively disburse appropriated funds to local public defender offices.

The LPDB intends to contract with Postlethwaite & Netterville, who the Board previously collaborated with on a caseload study, to develop the distribution formula. Furthermore, the LPDB has partnered with the Blum-Kovler Foundation, a non-profit organization based in Chicago, IL, to conduct this study. The Board estimates the total cost of the study to range between \$30,000 and \$40,000. The \$25,537 SGR requested in this BA-7 will fund the LPDB's portion, with the Blum-Kovler Foundation funding the remaining balance of up to \$10,000, effectively limiting the funding for the study to \$35,537 in total. The LPDB reports that its target date for the formula's completion is January 2018.

For reference, the District Assistance Fund must comprise at least 65% of the LPDB's appropriation from the statutorily dedicated LA Public Defender Fund. In FY 18, the LA Public Defender Fund has a total appropriation of \$32.90 M, therefore the DAF totals at least \$21.39 M in FY 18 (\$32.90 M * 65%). Based on this methodology, the average disbursement for each of the 42 local public defender offices totals \$509,286.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Veterans Affairs

AGENDA NO.: 4

AGENCY: Department of Veterans Affairs

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Claims	\$0	0
Self-Generated Revenue:	\$75,488	Contact Assistance	\$75,488	2
Statutory Dedications:	\$0	State Approval Agency	\$0	0
Federal Funds:	\$0	State Veterans Cemetery	\$0	0
Total	<u>\$75,488</u>	Total	<u>\$75,488</u>	<u>2</u>

I. SUMMARY/COMMENTS

This BA-7 request is to increase SGR budget authority for the Contact Assistance Program within the LA Dept. of Veterans Affairs by \$75,488 to fund 2 additional T.O. positions.. The 2 positions are for Veterans Assistance Counselors in the parishes of Jefferson and St. Tammany. Presently, the Contact Assistance Program does not have any unfilled vacancies.

The LDVA reports that it is requesting the aforementioned positions in Jefferson and St. Tammany as a result of increased contact volume in those 2 parishes, which averaged 1,503 and 1,735 claims per month, respectively, in FY 17. Contacts for each of these offices are approximately triple the contact activity in Orleans Parish, which is third-most active in the region (517 claims per month on average in FY 17). The position located in St. Tammany will operate solely in St. Tammany, while the position located in Jefferson will perform services in Jefferson and the surrounding parishes of the Southeast Region as necessary (the parishes of Ascension, Assumption, Jefferson, Lafourche, Livingston, Orleans, Plaquemines, St. Bernard, St. Charles, St. Helena, St. John, St. Tammany, Tangipahoa, Terrebonne, Washington).

The source of the SGR used for these positions is intergovernmental transfers from local governmental entities statewide through cooperative endeavor agreements (CEAs) that are revised annually. Historically, LDVA revises the CEAs based upon the amount of state support available for the Contact Assistance Program and the amount needed to fully fund the program. LDVA then revises the CEAs with the local governmental entities and assigns a cost for each by formula based upon the number of days per week the Contact Assistance Office is open and the amount of staff in the office. The LDVA then requests payments needed to fully fund Contact Assistance's statewide operations in a given year.

Expenses associated with the 2 positions prorated for the remainder of FY 18 total \$75,488 and are as follows:

Salaries - \$40,914 (\$20,547 * 2)
Related Benefits - \$16,366 (\$8,183 * 2)
Travel - \$2,250 (\$1,125 * 2)
Operating Services - \$5,900 (\$2,950 * 2)
Supplies - \$2,500 (\$1,250 * 2)
Acquisitions - \$7,588 (\$3,794 * 2)

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request will result in 2 positions and additional expenditures of \$89,042 in FY 19 and subsequent fiscal years. To the extent SGR collections are not sufficient to fund the 2 positions in subsequent fiscal years, a separate means of finance may be required.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 5A

AGENCY: Tourism

ANALYST: Monique Appeaning

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Marketing	\$0	4
Self-Generated Revenue:	\$0	Welcome Centers	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>4</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase by 4 the authorized positions in the Office of Tourism. The additional positions will increase the number of authorized positions in the Marketing Program from 13 to 17. The agency reports the means of finance for these positions is the LA Tourism Promotion District (LTPD) funds (SGR). The duties of the additional positions are for domestic sales (3) and international sales (1). The 3 positions for domestic sales will focus on *association/convention sales*, *group tour sales* and *consumer/sports sales*. The position for *association/convention sales* will work closely with the larger convention visitor bureaus around LA to entice businesses to bring conferences and conventions to LA. The position for *group tour sales* will work with all destinations around the state to promote and encourage group tours and group planners to add LA inventory on existing itineraries or create new itineraries that focus on LA. The position for *consumer/sports sales* will work with all destinations around the state to promote and encourage individual travel as well as sports travel. Finally, the position for *international sales* will assist the Director of International Sales & Marketing with the rapidly expanding efforts of LA in the international marketplace. The agency reports that these positions were eliminated under a previous administration and they seek to restore these positions.

Means of Finance

The funding stream used to fund these positions is the result of reducing funding that this agency was sending to the Office of the Secretary in the current year budget. In FY 18, the Office of the Secretary received \$0.5 M SGF which reduced the need for IAT. The savings will provide for the 4 positions, its associated other operating expenditures, and sponsorships.

Projected Personal Services Expenditures

The 4 positions are classified with a job title of *Marketing Representative*. The total salary (\$125,722) and related benefits (\$93,730) for FY 18 is \$219,452 to fully fund all 4 positions (the anticipated start date is 12/18/17). In FY 19, the total salary (\$233,486) and related benefits (\$136,029) is projected at \$369,515. The annual salary ranges from \$54,933 to \$63,898.

The average monthly number of full-time equivalents (FTEs) in the Office of Tourism is 66 since 1/1/2016, leaving an annual average monthly vacancy count of 5. The vacancies are primarily in the Welcome Centers as a result of turnover.

Other Projected Expenditures

Travel - \$40,000 - For actual travel costs and registration fees to attend Travel and Tourism consumer and trade shows.

Operating Services - \$30,000 - For shipping supplies/materials such as tour guides and promotional items to shows and for any organization annual dues.

Acquisitions - \$16,000 - For computers and office furniture.

II. IMPACT ON FUTURE FISCAL YEARS

Personal Services expenditures must be annualized in FY 19 and subsequent fiscal years. While, this BA-7 does not increase appropriation authority, funding these positions requires a change to existing resource allocations.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

September 22, 2017

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 5B

AGENCY: State Museum

ANALYST: Monique Appeaning

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Museum	\$0	(4)
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>(4)</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to decrease by 4 the authorized positions in the Office of State Museums. The decrease will reduce the number of authorized positions from 79 to 75. The 4 positions were part of a layoff plan as a result of lack of funding. It was approved by Civil Service on 8/15/2017 and the layoff plan became effective on 9/1/2017. The 4 positions will offset the increase of 4 positions in the Office of Tourism, which will result in no bottom line change to the overall Department of Culture, Recreation & Tourism position count.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

		1) \$81,506 SGF - Provides for resurfacing of a parking area at YCP-Camp Beauregard. 2) \$309,400 (\$77,350 SGF, \$232,050 Federal) - Provides for building repairs and renovations at YCP-Camp Beauregard.							
CF 3	01 - 116 Executive LA Public Defender Board	<p>The purpose of this BA-7 request is to carry forward funding from the statutorily dedicated LA Public Defender Fund from FY 17 into FY 18. The funds being carried forward are associated with six contracts that have terms lasting beyond 6/30/2017, and the funds are needed for the LA Public Defender Board (LPDB) to meet its obligations under the terms of the aforementioned contracts. The individual contracts, as well as their remaining financial obligations, are as follows:</p> <p>1) <i>Capital Post-Conviction Project of Louisiana (CPCPL)</i> - \$177,627 to fund the remaining balance of a contract that has a total value of \$261,112. The LPDB contracted with the CPCPL to carry out the defense of David Brown, one of the “Angola 5” defendants, in the 20th Judicial District. The contract term is 10/1/2015 to 6/30/2018.</p> <p>2) <i>Capital Appeals Project (CAP)</i> - \$118,377 to fund the remaining balance of a contract that has a total value of \$181,959. The LPDB contracted with CAP to carry out the defense of Jeffrey Clark, one of the “Angola 5” defendants, in the 20th Judicial District. The contract began 1/1/2015 and terminates on 6/30/2018.</p> <p>3) <i>Stone Pigman Walther Wittmann, LLC</i> - \$35,234 to fund the remaining balance of a contract that has a total value of \$188,336. The contractor is providing representation for the LPDB associated with proceedings in <i>State v. Kenneth Willis</i> and <i>State v. Tarika Wilson</i> in the 1st Judicial District Court (Caddo). The contract began 7/1/2015 and terminates on 12/31/2017.</p> <p>4) <i>Don Dovie</i> - \$1,300 to fund the remaining balance of a contract that has a total value of \$8,500. The contractor performs emergency back-up technical support for LPDB’s information technology functions. The contract began on 7/1/2016 and ends on 12/31/2017.</p> <p>5) <i>David Newhouse</i> - \$2,000 to fund the remaining balance of a contract that has a total value of \$4,000. The contractor is responsible for providing updates and enhancements to the LPDB’s Dashboard Reporting System, as well as training materials on the updates. The contract began on 7/1/2016 and ends on 12/31/2017.</p> <p>6) <i>Brian Buel</i> - \$4,815 to fund the remaining balance of a contract that has a total value of \$7,500. The contractor updates and maintains LPDB’s website, as well as determines the need and design for supplemental materials on subjects such as delinquency standards and strategic plans, design and print of the materials. The contract began 7/1/2016 and terminates on 12/31/2017.</p>	\$0	\$0	\$0	\$339,353	\$0	\$0	\$339,353
CF 4	03 - 130 Veterans Affairs Department of Veterans	<p>The purpose of this BA-7 request is to carry forward \$200,000 of IAT funds in the Cemetery Program within the LA Department of Veterans Affairs (LDVA). The IAT funds were transferred from the Southeast LA Veterans Home in FY 17. The source of transferred funds is revenue from insurance co-payments, pension, private pay, room rental, and monthly fees from veterans that is used towards the cost of their care. IAT</p>	\$0	\$200,000	\$0	\$0	\$0	\$0	\$200,000

		<p>funds will be utilized to cover the upfront cost of ground erosion repair and mitigation at the Northeast LA War Veterans Cemetery at Rayville. The erosion was caused by severe thunderstorms and flooding during March and April 2016 that washed away several areas of dirt and landscaping. LDVA anticipates receiving FEMA reimbursement upon completion of repairs. Once LDVA is reimbursed by FEMA, the \$200,000 will be returned to Southeast. Expenditures for this BA-7 request are as follows:</p> <p><u>Professional Services - \$200,000</u> On 06/21/2017, Veterans Affairs entered into an interagency cooperative endeavor agreement (CEA) with the Office of Facility Planning and Control (FP&C) to administer the erosion repair and mitigation project. FP&C is better suited to handle the erosion repair and mitigation project. Therefore, FP&C will administer the design, bidding/solicitation and construction process. Presently, FP&C has assigned a design engineer to detail the scope of work before the project is bid out. The department estimates the project will be completed within a year.</p>							
CF 5	03 - 136 Veterans Affairs Southeast LA War Veterans	<p>The purpose of this BA-7 request is to carry forward SGR at the Southeast LA Veterans Home in Reserve. The source of SGR is insurance co-payments, pension, private pay, room rental, and monthly fees from veterans that are used towards the cost of their care. The SGR funds are for the purchase of vehicles and a backup generator. Expenditures for this BA-7 request are as follows:</p> <p><u>Acquisitions (\$129,549)</u> The purchase of two (2) eight-passenger vehicles with wheel chair lifts (\$111,049) manufactured by Elkhart Coach. Both vans were ordered on 4/17/2017 from Creative Bus Sales, Inc. with an expected delivery date of 9/14/2017 (150 days after order date). These vans are replacements for two older vehicles that were purchased in 2008. Also, \$18,500 will be used to purchase an emergency backup generator from All Star Electric, Inc. The generator was ordered on 6/12/2017 with an expected delivery date of 6 weeks.</p>	\$0	\$0	\$129,549	\$0	\$0	\$0	\$129,549
CF 6	04a - 139 State Secretary of State	<p>The purpose of this BA-7 request is to carry forward a total of \$604,399 in funding for the Administrative Program (\$73,200 SGR), Elections Program (\$294,748 SGF), Archives Program (\$66,983 SGR) and Commercial Program (\$170,008 SGR) from FY 17 into FY 18 to pay bona fide expenditure obligations that were not liquidated prior to the close of the fiscal year as follows:</p> <p><u>Administrative Program (\$73,200 SGR)</u> 1) Moran Printing - Printing the 2016 Buckram Bound Acts. While originally scheduled for printing in FY 17, proofreading delays resulted in postponement of delivery and final invoice until early FY 18.</p> <p><u>Elections Program (\$294,748 SGF)</u></p>	\$294,748	\$0	\$310,191	\$0	\$0	\$0	\$604,939

		1) Dell Computers, Inc. (\$7,757) - Purchase of server parts for the elections program's information technology function. The parts have been received and the Secretary of State is awaiting final invoice. 2) Sara Aucoin (\$20,000) - Graphic design services that are not yet complete. The contract began on 5/3/2017 and terminates on 5/3/2018. The funds being carried forward represent the total value of the contract. 3) Carey T. Jones (\$57,466) - Legal services for the Secretary of State for election matters in federal and state courts. The contract has a total value of \$365,879. The contract term is 7/1/2015 to 6/30/2018. 4) Celia R. Cangelosi (\$157,594) - Legal services for the Secretary of State for election matters in federal and state courts. The contract has a total value of \$346,750. The contract term is 7/1/2015 to 6/30/2018. 5) GCR, Inc. (\$35,931) - Perform modifications to the Elections Program's Elections Registration & Information Network (ERIN) software. The contract has a total value of \$1.6 M. The contract term is 5/1/2013 to 4/30/2018.							
		<u>Archives Program (\$66,983 SGR)</u> 1) Preservation Technologies, LLC (\$66,983) - Convert aging film to digital format. The contract term is 4/27/2017 to 6/30/2018. The funds being carried forward represent the total value of the contract.							
		<u>Commercial Program (\$170,008 SGR)</u> 1) KV Workspace, LLC (\$4,999) - Reconfigure cubicles in the program's office space. The work has been completed and the Secretary of State is awaiting a final invoice. 2) Dell Computers, Inc. (\$13,067) - Provide the remainder of funding for an order of laptop computers with a total purchase price of \$20,043. The computers were received in two separate shipments with a portion being received prior to June 30, 2017, with the remainder being received in FY 18. The balance being carried forward represents the amount still owed for the order, which was partially invoiced by the vendor. 3) GCR, Inc. (\$56,103) - Perform modifications to the Commercial Program's Commercial Online Registration Application (CORA) software. The contract has a total value of \$700,000. The contract term is 5/1/2013 to 4/30/2018. 4) GCR, Inc. (\$95,839) - Perform modifications and ongoing maintenance for the geauxBIZ portal. The total value of the contract is \$5 M. The contract term is 1/1/2014 to 12/31/2018.							
CF 7	04B - 141 Justice Attorney General	The purpose of this BA-7 is to carry forward funding for the Attorney General including \$5,000 of SGF, \$505,927 IAT, \$50,000 SGR, and \$631,279 Statutory Dedications out of the Debt Collection Fund (\$215,586), Legal Support Fund (\$362,617), and Louisiana Fund (\$53,077). Funding is for Supplies (\$7,462), Professional Services (\$819,343), Other Charges (\$131,500), and Acquisitions (\$233,902). 		Litigation Program (\$51,508) <i>Supplies</i> for Department of Justice badges (\$7,462) from Baton Rouge Police Supplies. <i>Acquisitions</i> for office furniture (\$25,758) from The Hon Company and scanners (\$18,288) from HP Inc.							
CF 8	04C - 146 Lieutenant Governor Lt. Governor	<p>The purpose of this BA-7 request is to carry forward funding in the Office of the Lieutenant Governor (OLG) Grants Program for two grants awarded by the Volunteer Louisiana Commission from FY 17 into FY 18 to pay bona fide expenditure obligations that were not liquidated prior to the close of the fiscal year. The first grant was awarded to All Hands Volunteer, Incorporated (\$13,000). The second was awarded to the St. Bernard Project (\$10,000). These grants are community service initiatives that engage volunteers to work on repairs to homes that have been affected by disasters such as the Flood of 2016 in East Baton Rouge, Livingston and Ascension parishes. These grants must be expended prior to 9/1/2017, in order to achieve the federal match requirements for FY 17.</p> <p>The Volunteer Generation Fund Program is operated via the Volunteer Louisiana Commission through the Office of the Lieutenant Governor. The mission of Volunteer Louisiana is <i>to build and sustain high quality programs that meet the needs of Louisiana's citizens and promote an ethic of service</i>. Volunteer Louisiana awards grants to organizations and schools that foster civic responsibility and provide educational opportunities for those who make a substantial commitment to service. In FY 17, the total amount allocated for grants was \$250,000 (\$123K SGF and \$127K IAT). These funds were also used in support of federal match requirements to draw down approximately \$4.6 M in federal funds.</p>	\$23,000	\$0	\$0	\$0	\$0	\$0	\$23,000
CF 9	05 - 251 Economic Development Office of the Secretary	<p>The purpose of this BA-7 request is to carry forward \$4,190,262 (\$538,121 SGF, \$711,200 IAT, \$2,287,878 LA Economic Development Fund, \$653,063 Rapid Response Fund) for the LA Department of Economic Development, Office of the Secretary, from FY 17 into FY 18 to pay bona fide expenditure obligations that were not liquidated prior to the close of the fiscal year. A majority of the funds being carried forward (approximately \$2.32 M statutory dedications, \$414,092 IAT) are associated with 27 contracts in LED's FastStart Program, all of which have terms that end during or extend beyond FY 18. The contracts for FastStart essentially retain instructors and contractors as needed for various projects, and LED's use of the contractors' services may vary. The remaining carry forward items are associated with other professional services contracts, acquisitions, facility operations, and a community development block grant. The items, as well as the carry forward amounts and means of finance, are listed below.</p> <p><u>Professional Services and Other Charges Contracts</u> 1) AECOM, Inc. 		FY 15 = \$101,134 FY 16 = \$ 73,144 <u>FY 17 = \$ 11,466</u> Total = \$233,694							
CF 12	06 - 262 Culture, Recreation & Tourism State Library	The purpose of this BA-7 request is to carry forward funding for the Office of State Library. Work commenced in FY 17 to rewire the State Library for the purpose of updating the IT/computer network and phone system. The current wiring was installed in 1998 and has realized a great deal of damage from rodents. The contractor twice delayed the project, first over concerns regarding potential un-remediated asbestos and a second time over concerns about the possible existence of post-tension cabling in the concrete floors of the library. Proper inspections determined that both asbestos and post-tension cabling were not present and the project continued. Work is scheduled for completion by 9/30/2017.	\$69,592	\$0	\$0	\$0	\$0	\$0	\$69,592
CF 13	06 - 264 Culture, Recreation & Tourism State Parks	The purpose of this BA-7 request is to carry forward funding related to bona fide FY 17 obligations that were not liquidated prior to the close of the fiscal year. The expenditure obligations include reroofing of cabins and lodges at Lake D'Arbonne State Park (\$79,568) and the Group Camp Conference Center at Jimmie Davis State Park (\$78,400). Additionally, a purchase of folding tables, chairs, chair dollies, window treatments and other operating supplies (\$18,813) for Bayou Segnette Group Camp were not delivered on or before June 30th.	\$176,781	\$0	\$0	\$0	\$0	\$0	\$176,781
CF 14	06 - 265 Culture, Recreation & Tourism Cultural Development	The purpose of this BA-7 request is to carry forward SGR funding in the Cultural Development Program from FY 17 into FY 18 to pay bona fide expenditure obligations that were not liquidated prior tot he close of the fiscal year. This request includes funds (\$18,538) for a legal contract for the Historic Preservation Office associated with a tax credit program. The vendor (Taylor, Porter, Brooks & Phillips) prepares, attends and defends the agency in certain depositions and performs certain post-deposition documentation/research. The second part of this request includes funds (\$4,933) providing for services by Heritage Strategies International to present the analysis of a catalytic economic impact study for the CRT's Office of Cultural Development to educate the public and encourage the redevelopment of income-producing historic buildings in LA. In both instances, the deliverables of the contract were not completed by June 30th.	\$0	\$0	\$23,471	\$0	\$0	\$0	\$23,471
CF 15	06 - 267 Culture, Recreation & Tourism Tourism	The purpose of this BA-7 request is to carry forward funding in the Marketing Program (\$880,345) and the Welcome Centers Program (\$36,282) from FY 17 into FY 18 to pay bona fide expenditure obligations that were not liquidated prior to the close of the fiscal year. The SGR is generated through sales and use tax per R.S. 51:1286 that, <i>"provides funds for the purpose of assisting the state in the promotion of tourism."</i> The Federal	\$0	\$0	\$653,277	\$0	\$0	\$263,350	\$916,627

funds are received from the Department of the Interior – National Park Service.

The **Marketing Program** has the following bonafide obligations:

Essence Festivals Productions, LLC – \$98,112 (SGR) – provides operating assistance to the Essence Music Festival. Since the festival is held over multiple days around the 4th of July holiday, the final report and deliverables are not available by June 30th. The CEA between CRT and Essence Festivals Production, LLC includes the 2017 Essence Music Festival dates of June 29th, June 30th, July 1st and July 2nd. The terms of the CEA provide for each Festival Year 2015 – 2019, which obligations and benefits are contingent upon the annual appropriation of funds by the Legislature, to fulfill the requirements set forth in the agreement. The FY 17 budget was \$500,000. Of that amount, \$401,888 was expended for advertisement and the remaining amount of \$98,112 will be paid upon obtaining the final report and deliverables.

Jefferson Parish – Parc des Familles – \$243,883 (SGR) – provides for clearing and preparing property to design and construct a high quality 18-hole Disc Golf Course as a cooperative endeavor agreement to implement the Parc des Familles Master Plan. The deliverables of the contract were not completed by June 30th. The original cooperative agreement (CEA) between CRT and Jefferson Parish was in FY 16 at \$418,500. The CEA was subsequently amended to extend the termination date from March 15, 2017 (FY 17) to 8/15/2017 (FY 18). The amendment extended the final payment not later than 8/1/2017 (FY 18). The construction of Disc Golf Course project was divided into three phases: 1) Preliminary Plans and Land Preparation (\$60,000), 2) Preliminary Construction Documents and Permits (\$45,000) and (3) Finalize Construction Documents, Bids and Construction (\$313,500). Phases I and II are complete leaving Phase III as the last phase to finish. This project has experienced delays primarily due to inclement weather conditions. A total of \$174,617 was expended in FY 17, leaving a balance of \$243,883.

Miles Media Group, LLLP - \$275,000 (SGR) – provides for internet/social/digital marketing services. The deliverables of the contract were not completed by June 30th. CRT has contracted with the Miles Media Group since FY 15. The Contractor is responsible for internet advertising and marketing, including website development and/or enhancements, customer acquisitions and email retention campaigns, multimedia presentations, and account management services, including status reports and project calendars. The contract was amended in FY 17 to increase the contract amount by \$473,041 (from \$5,072,625.46 to \$5,545,666.46) for an additional rebranding campaign and additional marketing opportunities. The remaining amount provides funding for the rebranding project.

James A Decker Builders, Incorporated – \$127,400 (Federal) – provides for the fabrication and installation of 52 kiosks for the Atchafalaya National Heritage Area that were not complete by June 30th. The kiosks are to be located throughout the Atchafalaya trail. Funds are provided through the National Park Service for the Atchafalaya National Heritage Area via Public Law No 108-338 to develop and implement a management plan.

Traffic Solutions – \$135,950 (Federal) - provides for the removal of existing signage, sign

		9) \$74,900 - Rumfola Sales & Service LLC for one (1) culvert cleaner (P.O. date 6/26/2017).							
CF 18	08A - 400 DPSC Corrections Services Administration	<p>The purpose of this BA-7 request is to carry forward SGF in the Office of Management & Finance Program (\$58,214) and the Office of Adult Services Program (\$78,054) from FY 17 into FY 18 to pay for bona fide expenditure obligations that were not liquidated prior to the close of the fiscal year.</p> <p>The Office of Management & Finance Program (OMF) request is for the replacement of two vans that were surplus by the Raymond Laborde Correctional Center and B. B. "Sixty" Rayburn Correctional Center. OMF executed purchase orders for two (2) 15-Passenger Chevrolet Express Vans. Consequently, two vans were eliminated from the vehicle fleet of the respective entities. The costs for the replacement van totaled \$58,214 (Rayburn was \$28,945 and Laborde was \$29,269). These vehicles provide transportation of inmate labor and security for the public purpose of promoting clean and safe highway rights of way consistent with the Project Clean-Up Program. The vehicles were not received on or before 6/30/2017 because the vendor had limited inventory as well as some factory recalls.</p> <p>The Office of Adult Services Program request is for the replacement of two high mileage vehicles for the Investigative Department and one high mileage vehicle for the Medical Department. A purchase order was executed for two (2) Dodge Durangos at a cost of \$24,812.44 each = \$49,624.88 and one (1) Dodge Ram 1500 Crew 4WD V8 at a cost of \$28,429.05, for a total of \$78,053.93.</p>	\$136,268	\$0	\$0	\$0	\$0	\$0	\$136,268
CF 19	08A - 402 DPSC Corrections Services LA State Penitentiary	<p>The purpose of this BA-7 request is to carry forward funding in the Incarceration Program for a commercial water heater at Death Row from FY 17 into FY 18 to pay for bona fide expenditure obligations that were not liquidated prior to the close of the fiscal year. This water heater will replace the current one that is leaking and beyond repair. This item was ordered in FY 17 but was not delivered on or before 6/30/2017. While the purchase order was made in April 2017, the vendor ultimately notified the agency that certain parts needed for installing the heater had been recalled and would be delayed for 6-8 weeks.</p>	\$15,795	\$0	\$0	\$0	\$0	\$0	\$15,795
CF 20	08A - 405 DPSC Corrections Services Raymond Laborde	<p>The purpose of this BA-7 request is to carry forward funding in the Incarceration Program for certain items that were ordered in FY 17 but not delivered on or before 6/30/2017.</p> <p>The items ordered are: \$29,262 – one (1) van to provide offender transportation inside and outside the facility. \$16,784 – one (1) lift for the work area to serve the needs of the compound and provide offenders with work skills. The lift allows individuals to service larger vehicles. \$10,385 – one (1) diagnostic scan tool used for heavy-duty trucks. This equipment is used for diagnosing and programming computer controlled systems for heavy-duty trucks,</p>	\$66,091	\$0	\$0	\$0	\$0	\$0	\$66,091

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$358,414,705	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$10,047,726	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$0	0
Federal Funds:	\$368,462,431			
Total	<u>\$368,462,431</u>	Total	<u>\$368,462,431</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority in Medicaid, Medical Vendor Payments by \$368,462,431 in federal matching funds for projected Medicaid payments in FY 17. The source of federal funds is Title 19 federal financial participation. No additional state match is requested associated with this federal fund increase based on sufficient state match funding currently appropriated in the base budget (based on the 2017 March Medicaid Monthly Financial Report).

Federal Fund Need:

Private Providers Program	\$358,414,705 (\$18.9 M in budgeted state match)
Medicare Buy Ins Program	<u>\$10,047,726</u> (\$6 M in budgeted state match)
	\$368,462,431 Federal fund need

Information provided by LDH indicates federal fund need is largely related to cover costs associated with additional Medicaid expansion enrollees not originally projected in the FY 17 budget. Enrollment reports reflect expansion population enrollment to total 451,592 by 6/30/2017, approximately 77,000 more enrollees (or 439,000 additional member months) assumed in the Medicaid budget. Additional federal fund authority is requested in Private Providers to cover increased enrollment.

Additionally, federal funds are requested to cover the costs associated with Medicare Part B premium and enrollment increases. Premiums are increasing from \$121 to \$149. The monthly Medicaid Report (January 2017) reflects a shortfall of \$16.1 M (\$10,047,726 federal) in the Medicare Buy In program. Additional federal fund authority is being requested in the Medicare Buy Ins program to cover increased premium costs.

II. IMPACT ON FUTURE FISCAL YEARS

The federal matching funds associated with these increases are annualized in the Medical Vendor Payments budget for FY 18.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Health

AGENDA NO.: 2

AGENCY: Behavioral Health

ANALYST: Tanesha Morgan

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$0	Behavioral Health Community	\$371,058	0
Self-Generated Revenue:	\$0	Hospital Based Treatment	\$0	0
Statutory Dedications:	\$0	Auxiliary Account	\$0	0
Federal Funds:	\$371,058			
Total	<u>\$371,058</u>	Total	<u>\$371,058</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal expenditure authority in the amount of \$371,058 in FY 17 for the LDH Office of Behavioral Health (OBH). The funds are associated with a 2-year federal grant award totaling \$16,335,942 and will be used to address the state's opioid crisis by increasing access to treatment. The grant was awarded to OBH by the DHHS Substance Abuse & Mental Health Services Administration (SAMHSA). The grant period is 5/1/2017 through 4/30/2019. There is no state match requirement associated with the grant award.

The funds are intended to increase awareness and education about the treatment and prevention of opioid use and abuse, increase the number of individuals being treated for opioid use disorder (OUD) by 1,670, and increase recovery support services for 600 OUD patients. In FY 17, the agency plans to hire 4.5 temporary non-TO positions: 1 full time Lead Project Director to oversee the program and ensure compliance with LDH and SAMHSA rules and regulations, 1 full time Administrative Assistant, 2 full time Coordinators to provide statewide resource support and to develop and implement policies for opioid treatment programs and a part time coordinator to provide training, education, and technical assistance. Projected expenses in FY 17 are reflected below.

Behavioral Health Community Program (\$371,058)

Salaries	\$36,333	FY 17 Allocation for salaries of 4.5 positions
Benefits	\$17,967	FY 17 Allocation for benefits of 4.5 positions
Travel	\$1,000	In state travel for staff to attend meetings
Professional Services	\$15,758	Education training for health care providers
Supplies	<u>\$300,000</u>	Pharmaceutical supplies (Naloxone - Opioid overdose reversal medication that will be distributed to first responders)
TOTAL	\$371,058	

II. IMPACT ON FUTURE FISCAL YEARS

The SAMHSA grant begins 5/1/2017 and continues through 4/30/2019. This BA-7 provides budget authority for the first 2 months of the grant period in the amount of \$371,058, but the full grant award over the 2-year grant period totals \$16,335,942. To provide authorization for the continuation of this grant through the entire award period, OBH will require federal budget authority in the following amounts by fiscal year: \$8,167,971 in FY 18 and \$7,796,913 in FY 19. In FY 18, the agency will hire 1 additional full time temporary non-TO Data Analyst. The positions will not be funded beyond the term of this grant.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request, but at a reduced amount of \$322,918. The original request was \$371,058, and anticipated that OBH would hire an additional 4.5 temporary non-TO positions and provide educational training to healthcare providers in FY 17. However, the agency will not have sufficient time to fill 3 of these positions and conduct the training by the end of the fiscal year. The positions will be filled and the training will be conducted in FY 18.

DEPARTMENT: Environmental Quality

AGENDA NO.: 3

AGENCY: Environmental Quality

ANALYST: Jodi Mauroner

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Office of the Secretary	\$0	0
Interagency Transfers:	\$0	Environmental Compliance	\$3,145,804	0
Self-Generated Revenue:	\$0	Environmental Services	\$0	0
Statutory Dedications:	\$3,145,804	Management & Finance	\$0	0
Federal Funds:	\$0			
Total	<u>\$3,145,804</u>	Total	<u>\$3,145,804</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the budget authority of the Office of Environmental Quality by \$3,145,804 out of the statutorily dedicated Waste Tire Management Fund.

The Waste Tire Program provides payments to permitted processors for the proper disposal of collected waste tires to the authorized end use. Since 2006, the average annual processor payment totals have been approximately \$10.5 M. The FY 17 budget of \$10 M, was reduced by \$501,000 as part of the Mid-Year Reduction Plan #2. Although DEQ was not anticipating a shortfall, increased activity for a single processor accelerated payments to the extent that revised current year projections of \$13.9 M exceed this amount by \$3.4 M. Per LA RS 30:2418(I)(3)(a), if funding is insufficient to pay the full amount, proportional payments are made to each processor.

There is approximately \$140,000 in expenditure authority from the Waste Tire Fund remaining; existing obligations total \$1.2 M with remaining FY 17 obligations due June 12th and July 12th. These payment amounts will depend upon the actual cash available at that time. As of 4/30/2017 there is a fund balance of \$1.2 M and DEQ projects an additional \$1.9 M in revenue collections through the end of the fiscal year. This BA-7 would appropriate the remaining fund balance as well as the projected revenues to support FY 17 payment obligations.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The FY 18 budget anticipates a payment level consistent with historical averages.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$159,000</u>	Total	<u>\$159,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to receive monies sent from the Division of Administration (DOA) for a contract to transport potable water to the town of St. Joseph. This BA-7 authorizes GOHSEP to receive a funds transfer associated with funds authorized in a BA-7 approved in the DOA budget at the 1/27/2017, meeting of the JLCB. The original source of the monies is from Statutory Dedications - State Emergency Response Fund (SERF).

Approval of this BA-7 provides budget authority for the FY 17 projected costs (5 months) associated with the transportation of potable water to multiple dispensing trailers in the town of St. Joseph. The contract was awarded as a 10-day emergency bid costing \$31,800 per month for one year, or \$381,600 total.

The town of St. Joseph has experienced problems with a poorly maintained and deteriorating water distribution system for the past several years. This has resulted in interruptions in service, boil advisories and evidenced levels of lead contamination in the water system. While the town has initiated replacement of the system, this process is not estimated to be completed until some point in 2018. Meanwhile, the existing system continues to deteriorate. Governor John Bel Edwards issued Executive Proclamation No. 180 on 12/16/2016, declaring a public health emergency within the town of St. Joseph.

II. IMPACT ON FUTURE FISCAL YEARS

The annual contract amount for the 10-day emergency bid to provide transportation of potable water to multiple dispensing trailers for the town of St. Joseph, La., will require an increase of \$222,600 IAT in the FY 18 budget recommendation for GOHSEP over the amount currently contained in HB 1 Original.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$371,709</u>	Total	<u>\$371,709</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to receive reimbursements from the states of South Carolina, Florida and North Dakota to cover expenses incurred by activation of LA's Emergency Assistance Compact (EMAC) when providing assistance during Hurricane Matthew in October 2016 and the Dakota Access pipeline protest.

EMAC is an all hazards - all disciplines mutual aid compact that serves as the cornerstone of the nation's mutual aid system. EMAC is a national disaster-relief compact ratified by the U.S. Congress and signed into law in 1996 (Public Law 104-321). Through EMAC, 50 states, the District of Columbia, Puerto Rico, Guam, and the U.S. Virgin Islands have enacted legislation to become EMAC members. EMAC offers assistance during governor-declared states of emergency or disaster through a responsive, straightforward system that allows states to send personnel, equipment, and commodities to assist with response and recovery efforts in other states.

This BA-7 will increase GOHSEP's SGR authority to provide sufficient budget resources to receive reimbursements for expenditures realized by the Department of Military Affairs for its response in South Carolina and Florida during Hurricane Matthew and its aftermath in October of 2016. This BA-7 will also provide authority to receive reimbursements for expenditures realized with the Dakota Access pipeline protest.

This BA-7 increases authority in the Other Charges expenditure category associated with activation of the EMAC as detailed below.

*Hurricane Matthew response - \$352,584 (to be sent by IAT to Military Affairs, see companion BA-7 #2B)

Expenditures incurred by the Department of Military Affairs were associated with the deployment of personnel and equipment to South Carolina and Florida during the impact of Hurricane Andrew from 10/8/2016 - 10/21/2016.

Cost breakdown:

	Florida	South Carolina	Total
State Active Duty Pay	\$7,497	\$10,679	\$18,176
Travel	\$0	\$960	\$960
Equipment Usage/ Aviation	<u>\$131,015</u>	<u>\$202,433</u>	<u>\$333,448</u>
	\$138,512	\$214,072	\$352,584

*Dakota Access pipeline protest - \$78,782

Expenditures incurred by the deployment of law enforcement support services on two occasions dating 11/5/2016 - 11/14/2016 and 1/9/2017 - 1/19/2017. This deployment included:

4 Lafourche Parish Deputies from 11/5/2016 - 11/14/2016:	\$19,010
----------------------------------------------------------	----------

May 22, 2017

Total	<u>\$100,000</u>	Total	<u>\$100,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedications budget authority by \$100,000 in the LA Military Family Assistance (MFA) Fund within the LA Department of Veterans Affairs (LDVA). The original source of revenue is private donations made by individuals and corporations directly to the MFA fund. As of 03/06/2017, the MFA unreserved fund balance was \$347,170.

The MFA fund assists members of LA National Guard (LANG) and U.S. Armed Forces Reserves and their families with any financial hardships they may encounter when the members are placed on active-duty status or deployment. Awards from the MFA fund help defray travel expenses for these service members. The Department of Veterans Affairs was informed by the LA National Guard (LANG) of two deployments in May 2017 and June 2017. MFA funding will be used to assist LANG reservists with travel expenses associated with leave before deployment. The projected travel expense for each deployment is \$50,000.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR by \$200,000 at the Southeast LA Veterans Home in Reserve. The source of SGR is insurance co-payments, pension, private pay, room rental, and monthly fees from veterans that is used towards the cost of their care. Southeast projects a \$885,753 SGR fund balance at the end of FY 17. Southeast intends to transfer the \$200,000 to LA Department of Veterans Affairs (LDVA) to cover the upfront cost of ground erosion repair and mitigation at the Northeast LA Veterans Cemetery at Rayville in Richland parish and Northwest LA Veterans Cemetery at Keithville in Caddo parish cemeteries. The erosion was caused by severe thunderstorms and flooding during March and April 2016 that washed away several areas of dirt and landscaping at the cemeteries. Information from the LDVA indicates Southeast is lending the funds to the agency. Once LDVA is reimbursed by FEMA, the \$200,000 will be returned to Southeast.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is twofold - (1) properly align means of financing; and (2) provide additional SGR budget authority in the Contact Assistance Program and the Veterans Cemetery Program. Specifically, this request adds \$66,925 of SGR in the Contact Assistance Program. The source of SGR is parish contributions toward providing veterans service office. In the Veterans Cemetery Program, this request increases IAT budget authority by \$200,000 to receive funds transferred from Southeast LA Veterans Home (Companion BA-7 #2) as well as properly align means of financing to add \$295,714 of SGR and decrease Federal funds by \$195,714. The source of SGR is fees collected from burials of veteran's spouses.

	<u>Means of Financing (MOF) Adjustments Requested by Program</u>	
	<u>Contact Assistance Program</u>	<u>Veterans Cemetery Program</u>
Interagency Transfers (IAT)	\$ 0	\$200,000
Self-Generated Revenue(SGR)	\$66,925	\$295,714
Federal Funds	\$ 0	<u>(\$195,714)</u>
	\$66,925	\$300,000

Contact Assistance Program - \$66,925

The BA-7 increases SGR budget authority by \$66,925 to fund one-time expenses in the Contact Assistance program.

Expenditures are as follows:

Travel (\$18,765) - Veterans Assistance Counselors (VAC), Regional Managers, Veterans Assistance Paralegal Counselors, and other program staff to attend four more training conferences. The training conferences are needed to address the frequent updates and changes to the US Department of Veterans Affairs benefit claim system.

Operating Services (\$18,965) - To address internet connectivity and remote access issues particularly in field offices in rural parishes.

Supplies (\$8,033) - Additional office supplies are needed in the field offices

Other Charges (\$10,722) - A part-time WAE employee in the Lincoln Parish Service Office who will also work in other field offices on an as-needed basis.

Acquisitions (\$10,440) - Office furniture such as conference table and chairs in the field offices.

Veterans Cemetery Program - \$300,000

The BA-7 utilizes \$200,000 of IAT transferred from the Southeast LA Veterans Home to cover the upfront cost of ground erosion repair and mitigation at the Northeast LA Veterans Cemetery at Rayville in Richland parish and Northwest LA Veterans Cemetery at Keithville in Caddo parish cemeteries. The erosion was caused by severe thunderstorms and flooding during March and April 2016 that washed away several areas of dirt and landscaping. Information from the LA Department of Veterans Affairs (LDVA) indicates Southeast is lending the funds to the agency. Once LDVA is reimbursed by FEMA, the \$200,000 will be returned to Southeast.

In addition, \$100,000 of SGR fund balance from the prior fiscal years will be used for a filtration system at Central LA Veterans Cemetery at Leesville in Vernon parish. The filtration system will remove iron in the water that stains the headstones

Federal Funds:	\$160,000			
Total	<u>\$160,000</u>	Total	<u>\$160,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority for the Dept. of Economic Development (DED), Office of Business Development by \$160,000. The source of the federal funds is a grant awarded by the federal Small Business Administration's (SBA) State Trade and Export Promotion (STEP) grant initiative, with the primary objectives of increasing the number of small businesses exporting and to increase the value of exports for small businesses currently exporting. The grant has an in-kind match component totaling approximately 33%, or \$53,333, of the grant award. DED is dedicating existing budget authority, personal services expenditure authority, and personnel associated with administering the grant to act as the in-kind match. The grant's term began on 9/30/2016 and ends on 9/29/2017.

DED intends to use the grant funds to assist eligible firms in export efforts by providing partial reimbursement of travel expenses for export-related events such as international trade shows and international buyer program shows. Eligible companies may receive a reimbursement up to \$2,500 for any single export-related activity, and up to \$5,000 for all export-related activities during the term of the grant. The DED will only reimburse travel expenses that it has pre-approved. Companies are selected to participate in the program on an application basis and must meet certain eligibility criteria - such as being based in Louisiana, meeting the SBA definition of "small business," and having a developed exporting strategy - before being allowed to participate.

Note: this BA-7 request was submitted to the Office of Planning and Budget on 1/5/2017, and was not on the final agenda for the February meeting of the Joint Legislative Committee on the Budget. The DED has not spent any funds associated with this BA-7 request, but has entered into contracts for reimbursement with firms pursuant to the terms of the federal grant funding associated with this request, which are contingent upon the request's approval. In the event the BA-7 is not approved, the contracts may be terminated.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request may impact the DED for the first quarter of FY 18, as the term of the grant ends on 9/29/2017. To the extent that DED does not exhaust the grant resources in FY 17, the remaining funds may be carried forward into FY 18 and used prior to the grant's termination date. However, the grant will not affect the remainder of FY 18 beyond the termination date, nor will it affect subsequent FYs.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$170,000			
Total	<u>\$170,000</u>	Total	<u>\$170,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority for the Dept. of Economic Development (DED), Office of Business Development by \$170,000. The source of the federal funds is a grant awarded on 2/13/2017, by the federal Economic Development Administration (EDA). The grant has a match component totaling \$175,000 that the DED is meeting by utilizing existing state funding expenditure authority in travel (\$45,000) and other charges (\$130,000). The term of the grant is 1/1/2017, to 6/30/2019.

The purpose of the grant is to develop and implement a predictive investment model for use statewide, which can be used to target and contact businesses that fit the profile of a firm deemed likely to invest in Louisiana. The DED reports that development and implementation of the predictive investment model will occur in two phases and must be completed within 30 months.

Phase I consists of securing a research firm that will identify metrics to develop into the predictive investment model that DED will use to identify and target foreign businesses that may directly invest in Louisiana. The estimated timeframe for completion of Phase I is 3 - 8 months.

Phase II consists of DED testing the predictive investment model's accuracy, then conducting outreach to businesses who fit the framework of firms deemed likely to invest in LA. Furthermore, as DED is conducting outreach, it will simultaneously refine the predictive model based upon the outcomes of its ongoing outreach activities. The estimated timeframe for completion of Phase II is 21 - 24 months.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request may impact the DED for FYs 18 and 19, as the term of the grant ends on 6/30/2019. To the extent the DED does not exhaust the grant resources in FY 17, the remainder of the grant award may be carried forward into FY 18 and FY 19. However, due to the grant award's term, the funds cannot be expended beyond FY 19.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Health

AGENDA NO.: 6

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$0	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$82,475,174	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$218,291,889	0
Federal Funds:	\$135,816,715			
Total	<u>\$218,291,889</u>	Total	<u>\$218,291,889</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase both SGR budget authority (\$82,475,174) and Federal funds budget authority (\$135,816,715), for a total increase of \$218,291,889 in Medical Vendor Payments, Uncompensated Care Costs Program. The source of SGR are revenues transferred from various hospital providers and LSU Medical School in New Orleans. The source of Federal funds are Medicaid federal matching funds. Fee revenues will be used as a state match source to make \$218 M in additional Disproportionate Share Hospital (DSH) payments to certain hospitals in FY 17. DSH payments are authorized by the Centers for Medicare & Medicaid Services (CMS) under Medicaid State Plan Amendment 16-0018 (DSH payments to major medical centers in central and northern LA) and State Plan Amendment 10-26 (Low Income & Needy Care Collaboration, or LINCCA).

Note: Total budget authority requested in this BA-7 is overstated by \$10 M, in both SGR budget authority (\$3.774 M) and matching Federal funds authority (\$6.226 M). This is the result of the \$3.7 M in Fee Authority being added in an October 2017 BA-7. The adjusted amount is reflected in the LFO recommendation below. The adjustment to the MOF in this BA-7 does not change the DSH payment schedule reflected below.

Approximately \$82.5 M in revenues will be transferred through an Intergovernmental Transfer (IGT) process to the LA Department of Health (LDH). The illustration below reflects the state match source amounts transferred by provider/medical school.

Match for Additional Hospital Spending:

\$1,029,854 - Abbeville General Hospital
\$443,054 - Allen Parish Hospital
\$16,667,259 - East Jefferson General Hospital
\$618,869 - Jefferson Parish Human Services Authority
\$2,447,344 - LaFource Parish Hospital Service District
\$994,409 - Natchitoches Parish Hospital
\$1,758,150 - New Orleans East Hospital
\$5,517,163 - Savoy Medical Center
\$20,747,048 - Southern Regional Medical Center
\$2,500,000 - St. Charles Parish Hospital
\$1,731,302 - St. Tammany Parish Hospital Service District
\$6,783,928 - LSU Health Sciences Center New Orleans
\$21,236,794 - North Oaks Medical Center
\$82,475,174 - TOTAL Fees used as a state match source

The state match source will be used to make a total of \$218.2 M in additional hospital payments (\$135.8 M federal matching funds) to certain hospitals. Additional DSH payments by specific hospital are reflected below.

March 24, 2017

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

Additional Payments by Hospital:

\$9,216,951 - Baton Rouge General
\$8,167,078 - Christus Schumpert
\$25,089,964 - Christus St. Francis Cabrini
\$4,454,685 - Lakeview Medical Center
\$6,328,235 - Ochsner Baton Rouge
\$37,987,047 - Ochsner Foundation
\$3,527,679 - Ochsner Kenner
\$4,128,955 - Ochsner Northshore
\$16,189,021 - Rapides Regional Medical Center
\$20,488,918 - Regional Medical Center of Acadiana
\$8,498,574 - Tulane University
\$25,417,643 - St Francis Medical Center
\$48,797,139 - Willis Knighton Medical Center
\$218,291,889 - TOTAL Additional DSH Payments to Hospitals

Note: For FY 17, there is insufficient room under LA's federal DSH allotment (cap) to implement the additional DSH payments reflected in this BA-7. Based on projected DSH payments in FY 17, available DSH federal fund cap room is \$83,802,835. This BA-7 requests to add an additional \$135 M in Federal funds, exceeding the federal DSH allotment by approximately \$52 M. LDH indicated they will charge against prior year allotments so as to not exceed the DSH cap. Specifically, LDH will charge \$23.6 M against the FY 15 allotment and \$42.4 M against the FY 16 DSH allotment.

II. IMPACT ON FUTURE FISCAL YEARS

Providing these additional payments in FY 18 and future fiscal years will require a similar state match financing mechanism in which providers/medical schools provide the state match source (through and IGT), or will require appropriation of additional SGF or other state match funds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request at a reduced amount of \$208 M (\$78,701,174 SGR, \$129,590,715 Federal). Total budget authority requested in this BA-7 is overstated by \$10 M, in both SGR (\$3.774 M) and matching Federal funds (\$6.226 M). This is the result of the \$3.7 M in SGR being added in an October 2017 BA-7.

Federal Funds:	\$0			
Total	<u>\$280,456</u>	Total	<u>\$280,456</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA7 request seeks to increase Statutory Dedication authority by \$280,456 from the State Emergency Response Fund (SERF) to provide for state activities providing support to the Town of St. Joseph in Tensas Parish for deficiencies related to its water distribution system. The proposed increases are funded by an available undesignated balance in SERF carried over from prior fiscal years and equal to the request. The appropriation will deplete the entirety of the undesignated fund balance.

The town of St. Joseph has experienced problems with a poorly maintained and deteriorating water distribution system for the past several years. This has resulted in interruptions in service, boil advisories and evidenced levels of lead contamination in the water system. While the town has initiated replacement of the system, this process is not estimated to be completed until some point in 2018. Meanwhile, the existing system continues to deteriorate. Governor John Bel Edwards issued Executive Proclamation No. 180 on 12/16/2016, declaring a public health emergency within the town of St. Joseph.

This BA-7 request will authorize the distribution of monies to three separate state agencies responding to this declaration, the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP), the Department of Military Affairs, and the LA Department of Health (LDH) - Office of Public Health (OPH). The monies will be budgeted within the Division of Administration (DOA) budget as Other Charges - Interagency Transfer. Upon receipt of the monies from the DOA, the respective agencies will expend the funds as reflected below:

GOHSEP - 10-day emergency bid contract for the transportation of potable water to multiple dispensing trailers in the town of St. Joseph. The total cost of the contract is estimated at \$330,000 for 365 days. FY 17 projected costs total \$137,500 for five months between February and June (\$27,500 per month).

Military Affairs - Provides funding for the use of water trailer trucks provided by the Louisiana National Guard. The total cost is estimated to be \$107,310 for 365 days. FY 17 projected costs total \$45,864 for approximately 5 months (\$294 per day).

LDH, OPH - Provides funding for testing supplies, an environmental assessment contract and labor costs associated with training. The estimated FY 17 costs are \$223,000.

Note: The current agency budget estimates total \$406,364 in FY 17 expenditures, while this BA-7 authorizes only \$280,456. DOA has \$100,000 in SERF appropriated in its base budget to respond to emergency requests of this nature. DOA will allocate the entirety of this existing appropriation to the same purposes as this BA-7 item, providing total funding of \$380,456. DOA reports that the figures provided by the agencies below are estimates. Should the need arise, the additional estimated need of \$25,908 will either require a supplemental appropriation or the agencies would be required to absorb that additional cost within their existing resources. The LFO assumes the total appropriation will be distributed on pro-rata basis to the relevant agencies in the event total funding is insufficient.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

II. IMPACT ON FUTURE FISCAL YEARS

Upon approval of this BA-7 request, state agencies will enter into a one-year contract for specified services, a term that will cross over until FY 18. Accordingly, the agencies will require additional budget authority as below in FY 18 to fully fund the estimated contract term. These adjustments will be required either in the executive budget recommendation or by legislative amendment.

FY 18 Projected Cost Needs

GOHSEP - \$192,500

Military Affairs - \$61,446

LDH, OPH - At the current time OPH is not able to forecast additional costs into FY 18. As part of the emergency declaration, the agency was required to take on additional testing and monitoring outside of the normal scope of their operations. They believe that portion of the emergency will be ended at the conclusion of the current fiscal year. To the degree that ongoing efforts are necessary beyond the agency's base level of water monitoring, an unknown level of additional resources may be required to provide for public safety.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: DPSC Corrections Services

AGENDA NO.: 2

AGENCY: LA State Penitentiary

ANALYST: Monique Appeaning

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>	
State General Fund (SGF):	\$0	Administration	\$0	0
Interagency Transfers (IAT):	\$0	Incarceration	\$2,800,000	0
Self-Generated Revenue (SGR):	\$2,800,000	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,800,000</u>	Total	<u>\$2,800,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR authority by \$2.8 M in the Department of Public Safety - Correction Services for the Louisiana State Penitentiary (LSP) Incarceration Program. The estimated revenue sources are LSP *Angola Prison Rodeo* related activities such as ticket sales (\$1.1 M) and hobbycraft sales (\$1.7 M).

The department's breakdown of the \$2.8 M SGR is:

- 1) \$1.6 M estimated revenue and expenditures from the upcoming April 2017 LSP *Angola Prison Rodeo*
- 2) \$0.7 M revenue generated at the October 2016 Angola Prison Rodeo
- 3) \$0.5 M accumulated undesignated fund balance at 6/30/2016

Currently, the revenues and expenditures of LSP *Angola Prison Rodeo* do not flow through the State Treasury and the Louisiana Legislature does not appropriate them. *Proceeds from the Angola Prison Rodeo cover rodeo expenses and per the Rodeo Charter, all revenues generated are to be used solely for the benefit of the LSP inmate population.* This BA-7 seeks to move LSP *Angola Prison Rodeo* revenues and expenditures on budget.

The *Angola Prison Rodeo* has been in existence since 1964 and it is the longest running prison rodeo in the nation. The rodeo contracts with professional rodeo stock contractors for events. Professional judges are hired to provide objective judging at each event and professional rodeo clowns are hired for the safety of inmate participants. Also, emergency services personnel are onsite to provide medical assistance to inmates and spectators if needed.

The agency has allocated \$2.8 M in the following expenditure categories:

\$500,000 - Overtime for DOC employees who work at the rodeo but do not have housing at LSP

\$15,000 - Travel for training and conferences for staff responsible for the *Re-Entry Program at LSP

\$20,000 - Operating Services for rentals of equipment such as man lifts to put up rodeo banners and other items in the arena

\$1,620,000 - Supplies for food, household goods, building and grounds, and maintenance supplies associated with the rodeo; supplies for the *Re-Entry Program

\$55,000 - Professional Services for clowns, judges, bullfighters and specialty artists

\$15,000 - Interagency Transfers for printing of the programs and flyers by State Printing

\$575,000 - Acquisitions for replacement equipment: one ice house (\$269,000), one bus (\$125,000) and two ambulances (\$181,000)

The agency reports the following:

- a) The current ice house does not produce enough ice to keep up with demands.
- b) The bus replaces a current bus that requires frequent repairs. The bus is used to transport prison and inmate visitors at LSP year-round.
- c) The two ambulances will replace two that currently require frequent repairs. The ambulances provide transportation of inmates in emergency situations at LSP year-round in addition to the rodeo.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

**The agency explained that these Re-Entry expenditures are not new, but are an off-budget activity and the funds allocated, \$15,000 for travel related expenditures and \$151,000 for supplies are for ongoing efforts. These monies provide for trade certification testing and supplies.*

The agency reported the following FY 15 and FY 16 revenue and expenditures of the Angola Prison Rodeo:

FY 15

Total Revenue = \$2,810,726
Total Expenditure = \$2,953,520

FY 16

Total Revenue = \$3,064,905
Total Expenditure = \$2,711,028

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. However, the agency estimates that it will request annual budget authority of approximately \$4.2 M. Any such adjustment will require legislative authorization.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The LFO recommends an increase of \$1,535,000 in SGR authority to the Auxiliary Account. While the LFO agrees that the Angola Prison Rodeo should be placed on budget and subjected to legislative oversight, it is not clear that appropriating these funds to the Incarceration Program is an appropriate solution. As a unique enterprise, the rodeo is not easily comparable to other functions of state government. Generally, operations that provide entertainment or recreational services and products to the general public operate as standalone agencies or are classified as auxiliary or ancillary budgetary units. For this reason, the LFO recommends that the appropriation be made in the Auxiliary Account as a short-term budgetary solution but suggests that the legislature consider legislation establishing a separate budget unit or program, legislative authorization and goals, allowable uses and prioritization of monies generated, and to provide for any other related matters.

The LFO's recommendation of \$1.535 M comprises the following items:

- a) \$1.1 M for the April 2017 Angola Rodeo (based on the total revenue generated at the April 2016 Rodeo).
- b) \$269,000 for a new icehouse. The current icehouse does not meet current facility demand and suffers from frequent mechanical failures. The icehouse provides ice for the rodeo as well as inmates and staff throughout the facility year-round.
- c) \$166,000 for reentry activities that support Reentry Courts (currently in 14 judicial districts), providing inmates who agree to participate in the program with an opportunity to obtain skilled trade certifications in return for a reduced sentence. While acknowledging that this program is not directly related to the rodeo; the LFO recommends funding this activity as a benefit to the state, providing cost savings through shortened sentences and potential reduced recidivism rates by providing a pathway to increased employment opportunities upon release.

The \$435,000 for the icehouse and Reentry expenditures will be funded from the current cash balance of approximately \$1.2 M. Assuming all cash balances are deposited into the Treasury per LAC 7:9, the remaining balance of \$765,000 will be income not available to the agency unless legislative action is granted to allow the agency to expend it in FY17 or carry it into FY18. Per R. S. 39:82 all unexpended SGR will revert to the SGF at the end of FY17.

DEPARTMENT: Other Requirements

AGENDA NO.: 3

AGENCY: State Sales Tax Dedications

ANALYST: Alan M. Boxberger

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Sales Tax Dedications	\$713,619	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$713,619			
Federal Funds:	\$0			
Total	<u>\$713,619</u>	Total	<u>\$713,619</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA7 request seeks to increase Statutory Dedication authority by \$589,718 from the Tangipahoa Parish Economic Development Fund and \$123,901 from the Tangipahoa Parish Tourist Commission Fund. The proposed increases are funded by an available undesignated balance in each fund carried over from prior fiscal years and equal to the request. The appropriation will deplete the entirety of the fund balances carried forward in both of these funds from prior years. Approval of this request will increase the FY 17 appropriation from the Tangipahoa Parish Economic Development Fund to a total of \$769,718 from the existing level of \$180,000. Likewise, the appropriation from the Tangipahoa Parish Tourist Commission Fund will increase to a total of \$601,886 from \$477,985. Revenues deposited in both funds are derived from state sales tax receipts on hotel/motel room rentals in Tangipahoa Parish.

The additional funds will provide for marketing efforts by the Tangipahoa Parish Tourist Commission to promote business and tourism in Tangipahoa and surrounding regions.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The appropriation levels in FY 18 will not exceed projected fund revenues as recognized by the Revenue Estimating Conference.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Veterans Affairs

AGENDA NO.: 1

AGENCY: LA War Veterans Home

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA War Veterans Home	\$347,693	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$347,693			
Total	<u>\$347,693</u>	Total	<u>\$347,693</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$347,693 at the LA Veterans Home located in Jackson. The increase in Federal funding is a result of the following: (1) the daily reimbursement rate paid by the U.S. Department of Veterans Affairs (USVA) has increased; and (2) appropriation of prior year fund balance. There is no state match requirement associated with these Federal funds. The fund balance will be used for one-time expenditures including acquisitions and major repairs.

Daily Reimbursement Rate Increase (\$119,738)

The LA Veterans Home is a 161 bed facility. In October 2016, the daily reimbursement rate from the USVA increased from \$103.61 to \$106.04, an increase of \$2.43. Based on an average daily census of 135 veterans, LA Veterans Home anticipates an increase of \$119,738 in Federal revenue (135 veterans x \$2.43 increase daily reimbursement rate x 365 days).

Federal Fund Balance (\$227,955)

The LA Veterans Home has accumulated a Federal fund balance of \$227,955 from FY 16. Budgeting these funds will exhaust the FY 16 fund balance. The fund balance will be used for one-time expenditures including acquisitions and major repairs.

The agency intends to use the additional \$347,693 of Federal funds as follows:

Acquisitions (\$52,893) - Due to mechanical issues, a new utility tractor (\$42,119) and commercial mower (\$10,774) need to be replaced to maintain the grounds of the home.

Major Repairs (\$294,800) - The veterans home was constructed over 35 years ago. Many components of the building need replacing and upgrading. The floors in the main hallway, lobby and main dining area of the facility need replacing (\$125,000). The exterior fire/security doors need replacing (\$157,000). In addition, the light poles on the grounds of the facility need replacing (\$12,800).

LA Veterans Home (Jackson) Federal Funding
Daily Reimbursement Rate Increase - \$119,738
Fund Balance - <u>\$227,955</u>
Total <u>\$347,693</u>

II. IMPACT ON FUTURE FISCAL YEARS

Information provided by the LA Veterans Home indicates that the daily reimbursement rate increase of \$106.04 will continue in FY 18 and future fiscal years. All revenue will be expended on operation of the veterans home and services to veterans.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

December 15, 2016

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Veterans Affairs

AGENDA NO.: 2

AGENCY: Southwest LA War Veterans Home

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Southwest LA War Veterans Home	\$1,000,000	0
Interagency Transfers:	\$80,800			
Self-Generated Revenue:	(\$128,736)			
Statutory Dedications:	\$0			
Federal Funds:	\$1,047,936			
Total	<u>\$1,000,000</u>	Total	<u>\$1,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to properly align means of financing by adding \$80,800 of IAT budget authority as well as decreasing SGR by \$128,736 and increasing Federal funds by \$1,047,936 at the Southwest LA Veterans Home in Jennings. There is no state match requirement associated with these Federal funds.

Addition of IAT (\$80,800)

Additional IAT funds will be used for the salary (\$54,000) and related benefits (\$26,800) for a shared internal auditor position that was previously housed at the Northeast Veterans Home. In FY 17, the internal auditor position was placed under Southwest veterans home. Each of the other 4 veterans homes send revenue to cover 20% of the cost of salary and related benefits. The original source of IAT funds are SGR and Federal funds from the care of veterans. The salary and related benefits of the position are \$127,366 (\$88,254 salary and \$39,1120 related benefits). The \$80,800 represents funding for approximately 7.5 months of the FY 17 fiscal year.

\$20,200 - LA War Veterans Home in Jackson
\$20,200 - Northwest LA War Veterans Home in Bossier City
\$20,200 - Southeast LA War Veterans Home in Reserve
\$20,200 - Northeast LA War Veterans Home in Monroe
\$80,800 - Total IAT for Internal Auditor position

Net MOF Swap of SGR and Federal Funds (\$586,299 = \$715,035 Federal - \$128,736 SGR)

The increase in Federal funding of \$715,035 at Southwest veterans home is due to additional Federal reimbursement as a result of projected higher number of veterans who are 70% service-connected disabled (i.e. a condition related to their military service). These veterans receive a higher per diem rate from the U.S. Department of Veterans Affairs (USVA); thereby increasing Federal reimbursement. Southwest is a 156 bed facility. The average census of veterans who are 70% service-connected disabled at Southwest veterans home has increased from 20 to 26. Once a veteran becomes 70% service-connected disabled, the USVA per diem increases from \$106.10 (basic rate) to \$326.50 (70% service-connected rate), an increase of \$220.40. Federal revenue is based on an average increase of 6 veterans who are 70% service-connected disabled that is \$715,035 (\$326.50 x 6 x 365).

With the enhanced USVA per diem rate, veterans who are 70% service-connected disabled or higher are no longer contributing as much to the cost of their care (co-payments, pension, private pay, room rental, monthly fees, etc). As a result, Northeast veterans home anticipates a decrease in SGR of \$128,736.

Federal Fund Balance (\$332,901)

Since September 2015, the average number of veterans with a 70% service-connected disabled at Southwest veterans home has been increasing. As a result, Southwest has accumulated a Federal fund balance of \$332,901 to carryover from FY 15. The carryover funds will be used for one-time expenditures, i.e. major repairs.

The agency intends to use the additional revenue as follows:

December 15, 2016

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Operating Services (\$10,000) - Expenses for lab, x-ray and other services.

Supplies (\$18,000) - Medication, medical supplies, and food.

Professional Services (\$30,000) - Expenses for therapy services.

Interagency Transfers (\$30,000) - Prescription medication provided by Southeast.

Acquisitions (\$27,745) - Purchase of Fuel Purification System to maintain the quality of diesel fuel stored for generators.

Major Repairs (\$803,455) - Purchase and installation of 124 HVAC attic units for patient rooms and 74 HVAC hallway units (\$695,455), two tankless water heaters (\$78,000), and repair of an outside condenser and inside evaporator for two walk-in coolers and a walk-in freezer (\$30,000).

II. IMPACT ON FUTURE FISCAL YEARS

Information provided by the Southwest veteran home indicates that the average census for veterans who are 70% service-connected disabled will continue to be at least 26 in FY 18 and future fiscal years. All revenue will be expended on operation of the veterans home and services to veterans.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$805,733</u>	Total	<u>\$805,733</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$805,733 at the Southeast LA Veterans Home located in Reserve. The source of SGR is insurance co-payments, pension, private pay, room rental, monthly fees, and other pay from veterans towards the cost of their care. Southeast has accumulated a SGR fund balance of \$805,733 from the prior four fiscal years. The fund balance will be used for one-time expenditures including acquisitions and major repairs.

Southeast LA Veterans Home
(Reserve)
SGR Fund Balance
FY 12 - \$514,411
FY 13 - \$125,482
FY 14 - \$107,870
FY 15 - \$ 57,970
Total \$805,733

The agency intends to use the fund balance as follows:

Acquisitions (\$445,733) - Purchase two walk-in coolers and a walk-in freezer (\$80,000); purchase a multi-temperature tray delivery cart (\$10,513); purchase a Powerstream Gas convention steamer with cabinet base (\$14,109); upgrade the fire alarm system (\$8,249); replacement and upgrade of 63 computers and wireless access points (\$103,842); purchase 78 hospital beds and mattresses (\$163,020); purchase ten air mattresses (\$16,000); and purchase an eight passenger bus with two wheelchair lifts from ENC Advantage (\$50,000).

Major Repairs (\$360,000) - Painting the interior of the facility.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,000,000</u>	Total	<u>\$1,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR expenditure authority in the amount of \$1,000,000 in FY 17 for the Department of Culture, Recreation & Tourism's Office of Tourism, Marketing Program. This BA-7 request seeks to budget increased SGR from a recognized fund balance of \$3.81 M carried forward from FY 16.

With the additional budget authority, the Marketing Program intends to supplement current year advertising and marketing campaigns designed to enhance awareness of tourism opportunities in LA. This BA-7 request will increase the operating services (ad campaigns) and professional services (sponsorships) expenditure categories in the Marketing Program by \$500,000 each.

Operating Services - \$500,000

Dick Clark's New Year's Rockin' Eve- \$150,000

Partnership with the LA Seafood Promotion & Marketing Board, Allstate Sugar Bowl, New Orleans Tourism Marketing Corp., and the New Orleans Convention and Visitors Bureau to broadcast live from Champions Square to the nation on December 31. LA and New Orleans will be featured on live cut-ins during the national broadcast from New York and will also showcase two other destinations from around LA.

Promotion of Louisiana Fishing and creation of the Louisiana BASS Trail - \$150,000

Partnership with the LA Office of State Parks to launch the initial Louisiana BASS Trail, designed to incentivize visitors to fish multiple LA lakes and to cross promote with the LA State Parks that are located on these bodies of water. A printed BASSport will be created and available online, at all state parks and at all LA Welcome Centers with a brief introduction to the program and a stamp area for each lake to confirm visitation. Prizes will be awarded to those completing the BASSport. Participating lakes are Lake Bistineau, Lake Bruin, Lake Claiborne, Lake D'arbonne, Poverty Point Reservoir, Toledo Bend and Caney Lake. The LA Office of Tourism will make a digital media buy in the spring with a focus on the LA Fishing microsite, which is a component of Louisiana Travel.

Germany Tour Operator Advertising - \$100,000

Provides for an increased advertising allotment to Wiechmann, the existing official tourism representative firm in Germany. The monies will be used exclusively to market, promote and incentivize tour operators in the German market for visitors to LA using the new direct flight on Condor Air from Frankfurt to New Orleans that begins on 5/3/2017.

IPW 2017 Reception - Washington, DC - \$50,000

The LA Department of Tourism will partner with the New Orleans Convention and Visitor's Bureau to host a reception in Washington, DC for selected tour operators and media attending IPW 2017. The event allows organizations to work with clients and potential clients to bring international business to the state.

Attakapas, The Story of the Cajun People - Quebec City/Public Broadcasting - \$50,000

The LA Office of Tourism will partner and help sponsor this production of LA artist Zachary Richard. On 2/3/2017, LA Public Broadcasting (LPB) will tape the live production of Attakapas from the Raising Cane's River Center (formerly the Baton Rouge River Center). LPB will then add interviews, behind the scenes footage and edit the production for a one-hour show that will air statewide during the spring. LPB will also seek to promote the production to other public broadcasting entities around the country. Zachary Richard will then take the production to Quebec City for a live production for a mid-July

Approved By JLCB

performance during the Network of Francophone and Francophile Cities Conference. The Office of Tourism and statewide partners will plan a sales mission to Quebec City and Montreal to coincide with the performance in order to promote visitation to the state.

Professional Services - \$500,000

Expedia - \$55,000

Provides for a repeat six-week digital campaign to run solely through the Expedia online portfolio (Travelocity.com, Expedia.com, Orbitz.com).

Winter Bridge Campaign - \$110,000

Provides funding for a pay-per-inquiry campaign running on selected national cable networks (ESPN, Food Network, Home & Garden TV, The Outdoor Channel, SEC Network, The Sportsman Channel, Travel Channel and The Weather Channel).

American Automobile Association (AAA) Texas Journey - \$30,000

Provides for two full-page ads in the Texas version of the AAA magazine.

Twelfth Night Campaign - \$60,000

Provides for a digital campaign throughout the southeast region advertising Mardi Gras season beginning on January 6 and continuing for two weeks.

Garden & Gun - \$170,000

Provides for three two-page spreads in the Garden & Gun magazine, focusing on outdoor experts and guides.

Hoffman Media - \$75,000

Provides for a multi-publication program including a seven-page section in Hoffman's publications (Louisiana Cookin', Taste of the South, Cooking with Paula Dean, and Southern Lady). Provides sponsorship of eight newsletters to run once per month in May and June in all four of the previously listed publications.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0	Gaming Enforcement	\$0	0
Federal Funds:	\$0			
Total	<u>\$6,000,000</u>	Total	<u>\$6,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR authority for the Dept. of Public Safety (DPS), Office of State Police (OSP) by \$6 M, increasing budgeted SGR authority from approximately \$87.55 M to \$93.55 M. DPS is receiving the funds from the City of New Orleans as payment for law enforcement services in Orleans Parish.

DPS has been providing law enforcement services for the City of New Orleans since FY 16. The source of the revenues is a .2495% sales and use tax levied on items and services in an area designated as the French Quarter Economic Development District. DPS invoices the City of New Orleans monthly for law enforcement services, who then reimburses the department for any costs incurred. The Revenue Estimating Conference (REC) recognized the increased SGR collections associated with DPS providing services in Orleans Parish during its 11/10/2016 meeting. DPS has not received budget authority to draw down revenues associated with law enforcement services in Orleans Parish. DPS had previously been funding law enforcement services in Orleans Parish utilizing its existing appropriation and budget authority.

AGENDA NO.: 1

AGENCY: Agriculture & Forestry

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$66,691	0
Interagency Transfers:	\$0	Agricultural & Environmental Sciences	\$0	0
Self-Generated Revenue:	\$0	Animal Health & Food Safety	\$292,973	0
Statutory Dedications:	\$0	Agro-Consumer Services	\$0	0
Federal Funds:	\$359,664	Auxiliary Account	\$0	0
		Soil & Water Conservation	\$0	0
Total	<u>\$359,664</u>	Total	<u>\$359,664</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal expenditure authority in the amount of \$359,664 in FY 17 for the LA Department of Agriculture & Forestry (LDAF). The funds are associated with a 5-year grant award related to Animal Health & Food Safety for a total of \$3,625,000. The year one grant award totals \$500,000, of which \$359,664 will be appropriated during FY 17 with approval of this BA-7 and the balance to be budgeted in FY 18. This BA-7 seeks to increase expenditure authority correlating to projected expenditures during state FY 17 for a period of approximately 8 1/2 months. There is no state match requirement associated with the grant award.

The funds are intended to provide for a state and territory cooperative endeavor agreement to enhance produce safety in preparation of implementation of the Food & Drug Administration's upcoming Produce Safety Rule, "standards for the growing, harvesting, packing & holding produce for human consumption." LDAF plans to hire two (2) temporary job appointment positions (Program Manager and IT Specialist) to administer grant-related activities.

The Federal funds will provide for expenditures in both the Management & Finance and the Animal Health & Food Safety programs. The projected expenditures below contain cost estimates for the first state fiscal year included in the grant period.

Management and Finance Program (\$66,691 indirect cost allowance)

Operating Services	\$66,691	Federal Facilities and Administrative (F&A) Costs - Indirect costs and overhead that cannot be readily assigned to individual projects.
--------------------	----------	-----------------------------------------------------------------------------------------------------------------------------------------

Animal Health & Food Safety Program (\$292,973)

Travel	\$20,000	Provides for grant-related travel
Supplies	\$12,222	Supplies for grant personnel
Professional Services	\$139,623	*Joint contract with LSU and Southern University
Other Charges	<u>\$121,128</u>	Personnel costs associated with two job appointments (Program Manager and IT Specialist)
	\$292,973	Total

*The two agricultural centers at LSU and Southern will work to educate growers on safety practices and rules with respect to the new federal rule requirements. Several workshops will be conducted in early 2017 so that growers can learn how the new regulations will affect individual farms and what steps will be necessary to maintain compliance. The agricultural centers will also create an inventory of the Louisiana farms subject to the Produce Safety Rule and related state regulations.

II. IMPACT ON FUTURE FISCAL YEARS

The FDA grant begins 9/5/2016 and continues through 6/30/2021. This BA-7 provides budget authority for approximately

Federal Funds:	\$734,517			
Total	<u>\$734,517</u>	Total	<u>\$734,517</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (companion to BA-7 2B) is to increase Federal Funds budget authority in the amount of \$734,517 in FY 17 in the Office of Behavioral Health (OBH). The Federal Fund increase is associated with the Medication Assisted Treatment-Prescription Drug and Opioid Addiction (MAT-PDOA) grant awarded from the Substance Abuse & Mental Health Services Administration (SAMHSA). The purpose of this grant is to expand and enhance capacity for medication-assisted treatment (MAT) and recovery support services for individuals with opioid use disorders in the Greater New Orleans area (Orleans, St. Bernard, and Plaquemines). Specific services include organized delivery of treatment and coordination of medical, behavioral, social, and recovery support services. There is no state match requirement for this grant.

OBH will collaborate with Metropolitan Human Services District (MHSD) to develop, implement, and evaluate the effectiveness of this project. OBH will be transferring to MHSD \$647,869 of the \$734,517 (88%) in FY 17 (companion BA-7 2B).

FY 17 OBH Expenditures

Program Monitor	\$33,330
Marketing costs	\$15,750
Data evaluation	\$32,846 (LA Public Health Institute)
Equipment	\$1,000
Travel	<u>\$3,722</u>
Total OBH	\$86,648
 IAT to MHSD	 \$647,869 (see companion BA-7 2B for details)
Total BA-7	\$734,517

OBH expenditures will be used for a program monitor position, marketing costs, data evaluation, equipment, and travel. The Program Monitor is a temporary job appointment that will terminate when the grant expires. The Program Monitor will assist with coordination, management and monitoring of the MAT- PDOA Program; plan and coordinate the monitoring and reporting process; monitor contracts for adherence to deliverables; and monitor service providers for compliance with federal/state guidelines and financial solvency. Travel and equipment costs are for the Program Monitor to attend mandatory meetings in Washington DC and to purchase a computer. Marketing costs include purchase of advertising billboards, television ads, brochures, and flyers to promote awareness of the program. The project's data evaluator (LA Public Health Institute) will coordinate with SAMHSA in order to develop a plan to assess, track, and evaluate the program on a quarterly and annual basis.

II. IMPACT ON FUTURE FISCAL YEARS

This total grant award is \$3,000,000 and has an effective date of 9/30/2016 - 09/29/2019. The anticipated expenditures for future fiscal years are \$1,000,000 in FY 18, \$1,000,000 in FY 19, and \$265,483 in FY 20.

I. SUMMARY/COMMENTS

The purpose of this BA-7 (companion to BA-7 2A) is to increase IAT budget authority by \$647,869 to the Metropolitan Human Services District (MHSD) in FY 17 for funds awarded to the Office of Behavioral Health (OBH). The Substance Abuse & Mental health Services Administration (SAMHSA) awarded OBH the Medication Assisted Treatment-Prescription Drug and Opioid Addiction (MAT-PDOA) grant. The purpose of this grant is to expand and enhance capacity for medication-assisted treatment (MAT) and recovery support services for individuals with opioid use disorders in the Greater New Orleans area. Specific services include organized delivery of treatment and coordination of medical, behavioral, social, and recovery support services. There is no state match requirement for this grant.

MHSD will contract with a total of 4 providers to provide various treatment services to the Orleans, St. Bernard, and Plaquemines parishes. The Greater New Orleans area was identified as the region in the state with the most opioid over-dose deaths based on coroner's office data and using the SAMHSA Treatment Episode Data Sets (TEDS) analysis.

<u>Expense</u>	<u>FY 17 \$ Amount</u>
Program Manager/Monitor	\$60,938

Odyssey House	\$69,320
Bridge House	\$69,320
Addiction Counseling & Educational Resources (ACER)	\$69,320
Total	<u>\$647,869</u>

The Program Manager is responsible for supervision of the services provided in the grant and will coordinate and communicate among all the parties involved with the grant. The project's data evaluator (LA Public Health Institute) will coordinate with SAMHSA in order to develop a plan to assess, track, and evaluate the program on a quarterly and annual basis. Specific services will be provided by four providers including Behavioral Health Group (methadone services), Odyssey House (primary care and medication assisted treatment), Bridge House (residential treatment), and the Addiction Counseling & Educational Resources (ACER) (outpatient services).

Federal Funds:	\$278,712			
Total	<u>\$278,712</u>	Total	<u>\$278,712</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal Funds budget authority in the amount of \$278,712 in FY 17 in the Office of Behavioral Health (OBH). The Federal Fund increase is associated with the LA Strategic Prevention Framework for Prescription Drugs (LA SPF Rx) grant awarded from the Substance Abuse & Mental Health Services Administration (SAMHSA). There is no state match requirement for this grant.

The purpose of this grant is to raise awareness of young adults (12 - 17 years of age) concerning prescription drug misuse and abuse and working with pharmaceutical and medical communities on the risks of over-prescribing medications to young adults. In addition, the project will raise community awareness by educating schools, communities, parents, prescribers, and patients on safe practices and prevention. Jefferson Parish was identified as the pilot area for this grant based on several variables including total emergency room visits, total prescription drug emergency room (ER) visits, and surveys that identify the percentage of youths who use prescription drugs.

<u>Expenditures</u>	<u>FY 17 \$ Amount</u>
SPF Rx Project Director (temporary)	\$43,395
Travel	\$5,418
Supplies	\$2,500
Professional Services	
Marketing Consultant	\$69,000
Program Evaluator	\$53,399
Data System Enhancements	\$45,000
Training and Technical Assis.	\$30,000
Capacity Building Consultant	\$30,000
Total	<u>\$278,712</u>

OBH expenditures will be used for a program director position, travel, supplies, marketing costs, program evaluation, data enhancements. The SPF Rx Project Director position is tied to the length of the grant and the position will terminate at the end of the grant's life. The Project Director serves as the primary liaison to the Substance Abuse & Mental Health Services Administration (SAMHSA), Center for Substance Abuse Prevention (CSAP) and is responsible for the submission of all federal reporting requirements. Travel includes mandatory grantee meetings in Washington DC and meetings around the state. Supplies include general office supplies, a laptop, and a projector for training.

The marketing consultant will establish and execute a marketing plan that includes using media outlets (radio, billboards, posters) and web site development and social media to promote prevention. The program evaluator is responsible for the overall development and implementation of the LA SPF Rx evaluation plan to include forming a logic model, evaluation questions, and data collection tool. The capacity building consultant is a required component of this grant. It includes developing communication plans among stake holders including healthcare substance abuse treatment providers, coroners, law enforcement, and the public.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Data system enhancements include improvements to the State Epidemiology Workgroup (SEW) online data system, prescription monitoring program (PMP), and LA Early Events Detection System (LEEDS). Training and technical assistance includes implementing evidence-based interventions such as Safe and Effective Opioid Prescribing for Chronic Pain, SAMHSA's Opioid Overdose Prevention Toolkit, Generation Rx and other programs and/or policies identified to educate stakeholders, pharmaceutical and medical communities.

II. IMPACT ON FUTURE FISCAL YEARS

This total grant award is \$1,858,080 and has an effective date of 9/30/2016 - 08/31/2021. The anticipated expenditures for future fiscal years are \$371,616 in FY 18, \$371,616 in FY 19, \$371,616 in FY 20, \$371,616 in FY 21, and \$92,904 in FY 22.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$82,885</u>	Total	<u>\$82,885</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR expenditure authority in the amount of \$82,885 in FY 17 for the LA Board of Tax Appeals. This BA-7 request seeks to budget increased SGR from filing fees paid for tax appeals. The Board reports that its case volume has increased by 400% since March and that it is unable to timely process the increased petitions without additional support. The Administrative Program has collected \$127,000 year to date (compared to an initial appropriation of \$60,000). With the additional budget authority, the Board intends to employ one court reporter on a Work as Employed (WAE) basis, to hire one temporary employee to assist with the backlog of case processing, to provide compensation associated with additional hearings, and to pay for legal services associated with a pending class action lawsuit (see below).

Administrative Program

Salaries	\$23,202	Provides for WAE court reporter commencing 1/1/2017
Other Comp	\$5,508	Provides for costs of additional hearings associated with case load increase
Related Benefits	\$2,196	Provides for WAE court reporter related benefits
Operating Services	\$16,820	Temp worker to process and scan pending cases
Supplies	\$871	Support for additional staff and hearings
Professional Services	\$18,000	*Provides for legal contract
Interagency Transfer	<u>\$16,288</u>	Provides for rent and IT capacity (state buildings, OIT)
	<u>\$82,885</u>	

*The pending class action lawsuit concerning the retroactivity of the solar panel cap will require the Board of Tax Appeals to determine whether or not the law requires certification of a class. This funding provides for specialized knowledge related to the application of class action procedural law.

Total	<u>\$1,589,273</u>	Total	<u>\$1,589,273</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request (companion to BA-7 6B) is to increase budget authority in IAT by \$789,273 and from the statutorily dedicated Natural Resources Restoration Trust Fund by \$800,000 for a total increase of \$1,589,273 within Coastal Protection & Restoration Authority (CPRA) to pay for expenses incurred by the Attorney General's (AG) Office related to the Deepwater Horizon Oil Spill (the "oil spill").

The increase of \$789,273 in IAT authority is to receive funds from the LA Oil Spill Coordinator's Office (LOSCO) within the Office of State Police. The source of funds from LOSCO is from the Oil Spill Contingency Fund. The \$800,000 from the Natural Resource Restoration Trust Fund is from a \$19.125 M settlement related to the oil spill that was deposited into the fund in FY 16.

Act 14 of the 2nd Extraordinary Session of 2016 increased IAT authority in the AG's Office by \$7 M to receive reimbursement from CPRA for expenses related to the oil spill. The AG'S Office received \$3.4 M from a \$20 M settlement related to the oil spill along with \$2 M from the Natural Resource Restoration Trust Fund. To date, approximately \$5.4 M has been sent to the AG's Office from CPRA for expenses related to the oil spill. This \$1.6 M is the final amount to be transferred to the AG's Office.

Federal Funds:	\$0			
Total	<u>\$789,273</u>	Total	<u>\$789,273</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 Agenda #6B. The purpose of this BA-7 request is to increase budget authority from the statutorily dedicated Oil Spill Contingency Fund within the Department of Public Safety, Office of State Police by \$789,273. The increase in budget authority is to draw down revenues from the Oil Spill Contingency Fund within the LA Oil Spill Coordinator's Office (LOSCO) that will then be transferred to the Coastal Protection & Restoration Authority (CPRA) via interagency transfers.

The IAT to the CPRA will fund costs incurred by the Office of the Attorney General for services associated with the Deepwater Horizon event. LOSCO will first receive an appropriation from the fund, and then transfer the monies to the CPRA. The CPRA assumed all duties associated with the Deepwater Horizon event from LOSCO in August 2015.

Pursuant to LA R.S. 30:2483, all fees, taxes, penalties, judgments, reimbursements, charges, and federal funds associated with the unauthorized discharges of oil in LA are placed in the Oil Spill Contingency Fund, which includes funds associated with the Deepwater Horizon settlement. For reference, the fund presently has a FY 17 appropriation of \$7.51 M with a balance of \$15.21 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. These funds will be non-recurred during development of the FY 18 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$1,000,000			
Total	<u>\$1,000,000</u>	Total	<u>\$1,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal budget authority (Other Charges) for the LA Commission on Law Enforcement (LCLE) as a result of receiving a \$1 M grant award from the U.S. Department of Justice, Office of Justice Programs, Edward Byrne Memorial Competitive Grant Program (Law Enforcement Emergency Funding).

These funds will be utilized to defray law enforcement expenditures associated with officer involved shootings during the summer of 2016. Specifically, these funds are pass-thru in nature in that they will be sent to the East Baton Rouge Sheriff's Office (\$71,000) and the city of Baton Rouge Police Department (\$929,000) for overtime costs incurred during the aforementioned timeframe. This grant does not cover the entire overtime expenditures. The total expenditures for the East Baton Rouge Parish Sheriff's Office was \$101,864 (with a total of 2,628 hours worked) and the total for the city of Baton Rouge Police Department was \$1,459,428 (with a total of 36,906 hours worked).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

While the LFO agrees in concept with the increase in expenditures as a result of the federal award, the need for additional federal budget authority is not needed based on historical unexpended authority each year as shown below. The Legislative Fiscal Office (LFO) does not recommend approval of this BA-7 request. Based on the latest projections in the current fiscal year, the reimbursement levels reflect that there will be unused federal authority in excess of \$10 M remaining.

Historical Federal Authority

	<u>Existing Operating Budget</u>	<u>Year To Date/Prior Year Actual Expended</u>	<u>Remaining/Unexpended Authority</u>
FY 17	\$50,705,433	\$4,378,469 (as of 10/10/16)	\$46,326,964 (as of 10/10/16)
FY 16	\$36,019,483	\$19,149,697	\$16,869,786
FY 15	\$22,792,417	\$16,820,920	\$5,971,497
FY 14	\$21,403,530	\$14,728,642	\$6,701,888

AGENDA NO.: 2

AGENCY: Environmental Quality

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Office of the Secretary	\$0	0
Interagency Transfers:	\$250,000	Environmental Compliance	\$0	0
Self-Generated Revenue:	\$0	Environmental Services	\$250,000	0
Statutory Dedications:	\$0	Management & Finance	\$0	0
Federal Funds:	\$0			
Total	<u>\$250,000</u>	Total	<u>\$250,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Interagency Transfers budget authority in the amount of \$250,000 within the Department of Environmental Quality (DEQ) to receive funds from the LA Department of Health (LDH) related to the Zika virus. At the September 2016 meeting of the Joint Legislative Committee on the Budget (JLCB), a BA-7 in the amount of \$3.4 M was approved for LDH. Included in the \$3.4 M amount was an IAT amount of \$250,000 which is being addressed through this BA-7.

DEQ will use the funds to reduce waste tires in the designated area associated with the grant funds (Orleans, Plaquemines, and St. Bernard parishes). The funds will be used to pay transporters and processors for waste tires. Ineligible waste tires are tires in which a fee has not been collected.

DEQ will provide for transportation of containers to mosquito districts in the designated parishes that will be used to collect tires from residents. The containers will either be small containers (holding 250 tires) or large containers (holding 500 tires). The transportation cost is \$250 for a small container and \$500 for a large container. The transportation fee is \$1 per tire. Residents are allowed to drop off as many tires as they have in their possession. The first 5 tires are considered eligible and any tire above that amount is considered ineligible. Ineligible tires will be processed by processors at the same rate as eligible tires which is \$0.075 per pound.

According to DEQ, the amount of tires that will be collected ranges from approximately 79,500 tires (if all tires are ineligible) to 250,000 tires (if all tires are eligible). DEQ plans to issue a Request for Proposals (RFP) for processors in the state to bid on processing and transporting the tires collected in the designated parishes.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Environmental Quality

AGENDA NO.: 3

AGENCY: Environmental Quality

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Office of the Secretary	\$26,000	0
Interagency Transfers:	\$0	Environmental Compliance	\$248,571	0
Self-Generated Revenue:	\$0	Environmental Services	\$0	0
Statutory Dedications:	\$274,571	Management & Finance	\$0	0
Federal Funds:	\$0			
Total	<u>\$274,571</u>	Total	<u>\$274,571</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority in the amount of \$274,571 from the statutorily dedicated Environmental Trust Fund (ETF) to replace vehicles and air monitoring equipment that was damaged in the August 2016 flood. The department is replacing 2 vehicles and equipment that was located at the LSU and Pride, LA air monitoring sites.

ETF funds totaling \$274,571 will be used to replace the vehicles (\$66,000) and monitoring equipment (\$208,571) that was damaged. The difference in replacement costs and available insurance proceeds will be covered by existing ETF resources.

The vehicles that were damaged in the flood were a 2015 Dodge Ram 1500 pickup truck and a Ford F-350 truck. The Dodge truck has an estimated replacement cost of \$26,000 and the Ford truck has an estimated replacement cost of \$40,000 for a total of \$66,000. The department will receive insurance funds from the Office of Risk Management (ORM) for the damaged vehicles and will deposit the funds into the ETF. The amount of funds that will be received from ORM total \$41,330 (\$25,920 Dodge truck + \$15,410 Ford truck). Based on the replacement costs and insurance proceeds, the ETF will ultimately cover \$26,670 (\$66,000 replacement costs - \$41,330 insurance proceeds) in replacement costs.

The air monitoring equipment damaged at the two locations has a replacement cost of \$208,571. This includes \$37,660 of replacement equipment at the LSU site and \$170,911 of replacement equipment at the Pride, LA site. The equipment damaged was insured and the department will receive insurance funds from ORM. However, at this time the amount that will be received from ORM is unknown. The difference between the replacement costs and the insurance proceeds will be covered by ETF resources.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Veterans Affairs

AGENDA NO.: 4

AGENCY: Northeast LA War Veterans Home

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Northeast LA War Veterans Home	\$370,000	0
Interagency Transfers:	(\$101,893)			
Self-Generated Revenue:	(\$150,000)			
Statutory Dedications:	\$0			
Federal Funds:	\$621,893			
Total	<u>\$370,000</u>	Total	<u>\$370,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to properly align means of financing by removing \$101,893 of IAT budget authority as well as decreasing SGR by \$150,000 and increasing Federal funds by \$621,893 at the Northeast LA War Veterans Home.

Removal of IAT (-\$101,893)

The IAT funds were used for salary (\$70,603) and related benefits (\$31,290) for a shared internal auditor position housed at the Northeast veterans home in Monroe. In FY 17, the internal auditor position was placed under Southeast veterans home. Each of the other 4 veterans homes would send revenue to cover 20% of the cost of salary and related benefits. The original source of IAT funds are SGR and Federal funds from the care of veterans. The salary and related benefits of the position are \$127,366 (\$88,254 salary and \$39,1120 related benefits).

(\$25,474) - LA War Veterans Home in Jackson

(\$25,473) - Northwest LA War Veterans Home in Bossier City

(\$25,473) - Southeast LA War Veterans Home in Reserve

(\$25,473) - Southwest LA War Veterans Home in Jennings

(\$101,893) - Total IAT for Internal Auditor position

MOF Swap of SGR and Federal Funds (\$471,893)

The increase in Federal funding of \$621,893 at Northeast veterans home is due to additional Federal reimbursement as a result of projected higher number of veterans who are 70% service-connected disabled (i.e. a condition related to their military service). These veterans receive a higher per diem rate from the U.S. Department of Veterans Affairs (USVA); thereby increasing Federal reimbursement. Northeast is a 145 bed facility. The average census of veterans who are 70% service-connected disabled at Northeast veterans home has increased from 25 to 30. Once a veteran becomes 70% service-connected disabled, the USVA per diem increases from \$103.61 to \$341.44, an increase of \$237.83.

With the enhanced USVA per diem rate, veterans who are 70% service-connected disabled or higher are no longer contributing as much to the cost of their care (co-payments, pension, private pay, room rental, monthly fees, etc). As a result, Northeast veterans home anticipates a decrease in SGR of \$150,000.

Northeast LA War Veterans Home
Means of Financing Swap

Federal - \$623,128*

SGR - (\$150,000)

Total \$473,128

*Projected Federal revenue is based on an average increase of 5 veterans who are 70% service-connected disabled that is \$623,128 (\$341.44 x 5 x 365).

The agency intends to use the additional revenue as follows:

October 28, 2016

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

Operating Services - Expenses for lab, x-ray and ambulance services as well as podiatry and physical therapy (\$30,000).

Supplies - Medication, medical supplies, and food (\$100,000).

Interagency Transfers - Northeast veterans home will send revenue to cover their share of salary and related benefits of the shared Internal Auditor position at Southeast veterans home (\$20,000); prescription medication provided by Southeast (\$27,000); payments to the Division of Administration for the LaGov ERP procurement module, Supplier Relationship Management (SRM) (\$23,000).

Acquisitions - Due to high mileage and mechanical issues, 2 new replacement passenger vans will be purchased. One van is a 12-passenger and the other is a 16-passenger van. Both vans are wheelchair accessible and are equipped with an interior wheelchair lift. The new vans will replace existing vehicles; therefore, the number of vehicles in the fleet will not increase. These vans will be used to transport veterans, including those with limited mobility, to dialysis, therapy and doctor appointments (\$150,000). Replacement of broken and old computer equipment and accessories that include 6 touch screen computer monitors (\$8,4000); 4 broken laptop computers (\$5,200); 2 desktop computers (\$3,100); 4 scanners (\$1,200); 4 printers (\$800); and 8 computer monitors (\$1,300).

II. IMPACT ON FUTURE FISCAL YEARS

Information provided by the Northeast veteran home indicates that the average census for veterans who are 70% service-connected disabled will continue to be at least 30 in FY 18 and future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request. In addition, the LFO recommends approval of budgeting an additional \$1,235 in Federal funds projected to be received by the Northeast veterans home in FY 17 resulting in a total BA-7 amount of \$371,235.

DEPARTMENT: Economic Development

AGENDA NO.: 5

AGENCY: Business Development

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development	\$2,000,000	0
Interagency Transfers:	\$0	Business Incentives	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$2,000,000			
Federal Funds:	\$0			
Total	<u>\$2,000,000</u>	Total	<u>\$2,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$2 M from the statutorily dedicated 2013 Amnesty Collections Fund to the Office of Business Development. The \$2 M appropriation from the 2013 Amnesty Collections Fund is to satisfy a provision of Act 822 of 2014, which provides that, of revenues in excess of \$100 M deposited in the fund in FY 15, \$4 M shall be appropriated to the DED, then disbursed to the LA Regional Leadership Council to be used "for purposes of regional economic development and workforce development."

The legislature appropriated the first \$2 M of the \$4 M requirement in FY 15 via Act 56 of 2015, the Supplemental Appropriations Act. The \$2 M appropriated in Act 56 of 2015 was then carried forward into FY 16 via the carryforward BA-7 process and disbursed to the LA Regional Leadership Council's member entities. This BA-7 request is to fulfill the remaining \$2 M left of the \$4 M requirement. The DED's appropriation from the 2013 Amnesty Collections Fund totals \$15,852 in FY 17 and is the remainder of the \$2 M appropriated in FY 15 and carried forward to FY 16.

For reference, the 2013 Amnesty Collections Fund has a present balance of approximately \$3.42 M with a total appropriation of \$15,852 in FY 17.

The LA Regional Leadership Council is a nonprofit corporation that comprises eight regional economic development organizations statewide that serve all 64 parishes. The Council's purposes include economic development, workforce enhancement, business retention and expansion, community development, and job creation. Each of the eight members is entitled to a total disbursement of \$500,000 from the DED. The eight organizations each have received the first \$250,000 associated with Act 822 of 2014 and this \$2 M appropriation satisfies the remaining balance due to each organization.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This BA-7 request fulfills a one-time obligation for the DED that does not recur in subsequent fiscal years. The LA Regional Development Council does not receive an annual appropriation through the DED.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Health

AGENDA NO.: 6

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	(\$53,802,709)	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$106,384,506	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$318,256,592	0
Federal Funds:	\$158,069,377			
Total	<u>\$264,453,883</u>	Total	<u>\$264,453,883</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase both SGR (\$106,384,506) and Federal Funds (\$158,069,377) budget authority in the LA Department of Health (LDH), Medical Vendor Payments. The source of Fees and Self Generated funds are revenues transferred from various hospitals and the two state medical schools. The source of Federal Funds are Medicaid federal matching funds. Fees will be used as a state match source to make Disproportionate Share Hospital (DSH) and supplemental Medicaid payments to both Public Private Partnership (PPP) hospitals and various non partnership hospitals.

\$135,802,397 - Additional FY 17 DSH and supplemental Medicaid payments to PPP hospitals
\$140,834,665 - Additional FY 17 supplemental Medicaid payments to various non partner hospitals
\$276,637,062* - Total new Medicaid payments in FY 17 to hospitals

*LDH will make approximately \$276 M in additional payments to both partner and certain other hospitals. The BA-7 only requests \$264,453,883, as a result of LDH's existing budget authority.

The purpose of this BA-7 is twofold. First, the BA-7 requests to refinance existing means of finance for the Public Private Partnerships by replacing currently allocated supplemental Medicaid payments (Upper Payment Limit, or UPL) with Disproportionate Share Hospital (DSH) payments. This means of finance swap has no net impact on overall payments to the Public Private Partnerships. Second, the BA-7 proposes to make additional payments to certain hospitals (including partnership hospitals) in FY 17, increasing net payments to various hospitals by approximately \$276 M. The LDH will utilize fees and self generated funds generated from certain hospital providers and the two LSU medical schools (LSU Health Science Center - New Orleans, and Health Science Center - Shreveport) as a state match source to draw federal financial participation in order to make the additional payments. Approximately \$106 M in revenues will be transferred through an Intergovernmental Transfer (IGT) process to LDH. The illustration below reflects the state match sources transferred by provider/medical school.

Sources of self generated revenue transferred to LDH to be used as state match for BA-7 :

Match for additional hospital funding:

\$28,607,824 - LSU HSC - New Orleans Medical School (restricted off budget self generated funds from clinical activities)
\$10,255,567 - LSU HSC - Shreveport Medical School (restricted off budget self generated funds from clinical activities)
\$2,425,828 - Re-coupment of FY 17 overpayments (state match) from LDH to Biomedical Research Foundation
\$3,924,204 - Lallie Kemp / HCSD
\$8,302,572 - Terrebonne General
\$1,509,600 - West Calcasieu Cameron
\$28,054,657 - East Jefferson General Hospital
\$1,471,105 - East Baton Rouge School Board (self generated funds for operation of school based health clinic)
\$6,642,240 - West Jefferson General Hospital
\$6,793,200 - New Orleans East

October 28, 2016

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

\$6,415,800 - Beauregard Mem., Hardtner Med. Ctr., LaSalle Gen., Opelousas Gen., Richardson Med. Cntr., St. Bernard, West
Calc. Cameron
\$1,981,907 - Terrebonne General
\$106,384,504

The state match source will be used to make the \$135 M in additional PPP hospital payments, and \$140 M in payments to certain hospitals:

Additional PPP Hospital UPL and DSH Payments (\$135,802,397):

\$22,000,000 - Southern Regional Medical Corp. (Houma)
\$14,129,272 - Our Lady of the Lake (Baton Rouge)
\$46,873,125 - Children's Hospital(New Orleans)
\$4,800,000 - Lafayette General Health
\$4,000,000 - Southwest LA Hospital Assoc. (Lake Charles)
\$44,000,000 - Biomedical Research Foundation (Monroe/Shreveport)
\$135,802,397

Note: The additional Medicaid supplemental payments to the PPP hospitals requested in this BA-7 (in addition to funding allocated through HB 1) are intended to match total funding reflected in the signed MOU's. Total Medicaid supplemental payments (including DSH payments) to the PPP's in the signed MOU's for FY 17 totals \$1,245,261,781.

Additional Non Partnership Hospital UPL Payments (\$140,834,665):

Other Hospitals
\$74,336,665 - East Jefferson General Hospital
\$17,600,000 - West Jefferson General Hospital
\$18,000,000 - New Orleans East
Low Income & Needy Care Collaboration Agreement (LINCCA) Program Hospitals
\$3,898,000 - Our Lady of the Lake (for operation of East Baton Rouge school based health clinic)
\$10,000,000 - Willis Knighton
\$7,000,000 - Glenwood Hospital
\$10,000,000 - Lifepoint Hospital
\$140,834,665 Total New Other Hospital Funding (non PPP)

II. IMPACT ON FUTURE FISCAL YEARS

Providing these additional payments in FY 18 and future fiscal years will require a similar state match financing mechanism in which providers/medical schools provide the state match source, or will require appropriation of additional SGF or other state funds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$811,489</u>	Total	<u>\$811,489</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority from the statutorily dedicated Sex Offender Registry Technology Fund by \$811,489 to distribute funds from FY 16 to the sheriff of each parish. Sheriffs statewide receive the remaining dollars from the fund after appropriations are made to the Office of State Police, Division of Probation & Parole, and Office of the Attorney General. After the Revenue Estimating Conference (REC) recognizes the prior year fund balance, the remaining funds are distributed to each sheriff in the state. The distribution for each parish is based on the number of sex offenders living in each parish based on the 6/1/2016 parish count. The funds are used by each sheriff to cover costs associated with sex offender registration and compliance. The \$811,489 amount is the amount owed to the sheriffs in FY 16 since the REC has recognized the prior year fund balance.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Self-Generated Revenue:	\$0	Criminal Law & Medicaid Fraud	\$1,087,535	10
Statutory Dedications:	\$271,884	Risk Litigation	\$0	0
Federal Funds:	\$815,651	Gaming	\$0	0
Total	<u>\$1,087,535</u>	Total	<u>\$1,087,535</u>	<u>10</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request as recommended by Office of Planning & Budget (OPB) is to increase positions by 10 and increase total budget authority by \$271,884 from the statutorily dedicated Medical Assistance Programs Fraud Detection Fund and \$815,651 from Federal funds; increasing the Medicaid Fraud Unit within the Criminal Program by a total of \$1,087,535. The funds from the Medical Assistance Programs Fraud Detection Fund are used as a 25% match to receive Federal funds.

The Attorney General's (AG) Office originally submitted this BA-7 requesting 19 positions; however, OPB has recommended 10 positions. The original positions requested included 3 attorneys, 10 investigators, 3 analysts, 2 clerical staff, and 1 IT position. The 10 positions that would be added would be at the discretion of the AG's Office. According to the AG's Office, to the extent the authority to add 10 positions is approved, the likely positions would be 4 investigators, 3 attorneys, and 3 analysts. However, it should be noted that the exact positions would ultimately be at the discretion of the AG. Based on the positions, salaries and benefits would total \$559,522.

The BA-7 includes operating expenses totaling \$321,319. This includes travel (\$77,985), office space rent (\$79,212), and supplies (\$164,122). Travel would include all staff attending the National Association of Medicaid Fraud Control Units training program, Peace Officer Standards & Training (POST) academy, and in-state travel for investigations and hearings. Rent would be in the Benson Tower in New Orleans where the AG's Office currently has staff located. Supplies would include office supplies and fuel. OPB's recommendation did not reduce the amounts originally submitted by the AG's Office. To the extent the operating expenses matched the 10 positions that OPB recommended, the expenses would total \$203,398 (\$41,045 travel + \$79,212 rent + \$83,131 supplies). It should be noted that rent has remained constant. In the event the leased spaced can be reduced, the amount for rent would also be reduced accordingly.

Professional services includes contracts for expert witnesses and IT services for claims data and case tracking at a cost of \$82,542. Other charges includes \$89,406 for indirect costs which is paid from federal funds for costs associated with operating the program. Finally, acquisitions include the purchase of forensic workstation computer a cost of \$6,354.

II. IMPACT ON FUTURE FISCAL YEARS

The FY 17 increase is for 8 months of the remaining fiscal year. Beginning in FY 18, the annualized cost for 10 additional positions would be approximately \$1,278,000. This would include \$835,300 in salaries and related benefits, \$265,700 in operating expenses, \$110,000 in professional services, and \$67,000 in other charges.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the amount of \$1,087,535 and 10 positions including the purchase of 7 vehicles based on the reallocation of expenditure categories.

The original BA-7 submitted by the AG's Office included the purchase of 14 vehicles for attorneys and investigators. OPB reduced the number of vehicles to 0. Based on conversations with the AG's Office, the Medicaid Fraud Unit assigns a vehicle for each attorney and investigator. Currently there are 11 attorneys and 34 investigators in the unit and 45 vehicles. Based on

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

the potential addition of 3 attorneys and 4 investigators, 7 additional vehicles would be needed. The cost of a vehicle is \$26,000, therefore 7 vehicles would cost \$182,000. This cost would be split between 25% statutorily dedicated funds (\$45,500) and 75% Federal funds (\$136,500).

Adjusting the expenditure categories to appropriately match the 10 positions recommended in this BA-7 would allow the purchase of 7 vehicles resulting in an FY 17 total of \$1,080,871. This amount is determined based on \$559,522 in salaries and related benefits, \$203,398 in operating expenses, \$85,542 in professional services, \$47,056 in other charges, and \$188,354 in acquisitions.

Total	<u>\$1,087,535</u>	Total	<u>\$1,087,535</u>	<u>10</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request as recommended by Office of Planning & Budget (OPB) is to increase positions by 10 and increase total budget authority by \$271,884 from the statutorily dedicated Medical Assistance Programs Fraud Detection Fund and \$815,651 from Federal funds; increasing the Medicaid Fraud Unit within the Criminal Program by a total of \$1,087,535. The funds from the Medical Assistance Programs Fraud Detection Fund are used as a 25% match to receive Federal funds.

The Attorney General's (AG) Office originally submitted this BA-7 requesting 19 positions; however, OPB has recommended 10 positions. The original positions requested included 3 attorneys, 10 investigators, 3 analysts, 2 clerical staff, and 1 IT position. The 10 positions that would be added would be at the discretion of the AG's Office. According to the AG's Office, to the extent the authority to add 10 positions is approved, the likely positions would be 4 investigators, 3 attorneys, and 3 analysts. However, it should be noted that the exact positions would ultimately be at the discretion of the AG. Based on the positions, salaries and benefits would total \$559,522.

The BA-7 includes operating expenses totaling \$321,319. This includes travel (\$77,985), office space rent (\$79,212), and supplies (\$164,122). Travel would include all staff attending the National Association of Medicaid Fraud Control Units training program, Peace Officer Standards & Training (POST) academy, and in-state travel for investigations and hearings. Statutory Dedications:	\$350,000	State Approval Agency	\$0	0
Federal Funds:	\$0	State Veterans Cemetery	\$0	0
Total	<u>\$350,000</u>	Total	<u>\$350,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutory dedication budget authority by \$350,000 in the LA Military Family Assistance (MFA) Fund within the Department of Veterans Affairs. The original source of revenue in the statutorily dedicated fund is private donations made by individuals and corporations directly to the MFA fund. As of 09/06/2016, the MFA fund balance was \$769,017.

Act 151 of 2005 established the MFA fund to help members of LA National Guard and LA Military Reserves with any financial hardships their families may encounter when the members temporarily left civilian employment as a result of being placed on active-duty status. Also, Act 151 created the LA Military Family Assistance Board to oversee the MFA fund. The MFA fund eligibility was expanded to include veterans (Act 256 of 2010), all active-duty service members regardless of when they were deactivated (Act 185 of 2016) and honorably discharged active-duty military members and family (Act 402 of 2016). Awards from the MFA fund may be used to help defray the costs of such necessities as food, housing, medical expenses, and auto repair. The maximum award is \$10,000 in a 12-month period. All MFA fund awards are need-based.

On 08/30/2016, the MFA Board met regarding emergency assistance as a result of the recent flooding. The board approved the one-time use of \$350,000 from the MFA fund balance to assistance up to 1,000 eligible military members, veterans and family members with a \$350 award. The awards will be distributed on a first-come-first-serve basis to all applicants that show an actual provable need. Reflected below are the amount of MFA funds that were appropriated during the legislative session and the BA-7 request for an additional appropriation of MFA funds. If approved, Veterans Affairs will have a total of \$465,528 in MFA funds available for eligible applicants.

LA Military Family Assistance (MFA) Fund
Appropriated - \$115,528
BA-7 Request - <u>\$350,000</u>
Total \$465,528

As of 09/06/2016, Veterans Affairs had received 402 applications, approved 54 applicants and issued 16 checks to applicants totaling \$5,600.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,090,821</u>	Total	<u>\$1,090,821</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Interagency Transfers (IAT) budget authority by \$1,090,821 in the Administration Protection & Support Program of the Office of Aging & Adult Services (OAAS) within the LA Department of Health (LDH). The IAT funds are from the Office of Community Development - Disaster Recovery Unit. The source of IAT funds is a \$19.5 M Disaster Case Management (DCM) federal grant from Federal Emergency Management Agency (FEMA) in connection with the Spring 2016 floods. The grant requires no state match.

Under the DCM grant, case managers are a single point of contact for individuals or families who were impacted by the floods. Case managers meet one-on-one with individuals or families to assess their unmet needs and then make referrals to the appropriate agencies for services. The goal of the case manager is to help households return to a state of independence. As a sub-grantee, OAAS will administer the grant and is responsible for training, support, data collection, and oversight of seven community non-profits that provide case management. With the help of the community non-profits, OAAS will provide disaster case management to an estimated 8,025 households in 49 parishes over a 2-year period.

Expenditures for this BA-7 request are as follows:

Other Charges (Personal Services) - \$926,742

Approximately 10 months of salary (\$652,635) for 13 job appointments to administer the DCM grant. In addition, 50% of the salary of an existing position, State Project Director, is included. The job appointments will end when funding from the grant ends in FY 19. The positions and salaries are as follows:

	FY 17 10 Months Salary	FY 18 Annualized Salary
<u>Salaries:</u>		
<u>New Positions</u>		
2 positions - Program Manager (\$66,144 annual salary*)	\$110,240	\$132,288
2 positions - Program Monitor (\$81,016 annual salary*)	\$135,026	\$162,032
6 positions - Administrative Coordinator 4 (\$52,416 annual salary*)	\$270,400	\$324,480
1 position - Administrative Coordinator 3 (\$38,480 annual salary)	\$ 32,067	\$ 38,480
2 positions - Administrative Assistant 4 (\$43,472 annual salary)	\$ 68,294	\$ 86,944
<u>Existing Position</u>		
1 position - Project Director (\$36,608, 50% of annual salary)	<u>\$ 36,608</u>	<u>\$ 36,608</u>
	<u>\$652,635</u>	<u>\$780,832</u>

*Annual salaries are based on an average.

Related Benefits:

Related benefits are calculated at 42% of salaries (\$274,107).

Other Charges (Travel and Training) - \$84,884

All 13 positions will spend at least 25% of their time traveling to all 51 affected parishes (\$69,870). Expenses for training provided to community non-profits by OAAS staff as well as a third-party contractor (\$15,014).

September 16, 2016

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Other Charges (Operating Services) - \$27,243

Expenses for desk phones for 8 employees to answer a 1-800 number (\$6,251); postage, printing and mailings (\$4,000); and laptops and printers for 12 staff (\$16,992).

Other Charges (Supplies) - \$5,652

Various office supplies such as paper, pens, folders, etc. for each of the 13 employees.

Other Charges (IAT) - \$46,300

Office rent for space in the Bienville building (\$36,000); mobile devices for 12 employees (\$9,000); and a 1-800 number (\$1,300).

II. IMPACT ON FUTURE FISCAL YEARS

The Disaster Case Management (DCM) grant period is 07/18/2016 through 07/17/2018. The grant is anticipated to be budgeted as follows: FY 18 - \$1,309,756 and FY 19 - \$216,974. OAAS may carry forward any unused funds until the grant period expires on 07/17/2018.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$3,385,345			
Total	<u>\$3,385,345</u>	Total	<u>\$3,385,345</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$3,385,345 in the Office of Public Health (OPH) within the LA Department of Health (LDH). The source of funds are three Federal grants from the Centers for Disease Control and Prevention (CDC). Each grant will address the Zika virus as follows: (1) \$400,000 - Surveillance, intervention, and referral to services for infants with microcephaly or other adverse outcomes linked with the Zika virus; (2) \$340,755 - Public Health Preparedness and Response Program (PHPR) for the Zika Virus Disease (ZVD) ; and (3) \$2,644,590 - Epidemiology and Laboratory Capacity (ELC) for Infectious Diseases . The grants require no state match.

Total expenditures for this BA-7 request are as follows:

	<u>Birth Defects</u>	<u>PHPR</u>	<u>ELC</u>	<u>Total Amount</u>
Other Compensation	\$204,202	\$0	\$0	\$204,202
Travel	\$5,000	\$0	\$10,964	\$15,964

Supplies	\$311	\$65,500	\$545,357	\$611,168
Professional Services	\$0	\$0	\$229,383	\$229,383
Other Charges	\$184,962	\$275,255	\$979,006	\$1,439,223
Interagency Transfer:	\$0	\$0	\$250,000	\$250,000
Acquisitions	<u>\$0</u>	<u>\$0</u>	<u>\$629,880</u>	<u>\$629,880</u>
TOTAL	\$400,000	\$340,755	\$2,644,590	\$3,385,345

Surveillance, Intervention, and Referral for Infants with Birth Defects - \$400,000

The Zika virus infection during pregnancy can cause serious birth defects, including microcephaly and other severe fetal brain defects. The CDC will be developing a national registry of pregnant women who have proven laboratory evidence of being infected with the Zika virus. The grant funding will be used to assist LDH in developing a birth defects registry relating to the Zika virus. Also, the grant will help ensure that affected infants and their families are referred to appropriate health and social services as well as enable LDH to monitor over time the health and developmental outcomes of children affected by Zika.

Expenditures are as follows:

Other Compensation - \$204,202

Funding for 5 Clinical Liaison positions (\$40,840 per position). The positions will be temporary WAE (when actually employed) positions. The temporary positions perform surveillance and intervention activities as well as referral services for infants with microcephaly and birth defects associated with the Zika virus.

Travel - \$5,000

Regional travel of the 5 clinical liaison positions.

Operating Services - \$5,525

Printing of Zika prevention materials for birthing hospitals.

Supplies - \$311

Purchase of the Ages and Stages Questionnaire (ASQ), which is a screening system that pinpoints developmental progress in children between the ages of one month and 5 ½ years. ASQ will be used in surveillance activities.

September 16, 2016

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Other Charges - \$184,962

Contracts with the following: (1) a Clinical Reviewer to review abstracted data of cases of microcephaly and select central nervous system defects associated with Zika virus; (2) a Zika Surveillance Coordinator to serve as the primary contact for surveillance, intervention and referral; and (3) a Senior Epidemiologist to perform all data management and analysis activities.

Public Health Preparedness and Response (PHPR) for Zika 2016 - \$340,755

The grant funding is intended for education and outreach activities to the general public, local health departments, and healthcare communities throughout the state regarding the Zika virus.

Expenditures are as follows:

Supplies - \$65,500

Purchase of push cards, door hangers, posters, and kit materials to provide information regarding Zika and prevention.

Other Charges - \$275,255

Funding for Zika training to local and state partners, meetings, and TV and radio PSA development.

Epidemiology and Laboratory Capacity (ELC) - \$2,644,590

The grant funding is for activities such as surveillance of mosquito breeding sites, improving mosquito control and monitoring, strengthening lab capacity, and supporting Zika affected pregnancy registries and birth defect monitoring through OPH lab testing.

Expenditures are as follows:

Travel - \$10,964

OPH staff to attend in-state and out-of-state Zika related meetings and conferences.

Supplies - \$545,357

Purchase of lab reagents for Zika testing; general office supplies such as copy paper, notepads, pens, binder clips, shipping, etc.; and vector control supplies for the elimination of mosquito larvae.

Professional Services - \$229,383

Shipment of lab specimens to the CDC; maintenance for microplate reader that detects the presence of antibodies and antigens related to Zika; and a laboratory information management system (LIMS) that aids in analyses of lab samples.

Other Charges - \$979,006

Contracts for the followings: (1) train and staff a public hotline; (2) develop a lab diagnostic capacity for testing mosquito pools; (3) mosquito mapping statewide; and (4) vector source reduction, which is the removal or permanent destruction of mosquito breeding sites.

Interagency Transfer - \$250,000

Agreement with Department of Entomology and Agriculture Center at LSU to detect and systematically map the presence of specific mosquitoes that carry the Zika virus across the state.

Acquisitions - \$629,880

Purchase of lab equipment including a plate washer; Version 11 of Laboratory Information Management Systems (LIMS) software; vector control equipment for mosquito abatement; and a high capacity printer.

II. IMPACT ON FUTURE FISCAL YEARS

The Surveillance, Intervention, and Referral for Infants with Microcephaly grant period is 08/01/2016 through 07/31/2021. The grant is anticipated to budget as follows: FY 18 - \$400,000, FY 19 - \$400,000, FY 20 - \$400,000, and FY 21 - \$400,000.

The Public Health Preparedness and Response (PHPR) for Zika 2016 grant period is from 07/01/2016 through 06/30/2018. OPH may carry forward any unused funds until the grant period expires on 06/30/2018.

The Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) grant period for the Zika outbreak is from 08/01/2016 through 07/31/2017. OPH may carry forward any unused funds until the grant period expires on 07/31/2019.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$32,250,877	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$0	0
Federal Funds:	\$32,250,877			
Total	<u>\$32,250,877</u>	Total	<u>\$32,250,877</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal funds budget authority by \$32,250,877 in the LA Department of Health (LDH), Medical Vendor Payments. The source of federal funds is Title XIX federal financial participation. There is no state match requirement for these federal funds.

The federal funds will be used by the LDH to pay higher rates for 5 months (August through December, 2016) to the 5 health plans (Managed Care Organizations) that provide physical and behavioral health coverage for the Medicaid expansion population. Information provided by the LDH indicates the rate paid to the managed care organizations will temporarily increase from \$523.04 per member per month (budgeted for FY 17) to \$544.97 per member per month. Per member per month payments for the new Medicaid expansion population (eligible up to 138% of the federal poverty level) covered under the Affordable Care Act require no state match through 12/31/2016. The BA-7 further indicates payment rates are temporary, and will be reduced back to the level budgeted in FY 17 to avoid any new state match requirement.

Information provided by the LDH reflects that the temporary per member per month capitation rate proposed to be paid to the managed care plans falls at the mid point of the rate range certified by LDH actuaries to meet requirements for approval by the Centers for Medicare & Medicaid (CMS). LDH contracts with an actuarial consultant (Mercer) to develop a capitation rate range for managed care plans (Healthy Louisiana) in accordance with CMS rate-setting guidelines, and the LDH decides a point within the range to reimburse the plans. The FY 17 Medicaid budget is based on a rate at the 25th percentile of the actuarially sound range. The BA-7 proposes to increase the rate to the 50th percentile through December.

II. IMPACT ON FUTURE FISCAL YEARS

To the extent the approval by CMS is granted beyond December 2016, the LDH anticipates these payments can be made retroactively.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The LFO recommends approval of this BA-7 subject to approval of the rate change by the CMS.

Total	<u>\$6,572,760</u>	Total	<u>\$6,572,760</u>	<u>76</u>

I. SUMMARY/COMMENTS

Companion BA-7 for agenda item 1B. This BA-7 request increases Interagency Transfers budget authority in the Office of Behavioral Health (OBH) by \$6.6 M. The source of the Interagency Transfer (IAT) funds are federal Medicaid Uncompensated Care (UCC) funds from the LA Department of Health (LDH) Medicaid Vendor Payments (MVP). MVP has a companion BA-7 increasing federal funds by an equal amount.

In 2015, two lawsuits (Cooper and Jackson) were filed by plaintiffs who have either been adjudicated not guilty by reason of insanity (NGBRI) or pretrial (PT) detainees who have been determined mentally incapable to stand trial. The plaintiffs have argued that OBH violated their due process rights, the Americans with Disabilities Act (ADA), and the federal Rehabilitation Act of 1973 by not transferring them from jail to Eastern LA Mental Health System's (ELMHS) quickly to receive mental and behavioral health services in a timely manner. The lawsuits were recently dismissed by the judge because both LDH and the Advocacy Center reached a conceptual agreement to increase the number of available beds for these client types. This BA-7 provides funds to meet the demand to admit clients of all legal status types including Not Guilty By Reason Of Insanity (NGBRI), Incompetent to Proceed to Trial (PT), Judicial Civil (JC), and Unable to be Restored to Competence (648B) at the ELMHS. OBH has been informed by the Centers for Medicare & Medicaid Services (CMS) that the state can draw UCC federal matching funds for clients who have been found un-restorable to competency in the foreseeable future (648B client status) since their legal status has been converted to civil intermediate status and are no longer under the jurisdiction of the criminal court.

OBH will use \$3,980,804 of its existing FY 17 SGF as state match to drawn down the \$6,572,760 in federal match funds in this BA-7. This SGF includes the \$3,469,397 that was appropriated in the FY 17 budget to convert acute beds and forensic beds and \$511,407 used for direct care client services. This SGF was previously not eligible to be used as state match and OBH is not reducing current services to fund this BA-7. The funds were previously used for mental and behavioral services and will continue to be used in this manner. OBH will Certify the Public Expenditures (CPE) and Medicaid Vendor Payment will draw down the federal match funds which will be transferred directly to OBH.

BA-7 Expenditures

LEGISLATIVE FISCAL OFFICE ANALYSIS OF BA-7 REQUEST

positions (average annual salary of \$40,923) to provide mental and behavioral health services for the increase of 86 new beds at ELMHS . The new positions includes 39 correctional guards and/or correctional lieutenants, 16 nurses, 12 psychiatric aides, 3 therapeutic recreation positions, three health information administrative assistants, and 3 custodial personnel. The majority of the positions proposed in this BA-7 are for correctional guard therapeutic (CGT) positions. CGT provides security to maintain custody, safety, and to assist in the application of clinical care for treatment and evaluation of the clients.

Non-personnel related expenditures include operating services (building maintenance and utilities), supplies (pharmaceutical and clothing), professional services (outside doctor and dentist services), other charges (psychiatrist contracts and pastoral care), and acquisition and major repairs (equipment and beds).

The \$6,572,760 of IAT in this BA-7 and the \$3,980,804 of SGF used as match (total funding of \$10,553,564) will allow OBH to increase a total 86 beds at ELMHS. This includes increasing civil bed capacity by 40 beds at ELMHS and this will allow 648B clients that currently occupy forensic beds to be transferred to these civil beds. As a result, these newly opened beds will allow forensic clients that are on the waiting list to be admitted to the hospital. OBH has stated there is currently a waiting list of 10 NGBRI and 7 PT clients for admission to Eastern LA Mental Health System's (ELMHS).

II. IMPACT ON FUTURE FISCAL YEARS

OBH will require a consistent SGF base in order to continue to receive matching funds. The \$3.5 M SGF appropriation is already built into OBH's budget and these funds will have to be annualized in order to continue these services and to continue receiving the matching funds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office does not have a recommendation on this BA-7 as of this writing. Although the LFO agrees with the concept of this BA-7 request, additional information has been requested from LDH with regard to staffing levels to determine whether the ratios are consistent with the existing staffing ratios at ELMHS and consistent with the conceptual settlement agreement. The LFO will make a recommendation upon receipt and analysis of this information.

I. SUMMARY/COMMENTS

Companion BA-7 for agenda item 1A. The purpose of this companion BA-7 request is to increase federal budget authority by \$6,572,760 in the LA Department of Health (LDH), Medical Vendor Payments. The source of these federal funds is Medicaid federal financial participation for mental health facility uncompensated care costs (UCC). Federal funds reimbursement from LDH are based on a certification of public expenditure (CPE) process. The state match requirement (37.72%) is appropriated in the Office of Behavioral Health.

The Office of Behavioral Health will use these funds to cover new salary and operational expenditures associated with the operation of 86 new beds at the Eastern LA Mental Health System (see BA-7 agenda item 1A for expenditure details).

II. IMPACT ON FUTURE FISCAL YEARS

Information provided by the Division of Administration indicates the increase in federal fund authority in this BA-7 is anticipated to be annualized in the Medicaid budget for future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer one (1) authorized table of organization (T.O.) from the Administrative Program to the Marketing Program. The current T.O. in the Administrative Program is eight (8) and nine (9) in the Marketing Program. The transfer will reduce the T.O. to seven (7) in the Administrative Program and increase the T.O. to ten (10) in the Marketing Program. CRT reports that the agency wants to make the T.O. allocation the same as it was in FY 16 and this is only a technical change.

During the budget development process this position was inadvertently moved from the Marketing Program to the Administrative Program and this BA-7, if approved will return the position to the Marketing Program.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

CARRYFORWARD BA-7s

Legislative Fiscal Office

<u>Agenda #</u>	<u>Schedule #</u>	<u>Department</u>	<u>Agency</u>	<u>SGF</u>	<u>IAT</u>	<u>SGR</u>	<u>DED</u>	<u>IEB</u>	<u>FED</u>	<u>Total</u>
CF 1	01 - 107	Executive	Division of Administration	\$127,671	\$226,573	\$0	\$0	\$0	\$0	\$354,244

The purpose of this BA-7 request is to carry forward funding in the Executive Administration Program to pay bonafide expenditure obligations that were not liquidated prior to the close of the fiscal year as follows:

- Office of the Commissioner - Professional Services - \$124,767 SGF*
- 1.) *Employers Unity LLC* - \$26,216 for administration of the state’s Unemployment Compensation Program, including monitoring all records of state agencies relative to former employees and prevention of unwarranted payments. The existing contract period expires on 8/31/2016.
 - 2.) *Forensic Accounting Solutions* - \$348 for forensic and other accounting services as requested by the Office of General Counsel (OGC). The existing contract period expires on 2/28/2017.
 - 3.) *Jones Walker, LLP* - \$16,103 for legal counsel services and advice to the Commissioner of Administration (COA) and the OGC with regard to issues relative to bonds. The existing contract period expires on 2/10/2017.
 - 4.) *Kantrow, Spaht, Weaver & Blitzer* - \$37,259 for legal counsel services and advice to the COA and the OGC with regard to the Office of State Purchasing and Office of Contractual Review as it relates to the termination of contracts and associated litigation. The existing contract period expires on 3/26/2017.
 - 5.) *Taylor, Porter & Brooks* - \$385 for legal counsel services and advice to the COA and the OGC with regard to the Office of Human Resources and related matters. The existing contract period expires on 5/31/2017.
 - 6.) *The Koerber Company, P.A.* - \$44,456 for expert services as to the financial condition of client network services. The existing contract period expires on 2/23/2017.

- Office of General Counsel - Professional Services - \$229,477 (\$2,904 SGF; \$226,573 IAT)*
- 1.) *Baker, Donelson, Bearman, Caldwell & Berkowitz, PC* - \$16,653 IAT for legal counsel and advice to the COA with regard to the Office of Group Benefits (OGB) and health insurance issues related to the Patient Protection & Affordable Care (PPAC) Act. The existing contract period expires on 9/28/2017.
 - 2) *Taylor, Porter & Brooks* - \$43,697 IAT for legal counsel services and advice to the COA and the OGC with regard to the OGB and health insurance issues related to the PPAC Act. The existing contract period expires on 1/15/2017.
 - 3.) *David Ware & Associates, LLC* - \$2,904 SGF for legal counsel services and advice to the state on matters pertaining to immigration issues and labor certification through the US Department of Labor. The existing contract period expires on 4/30/2017.
 - 4.) *Long Law Firm* - \$166,223 IAT for legal counsel services and advice to the COA and the OGC with regard to the OGB and any litigation resulting from actions taken by the OGB. The existing contract period expires on 2/28/2017.

CF 2	01 - 111	Executive	Homeland Security & Emergency Prep	\$87,660	\$0	\$0	\$0	\$0	\$0	\$87,660
------	----------	-----------	------------------------------------	----------	-----	-----	-----	-----	-----	----------

The purpose of this BA-7 request is to carry forward funding in the Administrative Program to pay bonafide expenditure obligations that were not liquidated prior to the close of the fiscal year as follows:

- SAIA Electric - Other Charges*
- Provides for purchase of an Uninterruptible Power Supplies (UPS) system. The UPS system is used during power failures and allows audio/visual systems, servers and computers to remain operational until emergency generators restore power. These functions are critical to the state Emergency Operations Center (EOC) during emergencies. The existing system must be replaced due to age and cessation of maintenance and parts support. Specifications were finalized in April 2016, and specifications were forwarded to the Office of State Procurement in May to initiate the bid process. The P.O. was awarded on 6/20/2016. The vendor will conduct pre-construction meetings in July and will deliver and install the UPS unit 4 to 8 weeks later.

CF 3	01 - 112	Executive	Department of Military Affairs	\$1,791,299	\$883,027	\$673,737	\$0	\$0	\$1,419,364	\$4,767,427
------	----------	-----------	--------------------------------	-------------	-----------	-----------	-----	-----	-------------	-------------

The purpose of this BA-7 request is to carry forward funding in the Military Affairs Program from FY 16 into FY 17 to pay bonafide expenditure obligations that were not liquidated prior to the close of the fiscal year as follows:

- Operating Services – \$2,516,692 (\$1,022,811 SGF, \$517,542 SGR, \$976,339 Federal)*
- 1.) \$840 Federal – Tractor repairs and inspection.
 - 2.) \$11,631 (\$3,830 SGF, \$7,801 Federal) – Provides for expenditures related to moving services relocating headquarters employees, replacing repeater on radio tower, and road repair.
 - 3.) \$2,114,025 (\$888,457 SGF, \$477,992 SGR, \$747,576 Federal) – Provides for expenditures related to maintenance and upgrades of buildings statewide, such as: Camp Villere gun range renovation; monitoring, inspections and maintenance of fire protection, gas, wastewater and generator systems and equipment; labor and materials for crane repairs; installation of terrace deck drainage; HVAC and boiler inspections, repairs and upgrades; road and street repairs; installation of IT and network hardware; upgrade of latrines at Lake Charles readiness center; parking lot repairs; buildings repair and maintenance; training area improvements at Camp Beauregard; alarm system repairs and maintenance; gate, fencing, sidewalk, awning, plumbing, roof, floor covering, ceiling, door, lock, window and siding installation and repairs; exterior painting; grease trap cleanouts and installation; water damage remediation; utility pole removal; mower repair; legal office renovations; and utilities maintenance.
 - 4.) \$3,188 (\$1,141 SGF, \$2,047 Federal)– Provides for expenditures related to pest control services.
 - 5.) \$78,291 (\$11,028 SGF, \$1,900 SGR, \$65,363 Federal) – Provides for expenditures related to waste disposal and dumpster rentals.
 - 6.) \$16,957 SGF – Provides for expenditures related to the installation of a new camera system to provide network surveillance security at Gillis Long Center trailer park.

Provides for the purchase of computer hardware and installation of classroom smartboards.										

CF 4	01 - 116	Executive	LA Public Defender Board	\$0	\$0	\$46,141	\$269,778	\$0	\$0	\$315,919
------	----------	-----------	--------------------------	-----	-----	----------	-----------	-----	-----	-----------

The purpose of this BA-7 request is to carry forward funding associated with 10 contracts beginning in FY 16 or before that all have termination dates in FY 17. The contracting entity, beginning balance, remaining balance, and date of each contract is outlined below.

- 1.) *Justice Works* - \$10,186 (LA Public Defender Fund) to fund the remaining balance of a contract that has a total value of \$30,000. The purpose of the contract is for Justice Works to modify the LPDB’s defender Data Case Management System (CMS). The contract began 7/1/2015 and terminates on 12/31/2016.
- 2.) *Brian Buel* - \$5,844 (LA Public Defender Fund) to fund the remaining balance of a contract that has a total value of \$7,500. LPDB has entered into this contract for the purpose of updating its website, as well as to determine the need for supplemental materials, as well as design and print of the materials. The contract began 7/1/2015 and terminates on 12/31/2016.
- 3.) *Stone Pigman Walther Wittmann, LLC* - \$41,664 (LA Public Defender Fund) to fund the remaining balance of a contract that has a total value of of \$223,687. The contractor is providing representation of the LPDB associated with proceedings in *State v. Kenneth Willis* and *State v. Tarika Wilson* in the 1st Judicial District Court. (Caddo). The contract began 7/1/2015 and terminates on 12/31/2016.
- 4.) *Capital Post-Conviction Project of Louisiana (CPCPL)* - \$73,600 (LA Public Defender Fund) to fund the remaining balance of a contract that has a total value of \$125,000. The LPDB contracted with the CPCPL to carry out the defense of David Brown, one of the “Angola 5” defendants, in the 20th Judicial District. The contract began 10/1/2015 and terminates on 12/31/2016.
- 5.) *Capital Appeals Project (CAP)* - \$108,484 (LA Public Defender Fund) to fund the remaining balance of a contract that began in FY 15 with a total value of \$147,157 and received an appropriation of \$113,903 in FY 16. The LPDB contracted with the CAP to carry out the defense of Jeffrey Clark, one of the “Angola 5” defendants, in the 20th Judicial District. The contract began 1/1/2015 and terminates on 12/31/2016.
- 6.) *Postlethwaite & Netterville* - \$51,000 (\$21,000 SGR, \$30,000 LA Public Defender Fund) to fund the remaining balance of a contract that has a total value of \$85,000. The purpose of the contract is to conduct a data-driven attorney workload study for the LPDB. Final publication of the study is scheduled for December 2016. The contract began 7/1/2015 and terminates on 8/30/2016, though LPDB staff anticipate extending it until 12/31/2016.
- 7.) *American Bar Association (ABA)* - \$20,141 (SGR) to fund a portion of the remaining balance of a contract with a total value of \$43,551. The contract has a total remaining balance of \$29,034, leaving a balance of \$8,893 on the contract if the \$20,141 in resources is carried forward from FY 16 to FY 17. The LPDB reports that it will fund the remainder of this contract upon receipt of the balance of a grant from The Laura & John Arnold Foundation. The LPDB has received the first \$100,000 of a \$119,551 grant and anticipates receiving the balance of \$19,551 by 10/31/2016. The purpose of the contract is to guide the data-driven attorney workload study being conducted by Postlethwaite & Netterville for the LPDB by establishing the legal and professional standards, as well as the applicable laws to be considered and applied in the workload study. The contract began 11/15/2015 and terminates on 11/14/2016. Final publication of the study is scheduled for December 2016.
- 8.) *Rubin Brown* - \$5,000 (SGR) to fund the total value of a contract for a consultant on the attorney workload study being conducted by the ABA and Postlethwaite & Netterville. Rubin Brown conducted an attorney workload study in Missouri similar to the one LPDB has contracted with the ABA and Postlethwaite & Netterville to perform, and is tasked with assisting all parties involved in the study in LA. No expenditures have been made towards the value of this contract. The contract began 1/1/2016 and terminates on 8/30/2016. The LPDB anticipates extending this contract to correspond with the end of the attorney workload study. Final publication of the study is scheduled for December 2016 and that they anticipate extending the term of this contract.

Legislative Fiscal Office

<u>Agenda #</u>	<u>Schedule #</u>	<u>Department</u>	<u>Agency</u>	<u>SGF</u>	<u>IAT</u>	<u>SGR</u>	<u>DED</u>	<u>IEB</u>	<u>FED</u>	<u>Total</u>
<i>Administrative Program</i> 1.) <i>Venyu Solutions, Inc.</i> - \$14,500 to finish the migration of the Secretary of State’s data center. The total value of the contract with Venyu Solutions, Inc. is \$14,500. The contract began on 7/1/2015 and terminated on 6/30/2016, though the Secretary of State anticipates the contract being extended because the work is not yet completed. The contract is eligible for up to four 12-month extensions. Secretary of State staff anticipates the data center migration will be completed prior to 12/31/2016. 2.) <i>St. Martin Parish Acquisitions</i> - \$27,419 for the purchase of a Ford Expedition SUV. The purchase order for the vehicle is dated 3/22/2016. The Secretary of State has not received the vehicle and is awaiting the final invoice for the purchase. The purchase order states that the Secretary of State must receive the vehicle within 150 days of purchase.										
<i>Elections Program</i> 1.) <i>The Advocacy Center</i> - \$6,618 for the Advocacy Center’s services to assist the Secretary of State in ensuring that voting machines and election processes are fully accessible for persons with disabilities, and that persons with disabilities are informed about accessing assistive technology to vote more independently. The contract has a total value of \$8,000. The contract began on 2/3/2016, and terminates on 8/31/2016. 2.) <i>Dept. of Public Safety & Corrections (DPS), Office of Motor Vehicles (OMV)</i> - \$11,700 for a contract with DPS to comply with the federal Help America Vote Act (HAVA) of 2002. HAVA requires that voter registration information be compared and verified using information provided by the registrant with the information on file with the OMV. DPS has not sent invoices to the Secretary of State for the final two quarters of FY 16. The Secretary of State enters into annual contracts with DPS for the length of each fiscal year. 3.) <i>Carey T. Jones</i> - \$34,632 to fund a contract to perform legal services for the Secretary of State in election matters in federal and state courts. The contract has a total value of \$365,879. The contract began on 7/1/2015 and terminates on 6/30/2017. 4.) <i>Celia R. Cangelosi</i> - \$25,470 to fund a contract to perform legal services for the Secretary of State in election matters in federal and state courts. The contract has a total value of \$346,750. The contract began on 7/1/2015 and terminates on 6/30/2017. 5.) <i>GCR, Inc.</i> - \$37,746 for a contract to perform modifications to the Elections Program’s Elections Registration & Information Network (ERIN) software. The contract has a total value of \$1.85 M. The contract began on on 5/1/2013 and terminates on 4/30/2018.										
<i>Commercial Program</i> <i>GCR, Inc.</i> - \$30,175 for a contract to perform modifications to the Commercial Program’s Commercial Online Registration Application (CORA) software. The contract has a total value of \$613,602. The contract began on 5/1/2013 and terminates on 4/30/2018.										

CF 6	04b - 141	Justice	Attorney General	\$21,499	\$1,138,515	\$107,008	\$596,974	\$0	\$0	\$1,863,996
The Department of Justice is requesting approval to carry forward funding to provide for the items listed below. The source of the Statutory Dedication is from the DOJ Legal Support Fund (\$546,340), the LA Fund (\$50,582) and the Tobacco Settlement Enforcement Fund (\$52).										
<i>Administrative - \$120,788 Statutory Dedications</i> 1.) Professional Services - \$51,619 from the DOJ Legal Support Fund for a legal contract regarding the Molina Healthcare case. 2.) Other Charges - \$62,163 from the DOJ Legal Support Fund for various legal contracts for the LA Oil & Gas Association lawsuit, expert contracts for the Terrebonne Parish NAACP case and other legal services requested by the Attorney General. 3.) Acquisitions - \$7,006 from the DOJ Legal Support Fund for 10 computers ordered 6/12/2015 at a cost of \$700.60 per computer. The computers were received 7/6/2016.										
<i>Civil Law Program - \$1,735,304 (\$13,595 SGF, \$107,008 SGR, \$1,138,515 IAT and \$476,186 Statutory Dedications)</i> 1.) Supplies - \$922 for ammunition and 1 earmuff. The \$870 of ammunition is paid for by SGR (10 cases at \$87 each) and the \$52 for 1 ear protection headset is from the Tobacco Settlement Enforcement Fund. The headset was ordered 6/14/2016 and is expected to arrive by August 2016. The ammunition was ordered on 3/18/2016 and should arrive by November 2016. 2.) Professional Services - \$1,222,413 for various legal contracts with funding from the DOJ Legal Support Fund (\$182,278), LA Fund (\$50,582) and IAT (\$989,554). The funding from Legal Support Fund relates to contracts involving the cases of Planned Parenthood funding, Act 620 of 2015 involving abortions, pharmaceutical cases, Molina Healthcare, Mothe-Amcare, voting rights matters, and Montgomery v. Louisiana (Life sentences for juveniles). The funds from the LA Fund are utilized for tobacco arbitration. The IAT funding is for the LA Oil and Gas Association lawsuit, marriage laws, the litigation related to the US Department of the Interior’s redrawing of the states’ lateral boundaries and lawsuits involving companies that have leaking underground storage tanks. 3.) Other Charges - \$106,138 SGR for legal contracts regarding Chinese drywall, Client Network Services Inc. (CNSI), and the sale of Kaplan Memorial Hospital. 4.) Other Charges - \$33,485 from the DOJ Legal Support Fund for a legal contract regarding Chinese drywall and consulting contracts for the Terrebonne Parish NAACP case and voting rights matters. 5.) Other Charges - \$162,556 (\$148,961 IAT + \$13,595 SGF) various contracts for domestic violence training and on-line training for child sex trafficking.

<u>Agenda #</u>	<u>Schedule #</u>	<u>Department</u>	<u>Agency</u>	<u>SGF</u>	<u>IAT</u>	<u>SGR</u>	<u>DED</u>	<u>IEB</u>	<u>FED</u>	<u>Total</u>
6.) Acquisitions - \$209,790 from the Legal Support Fund for the purchase of 10 Ford Taurus cars (\$20,979) that were purchased on 5/3/2016. These cars are expected to arrive by mid-August 2016.										
<i>Criminal Law/Medicaid Fraud Program - \$7,904 SGF</i>										
1.) Professional Services - \$4,600 SGF to provide psychological services, such as assessment, support, and referral to investigators and other employees. The FY 15 contract amount was \$14,200 and \$9,600 has been expended. The contract ends 11/30/2016.										
2.) Supplies - \$3,304 SGF for ammunition (38 cases at \$87 each). The ammunition was ordered on 4/20/2016 and expected to arrive by December 2016.										

CF 7	04d - 147	Treasury	State Treasurer	\$0	\$0	\$4,443	\$0	\$0	\$0	\$4,443
------	-----------	----------	-----------------	-----	-----	---------	-----	-----	-----	---------

This carryforward BA-7 request represents the remaining balance of the Sparkhound contract which provides for a software upgrade and new website that were not paid during FY 16 but are expected to be necessary in FY 17. The initial contract amount was \$11,832.50.

CF 8	05 - 251	Economic Development	Office of the Secretary	\$154,994	\$1,148,800	\$0	\$2,394,922	\$0	\$0	\$3,698,716
------	----------	----------------------	-------------------------	-----------	-------------	-----	-------------	-----	-----	-------------

This carryforward BA-7 request accommodates on-going, previously approved, contracts that were expected to be paid in FY 16 but, for various reasons, have been adjusted for payment in FY 17 instead. The statutory dedications are the LED Fund (\$1.5M) and the Rapid Response Fund (\$0.9 M). Contracts related to the FastStart Program make up \$3.5 M of this \$3.7 M carryforward request and are numerous because the program essentially retains instructors for services as needed by the various projects, the timing of which may vary throughout the contract period. The remaining \$200,000 in the carryforward request involves the LA International Commerce Master Plan, legal retainers and IT assistance.

CF 9	05 - 252	Economic Development	Business Development	\$76,187	\$0	\$2,716,781	\$3,028,566	\$0	\$0	\$5,821,534
------	----------	----------------------	----------------------	----------	-----	-------------	-------------	-----	-----	-------------

This carryforward BA-7 request accommodates on-going, previously approved, contracts that were expected to be paid in FY 16 but, for various reasons, have been adjusted for payment in FY 17 instead. The 45 contracts requiring the carryforward appropriation are related to LED programs and mission including the Small & Emerging Business Program, the International Commerce Marketing Plan, regional economic development agreements, accounting services for program verification, and other various contracts. The statutory dedications are the LED Fund (\$2.98 M) and the Amnesty Fund (\$50,289). The SGR includes fees anticipated as the result of a policy change in the film program requiring applicants to provide funding for accounting verification. The larger carryforward amounts are for BBR Creative, Inc./Covalent for advertising (\$1.23 M Statutory Dedications), accounting services from Heard, McElroy & Vestal, LLC (\$582,850 SGR), Horne, LLP (\$353,475 SGR), RBM, LLP (\$352,231 SGR), Kevin P. Martin and Associates, LLP (\$344,673 SGR), Bourgeois Bennett, LLC (\$227,768 SGR), Postlethwaite & Netterville, APAC (\$224,775 SGR), and Schafer Group, LTD (181,798 SGR), Edward Lowe Foundation for technical assistance (\$403,877 Statutory Dedications), for fiduciary and fiscal agent services, Greater New Orleans, Inc. (\$296,037 Statutory Dedications) and Greater Baton Rouge Economic Partnership (\$160,086 Statutory Dedications), and Taylor, Porter, Brooks & Phillips, LLP for legal assistance associated with Research and Development Tax Credit program (\$148,725 SGR). About \$1.5 M in carryforward requests is spread among the remaining 33 contracts.

CF 10	06 - 261	Culture, Recreation & Tourism	Office of the Secretary	\$0	\$0	\$15,492	\$0	\$0	\$0	\$15,492
-------	----------	-------------------------------	-------------------------	-----	-----	----------	-----	-----	-----	----------

The purpose of this BA-7 request is to carry forward funding for the LA Seafood Marketing & Promotion Board (LSPMB). The source of the SGR is British Petroleum (BP) Funds. In FY 15, \$152,050 was budgeted for operating expenditures from the Wildlife & Fisheries Foundation, of which \$83,634 was expended. The funding from Wildlife & Fisheries is the result of the transfer of the LSPMB from Wildlife & Fisheries to Culture, Recreation & Tourism in FY 14. Also, as part of FY 15 mid-year budget cuts \$17,500 was reduced, leaving \$50,916 unexpended that was subsequently carried forward into FY 16. Carrying forward the remaining \$15,492 will allow the Board to continue promoting LA seafood in various markets. Since the funds donated to LSPMB were donated with the specific intent to promote LA seafood after the BP oil spill, this creates a bonafide obligation.

CF 11	06 - 264	Culture, Recreation & Tourism	State Parks	\$2,778,525	\$0	\$0	\$0	\$0	\$0	\$2,778,525
-------	----------	-------------------------------	-------------	-------------	-----	-----	-----	-----	-----	-------------

The purpose of this BA-7 request is to carry forward funding related to bondafide FY 16 obligations that were not liquidated prior to the close of the fiscal year. The FY 16 expenditure obligations include 37 repairs and maintenance projects (RMP) totaling \$1,498,450.69 and the purchase of equipment and cabin furniture contained in 29 purchase orders totaling \$1,280,074.45. The RMPs were not completed and the purchases could not be delivered on or before June 30th.

The RMPs are for the following areas: Jimmie Davis State Park, South Toledo Bend State Park, Poverty Point Reservoir State Park, Lake Fausse Pointe State Park, Poverty Point World Heritage Site, Centenary, Ft. St. Jean Baptiste, North Toledo Bend State Park, Port Hudson State Historic Site, Lake Bruin State Park, Hodges Gardens State Park, Fairview State Park, Rosedown Plantation State Historic Site, Lake D’Arbonne State Park, Tickfaw State Park, St. Bernard State Park, Audubon State Historic Site, Sam Houston Jones State Park, and Chemin-A-Haut State Park. The RMPs include but are not limited to the following: roofing repairs, lodge life station repairs, road paving, repairs to cabin walkways, stairway replacements, replacement and installation of

CARRYFORWARD BA-7s

HVACs, replacement of cabin doors, repairs to comfort stations, entrance stations and bathrooms, replacement of flooring and ceiling tiles, shower repairs, road repairs, resurfacing pools, and tree removal services.										

CRT reports that the purchase of replacement equipment and cabin furniture includes the replacement of items that replaced like items that have not been replaced in almost 20 years. The replacement equipment was purchased for the following areas: Districts 1, 2, 3, and 4, Mansfield, Ft. Pike State Historic Site, Palmetto Island State Park, Ft. Randolph-Buhlow, Lake D’Arbonne State Park, Audubon State Historic Site, Admin Office, and the Resource Development Office. The replacement items includes: sofa sleepers, chairs, UTVs, mattresses, drop in ranges, replacement computers, compact excavator, BBQ grills, desk, tractor (including attachments), defibrillator, mulching movers, chainsaws, trimmers, and a truck.

This request also includes funding (\$1,000) for ads in the quarterly Tee to Green Magazine.

CF 12	06 - 267	Culture, Recreation & Tourism	Tourism	\$0	\$0	\$599,530	\$0	\$0	\$0	\$599,530
-------	----------	-------------------------------	---------	-----	-----	-----------	-----	-----	-----	-----------

The purpose of this BA-7 request is to carry forward funding in the Marketing Program (\$516,612) and the Welcome Center Program (\$82,918). The SGR source is generated through sales and use tax per R.S. 51:1286 that “*provides funds for the purpose of assisting the state in the promotion of tourism.*”

The Marketing Program portion is for a pass-through for the 2016 Essence Music Festival as well as contractual obligations regarding construction at Parc de Familles in Jefferson Parish. The Essence Music Festival is held annually during the 4th of July weekend and the final report and deliverables could not be obtained on or before 6/30/2016. The remaining portion of the marketing contract with Essence Festival is \$98,112. As of 06/30/2016, CRT paid \$1,798,112 for marketing/advertising. The Jefferson Parish’s Parc de Familles carryforward request is \$418,500 for the development and construction activities at the site that features multipurpose recreational and other facilities that will contribute to tourism targeted for large-scale events.

- The Welcome Centers portion of \$82,918 is for major repairs projects for certain welcome centers delineated below:
- *Capitol Park Welcome Center* - \$10,286 for Carpet / Floor Preparation and Replacement (Vendor: Cornerstone Commercial Flooring, LLC).
 - *Kentwood Welcome Center* - \$38,267 for Carpet / Floor Preparation and Placement (Vendor: Excalibur International, LLC).
 - *Greenwood Welcome Center* - \$6,400 for HVAC heat pump system replacement (Vendor: Quality Sheet Metal).
 - *Various Welcome Centers* - \$27,965 for Façade Selective Demo and Rebuild (Vendor: CORSO Fabrications, LLC). Required completion is 12/31/2016.

CF 13	07 - 273	Transportation & Development	Administration	\$0	\$0	\$0	\$1,403,226	\$0	\$0	\$1,403,226
-------	----------	------------------------------	----------------	-----	-----	-----	-------------	-----	-----	-------------

The purpose of this BA-7 request is to carry forward statutorily dedicated Transportation Trust Fund - Regular authority from FY 16 into FY 17 to pay bonafide expenditure obligations that were not liquidated prior to the close of the fiscal year as follows:

- Office of the Secretary - Professional Services*
- 1.) \$194,725 - *G.E.C., Inc.* for consulting services and program management services for the Road Transfer Program and the transfer and exchange of public roads. The Road Transfer Program compensates parishes and municipalities that voluntarily accept ownership of certain state roads in exchange for credit for the present value of 40 years of estimated maintenance costs, which can be applied to highway capital projects of choice as selected by the receiving local government. The contract term is 2/3/2014 to 2/3/2020. The P.O. for this portion of the FY 16 Road Transfer Program was issued 6/23/2016.
 - 2.) \$147,257 - Nossaman for legal services during all phases of specialized, innovative procurements including but not limited to Design-Build Projects and Public Private Partnerships pursued by or on behalf of DOTD. The contract term is 4/7/2014 to 1/5/2017.
 - 3.) \$437,467 - *Daigle, Fisse & Kessenich, APLC* for legal services involving the handling of general law, environmental law, recovery of costs expended with respect to remediation of sites containing hazardous waste substances, expropriations, contracts and property matters regarding issues directly related to DOTD. The contract term is 8/1/2013 to 7/31/2016.
 - 4.) \$29,350 - Forensic Accounting Solutions, LLC for construction scheduling, accounting, business loss development, business valuation and management services. The contract term is 6/1/2015 to 5/31/2018.
 - 5.) \$25,000 - *Gregory D’Angelo & Associates* for legal services involving the handling of general law, expropriation, environmental law, collection of hazardous waste clean-up sites, construction, contract and property matters statewide regarding issues directly related to DOTD. The contract term is 9/1/2015 to 8/31/2018.
 - 6.) \$35,000 - *Hurley & Cot, APLC* for legal services involving the handling of legal issues, with an emphasis on maritime litigation, throughout the state involving issues directly associated with DOTD projects. The contract term is 6/1/2016 to 5/31/2019.
 - 7.) \$20,000 - *Keyser & Associates, LLC* for legal services involving the handling of general and administrative law, inverse condemnation, expropriation, construction, contract and property items such as drainage, flood control, navigation, public lands, mineral rights, and boundary disputes throughout Louisiana on behalf of DOTD. The contract term is 8/1/2015 to 7/31/2018.
 - 8.) \$84,152 - *Modjeski & Masters, Inc.* for specific expert witness services in cases for matters associated with DOTD including but not limited to bridge superstructures, support structures, protection structures, testing of materials to indicate useful remaining life, and materials and bridge components. The contract term is 11/14/2014 to 11/13/2017.

The purpose of this BA-7 request is to carry forward funding from the statutorily dedicated Transportation Trust Fund (TTF) - Regular and Transportation Trust Fund (TTF) - Federal budget from FY 16 into FY 17 to pay bonafide expenditure obligations that were not liquidated prior to the close of the fiscal year as follows:

Engineering Program - \$3,424,215 Statutory Dedications (\$2,417,850 TTF - Federal; \$1,006,365 TTF - Regular)

Professional Services - \$2,872,205 (\$2,298,460 TTF-Federal, \$573,745 TTF-Regular)

- 1.) \$383,252 TTF-Federal – LSU for the LA Transportation Research Center to provide research to assess the engineering properties of geotechnical reinforcement systems. The contract term is 7/1/2015 to 6/30/2018.
- 2.) \$184,000 TTF-Federal - LSU for development of a mode choice model to estimate evacuation transit demand. The contract term is 3/1/2016 to 2/28/2018.
- 3.) \$1,164,675 TTF-Federal – LSU for the operations, staffing and administration of the Transportation Training & Education Center (TTEC). The contract term is 7/1/2012 to 6/30/2018.
- 4.) \$57,866 TTF-Federal - Volkert, Inc. for consulting services to assist DOTD with development of policies and procedures, project initiation, Alternative Delivery Procurement support, contract administration and management, design and construction quality acceptance, construction engineering and inspection, partnering, public information support, document control and dispute resolution. The contract term is 9/4/2014 to 9/3/2019.
- 5.) \$7,997 TTF-Federal - HNTB Corporation for consulting services to perform engineering and administration services for project initiation, procurement, design and construction contract administration, project oversight and acceptance, development of documents, policies and procedures, as well as document control of Alternative Delivery projects. The contract term is 9/4/2014 to 9/3/2019.
- 6.) \$72,975 TTF-Federal - Michael Baker International, Inc. to provide all necessary engineering and related services to provide Design-Build Procurement Support Services relative to a specified project, and to provide assistance to the DOTD Project Manager for specified tasks. The contract term is 1/31/2013 to 1/30/2018.
- 7.) \$427,695 TTF-Federal - Michael Baker International, Inc. to provide all necessary engineering and related services to provide Design-Build Construction Quality Assurance Program (CQAP) database development. The vendor will develop a database to record and store all materials sampling and testing data collected on the US 90 Design-Build project in Lafayette Parish for all materials test data. The contract term is 1/31/2013 to 1/30/2018.
- 8.) \$573,745 TTF-Regular - ECM Consultants Inc. to provide engineering and related services required for dam safety inspections, evaluations, and reports throughout the state. The contract term is 10/18/2013 to 10/17/2017.

Other Charges - \$432,620 TTF-Regular

\$432,620 TTF-Regular – US Department of the Interior, Geological Survey to provide operation and maintenance of a network of hydrologic stations to collect basic water-resources data, to provide analysis of hydrologic, hydrogeologic, and chemical quality effects of past and present usage in addition to the management of those resources. The contract term is 7/1/2015 to 6/30/2016.

Acquisitions - \$119,390 TTF-Federal

\$119,390 TTF-Regular – Breaux Constructors to procure radar speed signs for St. Landry Parish (P.O. date 6/28/2016).

Operations Program - \$2,687,970 Statutory Dedications TTF - Regular

Operating Services - \$5,220

- 1.) \$1,060 – Trafficware Group, Inc. for repair of four video units (P.O. date 5/25/2016).
- 2.) \$3,500 - McDonald Mechanical, Inc. to provide for freight delivery and installation of cationic tank (P.O. date 6/17/2016).
- 3.) \$660 - Athens Technical Specialists, Inc. for freight delivery and calibration services for a conflict monitor/malfunction management unit (P.O. date 6/24/2016).

Supplies - \$828,714

- 1.) \$542 – SID Tool Co, Inc. for 100 safety goggles (P.O. date 6/9/2016).

CF 15	08A - 402	DPSC Corrections Services	LA State Penitentiary	\$2,690	\$0	\$0	\$0	\$0	\$0	\$2,690
The purpose of this BA-7 request is to carry forward funding in the Incarceration Program for 10 blower motors for rooftop exhaust ventilators on offender dorms and cellblocks that were ordered in FY 16 but were not delivered on or before 6/30/2016.										
While the purchase order was issued September 2015; the motors were not received. However, the vendor reported to the agency that the motors were shipped from the manufacturer with the other items on the purchase order in October 2015. The vendor and manufacturer have filed a claim with the freight company for the missing blower motors. Receipt is pending the outcome of the claim.

Legislative Fiscal Office

Agenda #	Schedule #	Department	Agency	SGF	IAT	SGR	DED	IEB	FED	Total
----------	------------	------------	--------	-----	-----	-----	-----	-----	-----	-------

The purpose of this BA-7 request is to carry forward funding in the Incarceration Program for supplies (\$10,779) and acquisitions (\$95,147) that were ordered in FY 16 but not delivered on or before 6/30/2016.

The supplies are for various types of ammunition. The agency reported that all munition orders are more heavily scrutinized by US Department of Homeland Security since September 11th which adds to the delivery time.

The acquisitions are:

1.) Heated Cabinets with correctional features, mobile for compartment trays \$6,144.16 each x 3 = \$18,432.48

2.) Pull Behind Bush Hogs – used to maintain 1,200 acres of open pasture at facility \$9,308.80 each x 2 = \$18,617.60

3.) Bush Hog Hay Mower – used to cut Bermuda grass pasture for hay operations for livestock \$4,144.00 each x 1 = \$4,144.00

4.) Ice Cube Machines – used to provide ice to the entire compound throughout the year \$4,496 each x 12 = \$53,952.00. The ice machines are new and the facility currently has eight (8). This will bring the total number to twenty (20). The dorms do not have air conditioning and ice is used for offender temperature maintenance.

The purpose of this BA-7 request is to carry forward funding in the Incarceration Program for ammunition that was ordered in FY 16 but was not delivered on or before 6/30/2016. While the purchase order was issued 9/1/2015, the ammunition was on backorder as a result of an ammunition shortage.

CF 19	08B - 419	DPSC Public Safety Services	State Police	\$0	\$0	\$0	\$418,159	\$0	\$0	\$418,159
-------	-----------	-----------------------------	--------------	-----	-----	-----	-----------	-----	-----	-----------

The purpose of this BA-7 request is to carry forward funding from the Riverboat Gaming Enforcement Fund for the Department of Public Safety, Office of State Police (OSP). The funds are associated with purchase orders for upgrades to information technology (IT) equipment at the Jefferson Parish Sheriff’s Office, the Iberville Parish Sheriff’s Office, the West Feliciana 911 Communications District, and the LA Wireless Information Network (LWIN) tower site in Denham Springs. OSP must reimburse the Office of Technology Services (OTS), who purchased the IT equipment for the upgrades. The individual purchase orders, as well as their dates and total costs, are outlined below.

Jefferson Parish Sheriff’s Office - \$168,266 for T1 lines, connections, uninterruptible power supply (UPS) backup power, satellite airtime cost, insurance, tower site maintenance, and lease costs. The original purchase order has a request date of 6/10/2016 and DPS is currently awaiting a final invoice from OTS.

Iberville Parish Sheriff’s Office - \$14,472 for T1 lines, connections, UPS backup power, satellite airtime cost, insurance, tower site maintenance, and lease costs. The original purchase order has a request date of 5/25/2016 and DPS is currently awaiting a final invoice from OTS.

West Feliciana 911 Communications District - \$46,800 for T1 lines, connections, UPS backup power, satellite airtime cost, insurance, tower site maintenance, and lease costs. The original purchase order has a request date of 5/25/2016 and DPS is currently awaiting a final invoice from OTS.

LWIN Denham Springs Tower Site - \$188,621 for the installation of a multi-channel radio system at the LWIN Denham Springs Tower Site. The original purchase order has a request date of 9/9/2015, with final installation of the multi-channel radio system occurring in late August.

CF 21	09 - 330	Health	Behavioral Health	\$19,596	\$0	\$0	\$0	\$0	\$0	\$19,596
The purpose of this BA-7 request is to carry forward \$19,596 funding for the Office of Behavioral Health (OBH). OBH created a purchase order on 6/13/2016 for 40 patient chairs to be used in wards located at the Eastern LA Mental Health System. OBH had expected a delivery date of June 28th from the vendor (WW Grainger), however, OBH was notified on June 29th the chairs will be delayed into the next fiscal year (FY 17).										
CF 22	09 - 340	Health	OCDD	\$0	\$72,524	\$0	\$0	\$0	\$0	\$72,524
The purpose of this BA-7 request is to carry forward Title 19 Medicaid IAT funds at the Pinecrest Supports & Services Center. The IAT funds are for the purchase of supplies and personal care items for residents as well as major repairs at Pinecrest. Expenditures for this BA-7 request are as follows:										
<u>Supplies (\$28,324)</u> Trash can liners were ordered on 5/25/2016 from Dixie Paper Company (\$14,638). The liners were back ordered and not received until 7/07/2016. Also, personal care items for residents were ordered from McKesson Medical Surgical (\$13,686). Personal items include soap, wipes, razors, shave cream, after shave, deodorant, shampoo, hair spray, hair brushes, toothpaste, and lotion. These items were ordered on 2/17/2016 and 3/20/2016. Some of the personal care items were partially delivered on 7/05/2016 and the remainder was delivered on 7/13/2016.										
<u>Major Repairs (\$44,200)</u> Request to replace the roof on a residential home on the Pinecrest campus was submitted on 3/28/2016. The roof shingles are on backorder and the vendor, Sol Construction LLC, cannot proceed with construction until the shingles are received.										
CF 23	11 - 431	Natural Resources	Office of Secretary	\$0	\$0	\$0	\$351,452	\$0	\$0	\$351,452
The purpose of this BA-7 is to carry forward funding from the statutorily dedicated Oilfield Site Restoration Fund in the Executive Program. The funds involve expenditures associated with the following projects:										
<u>Other Charges</u> <u>Greenwood-Wascome Project Field - \$95,283</u> Faith Energy, Inc., for retainage left on the project to plug 4 wells, with 3 being high priority. This work has not yet been completed due to weather delays. (Contract Dates: 10/10/2015 - 12/30/2015; Full Contract Amount: \$364,861).										
<u>Monroe Project Field - \$256,169</u> Womack & Sons to plug 24 wells. (Contract Dates: 5/21/2016 - 8/19/2016; Full Contract Amount: \$256,169)										
CF 24	12 - 440	Revenue	Office of Revenue	\$0	\$0	\$1,494,809	\$0	\$0	\$0	\$1,494,809
This carryforward BA-7 request accommodates on-going, previously approved, contracts that were expected to be paid in FY 16 but, for various reasons, have been adjusted for payment in FY 17 instead. The contacts with the carryforward amount include IT services with ScanOptics (\$14,691) and Fast Enterprises, LLC (\$691,231) for maintenance and adjustments to the GenTax System, which is a key component of the collection process. The Office of Debt Recovery will require services from Informatix, Inc. (\$38,300) and Columbia Ultimate, Inc. (\$330,000) for electronic financial data matching and account management which will allow more efficient verification of delinquent debt across agencies. The analysis required to identify areas of audit will be utilized under a contract with SAS (\$236,900) as well as contracts with various local entities that will conduct audits on the state’s behalf (\$44,600) as well as Portfolio Recovery Association, Inc. (\$68,928) and Revenue Recovery Group, Inc. (\$42,974). A contract for legal services by Shows, Cali and Walsh involving labor and employment issues will carry forward \$27,185.										
CF 25	13 - 856	Environmental Quality	Environmental Quality	\$0	\$0	\$0	\$949,402	\$0	\$53,000	\$1,002,402
The purpose of this BA-7 request is to carry forward funding from the statutorily dedicated Hazardous Waste Site Cleanup Fund (\$495,144) and Environmental Trust Fund (\$454,258); and federal funding (\$53,000). The funds are distributed in the manner and used for the purposes outlined below.										
<u>Office of Environmental Compliance - \$710,402</u> <u>Environmental Trust Fund and Hazardous Waste Site Cleanup Fund</u>

The purpose of this BA-7 is to carry forward funds from the statutorily dedicated Conservation Fund (\$266,304) and federal funding (\$36,881).

Acquisitions - \$203,185 (\$166,304 Conservation Fund; \$36,881 Federal)
1) \$73,762 (\$36,881 Conservation Fund, \$36,881 Federal) - Gerry Lane Chevrolet/GMAC for 2 Chevrolet Tahoe SUVs (P.O. Date 2/4/2016). Both vehicles are funded through the U.S. Coast Guard Boating Safety Grant. The grant requires a 50% state match.
2) \$129,423 - ARCCO Company Services, Inc. for a 400 KW natural gas generator (P.O. Date 3/30/2016).

Major Repairs - \$100,000 Conservation Fund
Edgecombe Construction, LLC. for an Empire Boat Lift (P.O. Date 6/30/2016).

CF 27	16 - 514	Wildlife & Fisheries	Office of Fisheries	\$0	\$278,072	\$0	\$0	\$0	\$0	\$278,072
-------	----------	----------------------	---------------------	-----	-----------	-----	-----	-----	-----	-----------

The purpose of this BA-7 request is to carry forward funding in the Fisheries Program for a multi-year agreement between the Office of Fisheries and the Coastal Protection & Restoration Authority (CPRA). The Department of Wildlife and Fisheries (DWF) indicates that these funds are for the implementation of the Remote Setting Program, which involves “seeding” certain areas of the public oyster seed grounds for rehabilitation purposes. DWF developed the Remote Setting Program in response to the 2010 Deepwater Horizon Oil Spill in order to restore and enhance Louisiana’s public oyster seed grounds affected by the oil spill. To date \$1,421,928 has been expended of the advanced funding agreement, resulting in a remaining balance of \$278,072 (explained below).

CF 28	19A - 671	Higher Education	Board of Regents	\$876,145	\$0	\$0	\$118,700	\$0	\$0	\$994,845
-------	-----------	------------------	------------------	-----------	-----	-----	-----------	-----	-----	-----------

This BA-7 requests authority to carry forward \$876,145 SGF and \$118,700 from the statutorily dedicated Higher Education Initiatives Fund (HEIF) for the following obligations of the Board of Regents (BOR):

Other Charges - \$30,700
1.) \$30,700 (HEIF) - A contract with Northwestern State University for the Open Education Resource Initiatives. The contract ends 6/30/2017. The purpose of the program is to support student success by making higher education more affordable and to eliminate the need for students to purchase course materials.

Professional Services - \$964,145
1.) \$823,343 (SGF) - Geocent LLC to convert and migrate the BOR hardware/software/application infrastructure onto a hosted infrastructure platform; contract ends 4/30/2018.
2.) \$49,254 (SGF) - Covalent Logic to provide for hosting and maintenance service for the BOR Transfer Degree, WISE and Geaux to College websites within a content management system; contract ends 2/28/2018.
3.) \$3,548 (SGF) - David Ware for general legal services supporting the Board of Regents; contract ends 12/4/2017.
4.) \$5,000 (HEIF) - Kantrow, Spaht, Weaver & Blitzter to provide legal services associated with the LA Optical Network Initiative (LONI). The contract ends 6/30/2017.
5.) \$20,000 (HEIF) - OmniUpdate to provides hosting, maintenance, and migration services associated with BOR Transfer Degree, WISE and Geaux to College websites. The contract ends 6/14/2017. The BOR will transition web services from Covalent Logic to OmniUpdate in FY 17.
6.) \$3,000 (HEIF) - Hometown Productions produces and distributes video news releases associated with the board meetings. The contract ends 6/30/2017.
7.) \$15,000 (HEIF) - Mary McKeown-Moak will provides consulting services to determine the 2-year institution/4-year institution class size that is utilized in the BOR outcomes based funding formula and to determine the cost multipliers for the Classification of Instructional Programs group. The contract will end 9/30/2016.
8.) \$45,000 (HEIF) - National Center for Higher Education Management Systems (NCHEMS) will review and assess the graduate education program inventory throughout Louisiana to ensure the programs meet the priority needs of the state and those that the programs serve. The contract ends 3/31/2017.

CF 29	19B - 653	Special Schools & Comm.	LA Schools for the Deaf & Visually Impaired	\$150,838	\$0	\$0	\$0	\$0	\$0	\$150,838
-------	-----------	-------------------------	---------------------------------------------	-----------	-----	-----	-----	-----	-----	-----------

The purpose of this BA-7 request is to carry forward funding in the Administrative & Shared Services Program (\$148,300), LA School for the Deaf (\$1,324) and LA School for the Visually Impaired (\$1,214) for the following obligations:

Administrative & Shared Services
1.) \$144,020 for Carousel Industries of North America for conversion of the telephone system to Voice Over Internet Protocol (VOIP) which is necessary for continued eligibility for the “ERATE” federal communications discount. Equipment has been delivered but installation has been delayed due to coordinating issues between AT&T and the Contractor.
2.) \$4,280 for LLJ Environmental Construction LLC for removal and disposal of an unusable and hazardous incinerator from the campus. Work has been completed but the vendor has not submitted the required manifest of disposal necessary to ensure proper disposal prior to final payment.

School for the Deaf
Delta Education LLC dba Frey Scientific for elementary student science program materials which are on backorder and expected to be received by August.

School for the Visually Impaired

CARRYFORWARD BA-7s
8/12/2016
Legislative Fiscal Office

<u>Agenda #</u>	<u>Schedule #</u>	<u>Department</u>	<u>Agency</u>	<u>SGF</u>	<u>IAT</u>	<u>SGR</u>	<u>DED</u>	<u>IEB</u>	<u>FED</u>	<u>Total</u>
CF 30	19B - 673	Special Schools & Comm.	N. O. Center for Creative Arts	\$29,835	\$0	\$0	\$0	\$0	\$0	\$29,835

The purpose of this BA-7 request is to carry forward funding in the New Orleans Center for Creative Arts (NOCCA) Instructions Program for the following obligations:

\$2,136 for purchases of Library Books and Audio Visual Materials to support classroom instruction from Alibris (\$1,424) and Follet (\$712) as some books were placed on backorder and are not expected to be received before September;

\$1,495 for Caire Hotel & Restaurant Supply for reusable lunch room supplies as part of the school’s efforts to recycle and reuse campaign as well as cost savings measures;

\$24,000 for Automated Controls Systems for HVAC repairs. Parts for the existing system are not available and the repairs include hardware and specialized software that must be programmed for the facility; and

\$2,204 for Thornhill Services for building repairs after it was struck by a vehicle. The repairs have been completed and NOCCA is awaiting the clear lien before issuing the final payment.

CF 32	20 - 901	Other Requirements	State Sales Tax Dedications	\$0	\$0	\$0	\$6,606,956	\$0	\$0	\$6,606,956
-------	----------	--------------------	-----------------------------	-----	-----	-----	-------------	-----	-----	-------------

This carryforward BA-7 request includes obligations against 40 statutorily dedicated funds that contain state sales tax on hotel rentals that are dedicated back to various local entities. This money is available to be transferred to the appropriate party once all required documentation is in place. Some of the larger amounts include New Orleans Metropolitan Convention and Visitors Fund (\$3.5M), Lafayette Visitor Enterprise Fund (\$548,437), East Baton Rouge Community Improvement Fund (\$466,724), Jefferson Parish Convention Center (\$403,617), East Baton Rouge Centroplex – River Center (\$217,199), West Calcasieu Community Center Fund (\$214,063), St. Mary Parish Visitor Enterprise Fund (\$178,832), East Baton Rouge Parish Enhancement Fund (\$153,541), West Baton Rouge Visitor Enterprise Fund (\$92,231), Richland Parish Visitor Enterprise Fund (\$90,752), Shreveport/Bossier City Visitor Fund (\$90,907), and \$683,625 spread among the remaining 29 funds.

CF 33	20 - 931	Other Requirements	LED Debt Service & State Commitments	\$11,913,375	\$0	\$0	\$39,399,130	\$0	\$0	\$51,312,505
-------	----------	--------------------	--------------------------------------	--------------	-----	-----	--------------	-----	-----	--------------

This carryforward BA-7 request involves contracts for Economic Development incentives involving debt and other state commitments that are typically multi-year contracts that pay out over time given certain parameters and benchmarks. In many cases, the obligation exists once the timeline is met and occasionally extended. This BA-7 request will allow those incentives to remain an appropriated obligation of the state until they are either paid or legally cancelled. The statutory dedications are from the Rapid Response Fund (\$22.9 M) and the LA Megaproject Development Fund (\$16.5 M). There are 29 projects with carryforward appropriations requested with the largest being Southern Lifestyle (\$1.1 M Statutory Dedication, \$5.1 M SGF), Computer Sciences Corporation (\$6 M Statutory Dedication), LA Tech University/CenturyTel, Inc. (\$4.7 M Statutory Dedication, \$0.3 M SGF), IBM Corporation (\$2.7 M Statutory Dedication, \$2.5 M SGF), CGI Federal, Inc. (\$4.3 M Statutory Dedication), IBM Corporation grant (\$4.2 M Statutory Dedication), Caddo-Bossier Parishes Port Commission (\$3.9 M Statutory Dedication), International Shipholding Corporation (\$3.8 M Statutory Dedication), General Electric Capital Corporation (\$2.6 M Statutory Dedication), LSU Board of Supervisors (\$1.7 M Statutory Dedication), SOWELA (\$1.5 M Statutory Dedication), Bell Helicopter Textron, Inc. (\$0.8 M Statutory Dedication, \$0.3 M SGF) and approximately \$5.8 M spread among the remaining 17 projects.

CF 34	20 - 945	Other Requirements	State Aid to Local Govt. Entities	\$0	\$0	\$0	\$702,047	\$0	\$0	\$702,047
-------	----------	--------------------	-----------------------------------	-----	-----	-----	-----------	-----	-----	-----------

The purpose of this BA-7 request is to carry forward statutory dedication funding for State Aid to Local Government Entities from FY 16 into FY 17 to pay bonafide expenditure obligations that were not liquidated prior to the close of the fiscal year as follows:

- From Act 16 (HB 1) of FY 2016 Schedule 20-945*
- 1.) \$51,911 - St. Landry Parish Excellence Fund payable to St. Landry Parish School Board.
 - 2.) \$4,583 - Calcasieu Parish Fund payable to the Calcasieu Parish School Board.
 - 3.) \$23,819 - Bossier Parish Truancy Program Fund payable to the 26th Judicial District Court Truancy Program.
 - 4.) \$133,053 - Beautification of New Orleans City Park Fund payable to Beautification Project for New Orleans.
 - 5.) \$16,620- Algiers Economic Development Foundation Fund payable to the Algiers Economic Development Foundation.
 - 6.) \$33,143 - Friends of NORD Fund payable to Friends of NORD, Inc.
 - 7.) \$21 - Greater New Orleans Sports Foundation Fund payable to the Greater New Orleans Sports Foundation.
 - 8.) \$60,184 - Rehabilitation for the Blind & Visually Impaired Fund payable to the Lousiana Center for the Blind at Ruston, Inc.
 - 9.) \$293,713 - Rehabilitation for the Blind & Visually Impaired Fund payable to the Louisiana Association for the Blind.

I. SUMMARY/COMMENTS

NOTE: Amended at the table in JLCB to only include part 1) Smart Cards.

The purpose of the BA-7 request is to increase the fees and self-generated budget authority to allow for the use of funds generated by a settlement of Unclaimed Property resources (\$295,000) that were recently identified as well as pass through funding sent to the state from U.S. Bank (\$300,000). The three parts of the BA-7 are described below:

1) (Smart Cards - \$300,000 in FY 16 only)

The US Bank funds of \$300,000 will be sent by the bank to the Department of Treasury to adapt the Department of Children and Family Services (DCFS) database to be compatible with the U.S. Bank Smart Cards system. Smart cards are part of the centralized banking contract authorized under the Department of Treasury. Since the previous vendor, JPMorgan Chase, is exiting the smart card market, U.S. Bank has agreed to fund the changes required within the DCFS system in order to provide the smart card services necessary under a five year contract. These services will be provided to DCFS as well as the Department of Revenue and Workforce Commission, should they be required. The agreement with U.S. Bank was previously a three-year contract with two annual renewal options. The contract has no implications for the state budget since cardholder fees provide payment directly to the vendor. The only impact to the state budget are these one-time funds that will be passed through from the Department of Treasury to the Office of Technology Services for use in adapting the DCFS system.

The remaining authority in this BA-7 is related to the Unclaimed Property (UCP) program. Recently, a settlement has been reached that will add roughly \$900,000 to the UCP collections, which has not yet been recognized in the REC forecast. The Department of Treasury is allowed to retain up to 7% of unclaimed property collections for administrative expenses, though the budget authority is currently about 3% (or \$1.8M) and will remain around 3% upon approval of this BA-7. Any UCP funds remaining after the appropriate distributions are transferred annually to the state general fund. This BA-7 seeks to utilize \$295,000 of the \$900,000 settlement for the following purposes: mandatory advertising of available funds in UCP and an upgrade of the UCP computer system to allow for stronger audit and customer service functions.

2) (Unclaimed Property Statutorily Required Advertising - \$120,000 annually - after the fact BA-7)

Property available through the UCP program must be advertised according to R.S 9:161. The advertising typically occurs in November and has historically appeared in print media. For FY 16, the agency chose to advertise via its website instead of print media to save expenses, which were then incorporated into the November mid-year budget deficit resolution. Subsequent objections by the press hinged upon the language in the statute, which appears to require a print advertisement, and, according to the agency, may cost more to legally defend than the advertising itself. The agency purchased the necessary advertising in November to satisfy the statute at a cost of \$120,000 and now seeks to pay the expenses through the newly identified UCP funds. This portion of the BA-7 is an after the fact request since the money has already been expended. This amount will be required in subsequent budgets to continue to comply with the advertising provisions of the statute. Prior to the FY16 mid-year cut, the agency was spending \$195,000 per year on UCP advertising but has since adjusted the advertising threshold to include claims above \$500 instead of claims above \$250 in order to reduce expenses. If the agency was allowed to satisfy the statute by advertising on its website, this expense would be eliminated in the future.

3) (Unclaimed Property Computer System Contract - \$115,000 in FY 16 and \$175,000 in subsequent years)

March 17, 2016

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Using the same UCP new revenue, the agency also seeks to upgrade the UCP database that is currently under contract with Xerox for \$60,000 annually. The upgrade will enhance audit capabilities as well as customer service automation and is expected to cost \$175,000 annually, though the request for FY 16 is \$115,000 due to the partial year. This BA-7 will allow the agency the option to contract the operation of two parallel systems to maintain system integrity while switching vendors through FY 17. With the anticipated success of the upgrade, the funds for both systems may not be necessary for all of FY 17. The upgrade is expected to generate enough future revenue to cover the cost of the upgrade and on-going contractual expenses by identifying UCP resources through audit and decreasing the need for staffing and other resources currently devoted to UCP customer service issues.

II. IMPACT ON FUTURE FISCAL YEARS

- 1) The bankcard compatibility upgrade is a one time expenditure using funds provided to the state by U.S. Bank being passed through the Department of Treasury budget. There will be no future year impact from this provision.
- 2) Unclaimed Property print advertising (\$120,000 annually) will require authorization in all future years as the interpretation of the statute is that print advertising is required. Should the interpretation change to allow internet advertising, the future year impact will be eliminated.
- 3) An upgrade to the Unclaimed Property processing system is expected to cost \$175,000 annually compared to a current cost of \$60,000 annually, an increase of \$115,000 per year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

BA-7 Parts 1 & 2- The Legislative Fiscal Office recommends approval of parts 1 and 2 of the BA-7 request (funding of \$420,000 in FY 16 and \$120,000 in subsequent years). Allowing U.S. Bank to fund the alteration of the system to allow for compatibility in order to continue issuance of smart cards for DCFS is recommended. Allowing use of unclaimed property (UCP) proceeds to pay for statutorily required unclaimed property advertising after the fact is a legitimate use of the UCP proceeds.

BA-7 Part 3- The Legislative Fiscal Office has no recommendation on part 3 of the BA-7 request pending further information concerning the upgrade to the current unclaimed property processing system (funding of \$115,000 in FY 16 and \$175,000 in subsequent years). Of particular interest would be compelling evidence that the new system will perform to a level that will at least fund the increased costs of operation or possibly more.

Statutory Dedications:	\$0	Uncompensated Care Costs	\$0	0
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request proposes to increase SGR and reduce IAT by a like amount to properly align means of finance with projected revenues in DHH/Medicaid (Medical Vendor Payments Program) for FY 16. The original source of IAT is revenue transferred from various state agencies. The source of SGR represents Intergovernmental Transfer (IGT) revenue transferred from various public governmental entities. These IGT revenues are captured by DHH as SGR. The revenues are used as a state match source in Medicaid, and support Upper Payment Limit and Disproportionate Share (DSH) hospital payments.

The Means of Finance Swap is reflected below by program.

MOF Swap:

Program	SGF	IAT	SGR	Federal	TOTAL
Payments to Private Providers	\$0	(\$57,535,136)	\$57,535,136	\$0	\$0
Uncompensated Care Costs	<u>\$0</u>	<u>(\$16,964,864)</u>	<u>\$16,964,864</u>	<u>\$0</u>	<u>\$0</u>
TOTALS	\$0	(\$74,500,000)	\$74,500,000	\$0	\$0

II. IMPACT ON FUTURE FISCAL YEARS

The FY 17 Executive Budget annualizes this means of finance swap to match anticipated collections.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$102,501</u>	Total	<u>\$102,501</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the LA Public Defender Board's (LPDB) budgeted SGR authority by \$102,501, from \$17,050 to \$119,551. The LPDB intends to use the grant awards to fulfill a statutory obligation pursuant to LA R.S. 15:147(B)(4)(c) and 148(B)(9) & (11) to obtain comprehensive workload data and adopt workload standards. LPDB will also use these funds to establish internal timekeeping and task tracking measures for its staff attorneys, as well as fund a comprehensive workload study.

The source of the increased SGR funds is a one-time grant award from the non-profit Laura & John Arnold Foundation totaling \$119,551. LPDB is asking for enough authority to use a portion of the grant funds because it does not anticipate spending the entirety of the funds during the remainder of FY 16. The LPDB does not have the entirety of the grant funds in hand, but currently has \$100,000 of the award in hand. The LPDB is spending \$30,000 from the statutorily dedicated LA Public Defender Fund to fulfill a match requirement of the grant award. Fulfillment of the match requirement will have no adverse impact on expenditures within the LPDB, as they had set \$75,000 aside to conduct a workload study pursuant to LA R.S. 15:147(B)(4)(c) and 148(B)(9) & (11).

Pursuant to LA R.S. 15:147(B)(4)(c) and 148(B)(9) & (11), LPDB intends to use the grant award to fund and conduct a workload study. The first part of the study is to establish internal task tracking and timekeeping measures for lawyers within LPDB to determine how much time staff attorneys are spending on certain tasks and types of cases. The second part of the study, which accounting firm Postlethwaite & Netterville is conducting, consists of polling legal experts throughout LA to determine the number of hours appropriate for staff attorneys to spend working on certain types of cases and conducting certain tasks. Postlethwaite & Netterville is currently conducting this portion of the study at a cost of \$85,000 (\$55,000 grant award funds, \$30,000 LPDB funds) and LPDB expects it to end in early FY 17. LPDB will use the remainder of the grant award (\$17,050) to fund the unfinished portion of the study in FY 17. LPDB intends to use this information to determine how efficient and effective its staff attorneys are in working cases, as well as determining if its staffing and amount of available resources are appropriate.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have an impact on future fiscal years, as the LPDB will have the remainder of the grant award to expend in FY 17. The LFO assumes the balance of the expenditure authority associated with the workload study to be completed in FY 17 will be included in the Executive Budget Recommendation. If it is not, these funds will need to be added to the appropriation bill via amendment.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Civil Service

AGENDA NO.: 2

AGENCY: Board of Tax Appeals

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$54,704	0
Interagency Transfers:	\$0	Local Tax Division	\$0	0

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$54,704</u>	Total	<u>\$54,704</u>	<u>0</u>

I. SUMMARY/COMMENTS

The proposed BA-7 seeks the appropriation of SGR that has been collected in excess of the budgeted amount due to increased activity in state cases heard by the Board of Tax Appeals (BTA). Some of the increased funds are the result of filing fees (\$450/case) related to cases concerning the Business Utilities sales tax changes of the 2015 Legislative Session. Additional fees are also the result of copy fees (\$5/page) to prepare case records for the appellate court, responsibilities of which are now under the purview of the BTA instead of the District Court per Act 210 of 2015. As of 1/22/2016, SGR collections for the state program of the BTA are about \$101,000, which is \$58,593 more than the current appropriation of \$42,407. This request is to appropriate \$54,047 of the excess collections. The BTA would use these funds for part-time wages and to pay in-state service expenses.

The increased fees related to the appellate process are generated by an increased workload due to the BTA responsibility to submit records directly to the Appellate Court since appeals are now directed there instead of District Court. Copies of the BTA records must adhere to specific formats and other procedural requirements in meeting the standards of the Appellate Court for record submission; duties previously undertaken by the District Court. The records can be thousands of pages with detailed formatting requirements.

The BTA is proposing to hire a Work As Needed (WAE) position to help with the increased workload when large appellate records are requested as well as to reduce the backlog of current requests and has located a former 19th Judicial District Court clerk with similar experience to help expedite the process. The hourly wage is \$17.40, the same as a similar position at the JDC and is expected to require 18.5 hours per week for the remainder of the fiscal year. The annual anticipated increase in expenditures is \$7,989, including related benefits. A second WAE fiscal position is anticipated due to upcoming medical leave of existing staff and some turnover in other positions as well as a backlog of work due to a recent concerted efforts to resolve old cases. This position will assist the Undersecretary in accounting, data entry, invoicing, human resources and other similar duties and is budgeted as a retiree rehire. The wage estimate is based on the mid-point of the Accountant 3 at \$23.64 per hour for 20 weeks or \$16,890, including related benefits. The total cost of the WAE effort is \$24,879.

As part of the statewide effort to control expenses, the BTA was directed to relocate to the state-owned Iberville Building from private sector leased space. Due to the mandatory use of state services for phone, internet, mail and IT for all agencies located in state-owned buildings, the amount historically budgeted for the agency was less than that required by the in-house services. The annual cost increases are \$26,963 for the IT, phone and internet charges and \$2,862 for mailing services. This increase was not included during the budget process because the rates for these services changed after the Executive Budget submission and the adjustments were inadvertently not amended into the final budget. The Division has agreed to suspend the monthly obligation of the BTA for these services until the disposition of this BA-7 is known. The expected annual increase in expenditures is \$29,825.

The fees related to the production of appellate record requests will be self-sufficient in that the WAE will only be necessary if the request is made and associated fees are paid. However, the services required to be paid due to the state-owned building location are recurring expenses and are essentially being funded with the BA-7 using fees that may not recur since they are in part generated due to a one-time situation (the Business Utilities Sales tax change). However, in subsequent years, these expenses are expected to be paid through an arrangement between the Department of Revenue and the BTA in which the per

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

case filing fees are waived in exchange for a flat annual rate, which will be increased. This arrangement (not yet corroborated by LDR) will still require approval within the budget process.

If the BA-7 is not approved, the BTA will presumably be required to carry the OTS/OTM obligation into the FY 17 budget or require a supplemental appropriation. The Division cannot take the money from the BTA if the invoice exceeds available budget authority. If the WAE positions are not approved, further delays in processing of cases and related material may result in complications within the adjudication process.

II. IMPACT ON FUTURE FISCAL YEARS

It is expected that the FY 17 budget will incorporate the increased expenses related to in-state services, which will remain in the BTA base budget. Though the funding in this BA-7 could be considered one time due to the influx of cases resulting from the Business Utilities sales tax increase, BTA indicates that it has an agreement with the Department of Revenue to increase its lump sum transfer of funds to cover these expenses (LDR pays this amount in lieu of filing fees). *This agreement could not be corroborated at the time of this writing.*

The WAE positions appear to be consistent with duties that would be necessary as fees increase, thus should be primarily self-funding. There is no mandatory future expense related to the WAE.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Approved By JLCB**

DEPARTMENT: Veterans Affairs

AGENDA NO.: 3A

AGENCY: LA War Veterans Home

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA War Veterans Home	\$50,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$50,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$50,000</u>	Total	<u>\$50,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the appropriation of fees and SGR within the LA War Veterans Home in Jackson, LA by \$50,000, from approximately \$2.85 M to \$2.9 M. The source of the SGR funds is through home residents paying for part of their care, employees and visitors purchasing meal tickets, and billing residents and co-insurances for reimbursement of Medicare co-pays. Residents at the home will not be paying a greater amount for their care as a result of this increase in SGR authority.

This BA-7 is associated with the SGF reduction of \$1.04 M in the LA Department of Veterans Affairs (LDVA) used as part of the FY 16 mid-year reduction plan as approved by the Joint Legislative Committee on the Budget on 11/20/2015. The LA War Veterans Home will disburse the SGR increase to LDVA via Interagency Transfer as part of a \$1.04 M IAT backfill solution approved by JLCB at the November 2015 meeting. In the event this BA-7 is not approved, LDVA will realize a \$1.04 M net reduction of its budget in FY 16. For reference, the LA War Veterans Home collected a total of approximately \$2.8 M in SGR in FY 15.

For illustrative purposes, the LA War Veterans Home had a fund balance of approximately \$342,000 derived from SGR in the State Treasury as of 1/22/2016. To the extent that SGR is not collected in accordance with projected levels, unspecified expenditures associated with the backfill in LDVA may not be fully funded.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the appropriation of SGR within the Northeast LA War Veterans Home in Monroe, LA by \$247,787, from approximately \$2.8 M to \$3 M. The source of the SGR funds is through home residents paying for part of their care, employees and visitors purchasing meal tickets, and billing residents and co-insurances for reimbursement of Medicare co-pays. Residents at the home will not be paying a greater amount for their care as a result of this increase in SGR authority.

This BA-7 is associated with the SGF reduction of \$1.04 M in the LA Department of Veterans Affairs (LDVA) used as part of the FY 16 mid-year reduction plan as approved by the Joint Legislative Committee on the Budget on 11/20/2015. The Northeast LA War Veterans Home will disburse the SGR increase to LDVA via Interagency Transfer as part of a \$1.04 M IAT backfill solution approved at the November 2015 JLCB meeting. In the event this BA-7 is not approved, LDVA will realize a \$1.04 M net reduction of its budget in FY 16. For reference, the Northeast LA War Veterans Home collected a total of approximately \$2.7 M in SGR in FY 15.

For illustrative purposes, the Northeast LA War Veterans Home had a fund balance of approximately \$282,000 derived from SGR in the State Treasury as of 1/22/2016. To the extent that SGR is not collected in accordance with projected levels, unspecified expenditures associated with the backfill in LDVA may not be fully funded.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Southwest LA War Veterans Home	\$247,787	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$247,787			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$247,787</u>	Total	<u>\$247,787</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the appropriation of SGR within the Southwest LA War Veterans Home in Jennings, LA by \$247,787, from approximately \$2.9 M to \$3.1 M. The source of the SGR funds is through home residents paying for part of their care, employees and visitors purchasing meal tickets, and billing residents and co-insurances for reimbursement of Medicare co-pays. Residents at the home will not be paying a greater amount for their care as a result of this increase in SGR authority.

This BA-7 is associated with the SGF reduction of \$1.04 M in the LA Department of Veterans Affairs (LDVA) used as part of the FY 16 mid-year reduction plan as approved by the Joint Legislative Committee on the Budget on 11/20/2015. The Southwest LA War Veterans Home will disburse the SGR increase to LDVA via Interagency Transfer as part of a \$1.04 M IAT backfill solution approved at the November 2015 JLCB meeting. In the event this BA-7 is not approved, LDVA will realize a \$1.04 M net reduction of its budget in FY 16. For reference, the Southwest LA War Veterans Home collected a total of approximately \$2.9 M in SGR in FY 15.

For illustrative purposes, the Southwest LA War Veterans Home had a fund balance of approximately \$2.0 M derived from SGR in the State Treasury as of 1/22/2016. To the extent that SGR is not collected in accordance with projected levels, unspecified expenditures associated with the backfill in LDVA may not be fully funded.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the appropriation of SGR within the Northwest LA War Veterans Home in Bossier City, LA by \$247,787, from approximately \$2.9 M to \$3.1 M. The source of the SGR funds is through home residents paying for part of their care, employees and visitors purchasing meal tickets, and billing residents and co-insurances for reimbursement of Medicare co-pays. Residents at the home will not be paying a greater amount for their care as a result of this increase in SGR authority.

This BA-7 is associated with the SGF reduction of \$1.04 M in the LA Department of Veterans Affairs (LDVA) used as part of the FY 16 mid-year reduction plan as approved by the Joint Legislative Committee on the Budget on 11/20/2015. The Northwest LA War Veterans Home will disburse the SGR increase to LDVA via Interagency Transfer as part of a \$1.04 M IAT backfill solution approved at the November 2015 JLCB meeting. In the event this BA-7 is not approved, LDVA will realize a \$1.04 M net reduction of its budget in FY 16. For reference, the Northwest LA War Veterans Home collected a total of approximately \$3.4 M in SGR in FY 15.

For illustrative purposes, the Northwest LA War Veterans Home had a fund balance of approximately \$158,000 derived from SGR in the State Treasury as of 1/22/2016. To the extent that SGR is not collected in accordance with projected levels, unspecified expenditures associated with the backfill in LDVA may not be fully funded.

Statutory Dedications:	\$12,724,067	Uncompensated Care Costs	\$0	0
Federal Funds:	\$10,568,057			
Total	<u>\$15,002,000</u>	Total	<u>\$15,002,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate both Statutory Dedication revenue and Federal Fund to reimburse for certain hospital services in FY 16. The source of Statutory Dedications revenue are Federal Funds deposited into the Community Hospital Stabilization Fund (CHSF). The source of Federal Funds is Title XIX federal financial participation.

The FY 16 Executive Budget Recommendation resulted in certain hospital cuts or hospital related funding that was vetoed by the governor. This BA-7 seeks to restore these specific FY 16 reductions. In addition, the BA-7 seeks to swap the state match source used to provide supplemental Medicaid payments to certain Service District hospitals by using revenues from the CHSF in place of revenues from the hospitals. The restorations and swaps are itemized below.

	<u>IAT</u>	<u>CHSF STAT DED</u>	<u>Federal</u>	<u>TOTAL</u>
<u>Reimbursement</u>				
Hospital Outlier Pool	\$0	\$3,783,000	\$6,217,000	\$10,000,000
Inpatient Mental Health Services	\$0	\$76,417	\$125,583	\$202,000
Emergency Room Triage Rate	\$0	\$1,702,350	\$2,797,650	\$4,500,000
Hospital Hemophilia Services	\$0	\$113,490	\$186,510	\$300,000
<u>MOF Swap</u>				
Replace IAT match with CHSF	(\$7,048,810)	\$7,048,810	\$0	\$0
Replace IAT match with Federal	<u>(\$1,241,314)</u>	<u>\$0</u>	<u>\$1,241,314</u>	<u>\$0</u>
TOTALS	(\$8,290,124)	\$12,724,067	\$10,568,057	\$15,002,000

II. IMPACT ON FUTURE FISCAL YEARS

Financial documents provided by the State Treasurer reflects the \$12.7 M fund balance in the Community Hospital Stabilization Fund as of 1/21/2016. Based on historical deposits into the fund, the LFO cannot determine the amount of revenues that may be deposited into the CHSF in future fiscal years, if at all. To the extent there are no fund balances in the fund at the end of FY 16, these revenues used as a state match source are one time in nature. Maintaining these hospital payments in FY 17 may require an alternative state match source.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Oil & Gas Regulatory	\$0	0
Interagency Transfers:	\$0	Public Safety	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to execute a means of financing (MOF) swap in the amount of \$1,288,808 for the Office of Conservation from the Mineral Resource Operation Fund to the Oil & Gas Regulatory Fund. The decrease for the Mineral Resource Operation Fund recognizes a projected revenue shortfall of approximately \$1.29 M in FY 16. The Mineral Resource Operation Fund derives most of its revenue from oil and gas permits and leases, which have decreased with declining oil prices. This revenue will be replaced by revenue from the Oil & Gas Regulatory Fund which has been bolstered by Act 362 of 2015. Act 362 provides for increasing the Oil & Gas Regulatory Fund cap, increasing existing fees, and creating new fees for oil and gas exploration. The current Revenue Estimating Conference (REC) estimate for the Oil & Gas Regulatory Fund is \$14 M, while the current appropriation for the Oil & Gas Regulatory Fund is \$11.5 M. Upon approval of this BA-7 request, the appropriation for this fund will be \$12.7 M, which is less than the current adopted forecast. Department of Natural Resource revenue projections anticipate that Act 362 will generate the \$1.29 M necessary to fill the shortfall created by lost Mineral Resource Operation Fund revenue.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$16,589,273			
Federal Funds:	\$0			
Total	<u>\$16,589,273</u>	Total	<u>\$16,589,273</u>	<u>0</u>

I. SUMMARY/COMMENTS

BA-7 1B is the companion to this BA-7.

The purpose of this BA-7 request is to increase budget authority in the statutorily dedicated Oil Spill Contingency Fund in the amount of \$16,589,273 within the Coastal Protection & Restoration Authority (CPRA). A like amount is currently budgeted within the Department of Public Safety (DPS) for seed repayment and will be transferred to CPRA. DPS was the lead agency for oil spill related matters. However, since August 2015, CPRA is now the lead state agency for oil spill related matters.

Budget authority for the seed was approved at the August 2015 Joint Legislative Committee on the Budget meeting. The FY 15 seed was used to pay litigation expenses related to the British Petroleum (BP) oil spill. DPS received a seed in the amount of approximately \$16.6 M at the beginning of FY 15. The FY 15 seed amount of \$16.6 M was used to pay the remaining FY 14 seed balance of \$8.5 M and the remaining \$8.1 M was used to seed FY 15 oil spill related expenses. The Attorney General's Office will receive \$3.1 M from the total seed amount to cover legal expenses from FY 15.

As a result of the settlement entered into by the state and BP, the Attorney General's Office will receive \$20 M thirty days after the consent decree is signed. In addition, CPRA will receive \$38.25 M in 2 payments once the consent decree is signed. The first payment of \$19.125 M will be received sixty days after the settlement and the second payment in the same amount will be received one year after the settlement. The seed will be repaid with a portion of the economic damages money (\$20 M) and Natural Resources Damages Assessment/Clean Water Act money (\$38.3 M). This money is in addition to the \$6.8 B settlement the state is receiving. The settlement is subject to court approval, which is likely to occur in March 2016; however, this date is subject to change. Once the consent decree is signed the seed will be repaid starting in FY 16 and will be fully repaid by the start of FY 17.

Note: Pursuant to R.S. 39:71(D), upon approval of the commissioner of administration and concurrence of the state treasurer, a cash advance or seed may be granted to a requesting state agency. Typically treasury seeds are designed to provide operating capital to a state agency until an anticipated revenue source is actually collected. For example, a state agency whose primary source of operation is from a statutorily dedicated fund that only collects revenues one time during a fiscal year needs resources to operate until that fund's revenues are actually collected. Once collected, the agency will utilize these collections to repay the state treasury for the total amount of seed resources expended. State Treasury seeds are basically short-term loans that must be repaid prior to the close of the fiscal year. However, in some instances, the state treasury seed is being paid in full by reseeded it in the next fiscal year. The state is essentially repaying the short-term loan with another short-term loan and the fund's short-term debt is being pushed to the next fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will likely have no impact on future fiscal years. To the extent the settlement is signed near the end of FY 16 and a portion of the settlement is not received in FY 16, then the final repayment of the seed will occur in FY 17 with the settlement dollars.

I. SUMMARY/COMMENTS

BA-7 1A is the companion to this BA-7

The purpose of this BA-7 request is to decrease budget authority in the statutorily dedicated Oil Spill Contingency Fund in the amount of \$16,589,273 within the Department of Public Safety (DPS). This BA-7 transfers the budgeted authority from DPS to the Coastal Protection & Restoration Authority (CPRA). DPS was the lead agency for all oil spill matters until August 2015, when CPRA became the lead agency for matters related to the 2010 BP oil spill.

DPS will have a remaining appropriation of \$1.8 M from the Oil Spill Contingency Fund after transferring the seed to CPRA. This remaining authority represents the operating budget of the Louisiana Oil Spill Coordinator's Office (LOSCO) within DPS. LOSCO's primary function is to ensure coordination and representation of Louisiana's interests in matters related to oil spill response and prevention other than the 2010 BP oil spill.

Budget authority for the seed was approved at the August 2015 Joint Legislative Committee on the Budget meeting. The FY 15 seed was used to pay litigation expenses related to the oil spill. DPS received a seed in the amount of approximately \$16.6 M at the beginning of FY 15. The FY 15 seed amount of \$16.6 M was used to pay the remaining FY 14 seed balance of \$8.5 M and the remaining \$8.1 M was used to seed FY 15 oil spill related expenses. The Attorney General's Office will receive \$3.1 M from the total seed amount to cover legal expenses from FY 15.

Statutory Dedications:	\$0	Field Services	\$0	0
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is a technical BA-7. There is no revenue or expenditure impact.

The purpose of this BA-7 request is to move Federal funds budget authority from the Community & Family Services Program (\$21,578,026) to the Administration & Executive Support Program (\$5,081,268) and the Prevention & Intervention Services Program (\$16,496,758). The source of Federal funds is the Child Care & Development Fund (CCDF) block grant from Administration for Children & Families (ACF), a division of the U.S. Department of Health & Human Services. This BA-7 does not impact CCDF matching fund requirements.

In accordance with Act 868 of 2014, the CCDF block grant was transferred from the Department of Children & Family Services (DCFS) to the Department of Education (DOE) in the Governor's Executive Budget for FY 16. However, the ACF did not consent to federal approval of the CCDF transferred in FY 16. As a result, during the legislative process for the FY 16 budget, an amendment transferred the CCDF funds back to DCFS from DOE. The amendment placed all the CCDF grant funds in the Community & Family Services Program and not the Administration & Executive Support and Prevention & Intervention program where the CCDF funds were previously allocated. This BA-7 corrects CCDF block grant budget authority between these programs within DCFS.

II. IMPACT ON FUTURE FISCAL YEARS

The ACF has approved the CCDF block grant transfer in FY 17. The Division of Administration has indicated that CCDF grant funds will be transferred from DCFS to DOE in the Governor's Executive Budget for FY 17.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Self-Generated Revenue:	\$2,500,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,500,000</u>	Total	<u>\$2,500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate fees related to applicant submissions for certain tax credit certifications including research and development (R&D), motion picture, digital media, sound recording and live performance credits. Per Act 412 of 2015, beginning 1/1/2016, applicants must pay a fee for verification by an independent CPA or tax attorney chosen by LED of expenditures submitted for the certification of entertainment and R&D tax credits.

Prior to 1/1/2016, applicants submitted a report verified by a CPA chosen and paid for by the applicant. The applicant will now pay those funds directly to LED to be used for expenditure verification. This BA-7 is necessary to provide LED the budget authority to contract with the independent CPA or tax attorney to obtain the expense verification report using the fees generated by certification applications.

The fee amounts have been established by LED through the rule-making process for all credits except R&D and involve the payment of a deposit when filing expenses for certification. Once the report is complete, the applicant will be assessed the actual cost, not to exceed \$250 per hour, including a refund of any excess payments. The fees were not included in the FY 16 budget as the bill was not signed until 7/1/2015.

The table below outlines the deposits and maximum fees along with the anticipated fee collections related to each credit as published in the LA Administrative Code. According to the fiscal note for Act 412 and the impact statements for the rules, the fees are anticipated to generate about \$2.5 M in self-generated revenue during FY 16 to be used solely on professional services contracts related to the expense verification report.

Tax Credit	<u>Fees for Expenditure Verification Reports</u>		Maximum Fee
	Project Expenditures	Deposit	
Research and Development	Not yet stipulated by rule		
Film Production	\$50,000-\$299,999	\$5,000	\$10,000
	\$300,000-\$24,999,999	\$7,500	\$15,000
	\$25,000,000+	\$15,000	\$25,000
Digital Media	\$0-\$999,999	\$7,500	\$15,000
	\$1,000,001+	\$15,000	\$25,000
Sound Recording	\$5,000-\$49,999	\$2,500	\$5,000
	\$50,000+	\$5,000	\$15,000
Live Performance	Any	\$5,000	\$15,000

II. IMPACT ON FUTURE FISCAL YEARS

December 17, 2015

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

The appropriation included in this BA-7 reflects anticipated fees collected from 1/1 - 6/30/2016, which is half of a fiscal year. Presumably, the FY 17 and subsequent budgets will include an SGR appropriation of about \$5 M for a full year of activity, assuming collection estimates are accurate.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$36,000			
Total	<u>\$36,000</u>	Total	<u>\$36,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate federal funds that were awarded for rural economic development on 8/13/2015 for use between October 2015 and September 2016. Program expenditures of \$2,500 which are currently included in the LED budget will provide the state match (along with funds from the local economic development entity) to allow the federal funds to be drawn down. The funds are a Rural Business Development Grant (RBDG) from Rural Development within the U.S. Department of Agriculture and are to be administered by the Community Competitiveness group within LED with the assistance of the Northeast LA Economic Alliance (NELEA) and in cooperation with Morehouse Economic Development Corporation, North Delta Regional Planning & Development District, LA's designee to the Delta Regional Authority Board and local chambers of commerce.

The grant will provide community and economic development resources to help prepare the region to compete for projects and jobs under LED's LA Development Ready Communities (LDRC) Program (with the ability to implement the Community Competitiveness Initiative (CCI)) by assessing resources, developing a long term strategic plan, and possibly hosting site selection seminars and educational opportunities. The funding is specific to the following parishes, with implementation expected in certain cities: Madison (Tallulah), Richland (Rayville and Delhi), West Carroll (Lake Providence) and Morehouse (Bastrop). East Carroll Parish completed a LDRC program for Oak Grove in May 2015, but could participate in the CCI program under this funding. NELEA will provide technical assistance and localized project management. The anticipated timeframe for implementation of the project is around May and June of 2016, though the grant expires on 9/22/2016 so expenditures may carryforward into FY 17. Because this grant was awarded through the unspent pool at USDA, there is no opportunity to extend the expenditure deadline.

To date, the LDRC program has been implemented in 31 communities in the state with the Oak Grove project serving as the successful pilot for small communities. The funding facilitates a process in which local input is emphasized to arrive at a regional economic development strategic plan.

The area has been designated a Stronger Economies Together (SET) region through the Southern Rural Development Center which will assist in developing a regional economic development implementation plan, including the progress associated with the RBDG grant dollars. The SET designation is not necessary for the RBDG funding to be utilized but is expected to further strengthen the regional impact.

The total budget for the funding related to the RBDG grant is \$41,000 with \$36,000 from the RBDG program, \$2,500 from LED (already budgeted) and \$2,500 from NELEA. The LED and NELEA program contributions together exceed the required 10% match. The grant is reimbursable and all local match must be spent before any federal funds are requested. The federal funds will be sent to LED and provide the means of finance for a contract with NELEA for actual program implementation.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years on a recurring basis, though obligations may carryforward into FY 17 since the grant does not expire until 9/22/2016.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to reduce excess IAT budget authority and to increase SGR by a like amount. The IAT reduction is due to the completion of the an agreement between the LA State Historic Preservation Office and the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). These federal funds were utilized to educate and prepare historic property owners for future disasters. The original agreement provided for \$746,900 to be expended over a 3-year timeframe from 2012 to 2015. These monies are a small portion of the state's overall Hazard Mitigation Program. Due to this agreement being completed and the funds expended, this \$210,000 of IAT budget authority is no longer necessary.

In addition to reducing excess IAT budget authority, this BA-7 also increases SGR budget authority. The increase in SGR will be utilized to continue to fund one job appointment position and hire 2 new temporary job appointments at an anticipated aggregate salaries and related benefits costs of approximately \$57,000 annually.

The temporary job appointments will provide assistance to the agency in the processing of applications related to the State Historic Tax Credit Program. Pursuant to Act 825 of 2014 and a corresponding administrative rule adoption, the application fees for this program increase from a flat \$250 to a sliding scale ranging from \$250 to \$5,000. Due to this fee change, the department anticipates collecting an additional \$200,000 from this fee change. According to the department, the increase in the application fee was in direct response to the historic building developers. The developers requested to pay an increase in fees in exchange for processing the applications in a more timely manner. As previously stated, this request will allow the department to continue to fund an existing job appointment position and to hire 2 temporary job appointments in order to speed up processing time, which is currently 3 months.

The specific expenditures of the \$210,000 include: \$61,000 - existing job appointment, \$38,000 - 2 new job appointments, \$37,000 - additional funding for existing employees currently working on the Tax Credit Program as requested by the National Park Service, \$74,000 - various operating services/supplies/IAT. These expenditures reflect anticipated costs from now until the end of the fiscal year and these costs should be annualized in the FY 17 budget.

In addition to the anticipated application fee collections, the agency was notified in August 2015 that the Tides Foundation is granting \$10,000 to the Office of Cultural Development for purposes of geocoding (GIS) 35,000 standing structure records to be included on the LA Cultural Resources Map. The LA Cultural Resources Map is the agency's GIS database for historic properties, buildings, etc.

II. IMPACT ON FUTURE FISCAL YEARS

The agency anticipates the temporary job appointments to last a minimum of 3 years. Therefore, costs associated with these positions will have to be appropriated in subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

December 17, 2015

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 6

AGENCY: State Museum

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Museum	\$366,549	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$366,549			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$366,549</u>	Total	<u>\$366,549</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate SGR to fund anticipated utility expenditures (\$291,332) and other various operating services expenditures (\$75,217) associated with operating state museums under the purview of the agency. The Office of State Museums has expended \$235,495 on utilities to date, which represents approximately 70% of the current utilities budget authority. The current budgeted amount in utilities is \$340,429, while the Office of State Museums projects there will be \$631,761 of anticipated FY 16 utilities costs. Therefore, the current FY 16 utilities budget is \$291,332 short. For context, for the past 4 fiscal years State Museums has averaged in excess of \$600,000 per year for utility expenditures. The remaining \$75,217 of the BA-7 request is associated with other various operating services costs associated with operating these facilities. Examples of such costs include: waste disposal, pest control and custodial costs.

During the FY 16 budget development process, the FY 16 Executive Budget Recommendation annualized approximately \$535,260 SGF and \$286,000 SGR expenditures from the implemented FY 15 mid-year reductions plan. A portion of the overall department's FY 15 mid-year deficit reduction plan included reducing state museum hours in FY 15 and to continue this idea into FY 16, which would result in reduced operating services costs including utilities. However, this action did not occur as the the department was granted financial assistance from an outside entity (Irby Foundation) in order to keep the museums open. Therefore, including the annualized FY 15 mid-year reductions into the FY 16 budget has resulted in the projected underfunding of operating services expenditures for FY 16. For context, the agency's 4-year average actual total operating services expenditures is approximately \$763,000 annually, while the current operating services expenditure budget authority is \$462,709.

As of 12/10/2015, State Museums has collected \$337,545 in SGR, which is on pace to collect at least its 4-year average of approximately \$625,000 annually. More specifically, State Museums is projecting to collect \$634,478 in FY 16 and to the extent this BA-7 is approved, the total SGR budget authority in FY 16 would be \$535,000, or approximately \$100,000 less than anticipated collections.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Natural Resources

AGENDA NO.: 8

AGENCY: Conservation

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Oil & Gas Regulatory	\$2,680,121	0
Interagency Transfers:	\$0	Public Safety	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$2,680,121			
Federal Funds:	\$0			
Total	<u>\$2,680,121</u>	Total	<u>\$2,680,121</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase net budget authority for statutorily dedicated funds by \$2,680,121 in FY 16 for the Office of Conservation. The net amount calculated is based on a \$3.4 M increase for the Oil & Gas Regulatory Fund minus a \$719,879 decrease in budget authority for the Mineral & Energy Operations Fund.

Funding Unfunded Positions and Associated Expenditures

The \$2,680,121 will be used to fund operations of the Office of Conservation primarily in the form of salaries and related benefits (\$1.65 M) and IAT (\$900,000) with the remaining increase in Other Charges. The \$1.65 M increase in salaries and related benefits is attributed to the FY 16 budget for Office of Conservation being underfunded in the salaries and related benefits expenditure category of 20 T.O. positions after the SGF for the Department of Natural Resources (DNR) was reduced by approximately \$4 M in FY 16. According to the Division of Administration and the department, this action was taken with the understanding that the positions would be funded later through the BA-7 process by using revenue generated by Act 362 of 2015.

Act 362 of 2015 provides for increasing the Oil & Gas Regulatory Fund cap, increasing existing fees, and creating new fees. In total, the Act is expected to generate \$5.5 M for the fund annually. Conservation is not requesting the full amount because fee assessments did not begin until late November.

The 20 T.O. positions not currently funded include 10 inspectors, 7 engineers and 3 geologists (\$1.6 M). According to the department, leaving these positions unfunded could impede inspections and slow the permit approval process. The \$900,000 increase in the IAT expenditure category represents an increase in OTS billing, Office of Human Capital costs, Office of State Police security costs and rent. In previous years, the Office of the Secretary would incur these costs, but due to reductions in SGF and falling oil prices, DNR has sought to spread these costs among the other offices within the department. Many of DNR's operations are funded by statutory dedications based on oil and gas royalties. As oil prices have dropped, the revenue to these funds have declined, often failing to meet the revenue projections. The greatest increase in IAT is in OTS billing, which was originally budgeted for \$715,000, but after the first 3 months of FY 16 the department is projecting OTS functions to cost \$1.35 M, an increase of \$650,000. The second largest increase is for Office of Human Capital, which was not budgeted at all for FY 16, but is now anticipated to cost \$138,000. The next increase comes from security services provided by the Office of State Police. These were originally projected to cost \$25,000, but are now anticipated to cost \$85,000. The remaining funding is attributed to rent costs (\$80,000), which had traditionally been paid by DNR, but is now being paid by all offices within DNR.

Recognizing the Mineral & Energy Operation Fund Shortfall

There is a \$719,879 projected revenue shortfall for the Mineral & Energy Operation Fund in FY 16. The Mineral & Energy Operation Fund derives most of its revenue from oil and gas royalties, which have declined as the price of oil has lowered over the past year. In recent years, Conservation has received funding from the Mineral & Energy Operation Fund which is impacted by this shortfall. The \$3.4 M in funding generated from Act 362 will be utilized to address the \$719,879 shortfall with the remaining \$2.68 M being utilized to fund the unfunded positions and associated expenditures as discussed above.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Executive

AGENDA NO.: 1

AGENCY: LA Commission on Law Enforcement

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Federal Program	\$14,163,554	1
Interagency Transfers:	\$0	State Program	\$1,650,000	1
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$1,650,000			
Federal Funds:	\$14,163,554			
Total	<u>\$15,813,554</u>	Total	<u>\$15,813,554</u>	<u>2</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority for the Federal and State programs within the LA Commission on Law Enforcement (LCLE). The increases in budget authority by program, as well as the corresponding expenditures, are outlined below.

Federal Program - \$14,163,554 Federal Funds

LCLE's Federal Program has received an increase in grant awards from the Department of Justice's Office of Victims of Crimes (OVC) in the amount of \$28.3 M as a part of the federal Victims of Crime Act (VOCA). The increased Federal funding is a result of an increased appropriation from the Federal Crime Victims Fund. LCLE directs funds from the grant awards to local government entities statewide. The OVC matches spending by local government entities on an 80/20 basis, though the OVC can waive the match requirement if local governments are spending the grants on new projects or enhancing existing projects. To qualify, local governments must undertake projects involving spousal abuse, sexual assault, child abuse, and previously under-served victims. While LCLE has the entire \$28.3 M grant award in hand, the increased Federal funds budget authority totals approximately 50% of the grant award. For reference, LCLE's FY 16 budget request includes a \$6.85 M appropriation for the VOCA program. The additional appropriation in this BA-7 request would raise LCLE's Federal budget authority to approximately \$21 M for the remainder of FY 16. In the event spending requests from local governments exceed the expected amount, LCLE may seek an additional Federal funds appropriation for its VOCA program through another BA-7 request in FY 16.

Included in the Federal funds budget authority request is the addition of 1 T.O. position within the Federal program for an administrative assistant that serves the entire Federal program. The position being requested was reduced during a FY 15 mid-year reduction. Total salary and related benefits for the administrative assistant position is approximately \$45,000, which is funded entirely using Federal money. The nature of the position is to assist in verifying and disbursing grant awards for the Byrne/JAG grant program, Violence Against Women Act grant program, Victims of Crime Act grant program, LCLE's juvenile programs, and 8 discretionary grants. Currently the workload intended for this position is being absorbed by existing staff.

LCLE intends to fill 2 existing and vacant non-T.O. positions with a Federal program monitor and a grants reviewer because of the workload increase associated with the enhancement in Federal grant awards from the OVC. The Federal program monitor will assist the current program monitor with auditing all parts of the Federal program. The grants reviewer will assist the federal program manager with administering the Federal programs, as well as review grant applications from local governmental entities. Annual salary and related benefits total is \$85,000, funded entirely with Federal dollars and will remain filled only as long as grant funds from the Federal government remain at an elevated level.

State Program - \$1,650,000 Statutory Dedications (Crime Victims Reparations Fund)

LCLE is requesting an increase of \$1.65 M in budget authority for the statutorily dedicated Crime Victims Reparations Fund. The \$1.65 M contains two separate appropriation requests, a \$150,000 request for the Peace Officer Standards Training (POST) program and a \$1.5 M dollar request for the Crime Victims Reparations Program. The CVR Fund receives revenues from court fees and fines and has a current appropriation of \$3.03 M.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

1.) \$1.5 M in Statutory Dedications (CVR Fund) - LCLE's first appropriation request is for \$1.50 M in budget authority for the statutorily dedicated Crime Victims Reparations (CVR) Fund. The increase in budget authority is pursuant to Act 186 of 2015, which mandates that casinos and race tracks statewide remit unclaimed gaming winnings to the state treasurer on a quarterly basis for placement in the CVR Fund. LCLE will use revenues derived from unclaimed gaming winnings to fund certain medical expenses related to forensic medical exams for victims of sexually-oriented offenses. The Department of Public Safety's Gaming Enforcement Division estimated revenues from unclaimed gaming winnings to total approximately \$1.6 M based upon historical data during the 2015 Legislative Session. According to the Department of Treasury, no revenues from unclaimed gaming winnings have been classified to the CVR Fund.

2.) \$150,000 in Statutory Dedications (CVR Fund) - LCLE is making a \$150,000 appropriation request for its POST programs in an effort to establish a law enforcement database pursuant to Act 331 of 2015. Act 331 of 2015 also allows LCLE to collect data regarding training and hiring practices of law enforcement agencies statewide, as well as establish terms and conditions of how law enforcement agencies can obtain this data. The \$150,000 appropriation request is based on an estimate made by the Office of Technology Services (OTS) of \$100,000 to \$150,000 to establish such a database, though OTS estimates that the database may be completed for less than \$150,000. In the event the law enforcement database costs less than \$150,000 to complete, LCLE will request that the remaining funds be used to enhance existing POST educational modules. This appropriation will not require any additional personnel. All POST funding is currently within the CVR Fund, which has an unencumbered balance of \$1.25 M and a budgeted authority of \$3.03 M in FY 16.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have an impact on future fiscal years. This BA-7 only includes 50% of LCLE's VOCA grant award for FY 16 because the Commission has only a portion of the fiscal year in which to spend it. As a result, LCLE may be able to carry forward Federal funds from the VOCA program to appropriate in its budget for FY 17 and in subsequent fiscal years. Furthermore, because of increased appropriations of VOCA grants at the Federal level, LCLE anticipates it will receive a separate award of approximately \$32.7 M in FY 17. The separate award for FY 17 will be in addition to the unappropriated remainder of the FY 16 award (approximately \$14.2 M).

Furthermore, the 1 T.O. position requested within this BA-7 will be a recurring expense, which the LA Commission on Law Enforcement must include in its budget and fund in subsequent fiscal years. Similarly, the Office of Technology Services estimates that annual maintenance costs for the law enforcement database in future fiscal years will total approximately 10%-20% of establishment costs, or \$15,000 to \$30,000 annually.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority for the Federal and State programs within the LA Commission on Law Enforcement (LCLE). The increases in budget authority by program, as well as the corresponding expenditures, are outlined below.

Federal Program - \$14,163,554 Federal Funds

LCLE's Federal Program has received an increase in grant awards from the Department of Justice's Office of Victims of Crimes (OVC) in the amount of \$28.3 M as a part of the federal Victims of Crime Act (VOCA). The increased Federal funding is a result of an increased appropriation from the Federal Crime Victims Fund. LCLE directs funds from the grant awards to local government entities statewide. The OVC matches spending by local government entities on an 80/20 basis, though the OVC can waive the match requirement if local governments are spending the grants on new projects or enhancing existing projects. To qualify, local governments must undertake projects involving spousal abuse, sexual assault, child abuse, and previously under-served victims. While LCLE has the entire \$28.3 M grant award in hand, the increased Federal funds budget authority totals approximately 50% of the grant award. For reference, LCLE's FY 16 budget request includes a \$6.85 M appropriation for the VOCA program. The additional appropriation in this BA-7 request would raise LCLE's Federal budget authority to approximately \$21 M for the remainder of FY 16. In the event spending requests from local governments exceed the expected amount, LCLE may seek an additional Federal funds appropriation for its VOCA program through another BA-7 request in FY 16.

Included in the Federal funds budget authority request is the addition of 1 T.O. position within the Federal program for an administrative assistant that serves the entire Federal program. The position being requested was reduced during a FY 15 mid-year reduction. Total salary and related benefits for the administrative assistant position is approximately \$45,000, which is funded entirely using Federal money. The nature of the position is to assist in verifying and disbursing grant awards for the Byrne/JAG grant program, Violence Against Women Act grant program, Victims of Crime Act grant program, LCLE's juvenile programs, and 8 discretionary grants. Currently the workload intended for this position is being absorbed by existing staff.

LCLE intends to fill 2 existing and vacant non-T.O. positions with a Federal program monitor and a grants reviewer because of the workload increase associated with the enhancement in Federal grant awards from the OVC. The Federal program monitor will assist the current program monitor with auditing all parts of the Federal program. The grants reviewer will assist the federal program manager with administering the Federal programs, as well as review grant applications from local governmental entities. Annual salary and related benefits per position is \$85,000 (\$170,000 total), funded entirely with Federal dollars and will remain filled only as long as grant funds from the Federal government remain at an elevated level.

State Program - \$1,650,000 Statutory Dedications (Crime Victims Reparations Fund)

LCLE is requesting an increase of \$1.65 M in budget authority for the statutorily dedicated Crime Victims Reparations Fund (CVR). The \$1.65 M contains 2 separate appropriation requests, a \$150,000 request for the Peace Officer Standards Training (POST) program and a \$1.5 M dollar request for the Crime Victims Reparations Program. The CVR Fund receives revenues from court fees and fines and has a current appropriation of \$3.03 M.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Amended: Approved by JLCB

1.) \$1.5 M in Statutory Dedications (CVR Fund) - LCLE's first appropriation request is for \$1.5 M in budget authority for the statutorily dedicated CVR Fund. The increase in budget authority is pursuant to Act 186 of 2015, which mandates that casinos and race tracks statewide remit unclaimed gaming winnings to the state treasurer on a quarterly basis for placement in the CVR Fund. LCLE will use revenues derived from unclaimed gaming winnings to fund certain medical expenses related to forensic medical exams for victims of sexually-oriented offenses. The Department of Public Safety's Gaming Enforcement Division estimated revenues from unclaimed gaming winnings to total approximately \$1.6 M based upon historical data during the 2015 Legislative Session. According to the Department of Treasury, no revenues from unclaimed gaming winnings have been classified to the CVR Fund.

Included in this request is an increase of 1 T.O. position for the purpose of hiring a Claims Reviewer to process an increased number of claims related to victims of sexually-oriented offenses. The estimated annual salary and related benefits for the Claims Reviewer is approximately \$44,000. Currently the Commission has received approximately 210 claims related to victims of sexual assault. For reference, before Executive Order BJ 2014-17 stated that hospitals can no longer bill victims of sexual assault, LCLE awarded only 5 claims from August 2013 to January 2015. LCLE would fund this position using revenues derived from unclaimed gaming winnings.

2.) \$150,000 in Statutory Dedications (CVR Fund) - LCLE is making a \$150,000 appropriation request for its POST programs in an effort to establish a law enforcement database pursuant to Act 331 of 2015. Act 331 also allows LCLE to collect data regarding training and hiring practices of law enforcement agencies statewide, as well as establish terms and conditions of how law enforcement agencies can obtain this data. The \$150,000 appropriation request is based on an estimate made by the Office of Technology Services (OTS) of \$100,000 to \$150,000 to establish such a database, though OTS estimates that the database may be completed for less than \$150,000. In the event the law enforcement database costs less than \$150,000 to complete, LCLE will request that the remaining funds be used to enhance existing POST educational modules. This appropriation will not require any additional personnel. All POST funding is currently within the CVR Fund, which has an unencumbered balance of \$1.25 M and a budgeted authority of \$3.03 M in FY 16.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have an impact on future fiscal years. This BA-7 only includes 50% of LCLE's VOCA grant award for FY 16 because the Commission has only a portion of the fiscal year in which to spend it. As a result, LCLE may be able to carry forward Federal funds from the VOCA program to appropriate in its budget for FY 17 and in subsequent fiscal years. Furthermore, because of increased appropriations of VOCA grants at the Federal level, LCLE anticipates it will receive a separate award of approximately \$32.7 M in FY 17. The separate award for FY 17 will be in addition to the unappropriated remainder of the FY 16 award (approximately \$14.2 M).

Furthermore, the 2 T.O. positions requested within this BA-7 will be recurring expense, which the LA Commission on Law Enforcement must include in its budget and fund in subsequent fiscal years. Similarly, the Office of Technology Services estimates that annual maintenance costs for the law enforcement database in future fiscal years will total approximately 10% -20% of establishment costs, or \$15,000 to \$30,000 annually.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 2

AGENCY: Public Health

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Public Health Services	\$28,768,323	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$28,768,323			
Total	<u>\$28,768,323</u>	Total	<u>\$28,768,323</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$28,768,323 in the Public Health Services Program, Office of Public Health (OPH). The source of funds are from the following: (1) pharmaceutical rebates of \$25.1 M; and (2) the Pre-Exposure Prophylaxis Project (PrEP) grant and the "Data to Care" grant from the Centers for Disease Control and Prevention (CDC) of \$3,668,323. The grants require no state match.

Pharmaceutical Rebates

The Louisiana Health Access Program (LA HAP), formerly known as AIDS Drug Assistance Programs (ADAP), assists uninsured and insured individuals with HIV with drug costs and eligible insurance plan premiums as well as cost sharing (i.e. co-payments, co-insurances and deductibles) associated with drugs and health insurance coverage. The program is funded with federal funds from the Ryan White HIV / AIDS Program, Health Resources and Services Administration (HRSA).

OPH receives pharmaceutical rebates on drug purchases through LA HAP. In the past, OPH has treated pharmaceutical rebates as a reduction to expenditures. Upon the recommendation of the Legislative Auditor and the Division of Administration, in FY 16, the agency will treat pharmaceutical rebates as a revenue source. Therefore, this BA-7 will grant appropriate budget authority for this revenue source. The agency is projecting rebate collections of \$25.1 M in FY 16. The rebate funds are expended on services for individuals with HIV.

CDC Grants

The goal of both grants is to reduce the number of new STD/HIV infections in the New Orleans area. The grants will fund demonstration projects that provide comprehensive STD/HIV prevention services, care and treatment as well as behavioral health and social services to high-risk populations in the New Orleans area.

The Pre-Exposure Prophylaxis Project (PrEP) grant is a \$3,225,097 per year, 2-year grant totaling \$6,450,194. PrEP is a prevention strategy for individuals who do not have HIV, but who are at substantial risk of contracting HIV, to prevent an HIV infection by taking a prescribed pill every day. The Data to Care grant is a \$1,750,000 per year, 4-year grant totaling \$7 M. Data to Care implements a public health strategy that uses HIV surveillance data to identify individuals diagnosed with HIV not receiving medical care; and link them to treatment, care and support.

Funding for the two CDC grants are requested for the remaining 9 months of FY 16 (October 2015 - June 2016).

	FY 16	FY 17	FY 18	FY 19	Total
PrEP grant	\$2,377,983	\$4,072,211	\$0	\$0	\$6,450,194
Data to Care grant	<u>\$1,290,340</u>	<u>\$2,209,660</u>	<u>\$1,750,000</u>	<u>\$1,750,000</u>	<u>\$7,000,000</u>
	\$3,668,323	\$6,281,871	\$1,750,000	\$1,750,000	\$13,450,194

Expenditures for this BA-7 are as follows:

Travel - \$3,036

The STD/HIV Program Director and Deputy Program Director attending the annual grantee conference mandated by CDC.

October 30, 2015

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Operating Services - \$66,965

Office building rental in downtown New Orleans (Benson Tower) of \$60,965 as well as marketing and advertising totaling \$6,000.

Supplies - \$258,150

Screening and confirmatory tests for various STDs of an estimated 1,875 individuals totaling \$250,875. Also, general office supplies such as copy paper, notepads, pens, binder clips, shipping, etc. totaling \$7,275.

Professional Services - \$2,372,792

OPH will enter into new contracts with various community-based organizations for HIV prevention services to high-risk populations in the New Orleans area for the following services: PrEP support, navigation and social marketing (\$630,180); treatment adherence services (\$338,663); and cultural competency training for dealing with high-risk populations (\$37,500). OPH will contract with LSU School of Public Health to provide external evaluation of the grant services (\$382,277). Also, OPH will increase existing contracts with LSU HSC (\$192,481) and Acadiana CARES, Inc. (\$791,691) for professional services to support the STD/HIV program.

Other Charges - \$26,067,380

Contracts providing pharmaceutical support to individuals living with HIV totaling \$25.1 M as well as statewide costs for Office of Technology Services (OTS), Office of Human Capital Management, Office of State Procurement, etc. totaling \$967,380.

II. IMPACT ON FUTURE FISCAL YEARS

The Pre-Exposure Prophylaxis Project (PrEP) grant period is 9/30/2015 through 9/29/2018 and the total award amount is \$6,450,194. The grant is anticipated to budget as follows: FY 16 - \$2,377,983 and FY 17 - \$4,072,211. OPH may carry forward any unused funds until the grant period expires on 9/29/2018.

The Data to Care grant is from 09/30/2015 through 09/29/2019 and the total award amount is \$7 M. The grant is anticipated to budget as follows: FY 16 - \$1,290,340; FY 17 - \$2,209,660; FY 18 - \$1,750,000; and FY 19 - \$1,750,000. OPH may carry forward any unused funds until the grant period expires on 9/29/2019.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$500,000			
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority by \$500,000 as a result of a grant award to the RSD from the Health Resource & Services Administration (HRSA) to establish a School Based Health Center at G.W. Carver High School (Orleans Parish). The amount of the award is \$500,000 with a non-federal share of \$61,647 for a total project budget of \$561,647.

The goal of the federal program is to award funds made available by the Patient Protection & Affordable Care Act (Health Reform) to expand school-based health center capacity to provide primary and preventative health care services for school-aged children. Services provided include, but are not limited to medical screenings; treatment for common illnesses and minor injuries; referral and follow-up for serious illnesses and emergencies; on-site care and consultation, as well as referral and follow-up for drug and alcohol abuse; pregnancy, chronic diseases and disorders, and emotional and behavioral problems.

An eligible entity shall use funds provided under a grant award only for expenditures for facilities (including the acquisition or improvement of land, or the acquisition, construction, expansion, replacement, or other improvement of any building or other facility), equipment, or similar expenditures. No funds provided shall be used for expenditures for personnel or to provide health services.

Carver's construction began July 2014 and is scheduled to be substantially complete by March 2016 and will include the Health Center which will encompass 1,740 square feet of the school's total 190,000 square footage. Based on the square footage, the total cost of the project is \$561,647 but since the grant award is capped at \$500,000, FEMA funds will be used to cover the cost differential. The expenditure breakdown is as follows:

Expenses	Source of Funds	
	<u>HRSA Grant</u>	<u>FEMA Grant</u>
Estimated Project Management/Construction Management Allocation	-	\$38,269
Environmental Assessment	\$ 3,740	-
Filing Fee	\$ 80	-
Total Administrative and Legal Expenses "Other"	\$ 3,820	\$38,269
Estimated Architectural and Engineering Fees Allocation	-	\$6,984
Estimated Construction Allocation	\$452,574	-
Total Construction	\$452,574	\$6,984
Equipment and Furniture	\$43,606	\$16,394
TOTAL PROJECT COST	\$500,000	\$61,647

Act 1055 of the 1991 RS established the adolescent school health initiative to facilitate and encourage development of

Approved By JLCB

comprehensive health centers in public middle and secondary schools in the state. State funding was used to provide partial funding for each SBHC. Recipients were required to provide a 20% financial match of the OPH grant award, with the expectation that the sponsoring agency would work toward financial self-sufficiency. In the 2014-2015 program year, there were 62 SBHC sites supported by the Office of Public Health (OPH) and one non-OPH supported SBHC for total of 63 sites in the state. Existing clinics continue to receive some level of state support. However, due to reductions in state funds, OPH has indicated there is no state support available for new sites which will be required to seek funding through 3rd party partnerships, self generated funds (i.e. billings) and other funding mechanisms. SBHCs which do not receive state support are not required to adhere to OPH guidelines, nor does OPH monitor these sites. The LFO has not identified the number of SBHCs which operate outside of the OPH umbrella, nor how those sites are funded.

DOE has indicated that once the school is completed it will be leased to a charter operator, which will be responsible for the operating costs of the School Based Health Center. The charter will work with a third party health provider to operate the clinic and the budget for the ongoing operations of the health center will be at the discretion of the charter operator. Per DOE, the HRSA grant application did not require assurances as to the sustainability of the ongoing operations of the SBHC, once constructed. Furthermore, the Department indicated that historically, the operations of a SBHC has not been a mandatory requirement of the charter operator's lease but that every SBHC constructed by the RSD has resulted in an operational SBHC. The DOE has not encountered a situation in which the charter operator did not open a SBHC, if the leased building included a facility.

II. IMPACT ON FUTURE FISCAL YEARS

To the extent federal grant and FEMA fund will complete the construction and equipment purchases for the SBHC in FY16, there will be no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request. However, the LFO cannot determine if the aggregate amount of earned and appropriated revenues will be sufficient to support the scale and operation of the School Based Health Center once the school is opened (in the 2016-2017 School Year) and in future fiscal years.

Federal Funds:	\$570,000			
Total	<u>\$570,000</u>	Total	<u>\$570,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal expenditure authority in the amount of \$570,000 in FY 16 in association with the LA State Adolescent & Transitioned Aged Youth Treatment Enhancement & Dissemination Implementation Cooperative Agreement grant [State Youth Treatment - Implementation (SYT-I)]. The U.S. Substance Abuse & Mental Health Services Administration (SAMHSA) awarded this grant to the OBH Behavioral Health Community Program. The SAMHSA grant begins 9/30/2015 and continues through 9/29/2018. There is no state match requirement associated with the grant. This BA-7 provides budget authority for the first 9 months of the grant period, but the full grant award over the 3-year period totals \$2.28 M.

The funds are intended to improve treatment services for adolescents and transitional aged youth (15-25 years old) with substance abuse disorders and/or co-occurring substance use and mental disorders by assuring youth access to evidence-based assessments, treatment models, and recovery services. The funds will be used to improve state capacity to provide access to treatment and to improve the quality of treatment for the target population and their families/primary caregivers.

LA will utilize these funds to increase the number of provider organizations that implement evidenced-based assessments, treatment interventions and recovery support services. LA will develop a provider collaborative with at least 4 selected provider organizations.

The Federal funds will provide for expenditures in the Other Charges expenditure category as follows:

Salaries and Wages (1.5 FTE job appointments)	\$74,895
Related Benefits	\$30,104
Travel	\$10,576
Supplies	\$2,250
*Contract Services (training, certification, evaluation, service provision, workforce development)	<u>\$452,175</u>
	<u>\$570,000</u>

*Anticipated FY 16 Contract Services expenditures (9 months) are as follows:

\$84,787	Dissemination of evidence-based practices to applicable workforce; training and certification for four sites statewide on Adolescent Community Reinforcement Approach (A-CRA) and Global Appraisal of Individual Needs (GAIN) assessment tools; GAIN certification for five statewide trainers.
\$37,328	Evaluation to gather site-specific A-CRA and GAIN data. An external evaluator will provide client and infrastructure level evaluation of the overall project.
\$285,060	Contracts with 4 providers to provide evidence-based practices service delivery at the learning collaborative sites.
\$45,000	Workforce Development Training - Speakers and attendance at conferences, training and educational events in order to educate and provide workforce development according to the workforce dissemination implementation plan.

Statutory Dedications:	\$0			
Federal Funds:	\$299,962			
Total	<u>\$299,962</u>	Total	<u>\$299,962</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal expenditure authority in the amount of \$299,962 in FY 16 in association with a grant awarded by the U.S. Substance Abuse & Mental Health Services Administration (SAMHSA) to the Imperial Calcasieu Human Services Authority (ICHSA). The SAMHSA grant begins 9/30/2015 and continues through 9/29/2019. There is no state match requirement associated with the grant award. This BA-7 provides budget authority for the first 9 months of the grant period, but the full grant award over the 4-year period totals to approximately \$1.6 M.

The funds are intended to assist ICHSA with the integration of behavioral health and primary care services within its Lake Charles clinic. This integration of services will create a medical home where clients can access both behavioral health and primary care services. All grant funds are restricted to expenditures directly related to the primary care integration, and limited to include construction/renovation, salary and related benefits, supplies, equipment, and operating and/or professional services related to the integration project. ICHSA plans to hire 2 additional full-time equivalent (FTE) staff positions to provide primary care services under the integration project, a Nurse Care Coordinator and an Integrated Care Manager. ICHSA will employ or assign an additional four positions to the project at less than FTE status, a Primary Care Provider (0.4 FTE), a Peer Wellness Liaison (0.5 FTE), a project director (0.15 FTE) and a Primary Care Lead (0.2 FTE). ICHSA will renovate the existing Lake Charles clinic to accommodate primary care clinical services and implement wellness programs.

The Federal funds will provide for expenditures in the Other Charges expenditure category. The projected expenditures below contain cost estimates for the first state fiscal year included in the grant period.

Salaries	\$100,911	3.25 FTE (see discussion above)
Related Benefits	\$38,790	1.45% Medicare and 36.99% LA State Employees Retirement
*Travel	\$3,015	Provides for 3 people to attend required grantee conference
*Equipment	\$12,900	2 Exam tables, 2 monitors, 1 medication refrigerator, 2 otoscopes, and 4 exam room computers
Supplies	\$913	Consumable exam room supplies
*Construction/renovation	\$54,200	Minor renovation of existing space to add 2 primary care exam rooms
Medications	\$43,029	Primary care pharmaceuticals for indigent patients
*EHR and Training	\$32,234	Modification to Electronic Health Record and training
Allowable Indirect Costs	<u>\$13,970</u>	Authorized expenditures not tied to a cost object, 10% of personnel
	<u>\$299,962</u>	

* Denotes first year, one-time expenditures. The remaining personal services and operating costs will initiate once the clinic renovation is completed.

II. IMPACT ON FUTURE FISCAL YEARS

The SAMHSA grant begins 9/30/2015 and continues through 9/29/2019. This BA-7 provides budget authority for the first 9

provide authorization for the continuation of this grant through the entire award period, ICHSA will require federal budget authority in the amounts of \$399,949 for FYs 17, 18 and 19, and \$100,159 for FY 20. While the federal dollars are limited to support these services for indigent clients, ICHSA plans to expand and credential this program to bill for these primary care services through Medicaid, Medicare, and other insurance payers. The 2 FTE positions would be funded beyond the term of this grant by SGR captured by ICHSA's ability to bill for expanded services related to primary care. To the extent revenues derived from these sources are insufficient, additional state funds may be requested or service levels may require scaling to match revenues. Other positions related to work on this project are already primarily funded by SGF and would continue to be funded in this manner beyond the term of the grant.

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 requests 1B and 1C. These BA-7's will reorganize DEQ, but will have a zero net impact on DEQ's overall budget and table of organization.

The purpose of this BA-7 request is to increase Statutory Dedications budget authority by \$286,444 for the Waste Tire Management Fund within the Office of Environmental Compliance to fund Waste Tire Program responsibilities. This BA-7 request would move the Waste Tire Program, which is currently within the Office of Management & Finance (OMF), and split the program between the Office of Environmental Compliance (OEC) and the Office of Environment Services (OES). This would entail transferring 3 of the 5 current positions from the OMF and \$286,444 from \$470,710 of the Waste Tire Management Funds. This reorganization of the Waste Tire Program will allow for enhanced oversight and will allow OEC to handle compliance and enforcement issues that deal with waste tires.

The 3 positions that are transferring to OEC from OMF have a total cost of \$271,444 which includes salaries and related benefits. The positions are 2 environmental scientist (one with personal services cost of \$53,709 and one with personal services costs of \$106,621) and an environmental scientist supervisor (\$111,114). Associated funding for operating expenses to be transferred includes \$1,000 for travel, \$1,000 for office supplies, \$3,000 for IAT expenditures (telephone services) and \$10,000 for operating expenses. Operating expenses include printing forms and copier rental.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This is a companion BA-7 to #1A & #1C.

The purpose of this BA-7 request is to increase Statutory Dedications budget authority by \$184,266 for the Waste Tire Management Fund within the Office of Environmental Services to fund Waste Tire Program responsibilities. This BA-7 request would move the Waste Tire Program, which is currently within the Office of Management & Finance (OMF), and split the program between the Office of Environmental Compliance (OEC) and the Office of Environment Services (OES). This would entail moving 2 of the 5 current positions from the OMF and \$184,266 from \$470,710 of the Waste Tire Management Fund. This reorganization of the Waste Tire Program will allow for enhanced oversight and will allow OES to handle permits and registrations that deal with waste tires.

The 2 positions that are transferring to OEC from OMF have a total cost of \$182,290 which includes salaries and related benefits. The positions are environmental program analyst (\$71,590) and an engineer (\$110,700). Associated funding for operating expenses that is transferred includes \$1,976 for IAT expenditures (telephone services).

I. SUMMARY/COMMENTS

This is a companion BA-7 to #1A & #1B.

The purpose of this BA-7 request is to decrease Statutory Dedications budget authority by \$470,710 for the Waste Tire Management Fund within the Office of Management & Finance (OMF) that was used to fund Waste Tire Program responsibilities. This BA-7 request would move the Waste Tire Program and split the program between the Office of Environmental Compliance (OEC) and the Office of Environment Services (OES). This would entail transferring 5 current positions from OMF and \$470,710 in Waste Tire Management Fund. This reorganization of the Waste Tire Program will allow for enhanced oversight and will allow OES to handle permits and registrations and OEC to handle compliance and enforcement related to waste tires.

The 5 positions that are transferring to OEC and OES from OMF would result in a salaries and related benefits reduction of \$453,734. The positions are environmental program analyst (\$71,590), an engineer (\$110,700), 2 environmental scientists (one with personal services of \$53,709 and one with personal services of \$106,621) and an environmental scientist supervisor (\$111,114). Associated funding for operating expenses to be transferred includes \$1,000 for travel, \$1,000 for office supplies, \$4,976 for IAT expenditures (telephone services) and \$10,000 for operating expenses. Operating expenses include printing forms and copier rental.

Federal Funds:	\$0			
Total	<u>\$20,071,781</u>	Total	<u>\$20,071,781</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedications budget authority for the Natural Resource Restoration Trust Fund (\$13,071,781) and the Coastal Protection & Restoration Fund (\$7,000,000) within the Coastal Protection & Restoration Authority (CPRA) in order to fund the continued response, damage assessments and early restoration projects related to the Deepwater Horizon Event (April 20, 2010). The majority of the anticipated expenditures will be utilized to pay for scientists, clean up costs, litigation costs and other ongoing expenditures related to the oil spill. See companion BA-7s 2B through 2K.

CPRA anticipates expenditures of \$900,000 for staff working on oil spill related matters and \$6,087,000 in expenditures for various contractors to provide damage assessments related to the oil spill. These contacts were managed by the LA Oil Spill Coordinator's Office (LOSCO). CPRA is now the lead state agency and will manage the contracts. The expenditures included in the BA-7 request are as follows:

\$595,000 Salaries - There are 7 individuals (3 attorneys, 1 paralegal, 1 administrative assistant and 2 project managers) working on BP Oil Spill related litigation and damage assessments (Natural Resource Damage Assessment - NRDA). NRDA is an environmental investigation by state designated trustees to identify impacts to natural resources and plan restoration of natural resources as a result of oil spills and hazardous substances.

\$267,750 Related Benefits - Includes retirement, health care and medicare costs incurred.

\$37,250 Operating Expenses - Includes \$8,400 in travel expenses, \$18,350 for operating services and \$10,500 for supplies.

\$6,057,000 Other Charges - various contractors that provide damage assessment services including legal services, accounting, laboratory, analytical services and scientific services regarding the oil spill event and NRDA. The anticipated other charges expenditure amount is based upon prior year historical projections and remaining workload.

\$13,084,781 IAT Expenditure Category - Resources being sent to various state agencies to fund early restoration projects or to reimburse oil spill related expenditures at the Department of Justice, Department of Natural Resources, Department of Environmental Quality and Department of Wildlife & Fisheries. Early restoration projects and NRDA expenditures are being funded with the Natural Resource Restoration Trust Fund monies.

The majority of IAT expenditure category funds (\$7 M) is Coastal Protection & Restoration Fund monies which is being sent to the Attorney General's Office for litigation expenses.

The remaining IAT expenditure category funds (\$6.1 M) are being sent to various state agencies for reimbursement of costs incurred for state expenditure related to damage assessment (NRDA expenditures).

Due to CPRA being the lead agency for the State, state agencies submit reimbursement documents to CPRA. Reimbursement will be paid from the Natural Resource Restoration Trust Fund. *See Table on the next page for a complete breakdown included in the requested BA-7 by specific statutory dedicated fund and how much funding is anticipated to be expended by state agency.*

Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$7,000,000</u>	Total	<u>\$7,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #2A on the agenda. The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$7,000,000 in order to receive monies from the Coastal Protection & Restoration Fund via the Coastal Protection & Restoration Authority in order to perform duties associated the Deepwater Horizon event (4/20/2010).

The requested funding will be utilized to provide for litigation expenses associated with finalizing the settlement agreement with BP. The state and BP have reached a tentative settlement agreement that is awaiting court approval. These resources will be used for legal expenses to finalize the consent decree. The settlement agreement is for damages to Louisiana's economy and natural resources as a result of the oil spill. Since FY 10, the Attorney General has expended approximately \$40 M on legal expenses due to the oil spill litigation (FY 10 - \$612,864, FY 11 - \$6.7 M, FY 12 - \$12.1 M, FY 13 - \$9 M, FY 14 - \$6 M, and FY 15 - \$5.6 M).

Approximately \$6.8 M of this BA-7 request will be used to provide legal expenses and expert witnesses. Based upon information provided to the LFO by the Attorney General, there are approximately 12 active legal service contracts and expert witness contracts in place currently for oil spill litigation.

The balance of the funding request (\$210,650) is for travel (\$46,650), operating expenses (\$79,000), IAT expenditures (\$15,000), acquisitions (\$20,018) and other charges (\$49,982). Operating services include data processing (\$17,600), telephone services (\$12,500) and supplies (\$24,000). The \$49,982 of other charges expenditures are associated with discovery, filings, transcript and research charges.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$0			
Total	<u>\$16,689,823</u>	Total	<u>\$16,689,823</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #2A on the agenda. The purpose of this BA-7 request is to increase budget authority in the statutorily dedicated Oil Spill Contingency Fund in the amount of \$16,589,823 and IAT budget authority in the amount of \$100,000 for the transition of lead agency from DPS in order to receive monies from the Natural Resource Restoration Trust Fund via the Coastal Protection & Restoration Authority (CPRA) in order to transition the lead state agency from DPS to CPRA.

The \$16.6 M increase in the Oil Spill Contingency Fund will be used to repay the seed request from FY 15 with a pending seed request in FY 16. The FY 15 seed was used to pay related expenses involving litigation expenses related to the oil spill. DPS received a seed in the amount of approximately \$16.6 M at the beginning of FY 15. The FY 15 seed amount of \$16.6 M was used to pay the remaining FY 14 seed balance of \$8.5 M and the remaining \$8.1 M was used to seed FY 15 oil spill related expenses. The Attorney General's Office will receive \$3.1 M from the total seed amount to cover legal expenses from FY 15.

Pursuant to R.S. 39:71(D), upon approval of the commissioner of administration and concurrence of the state treasurer, a cash advance or seed may be granted to a requesting state agency. Typically treasury seeds are designed to provide operating capital to a state agency until an anticipated revenue source is actually collected. For example, a state agency whose primary source of operation is from a statutorily dedicated fund that only collects revenues one time during a fiscal year needs resources to operate until that fund's revenues are actually collected. Once collected, the agency will utilize these collections to repay the state treasury for the total amount of seed resources expended. State Treasury seeds are basically short-term loans that must be repaid prior to the close of the fiscal year. However, in some instances, the state treasury seed is being paid in full by reseeded it in the next fiscal year. The state is essentially repaying the short-term loan with another short-term loan and the fund's short-term debt is being pushed to the next fiscal year.

Personnel within the LA Oil Spill Coordinator's Office (LOSCO), housed within DPS, will be used to help transition the lead state agency from DPS to CPRA. The costs associated with the transition consist of approximately \$60,000 in salaries and \$40,000 in related benefits for LOSCO personnel. Due to CPRA being the lead agency for the State, state agencies submit reimbursement documents to CPRA. Reimbursement will be paid from the Natural Resource Restoration Trust Fund.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0	Atchafalaya Basin	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$68,000</u>	Total	<u>\$68,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #2A on the agenda. The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$68,000 in order to receive monies from the Natural Resource Restoration Trust Fund via the Coastal Protection & Restoration Authority (CPRA) in order to perform duties associated the Deepwater Horizon event (4/20/2010).

These funds will be used to pay for a professional services contract to the extent one is necessary with one accountant who had previously processed claims for CPRA and the Department of Natural Resources (DNR). Due to the increased workload created by the claims, DNR sought assistance from the private sector to help in processing the requests.

Due to CPRA being the lead agency for the State, state agencies submit reimbursement documents to CPRA. Reimbursement will be paid from the Natural Resource Restoration Trust Fund.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #2A on the agenda. It will increase IAT budget authority in the amount of \$5,000 in order to receive monies from the Natural Resource Restoration Trust Fund via the Coastal Protection & Restoration Authority in order to perform duties associated the Deepwater Horizon event (4/20/2010).

These funds will be used to pay for the salaries and related benefits of the Coastal Management employees who must conduct oil spill sampling along the coast. Due to the fact that no positions are dedicated completely to oil spill sampling within this agency, 1 employee may have a portion of their salary paid by these oil spill reimbursements. Of the \$5,000 requested, \$3,571 will be budgeted for salaries and \$1,429 will be budgeted for related benefits.

Due to CPRA being the lead agency for the State, state agencies submit reimbursement documents to CPRA. Reimbursement will be paid from the Natural Resource Restoration Trust Fund.

II. IMPACT ON FUTURE FISCAL YEARS

Total	<u>\$639,781</u>	Total	<u>\$639,781</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #2A on the agenda. It will increase IAT budget authority in the amount of \$639,781 in order to receive monies from the Natural Resource Restoration Trust Fund via the Coastal Protection & Restoration Authority (CPRA) in order to perform duties associated with the Deepwater Horizon event (4/20/2010). These duties include creating, implementing and monitoring the assessment of the damage to wildlife resulting from the spill. Funding will be used to provide consulting and advisory services on the conservation of wildlife and to develop and implement methods of protecting natural resources which are at risk. These funds will also be used to conduct field investigations to identify potential threats to natural habitats due to the unauthorized discharges of oil.

The Department of Wildlife & Fisheries will budget these funds as follows:

\$121,287 - Salaries (No positions are dedicated completely to oil spill recovery within this agency, 9 existing agency personnel, who have multiple job duties, will have a portion of their salaries paid by these oil spill reimbursements)
\$176,119 - Other Compensation (No Other Compensation positions are dedicated completely to oil spill recovery within this agency; existing Other Compensation positions held by 15 biologists and 1 administrator will have a portion of their compensation paid by these oil spill reimbursements)
\$191,224 - Related Benefits (retirement, Medicare, insurance)
\$61,203 - Travel (Oil spill/Natural Resource Damage Assessment related travel)
\$10,841 - Operating Services (rental vehicles, vehicle and boat maintenance, lab fees, cell phone and radio fees)
\$79,107 - Supplies (vehicle fuel, boat fuel, maintenance supplies, office and laboratory supplies)

Due to CPRA being the lead agency for the State, state agencies submit reimbursement documents to CPRA. Reimbursement will be paid from the Natural Resource Restoration Trust Fund.

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #2A on the agenda. It will increase IAT budget authority in the amount of \$5,031,000 in order to receive monies from the Natural Resource Restoration Trust Fund via the Coastal Protection & Restoration Authority in order to perform duties associated the Deepwater Horizon event (4/20/2010).

Of the \$5,031,000 in additional authority, \$1,500,395 will pay for activities performed by the Office of Fisheries. These activities include creating, implementing and monitoring the assessment of the damage to fisheries resulting from the spill. This funding will be used to provide consulting and advisory services on the conservation of LA's seafood industry and to develop and implement methods of protecting natural resources which are at risk. These funds will also be used to conduct field investigations to identify potential threats to fish habitats due to the unauthorized discharges of oil.

Additionally, this BA-7 requests authority for Early Restoration construction projects such as completion of an oyster hatchery and a marine science center in the amount of \$3,530,605. These projects will be completed by the Office of Facility Planning & Control. Total costs of the projects are estimated to be \$15 M for the oyster hatchery and \$22 M for the marine science center.

The Department of Wildlife & Fisheries will budget these funds as follows:

\$306,000 - Salaries (No positions are dedicated completely to oil spill recovery within this agency, 54 existing agency personnel, who have multiple job duties, will have a portion of their salaries paid by these oil spill reimbursements)

\$409,900 - Other Compensation (No Other Compensation positions are dedicated completely to oil spill recovery within this agency; 43 existing other compensation positions, who have multiple duties, will have a portion of their compensation paid by these oil spill reimbursements)

\$468,086 - Related Benefits (retirement, Medicare, insurance)

\$14,000 - Travel (Oil spill/Natural Resource Damage Assessment related travel)

\$105,000 - Operating Services - (rental vehicles, vehicle and boat maintenance, lab fees, cell phone and radio fees)

\$197,409 - Supplies (vehicle fuel, boat fuel, maintenance supplies, office and laboratory supplies)

\$3,530,605 - Interagency Transfers (W&F transfer to capital outlay for a new oyster hatchery (\$2.3 M) and for a marine science center (\$1.2 M))

Due to CPRA being the lead agency for the State, state agencies submit reimbursement documents to CPRA. Reimbursement will be paid from the Natural Resource Restoration Trust Fund.

August 14, 2015

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 4

AGENCY: Tourism

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Marketing	\$3,013,030	0
Self-Generated Revenue:	\$3,214,530	Welcome Centers	\$201,500	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$3,214,530</u>	Total	<u>\$3,214,530</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$3,214,530 for the Office of Tourism within the Department of Culture, Recreation & Tourism. These funds will provide for professional services, marketing expenses, and major repairs. This increase is possible due to HCR 8 of 2015, which suspends the exemption on business utilities for 1% of state sales and use tax imposed by R.S. 47:331 from 7/1/2015 until 60 days after the final adjournment of the 2016 Regular Legislative Session or 8/5/2016. In compliance with R.S. 51:1286, .03% of the taxes collected are dedicated to the Louisiana Tourism Promotion District (LTPD). The suspension of this exemption is anticipated to result in the collection of an additional \$3,214,530 in one time SGR. Of the total amount requested, \$1,913,030 will be allotted for Operating Services, \$1,100,000 for Professional Services, and \$201,500 for Major Repairs.

The legality of HCR 8 is being formally contested. In the event they prevail in this litigation, the state could be exposed to refunds of taxes paid in some future period. To the extent a taxpayer pays the tax under protest, these monies will be escrowed and will not be available to support the allocations detailed in this BA-7.

The funding will be dispersed in the following amounts:

Operating

\$1,614,530 to the US Travel Association IPW which is to be held in New Orleans 6/18-22/2016. These funds will help promote New Orleans and Louisiana to more than 1,500 international tour operators, 500 members of the international travel media, and 5,000 US travel suppliers.

\$40,000 to the BASS Pro Elite Tournament to be held at Toledo Bend Lake in Sabine Parish on 5/11-14/2016. The event is expected to bring approximately 13,000 people to the area for the tournament.

\$75,000 to the USGA Women's Mid-Amateur Championship at Squire Creek Country Club in Lincoln Parish. The event is to be held 10/3-8/2015 and features 132 contestants along with media covering the event.

\$50,000 to the Grand Reveil Acadian event to be held in Lake Charles, Houma, Lafayette, and New Orleans from 10/3-12/2015 commemorating the 250th anniversary of the Acadians arrival in south LA.

\$25,000 to the Southeast Tourism Society (STS) for their Spring Symposium to be held in Baton Rouge 4/4-6/2016. STS is a collection of companies in the travel and tourism industry that promote regional tourism in the Southeast. The conference will serve as a networking, education, and trade show event.

\$25,000 to the Society of American Travel Writers (SATW) Freelance Council for a conference to be held in Lake Charles 2/6-10/2016. SATW is a professional association of freelance travel journalists that write travel reviews for various magazines and touring services.

\$80,000 to Meier's Weltreisen Go West Familization Tour for a statewide tour to be held 11/13-20/2015. Meier's Weltreisen is the largest touring company in Germany and Austria and will bring 100 travel agents to tour the state in order to promote

August 14, 2015

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Louisiana as a travel destination for German and Austrian travelers.

Professional

\$3,500 to the Spotlight on Southeast tourism conference in Covington, LA. The convention will allow domestic and Canadian tour operators to participate in a 4-day familiarization tour of New Orleans, Cajun Country, and Plantation Country. The convention will take place 7/27-29/2015.

\$150,000 to the Only in LA Grammy event in Los Angeles to be held 2/13/2016. The event will be hosted by the Lt. Governor and showcase Grammy nominated artists from LA to travel, film, and music executives from the area.

\$350,000 to the SEC Network for a year-long television, mobile, and digital ad campaign focusing on collegiate sports within the state.

\$200,000 to Miles Media for promotion of the LA Travel Twitter account in order to increase the follower base, engage with potential customers, direct more traffic to LouisianaTravel.com, increase the e-mail database of interested travelers, and TV targeting.

\$400,000 to BrandUSA in order to promote the United States as a travel destination globally. The program will focus on ways to enhance the United States' image among international travelers.

Major Repairs

\$201,500 to the Slidell Welcome Center to repair termite damage to the structure. This is only an estimate as the assessment cannot be completed until a contractor can remove the damaged material.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. These resources will only be available for one year. Therefore, if the items listed above are continued in future fiscal year, another revenue source will be required.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

CARRYFORWARD BA-7s
8/14/2015
Legislative Fiscal Office

REVISED 8/10/2015

Agenda #	Schedule #	Department	Agency	SGF	IAT	SGR	DED	IEB	FED	Total
CF 1	01 - 102	Executive	Inspector General	\$40,454	\$0	\$0	\$0	\$0	\$0	\$40,454

The purpose of this BA-7 request is to carry forward funds for a professional services contract with consultant Steven Krueger. The contract term is 5/1/2015 to 12/31/2015. Mr. Krueger assisted the OIG in its statewide regionalization efforts, including acting as a liaison between the OIG and Federal Bureau of Investigation (FBI) on the Public Corruption Task Force. Additionally, Mr. Krueger assists in criminal public corruption investigations. The maximum contract fee is \$49,000 at an average monthly rate of up to \$7,000, including mileage reimbursement of \$0.51/mile.

CF 2	01 - 103	Executive	Mental Health Advocacy Services	\$8,227	\$0	\$0	\$0	\$0	\$0	\$8,227
------	----------	-----------	---------------------------------	---------	-----	-----	-----	-----	-----	---------

The purpose of this BA-7 request is to carry forward funds for the Mental Health Advocacy Service (MHAS). The intended use of the funds is to reconfigure the MHAS Baton Rouge office to provide working spaces for 3 MHAS staff attorneys who currently do not have office space. The process to complete the work began in May 2015 and was not completed until 7/20/2015 due to cubicle parts ordered by the Office of State Buildings not being received until after the end of FY 15.

CF 3	01 - 107	Executive	Division of Administration	\$561,547	\$525,358	\$0	\$145,504	\$0	\$0	\$1,232,409
------	----------	-----------	----------------------------	-----------	-----------	-----	-----------	-----	-----	-------------

The purpose of this BA-7 request is to carry forward funds in the Executive Administration Program into the following DOA sections as follows:

Commissioner’s Office (\$376,877 SGF, \$45,457 IAT):

- 1.) \$34,437 IAT - Sisung Securities Corporation contract term is 6/4/2013 to 6/3/2016 in the amount of \$300,000. The contractor is providing financial advisory services including consultant work on the Net State Tax Supported Debt and the Capital Outlay Escrow Account. The original source of the IAT is bond proceeds from capital outlay escrow account.
- 2.) \$26,216 SGF - Employers Unity LLC contract term is 9/1/2014 to 8/31/2015 in the amount of \$157,296. The contractor administers the LA Unemployment Compensation Program including monitoring all records of state agencies relative to former employees. According to the DOA, it is a conflict of interest to have the same agency that administers the unemployment benefits (Workforce Commission) to have any control over the agencies’ protests of claims.
- 3.) \$46,864 SGF - Koerber Company contact term is 2/24/2013 to 2/23/2017 in the amount of \$65,000. The contractor provides expert services as the financial condition of client network services. According to the DOA, this contractor is the forensic accountant hired as an expert witness in the CNSI case.
- 4.) \$90,169 SGF - Long Law Firm contract term is 7/23/2014 to 7/22/2015 in the amount of \$200,000. The contractor is providing legal services relating to the review of various procurement issues.
- 5.) \$11,020 IAT, \$99,751 SGF - Faircloth, Melton & Keiser, LLC represents the aggregate amount of 2 contracts with the firm. The first contract (#733148) (carryforward request of \$11,020 IAT) is to provide legal services relating to the legal oversight of the Office of Group Benefits (OGB) plan changes. The contract term is from 10/6/2014 to 10/5/2015 in the amount of \$150,000. The original source of the IAT is resources from the OGB. The second contract (#730179)(carryforward request of \$99,751 SGF) is to provide legal counsel services with regards to State Purchasing & Contractual Review, termination of contracts and any litigation. The contract term is 5/17/2014 to 5/19/2017 in the amount of \$375,000.
- 6.) \$4,705 SGF - Taylor, Porter & Brooks contract term is 6/1/2014 to 5/31/2017 in the amount of \$10,000. The contractor is providing legal services with regards to HR personnel or HR matters.
- 7.) \$35,357 SGF - Jones Walker contract term is 2/11/2014 to 2/10/2017 in the amount of \$65,000. The contractor is providing legal services relative to the issuance of bonds.
- 8.) \$5,710 SGF - Forensic Accounting Solutions contract term is 3/1/2015 to 2/28/2017 in the amount of \$10,000. The contractor is providing forensic accounting services as requested by the Office of General Counsel.
- 9.) \$61,168 SGF - Kantrow, Spaht, Weaver & Blitzer contract term is 3/27/2014 to 3/26/2017 in the amount of \$675,000. The contractor is providing legal advice to the Office of General Counsel with regards to State Purchasing & Contractual Review related to termination of contracts.
- 10.) 6,937 SGF - Morain & Murphy, LLC contract term is 7/23/2014 to 7/22/2015 in the amount of \$30,000. The contractor provides legal advice arising from procurement matters included in executive orders BJ 2014-6 and BJ 2014-7.

Office of General Counsel (\$2,947 SGF, \$439,013 IAT):

- 1.) \$2,947 SGF - David Ware & Associates contract term is 5/1/2014 to 4/30/2017 in the amount of \$5,000. The contractor provides legal advice and assistance to the state as needed in matters pertaining to immigration issues and labor certification through the U.S. Department of Labor.
- 2.) \$315,932 IAT - Long Law Firm contract term is 2/8/2015 to 2/7/2018 in the amount of \$350,000. The original source of the IAT funds is revenues from the OGB. The contractor provides legal counsel and advice related to the post-award proceedings, including protests, appeals, judicial review from the notice of intent to contract for a pharmacy benefit management services issues by the OGB.
- 3.) \$16,061 IAT - Taylor, Porter & Brooks contract term is 1/16/2014 to 1/15/2017 in the amount of \$150,000. The original source of the IAT funds is revenues from OGB. The contractor provides legal services to the Commissioner of Administration and the Office of General Counsel as requested with regards to OGB, health insurance issues related to state employees’ group insurance and HIPPA issues.
- 4.) \$107,020 IAT - Long Law Firm contract term is 3/1/2014 to 2/28/2017 in the amount of \$175,000. The original source of the IAT funds is revenues from OGB. The contractor provides legal counsel with regards to OGB and any litigation that could result in actions take by OGB.

Human Resources/State Purchasing (\$6,374 SGF):

Management of America, Inc. contract term is 2/15/2015 to 2/14/2016. The contractor has been tasked with developing billing rates and methodologies related to the statewide cost allocation plan for Human Resources and State Purchasing.

------	-----------	-------	--------------------	-----------	-----	-----------	-----	-----	-----	-------------

The Secretary of State is requesting to carry forward funding (\$524,003 SGF and \$591,499 SGR). The means of financing by program and their corresponding expenditures are below.

Administrative - \$15,051 SGR

- 1.) \$6,000 - USA Consulting, Inc. for purchase of IT upgrades and maintenance made in August 2014 pending final invoice.
- 2.) \$9,051 - Detel Wireless for IT hardware upgrades. The purchase order dated 6/9/2015 is for \$47,866 and the work is still ongoing.

Elections - \$511,747 SGF

- 1.) \$2,497 - Global Imports Inc. for the purchase of new batteries for voting machine audio boards as a part of annual maintenance
- 2.) \$509,250 - GCR Inc. for continued development of the ERIN application, which is the voter registration application. This contract also applies to the CORA application in the Commercial Program. The contract term is 5/1/2013 to 4/30/2016 in the amount of \$4.8 M. The total amount of the contract for the Elections Program is \$1.6 M annually.

Museums & Other Operations - \$12,256 SGF

\$12,256 - Shows, Cali & Walsh LLP for legal services related to negotiating a parking agreement with East Baton Rouge Parish for employees at the Old State Capitol. The contract term is 9/14/2014 to 6/30/2015 in the amount of \$20,000. The contract has been extended to a new term from 7/1/2015 to 6/30/2016.

Commercial - \$576,448 SGR

- 1.) \$5,619 - Dell Marketing LP for IT software upgrades and maintenance. The purchase order dated 6/22/2015 and the work associated with the purchase is still ongoing.
- 2.) \$298,434 - GCR Inc. for Phase II of the geauxBIZ’s portal development. The term of the contract is from 1/1/2014 to 12/31/2018 in the amount of \$9.8 M.
- 3.) \$272,398 - GCR Inc. for continued development of the Commercial Online Registration Application (CORA). This contract also applies to the ERIN application in the Elections Program. The contract term is 5/1/2013 to 4/30/2016 in the amount of \$2.1 M. The total amount of the contract for the Commercial Program is \$700,000 annually.

CF 7	04b - 141	Justice	Attorney General	\$16,832	\$1,753,150	\$328,110	\$1,417,166	\$0	\$0	\$3,515,258
------	-----------	---------	------------------	----------	-------------	-----------	-------------	-----	-----	-------------

The Justice Department is requesting approval to carry forward funding (\$16,832 SGF, \$1,753,150 IAT, \$328,110 SGR, and \$1,417,166 in Statutory Dedications) to provide for the following items. The source of the Statutory Dedication is from the DOJ Debt Collection Fund (\$38,986), The DOJ Legal Support Fund (\$1,076,289), the LA Fund (\$205,226) and the Riverboat Gaming Enforcement Fund (\$96,665):

Administrative - \$435,669 Statutory Dedications

- 1.) Professional Services - \$3,840 from the DOJ Debt Collection Fund to provide software updates for the Collections unit computer system. The contract term is 4/1/2013 to 3/31/2016 in the amount of \$10,000.
- 2.) Other Charges - \$2,501 from the DOJ Debt Collection Fund for software updates to the Collections unit computer system and to develop specifications for a modified debt collection application.
- 3.) Other Charges - \$395,984 from the DOJ Legal Expense Fund for 10 legal contracts for various legal services such as expert testimony, review of case findings and litigation for different law suits including El Dorado wastewater, Terrebonne Parish NAACP branch v. Jindal, and LA Oil and Gas Association v. the State of LA.
- 4.) IAT - \$5,190 made up of \$699 from the DOJ Legal Expense Fund for an executive office chair that was ordered on 3/9/2015 and received 7/23/2015 and \$4,491 from the DOJ Debt Collection Fund for 9 chairs that were ordered on 5/22/2015 and have not been received.
- 5.) Acquisitions - \$28,154 from the DOJ Debt Collection fund for a \$4,139 paper folder ordered 6/12/2015 and \$24,015 for a Dodge Charger that was purchased on 5/27/2015. The delivery date of both orders is unknown at this time.

Civil Law Program - \$2,473,819 (\$12,232 SGF, \$328,110 SGR, \$1,753,150 IAT and \$380,327 Statutory Dedications)

- 1.) Other Charges - \$56,502 for grants received from LA Commission on Law Enforcement (LCLE). Of the \$56,502, \$12,232 is SGF that is used as matching funds for 4 grants and \$44,270 is IAT. The grants are Domestic Violence Training Program, Domestic Violence Prosecutor Training, Youth Violence Prevention, and Human Trafficking Training.
- 2.) Other Charges - \$352,032 IAT for Underground Storage Tank litigation expenditures and the funding from DEQ (Motor Fuels Underground Storage Tank Trust Fund).

Legislative Fiscal Office

Agenda #	Schedule #	Department	Agency	SGF	IAT	SGR	DED	IEB	FED	Total
----------	------------	------------	--------	-----	-----	-----	-----	-----	-----	-------

- 3.) Professional Seviles - \$1,356,848 IAT for legal representation. The funding is from the DOA (SGF) for the litigation related to the US Department of the Interiors redrawing of the states’ lateral boundaries and the funding from DEQ (Motor Fuels Underground Storage Tank Trust Fund) is related to lawsuits involving companies that have leaking underground storage tanks.
- 4.) Professional Services - \$70,000 SGR for various legal contracts. There are 2 contracts for legal services provided for non-profit hospitals and 1 contract for the distribution of public service announcements regarding consumer fraud initiatives.
- 5.) Other Charges - \$207,999 SGR for various contracts for analysis, reports, expert testimony and legal services involving CNSI, Chinese Drywall, financial matters and nonprofit hospitals.
- 6.) Professional Services - \$372,347 from various funds for litigation expenses. \$197,246 from the LA Fund for tobacco arbitration, which includes 3 contracts for legal services and analysis, reports, and expert testimony. \$175,101 from the DOJ Legal Support Fund 5 contracts involving various litigation the state is involved in.
- 7.) IAT - \$7,980 from the LA Fund for 20 office chairs that were ordered on 4/29/2015 and were received on 7/24/2015.
- 8.) Acquisitions - \$50,111 SGR for the purchase of a Ford Expedition (\$26,096) that was purchased on 6/4/2015 and a Dodge Charger (\$24,015) that was purchased on 5/27/2015.

Criminal Law/Medicaid Fraud Program - \$509,105 (\$4,600 SGF and \$504,505 Statutory Dedications)

- 1.) Professional Services - \$4,600 SGF to provide psychological services, such as assessment, support, and referral to investigators and other employees. The FY 15 contract amount was \$14,200 and \$9,600 has been expended. The contract ends 11/30/2015.
- 2.) Other Charges - \$471,875 from the DOJ Debt Collection Fund for investigative purposes conducted by the department.
- 3.) Acquisitions - \$32,630 from the DOJ Legal Support Fund for investigative purposes conducted by the department. The Other Charges and Acquisitions orders are not stated since the equipment is used for criminal investigations under Title 18 in federal law that involves intercepting wire, oral or electronic communications other than telephone equipment.

Gaming Program - \$96,665 Statutory Dedications

Professional Services - \$96,665 from the Riverboat Gaming Enforcement Fund to the Taylor Porter law firm to assist in legal matters arising from and related to gaming legislation and related issues involving gaming.

Business Incentives Program (\$209,819 SGR and \$44,198 Statutory Dedications)
\$254,017 for professional services and other charges associated with various contracts for legal services (\$176,184), assistance with the Quality Jobs Program health services requirements (\$34,500), and to provide evaluation and appraisal reports for potential investments (\$43,333).

Business Development Program (\$306,080 SGF, \$150,006 SGR and \$5,039,128 Statutory Dedications)
\$5,495,214 for professional services and other charges associated with multiple contracts primarily associated with the Small and Emerging Business program including: technical assistance (\$1,005,444); customized support (\$2M); support for incubators (\$158,396), contracts with entities serving as the fiduciary and fiscal agency for one of the eight regional economic development organizations (\$806,901); contracts to provide recruiting, legal and forensic services, (\$1,159,750) workforce and labor studies at specific sites (\$60,934); support activities for communities impacted by the Federal Base Realignment and Closure Commission including, but not limited to the Greater New Orleans area (\$105,000); and other miscellaneous contracts (\$198,789).

CF 11	06 - 261	Culture, Recreation & Tourism	Office of the Secretary	\$0	\$0	\$50,916	\$0	\$0	\$0	\$50,916
-------	----------	-------------------------------	-------------------------	-----	-----	----------	-----	-----	-----	----------

The purpose of this BA-7 request is to carry forward recurring funds from the LA Seafood Marketing & Promotion Board (LSPMB). In FY 15, \$152,050 was budgeted for operating expenditures from the Wildlife & Fisheries Foundation, of which \$83,634 was expended. The funding from Wildlife & Fisheries is a result of the transfer of the LSPMB from Wildlife & Fisheries to Culture, Recreation & Tourism in FY 14. An additional \$17,500 was reduced as part of FY 15 mid-year budget cuts, leaving \$50,916 unexpended. Carrying forward this funding will allow the Board to continue promoting LA seafood in various markets. Since the funds donated to LSPMB were donated with the specific intent to promote LA seafood after the BP oil spill, this creates a bonafide obligation.

CF 12	06 - 265	Culture, Recreation & Tourism	Cultural Development	\$0	\$62,317	\$5,206	\$0	\$0	\$0	\$67,523
-------	----------	-------------------------------	----------------------	-----	----------	---------	-----	-----	-----	----------

The purpose of this BA-7 request is to carry forward funding for the Cultural Development Program. The SGR will be used for legal services rendered by Taylor, Porter, Brooks & Phillips stemming from a lawsuit entitled Seven Arts Pictures vs State of LA, Department of Culture, Recreation & Tourism, et al. The initial contract agreement totaled \$30,000 of which \$24,794 had been rendered to the firm by 6/30/2014.

In addition, this BA-7 is requesting to carry forward \$62,317 IAT from the Minimum Foundation Program (MFP) for the Council for the Development of French in LA (CODOFIL). CODOFIL will contract with LA Education Television Authority (LETA) to produce 3 video presentations lasting approximately 5 minutes each to promote the program to school administrators, parents, and the local community. The contract term is 3/2/2015 to 9/30/2015. An additional \$53,317 is for the LA Foundation Louisiane Grant to allow enough time to select members in the Escadrille Louisiane Program. This program allows teachers interested in teaching French to obtain advance-level degrees through grant payments supporting expenses incurred through higher education.

CF 13	06 - 267	Culture, Recreation & Tourism	Tourism	\$0	\$0	\$198,112	\$0	\$0	\$0	\$198,112
-------	----------	-------------------------------	---------	-----	-----	-----------	-----	-----	-----	-----------

This BA-7 request is to carry forward SGR related to a pass-through with the 2015 Essence Music Festival as well as contractual obligations regarding the construction of Parc de Familles in Jefferson Parish. Essence Music Festival is held annually during the 4th of July weekend and the final report and deliverables cannot be obtained before 6/30/2015. The remaining portion of the marketing contract with Essence Festival is \$98,112. As of 06/30/2015, CRT paid \$850,000 for marketing/advertising. The remaining \$100,000 of the request is to fulfill the remaining contract with Meyer Engineers, Ltd. for construction of a hexagonal pavilion, marquee sign, concrete walkway, and iron gate at Parc de Familles which is anticipated to be completed in December 2015.

The purpose of this BA-7 request is to carry forward SGF to pay for the following items:

Supplies- \$14,328 SGF

\$14,328 – Quality Fabrication and Welding for 36 stainless steel flush valve enclosures with tamper proof hardware and no sharp edges (suicide resistant for patient units) (P.O. date 4/9/2015). The vendor must fabricate the enclosures prior to installation and the fabrication process was not completed prior to the end of the fiscal year.

Other Charges Acquisitions - \$16,771 SGF

1.) \$11,791 – Trane US, Inc. for compressor and liquid line driers replacement. This purchase order seeks to service and repair 2 chillers supplying HVAC to patient care buildings (88 forensic clients) on the grounds of the Eastern LA Mental Health System. (P.O. date 6/22/2015). The vendor did not receive all parts necessary to complete the needed repairs until beyond the end of the fiscal year. All work was completed on 7/10/2015.

2.) \$4,980 – Brazos Industries LLC to repair damage in metal covers and provide waterproof coatings to Parker Building roof (P.O. date 6/26/2015). Work was delayed due to weather and completed on 7/2/2015, after the end of the fiscal year.

The purpose of this BA-7 request is to carry forward Title 19 Medicaid IAT funds at the Pinecrest Supports & Services Center. The IAT funds are for the purchase of various medical supplies and medical equipment as well as a major repair at Pinecrest. Expenditures for this BA-7 request are as follows:

Supplies (\$15,457)

Various medical supplies were ordered on 6/05/2015 from Medline Industries, Inc. (\$11,781). The medical supplies include sterile exam gloves and disinfectant -- peroxide and Clorox. The agency received only a partial shipment and the remaining

Agenda #	Schedule #	Department	Agency	SGF	IAT	SGR	DED	IEB	FED	Total
medical supplies were not received until 07/01/2015. Also, 1,584 thermal tops and bottoms were ordered from Care Free Uniforms, Inc. on 5/07/2015 for the residents at Pinecrest (\$3,676). The clothing order was received on 7/07/2015.										

Acquisitions (\$175,508)
Due to high mileage and mechanical issues, three new replacement buses were ordered on 3/31/2015 for the Pinecrest campus from National Bus Sales and Leasing (\$171,608). The new buses replace existing vehicles; therefore, the number of vehicles in the fleet will not increase. All the buses seat 12 passengers. One bus provides 2 wheelchair spaces and another one provides 6 wheelchair spaces. These buses will be used to transport residents with limited mobility. Also, one custom made wheelchair was ordered on 6/04/2015 from Beracah Healthcare Solutions (\$3,900). The custom wheelchair was not received until the end of July 2015.

Major Repairs (\$45,658)
Request to repair roads on the Pinecrest campus were submitted on 04/07/2015. The vendor, TL Construction, LLC, received notice to proceed with the construction project on 6/24/2015. The vendor will start construction of the asphalt roads on 7/17/2015.

-------	----------	-------------------	---------------------	-----	-----	-----	-------------	-----	-----	-------------

The purpose of this carryforward BA-7 request is to provide funding from the Oilfield Site Restoration Fund (OSR) for ongoing projects to plug 21 orphaned wells and retainage on a specific contract. The OSR is a statutorily dedicated fund designed to plug oil and gas wells from leaking after they have been orphaned to prevent any leaks or contamination of areas surrounding the well. Orphaned wells are assigned different priority levels based upon the threat they pose to a surrounding population or ecosystem. High-priority wells are found near/under bodies of water, near populated areas, wells that are leaking, or that have structurally deteriorated so severely that their need to be plugged or removed is deemed immediate. It is funded by a flat-fee on oil and gas production in LA which is paid to the Fund quarterly.

Note: An orphaned well no longer has a responsible party to manage or keep the well compliant with the environmental and safety standards put in place by the Office of Conservation. An orphaned well is different than a capped well, because capped wells still have a responsible party to maintain the wells, even though the wells are not currently in service. Orphaned wells can be reopened at a later date if a new party purchases the well and keeps it maintained. The funds will be dispersed to the following companies:

- 1.) \$514,992 - Lawson Environmental for the remaining value of a contract to plug 1 well in Lelux and Perry Point fields in Acadia and Vermillion parishes.
- 2.) \$23,500 - Estis Well Services for remaining retainage left on a project in Horseshoe Bay in St. Mary Parish. The original contract amount was \$235,000.
- 3.) \$476,464 - Estis Well Services to plug 1 High Priority well in the Quarantine Bay field in Plaquemines Parish.
- 4.) \$263,920 - Womack & Sons Construction to plug 19 wells (5 high priority) in the CPI, Greenwood-Waskom and Carter, and North fields in Caddo Parish.

-------	----------	-------------------	--------------	-----	-----	-----	----------	-----	-----	----------

The purpose of this carryforward BA-7 request is for additional budget authority from the Underwater Obstruction Removal Fund to fulfill an ongoing contract. There is an ongoing project with Anders Construction, Inc. to assess underwater obstructions in Barataria Bay near Grand Isle through the use of sonar equipment and divers. According to DNR, there are 22 hang sites in Barataria Bay that must be assessed to determine the possibility of removal. A hang site is a location where a submerged obstacle can cause damage to a vessel and any underwater equipment a vessel may use (nets, anchors, etc). The contract for the project was signed on 6/23/2015 and the exploratory phase of the project has been completed with the assessment report in progress. The Office of Conservation is awaiting the completed assessment report before paying the contract amount. The total value of the contract is \$46,400.

CF 27	12 - 440	Revenue	Office of Revenue	\$0	\$0	\$1,453,168	\$0	\$0	\$0	\$1,453,168
-------	----------	---------	-------------------	-----	-----	-------------	-----	-----	-----	-------------

This carryforward BA-7 request includes professional services contractual obligations and/or equipment that will require payment in FY 16, though the appropriation was approved for FY 15. The request includes contracts within the Tax Collection Program (\$1,389,805) and the Office of Alcohol & Tobacco Control (\$63,363).

The Tax Collection Program carryforward amounts include contracts related to the Office of Debt Recovery’s vendor Columbia Ultimate (\$482,000) and Informatix, Inc., (\$14,883). Contracts supporting audit and/or collection measures are with SAS (\$318,900), Rapides Parish Police Jury (\$41,295), Portfolio Recovery Associates (\$16,783) and St. Charles Parish School Board (\$1,000). The Revenue Processing Center contracts with Scan-Optics, LLC (\$228,791) for services related to the processing of returns and data capture. Several contracts assist the department with disputes and other legal issues including Keogh, Cox & Wilson (\$104,478), Mediation Arbitration Professionals (\$14,500), Decuir, Clark & Adams (\$17,020), Jimmie Kilby (\$15,000) Avant & Falcon (\$11,894), Weiler & Rees (\$6,467) and The Carver Law Firm (\$4,950). Carryforward contracts also include one with the LA District Attorney Association (\$100,000) to assist in collection of NSF checks, and Commercial Design Interiors (\$8,701) and SSA Consultants (\$3,143) for office configuration and adjustments.

CARRYFORWARD BA-7s

8/14/2015

Legislative Fiscal Office

Agenda # **Schedule #** **Department** **Agency** **SGF** **IAT** **SGR** **DED** **IEB** **FED** **Total**

The Office of Alcohol & Tobacco Control is requesting to carry forward funding for professional service contracts for outside legal services with Frank Perez (\$18,025), Amanda G. Clark (\$31,490), Roedel, Parsons, Koch, Blache, Baloff & McCollister (\$9,013), Frilot, LLC (\$3,832) and Shows, Cali, Berthelot & Morris (\$1,002) related to permitting, certification, personnel legalities and legal appeals.

Note: Collections and expenditures for the the Department of Revenue appear to show that revenue will be available to accommodate this requested carryforward appropriation only if all programs are considered. The Tax Collection Program is expected to end FY 15 with a surplus of about \$95,000 (including a transfer of \$1.6 M from the Alcohol and Tobacco Control (ATC) Program). This request includes a carryforward obligation of \$1.4 M for the Tax Collection Program. The Department of Revenue budget includes three programs and the total agency surplus is expected to be about \$5.5 M, in part due to some ATC fees that became payable for two years during FY 15, increasing revenue in FY 15 to be utilized in FY 16. State Treasury and the Office of Planning & Budget (OPB) indicate that carryforward BA-7 requests are considered on a total agency level and that, as long as the agency SGR is able to be spent for purposes consistent with the Tax Collection Program, the program’s FY 15 finish does not matter, only the agency total is considered.

-------	----------	-----------------------	--------------------------	-----	-----	-----	-------------	-----	-----	-------------

The purpose of this BA-7 is to carry forward statutory dedications from the Hazardous Waste Site Cleanup Fund (\$2,001,012) and the Environmental Trust Fund (\$116,008) for the contractual agreements listed below.

Consulting Services Agreements

- 1.) JESCO for *Site investigations for the Underground Storage Tank and Remediation Division* with a contract period through 7/31/2016. Total contract award is \$1.8 M; FY 15 encumbrance was \$569,923 of which \$65,266 remains unexpended.
- 2.) Murphy Brothers Trucking & Construction for *Final Closure for the Harrelson Materials Management, LLC Construction and Demolition Debris Landfill Site* with a contract period through 10/31/2015. Total contract award is \$2,034,733; FY 15 encumbrance was \$2,034,733 of which \$65,266 remains unexpended.
- 3.) EMSL Analytical Inc. for *Asbestos and Particle Analysis* with a contract period through 7/31/2015. Total contract award is \$30,000; FY 15 encumbrance was \$16,560 of which \$9,920 remains unexpended.
- 4.) Accutest Laboratories Gulf Coast for *Analytical and Consulting Services for LDEQ (air analysis)* with a contract period through 9/30/2015. Total contract award is \$988,000; FY 15 encumbrance was \$205,879 of which \$5,892 remains unexpended.
- 5.) Pace Analytical Services Inc. for *Analytical and Consulting Services for LDEQ* with a contract period through 9/30/2015. Total contract award is \$634,000; FY 15 encumbrance was \$184,069 of which \$1,904 remains unexpended.
- 6.) Accutest Laboratories Gulf Coast for *Radiological Analysis and Consulting Services* with a contract period through 4/14/2016. Total contract award is \$150,000; FY 15 encumbrance was \$613,018 of which \$36,895 remains unexpended.
- 7.) ARS International, Inc. for *Ultimate Biochemical Oxygen Demand Analysis and Consulting Services* with a contract period through 2/14/2016. Total contract award is \$2,880,000; FY 15 encumbrance was \$50,000 of which \$1,855 remains unexpended.
- 8.) Pace Analytical Services Inc. for *Analytical and Consulting Services for LDEQ* with a contract period through 4/30/2016. Total contract award is \$634,000; FY 15 encumbrance was \$200 of which \$200 remains unexpended.
- 9.) Research Triangle Institute for *Microgravimetric Weighing of PM 2.5 Filters* with a contract period through 12/31/2015. Total contract award is \$242,603; FY 15 encumbrance was \$34,704 of which \$1,078 remains unexpended.
- 10.) JL Sutherlin Consulting, LLC for *Risk Assessment and Related Consulting Services* with a contract period through 2/28/2016. Total contract award is \$444,000; FY 15 encumbrance was \$185,726 of which \$5,268 remains unexpended.
- 11.) URS Corporation to *Conduct Performance Audits of Ambient Air Monitoring Sites* with a contract period through 6/30/2017. Total contract award is \$78,000; FY 15 encumbrance was \$12,040 of which \$2,920 remains unexpended.
- 12.) Petroleum Laboratories Inc. for *Fecal Coliform Analysis in the Bayou Lafourche Area* with a contract period through 6/30/2017. Total contract award is \$18,000; FY 15 encumbrance was \$10,195 of which \$3,686 remains unexpended.
- 13.) Gulf States Environmental Laboratories Inc. for *Fecal Coliform Analysis in the Shreveport Area* with a contract period through 6/30/2017. Total contract award is \$49,500; FY 15 encumbrance was \$5,300 of which \$950 remains unexpended.
- 14.) Green Hills Group LLC (Cenla Environmental Science) for *Fecal Coliform Analysis in the Alexandria Area* with a contract period through 6/30/2017. Total contract award is \$24,000; FY 15 encumbrance was \$1,680 of which \$1,680 remains unexpended.
- 15.) Revecorp Inc. for *Certification of Louisiana On-Board Diagnostic II Testing Inspection System* with a contract period through 12/31/2016. Total contract award and FY 15 encumbrance is \$60,000 of which \$19,575 remains unexpended.

Other

- 1.) SEMS Inc. for operation and maintenance at Delatte Metals Superfund Site. Total contract award and FY 15 encumbrance is \$48,995 of which \$4,673 remains unexpended.
- 2.) Bayou Cajun Enterprise, LLC for periodic clearing and grubbing at the Delatte Metals Superfund Site. Total contract award and FY 15 encumbrance is \$8,000 of which \$4,800 remains unexpended.
- 3.) Southeastern LA University to provide water quality testing through 9/30/2015. Total contract award was \$13,145; FY 15 encumbrance was \$8,745 of which \$110 remains unexpended.
- 4.) LSU Agricultural Center to provide water quality testing through S9/30/2015. Total contract award was \$57,235; FY 15 encumbrance was \$21,245 of which \$3,275 remains unexpended.
- 5.) OI Corporation for equipment purchases totaling \$241,747 of which \$11,010 remains encumbered but unexpended.

CF 38	20 - 901	Other Requirements	State Sales Tax Dedications	\$0	\$0	\$0	\$3,301,176	\$0	\$0	\$3,301,176
-------	----------	--------------------	-----------------------------	-----	-----	-----	-------------	-----	-----	-------------

The purpose of this BA-7 request is to carry forward funding to provide for payments to entities with approved Cooperative Endeavor Agreements (CEAs) for FY 15 who have not yet submitted final expenditure reports in order to be reimbursed but are expected to do so during FY 16. The source of funding is the 4% state hotel-motel sales tax generated in each local area which is dedicated for use in that area.

Carryforward authority is being requested for 38 funds for a total of \$3,301,176. The requests include: Lafayette Parish Visitor Enterprise Fund (\$571,088), Jefferson Parish Convention Fund (\$569,690), Lake Charles Civic Center Fund (\$294,081), EBR Parish Riverside Centroplex (\$223,151), EBR Community Improvement Fund (\$219,866), West Calcasieu Community Center Fund (\$204,255), EBR Parish Enhancement Fund (\$156,185), Tangipahoa Parish Tourist Commission Fund (\$101,702), Shreveport Riverfront Convention Center and Independence Stadium Fund (\$101,567), Shreveport-Bossier City Visitor Enterprise Fund (\$97,502), Ouachita Parish Visitor Enterprise Fund (\$95,225), West Baton Rouge Parish Visitor Enterprise Fund (\$94,807), Richland Visitor Enterprise Fund (\$75,000), Vernon Parish Legislative Community Improvement Fund (\$73,889), and Lincoln Parish Visitor Enterprise Fund (\$50,271). The request also includes \$372,897 in total carryforward funding for the

CF 39	20 - 931	Other Requirements	LED Debt Service & State Commitments	\$2,216,939	\$0	\$0	\$31,661,799	\$0	\$0	\$33,878,738
-------	----------	--------------------	--------------------------------------	-------------	-----	-----	--------------	-----	-----	--------------

The purpose of this BA-7 request is to carry forward budget authority of \$33,878,738 (\$2,216,939 SGF and \$31,661,799 in statutorily dedicated funds) to pay state commitments for economic development projects throughout the state. The sources of the dedicated funds are the Rapid Response Fund (\$26,553,806) and the Mega Projects Development Fund (\$5,107,993). This will provide for the following commitments:

- 1.) Bentler Steel & Tube Mfg Corp. - Provides incentive package to establish a steel tube mill facility at the Port of Caddo Bossier from the Rapid Response Fund (\$1,190,537).
- 2.) LA Tech Univ and CenturyTel, Inc - To locate and maintain CenturyTel’s headquarters in LA funded from the Mega-Project Development Fund (\$3.6 M) and the Rapid Response Fund (\$1,248,742).
- 3.) SNF Holding Co. - Provides state investment for public infrastructure improvements to construct and operate a new chemical manufacturing facility in Iberville Parish from the Mega-Project Development Fund (\$1,159,549).
- 4.) General Electric Capital Corp - To establish and operate an Information Technology Center of Excellence in LA funded from the Rapid Response Fund (\$1,640,335).
- 5.) Caddo-Bossier Parishes Port Commission - Provides port infrastructure for Benteler steel to accommodate the establishment of a steel tube mill facility funded from the Mega-Project Development Fund (\$5,923,130).
- 6.) IBM Corporation - To establish and operate a Domestic Delivery Center in Baton Rouge funded from the Mega-Project Development Fund (\$4,164,513).
- 7.) Wilbur Marvin Foundation - To establish and operate a Domestic Delivery Center in Baton Rouge funded from the Mega-Project Development Fund (\$2 M).
- 8.) Sowela - To expand and enhance the Aviation Maintenance Technology Program to increase the number of graduates obtaining the A&P Certifications funded from the Mega-Project Development (\$1.5 M).
- 9.) International Shipholding Corp. - Provides incentive package and relocation costs to establish new headquarters in New Orleans from the Mega-Project Development (\$4,472,531).
- 10.) Computer Sciences Corporation - Provides incentives to establish and operate an integrated technology center at the Computer Information Services Campus in Bossier City from the Rapid Response Fund (\$3,135,166).
- 11.) Rain CII Carbon, LLC - Provides inducements to relocate Rain’s headquarters to Covington and continue operation of the company’s production facilities in Chalmette, Norco, Gramercy and Sulphur from the Rapid Response Fund (\$1.6 M) and SGF (\$1 M).
- 12.) GGI Federal Inc. - Provides an incentive package to establish and operate an onshore IT center in Lafayette from the Rapid Response Fund (\$1.65 M).
- 13.) University of LA at Lafayette - Provides a grant to expand the school of Computing and Infomatics in support of CGI’s workforce from the Rapid Response Fund (\$1.5 M).
- 14.) SB International/Centric Pipe, LLC - Provides incentive to establish, expand and operate a steel pipe and tubular products mill in Bossier Parish from the Rapid Response Fund (\$2 M).
- 15.) Board of Commissioners of the Port of New Orleans - Provides infrastructure grant for construction and equipment from the Rapid Response Fund (\$4.200,000).
- 16.) Century Link - Provides a temporary lease grant from the Rapid Response Fund (\$1,186,120).
- 17.) IBM Corporation - Provides a performance based grant for workforce development and relocation from the Rapid Response Fund (\$4,5 M).
- 18.) Various other economic development projects throughout the state funded from SGF (\$1,216,939), the Mega-Project Development Fund (\$2,288,270) and the Rapid Response Fund (\$2,702,906).

Note: Total outstanding obligations for these projects equals \$53,878,738 from all means of financing, although this BA-7 is requesting only \$33.8 M (all means of financing) in carry forward authority. Act 646 of 2014 (Supplemental Bill) provided a deposit of \$20 M into the Mega Projects Development Fund for expenditure in FY 15, however these funds did not materialize prior to 6/30/2015. Act 16 of 2015 (HB 1) includes a reauthorization of the \$20 M which, when combined with this BA-7 request of \$33.8 M provides the necessary budget authority for payment of FY 15 outstanding obligations.

CF 40	20 - 945	Other Requirements	State Aid to Local Govt. Entities	\$0	\$0	\$0	\$982,991	\$0	\$0	\$982,991
-------	----------	--------------------	-----------------------------------	-----	-----	-----	-----------	-----	-----	-----------

The purpose of this BA-7 request is to carry forward funding for State Aid to Local Government Entities from Statutory Dedications to the following projects:

- 1.) \$54,611 - St. Landry Parish Excellence Fund payable to St. Landry Parish School Board.
- 2.) \$3,754 - Calcasieu Parish Fund payable to the Calcasieu Parish School Board.
- 3.) \$26,314 - Bossier Parish Truancy Program Fund payable to the 26th Judicial District Court Truancy Program.
- 4.) \$46,283 - Beautification of New Orleans City Park Fund payable to Beautification Project for New Orleans.
- 5.) \$24,881- Algiers Economic Development Foundation Fund payable to the Algiers Economic Development Foundation.
- 6.) \$100,529 - Friends of NORD Fund payable to Friends of NORD, Inc.
- 7.) \$100,000 - RVA Sports Facility Assistance Fund payable to FORE Kids Foundation.
- 8.) \$541,619 - Rehabilitation for the Blind & Visually Impaired payable to Lighthouse for the Blind, LA Association for the Blind, and Affiliated Blind of LA Training Center, Inc.
- 9.) \$85,000 - Overcollections Fund payable to the town of Melville.

CF 41	20 - 950	Other Requirements	Special Acts/Judgments	\$75,000	\$0	\$0	\$10,000	\$0	\$0	\$85,000

The purpose of this BA-7 request is to carry forward funds totaling \$85,000 (\$75,000 SGF and \$10,000 Overcollections Fund) for judgments not yet paid as of July 2015. These various judgments are from: Act 14 of 2013 (Mary C. Ferroni, Wife of Richard A Machen - \$10,000 Overcollections Fund, Act 15 of 2015 (Kartini Binte Hassan \$25,000) and Act 15 of 2014 (Angela Harris \$50,000).

-------	----------	----------------------	----------------------	-----	-----	-----	-----	-----	-------------	-------------

The purpose of this BA-7 is to authorize the expenditure of Federal funds for the State Small Business Credit Initiative (SSBCI) Grant from the U.S. Department of Treasury and an Economic Development Administration Award from the U.S. Department of Commerce by the LA Department of Economic Development.

In 2011, LA was allocated \$13,168,350 in SSBCI grant funding which is administered through the Department of Economic Development's Small Business Loan & Guaranty Program within its Business Incentives Program. To date, the state has expended \$6,456,940 and is requesting the appropriation of the remaining grant funds of \$6,511,410 through this BA-7 in order to accommodate program awards throughout the year. The funds are used to enhance and support lending to small businesses and manufacturers. The Small Business Loan & Guaranty Program is administered through the LA Economic Development Corporation (LEDC) and guarantees up to 75% of loans in amounts ranging from \$5,000 to \$1.5 M for small business. Equity requirements are 15%-20%.

The request also includes \$200,000 in the Business Development Program is from the Department of Commerce's Economic Development Administration Award which funds the state's Master Plan for International Commerce. The funds were awarded over 3 years for a total of \$600,000, and this request represents the final year of funding through this grant. The Master Plan for International Commerce is included in the mission for the Office of International Commerce in the Department of Economic Development.

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #1B.

The purpose of this BA-7 request is to increase statutorily dedicated funds from the Environmental Trust Fund by \$1,165,000 to fund legal services provided by the Department of Justice (DOJ) related to investigations of alleged improper payments made to oil and gas companies from the Motor Fuel Underground Storage Tank Trust Fund (MFTF). The MFTF was established as a means of helping underground storage tank (UST) owners, operators, or responsible parties (owners) meet the financial responsibility requirements set forth by the Environmental Protection Agency.

The MFTF is designed to reimburse costs incurred during the rehabilitation and remediation of affected soils, groundwater and surface waters at motor fuel contaminated UST sites, provided these costs are necessary and appropriate. However, UST owners are not eligible to participate in the MFTF if they have outside insurance. UST owners seeking reimbursement of rehabilitation and remediation costs associated with MFTF sites must sign an affidavit certifying that they have no insurance to pay for costs at the site (before anything is paid and LDEQ determines the site is eligible for reimbursement). The Attorney General's Office is investigating 7 major companies. One company has settled. With the remaining 6 companies, the DOJ is in discovery, litigation, or settlement negotiations related to claims by the state that the companies had outside insurance that invalidated their MFTF claims and could have funded remediation of underground storage tank sites. The DOJ determines the initial litigation budget and subsequent litigation costs billed to DEQ. DEQ will transfer these funds to DOJ via IAT expenditure category.

II. IMPACT ON FUTURE FISCAL YEARS

The Attorney General's Office anticipates investigation and litigation expenses related to the Motor Fuels Trust Fund program to continue at the increased amount of \$3,330,000 for the next 2 fiscal years. However, the LDEQ FY 16 budget in HB 1 Engrossed only includes \$1.1M in expenditure authority from the Environmental Trust Fund in the Office of Management in Finance to fund these litigation costs.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$1,165,000</u>	Total	<u>\$1,165,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #1A.

The purpose of this BA-7 request is to increase IAT budget authority by \$1,165,000 in the Attorney General's Office, Civil Law Program. Funds are being transferred from the Department of Environmental Quality. The original source of funds requested to be transferred is the Environmental Trust Fund.

The additional funds will be used to pay for outside counsel and expert witnesses for the remainder of the year that are prosecuting and investigating improper claims from the Motor Fuels Trust Fund (MFTF) program. According to the Attorney General's Office, the department estimates it will spend \$120,000 for an expert witness and \$1,045,000 on outside counsel. The current FY 15 budget authority is \$1,165,000 and from July 2014 to December 2014 \$1,002,146 was paid to outside counsel. The increase of \$1,165,000 will result in a total FY 15 budget authority amount of \$2,330,000.

The MFTF program reimburses costs to underground storage tank (UST) owners, operators and responsible parties for remediation and rehabilitation of affected soils, groundwater and surface water contaminated by UST sites. The Attorney General's Office is auditing payments and seeking to recover the funds. The Attorney General's Office is investigating 7 major companies. One company has settled, 4 companies are in settlement discussion, and the office has filed suit against 2 companies.

II. IMPACT ON FUTURE FISCAL YEARS

The Attorney General's Office anticipates investigation and litigation expenses related to the Motor Fuels Trust Fund program to continue at the increased amount of \$3,330,000 for the next 2 fiscal years. However, the FY 16 budget includes IAT budget authority of only \$1.1 M.

Federal Funds:	\$0			
Total	<u>\$100,000</u>	Total	<u>\$100,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority for the Office of State Museum (OSM) to pay increased operating expenses. OSM has averaged \$57,051 in monthly utility expenditures to date. Providing for the first 9 months of the fiscal year, the office has spent \$513,459 in utility expenditures in FY 15. OSM projects there will be an additional \$171,000 in utility expenses for the remainder of the fiscal year for a total expenditure of approximately \$684,000 for OSM. The utility fees will account for \$81,635 of this BA-7 request.

In addition, this request will also be used to pay 372 hours of overtime costs for security personnel for OSM totaling \$18,365. The security staff, which consists of 16 FTEs and 4 WAEs, is required to work after-hours events such as weddings and meetings. This includes the actual event time plus 2 hours prior and 2 hours after the event for set up and break down. The average event is no less than 3 hours long, so staff works approximately 7 hours for the average event. All OSM facilities combined will have hosted approximately 283 after hours events by the end of the fiscal year. The facilities include: the Cabildo, the Presbytere, the Old U.S. Mint, the 1850 House, and Madame John's Legacy in New Orleans, the E.D. White Historic House in Thibodaux, and the LA State Museums in Baton Rouge, Patterson, and Natchitoches.

The expenditure increase will be supported from SGR through increased rental of state museum facilities and increased ticket sales for visits. Over the last 3 years, visitation to OSM facilities has increased from 308,000 visitors in FY 12 to 418,000 in FY 13 and 467,000 in FY 14. CRT is projecting FY 15 SGR for OSM to be \$579,000, an increase from \$454,000 in FY 14. OSM has been averaging approximately \$10,000 more in ticket revenue per month than in FY 14 in rentals and fees.

II. IMPACT ON FUTURE FISCAL YEARS

The current version of HB 1 includes a reduction in the overall operating expenditures from \$827,000 in FY 15 to \$541,000 in FY 16. To the extent this BA-7 request is not annualized within the FY 16 budget, there may be a need for another BA-7 request for these same expenditures a year from now.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$44,496,361</u>	Total	<u>\$44,496,361</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedication authority by \$44,496,361 in Medical Vendor Payments (MVP). This increase in revenue to Medical Vendor Payments (MVP) is being made as part of the mid-year deficit elimination plan offered by the Division of Administration in December 2014 to address a reduction in the revenue forecast for FY 15 (first mid-year cut solution). The source of Statutory Dedications includes Health Excellence Fund revenues, Amnesty Collections Fund, and Overcollections Fund revenues.

History:

As part of the first mid year budget deficit solution, MVP was reduced approximately \$127 M in SGF through an in house BA -7. A corresponding BA-7 proposed in JLCB on 12/18/2014 requested to add back approximately \$126 M in various Statutory Dedications to offset the \$127 M in SGF cuts. The Joint Legislative Committee on the Budget revised the BA-7 request from \$126 M to \$82 M (\$44 M) as a result of certain Statutory Dedication revenues not reflecting the Revenue Estimating Conference (REC) forecast at the time. A subsequent REC meeting on January 26 recognized the level of statutory dedication revenues amended out of the original JLCB BA-7. This BA-7 is requesting to fund the \$44 M in Statutory Dedications amended out of the original BA-7. See illustration below.

BA-7 request (December 18, 2015):

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the Office of Juvenile Justice's (OJJ) federal budget authority to execute one-time funds received via reimbursements from the Social Security Administration (SSA) which began accruing in FY 12 without a corresponding increase in Federal budget authority. The reimbursements are derived from disability and survivor benefits from Supplemental Security Income (SSI) and Social Security, respectively. OJJ receives disability and survivor benefits from SSA when the dependent children of persons receiving such benefits come under their care. Once a child returns to the care of their parent or legal guardian, OJJ no longer receives the associated disability and survivor benefits.

OJJ will use the Federal funds to replace SGF which it used to fund health care services contracts. OJJ will use these funds to provide all health and dental care, unless emergency care or the use of an off site specialist such as an orthodontist, orthopedist, ophthalmologist, or other specialist is required. If a child requires emergency care or the use of a specialist, it is paid for by the Department of Public Safety & Corrections.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. OJJ does not have an increase in federal budget authority in the FY 16 Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate additional SGR budget authority in order to pay projected medical and prescription drug claims payments from April 2015 until the end of FY 15. The current FY 15 budget is \$1,354,554,729.

Through February 2015, the OGB has expended a total of \$989,002,894 in FY 15, which equates to spending approximately \$123.6 M per month. OGB has \$365.6 M of unexpended SGR budget authority remaining in FY 15. Based upon a projected March - June expenditure analysis completed by OGB's contract actuary (Gallagher Benefit Services), OGB's anticipated aggregate expenditures for the rest of the fiscal year is projected to be \$460,556,840 (or approximately \$115.1 M per month). See calculations below.

Actual FY 15 Expenditures (July 2014 - February 2015)	\$989,002,894 (\$123.6 M / month)
Projected Remaining FY 15 Expenditures Per Contract Actuary (March 2015 - June 2015)	<u>\$460,556,840 (\$115.1 M / month)</u>
FY 15 Total Anticipated Expenditures	\$1,449,559,734
FY 15 Existing Operating Budget (EOB)	\$1,354,554,729
FY 15 Total Anticipated Expenditures	<u>\$1,449,559,734</u>
Current Budget Authority Difference	(\$95,005,005)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority in the DOTD Operations Program to provide funding for expenses incurred in response to 2 weather events (Governor's State of Emergency, Winter Weather Proclamations NO. 26 2015 issued on 2/22/2015, and NO. 44 2015, issued on 3/4/2015). The weather events resulted in closure of schools and/or state offices in numerous parishes throughout central and north LA, ranging from as few as 2 parishes to as many as 40 parishes on specific days within the emergency periods.

Approval of this BA-7 will increase the following expenditure categories:

Salaries - \$1,607,025	Provides funding for employee overtime accrued in response to two winter weather events (2/21-28/2015 and 3/3-6/2015). 1,113 employees in the Operations Program were involved in the response to the storm and each accrued overtime pay while performing work during official office closures, 12-hour shifts and weekend work. Employees were called on to scout roadways for icing, logistics and planning, preparation of situational reports, administration of the response including call center employees, communications (phone and radio), and deicing of roadways. Employees from all DOTD districts statewide were utilized in response efforts except those from District 02.
Supplies - \$542,264	Provides funding for supplies needed to respond to two winter weather events. DOTD purchased deicing materials (salt, brine solution and sand) for application to bridges and certain roadways in the impacted areas.

The total costs identified during response to these winter weather events in the Operations Program exceeded \$2.8 M. The department absorbed approximately \$700,000 worth of expenditures beyond the appropriation authority sought by this BA-7.

The Transportation Trust Fund (TTF) currently has an undesignated fund balance of approximately \$21.1 M in FY 15 (derived by comparing the TTF estimate adopted by the Revenue Estimating Conference to the approved budget authority and planned expenditures).

Note: This is an after-the-fact BA-7 request.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0			
Total	<u>\$2,034,734</u>	Total	<u>\$2,034,734</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutorily dedicated funds from the Hazardous Waste Site Cleanup Fund by \$2,034,734 to pay Murphy Bros. Trucking & Construction, LLC to close a solid waste facility owned by Harrelson Materials Management, LLC in Shreveport. Containment of the site is an environmental emergency and Murphy Bros. began work as soon as possible after the contract was approved by the LA Department of Environmental Quality (DEQ) and the Division of Administration on 4/2/2015. As such, this is an "after the fact" BA-7. Murphy Bros will compact and grade the waste to provide a smooth base capable of supporting the final cover over the site. The area requiring closure is estimated to be between 27 and 35 acres.

Numerous fires have occurred in the Harrelson landfill since July 2008. JLCB approved a \$3.5 M BA-7 on 10/17/2014 to hire a different contractor to initially extinguish the fires. The contractor began work to extinguish the fires on 10/11/2014 and concluded firefighting efforts on 12/16/2014. In early February 2015, the State Fire Marshal's office identified hot areas at the landfill and the contractor returned to investigate on 2/16/2015. On 2/20/2015, the contractor determined that the fires were successfully extinguished, but reported that the landfill needed to be closed immediately to prevent the fires from reoccurring.

At the time of this writing, the Revenue Estimating Conference (REC) had not recognized enough revenue from the Hazardous Waste Site Cleanup Fund in FY 15 (\$8.27 M) to fully fund this BA-7. The current appropriation to DEQ from the Hazardous Waste Site Cleanup Fund is \$7.04 M, leaving \$1.23 M to appropriate, or \$0.8 M less than needed for this BA-7 (\$1.23 M - \$2.03 M = -\$0.8 M). However, when developing the budget for FY 15, DEQ had initially recommended that the REC recognize \$9.9 M from the Hazardous Waste Site Cleanup Fund. Due to a technical reporting error, the REC only recognized the \$8.27 M from the Hazardous Waste Site Cleanup Fund mentioned earlier. More recently, DEQ has revised its FY 15 forecast for the Hazardous Waste Site Cleanup Fund upward to \$10.4 M. As such, the REC can recognize an additional \$2.13 M from the Hazardous Waste Site Cleanup Fund in FY 15 based on DEQ's latest forecast (\$10.4 M - \$8.27 M = \$2.13 M).

II. IMPACT ON FUTURE FISCAL YEARS

Expenditure from the Hazardous Waste Site Cleanup Fund in FY 15 will reduce available funds in FY 16.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 at a reduced amount of \$1,227,390. This amount reflects the difference between the current FY 15 REC estimate for the Hazardous Waste Site Cleanup Fund and the Fund's current appropriation amount (\$8,270,000 - \$7,042,610 = \$1,227,390). Approval of this reduced amount leaves DEQ \$807,344 short of the amount needed to fully fund the contract. DEQ can also submit a subsequent BA-7 request for additional appropriation authority from the Hazardous Waste Site Cleanup Fund if the REC recognizes additional revenue from the fund prior to the end of the fiscal year.

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 1

AGENCY: Tourism

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Marketing	\$300,000	0
Self-Generated Revenue:	\$0	Welcome Centers	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$300,000			
Total	<u>\$300,000</u>	Total	<u>\$300,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This purpose of this BA-7 request is to increase federal budget authority for the Office of Tourism by \$300,000. These funds from the US Department of the Interior National Park Service are allocated to the Atchafalaya Trace Commission within CRT. The National Park Service has authorized this increase annually through 2021, at which time CRT can request reauthorization for funding to continue beyond 2021 without interruption.

The funding will be used to create a comprehensive driving trail that illustrates the geographic history of sites significant to various water bodies throughout the Atchafalaya National Heritage Area (ANHA). The main trail will be designed for automobiles with smaller side-trails for hiking, biking, and other outdoor activities. These significant sites will illustrate major turning points in the history of the area such as major floods and storms, and how these events affected the land and culture. This information will be incorporated into trail guides/brochures, websites, smartphone applications and other marketing materials. While the specific sites have not been finalized, the trail will travel through the 838,000 acres of the ANHA which will include the following parishes: Ascension, Assumption, Avoyelles, Concordia, East Baton Rouge, Iberia, Iberville, Lafayette, Point Coupee, St. Landry, St. Martin, St. Mary, Terrebonne, and West Baton Rouge. The project is funded completely by federal dollars with no state fund matching requirement.

The funds will be expended on management plan implementation and development of a comprehensive driving trail, as well as funding for an existing non-TO position. The Office of Tourism does not need an additional position for this project because the position will be filled by an existing employee. If the federal funding is approved, funding from the Marketing budget currently used for the position will be freed up for other operations within the Marketing program. The salary and benefits of the non-TO position being replaced by the federal funding is \$49,719. The remainder will fund the contract objectives described above.

The Department has already awarded the project and has entered into a professional services contract for \$168,909 with Jeffrey Carbo, Landscape Architects, LLC (JCLA) pending approval of this BA-7 request. The contractor will perform all of the duties related to the project. No payments have been made toward the contract to date. The remaining \$119,190 of the funding will go towards the production of the promotional materials including brochures/guides, road signs, the smartphone application, and website designed by JCLA. The ongoing maintenance for the website and smartphone application will be handled in-house by CRT. The design phase of the driving trail, walking trails, website, brochures, smartphone application, and signage will begin upon the approval of this BA-7 and end in June 2016. The construction phase of the project would begin in July 2016 with the start of FY 17.

II. IMPACT ON FUTURE FISCAL YEARS

In the subsequent fiscal years of the contract, funding will be used to maintain the trail, the salary/benefits for the non-TO position, advertising, and expanding the educational programs offered throughout the heritage area. The funding for the project will recur until 2021 at which time CRT can request reauthorization. To the extent that the funding continues, the \$49,719 in Marketing funding once used for the non-TO position will continue to stay in the Marketing program to be used for other purposes.

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Environmental Quality

AGENDA NO.: 2

AGENCY: Environmental Compliance

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Compliance	\$245,642	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$245,642			
Federal Funds:	\$0			
Total	<u>\$245,642</u>	Total	<u>\$245,642</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutorily dedicated budget authority from the Environmental Trust Fund by \$245,642. These funds were donated by ExxonMobil to the Department of Environmental Quality (DEQ) as part of a settlement agreement related to proceedings under the LA Environmental Quality Act. ExxonMobil donated these funds for improvements to the state's Early Warning Organic Chemical Detection System (EWOCDS) on the Mississippi River. EWOCDS provides warnings of possible contamination of drinking water on the Mississippi River in Louisiana.

DEQ will use the funds requested in this BA-7 to purchase and install three gas chromatographs and peripheral accessories on sites owned by the following parties that are part of EWOCDS: ExxonMobil, Luling Water Works and the Vacherie Water plant. Each of the parties hosting the gas chromatographs will fund the lab space, utilities, and manpower to analyze water samples using the gas chromatographs funded by this BA-7. Each of the gas chromatographs has a one-year manufacturer's warranty. After expiration of the warranties on the chromatographs, DEQ will fund future maintenance cost by LDEQ's maintenance budget. DEQ employees will perform all routine maintenance on the chromatographs except for difficult and complex maintenance/repairs that are beyond the capability of the department's staff. Difficult and complex maintenance/repairs beyond the capabilities of DEQ staff will be handled by service technicians paid for by the department. There is no way to estimate the potential maintenance/repair costs for the chromatographs after expiration of the warranties, but the department reports that it has adequate funds to cover these costs in future fiscal years.

II. IMPACT ON FUTURE FISCAL YEARS

Each of the three gas chromatographs funded by this BA-7 has a one-year manufacturer's warranty. After expiration of the warranties on the chromatographs, DEQ will fund future maintenance cost by DEQ's maintenance budget. DEQ employees will perform all routine maintenance on the chromatographs except for difficult and complex maintenance/repairs that are beyond the capability of the department's staff. Difficult and complex maintenance/repairs beyond the capabilities of DEQ staff will be handled by service technicians paid for by the department. There is no way to estimate the potential maintenance/repair costs for the chromatographs after expiration of the warranties, but will not represent a material impact on the department's overall budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE

Statutory Dedications:	\$2,000,000	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$2,000,000</u>	Total	<u>\$2,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the budget authority of the statutorily dedicated Department of Justice Legal Support Fund within the Attorney General's Office. The increase is due to the enactment of Act 796 of 2014 which requires express statutory authority for compensation to a special attorney or counsel representing the Attorney General (AG), or any state agency, board or commission on a contingency fee or percentage basis. The Act also allows the AG to use settlement monies deposited into the Legal Support Fund to cover litigation expenses. Upon approval of this BA-7, the fund will have a FY 15 projected unappropriated balance of approximately \$2.6 M.

Travel expenses are estimated to be \$83,333 for the remainder of the fiscal year. Travel would consist of in-state and out-of-state travel for investigations, depositions, expert interviews and meetings. Travel would also involve attending court proceedings in the event a case is handled in a Federal jurisdiction. Travel expenses would be \$250,000 on an annualized basis. Based upon 3 cases that were recently settled, firms reported to the AG that travel expenses totaled \$0.5 M. The estimated expenses for travel, litigation and outside counsel are based on expenses incurred by firms contracted by the AG's office involving pharmaceutical cases.

The department estimates that litigation and outside counsel expenses will cost \$916,667 (\$250,000 litigation expenses + \$666,667 outside counsel) for the remainder of the fiscal year. Litigation expenses would include, but are not limited to, expert witness fees, court costs, research and deposition costs. Expert witness fees for the last three cases totaled \$3.5 M, an average of \$1.16 M per case. The AG's office would hire outside counsel to be paid at an hourly rate for specialized legal help with the cases. Act 796 states that legal services fees shall not be incurred at a rate of more than \$500 per hour. The annualized cost of these expenses would be approximately \$750,000 for litigation expenses and \$2,000,000 for outside counsel. These figures are based on information received from outside counsel costs associated with pharmaceutical cases prior to Act 796 of 2014.

The department anticipates startup costs of \$1 M, with approximately \$920,000 to be spent on hardware and software. The purchase of this equipment will be needed to increase the IT infrastructure that will be used for discovery purposes. Previously the AG's office did not require the infrastructure since contracted firms had the systems in place or contracted with companies that did have the desired infrastructure. The equipment will be used to enhance the network for storage, enhance the firewall, upgrade the database, modernize video conference and conference room equipment and enhance network security. The remaining acquisitions include laptop computers, tablets and desk phones at a cost of \$77,500.

II. IMPACT ON FUTURE FISCAL YEARS

The total cost for FY 16 and future fiscal years for travel and professional services expenses would be approximately \$3 M annually. However, the cost could increase in the event the department hires additional staff to fully implement Act 796 of 2014. Based on the department's current estimate of 14 positions at a cost of \$1.1 M and associated operating costs of \$950,000, the potential cost for a full year may be \$5.05 M. Funding for future fiscal years would depend on settlements awarded. To the extent the AG does receive settlements that are in excess of \$5 M annually, the cost of these new positions and expenses would be covered through deposits to the DOJ Legal Support Fund. To the extent the fund does not have sufficient resources to cover AG expenses for these certain cases, SGF resources may be needed.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Public Safety

AGENDA NO.: 2

AGENCY: State Police

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement	\$0	0
Interagency Transfers:	\$0	Criminal Investigation	\$0	0
Self-Generated Revenue:	\$0	Operational Support	\$0	0
Statutory Dedications:	\$0	Gaming Enforcement	\$0	0
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This means of finance swap within the Office of State Police is part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces the statutorily dedicated Riverboat Gaming Enforcement Fund in the amount of \$6,000,000 and increases the statutorily dedicated Transportation Trust Fund (TTF-R) by a like amount for the Traffic Enforcement Program. In addition, this proposed BA-7 reduces the statutorily dedicated Riverboat Gaming Enforcement Fund in the amount of \$939,570 and increases the statutorily dedicated Concealed Handgun Permit Fund by a like amount for the Operational Support Program. The net fiscal impact to State Police as a result of these proposed budget changes is \$0. As a result of the swaps, the TTF-R appropriation will increase from \$59.8 M to \$65.8 M, the Riverboat Gaming Enforcement Fund appropriation will decrease from \$41.6 M to \$34.6 M and the Concealed Handgun Permit Fund appropriation will increase from \$2.8 M to \$3.7 M.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

Traffic Enforcement

The MOF swap decreases the Riverboat Gaming Enforcement Fund by \$6 M and increases TTF-R by \$6 M to continue operations within the Traffic Enforcement Program. At the January 29th Revenue Estimating Conference meeting, additional TTF-R revenue was recognized for FY 15. Since the May 2014 REC meeting, TTF-R revenue has increased by \$18.2 M.

The \$6 M reduction of the Riverboat Gaming Enforcement Fund will be utilized in BA-7 #24, which was approved by JLCB on 2/20/15. The \$6 M amount will likely be transferred to the Overcollections Fund to be used by Department of Health & Hospitals - Medical Vendor Payments to offset a portion of the \$32.5 M SGF reduction. The transfer authorization will likely be contained within an upcoming legislative instrument (supplemental appropriations or funds bill) during the 2015 legislative session.

Operational Support

The MOF swap decreases the Riverboat Gaming Enforcement Fund by \$939,750 M and increases the Concealed Handgun Permit Fund by a like amount to continue operations within the Operational Support Program. As of 2/12/2015, the Concealed Handgun Permit Fund currently has cash on hand balance of \$5.6 M. Upon approval of this BA-7, the fund will have a FY 15 projected unappropriated balance of approximately \$3.9 M.

Note: Upon approval of this proposed BA-7, the Riverboat Gaming Enforcement Fund will have an FY 15 projected unappropriated fund balance of \$10.4 M.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

The MOF swap decreases the Riverboat Gaming Enforcement Fund by \$939,750 M and increases the Concealed Handgun Permit Fund by a like amount to continue operations within the Operational Support Program. As of 2/12/2015, the Concealed Handgun Permit Fund currently has cash on hand balance of \$5.6 M. Upon approval of this BA-7, the fund will have a FY 15 projected unappropriated balance of approximately \$3.9 M.

Note: Upon approval of this proposed BA-7, the Riverboat Gaming Enforcement Fund will have an FY 15 projected unappropriated fund balance of \$16.4 M.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Executive

AGENDA NO.: 1

AGENCY: Coastal Protection & Restoration Authority

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Implementation	(\$1,240,775) 0
Interagency Transfers:	\$0		
Self-Generated Revenue:	\$0		
Statutory Dedications:	(\$1,240,775)		
Federal Funds:	\$0		
Total	<u>(\$1,240,775)</u>	Total	<u>(\$1,240,775)</u> 0

I. SUMMARY/COMMENTS

This reduction to the Coastal Protection & Restoration Authority (CPRA) is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces statutorily dedicated funds from the Coastal Protection & Restoration Fund in the amount of \$1,240,775 for the Implementation Program.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

This BA-7 reduces IAT expenditures in the amount of \$1.2 M. The \$1.2 M is excess budget authority that was to be used for Office of Technology Services (OTS) expenditures (approximately \$790,000) and LaGov support (approximately \$450,000). The \$450,000 budgeted for LaGov expenses in FY 15 was not needed as a result of completing the LaGov conversion at the end of FY 14.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE

DEPARTMENT: Executive

AGENDA NO.: 2

AGENCY: Department of Military Affairs

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Military Affairs	\$1,394,617	0
Interagency Transfers:	\$0	Education	\$0	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$1,394,617			
Total	<u>\$1,394,617</u>	Total	<u>\$1,394,617</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is to increase the appropriation of Federal funds for the Department of Military Affairs in the amount of \$1,394,617 as a part of the mid-year deficit reduction plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. A companion in-house BA-7 for a reduction of SGF in the amount of \$1,394,617 will be processed in-house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the Agency totals \$0.

\$1,394,617	JLCB Approval
<u>(\$1,394,617)</u>	OPB Approval
\$0	Total Mid-Year Reduction

The Federal funds are available for Military Affairs to use immediately. At the end of FY 13, Military Affairs had a surplus of Federal funds received via reimbursement for qualifying expenditures through a cooperative agreement with the US Property & Fiscal Office (USPFO). For cash flow purposes, Military Affairs carried this money forward into FY 14, then used it to pay up front for more expenditures which qualified for reimbursement from the Federal government rather than using available SGF in the next fiscal year. Military Affairs repeated this process in FY 15. All funds received via reimbursement from the Federal government are recorded as Federal revenues.

These Federal funds reached an amount of \$1,394,617 in FY 15. Rather than being used to pay only for expenditures that qualify for Federal reimbursement, these funds will be used to cover expenditures in the Operating Services category which Military Affairs previously paid for using SGF. The increase in Federal spending authority is being performed using one-time funds and will not be available in FY 16. Without authority to expend these Federal funds, Military Affairs would not be able to move forward with its FY 15 operations as planned.

II. IMPACT ON FUTURE FISCAL YEARS

The increase of \$1,394,617 in Federal spending authority will not be available beyond FY 15, as it is comprised of one-time funds. To the extent the reduction to SGF (OPB Approval) is annualized, Military Affairs will not be able to fill the gap using these Federal funds and will have an overall budget reduction as a result. Also, reimbursements of Federal funds will be affected. The surplus Federal funds used to pay for expenditures which qualify for Federal reimbursements will fund other expenditures that may not qualify for Federal reimbursement. To the extent the Department of Military Affairs reduces funding for expenditures which qualify for Federal reimbursement, they will see a corresponding reduction in Federal reimbursements in FY 16. Military Affairs currently estimates an anticipated reduction of \$1.1 M between Federal reimbursements as a result of not having a dedicated surplus used solely for Federal expenditures. Lastly, without this surplus of Federal funds to cover cash flows related to expenditures which qualify for Federal reimbursement, Military Affairs will likely request a seed from the Department of Treasury in FY 16 to cover any expenses which qualify for Federal reimbursement.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Executive

AGENDA NO.: 3

AGENCY: LA Commission on Law Enforcement

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Federal Program	\$0	0
Interagency Transfers:	\$0	State Program	(\$239,293)	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	(\$239,293)			
Federal Funds:	\$0			
Total	<u>(\$239,293)</u>	Total	<u>(\$239,293)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the LA Commission on Law Enforcement (LCLE) is being made as apart of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015. to address a reduction in the revenue forecast of \$103.5 M. This BA-7 reduces Statutory Dedications in the amount of \$239,293 for the State Program. The specific reductions are as follows:

(\$124,250) from the Tobacco Tax Health Care Fund: The corresponding expenditure reduction is related to LCLE's Drug Abuse Resistance Education (DARE) Program. The reduction would decrease the budget authority for DARE from \$2,757,618 to \$2,633,368. The average cost of DARE has been \$2,965,755 for an average of 175,264 students over the last 3 fiscal years. However, LCLE appropriations from the Tobacco Tax Health Care Fund were reduced from \$3,042,920 in FY 14 to \$2,757,618 in FY 15 to correspond with the fund's projected revenues. Expenditures to the DARE Program are dependent upon the Tobacco Tax Health Care Fund receiving revenue. LCLE anticipated a potential reduction of pass through grant funds in the amount of \$125,000 at the beginning of the fiscal year and included the reduction in DARE's programmatic costs for FY 15. As a result, no programmatic impacts are expected as a result of this reduction. However, if revenue collections are less than the revised appropriated amount, the DARE Program will be impacted.

(\$115,043) from the Crime Victim Reparations (CVR) Fund: The corresponding expenditure reduction is related to LCLE's Peace Office Standards Training (POST) Program from this statutorily dedicated fund. Based on the POST Program FY 15 appropriation of \$690,000, this reduction would decrease the amount available for the POST program to \$574,957. The average amount spent on the POST Program from the CVR Fund over the last 3 fiscal years is \$512,000 annually with an average of 1,825 trainees annually. Using the historical information available, there is no anticipated programmatic impact as a result of this reduction. The CVR currently has an FY 15 unappropriated fund balance of approximately \$532,000.

No companion BA-7 will be processed in-house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Justice

AGENDA NO.: 4

AGENCY: Attorney General

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0 0
Interagency Transfers:	\$0	Civil Law	(\$1,435,655) 0
Self-Generated Revenue:	(\$335,349)	Criminal Law & Medicaid Fraud	\$0 0
Statutory Dedications:	(\$1,200,306)	Risk Litigation	\$0 0
Federal Funds:	\$0	Gaming	(\$100,000) 0
Total	<u>(\$1,535,655)</u>	Total	<u>(\$1,535,655) 0</u>

I. SUMMARY/COMMENTS

This reduction to the Office of the Attorney General is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGR by \$335,349 and the statutorily dedicated LA Fund by \$1,100,306 for a total reduction in the amount of \$1,435,655 for the Civil Program. In addition, this BA-7 reduces statutorily dedicated funds from the Video Draw Poker Device Fund in the amount of \$100,000 for the Gaming Program. The total agency reduction is \$1,535,655.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

Civil Program

The \$1.4 M reduction decreased Professional Services by \$1.1 M (LA Fund) and Other Charges by \$335,349 (SGR). The \$1.1 M was to be utilized for upgrading software and computer equipment for Tobacco Arbitration. As a result of litigation involving Tobacco Arbitration progressing slower than anticipated, the upgrades are not needed in FY 15, but may be needed in FY 16. The \$335,349 Other Charges reduction is from fees collected for legal expenses associated with boards and commissions since the Attorney General's Office provides legal support to boards and commission within the state.

Gaming Program

The \$100,000 reduction is within each of the following expenditure categories: \$12,000 in Operating Services, \$10,230 in Supplies, \$40,000 in Professional Services, \$5,000 in Other Charges and \$32,770 in Interagency Transfers. Operating Services will be reduced \$12,000 in mail and postage and Supplies will be reduced \$10,230 in fuel expenses. A Professional Services contract with the Taylor Porter Law Firm will be reduced by \$40,000 and Other Charges will be reduced \$5,000 for copies, court fees and other court costs. Interagency Transfers will be reduced by \$15,098 for Risk Management expenses and \$17,672 for telephone expenses.

II. IMPACT ON FUTURE FISCAL YEARS

To the extent the \$1.1 M reduction from the LA Fund is annualized in the FY 16 Budget, the computer upgrades will not take place and Tobacco Arbitration may be affected.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

February 20, 2015

**LEGISLATIVE FISCAL OFFICE

Approved By JLCB**

DEPARTMENT: Treasury

AGENDA NO.: 5

AGENCY: State Treasurer

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Administrative	(\$19,286) 0
Interagency Transfers:	(\$39,955)	Financial Accountability & Control	(\$30,816) 0
Self-Generated Revenue:	(\$451,147)	Debt Management	(\$441,000) 0
Statutory Dedications:	\$0	Investment Management	\$0 0
Federal Funds:	\$0		
Total	<u>(\$491,102)</u>	Total	<u>(\$491,102)</u> 0

I. SUMMARY/COMMENTS

This reduction to the State Treasury is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGR in the amount of \$451,147 and IAT in the amount of \$39,955.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

The most significant reduction will impact the Debt Management Program in the amount of \$441,000. According to State Treasury, reductions will impact general network and website support, court reporting services for the Bond Commission meetings, software maintenance, acquisitions and renegotiating the current contract with Lamont. Lamont is currently the state's financial advisor with a current total contract value of \$550,000.

In addition, State Treasury anticipates renegotiating the state's Central Banking Services contract (Chase Bank) that will result in anticipated current year expenditure savings in the amount of \$30,816. Chase Bank holds all the state's bank accounts. Acquisitions are being reduced within the Administrative Program in the amount of \$19,286.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

AGENDA NO.: 8

AGENCY: Commissioner of Insurance

ANALYST: Alan M. Boxberger

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Administrative & Fiscal	(\$444,783) (1)
Interagency Transfers:	\$0	Market Compliance	(\$939,152) (6)
Self-Generated Revenue:	(\$1,308,368)		
Statutory Dedications:	(\$75,567)		
Federal Funds:	\$0		
Total	<u>(\$1,383,935)</u>	Total	<u>(\$1,383,935)</u> <u>(7)</u>

I. SUMMARY/COMMENTS

This reduction to the Department of Insurance is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGR in the amount of \$444,783 for the Administrative Program, and reduces the total appropriation for the Market Compliance Program by \$939,152 (\$863,585 SGR and \$75,567 Statutory Dedications).

The proposed reductions will impact the following expenditure categories:

<u>Administrative Program</u>	(\$444,783 SGR)
Salaries	(\$30,000)
Related Benefits	(\$21,188)
Professional Services	(\$294,095)
Interagency Transfers (IAT)	(\$99,500)
T.O. Positions	(1)

The reduction to professional services eliminates budget authority for software upgrades that will be delayed until funds are available. The IAT expenditures are associated with payments to the Secretary of State for microfilming and archiving documents. The department reports it will delay microfilming current year documents until funds are available.

The department reports that it anticipates eliminating 1 as-of-yet unidentified vacant administrative position.

<u>Market Compliance Program</u> -	(\$863,585 SGR, \$23,084 Statutory Dedications - Insurance Fraud Investigation Fund, \$41,956 Statutory Dedications - Administrative Fund of the Department of Insurance, \$10,527 Statutory Dedications - Automobile Theft and Insurance Fraud Prevention Authority Fund)
Salaries	(\$304,901)
Related Benefits	(\$170,539)
Professional Services	(\$453,185)
Other Charges	(\$10,527)
T.O. Positions	(6)

The reduction to professional services will eliminate some planned accounting and auditing contracts examining insurance firms as well as contract legal services. The department reports it will prioritize activities and utilize internal resources to the degree possible given its remaining budget allocation.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

The department reports that it anticipates eliminating the following vacant positions but that given job titles eliminated may be subject to change based on need: 2 Insurance Supervisors, 2 Insurance Specialists, 1 Insurance Tech, and 1 Attorney.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

II. IMPACT ON FUTURE FISCAL YEARS

The department will be delaying IT software upgrades, microfilming and other activities that will require completion at an unspecified point in a subsequent fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>(\$17,500)</u>	Total	<u>(\$17,500)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the Office of the Secretary is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a \$103.5 M reduction in the revenue forecast for FY 15. The BA-7 reduces \$17,500 in SGR to the LA Seafood Promotion & Marketing Board (LSPMB).

A companion BA-7 in the amount of \$95,570 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the Office of the Secretary totals \$113,070.

(\$17,500)	JLCB Approval
<u>(\$95,570)</u>	OPB Approval
(\$113,070)	Total Mid-Year Reduction

This reduction will remove funding from the BP settlement required to pay for operations of the LSPMB. Reductions will curb the ability of the Board to perform outreach activities promoting the safety of LA seafood inside and outside of the state. In FY 11 the Board was given \$30 M from BP in response to the oil spill with the condition that the funding be used for seafood promotion.

In FY 13, the Board was transferred to the Department of Culture, Recreation & Tourism in an effort to rehabilitate the reputation of LA seafood products in national and international markets. Outreach programs from the Board have decreased in frequency over the past few years. There are currently \$331,718 of these funds remaining.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request assuming it meets the terms of the agreement between BP and the Department of Culture, Recreation & Tourism.

LEGISLATIVE FISCAL OFFICE

Approved By JLCB

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 10

AGENCY: State Library

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Library Services	(\$4,500)	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	(\$4,500)			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>(\$4,500)</u>	Total	<u>(\$4,500)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the Office of the State Library is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a \$103.5 M reduction in the revenue forecast for FY 15. The BA-7 reduces \$4,500 in SGR to the Library Services Program.

A companion BA-7 in the amount of \$234,506 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the Office of the State Library totals \$239,006.

(\$4,500)	JLCB Approval
<u>(\$234,506)</u>	OPB Approval
<u>(\$239,006)</u>	Total Mid-Year Reduction

Reductions associated with this BA-7 will impact many programs. Among the impacts would be the reduction of IT services provided by the State Library in the form of payment for internet services for 340 local branches, potentially limiting internet access to the general public. Additional impacts to local branches would include reducing the funding for the interlibrary loan program as well as ending subscriptions to certain database services and reference materials. Loss of funding for the interlibrary loan program may slow the transfer of requested books from one library to another, negatively impacting the public's ability to access desired reading materials. The subscription cancellation to various reference materials may also negatively impact the ability of the public to research topics of interest as well as those required for scholastic assignments. The only cancellation State Library has enacted so far is for Learning Express, an educational program designed to teach students how to use popular software like Microsoft Word and Adobe PDF creator. State Library will also lay off 5 filled positions and not fill one vacant position for the rest of the fiscal year while retaining their T.O. as unfunded positions. Lastly, in response to all of the reductions listed above, the State Library will only be open 2 days per week, severely limiting access to citizens. The State Library was unable to provide a detailed list of expenditure reductions resulting from the BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

<u>(\$212,486)</u>	OPB Approval
(\$298,366)	Total Mid-Year Reduction

These reductions will impact operating services for state museums typically in the form of decreased utility usage, which will result in shortened hours of operation for all 9 museums throughout the state. This BA-7 also reduces the contract with the Louisiana Political Hall of Fame by \$25,000. The initial value of the contract was \$100,000 and funded as a pass through to help pay for salaries, related benefits, utilities and phone services for the Hall of Fame. The specific impact of the contract reduction is unknown at this time, but reductions in hours of operation are expected.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

February 20, 2015

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 12

AGENCY: State Parks

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	(\$253,630)	Parks & Recreation	(\$672,116)	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	(\$418,486)			
Federal Funds:	\$0			
Total	(\$672,116)	Total	(\$672,116)	0

I. SUMMARY/COMMENTS

This reduction to the Office of State Parks is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a \$103.5 M reduction in the revenue forecast for FY 15. The BA-7 reduces \$418,486 in Statutory Dedications funds from the LA State Parks Improvement & Repair Fund and reduces SGF in the amount of \$253,630.

A companion BA-7 in the amount of \$849,712 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the agency is \$1,521,828.

Reductions include the elimination of all 22 job appointments, 66 When Actually Employed (WAE) positions and 15 probationary employees. In total, 106 positions will be eliminated from State Parks, which will likely result in 319 existing TO positions performing tasks such as cleaning, fee collecting, lifeguard duty, and minor repairs. Loss of these positions will result in statewide pool closures and reduction to operating hours for state parks as well as the closing of 3 historical sites throughout the state. The sites to be closed are Fort Pike in New Orleans, Plaquemine Lock in Plaquemine Parish, and the Marksville Indian Mound in Avoyelles Parish. Also, travel, supplies, training, promotions, interpretative programs, acquisitions and major repairs will be reduced. In addition, the proposed BA-7 reduces \$418,486 from the State Parks Repair & Improvement Fund which will further delay park repairs that have been backlogged as the fund has been swept for multiple fiscal years. CRT's current deferred maintenance for State Parks is estimated to be \$21 M.

Below is a list of the affected parks and the classification of positions lost:

Probational Appointment is the appointment of a person to serve during working test period in a position.

Job Appointment is a non-permanent appointment of an employee to fill a position in the classified service for a limited period of time.

When Actually Employed (WAE) positions serve on a part-time intermittent basis.

Permanent Appointment is a classified employee upon the successful completion of his probationary period.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0		
Federal Funds:	\$0		
Total	<u>(\$6,200)</u>	Total	<u>(\$6,200)</u> 0

I. SUMMARY/COMMENTS

This reduction to the Office of Cultural Development is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a \$103.5 M reduction in the revenue forecast for FY 15. The BA-7 reduces \$6,200 in SGR for various cultural development projects.

A companion BA-7 in the amount of \$105,867 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the Office of the Secretary totals \$112,067.

(\$6,200)	JLCB Approval
<u>(\$105,867)</u>	OPB Approval
(\$112,067)	Total Mid-Year Reduction

Reductions from this BA-7 will remove funding to purchase a vehicle for the Council for the Development of French in LA (CODOFIL) as well as eliminating a contract with the National Main Street Center in addition to travel and operating services. The National Main Street Center is an organization that provides training and education to Main Street communities in order to better market their towns to generate tourism revenue. Cultural Development had formed a scholarship program that would pay for community officials to attend the training free of charge. The CODOFIL vehicle was to be purchased to replace an older service vehicle that had been used past recommended usage. The original source of the SGR is the Historic Preservation fund (\$4,151) and CODOFIL (\$2,049).

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This reduction to the Engineering & Operations Agency is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces Statutory Dedications funds from the Transportation Trust Fund-Regular in the amount of \$2,071,000 for the District Operations Program.

The proposed reductions will reduce the Supplies expenditure category. DOTD reports that it will have sufficient supplies to cover needs through the remainder of the fiscal year utilizing remaining budget authority and existing stockpiles of highway maintenance materials (culverts, pilings, bridge materials, etc.).

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

II. IMPACT ON FUTURE FISCAL YEARS

DOTD reports that this action will deplete a significant portion of its supply stockpiles. The department will need to replace supplies next year that are not ordered and stockpiled in the current fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This reduction to the David Wade Correctional Center is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGF in the amount of \$17,695 for the Forcht-Wade Correctional Center.

A companion BA-7 in the amount of \$896,033 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the agency totals \$913,728.

(\$17,695)	JLCB Approval
<u>(\$896,033)</u>	OPB Approval
(\$913,728)	Total Mid-Year Reduction

This reduces excess unemployment funding associated with the Forcht Wade Correctional Center. The facility closed in July 2012. The unemployment benefits were paid for 52 weeks and ended in June 2013. This funding was the original amount budgeted to pay for unemployment at the Forcht-Wade Correctional Center and was not removed from the budget in FY 14 and FY 15. This funding was being used to offset underfunded needs for utilities (\$285,000) and supplies (\$175,000) at the facility, as well as unemployment costs for that facility that were not budgeted (\$47,000).

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Total	<u>(\$120,000)</u>	Total	<u>(\$120,000) 0</u>

I. SUMMARY/COMMENTS

This reduction to the Office of Management & Finance is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGR in the amount of \$120,000 for the Management & Finance Program.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

The SGR is derived from the Office of Motor Vehicle fees. Of the \$120,000 reduction, \$24,000 is a contract with Westaff for temporary staffing that has been canceled. The remaining \$96,000 reduction is a contract with the Long Law Firm. The original contract amount was for approximately \$146,000 and will now be approximately \$50,000. The department anticipates spending \$50,000 in legal expenses for the year.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
DEFERRED By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 18

AGENCY: State Police

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>	
State General Fund:	\$0	Traffic Enforcement	\$0	0
Interagency Transfers:	\$0	Criminal Investigation	\$0	0
Self-Generated Revenue:	\$0	Operational Support	\$0	0
Statutory Dedications:	\$0	Gaming Enforcement	\$0	0
Federal Funds:	\$0			
Total	\$0	Total	\$0	0

I. SUMMARY/COMMENTS

This means of finance swap within the Office of State Police is part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces the statutorily dedicated Riverboat Gaming Enforcement Fund in the amount of \$6,000,000 and increases the statutorily dedicated Transportation Trust Fund (TTF-R) by a like amount for the Traffic Enforcement Program. In addition, this proposed BA-7 reduces the statutorily dedicated Riverboat Gaming Enforcement Fund in the amount of \$939,570 and increases the statutorily dedicated Concealed Handgun Permit Fund by a like amount for the Operational Support Program. The net fiscal impact to State Police as a result of these proposed budget changes is \$0. As a result of the swaps, the TTF-R appropriation will increase from \$59.8 M to \$65.8 M, the Riverboat Gaming Enforcement Fund appropriation will decrease from \$41.6 M to \$34.6 M and the Concealed Handgun Permit Fund appropriation will increase from \$2.8 M to \$3.7 M.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

Traffic Enforcement

The MOF swap decreases the Riverboat Gaming Enforcement Fund by \$6 M and increases TTF-R by \$6 M to continue operations within the Traffic Enforcement Program. At the January 29th Revenue Estimating Conference meeting, additional TTF-R revenue was recognized for FY 15. Since the May 2014 REC meeting, TTF-R revenue has increased by \$18.2 M.

The \$6 M reduction of the Riverboat Gaming Enforcement Fund will be utilized in BA-7 #24. The \$6 M amount will likely be transferred to the Overcollections Fund to be used by Department of Health & Hospitals - Medical Vendor Payments to offset a portion of the \$42.9 M SGF reduction. The transfer authorization will likely be contained within an upcoming legislative instrument (supplemental appropriations or funds bill) during the 2015 legislative session.

Operational Support

The MOF swap decreases the Riverboat Gaming Enforcement Fund by \$939,750 M and increases the Concealed Handgun Permit Fund by a like amount to continue operations within the Operational Support Program. As of 2/12/2015, the Concealed Handgun Permit Fund currently has cash on hand balance of \$5.6 M. Upon approval of this BA-7, the fund will have a FY 15 projected unappropriated balance of approximately \$3.9 M.

Note: Upon approval of this proposed BA-7 and proposed BA-7 #20, the Riverboat Gaming Enforcement Fund will have an FY 15 projected unappropriated fund balance of \$10.4 M.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

Interagency Transfers:	\$0		
Self-Generated Revenue:	(\$134,746)		
Statutory Dedications:	\$0		
Federal Funds:	\$0		
Total	<u>(\$134,746)</u>	Total	<u>(\$134,746)</u> 0

I. SUMMARY/COMMENTS

This reduction to the Office of State Fire Marshal is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGR in the amount of \$134,746 for the Fire Prevention Program.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

The \$134,746 amount is being reduced from Other Charges - Aid to Local Governments. According to the State Fire Marshal, the reduction will not affect current local projects. Aid to local governments is assistance to local fire departments which can include reimbursement for planning of new fire stations, equipment and other assistance. This amount is currently unobligated funding. There is \$1,754,652 budgeted for FY 15 for Aid to Local Governments. The number and cost of projects vary from year to year. There are currently 7 projects with costs ranging from \$25,000 to \$500,000.

II. IMPACT ON FUTURE FISCAL YEARS

According to the State Fire Marshal, the Aid to Local Governments will likely be reduced in the FY 16 budget in the amount of \$540,000 to \$1,214,652 (\$1,754,652 FY 15 budgeted - \$540,000 FY 16 reduction). The reduction may limit the number of projects at the local level or the size of projects entered into at the local level.

I. SUMMARY/COMMENTS

This reduction to the Office of Juvenile Justice (OJJ) is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGF in the amount of \$2,471,838 for the Contract Services Program.

A companion BA-7 in the amount of \$1,582,162 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the Office of Juvenile Justice totals \$4 M.

(\$2,471,838)	JLCB Approval
<u>(\$1,528,162)</u>	OPB Approval
(\$4,000,000)	Total Mid-Year Reduction

The budget is being reduced in the amount of \$4 M from contract authority. OJJ was slated to transfer \$4 M to DHH-Medical Vendor Payments (DHH-MVP) for the Coordinated System of Care (CSoC). CSoC is an initiative that was implemented in FY 12 that involves 4 child-serving agencies (DHH, DCFS, OJJ and DOE), along with families, youth and other partners to better streamline and coordinate public behavioral health services for children who are either in or at risk of being placed out-of-home. The transfer of funds from OJJ to DHH-MVP was to be used to leverage federal and state dollars to provide behavioral and mental health treatment to youth in need of services in order to prevent those youth from progressing into the criminal justice system or out of home placement. The State Management Organization (SMO) is charged with determining Medicaid eligibility and manages billing for these services. Although OJJ is not billed directly for services provided historically or currently, they are obligated to make payments for this purpose. However, OJJ has not made the transfer of payments to DHH-MVP since FY 12 due to budgetary challenges and limitations; therefore, DHH-MVP is absorbing these costs.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

The BA-7 reduces SGF in the amount of \$155,899.

A companion BA-7 in the amount of \$872,901 will be processed in-house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the agency totals \$1,028,800.

(\$155,899)	JLCB Approval
<u>(\$872,901)</u>	OPB Approval
(\$1,028,800)	Total Mid-Year Reduction

MHSD reports that it will eliminate 2 unspecified, vacant other charges positions in the current fiscal year. Additional savings will be realized by delaying implementation of unspecified contracts as well as reducing or realigning various contract expenditures based on year-to-date expenditures.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Health & Hospitals

AGENDA NO.: 24

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$40,506,438	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$40,506,438	Uncompensated Care Costs	\$0	0
Federal Funds:	\$0			
Total	<u>\$40,506,438</u>	Total	<u>\$40,506,438</u>	<u>0</u>

I. SUMMARY/COMMENTS

This increase in revenue to Medical Vendor Payments (MVP) is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 increases Statutory Dedications in the amount of \$40,506,438. The source of Statutory Dedication includes various revenue sources projected to be collected in the Overcollections Fund. The specific sources that will be deposited into the Overcollections Fund include 1) \$11,100,000 in SGR from the LA Department of Revenue; 2) \$13,206,438 in available fund balance from the Telephone Company Property Assessment Relief Fund; 3) \$8 M from the DEQ Motor Fuels Underground Tank Fund; and 4) \$8,200,000 in Riverboat Gaming Enforcement Fund. This revenue will be utilized to offset a larger reduction in SGF in Medical Vendor Payments.

A companion BA-7 reducing \$42,925,118 in SGF will be processed in house by the Office of Planning & Budget under the Governor's Executive authority. The full mid-year impact to the MVP is a net reduction of \$2,418,680.

(\$42,925,118)	SGF Reduction (OPB Approval)
<u>\$40,506,438</u>	Statutory Dedication Increase (JLCB Approval)
(\$2,418,680)	Net Mid-Year Reduction

The net reduction to MVP (Medicaid) will result in elimination of Disproportionate Share Hospital (DSH) payments for uncompensated care costs to eligible hospitals with Medical Emergency Room Extension (MHERE) programs, and a reduction in supplemental Medicaid payments to eligible Major Teaching hospitals related to extraordinary costs incurred for Medicaid patients diagnosed with hemophilia.

(\$2,305,190)	SGF reduction for MHERE DSH payments (approx. \$6 M total payment impact)
<u>(\$113,490)</u>	SGF reduction for supplemental claims payments to hospitals with hemophilia expenses (\$300 K total impact)
(\$2,418,680)	

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>(\$13,354)</u>	Total	<u>(\$13,354)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the LA Emergency Response Network Board (LERN) is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGF in the amount of \$13,354 for LERN.

A companion BA-7 reducing Federal funds by \$43,320 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the agency totals \$56,674.

(\$13,354)	JLCB Approval
<u>(\$43,320)</u>	OPB Approval
(\$56,674)	Total Mid-Year Reduction

Summary of reductions:

Travel	\$3,500
Operating Services	\$4,550
Supplies	\$4,300
Professional Services	<u>\$44,324</u>
Total	\$56,674

The total reduction of \$56,674 represents reductions of approximately 6% in travel, 2% in operating services, 17% in office supplies, and less than 1% in professional services. The reduction in operating services are advertising, printing, pest control, maintenance, waste disposal, dues and subscriptions. The reduction in professional services includes contracts for legal and consulting services, a trauma medical director and education.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	(\$259,861)	Acadiana Area Human Services District	(\$259,861)	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>(\$259,861)</u>	Total	<u>(\$259,861)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the Acadiana Area Human Services District (AAHSD) is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGF in the amount of \$259,861.

A companion BA-7 in the amount of \$543,191 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the agency totals \$803,052.

(\$259,861)	JLCB Approval
<u>(\$543,191)</u>	OPB Approval
(\$803,052)	Total Mid-Year Reduction

AAHSD reports that it will realize savings through attrition (unfilled vacant positions), the executive order spending freeze, reducing unspecified social service contracts, decreasing use of professional service contracts and realigning revenue sources.

Note: AAHSD indicates it may be able to leverage additional federal dollars through the Low-Income and Needy Care Collaboration Agreement (LINCCA) Program in order to offset some of the proposed reductions. While AAHSD references realigning unspecified revenue sources and attempting to draw additional federal match to offset reductions, those changes are not reflected in this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

This reduction to the Department of Children & Family Services (DCFS) is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces Federal funds in the amount of \$6,757 for the Administrative & Executive Support Program and \$278,466 for the Community & Family Services Program.

A companion BA-7 reducing Federal funds by \$146,932 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority. The full mid-year reduction to the department totals \$432,155.

(\$285,223) JLCB Approval
(\$146,932) OPB Approval
(\$432,155) Total Mid-Year Reduction

Summary of reductions:

Other Compensation	\$ 3,481 SGF and \$ 6,757 Federal = \$ 10,238
Other Charges	\$143,451 SGF and \$278,466 Federal = \$421,917
Total	\$146,932 SGF and \$285,223 Federal = \$432,155

Other Compensation – The department is reducing two vacant student worker positions for the remaining 5 months of the fiscal year.

Other Charges – The department is reducing administrative costs for child support enforcement services (\$60,118 SGF and \$116,701 Federal) as well as reducing contracted services associated with medical support orders (\$83,333 SGF and \$161,765 Federal). The contract for medical support orders is with Arkansas Medical Support Services Consortium. The contractor identifies support enforcement cases where health insurance coverage is available to dependent children through a parent's employer and enrolls the dependent children into the identified health plan. The department will continue to utilize the contractor to identify available health insurance coverage but will use existing staff to complete the enrollment process.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

AGENCY: Office of Secretary

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>	
State General Fund:	\$0	Executive	\$0	0
Interagency Transfers:	\$0	Management & Finance	(\$17,604)	0
Self-Generated Revenue:	\$0	Technology Assessment	\$0	0
Statutory Dedications:	(\$17,604)	Atchafalaya Basin	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>(\$17,604)</u>	Total	<u>(\$17,604)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the Office of the Secretary is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a \$103.5 M reduction in the revenue forecast for FY 15. The BA-7 reduces \$17,604 from the statutorily dedicated Fisherman's Gear Compensation Fund in the amount of \$17,604 for the Management & Finance Program.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

This reduction will impact the ability of DNR to pay fishermen from the Fisherman's Gear Compensation Fund. The Fisherman's Gear Compensation Fund allows fishermen who have lost lost equipment due to collisions with underwater oil pipelines and tools to request reimbursement from DNR for said equipment after providing proper documentation of ownership. This could negatively impact sportsmen who lose gear in this manner as there is no recourse for them to be reimbursed for the gear that was destroyed. This amount also represents the remaining portion of a 5% cut to the Fisherman's Gear Compensation Fund as \$14,037 was reduced in the first deficit plan. The total 5% reduction for this fund is \$31,641.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

AGENDA NO.: 31

AGENCY: Mineral Resources

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Mineral Resources Management	(\$357,455) 0
Interagency Transfers:	\$0		
Self-Generated Revenue:	\$0		
Statutory Dedications:	(\$357,455)		
Federal Funds:	\$0		
Total	<u>(\$357,455)</u>	Total	<u>(\$357,455)</u> 0

I. SUMMARY/COMMENTS

This reduction to the Office of Mineral Resources is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a \$103.5 M reduction in the revenue forecast for FY 15. The BA-7 reduces statutorily dedicated funds from the Mineral & Energy Operations Fund in the amount of \$357,455 for Mineral Resources Management Program.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

This represents a reduction from the Mineral & Energy Operations Fund for the following expenditures: Other Compensation (\$10,000), Professional Services (\$200,000), and Other Charges (\$147,455). Other Compensation impacts student employment in Lease Management and Desk Audit activities. These duties will likely be performed by remaining staff. Professional Services reduction impacts the Lease Management activity. The majority of this funding is used to pay legal fees associated with disputed ownership, 16th Section educational funding*, and royalty payoffs. These legal services have not been expended and the department is uncertain when cases will be filed. Thus, the specific fiscal impact of this reduction is indeterminable. Other Charges also impacts the Lease Management activity and may impact the ability to maintain the SONRIS software system. The SONRIS system is used by the department and the oil and gas industry extensively for reporting and analysis of mineral revenues and activity.

***Note:** 16th Section educational funding is funding provided by mineral rights from land owned by a school district. The royalties from the land owned by the school district are given to the local school board to be spent as needed within the school district.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Tax Collection	(\$1,379,142) 0
Interagency Transfers:	\$0	Alcohol & Tobacco Control	(\$879,426) 0
Self-Generated Revenue:	(\$2,258,568)	Charitable Gaming	\$0 0
Statutory Dedications:	\$0		
Federal Funds:	\$0		
Total	<u>(\$2,258,568)</u>	Total	<u>(\$2,258,568)</u> 0

I. SUMMARY/COMMENTS

This reduction to the Department of Revenue is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5M for FY 15. The BA-7 reduces SGR by \$1,379,142 for the Tax Collection Program and \$879,426 for the Alcohol & Tobacco Control Program.

The Tax Collection Program reduction represents a 1.3% decrease in spending authority and will be absorbed mainly through attrition, delaying hiring outside of the existing hiring freeze, centralizing supply purchases within the agency, as well as reducing the allowable funding for future contractual agreements. The reduction to the Office of Alcohol & Tobacco Control (ATC) represents a 13.8% reduction to the current total appropriation and 18.1% reduction in the SGR appropriation. If this proposed BA-7 is approved, ATC will have experienced a 25% reduction in its FY 15 budget with adjustments in conference travel, anticipated litigation expenses, software acquisitions and vacant positions in the Lake Charles area.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year expenditure reduction.

Note: The Department of Revenue will also be required to transfer \$11.1 M in SGR for use in the DHH budget to alleviate mid-year reductions (agenda item #24). Those funds are in addition to this BA-7 and are not considered in this write-up.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

DEPARTMENT: Environmental Quality

AGENDA NO.: 33

AGENCY: Environmental Compliance

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Environmental Compliance	(\$1,195,000) 0
Interagency Transfers:	\$0		
Self-Generated Revenue:	\$0		
Statutory Dedications:	(\$1,195,000)		
Federal Funds:	\$0		
Total	<u>(\$1,195,000)</u>	Total	<u>(\$1,195,000)</u> 0

I. SUMMARY/COMMENTS

This reduction to the Office of Environmental Compliance is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces statutorily dedicated funds from the Environmental Trust Fund in the amount of \$1,195,000 for the Office of Environmental Compliance.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

This reduction includes \$185,000 in savings per Executive Order BJ 2014-16, Executive Branch Expenditure Freeze with savings taken from operating services (\$150,000) and supplies (\$35,000). The reduction also includes reductions in contracts (\$1,010,000) for unused lab analysis contracts with 9 vendors (\$900,000) and elimination of matching funds (\$110,000) for an EPA Hurricane Katrina grant that is completed. LDEQ forecasts that the Environmental Trust Fund will have a balance of approximately \$10.7 M at the end of FY 15 after application of these mid-year reductions.

With the reductions above, DEQ's budget is equal to the average over the last three years, plus 10%. After these reductions, DEQ is able to fund the anticipated day-to-day operational needs of the department. However, DEQ reports that it will not have adequate funding to respond in a timely basis to an unanticipated environmental emergency such as the following that have occurred: Hurricane Katrina (2005), Hurricane Rita (2005), Hurricane Gustav (2008), Hurricane Ike (2008), Deepwater Horizon oil spill (2010), Temple-Inland fish kill (2011), and Bayou Corne sinkhole (2012). When environmental emergencies such as these occur, DEQ's response costs typically exceed 10% of the agency's budget. However, DEQ does not anticipate any impacts from elimination of the matching funds (\$110,000) for the EPA Hurricane Katrina grant that is completed.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0			
Total	<u>(\$27,057)</u>	Total	<u>(\$27,057)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the Office of Environmental Services is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces statutorily dedicated funds from the Environmental Trust Fund in the amount of \$27,057 for the Office of Environmental Services.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

The purpose of this BA-7 is to decrease statutorily dedicated funds from the Environmental Trust Fund by \$27,057 to address a midyear budget shortfall. This reduction is from savings per Executive Order BJ 2014-16, Executive Branch Expenditure Freeze with savings taken from travel (\$5,000), operating services (\$5,000) supplies (\$9,400), and state OTM/printing (\$7,657). LDEQ reports that these reductions will not have significant operational impacts to the department. LDEQ forecasts that the Environmental Trust Fund will have a balance of approximately \$10.7 M at the end of FY 15 after application of these mid-year reductions.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Total	<u>(\$1,309,833)</u>	Total	<u>(\$1,309,833)</u> 0

I. SUMMARY/COMMENTS

This reduction to the Office of Management & Finance is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces statutorily dedicated funds from the following funds for the Office of Management & Finance: Environmental Trust Fund (\$277,943), the Motor Fuels Underground Tank Fund (\$709,714) and the Waste Tire Management Fund (\$322,176).

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

The reduction from the Environmental Trust Fund (\$277,943) is from savings per Executive Order BJ 2014-16, Executive Branch Expenditure Freeze from operating services (\$250,000) and supplies (\$27,943). LDEQ reports that these reductions will not have significant operational impacts to the department. LDEQ forecasts that the Environmental Trust Fund will have a balance of approximately \$10.7 M at the end of FY 15 after application of these midyear reductions.

LDEQ reports that the reduction of \$709,714 to the Motor Fuels Underground Storage Tank Trust Fund may reduce resources for remediation of leaking underground motor fuel storage tanks. This reduction is in addition to a previous midyear cut of \$473,142. Fund revenues are derived from a fee imposed on the first sale of bulk motor fuel and from an annual fee per tank on owners of underground tanks storing new or used motor oil. LDEQ uses the fund to reimburse program participants for costs to remediate sites contaminated by leakage of motor fuels. This budget reduction is not likely to have an impact in FY 15 because the fund had unobligated balance of \$10.2 M on 12/31/2014 (latest date available). However, LDEQ reports that the fund acts as an insurance pool to fund remediation costs for leaking storage tanks and the fund may face a shortfall in the future due to this reduction.

LDEQ also reports that the reduction of \$322,176 in the Waste Tire Management Fund will decrease resources to pay waste tire processors. This reduction is in addition to a previous midyear cut of \$226,785. These revenues are derived from fees paid from new and used tire sales. Based on both mid-year reductions, LDEQ projects that the Waste Tire Management Fund will be short by approximately \$365,000 by the end of FY 15 and will owe this amount to waste tire processors for tires that have already been processed. LDEQ prorates payments to waste tire processors in months when cash is not available in the fund.

II. IMPACT ON FUTURE FISCAL YEARS

The reduction of \$709,714 to the Motor Fuels Underground Storage Tank Trust Fund may reduce resources for remediation of leaking underground motor fuel storage tanks in future fiscal years. The mid-year reductions will leave less cash in the Waste Tire Management Fund going into FY 16 and make the fund more susceptible to monthly shortfalls and prorated payments to waste tire processors in the future.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

February 20, 2015

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Workforce Commission

AGENDA NO.: 36

AGENCY: Workforce Support & Training

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive Director	\$0	0
Interagency Transfers:	\$0	Management & Finance	\$0	0
Self-Generated Revenue:	\$0	Information Systems	\$0	0
Statutory Dedications:	(\$329,467)	Workforce Development	\$0	0
		Unemployment Insurance Administration	\$0	0
Federal Funds:	\$0	Workers Compensation Administration	(\$329,467)	0
Total	<u>(\$329,467)</u>	Total	<u>(\$329,467)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the LA Workforce Commission (LWC) is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces Statutory Dedications in the amount of \$329,467 for the Office of Worker's Compensation Administration.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

LWC did not renew a contract with the SAS Institute for information technology services in the Office of Worker's Compensation once the contract had ended in August 2014. The contract created a statewide SAS fraud detection system to assist in collecting unemployment insurance taxes, plus penalties and interest. In FY 15, LWC had budgeted \$568,183 for the SAS contract. No funds were expended for this purpose in FY 15. The remaining balance of the SAS contract was reduced as part of the first mid year deficit elimination plan offered by the Division of Administration in December 2014; therefore no funding remains in FY 15 for the contract. This represents a decrease of approximately 2% from the Office of Workers' Compensation Administrative Fund statutory dedication.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 37

AGENCY: Office of Wildlife

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Wildlife	(\$1,821,250) 0
Interagency Transfers:	\$0		
Self-Generated Revenue:	\$0		
Statutory Dedications:	(\$1,821,250)		
Federal Funds:	\$0		
Total	<u>(\$1,821,250)</u>	Total	<u>(\$1,821,250)</u> 0

I. SUMMARY/COMMENTS

This reduction to the Office of Wildlife is being made as part of the mid-year deficit elimination program offered by the Division of Administration on 2/6/2015 to address a \$103.5 M reduction in the revenue forecast for FY 15. This BA-7 reduces Statutory Dedications funds in the amount of \$1,821,250 from the Conservation Fund.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

This reduction represents a loss in funding allotted for land acquisition in cases of purchases needed to be made on short notice. These funds can be accessed from the Conservation Fund by Wildlife to make land purchases that arise from favorable situations or in instances of urgent need. After the reduction, \$928,750 remains from Statutory Dedications in the Conservation Fund with another \$3.75 M in matching federal funding, leaving a remaining balance of \$4.7 M.

II. IMPACT ON FUTURE FISCAL YEARS

The Legislative Fiscal Office anticipates that these reductions will be annualized in the FY 16 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

DEPARTMENT: Other Requirements

AGENDA NO.: 38

AGENCY: LED Debt Service / State Commitments

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	(\$221,080)	LED Debt Service	(\$221,080) 0
Interagency Transfers:	\$0		
Self-Generated Revenue:	\$0		
Statutory Dedications:	\$0		
Federal Funds:	\$0		
Total	<u>(\$221,080)</u>	Total	<u>(\$221,080) 0</u>

I. SUMMARY/COMMENTS

This reduction to LED Debt Service/Commitments is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces SGF in the amount of \$221,080 for LED Debt Service & Commitments.

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

LED Debt Service and State Commitments fund economic development projects throughout the state. The LA Department of Economic Development (LED) will offset the \$221,080 mid-year reduction with a \$1.5 M SGR payment from the City of Baton Rouge for IBM that is due in June 2015. This payment of \$1.5 M in SGR was not included in the FY 15 budget and the DOA/LED intends to seek appropriation of these funds in the Supplemental Bill to replace the \$221,080 in SGF reduced by this BA-7. LED will use alternative means of finance to make LED Debt Service & State Commitment payments related to the \$221,080 mid-year reduction if the department receives payment requests prior to receiving the IBM payment in June 2015. LED will credit these alternative means of finance after receiving the IBM payment. The remaining \$1,278,920 from Baton Rouge for IBM (\$1,500,000 - \$221,080 = \$1,278,920) will be available for appropriation to LED in FY 16 through the appropriations bill.

II. IMPACT ON FUTURE FISCAL YEARS

The remaining balance of \$1,278,920 from an unappropriated payment of \$1.5 M to be received in June of 2015 from the City of Baton Rouge for IBM will be available for appropriation to LED in FY 16 through the appropriations bill. As stated in the Summary/Comments, LED plans to use \$221,080 of the \$1.5 M to offset the \$221,080 in midyear cuts in this BA-7. As such, LED will need to find an alternative source of funding for the \$221,080 for IBM in FY 16 since these funds were used to offset the mid-year cut.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Capital Outlay Cash

AGENDA NO.: 39

AGENCY: DOTD-Capital Outlay / Non-State

ANALYST: Alan M. Boxberger

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	DOTD-Capital Outlay / Non-State	(\$14,580,498)	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	(\$14,580,498)			
Federal Funds:	\$0			
Total	<u>(\$14,580,498)</u>	Total	<u>(\$14,580,498)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This reduction to the DOTD-Capital Outlay / Non-State is being made as part of the mid-year deficit elimination plan offered by the Division of Administration on 2/6/2015 to address a reduction in the revenue forecast of \$103.5 M for FY 15. The BA-7 reduces funding from the Statutory Dedications, Transportation Trust Fund (TTF) - Regular in the amount of \$14,580,498 for the Other Charges expenditure category in the DOTD-Capital Outlay / Non-State Program. The reduction includes:

\$5,538,498 reduction in capital outlay projects. The LFO assumes these reductions will be allocated to the Highway Priority Program. The Department reports that the Division of Administration will authorize the use of additional revenues recognized by the Revenue Estimating Conference (REC) to back-fill this reduction in a subsequent action. This plan will require additional legislative action either through budget adjustment by the JLCB or supplemental appropriation by the legislature. The current REC estimate for the Transportation Trust Fund adopted on 1/16/2015 exceeds the recommendation used in constructing the current year budget allocations (adopted on 5/19/2014) by a total of \$18.2 M. Of the \$18.2 M projected revenue growth, a separate action earlier in today's agenda (BA-7 #18) allocates and appropriates \$6 M of that amount to the Office of State Police leaving an undesignated balance of \$12.2 M.

\$9,042,000 attributed to implementing recommendations from the GEMS report for the Department of Transportation & Development (DOTD). The LFO assumes these reductions will be allocated to the Highway Priority Program. Implementation of the GEMS recommendations will result in an actual reduction of expenditures attributable to 2 factors:

Expenditure Reduction

\$3,000,000	Reducing capital project cost overruns via a Quality Assurance & Quality Control Engineering Team
\$542,000	Reducing use of outside design and construction engineer contractors

The department reports it has already formed the Quality Assurance & Control Team and initiated expansion of its design and construction engineering staff. DOTD anticipates the \$3.5 M savings projected by the GEMS report to be achievable over the life span of the FY 15 Capital Outlay Program.

Potential Revenue Offsets

Implementation of 2 additional GEMS recommendations are projected to result in an increase in revenues that the Division of Administration has authorized for use to back-fill \$5.5 M in reductions as proposed in this BA-7. This plan will require additional legislative action either through budget adjustment by the JLCB or supplemental appropriation by the legislature.

\$5,000,000	Proceeds from the anticipated sale of surplus properties
\$500,000	Anticipated expansion of annual advertising revenue on DOTD assets

February 20, 2015

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

No companion BA-7 will be processed in house by the Office of Planning & Budget under the Governor's Executive Order authority as this BA-7 represents the full amount of the mid-year reduction.

NOTE: This BA-7 executes a reduction to the DOTD Capital Outlay Program (assumed to be the Highway Priority Program). Despite reference to back-filling the reduction on this BA-7 by utilizing \$5.5 M of additional SGR revenues from GEMS recommendations and \$5.5 M of undesignated TTF as offset to the proposed reduction, this BA-7 does not execute those actions. If the revenue components are realized, a separate action by the legislature will be required to appropriate those funds back to the Capital Outlay appropriation.

NOTE 2: DOTD is unable to provide a list of any projects within the current capital outlay appropriation that will be impacted by this BA-7. The department states its intent will be to cash flow all projects currently included in the Highway Priority Program, which may result in a delay of the project or reduction of cash available for future Capital Outlay appropriations unless the revenues are back-filled as detailed above.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request may have an impact on future fiscal years if the plan to back-fill some of these reductions is not executed within the current fiscal year. In that case, projects within the Highway Priority Program will be completed by cashflowing those projects future appropriations which would in turn reduce the funding available for future projects in the program.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request. These funds may not be available until FY16.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 1

AGENCY: Agriculture & Forestry

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$0	0
Interagency Transfers:	\$0	Marketing	\$0	0

Statutory Dedications:	\$0	Animal Health & Food Safety Services	\$0	0
Federal Funds:	\$0	Agro-Consumer Services	\$0	0
		Forestry	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$1,456,929 from the Boll Weevil Fund to the Horticulture & Quarantine Fund within the Department of Agriculture & Forestry. This request transfers budget authority between funds and has no net effect on the bottom-line appropriation to the department. The department has amended rules and regulations to establish and collect a "maintenance inspection fee" under R.S. 3:1655 and eliminated the boll weevil eradication "assessment" authorized under R.S. 3:1615. The fee will replace and be in lieu of the assessment, but the amount will remain unchanged at \$6 per acre. All fees that fall under R.S. 3:1655 must be deposited into the Horticulture & Quarantine Fund.

In October 2013, the LA Supreme Court ruled in Krielow v. LA Department of Agriculture & Forestry that statutes allowing rice producers to levy an assessment on themselves was unconstitutional. After this ruling, the Department of Agriculture & Forestry questioned the constitutionality of the boll weevil assessment and adopted rules in August 2014 to eliminate the boll weevil eradication assessment and instituted the new maintenance inspection fee. This BA-7 moves fees collected per R.S. 3:1655 from the Boll Weevil Eradication Fund to the Horticulture & Quarantine Fund because they were not properly budgeted during the 2014 Legislative Session.

II. IMPACT ON FUTURE FISCAL YEARS

The \$6 per acre boll weevil eradication assessment that previously went into the Boll Weevil Eradication Fund in prior fiscal years will now be collected as a "maintenance inspection fee" and will be budgeted and deposited into the Horticulture & Quarantine Fund in FY 16 and thereafter.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Public Safety

AGENDA NO.: 2

AGENCY: State Police

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement	\$0	0
Interagency Transfers:	\$0	Criminal Investigation	\$0	0
Self-Generated Revenue:	(\$14,631,738)	Operational Support	\$0	0
Statutory Dedications:	\$14,631,738	Gaming Enforcement	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutorily dedicated funding from the Insurance Verification System Fund in the amount of \$14,631,738 and decrease SGR by a like amount. The Insurance Verification System Fund was created as a result of Act 641 of 2014. The Act provides for the creation of a real-time automotive liability insurance information database as well as increasing the fees for motorists that operate a vehicle without automotive liability insurance. In addition, the Act created the Insurance Verification System Fund that will receive the increased penalty amounts and will fund the Office of Motor Vehicles (OMV) real-time database, the State Police pay raise, sheriff's housing for parole violators, additional assistant district attorneys, and other public safety and law enforcement purposes.

During the 2014 Legislative Session, an amendment contingent upon the enactment of Act 641 was added to HB 1 that increased SGR authority within the Office of State Police by \$18 M. This amendment was to allow for pay raises for state police as a result of a new pay grid that was approved by the State Police Commission in January 2014. A total of \$14.6 M will be required to fund the pay increase for the remainder of FY 15. The increases would affect a total of 1,009 troopers. There are 1,014 total troopers but the ranks above Major are not eligible for the increase. The increases for salaries and related benefits for each program are detailed below:

Program	Salaries	Related Benefits	Total	No. of Eligible Troopers
Traffic Enforcement	\$5,638,701	\$4,033,170	\$9,671,871	702
Criminal Investigation	\$1,299,546	\$929,522	\$2,229,068	135
Operational Support	\$775,020	\$554,345	\$1,329,365	85
Gaming Enforcement	<u>\$817,036</u>	<u>\$584,398</u>	<u>\$1,401,434</u>	<u>87</u>
Total	\$8,530,303	\$6,101,435	\$14,631,738	1,009

Insurance Verification System Fund Collections

According to the Treasury, the Insurance System Verification Fund has collected \$14,327,809 as of 1/15/2015. On average the fund is collecting \$2.2 M per month. At this rate the fund would collect \$26.5 M for FY 15. This amount would cover the \$15.8 M (\$14.6 M pay raises + \$1.2 M real-time database) needed for FY 15. Based on the historical average of fees paid, the months of February and March account for 17.2% and 12.7% of total collections, and the other 10 months account for 70% of collections. To the extent collections follow the historical trend, the fund would collect \$35.7 M in FY 15 according to the department. The fund currently has \$1,181,921 budgeted, which is to be used for the creation of the real-time insurance database. The FY 15 Mid-Year Deficit Elimination Plan approved at the December 2014 JLCB meeting includes \$15 M in anticipated funds available from the Insurance Verification Fund. To the extent this resource was not part of the FY 15 deficit reduction plan, the fund would likely have sufficient resources to fund the pay raise over an extended period of time.

NOTE: The DOA noted that the \$15 M is additional revenue in excess of the amount needed for the state trooper pay grid increase. The monies in the fund are contingent upon recognition by the Revenue Estimating Conference.

Self-Generated Revenue Collections

The original penalty amounts for not having automotive liability insurance are still collected as SGR by OMV. Based on the first 6 months of collections since the increase in penalties went into effect, SGR collections are lower than the first 6 months of

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

the previous 3 years. The total average collections for the first 6 months of 3 previous years was \$11.7 M. The total collections for July through December of FY 15 is \$8.3 M, a difference of \$3.4 M. On average \$560,000 less per month is being collected. Based on information received from the department, the number of notices sent for cancellation of insurance has not decreased and is above the historical average. As a result of the receipt of this information, collections appear to be down as a result of fines not being paid timely. According to the department, collections during the 3rd quarter are expected to be higher than the historical monthly average. The months of February and March historically have accounted for 30% of annual collections as mentioned above.

Note on Retirement

Beginning in FY 16, the salary increase alone will cost \$21 M which will result in payroll increasing from the FY 16 payroll estimate of \$55 M to \$76 M. With the FY 16 contribution rate of 66.7%, this increase would result in \$14 M more in employer contributions. The total increase for salaries and related benefits in FY 16 would be \$35 M (\$21 M salary increase + \$14 M benefits increase). Additionally, the legislative actuary states the contribution rate will increase from 66.7% to 72% due to the pay raise. This increase in the employer contribution rate will add \$4 M in costs, which equates to an employer contribution increase of \$18 M. This would result in a total FY 16 increase of \$39 M (\$21 M salary + \$14 M employer contribution + \$4 M additional employer contribution). Furthermore, the unfunded accrued liability (UAL) for the State Police Retirement System would increase by \$140 M based on analysis by the legislative actuary. It should be noted that the analysis was based solely on the pay increase and does not include other assumptions that may affect the calculations.

The increase in employer contributions is solely based on the pay raise and may be subject to change once other assumptions are factored in. Certain assumptions that will effect the employer contribution are as follows:

- 1.) Employer contribution variance as a result of the FY 15 rate currently being less than the PERSAC approved rate of 75%.
- 2.) The addition of new cadet classes in FY 14 and FY 15 along with the potential for additional classes in the out years.
- 3.) Investment gains that have not been recognized as part of the smoothing process.
- 4.) The behavior of troopers near retirement that may delay retirement to increase final average compensation.
- 5.) Benefits not being paid for up to 3 years as troopers remain employed.
- 6.) Investment returns.

The full impact of the pay raise will not be known until the next system valuation is complete. This valuation will take into account the assumptions listed above and additional assumptions the system accounts for.

II. IMPACT ON FUTURE FISCAL YEARS

The FY 15 increase is for less than half of the remaining fiscal year. Beginning in FY 16 the annual cost will be approximately \$34.5 M. To the extent the same number of state troopers remain in the same positions in the future years, the pay grid allows for a 3% increase for each year of service completed. The figures below include the 3% annual salary increase.

Fiscal Year	FY 16	FY 17	FY 18	FY 19	FY 20
Salaries & Related Benefits	\$34,584,102	\$35,621,625	\$36,690,274	\$37,790,982	\$38,924,711

NOTE: The amounts above may fluctuate based on the number troopers employed, promotions and completion of certain training. To the extent the fund does not receive enough collections to cover the increased costs of pay raises, an additional funding source will be needed to cover the pay raise increases in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends disapproval of this BA-7 request. At this time the LFO cannot determine if the fund will receive sufficient revenue to continue funding the pay raise in the current and subsequent fiscal years. To the extent collections do not increase as expected, the fund may not be able to sustain the proposed pay raise increase in future fiscal years. However, based on analysis of current collections, a lower percentage raise would be sustainable in the current and subsequent fiscal years.

It should be noted that to the extent the \$15 M mentioned above was not part of the FY 15 deficit reduction plan, the fund would likely have sufficient resources to fund the pay raise.

To the extent Act 641 is successful in decreasing the number of motorists operating a vehicle without automotive liability insurance, collections into the Insurance Verification System Fund will decrease. In the event collections decrease to an amount lower than the cost of the annual salary increase, then the Office of State Police will require another funding

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutorily dedicated funding from the Insurance Verification System Fund in the amount of \$10,153,846 and decrease SGR by a like amount. The Insurance Verification System Fund was created as a result of Act 641 of 2014. The Act provides for the creation of a real-time automotive liability insurance information database as well as increasing the fees for motorists that operate a vehicle without automotive liability insurance. In addition, the Act created the Insurance Verification System Fund that will receive the increased penalty amounts and will fund the Office of Motor Vehicles (OMV) real-time database, the State Police pay raise, sheriff's housing for parole violators, additional assistant district attorneys, and other public safety and law enforcement purposes.

During the 2014 Legislative Session, an amendment contingent upon the enactment of Act 641 was added to HB 1 that increased SGR authority within the Office of State Police by \$18 M. This amendment was to allow for pay raises for state police as a result of a new pay grid that was approved by the State Police Commission in January 2014. A total of \$10.2 M will be required to fund the pay increase for the remainder of FY 15. The increases would affect a total of 1,009 troopers. There are 1,014 total troopers but the ranks above Major are not eligible for the increase. The increases for salaries and related benefits for each program are detailed below:

Program	Salaries	Related Benefits	Total	No. of Eligible Troopers
Traffic Enforcement	\$3,913,035	\$2,798,860	\$6,711,895	702
Criminal Investigation	\$901,834	\$645,051	\$1,546,885	135

Total	\$5,919,693	\$4,234,153	\$10,153,846	1,009

Insurance Verification System Fund Collections

According to the Treasury, the Insurance System Verification Fund has collected \$14,327,809 as of 1/15/2015. On average the fund is collecting \$2.2 M per month. At this rate the fund would collect \$26.5 M for FY 15. This amount would cover the \$11.4 M (\$10.2 M pay raises + \$1.2 M real-time database) needed for FY 15. Based on the historical average of fees paid, the months of February and March account for 17.2% and 12.7% of total collections, and the other 10 months account for 70% of collections. To the extent collections follow the historical trend, the fund would collect \$35.7 M in FY 15 according to the department. The fund currently has \$1,181,921 budgeted, which is to be used for the creation of the real-time insurance database. The FY 15 Mid-Year Deficit Elimination Plan approved at the December 2014 JLCB meeting includes \$15 M in anticipated funds available from the Insurance Verification Fund. To the extent this resource was not part of the FY 15 deficit reduction plan, the fund would likely have sufficient resources to fund the pay raise over an extended period of time.

NOTE: The DOA noted that the \$15 M is additional revenue in excess of the amount needed for the state trooper pay grid increase. The monies in the fund are contingent upon recognition by the Revenue Estimating Conference.

Self-Generated Revenue Collections

The original penalty amounts for not having automotive liability insurance are still collected as SGR by OMV. Based on the first 6 months of collections since the increase in penalties went into effect, SGR collections are lower than the first 6 months of

January 16, 2015

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Amended: Approved by JLCB

the previous 3 years. The total average collections for the first 6 months of 3 previous years was \$11.7 M. The total collections for July through December of FY 15 is \$8.3 M, a difference of \$3.4 M. On average \$560,000 less per month is being collected. Based on information received from the department, the number of notices sent for cancellation of insurance has not decreased and is above the historical average. As a result of the receipt of this information, collections appear to be down as a result of fines not being paid timely. According to the department, collections during the 3rd quarter are expected to be higher than the historical monthly average. The months of February and March historically have accounted for 30% of annual collections as mentioned above.

Note on Retirement

Beginning in FY 16, the salary increase alone will cost \$21 M which will result in payroll increasing from the FY 16 payroll estimate of \$55 M to \$76 M. With the FY 16 contribution rate of 66.7%, this increase would result in \$14 M more in employer contributions. The total increase for salaries and related benefits in FY 16 would be \$24 M (\$14 M salary increase + \$10 M benefits increase). Additionally, the legislative actuary states the contribution rate will increase from 66.7% to 72% due to the pay raise. This increase in the employer contribution rate will add \$4 M in costs, which equates to an employer contribution increase of \$18 M. This would result in a total FY 16 increase of \$28 M (\$14 M salary + \$10 M employer contribution + \$4 M additional employer contribution). Furthermore, the unfunded accrued liability (UAL) for the State Police Retirement System would increase by \$140 M based on analysis by the legislative actuary. It should be noted that the analysis was based solely on the pay increase and does not include other assumptions that may affect the calculations.

The increase in employer contributions is solely based on the pay raise and may be subject to change once other assumptions are factored in. Certain assumptions that will effect the employer contribution are as follows:

- 1.) Employer contribution variance as a result of the FY 15 rate currently being less than the PERSAC approved rate of 75%.
- 2.) The addition of new cadet classes in FY 14 and FY 15 along with the potential for additional classes in the out years.
- 3.) Investment gains that have not been recognized as part of the smoothing process.
- 4.) The behavior of troopers near retirement that may delay retirement to increase final average compensation.
- 5.) Benefits not being paid for up to 3 years as troopers remain employed.
- 6.) Investment returns.

The full impact of the pay raise will not be known until the next system valuation is complete. This valuation will take into account the assumptions listed above and additional assumptions the system accounts for.

II. IMPACT ON FUTURE FISCAL YEARS

The FY 15 increase is for less than half of the remaining fiscal year. Beginning in FY 16 the annual cost will be approximately \$24 M. To the extent the same number of state troopers remain in the same positions in the future years, the pay grid allows for a 3% increase for each year of service completed. The figures below include the 3% annual salary increase.

Fiscal Year	FY 16	FY 17	FY 18	FY 19	FY 20
Salaries & Related Benefits	\$24,000,000	\$24,720,000	\$25,461,600	\$26,225,448	\$27,012,211

NOTE: The amounts above may fluctuate based on the number troopers employed, promotions and completion of certain training. To the extent the fund does not receive enough collections to cover the increased costs of pay raises, an additional funding source will be needed to cover the pay raise increases in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

It should be noted that to the extent collections do not increase as expected, the fund may not be able to sustain the proposed pay raise increase in future fiscal years. However, based on analysis of current collections, a lower percentage raise would be sustainable in the current and subsequent fiscal years.

It should be noted that to the extent the \$15 M mentioned above was not part of the FY 15 deficit reduction plan, the fund would likely have sufficient resources to fund the pay raise.

To the extent Act 641 is successful in decreasing the number of motorists operating a vehicle without automotive liability insurance, collections into the Insurance Verification System Fund will decrease. In the event collections decrease to an amount lower than the cost of the annual salary increase, then the Office of State Police will require another funding

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to allow the Oilfield Site Restoration Fund (OSR) to plug at least an additional 23 orphaned wells and provide additional resources for plugging current orphaned well projects in FY 15 and beyond. The OSR is a statutory dedicated fund designed to plug oil and gas wells from leaking after they have been orphaned to prevent any leaks or contamination of areas surrounding the well. Orphaned wells are assigned different priority levels based upon the threat they pose to a surrounding population or ecosystem. High-priority wells are found near/under bodies of water, near populated areas, wells that are leaking, or that have structurally deteriorated so severely that their need to be plugged or removed is deemed immediate. It is funded by a flat-fee on oil and gas production in LA which is paid to the Fund quarterly.

Because of a contractual delay for a project in Vermillion Parish at the end of FY 14, the OSR had to spend \$2.8 M from the Emergencies, Change Orders, & Future Projects portion of their budget to pay for the project in FY 15 (July 2014). The project was initially expected to begin at the end of FY 14. A delay associated with obtaining a performance bond prevented the initiation of the project. These project funds were not eligible to be carried forward into FY 15 via the carry forward BA-7 process. This severely reduced the FY 15 Emergencies, Change Orders, & Future projects budget, which was created to cover expenses for any planned pluggings that will require more funding than initially estimated or any emergency pluggings that arise unexpectedly.

Additionally, OSR has been plugging more high-priority wells, which have higher costs than normal pluggings, creating a higher than anticipated burden on the budget. At the end of the first quarter of FY 15, 30 wells have been plugged, 19 of which were deemed high-priority. Should this BA-7 be approved, the unappropriated fund balance for the Oilfield Site Restoration Fund will be \$1.8 M after FY 15 collections are realized.

Note: An orphaned well is a term used to describe wells that no longer have a responsible party to manage or keep the well compliant with the environmental and safety standards put in place by the Office of Conservation. An orphaned well is different than a capped well, because capped wells still have a responsible party to maintain the wells, even though the wells are not currently in service. Orphaned wells can be reopened at a later date if a new party purchases the well and keeps it maintained.

The table below displays the Total Funding Request for this BA-7.

Project Field	Total Funding Requested
LeLux & Perry Point	\$939,992
Various Fields, Desoto Parish	\$102,810
East Cameron Block 17	\$175,000
Napoleonville	\$8,000
Wildcat	\$240,000
Emergencies, Change Orders, & Future Projects	<u>\$2,339,317</u>
Total	\$3,805,119

November 21, 2014

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

The LeLux & Perry Point project requests \$939,992 to plug 6 wells (1 high-priority).

The Desoto and surrounding Parishes project contracted for \$313,377 to plug 13 wells. A total of \$102,810 is needed for the remainder of the project. (5 high-priority wells)

The East Cameron project was contracted for \$974,000 to plug 2 wells and remove one platform. A total of \$175,000 is needed for the remainder of the project.

The Napoleonville project requests \$8,000 to plug a bubbling well in a cane field. (high-priority)

The Wildcat project (Red River Parish) requests \$240,000 to plug a leaking well in a livestock pasture. (high-priority)

OSR requests \$2,339,317 in order to provide funding for emergencies and future projects that are currently unknown.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate funds to provide for the operational and maintenance costs of the New Orleans ferries formerly operated by the Crescent City Connection Division. Act 247 of 2013 created the Geaux Pass Transition Fund (GPTF) and stipulated that previously unclaimed monies in Geaux Pass accounts should be deposited into the fund on 6/30/2014, once the State Treasurer had made reasonable efforts to refund any monies on deposit to the Geaux Pass account owner.

Act 247 stipulated that 30% of the monies in the GPTF as of 6/30/2014, shall be appropriated to DOTD for the operational and maintenance costs of the New Orleans ferries. The balance of the GPTF is to be appropriated to the New Orleans Regional Planning Commission (RPC) to provide for lighting of the east and west approaches to the Crescent City Connection Bridge, improvements to ingress and egress points, lighting, maintenance, grass cutting and landscaping. DOTD requests appropriation of the ferry portion at the current time in FY 15, while the balance of funds to be sent to the Planning Commission are included in DOTD's budget request for FY 16.

The remaining balance in the GPTF on 6/30/2014, was \$2,269,605.85. This BA-7 seeks to appropriate 30%, or \$680,881, to the department to provide for the operational and maintenance costs of the New Orleans ferries.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

The balance of monies available in the GPTF for appropriation to the RPC in FY 16 will be approximately \$1.6 M and is included in DOTD's FY 16 budget request document.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$27,555,745 in Interagency Transfers from the Governor' Office of Homeland Security & Emergency Preparedness. The source of funding is federal FEMA funding. The funds will be used in accordance with the RSD School Facilities Master Plan for Orleans Parish (revised Oct. 2011) for the construction and refurbishment of 11 schools.

Three projects totaling \$9,800,848 are construction of new elementary schools; projected start dates are in March and April of 2015 and are expected to be completed between January and April of 2017.

<u>School</u>	<u>BA-7 Funding Request</u>	<u>Projected Construction Start</u>	<u>Projected Completion</u>
R. Abrams	\$2,958,338	4/11/2015	4/09/2017
A. Alexander	\$ 630,000	3/30/2015	4/09/2017
E. Morial	\$6,212,510	3/02/2015	1/04/2017

Eight projects totaling \$17,754,897 are elementary schools that are being refurbished including renovations to structures, windows, doors, masonry walls and roofs. In some cases window renovations are scheduled to coincide with summer break to avoid student disruptions. The RSD projects that Jackson, Rosenwald and McDonogh 28 will be completed in FY 16 and the remaining projects in FY 17.

<u>School</u>	<u>BA-7 Funding Request</u>	<u>Projected Construction Start</u>	<u>Projected Completion</u>
A.L. Bauduit *	\$1,760,399	9/26/2015	11/25/2016
A. Jackson	\$2,300,650	3/23/2015	2/27/2016
Gaudet *	\$ 757,729	12/14/2015	11/09/2016
J. Rosenwald	\$1,368,242	4/09/2015	11/06/2015
Lafayette	\$3,951,832	4/11/2015	11/07/2016
Laurel *	\$2,549,785	9/26/2015	11/25/2016
Live Oak	\$2,600,245	4/11/2015	10/10/2016
McDonogh 28	\$2,466,016	3/23/2015	2/17/2016

* These 3 projects are still pending FEMA approval and the RSD has indicated the projected construction start dates have been rescheduled to FY 16 due to the approval delay. LFO recommends reducing the request by \$5,067,912 for these 3 projects.

Of the remaining projects, anticipated FEMA reimbursement dates have been adjusted resulting in a revised funding request as reflected below. The LFO recommends reducing funding for these projects by \$4,457,012.

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 4

AGENCY: Office of Secretary

ANALYST: Drew Danna

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Enforcement	\$1,921,647	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$480,408			
Federal Funds:	\$1,441,239			
Total	<u>\$1,921,647</u>	Total	<u>\$1,921,647</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$480,408 of Statutory Dedicated funds and \$1,441,239 in federal grants for the LDWF Law Enforcement Division from the Port Security Grant Program of the Department of Homeland Security/FEMA. This program was created to improve the security of major ports within the United States to prevent potential terrorist attacks. As the only state-level agency with maritime security capabilities, LDWF is eligible to receive these funds. The federal funding requires a 25% match in state funding, which will be provided from the statutorily dedicated Conservation Fund. The grants will provide funding to purchase 4 rigid hull inflatable boats and 1 cabin patrol vessel, all equipped with radiation detection, surveillance, and emergency equipment to improve maritime security and hazards response capability. The LDWF Enforcement Division will assign the rigid hull inflatable boats to the Ports of Shreveport, Monroe, Baton Rouge, and New Orleans. The additional \$24,360 for the Port of Baton Rouge is to purchase 7 night vision monoculars and monocular helmet mounts. The cabin patrol vessel assigned to the Port of Plaquemines is considerably larger than the boats assigned to the other ports which accounts for the \$229,232 difference in funding.

Funding will be dispersed as follows:

<u>Port</u>	<u>Amount</u>
Shreveport	\$333,611
Monroe	\$333,611
Baton Rouge	\$357,971
New Orleans	\$333,611
Plaquemines	<u>\$562,843</u>
Total	<u>\$1,921,647</u>

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no significant impact on future fiscal years. There is no anticipated increase in maintenance and supply costs as the new equipment will replace the vessels currently being used and the existing maintenance budget will be utilized to maintain these vessels.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget additional funding for the Rockefeller Wildlife Refuge & Game Preserve which will be provided by the Rockefeller Wildlife Refuge & Game Preserve Fund. The increase in funding will be used to pay \$214,730 for salaries and \$120,440 in related benefits for 6 additional biologist positions. These biologists will study the activities of the local wildlife, the migration patterns of migratory waterfowl, marsh creation and shoreline protection, and the potential impacts of coastal erosion on local wildlife. Per the deed of donation associated with this property, the LA Department of Wildlife & Fisheries (LDWF) must meet the needs of the refuge with adequate staffing levels and prompt completion of repair and improvement projects or the property can be turned over to the U.S. Fish & Wildlife Service. The requested increase in biologists was made after the Refuge recently completed its quadrennial audit by the Rockefeller Foundation which recommended hiring more biologists (6-10) to assist current biologists with their observations and data collection. If the Rockefeller refuge reverts to federal control, the state will lose access to 76,000 acres of marshland that have been used to rehabilitate the population of endangered species and study the effects of coastal erosion on local wildlife. In addition, the State will lose the funding source of the Rockefeller Wildlife Refuge Trust & Protection Fund, which allows for 1/4 of funds derived from royalties from mineral leases within the Refuge to be deposited into the trust for other LDWF purposes.

The Refuge is currently operating with 16 FTEs. It has historically operated with 34 FTEs on site. Currently, there are 5 biologists on site at the Refuge, but approval of this BA-7 will raise the number of biologists on site to 11. The positions were eliminated in the wake of hurricanes Katrina and Rita when the living quarters for employees in the area were destroyed. Now that the living quarters have been rebuilt, the agency can add additional staff.

II. IMPACT ON FUTURE FISCAL YEARS

If this BA-7 is approved, the salary and benefits of the 6 biologists will be annualized from the Rockefeller Wildlife Refuge & Game Preserve Fund in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$20,000,001			
Federal Funds:	\$0			
Total	<u>\$20,000,001</u>	Total	<u>\$20,000,001</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutorily dedicated funds from the Rapid Response Fund by \$20 M for \$11.2 M in existing state economic development commitments and \$8.8 M in economic development commitments from new projects. The Funds bill (Act 646 of 2014) transferred \$20 M from the Mega-Project Development Fund to the Rapid Response Fund. However, the Revenue Estimating Conference did not recognize the \$20 M from the Mega-Project Development Fund being transferred to the Rapid Response Fund until 6/2/2014 which was too late to appropriate the \$20 M to the Rapid Response Fund during the legislative session. This BA-7 appropriates this \$20 M to the Rapid Response Fund.

Statewide economic development commitments funded from the Rapid Response Fund exceed the current year appropriation from the fund by \$11.2 M. Failing to appropriate these funds will result in the department's inability to meet its contractual obligations to fund these ongoing projects. This BA-7 brings overall funding from the Rapid Response Fund from \$23.3 M currently budgeted to \$34.5 M (\$11.2 M increase). The Department of Economic Development will utilize the remaining \$8.8 M requested in this BA-7 for confidential pending projects which are anticipated to be announced later in the fiscal year. The current unobligated Treasury balance in the Rapid Response Fund is approximately \$20.6 M, of which \$20 M is being requested with this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$499,351</u>	Total	<u>\$499,351</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal expenditure authority in the amount of \$499,351 in FY 15 in association with the Cooperative Agreements to Benefit Homeless Individuals (CABHI) federal grant. The CABHI grant begins 9/30/2014 and continues through 9/29/2016. The funds are intended to provide supplemental funding to the Louisiana Chronic Homelessness Assistance and Treatment Services (LaCHATS) project and was awarded by the Substance Abuse and Mental Health Services Administration pursuant to the authority of Section 520A of the Public Health Service (PHS) Act. Approval will expand the services available to provide treatment and supportive services to homeless veterans with substance use disorders and/or mental illness as well as chronically homeless individuals with serious mental illness or co-occurring disorders. There is no state match requirement associated with the grant. The additional funding will facilitate providing services to an additional 73 individuals in Federal FY15 (see NOTE below).

The Federal funds will provide for expenditures in the Other Charges expenditure category as follows:

Project Coordinator Salary	\$ 12,267	
Related Benefits	\$ 6,050	
Travel	\$ 3,425	
Supplies	\$ 2,957	
Professional Services	<u>\$474,652</u>	(CABHI Providers - Licensed Mental Health Providers)
	\$499,351	

NOTE: LaCHATS is an existing state project providing substance use disorder treatment and/or co-occurring disorder treatment, case management, peer support services, and other support services to persons experiencing chronic homelessness in three areas of the state that have the largest concentration of these individuals (Greater New Orleans, Greater Baton Rouge, and Northwest LA/Shreveport). The goal of the LaCHATS project is to reduce homelessness within the target population by increasing access to permanent housing, engagement and retention in treatment for substance abuse or co-occurring disorders, and access to supportive services to maintain permanent housing and access to mainstream resources. Billing for services is done on a fee for service basis. LaCHAT has served approximately 45 people to date through the existing CABHI grant and will serve up to approximately 312 individuals over the three-year grant period. The existing grant totaled \$711,818 per year for 3 years beginning 9/30/2013 through 9/29/2016. The supplemental grant will total \$499,351 per year for up to 2 years and will serve up to approximately 149 individuals over the two-year grant period. Approval of this BA-7 will increase this grant activity to \$1,211,169 in FY 15.

II. IMPACT ON FUTURE FISCAL YEARS

This supplemental grant can be extended for an additional year. Assuming successful execution of the grant project and extension, the extension will require an appropriation of an additional \$499,351 in the subsequent fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Executive

AGENDA NO.: 3

AGENCY: LA Public Defender Board

ANALYST: Zachary Rau

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Public Defender Board	\$17,050	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$17,050			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$17,050</u>	Total	<u>\$17,050</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the LA Public Defender Board's (LPDB) self-generated revenues by \$17,050. The original source of funds is a grant award from the Casey Family Programs (CFP) for the purpose of reducing the number of youths in foster care. The term of the grant is from 9/15/2014 to 12/31/2014. There is no state match required, and CFP will reimburse LPDB for all expenses under the grant on a monthly basis. LPDB currently works as advocates for parents who have had their children placed in foster care through the use of parents' attorneys, social workers, and parental advocates to reunite fostered children with their parents. LPDB works in conjunction with DCFS Field Services, who advocates on behalf of foster children.

LPDB has 3 goals related to this grant. The first goal is to enhance its services in the advocacy of parents of children in foster care in the 24th Judicial District Court (Jefferson Parish) by engaging and overseeing a Licensed Clinical Social Worker (LCSW) to ensure that parents mitigate the factors that placed their children in danger, aid in planning with parents to take on permanent care of their children, and coordinate case management and services with DCFS to avoid duplication of services and undue conflict. The second goal is to work with CFP, DCFS, and Court Improvement Coordinator to provide training to public defender attorneys and the LCSW related to using the team model of a social worker, parent advocate, and attorney to provide support to parents. Lastly, LPDB will hold a meeting with CFP representatives, DCFS representatives, LCSW, and Jefferson Parish's lead Public Defender to establish procedures for coordination and problem resolution concerning mutual work on behalf of parents. LPDB will submit a final report summarizing project activities to CFP.

Expenditures will be made in the professional services expenditures category and will entail two contractors. The first contractor is a part-time social worker for a 10-week term, and the second is the Center for Family Representation for training to take place in early December. The services will focus on the 24th Judicial District Court (Jefferson Parish). The estimated total of the 2 contracts is \$14,800. In addition to the two contracts, CFP will also reimburse LPDB for expenses up to \$2,250 for contractor travel per LA state travel regulations, resulting in total expenditures of \$17,050.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer one position and related funding from the Office of the Secretary to the Office of Management & Finance. The source of funding for the BA-7 is statutorily dedicated funds from the Environmental Trust Fund. The Office of the Secretary has a vacant Attorney 4 position due to the retirement of an employee. The workload of the attorney was absorbed within the office. As such, this position and related funding is being transferred to the Office of Management & Finance for an Administrative Program Director 2 position to address deficiencies in the Contract Management Section in the Financial Services Division and will be responsible for the administrative functions associated with the Department's contracts, procurement, and grants. This funding includes \$48,263 in salaries and \$24,992 in related benefits and represents approximately 8 months of funding for the new Administrative Program Director 2 position.

II. IMPACT ON FUTURE FISCAL YEARS

Annualization of this BA-7 request will increase expenditures from the Environmental Trust Fund by \$38,601 in FY 16 and thereafter.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

AGENDA NO.: 5

AGENCY: Military Department

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Military Affairs	\$30,000,000	0
Interagency Transfers:	\$1,250,000	Education	\$0	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$28,750,000			
Total	<u>\$30,000,000</u>	Total	<u>\$30,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority in the amount of \$28.75 M and IAT budget authority in the amount of \$1.25 M in order for the Military Department to hire a specialized contractor to dispose of approximately 16 million pounds of explosive materials stored within 97 magazines at Camp Minden, to reimburse the U.S. Environmental Protection Agency (EPA) for future monitoring costs of the cleanup and reimburse the LA Department of Environmental Quality (DEQ) for past and future oversight costs.

The explosive materials were originally the property of Explo Systems, which was leasing the old ammunition manufacturing facility at Camp Minden to separate military propellant bags and resell the components. According to the Military Department, the dangerous component is M6 smokeless powder that was improperly stored at Camp Minden by Explo. This ultimately resulted in an explosion caused by these materials in Fall 2012.

The original source of the IAT resources is funding from the Department of Environmental Quality (DEQ) due to a legal settlement (U.S. EPA versus Arkla Disposal, LLC). The source will be civil penalties in the amount of \$2.5 M paid by Arkla Disposal, LLC of which \$1.25 M has been specifically allocated in the Stipulation of Settlement for removal costs of the explosives housed at Camp Minden.

The original source of federal funds is the federal U.S. Treasury Judgment Fund. On 9/30/2014, the Military Department, U.S. EPA and the U.S. Army signed an Administrative Settlement Agreement for the removal of materials. The agreement provides for the Military Department to remove approximately 15.7 million pounds of M6 propellant and approximately 321,000 pounds of clean burning igniter. The settlement provides for the U.S. Army to pay \$19,312,648 (80% of the total estimate to remove material) as an initial payment to the Military Department for removal costs as well as payment of U.S. EPA future monitoring costs and LA DEQ oversight costs. To the extent the contractor removal costs are in excess of the \$19.3 M initial payment, there is a process in place for the Military Department to follow that will allow additional federal resources to be utilized for hazardous material removal. Thus, the Military Department does not anticipate any SGF to be utilized for hazardous removal expenditures.

The specific resources and anticipated costs by resource based upon the settlement agreement are as follows:

\$1,250,000	IAT Resource from DEQ Settlement
(\$1,220,000)	Reimbursement to U.S. EPA future monitoring costs
(\$30,000)	Reimbursement to LA DEQ for past oversight costs
\$19,312,648	Federal Resource from the U.S. Army (initial payment)
(\$20,000)	Reimbursement to LA DEQ for future oversight costs
(\$19,292,648)	Publicly bid contractor hired to dispose of improperly stored hazardous materials

Note: There is currently ongoing litigation between negatively impacted parties and Explo's insurance carriers. To the extent the Military Department receives insurance settlement funds from this litigation, these resources could be utilized for the removal costs. The specific amount to be received is unknown at this time.

Total	<u>\$3,500,000</u>	Total	<u>\$3,500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutorily dedicated funds from the Hazardous Waste Site Cleanup Fund by \$3.5 M to pay a contractor to extinguish numerous fires in the Harrelson Materials Management landfill site in Shreveport. The fires began in July 2008 and the efforts by Harrelson Materials Management and the Shreveport Fire Department have failed to completely extinguish all the fires within the landfill. Harrelson Materials Management no longer has the means to extinguish the fires and the Shreveport Fire Department has stated that responding to the fires has impaired the department's ability to respond to other fires and emergencies within their jurisdiction. As such, the LA Department of Environmental Quality (LDEQ) is assuming responsibility for the fires because the situation is an emergency and the department has a responsibility to prevent irreparable environmental damage and serious threats to the life or safety of persons in this location.

LDEQ has authority under L.R.S. 30:2206(C) that allows the department to contract for hazardous waste site cleanup without a request for proposal (RFP). LDEQ contacted four companies and LDEQ and the State Fire Marshal selected a company to attempt to put out the fires. LDEQ is unable to provide the name of the company at this time due to contract negotiations. LDEQ anticipates that the company will begin work as soon as the contract negotiations are completed. If the first company is not successful, LDEQ will seek the services of another company. The ultimate price to extinguish the fires is unknown at this time. The \$3.5 M requested in this BA-7 represents the unobligated funds available in the Hazardous Waste Site Cleanup Fund. LDEQ is requesting the remaining unobligated funds from the Hazardous Waste Site Cleanup Fund because the total cost to extinguish the fires is unknown at this time. The current balance of the Hazardous Waste Site Cleanup Fund is approximately \$5.1 M including obligated and unobligated funds.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to realign two positions and associated funding from the Museum Program to the Administrative Program and the Commercial Program, each receiving one. The positions being realigned are an IT position in the Administrative Program and a Commercial Supervisor in the Telecommunications Section of the Commercial Program and are necessary for the geauxBIZ portal project. The geauxBIZ project is a collaborative effort by the Secretary of State, LA Workforce Commission, and the Department of Revenue and is a one-stop web portal for the registration of new businesses. The IT position will work in coordination with the contractor (GCR, Inc.) on the development of the portal and afterwards, will assist in ongoing maintenance and administrative oversight of the portal. The Commercial Supervisor will work on the development stage of the live chat that will be utilized once the portal is implemented. After the portal is launched, the supervisor will train and manage the staff of the help desk. The 2 positions in the Museum Program are vacant. Funding being transferred with this BA-7 request is SGR and is for salaries (\$116,554) and related benefits (\$64,121) for the positions. The funding source of the revenues are the various fees charged by the Secretary of State for domestic corporations, limited liability companies, nonprofit corporations, foreign corporations, trade names, trademarks and service marks.

The portal has an anticipated go-live date in the Spring 2015.

II. IMPACT ON FUTURE FISCAL YEARS

These positions and associated funding will remain in the Administrative and Commercial Programs in future fiscal years.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety
AGENCY: Motor Vehicles

AGENDA NO.: 3
ANALYST: Matthew Labruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Licensing	\$1,181,921	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$1,181,921			
Federal Funds:	\$0			
Total	<u>\$1,181,921</u>	Total	<u>\$1,181,921</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority for the Insurance Verification System Fund in the amount of \$1,181,921 for the development of a real-time insurance database and purchase equipment for the database as a result of Act 641 of 2014. The Act provides for the creation of a real-time automotive liability insurance information database as well as increasing the fees for motorists that operate a vehicle without automotive liability insurance. In addition, the Act created the Insurance Verification System Fund that will receive the increased penalty amounts and will fund the real-time database, the State Police pay raise, sheriff's housing for parole violators, additional assistant district attorneys, and other public safety and law enforcement purposes.

The \$1.2 M increase in budget authority will allow the Department of Public Safety (DPS) to purchase equipment for the database (\$110,500), funding for overtime costs for DPS programmers to modify the current Office of Motor Vehicles system and create an interface for the new database (\$71,421) and for a professional services contract to develop the real-time insurance database (\$1.0 M).

DPS estimates the changes to the current system will require 2,200 hours of overtime for IT programmers. At \$32 per hour, the overtime expense is expected to be \$71,421 (2,200 hours x \$32 = \$70,400 for salaries; \$70,400 X 1.45% = \$1,021 for Medicare costs). The cost to enter into a professional services contract for the real-time insurance database for automotive liability insurance is projected at \$1,000,000, and \$110,500 for the purchase of web and blade servers, hardware with Dell blade servers, VMWare software licenses, and network switches for operating the database. DPS expects to issue a Request for Proposals (RFP) for the real-time database by December 2014.

These costs will be funded from the reinstatement and notice of violation fees that were increased as a result of Act 641. To the extent the violations issued and paid remain constant, the increased fees are estimated to generate \$53 M. As of 7/31/2014, \$1,033,060 has been deposited into the fund.

II. IMPACT ON FUTURE FISCAL YEARS

In future fiscal years, the professional services contract is expected to remain at \$1,000,000 to maintain the real-time database. Maintaining the database by the vendor may include issuing and maintaining the credentials for OMV, law enforcement, courts, and auto dealers to access the database, providing a call center, printing and mailing forms for the compulsory insurance program, and possibly handling clearance services. This cost will be paid with fee collections that are deposited into the Insurance Verification System Fund. It should be noted that the full extent of services provided by the vendor will not be known until the final contract is approved.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

August 14, 2014

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Public Safety
AGENCY: Motor Vehicles

AGENDA NO.: 4
ANALYST: Matthew Labruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Licensing	\$261,310	5
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$261,310			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$261,310</u>	Total	<u>\$261,310</u>	<u>5</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Office of Motor Vehicles' (OMV) self-generated revenue (SGR) budget authority in the amount of \$261,310 and increase T.O. positions by 5 as a result of Act 802 of 2014. Act 802 provides for the removal of license plates on vehicles owned and driven by persons with suspended or revoked driver's licenses. As a result of removing license plates, law enforcement submits the plates to the local OMV office to be processed. After the plate is removed and submitted to OMV, the person whose plate was removed must go to the local OMV to pay a reinstatement fee of \$10 to receive that plate. To handle the increased processing, five additional Motor Vehicle Compliance Analysts will be needed.

In FY 13, there were approximately 307,000 persons with suspended or revoked licenses. To the extent 10% of those drivers would be issued a violation, 30,700 violations may be issued annually. Act 802 provides for a \$10 reinstatement fee to be charged for removing a license plate due to a revoked or suspended driver's license, which would generate \$307,000 (307,000 suspended or revoked drivers x 10% violation issuance x \$10) in reinstatement fees. The revenue generated by fee collections would be used to offset expenditures for OMV.

The \$261,310 would cover all expenses associated with 5 additional T.O. within OMV. The cost of 5 additional analysts for the remainder of FY 15 would be \$249,185 (\$49,837 average salary and benefits x 5 analysts). This amount is prorated for 22 pay periods since the fiscal year has already began. The total cost of salaries and benefits for 5 personnel would be \$275,122 (\$55,024 average salary and benefits x 5 analysts). In addition to personnel costs, operating expenses would cost \$775 per employee for a total of \$3,875. The operating costs include supplies, telephone, and maintenance costs. Finally, the cost to provide violation stickers and tickets that will be used by law enforcement will be approximately \$8,250.

To the extent OMV collects more than \$261,310 from the \$10 reinstatement fees, the additional collections can be used throughout the department for any obligation. In the event collections are lower than anticipated, OMV will be able to absorb some costs. However, in the event collections are much lower than anticipated, then OMV will take necessary action to address the shortfall. This could be accomplished through reduced operating expenses, personnel reductions, or using other funding within DPS. It should be noted that reducing operating expenses and /or personnel is not anticipated by the department.

II. IMPACT ON FUTURE FISCAL YEARS

In FY 16, personnel costs will increase by \$25,937 since the analysts will be paid for a full year instead of part of the year. In subsequent fiscal years, personnel costs may increase as a result of merits awards to employees and operating services may increase with inflation.

<u>Agenda #</u>	<u>Schedule #</u> <u>Dept./Agy.</u>	<u>Item Description</u>	<u>SGF</u>	<u>IAT</u>	<u>SGR</u>	<u>DED</u>	<u>IEB</u>	<u>FED</u>	<u>Total</u>
CF 1	01 - 107 Executive Division of Administration	<p>The purpose of this BA-7 request is to carry-forward funds within the Executive Administration Program into the following DOA sections as follows:</p> <p><u>Commissioner's Office (\$145,805 SGF, \$1,336,382 IAT, \$1,688,406 SGR)</u></p> <p>1.) \$113,250 IAT - Sisung Securities Corporation is a consulting contract that expires 6/4/2015. The total contract value is \$200,000 with approximately \$113,000 remaining until the contract expires. The contractor is providing financial advisory services including consultant work on the Net State Tax Supported Debt and the Capital Outlay Escrow Account.</p> <p>2.) \$50,500 SGF - Employers Unity LLC is a professional service contract that expires 8/31/2014. The contractor administers the LA Unemployment Compensation Program including monitoring all records of state agencies relative to former employees. According to the DOA, it is a conflict of interest to have the same agency that administers the unemployment benefits (Workforce Commission) to have any control over the agencies' protests of claims.</p> <p>3.) \$1,688,406 SGF, \$1,223,132 IAT - Alvarez & Marsal (A&M) is a consulting contract that expires 12/15/2016. The contractor is providing governmental efficiencies and management support to the state. The requested carry forward amount consists of \$2,113,291 for staff augmentation services associated with 5 work orders and \$424,885 of retainage. Staff augmentation services are being provided to: Office of Group Benefits - \$199,752, Facility Planning & Control - \$499,963, Division of Administration - \$499,302, State Procurement - \$800,000 and Department of Education (DOE) - \$389,104. The total contract value of the A&M contract increased from \$5,003,435 to \$7,391,556 of which \$5,003,435 was paid in FY 14 for costs associate with producing the GEMS Report and the remaining \$2,388,121 is associated with the staff augmentation portion (this CF BA-7 request). To date, the DOA has paid A&M \$274,830 for a portion of the \$2.38 M staff augmentation services portion.</p> <p><u>Note: Work Order #5 of the A&M staff augmentation for the DOE related to the MFP student enrollment counts seems to be duplicative of the work requested of the Legislative Auditor pursuant to HCR 112 of 2014.</u></p> <p>4.) \$95,305 The Koerber Company, PA is a professional services contract that expires 2/23/2017. The contractor provides expert services as the financial condition of client network services. According to the DOA, this contractor is the forensic accountant hired as an expert witness in the CNSI case.</p>	\$1,536,016	\$1,830,815	\$1,688,406	\$0	\$0	\$0	\$5,055,237

<u>Agenda #</u>	<u>Schedule #</u> <u>Dept./Agy.</u>	<u>Item Description</u>	<u>SGF</u>	<u>IAT</u>	<u>SGR</u>	<u>DED</u>	<u>IEB</u>	<u>FED</u>	<u>Total</u>
		<u>Office of the Chief Information Officer (\$353,063 SGF)</u> 1.) \$28,063 SGF - Franklin D. Kirkland, Jr. is a consulting contract that expires 12/31/2014. The contractor will provide consulting, research, analysis and administrative support to OTS. 2.) \$325,000 SGF - Deloitte Consulting, LLP is consulting contract that expires 11/11/2016. The contractor provides consulting services for the transformation of the state's IT operation model.							
		<u>Office of General Counsel (\$29,950 SGF, \$75,000 IAT)</u> 1.) \$24,950 SGF - Trailnet, Inc. is a consulting contract that expires 12/31/2014. The contractor will provide services on a web-based electronic billing services that include the development, maintenance and accompanying documentation and provision of the site. 2.) \$75,000 IAT - Taylor, Porter, Brooks is a professional service contract that expires on 1/15/2017. The contractor provides legal services to the commissioner of administration and the Office of General Counsel as requested with regards to OGB, health insurance issues related to state employees' group insurance and issues related to Patient Protection & Affordable Care Act. The original source of the IAT are funds paid to the DOA from the OGB. 3.) \$5,000 SGF - David Ware & Associates is a professional services contract that expires on 4/30/2017. The contractor provides legal advice and assistance to the state as needed in matters pertaining to immigration issues and labor certification through the US Department of Labor.							
		<u>Office of Statewide Reporting & Accounting Policy (OSRAP) (\$126,938 SGF)</u> 1.) \$99,738 SGF - Despain & Associates, Inc. is for a purchase order that expires on 5/31/2015. The purchase order is for the acquisition of IBM Cognos Controller, IMB Cognos CDM and training costs. According to the DOA, the software is being acquired to make the production of the CAFR and other financial reports more efficient and effective. 2.) \$27,200 SGF - Management of America, Inc. is a consulting contract that expires on 6/30/2015. The contractor will develop a statewide central services costs allocation plan based on actual expenditures and data incurred by the state. According to the DOA, this contractor provides 2 documents to OSRAP related to the overall statewide center services cost allocation plan. Due to the IT consolidation and the movement of the Division of Administrative Law from the operating budget to the ancillary budget, there will likely be changes made to the Statewide Indirect Cost Allocation Plan.

		<p>The order was placed on 6/5/2014 and is expected to arrive in August 2014.</p> <p><i>Supplies</i> - \$5,993 (SGR) to repair malfunctioning access controls in the lobby of the Management & Finance Building. The vendor has experienced issues with the hardware for the controls. The contract began in September 2013 and is expected to be finished in October 2014</p> <p><i>Other Charges</i> - \$750,000 for the SharePoint development project which will contain task order workflow, real-time statistics with databases, and mobile app development. The project is to provide technically qualified personnel to assist the state on a broad range of projects that vary in size and in areas of continued and efficient use of Information Technology. The project has been delayed by the vendors due to a lack of developer and programming staff. The project is being handled by 2 vendors. The first vendor, GCR, Inc., is receiving \$650,000. Of the \$650,000, \$611,000 is IAT funding from GOHSEP and \$39,000 is SGR funding. The second vendor, Geocent, L.L.C., is receiving \$100,000 with \$62,500 in IAT funding from GOHSEP and \$37,500 in SGR funding. The funding from GOHSEP is through various federal grants, which meet certain federal grant requirements. The contract began 5/30/2014 and will end 5/29/2015.</p>							
CF 24	08B - 419 Public Safety State Police	<p>The purpose of this BA-7 request is to carry-forward funds as follows:</p> <p>Traffic Enforcement - \$27,240 (IAT)</p> <p><i>Supplies</i> - \$27,240 for light pole and fixture installation at the Baptist (near Hammond) weigh station. The pole needed to be replaced after it was destroyed by a car crash. The order was placed on 6/2/2014 and was unable to be completed as a result of vendor delays. The light pole should be installed by August 2014.</p> <p>Operational Support - \$210,899 (\$155,750 IAT & \$55,149 SGR)</p> <p><i>Supplies</i> - \$31,562 (SGR) for blood and urine specimen/post-mortem kits made specifically for the State Police Crime Lab. The kits are ordered throughout the year due to expiration dates. The kits take 6 to 8 weeks to manufacture. The kits were ordered in May 2014 and should be received in August 2014.</p> <p><i>Supplies</i> - \$13,987 (SGR) for DNA collection kits that are supplied to LA law enforcement statewide. The kits contain barcodes specifically related to the State Police Crime Lab. The kits were ordered 5/5/2014 and should be received in August 2014.</p> <p><i>Supplies</i> - \$9,600 (SGR) for proficiency tests for yearly accreditation requirements. The tests were ordered 3/19/2014 and should be received in September 2014.</p> <p><i>Other Charges</i> - \$152,750 (IAT) for tower relocation and associated hardware in Gray, LA, near Troop C, which will add coverage to an area not presently covered by the LWIN system. The delay was due to problems</p>	\$0	\$182,990	\$55,149	\$0	\$0	\$0	\$238,139

		with weather and processing of licenses and permits. The area is without LWIN coverage at the moment and will be until the tower is brought online. The estimated completion date is 8/15/2014.							
CF 25	08B - 422 Public Safety State Fire Marshal	<p>The State Fire Marshal is requesting approval to carry-forward \$250,000 IAT and \$297,179 statutorily dedicated LA Fire Marshal Fund for the redesign of the State Fire Marshal’s computer system, a cooperative endeavor agreement with the city of Westwego, and personnel uniforms. The expenditures are as follows:</p> <p><i>Professional Services</i> - \$250,000 (IAT) for a contract to create a web-based system to replace the current SMART system for licensing, investigations, fines, and other uses for the Office of State Fire Marshal. The source of IAT is FEMA Hazard Mitigation Grant funds from the Governor’s Office of Homeland Security and Preparedness (GOHSEP). The contract began 4/1/2014 and will end 6/30/2015. Due to technical reviews, the contract was delayed 1 month. Each division of the State Fire Marshal’s office needed to review and understand how the system will work.</p> <p><i>Other Charges</i> - \$225,000 from the LA Fire Marshal Fund for the cooperative endeavor agreement with the City of Westwego. The city is still being reimbursed for the planning of a new fire station. The agreement was delayed as a result of the first version of the agreement not getting approval from the Office of Contractual Review. A subsequent agreement was approved on 2/21/2014. The agreement will end on 4/30/2015.</p> <p><i>Other Charges</i> - \$72,179 from the LA Fire Marshal Fund for uniforms for Fire Marshal deputies. The order consisted of 220 trousers and 2 types of shirts and 110 jackets, rain pants, dress hats, hat badges, name plates, rank insignia pins, neckties, and shoulder covers. Each deputy receives 4 Class B uniforms, 2 Class A uniforms, and 1 set of accessories for Class A and B uniforms. Class A uniforms consist of a pant, long sleeve shirt, and short sleeve shirt. Class A accessories consist of a rain coat, rain pant, dress hat, badges, name plate, rank insignia, necktie, and shoulder cover. Class B uniforms consist of a pant, undershirt, and short sleeve shirt. Class B accessories include a cap, belt, and winter coat. The cost of Class A uniforms is \$190 and accessories are \$391. The cost of Class B uniforms is \$126 and accessories are \$150. The uniforms were ordered on 6/28/2014 and are expected to arrive in August 2014.</p>	\$0	\$250,000	\$0	\$297,179	\$0	\$0	\$547,179

<u>Agenda #</u>	<u>Schedule #</u> <u>Dept./Agy.</u>	<u>Item Description</u>	<u>SGF</u>	<u>IAT</u>	<u>SGR</u>	<u>DED</u>	<u>IEB</u>	<u>FED</u>	<u>Total</u>
		LA Schools for the Deaf & Visually Impaired							
		LSDVI has a purchase order with Union Service and Maintenance Co. (\$91,023) to replace an air handling unit in the Administration Building (Elementary Cafeteria) and a purchase order with Ike Smith Electric Shop Inc (\$24,100) to replace a high voltage electrical transformer at the PE football stadium.							
		The above items were not received prior to the end of the fiscal year.							
CF 42	19B - 655 Special Schools & Comm. LA Special Education Center (LSEC)	<p>The purpose of this BA-7 request is to carry-forward \$183,032 in IAT for the LA Special Education Center (LSEC). The source of funds is federal Medicaid funds from the Department of Health & Hospitals. The funds will be used for acquisitions as follows:</p> <p>LSEC has a purchase order with Kwalu (\$144,550) for furniture for the new boy’s dormitory that is near completion. The furniture was ordered on 3/18/2014 and was not delivered prior to 6/30/2014. LSEC has a purchase order with Amazon (\$20,200) for 42 television sets for the new boy’s dormitory. The televisions were ordered on 3/19/2014 and were not delivered prior to 6/30/2014. The original scheduled completion date for the dormitory was June 2014, so the furniture and televisions were ordered in March 2014. Because of delays in construction, the completion was pushed forward to FY 15. The agency did not have a place to store the ordered items, so the vendor was asked to hold off on deliveries until completion of construction.</p> <p>LSEC has a purchase order with Numotions for (\$18,282) for a power tilt wheelchair for one of the school’s students. The wheelchair was ordered on 6/26/2014 and was not delivered prior to 6/30/2014.</p>	\$0	\$183,032	\$0	\$0	\$0	\$0	\$183,032

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutory dedicated budget authority for the Natural Resource Restoration Trust Fund (\$112,960,765) and the Oil Spill Contingency Fund (\$33,315,163) within the LA Oil Spill Coordinator's Office (LOSCO) in order to fund the continued response, damage assessments and early restoration projects related to the Deepwater Horizon Event (April 20, 2010). The majority of the anticipated expenditures will be utilized to pay for scientists, clean up costs, litigation costs and other various ongoing expenditures related to the oil spill as well as fund early restoration projects currently appropriated in Act 25 (HB 2). See companion BA-7s B through K.

The specific LOSCO expenditures included in the BA-7 request are as follows:

\$436,440 Salaries - anticipated 3,592 overtime hours for 8 individuals working on BP Oil Spill related litigation and damage assessments (Natural Resource Damage Assessment - NRDA). NRDA is an environmental investigation by state designated trustees to identify impacts to natural resources and plan restoration of natural resources as a result of oil spills and hazardous substances.

\$448,680 Other Compensation - compensation funding split among 15 various temporary positions working that equates to 3 FTEs. The positions are attorneys, coastal resource program specialists and administrative support personnel all providing support to the oil damage assessment effort.

\$314,880 Related Benefits - various FICA costs incurred due to paying other compensation employees and overtime.

\$31,543,286 Other Charges - various contractors that provide damage assessment services including legal services, laboratory, analytical services and scientific services regarding the oil spill event and NRDA. The anticipated other charges expenditure amount is based upon prior year historical projections.

\$113,532,642 IAT Expenditure Category - Resources being sent to various state agencies to fund early restoration projects or to reimburse oil spill related expenditures at the Department of Natural Resources, CPRA, Department of Environmental Quality and Wildlife & Fisheries. State oil response and damage assessment expenditures are being funded with the Oil Spill Contingency Fund while early restoration projects and NRDA expenditures are being funded with the Natural Resource Restoration Trust Fund monies.

The majority of IAT expenditure category funds (\$78.1 M) are Natural Resource Restoration Trust Fund monies of which \$73.6 M is being sent to the CPRA for Early Restoration Projects (funded in capital outlay - Act 25) and \$4.6 M is being sent to Wildlife & Fisheries for an oyster hatchery early restoration project.

According to the CPRA, the \$73.6 M funded in Act 25 (HB 2) are broken down by project as follows: \$1.9 M - Lake Hermitage, \$1.5 M - Cheniere Ronquille Barrier Island Restoration, \$36.7 M - Shell Island West, \$31 M - Cailou Lake Headlands, \$2.5 M - North Breton Island. According to State Treasury, the current fund balance of the Natural Resource Restoration Trust Fund is approximately \$13.3 M. According to DPS, the early restoration projects are funded on a reimbursable basis. Thus, the expenditures must be incurred first before the expenditures are reimbursed by BP via this fund.

July 18, 2014

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

The remaining IAT expenditure category funds (\$36.2 M) are being sent to various state agencies for reimbursement of costs incurred for state expenditure related to damage assessment (NRDA expenditures), litigation costs (Attorney General - ongoing BP litigation costs) and Pollution Removal Funding Authorization (PRFA). The PRFA is the federal authorization that allows the federal Oil Spill Liability Trust Fund to be utilized for reimbursement of costs incurred due to pollution response efforts.

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. According to DPS, NRDA specific reimbursement expenditures are paid from the Natural Resource Restoration Trust Fund. *See Table below for a complete breakdown included in the requested BA-7 by specific statutory dedicated fund and how much funding is anticipated to be expended by state agency.*

Agency	Natural Resource Restoration Trust Fund	Oil Spill Contingency Fund	Total
DEQ	\$18,587	\$681,513	\$700,100
DNR	\$20,000	\$0	\$20,000*
WLF	\$2,105,023	\$881,172	\$2,986,195
CPRA	\$16,221,166	\$1,000,925	\$17,222,091
DOJ	\$0	\$15,013,152	\$15,013,152
Office of Coastal Activities	\$230,000	\$0	\$230,000**
WLF (HB 2 Projects)***	\$4,578,570	\$0	\$45,78,570
CPRA (HB 2 Projects)***	\$72,782,534	\$0	\$72,782,534*
TOTAL IAT Exp. Category Req.	\$95,955,880	\$17,576,762	\$113,532,642*
LOSCO	\$17,004,885	\$15,738,401	\$32,743,286
TOTAL BA-7 Req.	\$112,960,765	\$33,315,163	\$146,275,928

**The companion BA-7s as originally submitted does not balance to the requested IAT expenditure category included in the BA-7 request by DPS. Based upon the companion BA-7s for DNR and CPRA the total amount of funding DPS anticipates sending to these agencies is understated by a total of \$1,049,386. DNR is understated by \$276,000 as the total of its BA-7 request is \$296,000 (BA-7s #1F & #1G) and not \$20,000 and the amount of funding needed to be sent to CPRA for early restoration projects included in Act 25 (HB 2) is understated by \$773,386. Due to all of the companion BA-7s being correct, this BA-7 (#1A) should be increased by \$1,049,386 or expenditures within this request should be realigned to balance with the amount being expended by the partner state agencies.*

***LOSCO anticipates sending \$230,000 of Natural Resource Restoration Trust Fund resources to the Governor's Office of Coastal Activities in FY 15. According to the Governor's Office, there is no need for a companion BA-7 as they have excess FY 15 IAT budget authority available at this time to accept these funds.*

****Under the Early Restoration Settlement with the 5 impacted Gulf States and before the NRDA is completed, BP paid \$1 B total for the implementation of such projects of which Louisiana has access to approximately \$370 M. Depending upon the project, these funds will flow to either the CPRA, Wildlife & Fisheries or the National Oceanic & Atmospheric Administration (NOAA). The \$370 M will fund the following projects: outer restoration projects (\$318 M), marine fishing enhancement, research & science center project (\$22 M), oyster clutch project (\$15 M) and Lake Hermitage Marsh Creation project (\$13.9 M). This BA-7 request appropriates \$90.4 M of the \$370 M allocated to Louisiana.*

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon DPS realigning its requested expenditures by reducing \$1,049,386 within other charges (LOSCO) and increasing its IAT expenditure category (companion BA-7s) in a like amount. According to DPS, realigning expenditures within this BA-7 request is anticipated to have no fiscal impact as the adjusted other charges are within historical expenditures.

To the extent DPS realigns the expenditures within this budget request, the updated amount of resources sent by DPS to the various state agencies is reflected below. The numbers that have changed from the previous table above are in **bold**.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Justice

AGENDA NO.: 1B

AGENCY: Attorney General

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$15,013,152	Civil Law	\$15,013,152	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$0	0
Statutory Dedications:	\$0	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$15,013,152</u>	Total	<u>\$15,013,152</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #1A on the agenda. The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$15,013,152 in order to receive monies from the Oil Spill Contingency Fund via the Department of Public Safety in order to perform duties associated the Deepwater Horizon event (April 20, 2010).

The requested funding will be utilized to provide for the ongoing BP litigation costs. The state is seeking recovery from BP for all expenditures incurred by the state in response to the oil spill and recovery for damages to Louisiana's economy and natural resources. Since FY 10 the Attorney General has expended approximately \$44.7 M on legal expenses due to the Oil Spill litigation (FY 10 - \$612,864, FY 11 - \$6.7 M, FY 12 - \$12.1 M, FY 13 - \$8.8 M, FY 14 - \$16.3 M).

Approximately \$14.4 M of this BA-7 request will be used to provide legal expenses and expert witnesses. Based upon information provided to the LFO by the Attorney General, there are approximately 20 active legal services and expert witness contracts in place currently for oil spill litigation.

The balance of the funding request (\$651,740) is for salaries (\$277,890), related benefits (\$116,850), travel (\$7,000) and other charges (\$250,000). The personal services costs (salaries - \$277,890, related benefits - \$116,850) will be incurred with existing agency personnel (5 to 10 individuals) who currently are working on multiple cases, including BP, all at one time. The \$250,000 of other charges expenditures are associated with discovery, filings, transcript and research charges.

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. According to DPS, NRDA specific reimbursement expenditures are paid from the Natural Resource Restoration Trust Fund.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. However, the DOJ will likely incur ongoing legal costs in subsequent fiscal years until there either a trial or settlement. At this time, no trial date has been set.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$800,000</u>	Total	<u>\$800,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #1A on the agenda. The purpose of this BA-7 request is to increase IAT budget authority by \$800,000 in order to pay for anticipated expenditures and reimbursements resulting from the Deepwater Horizon oil spill incident. The Office of Management and Finance (OMF) has a professional services contract with Postlethwaite & Netterville (P&N) to assist in preparing reimbursement requests related to Pollution Removal Funding Authorization (PRFA) and Natural Resource Damage Assessment (NRDA) activities completed by the department. These requests are submitted to the Department of Public Safety (DPS).

The Department of Wildlife & Fisheries will budget these funds as follows:

Salaries - \$43,000 (2 positions to work with P&N in processing reimbursement requests)

Other Compensation - \$6,000 (2 WAE appointments)

Related Benefits - \$1,000 (retirement, Medicare, insurance)

Professional Services - \$750,000 (P&N contract for processing reimbursement requests for eligible expenses such as personnel costs, travel, supplies, and equipment maintenance)

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. According to DPS, NRDA specific reimbursement expenditures are paid from the Natural Resource Restoration Trust Fund.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Total	<u>\$6,078,965</u>	Total	<u>\$6,078,965</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #1A on the agenda. The purpose of this BA-7 request is to increase IAT budget authority by \$1,500,395 to receive reimbursements from the Department of Public Safety (DPS) for Natural Resource Damage Assessment (NRDA) activities performed by the Office of Fisheries in response to the Deepwater Horizon oil spill incident. These activities include creating, implementing and monitoring the assessment of the damage to fisheries resulting from the spill. This funding will be used to provide consultant and advisory services on the conservation of LA's seafood industry and to develop and implement methods of protecting natural resources at risk, including consulting on boom placement. These funds will also be used to conduct field investigations to identify potential threats to fish habitats due to the unauthorized discharges of oil.

Additionally, this BA-7 requests authority for Early Restoration construction projects such as completion of an oyster hatchery and a marine science center in the amount of \$4,578,570. These projects will be completed by the Office of Facility Planning & Control. Total costs of the projects are estimated to be \$15 M for the oyster hatchery and \$22 M for the marine science center.

The Department of Wildlife & Fisheries will budget these funds as follows:

Salaries - \$306,000 (Due to no positions being dedicated completely to oil spill recovery within this agency, 54 existing agency personnel, who have multiple job duties, will have a portion of their salaries paid by these oil spill reimbursements)

Other Compensation - \$409,900 (Due to no other compensation positions being dedicated completely to oil spill recovery within this agency, 43 existing other compensation positions, who have multiple duties, will have a portion of their compensation paid by these oil spill reimbursements)

Related Benefits - \$468,086 (retirement, Medicare, insurance)

Travel - \$14,000 (Oil spill/NRDA related travel)

Operating Services - \$105,000 (rental vehicles, vehicle and boat maintenance, lab fees, cell phone and radio fees, hazing canon rentals)

Supplies - \$197,409 (vehicle fuel, boat fuel, maintenance supplies, office and laboratory supplies)

Interagency Transfers - \$4,578,570 (W&F transfer to capital outlay for \$3 M for a new oyster hatchery and \$1.5 M for a marine science center)

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. According to DPS, NRDA specific reimbursement expenditures are paid from the Natural Resource Restoration Trust Fund.

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #1A on the agenda. The purpose of this BA-7 request is to increase IAT budget authority in order to receive reimbursements from the Department of Public Safety (DPS) for Natural Resource Damage Assessment (NRDA) and Pollution Removal Funding Authorization (PRFA) activities as well as long term monitoring of the effects of the oil spill performed by the Office of Wildlife in response to the Deepwater Horizon oil spill incident. This funding will be used for monitoring of wildlife habitats and gather documentation of wildlife habitats impacted and assessing impacts from the unauthorized discharge of oil on fish and wildlife resources.

The Department of Wildlife & Fisheries will budget these funds as follows:

Salaries - \$179,000 (9 existing employees completely dedicated to oil spill recovery)

Other Compensation - \$264,000 (wages for job appointments, 15 biologists & 1 administrative position)

Related Benefits - \$153,000 (retirement, Medicare, insurance)

Travel - \$20,000 (Oil spill/NRDA/PRFA related travel)

Operating Services - \$43,500 (rental vehicles, maintenance of equipment)

Supplies - \$22,000 (vehicle fuel, boat fuel, maintenance supplies, office and laboratory supplies)

Professional Services - \$1,150 (percentage of fees for Postlethwaite & Netterville contract for preparation of reimbursement requests related to the Deepwater Horizon oil spill)

Other Charges - \$3,150 (Utilizing existing job appointments to assist in oil spill response)

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. According to DPS, NRDA specific reimbursement expenditures are paid from the Natural Resource Restoration Trust Fund.

The purpose of this BA-7 request is to increase IAT budget authority in order to receive monies from the Oil Spill Contingency Fund and the Natural Resource Restoration Trust Fund via the Department of Public Safety in order to perform duties associated the Deepwater Horizon event (April 20, 2010).

The \$121,000 anticipated expenditures are for salary, related benefits, travel and supply costs associated with Coastal Management Staff Scientists assisting the Department of Environmental Quality (DEQ) with resurveying the shorelines of the oil spill impacted areas, documenting oiling conditions, monitoring the cleanup operations, reviewing all Shoreline Inspection Reports and participating in weekly meetings with state and local officials to address issues brought to their attention by landowners. The total number of DNR staff scientists assigned to these functions is 4 individuals. However, the FTE equivalent of the workload of these individuals is 2. These scientists have other responsibilities within the department.

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #1A on the agenda. The purpose of this BA-7 request is to increase IAT budget authority in order to receive monies from the Oil Spill Contingency Fund and Natural Resource Restoration Trust Fund via the Department of Public Safety in order to perform duties associated the Deepwater Horizon event (April 20, 2010).

The \$175,000 anticipated expenditures are administrative costs conducted by a contractor who provides accounting and record keeping support to the department and the Coastal Protection & Restoration Authority (CPRA) in collecting information and documentation for BP related projects submitted for reimbursement. This record keeping and financial tracking is necessary in order for DNR to receive reimbursement for the expenditures incurred for field operation staff at DNR and CPRA working in response to the BP Oil Spill.

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. According to DPS, NRDA specific reimbursement expenditures are paid from the Natural Resource Restoration Trust Fund.

Self-Generated Revenue:	\$0	Coastal Protection & Restoration	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$17,222,091</u>	Total	<u>\$17,222,091</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #1A on the agenda. The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$17,222,091 in order to receive monies from the Oil Spill Contingency Fund (\$1,000,925) and Natural Resource Restoration Trust Fund (\$16,221,166) via the Department of Public Safety in order to perform duties associated the Deepwater Horizon event (April 20, 2010).

The requested \$17.2 M of additional budget authority is anticipated to be expended on the following:

\$316,028 Other Compensation - the agency currently has 7 Non-TO positions working on National Resource Damage Assessment (NRDA) projects. These positions are not in the agency's regular TO and will fluctuate between attorney positions and coastal scientists depending upon the needs of the agency. NRDA is an environmental investigation by the state to identify impacts to natural resources and plan restoration of natural resources as a result of oil spills and hazardous substances.

\$16,871,063 Other Charges - the majority of these anticipated expenditures (\$12.2 M) are associated with the operating expenditures (engineering, planning and environmental study costs) of the Early Restoration Projects that are not funded in Act 25 (HB 2). Act 25 (HB 2) only includes the project expenditures while Act 15 (HB 1) still includes the operating costs of the projects.

The remaining \$4.7 M of anticipated other charges expenditures are for potential contractor expenditures associated with NRDA assessment expenditures. Most of these contractors will likely be conducting water sample testing as well as maintaining all the data from these assessment tests. The \$4.7 M is a historical projection based upon prior year expenditures. The only known contractor in place currently is with an engineering firm who maintains all the data collections.

\$35,000 Travel, Operating Services and Supplies - various operating costs associated with staff attending several NRDA meetings (travel), audio visual needs for such meetings (operating services) and miscellaneous office supplies.

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. According to DPS, NRDA specific reimbursement expenditures are paid from the Natural Resource Restoration Trust Fund.

Note: Under the Early Restoration Settlement (early restoration projects) with the 5 impacted Gulf States and before the NRDA is completed, BP paid \$1 B total for the implementation of such projects of which Louisiana has access to approximately \$370 M. Depending upon the project, these funds will flow to either the CPRA, Wildlife & Fisheries or the National Oceanic & Atmospheric Administration (NOAA). The \$370 M will fund the following projects: outer restoration projects (\$318 M), marine fishing enhancement, research & science center project (\$22 M), oyster clutch project (\$15 M) and Lake Hermitage Marsh Creation project (\$13.9 M).

Federal Funds:	\$0			
Total	<u>\$647,373</u>	Total	<u>\$647,373</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request (Companion to #1A) is to increase IAT budget authority in the amount of \$647,373 to receive monies from the Oil Spill Contingency Fund from the Department of Public Safety (DPS) to perform long-term targeted shoreline monitoring and mitigation activities associated with Pollution Removal Funding Authorization (PRFA) resulting from the Deepwater Horizon oil spill event (April 20, 2010).

Environmental scientists and environmental scientist supervisors in the Office of Environmental Compliance will provide the following field monitoring services with \$582,360 in funding requested in this BA-7: 1) Participate in field monitoring teams to observe and document oil residue on the beaches and in vegetation. 2) Assist and collaborate in documentation of field observations with BP Personnel. 3) Report daily observations. 4) Assist in scheduling field personnel. Funding for field monitoring services includes the following components: salaries and related benefits for 7 employees (\$399,360), travel (\$84,000), and supplies (\$99,000). In salaries and related benefits, \$277,204 represents reimbursements of base pay and benefits to these 7 employees and \$122,150 represents overtime pay and benefits.

Environmental scientists in the Office of Environmental Compliance will also provide the following technical review/assistance services with \$65,013 in funding requested in this BA-7: 1) Assist with the review of field monitoring results/data. 2) Assist with scheduling field personnel. 3) Provide other assistance as requested. Funding for technical review/assistance services includes \$65,013 for salaries and related benefits for 2 employees. Of this amount, \$45,127 represents reimbursements of base pay and benefits to these 2 employees and \$19,886 represents overtime pay and benefits.

Due to DPS being the lead agency for the State (as it contains the Oil Spill Coordinator's Office), state agencies submit reimbursement documents to DPS who then submit documents to the Federal Oil Spill Liability Trust Fund. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund and DPS pays these funds to the various state agencies. According to DPS, NRDA specific reimbursement expenditures are paid from the Natural Resource Restoration Trust Fund.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate additional SGR budget authority in the amount of \$175 M in order to pay projected medical and prescription drug claims payments from May 2014 until the end of FY 14. The current FY 14 budget is \$1,287,814,236. OGB originally requested in its FY 14 budget request total budget authority of \$1,536,607,972. However, its FY 14 total appropriated amount was approximately \$248.8 M less than what was initially requested, which has resulted in a budget shortfall.

As of 5/5/2014, the OGB has expended \$1,198,207,402 in FY 14, which equates to spending approximately \$120 M per month. OGB only has \$89.6 M of unexpended SGR budget authority left in FY 14. Based upon the average per month expenditure activity, the OGB needs at least \$150 M of additional budget in order to pay its expenses for the remainder of FY 14. See LFO calculations below.

FY 14 Expenditures Through 5/5/2014	\$1,198,207,402
FY 14 Average Monthly Expenditures	\$119,820,740 per month
FY 14 Projected Expenditure Need for May & June based average monthly expenditures	\$239,641,480
LESS: FY 14 Remaining existing SGR budget authority	<u>(\$89,606,834)</u>
FY 14 Projected additional SGR authority	\$150,034,646

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. Note: To the extent this BA-7 request is not annualized in the FY 15 budget, OGB may have to request a similar increase in budget authority next May.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office has no recommendation at the time of this writing. The LFO has requested additional information from the Division of Administration (DOA) and the OGB which includes the following: 1.) a copy of the latest actuarial report by OGB's contract actuary, 2.) a specific breakdown of the \$175 M by claim (medical claims/prescription drug claims), 3.) an explanation as to why the monthly expenditures of OGB have increased by 10% from \$109.1 M per month in FY 13 to \$119.8 M per month in FY 14, 4.) a copy of OGB's latest financial statements for FY 14 and 5.) an explanation as to why OGB needs the additional \$25 M in authority when LFO calculations equate to \$150 M.

AGENDA NO.: 1

AGENCY: Group Benefits

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	State Group Benefits	\$130,000,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$130,000,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$130,000,000</u>	Total	<u>\$130,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate additional SGR budget authority in the amount of \$130 M in order to pay projected medical and prescription drug claims payments from May 2014 until the end of FY 14. The current FY 14 budget is \$1,288,214. OGB originally requested in its FY 14 budget request total budget authority of \$1,536,607,972. However, its FY 14 total appropriated amount was approximately \$248.8 M less than what was initially requested, which has resulted in a budget shortfall.

Through the end of April, the OGB has expended \$1,203,825,487 in FY 14, which equates to spending approximately \$120.4 M per month. Thus, as of 5/1/2014, OGB had only \$84.4 M of unexpended budget authority, which has been reduced to \$24.8 M of unexpended authority. Based upon the average per month expenditure activity, the OGB needs \$156.4 M of additional budget in order to pay its expenses for the remainder of FY 14.

See LFO calculations below.

FY 14 Expenditures (as of April 30, 2014)	\$1,203,825,487
FY 14 Average Monthly Expenditures	\$120,382,549 per month
FY 14 Existing Operating Budget	\$1,288,214,726
FY 14 Proj. Expenses based upon Ave. monthly expenditures	<u>\$1,444,590,584</u>
Total Anticipated Expenditures for May & June	\$156,375,858

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. Note: To the extent this BA-7 request is not annualized in the FY 15 budget, OGB may have to request a similar increase in budget authority next May.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Joint Legislative Committee on the Budget (JLCB) approved in this amount in the amount of \$130 million contingent upon the Office of Group Benefits (OGB) working with the Legislative Fiscal Office (LFO) and a subcommittee appointed by the chairman to verify the information provided to the LFO by the OGB. No expenditures are allowed to be expended until the LFO reports its findings to the subcommittee.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Treasury

AGENDA NO.: 2

AGENCY: State Treasury

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$5,495,800	0
Interagency Transfers:	\$0	Financial Accountability & Control	\$0	0
Self-Generated Revenue:	\$510,005	Debt Management	\$0	0
Statutory Dedications:	\$4,985,795	Investment Management	\$0	0
Federal Funds:	\$0			
Total	<u>\$5,495,800</u>	Total	<u>\$5,495,800</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget additional expenditure authority within State Treasury from the Geaux Pass Transition Fund (\$4,985,795) and the administrative expenditures (\$510,005) from SGR associated with returning Geaux Pass account funds. Pursuant to Act 247 of 2013, on 7/1/2013 the Department of Transportation & Development (DOTD) transferred \$7,285,796 from the Geaux Pass accounts for deposit into the newly created Geaux Pass Transition Fund to be returned to the rightful owners by State Treasury's Unclaimed Property Program. The \$7.3 M include: \$2.5 M in Geaux Pass accounts, \$1.4 M in tag deposits received for toll tag reader devices, \$1.1 M in toll collections charged against the Geaux Pass accounts from 1/1/2013 to 3/5/2013 and \$2.2 M cash tolls paid.

In Act 14 (HB 1) of 2013, State Treasury was appropriated \$2.3 M from the Geaux Pass Transition Fund. Based upon current monies returned to owners, anticipated returns to owners and due to the deadline to return funds by 6/30/2014, State Treasury is requesting the additional \$4.9 M in authority. According to State Treasury, approximately 21,000 claims from toll refunds are completed and anticipates paying an additional 167,000 in claims by 6/30/2014. The average claim to date is approximately \$41 per claim with claims ranging from \$0.20 cents to \$100.

The \$510,005 in SGR will be utilized to fund the administrative expenditures associated with returning these Geaux Pass funds. State Treasury anticipates budgeting these funds as follows:

\$100,000	advertising expenditures (TV spots, radio stations, newspaper ads)
\$100,000	6 temporary employees
\$50,000	supplies (computer paper, toner, pens, miscellaneous office supplies)
<u>\$260,005</u>	operating services (check stock, signs for mall events, copier rentals, mall event space rent, etc.)
<u>\$510,005</u>	TOTAL

Typically, State Treasury deposits 93% of unclaimed property receipts into an escrow fund (from which unclaimed property claims are paid) and the remaining 7% is available to the State Treasury for administrative costs of the program (R.S. 9:165). However, State Treasury will not be utilizing this practice for returning these Geaux Pass funds and will utilize its general departmental SGR collections to pay for these administrative costs.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Note: Pursuant to Act 247 of 2013, any remaining funds not claimed by 6/30/2014 shall be used for the operation and maintenance of the bridge including 30% appropriated to DOTD for the operational and maintenance costs for the New Orleans ferries formerly operated by the Crescent City Connection Division (CCCD) and the remaining monies appropriated to the New Orleans Regional Planning Commission for lighting, ground improvements and landscaping.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0	SU - New Orleans	\$0	0
Federal Funds:	\$0	SU - Shreveport	\$0	0
		SU - Agricultural Research & Extension Ctr	\$0	0
Total	<u>\$511,675</u>	Total	<u>\$511,675</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$511,675 at the Southern University Law Center due to funds carried-forward from FY 13 by authority granted by the LA Granting Resources and Autonomy for Diplomas (LA GRAD) Acts. L.R.S. 17:3139.5 (5)(i) and 17:3386 E allow institutions to retain unexpended and unobligated funds at the end of the fiscal year for use at the institution's discretion subject to Legislative appropriation or JLCB approval. The sources of these SGR revenues are primarily tuition and mandatory fees for students enrolled at the Southern Law Center.

The Southern Law Center plans to use the funds for the following purposes:

\$155,250 - Salaries and related benefits for adjunct instructors and compensation for current faculty teaching extra courses.

\$201,425 - Operating Services including advertising, dues and subscriptions, and maintenance of buildings, property and equipment.

\$155,000 -Major Repairs including improvements to the law library, partitioning of academic counselor testing area between counselor offices to increase privacy, building security and compliance with the Americans with Disabilities Act (ADA).

II. IMPACT ON FUTURE FISCAL YEARS

Compensation and related benefits for adjunct instructors and compensation for current faculty teaching extra courses are likely to be ongoing expenses in future fiscal years unless enrollment declines or the number of students per course increases. Furthermore, operating services such as insurance premiums, janitorial supplies, and security services are also likely to be ongoing expenses in future fiscal years. HB 1 includes an anticipated increase of \$579,070 in tuition and mandatory fees in FY 15 at the Law Center authorized by the LaGrad Act. This increase will fund ongoing costs associated with this BA-7 in FY 15.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$2 M in SGF and \$6,104,409 in statutorily dedicated funds from the Overcollections Fund from the Southern University (SU) Board of Supervisors to the following institutions: Southern Agricultural Center (\$2 M from SGF), Southern A&M (\$4,304,409 from Overcollections) and Southern Law Center (\$1.8 M from Overcollections).

The Southern Ag Center will use the \$2 M in SGF for the following purposes: road improvements to Experiment Station and Livestock Show Arena (\$415,000), Experiment Station land/farm and updates/improvements (\$430,000), Finance Building lot pavement (\$30,000), Urban Agriculture Research Centers (\$330,000), repairs to waterfall at entrance to A. O. Williams Building (\$15,000), security system for Research Farm and Edmond A. Arena (\$280,000), electronic reporting system for Research and Extension programs (\$40,000), Urban Agriculture Research Center Demonstration Farm (\$330,000) and the Delta Obesity Prevention Research Unit (\$130,000).

Southern A&M will use the \$4,304,409 from the Overcollections Fund for the following purposes: salaries/related benefits for adjunct instructors and compensation for current faculty teaching extra courses (\$3,518,409), operating services (\$600,000), supplies (\$86,000) and professional services (\$100,000).

The Southern Law Center will use the \$1.8 M from the Overcollections Fund for the following purposes: replacement of an "A Frame" metal roof (\$1.3 M), renovations to the Atrium Student Center (\$350,000) and mold remediation (\$150,000).

II. IMPACT ON FUTURE FISCAL YEARS

Compensation/related benefits for adjunct instructors and compensation for current faculty teaching extra courses at Southern A&M are likely to be ongoing expenses in future fiscal years unless enrollment declines or the number of students per course increases. Furthermore, operating services, supplies and professional services at Southern A&M may also be ongoing expenses in future fiscal years.

Statutory Dedications:	\$200,721	Atchafalaya Basin	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$200,721</u>	Total	<u>\$200,721</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority for the Fishermen's Gear Compensation Fund in the amount of \$200,721 in order to pay claims (\$120,471) and Attorney General expenses for the collection of late fee payments (\$80,250) for the remainder of the fiscal year. The Fisherman's Gear Compensation Fund pays qualified commercial fisherman who file claims for losses (up to \$5,000) to their vessels and/or equipment as a result of hitting or snagging underwater obstructions within the waters of the LA Coastal Zone. To fund the Fishermen's Gear Compensation Fund, a fee of \$1,000 is levied upon each lessee of a state mineral lease and each grantee of a state right-of-way which is located within the coastal zone boundary.

The Fishermen's Gear Compensation Fund has an FY 14 budget of \$843,022. A total of \$756,069 has been expended for claims and operating expenses associated with the fund, which leaves remaining budget authority of \$86,953 (\$843,022 - \$756,069) for the remainder of the fiscal year. Of the \$200,721 requested in this BA-7, \$80,250 would be used to pay the Attorney General for collection of late fee payments that have been recovered since the January JLCB meeting and \$120,471 would be used to pay claims. The \$120,471 will be used in addition to the remaining \$86,953 to pay claims.

During the January 2014 JLCB meeting, an increase to the DNR budget was approved for \$210,200 to pay for an increased number of claims. The original BA-7 request amount (\$287,450) was decreased by \$77,250 because the amount of late payments the Attorney General's Office would collect was unknown at that time.

The \$80,250 is the amount owed to the Attorney General as a result of the Attorney General collecting \$321,000 in late fee payments from January 2014 to March 2014. In total for FY 14, late fee payments have been collected in the amount of \$710,000 by the Attorney General. For the collection of unpaid fees, the Attorney General receives 25% of the amount collected (\$177,500). It should be noted that the total remaining amount of late fee payments yet to collected is \$1,059,750. It is unknown how much of this amount will be collected in FY 14. However, the Attorney General will receive 25% of whatever is collected.

The current balance of the fund as of 4/3/2014 is \$1,137,122. Upon approval of this BA-7, the fund will have an unappropriated balance of approximately \$861,500.

<u>Fiscal Year</u>	<u>Number of Claims</u>	<u>Total Claims Paid</u>	<u>Average Amount per Claim</u>
FY 11	116	\$234,237	\$2,019
FY 12	79	\$340,694	\$4,313
FY 13	112	\$446,443	\$4,147
FY 14 (to date)	91	\$407,291	\$4,476

Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$4,165,773</u>	Total	<u>\$4,165,773</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Civil Program in the amount of \$4,165,773 in order for the program to continue daily operations for the remainder of the fiscal year. Due to budget development errors, \$4.2 M was reduced from the Civil Program and this request corrects the errors.

Of the \$4.2 M SGR request, \$1.02 M is Mortgage Settlement/Chinese Drywall funding and \$3.14 M is SGR. The \$4.2 M will be used to cover the Professional Services (legal) contracts within the Civil Program. Upon approval of the BA-7, there will be approximately \$4.6 M in Mortgage Settlement money available for fiscal years FY 15 and FY 16.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority for the Fishermen's Gear Compensation Fund in the amount of \$287,450 in order to pay claims and fund expenses for the remainder of the fiscal year. The Fisherman's Gear Compensation Fund pays qualified commercial fisherman who file claims for losses (up to \$5,000) to their vessels and/or equipment as a result of hitting or snagging underwater obstructions within the waters of the LA Coastal Zone. To fund the Fishermen's Gear Compensation Fund, a fee of \$1,000 is levied upon each lessee of a state mineral lease and each grantee of a state right-of-way which is located within the coastal zone boundary.

The Fishermen's Gear Compensation Fund has an FY 14 budget of \$632,822. A total of \$537,166 has been expended for claims and operating expenses associated with the fund, which leaves a budget of \$95,656 (\$632,822 - \$537,166) for the remainder of the fiscal year, of which \$50,000 is available for claims payments. The agency anticipates an additional 50 claims to be paid for the remainder of the year at a cost of \$250,000 (50 claims x \$5,000 maximum claim amount). There are currently 35 claims pending that are being investigated as of 1/16/13. Also included in this request is \$200 for postage and operating costs. The request also provides for \$87,250 to pay the Attorney General for the collection of additional late payments, to the extent collections are made. The cost for the potential claims payments, investigator, operating costs, and collection fees for the remainder of the year total \$337,450 (\$250,000 claims + \$200 operating expenses + \$87,250 collection fees). Since there is approximately \$50,000 already budgeted (\$337,450 projected costs - \$50,000 budget) for claims, an increase of \$287,450 will be needed.

These additional claims and expenses will be paid for by late fee payments collected by the Attorney General. For companies or persons who do not pay the fee timely, the department turns the names and amounts over to the Attorney General for collection. For FY 14, late fee payments have been collected in the amount of \$349,000 by the Attorney General. For the collection of unpaid fees, the Attorney General received 25% of the amount collected (\$87,250). The remaining \$261,750 of collected fees is available in the fund, but has not been budgeted. The current balance of the fund as of 1/10/14 is \$942,042. Upon approval of this BA-7, the fund will have an unappropriated balance of approximately \$648,000.

<u>Fiscal Year</u>	<u>Number of Claims</u>	<u>Total Claims Paid</u>	<u>Average Amount per Claim</u>
FY 11	116	\$234,237	\$2,019

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$49,000</u>	Total	<u>\$49,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$49,000 in the LA Emergency Response Network (LERN). The IAT funds are from the LA Highway Safety Commission (LHSC), which will be used to increase the number of Emergency Medical Services (EMS) providers that submit data into the State EMS Registry. The source of IAT funds is a federal grant from the U.S. Department of Transportation/National Highway Traffic Safety Administration (NHTSA). Expenditures for this BA-7 request are as follows:

Other Charges (\$49,000)

LERN will contract to recruit and educate ambulance providers in the state to voluntarily submit electronic crash data into the EMS Registry. Although there are over 60 EMS providers in the state, only five EMS providers submit data into the EMS Registry. Data submitted into the EMS Registry will assist LERN in determining transport time, response time, time at the scene, types of injuries, and treatment regarding trauma, stroke and STEMI (heart attacks). In addition, data submitted into the registry will assist LHSC in comparing types and severity of injuries on specific highways in an effort to reduce fatal and injury crashes.

Contract Expenses:

Salary - \$41,000

Travel - \$ 8,000

Total - \$49,000

II. IMPACT ON FUTURE FISCAL YEARS

The subgrant from LHSC to LERN is a one-year grant totaling \$49,000. The grant period is from 10/01/13 through 09/30/14. The Division of Administration has indicated that the balance of \$28,583 that is not recommended in this proposed BA-7 request will be annualized in the FY 15 Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the reduced amount of \$20,417, which represents funding for the remaining 5 months in FY 14 (\$49,000/12 months x 5 months). The Division of Administration has indicated that the balance of \$28,583 will be annualized in the FY 15 Executive Budget.

Federal Funds:	\$0			
Total	<u>\$20,417</u>	Total	<u>\$20,417</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$49,000 in the LA Emergency Response Network (LERN). The IAT funds are from the LA Highway Safety Commission (LHSC), which will be used to increase the number of Emergency Medical Services (EMS) providers that submit data into the State EMS Registry. The source of IAT funds is a federal grant from the U.S. Department of Transportation/National Highway Traffic Safety Administration (NHTSA). Expenditures for this BA-7 request are as follows:

Other Charges (\$49,000)

LERN will contract to recruit and educate ambulance providers in the state to voluntarily submit electronic crash data into the EMS Registry. Although there are over 60 EMS providers in the state, only five EMS providers submit data into the EMS Registry. Data submitted into the EMS Registry will assist LERN in determining transport time, response time, time at the scene, types of injuries, and treatment regarding trauma, stroke and STEMI (heart attacks). In addition, data submitted into the registry will assist LHSC in comparing types and severity of injuries on specific highways in an effort to reduce fatal and injury crashes.

Contract Expenses:

Salary - \$41,000

Travel - \$ 8,000

Total - \$49,000

II. IMPACT ON FUTURE FISCAL YEARS

The subgrant from LHSC to LERN is a one-year grant totaling \$49,000. The grant period is from 10/01/13 through 09/30/14. The Division of Administration has indicated that the balance of \$28,583 that is not recommended in this proposed BA-7 request will be annualized in the FY 15 Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the reduced amount of \$20,417, which represents funding for the remaining 5 months in FY 14 (\$49,000/12 months x 5 months). The Division of Administration has indicated that the balance of \$28,583 will be annualized in the FY 15 Executive Budget.

DEPARTMENT: Health & Hospitals

AGENDA NO.: 4

AGENCY: Medical Vendor Payments

ANALYST: shawn hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	(\$31,575,408)	Private Providers	\$0	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$31,575,408	Uncompensated Care Costs	\$0	0
Federal Funds:	\$0	Recovery Funds	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to replace SGF with a like amount of Statutory Dedication revenues in the Payments to Private Providers Program, Medical Vendor Payments. The source of Statutory Dedication revenues is 2014 excess Amnesty revenue collections generated as a result of the LA Tax Delinquency Amnesty Act of 2013 (Act 421).

On January 15, 2014, the Revenue Estimating Conference (REC) adopted a reduction in the State General Fund (SGF) revenue forecast for FY 14. This BA-7 replaces the recognized SGF reduction with approximately \$31.5 M in excess Amnesty revenues collected over the \$200 M currently appropriated in the 2013 Amnesty Collections Fund within the Department of Health & Hospitals, Medical Vendor Payments. These revenues will be used as a state match source to draw federal financial participation to continue the appropriated level of medical vendor payments in FY 14.

II. IMPACT ON FUTURE FISCAL YEARS

It is unknown if the level of Amnesty collections appropriated for FY 14 in the Department of Health & Hospitals will be available and annualized in the FY 15 Executive Budget. To the extent the level of Amnesty revenues is not annualized in the FY 15 Executive Budget, additional SGF will be required to maintain the existing level of Medicaid payments.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Insurance

AGENDA NO.: 1

AGENCY: Commissioner of Insurance

ANALYST: Alan M. Boxberger

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative & Fiscal	\$150,423	0
Interagency Transfers:	\$150,423	Market Compliance	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$150,423</u>	Total	<u>\$150,423</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Interagency Transfer (IAT) budget authority for federal grant funds transferred from the Office of Elderly Affairs entitled, "The Medicare Improvements for Patients and Providers Act (MIPPA): Medicare Low Income Subsidy, Medicare Savings Program, and Medicare Prescription Drug Enrollment Assistance through the Aging Network, State Health Insurance Assistance Program, and Aging & Disability Resource Centers," in the amount of \$150,423. The grant's stated purpose is to provide for beneficiary outreach and includes funding to State Health Insurance Assistance Programs (SHIPs), Area Agencies on Aging (AAAs), Aging & Disability Resource Center programs (ADRCs), and to help coordinate efforts to inform older Americans about available Federal and State benefits. There is no state match requirement associated with the grant.

The funding will be used to enhance and expand outreach efforts provided by the LA Senior Health Insurance Information Program (SHIIP) with regard to Medicare eligibility. SHIIP provides Medicare beneficiaries with objective information to understand coverage options, rights and benefits. The department will utilize the funds in an effort to identify and reach beneficiaries who are likely eligible but not enrolled in Medicare Part D, the Low Income Subsidy (LIS) program, the Medicare Savings Program (MSP), and the preventative and wellness components of Medicare. Approval of the requested funding will enhance outreach to Medicare eligible citizens through the distribution of print advertising (flyers, brochures, and newspaper), training materials and statewide cable programming.

Expenditures (\$150,423):

Operating Services	\$32,207	Printing costs for training manuals, print media, postage
Professional Services	\$118,216	Local newspaper and major market print campaign, \$35,870; and Statewide Cable Access and Major Network broadcast programming, \$82,346

II. IMPACT ON FUTURE FISCAL YEARS

The grant term coincides with the federal fiscal year, ending in September of 2014. Any unexpended funds at the end of state Fiscal Year 13-14 may be carried forward for expenditure during the first quarter of state Fiscal Year 14-15.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: State

AGENDA NO.: 2

AGENCY: Secretary of State

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Elections	\$0	0
Self-Generated Revenue:	\$2,835,435	Archives & Records	\$0	0
Statutory Dedications:	\$0	Museum & Other Operations	\$0	0
Federal Funds:	\$0	Commercial	\$2,835,435	0
Total	<u>\$2,835,435</u>	Total	<u>\$2,835,435</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$2,835,435 of SGR to provide funding for the creation of a one-stop web portal for the registration of new businesses. According to the Secretary of State (SOS), this portal is a collaborative effort by the SOS, the LA Workforce Commission and the Department of Revenue. The project goal is to create a single website, where a new business will be able to file corporate documents with the SOS, secure a state tax ID number from the Department of Revenue and enroll with the LA Workforce Commission for an unemployment insurance account number. SOS is in the process of awarding a vendor the contract to begin development of the portal with an anticipated go-live date of February 1, 2015.

Requested expenditures for the development and implementation include:

\$1,827,060 - Consulting services for application development & ongoing maintenance (Year 1 contract maximum is \$1,827,060, while years 2 through 5 contract maximum is \$2 M per year on a per hour work order basis)

\$45,000 - Consulting services for each department to retrofit new system in current environment

\$133,623 - 2 Dell PowerEdge Servers & 1 Dell EqualLogic server

\$28,000 - Software (survey tool, chat software, windows server license, backup & replication)

\$148,690 - office equipment and cubicles for the portal work team area for SOS IT employees and contract employees (total of 10 individuals). The specific costs include: \$18,403 - office furniture, \$127,875 - cubicle purchases & installation costs of cubicles, \$2,412 - remaining amount for telephone equipment and wiring of cubicles and phone programming.

\$53,062 - WAE positions from Revenue & Workforce Commission (*see below*)

\$600,000 - Staff augmentation contract to support current SOS IT systems (*see below*)

\$2,835,435 - TOTAL

WAE Positions

As mentioned above, this project will involve the use of approximately 2 to 3 WAE (when actually employed) positions. The WAE positions will be rehired retirees from the Department of Revenue and the LA Workforce Commission. Initially, 1 WAE position will be utilized from each department and their assignment will be to work with the contractor and SOS IT staff regarding the IT system and data collections for their respective agencies. In FY 15, up to 3 WAE positions will be utilized to assist in educating the current help desk on possible questions that may arise after the go live date of the new portal.

Staff Augmentation Contract

Due to approximately 4 SOS existing IT staff being shifted to this portal project, the SOS is requesting \$600,000 of funding to be utilized to increase an existing staff augmentation contract for support of SOS's in-house application Commercial Online Registration Application (CORA) and assisting with the phase I of Uniform Commercial Code online filings. With the launch of Uniform Commercial Code (UCC) phase I online filings in January 2014 and portal development beginning in January 2014, SOS wants to have full CORA support as UCC and CORA are integrated IT systems. The SOS is proposing that the existing contractor, GRC, increase its total contract value (contract amendment) by \$600,000 in order to provide CORA and UCC support while existing SOS IT staff work on the portal project. GCR was the vendor that originally assisted the agency in the development of CORA and UCC phase I online.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Revenue Collections

According to the SOS, funding for this project will be provided by fee increases pursuant to Act 316 of the 2013 Legislative Session. Act 316 provided for various fee increases for domestic corporations, limited liability companies, nonprofit corporations, foreign corporations, trade names, trademarks and service marks. According to the SOS, collections are \$1,330,668 higher from July 2013 to November 2013 than from the same timeframe last year (July 2012 to November 2012). Thus, the agency is on track to collect the additional anticipated SGR as a result of Act 316. Based upon current actual collections, SOS is on pace to collect \$3.2 M of additional fee collections. Note: Any unexpended SGR will revert to the SGF at the end of the fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will obligate the SOS approximately \$2.1 M to \$2.4 M in annual maintenance expenditures for the overall portal in subsequent fiscal years. According to the approved DOA IT-10, anticipated subsequent fiscal year overall maintenance expenditures are as follows: FY 15 - \$2.5 M, FY 16 - 2.2 M, FY 17 - \$2.2 M, FY 18 - \$2.1 M.

After the portal is completed, the additional staff augmentation services (mentioned above) from GCR will no longer be needed. Thus, based upon anticipated subsequent fiscal year maintenance costs of approximately \$2.2 M per year and current increased collections from enacting Act 316, the SOS will likely be collecting approximately \$600,000 to \$800,000 more than total cost of the portal in future fiscal years. At this time the SOS has not indicated to the LFO what those revenues will be utilized for in future fiscal years. However, to the extent this portal is successful and additional state agencies are included, these additional revenue collections may be utilized to fund the inclusion of the additional agencies. The specific costs associated with bringing another state agency online with the portal are not known at this time. In addition, as new state agencies are brought online with the portal, portal maintenance costs will likely increase on an annual basis.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Economic Development

AGENDA NO.: 1

AGENCY: Business Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development	\$600,000	2
Interagency Transfers:	\$0	Business Incentives	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$600,000			
Total	<u>\$600,000</u>	Total	<u>\$600,000</u>	<u>2</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal expenditure authority in the amount of \$600,000 for a U. S. Department of Commerce Economic Development Administration Award for year one of a 3-year grant. The Federal Economic Development Administration Award to LED totals \$1 M and will be awarded by the following amounts per year: FY 14 (\$600,000), FY 15 (\$200,000), and FY 16 (\$200,000). The State of LA has committed \$2.241 M in matching funds associated with the federal grant. LED reports the following funding sources by fiscal year associated with the state's matching funds: FY 14 \$766,000 SGF and \$800,000 Federal Community Development Block Grant (CDBG), FY 15 \$304,000 SGF, and FY 16 \$371,000 SGF.

Act 687 (SB 723) of 2012 created the LA International Commerce Initiative. Act 687 also created the LA Board of International Commerce (LaBIC) as an office within the Department of Economic Development (LED) to foster private-public relationships for promotion and projects related to international trade. In addition, Act 687 assigned responsibility to LaBIC to create a Master Plan of International Commerce. A large portion of the funding in this grant and matching funds from LED will be used in FY 14 to create an International Commerce Master Plan for LA (\$1.8 M). LED will also hire the following 2 staff persons with federal funding approved by this BA-7 and associated matching state funds: Senior Manager (\$92,000 annual salary + \$27,000 related benefits = \$119,000 total compensation) and a Manager (\$72,400 annual salary + \$21,600 related benefits = \$94,000 total compensation). The salary amount of \$166,000 in the table below represents nine months of funding for these 2 positions in FY 14. The following is a summary of the proposed uses of the grant and state matching funds by FY:

	<u>FY 14</u>	<u>FY 15</u>	<u>FY 16</u>	<u>Grant Total</u>
International Commerce Master Plan	\$1,800,000	\$0	\$0	\$1,800,000
New International Representatives (contractors)	\$25,000	\$50,000	\$50,000	\$125,000
New Staff (salaries, benefits, and related overhead)	\$166,000	\$219,000	\$226,000	\$611,000
Marketing and Advertising	\$125,000	\$175,000	\$225,000	\$525,000
Travel	\$50,000	\$60,000	\$70,000	\$180,000
TOTAL	<u>\$2,166,000</u>	<u>\$504,000</u>	<u>\$571,000</u>	<u>\$3,241,000</u>

International Commerce Master Plan - Will be developed by a team of consulting firms and will include an assessment of LA's international commerce including attraction of foreign direct investment and trade.

New International Representatives - Contract-based support to identify project opportunities for the state of LA. These representatives will maintain relationships with top executives in foreign countries and align LA's commerce strategies with economic trends in the region.

New Staff - Staff support for LED's new international commerce activities guided by the Master Plan.

Marketing and Advertising - Market intelligence subscription services, expert interviews, and other paid marketing/advertising services. Depending on the market, LED may pursue targeted advertising campaigns through a variety of communication mediums including TV, radio, print, social networks, internet, etc.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Travel - Funding for LED staff to attend trade shows and other functions related to marketing LA internationally. Costs include airfare, trade show fees, lodging fees, and other travel related expenses.

II. IMPACT ON FUTURE FISCAL YEARS

The LA Board of International Commerce (LaBIC) will continue to incur operating expenses in FY17 and thereafter upon expiration of the federal grant and matching state funds proposed in this BA-7. For example, LED is hiring 2 positions with funding associated with this BA-7. There is no specific funding source identified for these positions in FY17 and beyond. Furthermore, LED has not estimated costs for the international commerce initiative for FY17 and thereafter. However, LED plans to use \$200,000 of the \$1M Federal grant in FYs 15 and 16. To the extent the FY 17 needs are consistent with the FY16 budget and holding costs constant, LED will need an additional \$200,000 SGF per year to replace the expiring federal funds.

As such, to continue these efforts the Legislature must appropriate additional funds for these staff and programs or LED must curtail LaBIC international commerce initiatives and expenses. LED cannot estimate costs associated with Louisiana international commerce initiative until completion of the Master Plan of International Commerce in FY14.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 2

AGENCY: Recovery School District

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	RSD-Instructional	\$0	0
Interagency Transfers:	\$0	RSD-Construction	\$31,180,000	0
Self-Generated Revenue:	\$31,180,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$31,180,000</u>	Total	<u>\$31,180,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$31.18 M of SGR in the Recovery School District (RSD) to fund the FY 14 construction costs of Wheatley Elementary School (\$19.38 M), McDonogh 42 Elementary School (\$7.75 M) and various other maintenance projects (\$4.05 M). Both of these schools are a part of the School Facilities Master Plan for rebuilding schools in the New Orleans area. The following revenue sources are included in the requested amount: \$1.9 M - revenues generated from New Markets Tax Credits (NMTC), \$16.8 M - Qualified School Construction Bonds (QSCB), \$8.43 M - insurance proceeds, and \$4.05 - Harrah's Capital Fund.

\$1.9 M New Markets Tax Credit (NMTC)

The NMTC program is a federal program established in 2000 by Congress to spur new or increased investments in projects located in low-income communities. The program attracts investment capital to these areas by granting a federal income tax credit to those investors. The proposed BA-7 requests to budget \$1.9 M net NMTC proceeds to be utilized to fund a portion of the FY 14 construction costs of McDonogh 42 Elementary School (see summary tables on the next page).

\$16.8 M Qualified School Construction Bonds (QSCB)

QSCB is a bond instrument created by Congress through the American Recovery & Reinvestment Act (ARRA) of 2009. This bond financing allows qualified schools to fund projects with interest free bonds (federal government pays the interest). To date, the Orleans Parish School Board (OPSB) has issued approximately \$79 M in bonds under this program. Approximately \$16.8 M of the total amount is being requested within this BA-7 for FY 14 to fund a portion of Wheatley Elementary School construction costs. These debts are considered a debt of the OPSB and the debt service payments will be made within the school board's existing budget.

Approximately \$6.7 M of these proceeds will be budgeted in FY 15 for McDonogh 42 Elementary School (see summary tables on the next page). The remaining \$55.5 M of QSCB resources will be utilized to fund other items in the School Facilities Master Plan, which have not been officially allocated at this time. The School Facilities Master Plan was adopted by the Orleans Parish School Board and the Board of Elementary & Secondary Education (BESE) in 2008 (revised in 2011). The plan established a blueprint for renovating and rebuilding school facilities.

Note: Previous approval by the RSD, OPSB and the State Bond Commission has been granted to the RSD to pursue NMTC and QSCB financing mechanisms.

\$8.43 M Insurance Proceeds

As a result of Hurricane Katrina, RSD and OPSB have received insurance proceeds from one of the multiple insurance carriers. Approximately \$8.43 M is being requested for construction expenditures in FY 14 (\$2.58 M - Wheatley, \$5.85 M - McDonogh 42) (see summary tables on the next page).

Summary Tables

On the next page are 2 summary tables of the various financing resources being utilized by the RSD to finance the construction costs of these 2 elementary schools. Summary Table 1 illustrates the various self-generated resources by fiscal year and by school, while Summary Table 2 is by fiscal year only. The total cost of construction for these 2 schools is approximately \$41.08

November 22, 2013

Qualified School Const. Bonds (FY 15)	<u>\$0.0</u>	<u>\$6.7 M</u>	<u>\$6.7 M</u>
TOTAL	\$25.58 M	\$15.50 M	\$41.08 M

Summary Table 2

	Prior FY	FY 14	FY 15
New Market Tax Credits	\$1.3 M	\$1.9 M	\$0.0
Insurance Proceeds	\$4.9 M	\$8.43 M	\$1.05 M
Qualified School Const. Bonds	<u>\$0.0</u>	<u>\$16.8 M</u>	<u>\$6.7 M</u>
TOTAL	\$6.2 M	\$27.13 M	\$7.75 M

\$4.05 M Harrah's Capital Fund

The \$4.05 from the Harrah's Capital Fund is from an annual payment established through a 1999 resolution between the New Orleans City Council and Harrah's (Jazz Casino Company). The resolution established an annual payment to be dedicated to capital projects addressing health, safety and teaching and learning environment issues in the school facilities. These funds will be used for the following:

Modular campus stabilization (roof replacement, floor replacement, exterior repairs)	\$2,050,000
Heating and ventilation upgrades and repairs (energy upgrades, indoor air quality)	\$1,000,000
Roof repairs and replacements (capital roof repairs, roof replacement)	<u>\$1,000,000</u>
Total	\$4,050,000

At this time, the RSD cannot be certain as to the specific schools that would be impacted by the additional \$4.05 M of maintenance expenditures being requested within this BA-7. The LFO has requested this information but it has not been received as of this writing.

NOTE: Included within last month's BA-7 request was a request to budget approximately \$3.37 M of insurance settlement proceeds from Lexington Insurance Company (wind damage from Hurricane Katrina). These funds were to be utilized to fund expenditures associated with the School Facilities Master Plan. According to the RSD, this SGR resource has already been appropriated in the FY 14 operating budget and has been removed from this BA-7 request.

II. IMPACT ON FUTURE FISCAL YEARS

The proposed BA-7 only appropriates approximately half of the anticipated construction costs of McDonogh 42 (\$7.75 M). The other half, \$7.75 M, will likely be appropriated in the RSD's FY 15 budget, which will be funded with \$6.7 M from QSCB proceeds and \$1.05 M from insurance proceeds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$256,616</u>	Total	<u>\$256,616</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Military Department to allow the agency to budget Federal funds (FEMA Funds) related to an approved Project Worksheet (PW #7712) resulting from content replacement at the Jackson Barracks Museum following Hurricane Katrina. The approved PW is related to 8 plus feet of flood water damage to the Jackson Barracks Museum. FEMA funding will reimburse 100% of costs listed below.

The \$256,616 requested, which has been approved by FEMA, will be expended for the following:

\$12,251	file cabinets
\$226,447	exhibit cases
\$13,032	brass sectional dividers with ropes (45 each)
\$64	coffee maker
\$940	fireproof floor safe
\$2,143	4 drawer vertical file
<u>\$1,739</u>	administrative costs (based upon a FEMA approved sliding scale percent for each state agency)
<u>\$256,616</u>	TOTAL

The total PW #7712 value is \$405,972 of which the agency has already been reimbursed \$122,589 by FEMA. Some of the significant items expended with the \$122,589 are as follows: \$56,152 - mannequins for museum exhibits, \$41,049 - mobile shelving units, \$5,924 - office furniture, \$12,596 - computer equipment & office supplies. According to the Military Department, the FEMA deadline to expend these funds is December 2013.

Note: Overall, since Hurricane Katrina, the total funds utilized to repair/replace the damaged Jackson Barracks Museum is approximately \$12.6 M (\$9 M - FEMA Structure Funds, \$1.9 M - FEMA Content Funds, \$95,000 - ORM Funds).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. These are one-time expenditures in FY 14.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$97,345			
Total	<u>\$5,464</u>	Total	<u>\$5,464</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget the balance of Federal funds associated with a federal grant entitled "State Health Insurance Assistance Program," from the Department of Health & Human Services, Centers for Medicare & Medicaid Services, in the amount of \$197,478. The LA Department of Insurance (LDI) has an existing budget balance of unallocated Federal budget authority in the amount of \$100,133 and thus does not require a federal expenditure increase equal to the total grant balance. The original grant total was \$841,684. There is no state match requirement associated with the grant.

In conjunction with this carry forward of Federal funds, the department also seeks to execute a means of finance swap reducing excess SGR authority by \$91,881, resulting in a net increase of \$5,464 in total means of financing. The federal grant period is 4/1/2013 through 3/31/2014.

The funding will be used to enhance and expand local educational and assistance services provided by the LA Senior Health Insurance Information Program (SHIIP) with regard to Medicare eligibility. SHIIP provides Medicare beneficiaries with objective information to understand coverage options, rights and benefits. The department will hire temporary staff to assist with face-to-face and phone counseling for Medicare beneficiaries, caregivers and providers in the state. The department will also produce a video to provide education with regard to Medicare Part D enrollment and the benefits of Low Income Subsidy (LIS) and Medical Services Plan (MSP) eligibility.

Expenditures (\$197,478 total carry forward amount):

Salaries	\$40,264	Counselor / Outreach Specialist
Related Benefits	\$16,135	FICA, Group Insurance, Medicare, Retirement
Operating Services	\$5,412	Printing costs for training manuals, print media
Travel, In-state	\$4,789	Outreach initiatives including presentations, health fairs and training sessions.
Travel, Out-of-state	\$2,236	Travel to Dallas for 3 to attend "Train the Trainer" workshops
Supplies	\$1,874	General office supplies for 9 SHIIP staff)
Professional Services	\$126,768	Production of video providing education on Part D enrollment and benefits of LIS and MSP)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative & Fiscal	\$0	0
Interagency Transfers:	\$0	Market Compliance	\$1,000,000	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$1,000,000			
Total	<u>\$1,000,000</u>	Total	<u>\$1,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal expenditure authority in the amount of \$1 M in association with the Health Insurance Rate Review Grant Program, Cycle III, from the Department of Health & Human Services (HHS). The HHS grant begins 10/1/2013 and continues through 9/30/2015. The funds are intended to assist the state in improving the processes for health insurance rate reviews and reporting in order to protect consumers from unreasonable, unjustified or excessive rate increases. The total grant award is \$2 M and will be budgeted in \$1 M increments over FY 14 and FY 15. There is no state match requirement associated with the grant.

The Federal funds will provide for expenditures in the Market Compliance Program as follows:

Other Compensation*	\$327,636	Actuary, Rate Review Manager, 2 Rate Review Specialists
Related Benefits	\$142,158	Retirement, Medicare, Group Insurance
Travel	\$8,000	Out of state for training
Operating Services	\$9,206	Printing information pamphlets and miscellaneous operating services
Supplies	\$6,000	General Office Supplies and Consumables
Professional Services	<u>\$507,000</u>	IT Contract for website and programming, plus 2 actuarial contracts @ \$175k each
	<u>\$1,000,000</u>	

*The 4 positions paid through Other Compensation will be hired as temporary job appointments for the duration of the grant.

LDI currently does not review rates submitted by health insurance issuers or health maintenance organizations. LDI will utilize the grant monies to conduct funding rate review activities associated with approximately 130-140 health insurance filings per year.

II. IMPACT ON FUTURE FISCAL YEARS

The HHS grant covers a 2-year period for a total of \$2 M in expenditure activity. The \$1 M balance will be budgeted in FY 15 and will presumably be included in the executive budget recommendation.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

AGENDA NO.: 4

AGENCY: Tourism

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$330,000	Marketing	\$330,000	0
Self-Generated Revenue:	\$0	Welcome Centers	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$330,000</u>	Total	<u>\$330,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of Tourism is requesting approval to increase its IAT budget authority by \$330,000 to provide for receipt of monies from the Federal Highway Administration (FHWA) via the Department of Transportation & Development. Funding is part of the Public Lands Highways Discretionary Program (FY 11) and will be utilized for implementation of the Gulf States Geotourism Strategy & Marketing Plan Project. Funding from this BA-7 request will be used for the planning phase of the project that includes research, development, and coordination of the plan. The Joint Legislative Committee on the Budget approved the funding in this BA-7 request at its December 2012 meeting. The requested funding was inadvertently omitted from the agency's FY 14 budget and no money was expended in FY 13 as the agency did not receive any invoices for payment. The agency did not enter into a contract for professional services until 5/15/2013.

The Geotourism Strategy & Marketing Plan consists of building a long-term sustainable tourism strategy to promote federal agency lands and programs that are available to the public in areas and communities affected by the 2010 Deepwater Horizon Oil Spill. Funds have been directed to LA to coordinate and oversee the planning and development of the marketing plan through collaboration with all states affected by the oil spill (Alabama, Florida and Mississippi), the National Park Service (NPS), the U.S. Fish & Wildlife Service (USFWS), and the National Geographic Society. The goals of the Geotourism Strategy & Marketing Plan are to assist in rebranding the Gulf Coast as a clean and unique world-class destination, connect Gulf Coast attractions and destinations with additional travel opportunities, foster the growth of trails and circuits focusing on themes such as water recreation/fishing, music, civil rights, agricultural products, or river products, and assist local residents to learn about their natural, cultural, historic and scenic resources.

The Gulf States Sustainable Tourism Council was created as a private-public partnership to serve as a forum for dialogue, planning, and marketing among federal agencies, local businesses, non-profit organizations, local residents and tourism authorities to address regional challenges.

In order to accomplish these goals, CRT has/will enter into the following contracts:

\$250,000 - CRT signed a contract with Solimar on 5/15/2013 for a maximum payment of \$250,000 to develop a long term Sustainable Geotourism Strategy and Marketing Plan for public lands in Louisiana, Mississippi, Alabama and Florida.

\$49,000 - CRT is currently negotiating a \$49,000 contract with the Southeastern Tourism Society (STS) to act as coordinator for the Regional Geotourism Council, which is composed of 2 members from each of the 4 state councils. STS will be responsible for the development of training materials that regional council members can use to train volunteers and members of their state councils. Materials developed by STS include how to recruit and train volunteers, orientation materials for use by council members, protocols and procedures for ongoing information gathering, and public outreach. Each state has created a State Geotourism Council of up to 10 members. Two members from each of the 4 state councils make up the Regional Geotourism Council. The regional council will manage and administrate the marketing plans, public relations strategy and coordinate the multi-state efforts to rebuild the region's attractiveness as a destination for national and international travel markets.

\$31,000 - The remaining \$31,000 will be divided equally (\$7,750) between each of the 4 states. The states will use the funds to contract with a non-profit to oversee, along with the state councils, implementation of the regional policies and procedures

October 18, 2013

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

developed by the Southeastern Tourism Society.

In order to support the project, the U. S. Fish and Wildlife Service and the National Park Service will provide \$70,000 of in-kind support. The in-kind support involves engaging in planning efforts to collaborate with the states and communities along the Gulf Coast to develop and implement a marketing strategy to promote federal agency lands and programs that are available within the region. No state match is required for these Federal funds.

Note: Funding from this BA-7 request will be used in conjunction with separate funding that has been secured for the second phase, which is the marketing phase. Marketing will include, but not be limited to, the design of a Gulf States Geo-tourism website, map guides, and smartphone application. These are British Petroleum (BP) funds in the amount of \$945,000.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Natural Resources

AGENDA NO.: 5

AGENCY: Conservation

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Oil & Gas Regulatory	(\$689,200)	(2)
Interagency Transfers:	\$0	Public Safety	\$689,200	2
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of Conservation is requesting approval to realign \$689,200 (Oil & Gas Regulatory Fund) and 2 positions between the Oil & Gas Regulatory Program and the Public Safety Program. The funding and positions will be removed from the Oil & Gas Regulatory Program and added to the Public Safety Program. Of the requested amount, \$600,000 will enable the agency to provide for expenses related to the legacy suits, while the \$89,200 provides for the salaries and related benefits for 2 positions that are being transferred to perform work related to increased regulation of solution mining wells. Legacy suits require remediation of certain sites by the Department of Natural Resources (DNR).

During the 2013 Legislative Session, \$600,000 was inadvertently added to the Oil & Gas Regulatory Program instead of the Public Safety Program. The \$600,000 provides additional funds to address legacy suits or environmental damages to property under the regulatory oversight of the DNR.

Act 368 of 2013 requires the Office of Conservation to promulgate new rules and regulations for oversight of solution mining injection wells and solution-mined caverns. The new rules and regulations result in an increase in workload. In order to adequately fulfill the requirements of Act 368, an auditor and engineering position is being reassigned to the Public Safety Program to work with 2 employees already assigned to the program. Existing employees in the Oil & Gas Regulatory Program will absorb the previous duties assigned an auditor and engineer who are being transferred to the Public Safety Program. The funding added to the Public Safety Program is the balance of funding required to support the 2 positions for the remainder of the fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

		LSU - Heath Sciences Center - Shreveport	\$0	0
Total	<u>\$481,502</u>	Total	<u>\$481,502</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to carry forward \$481,502 in SGR in the Paul M. Hebert Law Center's budget. The Law Center has the authority to carry forward funds as a result of the autonomies granted through the Grad Act. R.S. 17:3139.5(5) (a)(i) provides the authority for any institution that is determined by the Board of Regents to have met the short-term targets established in their Grad Act performance agreement to retain any funds that remain unexpended and unobligated at the end of the fiscal year for use at the institution's discretion, subject to the prior review and approval of the Joint Legislative Committee on the Budget.

The funds will be used for acquisitions (\$315,920) and supplies (\$165,582) to upgrade classroom audio visual systems. The work to replace the classroom audio visual systems was to be completed by 6/30/2013, but it was delayed due to a bid protest by an unsuccessful vendor. The protest was denied on 7/15/2013. The LSU System is requesting to carry forward the funds to complete the upgrade.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 7

AGENCY: Recovery School District

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	RSD-Instructional	\$0	0
Interagency Transfers:	\$0	RSD-Construction	\$34,550,000	0
Self-Generated Revenue:	\$34,550,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$34,550,000</u>	Total	<u>\$34,550,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$34.55 SGR in the Recovery School District. The following are the revenue sources: \$27.13 M from the Wheatley NMTC Investment Fund and McDonogh Elementary Investment Fund; \$3.37 M from Lexington Insurance Company proceeds; and \$4.05 M from Harrah's Capital Funding. The funds will be budgeted as follows: other compensation (\$275,000), related benefits (\$100,000), professional services (\$1.54 M) and major repairs (\$32.635 M).

The \$27.13 M will be used for construction costs for the Wheatley Elementary School (\$19.38 M) and McDonogh 42 Elementary School (\$7.75M). Both of these schools are a part of the School Facilities Master Plan for rebuilding schools in the New Orleans area.

The \$3.37 M is from a settlement from Lexington Insurance Company for wind damage from Hurricane Katrina. The funds are to be used solely to fund projects identified by the School Facilities Master Plan. The Recovery School District will use these proceeds to pay for Master Plan expenses that do not meet the FEMA (Federal Emergency Management Agency) or CDBG (Community Development Block Grant) eligibility requirements. The funds will be used for the following:

Engineering and architecture for a new school planned in New Orleans	\$1,500,000
Salary and related benefits for the School Facilities Master Plan Team	\$375,000
Legal expenses	\$800,000
Vacant/mothballed properties	\$250,000
School moves	\$40,000
Various other expenses	<u>\$400,000</u>
Total	<u>\$3,365,000</u>

The \$4.05 M from Harrah's Capital Funding is from an annual payment established through a 1999 resolution between the New Orleans City Council and Harrah's (Jazz Casino Company). The resolution established an annual payment to be dedicated to capital projects addressing health, safety, and teaching and learning environment issues in the school facilities. The funds will be used for the following:

Modular campus stabilization	\$2,050,000
Heating and ventilation upgrades and repairs	\$1,000,000
Roof repairs and replacements	<u>\$1,000,000</u>
Total	<u>\$4,050,000</u>

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request should have no impact on future fiscal years. The total estimated cost of the Wheatley Elementary School and McDonogh Elementary School is \$40.5 M and will not be completed in the current fiscal year. However, the Recovery School District intends to expend all of the \$27.13 M requested in the BA-7 for these projects in the current fiscal year. The Recovery School District anticipates using FEMA and CDBG funds to complete these projects.

Statutory Dedications:	\$75,000	Museum & Other Operations	\$75,000	0
Federal Funds:	\$0	Commercial	\$0	0
Total	<u>\$75,000</u>	Total	<u>\$75,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Secretary of State is requesting approval to add \$75,000 from the Shreveport Riverfront & Convention Center & Independence Stadium Fund to its budget. Act 420 of 2013 appropriates \$75,000 from the Shreveport Riverfront & Convention Center & Independence Stadium Fund in FY 14 for restoration of the Shreveport Water Works Museum. The act diverts use of the funding for one year from the purposes provided for in R. S. 47:302.2. Monies in the fund originate from the state hotel occupancy tax in Shreveport. The agency intends to use the funds for repair of deteriorating brickwork along one side of the building. Based on an informal quote from a firm specializing in brick restoration work, the agency estimates the repairs for one side of the building to cost \$50,000. Although the agency does not have an estimate of the cost to restore brickwork for the entire building, it intends to utilize the funding to restore as much of the deteriorating brickwork as possible. The agency plans to address the brick repairs in phases, based on the availability of funding.

The Shreveport Water Works Museum is a state-owned museum operated by the Secretary of State. The Museum is a National Historic Landmark and one of the last steam-operated water purification systems in the country. It was in service from the 1880s to 1970.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

DEPARTMENT: Executive

AGENDA NO.: 2

AGENCY: Military Department

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Military Affairs	\$30,000,000	0
Interagency Transfers:	\$0	Education	\$0	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$30,000,000			
Total	<u>\$30,000,000</u>	Total	<u>\$30,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority in the amount of \$30 M in order for the Military Department to hire a specialized contractor to dispose of approximately 18 million pounds of explosive materials stored within 97 magazines at Camp Minden.

These materials were originally the property of Explo Systems, which was leasing the old ammunition manufacturing facility at Camp Minden to separate military propellant bags and resell the components. According to the Military Department, the dangerous component is M6 smokeless powder, which was improperly stored at Camp Minden by Explo. This ultimately caused an explosion of a portion of these materials in Fall 2012.

After discussions with the U.S. National Guard Bureau, the Military Department has an opportunity to be awarded an indeterminable amount of federal funds at the end of the federal fiscal year (9/30/2013). These funds will be utilized to hire a contractor to dispose of the remaining explosive materials. The specific amount that could be awarded is unknown, but based upon discussions with experts and consultants the agency believes \$30 M is the anticipated cost to dispose of the remaining explosive materials.

Approving this BA-7 grants budget authority to the Military Department to address this situation immediately upon notification of federal funding availability. Without approving this BA-7, the Military Department would not be eligible for the federal funds. To the extent federal funding is not made available, approving this BA-7 will result in the Military Department having excess federal budget authority in FY 14. The Military Department anticipates the disposal process to last approximately 1 year.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. These are one-time expenditures in FY 14 and would be non-recurred during the FY 15 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The Secretary of State is requesting approval to add \$23,598 IAT (FEMA and the federal homeland security grant program) received from the Governors Office of Homeland Security & Emergency Preparedness (GOHSEP). The funding will provide for installation and enhancement of the video, fire and intrusion systems at the Old State Capitol. The funding will provide for installation of a PC based monitoring and control console for fire and intrusion detection and the replacement of old interior cameras that are no longer functioning properly. This is a homeland security improvement grant that was awarded in a notice provided through GOHSEP on 5/3/2013. No state match is required. The state applied for the grant and was not awarded through formula funding. The funds must be spent by 12/31/2013. Items funded include:

\$7,000 - 20 indoor cameras
\$5,125 - 2 exterior cameras
\$1,000 - 20 power supplies for interior cameras
\$225 - 3 fire alarm/intrusion modules for ground floor
\$300 - 20 receptacles for cameras
\$60 - 3 door contacts for module reporting
\$200 - wire and connectors
\$9,688 - labor to install, terminate, program and commission the project

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$20 M from the Mega Project Fund for a steel manufacturing plant at the Port of Caddo-Bossier operated by Benteler Steel. The 2-phase project will have a total cost of \$892 M and will include both a seamless steel tube mill (phase 1) and a steel mill (phase 2). \$16 M from this BA-7 will be used for infrastructure to the Port of Caddo-Bossier and the remaining \$4 M will be a facilities grant to Benteler Steel to develop the site and facilities. The project will be built on 330 acres at the Port of Caddo-Bossier and Benteler and the LA Department of Economic Development (LED) report that the project will create 675 new direct jobs paying an average annual salary of \$50,000, plus benefits.

Benteler will begin construction of the first phase of the plant in 2013. The first tubular mill phase of Benteler's Shreveport complex is expected to be completed in the second half of 2015, followed by the opening of a steel production mill within the next 4 years. The bulk of the full-time employee hiring for the first phase of the project is anticipated to occur in 2014. Together the 2 construction phases will result in 1.35 million square feet of manufacturing space.

Note: The Mega Project Fund will have a remaining balance of \$6.7 M after approval of this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

The state's financial commitment to the project in FYs 2015 through 2021 totals \$37.75 M.

		<p><u>\$12,198,361 IAT</u></p> <p>\$6,312,695 - Funding for the FEMA Pilot Reconstruction Program under the Hazard Mitigation Grant Program. GOSHEP currently administers the FEMA Pilot Reconstruction Program, which provides funding to eligible homeowners for expenditures related to the demolition and the reconstruction of buildings (including homes) as a result of hurricanes Katrina and Rita. Impacted individuals are allowed to receive up to \$150,000 in grant funding from GOSHEP's Hazard Mitigation Grant Program and another \$50,000 from these CDBG funds for the total maximum grant funds of \$200,000 for demolition and reconstruction. Action Plan amendment No. 35, published 9/21/2009, allows these Local Government Emergency Infrastructure Program funds to be spent on critical services under the FEMA Hazard Mitigation Grant Program, which is currently administered by GOSHEP. The Pilot Reconstruction Project will address hazard mitigation issues in the following hurricane (Katrina/Rita) impacted parishes: Calcasieu, Jefferson, Lafayette, Lafourche, Orleans, Plaquemine and St. Tammany. The program defines reconstruction as demolition of an existing structure deemed infeasible for elevation and the rebuilding of a new structure on the same lot. The original source of these funds is FEMA funds via the Disaster Recovery Unit.</p> <p>\$5,885,666 - Funding for the current outstanding balance owed to FEMA for the Other Needs Assistance Program (Isaac). This funding was originally appropriated in the FY 13 supplemental appropriations bill during the 2013 RLS. This BA-7 request carries forward this amount into FY 14.</p> <p><u>\$314,829 Statutory Dedications - Interoperability Communications Fund</u></p> <p>\$9,562 - Funding for 280 batteries for Powerware units for the towers. The purchase order was issued in June 2013, but shipping was delayed (Motorola Inc.).</p> <p>\$21,266 - Funding for State Police Troop L tower removal. Lt. Governor		Program. The Volunteer LA Commission manages the statewide online volunteer portal (volunteerlouisiana.gov), connecting LA's citizens and out-of-state volunteers with volunteer service opportunities available in all communities throughout the state. A description along with the amount of each contract is as follows: \$49,900 contract with Wright Feigley Communications signed 6/25/2013 to develop and implement a marketing campaign to promote the 20th anniversary of the Commission of Volunteerism in LA; \$30,000 contract with LSU Sponsored Programs signed 6/25/2013 to conduct a volunteerism study to measure the level of volunteerism in the state and the demographics of those who volunteer; \$1,350 contract (amended 6/20/2013 to extend the termination date and increase the maximum amount payable) with High Powered Consulting to provide web hosting and ongoing site maintenance of volunteer LA web site. The agency states the late signing date was because of questions from the contractor (LSU), its general counsel and the Office of Contractual Review.							
CF 11	05 - 251 Economic Development Office of Secretary	<p>The purpose of this BA-7 request is to carry-forward \$5,192,590 in the Office of Secretary including \$25,238 SGF, \$3,420,637 from the LED Fund, and \$1,746,715 from the Rapid Response Fund. The Office of the Secretary will use the SGF for legal representation. CF 13	06 - 263 Culture, Recreation & Tourism State Museum	The Department of Cultural, Recreation & Tourism, Office of State Museum is requesting approval to carry-forward \$81,942 SGF to provide for the following: \$59,374 for a contract with the World War II Museum for development of marketing materials (such as a DVD) describing the planned construction of the Stephen E. Ambrose Plaza, which honors the museum's founder; the contract provides for a maximum payment of \$75,000, was effective 7/1/2007 and expires 6/30/2014; \$4,517 to Trane U. S. for parts and servicing of air conditioning equipment at the Cypress Museum in Patterson (completed 7/9/2013); and \$18,051 to Gerry Lane Chevrolet for purchase of a Chevy Express van delivered 7/9/2013.	\$81,942	\$0	\$0	\$0	\$0	\$0	\$81,942
CF 14	06 - 264 Culture, Recreation & Tourism State Parks	<p>The Department of Culture, Recreation & Tourism, Office of State Parks is requesting approval to carry-forward \$20,000 SGR, \$112,495 from the State Parks Improvement & Repair Fund and \$140,970 in Federal funds to provide for outstanding encumbrances for 6 vehicles and a professional services contract. The funding request is for the purchase of 4 Ford Explorers, 1 Chevy Silverado and 1 Chevy Express for a total of \$132,495. The vehicles are expected to be delivered between 8/1/2013 - 9/30/2013. The funding requested for payment of a professional services contract with Greenplay, LLC totals \$140,970. The agency signed a contract with Greenplay on 3/20/2013 which calls for the contractor to develop the 2014-2019 Statewide Comprehensive Outdoor Recreation Plan (SCORP). In order to receive federal land and water conservation funds, each state is required to submit an updated statewide comprehensive outdoor recreation plan regarding public outdoor recreation sites and facilities every five years. The contract provides for a maximum payment of \$140,970. No payments have been made on the contract because the agency has not received any invoices for payment from the contractor.</p> <p>The SCORP Program provides matching grants to States and through States to local units of government, for the acquisition and development of public outdoor recreation sites and facilities.</p>	\$0	\$0	\$20,000	\$112,495	\$0	\$140,970	\$273,465
CF 15	06 - 264 Culture, Recreation & Tourism State Parks	The purpose of this BA-7 request is to carry-forward IAT budget authority (FEMA reimbursements via GOHSEP) in FY 14 related to expenses incurred during the aftermath of Hurricane Gustav for the Office of State Parks (OSP). This budget authority will enable OSP to receive funding from GOHSEP in order to reimburse Facility Planning and Control for expenses for debris removal at various state parks and historic sites. Total reimbursable expenditures were \$1,513,191 and total received thus far is \$1,407,577, leaving \$105,614.	\$0	\$105,614	\$0	\$0	\$0	\$0	\$105,614

CF 22	08A - 400 Corrections Administration	<p>The purpose of this BA-7 request is to carry forward SGF (\$582,751) and IAT (\$1,035,411) within Corrections Administration for the following:</p> <p>\$843,516 - IAT funding for the Offender Management System (OMS) by METHODS Technology Solutions, Inc. The original project total was \$3,082,75 and included the design, development, and implementation of the OMS. A \$2.5 M purchase order was issued in FY 12 and \$1,355,355 was paid in that fiscal year. An unpaid balance of \$1,144,645 remained, which was the amount of the FY 13 carry-forward. A balance of \$843,516 remains from the first purchase order of \$2.5 M to be carried-forward in FY 14. The term of the contract is from July 1, 2012 through June 30, 2014. The source of the IAT funding is from FEMA via the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP).</p> <p>\$732,751 - (\$582,751 SGF and \$150,000 IAT from GOHSEP) An additional purchase order with METHODS Technology Solutions, Inc. in the amount of \$582,751 was issued in FY 13. A \$150,000 change order was requested, bringing the total of the purchase order to \$732,751 .</p> <p>\$41,895 - IAT (FEMA via GOHSEP) funding for a contract with Info-Link Consulting. Info-Link training is directly tied into the implementation schedule of the OMS. This training is anticipated to take place in August, 2013.</p>	\$582,751	\$1,035,411	\$0	\$0	\$0	\$0	\$1,618,162
CF 23	08A - 402 Corrections LA State Penitentiary	The purpose of this BA-7 request is to carryforward SGF in the amount of \$28,000 due to the purchase of a used ambulance purchased from the City of Zachary. Approval from State Purchasing was received on 6/27/2013. There was no city council meeting scheduled until 7/9/2013; therefore, LA State Penitentiary could not take delivery by 6/30/2013.	\$28,000	\$0	\$0	\$0	\$0	\$0	\$28,000
CF 24	08A - 405 Corrections	The purpose of this BA-7 request is to carry-forward SGF in the amount of \$10,045 for an ammunition purchase on 04/03/2013. Due to national ammunition shortages, the vendor was unable to fill the order before	\$10,045	\$0	\$0	\$0	\$0	\$0	\$10,045

Avoyelles Correctional Center		06/30/13. The order will take about a year to fill.							
CF 25	08A - 413 Corrections Elayn Hunt Correctional Center	The purpose of this BA-7 request is to carry-forward SGF in the amount of \$34,429 for officer uniforms and flu vaccine purchases. Officer uniforms were ordered on 04/09/13 from Prison Enterprises. Prison Enterprises was unable to ship a significant amount of the larger size uniforms (\$3,096) before 06/30/13. In addition, 415 vials of flu vaccine (\$31,333) were ordered on 04/22/13. According to the agency, the vaccine has to be reserved in advance for delivery in October and November 2013.	\$34,429	\$0	\$0	\$0	\$0	\$0	\$34,429
CF 26	08B - 419 Public Safety State Police	<p>The purpose of this BA-7 request is to carry-forward funds as follows:</p> <p>Traffic Enforcement - \$71,551 (SGR) <i>Acquisitions</i> - \$20,959 for a 2014 Dodge Ram. The vehicle order was placed on 4/2/2013. The vendor was unable to fulfill the order as a result of 2013 models no longer being manufactured. However, the vendor has provided a 2014 model at the 2013 contract price. The vehicle has not been received as of 7/30/2013. <i>Acquisitions</i> - \$29,323 for Dell Latitude Tablets. The tablets will allow State Troopers to complete reports while on the scene instead of writing notes on paper, then finishing the report at a later date. The tablets were ordered 6/27/2013 and as of 7/30/2013 have not been received. <i>Acquisitions</i> - \$21,269 for equipment needed for Emergency Services/Hazardous Materials and Explosives response. The equipment includes boots, voice recorders, hats, briefcase bags, backpacks, pants, jackets, and polo shirts. The equipment was purchased 6/26/2013 and delivery is expected in August 2013.</p> <p>Operational Support - \$444,337 (\$410,037 DED & \$34,300 FED) <i>Operating Services</i> - \$19,950 (Concealed Handguns Fund) contract for the evaluation of the state's Automated Fingerprint Identification System (AFIS) configuration and record storage capacity. The contract will ensure the system remains functional until a new system is purchased. The contract began on 6/14/2013 and is estimated to be finished on 4/30/2014. <i>Supplies</i> - \$12,852 (Riverboat Gaming Enforcement Fund) for motorcycle patrol breeches. The uniform pants are custom fit to individual measurements and fitting. The delay is due to a special fabric and customization of the breeches. The pants were ordered 6/19/2013 and should be received in August 2013. <i>Other Charges</i> - \$34,300 (FED) for Combined DNA Index System (CODIS) database cleansing. The cleansing will eliminate any discrepancies between</p>	\$0	\$314,829	\$121,551	\$410,037	\$0	\$34,300	\$880,717

	multiple systems. The contract began 10/31/2012 and is expected to be complete by 9/30/2013. <i>Other Charges</i> - \$98,210 (Riverboat Gaming Enforcement Fund) for AFIS database expansion. The expansion will increase storage and allow law enforcement statewide to continue to add offender fingerprints to the database. The completion was delayed due to hardware errors, but is expected to be complete by 9/1/2013. <i>Other Charges</i> - \$133,601 (Riverboat Gaming Enforcement Fund) for 1 Ford Interceptor (\$23,317) and 4 Chevrolet Tahoes (\$27,571 each). The vendors were unable to fulfill the order as a result of 2013 models no longer being manufactured. However, the vendors have provided 2014 models at the 2013 contract prices. Two Tahoes were received on 7/25/2013. The remaining Tahoes and Interceptor have not been received as of 7/30/2013. <i>Acquisitions</i> - \$145,424 (Concealed Handguns Fund) for hardware and software to improve concealed handgun processing and identification. The completion was delayed due to issues with existing statewide databases and legislative mandates such as the lifetime concealed handgun permit. The acquisitions were ordered 10/17/2012 and the estimated completion date is 11/1/2013.							
	Gaming Enforcement - \$50,000 (SGR) <i>Operating Services</i> - \$50,000 for an online video poker application system. The system will allow the department to process applications electronically instead of manually, which is currently done. The system was ordered on 9/20/2012 but completion was delayed due to software issues for transaction processing and revisions required by the Business Requirement Document. The estimated completion date is 10/1/2013.							
	Auxiliary - \$314,829 (IAT) <i>Supplies</i> - \$85,164 for Louisiana Wireless Information Network (LWIN) site battery replacement. Batteries will be replaced at tower sites around the state. Shipping of the batteries was delayed by the vendor, but now all batteries have been received and are now being installed. The expected completion date is 8/15/2013. <i>Professional Services</i> - \$21,266 for tower removal at Troop L (Mandeville). The tower has been dismantled, but the final work has not been completed due to inclement weather. The project should be complete by August 2013. <i>Other Charges</i> - \$9,562 for 280 Motorola batteries. The batteries will be used on LWIN towers to continue coverage when a power outage occurs. The estimated completion date is 8/1/2013. <i>Other Charges</i> - \$25,179 for tower removal at Troop C (Gray). The delay was due to problems with the bid and the vendor that was first awarded the bid. The estimated completion date is 9/1/2013. <i>Other Charges</i> - \$50,950 to replace tower lighting systems. Towers in Tallulah and Many will have their incandescent lighting systems replaced

		with an LED system. The delay was due to the vendor that received the bid later declining the work. The estimated completion date is 8/10/2013. <i>Other Charges</i> - \$31,000 to modify 20 sites to enlarge air conditioner openings for LWIN towers. The increased openings will allow the hardware at the tower sites to remain functional. The estimated completion date is 10/1/2013. <i>Other Charges</i> - \$91,708 for an International Truck. The heavy duty truck will be used to tow mobile tower units. The current truck is carrying more weight than allowed. The truck should be received by 8/15/2013.							
CF 27	08B - 419 Public Safety State Police	The purpose of this BA-7 request is to carry-forward funds as follows: <i>Acquisitions</i> - includes a 25% state match of \$84,796 (Overcollections Fund) and 75% Federal portion of \$254,389 (FED) for the COPS Technology Grant from the U.S. Department of Justice, Office of Community Oriented Policing Services. The funds will be used to purchase in-car video cameras which will allow video to be captured in the vehicle and then electronically transferred to the statewide system. Cameras will be installed in 62 vehicles. This will eliminate DVD and manual processing. The grant will expire 8/28/2013.	\$0	\$0	\$0	\$84,796	\$0	\$254,389	\$339,185
CF 28	08B - 424 Public Safety Liquefied Petroleum Gas	The purpose of this BA-7 request is to carry-forward funds as follows: <i>Acquisitions</i> - \$27,508 (Liquified Petroleum Rainy Day Fund) for a 2014 Chevrolet Tahoe that will be used to transport equipment needed to perform inspections and examinations of liquified petroleum gases. The vehicle order was placed on 3/28/2013. The vendor was unable to fulfill the order as a result of 2013 models no longer being manufactured. However, the vendor has provided a 2014 model at the 2013 contract price. The vehicle was received on 7/23/2013.	\$0	\$0	\$0	\$27,508	\$0	\$0	\$27,508
CF 29	09 - 309 Health & Hospitals South Central LA Human	The purpose of this BA-7 request is to carry-forward \$22,800 in the South Central LA Human Services Authority. The source of funds is SGF. The funds will be used to fund a construction project that adds additional parking spaces for the Lafourche Treatment Center in Raceland. Expenditures for this BA-7 request are as follows: <u>Other Charges (\$22,800)</u> After a bid proposal issued on 4/24/2013, the Department of Health & Hospitals/South Central LA Human Services Authority entered into a	\$22,800	\$0	\$0	\$0	\$0	\$0	\$22,800

		contract on 6/10/2013 with SGM Construction, Inc., located in Houma, to add additional parking spaces to the existing parking lot of the Lafourche Treatment Center. SGM began construction on 6/24/2013 and completed the job on 7/16/2013.							
CF 30	09 - 330 Health & Hospitals Behavioral Health	<p>The purpose of this BA-7 request is to carry-forward \$292,349 in the Office of Behavioral Health (OBH). The source of funds is SGF. The funds will be used to purchase supplies, equipment and make repairs at hospital-based facilities (\$142,011) as well as continue funding multi-year contracts (\$150,338). Expenditures for this BA-7 request are as follows:</p> <p><i>Hospital Based Treatment</i> <u>Operating Services (\$4,884)</u> A generator located at the Bienville building needs extensive repair work to the radiator.</p> <p><u>Supplies (\$56,240)</u> Purchase orders for Correctional Guard uniforms that require special order by sizes and department emblems. There was a delay in manufacturing of the uniform sets and the receipt of the emblems. Anticipated delivery date is the end of July 2013.</p> <p><u>Other Charges (\$80,887)</u> The purchase of 2 generators. At East LA Mental Health System (ELMHS), a 10 KW generator was ordered for the telephone office (\$8,500). The telephone office is located in a separate building on the ELMHS campus and houses the main telephone lines, radio equipment, and mail services. The generator was special ordered and expected delivery is the end of August 2013. At Central LA State Hospital (CLSH), a 200 KW generator was ordered for the kitchen on unit 7 (\$37,690).</p> <p>At the Greenwell Springs campus, the repair of the electrical system was bid and approved by State Purchasing in January 2013 (\$34,697). All repair work was expected to be completed by the end of FY 13. Unfortunately, the electrical vendor encountered additional problems that increased the total cost of the job. On June 28th, OBH received approval from State Purchasing of the change order but the repair work is not expected to be completed until July 2013.</p> <p><i>Behavioral Health Community</i> <u>Other Charges (\$150,338)</u> In FY 12, OBH entered into a three-year contract with University of Maryland, Baltimore to provide training and technical assistance on implementing wraparound services in the Coordinated System of Care (CSoC) according to national standards. Also, in FY 12, OBH entered into a</p>	\$292,349	\$0	\$0	\$0	\$0	\$0	\$292,349

		three-year contract with Families Helping Families of Greater Baton Rouge, Inc. to provide community planning services to ensure family members participation and involvement in CSoC decision making on the State Coordinating Council (CSS) and other CSoC committees.							
CF 31	11 - 431 Natural Resources Office of Secretary	The Department of Natural Resources, Office of the Secretary is requesting approval to carry-forward \$1,196,450 from the Oilfield Site Restoration Fund to provide for expenditures associated with 2 professional services contracts for restoration of orphaned well sites. The agency is requesting approval to carry-forward \$896,850 for a contract with Lawson Environmental that provides for restoration of orphaned well sites in Bay Marchand and Lake Raccourci Fields in Lafourche parish and \$299,600 for a contract with Elm Springs that provides for restoration of orphaned well sites in various fields in Franklin and Richland parishes. Although both contractors began work related to the contracts in FY 13, no invoices were received or paid in FY 13. The contractors anticipate completing the restoration work in FY 14.	\$0	\$0	\$0	\$1,196,450	\$0	\$0	\$1,196,450
CF 32	12 - 440 Revenue Office of Revenue	<p>The purpose of this carry-forward BA-7 is to increase budget authority of the Tax Collection Program in the LA Department of Revenue (LDR) involving contracts for computer requirements and customer service delivery/training (\$1,549,403) funded with SGR and expenses related to fraud initiatives (\$3,950,000) from the Overcollections Fund.</p> <p>Primarily, contract payments being carried forward include Scan Optics, LLC (\$1,119,673) to perform computer services related to annual tax form adjustments required by changes to tax law and upgrades to VISTA Capture System, which scans and processes returns for more effective and efficient handling and data capture. Other carry-forwards are related to contracts with Prophix Software, Inc. (\$81,500) for budget monitoring and projection software, Revenue Recovery Group, Inc. (\$49,999) for tax auditing services including a pilot field audit program to allow for additional audit resources and Fast Enterprises, LLC (\$298,231) for upgrades related to GenTax, the integrated tax system.</p> <p>Though specified in general in Act 54 (Supplemental Bill) as “fraud initiatives”, OPB and LDR indicate that this specification refers to the contract with LexisNexis in which a tiered payment arrangement fluctuates with ranges of the amounts of detected fraudulent personal income tax refunds with a maximum state exposure of \$5 M. The original appropriation in the FY 13 Supplemental Bill was \$10 M from the Overcollections Fund. LexisNexis was paid \$1.05 M in FY 13 (net collections after contract payment of a little over \$1.5 M) leaving a remaining appropriation of \$8.95</p>	\$0	\$0	\$1,549,403	\$3,950,000	\$0	\$0	\$5,499,403

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive Administration	\$0	0
Interagency Transfers:	(\$1,709,418)	Community Dev Block Grant	\$0	0
Self-Generated Revenue:	\$23,281,358	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	(\$21,571,940)			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is fourfold: 1.) realigns means of financing within the Division of Administration (DOA) to properly reflect actual revenue collections to fund the LA-4 Program in FY 13; 2.) increases SGR expenditures (revenue source is CDBG program income) in the amount of \$5,871,940 for various items listed below including maintenance of LA Land Trust properties; 3.) reduces excess federal budget authority; and 4.) realigns means of financing within the Office of State Buildings to properly reflect actual revenue collections from the Office of Facilities Corporation (OFC).

\$15.7 M LA-4 Pre-K Program - Community Development Block Grant Program

This BA-7 increases SGR in the amount of \$15.7 M and decreases federal funds by a like amount in order to properly reflect actual revenue collections. During the FY 13 budget development process, the LA-4 Program was funded in the amount of \$35.7 M from federal hurricane recovery dollars of which \$20 M was federal funds and \$15.7 M was CDBG program income, which at the time was budgeted as federal as well. This BA-7 request properly reflects that the \$15.7 M of CDBG program income should have been budgeted as SGR and not federal.

Program income is derived from the operation of the original HUD grant funds and can only be expended according to the standard requirements of the CDBG Program. HUD approved action plan amendment number 17 on 11/9/2012 (Gustav/Ike hurricane recovery funds), which reprogramed \$20 M from the Disaster Recovery State Cost-Share Reserves Program to the Recovery Public Services Program (LA-4 Program).

\$5.9 M Other Various Expenditures - Community Development Block Grant Program

This BA-7 also increases SGR (program income) in the amount of \$5,871,940 for the following expenditures:

\$83,705 STR Grants LLC - Sole source software maintenance and modification for egrants program;
 \$466,301 Road Home Corporation - Cost reimbursement for direct management costs for 3,620 LA Land Trust properties in Orleans Parish;
 \$1,000,000 New Orleans Redevelopment - Direct management costs for maintenance of lots previously owned by LA Land Trust;
 \$500,000 City of New Orleans - Direct management costs for maintenance of lots previously owned by the LA Land Trust;
 \$1,250,000 St. Bernard Parish Government - Direct management costs for 2,000 LA Land Trust lots in St. Bernard Parish;
 \$2,490,611 Road Home Corporation - Direct management costs for maintenance for 2,000 LA Land Trust lots in St. Bernard Parish;
 \$70,000 LA Housing Corporation - Administrative costs associated with low income tenant assistance for those impacted by Hurricane Isaac by providing rental subsidy, security and utility deposit assistance to tenants as a grant, and counseling to prospective tenants regarding landlord/tenant responsibilities and methods of locating suitable units;
 \$11,323 New Orleans Redevelopment - Provide environmental review for properties to be addressed using neighborhood Stabilization Program 2 funds.

\$5.9 M Reduction of Excess Federal Budget Authority - Community Development Block Grant Program

In addition to reducing federal budget authority in the amount of \$15.7 M as discussed above (LA-4 Program), this request

June 21, 2013

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

also reduces excess federal budget authority in the amount of \$5,871,940 within the overall program.

\$11.7 M State Buildings - Executive Administration Program

This BA-7 increases SGR in the amount of \$1.7 M and decreases IAT by a like amount in order to properly reflect actual revenue collections from the Office Facilities Corporation (OFC) to the DOA for office of state buildings maintenance costs. Pursuant to R.S. 39:1798 the purpose of the corporation is financing and acquisition, purchase, construction, improvement, or expansion of public facilities for lease to the state of LA. The OFC, which is a quasi-state entity, owns various state buildings and issued the building debt and holds the building title. Under the current structure, the tenants of OFC buildings (state agencies) pay rent to the corporation, which is utilized to pay the bond holders and pay the DOA-Office of State Buildings for building maintenance. The DOA classifies such revenues from the corporation as SGR. During the FY 13 budget development process, the FY 13 Executive Budget Recommendation included a means of financing (MOF) swap that reduced DOA's SGR budget and increased IAT. The reason for the MOF swap was due to the anticipation that 4 of the OFC buildings would be transferred to the state from the corporation because the series '99 bonds associated with those state buildings were paid in full. This would require the DOA to reduce its SGR authority, which consists of OFC maintenance funds, to IAT, which would consist of rental payments from state agencies. To date, these building transfers to the state have not taken place. Thus, the DOA is requesting a portion of this MOF swap be reversed to properly reflect how such maintenance revenues should be classified in order to provide maintenance for the remainder of FY 13.

<u>Summary of BA-7 Req.</u>	<u>SGR</u>	<u>IAT</u>	<u>Federal</u>	<u>Total</u>
LA-4 Program	\$15,700,000	\$0	(\$15,700,000)	\$0
Other Various Exp.	\$5,871,940	\$0	\$0	\$5,871,940
Reducing Excess Federal Authority	\$0	\$0	(\$5,871,940)	(\$5,871,940)
State Building	<u>\$1,709,418</u>	<u>(\$1,709,418)</u>	<u>\$0</u>	<u>\$0</u>
TOTAL	\$23,281,358	(\$1,709,418)	(\$21,571,940)	\$0

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$8 M in statutory dedicated funds from the Mega Project Fund for an IBM Technology Center in downtown Baton Rouge. The Wilbur Marvin Foundation will own the office building housing IBM's Technology Center and will receive \$4.4 M of this funding to purchase land for the new facility. IBM will receive the remaining \$3.6 M from the Mega Project Fund in for the following purposes: 1) \$1.4 M to lease temporary office space. 2) \$2.2 M to reimburse IBM for costs related to personnel recruitment, relocation and other workforce related costs, internal training, and facility operating expenses such as maintenance utilities, printing, etc. The proposed IBM Technology Center will be located on the old Advocate newspaper site in downtown Baton Rouge. The Wilbur Marvin Foundation (WMF) is affiliated with the Baton Rouge Area Foundation (BRAAF) and will own the office building housing the IBM Technology Center.

The entire project is estimated to cost up to \$78.5 M (including \$14 M for expansion of higher-education programs) and may receive funding through FY 31, including an initial 12-year commitment term and a 5-year extension option. LED reports that the \$78.5 M will be funded from the following sources: \$23M from the Mega Projects Fund, \$34.1 M in SGF from the State of LA, \$16.9 M from federal Community Development Block Grant (CDBG) funding, and \$4.5 M from East Baton Rouge city/parish. WMF will receive up to \$31.5 M for development and improvements to the new office building that will house IBM's technology center. IBM will receive performance-based grants for reimbursement of costs related to personnel recruitment, relocation, and other workforce related costs, as well as internal training and facility operating expenses, totaling up to \$30.5 M for the initial 12-year commitment term and up to \$2.5 M for the 5-year extension term. The total funding detailed above includes \$4.2 M of CDBG funding (\$1.4 M per year from FY 14 through FY 16) and \$9.8 M in SGF funding from the State of LA (\$1.4 M per year from FY 17 through FY 23) for expansion of higher-education programs related to computer science and related fields.

Note: The Mega Project Fund will have a remaining balance of \$25.5 M after approval of this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

As stated above, this project will receive funding through FY 31 from the following sources excluding the \$8 M requested from the Mega Project Fund in this BA-7: Mega Project Fund (\$15 M in FY 14), SGF from the State of LA (\$34.1 M), federal CDBG funds (\$16.9 M), and \$4.5 M from the city/parish of East Baton Rouge. The agreement commits the state to fund a total of \$34.1 M in SGF for the project including the following amounts by FY: FY 15 (\$4.8 M), FY 16 (\$4.4 M), FY 17 (\$6.2 M), FY 18 through FY 23 (\$2.45 M per year), and \$4 M in total for FY 24 through FY 30.

		Troops to Teachers	\$0	0
Total	<u>\$826,378</u>	Total	<u>\$826,378</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority in the Department of Veterans Affairs (VA), State Veteran's Cemetery Program by \$826,378. The funds originate from a one-time federal grant offered by the U.S. Department of Veteran's Affairs, National Cemetery Administration for the operations and maintenance of the Northwest State Veteran's Cemetery at Keithville. Specifically, the funds will be used to clean, raise, and realign grave markers (\$115,727), for sodding and ground surface renovation (\$417,450), for an irrigation system (\$149,240), and a grave marker support system (\$104,610). The grant also allows for contingency funding in the amount of \$39,351 in the case of unforeseen circumstances with the property & renovations or weather delays that result in increased costs such as extended equipment rentals. The contract for services has been awarded to ELA Group, Inc. through the RFP process. The grant period is for FFY 13 (10/1/2012 through 9/30/2013) and requires no state match. There have been no expenditures made on the project to date. Itemized expenditures funded by the grant are detailed below.

\$115,727	Clean, raise, and realign 867 grave markers
\$417,450	Sodding and ground surface renovation
\$104,610	Grave marker support system
\$149,240	Automatic in-ground irrigation system
<u>\$39,351</u>	Funding for contingencies
\$826,378	Total Funding

II. IMPACT ON FUTURE FISCAL YEARS

The grant period is based on the FFY (10/1/2012 through 9/30/2013). As such, it is possible that some funds could be carried forward for the first 3 months of the state FY 14 if the cemetery improvements are not completed or if the contracts are not liquidated by 6/30/2013.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$1,200,000</u>	Total	<u>\$1,200,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority to utilize funds from the Central Offender Welfare Fund to offset SGF budget reductions realized as a result of Executive Order BJ 2012-24. The Centralized Offender Welfare Fund is derived from offender's abandoned property in the form of cash and interest income earned from the investment of those resources. All interest income earned shall accrue to the benefit of all offenders. The fund is to be used to help defray administrative costs, to seed a new institution's offender welfare activities, and to provide for other expenditures which will benefit the offender population. In addition, the funds may be used to provide assistance to indigent offenders participating in the reentry process who have been released from the physical custody of the department but remain under the supervision of Probation & Parole. The fund is not budgeted and retains a sufficient balance to allow for the purposes listed above. The department will utilize these funds in the current fiscal year to fund salaries and related benefits.

If this BA-7 request is approved, approximately \$800,000 will remain in the fund.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority to utilize excess canteen funds to offset SGF budget reductions realized as a result of Executive Order BJ 2012-24. An Offender Canteen Fund is administered as a service to offenders for the purchase of consumer items which are not provided by each institution. The account is funded entirely with fees and self-generated revenues from offender canteen sales. A portion of each sale is retained by the facility to reimburse salaries and operational costs associated with operating each canteen. Excess canteen funds are deposited into the Excess Canteen Account and typically carried forward into the next fiscal year. The department will utilize these funds in the current fiscal year for salaries and related benefits.

Approval of this BA-7 request will effectively eliminate the remaining resources in the Excess Canteen Account.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Total	<u>\$208,330,821</u>	Total	<u>\$208,330,821</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$208,330,821. The source of the funds is the Robert T. Stafford Disaster Relief & Emergency Assistance Act from FEMA and are directly related to the Public Assistance Program and the Hazard Mitigation Grant Program. These monies are used to fund the ongoing recovery efforts by state agencies, local governments and certain non-profits as a result of hurricanes Katrina, Rita, Gustav, Ike and Isaac. This additional budget authority will be used to reimburse state and local government entities and nonprofit organizations.

The calculated federal budget authority increase is based upon actual expenditures from July 2012 to April 2013, which is \$1,183,901,825. This equates to a monthly expenditure rate of approximately \$118,390,183 million per month. (See Table Below)

Current Federal Other Charges expenditure category	\$1,271,546,460
Current Year actual expenditures (July 2012 - April 2012)	\$1,183,901,825
Projected remaining expenditures (May - June)	<u>\$295,975,456</u> (\$118,390,183 x 2.5 months = \$295,975,456)
Total Projected FY 13 Expenditures	\$1,479,877,281

Difference between Total Projected & Current Budget	\$208,330,821
-----------------------------------------------------	---------------

Note: The half month utilized in the calculation above is based upon the accounting close-out that occurs at the end of each state fiscal year.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget Statutory Dedication budget authority for Average Wholesale Price (AWP) drug settlement funds that were included as part of a Medicaid BA-7 for the Executive Order BJ 12-24 mid-year reduction plan, to appropriate AWP funds for the state's counter suit associated with AWP settlements, and to realign expenditures between programs within Medicaid to address a projected year end deficit in the Medicare Buy-Ins Program. The source of Statutory Dedication revenue is Average Wholesale Price revenue deposited into the Medical Assistance Trust Fund (MATF).

Payments to Private Providers Program: Increase Statutory Dedication funding by \$42.8 M

As part of a mid-year executive order (BJ 12-24), the Payments to Private Providers Program was reduced \$30.5 M in SGF. These funds were replaced with a like amount of AWP revenues in the MATF. In addition, approximately \$12.3 M in additional AWP revenue is requested to be added for the federal portion of AWP funds that were deposited into the MATF but repaid by DHH to the federal government. This BA-7 provides authority to receive those revenues in the MATF. AWP funds were used as a match source, and prevented cuts in Medicaid payments. The AWP settlements are based on lawsuits that alleged that drug manufacturers and publishers of drug prices colluded with intent to increase the published average wholesale price for certain drugs (the AWP is the base price used in purchasing drugs by certain entities).

\$12,300,000	AWP settlements deposited in the Treasury and paid by DHH
<u>\$30,500,000</u>	Per mid year reduction BA-7 - MOF swap (reduced SGF for a like amount of AWP revenue)
\$42,800,000	Total added to private providers

Payments to Public Providers Program: Decrease in budget authority by (\$12,934,425)

As part of the Federal Medical Assistance Percentage (FMAP) reduction in FY 13, the public hospital system was assessed a 10% cut in Title 19 Medicaid claims. As such, the Public Provider Program is reduced \$12,934,425 in excess authority.

(\$12,934,425) Mid-year reduction plan: cut LSU Title XIX claims by 10%

Medicare Buy-Ins & Supplements Program: Increase authority by \$118,616,518 (\$40.8 SGF, \$250 K Statutory Dedications and \$77.5 M Federal)

Based on the April Medicaid Monthly Financial Report, the DHH is projecting an overall year end deficit in the Medicare Buy-Ins & Supplements Program by approximately \$118,616,518, largely the result of a projected expenditure shortfall in Bayou Health. Information provided by the DHH indicates pharmacy services were included as a benefit under 3 prepaid Bayou Health plans in November 2013. This BA-7 requests to realign revenues within the Medicaid budget to offset the projected shortfall in the Buy-Ins Program. Specifically, a total of \$118 M (state and federal) is requested to be transferred to the Buy-Ins Program from both the Payments to Public Providers Program (\$12,934,425 M) and the Uncompensated Care Costs (UCC) Program (\$105,432,093). In addition, approximately \$250,000 in Statutory Dedications revenue authority (additional AWP settlement revenue) is requested to be added to the Buy-Ins Program to transfer to the Attorney General for costs associated with the AWP counter suit.

\$118,366,518	Realign expenditures from Publics and UCC Program as a result of Deficit in Buy-Ins Program as reflected in Medicaid Monthly Financial Report

<u>\$250,000</u>	AWP revenue transferred to Attorney General for counter suit expenses
\$118,616,518	Total transferred from various programs in Medicaid to the Buy-Ins Program

Uncompensated Care Costs Program: Decrease in budget authority by (\$105,432,093) - (\$36.4 SGF, \$69.1 M federal)

As a result of the 2013 Federal Medical Assistance Percentage (FMAP) Disaster rate reduction, the UCC Program was allocated a total payment reduction of \$316 M. This BA-7 request will realign \$105 M (\$36.4 M SGF and \$69.1 M Federal) in authority from the UCC Program to the Buy-Ins Program to mitigate a shortfall in the Buy-Ins Program.

(\$105,432,093) UCC authority transferred to Buy-Ins Program

Statutory Dedications:	(\$3,618,393)	Operations	\$0	0
Federal Funds:	\$0	Marine Trust	\$0	0
		Engineering	\$0	0
Total	<u>(\$1,618,393)</u>	Total	<u>(\$1,618,393)</u>	<u>(47)</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$2 M, increase Statutory Dedications budget authority by \$4,381,607 (Crescent City Connection Transition Fund - \$381,607 and Crescent City Connection Toll Fund - \$4 M) and decrease T.O. positions by 47.

Since the toll renewal failed on 5/4/2013, the 47 positions and \$4 M from the CCC Toll Fund are no longer needed in the current year. Excluding the requested \$381,607 from the CC Transition Fund, this BA-7 effectively reverses a JLCB approved (February 2013) BA-7 request. The original source of the requested IAT authority is from the Transportation Trust Fund (TTF-R). These TTF expenditures will now be utilized for the ongoing operations and maintenance of the bridge since the toll renewal failed to pass until the end of the fiscal year.

Pursuant to authorization provided from the Regional Planning Commission at its meeting on 3/12/2013, DOTD will utilize \$381,607 from the CCC Transition Fund to provide for the continuation of basic bridge services for the remainder of FY 13. The services include mowing and litter collection, herbicide applications, landscape maintenance, garbage collection and maintenance. These funds will also be utilized for non-decorative bridge, roadway, pathway, plant bed and tree lighting.

The specific requested expenditures include:

Lighting for 3 months (includes decorative lights on bridge)	\$201,337
Mowing/Litter Collection/Herbicide (Orleans & Jefferson Parish)	\$90,192
Non-mowing litter cycle collection (Orleans & Jefferson Parish)	\$30,935
Landscape Maintenance (Orleans & Jefferson Parish)	\$22,159
Garbage collection	\$8,633
Additional street sweeping (Orleans & Jefferson Parish)	<u>\$28,350</u>
Total	\$381,606

The net decrease of \$1.6 M represents a reduction of salaries (\$961,786), related benefits (\$327,007) and operating services (\$329,600) due to the reduction of the positions. These positions are associated with tolling operations, which are no longer necessary due to the vote results. The positions were primarily toll collection positions for cash lanes and support functions for the processing and collecting of outstanding obligations for toll violations.

Federal Funds:	\$0	Auxiliary Account	\$400,000	0
Total	<u>\$400,000</u>	Total	<u>\$400,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$400,000 for the continued operation of the Canteen Auxiliary Program at Avoyelles Correctional Center. Additional budget authority is needed due to the Offender Canteen Fund being underfunded in FY 13 and an increase of offenders at Avoyelles Correctional Center. The Offender Canteen Fund is administered as a service to offenders for the purchase of consumer items which are not provided by the institution. The account is funded entirely with fees and self-generated revenues from offender canteen sales.

The Offender Canteen Fund was budgeted \$1.3 M in FY 12. During the 2012 Legislative Session, Avoyelles Correctional Center was funded in HB 1 for a half year of operations due to the discussion of the facility being privatized. After the decision was made not to privatize, the Offender Canteen Fund budget was not restored and was only budgeted \$997,000 for FY 13 (anticipated collections are approximately \$1.4 M). The Offender Canteen Fund was further impacted due to an increase of 224 offenders being transferred to Avoyelles Correctional Center on July 1 due to the closure of J. Levy Dabadie Correctional Center. After the additional offenders, total offenders housed at the facility is 1,788.

Funding will be used for salaries for 4 T.O. positions (\$150,000), related benefits (\$46,000) and other charges (\$204,000). Other charges includes merchandise for Canteen operations.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$2,479,831			
Total	<u>\$2,479,831</u>	Total	<u>\$2,479,831</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal budget authority by \$2,479,831 in the Office of Behavioral Health (OBH) in FY 13. The funds are from a federal grant for a Regular Services - Crisis Counseling Program from the Center for Mental Health Services (CMHS) within the Substance Abuse & Mental Health Services Administration (SAMHSA) that is awarded in the amount of \$4,498,978 for 2/25/2013 through 11/24/2013. Of the \$4.5 M grant award, \$2,479,831 is requested for FY 13, and according to the Division of Administration's Office of Planning & Budget (OPB), the estimated remaining \$2,019,147 will be requested for FY 14 through an amendment to HB 1 during the budgetary process.

Previously, these crisis counseling services were offered under a similar grant that was transferred via IAT from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) for the period of 8/31/2012 through 2/28/2013. For the continuation of these services through 11/24/2013, the grant has been extended and will be awarded directly to OBH. OBH is able to expend the funds prior to JLCB approval under its disaster recovery authority afforded in the preamble of HB 1. According to the provisions of the grant, costs are reimbursed once the expenditure has been incurred (up to grant authority); therefore, it is not anticipated that any further expenses will be incurred after 11/24/2013, and there are no further extensions planned.

OBH will transfer \$2,336,480 of the funds to the human service districts impacted by Hurricane Isaac (approximately 14 parishes), so they may continue contracting with local service providers for outreach support and crisis counseling to approximately 65,805 LA residents under the Crisis Counseling Program. The Regular Services Program provides for crisis counseling and psychological self-care/recovery training for persons impacted by Hurricane Isaac in need of behavioral health support which may include: adults, children and the elderly; persons at-risk for traumatic exposure disorders; and first responders & other public sector disaster workers. The remaining \$143,351 will be retained by OBH for indirect costs associated with the grant, including human resources, travel, executive management, operating services and supplies (5.78% of \$2,479,831). The grant requires no state match. Specific expenditures are itemized below:

InterAgency Transfers (IAT) - \$2,336,480 (further detailed in companion BA-7s)

- Jefferson Parish Human Services Authority (JPHSA) - \$428,679 (BA-7 #2b)
- Florida Parishes Human Services Authority (FPHSA) - \$917,684 (BA-7 #2c)
- South Central LA Human Services Authority (SCLHSA) - \$690,117 (BA-7 #2d)
- Metropolitan Human Services District (MHSD) - \$300,000

Note: MHSD has no companion BA-7 as it currently has sufficient budget authority to receive the IAT funds from OBH. This is due to the elimination of the Temporary Assistance for Needy Families (TANF) funding received via IAT from the Department of Children & Family Services (DCFS) in the FY 13 mid-year cuts. These funds were reallocated from OBH and the districts to the Department of Education's LA4 Pre-K Program. However, the requisite budget authority was never reduced from the IAT means of financing for MHSD, so it currently has excess IAT budget authority to receive the funds.

OBH State Office Expenditures - \$143,351

- Salaries - \$39,587 & Related Benefits - \$14,172 (\$53,759 total): executive oversight and review by 1 full-time and 1 part-

March 22, 2013

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Stress Manager contract is to conduct individual and group stress management interventions with outreach teams and program leadership and provide assistance to outreach teams with grief and loss processing for first responders.

- LA Spirit Practice Directorate - \$26,000: LSU will provide continuing consultation and training for approximately 87 hours for 4 months in FY 13 at up to \$75/hour for contractors on crisis counseling
- Travel - \$29,689: projected for 5 days/week with one overnight stay per month for 7 staff members as follows:
7 staff x approximately 3,510 miles x \$0.51/mile = \$12,530
& \$101 (lodging) + \$60 (per diem) + \$34 (rental car) + \$100 (gas) + \$50 (parking) = \$345 x 7 staff x 4 months = \$9,660
& conference room costs for training for transition to Regular Services Program = \$7,499

Note: 4 of the 7 staff members are OBH in-kind personnel administering the grant and program from the Central Office whose salaries are not funded through the grant.

- Supplies & Operating Expenses - \$24,979: Includes funding for maintaining an open crisis phone line at \$167/day (\$20,000), office supplies (\$1,700), public information/outreach brochures (\$551), drug testing costs for staff (\$284), operating expenses (\$222), and funds for ADA compliance issues (\$2,222).
- Consultant/Trainer - (\$8,924): Costs associated with a contract for a consultant/trainer on the evidence-based requirements of the LA Spirit Model, which is based on a national crisis counseling program model, in order to maintain requirements of the grant.

II. IMPACT ON FUTURE FISCAL YEARS

The federal grant is awarded in the amount of \$4,498,978 for 2/25/2013 through 11/24/2013. Of the \$4.5 M grant award, \$2,479,831 is requested for FY 13, and according to the Division of Administration's Office of Planning & Budget (OPB), the estimated remaining \$2,019,147 will be requested for FY 14 through an amendment to HB 1 during the budgetary process. The \$2,019,147 in FY 14 includes \$184,283 for the administrative costs of OBH, and the following amounts to be transferred to the human service districts: \$242,647 to JPHSA, \$457,333 to FPHSA, \$272,238 to MHSD, and \$862,646 to SCLHSA.

I. SUMMARY/COMMENTS

This is a companion BA-7 request to agenda item # 2a.

The purpose of this BA-7 request is to increase IAT budget authority by \$428,679 in the Jefferson Parish Human Services Authority (JPHSA) for FY 13. The IAT funds are transferred from the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a federal grant of \$4,498,798 from the Center for Mental Health Services (CMHS) within the Substance Abuse & Mental Health Services Administration (SAMHSA) for the Crisis Counseling and Regular Services programs. Under the Crisis Counseling Program, it is intended for JPHSA to provide outreach support and crisis counseling to LA residents impacted by Hurricane Isaac in Jefferson Parish in the communities of Lafitte and Grand Isle. The Regular Services Program provides for crisis counseling and psychological self-care/recovery training for persons also impacted by Hurricane Isaac in need of behavioral health support which may include: adults, children and the elderly; persons at-risk for traumatic exposure disorders; and first responders & other public sector disaster workers. The grant period is being extended to 2/25/2013 through 11/24/2013 from its previous grant period (8/31/2012 through 2/28/2013) and requires no state match. Specific expenditures are itemized below:

\$367,916	Wages (\$332,497) & Related Benefits (\$35,419) for 17 contracted personnel with Options for Independence, including a program manager, 2 team leaders, 6 crisis counselors, 6 resource linkage specialists, a fiscal coordinator, and an administrative assistant.
\$51,893	Travel: calculated for 9 vehicles for field personnel and 2 non-field staff vehicles (9 cars x 501 miles/week) + (2 cars x 252.5 miles/week) = 5,014 miles/week x 18 weeks x \$0.51 = \$46,028 & \$101 (lodging) + \$60 (per diem) + \$134 (rental car/gas) + \$50 (parking) = \$345 x 17 staff x 1 conference = \$5,865
\$3,620	Operating Services (outreach advertising and media promotion of the program)
\$5,250	Supplies (office and field supplies, pay-as-you-go phones, and flyers/brochures)
<u>\$428,679</u>	Total

II. IMPACT ON FUTURE FISCAL YEARS

The total IAT allocated to JPHSA from the grant award is \$671,326 for 2/25/2013 through 11/24/2013. Of the \$671,326, \$428,679 is requested for FY 13, and according to the Division of Administration's Office of Planning & Budget (OPB), the estimated remaining \$242,647 will be requested for FY 14 through an amendment to HB 1 during the budgetary process.

<u>\$917,684</u>	Total

II. IMPACT ON FUTURE FISCAL YEARS

The total IAT allocated to FPHSA from the grant award is \$1,375,017 for 2/25/2013 through 11/24/2013. Of the \$1,375,017, \$917,684 is requested for FY 13, and according to the Division of Administration's Office of Planning & Budget (OPB), the estimated remaining \$457,333 will be requested for FY 14 through an amendment to HB 1 during the budgetary process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This is a companion BA-7 request to agenda item # 2a.

The purpose of this BA-7 request is to increase IAT budget authority by \$690,117 in the South Central LA Human Services Authority (SCLHSA) for FY 13. The IAT funds are transferred from the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a federal grant of \$4,498,798 from the Center for Mental Health Services (CMHS) within the Substance Abuse & Mental Health Services Administration (SAMHSA) for the Crisis Counseling and Regular Services programs. Under the Crisis Counseling Program, it is intended for SCLHSA to provide outreach support and crisis counseling to LA residents impacted by Hurricane Isaac in Assumption, Lafourche, St. Charles, St. James, St. John the Baptist, St. Mary, and Terrebonne parishes. The Regular Services Program provides for crisis counseling and psychological self-care/recovery training for persons also impacted by Hurricane Isaac in need of behavioral health support which may include: adults, children and the elderly; persons at-risk for traumatic exposure disorders; and first responders & other public sector disaster workers. These programs are estimated to help approximately 9,362 LA residents within SCLHSA. The grant period is being extended to 2/25/2013 through 11/24/2013 from its previous grant period (8/31/2012 through 2/28/2013) and requires no state match. Specific expenditures are itemized below:

\$576,720	Wages (\$523,171) & Related Benefits (\$53,549) for 3 staff members currently employed by SCLHSA who will work part-time with the program (including a mobile unit driver, a program director, and a fiscal director); and 24 restricted / temporary appointments including 2 team leaders, 2 administrative coordinators, 4 crisis counselors, and 16 resource / outreach linkage specialists.
\$37,128	IAT: State Unemployment Tax for the 24 contracted personnel paid to LA Workforce Commission
\$56,434	Travel: mileage estimated based on the assumption that 18.5% of the average service area will be covered daily. Team 1 consists of St. John, St. James & St. Charles Parishes (749 square miles / 3 x 20.3% = 50.5 miles / day), and Team 2 consists of Assumption, Lafourche, St. Mary & Terrebonne parishes (3,291 square miles / 4 x 20.55% = 169.05 miles / day). Team 1: 4 vehicles x 50.5 miles / day x 7 days x 18 weeks x \$0.51 / mile = \$12,980; Team 2: 4 vehicles x 169.05 miles / day x 7 days x 18 weeks x \$0.51 / mile = \$43,454.
\$12,661	Operating Services: pay-as-you-go phones, air cards, and media promotion of program
\$7,174	Supplies: office, printing, and field supplies = \$6,026 and \$1,148 in diesel fuel for mobile unit (\$4.29 / gallon for approximately 18 weeks)
<u>\$690,117</u>	Total

II. IMPACT ON FUTURE FISCAL YEARS

The total IAT allocated to SCLHSA from the grant award is \$1,552,763 for 2/25/2013 through 11/24/2013. Of the \$1,552,763, \$690,117 is requested for FY 13, and according to the Division of Administration's Office of Planning & Budget (OPB), the estimated remaining \$862,646 will be requested for FY 14 through an amendment to HB 1 during the budgetary process.

DEPARTMENT: Children & Family Services

AGENDA NO.: 3

AGENCY: Children & Family Services

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Executive Support	\$668,182	0
Interagency Transfers:	\$10,780,000	Prevention & Intervention Services	\$177,177	0
Self-Generated Revenue:	\$0	Community & Family Services	\$7,357,563	0
Statutory Dedications:	\$0	Field Services	\$13,357,081	0
Federal Funds:	\$10,780,003			
Total	<u>\$21,560,003</u>	Total	<u>\$21,560,003</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT and Federal funding budget authority by \$21,560,003 in the Department of Children & Family Services (DCFS) for Disaster Supplemental Nutrition Assistance Program (DSNAP) administrative costs as a result of the department's Hurricane Isaac response. The IAT funds will be transferred from the Division of Administration (DOA). The source of IAT funds are \$10,780,000 of State Emergency Response Fund (SERF) and \$10,780,003 of Federal matching funds from the US Department of Agriculture/Food & Nutrition Services (FNS) based on the current match rate of 50% State and 50% Federal from Stafford Disaster Relief & Emergency Assistance Act. As of 3/13/2013, the SERF has a fund balance of \$10,781,736.

DSNAP Administrative Expenditures. DSNAP is an income eligibility based program to assist eligible households who do not receive regular SNAP benefits and who need help buying groceries due to lost income or damages following a disaster. In accordance with the Stafford Act, FNS provides reimbursement of 50% of the State's administrative costs to operate the DSNAP program and pays 100% of DSNAP benefits issued. Following Hurricane Isaac, DCFS issued \$103,842,960 in DSNAP benefits to 263,459 households and 587,618 people in the 21 parishes approved for assistance. As of 12/31/2012, the department incurred costs of approximately \$26,513,198 issuing DSNAP benefits and administering the program in 21 parishes. This BA-7 represents partial reimbursement of administrative costs -- \$21,560,003 of the total \$26,513,198. The DOA has indicated that the remaining funding of \$4,953,195 (\$26,513,198 - \$21,560,003 = \$4,953,195 -- \$2,476,597 SGF and \$2,476,598 Federal) will be addressed in either the supplemental appropriations bill or through another funding option.

Expenditures:

Personnel Service (\$5,744,489) - Overtime worked during disaster operations for Emergency preparedness staff, DCFS leadership, Emergency Operations Center staff, and DCFS staff deployed for DSNAP.

Travel (\$44,331) - Mileage to DSNAP training and parish sites, and lodging.

Operating Services (\$141,828) - Data processing and IT support provided by Northrop Grumman Systems Corporation and SHI International Corporation for the Electronic Benefit Transfer (EBT) card system (known as the Louisiana Purchase Card).

Supplies (\$112,486) - Fuel for vans as well as photocopies at the DSNAP sites.

Professional Services (\$207,090) - Customer service call line operated by Xerox.

Other Charges (\$15,309,779) - Contractor OK Cascade (disaster logistics firm) provided logistic services such as tents, tables, chairs, lighting, site security, and staff to set up and break down sites. Toilet rentals, wheel chair rentals, interpreters, signs, forklift rentals, van rental, rental of site locations, and meals for staff.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

March 22, 2013

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Higher Education

AGENDA NO.: 4

AGENCY: Student Financial Assistance

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration/Support Services	\$2,222,633	0
Interagency Transfers:	\$0	Loan Operations	\$35,046,615	0
Self-Generated Revenue:	\$0	Scholarships & Grants	\$878,635	0
Statutory Dedications:	\$0	TOPS Tuition	\$0	0
Federal Funds:	\$38,147,883			
Total	<u>\$38,147,883</u>	Total	<u>\$38,147,883</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal funds by \$38,147,883 for the GEAR UP grant (\$2,222,633) and increases in default student loan collections/disbursements and claims/reinsurance (\$35,925,250) from the Federal Family Education Loan Program (FFELP).

The Gaining Early Awareness and Readiness for Undergraduate Program (GEAR UP) is a discretionary federal grant program designed to increase the number of low-income students who are prepared to enter and succeed in postsecondary education. The U. S. Department of Education transferred the GEAR UP program from the Board of Regents to the Louisiana Office of Student Financial Assistance (LOSFA) on 9/5/2012. The Office of Planning & Budget (OPB) approved an in-house BA-7 in November 2012 for \$2.25 M to establish initial funding for GEAR UP in the LOSFA budget. OPB also approved another in-house BA-7 in November 2012 moving eight unclassified positions from the Board of Regents to LOSFA for GEAR UP. Approval of this BA-7 provides funding for the complete federal GEAR UP grant of \$4,472,633 (\$2,250,000 from previous OPB in-house BA-7 + \$2,222,633 in this BA-7 = \$4,472,633 for the complete GEAR UP grant). LOSFA will use the GEAR UP funds requested in this BA-7 for the following: salaries/compensation/related benefits (\$167,910), travel (\$35,000), operating services (\$27,000), supplies (\$7,000), printing (\$10,338), professional services (\$22,000), and other charges (\$1,953,385). The funding in other charges includes the following uses: \$515,403 for Make a Difference grants to 30 LA high schools (approximately \$17,000 per high school), \$708,987 for Summer Learning Camps at 4 universities (LA Tech, Grambling, Nicholls, and LSU), \$282,752 for summer camp learning program managed by LA Tech, and \$446,243 for ACT Quality Core curriculum/testing by LA Tech.

The Federal Family Education Loan Program (FFELP) is the U. S. Department of Education's student loan program that ceased originating new loans after 6/30/2010. Due to budget reductions, LOSFA entered into a contract with Sallie Mae to perform its default aversion and collection services for outstanding FFELP loans effective 7/1/2012. Based on increased default collection activity projected by Sallie Mae, LOSFA's existing federal budget authority for Loan Operations (\$35,823,623) is insufficient to accommodate the projected revenues and expenditures for FFELP for FY 13. These entities will retain the following approximate percentages of defaulted student loans collected in FY 13: U. S. Dept. of Education (80%), LOSFA (10%), collection agencies contracted by Sallie Mae (7%), and Sallie Mae portfolio management fees after subtracting collection agency fees (3%). This BA-7 does not include funds for Sallie Mae and contracted collection agencies. LOSFA will use \$878,635 in Federal funds generated from the FFELP program from this BA-7 to restore SGF eliminated by mid-year budget reductions for funding Earning Enhancements for the LA START college savings program. The remaining \$35,046,615 in Federal funds associated with FFELP funds must be remitted to the federal government as required by FFELP.

II. IMPACT ON FUTURE FISCAL YEARS

The GEAR UP grant ends on 7/14/2014. As such, LOSFA may carryforward Federal GEAR UP funding into FY 14 and possibly FY 15 depending on the timing of GEAR UP funded activities. LOSFA will apply for additional GEAR UP grants after expiration of the current grant. However, LOSFA will terminate the employment of positions funded by GEAR UP if the agency is unable to obtain additional GEAR UP grants after expiration of the current grant.

Statutory Dedications:	\$5,989,740			
Federal Funds:	\$0			
Total	<u>\$5,989,740</u>	Total	<u>\$5,989,740</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$5,989,740 from the Rapid Response Fund to fund FY 13 economic development projects. The Legislative Fiscal Office was unable to obtain a list of projects and amounts per project funded by this BA-7. The Rapid Response Fund has approximately \$12 M available for appropriation.

LED Debt Service/State Commitments was originally appropriated \$22.4 M in SGF in FY 13. Mid-year budget cuts included in Executive Orders BJ 2012 - 24 and BJ 2012 - 25 reduced SGF for LED Debt Service/State Commitments by \$19.7 M.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 appropriates funds from the Rapid Response Fund that would have been available in FY 14 or thereafter.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office does not have a recommendation on this BA-7 at this time. The LFO has requested a list of projects funded in this BA-7, amounts per project, and whether these funds are related to existing or new/expanded projects. The LFO will provide a recommendation to the JLCB following receipt of this information from the Department of Economic Development.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Other Requirements

AGENDA NO.: 2

AGENCY: State Sales Tax Dedications

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Sales Tax Dedications	\$2,299,101	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$2,299,101			
Federal Funds:	\$0			
Total	<u>\$2,299,101</u>	Total	<u>\$2,299,101</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the appropriation of certain funds containing state sales tax collections from hotel/motel rentals for Orleans (\$1.7 M), Tangipahoa (\$369,000) and West Baton Rouge (\$230,101) parishes so available funds can be accessed during the FY 13 budget year. Each of the funds has a current appropriation that is expected to be less than the amount of funds available during the year. All funds collected for the hotel/motel tax are dedicated back to the parish of origination through an annual appropriation. This BA-7 will adjust the appropriation for these funds to more closely match the amounts available during FY 13. If the sales tax collections do not materialize, the remainder of the appropriation is not automatically obligated from SGF.

The New Orleans Metropolitan Convention & Visitors Bureau (NOCVB) Fund receives 0.97% of the sales of hotel/motel room rentals in Orleans and Jefferson parishes to be used for operating and promotional expenses. Over the last 2 years, the NOCVB was appropriated \$7.3 M, which allowed an accrued fund balance of \$898,009 to be carried into FY 13. Historically, collections have increased by 15% in FY 10 to \$6.3 M and again in FY 11 to \$7.3 M with FY 12 collections increasing an additional 9% to \$7.9 M. In order to reach the total appropriation of \$9 M (the existing \$7.3 M along with the \$1.7 M in this BA-7 request), hotel/motel sales tax collections in Orleans and Jefferson parishes would have to increase by 14% over FY 12 collections to \$9 M if the fund balance of \$898,009 is to remain intact. The NOCVB is not the only fund receiving collections from room rentals in the New Orleans area, but this BA-7 refers only to the collections for the NOCVB. The Bureau expects to use the additional funding to hire additional sales team members. The need for this appropriation is expected to continue into subsequent years to allow the full amount of the dedicated funds to be sent back to the NOCVB.

The West Baton Rouge Parish Visitor Enterprise Fund receives 3.97% of the sales of hotel/motel rentals occurring in West Baton Rouge Parish. The current appropriation for the fund is \$450,000 which has not changed since FY 07. Historically, collections have increased by 8% in FY 11 to \$413,327 and by 17% in FY 12 to \$483,137. The amount requested in this BA-7 of \$230,101 represents the entire fund balance in place at the beginning of FY 13. This appropriation increase is expected to be in place during FY 13 only and will be used for marketing and promotional efforts in West Baton Rouge parish as well as upgrades and repairs to the WBR Conference Center.

The Tangipahoa Parish Tourist Commission Fund receives 2.97% of the sales of hotel/motel rentals occurring in Tangipahoa Parish. The appropriation has been \$500,000 since FY 08 and annual collections have fluctuated between \$540,336 and \$406,349 during that time. The fund balance carried into FY 13 was \$393,242 which is similar to the amount of fund balance available in prior years. The amount requested in this BA-7 of \$360,000 represents most of the fund balance in place at the beginning of FY 13. This appropriation increase is expected to be in place during FY 13 only and will provide for additional marketing and promotional efforts in Tangipahoa parish and Southeast LA.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 does not obligate the legislature to increase appropriations in subsequent years. The appropriations requested for Tangipahoa and West Baton Rouge are to utilize fund balances that will not be available next year. The appropriation for the New Orleans Metropolitan Convention & Visitors Bureau (NOCVB) is expected to be requested in subsequent years because

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

only obligate the increase for FY 13.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 3

AGENCY: State Parks

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Parks & Recreation	\$4,000,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$4,000,000			
Federal Funds:	\$0			
Total	<u>\$4,000,000</u>	Total	<u>\$4,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutorily dedicated budget authority to utilize funds from the LA State Parks Improvement & Repair Fund (Act 729) to replace SGF budget reductions by Executive Orders BJ 2012-24 and BJ 2012-25. This funding will allow the Office of State Parks to continue park operations without disruptions for the current fiscal year.

The State Parks Improvement & Repair Fund is derived from fees and self-generated revenues from the state parks. Pursuant to R.S. 56:1703, the fund is to be used exclusively for improvements and repairs at state parks, subject to annual legislative appropriation. Parks are allocated 50% of the fees and self-generated revenues generated by each park, except for revenues generated through the operation of the wave pool at Bayou Segnett State Park. The remaining 50% of the funds are to be used on the following priority need basis: 1) protection of life and property at existing facilities; 2) general repairs and improvements at existing facilities; 3) addition of new facilities at existing parks; and 4) acquisition of property to expand existing parks.

Approximately \$7.9 M from the State Parks Improvement & Repair Fund is currently being utilized in the FY 13 budget for operations. These funds have been utilized in this manner since FY 09. If this BA-7 request is approved, the projected FY 13 ending year fund balance will be approximately \$1.2 M.

Note: As mentioned above, the FY 13 Mid-Year Reduction Plan reduces State Parks' SGF budget by \$4 M and approval of this BA-7 replaces the SGF cut with these Act 729 resources. According to the DOA, these resources will be "back filled" with GO Bond Debt in the Capital Outlay Program.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office has no recommendation on this BA-7. The LFO agrees that these funds should be utilized by the Office of State Parks and that the Joint Legislative Committee on the Budget (JLCB) has the authority to appropriate these funds. While there is considerable precedent for the use of these funds as proposed by this BA-7, the law may limit the use of these funds to improvements and repairs at state parks. The LFO has received assurance from the Division of Administration that this issue will be addressed during the upcoming legislative session to clarify the action of the committee if this BA-7 is approved.

Self-Generated Revenue:	\$0	Planning & Programming	\$0	0
Statutory Dedications:	\$4,000,000	Operations	\$0	0
Federal Funds:	\$0	Marine Trust	\$0	0
		Engineering	\$0	0
Total	<u>\$2,000,000</u>	Total	<u>\$2,000,000</u>	<u>47</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to reduce IAT budget authority by \$2 M, increase Statutory Dedications (Crescent City Connection Toll Fund) budget authority by \$4 M, and to increase the authorized T.O. of the CCCD Bridge Program by 47. On 11/1/2012, voters in Jefferson, Orleans and Plaquemines parishes voted to continue toll collections on the Crescent City Connection Bridge (CCCB) through 2033. Act 865 of 2012 became effective 1/1/2013, extending toll collections, providing for policing of the bridge and surrounding arteries and creating new statutory dedications earmarked for specific purposes. This action will maintain operational levels comparable to FY 12.

Note: On 12/18/2012, opponents of the Crescent City Connection toll renewal filed a lawsuit at the 19th Judicial District Court challenging the results of the November 6th election. On 1/3/2013, Judge William Morvant ordered a partial recount of the election for certain ballots in Orleans Parish. The recount will be conducted by the registrar of Terrebonne Parish on Saturday 2/16/2013.

Approval of this BA-7 request will provide personnel and expenditure authority necessary to collect tolls and provide for administrative support functions related to ensuring accountability in the processing and collection of violations. The funding is restricted to provide for the operations and maintenance of the CCCD roadways and tolling system. The funding source of the \$4 M statutory dedication is the newly created Crescent City Connection Toll Fund. The funding source of the \$2 M reduction in IAT authority was Transportation Trust Fund - Regular (TTF) from the DOTD Administration Agency. These IAT funds were to be spent on the ongoing operations and maintenance of the bridge in the event the toll renewal did not pass in the November election. The IAT (TTF) funds will revert for use by DOTD for other operational costs.

The net increase of \$2 M additional funding provides for salaries and related benefits associated with reestablishing 47 positions, as well as operating services, to collect, process and support the tolling function on the CCCD Bridge. The employees formerly occupied T.O. positions in FY 12 but are currently occupying Other Charges positions that were retained to provide operating support through 12/31/2012, when the outcome of the proposed toll renewal was still unknown.

Salaries	\$961,786 (salaries for 47 T.O. positions associated with tolling operations)
Related Benefits	\$327,007 (related benefits for 47 T.O. positions)
Operating Services	<u>\$711, 207</u> (operations/ maintenance of data equipment, utilities, rentals and service contracts)
Total	\$2,000,000

The 47 positions have been identified as critical to tolling operations. These positions are required to implement and maintain toll operations, as well as issue and respond to toll violation notices. The positions are primarily toll collection positions for cash lanes and support functions for the processing and collecting of outstanding obligations for toll violations. The operating services authority will provide for the operations and maintenance of data processing systems, utilities, building and equipment rentals, and for service contracts such as waste disposal.

**LEGISLATIVE FISCAL OFFICE

Statutory Dedications:	\$1,000,000	Gaming Enforcement	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$1,000,000</u>	Total	<u>\$1,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority by \$1 M for expenditures related to providing patrol duties along the Crescent City Connection. On 11/6/2012, voters in Jefferson, Orleans and Plaquemines parishes voted to continue toll collections on the Crescent City Connection Bridge (CCCB) through 2033. Act 865 of 2012 became effective 1/1/2013, extending toll collections, providing for policing of the bridge and surrounding arteries and creating new statutory dedications earmarked for specific purposes.

Note: On 12/18/2012, opponents of the Crescent City Connection toll renewal filed a lawsuit at the 19th Judicial District Court challenging the results of the November 6th election. On 1/3/2013, Judge William Morvant ordered a partial recount of the election for certain ballots in Orleans Parish. The recount will be conducted by the registrar of Terrebonne Parish on Saturday 2/16/2013.

Approval of this BA-7 request will fully fund 22 vacant T.O. positions needed to provide patrol services along the Crescent City Connection and US 90Z. DPS will absorb the Police Officer positions by filling currently unfunded, vacant State Trooper positions. The personnel are being transferred from the existing CCCD Police Force and will become DPS Police Officers, not State Troopers. This action will eliminate DPS's ability to fill 22 vacant State Trooper positions in the event funds become available in the future unless additional legislative action is taken. The funds will also provide for operating services and supplies necessary to support the patrol function. The funding source is the Crescent City Connection Toll Fund.

Salaries	\$548,654 (22 positions - Police Officer Career Progression Group)
Related Benefits	\$238,608 (Benefits for 22 positions)
Operating Services	\$56,376 (Automobile maintenance)
Supplies	<u>\$156,362</u> (Fuel and automobile supplies)
Total	\$1,000,000

II. IMPACT ON FUTURE FISCAL YEARS

The ongoing operation of patrol services by the Office of State Police will require annualization of this adjustment in the FY 14 budget development process, providing a maximum of \$2 M in expenditure authority.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$750,000</u>	Total	<u>\$750,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$750,000 in Federal funds for measuring and improving service quality for adult recipients in LA Medicaid. The source of Federal funds is an Adult Medicaid Quality Grant (AMQG) from the Centers for Medicare & Medicaid Services (CMS). There is no state match required. These funds will be utilized to: 1) design and implement at least 2 quality improvement projects in LA Medicaid targeted to improve the quality of care for adult recipients; and 2) report to CMS on improvement measures; and 3) maintain the quality improvement projects for the term of the grant (2 years).

Specifically, the Department of Health & Hospitals (DHH) will select 2 core federal health care quality measures and enter into a professional services contract to collect, analyze, and report on data related to the measures. Additionally, the contractors will design a quality improvement program for each quality measure selected by the department. The program will target an area for improvement with goals, objectives and outcomes. Information provided by the department indicates the core measures selected are related to birth outcome measures and care setting transitioning measures. The allocation of grant expenditures for FY 13 is reflected below.

\$16,430	Travel (for DHH managers to attend CMS Quality Conference and education seminars)
\$637,384	Professional Services (to collect, analyze, and report on quality data and design improvement programs for DHH)
<u>\$96,186</u>	Other Charges (training DHH staff to continue to monitor and report on quality measures beyond the grant term)
\$750,000	Total grant allocation for FY 13

II. IMPACT ON FUTURE FISCAL YEARS

The Adult Medicaid Quality Grant is a 2-year grant with total grant authority of \$2 M. DHH anticipates utilizing the balance of the funds in FY 14.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$1,125,539 in the Office of Behavioral Health (OBH). The IAT funds will be transferred from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). The original source of IAT funds is a Federal Crisis Counseling Program & Immediate Services Program grant from the Center for Mental Health Services (CMHS) within the Substance Abuse & Mental Health Services Administration (SAMHSA) that was originally awarded through 10/31/2012, but extended until 2/28/2013. GOHSEP and OBH anticipated the grant would be extended to continue needed services in the affected areas under their disaster recovery authority afforded in the preamble of HB 1. According to the provisions of the grant, costs are reimbursed once the expenditure has been incurred (up to grant authority); therefore, it is not anticipated that any further expenses will be incurred after 2/28/2013, and there are no further extensions planned. OBH will transfer \$1,030,857 of the funds to the human service districts impacted by Hurricane Isaac (approximately 14 parishes), so they may continue contracting with local service providers for outreach support and crisis counseling to approximately 65,805 LA residents under the Crisis Counseling Program. The Immediate Services Program provides for specialized counseling for the elderly, persons at-risk for traumatic exposure disorders, and first responders and other public sector disaster workers. The remaining \$94,682 will be retained by OBH for indirect costs associated with the grant, including human resources, travel, executive management, operating services and supplies (8.4% of \$1,125,539). The termination date is being extended to 2/28/2013 from its original grant period (8/31/2012 through 10/31/2012) and requires no state match. Specific expenditures are itemized below:

InterAgency Transfers (IAT) - \$1,030,857 (further detailed in companion BA-7s)

- South Central LA Human Services Authority (BA-7 #7b) - \$480,849
- Metropolitan Human Services District (MHSD) - \$131,199
- Florida Parishes Human Services Authority (FPHSA) - \$223,695
- Jefferson Parish Human Services Authority (JPHSA) - \$195,114

Note: MHSD, FPHSA, & JPHSA have no companion BA-7s as they currently have sufficient budget authority to receive the IAT funds from OBH. This is due to the elimination of the Temporary Assistance for Needy Families (TANF) funding received via IAT from the Department of Children & Family Services (DCFS) in the mid-year cuts. These funds were reallocated from OBH and the districts to the Department of Education's LA 4 Pre-K Program. However, the requisite budget authority was never reduced from the IAT means of financing for MHSD, FPHSA and JPHSA, and the districts currently have excess IAT budget authority to receive the funds.

OBH State Office Expenditures - \$94,682

- Other Compensation - \$53,728 & Related Benefits - \$19,234 (\$72,962 total): administrative costs associated with executive oversight and review by 3 full-time and 3 part-time program staff currently at OBH (equates to 4.5 full-time equivalents [FTE]) for an estimated 9.2 weeks (46 work days).
- Travel - \$5,855: projected for 5 days/week with one overnight stay for 5 people as follows:
4.5 FTE x 416.7 miles/week x 4.5 weeks x \$0.51/mile = \$4,303
and \$101 (lodging) + \$60 (per diem) + \$34 (rental car) + \$100 (gas) + \$50 (parking & tolls) = \$345 x 4.5 FTE = \$1,552

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

- Other Charges - \$15,865: Includes funding for maintaining an open crisis phone line for 95 days at \$167 / day.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

This is a companion BA-7 request to agenda item # 7a.

The purpose of this BA-7 request is to increase IAT budget authority by \$480,849 in the South Central LA Human Services Authority (SCLHSA). The IAT funds are transferred from the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a federal grant of \$1,125,539 from the Center for Mental Health Services (CMHS) within the Substance Abuse & Mental Health Services Administration (SAMHSA) to the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) for the Crisis Counseling and Immediate Services programs. Under the Crisis Counseling Program, it is intended for SCLHSA to provide outreach support and crisis counseling to LA residents impacted by Hurricane Isaac in Assumption, Lafourche, St. Charles, St. James, St. John the Baptist, St. Mary, and Terrebonne parishes. The Immediate Services Program provides for specialized counseling for the elderly, persons at-risk for traumatic exposure disorders, and first responders and other public sector disaster workers also affected by Hurricane Isaac. These programs are estimated to help approximately 9,362 LA residents within SCLHSA. The termination date is being extended to 2/28/2013 from its original grant period (8/31/2012 through 10/31/2012) and requires no state match. Specific expenditures are itemized below:

\$401,975	Wages (\$359,876) & Related Benefits (\$42,099) for 3 staff members currently employed by SCLHSA who will work part-time with the program, including a mobile unit driver, a program director, and a fiscal director; and 24 restricted / temporary appointments including 2 team leaders, 2 administrative coordinators, 4 crisis counselors, and 16 resource / outreach linkage specialists.
\$24,700	IAT: State Unemployment Tax calculated at 8% of the wages for the 24 contracted personnel paid to Workforce Commission
\$42,733	Travel: mileage estimated based on the assumption that 18.5% of the average service area will be covered daily. Team 1 consists of St. John, St. James & St. Charles Parishes (749 square miles / 3 x 18.5% = 46 miles / day), & Team 2 of Assumption, Lafourche, St. Mary & Terrebonne parishes (3,291 square miles / 4 x 18.66% = 153.5 miles / day). Team 1: 4 vehicles x 46 miles / day x 7 days x 15 weeks x \$0.51 / mile = \$9,853.20; Team 2: 4 vehicles x 153.5 miles / day x 7 days x 15 weeks x \$0.51 / mile = \$32,879.70;
\$3,900	Operating Services: pay-as-you-go phones and air cards
\$5,291	Supplies: office, printing, and field supplies = \$2,704 and \$2,587 in diesel fuel for mobile unit (\$4.29 / gallon x 40.2 gallons / week x 15 weeks = \$2,586.87)
\$2,250	Other Charges: deaf interpreter contract for public meetings
<u>\$480,849</u>	Total

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0	Atchafalaya Basin	\$0	0
Federal Funds:	\$7,046,542	Auxiliary Account	\$0	0
Total	<u>\$7,046,542</u>	Total	<u>\$7,046,542</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Department of Natural Resources is requesting approval to add \$7,046,542 in Federal funds to its budget to provide for reimbursement of outstanding projects. The requested funding is from 3 federal sources administered by the U. S. Department of Energy which include the following: \$6,056,433 from the American Recovery & Reinvestment Act (ARRA) of 2009; \$690,427 from the Save Energy Now Initiative Grant; and \$299,682 from the State Energy Program Grant.

ARRA FUNDING (\$6,056,433)

The ARRA funding included in this BA-7 is the balance of the total ARRA funding (\$90.7 M) allocated to the department. The ARRA funding in this BA-7 request will be expended in the following state programs: \$5,389,307 for the State Energy Program; \$372,835 for the Energy Block Grant; \$242,117 for the Energy Smart Grid; \$52,095 for LA Save Energy Now; and \$79 for the Appliance Rebate Program. The purpose of each of these programs is detailed below.

Funding for the State Energy Program will be utilized to reimburse grantees for outstanding projects related to the Renewable Energy Program, the Transportation Efficiency & Alternative Fuel Program and for administrative expenses. Reimbursement for outstanding solar energy projects approved under the Renewable Energy Program will be provided to Cleco, University of LA at Lafayette and Lamar Advertising. Reimbursements for the purchase of equipment for compressed natural gas fueling stations or vehicles, and transportation lighting approved under the Transportation Efficiency & Alternative Fuel Program will be provided to Clean Energy, Grant Parish, Lafayette Consolidated Government, Port of New Orleans and the City of New Orleans. Shaw, Innovative Emergency Management (contractors hired by the Department of Natural Resources (DNR) to help administer ARRA funding) and the DNR will also receive reimbursements for administration expenses. The amount payable to DNR, Shaw, and Innovative Emergency Management for administrative expenses will be determined upon completion of the program.

Funds for the Energy Block Grant Program will be utilized to reimburse local governments for implementation of energy efficiency projects.

Funds for the Energy Smart Grid will be utilized to reimburse the University of LA at Lafayette for expenses related to the development of a plan to show the availability of energy during an emergency.

Funds for the LA Save Energy Now Program (\$52,095) will be utilized to reimburse the University of LA for expenses incurred for instruction and oversight for students to perform energy audits on small to medium size plants and industrial facilities to implement energy efficiency technologies.

Although the Appliance Rebate Program has ended the department still has a \$79 invoice for an appliance rebate payment that is still pending.

SAVE ENERGY NOW INITIATIVE GRANT (\$690,427)

Funding for the (Recurring State) Save Energy Now Program will be combined with the \$52,095 from the LA Save Energy Now Program to reimburse the University of LA for expenses incurred for instruction and oversight of students to perform energy audits on small to medium size plants and industrial facilities to implement energy efficiency technologies.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

STATE ENERGY PROGRAM GRANT (\$299,682)

The \$299,682 from the State Energy Program Grant is a federal grant received annually that funds a percentage of the salaries of the employees of the state energy office (DNR Office of Technology Assessment) as well as direct costs associated with implementation of energy efficiency projects. Reimbursements will be made to two nonprofit organizations, the Greater Baton Rouge Clean Cities Coalition and the Greater New Orleans Clean Cities Coalition. The State Energy Program Grant provides for various energy grants for management of a statewide energy program.

DEPARTMENT: Ancillary

AGENDA NO.: 4

AGENCY: Clean Water Revolving Fund

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Clean Water Revolving Fund	\$30,000,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$30,000,000			
Federal Funds:	\$0			
Total	<u>\$30,000,000</u>	Total	<u>\$30,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the appropriation from the Clean Water State Revolving Fund (CWSRF) by \$30 M so the Department of Environmental Quality (DEQ) will be able to meet the required loan obligations for the current fiscal year. Approval of this BA-7 request will increase the FY 13 appropriation to \$75 M. The fund had a balance of \$336,933,537 as of 1/9/2013.

The CWSRF and DEQ provide assistance to municipalities in the planning and development, financing and implementation of improvements to wastewater infrastructure. The CWSRF is operated as a direct loan program where monies are lent directly to municipalities at or below market interest rates with a repayment period not to exceed 20 years. As of 12/31/2012, DEQ disbursed a total of \$34,037,670 in loan payments to communities for wastewater improvement projects for the current fiscal year. The department anticipates municipalities requesting an additional \$40.2 M for construction payments prior to the end of the fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

The DEQ anticipates receiving requests for disbursements totaling \$85 M in FY 14. Assuming this BA-7 is annualized for the FY 14 budget, an additional \$10 M will have to be appropriated from the fund in FY 14 to meet the projected additional obligations.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Executive

AGENDA NO.: 1

AGENCY: LA Public Defender Board

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Public Defender Board	\$70,361	0
Interagency Transfers:	\$70,361			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$70,361</u>	Total	<u>\$70,361</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$70,361 for expenditures associated with the continued funding of a Case Management System (CMS) analyst position and a new auditor position, both of which are non-T.O. positions (other compensation positions). The original source of the IAT funds is an Edward Byrne Memorial Justice Assistance Grant (JAG), which is a formula driven federal grant received annually, via the LA Commission on Law Enforcement (LCLE). These grant funds will be utilized to fund an auditor position, who will review and evaluate monthly financial report submissions from the 42 district public defender offices, and will continue funding of an existing CMS analyst position (non-T.O. position).

The total grant award, which is from the 2011 federal fiscal year allocation, is \$103,573 with a grant period from 1/1/2013 - 12/31/2013. The BA-7 request of \$70,361 is for expenditures anticipated in FY 13 with the remaining grant funds of \$33,212 anticipated to be expended in FY 14. According to the LA Commission on Law Enforcement (LCLE), the state's 2011 Byrne/JAG allocation was approximately \$4.0 M of which approximately 70% must be allocated to local governments and approximately 30% to state government.

According to the U.S. Bureau of Justice Assistance (BJA), the JAG Program provides states and local governments with funding to support law enforcement, crime prevention and education, corrections, drug treatment, technology improvement and crime victims and witness protection initiatives. The JAG formula grant funds are based upon the state's share of the national population and various crime statistics.

The requested FY 13 expenditures include:

\$46,816 - Other compensation for salary expenditures relative to 2 positions (an existing CMS Analyst position & a new auditor position, both of which are non-T.O. positions). The agency was awarded \$126,309 of Byrne/JAG grant funds in calendar year 2012 (FY 11 Bryne/JAG Allocation) and a portion of these federal funds was utilized to fund the CMS analyst position. For calendar year 2013 (FY 2012 Bryne/JAG Allocation), the agency has been awarded \$103,573 of which \$70,361 is being requested within this BA-7. Of the \$46,816 requested in other compensation expenditure authority, \$18,816 is for the existing CMS analyst position (remaining wages to be paid in FY 13) and \$28,000 is for the auditor position. Without these federal funds, the CMS analyst position would be eliminated.

Because the LA Public Defender Board is included within LCLE's annual state Byrne/JAG grant annual allocation, the agency anticipates utilizing these annual federal resources for these 2 non-T.O. positions. To the extent these federal resources are not enough to sustain the funding of these positions, the agency will either have to reduce its existing budget in other expenditure categories or eliminate these 2 non-T.O. positions.

\$3,581 - Related benefits associated with the other compensation expenditures paid for the continuation of the CMS analyst position (\$1,439) and the auditor position (\$2,142).

\$1,214 - Travel expenditures for the auditor to conduct in-district visits.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

\$18,750 - Other charges expenditures for the printing costs associated with publishing the *Financial Management Handbook for Louisiana Public Defender Offices*. The handbook will be designed for district level staff who prepare budget submissions, emergency funding requests, monthly financial reports, financial oversight, internal controls and financial record keeping. This handbook will be created by the auditor position. In addition, the agency anticipates publishing all performance standards and promulgated policies. The agency anticipates distributing these printed documents to all district defenders and support staff.

II. IMPACT ON FUTURE FISCAL YEARS

The BA-7 request of \$70,361 is for expenditures anticipated in FY 13 with the remaining grant funds of \$33,212 being expended in FY 14. The out-year expenditures include: \$28,000 - other compensation; \$2,142 - related benefits; \$1,820 - travel; and \$1,250 - operating services. These anticipated FY 14 expenditures have been requested in the LA Public Defender Board's FY 14 Budget Request.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$330,000</u>	Total	<u>\$330,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$330,000 in order to receive monies from the Federal Highway Administration (FHWA) via the Department of Transportation & Development to the Department of Culture, Recreation & Tourism (CRT). Funding is part of the Public Lands Highways Discretionary Program (FY 11) and will be utilized for implementation of the Gulf States Geotourism Strategy & Marketing Plan Project. Funding from this BA-7 request will be used for the planning phase of the project which includes research, development, and coordination of the plan.

The Geotourism Strategy & Marketing Plan consists of building a long-term sustainable tourism program strategy for areas and communities affected by the 2010 Deepwater Horizon Oil Spill. Additional partners with the Office of Tourism include states affected by the 2010 Deep Water Horizon Oil Spill (Alabama, Florida and Mississippi), the National Park Service (NPS), the U.S. Fish & Wildlife Service (USFWS), and the National Geographic Society. The goals of the Geotourism Strategy & Marketing Plan are to assist in rebranding the Gulf Coast as a clean and unique world-class destination, connect Gulf Coast attractions and destinations with additional travel opportunities, foster the growth of trails and circuits focusing on themes such as water recreation/fishing, music, civil rights, agricultural products, or river products, and assist local residents to learn about their natural, cultural, historic and scenic resources.

The Office of Tourism will enter into contracts with appropriate contractors and entities to complete the following tasks:

\$250,000 - comprehensive research and development of the plan and to provide development, training and support for the Gulf States Sustainable Tourism Council composed of local and state tourism entities, federal land and federal and state wildlife, forestry, fisheries, agriculture, cultural and other appropriate agencies.

\$80,000 - support for a non-profit organization in each state (\$20,000 per state/organization) that will coordinate the project in each state. LA is receiving all money associated with this grant and will be distributing to each state for this purpose.

The Gulf States Sustainable Tourism Council will serve as a forum for dialogue, planning, and marketing among federal agencies, local businesses, non-profit organizations, local residents and tourism authorities to address regional challenges. The council will manage and administrate the marketing plans, public relations strategy and coordinate the multi-state efforts to rebuild the region's attractiveness as a destination for national and international travel markets. The non-profit organizations will assist in each state's selection and in-state support of the council members, meeting arrangements and followup, editing and any other local coordination with partners and agencies.

In order to support the project, USFWS and NPS will provide \$70,000 of in-kind support. No state match is required for these Federal funds.

Note: Funding from this BA-7 request will be used in conjunction with separate funding that has been secured for the second phase, which is the marketing phase. Marketing will include, but not be limited to the design of a Gulf States Geo-tourism website, mapguides, and smartphone application. These are BP funds in the amount of \$945,000.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$7,713,471 for reimbursement of expenditures associated with Tropical Storm Isaac. The original source of the IAT funds is from Federal Emergency Management Agency (FEMA) reimbursements via the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). The Department of Agriculture & Forestry (LDAF) administered recovery and relief efforts for the GOHSEP pursuant to the State Emergency Operations Plan. The plan tasks LDAF with both emergency fuel support and pet evacuation support functions.

The department's work was performed from 8/26/2012 through 9/30/2012. The requested Tropical Storm Isaac expenditures included within this BA-7 request include:

\$494,194	LDAF labor and pet shelter employees, employees coordinating fuel delivery and dispensing of fuel to affected areas
\$30,894	material (groceries, meals and hotel, dog and cat food for animal shelters, dog fencing and crates)
\$53,425	rental equipment (mobile command center, fan trailer for animal shelter, portable corral and panels)
\$2,174,228	contract costs - fuel purchase
<u>\$4,960,730</u>	contract costs - fuel trucks & personnel costs (contract labor and lease of trucks for delivery of fuel)
\$7,713,471

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal funding from the U.S. Department of Agriculture's (USDA) Food & Nutrition Services. The funding will be utilized to purchase 2 refrigerated trailers (\$67,500 each) for the Food Distribution Program. The trailers will replace older models and will be used to transport USDA commodities received through the Child Nutrition Program. Commodities ordered from the USDA are transported to the 6 warehouses throughout the state (Shreveport, Grambling, Alexandria, St. Martinville, Baton Rouge, and New Orleans). School districts distribute the commodities to the schools. If this BA-7 request is approved, total funding for the Food Distribution Program in FY 13 is \$473,778.

No state match is required for these Federal funds.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. Any maintenance costs on the new trailers will be similar to that of the replaced trailers.

I. SUMMARY/COMMENTS

The Office of Coastal Protection & Restoration is requesting approval to add \$6 M in Federal funds to its budget. The funding is from the U. S. Department of Commerce and will be utilized to fund Phase II of the Bayou Dupont Marsh and Ridge Creation Project in Jefferson Parish. Phase I of the Bayou Dupont Marsh and Ridge Creation Project involved design of the project and has been completed. Phase II of the project involves dredging activities to create or nourish the marsh habitat for aquatic species by the delivery of sediment from the Mississippi River through a pipeline, along with creation of a ridge. The project is located in the Barataria Basin approximately 5.2 miles southeast of Lafitte along the south bank of Bayou Dupont. The project would result in creation of approximately 196 acres of brackish marsh, nourishment for approximately 93 acres of existing brackish marsh and creation of a maritime ridge along the edge of Bayou Dupont approximately 4.5 feet high by 125 feet wide (24 acres) with a (minimum) 20-year project life.

The \$6 M in this BA-7 request is the initial funding from a federal grant that totals \$30,005,572. The balance of the federal grant (\$24,005,572) is anticipated to be expended in FY 14. In addition to the federal funds, the state is responsible for approximately 15% or \$5,343,343 of the Phase II construction cost. The state's share is included in the agency's existing budget and is funded with a statutory dedication from the Coastal Protection & Restoration Fund. The total anticipated Phase II cost for the project, which includes federal and state funds, is \$35,348,915. Total expenditures for Phase II of the Bayou Dupont Marsh and Ridge Creation Project are projected as follows: \$34.5 M for the dredging contractor; \$0.5 M for supervision and inspection of construction activities; \$0.3 M for the LA Coastal Protection & Restoration Authority's administrative cost. The dredging contractor will be selected via public bids through the office of state purchasing. Construction of the project is anticipated to be completed in one year.

II. IMPACT ON FUTURE FISCAL YEARS

The balance of the federal grant funding (\$24,005,572) providing for completion of Phase II of the Bayou Dupont Marsh and Ridge Creation Project will be included in the agency's FY 14 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Economic Development

AGENDA NO.: 3

AGENCY: Business Development

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development	\$796,000	0
Interagency Transfers:	\$0	Business Incentives	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$796,000			
Total	<u>\$796,000</u>	Total	<u>\$796,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$796,000 of federal grant funding that was recently awarded through the Small Business Jobs Act of 2010 to promote export opportunities for small businesses, using workshops and training sessions offered in each of the 9 Small Business Development Centers (SBDC), reimbursing expenses related to exporting and organizing and helping fund trade missions or individual business trips throughout the world under LED's State Trade and Export Promotion (STEP) program.

This grant is the second year of funding following a pilot program in FY 12 with \$850,000 federal funding along with a 25% state match, which has all been encumbered. It is anticipated that the SBDCs will conduct a series of workshops around the state for about 125 companies on all aspects of exporting. In addition, 35-40 companies will participate in global trade missions or overseas trips to attend trade shows, buyer programs, catalog exhibitions or as a member of a trade delegation. Qualified businesses will have a portion of their export promotion expenses reimbursed through this grant, including the opportunity to cultivate leads through the trade missions or website language translation. In particular, LED anticipates an emphasis on trade with China and expects the average reimbursement to be about \$10,000 (or \$7,000 for trips to areas other than China). Presumably, this funding is available to all SBA defined LA small businesses but LED will emphasize minority and veteran owned companies as well as those from rural and disadvantaged areas. The SBDCs will be authorized to qualify program applicants but LED will make the final determination of participants.

Requested expenditures of \$796,000 are expected to include the following:

\$362,000	Travel (small business participants travel costs)
\$201,500	Professional Services (supplementary funding for the LED foreign representative in Taiwan, SBDCs, International Center in Lafayette, World Trade Center in New Orleans)
\$2,500	Supplies (miscellaneous office supplies and equipment)
<u>\$230,000</u>	Other Charges (various expenditures associated with the 9 workshops and training sessions conducted by SBDCs)
\$796,000	Total

The grant requires a state match of 25% or \$272,905, which is budgeted in the current FY 13 LED budget as existing salaries and related benefits and would also qualify as eligible expenditures under this grant (in-kind match). The state match of \$272,905 is to be used for personal services (\$209,927) and related benefits (\$62,978) of staff already in place including a portion of the pay for contracted foreign representatives, accounting staff, program director, and others contributing to the performance of the grant requirements.

The grant period corresponds to the federal fiscal year of 9/30/2012 through 9/29/2013, which is the period of time during which eligible spending must take place. However, reimbursements could extend some months beyond this final date. A one-year extension may be requested upon expiration only if stated project objectives require additional time.

Note: The State Trade & Export Promotion Grant Program is a federal program enacted in the federally enacted Small Business Jobs Act of 2010. The overall objective of the program is to increase the number of small business exports.

October 19, 2012

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$501,900</u>	Total	<u>\$501,900</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to receive monies from the Federal Emergency Management Agency (FEMA) via the Governor's Office of Homeland Security & Emergency Preparedness. This FEMA funding is used as hazard mitigation funds allocated to the state in response to previous hurricane disasters. Funding will be used to assist in minimizing risk and preparedness of historic properties for future disasters and provide critical environmental and historic preservation information to the citizens and leaders of LA. This endeavor is being implemented through the Community Education & Outreach Program, in coordination with the State Historic Preservation Office.

The term of the grant is from 7/1/2012 to 6/30/2015. Total funding for the grant is \$746,900, of which \$501,900 will be expended in FY 13 as follows:

\$80,000 - Organize, design, develop, and present a minimum of 4 Historic Preservation public workshops discussing historic features and design related to "green environmental issues" and to address techniques and design options for retrofitting historic properties while retaining character-defining architectural features.

\$175,000 - Develop a web-based framework, including 25-35 individual web pages, for public information about LA Archaeology.

\$246,900 - Procure and utilize a Server that will provide the increased data storage capacity that is necessary to make the information resulting from this endeavor accessible to the public.

II. IMPACT ON FUTURE FISCAL YEARS

Funding in subsequent years will be \$225,000 (FY 14) and \$20,000 (FY 15). Expenditures in subsequent years will be an extension of those incurred in the current year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0			
Federal Funds:	\$1,014,980			
Total	<u>\$1,014,980</u>	Total	<u>\$1,014,980</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to provide additional federal direct budget authority to the Office of Motor Vehicles (OMV) for expenditures related to a federal grant from the U.S. Department of Transportation, Federal Motor Carrier Safety Administration (FMCSA), Commercial Driver's License Improvement Program, in the amount of \$1,014,980. The total grant award is \$1,254,980. The funding period for the grant runs through 9/30/2013. These efforts are needed to ensure compliance with FMCSA Commercial Driver's Licensing (CDL) standards and regulations.

The grant will facilitate the OMV's ability to improve security related to the credentialing process for commercial vehicle drivers, to provide quality control and oversight of third party road skills testing, to provide for document management utilizing Geographic Information Systems (GIS) technology for route verification and to provide for requiring individualized capture and entry by examiners of each portion of the applicant's performance on the segments of the CDL Skill Test. OMV will develop an application to allow CDL drivers to file required CDL medical certification securely online. OMV will capture and record data from scanned images of traffic conviction tickets or court documentation, driver information, medical information, and documentation submitted by legal and law enforcement agencies in order to record the information on the individual driver's license history. There is no state match requirement for this grant.

The expenditures in FY 13 will be budgeted as follows:

\$174,500	Salaries (Overtime for current employees)
\$118,190	Other Compensation (10 WAE employees)
\$9,790	Related Benefits (FICA and Medicare taxes)
<u>\$712,500</u>	Other Charges (Scanners, maintenance contracts, tablet computers and software)
\$1,014,980	Total

The OMV anticipates a minimum of 1,490 hours of overtime (\$50 per hour, \$74,500 total) for Department of Public Safety (DPS) data programmers to implement the interface for the software and PC platforms. The OMV also anticipates OMV/DPS employee overtime for data entry, imaging, document management, enforcement activities and continuous quality control activities (variable hourly rates, \$100,000 total).

The OMV anticipates hiring as many as 10 When Actually Employed (WAE) part-time workers to be utilized in capturing and recording data from scanned images of traffic conviction tickets or court documents. These employees will be paid through the other compensation expenditure category in the amount of \$118,190 in FY 13. The OMV will dissolve these positions upon completion of the grant activity and anticipates current employees will be able to absorb the workload in future years.

The OMV will incur expenditures of \$7,934 in FICA tax payments and \$1,856 in Medicare tax payments through employment of 10 WAE workers in FY 12. These payments will total \$9,790 in related benefits expenditures in FY 13.

The OMV will expend \$712,500 in Other Charges as follows:

Other Charges - Operating Services - \$100,000

October 19, 2012

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

\$100,000 - Multi-year warranty and repair package for 10 Kodak i4000 Series Scanners (\$10,000 each)

Other Charges - Professional Services - \$75,000

\$75,000 - Contractor development of a web application on Expresslane for CDL medical self-certification

Other Charges - Acquisitions - \$537,500

\$250,000 - 125 Road Skills Testing Software packages with Global Positioning System (GPS) technology and real-time upload ability at \$2,000 each

\$187,500 - 125 tablet style personal computers with GPS technology for testers at \$1,500 each

\$100,000 - 10 Kodak i4000 Series high speed/high volume document image scanners at \$10,000 each

II. IMPACT ON FUTURE FISCAL YEARS

As the grant activities are projected to end in FY 14, additional budget authority in the amount of \$240,000 will be required in the FY 14 OMV appropriation as follows:

\$160,000 - Salaries, OMV/DPS employee overtime for data entry, imaging, document management, enforcement activities and continuous quality control activities (variable hourly rates, \$100,000 total). The OMV anticipates a minimum of 1,200 hours of overtime (\$50 per hour, \$60,000 total) for Department of Public Safety (DPS) data programmers to implement the interface for the software and PC platforms.

\$80,000 - Other Charges, \$5,000 for travel and training for staff in CDL industry conferences and \$75,000 for contractor development of a web application on Expresslane for CDL medical self-certification

Federal Funds:	\$3,534,465			
Total	<u>\$3,534,465</u>	Total	<u>\$3,534,465</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$3,534,465 within the Personal Health Services Program, Office of Public Health (OPH). The source of Federal funds is a grant award from the Health Resources & Services Administration (HRSA). The grant is designated for the STD/HIV Program within OPH for the continuation of AIDS Drug Assistance Program (ADAP) Shortfall Relief funds that were authorized to LA through the Ryan White Treatment * Modernization Act of 2009. The Ryan White funds were granted through a revised award on 8/21/2012 for 9 months during FY 13 (8/1/2012 - 3/31/2013). This grant requires no state match. A breakdown of the grant expenditures is detailed below.

Of the requested amount, \$3,284,465 of the funds will be used to enroll a projected 577 eligible HIV infected individuals into Louisiana ADAP, who would otherwise be placed on the Louisiana ADAP Unmet Needs waiting list in FY 13. There are currently 78 clients on the Louisiana ADAP Unmet Needs waiting list out of the 577 individuals projected for FY 13. Once enrolled, OPH will purchase the enrollees' ADAP medications, which will be dispensed through the LSU charity hospitals. The FY 13 Louisiana ADAP budget is \$21,079,636.

In addition, \$250,000 will be utilized to assist with health insurance policies for up to 89 additional eligible clients on the Louisiana ADAP Unmet Needs list. The Health Insurance Program (HIP), funded by these Ryan White resources, is a program that the OPH STD/HIV Program operates to assist low income persons (at or below 300% Federal poverty level) infected with HIV in obtaining assistance with insurance costs. The funds will be used to modify a current contract with HIV/AIDS Alliance for Region 2 (HAART), which is a nonprofit organization that screens and enrolls eligible clients and assists them with health insurance premiums and cost shares (co-payments and deductibles). A client must demonstrate eligibility every six months in order to be maintained on this program. In FY 13, the HIP budget is \$7 M and currently supports 1,836 clients with health insurance premiums and cost share payments.

\$3,284,465	ADAP medications for 577 clients (approximately \$5,692.31 per person)
<u>\$250,000</u>	Health insurance assistance through HAART for 89 clients (approximately \$2,809 per person)
\$3,534,465	Total grant award (8/1/2012 - 3/31/2013)

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$1,221,365 in the Office of Behavioral Health (OBH). The IAT funds will be transferred from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). The original source of IAT funds is a Federal Crisis Counseling Program grant from the Center for Mental Health Services (CMHS) within the Substance Abuse & Mental Health Services Administration (SAMHSA). Approximately \$1,108,718 of the funds will be transferred to the human service districts impacted by Hurricane Isaac (approximately 14 parishes), so they may contract with local service providers for outreach support and crisis counseling to approximately 65,805 LA residents. The remaining \$112,647 will be retained by OBH for indirect costs associated with the grant, including human resources, travel, executive management, operating services and supplies (9% of \$1,221,365). The grant period is for 60 days from 8/31/2012 through 10/31/2012 and requires no state match. Specific expenditures are itemized below:

InterAgency Transfers (IAT) - \$1,108,718 (further detailed in companion BA-7s)

- South Central LA Human Services Authority (BA-7 #7d) - \$311,614
- Metropolitan Human Services District (BA-7 #7c) - \$130,249
- Florida Parishes Human Services Authority (BA-7 #7b) - \$487,657
- Jefferson Parish Human Services Authority (JPHSA) - \$179,198

Note: JPHSA has no companion BA-7 as it currently has sufficient budget authority to receive the IAT funds from OBH due to a projected shortfall in Medicaid collections.

OBH State Office Expenditures - \$112,647

- Other Compensation - \$52,560 & Related Benefits - \$18,816 (\$71,376 total): administrative costs associated with executive oversight and review by 3 full-time and 3 part-time program staff currently at OBH (equates to 4.5 full-time equivalents) for an estimated 45 days.
- Travel - \$7,941: projected for all employees at 75 miles per day for 5 days/week with one overnight stay for 5 people
 $4.5 \text{ FTE} \times 75 \text{ miles/day} \times 5 \text{ days/week} \times 6.5 \text{ weeks} \times \$0.51/\text{mile} = \$6,216$
 $\$101 \text{ (lodging)} + \$60 \text{ (per diem)} + \$34 \text{ (rental car)} + \$100 \text{ (gas)} + \$50 \text{ (parking \& tolls)} = \$345 \times 5 \text{ people} = \$1,725$
- Operating Services - \$7,300 funding for outreach advertising, expenses related to drug testing for staff, and postage for participant surveys and reports.
- Supplies - \$2,400 for office supplies and staff uniforms for field travel.
- Other Charges - \$23,630: Includes \$7,500 for maintaining an open crisis phone line, and \$16,130 for training on the crisis counseling program model.

I. SUMMARY/COMMENTS

This is a companion BA-7 request to agenda item # 7a.

The purpose of this BA-7 request is to increase IAT budget authority by \$487,657 in the Florida Parishes Human Services Authority (FPHSA). The IAT funds are transferred from the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a federal grant of \$1,221,365 from the Center for Mental Health Services (CMHS) within the Substance Abuse & Mental Health Services Administration (SAMHSA) to the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). It is intended for FPHSA to contract with a local service provider (Options for Independence) to provide outreach support and crisis counseling to LA residents impacted by Hurricane Isaac within Livingston, St. Helena, St. Tammany, Tangipahoa, and Washington parishes. The grant period is for 60 days from 8/31/2012 through 10/31/2012 and requires no state match. Specific expenditures are itemized below:

\$435,103	Wages (\$320,400) & Related Benefits (\$114,703) for an in-house contract manager currently employed by FPHSA, and 37 contracted personnel with Options for Independence, including a program manager, a fiscal coordinator, 4 team leaders, 15 crisis counselors, 15 resource linkage specialists, an administrative assistant.
\$27,349	Travel: calculated for 21 vehicles for field personnel and 3 non-field staff vehicles (21 cars x 375 miles/week) + (3 cars x 187.5 miles/week) = 8,438 miles/week x 6.5 weeks x \$0.51/mile = \$29,972 <i>Note:</i> FEMA reduced this number without a calculation to \$27,349, claiming the state's request was overstated.
\$15,490	Operating Services (pay-as-you-go phones, outreach advertising, drug testing for program staff, office space rental fees (\$2,000 per month for 2 months), copier rental fees, phone/internet fees, and liability insurance)
<u>\$9,715</u>	Supplies (office and field supplies, uniforms and badges for staff, and flyers/brochures)
<u>\$487,657</u>	Total

I. SUMMARY/COMMENTS

This is a companion BA-7 request to agenda item # 7a.

The purpose of this BA-7 request is to increase IAT budget authority by \$311,614 in the South Central LA Human Services Authority (SCLHSA). The IAT funds are transferred from the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a federal grant of \$1,221,365 from the Center for Mental Health Services (CMHS) within the Substance Abuse & Mental Health Services Administration (SAMHSA) to the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). It is intended for SCLHSA to provide outreach support and crisis counseling to LA residents impacted by Hurricane Isaac in Assumption, Lafourche, St. Charles, St. James, St. John the Baptist, St. Mary, and Terrebonne parishes. The grant period is for 60 days from 8/31/2012 through 10/31/2012 and requires no state match. Specific expenditures are itemized below:

\$267,750	Wages (\$224,679) & Related Benefits (\$43,071) for 13 staff members currently employed by SCLHSA who will work part-time with the program, including a mobile unit driver, a project director, a fiscal director, and 10 counselors; and 24 restricted / temporary appointments including 2 team leaders, 2 administrative coordinators, 10 crisis counselors, and 10 resource linkage specialists.
\$25,265	Travel: milage estimated based on the assumption that 25% of the average service area will be covered daily. Team 1 consists of St. John, St. James & St. Charles Parishes (749 square miles/3 x 25% = 62 miles/day), and Team 2 consists of Assumption, Lafourche, St. Mary & Terrebonne parishes (3,291 square miles/4 x 25% = 204 miles/day). Team 1: 4 vehicles x 62 miles/day x 7 days x 6.5 weeks x \$0.51 / mile = \$5,755; Team 2: 4 vehicles x 204 miles/day x 7 days x 6.5 weeks x \$0.51 / mile = \$18,935; and \$575 for fuel for mobile unit (\$4.42/gallon x 20 gallon tank x 6.5 weeks = \$575)
\$8,421	Operating Services (pay-as-you-go phones, outreach advertising, drug testing for program staff, & air cards)
\$9,428	Supplies (office and field supplies and uniforms and badges for staff)
\$750	Other Charges (training on the crisis counseling program model components)
<u>\$311,614</u>	Total

		Commercial	\$0	0
Federal Funds:	\$286,198			
Total	<u>\$286,198</u>	Total	<u>\$286,198</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Secretary of State is requesting approval to carry-forward \$286,198 of Federal funds that is being utilized to provide for expanded voting opportunities for U. S. military personnel and individuals residing outside the U. S. The funding, which is from the U. S. Department of Defense (Defense Human Resource Activity), is the balance of a \$350,000 grant that was added to the agency's budget via a BA-7 in January 2012. The funding will be utilized to provide for computer related expenses required to make it possible for U. S. military personnel and persons residing outside the U. S. to request a ballot via the internet or from a smart phone. U. S. military personnel and individuals residing outside the U. S. are currently able to request ballots via e-mail, mail, or fax.

The funding provides for the following expenditures:

\$211,198 - private contractor GCR & Associates, Inc. to write a computer application providing for the expanded voting capabilities; and
\$75,000 - purchase software from Dominion Voting Systems, which is a manufacturer of electronic voting machines purchased by the state.

FY 12 expenditures included \$63,802 to the private contractor. No other funds were expended.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Executive

AGENDA NO.: 2

AGENCY: LA Public Defender Board

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Public Defender Board	\$500,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$500,000			
Federal Funds:	\$0			
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$500,000 in statutorily dedicated resources from the LA Public Defender Fund for FY 13 expenditures associated with providing legal representation for those offenders deemed by the Sexual Offender Assessment Panel (SOAP) to be a sexually violent predator or a child predator.

Pursuant to R.S. 15:560 (Act 186 of 2006), which created SOAP, approximately 6 months prior to the release of a sex offender, the sex offender's case will be heard by the panel (SOAP). SOAP, which has 3 total members that consist of members from the Department of Corrections and a licensed psychologist, will determine if the soon-to-be-released sexual offender is a sexually violent predator or child predator. To the extent the individual is considered a sexually violent predator or child predator, the offender will be subject to another court hearing and electronic monitoring upon the release from prison. The public defender will provide legal representation (contract attorney) to the offender before this court hearing.

The Department of Corrections anticipates approximately 20 cases out of approximately 700 total cases being heard by the SOAP to be deemed as a sexually violent predator or child predator and thus, be subjected to the court hearing. The LA Public Defender Board is anticipating each case to cost approximately \$25,000 for expert review and testimony and the contract attorney costs.

The \$500,000 additional budget authority is being appropriated from the LA Public Defender Fund. The original source of revenue for this fund is SGF deposited annually (Schedule # 20-XXX of HB 1). As of September 2012, the LA Public Defender Fund has more appropriation authority from the fund than actual projected cash in the amount of \$185,049 (see LA Public Defender Fund table below).

FY 13 20-XXX SGF Transfer	\$31,849,500
FY 12 Ending Year Fund Balance	\$208,979
<u>FY 13 Interest Earnings to Date</u>	<u>\$2,636</u>
Total FY 13 Revenue Available	\$32,061,115
<u>LESS: FY 13 EOB</u>	<u>(\$32,246,164)</u>
FY 13 Projected Fund Balance	(\$185,049)

The agency is in the process of requesting a SGF treasury seed to fund the \$500,000 request. According to the Division of Administration (DOA), the treasury seed will be paid back via SGF deposited into the LA Public Defender Fund in the FY 13 Supplemental Appropriations Bill/FY 13 Funds Bill with available SGF resources (at the time of transfer). To the extent that those SGF resources, which are currently available, are utilized elsewhere during FY 13 and there are no additional FY 13 SGF resources recognized during the fiscal year by the Revenue Estimating Conference (REC), the DOA anticipates reducing other FY 13 SGF resources in other areas of the FY 13 operating budget in order to fully fund these case expenditures. At this time, it is unknown as to what specific FY 13 SGF resources may be reduced.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

II. IMPACT ON FUTURE FISCAL YEARS

Expenditures associated with such sex offender representation will be an indeterminable ongoing cost in future fiscal years. For FY 13 the Department of Corrections anticipates approximately 20 cases out of approximately 700 total cases being heard by the SOAP to be deemed as a sexually violent predator or child predator and thus, be subjected to the court hearing. The number of cases heard in future fiscal years is indeterminable.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office does not have a recommendation on this BA-7 at this time. The LFO has requested additional information from the Division of Administration (DOA) regarding the agency's plan to pay back the SGF treasury seed if funding is not available as per its current repayment plan.

Statutory Dedications:	\$250,000			
Federal Funds:	\$0			
Total	<u>\$250,000</u>	Total	<u>\$250,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$250,000 in statutorily dedicated resources from the LA Public Defender Fund for FY 13 expenditures associated with providing legal representation for those offenders deemed by the Sexual Offender Assessment Panel (SOAP) to be a sexually violent predator or a child predator.

Pursuant to R.S. 15:560 (Act 186 of 2006), which created SOAP, approximately 6 months prior to the release of a sex offender, the sex offender's case will be heard by the panel (SOAP). SOAP, which has three total members that consist of members from the Department of Corrections and a licensed psychologist, will determine if the soon-to-be-released sexual offender is a sexually violent predator or child predator. To the extent the individual is considered a sexually violent predator or child predator, the offender will be subject to another court hearing and electronic monitoring upon the release from prison. The public defender will provide legal representation (contract attorney) to the offender before this court hearing.

The Department of Corrections anticipates approximately 20 cases out of approximately 700 total cases being heard by the SOAP to be deemed as a sexually violent predator or child predator and thus, be subjected to the court hearing. The LA Public Defender Board is anticipating each case to cost approximately \$25,000 for expert review and testimony and the contract attorney costs.

The \$250,000 additional budget authority is being appropriated from the LA Public Defender Fund. The original source of revenue for this fund is SGF deposited annually (Schedule # 20-XXX of HB 1). As of September 2012, the LA Public Defender Fund has more appropriation authority from the fund than actual projected cash in the amount of \$185,049 (see LA Public Defender Fund table below).

FY 13 20-XXX SGF Transfer	\$31,849,500
FY 12 Ending Year Fund Balance	\$208,979
<u>FY 13 Interest Earnings to Date</u>	<u>\$2,636</u>
Total FY 13 Revenue Available	\$32,061,115
<u>LESS: FY 13 EOB</u>	<u>(\$32,246,164)</u>
FY 13 Projected Fund Balance	(\$185,049)

The agency is in the process of requesting a SGF treasury seed to fund the \$250,000 request. According to the Division of Administration (DOA), the treasury seed will be paid back via SGF deposited into the LA Public Defender Fund in the FY 13 Supplemental Appropriations Bill/FY 13 Funds Bill with available SGF resources (at the time of transfer). To the extent that those SGF resources, which are currently available, are utilized elsewhere during FY 13 and there are no additional FY 13 SGF resources recognized during the fiscal year by the Revenue Estimating Conference (REC), the DOA anticipates reducing other FY 13 SGF resources in other areas of the FY 13 operating budget in order to fully fund these case expenditures. At this time, it is unknown as to what specific FY 13 SGF resources may be reduced.

II. IMPACT ON FUTURE FISCAL YEARS

Expenditures associated with such sex offender representation will be an indeterminable ongoing cost in future fiscal years. For FY 13 the Department of Corrections anticipates approximately 20 cases out of approximately 700 total cases being heard by the SOAP to be deemed as a sexually violent predator or child predator and thus, be subjected to the court hearing. The number of cases heard in future fiscal years is indeterminable.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Joint Legislative Committee on the Budget (JLCB) amended this BA-7 request to \$250,000 and the contract attorney hourly rate of \$110 per hour.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Executive

AGENDA NO.: 3

AGENCY: Military Department

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Military Affairs	\$17,238,614	0
Interagency Transfers:	\$17,238,614	Education	\$0	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$17,238,614</u>	Total	<u>\$17,238,614</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$17,238,614 in IAT for expenditures associated with Tropical Storm Isaac (\$17,178,000) and sinkhole missions in Assumption Parish (\$60,614). The original source of the IAT funds is from Federal Emergency Management Agency (FEMA) reimbursements (\$12,883,500) via the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) and the State Emergency Response Fund (SERF) (\$4,355,114) via the Division of Administration (DOA).

The current state match allocation associated with Tropical Storm Isaac is 75% Federal/25% State. Thus, of the \$17,178,000 of total Tropical Storm Isaac expenditures within this BA-7 request, the department anticipates \$12,883,500 being reimbursed by FEMA and the remaining \$4,294,500 of requested Tropical Storm Isaac expenditure authority coming from SERF. All of the requested expenditures associated with the sinkhole missions, or \$60,614, will be funded by SERF.

The requested Tropical Storm Isaac expenditures included within this BA-7 request include:

\$9,828,000	pay & allowances (state active duty pay for approximately 6,000 national guardsmen)
\$2,800,000	food contracts (Meals Ready to Eat, supplies for dining facilities)
\$350,000	lodging (hotel expenditures for some guardsmen and liaison officers)
\$500,000	fuel (above ground tanks, mobile fuelers, vehicles & generators)
\$500,000	maintenance & repairs (equipment repair parts)
\$1,400,000	services/supplies (sand bags, specialty tools, fork lift rental, shower trailer rentals, utilities)
<u>\$1,800,000</u>	aviation (Air mission support for government officials & military leaders, search & rescue)
\$17,178,000	TOTAL Tropical Storm Isaac

The sinkhole expenditures included within this BA-7 request include:

\$60,614 - morning & night observation flights at the sinkhole sight

The current FY 13 fund balance within SERF is approximately \$16.5 M. According to the DOA, pursuant to R.S. 39:100.31, the remaining \$16.5 M fund balance within SERF will be appropriated via a commissioner of administration approved in-house BA-7. These resources will then be sent via IAT to other state agencies as the state match for Tropical Storm Isaac, which for this BA-7 request is \$4,294,500. At this time, GOHSEP is projecting total state Tropical Storm Isaac expenditures of approximately \$160 M, which equates to a 25% state match of approximately \$40 M.

On 9/10/2012, the State Treasury approved a state treasury seed for the Military Department in the amount of \$15 M. State Treasury has deposited \$15 M of SGF into the department's account to seed Tropical Storm Isaac expenditures. Once FEMA reimbursements are received, these federal resources will be utilized to pay back the \$15 M in SGF treasury seed.

Note: Pursuant to R.S. 39:100.31, this BA-7 request anticipates the DOA processing an in-house BA-7 that appropriates SERF funds into its FY 13 budget and that the Joint Legislative Committee on the Budget (JLCB) has approved such a use of funds.

II. IMPACT ON FUTURE FISCAL YEARS

September 21, 2012

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Approval of this BA-7 will decrease the fund balance within SERF. Upon approval of this BA-7 request, the amount of funding available from SERF will decrease by \$4,355,114, which will leave a fund balance within SERF of approximately \$12.1 M. As additional Tropical Storm Isaac costs are incurred, the fund balance within SERF will likely decrease.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Workforce Commission

AGENDA NO.: 4

AGENCY: Workforce Support & Training

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive Director	\$0	0
Interagency Transfers:	\$1,703,830	Management and Finance	\$1,703,830	0
Self-Generated Revenue:	\$0	Information Systems	\$0	0
Statutory Dedications:	\$0	Workforce Development	\$0	0
Federal Funds:	\$0	Unemployment Insurance Administration	\$0	0
		Worker's Compensation Administration	\$0	0
Total	<u>\$1,703,830</u>	Total	<u>\$1,703,830</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$1,703,830 in IAT for the payment to vendors who provided 132,970 meals for those evacuated to shelters due to Tropical Storm Isaac. The original source of the IAT funds is from Federal Emergency Management Agency (FEMA) reimbursements (\$1,277,872) via the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) and the State Emergency Response Fund (SERF) (\$425,958) via the Division of Administration (DOA).

The LA Workforce Commission (LWC) will submit the costs related to this BA-7 request to FEMA with assistance from GOHSEP as an eligible reimbursable expense related to the storm. If approved and assuming a continued 75% Federal/25% State match, the GOHSEP portion, or \$1,277,872 will be reimbursed to the LWC from FEMA and the remaining \$425,958 funds from SERF.

Presuming all approvals are in place, the LWC will receive a state treasury seed for the 75% federal match portion in order to pay vendors prior to the FEMA reimbursement. Once FEMA reimbursement has been received, the LWC will repay the state treasury.

It is not certain whether this is the final amount of spending as all invoices for meals may not have been submitted by the vendors and reviewed by the agency at the time of this write-up.

II. IMPACT ON FUTURE FISCAL YEARS

This spending is related to the evacuation for Hurricane Isaac, which was a one-time event. There will be no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Self-Generated Revenue:	\$0	Welcome Centers	\$0	(1)
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is an after the fact BA-7 request.

The purpose of this BA-7 request is to transfer 1 position from the Welcome Centers Program to the Marketing Program within the Office of Tourism. The new position in the Marketing Program will be the Deputy Assistant Secretary and the eliminated position in the Welcome Centers Program is a Travel Information Assistance Regional Coordinator. The Deputy Assistant Secretary is currently filled and according to the agency will provide a more structured oversight of the advertising and publicity assets of the state, in order to maximize resources. No funds are being transferred with this BA-7 request, and the Marketing Program will absorb the cost of the salary and related benefits of the position (\$83,000) and the Welcome Centers Program will realize a savings in salaries and related benefits (\$42,000) that will be utilized for personal services.

II. IMPACT ON FUTURE FISCAL YEARS

This position will remain in the Marketing Program in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 2

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$0	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$23,231,226	Uncompensated Care Costs	\$0	0
Federal Funds:	(\$23,231,226)	Recovery Funds	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to adjust means of finance in Medical Vendor Payments to reflect an increase in Statutory Dedications and decrease a like amount of Federal funds. The original source of Statutory Dedications funding is revenue from the Medicaid Trust Fund for the Elderly (MTFE). The source of Federal funds is Title XIX federal financial participation. The increase in Statutory Dedications budget authority is proposed to be used for nursing home financing.

This BA-7 request will allow the department to utilize an alternative revenue source from the MTFE to offset a nursing home rate cut as a result of a change in the federal match rate during FY 13. Due to a reduction in the Disaster Recovery Federal Medical Assistance Percentage (FMAP) for LA Medicaid, the blended federal participation rate is reduced for FY 13 from 71.38% to 66.58%. Because the FY 13 Medical Vendor Payments budget is based on the prior rate (71.38%), the DHH has proposed total cuts of \$522 M (\$193 M in SGF) to partially offset a projected \$859 M budget shortfall. The DHH cuts include a \$23,231,226 reduction in SGF used as a state match source for nursing home payments.

Revenues in the MTFE are authorized under R.S. 46:2691 to be used for nursing home rates. Act 13 of 2013 includes \$97,871,479 in MTFE statutorily dedicated funding. Approval of this request would increase total MTFE funding to \$121.1 M for FY 13.

II. IMPACT ON FUTURE FISCAL YEARS

The impact of this BA-7 will reduce the MTFE fund balance by approximately \$23,231,226 in FY 13. For FY 13, the Treasury reflects a beginning fund balance in the MTFE of approximately \$519,512,564.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$500,000			
Federal Funds:	\$0			
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$500,000 from the Environmental Trust Fund in the Department of Environmental Quality (DEQ). DEQ received \$500,000 from Pelican Refining Company, LLC per a Plea Agreement between the U. S. Attorney's Office for the Western District of LA, the U.S. Department of Justice's Environmental Crimes Section and Pelican Refining Company for violation of the Clean Air Act (Title 42, United States Code, Section 7413(c)(1)). This funding was deposited in the Environmental Trust Fund per the agreement.

The Plea Agreement requires the funds to be used exclusively for detection, response, testing, investigation, public notification, mitigation, remediation, leasing or acquiring specialized equipment and gear (SEG), staging or maintaining SEG, and training for spills, releases, emissions, or leaks of hazardous materials that constitute, or could foreseeably lead to air pollution in Southwest LA. The Office of Environmental Compliance will use the funds to improve the air pollution program in the Southwest LA region by replacing older monitoring equipment. DEQ will use the funds to purchase the following:

\$330,055	Air monitoring equipment for Lake Charles, Lafayette and Alexandria areas
\$40,945	Regional Staff Safety Equipment (ie. hard hats, safety goggles, reflective vests, first aid kits, etc)
\$65,000	Special Air Monitoring Equipment (AreaRae Monitors)
<u>\$64,000</u>	Emergency Response Vehicles (2)
\$500,000	TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to realign existing budget authority between the Administrative Program and the Human Resources Management Program. The agency is requesting approval to reduce expenditures in the Administrative Program by \$431,093 and increase expenditures in the Human Resources Management Program by a like amount. The realignment is needed to enable the agency to properly provide for anticipated FY 13 retirement expenditures in the agency. During the legislative process, the agency's budget was amended to include \$611,786 of additional funding for retirement. All of the funding was inadvertently added to the Administrative Program. This BA-7 request seeks to properly align the funding between the agency's 2 programs (\$180,693 - Administrative Program and \$431,093 - Human Resources Management Program).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

	<p>Glass Tint Etc. on 5/22/2012. According to the agency, the the tank will facilitate the transportation of fuel to a tower site to restore power without having to wait for a vendor to deliver the fuel. The agency anticipates delivery on 7/25/2012.</p> <p>\$4,796 - Funding for Coopers Coating & Accessories to coat 3 satellite trailer roofs with a polymer coating. The purchase order was issued on 6/19/2012 following a rainstorm. Currently, these 3 trailers are being covered with blue tarps to prevent water leakage. The agency estimated completion date is 8/15/2012.</p> <p>\$4,961 - Funding for an extra antenna at the Larose tower site purchased from Kay Radio. The antenna was ordered on 6/1/2012, but weather conditions have prevented the installation of the antenna. The agency anticipates the antenna being installed by 8/15/2012.</p> <p>\$6,054 - Funding for the remaining portion of Deep South Communications replacing the lighting system at the Dequincy tower site with a strobe system. According to the agency 90% of the system has been paid, while the remaining 10% is anticipated to be paid by 8/1/2012.</p> <p>\$14,384 - Funding for Total Energy Solutions, LLC to provide maintenance services for 58 tower generators across the state. The purchase order was issued on 4/24/2012 and the agency anticipates maintenance being completed by 8/15/2012.</p> <p>\$21,580 - Funding for ERO to install push-button door combination locks on 13 tower sites. This purchase order was issued on 4/11/2012 and the agency anticipates completion by 8/1/2012. These specialty locks are custom made, which delayed shipping.</p> <p>\$26,968 - Funding for Siemens Industry, Inc. for a Zone 3 Sprinkler System. The purchase order was issued on 6/4/2012 and most of the work has been completed except for final testing and Fire Marshal inspection. The agency anticipates the final inspection should be completed by 8/1/2012.</p> <p>\$62,120 - Funding for Pittsburg Tank & Tower to inspect, paint,relamp and remove the old 800 MHz antenna systems on 5 tower sites. The purchase order was issued on 4/18/2012 and the vendor has not completed the job. The agency anticipates the job to be completed on 8/15/2012.</p> <p>\$99,541 - Funding for Motorola to provide replacement batteries at 38 tower sites. The purchase order was issued on 6/18/2012 and the agency anticipates these batteries to be replaced by 11/1/2012. According to the agency, these batteries reached end of life status in June 2012 (at the end of the fiscal year).</p>

		hosting and ongoing site maintenance of www.volunteerlouisiana.gov. The contract ends 12/31/2012.							
		Payments of these contracts will be made upon final execution of these contracts.							
CF 10	04e - 158 Public Service Commission Public Service Commission	The purpose of this BA-7 request is to carry forward a federal grant for reimbursement of expenses related to mandates arising from ARRA initiatives, including energy efficiency, electricity-based renewable energy, energy storage, smart grid, electric and hybrid-electric vehicles, demand-response equipment, coal with carbon capture and storage and transmission. These are not direct ARRA funds; they are related to policy directives adopted under ARRA that were subsequently awarded federal funding at the state level with no state match required. The PSC is expected to provide training, staff development and enhance public awareness using these funds, which cannot be used for other Commission activities and may not supplant the existing budget. Initially awarded on 11/1/2009, the grant amount totalled \$862,424 and expires on 10/31/2012. According to the Division of Administration, though Federal funds being carried forward are typically handled in-house, this appropriation is subject to JLCB approval because PSC does not have a FY 13 federal appropriation.	\$0	\$0	\$0	\$0	\$0	\$505,348	\$505,348
CF 11	05 - 251 Economic Development Office of Secretary	<p>The purpose of this BA-7 request is to carry-forward SGF for certain contracts requiring payments across fiscal years. The contracts (\$184,989) include the purchase of 3 Ford Explorer fleet replacement vehicles from Bill Hood Ford, Inc., ordered in May which arrived after 6/30/2012 (\$70,119), computer system support and maintenance for FastLane and SmallBiz database systems by Technology Engineers (\$68,545), legal services, advice and representation for Cooperative Endeavor Agreements by Foley & Judell (\$45,450), and forensic and other professional accounting services by Avant & Falcon CPA firm for business incentive programs (\$875).</p> <p>All other contracts are funded through the LA Economic Development Fund as a statutory dedication (\$2,071,425) and include required payments for 69 contracts related to the implementation of the FastStart Program (\$1,130,505), maintenance and support of the Tax Benefit Estimator Tool with Peter A. Mayer Advertising, Inc. (\$430,148), a review and inventory of state, federal and private sector research and innovation assets with Battelle Memorial Institute (\$391,948), identify opportunities within the green energy sector with Clean Tech Group, LLC (\$34,999), assist with the health coverage component of the Quality Jobs Program</p>	\$184,989	\$0	\$0	\$2,071,425	\$0	\$0	\$2,256,414

		throughout the state during times of emergencies and improve radio access statewide.							
CF 28	08C - 403 Youth Services Juvenile Justice	<p>The purpose of this BA-7 request is to carry-forward SGF in the amount of \$103,678. These funds are for the following items:</p> <p>\$88,624 - Funding for dormitory furniture at Bridge City from Norix Group, Inc. that was originally purchased in June 2012, but has not yet been received by the agency. The agency anticipates the furniture to be delivered in 12 to 16 weeks after order (September 2012/October 2012).</p> <p>\$7,300 - Funding for 20 Motorola portable radios from Tomba Communications & Electronics, Inc. that were originally purchased in June 2012, but have not yet been received by the agency. The equipment was back ordered and the agency anticipates delivery in fall 2012.</p> <p>\$7,754 - Funding for 1 repeater and 1 antenna kit from Tomba Communications & Electronics, Inc. that were originally purchased in June 2012, but have not yet been received by the agency. The equipment was back ordered and the agency anticipates delivery in fall 2012.</p>	\$103,678	\$0	\$0	\$0	\$0	\$0	\$103,678
CF 29	09 - 307 Health & Hospitals Office of Secretary	<p>The purpose of this BA-7 request is to carry-forward \$6,425 in SGF for payments associated with an IT training contract. The DHH Office of the Secretary entered into a contract with Learning Sciences, LLC to develop an online IT security training course for the Division of Information Technology. DHH executed the contract on 8/29/2011. A portion of the software contract could not be reviewed within the term of the contract in 2011 to allow the department time to test and ensure that all required deliverables were completed and functioning properly. According to DHH, the functionality of the deliverables have been reviewed and accepted. The department requests to pay the balance of the Learning Sciences invoice so that the online IT security training course can be implemented.</p>	\$6,425	\$0	\$0	\$0	\$0	\$0	\$6,425
CF 30	09 - 309 Health & Hospitals South Central LA Human	<p>The purpose of this BA-7 request is to carry-forward \$30,828 in SGF for payments associated with replacement of an air conditioning unit at the Lafourche Treatment Center within the South Central LA Human Services Authority (SCLHSA). The former unit is over 12 years old and failed beyond repair in June of FY 12. A purchase order was entered with Doug's Refrigeration, Inc. on 6/29/2012. The unit required 5 days for delivery and installation after the order was placed, thereby entering into FY 13, and necessitating this BA-7 carry-forward request.</p>	\$30,828	\$0	\$0	\$0	\$0	\$0	\$30,828

Statutory Dedications:	\$0			
Federal Funds:	\$250,000,000			
Total	<u>\$250,000,000</u>	Total	<u>\$250,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal funds budget authority by \$250,000,000. The source of these funds is the Robert T. Stafford Disaster Relief and Emergency Assistance Act from FEMA and are directly related to the Public Assistance Program and the Hazard Mitigation Grant Program. These monies are used to fund the ongoing recovery efforts by state agencies, local governments, and certain non-profits as a result of hurricanes Katrina, Rita, Gustav and Ike and recent events such as the Mississippi River Flooding event and Tropical Storm Lee. This additional budget authority will be used to reimburse state and local government entities and non-profit organizations.

The original BA-7 request was based upon federal expenditures within the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) as of February 2012. Based upon updated expenditure data as of April 3, 2012, the Legislative Fiscal Office (LFO) has estimated that GOHSEP needs an additional approximately \$4.5 M in federal authority in FY 12 beyond the requested amount in the BA-7.

Details on expenditures as per LFO analysis:

Current budget authority - \$1,099,283,958

Total expended in FY 12 through 4/3/2012 = \$1,008,990,490

Current budget authority remaining - \$90,293,468 (\$1,099,283,958 - \$1,008,990,490 = \$90,293,468)

Average expenditures per day based (278 days - from 7/1/2011 to 4/3/2012) = \$3,629,463

Total expenditures anticipated for the remainder of FY 12 [95 days (88 days plus 7 days of accounting close-out)] based on the 278 day average = \$344,798,985

Total amount recommended by LFO: \$254,505,517 (\$344,798,985 - \$90,293,468 = \$254,505,517)

NOTE: Included within the LFO calculations is an additional 7 days to allow for GOHSEP to make any additional payments during the FY 12 accounting closeout period, which will occur beyond 6/30/2012.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amended amount of \$254,505,517. Based upon GOHSEP's average federal authority expenditures per day of \$3,629,463, the LFO recommends increasing this BA-7 by \$4,505,517 to \$254,505,517.

Total expenditures anticipated for the remainder of FY 12 [95 days (88 days plus 7 days of accounting close-out)] based on the 278 day average = \$344,798,985

Total amount recommended by LFO: \$254,505,517 (\$344,798,985 - \$90,293,468 = \$254,505,517)

NOTE: Included within the LFO calculations is an additional 7 days to allow for GOHSEP to make any additional payments during the FY 12 accounting closeout period, which will occur beyond 6/30/2012.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

April 20, 2012

ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 2

AGENCY: Medical Vendor Payments

ANALYST: shawn hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$378,508,130	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	(\$82,773,624)	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$0	0
		Recovery Funds	\$0	0
Federal Funds:	\$295,734,506			
Total	<u>\$295,734,506</u>	Total	<u>\$295,734,506</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide \$378.5 M in additional funding in the Private Providers Program of Medical Vendor Payments to address a projected FY 12 expenditure deficit. The source of funds budgeted in Payments to Private Providers Program is SGF transferred from the Buy-ins Program, and various federal revenue sources and associated Title XIX federal financial participation.

Based on the February Medicaid Monthly Financial Report, the Department of Health & Hospitals is projecting a year end deficit of \$455,220,256 in total funds in the Private Providers Program in Medical Vendor Payments. However, the BA-7 only requests \$378,508,130 in additional authority in the Private Providers Program. The department anticipates excess authority associated with the Low Income & Needy Care Collaborative Agreements, or LINCCA Program (which provides supplemental Medicaid payments to providers), and using this available authority to collect Certified Public Expenditure (CPE) federal revenue in the Private Providers Program to partially address the shortfall. The federal CPE revenue represents the federal match on Uncompensated Care Costs (UCC) earned over budget by the public hospitals in FY 12. DHH will use the federal CPE revenue (\$23,182,404) to draw additional federal match (\$53,529,722) for total federal funding of \$76,712,126.

\$455,220,256 - FY 12 Payments to Private Providers Shortfall based on the February Medicaid Monthly Financial Report
 (\$76,712,126) - Excess existing authority allocated in Payments to Private Providers
 \$378,508,130 - Authority requested in Payments to Private Providers (as reflected in BA-7)

This BA-7 requests an increase of \$378.5 M in authority in Payments to Private Providers Program, or a net increase in federal authority in Medical Vendor Payments (Medicaid) of \$295,734,506. The department proposes to utilize the current projected surplus in Buy-ins in addition to other federal revenue sources as a state match source reflected below to fund the \$378 M deficit in FY 12. Total Medicaid adjustments are reflected below:

	State	Federal	Total
<u>Private Providers Program:</u>			
Transfer SGF from Buy-ins	\$30,089,467	\$69,478,591	\$99,568,058
Deficit Reduction Act revenue (includes federal match)	\$0	\$102,466,168	\$102,466,168
ARRA supplemental revenue (includes federal match)	\$0	\$80,245,721	\$80,245,721
Agency cost reports (includes federal match)	\$0	<u>\$96,228,183</u>	<u>\$96,228,183</u>
Total	<u>\$30,089,467</u>	<u>\$348,418,663</u>	<u>\$378,508,130</u>
<u>Buy Ins Program:</u>			
Clawback surplus	(\$7,273,255)	\$0	(\$7,273,255)
Buy-Ins surplus	<u>(\$22,816,212)</u>	<u>(\$52,684,157)</u>	<u>(\$75,500,369)</u>
Total surplus per Medicaid February Forecast	<u><u>(\$30,089,467)</u></u>	<u><u>(\$52,684,157)</u></u>	<u><u>(\$82,773,624)</u></u>
TOTAL (all adjustments)	\$0	\$295,734,506	\$295,734,506

April 20, 2012

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

In addition to the transfer of a projected SGF surplus from Buy Ins to Payments to Private Providers (\$30,089,467), this BA-7 will utilize \$84,295,690 in federal funding (reflected as a state match source below) to draw additional federal financial participation. The match is based on 30.22% state/69.78% federal match rate. The state match source amounts and explanations are reflected below.

State Match Source	Federal Match	Total
\$30,089,467 SGF	\$69,478,591 Fed	\$99,568,058
\$30,965,276 Fed	\$71,500,892 Fed	\$102,466,168
\$24,250,257 Fed	\$55,995,464 Fed	\$80,245,721
<u>\$29,080,157 Fed</u>	<u>\$67,148,026 Fed</u>	<u>\$96,228,183</u>
\$114,385,157	\$264,122,973	\$378,508,130

\$30,089,467 - State General Fund transferred from Buy-ins Program as a result of a projected surplus related to Medicare Premiums paid by DHH to the federal government for dual eligibles, a projected surplus in Clawback payments related to Medicare Part D prescription drug payments, and a surplus related to the Bayou Health Program as the result of a delay in implementing the managed care program in FY 12.

\$30,965,276 - Federal revenue authorized under section 6201(a)3 Deficit Reduction Act.

\$24,250,257 - Federal revenue authorized under the American Recovery & Reinvestment Act (federal match). This revenue source represents enhanced federal matching funds allowed to be drawn based on prior Medicaid claims through 6/30/2011.

\$29,080,157 - State cost reports from DHH agencies (mental health hospitals and clinics), LSU-HCSD, LSU Shreveport, E.A. Conway, and Huey P. Long Medical Centers. These funds represent federal match that is allowed to be drawn based on prior expenditures in these agencies through 6/30/2010.

II. IMPACT ON FUTURE FISCAL YEARS

The FY 12 projected shortfall has been annualized in HB 1 Original for FY 13 in the amount of \$418,134,100 (\$119,669,979 SGF and \$298,464,121 Federal Financial Participation).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Natural Resources

AGENDA NO.: 3

AGENCY: Office of Secretary

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive	\$0	0
Interagency Transfers:	\$0	Management & Finance	\$0	0
Self-Generated Revenue:	\$0	Technology Assessment	\$19,004,346	0
Statutory Dedications:	\$0	Atchafalaya Basin	\$0	0
Federal Funds:	\$19,004,346	Auxiliary Account	\$0	0
Total	<u>\$19,004,346</u>	Total	<u>\$19,004,346</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Department of Natural Resources is requesting approval to add \$19,004,346 in federal funds from the American Recovery & Reinvestment Act (ARRA) to its FY 12 budget. The funding included in this BA-7 request is part of the \$85.5 M in ARRA funding originally allocated to the agency. A portion of these funds have been appropriated in fiscal years 2010, 2011 and 2012. As of 2/29/2012 the Department of Natural Resources had expended a total of \$47.9 M of the \$85.5 M in ARRA funding over a 3-year period. The department expended \$1.4 M of ARRA funding in FY 10, \$10.4 M in FY 11, and \$36.1 M as of 2/29/2012. The department's FY 12 budget currently includes \$43 M of ARRA funding. Since the majority of the ARRA projects were scheduled to end on 3/31/2012 and the vendors have 30 days to submit invoices for payment, the department anticipates expending \$62 M of ARRA funding in FY 12, which is \$19 M more than the current \$43 M appropriation. The remainder of the ARRA projects are scheduled to end by 8/31/2012.

The \$85.5 M funding is from 2 separate federal grants, (1) the State Energy Program (\$71.7 M) and (2) the Energy Efficiency & Conservation Block Grant Program (\$13.8 M).

Funds from the State Energy Program (SEP) are allocated to 5 programs including the Energy Star Appliance Rebate Program, the HERO (New Homes) Program, the Renewable Energy Program, State Buildings-Lead by Example Program and the Transportation Efficiency & Alternative Fuels Program. These programs target the residential, commercial and public sectors. The Energy Star Appliance Program is closed and is no longer open for applicants. The HERO Program encourages the building of energy efficient new homes. The Renewable Energy Program encourages the development, implementation and deployment of cost effective renewable energy technologies and supports the creation of additional employment opportunities and other economic development benefits. The State Buildings-lead by Example Program encourages the development, implementation and deployment of cost effective energy efficient projects within state buildings. The Transportation Efficiency & Alternative Fuels Program was established to improve infrastructure through the state. Applicants may apply for funding to pay the incremental costs of purchasing or converting vehicles, buses, and other fleet vehicles to compressed natural gas.

The Energy Efficiency & Conservation Block Grant (EECBG) Program distributes funding to local governments not eligible to receive a direct allocation from the U. S. Department of Energy. Local parish governments submit applications for energy efficiency and renewable energy projects.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. To the extent there are any ARRA funds unexpended at the end of FY 12, these funds will be carried forward into FY 13.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: State

AGENDA NO.: 2

AGENCY: Secretary of State

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Elections	\$350,000	0
Self-Generated Revenue:	\$0	Archives & Records	\$0	0
Statutory Dedications:	\$0	Museum & Other Operations	\$0	0
Federal Funds:	\$350,000	Commercial	\$0	0
Total	<u>\$350,000</u>	Total	<u>\$350,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Secretary of State is requesting approval to add \$350,000 of Federal funds to its budget. The source of the Federal funds is the U.S. Department of Defense (Defense Human Resource Activity). The funding will be utilized to expand voting opportunities for U.S. military personnel and individuals residing outside the U.S. (contained in R.S. 18:1303) by making it possible to request a ballot via the internet or from a smart phone. U.S. military personnel and individuals residing outside the U. S. are currently able to request ballots via e-mail, mail, or fax.

The funding will provide for the following expenditures:

\$275,000 - private contractor GCR & Associates, Inc. will write a computer application providing for the expanded voting capabilities; and

\$75,000 - purchase software from Dominion Voting Systems, which is a manufacturer of electronic voting machines purchased by the state.

The Secretary of State currently has a multi-fiscal year contract in place with GCR to provide computer programming activities for the state's election computer system through FY 14. This BA-7 will allow the current contract with GCR to be expanded to include expanding voting opportunities for U.S. military personnel and individuals residing outside the U.S.

The work related to this grant is anticipated to be completed by 6/30/2012.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The Secretary of State does not anticipate any increase in its hardware/software maintenance as a result of adding this additional voting service for military personnel and individuals residing outside the U.S. If there is a minimal increase, the agency anticipates utilizing its existing budgeted maintenance expenditures. The FY 12 Information Technology (IT) maintenance budget is currently \$191,000 for equipment maintenance and \$293,000 for software maintenance.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Executive

AGENDA NO.: 3

AGENCY: Coastal Protection & Restoration

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Coastal Protection & Restoration Authority	\$0	0
Interagency Transfers:	\$0	Coastal Protection & Restoration Program	\$400,000	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$400,000			
Total	<u>\$400,000</u>	Total	<u>\$400,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority in the amount of \$400,000 to the Office of Coastal Protection & Restoration (OCPR) in its FY 12 budget. The federal funding is comprised of two \$200,000 grants from the U.S. Department of Homeland Security - Federal Emergency Management Agency (FEMA) for the period of 9/27/2011 through 9/26/2014. Both of these grants are related to FEMA's efforts in updating the national flood maps.

Louisiana Coastal Cooperating Technical Partner (CTP) Program

This \$200,000 grant provides funding for the development of the LA Coastal Cooperating Technical Partner (CTP) Program. According to FEMA, due to the number of communities in the National Flood Insurance Program (over 20,000), there is a challenge in keeping these flood maps current and up-to-date. The CTP Program develops partnerships with FEMA, participating local governments, state governments, etc. to assist in keeping these flood maps up-to-date. The Louisiana CTP is the Governor's Office of Coastal Protection & Restoration (OCPR). The \$200,000 grant funds will be utilized to create the programmatic framework for the program as well as a state business plan. The state business plan is an in-depth analysis of how to update LA's current flood maps to accurately reflect the latest flood risks. Of the \$200,000 in grant funds, \$133,778 will pay for a contractor, GEC, Inc. and subcontractor Michael Baker, Jr., Inc., who will assist the agency in the development of this program and business plan. The remaining \$66,222 will be expended by the agency in their efforts in creating this program and business plan. This federal grant does not require a state match.

Risk MAP Project

This \$200,000 grant provides funding for the state to assist FEMA with outreach activities for new flood maps for Jefferson, Orleans, Plaquemines, St. Bernard and St. Charles parishes, which are scheduled for release this summer. These grant funds will ultimately create a Project Communications Plan. OCPR will also utilize the professional services of GEC, Inc. and subcontractor Michael Baker, Jr., Inc. for these outreach activities.

Based upon the agreement with FEMA, outreach activities including the following will be completed by the contractor:

- 1.) Augment existing FEMA contact database of New Orleans area by providing contact information for local, municipal and parish governments, commissions, boards, non-profits, etc.;
- 2.) Identify organizations in the state to present the new flood maps to, such as: Association of Levee Boards of LA, Greater New Orleans Disaster Recovery Partnership, Coastal Protection and Restoration Authority, LA State Historic Preservation Office, various parish and municipal councils, Regional Planning Commission for Jefferson, Orleans, Plaquemines, St. Bernard and St. Tammany Parishes, St. Charles Parish Department of Planning & Zoning, Business Council of New Orleans and the River Region, New Orleans Chamber of Commerce, Greater New Orleans Foundation, Preservation Resource Center, Global Green New Orleans, etc.;
- 3.) Assist with the identification of local media outlets, for distribution of public service announcements and press releases; and
- 4.) Develop and produce a poster display of the new flood map that can be made available throughout the region.

This federal grant requires an in-kind match in which OCPR is using its own labor costs. The OCPR is projecting such match to be \$66,670, which is anticipated to involve a portion of 6 OCPR staff individual's daily workload.

January 20, 2012

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

To the extent these grant funds are not completely expended in FY 12, the remaining grant funds will be expended in FY 13.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Executive

AGENDA NO.: 4

AGENCY: LA Public Defender Board

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Public Defender Board	\$94,518	0
Interagency Transfers:	\$94,518			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$94,518</u>	Total	<u>\$94,518</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$94,518 for expenditures associated with updates to the LA Public Defender Board's Case Management System (CMS). The original source of the IAT funds is an Edward Byrne Memorial Justice Assistance Grant (JAG), which is a formula driven federal grant received annually, via the LA Commission on Law Enforcement (LCLE). These grant funds will be utilized to hire one part-time (32 hours per week) other compensation position and a consultant to identify and correct any transition issues in the new Public Defender Case Management System and enhance the ability of the agency to produce reports from the data contained within the system.

The total Public Defender Board grant award, which is from the 2010 federal fiscal year allocation, is \$126,309 with a grant period from 1/1/2012 - 12/31/2012. The BA-7 request of \$94,518 is for expenditures anticipated in FY 12 with the remaining grant funds of \$31,791 anticipated to be expended in FY 13. According to the LA Commission on Law Enforcement (LCLE), the state's 2010 Byrne/JAG grant allocation was \$5.4 M of which approximately 70% must be allocated to local governments and approximately 30% to state government.

According to the U.S. Bureau of Justice Assistance (BJA), the JAG Program provides states and local governments with funding to support law enforcement, crime prevention and education, corrections, drug treatment, technology improvement and crime victims and witness protection initiatives. The JAG formula grant funds are based upon the state's share of the national population and various crime statistics.

The requested FY 12 expenditures include:

\$19,695 - Other compensation for salary expenditures related to a temporary part-time research analyst position. Of the \$126,309 grant, a total of \$47,268 is anticipated to be expended on this research analyst position. Upon approval of this BA-7 request, the agency is projecting \$19,695 to be expended in FY 12 with the remaining \$27,573 being expended in FY 13. The agency anticipates this individual beginning work in February 2012 at a projected hourly rate of \$28.41 per hour for approximately 32 hours per week of work. Once grant funds are exhausted, this other compensation position will be eliminated.

\$1,473 - Related benefits associated with the other compensation expenditures paid to the temporary research analyst position described above.

\$5,641 - Travel expenditures related to agency personnel traveling in-state to train or assist public defenders and staff with the new database (\$1,541) and the remaining \$4,100 in travel expenditures will be for the out-of-state consultant.

\$13,750 - Supplies for 42 Microsoft Office licenses (\$10,750) and 2 Adobe Creative Suites Software licenses (\$3,000). According to the agency, there is no software uniformity among all the public defender districts and utilizing Microsoft's office suite will allow for ease of use with the new case management system.

\$15,459 - Acquisitions including the purchase of 11 laptop computers for district offices that do not have laptop computers and 2 printers for board staff.

January 20, 2012

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

\$38,500 - Professional services for a consultant to improve the Public Defender Case Management System. This funding will allow for 700 hours of work at \$55 per hour for the consultant to create a Case Management System User's Guide, provide training to staff and develop long-term report capacity and analysis goals. The agency is anticipating the consultant's work to be completed by June 2012.

II. IMPACT ON FUTURE FISCAL YEARS

The BA-7 request of \$94,518 is for expenditures anticipated in FY 12 with the remaining grants of \$31,791 being expended in FY 13. The out-year expenditures include: \$27,573 - other compensation (research analyst position), \$2,061 - related benefits (research analyst position), and \$2,157 - in-state travel. These anticipated FY 13 expenditures will likely be requested in the FY 13 Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$1,297,931	Auxiliary Account	\$0	0
Total	<u>\$1,297,931</u>	Total	<u>\$1,297,931</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to provide additional federal budget authority to the Department of Public Safety, Office of State Police, for expenditures related to a federal grant award from the Federal Emergency Management Agency (FEMA) through the FY 10 Port Security Grant Program. The purpose of the grant is to create a sustainable, risk-based effort to protect critical port infrastructure from terrorism, particularly attacks using explosives and non-conventional threats that could cause a major disruption to commerce. The grant agreement is between FEMA and the Office of State Police in the amount of \$1,297,931, and is intended to provide funding for the acquisition of equipment and resources to further the prevention, detection and mitigation of terrorist threats to port operations in southeast and southwest LA. There is no state match requirement associated with these funds.

The Traffic Enforcement Program within the Office of State Police will utilize the funds to acquire specific pieces of equipment used for the detection and mitigation of Improvised Explosive Devices (IED), Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE), and other potential terror events.

The Office of State Police will expend these grant funds as follows:

\$254,016	- 7 spectrometers for identification of unknown solids, liquid chemicals, or detection of radioactive isotopes.
\$57,604	- 30 personal radiation detectors worn by individuals to monitor exposure to possible radiation contamination.
\$206,818	- 30 self-contained breathers which are carbon fiber breathing apparatus that allows sixty minutes of work in a contaminated environment while supplying the user with fresh air.
\$351,345	- 1 Explosive Containment Unit which can contain biological or chemical hazards within an IED up to a maximum rated explosive charge.
\$29,700	- 3 Multi-Gas/Radiation Detectors to detect multi-gas and radiation distribution.
\$28,179	- 3 Thermal Imaging Cameras that provide the ability to identify differences in temperatures between materials and can transmit video remotely via wireless transmission.
\$153,766	- 100 Level A Chemical Suits that provide the highest level of protection against vapors, gases, mists and particles. They are comprised of a fully encapsulated chemical entry suit with a full faceplate, self-contained breathing apparatus and contain an intrinsically safe two-way radio worn inside the suit.
\$3,704	- 16 Level B Chemical Suits that provide protection against splashes from hazardous chemicals. The suit is not vapor protective. As with a Level A suit, two-way radio communication is also required.
\$212,799	- 1 Mobile Command Trailer, used to coordinate, plan and mitigate IED/CBRNE events.

The protective equipment will be staged by assigning it to the Emergency Unit Services Technician in each of the 2 regions, providing the ability to respond to incidents in both southeast and southwest LA. The number of items in each region will be adequate to allow the Technician to respond rapidly to a singular event, and the extra equipment, the Explosive Containment Unit and the Mobile Command Trailer will be housed at the LA State Police Headquarters in Baton Rouge.

Total	<u>\$392,730</u>	Total	<u>\$392,730</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal funding associated with the operations and maintenance of the Baton Rouge Armed Forces Reserve Center (AFRC) and Joint Maintenance Shop (JMS). This facility was federally funded and built as a result of the 2005 Base Realignment and Closure Commission's decision that Baton Rouge have one reserve center rather than three which previously housed the different military components in the city. The facility will house the U.S. Army Reserve, the U.S. Marine Corp Reserve and the Louisiana National Guard and will provide over 157,000 square feet of space to train, support and provide administrative space for over 700 soldiers. These entities were previously housed in rented space near the Baton Rouge airport.

These funds will allow the Memorandum of Agreement between the three parties to be fully executed and will allow the state to receive federal funding which has been made available for the sustainment, restoration and maintenance of the AFRC. The state match required for these funds for FY 12 is approximately \$21,000 (for nine months of operation) and will be absorbed within the SMD budget in the current fiscal year. The Military Department has requested state general fund in the amount of \$28,000 (annualized cost) for this additional cost in FY 13 and beyond. The funds associated with this BA-7 will provide reimbursement of anticipated operational costs for the U.S. Marine Corp Reserve (\$117,146) and the U.S. Army Reserve (\$275,584) for FY 12.

II. IMPACT ON FUTURE FISCAL YEARS

The anticipated shared operational costs by the U.S. Marine Corp Reserve and the U.S. Army Reserve are projected to be approximately \$410,000 in FY 13 with slight increases in subsequent fiscal years. Additional budget authority will be necessary to budget these federal funds in future years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to provide for a means of financing (MOF) swap between the Clean Water State Revolving Loan Program and the Environmental Trust Fund in the amount of \$410,000. The expenditure level anticipated from the Clean Water State Revolving Loan Program must be reduced due to a decline in the staff level of effort toward Clean Water ARRA projects. As ARRA projects were completed, staff time has been shifted to other projects which are funded by the Environmental Trust Fund.

This MOF swap includes a decrease in salaries of \$307,500 and related benefits in the amount of \$102,500 for a total reduction of Clean Water State Revolving Loan Program funding in the amount of \$410,000 and a like increase in funding from the Environmental Trust Fund.

II. IMPACT ON FUTURE FISCAL YEARS

It is anticipated that the same level of funding will be required from the Environmental Trust Fund in subsequent fiscal years. This BA-7 returns funding to historical levels (pre-ARRA).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$1,057,268 due to funds carried-forward from fiscal years 2008, 2009, and 2010 by authority granted under L.R.S. 17:3386. L.R.S. 17:3386 was originally enacted by Act 971 of the 1985 Regular Session and was amended by Act 418 of the 2011 Regular Session (Grad Act 2). Act 971 of 1985 gave authority to higher education institutions to retain funds from one year to the next with certain limitations and approvals required. Act 418 (Grad Act 2) removed the following requirements on the carry-forward of funds by higher education institutions under prior law (Act 971 of 1985):

1. 50% of retained funds be maintained in a reserve fund for preventive maintenance only.
2. 2% limit on carry-forward of state general fund appropriations.

This request includes carryforward of the following amounts from the following fiscal years: 2008 (\$538,948), 2009 (\$157,624), and 2010 (\$360,696).

Institutions of the Southern University System will use the \$1,057,268 requested in this BA-7 to fund the following items:

1. Southern University A&M in Baton Rouge (\$31,449) - Repair and replacement of doors and windows in several buildings on campus.
2. Southern University Law Center (\$421,962) - Roofing repairs, foyer/atrium repairs, air conditioning/heating/ventilation duct maintenance.
3. Southern University New Orleans (\$454,723) - Preventive maintenance, fire alarm upgrades, supplement funding shortage for air conditioning/heating/ventilation replacement from a Department of Natural Resources grant.
4. Southern University Shreveport (\$149,134) - Dead tree removals, sprinkler system installations, life safety issues, and office space renovations.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$1,179,075</u>	Total	<u>\$1,179,075</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to provide additional federal direct budget authority to the Office of Motor Vehicles (OMV) for expenditures related to 2 federal grant awards.

1) Commercial Driver's License Improvement Program

The first grant agreement is between the LA Office of Motor Vehicles and the U.S. Department of Transportation, Federal Motor Carrier Safety Administration (FMCSA), Commercial Driver's License Improvement Program, in the amount of \$241,381. The OMV seeks to budget that portion of the grant anticipated to be expended in the current fiscal year in the amount of \$199,806. The funding period for the grant runs through 9/30/2012. These efforts are needed to ensure compliance with FMCSA Commercial Driver's Licensing standards and regulations. The grant will facilitate the OMV's ability to capture and record data from scanned images of traffic conviction tickets or court documentation for inclusion on the driver's license history of any LA licensed driver who is found guilty and convicted of a submitted violation. Maintaining accurate and current driver histories will allow the OMV to notify any driver possessing a Commercial Driver's License (CDL) of disqualification in a timely manner, and will disqualify CDL applicants during the application process. There is no state match requirement for this grant.

The expenditures in FY 12 will be budgeted as follows:

\$50,000	Salaries (Overtime for current employees)
\$89,585	Other Compensation (12 WAE employees)
\$7,421	Related Benefits (FICA and Medicare taxes)
<u>\$52,800</u>	Other Charges (Scanners and software)
\$199,806	Total

The OMV anticipates hiring as many as 12 When Actually Employed (WAE) part-time workers to be utilized in capturing and recording data from scanned images of traffic conviction tickets or court documents. These employees will be paid through the other compensation expenditure category in the amount of \$89,585 in FY 12. The OMV will dissolve these positions upon completion of the grant activity and anticipates current employees will be able to absorb the workload.

The OMV will incur expenditures of \$6,014 in FICA tax payments and \$1,407 in Medicare tax payments through employment of 12 WAE workers in FY 12. These payments will total \$7,421 in related benefits expenditures for FY 12.

The OMV will acquire 8 Kodak i1400 Series scanners and associated software at a total cost of \$48,000 and will incur expenses of \$4,800 for ongoing maintenance on this equipment, for a total of \$52,800 other charges expenditures for FY 12. The maintenance agreement for this equipment beyond the term of the grant award would revert to the responsibility of OMV.

2) Driver's License Security Grant Program

The second grant agreement is between the LA Office of Motor Vehicles and the U.S. Department of Homeland Security,

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Federal Emergency Management Agency, Driver's License Security Grant Program, in the amount of \$1,107,680. The OMV seeks to budget that portion of the grant anticipated to be expended in the current fiscal year in the amount of \$979,269. The funding period for the grant runs through 8/31/2014. The grant will facilitate improving security related to credentials, road skills testing, document management and customer flow management. The grant will allow LA to make necessary changes to the format and security features of the state driver's license/identification card credential to increase security, prevent fraud and add software programming to recognize and isolate specific statuses or restrictions for drivers/residents who are noted as security or safety risks. The grant will provide enhanced hardware (tablet computers) and software necessary to enhance security for roads skills testing in order to reduce or eliminate fraudulent activity and increase testing integrity. The grant will acquire software licenses for document imaging to facilitate the ability to electronically scan and store documentation on-site at the time of driver's license applications. Finally, the grant will allow implementation of customer flow queuing with a "photo first" concept, a queuing system that will allow for a photo to be taken of each customer upon requesting the issuance of a driver's license, whether the process is ultimately completed or not. This process will also place the customer into a queue directing them to an employee specialized in issuing credentials and reducing the possibility of forged documents being successfully presented to an inexperienced employee.

The expenditures in FY 12 will be budgeted as follows:

\$24,750 Salaries (overtime for current employees)
\$954,519 Other charges (software, software licenses, hardware/PC platform, customer queue solution with photo first system)
\$979,269 Total

The OMV will incur expenditures of \$250,000 for 125 units of road skills testing software with Global Positioning System (GPS) technology (\$2,000 each), \$175,000 for 500 content manager imaging storage solution licenses (\$350 each), \$187,500 for 125 tablet style personal computer systems with GPS technology (\$1,500 each), and purchase and installation of customer queue solutions at 81 office locations for "photo first" systems at a cost of \$342,019 (\$4,222.45 each). These expenditures will require an increase of \$954,419 in other charges expenditure authority.

II. IMPACT ON FUTURE FISCAL YEARS

As the grant activities are projected to end in FY 13, additional budget authority in the amount of \$169,986 will be required in the FY 13 OMV appropriation as follows:

\$38,394 Other compensation (3 months prorated expenses as per FY 12) - Commercial Driver's License Improvement Program
\$3,181 Related benefits (3 months prorated expenses as per FY 12) - Commercial Driver's License Improvement Program
\$128,411 Other Charges (modification to software systems for anticipated changes in driver's license credentials) - Driver's License Security Grant Program

Total	<u>\$8,300,000</u>	Total	<u>\$8,300,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate a portion of the balance from the LA Mega-Project Development Fund for 2 projects: CenturyLink in Monroe and The Schumaker Group in Lafayette. Both projects have signed Cooperative Endeavor Agreements (CEA) with the state for a total cash incentive of \$28.4 M: CenturyLink for \$19.4 M and Shumaker for \$9 M. This BA-7 for \$8.3 M represents the amount both projects are expected to be funded during FY 12. CenturyLink will receive \$3.3 M, and The Schumaker Group will receive \$5 M.

Pursuant to R.S. 51:2365(F), both projects fit the statutory definition of a mega-project by creating more than 500 new direct jobs through expansion of an existing facility. CenturyLink is expected to create 800 new direct jobs and the Schumaker Group is expected to create 600 new direct jobs. The level of incentives for both projects falls under the statutory limit of 30% of total project costs.

CenturyLink is a Fortune 500 telecommunications company headquartered in Monroe that provides phone, television, broadband internet and related services nationwide. In 2010, the company received approval of \$6,474,900 in Rapid Response Funds to expand their headquarters in Monroe. As of 10/10/2011, about \$1.8 M had been paid under that CEA. The original CEA has been amended to include an additional \$19.4 M in cash incentives. However, the department is only requesting an appropriation of \$3.3 M to be funded by the LA Mega-Project Development Fund for the expansion of CenturyLink headquarters. After the initial \$3.3 M included in this request for FY 12, additional funding will not be required until FY 14 and beyond. Subsequent cash incentive payments totaling \$16.1 M are not appropriated with this BA-7 and have no obligated means of finance associated with them.

The Schumaker Group has been located near Lafayette for 17 years and provides healthcare support for medical facilities. Under the CEA, Schumaker agrees to expand its headquarters in Lafayette to create 600 new direct jobs over the next 5 years with an average salary of \$62,500. The total cash incentive for the project is \$9 M payable as reimbursement for 50% of the cost of the expanded headquarters facility. It is expected that \$5 M will be paid to the Schumaker Group in FY 12, and \$4 M in FY 13 has been included in the LED FY 13 budget request from SGF.

II. IMPACT ON FUTURE FISCAL YEARS

Assuming successful performances by the respective projects, the state will be obligated for an additional \$16.1 M for CenturyLink and an additional \$4 M for The Schumaker Group, subject to appropriation. The LED budget request for FY 13 includes \$4 M in SGF for the Schumaker Group. The CenturyLink project obligation of \$16.1 M is expected to become due in FY 14 and beyond. The source of funding in years beyond FY 12 is unknown. The current available balance of the LA Mega-Project Development Fund is approximately \$44 M, which does not include the \$81 M that was swept from the fund during the 2011 Legislative Session. Since the Constitutional Amendment that dedicated TOPS funding passed in the October election, the administration has indicated a desire to restore the the \$81 M to the LA Mega-Project Development Fund.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to provide \$7 M in federal direct budget authority through a grant from the Federal Transit Administration (FTA) through the Nonurbanized Area Formula Program. These funds provide reimbursement expenses on projects associated with rural transit projects authorized under the FTA. FTA apportions funds for nonurbanized areas to the state according to a statutory formula based on the state's population in rural and small urban areas (under 50,000 population). DOTD administers the program in accordance with the State Management Plan. Eligible recipients include public bodies and private non-profit organizations.

FTA financial assistance may be used for capital and administrative expenses, with a federal share of 80%, and for operating expenses with a federal share of 50%. DOTD may withhold up to 15% of its apportionment for program administration, planning, and technical assistance with no local match required. DOTD must use 15% of its apportionment for the support of intercity bus transportation.

The total grant award for FY 12 is \$10,461,687. DOTD requires \$7 M additional budget authority for expenditures anticipated during FY 12. The remaining portion would be expended during FY 13 as the federal fiscal year closes out on 9/30/2012.

Of the total grant award, the funds are allocated as follows:

Capital Assistance - \$159,000 (requires 20% local match)
Operating Assistance - \$7,883,713 (requires 50% local match unless granted exceptions)
Rural Transit Assistance Program (RTAP) - \$164,777 (no local match)
State Administration - \$669,299 (no local match)
Program Reserve - \$40,361 (requires 20% local match)
Intercity Bus - \$1,544,537 (no local match)

Capital Assistance - Will provide funds to four local governmental entities to assist with purchase of passenger vans (Avoyelles - \$29,768, Jefferson Davis - \$26,130, City of Ville Platte - \$29,768, and Webster - \$50,000). The Capital Assistance Program will retain a contingency of \$23,334 to address unforeseen events that may arise during the fiscal year requiring replacement of capital assets by one or more local entities.

Operating Assistance - Will provide funds to thirty-two local governmental entities for assistance in operating rural transit programs (Allen - \$230,452, Assumption - \$212,679, Avoyelles - \$250,000, Bienville - \$152,500, Calcasieu - \$298,600, Caldwell - \$66,800, Cameron - \$117,430, Claiborne - \$142,700, City of DeRidder - \$60,000, DeSoto - \$180,000, East Feliciana - \$107,694, City of Franklin - \$150,985, Iberia - \$276,329, Jefferson Davis - \$227,737, Lincoln - \$195,000, Livingston - \$375,000, Plaquemines* - \$379,358, Pointe Coupee - \$154,501, Red River - \$156,072, River Parish Transit Authority* - \$610,558, St. James* - \$675,000, St. Landry - \$285,000, St. Martin - \$76,548, St. Tammany - \$565,100, Tangipahoa - \$267,814, Terrebonne - \$275,313, Vermilion - \$150,000, Vernon - \$197,265, City of Ville Platte - \$223,393, Washington - \$290,000, Webster - \$471,500, and City of West Ouachita - \$62,385).

*These entities receive 100% federal funding under the FTA Section 7025 provision which allows the FTA to waive the federal matching share requirements in existing and future grants for recipients directly affected by Hurricane Katrina.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Rural Transit Assistance Program - Provides for training - \$79,777, technical assistance - \$55,000, and related support services - \$30,000 for administering the state's transit systems.

State Administration - Program administration, planning and technical assistance.

Program Reserve - Funds set aside to address unforeseen expenditure needs throughout the fiscal year.

Intercity Bus - Provides support for intercity bus transportation statewide.

II. IMPACT ON FUTURE FISCAL YEARS

As this grant award coincides with the federal fiscal year, ending on 9/30/2012, the department will require an additional \$3,461,687 of budget authority in FY 13 to expend the remaining balance of the grant.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Interagency Transfers:	\$343,000			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$343,000</u>	Total	<u>\$343,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$343,000 within the Division of Administrative Law (DAL) for increased unemployment benefit appeal cases (UI cases). The original source of the IAT funds is federal unemployment benefit funds flowing through the LA Workforce Commission (LWC). According to the LWC, there are approximately 6,100 pending unemployment benefit appeal cases and the agency is requesting the DAL provide additional appeal hearing capacity to assist in reducing the backlog.

Through October 2011, the DAL has closed 2,222 LWC UI cases (July - 581, August - 570, September - 461, and October - 610) and billed the LWC a total of \$288,595 (July - \$75,400, August - \$73,965, September - \$59,930, and October - \$79,300). The initial FY 12 IAT agreement between the DAL and LWC is for \$507,000, which provides for disposing of 3,900 UI cases at cost of \$130 per case. Effective 10/17/2011, the DAL and LWC amended the original IAT agreement by increasing the agreement from \$507,000 to \$850,000.

Based upon the first 4 months of UI case data, the DAL is disposing of an average of 556 UI cases per month and billing LWC an average of \$72,180 per month for those cases. These additional funds will allow the DAL to temporarily increase its non-T. O. staff by 3 positions. Upon approval of this BA-7, the DAL will be able to handle an anticipated 70 additional UI cases per week, or 280 more per month, for the LWC. To the extent this BA-7 is approved and the DAL disposes the additional workload at its current rate, the DAL will exhaust its \$850,000 IAT budget authority by April 2012 at which time the LWC is projecting the current UI case backlog to be eliminated. This will allow the LWC to turn its focus completely on current case workload.

The requested \$343,000 in IAT budget authority within the DAL will be budgeted in the other charges expenditure category: \$103,419 other charges salary - 3 non-T.O. positions, which include 2 attorney positions and 1 administrative coordinator position. The salary for the 2 attorneys is anticipated to be \$78,696 annually per position of which \$42,375 per position would be for the remaining 14 pay periods. The salary for the administrative coordinator position is anticipated to be \$34,672 annually of which \$18,670 would be for the remaining 14 pay periods.

\$25,793 other charges related benefits - FICA, medicare and health insurance costs associated with the 3 non-T.O. positions.

\$192,316 operating services - licenses and maintenance cost of hardware/software (Prolaw & Westlaw), bar dues, postage, phone cost, etc.

\$2,000 other charges supplies associated with the 3 additional non-T.O. FTEs.

\$19,472 other charges acquisitions - computers & office equipment for the 3 non-T.O. positions.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget State Emergency Response Fund (SERF) monies for expenses incurred by the State Military Department (SMD) in supporting the Caddo firefighting mission and the New Orleans marsh firefighting mission. The current unappropriated SERF balance is approximately \$14.4 M. The expenditures incurred for these 2 missions are detailed below:

Caddo mission (Sept. 5-9)

\$4,253.69 - pay for 10 soldiers on state active duty between Sept. 5-9
\$1,698.23 - per diem (\$548) and lodging (\$1,150.23) for soldiers on state active duty between Sept. 5-9
\$451,108.49 - reimburse LA National Guard for flight costs (helicopter) incurred between Sept. 6-9
\$44,989.54 - purchased 2 buckets for helicopters @ \$22,494.77/bucket (includes shipping cost)

\$502,049.95- Total cost of Caddo mission

Orleans marsh fire mission (Aug. 30 - Sept. 16)

\$3,106.24 - pay for 10 soldiers on state active duty between Aug. 30 - Sept. 16
\$160 - per diem for soldiers on state active duty between Aug. 30 - Sept. 16
\$565,165.69 - reimburse LA National Guard for flight costs (helicopter) between Aug. 31 - Sept. 16

\$568,431.93- Total Cost of Orleans marsh fire mission

NOTE: The SMD indicates that flight costs are approximately \$5,700/hr.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to collect reimbursement from GOHSEP (Federal funds) based on approved FEMA Project Worksheets (PWs) related to hurricanes Katrina and Gustav. The approved PWs and the corresponding amounts are reflected as follows:

\$227,557 (PW #5915) - Exterior repairs to 50 trailers at Gillis W. Long Center as a result of damages caused by Hurricane Gustav.

\$189,001 (PW #7712) - Jackson Barracks museum contents lost due to Hurricane Katrina.

\$7,541 (PW #6169) - Funding for loss of contents in Building 55 of Jackson Barracks due to Hurricane Katrina.

\$301 (PW #6263) - Funding for loss of contents in Building 36 of Jackson Barracks due to Hurricane Katrina.

\$15,801 (PW #6430) - Funding for loss of contents in Building 53 of Jackson Barracks due to Hurricane Katrina.

\$49,044 (PW #17743) - Replacement of the firing range eyebrow baffle (backstop which captures and controls ballistic projectiles) destroyed by Hurricane Katrina.

\$175,594 (PW #19086) - Funding for supply and administrative buildings lost as a result of Hurricane Katrina.

\$225,327 (PW #19683) - Funding Jackson Barracks archeological monitoring as projects were executed in the rebuilding of Jackson Barracks as a result of Hurricane Katrina. FEMA required this monitoring due to the discovery of Native American remains during the renovation of buildings at Jackson Barracks (2006-2010).

		Northwestern State University	\$5,355	0
Total	<u>\$447,998</u>	Total	<u>\$447,998</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$447,998 due to funds carried-forward from FY 11 by authority granted by Act 418 of 2011 (Grad Act). Act 418 removed the following requirements on the carry-forward of funds by higher education institutions under prior law (Act 971 of 1985 as referenced in BA-7 number 9):

1. 50% of retained funds be maintained in a reserve fund for preventive maintenance only
2. 2% limit on carry-forward of state general fund appropriations

Act 418 became effective in FY 12, and funds in this BA-7 represent amounts carried forward from FY 11.

The following institutions of the University of LA System will use the \$447,998 requested for the following items:

1. Grambling (\$301,431) - Non-recurring expenditures for faculty development related to accreditation including equipment, library materials, professional services, and travel. Grambling will also fund deferred maintenance issues for repair and replacement of HVAC systems, etc.
2. LA Tech University (\$50,404) - Replace an outdated autoclave in George T. Madison Hall.
3. Northwestern State University (\$5,355) - Replacements and repairs to meet ADA and life safety codes.
4. Southeastern LA University (\$81,559) to purchase student handbooks that were partially received in FY 11 and payments to local government to fund instructional costs for the Early Start Program.
5. University of LA at Monroe (\$9,249) - Recruiting and retention departments for the following purposes: recruitment of new students, Student Success Center for tutors, and additional counseling and advising for current students.

II. IMPACT ON FUTURE FISCAL YEARS

Total	<u>\$618,104</u>	Total	<u>\$618,104</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$618,104 due to funds carried-forward from FY 11 by authority granted by Act 971 of 1985. Act 971 of 1985 gave authority to higher education institutions to retain funds from one year to the next with certain limitations and approvals required. Funds in this BA-7 represent monies in restricted accounts carried forward from FY 09 and FY 10 prior to adoption of Grad Act 2 (Act 418 of 2011) beginning in FY 12.

Institutions of the University of LA System will use the \$618,104 requested in this BA-7 to fund the following items:

1. Grambling (\$156,029) - HVAC preventive maintenance, TMA Systems (software) preventive maintenance training, annual gas leak inspections, water testing and training for university personnel.
2. Northwestern State University (\$60,414) - Replacements and repairs to meet ADA and life safety codes including the following: interior and exterior doors, safety lights, ADA rails, sidewalk access, etc.
3. Southeastern LA University (\$306,815) - Preventative maintenance measures on HVAC equipment; correction to elevator systems as identified during inspection process; fire extinguisher/fire alarm/sprinkler system inspection and replacement; replacement of roofs on White Hall and Dugas Hall; and renovation of first floor restrooms in McGehee Hall to comply with ADA.
4. University of LA at Monroe (\$94,846) - Fire code corrections, elevator maintenance, and building code maintenance.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to implement a means of financing (MOF) swap from Federal funds to IAT for the South Central LA Human Services Authority (SCLHSA) in the amount of \$2,486,338. These funds were inadvertently budgeted as Federal funds during the FY 12 budgetary process. The funding source is Federal Substance Abuse Prevention & Treatment Block Grant funds (awarded on an annual basis) within the Office of Behavioral Health (OBH), and OBH will IAT the funds to SCLHSA. These funds will be used for various substance abuse prevention and treatment services, including community-based services and continuity of care for the diagnosis, prevention, detection, treatment, rehabilitation, and follow-up care of addictive disorders patients within SCLHSA. Specifically, the funds are for 8 contracts including half-way house and independent living contracts, detox and residential treatment contracts, and 4 prevention contracts. The grant will also be used to fund 2 existing staff positions who work with prevention programs at the clinics and in the community (\$84,428 in salaries and \$36,127 in related benefits).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$1,718,285 within the Personal Health Services Program, Office of Public Health (OPH). The source of Federal funds is from the following 2 grants: 1) \$762,572 from a continuation award by the Administration on Children, Youth & Families for a Personal Responsibility Education Program (PREP) grant; and 2) \$955,713 from a new award by the Health Resources & Services Administration (HRSA) for Special Projects of National Significance (SPNS). These grants require no state match and will be used for the implementation of evidence-based HIV /STD and pregnancy prevention programs. Further details on the 2 grants are below.

PERSONAL RESPONSIBILITY & EDUCATION PROGRAM (PREP) - \$762,572

OPH will use the funds from the PREP grant to continue education on abstinence and contraception for the prevention of pregnancy and HIV /STDs among young African American women in LA.

\$640,156 - OPH has \$640,156 in existing contracts with Community Based Organizations (CBO), which were chosen via the Solicitation for Offers process during the first year of the grant in FY 11. The CBOs are in the following areas: New Orleans, East Baton Rouge, Shreveport, Alexandria, Lake Charles, Lafayette, Monroe, Hammond, and with the LA Public Health Institute. OPH will continue funding these contracts with the PREP grant at the same level of funding in FY 12.

\$46,753 - OPH currently contracts with LSU and Acadiana CARES, Inc. to provide oversight, supervision and technical assistance for 20 CBOs. In FY 12, LSU's contract will be for \$27,119 and is allocated as follows: personnel - \$14,896 (4 Coordinators); related benefits - \$5,214; travel - \$5,000; and indirect costs - \$2,009. The Acadiana CARES, Inc. contract will be for \$19,634 and is allocated as follows: personnel - \$10,024 (Program Manager and Coordinator); related benefits - \$2,506; travel - \$5,000; and indirect costs - \$2,104.

\$75,663 - OPH will assign approximately 10% of the total grant funds (\$762,572) to indirect administrative costs such as human resources, IT, executive management, and utilities. (\$75,663).

SPECIAL PROJECTS OF NATIONAL SIGNIFICANCE (SPNS) - \$955,713

The SPNS grant funds will be used to implement an information exchange network called LA Systems Linkages & Access to Care for inmate populations at high risk of HIV infection in LA. The program will focus on case management through education, consultation, and medical maintenance for HIV infected inmates in jails and prisons through video consultations. The funds will be used in the following 3 categories:

A) \$41,300 - IT Equipment

Power Vault MD1000 server & operating system	\$10,000
Computers/printers (4 @ \$1,200) -	\$4,800
T1 line & Mirth interface tech support annual fee	\$10,500
Video consultation equipment*	<u>\$16,000</u>
Total IT costs	<u>\$41,300</u>

*Used to communicate between SPNS project staff and HIV infected inmates. The systems will cost \$4,000 per case management site (HIV / AIDS Alliance, Family Services of Greater Baton Rouge, and VOA-BR) and at the OPH Program Office.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

B) \$165,624 - Administrative

Indirect costs associated with the SPNS grant will be \$165,624 (17.3% x \$955,713) to be used for administrative costs such as human resources, IT, executive management, and utilities.

C) \$748,789 - Programmatic Costs - these costs include the following:

\$20,223 - In FY 12, OPH's existing contract with LSU will be reallocated as follows: personnel - \$10,167 (HIV Supervisor & Prison/Jail Linkage Supervisor); related benefits - \$3,558; travel - \$5,000; and indirect costs - \$1,498. The HIV Supervisor will be responsible for overseeing implementation of all opt-out testing services in jails and prisons. The Prison/Jail Linkage Supervisor will be responsible for management of all linkage mechanisms implemented in East Baton Rouge Parish jail, Dixon, LCIW, Elayne Hunt, and Angola.

\$335,760 - The existing Acadiana CARES, Inc. contract will be reallocated as follows: personnel - \$227,425; related benefits - \$56,856; travel - \$15,505; and indirect costs - \$35,974. Personnel includes a SPNS Project Coordinator, Prison Linkage Coordinator, Jail Linkage Coordinator, Peer Coordinator, Disease Intervention Specialist, LA Public Health Information Exchange (LaPHIE) Expansion Coordinator, and Programmer.

\$350,331 - Contracts will be expanded with the following providers:

- (1) LSU Health Care Services Division (HCSD) (**\$123,153**) - HCSD is the only entity that has successfully created and has the LaPHIE project operating in its facilities. OPH will use its expertise to expand the project to other entities.
- (2) Our Lady of the Lake (LOL) (**\$49,633**) - Chosen as the site for implementing LaPHIE due to its high patient population at high risk for HIV and since it will be merging with Earl K. Long Medical Center in 2013. OPH will be able to use LaPHIE at LOL to identify persons who have dropped out of care and link them back to HIV-related medical services.
- (3) LA Public Health Institute (LPHI) (**\$36,960**) - LPHI will facilitate group decision making among partners, including legal and ethical issues, data ownership & sharing agreements, logistical support, and securing future funding.
- (4) Metro Health (**\$55,000**) - The only CBO that has received permission by the East Baton Rouge Parish jail to conduct HIV testing in its facility. Contracting with Metro Health will avoid delays in implementation of the project.
- (5) Provider to be determined by solicitation for proposal (**\$85,585**) - Provider will serve as the evaluation consultant and statewide evaluator including best practices research, finalizing data sources & pilot evaluation protocol, preparing multi-state evaluation, and finalizing Year 3 & 4 statewide evaluation in collaboration with the project team national evaluation center.

\$42,475 - HIV Rapid Testing allows individuals to have access to preliminary test results within 20 minutes and is the testing technology recommended by CDC. Rapid HIV Testing will be provided to 9,000 inmates per year; however, OPH will contribute 4,750 of the tests, for which \$42,750 has been placed in OPH's budget for FY 12 (the remaining 4,250 will be funded by the SPNS grant).

II. IMPACT ON FUTURE FISCAL YEARS

These grants are expected to continue through FY 15 for the following amounts, and is anticipated to be incorporated in OPH's base budget through the budgetary process starting in FY 13.

	<u>PREP</u>	<u>HRSA</u>
FY 12	\$762,572	\$955,713
FY 13	\$768,457	\$888,221
FY 14	\$788,873	\$990,569
FY 15	<u>\$810,107</u>	<u>\$983,349</u>
Subtotal	\$3,130,009	\$3,817,852

Total - \$6,947,861

Federal Funds:	\$1,562,042			
Total	<u>\$1,562,042</u>	Total	<u>\$1,562,042</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$1,562,042 within the Personal Health Services Program, Office of Public Health (OPH). The source of Federal funds is from the Affordable Care Act (ACA) Maternal, Infant, & Early Childhood Visiting Program grant. The total grant award is for \$2,082,723 for the period of 9/30/2011 through 9/29/2012. This BA-7 request annualizes the grant award for 9 months funding in FY 12 (9/30/2011 - 6/30/2012) in the amount of \$1,562,042. The grant requires no state match.

The grant provides LA with the opportunity to implement evidence-based, effective maternal, infant, and early childhood home visitation services to at least 462 families in the parishes of Jefferson, St. Landry, Caldwell, Natchitoches, Caddo, Bienville, Claiborne, Morehouse, Ouachita, and Franklin. Funds will be used specifically to provide education in order to decrease smoking during pregnancy, improve workforce participation among program participants, improve immunization coverage among infants and toddlers, and decrease child abuse and emergency room visits for childhood injuries. This will be achieved through home visits by Nurse Family Partnership (NFP) nurses. OPH will contract for 18.5 non-T.O. nurse home visitors, which will allow for 4,368 additional home visits in the specified parishes per year. Details by expenditure category for 9 months funding are below:

Salaries/Related Benefits - \$152,223

Funds will be used to fund existing positions, including:

Accountant	\$30,326
NFP Nurse Consultant	\$57,393
Program Monitor	\$22,500
Related Benefits	\$42,004

Travel - \$18,272

Costs associated with field travel statewide for NFP nurses and program staff. Includes \$16,172 for in-state travel for NFP staff statewide and \$2,100 for out-of-state travel for 2 OPH staff to attend a mandatory federal grantee meeting.

Operating Services - \$975

Costs include funds for printing nurse home visiting educational materials such as pamphlets and handouts (\$487) and postage for program mail outs (\$488).

Supplies - \$2,291

Costs associated with general office supply purchases necessary for project operation. Includes items such as paper, pens, toner cartridges, and folders.

Professional Services - \$646,598

Funds will be used for contracts for 11.5 NFP nurse home visitors in the rural parishes in OPH regions 1, 4, 7, 8, and 9 (approximately \$56,226 per nurse).

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Other Charges - \$741,458

OPH will use \$537,957 to enter into contracts for 7 NFP nurse home visitors in the urban parishes in OPH regions 7 and 8 (approximately \$76,851 per nurse). In addition, indirect costs associated with the grant will be \$203,501 (13% x \$1,562,042) to be used for administrative costs such as human resources, IT, executive management, and utilities.

Interagency Transfers (IAT) - \$225

IAT to the Office of Telecommunications Management for telephone services for NFP staff.

II. IMPACT ON FUTURE FISCAL YEARS

The grant was initially awarded in FY 11 for the period of 9/30/2010 through 9/29/2011 for \$1,581,253. It was re-awarded in FY 12 for a second year by the Department of Health & Human Services for the period of 9/30/2011 through 9/29/2012. This BA-7 request annualizes the grant award for 9 months funding in FY 12 (9/30/2011 - 6/30/2012) in the amount of \$1,562,042. The remaining \$520,681 in the grant award will roll over into FY 13 for the period of 7/1/2012 through 9/29/2012 (\$520,681 + \$1,562,042 = \$2,082,723). OPH anticipates this grant will continue to be awarded on annual basis through FY 16 for the following amounts:

FY 13	\$2,082,723
FY 14	\$2,082,723
FY 15	\$2,082,723
FY 16	\$520,681

In FY 16, \$520,681 will be the remaining amount to be budgeted from the grant award made in September of FY 15 (based on the federal fiscal year). These funds will be used for 3 months of funding from 7/1/2015 through 9/29/2015.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$4,979,354</u>	Total	<u>\$4,979,354</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$4,979,354 within the Personal Health Services Program, Office of Public Health (OPH). The source of Federal funds is from the Affordable Care Act (ACA) Maternal, Infant, & Early Childhood Visiting Program (MEICHV) competitive grant. The total grant award is for \$6,639,138 for the period of 9/30/2011 through 9/29/2012. This BA-7 request appropriates 9 months of funding in FY 12 (9/30/2011 - 6/30/2012) in the amount of \$4,979,354. The grant requires no state match.

The grant provides LA with the opportunity to implement evidence-based, effective maternal, infant, and early childhood home visitation services by nurses to at least 1,050 families in the parishes of Jefferson, Orleans, East Baton Rouge, Iberville, St. Charles, St. John, St. Mary, Lafourche, Lafayette, St. Landry, Calcasieu, Cameron, Vernon, Winn, Avoyelles, Rapides, Webster, Caldwell, Caddo, Ouachita, Lincoln, Union, Tangipahoa, St. Tammany, Livingston, and Franklin. Funds will be used specifically to provide education in order to decrease smoking during pregnancy, improve workforce participation among program participants, improve immunization coverage among infants and toddlers, and decrease child abuse and emergency room visits for childhood injuries. This will be achieved through home visits by Nurse Family Partnership (NFP) nurses. OPH will contract for 38 non-T.O. nurse home visitors, which will allow for 8,208 additional home visits in the specified parishes per year. Details by expenditure category for 9 months funding are below.

Salaries/Related Benefits - \$297,468

Funds will be used to fund existing positions, including:

Mental Health Consultant	\$41,907
Program Monitor	\$22,500
NFP Nurse Consultants (3)	\$87,781
NFP Program Manager	\$51,340
Maternal & Child Health Program Director	\$12,677
<i>Related Benefits</i>	<i>\$81,263</i>

Travel - \$32,850

Costs associated with field travel statewide for OPH staff working on the Nurse Family Partnership Program. Includes \$24,750 for in-state travel for OPH staff for service provision and training, and \$8,100 for out-of-state travel to attend annual NFP education training.

Operating Services - \$20,895

Funds will be used to make lease payments for office space at the Benson Towers in New Orleans for 6 NFP staff for 9 months during FY 12 (approximately \$2,322 per month).

Professional Services - \$2,190,387

\$1,283,063	NFP nurse home visitors (16) in the rural parishes in OPH regions 3, 5, 6, 7, 8, and 9, and administrative clerical staff (6) in regions 3, 5, 6, 7, 8, and 9
\$124,302	Mental Health Consultants (4) in regions 1, 4, 5, and 9
\$93,816	Nurse Home Visiting nurse in urban parishes in region 1

November 18, 2011

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

\$23,025	Community Relations Outreach Worker for region 4
\$73,163	Clinical Director
\$79,016	Data Analyst

\$247,500	program strategic planning (one-time costs)
\$160,765	program evaluation services
\$16,321	data software system
\$20,274	annual conference and national NFP training instate for contracted staff (travel for 55 contracted nurses)

Other Charges - \$1,592,723

OPH will use \$950,432 to enter into contracts for 12 NFP nurse home visitors in the urban parishes in OPH regions 1, 6, 7, and 8. Indirect costs associated with the grant will be \$642,291 (12.9% x \$4,979,354) to be used for administrative costs such as human resources, IT, executive management, and utilities.

Interagency Transfers (IAT) - \$845,031

IAT to Capital Area Human Services District for an NFP Supervisor, 9 NFP Home Visitors, and a Mental Health Consultant to serve urban and rural parishes of region 2 (\$840,156). In addition, \$4,875 will be transferred to State Buildings & Grounds for 9 months rent for a programmatic staff person in the Bienville Building.

II. IMPACT ON FUTURE FISCAL YEARS

The grant was awarded for the period of 9/30/2011 through 9/29/2012 for \$6,639,138. This BA-7 request appropriates 9 months of funding in FY 12 (9/30/2011 - 6/30/2012) in the amount of \$4,979,354. The remaining \$1,659,784 in the grant award will roll over into FY 13 for the period of 7/1/2012 through 9/29/2012 (\$1,659,784 + \$4,979,354 = \$6,639,138). OPH anticipates this grant will continue to be awarded on annual basis through FY 16 for the following amounts:

FY 13	\$7,676,227
FY 14	\$8,285,092
FY 15	\$8,550,136
FY 16	\$2,152,311

In FY 16, \$2,152,311 will be the remaining amount from the grant award made in September of FY 15 (based on the federal fiscal year). These funds will be used for 3 months of funding from 7/1/2015 through 9/29/2015.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE

Federal Funds:	\$2,750,000			
Total	<u>\$2,750,000</u>	Total	<u>\$2,750,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$2.75 M within the Personal Health Services Program, Office of Public Health (OPH). The source of Federal funds is a grant award from the Health Resources & Services Administration (HRSA). The grant is designated for the STD/HIV Program within OPH for the continuation of AIDS Drug Assistance Program (ADAP) Shortfall Relief funds. The funds were awarded on 9/21/2011 for 9 months during FY 12. The funds will be used to enroll a portion of the current waiting list (513 eligible HIV infected individuals) into Louisiana ADAP who were placed on the Louisiana ADAP Unmet Needs waiting list for lack of available Federal funding. Currently, there are 824 individuals on the Louisiana ADAP Unmet Needs waiting list. Once enrolled, OPH will purchase the enrollees' ADAP medications through a current arrangement between OPH and the LSU charity hospitals. This grant requires no state match.

II. IMPACT ON FUTURE FISCAL YEARS

The full award amount given on 9/21/2011 is for \$3 M to be utilized for 9 months during FY 12 (10/1/2011 through 9/30/2012). The remaining \$250,000 of the award will be utilized for the continuation of the program for the first 3 months of FY 13. However, there is no guarantee of a continuation of these additional funds in subsequent years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Veterans' Affairs

AGENDA NO.: 16

AGENCY: Northeast LA War Veterans' Home

ANALYST: Jennifer Katzman

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Northeast LA War Veterans' Home	\$471,319	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$471,319			
Total	<u>\$471,319</u>	Total	<u>\$471,319</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority in the Department of Veterans Affairs (VA), Northeast LA War Veterans' Home by \$471,319. The source of funds is increased per diem reimbursements from the Federal VA for service-connected veterans (veterans with medical conditions as a result of their military service) and non service-connected veterans. A breakdown of the anticipated revenue increase at Northeast is reflected below.

Comparison of Revenue from Federal VA per diem reimbursements - September 2010 vs. 2011

Non service-connected veterans

September 2010 Per Diem rate of \$77.53 per day

September 2011 Per Diem rate of \$93.25 per day

Non Service-Connected Veterans FY 2010 (for approximately 131 vets) = \$304,770.43

Non Service-Connected Veterans FY 2011 (for approximately 132 vets) = \$370,295.75

Monthly Increase - (\$370,295.75 - \$304,770.43) = \$65,525.32

Service-connected veterans*

September 2010 per diem reimbursement \$166.17

September 2011 per diem reimbursement \$186.49

Service-Connected Veterans FY 2010 (for approximately 15 vets) = \$72,782.46

Service-Connected Veterans FY 2011 (for approximately 14 vets) = \$78,328.80

Monthly Increase - (\$78,328.80 - \$72,782.46) = \$5,546.34

*Federal per diem reimbursements from the Federal VA for service-connected veterans are for 100% of the cost per patient day (higher per diem rate started in 2010).

Total Monthly Increase - (\$65,525.32 + \$5,546.34) = \$71,071.66 x 7 months = \$497,501.62

As indicated above, Northeast will be reimbursed \$497,502 in FY 12 in additional per diem by the Federal VA. Northeast is only requesting a portion of this revenue increase based on the necessary budget authority required to fund unanticipated costs and operational shortfalls in FY 12 in the amount of \$471,319. Under R.S. 29:384, the VA will transfer the difference between the increased revenue collected and revenue requested to be appropriated (\$497,501.62 - \$471,319 = \$26,182.62) into the State Treasury to be carried-forward into FY 13. Northeast requests to use the additional revenue generated by the increased per diem rate to fund the following expenditures reflected below. The funding allocated for salaries and related benefits will be for 12 months of funding; however, all other expenditure categories will be allocated for only 7 months of funding for the remainder of FY 12.

Salaries - \$36,672

Civil Service reallocated 12 Licensed Practical Nurse-2s (LPNs) to LPN-3s in order to meet the requirements of the agency's allocation criteria for LPNs at the War Vet Homes (effective 7/1/2008). Under this criteria, only LPN-3s are authorized to work with skilled care and cognitive impaired patients. Northeast did not have enough LPN-3s on staff to attend to the high number of these patients at Northeast, and several existing LPN-2s on staff were needed to work with this patient subset. In order to comply with the established agency allocation criteria in place at the time, these 12 LPN-2s were reclassified as LPN-3s on 7/1/2011 in order to work with the skilled care patients. Under the new job classification, each LPN received a requisite annual salary increase of \$3,056 (12 x \$3,056 = \$36,672). As of 9/15/2011, Northeast has switched to the standard Civil Service

ANALYSIS OF BA-7 REQUEST
Approved By JLCB

career progression model used at the other 4 War Vet Homes.

Other Compensation - \$98,200

In order to meet the requirements of 2.5 hours of direct nursing care per resident per day set by the Federal VA, Northeast will need to hire 5 additional WAE personnel (while-actually-employed), including one Registered Nurse (RN), one LPN, and 3 Certified Nursing Assistants (CNAs). Compensation for the WAE staff will be as follows:

RN	\$36,450
LPN	\$24,300
CNAs (3)	\$37,450
Total Other Compensation	\$98,200

Related Benefits - \$24,038

Additional cost as a result of the above increases in LPN salaries. Includes \$9,168 in retirement pay, \$8,362 for Medicare, \$3,304 for FICA, and \$3,204 for Unemployment.

Operating Services - \$70,600

Northeast's laundry contract is increasing by \$40,600 in order to begin changing linens twice weekly for better infection control. Northeast is also seeing a shortfall of \$30,000 due to X-ray, lab, and feeding tube supply cost increases.

Supplies - \$105,241

Due to inflationary factors, Northeast has substantially higher costs in dietary, household, pharmaceutical, and medical supplies than originally budgeted. Specifically, food has increased \$0.30 per meal for a total cost of \$46,000, and there are unanticipated shortfalls in medication (\$25,000) and medical supplies (\$24,241). In addition, Northeast maintains that since both Medicare and the Federal VA have placed a new emphasis on infection control, isolation, and cross-contamination preventive techniques, costs associated with disinfectants have increased by \$10,000 due to the installation of a new dispensary system, the switch to certain, more costly chemicals, and increased utilization.

Professional Services - \$41,961

Northeast's contract costs with its physical, speech, and occupational therapy provider is increasing by \$41,961 due to increased participation by Medicare A & B eligible residents, the higher number of service-connected veterans requiring therapy, and increased contract costs (provider charging additional \$0.20 per minute). Northeast's Medicare A & B census was originally budgeted for 6 Medicare part A patients and 15 Medicare part B patients; however, Northeast increased its current census to 12 Medicare part A and 22 Medicare part B. The increased per diem reimbursements from the Federal VA will be used to fund the higher contract costs.

Interagency Transfers (IAT) - \$35,607

According to the agency, pharmaceutical costs to the home have increased since the families of the residents have not provided necessary medications in a timely manner to the residents as originally anticipated. Due to budget cuts in FY 10 and 11, Northeast's in-house pharmacy was closed, and all Vet Home prescriptions are handled out of the Southeast War Vet Home in Reserve, LA. In order to meet the immediate needs of the patient, Northeast must fill the prescription within 8 hours, but medicine from Reserve cannot be delivered within that timeframe. As such, families are expected to briefly and temporarily fill the initial prescription until the prescription can be filled and delivered from Reserve. Many families are unable or unwilling to pay for the initial prescription, and Northeast must absorb the cost of filling these prescriptions at a local pharmacy, at retail prices, within the first 8 hours. The VA pharmacy in Reserve receives the IAT from Northeast for the cost of the drugs.

Major Repairs - \$59,000

Northeast had to conduct emergency replacements of two 16-year-old boilers which provide hot water to the facility. Emergency replacement was necessary due to life safety regulations set by the Federal VA and Medicare. The old boilers unexpectedly wore out and one developed a hole in the heat exchanger. Costs cover the boilers and labor needed for replacement.

I. SUMMARY/COMMENTS

The Oil Spill Coordinator's Office (LOSCO) through the Office of State Police is requesting approval to add \$14.3 M in Statutory Dedications from the Natural Resources Restoration Trust Fund to its budget to enable it to reimburse state agencies for assessment and restoration costs incurred due to the Deepwater Horizon Oil Spill. Monies deposited in the fund comes from the federal Natural Resources Damage Assessment (NRDA) process. NRDA is a scientific and legal process used by natural resources trustees to develop the public's claim for natural resource damages against parties responsible for a discharge of oil or a substantial threat of a discharge, and to seek compensation for the harm done to natural resources and the services provided by those resources. LOSCO, along with the state departments of Wildlife & Fisheries, Natural Resources, Environmental Quality, and the Coastal Protection & Restoration Authority will perform the assessments. The steps involved in the assessment are pre-assessment, restoration planning, and restoration implementation.

The funding requested in this BA-7 will be utilized for the following expenditures:

\$809,959 - Total Salaries and Related Benefits for 19 State Police employees performing research, reviewing claims for reimbursement, consulting with scientists on legal issues, etc.

\$9,990,672 - Total Professional Services:

\$9,000 to Merlin Management for guidance to the state for cost reimbursement procedures.

\$5,316,784 to Stratus for assisting in the assessment of natural resource damages and restoration planning. Examples of services include planning, facilitating and managing environmental testing and data collection, injury assessment and quantification, and design and implementation of ecosystem restoration projects.

\$438,392 to Plauche & Stock for advice and counsel to the LOSCO and trustees related to the NRDA process and associated claims and removal actions arising from the Deepwater Horizon Oil Spill.

\$300,000 to Jackson, Gilmour & Dobbs for advice and legal services to LOSCO, DOA, state trustees and agencies, as well as the attorney general on any legal matters arising from the Deepwater Horizon Oil Spill.

\$433,858 to Vicky Peters for advice to LOSCO during the entire NRDA process, including preassessment, restoration planning and restoration implementation.

\$50,393 to Barnes Economics for expertise and assistance with respect to data collection, evaluation and quantification of economic impacts and other damages.

\$6,953 to Lewis Terrel & Associates for expertise and assistance with respect to data collection, evaluation and quantification of economic impacts and other damages.

\$3,435,292 to Weston for planning, facilitation and management of environmental testing and data collection; injury assessment and quantification, coordination of NRDA activities to ensure projects proceed on schedule and within budget; identify and, if so directed, retain experts and subcontractors to aid in the state's NRDA efforts.

\$3,454,109 - Total Interagency Transfers:

\$463,914 to Environmental Quality for expenses related to managing and evaluating data, literature reviews and work with external resource experts to further injury determinations, to assist in the development of restoration actions, etc.

\$79,120 to Natural Resources for 11 coastal resources scientists.

\$1,802,511 to Wildlife and Fisheries for salaries, related benefits, operating expenses for NRDA claims; includes funding to

support 34 existing temporary employees.

\$734,065 to Office of Coastal Protection and Restoration for 7 fulltime non-T.O. employees to assist with NRDA claims; includes 3 attorneys, 2 public information officers, 1 coordinator and 1 coastal restoration scientist.

\$374,499 to Governor's Office for contracts for oil spill response and remediation activities and environmental projects.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The funding and activities provided for in this grant is considered one-time and non-recurring.

DEPARTMENT: Public Safety

AGENDA NO.: 2

AGENCY: State Fire Marshal

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fire Prevention	\$1,220,000	0
Interagency Transfers:	\$1,220,000			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,220,000</u>	Total	<u>\$1,220,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of State Fire Marshal is requesting approval to add \$1.2 M IAT revenue to its budget to provide for development of a new computer system. The requested funding originates from federal grants from the La. Department of Natural Resources (\$350,000 American Recovery & Reinvestment Act (ARRA) funding from U. S. Dept. of Energy), and the Governor's Office of Homeland Security & Emergency Preparedness (\$870,000 from Hazard Mitigation Grant received from FEMA). This is the third and final year of the state's eligibility for the ARRA funding. The Hazard Mitigation Grant funding is part of the \$14 M awarded to the state in 2007 after Hurricane Katrina. Local governments received priority funding from the \$14 M grant (before the state). The State Fire Marshal is currently allocated \$2 M from the \$14 M total grant.

The requested funding will provide for a professional services contract for software development, migration of existing data to the new system, training on the new computer system (\$1.13 M), and acquisition of servers and SAN storage discs (\$90,000). The total cost for development of the new computer system is estimated at \$2.35 M (\$2.26 M professional services contract and \$90,000 hardware acquisition). The \$2.26 M total cost for the professional services contract will be expended over 2 fiscal years (\$1.13 M each year).

The new computer system will integrate the work processes of all 11 sections in the Fire Marshal's Office into one computer application. The new system will provide real-time, paperless submittals for plan review, permitting, and inspections. The new system will allow applicants to apply for permits on-line, attach drawings, specifications and information, and to pay associated fees. Access and assistance will be provided at each of the Fire Marshal's 7 regional offices (Baton Rouge, New Orleans, Monroe, Lafayette, Shreveport, Alexandria, and Lake Charles) and will be made available to each local permitting office within the state.

Development of the new system is anticipated to take 18 months to complete and is anticipated to be operational by March 2013. The agency anticipates having a vendor selected and application development begin in December 2011. Testing of the new system is anticipated to begin in December 2012 with training on the new system expected to be provided in February 2013.

II. IMPACT ON FUTURE FISCAL YEARS

The total cost for development of the new computer system is estimated at \$2.35 M (\$2.26 M professional services contract and \$90,000 hardware acquisition). In addition to the funding included in this BA-7 request, the Fire Marshal will receive an additional \$1.13 M Hazard Mitigation funding from the Governor's Office of Homeland Security & Emergency Preparedness in FY 13. The \$1.13 M anticipated in FY 13 will provide for the balance of expenditure required for the professional services contract that is estimated to cost a total of \$2.26 M. No budget increase for ongoing maintenance expenditures is required. The agency will utilize its existing budget of \$15,000 from the Fire Marshal Fund for maintenance of the current system to provide for maintenance of the new system.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$59,998</u>	Total	<u>\$59,998</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to receive funds from the Federal Emergency Management Agency (FEMA) via the Office of Homeland Security & Emergency Preparedness (GOHSEP) and the Office of Coastal Protection & Restoration. The funding in this BA-7 request is associated with Executive Proclamation No. 41 BJ 2011 and will be used to analyze data from the Spring 2011 Mississippi River flooding event.

An agreement is currently being negotiated between the Department of Natural Resources and the LA Geological Survey, which will perform the work associated with this BA-7 request. The proposed budget for the project is \$59,998, of which 75% or \$44,999 is from FEMA and the 25% match or \$14,998 is from the Office of Coastal Protection & Restoration (Coastal Protection & Restoration Fund). Services that will be performed include retrieving and analyzing data pertinent to the flood, inventorying, documenting and archiving the data collected into a digital database, compiling and spatially analyzing the data in a geographical information system (GIS), graphically displaying the information collected, and preparing a report of the information collected.

The department will reimburse the LA Geological Survey for their expenses which include salaries (\$35,736), related benefits (\$12,150), cartographic (mapping) supplies (\$500) and indirect costs to LSU (\$11,612). Funding for salaries is based on a portion of 5 employees of the LA Geological Survey. Indirect costs are paid to LSU, where the LA Geological Survey is housed and represents 24% of the direct costs.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Revenue

AGENDA NO.: 4

AGENCY: Office of Revenue

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Tax Collection	\$0	0
Interagency Transfers:	\$0	Alcohol & Tobacco Control	\$583,007	0
Self-Generated Revenue:	\$0	Charitable Gaming	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$583,007			
Total	<u>\$583,007</u>	Total	<u>\$583,007</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate federal funding for a Food and Drug Administration (FDA) contract to increase the complexity and frequency of tobacco compliance checks (undercover buys) as well as advertising and labeling inspections (audits). The agreement is by contract, not grant, and is similar in structure to the contract between the Alcohol & Tobacco Control (ATC) and the U.S. Department of Justice for enforcement of laws related to underage possession and consumption of alcohol. The negotiated contract, which is available to all states due to more stringent federal regulations within the Tobacco Control Act, will provide 100% federal reimbursement for up to \$583,007 between 9/15/2011 and 9/14/2012. The FDA has the option to continue the contract for 2 years beyond the contract expiration. The reimbursement includes expenses associated with increased compliance checks and inspections related to the federal regulations. The total contract amount over 3 years is \$1,749,021. Instead of conducting the investigations using federal authorities, the FDA has elected to use state resources to perform the mandated activities. The negotiations between the ATC and the FDA for this service have been on-going for about a year and the contract was finalized on 9/8/2011.

The ATC will not require any additional T.O. positions to fulfill the requirements of the contract, though the negotiated eligible expenses contain funding for an administrative assistant. This position will be filled using a vacant position but will be funded with federal dollars for the 3 years of the contract. Currently, there are 36 ATC field agents available to conduct compliance checks along with advertising and labeling inspections with an additional 12 commissioned law enforcement personnel to assist, if necessary. The field agents will be trained to perform the additional activities required by the federal contract and are expected to conduct these additional activities using overtime as needed. The federal inspections are more extensive than the state inspections, and thus more expensive, because they utilize a stratified randomization of samples, which removes efficiencies, such as visiting all locations in one area at the same time, require specific data requirements and may involve additional visits to the same location.

Anticipated reimbursable expenses for the annual contract to conduct 3,500 compliance checks and 3,500 inspections include:

Agent overtime at \$36/hour average	\$415,800
Operative (underage buyers) salaries @ \$10 per hour	\$38,500
Mileage reimbursement	\$62,475
Tobacco product purchases by operatives	\$1,260
Administration:	
Program Manager (overtime) at \$45/hour + \$612 mileage	\$17,112
Administrative Assistant (new position at \$19.50/hour salary and related benefits)	\$40,560
Training (Travel to D.C. conference)	\$4,900
Office Supplies	\$2,400
TOTAL EXPENSES	<u>\$583,007</u>

September 16, 2011

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

This contract is in place for 1 year, beginning 9/15/2011 for \$583,007. However, the FDA has the option to extend the contract for each of the next 2 years to 9/15/2014, for an additional \$583,007 each year. If exercised, the contract would also impact FY 13, FY 14 and possibly FY 15 for a total of \$1,749,021. If the funds are not used each year, they may not be carried forward into subsequent years. However, the FDA has the option to allow an additional 6 months to complete the required services.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 5

AGENCY: Office of Secretary

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Enforcement	\$149,841	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$149,841			
Total	<u>\$149,841</u>	Total	<u>\$149,841</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority in the amount of \$149,841 in order to accept federal funding from the FY 10 Port Security Grant Program. This program provides federal funding for transportation infrastructure security activities and facility security plans among port authorities, facility operators, and state and local government agencies required to provide port security services. Funding will be utilized to purchase a rigid hull inflatable patrol vessel package. No state match is required in order to receive this funding.

The rigid hull inflatable patrol vessel package includes a boat with necessary communication, surveillance and emergency equipment, trailer and motor. This equipment will enhance maritime security and all hazard response capabilities in the Port of Lake Charles/Calcasieu River. The department applied for this funding because this port houses critical infrastructure and valuable assets and equipment, including two major refineries and several chemical plants.

NOTE: Traditional open hull vessels with open consoles and no protective collar are not as effective for maritime security and protective zone enforcement around High Value Assets (HVA), such as chemical plants and refineries.

II. IMPACT ON FUTURE FISCAL YEARS

The purchase of this vessel with Federal funds offsets Conservation funds from being utilized to purchase a replacement vessel. Therefore, the department has indicated that Conservation funds will be utilized for ongoing operational costs such as fuel and maintenance costs of approximately \$10,000 annually.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget Federal funds for the expansion of the Starbase Program which will be implemented at Jackson Barracks in Arabi. Starbase is a National Guard youth program funded by the U.S. Department of Defense and is designed for students in the 5th grade considered at-risk in the areas of science, technology, engineering, and math (STEM Education). Starbase is a 5-day interactive academic enrichment program which allows students to participate in hands-on activities in chemistry, physics and math. There are currently 60 Starbase locations in 34 states including Puerto Rico and the District of Columbia.
