The state's first Starbase program began at Jackson Barracks in 1999 but was moved to Camp Beauregard in 2005 following Hurricane Katrina. This program will begin in the fall of 2011 and will serve 5th grade students from Orleans Parish and St. Bernard Parish. The Military Department anticipates serving an additional 650 students annually in this region. Over 7,900 students have been served since the program began in 1999 and has resulted in an increase in average test scores of approximately 60%. The U.S. Department of Defense requires an increase in test scores of a minimum of 20%.

As mentioned previously, the program is funded entirely with Federal funds from the U.S. Department of Defense. The funding for FY 12 includes the following:

\$183,000 - funding for 4 T.O. positions which includes 3 teachers and 1 administrative assistant. Annual salary for the lead teacher is \$45,000, the 2 remaining teachers are \$40,000 per person, and \$23,000 for the administrative assistant. Related benefits for the 4 employees is an additional \$35,000 annually.

\$15,000 - anticipated travel costs for staff to support area schools and professional development for Starbase teaching staff. The Military Department estimates a total of \$10,000 of in-state travel and \$5,000 of out-of-state travel. Travel costs will also be incurred for monthly trips between Starbase Jackson Barracks and Starbase Camp Beauregard plus trips in and around the City of New Orleans for coordination with the Orleans Parish schools.

\$100,000 - office equipment rental, janitorial, internet and online technology support. The Military Department indicates that it does not currently have a detailed breakdown of the proposed expenditures but the total amount of expenditures has been approved by the Department of Defense.

\$200,000 - office/classroom, student project supplies, and consumables. The Military Department indicates that it does not currently have a detailed breakdown of the proposed expenditures but the total amount of expenditures has been approved by the Department of Defense.

\$100,000 - major acquisitions including computers for staff and classroom/lab. Also includes furnishings (desks, tables, chairs) and project software. The Military Department indicates that it does not currently have a detailed breakdown of the proposed expenditures but the total amount of expenditures has been approved by the Department of Defense.

\$2,000 - phone charges

August 11, 2011

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

The State Military Department anticipates the cost for this program in subsequent fiscal years to be approximately \$280,000 to be funded entirely with Federal funds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Economic Development

AGENDA NO.: 2

AGENCY: Business Development

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development	\$14,850,000	0
Interagency Transfers:	\$0	Business Incentives	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$14,850,000			
Federal Funds:	\$0			
Total	<u>\$14,850,000</u>	Total	<u>\$14,850,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate the fund balance in the Rapid Response Fund to make available additional funds to the Secretary of Economic Development for distribution to prospective economic development projects. The department indicates that there are 13 projects under consideration which are nearing the final decision stage and have the potential to create or retain 3,836 jobs in total with over \$1 B in capital investment.

The projects are located in the northwest, northeast, central, capital and southeast regions of the state. Should all incentive offers made to these projects be accepted, which is not anticipated, the projects would require \$67 M in funds. With this BA-7 request, the department will have \$24.85 M appropriated through the Rapid Response Fund for these projects and others that were already under consideration when the budget was passed (\$10 M currently in the FY 12 budget and \$14.85 M in this request). This BA-7 requests the appropriation of the remaining fund balance plus anticipated FY 12 interest in order to provide immediate incentive payments to the projects. The fund consists of money deposited each year during the budget process (an amount required to bring the unencumbered fund balance to \$10 M each year or, in recent years, a lump sum of \$10 M using language in the funds bill plus any additional appropriations), incentive payments clawed back or returned to the fund and interest/earnings.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This BA-7 request effectively eliminates the entire fund balance for the Rapid Response Fund in FY 12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 3

AGENCY: State Police

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement	\$740,000	0
Interagency Transfers:	\$0	Criminal Investigation	\$0	0
Self-Generated Revenue:	\$148,000	Operational Support	\$0	0
Statutory Dedications:	\$0	Gaming Enforcement	\$0	0
Federal Funds:	\$592,000	Auxiliary Account	\$0	0
Total	<u>\$740,000</u>	Total	<u>\$740,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The agency is requesting approval to increase its budget to provide for a federal grant for enforcement activities targeting unsafe drivers of commercial vehicles and drivers of passengers cars operating aggressively around commercial vehicles. The total grant award is \$850,000 (\$680,000 Federal Share and \$170,000 State Share), with funding to be expended over 2 fiscal years. The agency is requesting approval to add \$148,000 SGR (derived from fees and fines collected by State Police) to be used as the required 20% match funding and \$592,000 Federal funds received from the federal TACT (Ticketing Aggressive Cars and Trucks) grant. The requested funding will provide for overtime hours for enforcement personnel (\$700,000), and for a professional services contract (\$40,000) with LSU to provide statistical data analysis. The overtime funding will fund approximately 13,812 overtime enforcement hours at an average rate of \$50.68 per hour.

The agency will utilize selective traffic enforcement targeting unsafe driving behaviors of commercial motor vehicles and passenger drivers, along identified high crash corridors. Unsafe driving behaviors include, but are not limited to: speeding, following too close, failure to yield, driving left of center, improper passing, improper lane use, careless/reckless operation, and aggressive driving. For this purpose, aggressive driving refers to a combination of 2 or more unsafe driving behaviors. LSU's Highway Safety Research Group identified the high crash locations throughout LA that will be targeted for the enforcement activities for this grant. The high crash areas identified include interstates 10, 12 and 20 corridors. State Police will deploy enforcement personnel to the pre-identified areas, on an overtime basis to target unsafe driving behaviors. Enforcement will be aimed at particular days of the week and hours of the day when increased traffic enforcement will be most effective. Enforcement strategies may include the use of spotters and aircraft surveillance, utilization of nondescript, unmarked, or semi-marked vehicles. Performance expectations will be to cite, on average, one moving violation for every one and one-half hour of enforcement.

II. IMPACT ON FUTURE FISCAL YEARS

The total funding to be appropriated in FY 13 is \$110,000, (\$22,000 for the state match and \$88,000 for the federal share). Approximately \$100,000 will be used to fund approximately 1,973 overtime enforcement hours at an average rate of \$50.68 per hour and \$10,000 will fund the remainder of the professional services contract with LSU.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 4

AGENCY: State Fire Marshal

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fire Prevention	\$0	0
Interagency Transfers:	\$250,000			
Self-Generated Revenue:	(\$250,000)			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The State Fire Marshal is requesting approval of a means of financing substitution, increasing IAT by \$250,000 and reducing SGR by a like amount. The IAT revenue source is SGF via DHH. The means of financing substitution is to provide adequate IAT budget authority to enable the agency to review plans and specifications pertaining to the construction and/or renovation of health care facilities that are licensed and/or certified by the Department of Health & Hospitals. The IAT agreement was signed 7/17/2011. The agency is anticipating 250 or more such plan reviews to be performed.

The reduction in SGR is possible because the agency has excess budget authority which is greater than anticipated self-generated collections.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Environmental Quality

AGENDA NO.: 5

AGENCY: Environmental Compliance

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Compliance	\$354,543	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$354,543			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$354,543</u>	Total	<u>\$354,543</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority within the Office of Environmental Compliance in the amount of \$354,543. The increased funding will be received from the Louisiana Land Trust (LLT). The increase in funds will allow the department to continue a contract to monitor demolitions and hazardous waste disposal facilities in hurricane affected areas.

The contractor's tasks involve evaluating demolition activities for compliance with regulatory requirements and the handling and disposal of demolition debris in landfills for compliance with each landfill's permit. As of 7/30/2011, there have been 24,680 inspections. The inspections include structures containing asbestos, asbestos abatement, and slab abatement inspections, structure and slab demolition inspections, and slab reuse recycling approvals. According to DEQ, the cost associated with each property varies as some small properties and structures may only need 1 inspection while other large properties and structures may need different inspections and have to be inspected numerous times.

The funding for the contract is twofold in that FEMA funds, which are received through IAT from GOHSEP, and LLT funds, which are received from the Road Home Program, cover the costs of demolition and landfill oversight. The FEMA funds are currently budgeted in the FY 12 budget in the amount of \$500,000. The SGR budget authority was eliminated in the FY 12 budget process because the contract was ending. However, additional properties were designated for demolition by parishes in the affected areas and additional funds are needed to oversee the demolition.

The original contract terms with Dynamac Corporation began 9/1/2008 and ended 8/31/2009 at a cost of \$381,885. The Department of Environmental Quality (DEQ) had the right to renew the contract for one or more periods, not to exceed 36 months. The contract was renewed in August 2009 and August 2010. Currently, the total cost over the 3-year period is \$4,378,272. The last funding increase for the contract was in March 2011 in the amount of \$743,973.

The LLT is a nonprofit organization formed to manage the properties that have been purchased by the state under the Road Home Program as part of the recovery effort from hurricanes Katrina and Rita in 2005.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years as the contract will be ending in FY 12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 6

AGENCY: Office of Secretary

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Enforcement	\$1,109,554	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$1,109,554			
Total	<u>\$1,109,554</u>	Total	<u>\$1,109,554</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$1,109,554 of Federal funds into the Enforcement Division of the Office of the Secretary. Pursuant to a Joint Enforcement Agreement (JEA), the Federal funds were earmarked for cooperative enforcement endeavors between the U.S. Department of Commerce (DOC), National Oceanic Atmospheric Administration, Office of Law Enforcement (NOAA/OLE) and the State of LA Department of Wildlife & Fisheries Law Enforcement Division (LDWF/LE). The Joint Enforcement Agreement is to facilitate the operations, administration and funding of the LDWF/LE to enforce federal laws and regulations under the Magnuson-Stevens Fishery Conservation & Management Act and the Lacey Act. These funds will enable the state of LA to aid the federal government in fishery conservation and management activities. The NOAA has the authority under these 2 Acts to utilize the personnel, services, equipment, and facilities of state agencies on a reimbursable basis or otherwise. No matching requirements are necessary from the State.

The Department of Wildlife & Fisheries will budget these funds as follows:

Salaries - \$221,849 (6,160 hours of overtime as described in the JEA)
Related Benefits - \$3,217 (Medicare)
Travel - \$7,450 (routine field travel)
Operating Services - \$210,450 (repairs to boats and electronics and leases and maintenance for equipment)
Supplies - \$101,098 (fuel, oil, boat accessories)
Acquisitions - \$554,690 (1 mid-range patrol vessel package, 4 outboard motors, 1 satellite radio, 7 patrol vehicles)
Major Repairs - \$10,800 (major repairs to equipment)

Specifically, the \$554,690 in acquisitions includes the following:

\$303,000 for 1 mid-range patrol vessel package
\$58,000 for 4 outboard motors (\$14,500 per outdoor motor)
\$4,690 for 1 satellite radio
\$189,000 for 7 patrol vehicles (\$27,000 per vehicle)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$250,000 of SGR from the Terrebonne Levee and Conservation District for a mitigation project mandated by the U.S. Army Corps of Engineers at Pointe Aux Chene. This funding will allow the Department of Wildlife & Fisheries to hire 6 temporary part time technicians to perform duties required to develop terraces which serve as breakwaters and will disperse incoming tides to assist in reducing coastal erosion at Pointe Aux Chene. The project is set to begin 8/25/2011 and will take approximately 2 years to complete.

The funding included in this BA-7 request is for the first year expenditures of the department and will budgeted as follows:

Other Compensation - \$195,000 (wages)
Related Benefits - \$30,000 (Social Security, Medicare, Insurance)
Supplies - \$25,000 (operating supplies)

II. IMPACT ON FUTURE FISCAL YEARS

FY 13 funding is indeterminable at this time and will be projected during the FY 13 budget development process. The project is set to begin 8/25/2011 and will take approximately 2 years to complete.

		began in June 2011. The agency anticipates the work to be completed by 7/30/2011.							
		\$65,547 - The LWIN Lafayette Site Relocation work began in June 2011. Motorola will relocate all radio equipment from Troop I to the new tower in Carencro. Currently this relocation project has been delayed until FCC frequency approval. The agency anticipates the relocation to be completed in October 2011.							
		\$123,064 - DPS amended the IAT agreement with the Terrebonne Parish Sheriff's Office that will provide critical work to the Montegut Tower site. The agency anticipates vendor completion in 8/15/2011.							
		\$43,900 - Herbert S. Hiller Corp will replace the fire sprinkler system at the DPS Data Radio Command Center. The bid and purchase order was issued on 6/25/2010. There were delays in starting the project, but the agency anticipates this system to be completed in August 2011.							
		\$99,422 - Purchased Mobile Fly Away Mesh Units from Orbital Data Net in June 2011. The agency anticipates making payment to the vendor in August 2011.							
		\$17,778 - Agency ordered a Ford E-250 from Lamarque Ford on 4/18/2011. The agency is anticipating vehicle delivery by 8/1/2011 (DPS Vehicle Fleet).							
CF 26	08C - 403 Youth Services Juvenile Justice	<p>The purpose of this BA-7 request is to carry-forward funding as follows:</p> <p>Swanson Center for Youth Program - \$196,190 SGF for acquisitions (\$170,500) and major repairs (\$25,690). Funding was allocated to replace the current HVAC system in 4 buildings at the Columbia facility and repair the Yellow Brick School building at the Swanson facility after it was damaged by fire. The work was not completed before June 30th due the boiler in the building having to be replaced first, then the building had to be cleaned of debris from the fire.</p> <p>Bridge City Center for Youth Program - \$22,321 SGF for acquisitions. Funding was allocated for the installation of a transfer switch for a generator to service 3 dorms at Bridge City. The transfer switch will allow the facility to safely use generator power during an outage and prevent backfeeding.</p>	\$218,511	\$0	\$0	\$0	\$0	\$0	\$218,511

Health & Hospitals Florida Parishes Human Services		from the Office of Behavioral Health’s SGF to be carried forward into FY 12 for the completion of prep work and carpet replacement at the Florida Parishes Human Services Authority’s (FPHSA) inpatient facilities (Alcohol Drug Unit for females and Fontainebleau Treatment Center for males). The current carpets are frayed, torn and/or loose and pose a potential safety hazard. The purchase orders were approved in FY 11 for the prep work on 6/29/2011 (POs 3728099, 3728085, & 3728110), and carpet replacement on 5/24/2011 (POs 3715372 & 3715446) and 6/15/2011 (POs 3723050 & 3723056). Completion of the prep work was delayed due to unforeseen abatement and asbestos problems, and carpet replacement was not completed in FY 11. FPHSA projects the project will be completed by 8/31/2011.							
CF 28 09 - 320 Health & Hospitals Aging & Adult Services		<p>The purpose of this BA-7 request is to carry-forward \$147,499 in the Office of Aging & Adult Services (OAAS); \$124,999 SGR in the Administration, Protection & Support Program and \$22,500 IAT (Title 19 Medicaid funds) for Villa Feliciana Medical Complex.</p> <p><u>Administration, Protection & Support Program</u> The source of SGR are Federal funds from the Tenant Based Rental Assistance (TBRA) Program. TBRA is a rental subsidy program funded by HUD through the LA Housing Finance Agency. The TBRA funds are meant to supplement the Money Follows the Person Demonstration (MFP) Project that assists individuals who are transitioning from institutional care to community living. The TBRA Program helps low-income individuals afford housing costs by providing assistance with security and utility deposits and short-term rent assistance (up to 2 months). A minimum of 100 individuals will receive TBRA assistance. On 6/2/2011, OAAS received approval to contract with Quadel Housing Consultants to oversee the TBRA Program.</p> <p>Quadel contract \$124,999 FY 11 Contract Amount \$ 0 FY 11 Total Payments as of 7/31/10 \$124,999 Amount Remaining</p> <p>\$124,999 SGR Carry-forward from FY 11 Contract \$125,000 FY 12 Contract Amount Appropriated \$249,999 FY 12 Contract Amount w/Carry-forward</p> <p><u>Villa Feliciana Medical Complex</u> Funds will be used to repair the water tower at the facility which was cited by the Office of Public Health during a Sanitary Survey. Repairs include cleaning the exterior of the water tank as well as refinishing the exterior to prevent deterioration of the metal. On 5/18/2011, OAAS placed a bid for the water tower repair. The contract bid was awarded to Preferred Tank</p>	\$0	\$22,500	\$124,999	\$0	\$0	\$0	\$147,499

		and Tower, Inc., a national company, to perform the repairs to the water tower. At this time, the repairs have not been completed in accordance with contract specifications.							
CF 29	09 - 326 Health & Hospitals Public Health	<p>The purpose of this BA-7 request is to carry-forward \$141,210 in the Environmental Health Services Program. The IAT funds are from the Department of Wildlife & Fisheries, Office of Fisheries for implementation of the Seafood Safety Response & Quality Certification Plan. The original source of IAT funds is an agreement for \$18 M over 3 years from British Petroleum (BP) to test for oil, dispersants and other spill-related impacts on seafood as a result of the Deepwater Horizon Oil Spill.</p> <p>As part of the Seafood Safety Response & Quality Certification Plan, the Office of Public Health (OPH) monitors waters from which seafood is harvested for oil exposure and, if necessary, closes harvest waters that may be exposed to oil. OPH collects seafood samples from oysters, shrimp, crab and fish from areas across the LA coast impacted by the oil spill. Also, OPH collects samples of seafood products at LA primary processing plants to ensure that seafood being harvested is safe to eat.</p> <p>Expenditures for this BA-7 request are as follows:</p> <p><u>Acquisitions (\$141,210)</u> To monitor waters and collect seafood for testing of crude oil and dispersants, OPH needs 2 vessels able to maintain and support the dredging process. Additionally, OPH needs 2 vehicles as fleet replacement to collect seafood samples at seafood docks and processing plants. In FY 11, OPH completed purchase orders for 2 boats including motors and trailers (\$80,673) in the Molluscan Shellfish program and 2 vehicles (\$60,537) in the Commercial Seafood program. To date, the boats and vehicles have not been delivered.</p> <p>Boats for the Molluscan Shellfish activity - \$80,673 \$37,944 - Boat w/motor and trailer from Duvic's in Harvey (purchase order - 06/09/2011); and \$42,729 - Boat w/motor and trailer from Duvic's in Harvey (purchase order - 06/09/2011)</p> <p>Vehicles for Commercial Seafood Sanitation activity - \$60,537 \$46,222 - Dodge Ram truck from Southland in Houma (purchase order - 04/07/2011); and \$14,315 - Ford Fusion from Hixson in Alexandria (purchase order - 04/14/2011)</p>	\$0	\$141,210	\$0	\$0	\$0	\$0	\$141,210

<p>The majority of the funds (\$1,076,585) will be for continuing contracts associated with the prevention of re-hospitalization by implementing community-based services in the OBH regions. Clients being de-hospitalized are from the closure of 118 civil inpatient beds at Eastern LA Mental Health System. The release of these patients took longer than anticipated in FY 11 due to the severity of the patients’ mental illnesses (the last 13 patients were released on 6/30/2011). As such, these contracts are needed to help those patients who were released toward the end of FY 11 transition back into the community during FY 12.</p> <p>In addition to the community services contracts, \$32,681 will be needed in FY 12 for the completion of outstanding major repair projects approved in FY 11 for the state’s psychiatric facilities (includes security screens at Southeast LA Hospital, sewage repair at Region 5’s main clinic, fence extension and telephone replacement at East LA Hospital). Lastly, Florida Parishes Human Services Authority (FPHSA) is requesting \$37,703 in IAT from OBH in a companion BA-7 request (agenda #27) for prep work and carpet replacement, which was delayed in FY 11 due to unforeseen abatement problems. DEPARTMENT: Veterans' Affairs

AGENDA NO.: 1

AGENCY: Northwest LA War Veterans' Home

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Northwest LA War Veterans' Home	\$494,856	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$494,856			
Total	<u>\$494,856</u>	Total	<u>\$494,856</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority within the Northwest LA War Veterans' Home in the amount of \$494,856. The increased funding will be received from the U.S. Department of Veterans Affairs. As of 10/1/2010 the U.S. Department of Veterans Affairs increased the federal per diem rate from \$77.53 per day to \$94.59 per day.

The increase in budget authority will be utilized to maintain the current staffing levels and veterans served in the home. Of the \$494,856, \$336,088 will be allocated to salaries and \$158,768 will be allocated to related benefits. The increase in salaries and related benefits is for certified nursing assistants (CNAs) and Psychiatric Aide Supervisors (PASs) that received a Civil Service approved pay increase in February 2010. Although the Special Entrance Rates were approved by the Department of Civil Service on 2/8/2010, the pay increase was not funded in HB 1 during the FY 11 budget development process. The increase in pay for CNAs allowed the Northwest Veterans' Home to decrease turnover rates by offering competitive wages compared to area nursing homes and hospitals. At the end of FY 10, the Northwest LA War Veterans' Home had the highest turnover rate in state agencies at 70.55%. According to the department there was on average, 10-12 vacancies per month. After the pay increase, the department only has 2 vacancies at this time, 1 of which is a CNA position.

Prior to the approved Special Entrance Rates adjustment, CNA 1s were earning \$7.54 per hour, CNA 2s were earning \$8.06 per hour, PAS 1s were earning \$8.87 per hour, and PAS 2s were earning \$10.15 per hour. The increase in wages is noted below:

Position	Prior Wage per hour	New Wage per hour	Increase
CNA 1	\$7.53	\$8.88	\$1.35
CNA 2	\$8.06	\$9.50	\$1.44
PSA 1	\$8.87	\$10.45	\$1.58
PSA 2	\$10.15	\$11.55	\$1.40

Note: The Department of Veterans Affairs determined the potential shortfall in salaries and related benefits after receiving the FY 11 appropriation letters and first submitted this BA-7 in November 2010 for the December 2010 JLCB meeting.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The increase in salaries was annualized and funded in the FY 12 Executive Budget recommendation.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$244,062,538</u>	Total	<u>\$244,062,538</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate additional funds in the Private Provider Program of Medical Vendor Payments by realigning expenditure authority between programs in Medical Vendor Payments to address a projected FY 11 expenditure deficit. In addition, this BA-7 is requesting to appropriate additional budget authority in the Buy-Ins Program of Medical Vendor Payments for incentive payments related to Health Information Technology (HIT). The source of grant funds is the Health Information Technology Grant, which requires no state match.

Based on the March Medicaid Monthly Financial Report, the Department of Health & Hospitals is projecting an overall year end deficit of \$234.2 M in the Private Providers Program in Medical Vendor Payments. The department indicates that an increase in the number of recipients and seasonal influences (influenza/flu) has resulted in an increase in claim expenditures. Based on the latest available enrollment data, Medicaid enrollment has increased by 38,480 (3.04%) from FY 10 to FY 11 (July through March of 2011). This BA-7 requests to increase budget authority by \$221,618,007 in the Private Providers Program (net increase as the result of an increase of \$234.2 M in funding and a transfer of \$12.6 M from Private Providers to the Buy-Ins Program). The department proposes to transfer funding from Public Providers, Buy-Ins and the Uncompensated Care Cost Program to offset the expenditure shortfall. The transfer of SGF will be used to draw down additional federal financial participation in the Private Providers Program. The specific transfer amounts are reflected below:

Public Providers Program:

In FY 11, approximately \$134 M in SGF are appropriated in Medicaid to offset the loss of Disproportionate Share Hospital (DSH) payment reductions (DSH Audit Rule) in LSU hospitals. A portion of these funds, or \$30,055,681, is being requested to be transferred to Private Providers. This SGF will be used as match, and will draw down \$89 M in federal financial participation for private providers.

Buy-Ins & Supplements Program:

This BA-7 request transfers \$20.1 M in 100% SGF from the Buy-Ins Program to the Private Providers Program. These funds represent a surplus in projected "Clawback" payments in FY 11. Clawback payments are required state payments to the federal Medicare Program to cover the cost of dual eligibles (eligible for both Medicaid and Medicare) for Medicare prescription drug coverage offered under Medicare Part D (FY 11 appropriation of \$64,962,538 less FY 11 projected payments of \$44,006,384). This SGF will be used as match, and will draw down approximately \$60.1 M in federal financial participation for private providers.

In addition, this BA-7 proposes to increase Health Information Technology Grant funding in FY 11 in the Buy-Ins Program. In the current year, approximately \$12.6 M in federal grant funding (Health Information Technology Grant) is appropriated in the Private Provider Program. These 100% federal funds represent pass through funds from the federal government to eligible health care providers (such as physicians and Federally Qualified Health Centers) and hospitals to use for the development of electronic health record technology. This BA-7 requests to appropriate this grant program in the Buy-Ins Program, and to increase the budget authority for the Health Information Technology initiative due to an increase in provider request for these federal funds.

\$12,625,000 - HIT FY 11 appropriation transferred from Privates to Buy-Ins

May 18, 2011

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

\$63,600,000 - HIT FY 11 projected additional reimbursements to eligible healthcare providers
 \$76,225,000 - HIT FY 11 Budget Authority requested

Uncompensated Care Costs (UCC) Program:

This BA-7 proposes to transfer approximately \$2.6 M in SGF match from the UCC Program to the Private Providers Program. The source of the match is surplus funds appropriated for Mental Health Emergency Room Extensions (\$1,091,700) and the elimination of funding for Acute Psychiatric Beds (\$1,455,600).

Total Medicaid adjustments are reflected in the table below.

	State	Federal	Total
Private Providers Program:

	<u>(\$2,547,300)</u>	<u>(\$4,452,700)</u>	<u>(\$7,000,000)</u>
TOTAL (ALL BA-7 ADJUSTMENTS):	\$0	\$244,062,538	\$244,062,538

***Note:** The Department of Health and Hospitals earned additional federal matching funds by making early check-write payments. This process allowed the department to draw federal funds at a higher rate with existing state match. By paying some adjudicated claims on December 31st and March 30th (before the weekly check-write payment), the department earned a higher Federal Medical Assistance Percentage than it would have if payments were made in subsequent quarters. As such, this BA-7 is only requesting \$52 M in State General Fund need versus the \$59 M reflected in the Medicaid Monthly Financial Report for the month of March. The additional federal earnings are reflected below, and are used to draw additional federal match.

Private	Pre-paid claim		
Checkwrite:	Amount:	FFP Difference:	Additional Federal Revenue:
12/30/10	\$106,760,152	2.83%(from 81.48% to 78.65%)	\$3,021,312
3/31/11	\$116,283,086	1.88%(from 78.65% to 76.77%)	<u>\$2,186,122</u>
			\$5,207,434
Public	Pre-paid claim		
Checkwrite:	Amount:	FFP Difference:	Additional Federal Revenue:
12/30/10	\$21,264,809	2.83%(from 81.48% to 78.65%)	\$601,794
3/31/11	\$22,876,894	1.88%(from 78.65% to 76.77%)	<u>\$430,086</u>
			\$1,031,880

Note: This BA-7 is based on a projected shortfall projected through March, 2011. The Medicaid Monthly Financial Report for the month of April reflects a greater Private Provider expenditure shortfall than reflected in this BA-7. The projected deficit as of April is \$263,380,133. As such, this BA-7 does not address the total projected expenditure shortfall need. The LFO has requested the department to provide a plan for addressing the additional shortfall.

II. IMPACT ON FUTURE FISCAL YEARS

The transfer of various revenue sources to the Private Providers Program reflected in this BA-7 has not been annualized in the Executive Budget. However, the Executive Budget contains an increase in funding for utilization in the Private Providers

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$169,509,462			
Total	<u>\$169,509,462</u>	Total	<u>\$169,509,462</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$169,509,462. The source of these funds is the Robert T. Stafford Disaster Relief & Emergency Assistance Act from FEMA and are directly related to the Public Assistance Program and the Hazard Mitigation Grant Program. These monies are used to fund the ongoing recovery efforts by state agencies, local governments, and certain non-profits as a result of hurricanes Katrina, Rita, Gustav and Ike. This additional budget authority will be used to reimburse state and local government entities and non-profit organizations.

The original BA-7 request was based upon federal expenditures within the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) as of 3/23/2011. Based upon updated expenditure data as of 5/10/2011, the Legislative Fiscal Office (LFO) has determined GOHSEP needs an additional \$27.3 M in federal authority in FY 11 beyond the requested in the BA-7.

Details on expenditures as per LFO analysis:

Total expended in FY 11 through Tuesday M5/10/2011 (41 weeks) - \$1,083,537,072

Average expenditures per week based on the actual expenditures for 41 weeks - \$26,427,733 per week

Total Expenditures anticipated for remainder of FY 11 (8 weeks) based on the average of 41 weeks - \$211,421,864

Current Budget Authority Remaining (5/10/2011) - \$14,625,867

Total amount recommended by LFO: \$196,795,997

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amended amount of \$196,795,997. Based upon GOHSEP's average federal authority expenditures per week of \$26.4 M, LFO is recommending approval of this BA-7 request at \$27.3 M more than the original request.

Total	<u>\$182,380,873</u>	Total	<u>\$182,380,873</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$182,380,873. The source of these funds is the Robert T. Stafford Disaster Relief & Emergency Assistance Act from FEMA and are directly related to the Public Assistance Program and the Hazard Mitigation Grant Program. These monies are used to fund the ongoing recovery efforts by state agencies, local governments, and certain non-profits as a result of hurricanes Katrina, Rita, Gustav and Ike. This additional budget authority will be used to reimburse state and local government entities and non-profit organizations.

Details on expenditures as per LFO analysis:

Total expended in FY 11 through Tuesday 5/10/2011 (44 weeks) - \$1,083,537,072

Average expenditures per week based on the actual expenditures for 44 weeks - \$24,625,843 per week

Total Expenditures anticipated for remainder of FY 11 (8 weeks) based on the average of 41 weeks - \$197,006,740

Current Budget Authority Remaining (5/10/2011) - \$14,625,867

Total amount recommended by LFO: \$182,380,873

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

AGENDA NO.: 4

AGENCY: LA Property Assistance Agency

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Property Assistance	\$2,468,514	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$2,468,514			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,468,514</u>	Total	<u>\$2,468,514</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the LA Property Assistance Agency (LPAA) related to the sale of 28 generators, 22 pieces of equipment from the recently closed LSU Print Shop, sale of various equipment from the recently closed Department of Environmental testing laboratory in Baton Rouge, the sale of various other surplus state property and the anticipated sale of surplus property for the remainder of the fiscal year.

Revenues generated from the auction of state property accrues to either the selling agency or the LPAA, depending upon the original funding source used for the purchase of such property. If the property was purchased with federal grant funds, SGR or Statutory Dedications, the LPAA typically receives 20% of the proceeds, while the selling agency receives 80%. If the property was purchased with SGF, the LPAA receives the full amount generated from the auction.

The LPAA did not anticipate the need to reimburse the aforementioned agencies for these transactions. The agency's budget is typically based on historical collections. Therefore, this BA-7 request will increase the agency's SGR budget authority to allow such reimbursement.

The requested increase in SGR budget authority is \$2,468,514 and is determined as follows:

\$568,435 - Represents the Department of Natural Resources' auction proceeds related to the sale of 28 generators originally purchased post Hurricane Gustav.

\$105,000 - Represents LSU's auction proceeds related to the sale of 22 pieces of equipment from the now closed Print Shop on the Baton Rouge Campus.

\$816,066 - Represents the Department of Environmental Quality's auction proceeds related to the sale of 374 lots (pieces of equipment) from the closure of the DEQ environmental testing lab in Baton Rouge.

\$629,589 - Represents invoices due from the sale of surplus items from various state agencies.

\$349,424 - Represents projected additional regular monthly reimbursements anticipated from April 2011 - June 2011.

\$2,468,514 - Total

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

NOTE: Over the past 3 fiscal years, this agency has expended an average of approximately \$7.6 M (FY 08 - \$7 M, FY 09 - \$7.2 M, FY 10 - \$8.7 M). The recommended FY 12 amount for this agency in SGR is approximately \$4.7 M.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$115,000,000</u>	Total	<u>\$115,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate additional SGR budget authority in the amount of \$115 M in order to pay projected medical claims payments from May 2011 until the end of the current fiscal year, FY 11. The current FY 11 budget is currently \$1,163,732,131.

OGB originally requested in its FY 11 budget request total budget authority of \$1,381,507,723. However, its FY 11 total appropriated amount was approximately \$217.8 M less than requested, or \$1,163,732,131. Based upon current expenditure projections by Buck Consulting (OGB's contract actuary), OGB's anticipated FY 11 expenditures are \$1,223,828,000, which is approximately \$60.1 M more than current existing operating budget.

<u>Current FY 11 EOB</u>	<u>FY 11 Projected Expenditures</u>	<u>Additional authority needed</u>
\$1,163,732,131	\$1,223,828,000	\$60,095,869

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Note: OGB's FY 12 budget recommendation is currently \$1,271,885,476.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends reducing the requested BA-7 from \$115 M to \$60.1 M due to the latest expenditures projections provided by OGB's contract actuary presented 5/4/2011 to OGB's board.

Total	<u>\$9,275,878</u>	Total	<u>\$9,275,878</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate approximately \$9.3 M in Federal funds within the Office of Group Benefits (OGB) from the Early Retiree Reinsurance Program (ERRP). ERRP is a federal program authorized within the Affordable Care Act that provides reimbursement to participating employment-based plans for a portion of the cost of health benefits for early retirees and early retirees' spouses, surviving spouses and dependents. The program will reimburse 80% of certain health claims between \$15,000 to \$90,000 cumulative over a health plan year per eligible OGB member. Congress appropriated \$5 B for this program and by federal law the plan expires on 1/1/2014 or when the \$5 B is exhausted.

Per the published federal rules (*Federal Register, Volume 75, No. 86, published Wednesday 5/5/2010*), this program seeks to address the erosion in the number of employers providing health coverage to early retirees. Per the federal guidelines an early retiree is defined as an individual that: 1.) is age 55 or older; 2.) is not eligible for Medicare coverage; 3.) is not an active employee of the employer maintaining, or contributing to the maintenance of the plan; and 4.) is enrolled in health benefits in a certified employment-based plan.

OGB will only be allowed to utilize the federal funds for: 1.) Reducing the sponsor's health benefit premiums or health benefit costs; 2.) Reducing health benefit premium contributions, copayments, deductibles, coinsurance or other out-of-pocket costs for plan participants; and 3.) Reduce a combination of these various costs. Due to OGB's health premiums remaining constant in FY 11 and not being increased by the actuarially recommended 3.7%, the OGB anticipates utilizing these federal funds to offset medical claims cost growth in the budget that would otherwise require a premium increase of the employer (state) and employee (individual) portions.

OGB received grant approval in May 2010 and has already drawn \$9,275,878 in federal grant funds associated with this program for claims payments made for this population in June 2010 (\$6.1 M received in November 2010) and for claims payments made for this population from July 2010 - January 2011 (\$3.2 M received in February 2011). The federal government temporarily closed the ERRP program on Friday May 6, 2011. OGB anticipates submitting an application for reimbursement for its eligible expenditures subsequent to January 2011 expenditures in August 2011. The specific amount of the reimbursement is unknown at this time. To the extent there are still federal funds remaining, OGB estimates the reimbursement to be at a minimum approximately \$24 M. To date, there is approximately \$2.5 B remaining within the ERRP program.

For illustrative purposes, incurred claims for the OGB program for the eligible reimbursement population (those defined as early retirees not eligible for medicare) in FY 10 (7/1/2009 - 6/30/2010) were approximately \$73.6 M of which 80% of these claims paid equates to approximately \$58.9 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. These are one-time federal funds available in FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Justice

AGENDA NO.: 7

AGENCY: Attorney General

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Civil Law	\$0	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$20,274	0
Statutory Dedications:	\$20,274	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$20,274</u>	Total	<u>\$20,274</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Department of Justice (DOJ) is requesting approval to add \$20,274 of Statutory Dedications from the Insurance Fraud Investigation Fund to its budget. The requested funding is the unappropriated fund balance remaining in the Statutory Dedication that is available to the DOJ. The funding will be utilized to provide for replacement of an existing computer storage area network (SAN). The agency reports that its existing SAN system is aging and that finding replacement parts is costly and difficult. The agency further states that it is only able to buy refurbished or used parts. The ability to find parts in the future is expected to become even more difficult.

Because of unanticipated expenditure needs related to the flooding of the Mississippi River, the agency does not have adequate funding to provide for purchase of the computer hardware included in this BA-7 request. The agency is using its existing budget to provide for the unanticipated expenditures related to the Mississippi River flooding. The agency estimates that it will incur approximately \$355,093 in expenditures because of activities related to the Mississippi River flooding. The unanticipated expenditures include overtime (\$289,690), fuel (\$31,000), command center generators (\$26,403), and supplies (\$8,000).

Act 1312 of 1999 created the Insurance Fraud Investigation Fund for the cost of investigation, enforcement and prosecution of insurance fraud in this state. Revenues generated in this fund come from fees directly assessed on premiums received by each insurer licensed by the Department of Insurance (DOI). The DOI currently collects this assessment. The following allocation percentages set in statute are as follows: 1.) 75% of fees collected are allocated to the Insurance Fraud Investigation Unit within State Police (DPS&C); 2.) 15% of fees collected are allocated to the Insurance Fraud Support Unit within the Department of Justice (DOJ); 3.) 10% is allocated to the DOI. Act 1013 of 2010 adds the LA Automobile Theft and Insurance Fraud Prevention Authority (LATIFPA) to receive \$187,000 prior to the statutorily allotted amounts to DOJ, DOI and DPS&C.

Prior to enactment of Act 1013 of 2010, all unexpended and unencumbered monies in the fund at the end of the fiscal year remained in the fund. Act 1013 changed this requirement and instead provides that all unexpended and unencumbered monies at the end of the fiscal year be refunded to each insurer who paid into the fund based on each insurer's proportionate share of the fee collected. According to the Treasury, \$21,318 of DOJ's unexpended revenue remained in the fund at the end of FY 09 and \$43,662 of unexpended revenue remained in the fund at the end of FY 10.

Note: The DOJ's 5-year historical appropriated amount from the Insurance Fraud Investigation Fund include: FY 11 - \$560,576, FY 10 - \$498,469, FY 09 - \$498,469, FY 08 - \$472,757, and FY 07 - \$436,323.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 8

AGENCY: Recovery School District

ANALYST: Alan M. Boxberger

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	RSD-Instructional	\$59,009	0
Interagency Transfers:	\$0	RSD-Construction	\$0	0
Self-Generated Revenue:	\$59,009			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$59,009</u>	Total	<u>\$59,009</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR by \$59,009 in the Recovery School District to receive grant funds for the Investing in Innovation (i3) Program. Approximately \$28 M from the U.S. Department of Education was awarded for a 5-year grant to New Schools for New Orleans (NSNO), the Recovery School District (RSD), and the Achievement School District (ASD) of Tennessee. There is a 20% match required (\$5.6 M). NSNO secured the required match for the grant from the private sector.

New Schools for New Orleans is a nonprofit organization with a vision to attract talented teachers to New Orleans, support open-enrollment public charter schools, and advocate for accountable and sustainable high-quality public schools in New Orleans. According to NSNO (the lead applicant of the grant), the award will be used to build the capacity to annually turn around the lowest performing 5% of schools in New Orleans. Specifically, the grant is to expand the implementation of and investment in, innovative practices that are demonstrated to have an impact on improving student achievement or student growth, closing achievement gaps, decreasing dropout rates, increasing high school graduation rates, or increasing college enrollment and completion rates. The charter school model will be used to aid in the transformation of a failing school. The RSD will identify failing schools in New Orleans based on the state's definition of an academically unacceptable school and work with NSNO to identify charter operators with a proven track record to turn the schools around. The schools the RSD will choose to work with will be identified by July of 2011.

Of the \$33.6 M (\$28 M grant plus \$5.6 M match), approximately 44% will go to charter operators in New Orleans, 18% will go to charter operators in Tennessee (none of the \$59,009 requested in this BA-7 will go to Tennessee), 24% will fund the required personnel at NSNO, RSD and ASD who will ensure the grant is implemented successfully and in compliance with federal regulations, and the remaining funding will go to an independent, 3rd party external evaluator to assess the charter operator performance for initial award purposes and to provide ongoing reporting.

Approval of this BA-7 will provide for 1-1/2 months of expenditures in FY 11. The annualized amount of the grant award totaling \$1.2 M has been included in the executive budget recommendation for FY 12. The expenditures will be budgeted as follows:

\$36,968 Other Compensation
\$11,091 Related Benefits
\$10,950 Supplies
\$59,009 TOTAL

The other compensation funding will be used to pay a portion of expenses for 4 existing employees and 1 new employee (communications). The new position will provide community outreach services and will be used to offset increased workload as a result of these grant activities. The following will be used for each employee: RSD Deputy Superintendent - \$8,750, Chief of Staff - \$8,750, administrative assistant - \$5,875, and 2 communications positions - \$7,968 and \$5,625.

The related benefits is calculated at 30% of the requested other compensation amount.

May 18, 2011

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

The supplies funding will be used to purchase laptops (5 laptops at \$1,500 each), docking stations, monitors for the docking stations, color printers, and carrying cases. The RSD will also purchase supplies for hosting community/parent information sessions in New Orleans (3 events per year) and \$150 in marketing materials to distribute to the community.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period is 5 years, but the allocations for years 2 through 5 have not been finalized by New Schools of New Orleans. Therefore, expenditures in subsequent fiscal years are not known at this time. If funding is not available beyond the grant period, one of the communications positions will not continue employment in the RSD.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$776,706</u>	Total	<u>\$776,706</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR by \$776,706 in the Recovery School District to receive grant funds for the Teacher Incentive Fund (TIF) Program. Approximately \$13.17 M from the U.S. Department of Education was awarded to New Schools for New Orleans (NSNO) for a 5-year grant. New Schools for New Orleans is a nonprofit organization with a vision to attract talented teachers to New Orleans, support open-enrollment public charter schools, and advocate for accountable and sustainable high-quality public schools in New Orleans. NSNO was awarded the grant to implement the TIF Program through a partnership with the Recovery School District (RSD), Knowledge is Power Program (KIPP) New Orleans Schools, ReNEW Charter Management Organization and FirstLine Schools. There are no matching funds required of the Recovery School District.

The TIF Program aligns performance pay with meaningful evaluations, highly effective professional development, and teacher career advancement. Teachers and leaders will be measured annually along several criteria, including student value-added growth and school and classroom observations. Teachers who have demonstrated significant student achievement growth can be promoted to leadership roles and receive supplemental compensation. These master teachers and mentor teachers will be responsible for coordinating the program and providing guidance and professional development to other teachers in their schools.

The funds received by the Recovery School District will be budgeted in other compensation (\$718,837) for existing employees and related benefits (\$57,869). Approval of this BA-7 will provide for 1-1/2 months of expenditures in FY 11. The annualized amount of the grant award totaling \$2.2 M has been included in the executive budget recommendation for FY 12.

The other compensation expenditures are broken out as follows:

\$ 9,375 for an Executive Master Teacher
\$ 3,500 for 4 RSD liaisons (work with NSNO to guide the implementation of the performance based incentive system)
\$705,962 for performance awards (awards for teachers based on the impact on each of their students - based on complex formula - the average per teacher is \$2,500, per assistant principal \$5,000, and per principal \$10,000)

The related benefits expenditures are as follows:

\$ 3,863 - The liaisons and Executive Master Teacher are calculated at 30%
\$54,006 - The benefits on the performance awards covers Social Security (6.2%) and Medicare (1.45%).

Note: A BA-7 was approved in October 2010 for the Department of Education and several school districts to receive \$36.5 M in funding over 5 years for the TIF Program. This BA-7 request is a separate allocation of funding that was awarded to NSNO to implement the same TIF Program activities in RSD schools in New Orleans.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period is 5 years, but the allocations for years 2 through 5 have not been finalized by New Schools of New Orleans.

prioritize funding for programs so they can continue to provide salary augmentations and performance awards to eligible employees after the grant period expires. Employees are evaluated annually to determine if they are eligible to receive any performance awards or salary augmentations. If funding is not available beyond the grant period, salary augmentations and performance awards will not be granted.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 10

AGENCY: Office of Fisheries

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fisheries	\$0	0
Interagency Transfers:	\$0	Marketing	\$479,909	0
Self-Generated Revenue:	\$479,909			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$479,909</u>	Total	<u>\$479,909</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$479,909 in the LA Seafood Promotion and Marketing Board in order to receive funds from British Petroleum (BP) via the LA Wildlife & Fisheries Foundation. In November 2010 the Department of Wildlife & Fisheries entered into an agreement with BP in order to develop and implement a Seafood Marketing Program. The total amount of the agreement is \$30 M. Of the \$30 M, \$12,418,263 will be expended by the LA Seafood Promotion and Marketing Board and reimbursed by the Foundation over 3 years. The remainder of the \$30 M (\$17,581,737) will be paid directly by the Foundation to contractors and vendors hired by the Board for marketing services.

The LA Seafood Promotion & Marketing Board was created in 1984 and has a staff of 4 that assist the commercial fisheries industry through product promotion and market development. The Seafood Marketing Program is intended to address seafood markets and support market industries by repairing the brand damage to the LA seafood industry, regaining market share, and changing national perception of the LA seafood industry as a result of the Deepwater Horizon event in the Gulf of Mexico.

Expenditures will be budgeted as follows:

Salaries - \$20,000 (overtime for 4 staff members)
Other Compensation - \$5,773 (1 job appointment - administrative coordinator)
Related Benefits - \$3,160 (retirement, Medicare, insurance)
Travel - \$42,500 (in-state travel for conferences, conventions and trade shows, out-of-state travel for events and trade shows)
Operating Services - \$238,500 (direct media placements, printing of promotional items, rental expenses for events, postage)
Supplies - \$67,526 (office supplies, computer supplies, educational supplies and food products for events, film and video supplies)
Other Charges - \$93,750 (sponsorships for local, domestic, and international events)
Acquisitions - \$8,700 (laptop computer, printer, desk, chairs, bookcase)

The above amounts are estimated. On May 9, GCR and Associates, Inc. of New Orleans was selected as the lead marketing agency, teaming with the Graham Group of Lafayette and The Food Group of New York.

II. IMPACT ON FUTURE FISCAL YEARS

Funding in subsequent years will be \$6,382,629 (FY 12), \$4,044,075 (FY 13), and \$1,511,650 (FY 14). Expenditures in subsequent years will be an extension of those incurred in the current year. The funds associated with this BA-7 request are not currently included in the FY 12 Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

May 18, 2011

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Executive

AGENDA NO.: 11

AGENCY: Division of Administration

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive Administration	\$17,900,000	0
Interagency Transfers:	\$0	Community Dev Block Grant	\$0	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$17,900,000			
Federal Funds:	\$0			
Total	<u>\$17,900,000</u>	Total	<u>\$17,900,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$17.9 M for preventative and protective measures related to the Mississippi River Flood event. The source of funds includes \$15.3 M in unexpended FEMA Reimbursement Fund monies currently appropriated in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) and approximately \$2.6 M from the FY 11 unappropriated State Emergency Response Fund (SERF) fund balance.

According to the Division of Administration (DOA), agencies have expended approximately \$9.1 M to date on various expenditures related to the Mississippi River Flood event. Approval of this BA-7 will provide state agencies with the necessary cash flow to the end of the fiscal year. The DOA is projecting 30-day expenditures of approximately \$88 M for the flood event. To the extent the state receives disaster assistance funds from FEMA as a result of this event, the state will be responsible for a 25% match. These funds will provide the state match up to a maximum event expenditure of \$71.6 M ($0.25 \times \$71.6 \text{ M} = \17.9 M). To the extent total event expenditures exceed \$71.6 M, it not known at this time how the additional state match will be paid.

R.S. 39:100.26 provides for the commissioner of administration to transfer monies from the FEMA Reimbursement Fund to the State Emergency Response Fund (SERF) with approval by the Joint Legislative Committee on the Budget (JLCB). Appropriated within GOHSEP in FY 11 is \$15,287,189 FEMA Reimbursement Fund. To date, GOHSEP has not expended any of these funds. Due to the statutory provisions in R.S. 39:100.26, upon approval of JLCB, the commissioner of administration will transfer \$15,287,189 from the FEMA Reimbursement Fund into SERF, while the remaining \$2,612,811 of the requested \$17.9 M will come from the existing FY 11 unappropriated fund balance within SERF, which is currently \$2.7 M.

II. IMPACT ON FUTURE FISCAL YEARS

Upon approval of this BA-7, the FY 11 projected unappropriated fund balance within SERF will be approximately \$130,000 and the FY 11 projected unappropriated fund balance within the FEMA Reimbursement Fund will be approximately \$41 M.

HB 477 - Original (Funds Bill) provides for the state treasurer to transfer \$41,022,977 from the FEMA Reimbursement into the Overcollections Fund (effective 7/1/2011), which effectively removes any remaining fund balance of this fund. In addition, included within HB 1 - Original is a \$1 M appropriation from SERF within the Division of Administration. Upon approval of this BA-7, without additional monies being deposited into SERF, there will not be enough cash within this fund to provide for this FY 12 appropriation. There will be approximately \$130,000 remaining within SERF.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Justice

AGENDA NO.: 2

AGENCY: Attorney General

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Civil Law	\$0	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$27,900	0
Statutory Dedications:	\$27,900	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$27,900</u>	Total	<u>\$27,900</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Department of Justice (DOJ) is requesting approval to add \$48,174 of Statutory Dedications from the Insurance Fraud Investigation Fund to its budget. The requested funding is the unappropriated fund balance remaining in the statutory dedication that is available to the DOJ. Because of an increase in the volume of cases and an increase in the number of trials scheduled in FY 11, the agency states its existing budget authority is inadequate.

Act 1312 of 1999 created the Insurance Fraud Investigation Fund for the cost of investigation, enforcement and prosecution of insurance fraud in this state. Revenues generated in this fund come from fees directly assessed on premiums received by each insurer licensed by the Department of Insurance (DOI). The DOI currently collects this assessment. The following allocation percentages set in statute are as follows: 1) 75% of fees collected are allocated to the Insurance Fraud Investigation Unit within State Police (DPS); 2) 15% of fees collected are allocated to the Insurance Fraud Support Unit within the Department of Justice (DOJ); and 3) 10% is allocated to the DOI. Act 1013 of 2010 adds the LA Automobile Theft & Insurance Fraud Prevention Authority (LATIFPA) to receive \$187,000 prior to the statutorily allotted amounts to DOJ, DOI and DPS.

Prior to enactment of Act 1013 of 2010, all unexpended and unencumbered monies in the fund at the end of the fiscal year remained in the fund. Act 1013 changed this requirement and instead provides that all unexpended and unencumbered monies at the end of the fiscal year be refunded to each insurer who paid into the fund based on each insurer's proportionate share of the fee collected. According to the Treasury, \$21,318 of DOJ's unexpended revenue remained in the fund at the end of FY 09 and \$43,662 of unexpended revenue remained in the fund at the end of FY 10.

The requested funding will be utilized to provide for the following expenditures:

\$6,400 – instate travel for increased case volume and for 5 outstanding cases with trials scheduled in Caddo, Lafayette, Orleans, and Rapides parishes

\$1,200 - online subscription for investigative background checks

\$6,500 - fuel

\$13,800 - replacement computer server (cost allocated portion to the DOJ Insurance Fraud Section)

\$12,924 - replacement computers, printers, and projector

\$5,250 – updated law library materials (West's LA Statutes, 2011 Compacted, McCormick on Evidence, 6th and LA Criminal Trial Practice 4th)

\$2,100 - brochures (printing costs)

\$48,174 - Total

NOTE: The DOJ's 5-year historical appropriated amount from the Insurance Fraud Investigation Fund include: FY 11 - \$532,676, FY 10 - \$498,469, FY 09 - \$498,469, FY 08 - \$472,757, FY 07 - \$436,323. To the extent the proposed BA-7 is approved based upon the LFO recommended amount of \$27,900, the FY 11 appropriated amount from this fund will be \$560,576, which is \$62,107 more than what was appropriated in FY 10.

II. IMPACT ON FUTURE FISCAL YEARS

Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$188,755</u>	Total	<u>\$188,755</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is an after the fact BA-7.

The purpose of this BA-7 request is to increase the statutory dedication budget authority from the Department of Justice Debt Collection Fund in the amount of \$188,755. Based upon its current expenditure projections, the DOJ Debt Collection Fund is projected to over expend its existing operating budget. The projected over expenditure is due to the following: 1) a 43% increase in the number of debt collection cases; and 2) technical adjustment that reduced the DOJ Debt Collection Fund appropriation approximately \$109,000 during the FY 11 budget process.

The Office of Student Financial Assistance (OSFA) is no longer utilizing private collection agencies and is sending all of its collections cases to the DOJ. The DOJ utilizes wage employees (non-T.O. positions) for debt collection activities and in order to handle the increased collection cases sent by OSFA, the DOJ hired 4 additional collectors and subsequently overspent its budgeted expenses for wage employees by approximately \$120,000 (FY 10 - 8 collectors, FY 11 - 12 collectors). According to the agency, overall debt collection cases have increased from 15,797 in FY 10 to 27,763 in FY 11 (to date). If this BA-7 is not approved, the agency will have to reduce an unknown number of its 12 current collection employees (wage employees). The agency's current budget includes \$1,153,913 from the DOJ Debt Collection Fund and as of April 2011, the agency had expended approximately \$900,000 from this fund.

The requested funding will be budgeted as follows:

\$131,521	other compensation (wages)
\$54,140	state retirement contribution
\$778	FICA
<u>\$2,316</u>	Medicare
\$188,755	Total

Revenue within the DOJ Debt Collection Fund is derived from monies received by the attorney general from a state agency as compensation for debt collection activities undertaken by the attorney general to pursue debt owed. Debt collection activities are performed in accordance with the terms of a written agreement between the agency and the attorney general. Compensation to the attorney general for debt collection is limited by statute not to exceed 25% of the total monies recovered pursuant to the agreement. DOJ has a contract in place with OSFA to perform collection activities for 9%-10% of the monies it collects. Any unencumbered and unexpended monies remain in the fund. The agency is projecting to collect approximately \$1.4 M in FY 11, which is approximately \$300,000 more than its 3-year historical average of collections (\$1.1 M). To the extent this BA-7 is approved, there will be approximately \$264,028 unappropriated FY 11 fund balance remaining (see calculations below).

\$1,400,000	FY 11 Projected Revenue
<u>\$206,696</u>	FY 10 Fund balance + interest earned to-date
\$1,606,696	FY 11 Total Revenue Available

(\$1,153,913) LESS: FY 11 Existing Operating Budget (EOB)

Total	<u>\$1,080,697</u>	Total	<u>\$1,080,697</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to provide federal budget authority associated with 2 federal grants to Other Requirements - Agriculture & Forestry Funds, for pass-through items to regional food banks and a grant applicant for Forest Legacy funds.

The first grant is associated with The Emergency Food Assistance Program (TEFAP) in the amount of \$580,697. These funds will flow through to the regional food banks for costs associated with the administration and distribution of food commodities to local food banks. TEFAP is a federal program that provides funding for emergency food and nutrition assistance to help supplement the diets of low-income, needy persons and the elderly. The LA Department of Agriculture and Forestry administers this program for the state of LA. The amount allocated to the state is calculated by the U. S. Department of Agriculture, Food & Nutrition Service Program using a formula based on state unemployment and poverty levels. A minimum of 40% of the funds must be passed-through or expended on behalf of Emergency Feeding Organizations and states must match any funds retained for other uses. LA passes 100% of funds received to regional food banks. The types of food purchased by USDA for this program include: canned fruits, canned vegetables, fruit juice, dried egg mix, meat/poultry/fish, dried beans, pasta products, peanut butter, rice/grits/cereal, and soups.

The TEFAP program is currently funded at \$1.01 M. This increase in budget authority will fund the program at \$1,590,697 for FY 11.

The second grant is a Forest Legacy Administration grant from the U. S. Department of Agriculture, Forest Service, Southern Region in the amount of \$500,000. The Forest Legacy Program (FLP) supports state efforts to protect environmentally sensitive forest lands. The program focuses on the acquisition of partial interests in privately owned forest lands. The FLP helps states to develop and carry out forest conservation plans. It encourages and supports acquisition of conservation easements, legally binding agreements transferring a negotiated set of property rights from one party to another without removing the property from private ownership. This request will fund the sole approved applicant for this grant period, LA State University, to add acreage to Lee Memorial Forest in Washington Parish.

The expenditures associated with this BA-7 request are budgeted into the Other Charges category.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Total	<u>\$132,144</u>	Total	<u>\$132,144</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to provide additional federal budget authority in the amount of \$132,144 to the LA Department of Agriculture & Forestry (LDAF) for activities related to 4 new federal grant awards. These grant activities are associated with public health and safety services.

The first grant is awarded by the United States Department of Agriculture (USDA), Animal & Plant Health Inspection Service (APHIS), for activities relative to the federal Scrapie Program in the amount of \$83,000. Scrapie is a fatal disease found in sheep and goats. The general purpose of the grant is to provide for the dissemination of information, identification compliance and genotyping activities relative to the federal Scrapie Program.

The second grant is also awarded by the USDA, APHIS, for activities relative to Viral Hemorrhagic Septicemia (VHS), a fatal viral infection of certain species of fish, in the amount of \$35,000. The purpose of the grant is to provide for the communication, disease management and surveillance activities relative to the federal VHS program.

The third grant is awarded by the USDA, Food & Nutrition Service (FNS), for reimbursement of state administrative expenses in the amount of \$206,000. The department requires an additional \$4,182 in budget authority over its existing appropriation in order to cover current year expenditures for this grant. State administrative expenses are awarded annually to states for those administrative costs incurred at the state and local level for operation of the food distribution program. The LDAF passes through all state administrative expense funds to the regional food banks.

The final grant is awarded by the Food & Drug Administration (FDA) for activities related to the state's participation in the Food Protection Task Force in the amount of \$9,962. This 5-year grant is to provide for implementation of a task force on food protection to enhance communication and cooperation within states among state, local, and tribal food protection, public health, agricultural and regulatory agencies. The purpose of the task force should be to: provide a forum for all stakeholders of the food protection system; assist in adopting or implementing the food code and other food protection regulations; and to promote the integration of an efficient statewide food protection/defense system.

The expenditures will be budgeted as follows:

Management & Finance Program

Supplies \$ 25,195 (indirect cost reimbursement for administration of grants)

Animal Health a& Food Safety Services Program

Travel \$5,800 (Reimbursement for travel costs associated with grant related meetings and conferences)
Operating Services \$21,100 (Lab Testing as specified in workplans to LSU School of Veterinary Medicine - Services)
Supplies \$57,049 (Testing, sampling and laboratory equipment and supplies)
Other Charges \$23,000 (Lab equipment used for testing and incubation, public outreach and education)
Total **\$106,949**

Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to execute a means of finance swap between IAT and SGR by \$16,042 for funds to be received from Pathways Community Behavioral Healthcare, Inc. Pathways will provide funds to supplement the cost of Special School Districts' (SSD) personnel at Greenwell Springs Treatment Center. The SSD personnel provide educational services to adolescents receiving chemical dependency treatment in The Springs of Recovery Adolescent Substance Abuse Program. Specifically, SSD is responsible for providing: general education services, special education and related services, pupil appraisals, evaluations, Individualized Education Program (IEP) development and facilitation, and monitoring and reporting of SSD operations within the treatment program. This funding adjustment is prorated to reflect expenditures through the remainder of FY 11. The annual contract amount is \$77,000.

These funds were previously sent to SSD through interagency agreements with The Office of Addictive Disorders. That office recently privatized the operations of Greenwell Springs Treatment Center and the facility is now operated by Pathways Community Behavioral Healthcare, Inc. Budget authority is required in SGR in order to maintain the activities described in the existing contract with Pathways.

The expenditures are budgeted as follows:

\$11,247 Salaries
\$ 4,795 Related Benefits
\$16,042 TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The SSD will need to change the means of finance for the annual contract amount of \$77,000 from IAT to SGR in FY 12.

Self-Generated Revenue:	\$787,864			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$787,864</u>	Total	<u>\$787,864</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR by \$787,864 in the Recovery School District to receive grant funds for the Teacher Incentive Fund (TIF) Program. Approximately \$13.17 M from the US Department of Education was awarded to New Schools for New Orleans (NSNO) for a 5-year grant. New Schools for New Orleans is a nonprofit organization with a vision to attract talented teachers to New Orleans, support open-enrollment public charter schools, and advocate for accountable and sustainable high-quality public schools in New Orleans. NSNO was awarded the grant to implement the TIF Program through a partnership with the Recovery School District (RSD), Knowledge is Power Program (KIPP) New Orleans Schools, ReNEW Charter Management Organization and FirstLine Schools. There are no matching funds required of the Recovery School District.

The TIF Program aligns performance pay with meaningful evaluations, highly effective professional development, and teacher career advancement. Teachers and leaders will be measured annually along several criteria, including student value-added growth and school and classroom observations. Teachers who have demonstrated significant student achievement growth can be promoted to leadership roles and receive supplemental compensation. These master teachers and mentor teachers will be responsible for coordinating the program and providing guidance and professional development to other teachers in their schools.

The funds received by the Recovery School District will be budgeted in other compensation (\$727,420) for existing employees and related benefits (\$60,444). Approval of this BA-7 will provide for 2-1/2 months of expenditures in FY 11. The annualized amount of the grant award totaling \$2.2 M has been included in the executive budget recommendation for FY 12.

The other compensation expenditures are broken out as follows:

\$ 15,625 for an Executive Master Teacher

\$ 5,833 for 4 RSD liaisons (work with NSNO to guide the implementation of the performance based incentive system)

\$705,962 for performance awards (awards for teachers based on the impact on each of their students - based on complex formula - the average per teacher is \$2,500, per assistant principal \$5,000, and principal \$10,000)

The related benefits expenditures are as follows:

\$ 6,438 - The liaisons and Executive Master Teacher are calculated at 30%

\$54,006 - The benefits on the performance awards covers Social Security (6.2%) and Medicare (1.45%).

NOTE: A BA-7 was approved in October 2010 for the Department of Education and several school districts to receive \$36.5 M in funding over 5 years for the TIF Program. This BA-7 request is a separate allocation of funding that was awarded to NSNO to implement the same TIF Program activities in RSD schools in New Orleans.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period is 5 years, but the allocations for years 2 through 5 have not been finalized by New Schools of New Orleans. Therefore, expenditures in subsequent fiscal years are not known at this time. The Recovery School District intends to

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
DEFERRED By JLCB**

employees after the grant period expires. Employees are evaluated annually to determine if they are eligible to receive any performance awards or salary augmentations. If funding is not available beyond the grant period, salary augmentations and performance awards will not be granted.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE

DEFERRED By JLCB

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 9

AGENCY: Recovery School District

ANALYST: Alan M. Boxberger

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	RSD-Instructional	\$91,049	0
Interagency Transfers:	\$0	RSD-Construction	\$0	0
Self-Generated Revenue:	\$91,049			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$91,049</u>	Total	<u>\$91,049</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR by \$91,049 in the Recovery School District to receive grant funds for the Investing in Innovation (i3) Program. Approximately \$28 M from the U.S. Department of Education was awarded for a 5-year grant to New Schools for New Orleans (NSNO), the Recovery School District (RSD), and the Achievement School District (ASD) of Tennessee. There is a 20% match required (\$5.6 M). NSNO secured the required match for the grant from the private sector.

New Schools for New Orleans is a nonprofit organization with a vision to attract talented teachers to New Orleans, support open-enrollment public charter schools, and advocate for accountable and sustainable high-quality public schools in New Orleans. According to NSNO (the lead applicant of the grant), the award will be used to build the capacity to annually turn around the lowest performing 5% of schools in New Orleans. Specifically, the grant is to expand the implementation of and investment in, innovative practices that are demonstrated to have an impact on improving student achievement or student growth, closing achievement gaps, decreasing dropout rates, increasing high school graduation rates, or increasing college enrollment and completion rates. The charter school model will be used to aid in the transformation of a failing school. The RSD will identify failing schools in New Orleans based on the state's definition of an academically unacceptable school and work with NSNO to identify charter operators with a proven track record to turn the schools around. The schools the RSD will choose to work with will be identified by July 2011.

Of the \$33.6 M (\$28 M grant plus \$5.6 M match), approximately 44% will go to charter operators in New Orleans, 18% will go to charter operators in Tennessee (none of the \$91,049 requested in this BA-7 will go to Tennessee), 24% will fund the required personnel at NSNO, RSD and ASD who will ensure the grant is implemented successfully and in compliance with federal regulations, and the remaining funding will go to an independent, 3rd party external evaluator to assess the charter operator performance for initial award purposes and to provide ongoing reporting.

Approval of this BA-7 will provide for 2-1/2 months of expenditures in FY 11. The annualized amount of the grant award totaling \$1.2 M has been included in the executive budget recommendation for FY 12. The expenditures will be budgeted as follows:

\$61,615 Other Compensation
\$18,484 Related Benefits
\$10,950 Supplies
\$91,049 TOTAL

The other compensation funding will be used to pay a portion of 4 existing employees and 1 new employee (communications). The new position will provide community outreach services and will be used to offset increased workload as a result of these grant activities. The following will be used for each employee: RSD Deputy Superintendent - \$14,584, Chief of Staff - \$14,583, administrative assistant - \$9,792, and 2 communications positions - \$13,281 and \$9,375.

The related benefits is calculated at 30% of the requested other compensation amount.

April 13, 2011

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
DEFERRED By JLCB**

The supplies funding will be used to purchase laptops (5 laptops at \$1,500 each), docking stations, monitors for the docking stations, color printers, and carrying cases. The RSD will also purchase supplies for hosting community/parent information sessions in New Orleans (3 events per year) and \$150 in marketing materials to distribute to the community.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period is 5 years, but the allocations for years 2 through 5 have not been finalized by New Schools of New Orleans. Therefore, expenditures in subsequent fiscal years are not known at this time. If funding is not available beyond the grant period, one of the communications positions will not continue employment in the RSD.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Environmental Quality

AGENDA NO.: 1A

AGENCY: Environmental Services

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>	
State General Fund:	\$0	Environmental Services	\$0	0
Interagency Transfers:	\$170,000			
Self-Generated Revenue:	\$0			
Statutory Dedications:	(\$170,000)			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of BA-7 #1A and #1B is twofold.

1.) Increase IAT in the amount of \$170,000 within the Office of Environmental Services (OES) (13-852) in order to receive reimbursement from the Department of Public Safety & Corrections (DPS&C) for salary and related benefits expenditures related to the BP oil spill and decrease IAT in the amount of \$170,000 within the Office Environmental Compliance (OEC) (13-851), which is excess IAT authority. The excess IAT authority is BP reimbursement expenditure authority that is not needed within OEC. The agency has employees handling aspects of the oil spill, such as visiting waste staging and decontamination sites to determine if proper disposal is taking place and monitoring the status of cleanup operations, which are not part of their normal duties. Also, the proposed BA-7 realigns the Environmental Trust Fund (ETF) appropriation between OES and OEC by reducing the ETF authority by \$170,000 within OES and increasing by a like amount within OEC. This adjustment is a technical means of finance realignment that will not impact the current expenditure spread within OES and OEC.

2.) Provides for a technical means of financing (MOF) realignment involving the Hazardous Waste Site Cleanup Fund and Environmental Trust Fund between the Office of Environmental Services (OES) (13-852) and the Office of Environmental Compliance (OEC) (13-851) in the amount of \$204,084. During the October 2010 JLCB meeting, 4 companion BA-7s were approved that structurally reorganized DEQ that resulted in a net zero effect on the overall budget and table of organization. During the realignment, \$2,737,388 from the Hazardous Waste Site Cleanup Fund (HWSCF) and \$614,186 from the Environmental Trust Fund (ETF) was included as part of the transfer of \$14,977,233 and 103 T.O. in the Office of Environmental Services (OES) that was placed in a newly created Remediation Division of the Office of Environmental Compliance (OEC). After the reorganization, the HWSCF and ETF amounts transferred should have been \$2,941,472 and \$410,102, respectively.

NOTE: The \$204,084 means of financing substitution impacts 2 statutorily dedicated funds with a net effect of zero. Therefore, this adjustment is not reflected in the table above.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Justice

AGENDA NO.: 2

AGENCY: Attorney General

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Civil Law	\$0	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$48,174	0
Statutory Dedications:	\$48,174	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$48,174</u>	Total	<u>\$48,174</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Department of Justice (DOJ) is requesting approval to add \$48,174 of Statutory Dedications from the Insurance Fraud Investigation Fund to its budget. The funding is the unappropriated fund balance projected by the Insurance Department that is anticipated to be available for appropriation in the current fiscal year to the Justice Department.

Act 1312 of 1999 created the Insurance Fraud Investigation Fund for the cost of investigation, enforcement and prosecution of insurance fraud in this state. Revenues generated in this fund come from fees directly assessed on premiums received by each insurer licensed by the Department of Insurance (DOI). The DOI currently collects this assessment. The following allocation percentages set in statute are as follows: 1) 75% of fees collected are allocated to the Insurance Fraud Investigation Unit within State Police; 2) 15% of fees collected are allocated to the Insurance Fraud Support Unit within the Department of Justice (DOJ); and 3) 10% is allocated to the DOI. Act 1013 of 2010 adds the LA Automobile Theft & Insurance Fraud Prevention Authority (LATIFPA) to receive \$187,000 prior to the statutorily allotted amounts to DOJ, DOI and DPS&C.

Prior to enactment of Act 1013 of 2010, all unexpended and unencumbered monies in the fund at the end of the fiscal year remained in the fund. Act 1013 changed this requirement and instead provides that all unexpended and unencumbered monies at the end of the fiscal year be refunded to each insurer who paid into the fund based on each insurer's proportionate share of the fee collected.

According to the Treasury, \$21,318 of DOJ's unexpended revenue remained in the fund at the end of FY 09 and \$69,902 of unexpended revenue remained in the fund at the end of FY 10.

The requested funding will be utilized to provide for the following expenditures:

\$7,837 - student labor

\$10,000 - travel to out-of-state conferences

\$6,500 – instate travel to attend LA District Attorney's Conference, where 5 attorneys will obtain 19 credits for continuing legal education

\$4,837 - auto supplies

\$14,000 – computer equipment for the Baton Rouge and New Orleans offices

\$5,000 – updated law library materials (West's LA Statutes, 2011 Compacted, McCormick on Evidence, 6th and LA Criminal Trial Practice 4th)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office has no recommendation at this time. Additional information has been requested concerning the expenditures in this BA-7 request. A recommendation will be made when this information is received.

Approved By JLCB**

DEPARTMENT: Ancillary

AGENDA NO.: 3

AGENCY: Safe Drinking Water Revolving Loan Fund

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Safe Drinking Water Revolving Loan Fund	\$14,000,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$14,000,000			
Federal Funds:	\$0			
Total	<u>\$14,000,000</u>	Total	<u>\$14,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase statutory dedication budget authority by \$14 million in the Safe Drinking Water Revolving Loan Fund (SDWRLF), administered by the Office of Public Health (OPH). The original source of statutorily dedicated fund is a grant from the U.S. Environmental Protection Agency (EPA).

The SDWRLF program was established pursuant to the federal Safe Drinking Water Act Amendments of 1996 (SDWA). The SDWRLF is a direct loan program. The SDWRLF program provides low-interest loans to publicly and privately owned community water systems and nonprofit non-community water systems in financing needed drinking water infrastructure improvements. The OPH is responsible for the operations and administration of the SDWRLF program. OPH is authorized to apply for and accept annual grants from the EPA. The DWRLF does not have any full-time employees.

Presently, OPH has agreements in place with 39 water systems to support their drinking water construction projects with low interest rate loans. Construction projects are being completed at a faster pace than in previous years. As a result, OPH anticipates 23 of the 39 water systems will complete their construction projects by the end of the fiscal year. As of March 2, 2011, SDWRLF program has drawn down \$46,359,753 of capitalized grant funds to pay for completed construction projects. In FY 11, only \$9,891,947 of budget authority remains (\$56,251,700 appropriated - \$46,359,753 expended) in the SDWRLF program. By the end of FY 11, OPH is projecting that an additional \$22,428,031 of capitalized grant funds will be needed to pay for completed construction projects as reflected in the table below.

	FY 11 <u>Appropriation</u>	FY 11 <u>Expended</u>	FY 11 <u>Remaining Balance (%)</u>	Projected <u>Expenditures thru 6/30/11</u>	Projected <u>Additional Expenditures Over Appropriated</u>
SDWRLF	\$56,251,700	\$46,359,753	\$9,891,947 (17.6%)	\$22,428,031	(\$12,536,084)

This BA-7 request seeks a one-time increase in the SDWRLF program statutory dedication appropriation by \$14 M. The \$14 M has already been awarded and is available for drawn down. Without this BA-7 approval, OPH will not have adequate budget authority and consequently an estimated \$12,536,084 (\$9,891,947 appropriated - \$22,428,031 projected expenditures) will not be paid to contractors that have completed construction projects before the end of FY 11. OPH is requesting \$14 M in additional budget authority instead of the projected \$12,536,084 to ensure adequate budget authority through the end of the fiscal year. When construction projects are completed quicker than projected, this accelerates payments to contractors that were anticipated in FY 12 to be paid in FY 11.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in order receive funds from the Community Foundation of Acadiana and the LA Parks Foundation. The Office of State Parks has received grants from these entities in order for Palmetto Island State Park to remain open through 06/30/2011.

The Office of State Parks opened Palmetto Island State Park in Abbeville on 10/28/2010 with a commitment to fund the operations for 3 months with budget savings generated throughout the park system. If this BA-7 request is approved, total funding for FY 11 is \$462,047. Funding consists of SGF (\$188,109), American Recovery & Reinvestment funds (\$193,938), and SGR (\$80,000).

The funds associated with this BA-7 request are for basic operations of the park and will be budgeted as follows:

Other Compensation - \$10,900 (wages for low-level maintenance function)
Operating Services - \$4,200 (laundry)
Supplies - \$58,900 (medical supplies, fuel, computer and operating supplies)
Acquisitions - \$6,000 (2 above ground fuel tanks)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This BA-7 appropriates \$80,000 of a \$117,000 donation. The remaining \$37,000 will be utilized in FY 12 for this park.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,000,000</u>	Total	<u>\$1,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$1 M IAT (Fed) from the U.S. Department of Housing & Urban Development (HUD) via the Division of Administration, Office of Community Development, Disaster Recovery Unit (DRU) for the FEMA Hazard Mitigation Program-Pilot Reconstruction Program. The Governor's Office of Homeland Security & Emergency Preparedness (GOSHEP) currently administers the FEMA Pilot Reconstruction Program, which provides funding to eligible homeowners for expenditures related to the demolition and the reconstruction of buildings (including homes) as a result of hurricanes Katrina and Rita.

Of the \$13.2 B allocated to the state from HUD as a result of the 2005 hurricanes, approximately \$129.3 M has been allocated to the Local Government Emergency Infrastructure Program from which these funds are allocated. These grant funds reimburse local government entities for payments made to the homeowner. Impacted individuals are allowed to receive up to \$150,000 in grant funding from GOSHEP's Hazard Mitigation Grant Program and another \$50,000 from these CDBG funds for the total maximum grant funds of \$200,000 for demolition and reconstruction. Action Plan amendment No. 35, published 9/21/2009, allows these Local Government Emergency Infrastructure Program funds to be spent on critical services under the FEMA Hazard Mitigation Grant Program, which is currently administered by GOSHEP.

Because this is a reimbursable grant program, local governments have already paid \$274,097 to homeowners (approximately 7 structures) and are requesting reimbursement from GOSHEP. GOSHEP anticipates local governments paying approximately \$1 M in FY 11 (including the \$274,097), which will benefit approximately 20 homeowners. Overall, GOSHEP anticipates this program reconstructing approximately 155 structures for a total CDBG allocation of \$5.4 M. Grants will vary by site, but the maximum amount available is \$50,000 per site.

The Pilot Reconstruction Project will address hazard mitigation issues in the following hurricane (Katrina/Rita) impacted parishes: Calcasieu, Jefferson, Lafayette, Lafourche, Orleans, Plaquemine and St. Tammany. The program defines reconstruction as, demolition of an existing structure deemed infeasible for elevation and the rebuilding of a new structure on the same lot.

II. IMPACT ON FUTURE FISCAL YEARS

To date, GOSHEP anticipates expending approximately \$1 M in FY 11 for approximately 20 structures and the remaining \$4.4 M in FY 12. To date, GOSHEP anticipates a total of \$5.4 M benefiting approximately 155 sites.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety
AGENCY: Motor Vehicles

AGENDA NO.: 4
ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Licensing	\$359,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$359,000			
Total	<u>\$359,000</u>	Total	<u>\$359,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of Motor Vehicles (OMV) is requesting approval to add \$359,000 of Federal funds to its budget. The funding is a grant (Driver's License Security Grant Program) from the U.S. Department of Homeland Security, Federal Emergency Management Administration (FEMA). OMV will utilize the grant funding to improve the security and integrity of the issuance of driver's licenses and identification cards. Areas targeted for improved security and integrity include IT systems, source document verification, and protection of personal identification information.

OMV will utilize the requested funding to improve the integrity of the information stored on its existing drivers license/identification card database and will begin capturing a picture of the individual applying for a driver's license or identification card, along with a picture of the source documents submitted with the application. Currently, OMV only captures pictures of individuals whose driver's license or identification card applications are approved and does not capture a picture of individuals whose application is denied, or pictures of the source documents (i.e. social security cards, birth certificates, etc.) submitted with the application. The agency's current practice is to record the source document's identifying information in its database. Capturing pictures at the time of application will enable the agency to provide law enforcement documented evidence of individuals providing fraudulent information when applying for a driver's license or identification card.

Expenditures provided for include the following:

\$99,000 – required salaries to hire 10 temporary wage employees to install scanners. (10 IT technicians x \$30 per hour x 330 hours each = \$9,900/IT Tech)
\$160,000 – 32 additional camera stations (\$5,000 each)
\$30,000 – 100 desktop scanners (\$300 each)
\$70,000 – 14 high-speed scanners (\$5,000 each)

II. IMPACT ON FUTURE FISCAL YEARS

The grant, which was awarded to the agency on September 9, 2010, is scheduled to expire 5/31/2013. The total grant award is \$1,098,276. The balance of the grant funding will be expended in FY 12 (\$680,876) and FY 13 (\$58,400). The agency intends to hire 19 temporary employees in FY 12 to scan and shred existing driver license/identification card applications.

According to the agency, the American Association of Motor Vehicle Administrators is working with Congress to secure future grant funding to provide for maintenance of the equipment reflected in this BA-7 request. Grant funding from the driver's license security grant program has been awarded to all U.S. states and territories. If federal funding is not available in the future, state funding will be required to continue this activity.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$5,396,719</u>	Total	<u>\$5,396,719</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #5B and #5C.

The purpose of this BA-7 request is to increase SGR budget authority by \$5,396,719 in the Office of Fisheries in order to receive funds from British Petroleum (BP). The office has entered into a 4-year agreement with BP in order to develop and implement a Seafood Safety Testing Program that will test LA seafood and communicate the results to the public in order to provide assurance that Gulf seafood is safe to eat. Total funding for the 4-year agreement is \$18 M.

The Department of Wildlife & Fisheries will collect samples of finfish and shellfish across the LA coast and send samples to other state agencies (DHH, DEQ, and Agriculture & Forestry) to test for oil and its component parts, dispersants, heavy metals and additional substances as deemed necessary. The department will utilize 6 previously authorized job appointment positions for this testing.

The Department of Wildlife & Fisheries will budget these funds as follows:

Other Compensation - \$90,598 (prorated salary for 6 biologists for 8 pay periods)
Related Benefits - \$34,795 (retirement, Medicare, and insurance)
Travel - \$2,000 (in-state field travel)
Operating Services - \$28,504 (maintenance to vehicles, boats, and equipment)
Supplies - \$271,468 (office supplies, computer supplies, operating supplies, clothing and uniforms)
IAT - \$1,822,104 (interagency agreements with DHH, DEQ, and Agriculture & Forestry)
Acquisitions - \$3,114,032 (sampling equipment, computers, printers, boats, motors, and trailers)
Major Repairs - \$33,218 (repairs to vehicles, boats, and equipment)

Acquisitions include 10 boat trailers (\$120,535), sampling equipment (\$579,678), 15 computers and 5 printers (\$27,245), 10 boats and 16 motors (\$2,341,342), and miscellaneous equipment (\$45,232). DHH will monitor oyster beds and will oversee testing of all types of seafood, as well as ensuring air quality safety in areas impacted by the oil spill. The Department of Agriculture & Forestry will conduct lab analyses on seafood to detect the presence of Polycyclic Aromatic Hydrocarbons (PAHs) and dispersants. DEQ will assist with the collection of shellfish and seafood and will provide scientific expertise about the environmental contaminants of concern. DEQ has sufficient budget authority to accept these funds totaling \$250,491 in this fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

Funding in subsequent years will be \$5,433,558 (FY 12), \$4,689,517 (FY 13), and \$2,480,206 (FY 14). Expenditures in subsequent years will be an extension of those incurred in the current year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$194,833</u>	Total	<u>\$194,833</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7s #5A and #5C.

The purpose of this BA-7 request is to increase IAT budget authority within the Department's Animal Health & Food Safety Services Program, sent from the Department of Wildlife & Fisheries, for budgeting expenditures related to a proposed seafood testing program. The testing program is designed to address public confidence in LA's seafood and related support industries that may have been negatively impacted by the oil spill precipitated by the explosion, fire and subsequent sinking of the Deepwater Horizon mobile offshore drilling platform in April 2010.

This program is established by memorandum of understanding between British Petroleum Exploration and Production, Inc. (BP), the LA Department of Wildlife & Fisheries, and the Office of the Lieutenant Governor. In total, the memorandum of understanding provides \$18 M from BP to the state of LA for a seafood testing program. This BA-7 increases budget authority for the Department of Agriculture & Fisheries to provide for first year expenditures on lab analyses of seafood samples. The agreement will be in effect for 3 years and provide a total of \$1,697,500 to the Department of Agriculture through this program over the duration.

The specific current fiscal year expenditures requested by the department in this BA-7 are as follows:

\$67,833 Personal Services category - This cost includes \$33,333 for 2 proposed Chemists (non-TO FTE) to be hired on 3-year job appointments, \$10,000 for related benefits and \$24,500 (or 12.8% of total first year expenses) for administrative costs.

\$120,000 Supplies category - Provides for consumables and maintenance costs associated with analyzing 200 samples per month, including: extraction for both Polycyclic Aromatic Hydrocarbons (PAHs) and dispersants at \$60 per sample, PAH analysis by liquid chromatography and fluorescence at \$45 per sample, and dispersant analysis by liquid chromatography or mass spectrometry at \$45 per sample. (200 samples per month X \$150 total cost of all tests X 4 months = \$120,000).

\$7,000 in Acquisitions category - Provides for startup costs of acquiring equipment necessary to test for PAHs and dispersants. The department requires acquisition of specific testing equipment to conduct lab analyses on seafood to detect the presence of PAHs and dispersants, specifically items necessary to perform liquid chromatography, fluorescence and mass spectrometry analyses. These are items such as Quencher kits, ceramic homogenizers, guard columns and a technical reference manual.

This BA-7 is a companion to BA-7s #5A for the Department of Wildlife & Fisheries and #5C for the Department of Health & Hospitals. The responsibilities for each of the 3 departments are spelled out in the LA Seafood Safety Cooperative Agreement.

II. IMPACT ON FUTURE FISCAL YEARS

The provided funds, memorandum of understanding and cooperative agreement anticipate funding the seafood testing program for a term of 36 months. The full amount of expenditures within the Department of Agriculture & Forestry over the 3-year program are projected at \$1,697,500. Continuing this program through its proposed 3-year term will require

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

and appropriating the balance of \$375,667 in FY 14 through the proposed end of testing in February 2014.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7s #5A and #5B.

The purpose of this BA-7 request is to increase IAT budget authority by \$758,286 in the Personal Health Services Program and \$541,714 in the Environmental Health Services Program. The IAT funds are from the Department of Wildlife & Fisheries, Office of Fisheries for implementation of the Seafood Safety Response & Quality Certification Plan. The original source of IAT funds is an agreement for \$5.39 M in FY 11 (a total of \$18 M over 3 years) from British Petroleum (BP) to test for oil, dispersants and other spill-related impacts on seafood.

As part of the Seafood Safety Response & Quality Certification Plan, the Office of Public Health (OPH) monitors waters from which seafood is harvested for oil exposure and, if necessary, closes harvest waters that may be exposed to the oil. OPH collects seafood samples from oysters, shrimp, crab and fish from areas across the LA coast impacted by the oil spill. The edible tissue is separated and submitted to the lab to be tested for components of crude oil called hydrocarbons. In addition, OPH collects samples from areas that have not been impacted by oil and these areas are used to determine "background" levels of chemicals in seafood and provide baseline information for comparison should oil move into those areas in the future. Also, OPH collects samples of seafood products at LA-primary processing plants to ensure that seafood being harvested is safe to eat.

Expenditures for this BA-7 request are as follows:

Personal Services (\$169,464)

Four months of salary and other compensation expenses (\$107,683) for 7 job appointments for additional monitoring and seafood testing. The job appointments are as follows:

	FY 11 Four Months Salary	FY 12 Annualized Salary
3 positions - Environmental Health Scientist 2 (\$52,084 annual salary)	\$52,084	\$156,252
1 position - Environmental Health Scientist Coordinator (\$51,795 annual salary)	\$17,265	\$51,795
2 positions - Public Health Lab Scientists (\$46,000 annual salary)	\$30,667	\$92,000
1 position - Laboratory Technical Assistant (\$23,000 annual salary)	<u>\$7,667</u>	<u>\$23,000</u>
	\$107,683	\$323,047

OPH is requesting 2 Public Health Lab Scientists and a Laboratory Technical Assistant in the OPH Lab because existing laboratory staff cannot perform daily seafood testing. Currently, OPH Lab has 52 staff members that are currently working overtime to complete routine testing. In the Environmental Health Services Program, the volume of water samples is expected to increase by 114 samples a month and the volume of seafood tissue data is expected to increase by 400 samples a month. OPH does not anticipate accomplishing the additional workload with existing staff and resources. Also, 4 months of overtime funding for 12 existing central office staff and crew is required to train new hires on the collection of seafood samples (\$28,400). The job appointments will end when funding from BP ends in FY 14.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Related benefits are calculated at 31% of salaries (\$33,381).

Travel (\$833)

Routine in-state travel costs for the Environmental Health Scientist Coordinator and Environmental Epidemiology Section personnel to attend conferences and meetings with state agencies, federal agencies, other stakeholders and impacted communities.

Operating Service (\$162,000)

Maintenance service agreement for purchased equipment (\$60,000) under Acquisitions listed below. Installation of new electrical service lines for purchased equipment (\$2,000). Routine maintenance for 10 boats, a commercial seafood vehicle and 5 dredges including bearing replacements, oil changes, battery replacements, tire rotations, tune ups, etc. (\$100,000).

Supplies (\$91,283)

Fuel and various supplies needed for seafood sampling. Fuel is needed on a weekly basis for 5 trucks, 5 boats, and a commercial seafood vehicle (\$21,750). Supplies include, but are not limited to, ice chests, aluminum foil, Ziploc bags, shucking knives, fire extinguishers, flares, rain gear, float coats, GPS equipment, depth finders, radios, paper, and printer cartridges (\$31,175). In addition, consumable supplies needed for testing such as chemical reagents, disposable gloves, glassware, and personal protective equipment for staff (\$38,358).

Professional Services (\$10,000)

OPH will contract with LSU Health Sciences Center/LA Poison Control Center for a Medical Toxicologist. The medical director for the Poison Control Center is a board-certified Medical Toxicologist who will provide consultation to OPH/DHH on environmental health issues related to the oil spill on an as-needed basis.

Other Charges (\$363,470)

Cost of hydrocarbons and polycyclic aromatic hydrocarbons (PAH) analysis testing (504 tests at \$385 per test, \$194,040). Also, OPH will assign approximately 13% of the \$1.3 M in IAT funds as indirect administrative costs for human resources, IT, executive management, utilities, fiscal and accounting, etc. (\$169,430).

Acquisitions (\$502,950)

Purchase of equipment needed to test the seafood for toxic hydrocarbons found in crude oil and analyze the seafood for the chemical presence of dispersants that were used at the time of the oil spill -- Fluorescence Detector 200a (\$10,000); Centrifuge (\$6,000); 2 Analytical Balances (\$9,300); Accelerated Solvent Extractor (\$160,000); Muffle Furnace (\$3,000); High Performance Liquid Chromatograph (\$40,000); Gibson FC 204 Fraction Collector (\$4,000); Rheodyne Valve (\$1,200); Ultrasonic disruptor with horn (\$6,400); K-D apparatus supplies (\$5,000); and a Gas Chromatography Fluorescence Incidence Detector (\$70,000).

OPH plans to purchase boats and towing vehicles that will be dedicated to BP oil spill testing only. Currently, OPH is using existing boats and vehicles that have historically been used only for water collection. To monitor waters and collect seafood for testing of crude oil and dispersants, OPH needs vessels able to maintain and support the dredging process. OPH will purchase 2 boats including motors and trailers (\$120,000); 2 towing vehicles (\$50,000); and a seafood vehicle to collect seafood samples at seafood docks and processing plants (\$17,000). Also, purchase a desktop computer for the Environmental Health Scientist Coordinator (\$1,050).

II. IMPACT ON FUTURE FISCAL YEARS

The Seafood Safety Response and Quality Certification Plan will receive funding from BP until FY 14. Funding in subsequent fiscal years for OPH are as follows: \$1,067,389 (FY 12), \$1,011,901 (FY 13), and \$749,350 (FY 14). Besides the one-time expenses of equipment, boats and vehicles acquisition, expenditures in subsequent fiscal years will be the same as identified in the current year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon the approval of BA-7 #5A.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 6

AGENCY: Public Health

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Vital Records & Statistics	\$0	0

Statutory Dedications:	\$0			
Federal Funds:	\$275,781			
Total	<u>\$275,781</u>	Total	<u>\$275,781</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$275,781 in the Environmental Health Services Program. The source of these Federal funds is the Public Health Tracking Grant from the U.S. Department of Health & Human Services, Centers for Disease Control & Prevention, National Environmental Public Health Tracking Program (EPHTN). No state match is required.

In FY 10, the Office of Public Health (OPH) was awarded the Public Health Tracking grant of \$678,510 per year for 5 years. The total Public Health Tracking grant award is \$3,392,550. The purpose of the grant is to build a user-friendly web site on which to display LA health and environmental data called the Environmental Public Health Tracking Network (EPHTN). On 3/19/2010, the Public Health Tracking grant was approved at JLCB. With only 4 months left in FY 10, OPH was unable to enter into professional services contracts for IT-related work in accordance with the original spending plan. Therefore, at the end of FY 10, OPH had unspent grant funds remaining. In January 2011, the CDC approved the OPH request to carryover \$275,781 of FY 10 grant funds. The carryover funds will be used to purchase IT equipment critical to the development of the EPHTN.

	<u>FY 10 Budget</u>	<u>FY 10 Actuals</u>	<u>FY 10 Grant Fund Remaining</u>	<u>Federal Approved Carryover</u>	<u>FY 11 Original Budget</u>	<u>FY 11 Budget w/Carryover</u>
Public Health Tracking Grant	\$678,510	\$187,500	\$491,010	\$275,781	\$678,510	\$954,291

Expenditures for this BA-7 are as follows:

Operating Services (\$136,293)

Purchase of software and software licenses that will be used to develop the EPHTN to support IT services such as data warehousing, data sharing, processing, networking, and enabling secure data transfer among programs.

Interagency Transfers (\$56,146)

A Memorandum of Understanding (MOU) with the LA Birth Defects Monitoring Network (LBDMN) to transform from paper into a digital database and development of an interoperable LBDMN digital database system. LBDMN is a section within OPH that performs active surveillance on children born with birth defects from hospital medical records.

Acquisitions (\$83,342)

Purchase of a SAN attached disk storage to share (\$30,025) and 2 database servers (\$53,317).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

February 18, 2011

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 7

AGENCY: Public Health

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Vital Records & Statistics	\$0	0

Self-Generated Revenue:	\$0	Environmental Health Services	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$1,776,299			
Total	<u>\$1,776,299</u>	Total	<u>\$1,776,299</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$1,776,299 in the Personal Health Services Program, Office of Public Health (OPH). The source of funds is the Teenage Pregnancy Prevention grant from the U.S. Department of Health & Human Services, Administration on Children, Youth & Families, Office of Adolescent Health. This grant requires no state match.

The Teenage Pregnancy Prevention grant is a \$2.2 M per year, 5-year grant totaling \$11 M. The purpose of the Teenage Pregnancy Prevention grant is to support evidence-based community-wide initiatives in preventing teen pregnancy and reducing rates of teen births in communities with the highest rates of teen pregnancy and teen births. In OPH, the Family Planning Program coordinates programs to prevent teenage pregnancy. The Family Planning Program will use the grant award to fund an evidence-based teen pregnancy prevention program called the Teen Outreach Program (TOP).

TOP has 2 main components: (1) a 9-month educational curriculum; and (2) community service. Youth between the ages of 12 and 17 will meet for a 1-2 hour session each week to discuss values, communication and assertiveness, influence, goal-setting, decision-making, adolescent development, relationships, and community service. In addition, youth will be required to provide 20 hours of community service each year that they are enrolled. OPH estimates that 2,450 youth will participate in TOP.

Expenditures for this BA-7 are as follows:

Personal Services - \$90,034

No new T.O. positions are requested and no new staff will be hired. OPH will implement the grant program using existing staff. A means of financing substitution will replace SGF reduced during mid-year budget cuts with the Teenage Pregnancy Prevention grant funds. Four months of personal service expenditures for 6 positions are as follows:

	FY 11 4 Months	FY 12 Annualized
Title (Level of Effort)	Salary	Salary
Contract Monitor (50%)	\$8,000	\$24,000
Principal Investigator (50%)	\$14,461	\$43,383
Program Coordinator (100%)	\$20,000	\$60,000
Administrative Coordinator (100%)	\$13,500	\$40,500
Finance Manager (5%)	\$1,100	\$3,300
4 Program Monitors (25%)	<u>\$11,667</u>	<u>\$35,000</u>
	\$68,728	\$206,183

Related benefits are calculated at 31% of salaries (\$21,306).

Travel - \$47,000

Existing staff that will be assigned to the TOP grant are based in New Orleans. Routine in-state travel expenses for key staff to

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

travel to the selected 7 parishes as required (\$23,000). In addition, staff will attend an annual grantee conference that will be held in Washington, DC as mandated by the grant and travel to 3 training sessions taught by consultant Wyman, Inc. on replicating the TOP model (\$24,000).

Operating Services - \$19,151

Marketing materials to promote the TOP grant such as flyers, brochures, and web-based advertising. These materials will be distributed to parents, teens, schools, community partners, churches, and the health community.

Supplies - \$108,617

General office supplies such as copy paper, notepads, pens, binder clips, etc. (\$30,000). OPH will purchase educational materials such as TOP curriculum packets as well as medically accurate, age appropriate booklets, handouts, and training materials (\$29,617). Also, incentive gift cards in the amount of \$20 will be purchased for each of the 2,450 youth participants (\$49,000).

Professional Services - \$1,255,535

Community Based Organization (CBOs):

Four months of funding at \$108,195 for 7 CBOs (\$757,365). In early January 2011, OPH issued a Solicitation for Proposal seeking applications from CBOs interested in implementing the TOP program. The Solicitation for Proposal was placed on the OPH web site, the Family Planning Section web site, the LA Public Health Institute (LPHI) web site, and sent electronically to internal partners within OPH as well as to the Medical Directors in each of the 9 regions of DHH.

To implement TOP, OPH will contract with 7 CBOs that provide services in one of the 15 parishes that have the highest teen birth rates. In FY 12, contracts will be up to \$150,000 for a full year of implementation. The 15 parishes with the highest teen birth rates, in order, are as follows: East Baton Rouge, Caddo, Orleans, Jefferson, Ouachita, Calcasieu, Rapides, Lafayette, St. Landry, St. Tammany, Tangipahoa, Terrebonne, Bossier, Iberia, and Livingston.

Contract amounts with CBOs include funding for 2 Adult Facilitator positions salaries, in-state travel, funding to purchase 2 computers and printers, Wyman, Inc. curriculum for trainers, a DVD player, copying material for session handouts, and office supplies.

Consultants:

Trainer (\$14,000) - Provides training, certifications, and technical assistance, and conducts a 3-day workshop to train the trainers who will train facilitators to conduct TOP sessions. The contract for the trainer is still to be determined.

Wyman, Inc. (\$84,170) - Provides technical assistance and training as well as certifications. The consultant will conduct 4 visits per year. Wyman is a nonprofit organization based in St. Louis, Missouri that developed the TOP curriculum.

LSU (\$400,000) - An evaluation team will conduct an independent evaluation of the TOP grant. An independent evaluation is a mandatory requirement of the TOP grant award. OPH approached 3 institutions with expertise in doing public health sector evaluations -- LSU School of Public Health, Tulane School of Public Health, and LPHI. Only LSU was interested in being the evaluator for the TOP grant. Since LSU is a state entity, a Request For Proposal (RFP) is not required.

Other Charges - \$242,462

Contractor will develop a web site for the TOP program (\$6,748). Also, OPH will assign approximately 10.7% of the total Teenage Pregnancy Prevention grant to indirect administrative costs such as human resources, IT, executive management, utilities, etc. (\$235,714)

Acquisitions - \$13,500

Purchase of 9 laptop computers (\$10,800) and portable printers (\$2,700) to be used by the Principal Investigator, Program Monitors and Coordinators, and the Administrative Coordinator.

II. IMPACT ON FUTURE FISCAL YEARS

The Teen Pregnancy Prevention grant is a 5-year grant totaling \$11 M. OPH will receive \$2.2 M per year for 5 years. The grant period is from 9/01/2010 through 8/31/2015. OPH may carry forward any unused funds until the grant period expires on 8/31/2015.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
DEFERRED By JLCB**

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 8

AGENCY: Recovery School District

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	RSD-Instructional	\$1,044,578	0
Interagency Transfers:	\$0	RSD-Construction	\$0	0
Self-Generated Revenue:	\$1,044,578			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,044,578</u>	Total	<u>\$1,044,578</u>	<u>0</u>

I. SUMMARY/COMMENTS

The BA-7 request is to increase SGR by \$1,044,578 in the Recovery School District to receive grant funds for the Teacher Incentive Fund (TIF) Program. Approximately \$13.17 M from the U.S. Department of Education was awarded to New Schools for New Orleans (NSNO) for a 5-year grant. New Schools for New Orleans is a nonprofit organization with a vision to attract talented teachers to New Orleans, support open-enrollment public charter schools, and advocate for accountable and sustainable high-quality public schools in New Orleans. NSNO was awarded the grant to implement the TIF Program through a partnership with the Recovery School District (RSD), Knowledge is Power Program (KIPP) New Orleans Schools, ReNEW Charter Management Organization and FirstLine Schools. There are no matching funds required of the Recovery School District.

The TIF Program aligns performance pay with meaningful evaluations, highly effective professional development, and teacher career advancement. Teachers and leaders will be measured annually along several criteria, including student value-added growth and school and classroom observations. Teachers who have demonstrated significant student achievement growth can be promoted to leadership roles and receive supplemental compensation. These master teachers and mentor teachers will be responsible for coordinating the program and providing guidance and professional development to other teachers in their schools.

The funds received by the Recovery School District will be budgeted in other compensation (\$948,962) for existing employees and related benefits (\$95,616). The other compensation funds are broken out as follows:

- \$75,000 for an Executive Master Teacher
- \$28,000 for 4 RSD liaisons (work with NSNO to guide the implementation of the performance based incentive system)
- \$140,000 for salary augmentations (stipends of \$10,000 to 14 master teachers who provide assistance to all teachers)
- \$705,962 for performance awards (awards for teachers based on the impact on each of their students - based on complex formula - the average per teacher is \$2,500, per assistant principal \$5,000, and principal \$10,000)

The related benefits expenditures for the liaisons and Executive Master Teacher are calculated at 30%, and the benefits on the salary augmentation and performance awards covers Social Security (6.2%) and Medicare (1.45%).

NOTE: A BA-7 was approved in October 2010 for the Department of Education and several school districts to receive \$36.5 M in funding over 5 years for the TIF Program. This BA-7 request is a separate allocation of funding that was awarded to NSNO to implement the same TIF Program activities in RSD schools in New Orleans.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period is 5 years, but the allocations for years 2 through 5 have not been finalized by New Schools of New Orleans. Therefore, expenditures in subsequent fiscal years are not known at this time. The Recovery School District intends to prioritize funding for programs so they can continue to provide salary augmentations and performance awards to eligible employees after the grant period expires. Employees are evaluated annually to determine if they are eligible to receive any

**LEGISLATIVE FISCAL OFFICE

DEFERRED By JLCB**

performance awards will not be granted.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
DEFERRED By JLCB**

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 9

AGENCY: Recovery School District

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	RSD-Instructional	\$395,425	0
Interagency Transfers:	\$0	RSD-Construction	\$0	0
Self-Generated Revenue:	\$395,425			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$395,425</u>	Total	<u>\$395,425</u>	<u>0</u>

I. SUMMARY/COMMENTS

The BA-7 request is to increase SGR by \$395,425 in the Recovery School District to receive grant funds for the Investing in Innovation (i3) Program. Approximately \$28 M from the U.S. Department of Education was awarded for a 5-year grant to New Schools for New Orleans (NSNO), the Recovery School District (RSD), and the Achievement School District (ASD) of Tennessee. There is a 20% match required (\$5.6 M). NSNO secured the required match for the grant from the private sector.

New Schools for New Orleans is a nonprofit organization with a vision to attract talented teachers to New Orleans, support open-enrollment public charter schools, and advocate for accountable and sustainable high-quality public schools in New Orleans. According to NSNO (the lead applicant of the grant), the award will be used to build the capacity to annually turn around the lowest performing 5% of schools in New Orleans. Specifically, the grant is to expand the implementation of and investment in, innovative practices that are demonstrated to have an impact on improving student achievement or student growth, closing achievement gaps, decreasing dropout rates, increasing high school graduation rates, or increasing college enrollment and completion rates. The charter school model will be used to aid in the transformation of a failing school. The RSD will identify failing schools in New Orleans based on the state's definition of an academically unacceptable school and work with NSNO to identify charter operators with a proven track record to turn the schools around. The schools the RSD will choose to work with will be identified by July 2011.

Of the \$33.6 M (\$28 M grant plus \$5.6 M match), approximately 44% will go to charter operators in New Orleans, 18% will go to charter operators in Tennessee (none of the \$395,425 requested in this BA-7 will go to Tennessee), 24% will fund the required personnel at NSNO, RSD and ASD who will ensure the grant is implemented successfully and in compliance with federal regulations, and the remaining funding will go to an independent, 3rd party external evaluator to assess the charter operator performance for initial award purposes and to provide ongoing reporting.

The expenditures will be budgeted as follows:

\$295,750	Other Compensation
\$88,725	Related Benefits
<u>\$10,950</u>	Supplies
\$395,425	TOTAL

The other compensation funding will be used to pay a portion of 4 existing employees and one new employee (one communications position). The following will be used for each employee: RSD Deputy Superintendent - \$70,000, Chief of Staff - \$70,000, administrative assistant - \$47,000, and 2 communications positions - \$63,750 and \$45,000.

The related benefits is calculated at 30% of the requested other compensation amount.

The supplies funding will be used to purchase laptops (5 laptops at \$1,500 each), docking stations, monitors for the docking stations, color printers, and carrying cases. The RSD will also purchase supplies for hosting community/parent information sessions in New Orleans (3 events per year) and \$150 in marketing materials to distribute to the community.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
DEFERRED By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

The grant period is 5 years, but the allocations for years 2 through 5 have not been finalized by New Schools of New Orleans. Therefore, expenditures in subsequent fiscal years are not known at this time. If funding is not available beyond the grant period, the administrative assistant will not continue employment in the RSD.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 1

AGENCY: LA Highway Safety Commission

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Highway Safety Commission	\$4,340,370	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$4,340,370			
Total	<u>\$4,340,370</u>	Total	<u>\$4,340,370</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Highway Safety Commission is requesting approval to add \$4,340,370 of Federal funds to its budget that will be transferred to the LA Department of Transportation & Development (DOTD) to provide funding for hazard elimination projects. DOTD is not eligible to receive the Federal funds directly because of LA's failure to enact open container legislation conforming to federal guidelines. For hazard elimination activities, the Highway Safety Commission prepares a sub-grantee agreement with DOTD to manage all hazard elimination funds. DOTD receives reimbursement for the hazard elimination projects from the LA Highway Safety Commission.

The Highway Safety Commission's current budget includes \$11.35 M in Federal funds for hazard elimination projects. The addition of the \$4,340,370 Federal funds included in this BA-7 request will increase the FY 11 total for hazard elimination projects to \$15,690,370. To date, DOTD has expended \$7,026,805 on hazard elimination projects and has a balance of \$8,663,565 (see attachment) in planned expenditures. According to DOTD, the attached list of hazard elimination projects is a good faith estimate of projects that will be completed by 6/30/11.

Due to the legislature appropriating DOTD hazard elimination projects in the Capital Outlay Bill (HB 2), DOTD has the necessary budget authority to expend these funds on the projects attached.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Public Safety

AGENDA NO.: 2

AGENCY: LA Highway Safety Commission

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Highway Safety Commission	\$1,365,271	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$1,365,271			
Total	<u>\$1,365,271</u>	Total	<u>\$1,365,271</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Highway Safety Commission is requesting approval to add \$1,365,271 of Federal funds to its budget from the Federal Highway Administration High Fatality Rate Fund, which is part of the federal Alcohol Impaired Driving Countermeasures Fund. The funding will be utilized to provide for the purchase of 4 mobile breath-testing vans (for Caddo, and Jefferson parish sheriff's offices and the Lafayette and New Orleans police departments), and one breath-testing trailer for the Calcasieu Parish Sheriff's Office.

The Highway Safety Commission follows a problem identification process to determine parish needs to reduce impaired driving. Parishes are compared using total population, alcohol-related crashes, and alcohol-related fatal and injury crashes. Although numerous parishes have specific traffic needs, the Highway Safety Commission chooses parishes with multiple needs in regards to injury crashes, fatal crashes, and total fatalities. The larger, most populous parishes generally experience the majority of the traffic problems. Therefore, they are normally identified during the problem identification process as experiencing the majority of the impaired driving problems.

The cost for each breath testing van/trailer is as follows:

\$350,000 - New Orleans Police Department
\$350,000 - Jefferson Parish Sheriff's Office
\$350,000 - Lafayette Police Department
\$250,000 - Caddo Parish Sheriff's
\$65,271 - Calcasieu Parish Sheriff's Office

The cost of each van is dependent on the size and interior design requested by each sheriff. Each sheriff submitted a cost estimate based on his specific needs. Larger offices or offices supporting a greater number of participating officers need more space to accommodate the increased number of breath tests and processing of suspects. The primary difference between a standard breath testing van and trailer is that the van is a self-contained vehicle, and the trailer, which is smaller, requires a separate vehicle for transport to and from checkpoints. A breath testing van generally contains a holding cell, breath testing machine(s), interview room, and report writing areas. The Highway Safety Commission has already acquired a breath-testing van for the Baton Rouge Police Department and a van for the Monroe Police Department.

The Highway Safety Commission applies for awards under the National Traffic Safety Administration annually and must meet several programmatic and traffic thresholds to qualify for the funds. To be eligible for the grant included in this BA-7 request, a state must have an alcohol related fatality rate of 0.5 or less per 100,000,000 vehicle miles traveled. The Highway Safety Commission received notification of approval of its request to purchase the breath-testing vans/trailers requested in this BA-7 on 11/22/10.

The state uses the State Police traffic patrol expenditures associated with impaired driving enforcement unit as the required 25% in-kind match for this grant.

II. IMPACT ON FUTURE FISCAL YEARS

January 21, 2011

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

Federal Funds:	\$0	School & Community Support	\$0	0
		Auxiliary Account	\$0	0
Total	<u>\$286,600</u>	Total	<u>\$286,600</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$286,600 in SGR received from the Bill & Melinda Gates Foundation. The funds will be used for LA's Non-Tested Grades and Subjects Initiative. Act 54 of 2010 requires all teachers to be evaluated annually. By the beginning of the 2012-2013 school year, 50% of such evaluation will be based on evidence of growth in student achievement using a value-added assessment model for grade levels and subjects for which value-added data is available. The value-added model examines growth of the achievement of children and links growth in student learning to teacher preparation programs. Value-added data is created in part by using the results of student's standardized tests. Value-added data is available for grades and subjects where standardized tests are used. The Board of Elementary & Secondary Education must establish measures of growth for grade levels and subjects where value-added data is not available and for personnel for whom value-added data is not available, such as physical education and music teachers. Standardized tests are not used for these subjects. Currently, only 40% of teachers are evaluated using the value-added assessment model. This initiative is an effort of the Department of Education to effectively measure student growth in non-tested grades and subjects and to integrate those measures into teacher evaluations.

The Department of Education projects the following expenditures:

\$80,500 Salaries
\$12,880 Related Benefits
\$21,220 Travel
\$10,000 Supplies
\$52,000 Operating Services
\$15,000 Other Charges
\$95,000 Professional Services
\$286,600 TOTAL

Professional Services: The Department of Education estimated professional services fees for 6 assessment experts to serve on a Technical Advisory Committee (\$25,000), and for 4 subject matter experts to serve on a Technical Design Team (\$70,000). The 6 assessment experts will be paid \$1,000 per day for 3 days of meetings (6 experts * \$1,000 * 3 days = \$18,000). The remaining \$7,000 will pay for the experts travel over the course of the year. The 4 subject matter experts will be paid \$10,000 each for their services, \$15,000 will be used for travel and meeting expenses of the experts, and the remaining \$15,000 is for IT support.

Operating Services: These will be used to purchase licenses for assessment tools to be used in the pilot initiative. The actual cost of licenses is not known, but the estimate is based upon taking an average cost of licenses that may be used. The average cost per school is \$1,250. The assessments will measure student achievement at one or more points throughout the year and will allow for calculations of student growth between assessments.

Supplies: Funds will be used for printing and other materials for educator training.

Other charges: These funds will pay the cost of substitute teachers. Teachers will be required to attend a couple of days of training on the new assessments and how to administer the new assessments for the students in their classrooms. There will

January 21, 2011

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

be 4 member teams of teachers from 20 different schools attending training for 2.5 days. The pay for substitute teachers will be \$75 and is based on the rate of pay for other training activities that are conducted by the state where substitute pay is reimbursed to the local school district. (\$75 per substitute * 80 classroom teachers * 2.5 days = \$15,000).

Travel: A portion of the travel expenditures is for up to 4 staff members to visit 3 or 4 best practice sites for non-tested grades and subjects work (\$4,720). The best practice sites have started to develop assessments for non-tested areas and protocols for effectively measuring student growth in areas where written assessments are not sufficient. Approximately \$16,500 is also allotted for department staff to travel to school sites, and for local school district teachers to travel to meetings and other school sites.

Salaries and Related Benefits: The salary and related benefits are for 2 temporary positions who will work with the non-tested grades and subjects initiative. The Department of Education will determine if sufficient funding is available in their budget to continue the employment of these employees upon the end of the grant period, which is 12/31/11. The salary amount in the grant is half of the total salary cost, and the related benefits amount represents 25% of the total cost. The Department of Education has indicated that they are prioritizing funding for significant initiatives and will fund the remaining salary and related benefits costs within their existing budget.

II. IMPACT ON FUTURE FISCAL YEARS

The grant was awarded through 12/11/11; therefore, some grant expenditures may be carried forward into FY 12.

Act 54 of the 2010 requires all teachers to be evaluated annually. Department of Education expenditures will increase in FY 12 and thereafter to continue work on this initiative in order to meet the requirements of Act 54. The department has not been able to determine an amount of future expenditures at this time. No funding was requested for this initiative in the department's FY 12 budget request. However, the department will assess their FY 12 budget to determine if funds will be available to continue these efforts in future fiscal years. The department has indicated that they are prioritizing funding for significant initiatives and will likely allocate funding from their FY 12 budget to continue working on this initiative.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 4

AGENCY: Metropolitan Human Services District

ANALYST: Jennifer Katzman

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Metropolitan Human Services District	\$1,367,823	0
Interagency Transfers:	\$1,367,823			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,367,823</u>	Total	<u>\$1,367,823</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$1,367,823 in the Metropolitan Human Services District (MHSD). The sources of funding are 1) \$517,823 in Primary Care Access & Stabilization Grant (PCASG) funds from the U.S. Department of Health & Human Services, 2) \$825,000 for Disproportionate Share Hospital (DSH) payments from Medical Vendor Payments (MVP) for the Greater New Orleans Community Health Connection (GNOCHC) waiver program, and 3) \$25,000 in Medicaid administration funds from the Medical Vendor Administration program to utilize for operation of a Medicaid Application Center (MAC). There is no new state match required for these funding sources; any SGF required for match has been previously allocated.

1) Primary Care Access Services Grant (PCASG):

Post Hurricane Katrina, the PCASG funds were awarded to LA in 2007 to allow for provider payments to ensure primary care and behavioral health services in the greater New Orleans area through a clinic infrastructure, including 6 clinics operated by MHSD. Specifically, services are for the provision of physical, mental and addiction services to address the emotional and psychological needs of targeted individuals in MHSD (includes Orleans, St. Bernard, and Plaquemines parishes). The grant allocated \$2,460,811 to MHSD from 11/1/09 to 9/30/10, at which time the grant was originally scheduled to end. MHSD expended \$1,068,366 of this award in FY 10 and \$327,401 from July to September of FY 11, which leaves \$1,065,043 in unexpended grant funds still remaining. The PCASG was extended through 9/30/11 with a supplemental award of \$122,365. The extension award plus the remaining PCASG funds equals \$1,187,403 in available PCASG funds allocated to MHSD. MHSD is requesting an additional \$517,823 in PCASG funds in order to be reimbursed for projected costs through FY 11. Projected fiscal year reimbursements to MHSD are reflected below.

Requested PCASG authority for provider payments:	\$367,823
PCASG funds for training:	\$60,000
PCASG funds for fiscal consultant/ accounting redesign:	<u>\$90,000</u>
BA-7 requested PCASG expenditure authority:	<u>\$517,823</u>
Current budget authority for FY 11:	\$982,177
BA-7 requested PCASG expenditure authority:	<u>\$517,823</u>
Total PCASG budget authority requested for FY 11:	<u>\$1,500,000</u>

NOTE: MHSD will enter into professional service contracts for both the training services (\$60,000) and fiscal consultant services (\$90,000) reflected above. These contracts have not been awarded at this time. The Fiscal Office is seeking further clarity on MHSD's authority to be exempt from the RFP process for these professional service contracts.

2) Greater New Orleans Community Health Connection (1115 Medicaid demonstration waiver program):

The GNOCHC waiver program was designed to be a more sustainable funding mechanism for PCASG services once the grant ends. Specifically, this funding source will be used to make DSH payments to waiver providers as the waiver will allow the state to make DSH payments for traditionally non-allowable costs.

The waiver program was authorized by the Centers for Medicare & Medicaid Services (CMS) on 10/1/10 and is anticipated to

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

be authorized through 2013. The waiver program is expected to launch on 2/1/11. PCASG services and GNOCHC services will be operating concurrently through 9/30/11 until the PCASG ends, but will be reimbursing separate costs. In FY 11, approximately \$825,000 will be used for a professional services contract for one-time information technology (IT) system upgrades for the clinics. These expenses are itemized below.

- \$53,497 - Central scheduling system reconfiguration: schedules patient appointments for all of MHSD's clinics
- \$41,799 - Case management system reconfiguration: tracks patient's case activity for qualitative measurement purposes
- \$201,331 - Software purchase to keep electronic medical records
- \$227,991 - Software purchase for patient registration & a claims processing system: registers patient information and insurance, and prepares documents for Medicaid, Medicare, or insurance claims
- \$132,165 - Financial billing system: prepares and tracks patient billing information for the cost of services
- \$90,476 - Quality assurance system purchase: quality review checks for compliance and reporting based on medical records
- \$32,741 - Hardware/software purchase (2 new servers needed for implementation of waiver program)
- \$45,000 - Installation and reconfiguration costs for new software/hardware
- \$825,000 - TOTAL IT infrastructure expenses**

NOTE: In February of 2010, MHSD issued an RFP for an integrated clinical IT system to be purchased over a three year period as money became available through grants or opportunities like the waiver program. Following state procurement procedures, Clin1 was selected as the vendor and is being used to purchase and install the IT systems reflected above, which are needed for the waiver program.

3) Medicaid Application Center:

As a condition of participation in the 1115 waiver program, MHSD must have a Medicaid Application Center. MHSD plans to operate application centers out of its Chartres-Pontchartrain and Central City Behavioral Health Centers upon approval of this BA-7. Therefore, \$25,000 in budget authority is being requested to allow MHSD to collect fees generated by processing Medicaid applications for the Medical Vendor Administration (MVA) program. The \$25,000 will be reimbursed to MHSD from the MVA program (\$14 per application x 1,786 applications = \$25,000). These funds have been previously allocated to MVA in a prior BA-7. This money will be used to hire 2 temporary, contracted staff people (\$2,500 each per month) to aid with the expedited enrollment of an estimated 1,786 Medicaid applicants in the initial five months of the waiver program. These are non-T.O. positions. Beginning in FY 12, existing staff will assume this role at a single application center located at the Chartres-Pontchartrain Behavioral Health Center and any MVA reimbursements for processing these applications will go toward maintaining one existing staff position which would otherwise be eliminated due to budget cuts next fiscal year. Beginning in calendar year 2014 when the waiver program ends, MHSD anticipates the Medicaid Application Center will continue to operate and be funded by MVA.

II. IMPACT ON FUTURE FISCAL YEARS

The PCASG funds and services will be available into FY 12 through 9/30/11. Afterwards, the 1115 Medicaid waiver program will be utilized to support primary care services in the greater New Orleans area. It is anticipated to last through 2013. As a result, funds from the Medical Vendor Administration and the Medical Vendor Payment programs will be used in future fiscal years to fund the Medicaid Application Center reimbursements and DSH payments for primary care outpatient services in the Metropolitan Human Services District. MHSD has requested \$1.25 M for the 1115 waiver in FY 12 and \$49,000 for the Medicaid Application Center. In FY 13, MHSD anticipates DSH reimbursements to increase to approximately \$1.5 M for the 1115 waiver program and expects Medicaid Application Center costs will remain at \$49,000. According to the Division of Administration, this BA-7 will be annualized in the FY 12 executive budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$360,000</u>	Total	<u>\$360,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to receive funds from the Office of Community Development (OCD), Disaster Recovery Unit. The original source of funding is from the U.S. Department of Housing & Urban Development (HUD) and will be used for capping abandoned water wells.

The Department of Natural Resources has identified 120 wells that were damaged during hurricanes Katrina and Rita and has prioritized 20 as high-risk sites and 100 as low-risk sites. The department requested this funding in order to mitigate the potential environmental risk to groundwater resources posed by these damaged water wells. The wells are located in the parishes of Calcasieu, Cameron, Iberia, Orleans, St. Mary, St. Tammany, and Vermilion.

The estimated cost of mitigation for each well is approximately \$3,000. This amount includes the costs for environmental assessment for each well site, and the estimated costs for a licensed water well driller to plug and abandon a 2" to 4" domestic water well approximately 200 feet deep.

Funding will be budgeted in other charges and expenses include the environmental assessment phase (\$90,000) and capping of the 120 well sites (\$270,000). The environmental assessment phase will require environmental/engineering consulting services that will be awarded through the Request for Proposal (RFP) process. The RFP will be submitted to the Office of Contractual Review upon approval of this BA-7 request and an environmental assessment contract will be in place by the end of May. The remaining funds will be used for the repairing or plugging and abandoning wells, which will be bid through the Office of State Purchasing.

No state match is required in order to receive this grant.

II. IMPACT ON FUTURE FISCAL YEARS

Any unexpended funds will be carried forward into FY 12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget federal funds received from the U.S. Department of Health & Human Services via the Administration on Aging (AOA) for the Chronic Disease Self Management Program. The Chronic Disease Self Management Program provides for the patients' role in managing their illness and building self-confidence so they can be successful in adopting healthy behaviors. The program, which was developed by Stanford University, consists of workshops conducted once a week for two and half hours over a 6-week period in community-based settings. Attendance at the workshops consists of people with chronic health conditions and the workshops are facilitated by trained and certified leaders. The specific topics covered at a workshop include: 1.) Techniques for dealing with problems such as frustration, fatigue, pain and isolation, 2.) Exercise for maintaining and improving strength, flexibility and endurance, 3.) Nutrition, 4.) Appropriate use of medications and 5.) Communicating effectively with health professionals.

The overall grant program was funded in the American Recovery & Reinvestment Act of 2009 in the amount of \$27 M and 45 states were awarded grant funds in February 2010. In March 2010, LA was awarded \$400,000 for the Chronic Disease Self Management Program. Of the \$400,000 awarded to the Governor's Office of Elderly Affairs (GOEA), \$181,545 is currently appropriated in FY 11 (salaries & related benefits - \$33,102, travel - \$2,500, operating services - \$32,691, professional services - \$45,279, area agency on aging - \$67,973). To date, the GOEA has expended approximately \$83,481 of appropriated grant funds. The GOEA anticipates expending the remaining budget authority in the amount of \$98,064 and the requested BA-7 authority of \$58,600 in FY 11. The remaining \$159,855 of the grant funds will be budgeted in FY 12. The grant period is from March 2010 - March 2012.

The requested expenditures will be as follows:

\$13,035 - salary and related benefits (GOEA administrative overhead associated with grant)
\$9,170 - travel
\$9,395 - operating services
\$12,000 - Capital Area Agency on Aging (AAA)
\$15,000 - Cenla Area Agency on Aging (AAA)
\$58,600 - TOTAL

There is a required 25% match for grant funds, but that match will be met with in-kind expenses of the participating area agency on aging organizations and councils on aging organizations.

In January 2010, the GOEA invited all eligible state organizations to attend an informational meeting about the Chronic Self Management Program grant opportunity. The 4 organizations that expressed interest in participating were selected by the GOEA. The 2 lead agencies are Capital AAA and Cenla AAA and the two satellites are St. James Council on Aging (COA) and North Delta AAA. According to the GOEA, lead sites receive funding to reach 250 individuals each, receive 300 participant manuals, send 3 master trainer candidates to master training and outreach and recruit in the community to build awareness of the program. The satellite sites receive 20 participant manuals and recruit and send 2 master trainer candidates to master training. North Delta AAA (satellite) will coordinate efforts with Cenla AAA (lead) and St. James COA will coordinate efforts with Capital AAA (lead).

January 21, 2011

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

To date, LA's Chronic Self Management Program has assisted approximately 66 elderly individuals ("completers") in FY 11 and anticipates assisting approximately 69 more individuals. For FY 12, the GOEA anticipates assisting 365 more individuals for a projected grant total of 500 individuals completed.

II. IMPACT ON FUTURE FISCAL YEARS

The remaining \$159,855 of the \$400,000 grant will be budgeted in the FY 12 budget. Upon approval of this BA-7, there will be \$240,145 appropriated for this grant in FY 11. To the extent the FY 11 appropriated grant funds are not completely expended in FY 11, the GOEA will carry forward the remaining federal budget authority into FY 12 via a carry-forward BA-7.

The GOEA has until March 2012 to completely expend the total \$400,000 grant.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$310,628	Animal Health & Food Safety Services	\$0	0
Federal Funds:	\$0	Agro-Consumer Services	\$0	0
		Forestry	\$310,628	0
Total	<u>\$310,628</u>	Total	<u>\$310,628</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$310,628 of statutory dedicated funding from the State Emergency Response Fund (SERF) for expenses incurred by the Department of Agriculture & Forestry for the preparation and response to wildfire activity in October 2010 statewide. Based upon historical data from the department, from FY 96 to FY 09 the average October fire count is 159 total fires, 1,017 total acres burned at a burn rate of 5.5 average acres burned per fire, while the fire count in FY 11 in October has been as follows: 512 fires, 5,349 total acres burned and 10.5 average acres burned per fire. The FY 11 October fire count has increased approximately 222% over the average October fire count from FY 96 to FY 09.

R.S. 39:100.31 (B) states that SERF is to fund expenses incurred as a result of activities associated with the preparation for and response to an emergency or declared disaster. On 10/21/10, the governor issued Proclamation No. 84 BJ 2010 titled *State of Emergency - Imminent Threat of Wildlife*, which declared a state of emergency from 10/21/10 to 11/20/10.

The specific expenditures are as follows:

\$104,147 - aviation section (flight hours - \$71,896, aviation fuel costs - \$32,251). The aviation section has flown 653.6 hours at a cost reimbursement rate of \$110 per hour ($\$110 \times 653.6 = \$71,896$). The aviation fuel cost is associated with the purchase of approximately 7,700 gallons of aviation fuel at an average price per gallon of approximately \$4.20 per gallon.

\$37,718 - fuel consumption of dozers, transports and engines. These fuel expenditures are for the purchase of approximately 13,711 gallons of fuel (average cost per gallon, \$2.75).

\$96,498 - employee overtime compensation. Approximately 170 employees worked 4,385 hours above required working hours per day and/or per week in the month of October.

\$72,265 - equipment usage (dozer and transport usage). These expenditures are associated with a reimbursement rate for dozer usage of \$70/hour.

The current unappropriated fund balance within SERF is approximately \$3 M. Upon approval of this BA-7, this unappropriated fund balance will be reduced to approximately \$2.7 M. This BA-7 reimburses the department for expenditures already expended in FY 11. The department originally utilized SGF for these expenditures and upon approval of this BA-7 will be able to swap those SGF expenditures for SERF expenditures.

Parishes impacted by these wildfires include: Allen, Avoyelles, Beauregard, Bienville, Bossier, Caddo, Calcasieu, Caldwell, Catahoula, Claiborne, DeSoto, East Baton Rouge, East Carroll, East Feliciana, Evangeline, Franklin, Grant, Jackson, Jefferson Davis, LaSalle, Lincoln, Livingston, Morehouse, Natchitoches, Ouachita, Rapides, Red River, Richland, St. Helena, St. Tammany, Sabine, Tangipahoa, Union, Vernon, Washington, Webster, West Carroll, and Winn.

NOTE: La is a member of the Southeastern States Forest Fire Compact Commission. LA's reimbursement rates for aviation and dozer usage is \$110/hour (aviation) and \$70/hour (dozer). Other state members of the compact include: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia.

Self-Generated Revenue:	\$0	Scholarships & Grants	\$0	0
Statutory Dedications:	\$0	TOPS Tuition	\$0	0
Federal Funds:	\$2,173,742			
Total	<u>\$2,173,742</u>	Total	<u>\$2,173,742</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal funds at the LA Office of Student Finance Assistance (LOSFA) by \$2,173,742 in FY 11 from the National College Access Challenge Grant Program (CACGP). The purpose of the College Access Challenge Grant Program (CACGP) is to foster partnerships among federal, state, and local governments and philanthropic organizations through matching challenge grants that are aimed at increasing the number of low-income students who are prepared to enter and succeed in postsecondary education. A 50% state match is required, and LOSFA is using \$1,110,787 of the Early Start Scholarship Program expenditures to satisfy the match.

LOSFA will use these Federal funds for the following purposes in FY 11:

1. Salaries and wages (\$46,608) to fund a Program Director for 7 months in FY 11. This position is currently funded at Board of Regents with SGF. The annual salary of the Program Director will be \$79,900.
2. Employee benefits (\$12,977) for the Program Director to fund retirement, medicare, & group insurance for 7 months in FY 11.
3. Travel (\$6,417) to provide professional development training to CACGP partners.
4. Materials and Supplies (\$963) to fund meeting materials, instructional guides and college access handbooks for educators.
5. Professional Services (\$1,309,388) to fund a contract for web-based portal. The proposed interactive web based portal includes college access and career readiness services to be provided to all LA students related to academic, financial and social preparation for postsecondary enrollment. The portal should have the capacity to store academic and financial data on students; utilizing that data to match students to college access resources while tracking progress towards and attainment of application and enrollment in postsecondary education. Services will be available to students, parents and college access service providers.
6. Other Charges (\$700,000) to fund the EXPLORE and PLAN College Readiness and Career Assessments for all 8th grade (\$7.14 per assessment) and 10th grade (\$8.59 per assessment) public school students; and School, District and State EPAS and College Success Reporting. Additional Other Charges of \$50,000 to fund the SREB/Go Alliance Course Modules (partnered with 6 states to share costs of course development and training) and Professional Development/support training for graduation coaches and career transition counselors.
7. Interagency Transfers (\$45,054) to fund a memo of understanding with Board of Regents (GEAR UP) to host statewide student and parent college access conference (EXPLORER Club Conference - Preparing Parent for Possibilities Initiative) which includes training on and interactive use of the new web based portal.
8. Acquisitions (\$2,335) to fund net books, projector(s) and air cards for on-site presentations.

II. IMPACT ON FUTURE FISCAL YEARS

The grant amount for FY 11 and thereafter increases to \$2,221,573 per year based on annualizing the salary and related benefits amount appropriated in this BA-7. LOSFA anticipates expending these funds in future years on purposes similar to those described in this BA-7.

DEPARTMENT: Public Safety

AGENDA NO.: 3

AGENCY: LA Highway Safety Commission

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Highway Safety Commission	\$1,121,650	0
Interagency Transfers:	\$1,121,650			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,121,650</u>	Total	<u>\$1,121,650</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Highway Safety Commission (LHSC) is requesting approval to add \$1,121,650 of Interagency Transfers revenue to its budget to provide funding for occupancy protection (seat belt and child safety restraints usage) enforcement. The funding originates from the LA Department of Transportation (TTF-Federal). The funding is part of the flexible funding for states, which may be used to carryout safety projects included in the state's strategic highway safety plan.

This funding will be utilized to support the occupant protection emphasis area of LA's strategic highway safety plan. It will be distributed as follows:

\$476,650 - Occupant Protection Enforcement Plan: Law enforcement agencies are selected by the LHSC based on the safety belt survey results from their area and the number of non-restrained driver fatalities in the parish. Selected agencies will be required to support the national Click it or Ticket campaigns by conducting high visibility enforcement saturation patrols. Enforcement strategies include nighttime enforcement and safety belt check points. The LHSC will designate agencies to conduct a minimum of two safety belt checkpoints per month. Contracted agencies will also be required to support any "Safe Community" Occupant Protection initiatives in their area.

\$45,000 - Safe Communities Occupant Protection Plan: Funds will provide for additional capabilities for the 5 established Safe Communities (Lincoln, St. Martin, South Central LA, Baton Rouge, and New Orleans). These additional capabilities will be strictly focused on occupant protection activities at the community level. Mini-grant programs will be conducted, such as town goal challenges, teen belt challenges among community schools, occupant protection banners, and business safety belt policy initiatives. It is anticipated that each of the five communities will prepare a plan within 30 days of receiving a grant to come up with a detailed plan to support occupant protection in their respective communities.

\$550,000 - Occupant Protection Media Plan: LHSC has a media purchase contractor in place. Each year a new contract is completed. One of the primary requirements of the contract is that the vendor has to prepare a detailed media purchase plan and submit it to the LHSC for approval within 30 days of the award of the contract. The funds will be used to extend the market saturation, and as outreach to LA minority communities.

\$50,000 - Conduct a study identifying strategies for improving safety belt use in Louisiana.

II. IMPACT ON FUTURE FISCAL YEARS

The funding in this BA-7 is part of a \$1.35 M grant from the LA Department of Transportation. The balance of the grant funding (\$228,350) is to be expended in FY 12.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedication budget authority by \$1 M from the White Lake Property Fund in order to perform some 3.9 miles of intracoastal shoreline stabilization. Current projections estimate that if the shoreline is not stabilized, approximately 15,000 acres of agricultural land will become permanently inundated with water within the next two years.

The Department of Wildlife & Fisheries will budget these funds as Major Repairs. The work involves putting down rock boulder to stabilize the erosion of the intracoastal waterway. In addition, the department is pursuing additional funding from the North American Wetlands Conservation Act and will further restabilize the shoreline to the extent that additional funding is obtained.

The White Lake Property Fund is comprised of all revenues from royalties, rentals, leases, donations, and fees for use of the property. Monies in the fund are used for the the operation, maintenance, administration, control, management, and enhancement of the White Lake Property and to promote its wildlife and ecosystem conservation and for education and research purposes associated directly with the property. The balance of the fund as of 11/18/10 is \$1,469,252. If this BA-7 request is approved, the projected fund balance as of 06/30/11 will be approximately \$1,142,697.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to allow the agency to budget funds received from the state of Tennessee related to a Tennessee severe flooding event. These funds are a reimbursement of personnel (\$9,555) and travel costs (\$6,259) incurred by GOHSEP personnel for a third period of 30 days (beginning on 10/11/10) following this weather event (initial 30-day reimbursement of expenses was approved in September and second period approved in October by JLCB). GOHSEP personnel participating in this 30-day deployment included one public assistance officer. Travel expenditures to be reimbursed (as per state travel regulations) are as follows:

Rental Vehicles	\$1,300
Air Travel	\$377
Per Diem	\$1,560
Lodging	\$2,937
Laundry/phone	<u>\$85</u>
Total	\$6,259

LA is a member of the Emergency Management Assistance Compact (EMAC) Program which is a congressionally ratified organization that is administered by the National Emergency Management Association and was created in 1996 to provide state-to-state assistance during times of emergency.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal grant funds provided to the state by the Center for Medicare & Medicaid Services (CMS) for the Medicare Enrollment Assistance Program. Funds are awarded as part of the Affordable Care Act. This grant award is 100% federal funding with no state match required. The purpose of this program is to provide outreach to individuals throughout the state with a special emphasis on rural communities and to increase public awareness and enrollment for the benefits available under Medicare Part D, Low Income Subsidy (LIS) and Medicare Savings Plan (MSP).

Two separate 2-year grants totaling \$645,823 have been provided to the state by CMS for this purpose. This BA-7 budgets only the first year funding with the remainder to be budgeted through the FY 12 budget process. This BA-7 includes a total of \$163,372 which is to be disbursed to the Aging & Disability Resource Centers (ADRC) and \$159,539 to the Area Agencies on Aging (AAA).

Funding for the 2 grants will be expended as follows:

ADRC Grant - Funding will be distributed to all nine of the state's ADRCs to provide training to non-profit organizations on how to enroll clients or refer clients to the appropriate enrollment center. These clients will typically be rural and low income. The distributions are as follows:

Caddo ADRC - \$18,392
Cajun ADRC - \$24,243
Calcasieu ADRC - \$13,205
Capital ADRC - \$30,934
Cenla ADRC - \$15,121
Jefferson ADRC - \$18,643
North Delta ADRC - \$15,180
Orleans ADRC - \$3,581
Terrebonne ADRC - \$8,076
Admin/Evaluation Costs - \$12,997 (grant allows 8% of total funding for this purpose)
Travel - \$3,000

AAA Grant - Funding will be distributed to the 23 Area Agencies on Aging who chose to participate in this program. The AAAs will receive funding based upon the number of persons who submit applications in their region. The AAA will be paid \$100 per applicant who submits the application. The estimated distribution for FY 11 plus administrative costs are as follows:

Allen AAA - \$1,200
Beauregard AAA - \$1,100
Bienville AAA - \$7,500
Caddo AAA - \$2,000
Calcasieu AAA - \$2,500
Caldwell AAA - \$1,500

Cameron AAA - \$2,500
Claiborne AAA - \$1,000
DeSoto AAA - \$5,600
EBR AAA - \$2,500
Jefferson AAA - \$20,850
Jefferson Davis AAA - \$3,000
Lafourche AAA - \$4,000
Livingston AAA - \$1,500
New Orleans AAA - \$5,000
St. James AAA - \$1,800
St. John AAA - \$600
Terrebonne AAA - \$8,000
West Carroll AAA - \$2,000
Cajun AAA - \$12,500
Capitol AAA - \$21,950
Cenla AAA - \$23,150
North Delta AAA - \$2,750
Additional award - \$4,568*
Admin/Evaluation Costs - \$12,471 (grant allows 8% of total funding for this purpose)
Travel - \$8,000

*Additional funds have been provided following the receipt of the grant award letter. The Office of Elderly Affairs will determine the distribution of these funds at a later date. This will allow additional funds to be distributed to those AAAs which will exceed original estimates for the number of applicants.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 budgets the first year of a two year federal grant from CMS totaling \$645,823. The remaining grant funding will be budgeted in the FY 12 budget.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$1,328,535 in the Community-Based Program from the LA Medicaid Program. The source of IAT is Federal funds Money Follows the Person Demonstration (MFP) Program from the U.S. Department of Health & Humans Services, Centers for Medicare & Medicaid Services (CMS).

The MFP Rebalancing Demonstration Program was authorized by Congress in Section 6071 of the Deficit Reduction Act of 2005 (DRA) and was designed to provide assistance to states to balance their long-term care systems and help Medicaid enrollees' transition from institutions to the community. In 2007, the Medicaid Program received a MFP demonstration grant award of \$30.9 M for 5 years. Under MFP, the Office for Citizens with Developmental Disabilities (OCDD) must transition 320 individuals from public and private ICF/DD facilities to community living settings through 2014. To date, OCDD has transitioned 26 individuals from nursing homes into community living under MFP.

Provisions of the Affordability Care Act (ACA) extends the MFP Demonstration Program 5 years, through 9/30/16, and appropriates additional MFP funds. OCDD will receive \$1,328,535 in additional MFP funds in FY 11. The total amount of additional MFP funds over 5 years is \$6,270,319.

Year 1	\$1,328,535
Year 2	\$1,668,430
Year 3	\$1,588,299
Year 4	\$1,184,797
Year 5	<u>\$500,258</u>
Total	\$6,270,319

In FY 11, OCDD estimates that 203 individuals will be transitioned into community living with the \$1.3 M of additional MFP funding.

	ICF/DD Transitions	Kids Transitions
Greater New Orleans (private)	33	0
North Lake	33	2
Central LA	44	1
Northwest LA	<u>88</u>	<u>2</u>
Total	198	5

Expenditures for this BA-7 request are as follows:

Personal Services - \$358,603

Personal services are for seven months of salary expense (\$280,180) and related benefits (\$78,423) for 6 job appointments to assist in transitioning individuals from large public and private ICF/DD facilities (\$280,180). The job appointments are as follows: Program Manager, Program Monitor, 2 Contract Reviewers, IT Applications Programmer, and Administrative Coordinator. Civil Service has approved only 4 of the job appointments. Two job appointments will be domiciled at Pinecrest

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Supports & Services Center in Pineville. The remaining job appointments will be domiciled in the Baton Rouge central office. OCDD will select the job appointments from staff slated for layoffs by selecting first from within OCDD and then within DHH before considering any external applications.

Travel - \$41,000

Travel expenses are for MFP staff to various public and private ICF/DD to determine what barriers prevent residents from transitioning to community living and will work to remove those barriers.

Operating Services - \$13,540

Awaiting information from the agency.

Supplies - \$113,540

Purchase of supplies necessary to provide Direct Support Worker Specialization Training and Family/Caregiver training in direct care responsibilities (\$105,000). Four Resource Center will receive \$26,250 for training supplies. The supplies allow for hands on training such as dressings, changing diapers, positioning for feeding, transferring, cleaning tracheotomy and catheter sites, g-tube feeding, and wound care. In addition, the purchase of general office supplies such as pens, paper, copies, files (\$8,540).

Other Charges - \$735,582

▣ Housing Relocation Assistance - \$130,000

A statewide contract with local real estate agents (no more than 10) to find quality housing for individuals transitioning to the community in specific area as well as providing assistance negotiating and setting up leases.

▣ Community Living Training - \$100,000

Funding will provide payment for actual out-of-pocket costs related to transition planning and setting up the new residence for the individual to move. Payment for items such as furniture, basic home medical equipment, diapers, back-up generators for ventilator dependent children, transportation costs, payment of refundable rent and utility deposits, 1-3 months of rental payment. OCDD estimates an average cost of \$2,500 per individuals.

▣ Training - \$291,560

OCDD will provide Developmental Services Worker (DSW) training curriculum. DSW behavioral courses must be taught by a certified psychologist (licensed) and medical courses (depending on the course) by a registered nurse, qualified LPN, dietician, speech therapist, or occupational therapist. The instructor manuals for each module specify trainer qualifications. OCDD will begin delivery of this advanced training curriculum through the OCDD Resource Centers.

▣ Travel - \$92,500

OCDD will provide training to Direct Support Workers and Family/Caregiver. Training costs include reimbursement for mileage, meals, and lodging. OCDD aims to train at least 432 people through 2013.

▣ Communication - \$21,522

OCDD will provide family therapy to family and/or caregivers. OCDD will target Early Steps providers for family therapy first.

▣ Transition Maintenance - \$100,000

Transition maintenance will pay for a medical or support service that is included in the Medicaid Plan of Care for which there is no enrolled provider, a service needed for which Medicaid does not cover, a purchase made for an item or repair to item not covered by Medicaid, or payment for a service needed that the person has capped out. Transition Maintenance may also be payments related to a quality of life and community inclusion issue.

Acquisitions - \$66,000

Purchase of 2 scanners (\$1,500), 2 hybrid vehicles that will be replacing 2 older vehicles with hybrids (\$45,930), and 6 laptops, printers, docking stations and regular monitors (\$18,570).

II. IMPACT ON FUTURE FISCAL YEARS

Affordability Care Act (ACA) extends the MFP Demonstration Program five years, through 9/30/16. OCDD will receive a total \$6,270,319 MFP funds over 5 years. OCDD will be able to carry forward MFP funds until 9/30/16

Federal Funds:	\$0	Unalloted	\$0	0
Total	<u>\$249,999</u>	Total	<u>\$249,999</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$249,999 in the Administration Protection & Support Program from the LA Housing Finance Agency. The source of SGR is Federal funds from the Tenant Based Rental Assistance (TBRA) Program under the HOME Investment Partnership Program from the U.S. Department of Housing & Development (HUD). The HOME Investment Partnership Program is administered through the LA Housing Finance Agency.

TBRA is a rental subsidy program funded by HUD. The TBRA funds are meant to supplement the Money Follows the Person Demonstration (MFP) Project. The MFP Rebalancing Demonstration Program was authorized by Congress in Section 6071 of the Deficit Reduction Act of 2005 (DRA) and was designed to provide assistance to states to balance their long-term care systems and help Medicaid enrollees' transition from institutions to the community. In 2007, the Medicaid program received a MFP demonstration grant award of \$30.9 M for 5 years. Of the \$30.9 M, \$8.8 M is available for the Office of Aging & Adult Services (OAAS) to assist with transition of 440 individuals from nursing homes to community living settings through 2014. To date, OAAS has transitioned 59 individuals from nursing homes into community living under MFP.

The TBRA Program helps low-income individuals afford housing costs by providing assistance with security and utility deposits and short-term rent assistance (up to 2-months). Using TBRA funds will provide "bridge" funding to make rental housing more affordable while individuals are on waiting lists for Section 8 housing choice vouchers, waiting to receive permanent rental vouchers through the Permanent Supportive Housing (PSH) Program, waiting to resume receipt of their SSI or SSDI check. OAAS will use TBRA funds as well as the PSH Program to assist individuals who are transitioning from institutional care to community living under the MFP Program.

Expenditures for this BA-7 request are as follows:

Other Charges - \$249,999

OAAS will contract with Quadel Housing Consultants to oversee the TBRA Program. Quadel has experience in HUD guidelines and regulations. Presently, Quadel has a \$25.4 M multi-year contract with the Office of Community Development.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Total	<u>\$71,325</u>	Total	<u>\$71,325</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$71,325 in the Administration Protection & Support Program. The source of Federal funds is a demonstration grant to coordinate respite care across the lifespan of an individual from the Department of Health & Human Services Administration. The total grant award is \$188,838 for 3 years.

Year One	FY 11	\$71,325
Year Two	FY 12	\$58,757
Year Three	FY 13	<u>\$58,756</u>
Total -		\$188,838

The purpose of the grant is to coordinate respite care across the lifespan for LA residents. Respite grant funds cannot be spent on direct care services. Specifically, the grant will focus on educating consumers, potential providers, relevant agencies and social workers about respite resources through the state. Also, funds from the grant will be used to update the Louisiana Answers web site with a special "Respite" category and add a central list for all respite providers in the state. The Louisiana Answers web site assists older adults and persons with disabilities in locating supportive services and eldercare resources in their community.

Expenditures for this BA-7 request are as follows:

Travel - \$4,500

Attendance for 2 staff at an annual grantee conference (\$3,450) as well as routine statewide in-state travel for the project manager who will meet with various organizations and attend various public awareness events (\$1,050).

Supplies - \$3,603

Operating supplies including pens, paper, binders, tablets, file folders, etc. (\$903). Purchase of 9 VoIP phones that allow the 9 regional Aging & Disability Resource Centers (ADRCs) to receive soft transfers from the 211 system (\$2,700). Voice over Internet Protocol (VoIP), is a technology that allows you to make voice calls using a broadband Internet connection instead of a regular (or analog) phone line. The Federal Communications Commission (FCC) reserved the 211 dialing code for community information and referral services (211 works a bit like 911).

Contracts - \$56,540

▫ Project Manager - \$49,103

A part-time project manager to work with the LA Lifespan Respite Care Coalition, the Governor's Office of Elderly Affairs, and participate in health fairs and other educational activities.

▫ Juliana Padgett, Ph.D - \$1,537

Dr. Juliana Padgett of the Tulane School of Social Work will conduct an evaluation of the public awareness efforts throughout the 3-year grant period. Dr. Padgett is an academic gerontologist.

▫ Bryski Marketing - \$5,900

December 17, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Public awareness marketing of respite services available statewide.

Other Charges - \$6,682

Acquire phone lines to ensure “soft roll overs” from the 211 service provider to the local Aging & Disability Resource Centers (ADRC) (\$1,080). “Soft roll over” is a term used by the telecommunications industry which means that when one person calls a clearing house, the system will allow the 211 operator to call the other agency where the caller needs to be directed and make sure the 2 parties have connected and no one is lost in the transfer. Printing and postage for flyers and brochures to support the Respite grant (\$5,602).

II. IMPACT ON FUTURE FISCAL YEARS

The LA Lifespan Respite Project Grant period is 9/1/10 through 08/31/13 and the total award amount is \$188,838 (FY 11: \$71,325; FY 12: \$58,757; and FY 13: \$58,756).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$1,434,108			
Total	<u>\$1,434,108</u>	Total	<u>\$1,434,108</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$1,434,108 in the Personal Health Services Program, Office of Public Health (OPH). The source of Federal funds are from the following grants: (1) an increased award of \$664,501 of an existing grant from the Centers for Disease Control and Prevention (CDC); and (2) a new grant of \$769,607 from the U.S. Department of Health & Human Resources, Administration on Children, Youth & Families, Family & Youth Services Bureau. These grants require no state match.

On 9/16/10, OPH received an additional award of \$664,501 for HIV Expanded Testing Initiative from the CDC for 3 years. The total 3-year award amount is \$1,993,503. The previous year's award was \$1,579,533. In OPH, the HIV/AIDS Program (HAP) coordinates programs designed to prevent the transmission of HIV/AIDS. HAP will use the additional grant funds to increase HIV screening, counseling, testing and referral services to populations disproportionately affected by HIV, primarily targeting African-Americans.

On 9/27/10, OPH received a \$769,607 grant award for the Personal Responsibility & Education Program (PREP) from the Family & Youth Services Bureau within the U.S. Department of Health & Human Services. The purpose of PREP is to educate youth between the ages of 10 and 19 on both abstinence and contraception for the prevention of pregnancy and sexually transmitted infections, including HIV/AIDS. OPH will use the PREP grant award to fund Sisters Informing, Healing, Living, and Empowering (SIHLE), a group level intervention program. SIHLE is a peer-led, social-skills training intervention aimed at reducing HIV sexual risk behavior among sexually active African American teenage females, ages 14-18, who are at risk for acquiring or transmitting HIV. SIHLE enhances awareness of HIV risk reduction strategies such as abstaining from sex, using condoms consistently, and having fewer sex partners. SIHLE is one of PREP's approved teen pregnancy prevention intervention programs. During the first year, 180 youths in each region will participate in the SIHLE Program, a total of 1,620 youths. During the second year, the number of youth will increase to 350 youths in each region, a total of 3,150 youths.

To implement both the HIV Expanded Testing Initiative and the PREP grants, OPH will contract with community-based organizations (CBOs) and varies LSU hospitals. Expenditures for this BA-7 request are as follows:

HIV EXPANDED TESTING INITIATIVE

Supplies - \$97,827

The cost of educational materials includes brochures (\$15,000) and HIV testing and info posters (\$5,000). The cost of supplies for HIV Rapid Testing that allows individuals to have access to preliminary test results within 20 minutes and is the testing technology recommended by CDC (\$77,827). The use of rapid testing technology helps to assure that clients actually receive their test results in a timely manner rather than being lost to follow-up during the two week waiting period of traditional testing.

Other Charges - \$566,674

Contractors will provide rapid HIV testing of positives to include risk assessment, testing with no contact information, testing with contact information, disclosure/post-test, referral and follow-up and partner elicitation. Rapid HIV testing of negatives costs approximately \$45 per test and rapid HIV testing of positives costs approximately \$80 per test. Contracts with LSU - HSC and Acadiana CARES are personnel contracts to help support HAP's central office. Also, the grant allows cost allocation for administrative overhead in the amount of \$86,674.

Total	<u>\$529,273</u>	Total	<u>\$529,273</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$529,273 in the Personal Health Services Program, Office of Public Health (OPH). The source of funds is the Affordable Care Act (ACA), Building Epidemiology, Laboratory, & Health Information Systems Capacity in the Epidemiology grant from the Centers for Disease Control & Prevention (CDC). This grant requires no state match.

On 9/24/10, OPH was award \$529,273 from the ACA Building Epidemiology, Laboratory, & Health Information Systems Capacity in the Epidemiology grant. The ACA grant is for 2 years and the total grant award is \$1,058,546. OPH will use grant funds to strengthen their existing health information system capability of detecting and responding to infectious diseases and other major public health threats. OPH will use the ACA grant funds to conduct a training for Regional Rapid Response Teams as well as updating their existing health information system by purchasing computer hardware and software.

Expenditures for this BA-7 request are as follows:

Travel - \$18,700

In-state travel for 30 members of the Regional Rapid Response Team on realistic outbreak scenarios training. Reimbursement expenses include mileage (\$4,320); a 2-night hotel lodging (\$6,060); meals per diem (\$4,320), and training conference space rental (\$4,000).

Supplies - \$8,340

Funds will be used to purchase molecular salmonella serotype testing (\$5,340) and general office supplies including but not limited to printer supplies, external disks, flash drives (\$3,000).

Operating Services - \$51,640

The purchase of 30 software licenses (\$31,440) and the first year of the software maintenance contract (\$15,000). Also, the purchase of 25 licenses for iLinc video+audio software (\$5,200).

Other Charges - \$262,536

Expenses associated with IT contracts as follows: \$25,000 for Scientific Technologies Corporation for inbound messages and message mapping; \$50,500 Technology Engineers to extract data; \$43,000 Scientific Technologies Corporation to upgrade system for electronic reporting; \$75,000 for to be determined contract for gap analysis and message mapping; and \$69,036 for indirect costs.

Acquisitions - \$188,057

Expenses associated with IT equipment as follows: \$29,000 server; \$2,600 for 2 Adobe Creative Suite standard software licenses; \$3,000 for 2 GIS Arcview software licenses; \$3,000 for 2 new computers; \$1,000 for 2 MS Office Professional software licenses; \$20,000 for 85 database software licenses; and \$129,457 for Multiple Loci Variable Number Tandem Repeat Analysis testing equipment.

Statutory Dedications:	\$22,251,700			
Federal Funds:	(\$22,251,700)			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is a technical BA-7. There is no revenue or expenditure impact.

The purpose of this BA-7 request is to correct the means of financing by increasing Statutory Dedications budget authority by \$22,251,700 and decreasing Federal funds budget authority by \$22,251,700 in the Drinking Water Revolving Loan Fund (DWRLF), administered by the Office of Public Health (OPH).

On 10/22/10, the Joint Legislative Committee on the Budget approved a Federal funds budget authority increase of \$22,251,700 in the DWRLF. The source of the funds are Federal funds from the American Recovery & Reinvestment Act (ARRA) grant from the U.S. Environmental Protection Agency (EPA). The funds from the EPA must flow through the state Treasurer. Then, the Treasury department deposits the Federal funds into the Drinking Water State Revolving Fund statutory dedication. Finally, OPH/DWRFL receives appropriations from the Drinking Water State Revolving Fund statutory dedication to make loans to water systems. Therefore, this BA-7 corrects the means of financing from Federal to Statutory Dedication.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

DEPARTMENT: Justice

AGENDA NO.: 15A

AGENCY: Attorney General

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$456,169	Civil Law	\$456,169	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$0	0
Statutory Dedications:	\$0	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$456,169</u>	Total	<u>\$456,169</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Attorney General's Office is requesting approval to add \$456,169 IAT revenue to its budget to provide for additional ombudsman services provided through contractual services with the Advocacy Center. The IAT revenue originates as federal funds from DHH. A portion of the existing SGF appropriation to the Attorney General for the Advocacy Center contract will be utilized as a match for these Federal funds. The Advocacy Center has indicated that it was previously unaware of the availability of these Federal funds.

The current budget for ombudsman services includes \$625,000 of SGF. The Attorney General's Office is proposing to utilize \$456,169 of the \$625,000 as leverage to draw the 50% federal funding match available through DHH. According to the Attorney General's Office, the balance of the SGF (\$168,831) will be utilized to offset a proposed \$350,000 SGF cut in other programs in the Attorney General's Office.

The requested funding will be utilized to restore the Advocacy Center's funding to the FY 10 level. In FY 09, the Advocacy Center received \$888,800 SGF. In FY 10, the Advocacy Center's funding was reduced to \$625,000 but was able to utilize one-time federal funding from a non-recurring federal grant to supplant the reduced SGF received in that year. The funding requested in this BA-7 will increase the Advocacy Center budget for FY 11 to \$912,338.

The requested funding will be utilized to hire two staffers including a regional coordinator for north LA and an ombudsman to serve Lake Charles and Alexandria. The Advocacy Center is responsible for providing ombudsman services for people with mental or physical disabilities or the elderly. The center provides services to approximately 4,700 individuals statewide and has four offices (New Orleans, Baton Rouge, Lafayette, and Shreveport). The center also employs personnel in Houma, Alexandria, Monroe, and Covington but does not have offices in these communities.

II. IMPACT ON FUTURE FISCAL YEARS

The funding requested in this BA-7 is expected to continue in future fiscal years, thereby reducing the amount of SGF required to provide ombudsman services in the state.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office has no recommendation at this time. Additional information has been requested concerning the use of "freed up" funds. A recommendation will be made when this information is received.

Statutory Dedications:	\$0		
Federal Funds:	\$456,169		
Total	<u>\$456,169</u>	Total	<u>\$456,169</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal fund authority in Medical Vendor Administration for the purpose of drawing down federal matching funds and transferring these funds to the Department of Justice (DOJ). The source of Federal funds is Title XIX Medicaid Administrative Federal funds and represents match drawn down on SGF appropriated in the Department of Justice. This BA-7 is a companion to BA-7 15A.

The DOJ contracts with the Advocacy Center to operate the Ombudsman Program. The Ombudsman program intends to improve the quality of life for individuals with developmental disabilities who live in publicly funded, private Intermediate Care Facilities (ICF/MR) in Louisiana. The contractor assists individuals in making requests and initiating complaints relative to care. See BA-7 15A for additional program and expenditure details.

According to the Department of Health & Hospitals, \$456,169 in federal matching funds will be transferred (through an interagency transfer) to the Department of Justice for Medicaid Administrative allowable expenses provided by the Department of Justice through a contract with the Advocacy Center. These funds will be transferred on a monthly basis based on DOJ expenditure invoices provided to DHH. Based on the invoices, DHH will draw down federal financial participation at a rate of 50% state, 50% federal match.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon approval of companion BA-7 15A.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal grant funds awarded to the state by the Administration on Aging for the Statewide Legal Assistance Program. The first year of a 3-year award was originally budgeted in FY 10 (3/19/10) in the amount of \$99,654 as approved by the Joint Legislative Committee on the Budget (JLCB). However, the agency was unable to expend all of these funds in FY 10 and seeks to re-budget a portion of the grant funds for expenditure in FY 11. These funds will allow the agency to continue to fund contracts currently in place through FY 11 as detailed below. The grant allows the Office of Elderly Affairs to expend these funds into FY 13.

The Statewide Legal Assistance Program is designed to conduct a statewide survey on the needs of seniors and conduct outreach efforts to advise seniors of all legal resources available including those by phone and internet. The grant funds require 25% state match which will be provided through in-kind services by the Office of Elderly Affairs (11.5%) and from the LA Civil Justice Center (13.5%).

The Office of Elderly Affairs is the lead agency in this application. Other partners are the LA Civil Justice Center (LCJC), Southeast LA Legal Services, Advocacy Center, Capital Area Agency on Aging, the Pro Bono Project, and Elder Law Task Force.

Objectives of the grant are as follows:

- 1) conduct a statewide legal needs assessment on seniors
- 2) publicize the toll free legal helpline
- 3) provide a statewide toll free helpline to seniors statewide
- 4) develop packets and downloadable forms such as healthcare powers of attorney and living wills
- 5) refer seniors who need direct representation to legal service providers

A disaster hotline was created following hurricanes Katrina and Rita. This disaster hotline became a statewide helpline which was used following Hurricane Gustav for coordinating legal services for hurricane victims, answering questions regarding hurricane related matters such as food stamps and housing, providing information on Disaster Recovery Centers, and arranging for legal service to assist with FEMA appeals. Through the grant award this helpline will now provide legal assistance for seniors with the greatest social and economic need.

The budgeted expenses for these grant funds are listed below:

\$10,000 - personnel costs for the legal helpline for seniors to receive information and referral to legal service providers if assistance is needed. Work to be performed by the LA Civil Justice Center.

\$10,000 - oversight of the grant and monitoring reports received from the helpline, as well as conducting stakeholder meetings regarding reports of services provided to seniors. Work to be performed by the Thomas Law Firm.

\$3,000 - marketing plan to make seniors aware of the legal helpline. Work to be performed by Wilkinson & Foy, LLC.

\$2,000 - final report from information received from 500 seniors statewide regarding legal services. Work performed by LSU.

Total	<u>\$398,934</u>	Total	<u>\$398,934</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of State Police is requesting approval to add \$398,934 of Federal funds to its budget. The requested funding is a federal grant from the U. S. Justice Department. The funding will be utilized to provide for expenditures associated with child predator and sex offender investigations. Expenditures provided for include: overtime (\$35,490), funding for wages for 2 new computer forensic technicians who will be hired to process and analyze digital evidence seized during investigations (\$42,556), travel for 5 out of state training conferences regarding internet crimes against children (\$25,115), software license renewal charges (\$5,040), production of a public service announcement focused on child sexual predator awareness and prevention (\$26,000), and computer equipment and software (\$264,733). Expenditures for computer equipment includes \$100,000 for a sex offender registration and notification kiosk for the New Orleans Police Department to allow sex offenders to self-check in or report and update their records. Other computer equipment includes forensic software, cell phone examination devices, laptop and desktop computers, and digital cameras.

II. IMPACT ON FUTURE FISCAL YEARS

The grant referred to in this BA-7 totals \$498,495 and is to be expended over 2 fiscal years. The balance of the grant funding (\$99,561) is to be expended in FY12. The FY 12 funding will be utilized to provide for overtime (\$35,490), wages for 2 computer forensic technicians (\$42,556), travel for 2 out-of-state conferences regarding internet crimes against children (\$16,475), and software license renewals charges (\$5,040).

Statutory Dedications:	\$0			
Federal Funds:	\$5,330			
Total	<u>\$5,330</u>	Total	<u>\$5,330</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority for the Office of the State Inspector General (OIG) which has entered into a memorandum of understanding (MOU) with the FBI to join the Baton Rouge Corruption Task Force. The OIG has a cost reimbursement agreement with the FBI which will compensate the OIG for the overtime costs for its representative to the task force. The Inspector General has detailed a criminal investigator to be its representative. The Inspector General will run a monthly report of the overtime incurred by this individual and will bill the FBI on a monthly basis for reimbursement of such costs.

The mission of the Baton Rouge Corruption Task Force (BRPCTF) is to identify and target for prosecution instances of public corruption. The BRPCTF will enhance the effectiveness of federal/state/local law enforcement resources through a coordinated initiative seeking the most effective investigative/prosecutive avenues by which to convict and incarcerate offenders.

The Inspector General indicates that this is an initial allotment of funds from the FBI for this purpose. Depending upon the success of this initiative, additional federal dollars may become available in the future.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. However, additional federal dollars may become available depending upon the success of this initiative.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Total	<u>\$613,807</u>	Total	<u>\$613,807</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority for the expenditure of federal grant funds awarded by the Administration on Aging (AOA) for the Alzheimer's Disease Support Services Program and the Community Living Program. Both grant awards were originally received by the agency in September 2008, however, meeting certain criteria (including the creation of a client tracking database) was required by the AOA prior to the expenditure of these funds. These criteria were met which allowed these funds to be expended beginning in February 2010. The AOA has authorized the Office of Elderly Affairs to extend the grant period through 12/31/2010 which will provide for the full utilization of grant funds by the state.

The original grant award for the Alzheimer's Disease Support Services Program totaled \$275,391 and this BA-7 seeks to budget the remaining portion of this grant award in the amount of \$63,443. The original grant award for the Community Living Program was \$1,004,420. This BA-7 seeks to budget the remaining portion of this grant award in the amount of \$550,364. The total amount of grant funds budgeted through this BA-7 is \$613,807.

Both programs are designed to offer in-home services which will delay nursing facility placement for seniors. Services provided to seniors through these grant funds are transportation, caregiver respite, personal care, homemaker care (light housework), home delivered meals, congregate meals, home modification (ramps, grab bars, shower chairs), and material aid (adult diapers). As previously mentioned, the remaining funds must be encumbered prior to December 31, 2010.

Services for these 2 grants are provided in 2 regions of the state including the Capital Area region which includes the following parishes: East Baton Rouge, Ascension, East Feliciana, West Feliciana, Iberville, Point Coupee, and West Baton Rouge. The grant funds are also directed to the Northwest Area region which includes the following parishes: Caddo, Bossier, Webster, Claiborne, Bienville, Red River, Natchitoches, Sabine, and Desoto.

DHH and the Office of Elderly Affairs were piloting these efforts in the Capital Area region prior to the grant award. The grant award has allowed the 2 agencies to continue these efforts with additional funding as well as the expansion of this program to the Northwest Region as allowed by the AOA. This expansion has allowed this program to be administered in both a rural and urban setting.

The grant funds require a state match which will be provided through in-kind services provided by councils on aging.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$98,976			
Total	<u>\$98,976</u>	Total	<u>\$98,976</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget additional federal Title V/Senior Community Service Employment funds in the amount of \$98,976. The amount requested is the balance of the federal award for FY 11 that was not originally budgeted during the 2010 Regular Session. The original amount budgeted for this program for FY 11 was \$2,132,138. However, the total amount of Title V funds available to the state for FY 10 is \$2,231,114. This BA-7 request will allow the entirety of Title V funds (authorized by the Older Americans Act and received through the U.S. Department of Labor) to be budgeted and available to the state for expenditure during the current fiscal year. Grant funding not obligated by 6/30/2011 will be unavailable.

Title V/Senior Community Service Employment grant funds are utilized to provide work experience and training opportunities to low-income individuals at age 55 and over in non-profit 501 (c)(3) eligible organizations.

No state funds are necessary to match the additional federal funds appropriated through this BA-7 request.

A 10% match will be provided by the sub-recipients (local Area Agencies on Aging or catholic charities) through in-kind services or donations.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$1,943,876			
Total	<u>\$1,943,876</u>	Total	<u>\$1,943,876</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal funds at the LA Office of Student Finance Assistance (LOSFA) by \$1,943,876 in FY 11 from the National College Access Challenge Grant Program (CACGP). The purpose of the College Access Challenge Grant Program (CACGP) is to foster partnerships among federal, state, and local governments and philanthropic organizations through matching challenge grants that are aimed at increasing the number of low-income students who are prepared to enter and succeed in postsecondary education.

LOSFA will use these federal funds for the following purposes in FY 11:

1. \$82,250 for Salary for a CACGP Program Director.
2. \$24,675 for Related Benefits for a CACGP Program Director based on 30% of salary.
3. \$9,625 in Travel for CACGP Program Director (\$9,625) - The CACGP Program director will be responsible for making site visits and providing professional development training to CACGP partners. Travel may include non-federally funded employees conducting CACGP activities.
4. \$1,444 for Office Supplies.
5. \$388,840 in Other Charges for marketing and hosting Pre-College Goal Workshops, financial aid support studies, coordinate LA College Access Network Activities, including funds for maintenance and enhancements of web-based educational planning and communication tool.
6. \$350,000 in Other Charges to offset reductions to the Gear Up program and \$87,500 for professional development costs related to summer programs and College Access/Success Coordinators, including \$21,875 to fund a statewide conference.
7. \$122,500 in Other Charges for 3 system level contracts to provide \$8,750 to each 4-year institution's enrollment management office, using these funds focusing outreach efforts to areas with low participation in Early Start (state funded dual enrollment) and to provide student support counseling to existing students in 2-yr colleges. Participating institutions can use these funds to supplement the Federal TRIO Program or can conduct outreach initiative workshops at a cost of \$125 per workshop participant. The Federal TRIO programs are outreach and student services programs to identify and provide services to individuals from disadvantaged backgrounds.
8. \$131,250 in Professional Services for 10 contracts of \$13,125 each with 10 talent search programs in LA for outreach activities.
9. \$612,207 in Professional Services for statewide implementation of ACT's Educational Planning & Assessment System (EPAS) EXPLORE 8th grade and PLAN 10th grade college readiness and career assessments.
10. \$43,750 in Other Charges for professional development courses and support (\$26,250 allocated to SREB/Go Alliance).
11. \$87,500 in Other Charges for Articulation transfer support. LOSFA will use these funds to develop a software application to assist the state's EPortal Program.
12. \$2,335 for a computer, desk, and chair.

II. IMPACT ON FUTURE FISCAL YEARS

The grant amount for FY 11 and thereafter increases to \$2,221,573 per year based on annualizing the amount appropriated in this BA-7. LOSFA anticipates expending these funds in future years on purposes similar to those described in this BA-7.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT funds at the Louisiana Office of Student Finance Assistance (LOSFA) by \$206,413 in FY 11 from the National College Access Challenge Grant Program (CACGP). These funds were originally appropriated to the LA Board of Regents. This BA-7 transfers these federal funds from Regents to LOSFA. The purpose of the College Access Challenge Grant Program (CACGP) is to foster partnerships among federal, state, and local governments and philanthropic organizations through matching challenge grants that are aimed at increasing the number of low-income students who are prepared to enter and succeed in postsecondary education. LOSFA will use \$150,000 of these funds to develop a software application to assist the state's EPortal program, with the remaining \$56,413 for printing and travel to inform students and their parents about the importance of starting early to plan academically and financially for postsecondary education.

II. IMPACT ON FUTURE FISCAL YEARS

Statutory Dedications:	\$150,000			
Federal Funds:	\$0			
Total	<u>\$150,000</u>	Total	<u>\$150,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this proposed BA-7 is to increase the Statutory Dedications budget authority to allow the use of a portion of the fund balance in the Entertainment Promotion & Marketing Fund, which is currently \$288,605. The project will provide an upgrade of the entertainment website, including smartphone applications and in-house editing, as well as the production of print, audiovisual graphical, DVD and other promotional items. The fund consists of application fees for entertainment tax credits. Per R.S. 47:6007(D)(4)(ii)(aa), the fees may be appropriated "solely for promotion and marketing of LA's entertainment industry." In place since 2008, the fund received about \$200,000 per year for the first 2 years and \$276,970 in 2010. The annual appropriation for the Department is typically \$150,000. Given the anticipated activity within the program, it is anticipated that the 2010 level of fee proceeds will continue as long as the current level of tax credits remain in place.

The RFP for website improvements and traditional marketing materials is currently being advertised and was approved through the Procurement Support Team on 10/15/2010. At the time of approval, the Department of Economic Development indicated that the project would be funded through the current appropriation of the Entertainment Promotion & Marketing Fund. The estimated annual costs, according to the IT-10 form approved with the RFP review, are \$75,000 for FY 11, \$125,000 for FY 12, \$100,000 for FY 13 and \$50,000 for FY 14 for a total project cost of \$350,000. These costs will not become certain until the vendor is selected.

According to the FY 11 Executive Budget Supporting Document, the Entertainment Group at the Department of Economic Development (LED) is tasked with "promoting new and existing economic development in four industry sectors: digital interactive media, motion picture, music and live performance...(The group administers) 4 state mandated tax credit programs that promote continuing development of four target sectors." The group also attends trade shows and organizes meetings with prospects with the potential to increase entertainment activity in the state. For FY 11, the Entertainment Group is budgeted \$1,403,465, with \$185,000 in Statutory Dedications through the Entertainment Promotion & Marketing Fund, \$100,000 from LA Filmmakers Grant Fund (tax credit transfer fee), and \$1,118,465 in state general fund (these figures include carry-forwards). During FY 09, the last year for which comprehensive data is available, approximately \$101 M in entertainment tax credits were claimed according to the Tax Exemption Budget published by the Department of Revenue. About 98% of the credits claimed were from the Film Program. By all accounts, the current year is expected to be a banner year for the film program as activity is well beyond the activity in place at this time last year.

II. IMPACT ON FUTURE FISCAL YEARS

Since it is anticipated that the program will continue to expand and thus generate additional fees, it is expected that this appropriation will continue within the LED budget in subsequent years to be used for promotional and marketing activities as long as fee collections meet or exceed the appropriation. At this time, it is expected that fee proceeds, both in fund balance and new collections, will provide the revenue necessary to support this project above the current appropriation from the Entertainment Promotion and Marketing Fund.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
WITHDRAWN From JLCB**

The Legislative Fiscal Office offers no recommendation for this proposed BA-7 pending further review of relevant information. These issues are under review:

Issue 1: When the RFP for this project was approved through the Procurement Support Team on 10/15/2010, the Department indicated that funding was currently available in its existing appropriation from the Entertainment Promotion and Marketing Fund effectively nullifying the need for this BA-7.

Issue 2: The total amount of FY 11 funding requested for this project in the RFP process mentioned in Issue 1 was \$75,000. Therefore, the BA-7 should be reduced to \$75,000.

Issue 3: The funds are to be appropriated solely for marketing and promotion of the film industry, which matches the mission statement of the LED Office of Entertainment Industry Development (OEID). If current activities performed by OEID are considered marketing and promotion, the opportunity exists to supplant general fund with these dollars instead of creating new initiatives.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in order receive funds from the LA Sabine River Authority (\$40,000) and the Sabine Parish Tourist Commission (\$5,000). The Office of State Parks has entered into a Cooperative Endeavor Agreement with these governmental entities in order to offset operational expenses for Fort Jesup State Historic Site located in Many. The agreement expires on 6/30/2011.

Due to budget reductions in FY 11, the historic site was placed in caretaker status. Two positions were eliminated, leaving one position as a caretaker. Total funding for FY 11 is \$73,485 and provides for the salary and related benefits for the caretaker position, operating services and supplies.

The funding associated with this BA-7 request will allow the Office of State Parks to hire an interpretive ranger position to provide tours and interpret the park. A vacant position in the Office of State Parks will be utilized for this purpose for the remainder of this fiscal year. If this BA-7 request is approved, the site will be able to operate 5 days per week.

Funds will budgeted as follows:

Salaries - \$21,722 (prorated salary for interpretive ranger for 16 pay periods)
Other Compensation - \$13,763 (wages for low-level maintenance function)
Related Benefits - \$9,515 (retirement, Medicare, insurance)

II. IMPACT ON FUTURE FISCAL YEARS

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$5,000 from the Office of Lieutenant Governor, LA Serve Commission to the LA Outdoor Outreach Program (LOOP) within the Office of State Parks. These funds are a Learn & Serve Grant from the Corporation for National & Community Service.

The objective of the LOOP program is to provide quality outdoor education to underserved and at-risk youth by providing educational, recreational, and related outdoor programs. This funding will be used for trail development through removal of invasive plants and trail clearing in order to access an additional 600 acres of park property at Tickfaw State Park in Springfield. Expenditures will be budgeted as Other Charges and will specifically be for travel/transportation (\$1,824), printing (\$151) and materials and supplies (\$3,025). Printing expenses are for the completed student project reports to be displayed at the park and photos. Materials include saws, clippers, gloves, safety glasses, lumber and other items used to make walking bridges.

No state matching funds are required for these grants.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order receive funds from the Department of Transportation & Development. The original source of funding is monies received by DOTD from the Federal Highway Administration for the Recreational Trails Program. Louisiana's allocation for this program is \$1,447,358 and is 100% federally funded.

The purpose of the Recreational Trails Program is to process grants to federal, state, local governmental, non-profit organizations and commercial entities to build recreational trails for public use. The program was originally administered by the Office of the Governor. Executive Order BJ 2008-5 placed the Recreational Trails Program under the administration of the Department of Culture, Recreation & Tourism. The program has been operated in the Office of State Parks since January 2008. The grant agreement allows a total of 7% of the annual allocation to be used for the administration of the program. The Office of State Parks receives, approves and tracks grants, and submits payment requests to DOTD for administrative costs.

The requested \$96,225 represents the administrative expenses which were calculated using actuals based on salary and related benefits figures, as well as estimates for the anticipated costs for operating expenses, and will be utilized to supplant existing American Recovery & Reinvestment Act (ARRA) funding support. The remaining funds that are available for the administration of the program are used by DOTD. The funds will be budgeted as funds as follows:

Salaries - \$62,670 (existing administrative program specialist)
Related Benefits - \$21,116 (retirement, Medicare, insurance)
Other Charges - \$12,439 (travel, supplies, operational costs)

II. IMPACT ON FUTURE FISCAL YEARS

These funds will continue to be budgeted in future fiscal years in the Office of State Parks.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Department of Culture, Recreation & Tourism to allow the agency to budget federal funds from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). These funds are FEMA reimbursements for the Office of State Parks for expenses incurred as a result of Hurricane Gustav. This funding will flow through the Office of State Parks to the Office of Facility Planning & Control to cover the cost of project expenditures.

The reimbursements cover expenses related to debris removal at sixteen state parks and historic sites. The cost of the debris removal (over 40,000 cubic yards) at all facilities is \$1,681,323. FEMA funding will reimburse 90% of costs with the state being responsible for a 10% cost share. A total of \$1,386,427 has been received as reimbursement of these costs. The department expects to receive an additional \$126,765. This would bring total reimbursements to \$1,513,192. The remainder of these costs was absorbed by the Office of State Parks as part of the 10% state match requirement. The Office of State Parks utilized the State Parks Improvement & Repair Fund (Act 729 of 1989 Funding). This fund is made up of SGR generated by state parks and is to be used solely for the purpose of financing improvements and repairs at state parks.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Children & Family Services

AGENDA NO.: 12

AGENCY: Children & Family Services

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Executive Support	\$770,400	0
Interagency Transfers:	\$770,400	Prevention & Intervention Services	\$0	0
Self-Generated Revenue:	\$0	Community & Family Services	\$0	0
Statutory Dedications:	\$0	Field Services	\$0	0
Federal Funds:	\$0			
Total	<u>\$770,400</u>	Total	<u>\$770,400</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$770,400 in the Administration & Executive Support Program. The IAT funds will be transferred from the LA Workforce Commission (LWC), LA Rehabilitation Services (LRS). The source of IAT funds are \$164,095 SGF and \$606,305 Federal funds from Title IV Rehabilitation Act of 1998, Section 110 (based on the current match rate of 21.3% State and 78.7% Federal for Vocational Rehabilitation Program).

Act 939 (HB 1198) of 2010 transferred LRS and respective funding of \$61,521,293 and 325 T.O. from the Department of Children & Family Services (DCFS) to the LWC on 7/1/2010. As part of the transfer, LRS field offices were to remain at their existing locations statewide and only the LRS state office, housed in the Iberville building, was to be physically moved to the LWC building by 7/1/2010. In addition, the IT infrastructure for all LRS offices were scheduled to moved to LWC building by 7/1/2010. Unfortunately, the LRS state office's scheduled move out the Iberville building into the LWC building has been delayed until 1/31/2011. Currently, only the human resources and fiscal divisions of LRS state office has moved into the LWC building. Approximately 30 LRS state office employees remain in the Iberville building. Also, the Blind & Rehabilitation Information System (BRIS) used by LRS is still housed in the Iberville building and being maintained by DCFS.

In order to reimburse DCFS for costs related to supporting BRIS, including banking processing fees, the LWC and DCFS wish to enter into a Cooperative Endeavor Agreement (CEA) that allows LWC to reimburse DCFS through IAT funds a maximum of \$770,400. The CEA would only be active for six months, from 7/1/2010 thru 1/31/2011.

Expenditures for this BA-7 request are as follows:

BRIS Infrastructure - \$768,000

BRIS is used by LRS to track client payments by the Offices of Blind Services and Vocational Rehabilitation Program and interfaces with the statewide accounting system, ISIS. Based on actual BRIS IT charges of \$1,152, 000 from July 2009-March 2010, DCFS estimated a maximum IT cost of \$128,000 per month (\$1,152,000/9 months) to maintain BRIS.

Banking fees - \$2,400

A monthly fee not to exceed \$400 shall be reimbursed to DCFS for banking fees. Presently, Chase Bank charges \$400 per month for scheduled check writes from the BRIS system.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Approved By JLCB

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 13

AGENCY: Subgrantee Assistance

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Disadvantaged or Disabled Student Support	\$0	0
Interagency Transfers:	\$0	Quality Educators	\$0	0
Self-Generated Revenue:	\$0	Classroom Technology	\$0	0
Statutory Dedications:	\$0	School Accountability & Improvement	\$0	0
Federal Funds:	\$607,500	Adult Education	\$0	0
		School & Community Support	\$607,500	0
Total	<u>\$607,500</u>	Total	<u>\$607,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is to increase federal budget authority by \$607,500 in the Subgrantee Assistance agency to receive grant funds from the US Department of Education for the LA Safe & Supportive Schools Initiative. The Department of Education was awarded a total of \$13,553,866 to extend over a 4-year period. The goal of the grant is to create and support safe and drug-free learning environments and to increase academic success for students in high-risk schools. Data will be collected from participating schools that assess the conditions for learning, including school environment and safety, that will help schools understand the issues and conditions that students face so they can formulate intervention and prevention strategies. Technical assistance and professional development strategies will be provided to give schools the tools they need to increase student, parent, and staff engagement. There is no state match required to receive this grant.

For the first year of the grant, the Department of Education is requesting to budget \$1,721,962 for administration for the planning phase of the initiative. This request is in BA-7 #14. The US Department of Education does not require the state departments to implement any programmatic interventions at the local school district level in the first year, however, the Department of Education requested \$607,500 be budgeted in Subgrantee Assistance for the school systems. In subsequent fiscal years 80% of each year's grant award will be spent in the local school districts. For the first year of the grant, the participating school systems are receiving stipends to attend curricula trainings, meetings, and professional development. There will be 74 schools across nine districts participating in the grant activities. Each district will receive \$67,500.

In FY 11, the grant funds will be allocated to nine school districts. The first 5 districts targeted, Caddo Parish, East Baton Rouge Parish, Jefferson Parish, Lafayette Parish, and Tangipahoa Parish, were listed as having low graduation rates (below 60%), a high percentage of over-aged 9th graders, low promotion rates, low attendance rates, and higher than average suspension and expulsion rates. Four additional districts were targeted that were impacted by the Gulf Oil Spill: Lafourche Parish, Plaquemines Parish, St. Bernard Parish, and Terrebonne Parish. The Department of Education will give priority participation to schools in these districts with the lowest school performance scores and the highest suspension and expulsion rates. According to the Department of Education, the LA Department of Health & Hospitals has found there has been an increase in domestic violence, reported mental health referrals, alcohol consumption, and the unemployment rate in those districts in the last 100 days which is affecting students in the classroom.

II. IMPACT ON FUTURE FISCAL YEARS

The LA Safe & Supportive Schools Initiative grant will extend over a 4-year period. The total grant award amount for FY 11 is \$3,211,259. Of this total, \$607,500 will be budgeted in Subgrantee Assistance and \$1,721,962 will be budgeted in State Activities. There is a balance of \$881,797 which may be carried forward in subsequent fiscal years. The Department of Education anticipates receiving the following in subsequent fiscal years: FY 12 \$3,452,813, FY 13 \$3,438,441, and FY 14 \$3,451,353.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive Office	\$0	0
Interagency Transfers:	\$0	Management & Finance	\$0	0
Self-Generated Revenue:	\$0	Quality Educators	\$0	0
Statutory Dedications:	\$0	Student & School Performance	\$0	0
Federal Funds:	\$1,721,962	School & Community Support	\$1,721,962	0
		Auxiliary Account	\$0	0
Total	<u>\$1,721,962</u>	Total	<u>\$1,721,962</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is to increase federal budget authority by \$1,721,962 in the State Activities agency to receive grant funds from the U.S. Department of Education for the LA Safe & Supportive Schools Initiative. The Department of Education was awarded a total of \$13,553,866 to extend over a 4-year period. The goal of the grant is to create and support safe and drug-free learning environments and to increase academic success for students in high-risk schools. Data will be collected from participating schools that assess the conditions for learning, including school environment and safety, that will help schools understand the issues and conditions that students face so they can formulate intervention and prevention strategies. Technical assistance and professional development strategies will be provided to give schools the tools they need to increase student, parent, and staff engagement. There is no state match required to receive this grant.

For the first year of the grant, the Department of Education is requesting to budget \$1,721,962 for administration for the planning phase of the initiative. The U.S. Department of Education does not require the state departments to implement any programmatic interventions at the local school district level in the first year, however, the Department of Education requested \$607,500 be budgeted in Subgrantee Assistance for the school systems. This request is in BA-7 #13. In subsequent fiscal years 80% of each year's grant award will be spent in the local school districts.

The funds will be budgeted in the following expenditure categories:

\$48,952	Salaries
\$497,886	Other Compensation
\$15,175	Related Benefits
\$83,854	Travel
\$447,824	Operating Services
\$116,831	Supplies
\$262,500	Professional Services
\$229,440	Interagency Transfers
<u>\$19,500</u>	Acquisitions
<u>\$1,721,271</u>	TOTAL

The salaries and related benefits (\$64,127) are to pay a portion of the salaries of 2 current Department of Education employees. The other compensation (\$497,886) is for the Department of Education to hire 11 one-year temporary employees. There will be 10 safety coaches and one education program consultant who will work with the participating school districts. The employees will be one-year temporary employees as the first year of the grant is a planning and training phase and the majority of the grant funds in subsequent fiscal years will be provided to the school districts instead of the Department of Education to implement the grant activities. The school systems will have the option to continue the employment of the temporary employees. There are no Department of Education employees available to perform these duties because they will have to spend 100% of their time working directly in the school systems and schools to which they are assigned. There are no department personnel who are able to continue their current duties and work in the school systems simultaneously. While it is possible that a current employee may have the qualifications to perform the duties, they would have to leave their current position.

November 19, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

The in-state travel (\$74,970) is for the department staff and safety coaches to assist the school districts with implementation activities. The out-of-state travel (\$8,884) is required by the grant. Travel to a special orientation meeting, an annual technical assistance meeting, and the Annual National Conference meeting are all required by the grant.

The operating services are for developing and maintaining a measurement system (\$375,000) for managing data at the school level, and for printing and distributing survey reports (\$72,824). The measurement system will be used to collect data from various state and local agencies that is related to school safety and risk behaviors among youth. The data collected will be analyzed and used to implement programmatic interventions to address problems identified by data.

The supplies are for curricula and materials to conduct five training sessions, and for professional development activities (anticipated attendance of 148 participants for each session): 1) Crisis Prevention Institute Curriculum Training Session (\$33,300); 2) Positive Action Curriculum Training Session (\$22,200); 3) Life Skills Curriculum Training Session (\$22,200); 4) Bullying Prevention Curriculum Training Session (\$22,200); and 5) Parenting Wisely - training provided for parents (\$16,931).

The professional services (\$262,500) are for evaluations to be conducted of each participating school district. The acquisitions are for laptops (\$13,500) and projectors (\$6,000) to be used in the school districts. The interagency transfers (\$229,440) are for indirect costs. The indirect costs are allowed for expenses such as accounting and personnel that are not directly related to the grant activities. The indirect cost rate approved by the federal government for this grant is approximately 13.3%.

II. IMPACT ON FUTURE FISCAL YEARS

The LA Safe & Supportive Schools Initiative grant will extend over a 4-year period. The total grant award amount for FY 11 is \$3,211,259. Of this total, \$607,500 will be budgeted in Subgrantee Assistance and \$1,721,962 will be budgeted in State Activities. There is a balance of \$881,797 which may be carried forward in subsequent fiscal years. The Department of Education anticipates receiving the following in subsequent fiscal years: FY 12 \$3,452,813, FY 13 \$3,438,441, and FY 14 \$3,451,353.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
WITHDRAWN From JLCB**

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 15 A

AGENCY: State Activities

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive Office	\$0	0
Interagency Transfers:	\$0	Management & Finance	\$500,000	0
Self-Generated Revenue:	\$0	Quality Educators	\$0	0
Statutory Dedications:	\$0	Student & School Performance	\$0	0
		School & Community Support	\$0	0
Federal Funds:	\$500,000	Auxiliary Account	\$0	0
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 15 B and would increase federal budget authority by \$500,000 in the State Activities agency to receive grant funds from the U.S. Department of Education for the Education Jobs Fund Grant (Ed Jobs). The federal guidelines allow for states to reserve no more than 2% of their allocation for administrative activities. The Department of Education is only requesting .3% be used for administration.

The funds will be used by the Department of Education to hire a CPA firm to monitor the school districts to ensure they comply with the programmatic and fiscal requirements of the federal government. The estimated cost to monitor a sample portion of entities receiving funds will be \$471,086 (64 of 133 entities will be monitored).

A software vendor (\$28,914) will also be needed to adjust the federal electronic reporting system to collect data on the Ed Jobs grant to meet the requirements of the American Recovery & Reinvestment Act of 2009 (ARRA).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon approval of companion BA-7 15 B.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 15 B

AGENCY: Minimum Foundation Program (MFP)

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	MFP	\$146,531,839	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$146,531,839			
Total	<u>\$146,531,839</u>	Total	<u>\$146,531,839</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 15 A and would increase federal budget authority by \$146,531,839 in the Minimum Foundation Program agency to receive grant funds from the U.S. Department of Education for the Education Jobs Fund Grant (Ed Jobs). School districts may use the funds for compensation and benefits and other expenses necessary to retain existing employees, to recall or rehire former employees, and to hire new employees to provide educational services. The funds may not be used for general administrative expenses. The Department of Education has not finalized an allocation schedule of funding for the districts, but will have one prepared prior to the November 19th meeting.

This BA-7 would additionally place \$146,531,839 in SGF dollars in the unallotted budget category to be used for the maintenance of effort. Approximately \$68 M is required for LA to qualify for the Education Jobs grant. The funds that are unallotted will be available at the end of the fiscal year to potentially be moved to Higher Education.

Approval of this BA-7 will allow the school systems to expend \$146,531,839 in Federal funds for compensation and benefits, and move a like amount of state general funds to the unallotted budget category. If the BA-7 is not approved, the districts will continue to receive \$146,531,839 in SGF dollars to expend on any expenditure category.

II. IMPACT ON FUTURE FISCAL YEARS

The grant funds are to be used in the 2010-2011 school year. If a school district has funds remaining after the 2010-2011 school year, the funds may be used through 9/30/2013.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office has no recommendation at this time. Additional information has been requested concerning the use of these funds. A recommendation will be made when this information is received.

Statutory Dedications:	\$0			
Federal Funds:	\$204,371			
Total	<u>\$204,371</u>	Total	<u>\$204,371</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request would increase federal funds budget authority by \$204,371 for the purpose of providing assistance to the department's water quality planning activities. The source of these funds is a grant through the American Recovery & Reinvestment Act of 2009, Water Quality Management & Planning Program; and this BA-7 would budget the remaining monies available through this federal grant. The total grant amount is \$435,200. Out of this amount, \$122,029 was expended in FY 10, including staff costs of \$979 associated with project contracts. An amount of \$108,800 is currently budgeted in FY 11, leaving \$204,371 remaining to be budgeted. The grant will expire on 3/11/2011, and DEQ must fulfill its contract obligations this fiscal year. No state match is required.

With this BA-7 request, \$313,171 of this federal grant will be budgeted in FY 11. Out of this amount, \$310,842 is already obligated as follows:

\$21,721 to Bayou Land Resource Conservation & Development Council, to develop a cooperative agreement in partnership with the City of New Orleans Department of Public Works to develop a "green" infrastructure guidance tool that can be used by public agencies, design consultants, and others to improve the effectiveness of public capital improvement projects and watershed planning. Total project cost is \$60,001 (\$38,280 in FY 10 and \$21,721 obligated in FY 11).

\$139,188 to LA Association of Planning & Development Districts (LAPDD), to develop Water and Wastewater Emergency Plans for communities that do not yet have a plan. Total project cost is \$174,200 (\$35,012 in FY 10 and \$139,188 obligated in FY 11).

\$83,163 to TetraTech, for development of Total Maximum Daily Loads (TMDL's) for bacteria and lead in targeted waterbodies. Total project cost is \$102,305 (\$19,142 in FY 10 and \$83,163 obligated in FY 11).

\$66,770 for Associates, Ltd., for revision of Biological Oxygen Demand (BOD) for TMDL's for selected waterbodies. Total project cost is \$95,386 (\$28,616 in FY 10 and \$66,770 obligated in FY 11).

The balance of unobligated funds is \$2,329.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$1,151,380			
Total	<u>\$1,151,380</u>	Total	<u>\$1,151,380</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request would increase federal funds budget authority by \$1,151,380 for the purpose of providing funds for the LA Clean Diesel Grant Program for projects that maximize the benefits of diesel emissions reductions by retrofitting, upgrading, replacement, or reduced idling from on-road and off-road diesel engines and equipment. The source of these funds is a grant through the American Recovery & Reinvestment Act of 2009, State Clean Diesel Grant Program; and this BA-7 would budget the remaining monies available through this federal grant. The total grant amount is \$1.730 M. Out of this amount, \$146,620 was expended in FY 10 on the New Orleans Public Belt Railroad project for engine upgrade kits and idle reduction switches for 7 diesel locomotives (\$124,319), and on staff costs (\$13,465) and indirect costs (\$8,836) associated with project contracts. An amount of \$432,000 is currently budgeted in FY 11, leaving \$1,151,380 remaining to be budgeted. The grant will expire on 3/11/2011, and DEQ must fulfill its contract obligations this fiscal year. No state match is required.

With this BA-7 request, \$1,583,380 of this federal grant will be budgeted in FY 11. Out of this amount, \$1,489,357 is already obligated as follows: \$195,870 to the city of Baton Rouge/Parish of East Baton Rouge for 4 heavy duty trucks repowered to natural gas, \$429,682 to the City of Bossier for 9 heavy duty trucks repowered to natural gas, \$654,012 to Caddo Parish Public Schools to retrofit 111 school buses with diesel engine multi-stage partial flow filters or equivalent, \$89,793 to the New Orleans Public Belt Railroad to complete the project for which funds were expended in FY 10, and \$120,000 to Caddo Parish to retrofit 7 heavy duty trucks with diesel particulate filters.

The balance of unobligated funds is \$94,023.

Federal Funds:	\$3,720,968			
Total	<u>\$4,166,801</u>	Total	<u>\$4,166,801</u>	<u>17</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 requests 3B, 3C and 3D. Taken together these BA-7's will structurally reorganize DEQ, but will have a zero net effect on DEQ's overall budget and table of organization.

This BA-7 request would move Aquifer Protection and Non-Point Source, which is currently within the Water Quality Assessment Division within the Office of Environmental Compliance, to the Business & Community Outreach Division within the Office of Secretary. This would entail moving 17 of the 41 current positions out of the Water Quality Assessment Division and \$4,136,801 (\$415,833 Environmental Trust Funds and \$3,720,968 Federal Funds) out of \$5,933,694 in total funds (\$1,447,754 Environmental Trust Funds and \$4,485,940 Federal Funds) out of that same division and into the Business & Community Outreach Division within the Office of Secretary.

This BA-7 request would also shift \$30,000 in Environmental Trust Funds from the Office of Environmental Compliance and into the Office of Secretary to realign funding for personnel costs consistent with DEQ's reorganization and funding needs in each office. Salaries budget would increase by \$170,000 and Related Benefits would decrease by \$140,000.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$2,890,475			
Total	<u>\$6,742,049</u>	Total	<u>\$6,742,049</u>	<u>41</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 requests 3A, 3C and 3D. Taken together these BA-7's will structurally reorganize DEQ, but will have a zero net effect on DEQ's overall budget and table of organization.

This BA-7 request would eliminate 5 divisions (3 in the Office of Environmental Compliance and 2 in the Office of Environmental Services) and would create 2 new divisions to be placed within the Office of Environmental Compliance, for a net elimination of 3 divisions department-wide. The elimination of these 3 divisions allows for 3 positions (Division Administrators) to be placed in unallotted until the disposition of these positions can be determined. The adjustments necessary to accomplish this reorganization result in a net increase of 41 positions and \$6,742,049 in total funding in the Office of Environmental Compliance and are detailed below.

Eliminates existing Air Quality Assessment Division

This BA-7 request would eliminate the existing Air Quality Assessment Division within the Office of Environmental Compliance. This would be accomplished in part by moving Air Analysis and Inspection & Maintenance into the newly created Assessment Division still within the Office of Environmental Compliance. The positions and total funding for the Office of Environmental Compliance would not be impacted from this intra-office move.

The elimination of the existing Air Quality Assessment Division would be made complete by moving Air Modeling and Air Planning into the Air Permits Division within the Office of Environmental Services. This would entail moving 17 positions and \$1,436,490 in total funds (\$704,531 Environmental Trust Funds and \$731,959 Federal Funds) and would result in a reduction in the Office of Environmental Compliance by those same amounts.

Eliminates existing Water Quality Assessment Division

This BA-7 request would eliminate the existing Water Quality Assessment Division within the Office of Environmental Compliance. This would be accomplished in part by moving Aquifer Protection and Non-Point Source into the Business & Community Outreach Division within the Office of Secretary. This would entail moving 17 positions and \$4,136,801 (\$415,833 Environmental Trust Funds and \$3,720,968 Federal Funds) and would result in a reduction in the Office of Environmental Compliance by those same amounts.

The elimination of the existing Water Quality Assessment Division would be made complete by moving Standards & Assessment and Water Quality Modeling into the Water Permits Division within the Office of Environmental Services. This would entail moving 24 positions and \$1,796,893 in total funds (\$1,031,921 Environmental Trust Funds and \$764,972 Federal Funds) and would result in a reduction in the Office of Environmental Compliance by those same amounts.

Eliminates the existing Emergency & Radiological Services Division

This BA-7 request would eliminate the existing Emergency & Radiological Services Division within the Office of Environmental Compliance. This would be accomplished by moving it into a newly created Assessment Division still within the Office of Environmental Compliance. The positions and total funding for the Office of Environmental Compliance would not be impacted from this intra-office move.

October 22, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Eliminates Remediation Division and Underground Storage Tanks Division in Office of Environmental Services

Eliminates these 2 Divisions from Office of Environmental Services and moves 103 positions and \$14,977,233 in total funding (\$2,737,388 Hazardous Waste Site Cleanup Fund, \$3,631,471 Environmental Trust Funds, \$500,000 Brownfields Revolving Loan Funds, and \$8,108,374 Federal Funds) into a single newly created Remediation & Underground Storage Tank Division within the Office of Environmental Compliance. The Remediation Division currently has 63 positions and \$6,753,649 in total funds (\$2,737,388 Hazardous Waste Site Cleanup Fund, \$2,334,761 Environmental Trust Funds, \$500,000 Brownfields Revolving Loan Funds, and \$1,181,500 Federal Funds). The Underground Storage Tanks Division currently has 40 positions and \$8,223,584 in total funds (\$1,296,710 Environmental Trust Funds and \$6,926,874 Federal Funds).

Shifts funding to align personnel costs with reorganization

This BA-7 request would also shift \$865,000 in Environmental Trust Funds from the Office of Environmental Compliance into the other 3 offices to realign funding for personnel costs consistent with DEQ's reorganization and funding needs in each office. Salaries budget would decrease by \$710,000 and Related Benefits would decrease by \$155,000 within the Office of Environmental Compliance.

Realigns T/O from the 86 positions cut in FY 11 budget

This BA-7 would reduce 4 positions from the Office of Environmental Compliance and would reallocate these positions to other offices: 2 to Office of Environmental Services and 2 to Office of Management & Finance.

This BA-7 would additionally place 3 positions in the unallotted budget category.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 requests 3A, 3B and 3D. Taken together these BA-7's will structurally reorganize DEQ, but will have a zero net effect on DEQ's overall budget and table of organization.

This BA-7 request would move Air Modeling and Air Planning, Standards & Assessment, and Water Quality Modeling into the Office of Environmental Services as a consequence of eliminating the Air Quality Assessment Division and the Water Quality Assessment Division in the Office of Environmental Compliance. This BA-7 request would also eliminate the Remediation Division and the Underground Storage Tanks Division within the Office of Environmental Services to allow those positions and funding to be moved to a newly created Remediation & Underground Storage Tanks Division within the Office of Environmental Compliance. The adjustments necessary to accomplish this reorganization result in a net decrease of 60 positions and \$11,173,850 in total funding in the Office of Environmental Services and are detailed below.

Moves Air Modeling and Air Planning into the Air Permits Division in Office of Environmental Services

The elimination of the existing Air Quality Assessment Division within the Office of Environmental Compliance is partly accomplished by moving Air Modeling and Air Planning into the existing Air Permits Division within the Office of Environmental Services. This would entail moving 17 positions and \$1,436,490 in total funds (\$704,531 Environmental Trust Funds and \$731,959 Federal Funds) and would result in an increase in the Office of Environmental Services by those same amounts.

Moves Standards & Assessment and Water Quality Modeling into the Water Permits Division in Office of Environmental Services

The elimination of the existing Water Quality Assessment Division within the Office of Environmental Compliance is partly accomplished by moving Standards & Assessment and Water Quality Modeling into the existing Water Permits Division within the Office of Environmental Services. This would entail moving 24 positions and \$1,796,893 in total funds (\$1,031,921 Environmental Trust Funds and \$764,972 Federal Funds) and would result in an increase in the Office of Environmental Services by those same amounts.

Eliminates Remediation Division and Underground Storage Tanks Division in Office of Environmental Services

Eliminates these 2 Divisions from Office of Environmental Services and moves 103 positions and \$14,977,233 in total funding (\$2,737,388 Hazardous Waste Site Cleanup Fund, \$3,631,471 Environmental Trust Funds, \$500,000 Brownfields Revolving Loan Funds, \$8,108,374 Federal Funds) into a single newly created Remediation and Underground Storage Tank Division within the Office of Environmental Compliance. The Remediation Division currently has 63 positions and \$6,753,649 in total funds (\$2,737,388 Hazardous Waste Site Cleanup Fund, \$2,334,761 Environmental Trust Funds, \$500,000 Brownfields Revolving Loan Funds, \$1,181,500 Federal Funds). The Underground Storage Tanks Division currently has 40 positions and \$8,223,584 in total funds (\$1,296,710 Environmental Trust Funds, \$6,926,874 Federal Funds).

Shifts funding to align personnel costs with reorganization

This BA-7 request would also shift \$570,000 in Environmental Trust Funds from the Office of Environmental Compliance into the Office of Environmental Services to realign funding for personnel costs consistent with DEQ's reorganization and funding needs in each office. Salaries budget would increase by \$500,000 and Related Benefits would increase by \$70,000 within the

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 4B.

The purpose of this BA-7 request is to transfer \$902,500 and four (4) Non-FTE positions from the Office of Tourism to the Office of State Parks (OSP) within the Department of Culture, Recreation & Tourism. The source of funding is from the statutorily dedicated Poverty Point Reservoir Economic Development Fund.

CRT is requesting that the operations of the Black Bear Golf Course along with the Stay & Play Lodge be incorporated into the Poverty Point Reservoir State Park Facility which are located in close proximity in Delhi, LA. In order to accomplish this, positions and funding for operations of the Black Bear Golf Course are being requested to be transferred from the Office of Tourism to OSP. The 4 Non-FTE positions include an administrator, director, superintendent and mechanic. The lodge is scheduled to open in late 2010. OSP has a Park Manager on site at Poverty Point Reservoir State Park that will oversee and manage the operations of both the golf course and the new lodge. OSP currently has a reservation system in place and could add the Poverty Point Reservoir Stay & Play Lodge to the system.

II. IMPACT ON FUTURE FISCAL YEARS

These funds will continue to be budgeted in future fiscal years in the Office of State Parks.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$575,000</u>	Total	<u>\$575,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Division of Administrative Law (DAL) is requesting approval to add \$575,000 in IAT revenue to its budget in order to perform unemployment compensation hearings for the LA Workforce Commission. The IAT revenue derives from federal funds. The DAL is expected to conduct an additional 4,500 unemployment hearings for the Workforce Commission by 6/30/2011.

The LA Workforce Commission has agreed to pay the DAL \$110 per hour for administrative law judge services related to unemployment benefits and \$125 an hour for hearings services related to unemployment taxes. With approval of this BA-7, the total amount payable under the contract, which expires 6/30/2011, would increase to \$914,410. The agency's current budget includes \$339,410 from the LA Workforce Commission to handle unemployment hearings.

The Workforce Commission is contracting with the DAL to perform these hearings as a remedy to correct a finding by the federal government regarding delinquent unemployment hearings. The LA Workforce Commission has a backlog of unemployment hearings and the federal government has mandated the agency clear its backlog or risk losing Federal funds. The DAL plans on hiring 9 temporary employees (3 administrative law judges, 2 clerical/support staff, and 4 student workers) to handle the additional hearings.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$66,898			
Total	<u>\$80,471</u>	Total	<u>\$80,471</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget SGR funding provided to the LA Public Defender Board (LPDB) from the MacArthur Foundation and federal funds from the U.S. Department of Justice. The purpose of these funds are as follows:

\$66,898 (Federal) - This BA-7 request is to carry-forward federal funds provided by the Department of Justice, Bureau of Justice Assistance. The original grant was awarded in FY 10 in the amount of \$250,000 under the Capital Case Litigation Initiative (CCLI). The grant term runs through August 2011. These funds are provided to train defenders and prosecutors who handle capital cases in LA as well as to pay the cost of a grant coordinator. The purpose of the grant is to improve the quality of capital representation and to increase the number of qualified capital defense attorneys in LA. A total of \$109,972 was budgeted in FY 10 with a total of \$43,074 expended at year end. The funding is necessary to provide four of the 5 training sessions for capital defenders and capital prosecutors as well as to fund the salary and benefits of the grant coordinator in FY 11 as required by the grant. The budgeting of these funds will bring the total FY 11 budget for these grant funds to \$206,926.

The LPDB notes that each of the 4 training session costs approximately \$40,000 and will be held in Baton Rouge (3) and Shreveport. The total cost for training sessions should be approximately \$160,000. The costs include faculty expenses, faculty and participant travel expenses (airfare, mileage, car rental), meals and lodging during training for faculty and participants, and venue rental expenses.

In addition, these grant funds will fund the remaining costs for the grant coordinator through FY 11. A total of \$3,205 was expended for this purpose in FY 10. These grant funds will provide for the remaining salary and related benefits costs for FY 11 (\$46,795).

\$13,573 (SGR) - These are grant funds originating from the MacArthur Foundation and given to the National Juvenile Defender Center (NJDC) in Washington D.C. to distribute to states with the goal of reforming juvenile indigent defense. The grant funds support the Juvenile Indigent Defense Action Network (JIDAN) which is a network of 8 states working on juvenile justice reform chosen by the MacArthur Foundation. LA has a JIDAN "team" which consists of juvenile defenders, Office of Juvenile Justice personnel, a judge and law professors with expertise in juvenile justice. As part of the JIDAN grant work, this team travels to other JIDAN states to learn from their successes and to share information.

These grant funds are part of 2 separate grants received by the LPDB from the MacArthur Foundation in FY 09 (\$50,000) and FY 10 (\$117,500). Approximately \$52,000 has been spent to date. This BA-7 request will seek to re-budget \$13,573 to fund travel expenses in FY 11 for selected "team" members for 3 meetings held during the fiscal year. Travel expenditures for average \$3,500 per meeting for a total of \$10,500. The remaining funds (\$3,073) will be used to purchase computer equipment and supplies which will be used for training related to JIDAN meetings.

The remainder of the grant funds (approximately \$102,000) have been returned to the NJDC. The MacArthur Foundation and the NJDC have offered to reward the same funds to the LPDB for an additional grant in FY 11.

II. IMPACT ON FUTURE FISCAL YEARS

October 22, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

The term of the federal grant under the CCLI runs through August 2011 (FY 12). However, it is anticipated that the grant funds will largely be expended in FY 11. Any remaining grant funds will be carried-forward to FY 12.

The MacArthur Foundation has indicated that it will likely award any unexpended funds to the LPDB in subsequent fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$13,686,634</u>	Total	<u>\$13,686,634</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget IAT funding received from the Office of Community Development/Disaster Recovery Unit which has designated GOHSEP to administer funding for the Interoperable Communications Program. These funds are approved by HUD from LA's amendment #4 to the Disaster Recovery Action Plan for hurricanes Gustav and Ike under P.L. 110-329. GOHSEP applied for these funds in the fall of 2009 and was awarded \$17,099,040 in August 2010.

These funds will be utilized to continue to implement the LA Wireless Information Network (LWIN) which began in 2005 after hurricanes Katrina and Rita and is used primarily by first responders statewide. The LWIN is currently composed of 102 active sites across the state with 18 sites in various stages of deployment for a total of 120 sites. In addition, there are 5 mobile trailer sites available for rapid deployment during emergencies for either supplementary coverage or replacement of inoperable sites. Specifically, these funds will be used for 2 primary purposes, which will allow for continued expansion of the LWIN for the next 4 to 5 years, in the form of additional system capacity and also to add microwave or satellite redundancy for critical sites that are needed during major disasters.

DPS and GOHSEP staffs have determined a total of 43 sites are currently at or nearing capacity and are located throughout the 9 homeland security regions. These sites include Abbeville, Abita Springs, Bastrop, Baton Rouge, Bayou Gauche, Baywood, Bellevue, Blond, Buras (2 zones), Calhoun, Central, Delhi, Ferriday, Geismar, Gray, Greensburg, Greenwood, Hahnville, Hammond, Jackson, Jeanerette, Jena, Jennings, Kenner, LSU, Mansfield, Minden, Opelousas, Paintcourtville, Pan Am (located in New Orleans), Parker Road (East Feliciana), Plain Dealing, Ringgold, Rosepine, Scott, Sentell, Shreveport, Slidell, Ville Platte, Vinton, West Baton Rouge and Louis Armstrong Airport in New Orleans. One of the major initiatives of this effort is to add simulcast to East Baton Rouge, St. Tammany and Caddo parishes which is necessary to free up frequencies to be used elsewhere in the state to support expansion efforts. These efforts will also improve in-building coverage to first responders in these parishes. Expansion efforts are scheduled to be completed in FY 11. Buras has 2 zones which allows for redundant connectivity due to the high risk location and high number of potential responders in that area.

In addition, the second phase of this expansion will identify sites that are capable of supporting microwave hardware that will allow sites that lose connectivity to the LWIN network to remain in the network by providing an additional or redundant path to the network. Tower analysis will be needed in order to determine which towers can support additional hardware such as a microwave dish and supporting brackets. Those towers that can support this additional hardware and are critical to emergency responders will be selected for this upgrade. Towers that cannot support this hardware will have satellite equipment added. This work will be performed primarily in high-risk areas of the state located in coastal parishes. The total cost of the second phase is estimated to be approximately \$3.4 M. The second phase of this project will be completed in FY 12.

II. IMPACT ON FUTURE FISCAL YEARS

The total funding made available for this purpose is \$17,099,040, with GOHSEP requesting \$13,686,634 in FY 11 and the remainder in FY 12.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to allow the agency to budget funds received from the state of Idaho related to a severe flooding event. These funds are a reimbursement of personnel costs (\$9,489) and travel costs (\$5,708) incurred by a Quality Assurance/Quality Control staffer during this assignment. This staffer participated in the 30-day deployment starting 8/30/2010 through 9/30/2010. Travel expenditures to be reimbursed (as per state travel regulations) are as follows:

Lodging	\$2,693
Airfare	\$700
Meals	\$1,440
Rental Vehicle	<u>\$875</u>
Total	\$5,708

LA is a member of the Emergency Management Assistance Compact (EMAC) Program which is a congressionally ratified organization that is administered by the National Emergency Management Association and was created in 1996 to provide state-to-state assistance during times of emergency.

		Auxiliary Account	\$0	0
Total	<u>\$869,357</u>	Total	<u>\$869,357</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is to increase federal budget authority by \$869,357 in the State Activities agency to receive grant funds from the US Department of Education for the Teacher Incentive Fund Program. The Department of Education was awarded a total of \$36,538,580 to extend over a 5-year period. These funds will be used to expand the Teacher Advancement Program (TAP). There is no state match required to receive this grant.

The funds received by the Department of Education will be used for the administration and state support of TAP. The funds will be budgeted in the following expenditure categories:

\$318,120 Salaries
\$104,661 Related Benefits
\$156,684 Travel
\$27,425 Supplies
\$138,840 Professional Services
\$108,877 Interagency Transfers
\$14,750 Acquisitions
\$869,357 TOTAL

The salaries and related benefits are for 5 temporary Department of Education employees, 1 grant coordinator, 1 administrative assistant, and 3 executive master teachers which go into the schools as support to the local TAP principals and teachers. The travel to 2 out-of-state conferences (\$7,560) is required by the grant. The remaining travel (\$149,124) is for a state director meeting, a national conference, in-state meetings in schools and for advisory board meetings. The acquisition funds are to purchase office equipment, and the supplies are for training supplies and materials and projectors. The professional services are for an independent evaluation, an online assessment tool to be used as part of the principal evaluation, and an online training portal. The interagency transfers are for indirect costs. The indirect costs are allowed for expenses such as accounting and personnel that are not directly related to the grant activities. The indirect cost rate approved by the federal government for this grant is approximately 14.3%.

II. IMPACT ON FUTURE FISCAL YEARS

The Teacher Incentive Fund grant will extend over a 5-year period. The Department of Education anticipates receiving the following in subsequent fiscal years: FY 12 \$7,050,917, FY 13 \$9,441,606, FY 14 \$8,565,835, and FY 15 \$7,304,884. The Department of Education has indicated that the job appointments of the 5 employees will end when the grant ends.

		School & Community Support	\$0	0
Total	<u>\$3,305,981</u>	Total	<u>\$3,305,981</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is to increase federal budget authority by \$3,305,981 in the Subgrantee agency to receive grant funds from the US Department of Education for the Teacher Incentive Fund Program. The Department of Education was awarded a total of \$36,538,580 to extend over a 5-year period. These funds will be used to expand the Teacher Advancement Program (TAP) in the following 8 school districts: Ascension Parish, DeSoto Parish, Jefferson Parish, Pointe Coupee Parish, St. Helena Parish, St. Mary Parish, Tangipahoa Parish, and West Baton Rouge Parish. According to the Department of Education, all school systems were invited to participate and these 8 districts were the only ones to volunteer.

The funds will be distributed to these 8 school districts and will be used in 70 schools that are considered high needs schools and will impact over 2,800 educators and 33,500 students. A "high need" school means a school with 50% or more of its enrollment from low-income families, based on eligibility for free and reduced price lunch subsidies. The Department of Education has not yet determined the amount of funding each district will receive. The funds will be used to provide additional pay and incentives to teachers and principals that participate in the TAP model program. The goals of the TAP program are the following: 1) to increase the percentage of effective educators in the school system's partner schools; 2) provide intellectual capacity for the partner school systems to implement and sustain a performance-based compensation system for teachers and principals; and 3) increase student achievement in the partner school systems.

II. IMPACT ON FUTURE FISCAL YEARS

The Teacher Incentive Fund grant will extend over a 5-year period. The Department of Education anticipates receiving the following in subsequent fiscal years: FY 12 \$7,050,917, FY 13 \$9,441,606, FY 14 \$8,565,835, and FY 15 \$7,304,884.

Statutory Dedications:	\$0			
Federal Funds:	\$2,482,701			
Total	<u>\$2,482,701</u>	Total	<u>\$2,482,701</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is to increase federal budget authority by \$2,482,701 in the Recovery School District (RSD) for the Early Head Start grant received from the US Department of Health & Human Services. Early Head Start programs aim to enhance the cognitive, social and emotional development of low-income children. The programs involve parents in their children's learning while also helping them move forward with their own educational, literacy and employment goals. The programs provide health, educational, and nutritional services. There is a state match of \$563,674 required in order to receive the grant. The match will be handled through the following in-kind services from the RSD: utilities, custodial, food service, and rent. Physicians and dentists will also provide in-kind services.

The RSD will be using 2 school sites that require renovations (a modular building at Henderson Elementary and Cohen High School). The school sites were chosen to help keep teen parents in school while providing services to their children. In order to begin serving students immediately, the RSD will contract with off-site day care centers until the renovations are completed. The RSD will enroll approximately 24 expectant mothers, with preference given to teens, with the remaining 100 spots to be filled by infants and toddlers. According to federal guidelines, at least 90% of the enrollees must come from families whose income is below the poverty line, from families receiving public assistance, from homeless families or children in foster care.

The funds will be used in the following expenditure categories:

\$306,125	Other Compensation
\$97,960	Related Benefits
\$20,250	Travel (local travel and required national conference)
\$252,670	Operating Services
\$221,180	Supplies
\$932,950	Professional Services
\$211,566	Acquisitions
<u>\$440,000</u>	Major Repairs (renovations to the Henderson Elementary site and the Cohen High School site)
<u>\$2,482,701</u>	TOTAL

The other compensation and related benefits expenditures are for a portion of employees salaries that are working with the Early Head Start program. The RSD will use an Early Head Start Coordinator, Nurse Coordinator and Nurse, Disability Coordinator and teachers. The operating services are for indirect costs associated with the program. The indirect cost rate approved by the federal government for this grant is 12% of the direct costs. The indirect costs are allowed for expenses such as accounting and personnel that are not directly related to the grant activities. The supplies are for classroom libraries, classroom materials, network capacity, and for office supplies. The acquisitions are for playground equipment and classroom furniture. The professional services are for the RSD to contract with off-site day care centers. Currently, the RSD has identified five centers to provide services, but will need additional centers to serve all of the anticipated enrollment. The RSD is also contracting for social work services, mental and physical health services, and for tutoring.

The major repairs are for the estimated expenditures for the renovations to the Henderson Elementary site and for the Cohen High School site. The Recovery School District anticipates the expenditures to be no more than \$220,000 for each site. The

following are some of the proposed renovations: the installation of a window in each classroom, installation of toddler sized commodes, addition of a sink to have a food prep area, installation of laundry room hook-ups, and security measures for controlled access into and out of the facility.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period begins on 4/1/2010 and extends to 9/29/2011. It may be necessary to carry-forward a portion of the grant into FY 12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to adjust SGF budget authority by \$3,924,391 at the LA School for the Deaf & Visually Impaired (LSDVI). This is purely a technical adjustment in order to consolidate the budgets of the LA School for the Deaf (LSD) and the LA School for the Visually Impaired (LSVI) into the combined LSDVI Shared Services Program as a result of the merger of the 2 schools.

This adjustment is needed in order to align the Shared Services budget with the actual services being performed within that program. Previously some of these shared functions were reflected in other programs (i.e. Food Service, Transportation, etc. were previously reflected in the Residential Program in each school's separate budgets). This BA-7 is taking these services out of the separate Residential Programs and consolidating them under the newly formed Shared Services Program in order to eliminate duplicative functions and costs. The necessary adjustments were not made during the 2010 Legislative Session. The funding re-distribution is detailed below.

LA School for the Deaf (Program 200) - (\$2,947,311)

Salaries	(\$1,752,096)
Other Compensation	(\$3,397)
Related Benefits	\$68,172
Travel	(\$53,257)
Operating Services	\$79,419
Supplies	(\$299,753)
Professional Services	(\$264,255)
Other Charges	\$35,362
Interagency Transfers	(\$586,190)
Acquisitions	(\$171,316)
TOTAL	(\$2,947,311)
T.O.	(38)

LA School for the Visually Impaired (Program 300) - (\$977,080)

Salaries	(\$969,281)
Other Compensation	\$192,427
Related Benefits	(\$196,734)
Travel	\$34,381
Operating Services	(\$125,853)
Supplies	\$28,313
Professional Services	(\$26,093)
Other Charges	\$50,981
Interagency Transfers	\$8,617
Acquisitions	<u>\$26,162</u>

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

TOTAL	(\$977,080)
T.O.	(7)

Shared Services (Program 100) - \$3,924,391

Salaries	\$2,226,625
Other Compensation	\$52,256
Related Benefits	\$382,028
Travel	\$61,366
Operating Services	(\$343,392)
Supplies	\$186,506
Professional Services	\$47,356
Other Charges	\$802,382
Interagency Transfers	\$364,110
Acquisitions	\$145,154
TOTAL	\$3,924,391
T.O.	45

Salaries (\$2,226,625) and Related Benefits (\$382,028)

Within Shared Services, the \$2,226,625 in salaries is being used to pay the 34 classified and 11 unclassified positions being transferred from the LSD and LSVI budgets. No new positions are being added. The \$382,028 in related benefits covers retirement, health and life insurance, medicare, and post-employment benefits, plus FICA and medicare for "while actually employed" staff (WAEs) and student workers.

Other Compensation (\$52,256)

This function of shared services will be used to cover the wages of part-time/WAE positions as needed, such as substitute teachers, relief workers, guards, bus drivers, administrative aides, and student workers. "Other compensation" is also used to pay summer school staff since teacher contracts end with the regular school year.

Other charges (\$802,382)

LSDVI will primarily use "other charges" to fund student transportation (approximately \$700,000). The rest will be used to pay for textbooks, parent reimbursements, and non-T.O. positions (i.e. bus drivers). Parent reimbursements are required by law for parents transporting their children to school whenever a bus route is unavailable.

Travel (\$61,366)

Expenses will include travel to regional town hall meetings, research travel, student activities, conferences and workshops (i.e. Public Risk Management Association workshop, LDOE summer conference, LA Education Accountability Data System, LA Educational Diagnostician's Association Conference, Human Development Center workshop, Conference of Educational Administrators of Schools and Programs for the Deaf, Cochlear Implant workshop, LA Registry of Interpreters for the Deaf Annual Conference, U.S. Department of Agriculture workshops, etc.).

Professional Services (\$47,356)

Funds will be used for medical services contracts.

Interagency Transfers (\$364,110)

Currently, the Shared Services program only has \$796,743 in its IAT budget, even though the majority of IATs are charged to LSDVI's Shared Services Program, including the agency's Risk Management premium, which costs close to \$1,000,000. As such, the additional \$364,110 is needed to cover the risk management premium and any other LSDVI IAT costs. Exceptions to this include state mail and IATs based on the number of employees or number of payroll checks cut, such as OSUP, CPTP, and Civil Service Operations. Instead of being within Shared Services, these costs are charged to LSD (program 200) and LSVI (program 300) on a pro rata basis.

Acquisitions (\$145,154)

All non-classroom technology is budgeted in Shared Services. This includes medical/audiological equipment and an awning/walkway system for the LSVI student bus pick-up area. Also included are carry-forward funds for bathroom partitions and a new internet site.

II. IMPACT ON FUTURE FISCAL YEARS

October 22, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Approval of this BA-7 request will have no impact on future fiscal years as this is only a technical adjustment. Future budgets will reflect the merger of LSD and LSVI with the appropriate services appropriated within the Shared Services Program.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

DEPARTMENT: Insurance

AGENDA NO.: 14

AGENCY: Commissioner of Insurance

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative & Fiscal	\$0	0
Interagency Transfers:	\$0	Market Compliance	\$1,123,534	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$1,123,534			
Total	<u>\$1,123,534</u>	Total	<u>\$1,123,534</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request increases the Federal budget authority within the Department of Insurance (DOI) to budget Federal funds in the amount of \$1,123,534 received from the U.S. Department of Health & Human Services, Centers for Medicare & Medicaid Services (CMS) for the Department of Insurance's Senior Health Insurance Information Program (SHIIP).

Since 1999, the Louisiana SHIIP has been awarded a total of \$4,920,971 from CMS of which \$1,425,534 has not been drawn down by the DOI to date. Historically, this program has been funded with a mixture of Federal funds and departmental SGR. However, in FY 11 this program is completely funded with all Federal funds. Thus, the DOI is seeking all available revenues for programmatic expenditures and services. This BA-7 request will appropriate funds from unexpended federal grants, which will expire in March 2012. Approximately \$1.1 M will be appropriated in FY 11 and the remaining \$302,000 will likely be included within in the FY 12 Executive Budget Recommendation.

The requested budget authority will be utilized for the hiring of temporary staff, conference, convention and seminar travel, improvements to the SHIIP call center, contracts with local council on aging centers and media and outreach expenditures. The specific expenditures will be as follows:

\$28,800	other compensation (3 temporary staff)
\$3,200	related benefits (fringe benefits associated with the 3 temporary positions)
\$8,500	travel (3 SHIIP staffers to attend the CMS "train the trainer" conference in Dallas)
\$2,500	operating services (miscellaneous costs such as postage, phone and outside printing)
\$4,992	supplies (office supplies necessary to conduct training & enrollment events)
<u>\$1,075,542</u>	professional services (see below)
<u>\$1,123,534</u>	TOTAL

The professional services expenditures will be broken down as follows:

- 1.) \$210,500 - ombudsman/ contract staff, who will provide counseling and assistance services to seniors;
- 2.) \$621,706 - radio, television and newspaper advertisements promoting the SHIIP services;
- 3.) \$243,336 - 59 various councils on aging organizations will receive approximately \$4,100 each for counseling and assistance services to seniors. SHIIP currently partners with 9 various councils on aging to provide local counseling services to seniors (SHIIP sites). Those councils on aging include: Jefferson Council on Aging, Caddo Council on Aging, Calcasieu Council on Aging, Terrebonne Council on Aging, North Delta Planning District, Capital Area Agency on Aging, Cenla Council on Aging, Cajun Area on Aging and Orleans Council on Aging. Because these organizations already have contracts in place with the DOI, these 9 organizations will not receive any portion of these funds.

According to the DOI, these funds will be awarded based upon specific selection criteria. Those criteria include: 1.) proven experience in creating community-based coalitions; 2.) proven track record in partnership development; 3.) experience in event planning and promotion; 4.) experience in volunteer recruitment and retention; 5.) basic knowledge of Medicare,

October 22, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Medicare Part D and Medicaid programs for Medicare beneficiaries; and 6.) basic knowledge of the LA aging network.

SHIIP is a federally funded program that provides counseling and assistance to seniors who need health insurance information on various health insurance topics. Federal grant funds are based upon formula. The variables that are utilized by CMS to determine the amount of funding include: 1) the number of medicare beneficiaries in the state; and 2) the number of individuals SHIIP provides service to.

II. IMPACT ON FUTURE FISCAL YEARS

According to CMS, LA has been awarded approximately \$4.9 M for SHIIP. Of this amount, LA has not drawn down approximately \$1.4 M from these awards. This BA-7 requests \$1,123,534 to be appropriated in FY 11, while the remaining \$302,000 will likely be included within the FY 12 Executive Budget Recommendation.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$435,681</u>	Total	<u>\$435,681</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 15B on the agenda. This BA-7 request increases IAT budget authority within the Department of Insurance (DOI) to budget additional grant funds in the amount of \$435,681 received from the U.S. Department of Health & Human Services (HHS) via the Department of Health & Hospitals (DHH). These funds are associated with the Affordable Care Act, which consists of the Patient Protection & Affordable Care Act of 2010 and the Health Care & Education Reconciliation Act of 2010, signed by the President on 3/23/2010. No state match is required for this 12-month federal grant.

According to the U.S. Department of Health & Human Services (HHS), the *State Planning & Establishment Grants for the Affordable Care Act's Exchanges* provides for up to \$1 M for each state to determine how the state health insurance exchange will be operated and governed. LA has been awarded \$998,416 of which \$435,681 has been allocated to the DOI and the remaining \$562,735 has been allocated to DHH. A state-based health care exchange is a vehicle that matches the consumer to a health benefit package.

The specific expenditures are as follows:

\$50,221	other compensation (Insurance Specialist position - temporary position)
\$15,066	related benefits (fringe benefits)
\$30,394	travel (staff travel to national conferences, travel for speakers at LA legislator member education events)
<u>\$340,000</u>	professional services (see below)
\$435,681	TOTAL

The projected \$340,000 professional services expenditures will be for the following services:

- 1.) \$50,000 - qualitative assessment of insurance market (insurance carrier survey), which will provide information concerning the impact the exchange will have upon the insurer (insurance companies) and the overall state health insurance market;
- 2.) \$50,000 - small employer survey, which will provide information concerning the impact the exchange will have upon the small business environment in the state;
- 3.) \$50,000 - insurance carrier reporting systems assessment, which will provide information concerning the specific data the DOI will be required to maintain, how that data will be reported by the insurers to DOI and what IT infrastructure will be needed in order to store and report that data to the federal government;
- 4.) \$100,000 - actuarial services for risk adjustment modeling, which is an actuarial model that is required to ensure that the spread of risk is equitable across all exchange plan insurers;
- 5.) \$90,000 - attorney to draft legislation and administrative rulemaking.

AGENDA NO.: 15B

AGENCY: Medical Vendor Administration

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration	\$998,416	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$998,416			
Total	<u>\$998,416</u>	Total	<u>\$998,416</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 15A. The purpose of this BA-7 is to increase Federal budget authority in the Department of Health & Hospitals, Medical Vendor Administration in order to receive a federal grant for the purpose of planning for a State Health Benefits Exchange as required by the Affordable Care Act (ACA). There are no state match requirements. The original source of the Federal funds is the State Planning & Establishment Grant for the Affordable Act's Exchanges from the U.S. Department of Health & Human Services (DHHS).

This grant will be used by the state as a research tool to determine an operational approach to complying with the ACA requirement for the establishment of a State Health Benefit Exchange. Specifically, the grant will be used to research and collect data to assist the in the decision making on how the state will operate its healthcare exchange, or whether the state will opt to allow the federal government to operate LA's exchange. A health care exchange offers a subsidized insurance market/ option for certain individuals (individuals with incomes from 133% to 400% of the federal poverty level.)

The Department of Insurance will receive \$435,681 of this grant from MVA for research and data collection. Medical Vendor Administration will retain \$562,735 to be spent in FY 11.

The allocation of the grant funds are reflected below:
Medical Vendor Administration:

- \$59,083 - Other Compensation (\$45,448) and Related Benefits (\$13,635) for job Appointments: Funding for a temporary position (Medicaid Program Monitor) that will coordinate the research effort for DHH.
- \$8,424 - Travel (to nationwide conferences)
- \$2,000 - Office supplies
- \$360,000 - Professional services contracts: Provide research on governance options, development of web site and public education program for business stake holders, provide an infrastructure gap analysis to identify the requirements to set up an exchange (determine what functions will be required to implement a state based solution, such as a call center, public information systems, IT systems, and an enrollment system), provide an assessment of the current Medicaid Eligibility Determination system capacity to determine any upgrades required to capture and maintain records of individuals eligible for services under the exchange, and provide a quantitative analysis on the exchange population (anticipated number of individuals that may be eligible).
- \$130,228 - Other Charges -indirect costs - portion of grant funds allocated to DHH to offset admin. cost associated with grant
- \$3,000 - Acquisitions
- \$435,681 - IAT to the LA Department of Insurance (funding for data gathering and assessment from the insurance market and private business, insurance carrier assessment and reporting, actuarial services, and legal services and insurance exchange system design, See Companion BA-7 #15-A)
- \$998,416 - Total

DEPARTMENT: Health & Hospitals

AGENDA NO.: 16

AGENCY: Metropolitan Human Services District

ANALYST: Jennifer Katzman

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Metropolitan Human Services District	\$2,288,727	0
Interagency Transfers:	\$2,288,727			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,288,727</u>	Total	<u>\$2,288,727</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$2,288,727 in the Metropolitan Human Services District (MHSD). The IAT funds are transferred from the SGF of the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). MHSD will utilize \$1,255,432 of the funds to contract for an Assertive Community Treatment (ACT) team and \$1,033,295 for a Forensic Assertive Community Treatment (FACT) team to provide mental and addiction services to LA residents. These services are being transferred from the state level (OBH) to the regional level (MHSD) so that MHSD can perform the services at the community level and also align them with MHSD's other adult services already being performed.

The funding will be used to cover the costs of the program including salaries and related benefits of the team members, supplies, travel costs, office space, training, and overhead costs. The specific cost breakdown will be determined once the RFP process is complete and contract negotiations have been finalized.

The purpose of the ACT team is to target adults with severe and persistent mental illness who are in need of the most intense non-institutional treatment. Services will include physician treatment, mostly in the form of medication management, from a full-time psychiatrist. It is to be used extensively at the local level to help individuals stay in their communities, and is based on a national, evidence-based model previously implemented by OBH. The ACT team will be budgeted for \$1,255,432 to provide 100 slots for treatment in MHSD. MHSD will submit a Request for Proposal (RFP) to contract for an ACT team of approximately 10 members, including:

1. Team leader - A full-time mental health practitioner who provides direct services at least 50% of the time
2. Psychiatrist
3. Registered Nurse
4. Licensed Practical Nurse
5. Peer Specialist - Will be trained as a certified peer support specialist by an entity endorsed by the state of LA
6. Mental Health Professional (Masters level)
7. Housing Specialist
8. Employment Specialist - for vocational rehabilitation and support
9. Substance Abuse Specialist - has clinical experience in substance abuse treatment
10. Administrative Assistant

The purpose of the FACT team will be to provide the same services as the ACT team, but it will focus on individuals with forensic issues as well. However, the requested funds for the FACT team do not include physician services. Psychiatric physician services will be contracted and paid for directly by OBH, separately. In addition to the above mentioned team members, the FACT team will also have a forensic specialist/court liaison. The FACT team will be budgeted for \$1,033,295 to provide 50 slots for treatment in MHSD and 50 slots for treatment in Jefferson Parish. According to the model, the ratio of patients to team members should be 10 patients to every team member. The program's funding structure is being inherited from OBH. Due to budget cuts, Jefferson Parish does not have enough funding to support its own FACT team. As a result, the 10-person FACT team will split the 100 slots between MHSD (50 slots) and Jefferson Parish (50 slots) forensic patients in need of these more intense, community-based services. However, the FACT team will be funded through MHSD and it will operate in MHSD and Jefferson Parish through a cooperative endeavor.

October 22, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

According to the Division of Administration (DOA) the ACT and FACT services will be budgeted in MHSD's budget next fiscal year; however, at this point, MHSD, DHH, and DOA are in discussions regarding the mechanism for funding.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0			
Federal Funds:	\$1,581,253			
Total	<u>\$1,581,253</u>	Total	<u>\$1,581,253</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal Funds budget authority by \$1,581,253 in the Personal Health Services Program, Nurse Family Partnership activity. The source of Federal Funds is the Affordable Care Act (ACA) Maternal, Infant, & Early Childhood Home Visiting Program, U.S. Health Resources and Services Administration. This grant does not require a state match.

Since 1999, the Nurse-Family Partnership (NFP) has provided nurse home visitation services to low income, first-time mothers. Nurses begin home visits early in the mother's pregnancy and continue visitation until the child's second birthday. On July 2010, the Office of Public Health (OPH) was awarded the ACA grant. The grant funds will allow for additional nurse family practitioners (NFP) home visitors in needed areas of the state. OPH anticipates an additional 749 home visits from the ACA grant in FY 11.

Expenditures are as follows:

Personal Services - \$149,159

Nine months of personal service expenditures for an accountant (\$33,750), a NFP regional consultant (\$51,750), a part-time program monitor (\$22,500), and related benefits (\$41,159). The accountant and NFP consultant will be filled using existing T.O. positions and the program monitor position will be filled using an existing vacant T.O. position. No new T.O. positions are requested.

Travel - \$14,010

In-state travel to attend training sessions and NFP meeting based on .48 cents per mile for 9 months: accountant (\$750); program monitor (\$750); and regional nurse consultant (\$3,510). Out-of-state travel to attend to educational training sessions required by the NFP National Service Office (\$9,000).

Supplies- \$3,000

Normal operating supplies including but not limited to pens, paper, binders, tablets, file folders, toner cartridges, etc.

Operating Services - \$900

Printing of nurse home visiting educational materials (\$450) and postage for program mail outs (\$450).

Contracts - \$1,129,061

Professional service and other charges contracts in rural parishes and urban parishes as determined by a needs assessment. Contracts include costs for personal services, travel, operating services, supplies, training, and equipment.

Contract #1 - Nurse Home Visitor - \$61,669

Contract #2 - Nurse Home Visitor - \$61,669

Contract #3 - Nurse Home Visitor - \$61,669

Contract #4 - 3 Nurse Home Visitors - \$185,007

Contract #5 - 2 Nurse Home Visitors - \$123,338

Contract #6 - 1.5 Nurse Home Visitors and Nurse Supervisor - \$165,315

October 22, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Contract #7 - 4 Nurse Home Visitors and Nurse Supervisor - \$319,488
Contract #8 - Mental Health Consultant - \$49,796
Contract #9 - Community Relations/Outreach Specialist - \$26,674
Contract #10 - Needs Assessment Coordinator - \$5,000
Contract #11 - Home visits in various un-served and under served parishes - \$69,436

Interagency Transfers - \$300

Cost of telephone service for NFP staff sent to Office of Telecommunication.

Acquisitions - \$16,600

Computers for the grant staff (\$3,000); printers (\$2,000), bookshelves and file cabinets (\$4,000), desk chairs (\$1,000), desks (\$3,600), copier (\$1,400), office printer (\$1,600).

Indirect Cost - \$268,223

Portion of grant funding allocated to the Office of Public Health to offset administrative costs associated with grant management.

II. IMPACT ON FUTURE FISCAL YEARS

The ACA Maternal, Infant, and Early Childhood Home Visiting Program grant funds are available from 7/15/2010 - 9/30/2012. Information provided by OPH indicates that ACA grant funds are one-time funds. Grant funds not expended in FY 11 will be available to carryforward in future fiscal years until 9/30/2012.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$1,165,105</u>	Total	<u>\$1,165,105</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority in the Personal Health Services Program, Office of Public Health (OPH). The source of Federal funds are from the following 2 grants from the Health Resources Services Administration (HRSA): (1) \$1,066,761 from the AIDS Drug Assistance Program (ADAP) Shortfall Relief Funds; and (2) \$98,344 from the Special Project of National Significance (SPNS) for Capacity building to Develop Standard Electronic Client Information Data System. These Federal funds are one-time and require no state match.

Established in 1996, ADAP is funded with grant funds made available through the Ryan White Treatment Modernization Act to provide access, through the state operated LSU HCSD/HSC system, to medications and medical care to eligible individuals living with HIV/AIDS who do not have private health insurance or Medicaid. At the beginning of FY 10, the ADAP enrollment was capped to contain costs. Presently, the ADAP unmet needs (waiting) list has 394 individuals. The ADAP Shortfall Relief Funds grant was awarded on 8/24/2010. The ADAP Shortfall Relief Funds will be used to provide services to an additional 174 individuals on the ADAP unmet need (waiting) list as of 7/8/2010. The funds will be available from 8/1/2010 through 7/21/2011.

The ADAP Shortfall Relief Funds will be used to amend the following LSU HCSD/HSC contracts listed below. In 2009, the average cost of maintaining an individual on ADAP for one year was \$6,100.

	<u>Original Contract Amt.</u>	<u>ADAP Shortfall Fund</u>	<u>Amend. Contract Amt.</u>	<u>#Waiting List</u>	<u>#Waiting List Served w/ADAP (est.)</u>
Medical Center of Louisiana at New Orleans	\$8,100,000	\$400,712	\$8,500,712	146	66
Earl K. Long Medical Center	\$4,800,000	\$240,969	\$5,040,969	87	39
Leonard J Chabert Medical Center	\$630,000	\$40,613	\$670,613	15	7
University Medical Center	\$1,600,000	\$78,518	\$1,678,518	29	13
W. O. Moss Regional Medical Center	\$1,275,000	\$105,593	\$1,380,593	39	17
Huey P. Long Medical Center	\$900,000	\$46,028	\$946,028	19	7
LSU Medical Center Shreveport	\$1,525,000	\$81,225	\$1,606,225	33	13
E. A. Conway Medical Center	\$1,100,000	\$40,613	\$1,140,613	14	7
Lallie Kemp Regional Medical Center	\$550,000	\$21,768	\$571,768	4	3
Bogalusa Medical Center	\$275,000	\$10,722	\$285,722	8	2
Total	\$20,755,000	\$1,066,761	\$21,821,761	394	174

The SPNS Program, associated with all Ryan White HIV/AIDS programs, provides funding to develop a standard electronic client information data system to improve the ability of the Office of Public Health to report client-level data. OPH will use the SPNS funds to amend 2 current professional services contracts that support HIV/AIDS programs activities. The SPNS funds were awarded on 8/24/2010 and will be available from 9/1/2010 through 8/31/2011.

SPNS expenditures are as follows:

October 22, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Professional Service Contracts - \$68,307

▣ LSU HSC - \$40,437

An existing professional service contract with LSU HSC for HIV/AIDS services will be amended by \$40,437. LSU HSC will perform specific activities of the SPNS Program. Funding will be used on personnel and related benefits (\$36,642); travel (\$800); and indirect cost (\$2,995). A services data coordinator for the OPH HIV/AIDS program will be responsible for facilitating all project meetings and coordinating the merging and cleaning of client-level data from the project's collaborative partners. In addition, a graduate student will assist the services data coordinator with cleaning the merged data to eliminate duplicate records and ensuring that all required data fields are complete.

▣ Acadiana Cares, Inc. - \$27,870

An existing professional service contract with Acadiana Cares, Inc. for HIV/AIDS services will be amended by \$27,870. Acadiana Cares, Inc. will perform specific activities of the SPNS Program. Funding will be used on personnel and related benefits (\$14,170); administrative costs (\$1,700); and software development (\$12,000). Acadiana Cares will oversee the technical requirements to establish a centralized repository of client-level data and coordinate the installation of all required hardware to establish a centralized repository of client-level data. Also, Acadiana Cares will coordinate with JProg, a software development company and the original developer of CAREWare software used for the SPNS grant, to develop advanced upgrades to accommodate increased data sharing capabilities.

Acquisition of Equipment - \$19,500

Server (Dell Power Edge 2970 Energy Smart) - \$8,000

Computers (10 @ \$850 each) - \$8,500

Flatbed Scanners (30 @ \$100 each) - \$3,000

The equipment will be used by community-based organizations that will participate in the SPNS grant. The 10 computers will be used to replace older computers in order to efficiently operate the software used for the SPNS project. In addition, 30 scanners will be purchased and distributed to each contracted community-based organization to scan client documents for electronic storage and retrieval. Examples of documents include client intake forms, care plans, eligibility verification documents.

Other Charges - \$10,537

OPH will use 12% of the total SPNS funds for state cost allocation to distribute administrative costs.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The ADAP Shortfall Relief Funds are available from 8/1/2010 - 7/31/2011. The SPNS funds are available from 9/1/2010 - 8/31/2011. Information provided by OPH indicates that both the ADAP Shortfall Relief Funds and the SPNS funds are one-time funds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

AGENDA NO.: 20

AGENCY: Safe Drinking Water Revolving Loan Fund

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Safe Drinking Water Revolving Loan Fund	\$22,251,700	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$22,251,700			
Total	<u>\$22,251,700</u>	Total	<u>\$22,251,700</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is an after-the-fact BA-7 request. A total of \$1,676,660 of the requested \$22,251,700 has been expended in FY 11.

The purpose of this BA-7 request is to increase Federal funds budget authority by \$22,251,700 in the Drinking Water Revolving Loan Fund (DWRLF), administered by the Office of Public Health (OPH). The source of Federal funds is the American Recovery & Reinvestment Act (ARRA) grant from the U.S. Environmental Protection Agency (EPA). These Federal funds are one-time and require no state match.

The DWRLF program was established pursuant to the federal Safe Drinking Water Act Amendments of 1996 (SDWA). The DWRLF program provides financial assistance to both publicly and privately owned community water systems and nonprofit non community water systems for infrastructure projects eligible under the SDWA. The OPH is responsible for the operations and administration of the DWRLF program. OPH is authorized to apply for and accept capitalization grants from the EPA.

In January 2010, OPH was awarded \$27,626,000 of ARRA DWRLF funds. The ARRA DWRLF covers capital improvement construction costs for 28 small local community water systems. See table below. Construction loan funds were placed in the DWRLF and personnel and indirect costs funds were placed in the OPH.

DWRLF - Construction Loans	\$27,311,000
OPH - Personnel Costs	\$277,200
OPH - Indirect Costs	\$37,800
Total	<u>\$27,626,000</u>

The DWRLF program expended \$5,059,300 of ARRA DWRLF funds for construction loans in FY 10. During the FY 11 budget process, the remaining \$22,251,700 (\$27,311,000 - \$5,059,300) of ARRA DWRLF funds available was non-recurred in error. All 28 small community water system construction projects are in various stages of completion and could not be easily stopped. Contractors had completed laying ground pipe, erecting water towers, installing treatment equipment, etc. Therefore the local community water systems have bone fide obligations for payments for contractors. A total of \$1,676,660 of ARRA DWRLF funds have been expended in FY 11.

Although OPH has until February 2013 to expend the ARRA DWRLF funds, the agency is anticipating all AARA DWRLF funds will be expended by the end of FY 11. OPH has agreements in place with all 28 small local community water systems to support their drinking water construction projects. Presently, OPH is using their non ARRA DWRLF funds of \$34 M to fund all projects. As of 10/11/2010, only \$11.8 M of non ARRA DWRLF funds is available (\$34 M appropriated - \$22.2 M expended). Without this BA-7 approval, OPH will not be able to continue funding these projects.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds donated by the United Way to support GOHSEP's Get-A-Game Plan public education and outreach campaign. This campaign focuses on educating the public about all hazards, particularly hurricanes and how to prepare for them. The goal is to properly educate people about ways to keep their families safe. Funds will be used to provide announcements on radio, public service advertisements in metro newspapers, coloring books targeted to children, web banners on metro newspaper websites, web crawls on metro television stations, educational guides, and updating the Get-A-Game Plan website.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to allow the agency to budget funds received from the state of Tennessee related to a Tennessee severe flooding event. These funds are a reimbursement of personnel (\$41,469) and travel costs (\$29,320) incurred by GOHSEP personnel for a period of 7 days following this weather event. GOHSEP personnel participating in this 30-day deployment included 2 public assistance officers and 2 mitigation officers. Travel expenditures to be reimbursed (as per state travel regulations) are as follows:

Rental Vehicles	\$5,200
Air Travel	\$1,340
Per Diem	\$6,240
Lodging	\$16,200
Laundry/phone	<u>\$340</u>
Total	\$29,320

LA is a member of the Emergency Management Assistance Compact (EMAC) Program which is a congressionally ratified organization that is administered by the National Emergency Management Association and was created in 1996 to provide state-to-state assistance during times of emergency.

DEPARTMENT: Insurance

AGENDA NO.: 3

AGENCY: Commissioner of Insurance

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative & Fiscal	\$0	0
Interagency Transfers:	\$0	Market Compliance	\$187,000	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$187,000			
Federal Funds:	\$0			
Total	<u>\$187,000</u>	Total	<u>\$187,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request increases statutory dedicated budget authority in the amount of \$187,000 within the Automobile Theft & Insurance Fraud Prevention Authority Fund (R.S. 22:2134), which is within the Department of Insurance (DOI), for educational outreach and public awareness expenditures associated with the Authority.

The projected expenditures include:

\$3,200	print advertisement
\$42,800	statewide radio campaign
\$75,000	statewide billboard campaign
\$2,000	printing fraud brochures
\$5,000	promotional supplies
\$9,000	professional services contract for the redevelopment of the middle and high school education program
<u>\$50,000</u>	professional services contract for the production and distribution of training videos.
<u>\$187,000</u>	

The additional funding has been made available through the passage of Act 1013 of 2010, which provides for the LA Automobile Theft & Insurance Fraud Prevention Authority Fund (LATIFPA) to receive \$187,000 annually from the annual assessment charged by the commissioner of insurance on the direct premiums received by each insurer licensed by the DOI. Per statute (R.S. 40:1428), the fee assessment in any year shall not exceed an amount equal to 0.000375 multiplied times the annual direct premium dollars received. The fee is utilized to support the Insurance Fraud Investigation Unit at State Police, the Insurance Fraud Section at the Attorney General and the Insurance Fraud Section at the DOI. Fee receipts are allocated as follows: \$30,000 off the top to the DOI for administrative costs associated with the collection of the assessment, 75% to the Insurance Fraud Investigation Unit within State Police, 15% to the Insurance Fraud Support Unit within Attorney General, and 10% to the Insurance Fraud section within the DOI. Historically, the DOI collects approximately \$3.5 M from this fee assessment. Act 1013 also added LATIFPA to the fee assessment hierarchy in the annual amount of \$187,000, which reduced the amount of revenue available to State Police, Attorney General and the DOI.

Prior to the passage of Act 1013 of 2010, the LATIFPA Fund collected approximately \$25,000 annually from private donations. Upon approval of this BA-7, the unappropriated fund balance within the LATIFPA Fund is approximately \$14,639.

The LA Automobile Theft & Insurance Fraud Prevention Authority (LATIFPA) was created via Act 711 of 2004 to combat motor vehicle theft, insurance fraud and other criminal acts.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0			
Federal Funds:	\$646,146			
Total	<u>\$646,146</u>	Total	<u>\$646,146</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request increases Federal funds budget authority within the Department of Insurance (DOI) to budget additional grant funds in the amount of \$646,146 received from the U.S. Department of Health & Human Services (HHS). These funds are associated with the Affordable Care Act, which consists of the Patient Protection & Affordable Care Act of 2010 and the Health Care & Education Reconciliation Act of 2010, signed by the President on 3/23/2010. No state match is required for these federal grant funds.

Provisions within the legislation provide for the HHS, in conjunction with the States, to establish a process for the annual review of health insurance premiums to protect consumers from unreasonable, unjustified and/or excessive rate increases. Specific components of this oversight include: 1) all increases in health insurance rates over the prior year that meet the established unreasonable threshold; and 2) justifications for unreasonable increases in rates prior to their implementation.

The specific expenditures are as follows:

\$216,396	other compensation (6 temporary positions)
\$107,649	related benefits (fringe benefits associated with the 6 positions)
\$4,800	travel
\$29,701	operating services
\$5,200	supplies
\$249,400	professional services contracts for 2 actuaries and 1 attorney
<u>\$33,000</u>	IAT expenditure category to OTM for bandwidth increase
\$646,146	

According to HHS, Congress appropriated \$250 M for this grant program for FFYs 10 - 14. All states are eligible in cycle I awards for up to \$1 M. LA has been awarded \$1 M and this BA-7 requests the appropriation of \$646,146 in FY 11 and the remaining \$353,854 will likely be included within the FY 12 Executive Budget.

II. IMPACT ON FUTURE FISCAL YEARS

Any portion of the appropriation of \$646,146 which may be unexpended in FY 11 and the remaining \$353,854 would likely be included within the FY 12 Executive Budget.

Total	<u>\$50,000</u>	Total	<u>\$50,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

State Police is requesting approval to add \$50,000 of SGR to its budget. The requested funding will be utilized as the required match for a federal grant from the LA Commission on Law Enforcement to enhance apprehension of criminals. Funding for the federal grant is already included in the agency's existing budget, therefore no increase in IAT revenue is required. Funding from the grant totals \$200,000 (\$150,000 Federal funds and \$50,000 required state match funding). The funding will be utilized to provide for travel expenses (\$28,144), acquisition of undercover electronic surveillance and wiretapping equipment (\$150,556), and a one year wiretap service agreement (\$21,300).

The SGR is from unobligated prior year revenue derived from forfeiture of seized narcotics assets. As of 6/30/2010, State Police had an unobligated balance of this revenue of \$3,254,023.

The grant is effective 7/1/2010 through 6/30/2010.

Statutory Dedications:	\$0	Gaming Enforcement	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$3,423,801	0
Total	<u>\$3,423,801</u>	Total	<u>\$3,423,801</u>	<u>0</u>

I. SUMMARY/COMMENTS

State Police is requesting approval to add \$3,423,801 of SGR to its budget. The requested funding will be utilized to provide for the following expenditures related to the nationwide rebanding project mandated by the Federal Communications Commission (FCC): training (\$70,000), 700 MHz infrastructure updates (\$75,920), 12 channel voice recorder (\$149,685), backhaul links (\$159,912), software for mobile radios (\$122,720), subscriber units (\$660,000), future improvements for radio sites (\$700,811), mobile data computer system enhancements (\$600,000), portable mobile radios (\$801,000), and rebanding equipment/upgrades (\$83,753). The project is designed to minimize interference to public safety radio communications systems. As a result of the rebanding, frequency interference at existing State Police towers will be eliminated, thereby improving reception and communication between law enforcement and first responder agencies in times of emergency. As per the FCC mandate, the Nextel South Corporation will provide the state with the SGR to provide for the rebanding. Based on the existing agreement, State Police is anticipated to collect \$6.6 M for the rebanding project. To date, the agency has expended approximately \$3.2 M on the project. Because the state is in the process of providing an interoperability solution, which entails converting from the 800 MHz system to the 700 MHz system, this project will essentially provide infrastructure funding for this conversion to the new 700 MHz communication system.

To address a growing problem of harmful interference to 800 MHz public safety communication systems caused by high-density commercial wireless systems, the FCC in July 2004 adopted a comprehensive plan to reconfigure the band. This plan is designed to protect the lives of first responders and other emergency personnel and fulfills the FCC's obligation to promote safety of life and property through the use of wire and radio communications. Implementation of 800 MHz band reconfiguration is a top priority of the federal Public Safety & Homeland Security Bureau. The FCC requires Sprint to pay all reasonable relocation costs incurred by public safety and other 800 MHz incumbents, including costs associated with remaining fully operable during the transition.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$0			
Total	<u>\$650,000</u>	Total	<u>\$650,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of Motor Vehicles is requesting approval to add \$650,000 of IAT revenue to its budget. The IAT revenue derives from Federal funds received by the state Department of Transportation & Development. The funding will be utilized to provide for computer functions (i.e. programming, develop web-base system, etc.) needed to comply with federal requirements for the registration of commercial vehicles via the Commercial Vehicle Information Systems & Network (CVISN).

Out of the total funding requested, \$500,000 is for the development of a web-based computer application for motor carrier truck registration, and \$150,000 is for the development of a web-based system that allows carriers to apply and pay registration trip permits electronically. The CVISN Program is a key component of the Federal Motor Carrier Safety Administration's (FMCSA) drive to improve commercial motor vehicle safety. The CVISN Program supports FMCSA's goals by focusing safety enforcement on high-risk operators; integrating systems to improve the accuracy, integrity, and verifiability of credentials; improving efficiency through electronic screening of commercial vehicles; and enabling online application and issuance of credentials. CVISN is also a component of the state International Registration Plan (IRP), a cooperative agreement among 48 states, 10 Canadian provinces and the District of Columbia which allows a motor carrier to register a commercial vehicle for travel in all participating jurisdictions by filing paperwork with the home (base) jurisdiction. IRP provides for payment of licensing fees based on fleet miles operated and vehicle information. The unique feature of IRP is that although license fees are paid to the base jurisdiction and distributed to various jurisdictions in which fleet vehicles are operated, only one (1) license plate and one (1) cab card is issued for each fleet vehicle.

The Office of Motor Vehicle is out-sourcing its IRP process to Affiliated Computer Services (ACS). ACS will also be responsible for performing the computer functions required for the CVISN Program.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 10

AGENCY: Office of Fisheries

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fisheries	\$4,318,054	0
Interagency Transfers:	\$0	Marketing	\$0	0
Self-Generated Revenue:	\$4,318,054			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$4,318,054</u>	Total	<u>\$4,318,054</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$4,318,054 in the Office of Fisheries in order to receive funds from British Petroleum (BP). The office has entered into a 3-year agreement with BP for 3 monitoring programs: Inshore Fisheries Monitoring Plan; Nearshore Fisheries Monitoring Plan; and the Offshore Resources Monitoring Program.

This funding will be used to collect data to quantify potential impacts of the oil spill on the marine resources of the state. This monitoring will double the field sampling effort of the Office of Fisheries and will require 20 job appointments to be utilized. This new monitoring program will encompass a broader geographic scale to assess areas impacted by oil that are not currently being sampled by the department.

The Department of Wildlife & Fisheries will budget these funds as follows:

Other Compensation - \$1,384,381 (20 biologists)
Related Benefits - \$415,315 (retirement, Medicare, insurance)
Travel - \$7,333 (in-state field travel)
Operating Services - \$826,921 (maintenance to vehicles, boats, and equipment, vessel leasing)
Supplies - \$242,426 (office supplies, computer software, operating supplies)
Other Charges - \$1,161,159 (contract to complete Offshore Resource Monitoring Program)
Acquisitions - \$239,269 (lab equipment, office furniture and equipment)
Major Repairs - \$41,250 (repairs to vehicles, boats, and equipment)

The contract for the Offshore Resource Monitoring Program will be with Dr. Jim Cowan at LSU. A majority of the 20 job appointments' duties will include sampling in the Inshore and Nearshore Fisheries consistent with the Monitoring Plans.

II. IMPACT ON FUTURE FISCAL YEARS

Funding in subsequent years will be \$4,222,631 (FY 12), \$4,284,382 (FY 13), and \$392,550 (FY 14). Expenditures in subsequent years will be an extension of the same types incurred in the current year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$397,277			
Total	<u>\$397,277</u>	Total	<u>\$397,277</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority by \$397,277 for the Counseling At-Risk Elementary Students (CARES) grant received from the US Department of Education. The grant funds will be used to increase the schools' capacity to provide counseling services and help schools reduce discipline problems. The primary goal of the project is the development of an effective mental health and behavioral support system for elementary students. There is no state match required to receive this grant.

The counseling services will be provided to 4 schools in New Orleans - Banneker, Reed, F.C. Williams and Shamburg. These schools serve approximately 2,251 students. According to the Recovery School District, the schools receiving counseling services were chosen because students attending these schools are living in impoverished, underserved communities impacted by crime, violence, family instability, and the long-term aftermath of Hurricane Katrina.

The funds will be used in the following expenditure categories:

\$217,634 Other Compensation (salary for 3.5 FTE social workers, and 0.5 FTE program director, and stipends for substitutes)
\$69,839 Related Benefits
\$3,630 Travel (grant requires attendance at national conference, & the project director to attend a meeting in DC)
\$17,546 Supplies (curriculum supplies and office supplies)
\$73,475 Professional Services (evaluation, clinical oversight and professional development)
\$15,153 Interagency Transfers (indirect costs of the agency)
\$397,277 TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

The grant budget period is for 3 years. The Recovery School District is scheduled to receive \$399,992 in FY 12 and \$399,990 in FY 13 to continue the grant activities. The Recovery School District anticipates serving the same 4 schools in FY 12 and FY 13.

		Auxiliary Account	\$0	0
Total	<u>\$224,000</u>	Total	<u>\$224,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$224,000 in SGR from the Center for Educational Leadership & Technology Corporation (CELT). The CELT Corporation received a grant from the Bill and Melinda Gates Foundation to support the Teacher-Student Data Link Project. LA is one of 5 states participating in the project. The project is focused on developing processes for collecting and validating teacher and student data. There is no state match required to receive this grant.

The Department of Education will use the funding to continue the development of a centralized Curriculum Verification Reporting (CVR) system. The Teacher-Student Data Link Project aims to develop more useful measures of teacher effectiveness by using the information provided by the CVR system to help develop objective and reliable measures of effective teaching rather than only using student assessments. This tool will provide teacher and student data at the local level which will be reported to the state. The teachers will be able to review the data before it is used for evaluation purposes. The following are some of the outcomes anticipated by using the data from the CVR system: 1) identifying staff development programs that help create effective teachers; 2) determine variables that help or hinder teacher effectiveness; 3) determining characteristics of effective teachers; 4) help align student needs with teacher effectiveness characteristics; and 5) providing assistance for teachers needing support early on.

The funds will be used in the following expenditure categories:

\$10,000 Salaries (overtime for 9 existing staff members to develop the 2nd version of the CVR)
\$1,000 Travel (for DOE staff to travel to LEAs to provide training)
\$49,000 Supplies (communications and training materials)
\$35,000 Professional Services (technical assistance needed for the development of application)
\$129,000 Acquisitions (hardware upgrades for collection systems-replacement of servers and upgrading storage capacity)
\$224,000 TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

The grant period begins on 9/1/2010 and extends to 10/31/2011. It may be necessary to carry forward a portion of the grant into FY 12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Health & Hospitals

AGENDA NO.: 15A

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$0	0
Interagency Transfers:	\$7,500,000	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$20,610,058	0
Federal Funds:	\$13,110,058	Recovery Funds	\$0	0
Total	<u>\$20,610,058</u>	Total	<u>\$20,610,058</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request increases IAT and Federal funds budget authority in the Uncompensated Care Costs Program, Medical Vendor Payments. These funds will be used to cover the costs associated with the delivery of primary care services to the uninsured in the greater New Orleans area. The source of IAT is Community Services Block Grant (CDBG) funds from the Division of Administration. These funds are awarded by the U.S. Department of Housing & Urban Development (HUD) to the state. The source of Federal funds is Title XIX Disproportionate Share Hospital (DSH) funds.

Post Hurricane Katrina, a Primary Care Access & Stabilization Grant (PCASG) was awarded from the U.S. Department of Health & Human Services and is currently being used to fund primary care and behavioral health services in the greater New Orleans area (Jefferson, Orleans, St. Bernard, and Plaquemines parishes) through a clinic infrastructure. Over 25 public and private organizations currently operate approximately 90 clinics to provide primary care access to the uninsured. As of May 2010, approximately \$91 M in PCASG grant funding has been expended. The PCASG is anticipated to end 9/30/2010.

The intent of this BA-7 is to transition a temporary funding mechanism (current PCASG grant) to a more sustainable financial model (Disproportionate Share Hospital payments through a waiver program). In FY 11, approximately \$7.5 M in CDBG funds will be used in the Medical Vendor Payments Program as a state match source to draw down matching Federal funds authorized through a new primary care waiver. Medicaid will be allowed to appropriate both state matching and Federal funds to support a Section 1115 demonstration waiver to continue the provision of current services offered through the existing Primary Care Access & Stabilization Grant. Specifically, funding will be used to make DSH payments to waiver providers for the term of the waiver demonstration. The waiver is anticipated to be authorized through 2013.

Individuals considered eligible for enrollment under the waiver will be limited to those who are uninsured for at least 6 months, 19-64 years old, are not eligible for Medicaid, LaCHIP, or Medicare, and are residents of one of the participating parishes within income up to 200% of the Federal Poverty Level (FPL).

The overall waiver and utilization of CDBG funds as a state match source has yet to be approved by the Centers for Medicare & Medicaid Services (CMS). However, according to both DHH and the Office of Community Development, Disaster Recovery Unit within the DOA, the use of CDBG funding as a state match source for this waiver has received HUD approval.

Reflected below are projected DSH payments by year:

YEAR	2010	2011	2012	2013
State Match Source	\$7,500,000	\$10,000,000	\$10,000,000	\$5,000,000
Federal Funds	<u>\$13,110,058</u>	<u>\$17,480,077</u>	<u>\$17,480,077</u>	<u>\$8,740,038</u>
TOTAL PAYMENTS	\$20,610,058	\$27,480,077	\$27,480,077	\$13,740,038

II. IMPACT ON FUTURE FISCAL YEARS

The proposed effective date of the waiver is 10/1/2010 through 12/31/2013. DHH proposes to fund the non-federal share of

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

projected DSH expenditures (including both state match source and federal match) of \$89,310,250 over the course of the waiver period.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon approval of the demonstration waiver from the CMS and receipt of federal CDBG funds that are intended to be used as a matching source. According to the department, CMS approval is anticipated no later than 10/1/2010.

Statutory Dedications:	\$0			
Federal Funds:	\$800,750			
Total	<u>\$1,601,501</u>	Total	<u>\$1,601,501</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request increases IAT and Federal funds budget authority in the Medical Vendor Administration Program. These funds will be used to cover the administrative costs associated with operating an 1115 demonstration waiver that will allow the state to fund primary care clinics in the greater New Orleans area. The source of IAT is Community Services Block Grant (CDBG) funding from the Division of Administration. These funds are awarded by the U.S. Department of Housing & Urban Development (HUD) to the state. The source of Federal funds is Title XIX funds.

Information provided by the Department of Health & Hospitals indicates that Medical Vendor Administration will hire 11 temporary personnel as well as enter into a professional services contract to support the operation of the waiver. Total FY 10 administrative costs requested in this BA-7 are itemized below.

\$528,804 - Other compensation - Personnel costs (salaries and related benefits) for 11 temporary positions. Positions include a program monitor position responsible for direct waiver administration duties, and 10 positions that will comprise an eligibility determination unit (one unit supervisor and 9 analysts). The analyst positions will be responsible for application and renewal processing for the waiver which is estimated to serve approximately 75,000 uninsured adults annually.

\$957,200 - Professional Services - contract to complete eligibility systems edits, enrollment and encounter data gap analysis, and benefit and payment design for phase 2 of the waiver.

\$86,271 - Operating services - telephone lines, software licenses, and postage

\$24,226 - Acquisitions and Supplies

\$5,000 - Travel - Medicaid eligibility staff to attend policy and technology training

Reflected below are total administrative cost by year:

YEAR	2010	2011	2012	2013
State Match Source	\$800,751	\$450,487	\$392,767	\$328,110
Federal Funds	<u>\$800,750</u>	<u>\$450,486</u>	<u>\$392,766</u>	<u>\$328,110</u>
TOTAL PAYMENTS	\$1,601,501	\$900,973	\$785,533	\$656,220

II. IMPACT ON FUTURE FISCAL YEARS

The proposed effective date of the waiver is 10/1/2010 through 12/31/2013. DHH proposes to fund the non-federal share of demonstration expenditures with HUD Community Development Block Grant funds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon approval of the demonstration waiver from the Centers for Medicare & Medicaid Services (CMS) and receipt of federal CDBG funds that are intended to be used as a matching source. According to the department, CMS approval is anticipated no later than 10/1/2010.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 15-C

AGENCY: Office of Secretary

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	(\$8,300,751)	0
Interagency Transfers:	(\$8,300,751)	Grants	\$0	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>(\$8,300,751)</u>	Total	<u>(\$8,300,751)</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to reduce IAT funding from the Office of the Secretary. The original source of the IAT is Community Development Block Grant (CDBG) funding from the Division of Administration.

The Executive Budget of the 2010 Legislative Session appropriates \$29 M in IAT funding in the Office of the Secretary to be used to support primary care clinics in the greater New Orleans area. Information provided by the Department of Health & Hospitals indicates this funding (100% CDBG) will not be used in the Office of the Secretary, but has been approved to be utilized in both the Medical Vendor Administration and Medical Vendor Payments programs through a waiver initiative. Medicaid will be allowed to appropriate CDBG funds and matching Federal funds to support a Section 1115 demonstration waiver to continue the provision of current services offered through the existing Primary Care Access & Stabilization Grant (see BA-7 15-A). The intent of this BA-7 is to reduce funding that has not been authorized for spending in the Office of the Secretary.

II. IMPACT ON FUTURE FISCAL YEARS

There is no impact to the Office of the Secretary. The Medicaid Program is projected to support the continuation of these primary care services through a Medicaid waiver (see BA-7 15-A). According to the Department of Health & Hospitals, the remaining budget authority (\$20,699,249) appropriated in the Office of the Secretary for this purpose will be reduced in the FY 12 Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0	Addictive Disorders Community	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$8,253,954</u>	Total	<u>\$8,253,954</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$8,253,954 in the Mental Health Community Program administered by the Office of Behavioral Health (OBH). The source of funding is a contribution from British Petroleum (BP) to the state of LA as a result of the Deep Water Horizon Oil Spill. This funding will be utilized by OBH to fund a 6-month program intended to mitigate and treat the adverse psychological and emotional impacts resulting from the oil spill.

The majority of these funds will be disbursed through IAT to the local government entities (LGEs) affected by the oil spill and to the Department of Children & Family Services for outreach and services, to be performed according to the LaSpirit model, to deal with behavioral health issues at a local level that have arisen as a result of damage done by the oil spill. The program will be available to all residents of LA in the affected areas, and also to workers on temporary response and recovery duty in LA. The particular LGEs involved are the Jefferson Parish Human Services Authority, the South Central LA Human Services Authority, the Metropolitan Human Services District, and the Florida Parishes Human Services Authority. The program is expected to last 6 months and finish by the end of FY 11. Specific expenditures are itemized below:

EXPENDITURES:

Funds allocated for salaries, related benefits, travel, and supplies will be used by OBH personnel for ongoing technical assistance and support that includes some training to ensure adherence to the LaSpirit Model.

Salaries - \$294,440 and Related Benefits - \$79,498

- For 5 positions for 6 months
- Positions originally funded through the initial BP allocation of \$1.1 M to DHH from the Department of Public Safety & Corrections, Public Safety Services, which was used by the former OMH for mental health services.
- They are not new hires, nor are they regular T.O. positions.
- These positions are transferring from previous duties within OBH concerning mental health to this new program and utilizing this BP contribution as a new and alternative source of funding.
- Positions will terminate at the end of the program.

	<u>Salary</u>	<u>Related Benefits</u>
1. Program Manager	\$79,040	\$21,341
2. Evaluator	\$75,000	\$20,218
3. Specialist/Interviewer	\$74,880	\$20,098
4. Coordinator	\$26,000	\$7,020
5. Administrative Assistant	<u>\$39,520</u>	<u>\$10,821</u>
Total	\$294,440	\$79,498

Travel - \$21,000

September 17, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Mileage reimbursements for 4.5 employees for field travel based on approximately 1,620 miles monthly at a \$0.48/mile rate over 6 months.

Supplies - \$19,473

- Includes paper, air cards, phones, t-shirts, fax costs, portable printer for data collection, collection instruments and printing costs
- Includes copying costs for any self-help, educational, and therapeutic materials needed for mass distribution
- Supply and operating costs were calculated at a monthly cost of \$3,245.50 over 6 months.

Other charges - \$280,000

- Includes \$30,000 for training on the crisis counseling program model components, technical support, psychological first aid for responders, conferences for service providers, and materials at an average cost of \$5,000 per month over 6 months.
- \$250,000 will be utilized by the LSU Health Sciences Center, Department of Psychiatry to provide specific training to the LaSpirit outreach teams on mental health and substance abuse issues in children and families, including assessments, screenings, and follow-up evaluations.

InterAgency Transfers (IAT) - \$7,559,543 (further detailed in companion BA-7s)

- Jefferson Parish Human Services Authority (BA-7 #16C) - \$1,368,709
- South Central LA Human Services Authority (BA-7 #16F) - \$2,182,663
- Metropolitan Human Services District (BA-7 #16E) - \$3,308,171
- Department of Children & Family Services (BA-7 #16B) - \$500,000
- Florida Parishes Human Services Authority (BA-7 #16D) - \$200,000

The IAT funds will be used for implementation of the mental health outreach program in the areas affected by the oil spill. It is anticipated that the separate LGEs of JPHSA, SCLHSA, and MHSD will use outreach teams based on the LaSpirit model for initial contact, emergency crisis response, and counseling. There will be 120 people comprising the outreach teams servicing the 3 LGEs, and the LGEs will determine whether they wish to contract or hire these personnel temporarily once they receive the IAT funding. The outreach teams will refer individuals for more in-depth clinical treatment and therapy with psychiatrists and other professional personnel as needed. The LGEs will determine whether they wish to contract out for these clinical treatment and therapy services or perform them in-house. The Florida Parishes Human Services Authority will use the funds for suicide prevention outreach services.

II. IMPACT ON FUTURE FISCAL YEARS

According to the contract with BP for the expenditure of the contribution funds, all money must be expended by August 2011. OBH intends that all money transferred by IAT to the LGEs affected by the oil spill and to DCFS to be expended by the LaSpirit teams locally and by DCFS by the end of FY 11. The end of FY 11 should coincide with the end of the 6 month program after an initial hiring period of around 3 months.

Approval of this BA-7 request will have no anticipated impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #16A.

The purpose of this BA-7 request is to increase IAT budget authority by \$500,000 in the Prevention & Intervention Services Program. The IAT funds are from the Department of Health and Hospitals (DHH), Office of Behavioral Health (OBH). The source of IAT funds is an award of \$8,253,954 from BP Exploration & Production, Inc. to provide behavioral health services to LA residents impacted by the Deepwater Horizon oil spill.

Of the 20 domestic violence programs in the state, 14 programs serve residents in areas that are affected by the oil spill (St. Bernard, Plaquemines, Terrebonne, LaFourche, Jefferson, Iberia, Vermillion, St. Mary, St. Tammany, and Orleans). According to reports from these domestic violence programs, since the oil spill, there has been an increase in the number of calls to the National Domestic Violence Hotline and an increase in the number of persons receiving sheltered services. The increase in the volume of calls for assistance to the hotline to these programs range from 14% to over 100%. Also, the increase in the number of persons receiving sheltered services range from 18% to 86%. The DCFS will use to \$500,000 to reimburse domestic violence programs for increased cost of shelter services including but not limited to meals, clothing, supplies, and utility costs.

Expenditures for this BA-7 request are as follows:

Other Charges (\$500,000)

The 14 domestic violence programs that serve residents in areas affected by the oil spill will receive reimbursement for increased shelter service costs. The programs will submit an application to DCFS stating the increase in persons served and describing the nature of their cost increase in response. Also, the programs will include a budget describing their use of the funds as well as at least 2 outcome measures. After the funds are awarded, the programs will have to issue a report every 90 days detailing their use of the funds and the number of persons served.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #16A.

The purpose of this BA-7 request is to increase IAT budget authority by \$1,368,709 in the Jefferson Parish Human Services Authority (JPHSA). The IAT funds are transferred from the Department of Health and Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a contribution of \$8,253,954 from BP Exploration & Production, Inc., and is intended to provide behavioral health services to LA residents impacted by the Deep Water Horizon oil spill.

The JPHSA will use the \$1,368,709 to provide mental health services through community outreach and outreach at the in-home level to people suffering from behavioral health issues as a result of the Deep Water Horizon oil spill in Jefferson Parish. The program will be available to all residents of LA in the affected areas, and also to workers on temporary response and recovery duty in LA. Services will be rendered based on the LaSpirit model adopted as a result of hurricanes Katrina and Rita. Crisis counselors/outreach workers will be organized into teams for the delivery of Psychological First Aid (PFA), Skills for Psychological Recovery (SPR), interventions for complicated grief and loss, suicide prevention across the life-span, and other evidence-based cognitive-behavioral interventions appropriate to reducing substance use/abuse, including early intervention strategies with youth for both substance use and developmental and adjustment issues. The average community-based behavioral health team will be comprised of a team leader, master-prepared crisis counselors (experienced and trained in mental health/addiction counseling), outreach workers who are indigenous to the communities they serve, community cultural liaison who are familiar with the cultural traditions and behaviors within specialty populations, stress managers organized to provide stress management reduction services to the behavioral health response workforce, and administrative support staff. Teams providing crisis counseling services to the general population will have staff skilled in behavioral health screening/assessment, suicide prevention, counseling for trauma exposure/re-exposure and referral skills.

The outreach teams will be funded \$979,909 for salaries and related benefits for up to 24 people. The JPHSA plans to contract for these positions. The JPHSA will utilize \$388,800 for clinical treatment, psychiatry and therapy services, which will be performed either in-house or by contracted service providers (to be determined by the JPHSA). The clinical treatment and therapy services will be for people referred by the outreach teams for further, more intensive treatment and support.

II. IMPACT ON FUTURE FISCAL YEARS

According to the contract with BP for the expenditure of the contribution funds, all money must be expended by August 2011. The JPHSA intends to have expended all funds transferred through IAT from OBH by the end of FY 11, which should coincide with the end of the 6-month program.

Approval of this BA-7 request will have no anticipated impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #16A.

The purpose of this BA-7 request is to increase IAT budget authority by \$200,000 in the Florida Parishes Human Services Authority (FPHSA). The IAT funds are transferred from the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a contribution of \$8,253,954 from BP Exploration & Production, Inc., and is intended to provide behavioral health services to LA residents impacted by the Deep Water Horizon oil spill.

The FPHSA will use the \$200,000 to provide mental health services by contracting with local agencies to address suicide and stress for adults and children impacted by recent catastrophic events and the recurrent trauma associated with the oil spill in the Florida Parishes area. FPHSA does not plan to hire additional staff with this funding, but will contract to provide access to mental health services through an enhanced crisis line, which will provide various referral resources and linkages. Funds will also be used to train crisis-line counselors, increase awareness of mental health issues and resources through the media (ads, articles, etc.), and track utilization of the funds. FPHSA is currently working with the Suicide Prevention Task Force to determine who may be contract providers for these services, and more specifically what services will provide the best outcomes for the community.

II. IMPACT ON FUTURE FISCAL YEARS

According to the contract with BP for the expenditure of the contribution funds, all money must be expended by August 2011. The FPHSA intends to have expended all funds transferred through IAT from OBH by the end of FY 11, which should coincide with the end of the 6-month program.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #16A.

The purpose of this BA-7 request is to increase IAT budget authority by \$3,308,171 in the Metropolitan Human Services District (MHSD). The IAT funds are transferred from the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a contribution of \$8,253,954 from BP Exploration & Production, Inc., and is intended to provide behavioral health services to LA residents impacted by the Deep Water Horizon oil spill.

The MHSD will use the \$3,308,171 to provide mental health services through community outreach and outreach at the in-home level to people suffering from behavioral health issues as a result of the Deep Water Horizon oil spill in the New Orleans Metropolitan area. The program will be available to all residents of LA in the affected areas, and also to workers on temporary response and recovery duty in LA. Services will be rendered based on the LaSpirit model adopted as a result of hurricanes Katrina and Rita. Crisis counselors/outreach workers will be organized into teams for the delivery of Psychological First Aid (PFA), Skills for Psychological Recovery (SPR), interventions for complicated grief and loss, suicide prevention across the life-span, and other evidence-based cognitive-behavioral interventions appropriate to reducing substance use/abuse, including early intervention strategies with youth for both substance use and developmental and adjustment issues. The average community-based behavioral health team will be comprised of a team leader, master-prepared crisis counselors (experienced and trained in mental health/addiction counseling), outreach workers who are indigenous to the communities they serve, community cultural liaison who are familiar with the cultural traditions and behaviors within specialty populations, stress managers organized to provide stress management reduction services to the behavioral health response workforce, and administrative support staff. Teams providing crisis counseling services to the general population will have staff skilled in behavioral health screening/assessment, suicide prevention, counseling for trauma exposure/re-exposure and referral skills.

The outreach teams will be funded \$2,302,691 for salaries and related benefits for up to 60 people. The agency is uncertain at this time whether the teams will be contracted or hired as temporary personnel. The MHSD will utilize \$1,005,480 for clinical treatment, psychiatry and therapy services, which will be performed either in-house or by contracted service providers (to be determined by the MHSD). The clinical treatment and therapy services will be for people referred by the outreach teams for further, more intensive treatment and support.

II. IMPACT ON FUTURE FISCAL YEARS

According to the contract with BP for the expenditure of the contribution funds, all money must be expended by August 2011. The MHSD intends to have expended all funds transferred through IAT from OBH by the end of FY 11, which should coincide with the end of the 6 month program.

Approval of this BA-7 request will have no anticipated impact on future fiscal years.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #16A.

The purpose of this BA-7 request is to increase IAT budget authority by \$2,182,663 in the South Central LA Human Services Authority (SCLHSA). The IAT funds are transferred from the Department of Health & Hospitals (DHH), Office of Behavioral Health (OBH). The original source of IAT funds is a contribution of \$8,253,954 from BP Exploration & Production, Inc., and is intended to provide behavioral health services to LA residents impacted by the Deep Water Horizon oil spill.

The SCLHSA will use the \$2,182,663 to provide mental health services through community outreach and outreach at the in-home level to people suffering from behavioral health issues as a result of the Deep Water Horizon oil spill in the South Central LA area. The program will be available to all residents of Louisiana in the affected areas, and also to workers on temporary response and recovery duty in LA. Services will be rendered based on the LaSpirit model adopted as a result of hurricanes Katrina and Rita. Crisis counselors/outreach workers will be organized into teams for the delivery of Psychological First Aid (PFA), Skills for Psychological Recovery (SPR), interventions for complicated grief and loss, suicide prevention across the life-span, and other evidence-based cognitive-behavioral interventions appropriate to reducing substance use/abuse, including early intervention strategies with youth for both substance use and developmental and adjustment issues. The average community-based behavioral health team will be comprised of a team leader, master-prepared crisis counselors (experienced and trained in mental health/addiction counseling), outreach workers who are indigenous to the communities they serve, community cultural liaison who are familiar with the cultural traditions and behaviors within specialty populations, stress managers organized to provide stress management reduction services to the behavioral health response workforce, and administrative support staff. Teams providing crisis counseling services to the general population will have staff skilled in behavioral health screening/assessment, suicide prevention, counseling for trauma exposure/re-exposure and referral skills.

The outreach teams will be funded \$1,469,863 for salaries and related benefits for up to 36 employees. The agency is uncertain at this time whether the teams will be contracted or hired as temporary personnel. The SCLHSA will utilize \$712,800 for clinical treatment, psychiatry and therapy services, which will be performed either in-house or by contracted service providers (to be determined by the SCLHSA). The clinical treatment and therapy services will be for people referred by the outreach teams for further, more intensive treatment and support.

II. IMPACT ON FUTURE FISCAL YEARS

According to the contract with BP for the expenditure of the contribution funds, all money must be expended by August 2011. The SCLHSA intends to have expended all funds transferred through IAT from OBH by the end of FY 11, which should coincide with the end of the 6-month program.

Statutory Dedications:	\$50,000	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$50,000</u>	Total	<u>\$50,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Attorney General's Office is requesting approval to add \$50,000 in Statutory Dedications from the the Tobacco Settlement Fund to its budget to provide for a professional services contract for legal services to represent the state in arbitration proceedings with tobacco manufacturers who signed the master settlement agreement. LA, along with 44 other states, have been ordered to arbitrate whether manufacturers who signed the master settlement agreement are entitled to an adjustment or refund of payments received by the states in 2004. Manufacturers allege the states did not diligently enforce state statutes related to the master settlement agreement. The states have been ordered to arbitrate whether manufacturers who signed the master settlement agreement are entitled to a refund of the payments received by the states in 2004.

The arbitration proceeding will be held in Chicago. The initial proceeding is scheduled to begin in October and is expected to last at least nine months. If LA loses the initial arbitration, it risks having to refund the entire \$141,771,636.83 master settlement agreement payment received in 2004. Manufacturers have already notified the states of their intention to seek an adjustment or refund for each year following 2004; therefore Louisiana could be forced to participate in future arbitration proceedings, increasing the probability of having to refund payments received from the master settlement agreement each year after 2004.

Law firms representing the state in the tobacco arbitration are Usry, Weeks & Matthews and Shows, Cali, Berthelot & Walsh. The firms have been billing the state for approximately 300 hours monthly. The Attorney General's Office has approximately \$900,000 included in its budget for arbitration expenses.

DEPARTMENT: Environmental Quality

AGENDA NO.: 2

AGENCY: Environmental Compliance

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Compliance	\$869,180	0
Interagency Transfers:	\$34,000			
Self-Generated Revenue:	\$835,180			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$869,180</u>	Total	<u>\$869,180</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$869,180 of additional funds for demolition and landfill oversight of both FEMA reimbursement eligible properties and LA Land Trust owned properties. The requested funding is comprised of an additional \$34,000 in IAT from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) and \$835,180 of SGR from the LA Land Trust. The original source of the additional \$34,000 in IAT from GOHSEP is FEMA and is being requested for expenditure together with \$350,000 of these same funds that are already in DEQ's budget for the purpose of demolition and landfill oversight of FEMA reimbursement eligible properties in the New Orleans area. The original source of the additional \$835,180 in SGR is Community Development Block Grant (CDBG) disaster recovery funds and is being requested for expenditure together with \$364,820 of these same funds which are requested to be carried forward (Carry-forward #39) into FY 11 for demolition and landfill oversight of LA Land Trust owned properties in the New Orleans area.

DEQ estimates demolition and landfill oversight costs for FEMA reimbursement eligible sites to average approximately \$32,000 per month for the next 12 months or a total of \$384,000. This BA-7 request will make available that amount of funding by providing an additional \$34,000 in IAT to be used with the \$350,000 already in DEQ's budget for this purpose. -DEQ estimates demolition and landfill oversight costs for LA Land Trust owned properties to average approximately \$100,000 per month for the next 12 months or a total of \$1.2 M. This BA-7 request will make available that amount of funding by providing an additional \$835,180 in SGR to be used with the \$364,820 being requested in carryforward item # 39 for this purpose.

DEQ has been delegated the legal responsibility/authority by the Environmental Protection Agency (EPA) for the enforcement of asbestos regulations regarding demolitions (National Emission Standards for Hazardous Air Pollutants, NESHAP, Clean Air Act), other state air regulations regarding demolitions, and solid waste disposal by statute (R.S. 30:2011). The highest priority inspections are for demolition of structures designated as Regulated Asbestos Containing Material (RACM). The demolition of RACM structures began in March, 2006. Initially, the LDEQ Surveillance Division conducted all demolition inspections. Inspectors were also conducting daily oversight inspections of the landfills receiving the debris. Due to the increased workload, DEQ inspectors were unable to conduct other inspections which were required by EPA grant commitments and state mandates. To address the dramatically increased oversight responsibilities, in September 2006 DEQ submitted an Action Request (IAA-055) to FEMA for inspectors to assist DEQ with oversight of demolitions and the resultant debris disposal. FEMA accepted the Action Request and tasked EPA with providing these inspectors by an Interagency Agreement Task Order on 9/28/06 (IAA-EPA-01-T004). The Additional EPA inspectors allowed most of the DEQ inspectors to return to their normal duties and expanded oversight capabilities to meet the increasing number of demolitions. This interagency agreement expired 8/29/08. On 8/30/08 the contract inspectors were funded by FEMA PW 17571; and from that date until 6/30/09, all work under this contract was FEMA eligible and was (and still is) reimbursed to DEQ through that original project workorder. When LLT began demolition on their sites, the demolition oversight contract was expanded to include those sites (which are not FEMA reimbursement eligible).

Federal Funds:	\$1,475,000			
Total	<u>\$1,475,000</u>	Total	<u>\$1,475,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$1.475 M of Federal funds into the Enforcement Division of the Office of the Secretary. Pursuant to a Joint Enforcement Agreement (JEA), the Federal funds were earmarked for cooperative enforcement endeavors between the U.S. Department of Commerce (DOC), National Oceanic Atmospheric Administration, Office of Law Enforcement (NOAA/OLE) and the State of LA Department of Wildlife & Fisheries Law Enforcement Division (LDWF/LE). The Joint Enforcement Agreement is to facilitate the operations, administration and funding of the LDWF/LE to enforce federal laws and regulations under the Magnuson-Stevens Fishery Conservation & Management Act and the Lacey Act. These funds will enable the state of LA to aid the federal government in fishery conservation and management activities. The NOAA has the authority under these 2 Acts to utilize the personnel, services, equipment, and facilities of state agencies on a reimbursable basis or otherwise. No matching requirements are necessary from the State.

The Department of Wildlife & Fisheries will budget these funds as follows:

Salaries - \$300,000 (10,145 hours of overtime as described in the JEA)
Related Benefits - \$4,350 (Medicare)
Travel - \$12,850 (routine field travel)
Operating Services - \$179,520 (repairs to boats and electronics and leases and maintenance to equipment)
Supplies - \$352,352 (fuel, oil, boat accessories)
Acquisitions - \$615,128 (2 mid-range patrol vessel packages, 1 outboard motor, 10 satellite radio systems, 11 patrol vehicles, 1 mobile surveillance unit and 3 forward looking infrared units)
Major Repairs - \$10,800 (major repairs to equipment)

Specifically, the \$615,128 in acquisitions include the following:

\$131,900 for 2 mid-range patrol vessel packages
\$11,252 for an outboard motor
\$66,000 for 11 satellite radio systems
\$319,000 for patrol vehicles
\$17,976 for a mobile surveillance unit
\$69,000 for 3 forward looking infrared units

August 12, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Special Schools & Comm.

AGENDA NO.: 5

AGENCY: LA Educational Television Authority

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support Services	\$0	0
Interagency Transfers:	\$1,000,000	Broadcasting	\$456,734	0
Self-Generated Revenue:	(\$543,266)			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$456,734</u>	Total	<u>\$456,734</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is substitute \$543,266 in IAT for \$543,266 in SGR. This BA-7 also provides \$456,734 in IAT funds to provide state assistance to public television stations in New Orleans. The increase in IAT funds of \$1 M is from the Department of Culture, Recreation, & Tourism (CRT). CRT received the \$1 M from BP to promote LA tourism across the country, and LETA will provide assistance to CRT in promoting LA tourism through its production and broadcasting efforts.

In developing the FY11 budget, the Office of Planning & Budget increased LETA's SGR by \$1,553,032; increasing from \$618,522 in FY 10 to \$2,171,554 in FY 11. During FY 11 budget hearings, LETA staff testified that it would be difficult, if not impossible, to increase their SGR by the \$1,553,032 budgeted by OPB. These additional funds of \$543,266 will offset a portion of OPB's means of finance swap and will allow LETA to avoid some budget reductions that could significantly impact their production and broadcasting efforts.

WYES and WLAE are public radio stations in New Orleans that are not part of LETA. As stated earlier, \$456,734 of these IAT funds will assist WYES and WLAE in New Orleans. In FYs 07, 08, and 09, WYES received \$360,512 in state support each year, and WLAE received \$271,966 in state support each year. Budget cuts eliminated state funding for WYES and WLAE in FY 10. This BA-7 restores a portion of state funding to WYES and WLAE that was lost in FY 10. The precise amounts and uses of these funds by WYES and WLAE will depend on a cooperative endeavor agreement (CEA) between the stations and LETA. These stations have not seen or signed LETA's proposed CEA, but each station would receive the following amounts based on the distribution of state funds in FYs 07 through 09: WYES \$260,338 or 57% and WLAE \$196,396 or 43%. WYES reports they will use the additional funds to provide regional and national broadcast distribution programs showcasing New Orleans. WLAE reports they will use the additional funds to offset elimination of state funds in FY 10.

II. IMPACT ON FUTURE FISCAL YEARS

The \$1 M from BP is one-time funding. Use of one-time funds for recurring costs will necessitate budget reductions in FY 12 if a replacement source of funds is unavailable.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

		Auxiliary Account	\$0	0
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$500,000 of SGR in the Department of Education, State Activities. The revenue is from a grant received from the Bill & Melinda Gates Foundation, and will be used in a professional services contract with the New Teacher Project which is currently being negotiated. The department plans to expand on a staffing initiative model that is currently being used in the Recovery School District to be carried out statewide.

The purpose of the grant is to strengthen teacher recruitment and hiring processes to attempt to ensure that the highest-need students have strong teachers. The Department of Education will work in collaboration with the New Teacher Project to accomplish this goal. The grant monies will be used to provide four outcomes: 1) at least 4 districts (yet to be determined) will adopt recruitment, screening and staffing policies designed to increase the number of effective teachers in high-need classrooms through the New Teacher Project consulting services; 2) all of the principals of the 4 chosen districts will be prepared to implement effective recruiting, screening, and hiring strategies in staffing their schools for the 2011-12 school year; 3) The New Teacher Project consultants, district staff and regional support staff collaborate with at least one regional partner district on recruiting, screening, and staffing strategies; and 4) knowledge transfer from The New Teacher Project staff and the Department of Education staff to other districts in the state. Ultimately, the intention is to create regional experts in model staffing practices and facilitate the sharing of effective strategies with the goal of making relevant professional development opportunities sustainable beyond one year of the services provided.

II. IMPACT ON FUTURE FISCAL YEARS

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$5,154,743</u>	Total	<u>\$5,154,743</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$5,154,743 in the Department of Education, Recovery School District. The revenues were generated from several sources in FY 10, but were not expended by the end of the fiscal year. The department is requesting that these funds be used in FY 11 to continue these projects and services.

The Construction Program will budget \$3,122,752 to be used for major repairs, and the Instruction Program will budget \$2,031,991 to be used as follows: \$12,000 travel, \$226,792 supplies, and \$1,793,199 for professional services.

The revenues received for the Construction Program are as follows:

\$2,116,695 Harrah's Casino - the funds will be used for repairs on the John McDonogh High School Gym and Auditorium's windows, roof, electrical and seating, and for continuing repairs at Berhman Elementary on the roof.

\$522,057 Greater New Orleans Foundation Capital Improvements - the funds will be used for repairs on John McDonogh High School Auditorium roof #2, elevator repairs at John McDonough High School, and a solar panel at Craig Elementary.

\$285,000 Global Green - the funds will be used to install solar panel generating electrical capacity at LB Landry High School and Andrew Wilson Elementary School.

\$199,000 LA Public Health Institute - the funds will be used to build a Health Clinic at LB Landry High School which will be used by the school and surrounding community. The Health Clinic will be administered by the LA Public Health Institute.

The total funding above is \$3,122,752 and will all be used for major repairs.

The revenues received for the Instruction Program are as follows:

\$1,405,690 High School Redesign-Walton - the funds will be used to support the planning phase of the High School Redesign Project. \$700,000 will be used for principal salaries, \$210,000 for related benefits, \$200,000 for instructional supplies, and \$295,690 will be used for consultants. The sites for the 2010-11 year are LB Landry, Clarke, Greater Gentilly, John McDonogh, Sarah Reed and Cohen.

\$1,500 Carnegie Corporation - the funds will be used to contract for services to assist in the analysis of school generated data correlating performance scores, test scores, attendance, special education, etc.

\$26,792 various donations - the funds will be used for clean up projects. Items such as paint brushes, paint, cleaning products, brooms, etc will be purchased.

\$1,004,719 Bill & Melinda Gates Foundation - the funds will be used for a contract with The New Teacher Project to train individuals with degrees to become career teachers.

\$701,405 Alternative Education - the funds will be used toward the consolidation and coordination of alternative education services for students suspended and expelled from schools operated by the Recovery School District and the Orleans Parish

August 12, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

School Board. \$384,615 will be used for teacher salaries, \$115,385 for related benefits, and \$201,405 will be used for contractual services from various groups providing counseling, tutoring, and after school programs.

\$583,906 Recovery School District - the funds will be used for the monitoring and mentoring of RSD-LA schools. \$12,000 will be used for travel, and \$571,906 will be used for professional services. The travel is for staff located in Baton Rouge to monitor the RSD schools in other parishes to identify deficiencies and problems. The staff prepares reports on plans of action which may include providing professional services from interventionists, or specific professional development.

The total funding above is \$3,724,012 and will be used for the following:

\$1,084,615 - Salaries
\$325,385 - Related Benefits
\$12,000 - Travel
\$226,792 - Supplies
\$2,075,220 - Professional Services
\$3,724,012 - TOTAL

The Recovery School District currently has budget authority in the amount of \$1,692,021 for these projects; therefore, only \$2,031,991 is being requested for instruction.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$3,189,350</u>	Total	<u>\$3,189,350</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the SGR budget authority by \$3,189,350 in the Department of Education, Recovery School District. The funds are generated from alternative education services and sales-for-service revenue from charter schools. The funds will be used as follows:

\$1,384,885 - Other Compensation
\$474,465 - Related Benefits
\$665,000 - Operating Services
\$665,000 - Other Charges
\$3,189,350 - TOTAL

The Recovery School District will use \$1,189,350 in SGR towards the consolidation and coordination of alternative education services for students suspended and expelled from schools operated by the Recovery School District and the Orleans Parish School Board. The funds will be used for other compensation (\$914,885) and related benefits (\$274,465) for approximately 13 alternative education teachers. All Type 5 charter schools are charged \$50 per MFP student, regardless of whether the students receive services or not, for the Recovery School District to provide the alternative education services.

The Recovery School District provides services to Type 5 charter schools at their request and receives funding from them to provide such services. The following are services provided by the Recovery School District: nursing services, special education services, security, food services, and IT services. The Recovery School District anticipates collecting \$2,000,000 from the Type 5 charter schools for these type services in FY 11. The Recovery School District estimates the funds generated by the charter schools will be used for the following services: 1) nursing services \$268,000 (\$188,000 other compensation and \$80,000 related benefits); 2) special education \$402,000 (\$282,000 other compensation and \$120,000 related benefits); 3) food services \$665,000 (other charges); and IT services \$665,000 (operating services).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$2,702,042			
Total	<u>\$2,702,042</u>	Total	<u>\$2,702,042</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Recovery School District submitted a BA-7 request to increase Federal funds budget authority by \$2,702,042 for the Safe Schools/Healthy Students Initiative. However, the Recovery School District anticipates spending only \$1,524,629 of this amount in FY 11. The Recovery School District, Legislative Fiscal Office and the Division of Administration have agreed to reduce the BA-7 request by \$1,177,413 to reflect the estimated expenditure amount.

The funds are for the Safe Schools/Healthy Students Grant received from the US Department of Education. The grant funds are to be used to support alcohol abuse reduction, mentoring, drug and violence prevention and education, and school emergency preparedness activities.

The following are the 5 elements identified in the grant: 1) safe school environments and violence prevention activities; 2) alcohol, tobacco, and other drug prevention activities; 3) student behavioral, social, and emotional supports; 4) mental health services; and 5) early childhood social and emotional learning programs.

The funds will be used in the following expenditure categories:

\$706,775 Other Compensation
\$208,981 Related Benefits
\$25,976 Travel
\$149,814 Supplies
\$366,998 Professional Services
\$22,786 Other Charges
\$43,299 Interagency Transfers
\$1,524,629 TOTAL

According to the Department of Education, a portion of the grant will be used to address specific issues at 6 different schools (Craig Elementary, Reed Elementary, Harney Elementary, Reed High School, Cohen High School and John McDonogh High School) that had the largest issues based upon behavior support reports. The Recovery School District intends to hire 12 individuals for the initiative: 5 behavior specialists, 2 registered nurses, 1 family therapist, 1 program director, 1 family coordinator, 1 administrative assistant, and 1 school resource officer. The other compensation and related benefits costs are for the 12 individuals.

The majority of the travel expenditures is related to staff members attending a national conference, while the remaining travel is related to student transportation to mental health and related activities and staff travel to schools and events. A majority of the supplies expenditures is associated with safety and security equipment purchases for the targeted schools. Other supplies are related to curriculum support. The professional services funds are designated for several different providers for services such as mental health services, health care needs, and programs related to at-risk youth dropout and suicide prevention.

The other charges are related to substitute teacher fees and stipends for teachers to attend training during the summer and weekends, printing, and advertising. The interagency transfers are for indirect costs related to the initiatives.

August 12, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

The grant payments will continue through FY 13. The Recovery School District will receive \$1,434,068 in both FY 12 and FY 13 to continue the initiatives of the grant.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$1,524,629. The original amount requested in the BA-7 for FY 11 was \$2,702,042; however, the Legislative Fiscal Office does not believe that the Recovery School District will expend that amount in FY 11. The Recovery School District agreed to reduce the expenditure request to \$1,524,629.

			for the Baton Rouge Capitol Park Museum. The vendor is out of stock and had to manufacture more lights.							
CF 15	06 - 264 Culture, Recreation & Tourism State Parks	N/A	Carry-forward of statutorily dedicated funds (Overcollections Funds) related to a contract with the town of Logansport for the design and construction of recreational and educational walking trail facilities at the Riverfront Park that has not yet been completed. The project has not been completed due to high water experienced at the job site.	\$0	\$0	\$0	\$52,250	\$0	\$0	\$52,250
CF 16	06 - 264 Culture, Recreation & Tourism State Parks	N/A	Carry-forward of funding (FEMA reimbursements via the Office of Emergency Preparedness) related to expenses incurred during the aftermath of hurricanes Katrina and Gustav for the Office of State Parks. Funding in the amount of \$147,500 in order to replace building contents from the group camp ground at Fontainebleau State Park. Items cannot be purchased until the facilities housing the damaged items have been rebuilt. The Office of State Parks is still in discussions with FEMA, Army Corps of Engineers, Facility Planning and Control, and others regarding the rebuilding of structures that were damaged or destroyed during the hurricane. Funding in the amount of \$1,014 for expenditures incurred at Lake Bistineau State Park as a result of Hurricane Gustav. Funds were not completely expended due to ongoing construction at the park.	\$0	\$148,514	\$0	\$0	\$0	\$0	\$148,514
CF 17	06 - 265 Culture, Recreation & Tourism Cultural Development	N/A	Carry-forward of funds related to the Main Street Program within the Office of Cultural Development. Carry-forward funding is for contracts with the city of Springhill (\$15,110) and city of Minden (\$23,110). A portion of these contracts are for facade grants for Main Street businesses. The selection process and awarding of grants could not occur until an agreement was approved which was done in April 2010. An amendment was filed in June 2010 to extend the agreement in order to allow time for the contractor to name the grant recipients.	\$38,220	\$0	\$0	\$0	\$0	\$0	\$38,220
CF 18	06 - 265 Culture, Recreation & Tourism Cultural Development	N/A	Carry-forward of funds related to the Veterans Affairs Medical Center Project. Part of this project allows the Office of Cultural Development to provide assistance for the stabilization and repair to historic and archaeological properties damaged by hurricanes Katrina and Rita. These funds are in the process of being granted out but projects are not yet complete so final payments cannot be made. The source of monies are	\$0	\$15,000	\$15,000	\$0	\$0	\$95,000	\$125,000

			<p>2.) GDM International Services (\$300,000 - TTF Reg.) - professional services contract that provides task order for land surveying services. According to the contract, GDM International Services will provide a seamless updated digital GIS map for the following parishes: Jefferson, Plaquemines, St. Bernard, Lafourche, Orleans, and St. Tammany. The contract period is from 6/16/10 to 6/16/11.</p> <p>3.) Dam Safety Grant (\$88,058 - Federal) - The U.S. Department of Homeland Security's Dam Safety Assistance Grant provides funding to state governments for development and safety programs. The department anticipates utilizing the \$88,058 federal grant funding to continue inspections of the state's dams and assure compliance with federal rules and regulations. The anticipated expenditures include: \$5,000 for inspector travel expenses as well as out-of-state dam safety training travel expenditures, \$2,000 for miscellaneous/office supplies, and \$81,058 for professional services contracts that will: a.) attempt to identify all public facilities within dam break inundation zones; b.) conduct dam safety training seminars for inspectors; and c.) various public outreach activities. The LA Dam Safety Program within DOTD (Title 38) is responsible for regulating and inspecting approximately 370 dams in LA. These funds were originally appropriated in February 2010.</p> <p>4.) HNTB Corporation (\$202,000 - TTF Reg.) - professional services contract that provides all necessary engineering and related services required to develop a user-friendly levee inspection, evaluation and report process for use by levee districts. The contract period is from 10/9/09 to 10/6/10.</p>							
CF 24	07 - 276 Transportation & Development Engineering & Operations	N/A	<p>The purpose of this BA-7 request is to carry-forward funds as follows:</p> <p><u>Engineering Program</u> - \$2,498,225 Transportation Trust Fund - Federal for the carry-forward of \$995,422 in professional services contracts and \$1,502,803 in other charges-professional services. The specific expenditures are as follows:</p> <p>1.) \$44,263 Henry Reed - re-writing the Standard Specification Book (6/26/09 to 6/29/11).</p> <p>2.) \$951,159 Dye Management Group, Inc. - staff augmentation for statewide ERP and AASHTO Transportation Port projects (5/1/08 to 4/30/11).</p> <p>3.) \$109,660 Geocomp Corporation - structure health monitoring of the I-10 Twin Span Bridge (11/1/07 to 1/31/12). 			include the instrumentation of the following: eight selected piles with inclinometers and strain gages, the pile cap with accelerometers and tiltmeters, data loggers, conduits and connecting wires/cables, water pressure cells, laser survey for monitoring lateral deformation.							
			4.) \$133,087 University of LA Lafayette - developing LA crash reduction factors (11/1/09 to 10/31/11). The objective of the research is to: a.) document the state-of-the-practice in crash reduction factors development, b.) determine the crash reduction factors to be developed for LA, c.) develop crash reduction factors with available information under budgetary constraint, and d.) develop a web based tool listing the published crash reduction factors.							
			5.) \$90,406 LSU - prediction of reliable scour depths for bridge structures (4/1/09 to 4/1/11). The overall goal of this research project is to develop a more reliable tool for scour depth and scour rate prediction for LA bridges.							
			6.) \$160,940 LSU - integral abutment bridge for LA's soft and stiff soils (10/1/07 to 8/31/11). This research will address the following: 1.) instrumentation and monitoring of piles, embankment/backfill, abutment and bridge at two sites representing soft and stiff soil conditions, 2.) behavior of the back fill material and surrounding soil under the cyclic abutment displacement, and 3.) behavior of the pavement and approach slab near the abutment, 4.) pile and soil interaction, 5.) abutment wall and soil interaction, 6.) approach slab and soil interaction, 7.) effects of temperature and longitudinal movement. The overall performance of the two bridges will be monitored and analyzed.							
			7.) \$220,788 LA Tech - load distribution and fatigue cost estimate of heavy truck loads on LA state bridges (4/1/09 to 3/31/12). The objective of this research is to develop an integrated system for monitoring live loads and verifying the carrying capacity of highway bridges in LA where heavy truck loads may have caused damage to state bridges.							
			8.) \$174,999 LSU - monitoring bridge scour using fiber optic sensors (1/1/09 to 7/1/11). The proposed research will develop bridge scour monitoring techniques using fiber optic sensors, which will potentially provide a new monitoring approach to enhancing the transportation infrastructure in LA.							
			9.) \$350,000 LSU - field versus laboratory volumetric and mechanical properties (8/1/09 to 2/29/12). The objectives of this study are as follows: 1.) quantify sources and causes of variability in the measurements of volumetric and mechanical properties of dense-graded asphalt mixtures for three types of specimens, 2.) develop a recommended practice for the state to incorporate results in objective 1 for: a.) quality assurance, b.) mix

			design and verification, c.) structural design and forensic studies.							
			10.) \$71,111 LSU - implementation of rolling weight deflectometer in pavement management system (PMS) and pavement preservation (7/1/09 to 9/30/10). The objective of this research is: 1.) develop a methodology to integrate collected rolling wheel deflectormeter data into the existing pavement management system via geographic information system, 2.) collected data will be used to assess the structural conditions of existing payments using rolling wheel deflectormeter and to identify structurally deficient pavements.							
			11.) \$128,150 LSU - support study for a shape memory polymer based healing sealant for expansion joint (5/1/09 to 8/1/10). The project will develop and test a shape memory polymer based sealant for use in expansion joints in pavements and bridges capable of preventing adhesive and cohesive failures through a self-healing mechanism, eliminating the need for replacing sealant.							
			12.) \$63,662 Worcester Polytechnic Institute - updated DOTD's policy on pile driving vibration management (4/1/09 to 10/1/10). Throughout the project, special emphasis will be placed on the applicability of the research findings to Louisiana's local conditions.							
			<u>NOTE:</u> All contracts associated with higher education entities are with DOTD's LA Transportation Research Center (LTRC). The LTRC conducts short and long-term research and provides technology assistance, engineering training, continuation education, technology transfer, and problem solving. The Contract Services section develops the proposals for letting of projects, conducts the letting of projects and controls the awarding of consultant projects.							
CF 24	07 - 276 Transportation & Development Engineering & Operations	N/A	<u>Planning & Programing</u> - \$3,001,775 (\$1.5 M - IAT (from the LA Highway Safety Commission)), \$1,501,775 TTF-Federal) for the following carry-forward items within the other charges expenditure category. 1.) \$1.5 M (IAT) - for various obligations as follows: a.) \$180,341 (IAT) LSU - Local Technical Assistance Program, b.) \$296,032 (IAT) Urban Systems Associates, Inc. - retainer contract for safety studies, c.) \$430,509 (IAT) Regional Planning Commission - New Orleans region bike and pedestrian safety and health community education program, d.) \$459,890 (IAT) Cambridge Systematics, Inc. - retainer contract for the Strategic Highway Safety Plan, e.) \$133,228 (IAT) Dennis Babin - safe routes to school professional services. 2.) \$93,272 (TTF-Federal) University of LA Lafayette - safety	\$0	\$1,500,000	\$0	\$1,501,775	\$0	\$0	\$3,001,775

			improvement from edge lines of rural 2-lane highway (9/1/07 - 8/31/10).							
			3.) \$63,387 (TTF-Federal) State Police - Bicycle safety training (9/6/07). This project will consist of hosting events called "Bike Rodeos" at several locations statewide to give away bicycle helmets to children in grades K -8th and present bicycle safety training and material to the children and their parents.							
			4.) \$13,000 (TTF-Federal) city of Kenner - West Esplanade Avenue at Antoine Wattigny Blvd. Intersection Study - Jefferson Parish. This project is a traffic study to determine the best way to improve traffic flow and driver safety at the intersection of West Esplanade Avenue and Antoine Wattingy Blvd. in the city of Kenner.							
			5.) \$14,027 (TTF-Federal) LA Safe Kids, Inc. - Louisiana Safe Routes to School. This project is to host a minimum of 18 walk to school day events for elementary grade students.							
			6.) \$1,094,225 (TTF-Federal) Robert Berning Productions, Inc. - Safety Public Information Campaign Statewide (12/1/08 - 12/31/10). The purpose of the contract is to: 1.) develop and create television public service announcements based on a maximum of three DOTD selected highway safety issues, 2.) develop a media strategy; media buy plan and airtime for a minimum 6-month schedule, 3.) assist and attend related media campaign functions as planned by DOTD, 4.) renew talent for previous announcements if scheduled, and 5.) upon completion of the campaign, compile a summary report on the media aired during each campaign to include: quantity, cost, outreach, donated air time, and other related market information.							
			7.) \$37,602 (TTF-Federal) LSU - HSRG Data Entry/Analysis (10/1/09 - 9/30/10). The contractor provides support for crash records entry and crash data analysis							
			8.) \$24,815 (TTF-Federal) LA Operation Lifesaver (10/1/09 - 9/30/10). This project focuses on the education, engineering and enforcement aspects of highway-rail safety by certifying presenters to give rail safety presentations, educating law enforcement on highway-rail crossing laws, and educating the general public on highway-rail safety issues.							
			9.) \$8,316 (TTF-Federal) Ronald R. Whittaker - law enforcement expert (9/5/09 - 9/4/10). Contractor serves as DOTD's liaison with law enforcement agencies, to develop and provide training to law enforcement agencies, and provide expertise to DOTD concerning highway safety issues. The contractor assists DOTD in implementing and coordinating a Statewide Incident Management Program.

CF 39	13 - 851 Environmental Quality Environmental Compliance	N/A	The purpose of this BA-7 request is to carry-forward \$364,820 in SGR from the LA Land Trust (LLT) which was unexpended in the Office of Environmental Compliance in FY 10. These SGR monies are Community Development Block Grant (CDBG) disaster recovery funds and are to be used for demolition and landfill oversight of LLT owned properties. DEQ received an additional \$527,472 of monies from this source in FY 10 through a BA-7 approved by the Joint Legislative Committee on the Budget on 4/14/10. The funds requested in this BA-7 represent the amount of those monies that were not expended. DEQ has an existing contract with Dynamac Corporation for demolition and landfill oversight of both FEMA reimbursement eligible properties and LLT owned properties. The monies requested in this BA-7 are anticipated to be used together with an additional \$835,180 in SGR from the LA Land Trust requested in regular BA7 #2 to fund \$1.2 M in anticipated demolition and landfill oversight costs of LLT owned properties. DEQ estimates oversight costs to average \$100,000 per month for 12 months based on current costs.	\$0	\$0	\$364,820	\$0	\$0	\$0	\$364,820

Total	<u>\$55,000,000</u>	Total	<u>\$55,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority for the Office of Risk Management to gain access to available funds for anticipated claims and the premium for excess insurance, which is due in June. Approval of this BA-7 will not result in new funding directed to the Office of Risk Management but will provide the authority to access funds that are already available through IAT and SGR. The funds are available from premiums paid by state agencies on the ISIS system (SGR) and premiums paid by agencies not on the ISIS system as well as excess insurance benefits (IAT). This request is not included in the supplemental bill because payment of the excess insurance premium cannot be delayed beyond June 30 without a period of unprotected coverage.

As of May 24, ORM had IAT and SGR funds available of \$363,688,071 and anticipated collections of \$11,231,817 for a total of \$374,919,888. The current IAT and SGR appropriation for ORM is \$336,691,772. This BA-7 will provide the budget authority for ORM to expend all available funds by increasing the appropriation by \$55,000,000, which would contain excess authority. In order to match the authority to actual collections, this BA-7 should reflect a total of \$38,228,116.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$38,228,116 which reflects the amount of budget authority needed by ORM to pay anticipated claims and excess insurance premiums through the remainder of FY 10.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$32,880</u>	Total	<u>\$32,880</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority for the Mental Health Advocacy Service (MHAS) to provide for the receipt of funds from the Department of Social Services (DSS) to increase the provision of legal representation for children. DSS has historically been responsible for reimbursing attorneys for their services related to child and indigent parent representation in abuse and neglect proceedings. The Task Force on Child Representation has determined that DSS should relinquish this practice and all cases should be handled by other entities such as the MHAS and the Bar Foundation.

These funds will be directed to Judicial District #16 which includes St. Mary Parish, Iberia Parish and St. Martin Parish. Although legal representation is being provided in that district, St. Martin Parish has no cases represented by the MHAS due to lack of funding. An additional \$20,400 will be provided at a cost of \$240/case (half a year) for an estimated 85 additional cases.

In addition, Judicial District #21 (Livingston, Tangipahoa, and St. Helena Parishes) has significantly more cases than estimated. An additional \$12,480 will be provided at a cost of \$240/case (half a year) for an estimated 52 cases which exist in Amite. The present level of funding is not adequate to address these cases.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$154,175</u>	Total	<u>\$154,175</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority for the LA Public Defender Board (LPDB) in order to receive funds (SGF) transferred from the Department of Social Services (DSS) related to Child in Need of Care (CINC) cases (parents are accused of abuse and neglect). The LPDB is currently beginning the transition to represent parents only in CINC cases in all 42 judicial districts. Children in CINC cases will be represented by either Mental Health Advocacy Services or the Bar Foundation. Prior to this change, public defenders represented parents in some districts, children in some districts, and both in some districts. Funding requested through this BA-7 will be provided to those districts where defenders are transiting from child only to parent only representation plus those districts which have already transited and have had a significant increase in caseloads in the current fiscal year without associated funding.

Additional funding is required in 18 districts for defenders representation of parents in all districts since 1/1/2010. Based upon a recommendation of the Task Force on Child Representation, the funding for legal representation of parents in these 18 judicial districts will transfer to the Public Defender Board who will disburse these funds to the statewide public defenders who will be responsible for representing these individuals with the funding provided by the LPDB.

The current level of funding for parent representation in the LPDB is \$488,305 from the Indigent Parent Representation Fund. This BA-7 will provide an additional \$154,175 for a total budget for parent representation of \$642,480 in FY 10. The FY 11 budget for the LPDB for parent representation will increase to \$979,680 as all of the funds currently budgeted for this purpose at DSS will be transferred to the LPDB.

Of the 18 districts which will receive funds, 4 districts (1st-Caddo, 19th-EBR, 21st-Livingston, St. Helena, Tangipahoa and 39th-Red River) will receive a full year of funding for FY 10 because these districts began representing parents before 1/1/2010 without funding. The remainder of the districts will receive one-half year of funding as they began representation on 1/1/2010. Funding will be distributed to the judicial districts based on the number of additional cases anticipated and the number of attorneys that will be necessary to handle this level of cases based on the national caseload standard.

DSS currently contracts these legal services through ad hoc attorneys paid for through these funds, often at a significant hourly rate.

AGENDA NO.: 3

AGENCY: LA Property Assistance Agency

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Property Assistance Agency	\$6,007,713	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$6,007,713			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$6,007,713</u>	Total	<u>\$6,007,713</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the LA Property Assistance Agency (LPAA) related to the sale of 336 generators by the Department of Natural Resources (DNR). DNR originally purchased these generators following Hurricane Gustav and has sold all but 88.

The DNR originally purchased 336 generators following Hurricane Gustav utilizing the Coastal Protection & Restoration Fund in the amount of \$11,417,533. According to the LPAA, these generators have been sold to police juries, parish hospitals, local offices of emergency preparedness, parish councils, and sheriff's offices across the state. Funding for the purchase of these generators is being provided to local governments by the GOHSEP through the Hazard Mitigation Grant Program.

GOHSEP originally negotiated the sale of all of these generators (rather than LPAA) which allowed all of the funding from the sale to reimburse the Coastal Protection & Restoration Fund (CPRF). The sale of these generators has been turned over to the LPAA (4/26/2010) and revenues generated through the sales will be split with 20% to LPAA and 80% to DNR. According to the LPAA, the average purchase price of the generators sold to date has been approximately 80% of the original cost at the time of purchase.

Revenues generated from the auction of state property accrues to either the selling agency or the LPAA, depending upon the original funding source used for the purchase of such property. If the property was purchased with federal grant funds, SGR or Statutory Dedications, the LPAA typically receives 20% of the proceeds, while the selling agency receives 80%. If the property was purchased with SGF, the LPAA receives the full amount generated from the auction.

The LPAA did not anticipate the need to reimburse the aforementioned agencies for these transactions. The agency's budget is based on historical collections. In addition to these examples shown above, the recent surplus of state vehicles has also significantly impacted this agency's ability to reimburse the selling agencies their portions because of insufficient budget authority. Therefore, this BA-7 request will increase its SGR budget authority to allow such reimbursement.

The requested increase in SGR budget authority is \$6,007,713 and is determined as follows:

\$1,918,051	Remaining generators to be sold (88 x \$21,796.03 avg. price of previous sales) 22 generators will not be sold and will be held by GOHSEP for use in emergencies
\$3,334,579	Generators sold to date by DNR (149 have been sold with proceeds to be reimbursed) This figure reflects only that amount of reimbursement to the CPRF still outstanding.
\$194,604	Negative balance exists in IAT reimbursement category due to greater than expected sales during FY 10
\$352,755	Other invoices requiring reimbursement through March 2010 - (reimbursement to state agencies)
<u>\$207,724</u>	Regular monthly reimbursements excluding generators from 4/1 - 6/30/2010
\$6,007,713	Total

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to allow the agency to budget funds received from the state of Maryland related to the Maryland winter weather recovery efforts for the period 4/11-24/2010. These funds are a reimbursement of a Public Assistance Specialist (\$3,432) and transportation costs (\$4,113) incurred by the GOHSEP to provide assistance during Emergency Management Assistance Compact (EMAC) mission #390-RR-4827-5670-0. The transportation costs include \$994 for meals, \$370 vehicle rental/fuel, \$697 for air travel, and \$2,052 for lodging.

LA is a member of the Emergency Management Assistance Compact (EMAC) Program which is a congressionally ratified organization that is administered by the National Emergency Management Association and was created in 1996 to provide state-to-state assistance during times of emergency.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Office of Elderly Affairs to receive funds from GOHSEP to reimburse the state of Alabama for assistance provided to LA seniors during Hurricane Gustav. As a result of Hurricane Gustav, the Office of Elderly Affairs requested assistance through the Emergency Management Assistance Compact (EMAC) for personnel supplied by the Alabama Emergency Management Agency for a 2-week period (9/21- 10/4/2008). Personnel from the state of Alabama were utilized to work with seniors who needed assistance with locating services in the most impacted parishes following the storm. The parishes in which assistance was provided were Iberville, Assumption, Terrebonne, Lafourche, and West Baton Rouge.

GOHSEP received 90% reimbursement from FEMA on project worksheets numbered gv09537 and gv09538 and also provided the Office of Elderly Affairs the balance of funding necessary to reimburse the state of Alabama. GOHSEP will provide funding from its existing budget to the Office of Elderly Affairs to pay the remaining 10% of the reimbursement cost (\$7,876). These source of the 10% cost share to be provided by GOHSEP is SGF.

Total	<u>\$322,505,838</u>	Total	<u>\$322,505,838</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to appropriate additional funding in the Private Providers Program of Medical Vendor Payments and to realign expenditure authority between programs in the Medical Vendor Payments to address a projected FY 10 expenditure deficit. In addition, this BA-7 is requesting to increase expenditure authority needed in the Public Providers Program due to a FY 10 projected shortfall in the LSU Health Care Services Division (LSU HCSD). The original source of funds used in this BA-7 include IAT (DHH over-collections), Medical Assistance Trust Fund (MATF) statutory dedication funds, New Opportunities Waiver Fund statutory dedications, and federal funds.

Private Providers Program: Increase funding by \$338,200,846

Based on the March Medicaid Monthly Financial Report, the Medical Vendor Payments program is projecting an overall year end deficit of \$278,088,651 in the Private Providers Program. The shortfall is made up of the following:

\$86,069,514 - As part of a mid year executive order (BJ 2009-21), the Medical Vendor Payments Program was allocated approximately \$86 M in SGF cuts. This BA-7 is requesting to replace this SGF reduction with other sources of revenue in order to avoid cuts. The sources of revenue include the following: \$10,765,619 in IAT as the result of over-collections from various agencies in DHH, \$44.7 M in Statutory Dedicated revenues (ARRA deposited into the Medical Assistance Trust Fund), and federal funds including \$21.2 M in Community Hospital Certified Public Expenditures that were certified in FY 10 and \$9,403,895 from ARRA funds collected but not appropriated.

\$192,019,137 - This amount represents the balance of the projected Private Provider Medicaid expenditure shortfall in FY 10 (\$278.1 M - \$86.1 M). The SGF match needed to address the remaining shortfall balance is \$35,561,944 (based on the existing FMAP rate of 81.48% FFP). The match is being requested to be moved (realigned) from various programs in Medicaid, Medical Vendor Payments. Approximately \$35,324,885 is being moved from Medicare Buy-Ins & Supplements Program in Medical Vendor Payments available due to a projected surplus in the Clawback requirement, and \$237,059 in SGF is being moved from the Uncompensated Care Program due to excess expenditure authority anticipated in the LSU HCSD.

\$60,112,195 - This amount represents an obligation of the department to make two quarters of hospital Upper Payment Limit (UPL) payments to certain hospitals. These supplemental funds were appropriated in FY 10, however these funds are not available to be spent in FY 10 (as hospitals are projected to not be able to earn in FY 10). Information provided by DHH indicates that payments to hospitals in this amount would exceed the available UPL cap in FY 10. Therefore, these supplemental funds are anticipated to be paid to hospitals in FY 11. The SGF match associated with these payments is \$11,132,779, which is used to draw down approximately \$48.9 M in FFP. This BA-7 proposes to use \$7,466,379 in IAT from over-collections in various DHH agencies, and \$3,666,400 in excess SGF match from the Uncompensated Care Costs Program in Medical Vendor Payments to replace the SGF match.

In addition to addressing the Private Provider deficit, this BA-7 proposes a means of finance swap that reduces NOW Statutory Dedicated revenues (used as match) and increases federal revenues by a like amount. The source of the federal funds are revenues generated from LSU hospital costs reports. Information provided by DHH indicates that a portion of the NOW Statutory Dedication revenues appropriated in the current year are not anticipated to be used in FY 10.

May 19, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Public Providers Program: Increase funding by \$31,681,309

Although not a part of the projected FY 10 Private Providers shortfall as reflected in the Medicaid Monthly Financial Report for March, this BA-7 is additionally requesting to address an LSU Health Care Services Division current year shortfall. This BA-7 increases budget authority in DHH's Public Provider Program for LSU HCSD by approximately \$31.6 M. This amount includes an increase in Medicaid UPL funds in the amount of \$15,495,424, and an increase in FY 09 Medicaid cost settlements of \$16,185,885.

Total revenues and expenditures by program are reflected below:

Revenues:

IAT: DHH overcollections	\$24,596,541
Statutory Dedications	
Medical Assistance Trust Fund	\$44,700,000
New Opportunities Waiver Fund	(\$4,877,350)
Federal Funds	<u>\$258,086,647</u>
TOTAL REVENUES	\$322,505,838

Expenditures:

Private Providers	\$338,200,846
Public Providers	\$31,681,309
Buy -Ins & Supplements	(\$35,324,885)
Uncompensated Care Costs	(\$9,940,432)
Uncompensated Care Costs	<u>(\$2,111,000)</u>
TOTAL EXPENDITURES	\$322,505,838

II. IMPACT ON FUTURE FISCAL YEARS

Approximately \$44.7 M in Statutory Dedicated revenues requested to be used in this BA-7 are currently appropriated in HB 1 Original for FY 11. If approved, the department will lose a matching revenue source in FY 11. Information provided by the department indicates a "Clawback" credit will be utilized in place of the Statutory Dedicated revenues to offset this reduction to HB 1.

Additionally, the department is utilizing approximately \$21 M in FY 10 Certified Public Expenditures (C.P.E's) that are currently appropriated in HB 1 Original for FY 11. CPE's have historically been utilized by DHH as match to draw down federal financial participation. Information provided by the department indicates this source of match will be replaced with CPE's certified in FY 11 (as opposed to CPE's certified in FY 10).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #8.

This BA-7 is an after the fact BA-7. The Department of Education expended \$327,012 to date using available federal budget authority. Approximately \$233,712 has been drawn down from the federal government to reimburse the expenditures. The first draw was made on 1/15/2010. The districts that are participating in the program have submitted budgets to the Department of Education, but have not submitted claims for reimbursement as of the date this BA-7 analysis was written. The Department of Education submitted the initial BA-7 requests to the Legislative Fiscal Office on February 24th.

The purpose of this BA-7 request is to budget \$679,344 in the Department of Education from the federal Striving Readers Grant from the U.S. Department of Education. This grant is to be used to raise student achievement by improving the reading skills of middle and high school students who are reading below grade level, and to evaluate the efficacy of the reading program. No state match is required.

LA was one of eight states awarded funding from this Striving Readers Grant. There were 2 priorities the U.S. Department of Education required be met for consideration of the grant award. The first priority was for the state to implement a supplemental literacy intervention for struggling readers in middle and high school grades. The second priority was for the state to support a rigorous experimental evaluation of the effectiveness of the supplemental literacy intervention it implements. The Striving Readers Grant will extend over a 4-year period. In FY 10, the Department of Education will receive \$1,002,022, with \$679,344 budgeted in the State Activities Agency, and \$322,678 in the Subgrantee Assistance Agency. The following expenditures are anticipated by the Department of Education for administrative purposes:

Salaries: \$26,921
Related Benefits: \$8,077
Travel: \$4,453
Supplies: \$673
Professional Services: \$552,671
Interagency Transfers: \$86,549 (indirect costs)

The grant allows for a percentage of salaries to be paid for those employees working on grant activities. The Department will be using the funds noted above to pay for 10% of salaries and related benefits for 3 employees currently working in the department. The travel expense is related to monitoring the sites receiving the grants. The interagency transfers are for indirect costs related to the grant.

The professional services contract is for an independent evaluator with experience in conducting scientifically based reading research, and designing and conducting experimental evaluations to assess the effectiveness of a supplemental literacy intervention. The study will be used to determine whether the reading interventions produce substantial improvements with students' reading, and determine how the effects of the program vary according to student, classroom/teacher, and school factors. The evaluation will continue through all years of the project.

May 19, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

The grant extends over a 4-year period with a total total grant award of \$5,270,907. The expenditures by year are as follows: Year 1 \$1,002,022; Year 2 \$1,503,818, Year 3 \$1,511,162, and Year 4 \$1,253,905. The expenditures in subsequent fiscal years are similar to the proposed expenditures in this BA-7.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #6A. The purpose of this BA-7 request is to budget \$322,678 in the Department of Education from the federal Striving Readers Grant from the U.S. Department of Education. This grant is to be used to raise student achievement by improving the reading skills of middle and high school students who are reading below grade level, and to evaluate the efficacy of the reading program. No state match is required.

The Striving Readers Grant will extend over a 4-year period. In FY 10, the Department of Education will receive \$1,002,022, with \$679,344 budgeted in the State Activities Agency for administration, and \$322,678 in the Subgrantee Assistance Agency to be dispersed to participating districts to be used in the following 10 Title I middle schools: Turner Elementary/Middle, Donnie Bickham, Ray D. Molo, Oak Park, Carencro, Judice, Lafayette, N.P. Moss, Independence, and Lucille Nesom Middle. The following districts will be receiving funds from this grant:

Caddo	\$69,614
Calcasieu	\$62,384
Lafayette	\$132,070
Tangipahoa	<u>\$58,610</u>
Total	\$322,678

According to the Department of Education, the districts will be using the funds for travel, partial salaries and benefits for district coordinators, equipment, and project intervention resources and materials. The reading interventions will be targeted to approximately 1,200 6th and 7th grade students who are struggling readers.

II. IMPACT ON FUTURE FISCAL YEARS

The grant extends over a four year period with a total total grant award of \$5,270,907. The expenditures by year are as follows: Year 1 \$1,002,022; Year 2 \$1,503,818, Year 3 \$1,511,162, and Year 4 \$1,253,905. The expenditures in subsequent fiscal years are similar to the proposed expenditures in this BA-7.

I. SUMMARY/COMMENTS

The Oil Spill Coordinator's Office through the Office of State Police is requesting approval to add \$39.6 M in Statutory Dedications from the Oil Spill Contingency Fund to its budget to enable it to reimburse state agencies for the costs incurred in assessment and restoration efforts due to the recent oil spill. Monies deposited into the fund come from British Petroleum and the federal government. State Police will receive a total of \$25 M from British Petroleum. Of the monies received from British Petroleum, \$16.5 M is included in this BA-7 request and \$8.5 M is requested for FY 11. State Police will receive a total of \$20 M from the National Pollution Funds Center, through the U. S. Coast Guard. Of the monies received from the National Pollution Funds Center, \$13.2 M is included in this BA-7 request and \$6.8 M is requested for FY 11. State Police will receive a total of \$15 M from the Natural Resources Damage Assessment Funds. Of the monies received from the Natural Resources Damage Assessment Fund, \$9.9 M is included in this BA-7 request and \$5.1 M is requested for FY 11.

The expenditures in the Office of State Police will be incurred in the interagency transfer category. The funding will be disbursed to state agencies as an interagency transfers expenditure. State agencies receiving reimbursement include GOHSEP, the Justice Department, other agencies within Public Safety, the Department of Natural Resources, the Department of Environmental Quality, the Department of Transportation & Development, and the Department of Military affairs.

II. IMPACT ON FUTURE FISCAL YEARS

Part of the funding received from British Petroleum, the National Pollution Funds Center, and the Natural Resources Damage Assessment Fund is anticipated to be expended in FY 11. Of the \$25 M received from British Petroleum, \$8.5 M is anticipated to be expended FY 11. Of the \$20 M received from the National Pollution Funds Center, \$6.8 M is anticipated to be expended in FY 11. Of the \$15 M received from the Natural Resources Damage Assessment Fund, \$5.1 M is anticipated to be expended in FY 11.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority for reimbursements related to Mississippi Canyon 252 - Gulf of Mexico - Transocean Drilling Incident Horizon Oil Rig from the Department of Public Safety & Corrections (DPS&C). This Pollution Removal Funding Authorization (PRFA) was submitted to the United States Coast Guard (USCG) through the DPS&C. The Federal On-Scene Coordinator has approved the PRFA and has obligated the funding from the Federal Oil Spill Liability Trust Fund (OSLTF).

The DPS&C is the lead agency for the State of LA as it contains the Oil Spill Coordinator's Office. DPS&C submits PRFA documents on behalf of state agencies to the USCG. Once the reimbursement request is approved, the funds are deposited in the Oil Spill Contingency Fund Escrow Account and DPS&C pays these funds to the agency.

GOHSEP is incurring expenditures for salaries and related benefits, travel, operating services, supplies, and professional services in response to this incident. Representatives of the governor's staff, British Petroleum, USCG, and the relevant Emergency Support Functions (ESF) are working daily at the state EOC located at GOHSEP. GOHSEP is purchasing additional supplies and providing meals as a result of the state EOC activation. GOHSEP is also incurring additional travel costs due to staff deployments to the Incident Command Group in Houma as well as staff deployed to impacted parishes. GOHSEP is planning to enter into intergovernmental agreements with parishes utilizing emergency directors from unaffected regions of the state in order to supplement the staff of the Oil Spill Coordinator's Office, and also anticipates additional professional service contracts in response to this event.

The total appropriation is broken out as follows:

Salaries and benefits	\$989,030 (various GOHSEP staff for 30 day period)
Travel	\$25,920 (hotel and per diem for deployed personnel)
Operating Services	\$61,500 (vehicle fuel cost, mobile command post operations, etc.)
Supplies	\$23,550 (meals and office supplies)
Professional Services	<u>\$150,000 (see above)</u>
Total	\$1,250,000

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0	Operations	\$97,058	0
Federal Funds:	\$0	CCCD Marine	\$0	0
Total	<u>\$97,058</u>	Total	<u>\$97,058</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #9A. The purpose of this BA-7 is to appropriate \$97,058 IAT funding (from State Police) for salaries expenditures associated with the Deep Water Horizon Oil Spill within the District Operations Program. The original source of these funds is the federal Oil Spill Liability Trust Fund, which was created in 1986.

The expenditures are associated with the following activities: Emergency Operations Center Activation, DOTD Call Center, Engineering Support, District Operations Activities, Administration Support. These specific expenditures are listed below:

- 1.) \$11,050 - On 4/30/2010, DOTD's Emergency Operations Center was activated in anticipation of the possible requirement of DOTD resources (\$65/hour x 170 hours (13 employees) = \$11,050).
- 2.) \$27,588 - The DOTD has established an additional emergency phone number through their emergency call center for oil spill responders needing truck permits (\$57/hour x 11 hours x 22 days x 2 (weekends only) = \$27,588).
- 3.) \$4,020 - DOTD anticipates costs associated with engineers evaluating the structural capacity of bridges along routes to the coast. These bridges will likely be evaluated as heavy equipment is needed for the oil spill (\$67/hour x 1 hour x 30 days x 2 employees = \$4,020).
- 4.) \$9,640 - DOTD anticipates the need for offices located in coastal areas be required to assist with oil spill removal and support, such as providing equipment (dump trucks, transport trucks, etc.) and be required to open and close the Ostrica Locks in Plaquemine Parish, which is a facility owned and operated by DOTD (\$65/hour x 1 hour x 30 days x 4 employees = \$7,800; \$35/hour x 4 hours x 2 openings x 3 employees = \$840; 2 trucks @ \$250 per day x 2 days = \$1,000).
- 5.) \$44,760 - DOTD anticipates the need for the administrative offices to oversee DOTD's responsibilities associated with oil spill activities and coordinate with other state agencies. In addition, there will likely be financial and reporting requirements associated with all of these activities (\$58/hour x 2 hours x 30 days x 1 employee = \$3,480; \$86/hour x 2 hours x 30 days x 8 employees = \$41,280).

On 5/14/2010, DOTD submitted its first request for reimbursement to the Department of Public Safety & Corrections in the amount of \$8,505. The expenditures associated with this reimbursement request are included within this overall request of \$97,058.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. To date, DOTD does not anticipate incurring any additional oil spill related activities above the requested \$97,058.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0	Diagnostics	\$0	0
		Auxiliary Account	\$0	0
Total	<u>\$322,020</u>	Total	<u>\$322,020</u>	<u>0</u>

I. SUMMARY/COMMENTS

The revised amount of this BA-7 is \$322,020, which reflects additional funding for the remainder of the fiscal year.

This BA-7 is a companion to BA-7 #9A. The purpose of this BA-7 is to appropriate \$161,010 IAT funding from Department of Public Safety & Corrections - Office of State Police for Oil Spill Liability Trust Fund reimbursement for salary and travel expenditures associated with the Deep Water Horizon Oil Spill.

These funds include \$85,860 of overtime for Correctional Service Officers and \$75,150 in travel from Elayn Hunt Correction Center (EHCC) in St. Gabriel to Venice, LA. Two offender work crews of 40 offenders each will provide services related to wildlife preservation by cleaning oil contaminated birds and wildlife. The offenders will be IMPACT offenders from EHCC. The offenders will be under the supervision of 4 Correctional Service Officers (CSO) and 1 Ranking Officer. The cost per day for the 4 CSOs will be \$2,088 (4 CSOs x \$29 per hour at time and a half rate x 18 hours per day) and the cost per day for the Ranking Officer will be \$774 (1 officer x \$43 per hour at time and a half rate x 18 hours per day). The cost per day for 5 personnel will be \$2,862 (\$2,088 + \$774). Currently, the services will be used for 30 days which will result in a total cost in salaries of \$85,860 (\$2,862 per day x 30 days).

Travel expenses will include mileage reimbursement for a bus transporting the offenders and a truck for the ranking officer and meal reimbursement. The bus reimbursement rate is \$33 per hour and the trip from St. Gabriel to Venice and back is expected to take 7 hours, which will result in a per day reimbursement of \$231. The truck reimbursement rate is \$19 per hour and the trip from St. Gabriel to Venice and back is expected to take 6 hours, which will result in a per day reimbursement of \$114. The reimbursement rate for 3 meals per day for each offender and CSO is \$48, which will result result in a total meal reimbursement cost per day of \$2,160 (\$48 per day x (40 offenders + 4 CSOs + 1 Ranking Officer)). The total cost per day for travel and meal reimbursement will be \$2,505 (\$233 bus reimbursement + \$114 truck reimbursement + \$2,160 meal reimbursement). The reimbursement for travel and meals will last 30 days which will result in a total cost of \$75,150 (\$2,505 per day x 30 days).

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #9A. The purpose of this BA-7 request is to increase IAT budget authority for reimbursements related to Mississippi Canyon 252 - Gulf of Mexico - Transocean Drilling Incident Horizon Oil Rig from the Department of Public Safety & Corrections (DPS&C). This Pollution Removal Funding Authorization (PRFA) was submitted to the United States Coast Guard (USCG) through the DPS&C. The Federal On-Scene Coordinator has approved the PRFA and has obligated the funding from the Federal Oil Spill Liability Trust Fund (OSLTF).

The DPS&C is the lead agency for the State of Louisiana as it contains the Oil Spill Coordinator's Office. DPS&C submits PRFA documents on behalf of state agencies to the USCG. Once the reimbursement request is approved, the funds are deposited in the DPS&C Oil Spill Contingency Fund Escrow Account and DPS&C pays these funds to the agency.

This BA-7 request will primarily fund DEQ's communications efforts in addressing the oil spill, including the salary and related benefits for DEQ's Communications Director who will be located in Robert, LA, a staff person in Houma, per diem and lodging for these individuals, and fuel supplies for vehicles.

The requested appropriation to this office is as follows:

Salaries and related benefits	\$20,000
Travel	\$3,300
Supplies	<u>\$5,600</u>
Total	\$28,900

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate funds from LED which were transferred from the Department of Public Safety & Corrections. The funds were originally provided by British Petroleum in response to the Horizon Deepwater Oil Spill. LED will use these funds to act as lead agency in the coordination of services provided to small businesses impacted by the oil spill. Some examples of these services include those activities undertaken by Business Emergency Operations Centers (BEOC) such as economic impact and consequence modeling in partnership with LSU along with coordination of private sector proposals for innovative solutions. LED will also coordinate the assistance provided to impacted small businesses through small business development centers and the Small Business Administration, among other entities and will also aggressively communicate through outreach activities in the impacted areas.

Approved By JLCB

DEPARTMENT: Insurance

AGENDA NO.: 1

AGENCY: Commissioner of Insurance

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative & Fiscal	\$0	0
Interagency Transfers:	\$0	Market Compliance	\$57,133	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$57,133			
Total	<u>\$57,133</u>	Total	<u>\$57,133</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request increases the Federal budget authority within the Department of Insurance (DOI) to budget additional funds in the amount of \$57,133 received from the U.S. Department of Health & Human Services, Centers for Medicare & Medicaid Services (CMS) for the Department of Insurance's Senior Health Insurance Information Program (SHIIP). SHIIP is a federally funded program that provides counseling and assistance to seniors who need health insurance information on various health insurance topics. The actual additional grant awards are in the amount of \$78,236. However, the department currently has \$21,103 of current FY 10 Federal budget authority that can be utilized toward these grant expenditures. The \$21,103 amount represents a FY 10 deficit within SHIIP.

This additional grant funding, which is allocated based upon a formula, was awarded to LA due to remaining unallocated federal fiscal year funds in the amount of \$70,712 and a performance award to the SHIIP in the amount of \$7,524. The variables that are utilized by CMS to determine the amount of funding include: 1.) the number of medicare beneficiaries in the state; and 2.) the number of individuals SHIIP provides service to. Due to the positive performance of the SHIIP program, LA received an additional \$7,524.

Below is a table illustrating the calculated need for the additional budget authority:

\$527,490 - Basic grant
<u>\$78,236</u> - Additional grant awards
\$605,726 - Total FY 10 federal grants available
<u>(\$548,593)</u> - Current FY 10 federal budget authority
\$57,133 - Additional federal budget authority need (BA-7 request)

SHIIP currently partners with 9 various councils on aging to provide local counseling services to seniors (SHIIP sites). Those councils on aging include: Jefferson Council on Aging, Caddo Council on Aging, Calcasieu Council on Aging, Terrebonne Council on Aging, North Delta Planning District, Capital Area Agency on Aging, Cenla Council on Aging, Cajun Area on Aging and Orleans Council on Aging. Each council on aging will receive an additional \$6,348 from these Federal funds to provide additional SHIIP services for a total cost of \$57,133.

The remaining \$21,103 of the total grant award of \$78,236 is being requested by the DOI for administrative costs associated with the operating expenditures and personal services costs of 6 positions. For the past 11 fiscal years, excluding FY 09 (fully funded SHIIP with Federal funds), this program has been funded with a mixture of Federal funds and departmental SGR. Before these grant awards, the FY 10 budget for the SHIIP, which is currently funded exclusively with Federal funds, is in a deficit in the amount \$21,103. Thus, in order to prevent utilization of FY 10 SGR, the DOI is requesting to budget \$21,103 of these \$78,236 grant monies for administrative costs.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

April 14, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

The Legislative Fiscal Office recommends approval of this BA-7 request in the requested amount of \$57,133 and also recommends that all \$78,236 of additional FY 10 grant awards be expended for the programmatic operations of SHIIP and not departmental administrative costs (FY 10 projected SHIIP deficit). Thus, the DOI will likely have to reduce FY 10 administrative expenditures and/or utilize any identified excess fees and self-generated revenue collections to continue SHIIP at its current operational/personnel level, as has been the practice in the past.

April 14, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Social Services

AGENDA NO.: 3

AGENCY: Community Services

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$0	Child Welfare Services	\$500,000	0
Self-Generated Revenue:	\$500,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority by \$500,000 in the Child Welfare Services Program. The source of funding is parental contribution collections generated in FY 10. Without approval of this BA-7 request, parental contribution collections will revert to the general fund.

In accordance with the Children's Code, Article 783, a parent of a child in the custody of the State shall contribute to the cost of care of the child in an amount commensurate with the parent's ability to pay for such care. This is commonly referred to as parental contribution. The Department of Social Services (DSS) is responsible for collecting the parental contribution from parents who have a child in foster care. In DSS budget, the revenue can only be applied to the cost of care of children in foster care.

Through the efforts of Support Enforcement Services (SES) within DSS, parental contributions collections have increased as a result of the following SES initiatives: (1) receiving information from the Federal Parent Locator Service, which provides information on those receiving Social Security or Veterans pensions and those working or contracting with the Federal government, including military personnel; (2) membership in the Electronic Parent Locate Network (EPLN), a consortium of 18 states that combine information into one data base to locate absent noncustodial parents; and (3) participation in Full Service Internal Revenue Service (IRS) Collection that allows the IRS to collect past due child support by withholding federal income tax refunds.

The FY 10 budget initially appropriated \$1,077,984 for parental contributions. This BA-7 request will increase the Existing Operating Budget (EOB) for parental contribution from \$1,077,984 to \$1,577,984 or a 46% increase. Parental contribution collections comprise less than 1% of the \$174 M child welfare activity budget.

The increase in funding will be allocated to child welfare activity. These funds will be budgeted in Other Charges and used to cover the total service costs of room and board, extra utility costs, normal clothing costs, personal items, gifts and allowances for foster children.

II. IMPACT ON FUTURE FISCAL YEARS

Information provided by the DSS indicates that \$1,577,984 will continue to be the estimated level of parental contribution collections in FY 11 and future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$264,485</u>	Total	<u>\$264,485</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority at the LA Educational Television Authority (LETA) to receive funds from the Office of Risk Management (ORM) for a portion of LETA's costs to repair and replace equipment damaged by Hurricane Katrina. The original source of funds to ORM are insurance proceeds that are classified as SGR to ORM. LETA will use these funds to reimburse the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP), Federal Emergency Management Agency (FEMA), and the LA Office of Facilities Planning & Control for a portion of the costs to repair and replace LETA equipment initially repaired and replaced by GOHSEP/FEMA after Hurricane Katrina.

LETA incurred total costs of \$583,123 for the following repair and replacement costs from Hurricane Katrina damage: digital transmitter (\$440,228); hot standby Twinstream receiver (\$66,180); air conditioning for digital transmitter (\$20,070); hazard mitigation costs to raise the floor of transmitter above flood level (\$34,787); UPS power backup system (\$3,386); and a Transport Stream Analyzer MTM400 (\$18,472). These costs incurred by LETA exceed the amount of this BA-7 request because ORM's insurance carriers did not reimburse the State for the total amount of repair and replacement costs incurred by LETA and initially funded in full by GOHSEP/FEMA. This BA-7 reflects the amount of costs covered by ORM's third party insurance carriers that needs to be transferred to GOHSEP and eventually paid to FEMA for reimbursement. The Legislative Fiscal Office has requested a breakdown of items not covered by ORM's insurance carriers, but this information was unavailable at the time of this writing. The LFO will provide this information to the committee members by the meeting scheduled on 4/14/2010.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority at the LA Educational Television Authority (LETA) to receive federal funds from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP)/Federal Emergency Management Agency (FEMA) for expenses related to damages and costs incurred by hurricanes Katrina, Ike, and Gustav. LETA will use funds from GOHSEP/FEMA for the following purposes: reimburse the Office of Facilities Planning & Control for repairs to WLPB's tower in Baton Rouge (\$21,272); reimburse the Office of Risk Management for inspection costs to gauge damage to KLTL's tower in Lake Charles (\$7,867); and reimburse LETA for operating supplies and costs incurred in the aftermath of the storms (\$119,522). These reimbursements to LETA include the following:

1. Repairs to satellite uplink (\$20,000).
2. Repair of building intercom system and Tech Center UPS (\$20,000).
2. Repair and upgrade air conditioning units at transmitter sites in Alexandria and Shreveport (\$40,000).
3. Maintain and repair generators at transmitter units in Alexandria and Shreveport (\$10,000).
4. Chiller repair in main LETA building in Baton Rouge (\$10,000).
5. Upgrade fire alarm panel in main LETA building to meet Fire Marshall requirements (\$19,522).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$0			
Total	<u>\$1,969,248</u>	Total	<u>\$1,969,248</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to pay the remainder of the contractual obligation to Diversified Collection Services, Inc., of Livermore, California, which provided collections services for a portion of the recent tax amnesty program. The total invoice is \$4,857,248, and the LA Department of Revenue (LDR) has already committed \$2,888,000 of the existing appropriation for this service. This BA-7 is for the remainder of the Diversified Collection Services contract or \$1,969,248 (\$4,857,248 - \$2,888,000). Diversified Collection Services was tasked with collecting all delinquent accounts receivables except those from audit or under litigation. These services included staffing a call center with a toll-free number, providing mail services for all outbound and returned mail, developing a website about the amnesty program, processing applications and payments, providing daily reports of activity and modifying their existing systems to meet LDR requirements.

In the general appropriation bill of the 2009 Regular Session, LDR was appropriated \$4.4 M to implement the amnesty program. The cost estimate used to arrive at the appropriation amount was based on anticipated collections of about \$150 M (actual collections are about \$478 M). In Act 519 of 2009, LDR was allowed to contract for amnesty administration services for collection of delinquencies not related to audit and litigation for up to 10% of the dollars collected. The final invoice amount for this contract is \$4,857,248 with Diversified Collection Services, Inc. The agreement was a fixed rate contract with bonus incentives of a percentage of collections above \$25 M. The company collected \$73,404,932 in delinquent accounts receivable. The fixed portion of the contract was \$2,399,807 and the calculated bonus was \$2,457,441 (or about 3.3% of collections) for a total invoice of \$4,857,248 (or about 6.6% of collections). The LDR collected internally the amnesty payments associated with audits and litigation and also incurred \$1.262 M in expenses related to the program and an additional \$250,000 in advertising expenses. Below is an accounting of expenditures related to the current \$4.4 M appropriation:

\$4,400,000	Current Appropriation
\$4,857,248	Diversified Collection Services, Inc., total invoice
1,262,000	LDR contractual expenses for system upgrades for processing of tax amnesty documents
<u>250,000</u>	LDR Advertising of the Amnesty Program
(\$1,969,248)	Additional Amnesty Expense (This BA-7)

To date, the amnesty program has provided collections of \$478 M resulting in administrative fees that were higher than projected. According to the Act, the Department was allowed to retain from amnesty collections an amount equal to all penalties waived, information technology, administrative services, collection fees, legal fees or any other fees the department incurred associated with amnesty.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$3,087,733			
Total	<u>\$3,087,733</u>	Total	<u>\$3,087,733</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority by \$3,087,733 in order to accept federal stimulus funds from the American Recovery & Reinvestment Act - Broadband Technology Opportunities Program (BTOP). Funding is from the U.S. Department of Commerce and will be used to accelerate broadband deployment in unserved, underserved, and rural areas and to enhance broadband capacity at strategic institutions that are likely to create jobs or provide significant public benefits. Of the \$8,797,668 (LA's allocation), \$3,087,733 is being requested to be expended in the current fiscal year and will be budgeted as follows:

Other Charges - \$1,177,500 (databases and training)
Acquisitions - \$1,910,233 (computer hardware and software)

The department expects to offer over 2,400 classes throughout the state to the general public over the grant period (2/1/2010 to 1/1/2013). The online resources, online tutoring and databases will assist job seekers in career research, job searching, skill building, GED preparation, resume writing, and interview preparation. Additionally, free classes will be offered to the general public regarding technology-related activities.

Grant recipients are required to provide at least 20% of the total project costs. Staff time dedicated solely to the project, public library facilities use, and vendor-donated classes and time comprise the recipient share cost of \$2,352,129 for the 3 years. Staff time dedicated to the project will be from the Office of State Library, with salaries and related benefits totaling \$214,578 (SGF) for the 3-year period. The department will utilize the request for proposals (RFP) process to obtain services from a computer training company.

II. IMPACT ON FUTURE FISCAL YEARS

Funding in subsequent years will be \$2,476,036 (FY 11), \$2,451,488 (FY 12), and \$782,411 (FY 13). Expenditures in subsequent years will be an extension of the same types incurred in the current year but will primarily be training costs.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Approved By JLCB

DEPARTMENT: Environmental Quality

AGENDA NO.: 10

AGENCY: Environmental Compliance

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Compliance	\$527,472	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$527,472			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$527,472</u>	Total	<u>\$527,472</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Office of Environmental Compliance within the Department of Environmental Quality to receive \$527,472 in SGR from the Louisiana Land Trust (LLT). These SGR monies are Community Development Block Grant (CDBG) disaster recovery funds and will be used for demolition and landfill oversight of LLT owned properties. DEQ has an existing contract with Dynamac Corporation for demolition and landfill oversight of both FEMA reimbursement eligible properties and LLT properties. This contract was amended in December 2008 to a not to exceed amount of \$2,595,847. DEQ expended \$1,134,446 of this contract amount in FY 2009 and the remainder of funding for the full contract amount, \$1,461,401, is budgeted in the current fiscal year. Out of this budgeted amount, DEQ has expended \$1,288,873 through February 27th of the current year, leaving a \$172,528 balance of expenditure authority for this oversight. Based on the expenditures to date, DEQ projects additional expenditures under this contract through June 30, 2010 of approximately \$700,000. This BA-7 would increase DEQ's expenditure authority by \$527,472 which, together with the unexpended balance of \$172,528, would provide sufficient budget authority to pay for the projected work through the end of the fiscal year. According to DEQ, FEMA oversight costs are now averaging \$25,000 per month and LLT oversight costs are now averaging \$150,000 per month ($(\$25,000 + \$150,000) \times 4 \text{ months} = \$700,000$).

DEQ has been delegated the legal responsibility/authority by the Environmental Protection Agency (EPA) for the enforcement of asbestos regulations regarding demolitions (National Emission Standards for Hazardous Air Pollutants, NESHAP, Clean Air Act), other state air regulations regarding demolitions, and solid waste disposal by statute (R.S. 30:2011). The highest priority inspections are for demolition of structures designated as Regulated Asbestos Containing Material (RACM). The demolition of RACM structures began in March, 2006. Initially, the LDEQ Surveillance Division conducted all demolition inspections. Inspectors were also conducting daily oversight inspections of the landfills receiving the debris. Due to the increased workload, DEQ inspectors were unable to conduct other inspections which were required by EPA grant commitments and state mandates. To address the dramatically increased oversight responsibilities, in September 2006 DEQ submitted an Action Request (IAA-055) to FEMA for inspectors to assist DEQ with oversight of demolitions and the resultant debris disposal. FEMA accepted the Action Request and tasked EPA with providing these inspectors by an Interagency Agreement Task Order on September 28, 2006 (IAA-EPA-01-T004). The Additional EPA inspectors allowed most of the DEQ inspectors to return to their normal duties and expanded oversight capabilities to meet the increasing number of demolitions. This interagency agreement expired 8/29/2008. On 8/30/2008 the contract inspectors were funded by FEMA PW 17571; and from that date until 6/30/2009, all work under this contract was FEMA eligible and was (and still is) reimbursed to DEQ through that original project workorder. When LLT began demolition on their sites, the demolition oversight contract was expanded to include those sites (which are not FEMA reimbursement eligible).

II. IMPACT ON FUTURE FISCAL YEARS

DEQ has \$350,000 in budget authority in HB 1 for the purpose of contracting for this oversight through the end of the contract term of August, 2010. This amount is also based on \$25,000 per month for FEMA eligible sites and \$150,000 per month for LLT sites ($\$175,000 \times 2 \text{ months} = \$350,000$).

April 14, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 11

AGENCY: Aging & Adult Services

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Admin Protection & Support	\$625,000	0
Interagency Transfers:	\$0	John J. Hainkel, Jr. Home & Rehab Center	\$0	0
Self-Generated Revenue:	\$0	Villa Feliciana Medical Complex	(\$165,970)	0
Statutory Dedications:	\$0	Auxiliary	\$0	0
Federal Funds:	\$0	Unallotted	(\$459,030)	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to move Interagency Transfer (IAT) budget authority from the Villa Feliciana Medical Complex Program (\$165,970) and the Unallotted Program (\$459,030) to the Administration and Protective Support Program (\$625,000). The source of IAT funds are Title 19 Medicaid over collections from Villa Feliciana. To comply with the Executive Orders BJ 2009-11 hiring freeze and BJ 2009-21 midyear reduction, Villa Feliciana eliminated vacancies and decreased Medicaid IAT budget authority but did not reduce bed capacity or decrease client revenue. Therefore, Villa Feliciana is collecting more revenue than they are budgeted to expend.

As part of the midyear reductions, the Office for Aging & Adult Services (OAAS) reduced \$625,000 SGF from the Administration Program as a part of a means of financing substitution plan to replace that amount with IAT over collections. The Administration Program is the only program within OAAS with adequate SGF appropriation to comply with the midyear reductions. As a result, SGF in the Administration Program was reduced and replaced with Medicaid over collections from Villa Feliciana and the Unallotted Program.

The SGF reduction in the Administration Program was approved through an in-house BA-7 on 3/10/2010. If approved, this BA-7 request allows the transfer of IAT funds to the Administration Program from Villa Feliciana and from the Unallotted Program, therefore, completing the second part of the means of financing substitution plan between programs within OAAS.

This request funds salary costs within the Administration Program. As of 3/31/2010, the Administration Program has less than \$1.5 M or 18% remaining in salaries. Salary costs for the remaining 6 pay periods in FY 10 is estimated at \$1.9 M. Without this BA-7 approval, the Administration Program will be placed in a deficit for salaries by the end of May 2010.

	<u>Budget</u>	<u>Expended</u>	<u>Remaining</u>	<u>% Remaining</u>	
Salaries	\$8,049,877	\$6,581,456	\$1,468,421	18%	(without BA-7 approval)
Salaries	\$8,674,877	\$6,581,456	\$2,093,421	24%	(with BA-7 approval)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. According to OAAS, the transfer of \$625,000 IAT budget authority among programs is only for the remaining 3 months of FY 10. The increase in IAT budget authority in the Administration Program is annualized in the FY 11 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE

Federal Funds:	\$137,716			
Total	<u>\$137,716</u>	Total	<u>\$137,716</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority in the Environmental Health Services Program, Office of Public Health. The source of Federal funds is from the following 2 grants: (1) \$102,097 from the Public Health Tracking Grant, U.S. Department of Health & Human Services, Centers for Disease Control & Prevention, National Environmental Public Health Tracking Program (EPHT); and (2) \$32,622 from the Hazardous Substance Incidents Grant from the U.S. Department of Health & Human Services, Centers for Disease Control & Prevention, Agency for Toxic Substance & Disease Registry (ATSDR), National Toxic Substances Incident Program (NTSIP). There is no state match requirement.

The purpose of the Public Health Tracking grant is to build a user-friendly web site on which to display health and environmental data on LA. The grant is for 5 years. The purpose of the Hazardous Substance Incidents grant is to track hazardous chemical releases and their public health impact. The grant is for 3 years.

As part of the midyear reductions, the Office of Public Health (OPH) reduced \$134,719 SGF in salaries and related benefits for 4 positions as part of a means of financing substitution plan to replace that amount with Federal Funds. The SGF reduction in the Environmental Health Services Program was approved through an in-house BA-7 on 3/10/2010. If approved, this BA-7 request allows funding for the 3 positions to shift to the Public Health Tracking grant and 1 position to shift to the Hazardous Substance Incidents grant, therefore, completing the second part of the means of financing substitution plan.

Expenditures for this BA-7 request are for salaries (\$103,663) and related benefits (\$31,056) of 4 positions for 6 months.

	Salary (6 months)	Related Benefits	Total
Public Health Tracking Grant			
1 T.O. - Environmental Health Scientist Supervisor	\$27,326	\$7,892	\$35,218
2 T.O. - Environmental Health Scientist Coordinators	\$51,298	\$15,581	\$66,879
	<u>\$78,624</u>	<u>\$23,473</u>	<u>\$102,097</u>
Hazardous Substance Incidents Grant			
1 T.O. - Environmental Health Scientist Coordinator	\$25,039	\$7,583	\$32,622
Total	<u>\$103,663</u>	<u>\$31,056</u>	<u>\$134,719</u>

II. IMPACT ON FUTURE FISCAL YEARS

Information provided by OPH indicates a full year of funding totals \$269,438 for the 4 positions in FY 11 and future fiscal years. The Public Health Tracking Grant period is 8/1/2009 through 7/31/2014 and funds 3 positions for 12 months each of the 5 year periods at \$204,194. The Hazardous Substance Incidents Grant period is from 9/30/2009 through 9/29/2012 and funds 1 position for 12 months each of those 3 year periods at \$65,244. Since funding for the 4 positions are now fully funded with grants, once the grants end, both funding and the positions are anticipated to be terminated. Funding for 3 positions with Public Health Tracking Grant funds is anticipated to be terminated in 5 years on 7/31/2014. Funding for 1 position with Hazardous Substance Grants funds is anticipated to be terminated in 3 years on 9/29/2012.

1 T.O. - Environmental Health Scientist Supervisor	\$27,326	\$7,892	\$35,218
2 T.O. - Environmental Health Scientist Coordinators	\$51,298	\$15,581	\$66,879
	<u>\$78,624</u>	<u>\$23,473</u>	<u>\$102,097</u>
Hazardous Substance Incidents Grant			
1 T.O. - Environmental Health Scientist Coordinator	<u>\$25,039</u>	<u>\$7,583</u>	<u>\$32,622</u>
Total	<u>\$103,663</u>	<u>\$31,056</u>	<u>\$134,719</u>

II. IMPACT ON FUTURE FISCAL YEARS

Information provided by OPH indicates a full year of funding totals \$269,438 for the 4 positions in FY 11 and future fiscal years. The Public Health Tracking Grant period is 8/1/2009 through 7/31/2014 and funds 3 positions for 12 months each of the 5 year periods at \$204,194. The Hazardous Substance Incidents Grant period is from 9/30/2009 through 9/29/2012 and funds 1 position for 12 months each of those 3 year periods at \$65,244. Since funding for the 4 positions are now fully funded with grants, once the grants end, both funding and the positions are anticipated to be terminated. Funding for 3 positions with Public Health Tracking Grant funds is anticipated to be terminated in 5 years on 7/31/2014. Funding for 1 position with Hazardous Substance Grants funds is anticipated to be terminated in 3 years on 9/29/2012.

ANALYSIS OF BA-7 REQUEST
Amended: Approved by JLCB**

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the reduced amount of \$134,719. The Office of Public Health revised salary and related benefit costs for the 4 positions to reflect actual and not average cost of the positions.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Veterans' Affairs

AGENDA NO.: 13

AGENCY: LA War Veterans' Home

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA War Veterans' Home	\$145,907	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$145,907			
Total	<u>\$145,907</u>	Total	<u>\$145,907</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget Federal funds received through an increase in per diem for veterans who have a 70% or higher service connected disability. Veterans' Affairs received a retroactive payment from the U.S. Department of Veterans Affairs due to a regulation change regarding per diem payments for 70% or higher service connected disability patients.

Currently, the per diem rate for 70% or higher service connected disability patients is \$77.53, reaching \$250 depending on the increased disability rate. Veterans' Affairs bills the U.S. Department of Veterans Affairs monthly for reimbursement days of care. Due to regulation changes, each veterans' home received a one-time retroactive check from the dates of 3/21/2007 through 5/29/2009. The total payment to the Jackson home was \$712,158.36, with \$385,000 deposited in patient's accounts and the remaining \$327,158.36 deposited into the veterans' homes treasury account. From this amount \$145,907 will be used to purchase a 1,250KW generator and the remaining \$181,251.36 will be used by the Jackson home to cover current operating expenses for the remainder of the fiscal year. The other veterans' homes received retroactive checks and used the funds to cover operating expenses as well.

The maintenance costs for this generator are funded through operating expenses budgeted for the agency's current generator since it is being replaced. The maintenance costs for the current generator are \$2,000 annually. The LA War Veterans' Home has been designated the evacuation center for the other veterans' homes in the state. In the event of an emergency, patients in critical care will be evacuated to the Jackson home, which can hold an additional 100-125 patients on top of the current population of residents. They can be housed in the multipurpose room and 4th wing which has not opened. Once the wing is opened, 50-75 additional patients can be housed at Jackson. The generator will allow the entire facility to remain powered during power outages. The \$145,907 will fund 25% of the cost of the generator and the remaining 75% will be provided by the Department of Health & Hospitals (DHH) through a FEMA Hazard Mitigation-HVAC Generator grant. It is estimated the project will be bid in early May 2010 and a vendor will be selected approximately 45 days after the bid goes out. The Jackson home will transfer \$145,907 to Facility Planning & Control and the remaining cost of the generator will be paid through the FEMA grant from DHH directly to Facility Planning & Control.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0			
Total	<u>\$274,523</u>	Total	<u>\$274,523</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority to receive funds transferred from Louisiana War Veterans' Home, Northeast La. War Veterans' Home, Northwest La. War Veterans' Home, and Southwest La. War Veterans' Home. These funds are to be transferred to the Southeast La. War Veterans' Home to fund the costs associated with the pharmaceutical and administrative fees rendered in supplying Medicare Part A Veterans and Private Pay Veterans with medications.

The Department of Veterans' Affairs is eliminating pharmacist positions at each home, except for the Reserve home which will serve as the central pharmacy for all homes. The medications that will be received by the Reserve home make up 20% of prescription needs for all veterans in veterans' homes. Currently, 80% of all prescriptions are supplied by the U.S. Department of Veterans Affairs directly to the homes at no cost to the LA Department of Veterans' Affairs. The remaining 20% of prescriptions are paid for by the Department of Veterans' Affairs by using Medicare dollars and/or private medical insurance that a veteran may have.

The increase in IAT will come from the veterans' homes in these amounts over a 5 months period (February - June):

LA War Veterans' Home	\$36,325	(\$7,265 per month)
Northeast War Veterans' Home	\$50,000	(\$10,000 per month)
Southwest War Veterans' Home	\$100,000	(\$20,000 per month)
Northwest War Veterans' Home	\$88,198	(\$17,640 per month)
Total	\$274,523	(54,905 per month)

II. IMPACT ON FUTURE FISCAL YEARS

Since the BA-7 covers 5 months of the remaining fiscal year, the IAT expenditures in FY 11 will be \$658,855. The Department of Veterans' Affairs will ask for an amendment to HB 1 to increase IAT at the Southeast War Veterans' Home after approval of this BA-7.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Youth Services

AGENDA NO.: 15

AGENCY: Juvenile Justice

ANALYST: Matthew LaBruyere

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration	\$30,300	0
Interagency Transfers:	\$0	Swanson Center for Youth	\$0	0
Self-Generated Revenue:	\$0	Jetson Center for Youth	\$0	0
Statutory Dedications:	\$0	Bridge City Center for Youth	\$0	0
Federal Funds:	\$65,300	Contract Services	\$35,000	0
		Field Services	\$0	0
Total	<u>\$65,300</u>	Total	<u>\$65,300</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget a federal grant award (FY 09 Second Chance Act Youth Offender Reentry Initiative) provided to the state by the U.S. Department of Justice. The total grant award is \$749,998 and this request is to increase federal budget authority by \$65,300 to cover expenses of the grant for the remainder of FY 10. The purpose of this grant is to provide youth offenders training via community-based programs to assist them with successful reentry into their communities.

The \$749,998 grant award requires a 100% state match of \$749,998. The state grant match will be funded by two existing contracts awarded by the Office of Juvenile Justice (OJJ). The contractors, Cadence of Acadiana and Youth Empowerment Project of New Orleans, both handle reentry and will each be paid \$124,999 per year over the 3 year length of the grant. The grant funds may help to lower recidivism rates of youth in OJJ contracted services in both the New Orleans and Acadiana regions. The grant award period is 10/1/2009 to 9/30/2012. To cover the match for the current fiscal year, OJJ estimates the state match would be \$62,500 ($(\$249,998 / 12 \text{ months}) \times 3 \text{ months}$), which OJJ will begin paying following approval of this BA-7.

The \$65,300 will be spent in the Administration and Contract Services programs. A total of \$30,300 will be spent in the administration program to hire a full-time regional reentry coordinator for the remainder of FY 10. The position will fill an existing vacancy within the T.O. The salary will be \$19,695 and related benefits will be \$10,605. In Contract Services, \$35,000 will be spent to fund 4 new consulting reentry contracts for the remainder of FY 10.

Over the term of the grant, the regional reentry coordinator will be paid \$30,300 in FY 10, \$84,015 in FY 11 and 12, and \$59,015 in FY 13 for a total of \$257,345.

After spending \$35,000 in FY 10, the remaining \$457,653 of the grant to be used to fund 4 consulting reentry contracts will be paid over the remaining years. Cadence of Acadiana and Youth Empowerment Project of New Orleans will be contracted for additional services and the existing contracts will be used as the state match to the grant. The 2 remaining contractors will be LSU School of Social Work, as a third party evaluator of the grants; and Turning Point Partners, which will provide training to the providers and staff involved in restorative justice.

II. IMPACT ON FUTURE FISCAL YEARS

Funding for future fiscal years will be \$246,566 in FY 11, \$246,566 in FY 12, and \$191,566 in FY 13. The state match for the future years will be \$249,999 in FY 11, \$249,999 in FY 12, and \$187,500 in FY 13.

It should be noted that OPB has submitted an amendment to HB 1 to budget the grant funding associated with FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

April 14, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 16

AGENCY: State Fire Marshal

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fire Prevention	\$0	0
Interagency Transfers:	\$500,000			
Self-Generated Revenue:	(\$500,000)			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of State Fire Marshal is requesting approval for a means of financing substitution, replacing SGR with IAT. The IAT revenue is a one-time, non-recurring grant received from the Governor's Office of Homeland Security & Emergency Preparedness. The IAT funding is a hazard mitigation grant which originates from the Federal Emergency Management Agency. The grant funding will be utilized to provide for expenditures related to commercial plan reviews. Specific expenditures include: \$331,250 for salaries and related benefits, \$80,000 for professional services, \$17,400 for field travel, \$1,575 for printing, \$6,200 for telephones, \$36,000 for building rent, \$1,575 for mail and postage, and \$26,000 for supplies. The current budget for the plan review activity is approximately \$2.9 M (\$2.1 M plan review SGR and \$0.8 M miscellaneous SGR) and 34 positions.

The agency states that it is anticipating a \$600,000 shortage in SGR in the current year due to a decline in collections from commercial plan review.

II. IMPACT ON FUTURE FISCAL YEARS

The Fire Marshal is projecting to collect approximately \$2.3 M from plan reviews in FY 11. If the plan review collections do not come in as anticipated, the agency will have to reduce its budgeted expenditures to prevent a deficit.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Executive

AGENDA NO.: 17

AGENCY: Homeland Security & Emergency Prep

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$587,914,818	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$587,914,818			
Total	<u>\$587,914,818</u>	Total	<u>\$587,914,818</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$587,914,818. The source of these funds is the Robert T. Stafford Disaster Relief & Emergency Assistance Act from FEMA and are directly related to the Public Assistance Program and the Hazard Mitigation Grant Program. These monies are used to fund the ongoing recovery efforts by state agencies, local governments, and certain non-profits as a result of hurricanes Katrina, Rita, Gustav and Ike.

The increase in Federal funds budget authority is requested based upon the following as presented by GOHSEP:

Current budget authority	\$1,101,912,024
GOHSEP projected expenditures	<u>\$1,689,826,842</u>
GOHSEP projected deficit	\$587,914,818

This additional budget authority will be used to reimburse state and local government entities and non-profit organizations.

Additional details on expenditures as per LFO analysis:

Total expended in FY 10 through the end of March 2010 (39 weeks) - \$1,052,407,951
Average expenditures per week based on the actual expenditures for 39 weeks - \$26,984,819/ week
Total Expenditures anticipated for remainder of FY 10 (13 weeks) based on average of 39 weeks - \$350,802,651
Current Budget Authority Remaining (April 5, 2010) - \$24,211,496

Total amount recommended by LFO: \$326,591,155

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$326,591,155. Upon review of expenditure data provided by GOHSEP, the LFO recommends increasing the agency's federal budget authority based on the average of the actual expenditures realized through March 2010 and projecting the remaining months of this fiscal year using this average (as reflected above).

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds from the FEMA Reimbursement Fund which will be used to pay the 25% state match for assistance provided by FEMA as a result of hurricanes Gustav and Ike. The current balance of the FEMA Reimbursement Fund is \$9.7 M. FEMA provided assistance to disaster victims under the Other Needs Assistance Program, as provided for in 44 CFR 206.110 for these 2 disaster declarations. The Other Needs Assistance Program helps eligible individuals and families pay for items and services such as transportation expenses, household items and clothing, medical and dental care, and equipment to help repair damaged homes such as power tools and dehumidifiers. Under the terms of the FEMA-State agreement, the federal funds provided under the Stafford Act are limited to 75% of the total eligible cost, with the state being responsible for the remaining 25%. These costs include those for April-December 2009 only. Reimbursement for later months will be provided for in subsequent BA-7 requests.

Payment is due in full to FEMA within 30 days from the receipt of the FEMA request letter. Funds will be placed in escrow in the registry of the court while an audit of these expenses is performed.

The following amounts are due to FEMA:

\$63,155 for Disaster Declaration #1792 (Hurricane Ike)
\$179,227 for Disaster Declaration #1786 (Hurricane Gustav)

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase self-generated revenue budget authority in the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to allow the agency to budget funds received from the state of Arkansas related to the Arkansas Ice Storm Mission in February 2009. These funds are a reimbursement of personnel (\$9,124.80) and transportation costs (\$3,656.40) incurred by the State Military Department in hauling water to Camp Robinson in Arkansas for a period of 7 days following an ice storm. The Military Department incurred expenses related to the use of 15 national guard personnel, six 2,500 gallon rough terrain water tankers (HIPPOS) and one Hemi fuel truck. GOHSEP will IAT these funds to the Military Department to reimburse the agency for its costs related to this mission.

LA is a member of the Emergency Management Assistance Compact (EMAC) Program which is a congressionally ratified organization that is administered by the National Emergency Management Association and was created in 1996 to provide state-to-state assistance during times of emergency.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE

Federal Funds:	\$0			
Total	<u>\$909,422</u>	Total	<u>\$909,422</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget SERF (State Emergency Response Funds) in order for GOHSEP to pay the 10% state cost share of the Emergency Management Assistance Compact (EMAC) program expenditures on project worksheets related to Hurricane Gustav. EMAC is a congressionally ratified organization that is administered by the National Emergency Management Association and was created in 1996 to provide state-to-state assistance during times of emergency.

During Hurricane Gustav, the LA EMAC Program requested assistance from other EMAC member states. Accepting interstate aid does not reduce federal disaster assistance. In accordance with the EMAC agreement, the State will reimburse assisting states for services, equipment, and supplies provided during Hurricane Gustav.

A total of \$9,094,218.66 in expenses were incurred by various EMAC states during the aftermath of Hurricane Gustav. The state's cost share is 10% which results in the \$909,422 requested through this BA-7 request. The remaining 90% of these expenses will be reimbursed by FEMA.

Participating states during the period following Hurricane Gustav included New Mexico, Missouri, Alabama, Oklahoma, Maryland, Utah, Mississippi, Virginia, Kentucky, New Jersey, and South Dakota.

NOTE: The current balance of the State Emergency Response Fund is \$144,259,135.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$175,594</u>	Total	<u>\$175,594</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to collect reimbursement from GOHSEP (federal funds) based on approved FEMA Project Worksheet (PW) #19086. The approved PW is related to damage caused by high winds experienced during Hurricane Katrina at the firing range at Camp Villere. The damage resulting from these winds totaled \$232,960.

The State Military Department (SMD) chose to not restore the damaged firing range retaining wall and has requested an alternate project which results in the reduction of funding provided by FEMA by 25%. The SMD has chosen to use the eligible funds to address a critical need and construct a single story conventional building to be used for supply storage and administration purposes at Camp Villere with total square footage of 1,180. Therefore, the SMD will receive 75% of the damage to the firing range (\$232,960 x .75) plus \$874 for indirect cost for administration for a total of \$175,594.

NOTE: The SMD indicates that it will utilize a different source of federal funds which will allow the damaged firing range retaining wall to be rebuilt at Camp Villere.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$38,714</u>	Total	<u>\$38,714</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Department of State Civil Service is requesting approval to add \$38,714 IAT to its budget to provide for disbursement of FEMA (Federal Emergency Management Agency) reimbursement to the Office of Risk Management (ORM). FEMA through the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) has started the process of obligating and paying for reimbursements related to Hurricane Gustav. State agencies receiving FEMA/GOHSEP reimbursements who have also received payment from ORM for a Gustav related insurance claim must refund ORM the amount of the payment received from FEMA/GOHSEP. The FEMA reimbursement is 90% of the amount paid by ORM (\$43,016). The insurance claim received from ORM was used to provide for replacement of computer equipment destroyed when the roof of the Department of Agriculture's building was damaged. Civil Service's recruitment office is located at the Department of Agriculture's building.

I. SUMMARY/COMMENTS

Approval of this BA-7 will allow the Public Service Commission (PSC) to utilize federal grant funding awarded through the American Recovery & Reinvestment Act (ARRA) under the section for State Electricity Regulators Assistance. The money will serve to assist the PSC with training, education and outreach related to energy efficiencies and renewable initiatives while regulatory staff gain expertise in the area of renewable resources that PSC cannot otherwise provide within the current budget. Eligible areas include energy efficiency, electricity-based renewable energy, energy storage, smart grid, electric and hybrid vehicles, demand-response equipment, coal with carbon capture and storage and transmission. Since the funding is restricted to these initiatives, there will be no recurring state obligations resulting from acceptance of these funds. However, the PSC is expected to benefit from the specialized training beyond the timeframe of the grant. There are no state match requirements associated with this federal grant which runs from 11/12009 through 10/31/2012. This money cannot be used to supplant the existing PSC budget or used for other Commission obligations.

The Department will have 2 non-T.O. full-time equivalent job appointment positions: a qualified professional engineer and a program coordinator. The engineer will carry out the work requirements of the grant which include utility construction work plans, facility inspections, load forecasts, and rate studies. The program coordinator will assist in staff training, coordinate related activities, handle federal documentation requirements and act as the Information Technology liaison. These positions will be temporary and exist until the grant money is expended or the grant expires. The breakdown of expenditures over the timeframe of the grant is expected to be salary and related benefits for the temporary positions (\$356,387), training/education/travel (\$331,537), operating services such as printing, postage, teleseminars, computer maintenance (\$30,000), supplies such as general office supplies and vehicle usage expenses (\$25,000), other charges such as educational workshops and onsite visits (\$95,000), acquisitions such as computers, printers, and educational and reference materials (\$15,000), and Interagency Transfers for telephone services and network connections (\$9,500).

According to the Department of Energy (the federal agency making the award), should LA choose to reject this grant, it will either be released to the U.S. Treasury or re-obligated within the Department of Energy.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 will have impact on future years to the extent that the grant funding is carried forward for expenditure. The grant expires on 10/31/12, which is state fiscal year FY 13.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

March 19, 2010

Federal Funds:	\$0	Agro-Consumer Services	\$0	0
		Forestry	\$547,090	0
Total	<u>\$547,090</u>	Total	<u>\$547,090</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority within the Department's Forestry Program from the LA Property Assistance Agency (LPAA) for budgeting FY 10 aircraft maintenance expenditures. The source of these funds is from the one-time surplus auction sale of 6 Cessna aircraft (from the Forestry Program's firefighting air fleet).

The specific maintenance expenditures the department is requesting within this BA-7 are as follows:

\$396,440 IAT expenditure category (Division of Administration - Aircraft Services) - propeller overhauls, annual inspections, plane parts, replacement of 2 engines, hanger rent, emergency location transmitters (ELTs).

\$13,500 operating services - GPS updates, FAA medical renewal, insurance deductible, FAA charts and aviation maps.

\$137,150 supplies - multiservice fuel card, Mansfield Fuel (bulk contract vendor)

The revenues generated from the auction accrued to the department and the LPAA. The planes were originally purchased with statutory dedications via the Forest Protection Fund. Thus, the LPAA receives 20% of the auction proceeds, while the department receives 80% of the auction proceeds. Pursuant to R.S. 3:4321, there is an annual \$0.08 forest protection tax per acre of timberland paid by the landowners, which is deposited into the Forest Protection Fund. Per statute, the department may utilize such funds for the acquisition and maintenance of equipment for the protection of forest lands from fire damage.

Below is a table that illustrates the aircraft type sold, the original cost of the aircraft, the auction sale price of the aircraft, the date the purchaser of the aircraft paid the LPAA and the name of the purchaser of the aircraft.

<u>Aircraft Type</u>	<u>Original Cost</u>	<u>Sale Price</u>	<u>Date Paid</u>	<u>Purchaser</u>
2003 Cessna 182T	\$263,778	\$104,101	11/9/09	Burke Aircraft Service Company
2003 Cessna 182T	\$263,778	\$111,600	11/16/09	Buha Holdings, LLC
2003 Cessna 182T	\$263,778	\$107,991	11/5/09	Airmart Aircraft Holdings, Inc.
2003 Cessna 182T	\$263,778	\$122,600	11/9/09	Buha Holdings, LLC
2003 Cessna 182T	\$263,778	\$115,900	11/16/09	Save-More Drug, Inc.
<u>2003 Cessna 182T</u>	<u>\$263,778</u>	<u>\$121,670</u>	1/5/10	Wipaire, Inc.
Total Sale		\$683,862		
LPAA - 20%		\$136,772		
<u>Agriculture & Forestry - 80%</u>		<u>\$547,090</u>		
Total Sale		\$683,862		

BA-7 #16 on the agenda (in part) increases the budget authority within the LPAA to allow for them to send the Department of Agriculture & Forestry \$547,090 in surplus funds generated from the surplus auction of the 6 airplanes. To the extent that that portion of the BA-7 #16 is not approved, then the Department of Agriculture & Forestry will not receive its auction generated funds for expenditure in FY 10.

II. IMPACT ON FUTURE FISCAL YEARS

March 19, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time revenue source for operating maintenance costs of the remaining 12 airplanes within the Forestry Program's air fleet, and this funding will not be available for these costs in FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon the approval of BA-7 #16 on the agenda.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 4

AGENCY: Agriculture & Forestry

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$0	0
Interagency Transfers:	\$0	Marketing	\$0	0

		Forestry	\$0	0
Total	<u>\$216,326</u>	Total	<u>\$216,326</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget additional Statutory Dedications (\$178,974 - Seed Commission Fund, \$37,352 - Formosan Termite Initiative Fund) for various FY 10 operating services expenditures.

Seed Commission Fund

The increased FY 10 expenditures to be funded with the Seed Commission Fund will be used for the following expenditures at the seed lab: \$8,753 - printing services for printing seed certificates, \$157,492 - equipment maintenance on seed testing equipment/kits, \$3,303 - rental equipment, \$1,902 - dues & subscriptions, \$7,524 - mail & postage. This BA-7 appropriates unappropriated funds from the Seed Commission's FY 10 fund balance, which is currently \$443,012. Upon approval of this BA -7, the unappropriated fund balance will be reduced to \$264,038. Pursuant to Title 3, the Seed Commission is allowed to charge a regulatory fee on all seeds sold in LA. This fund is associated with the LA Seed Commission, which provides for governing the methods of sampling, inspecting and making analysis tests and examinations of all seeds, specifically the registration of seed dealers within LA (R.S. 3:1433). The additional increase in FY 10 statutory dedicated budget authority from the Seed Commission Fund will reduce the FY 10 projected year end fund balance from \$443,012 to \$264,038.

Formosan Termite Initiative Fund

This BA-7 also request to appropriate all of the remaining funds from the Formosan Termite Initiative Fund in FY 10. Pursuant to R.S. 3:3391.12, the commissioner of agriculture and forestry may impose civil penalties associated with the violation of the Formosan Termite statutes (R.S. 3:3391.1 - R.S. 3:3391.13). Such penalties are deposited into the Formosan Termite Initiative Fund. According to the state's financial accounting system, the current balance within this fund is \$37,352 (\$37,207 - FY 09 ending year fund balance, \$145 - FY 10 interest earnings). At this time, the department has not indicated to the Legislative Fiscal Office what specific operating service expenditures will be funded with the \$37,352 request.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 requests the utilization of a portion of the FY 10 unappropriated fund balance within the Seed Commission Fund and all of the unappropriated fund balance within the Formosan Termite Fund.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the reduced amount of \$178,974 (Seed Commission Fund). The Department of Agriculture & Forestry has not indicated to the Legislative Fiscal Office (LFO) the specific expenditures that will be funded with the \$37,352 from the Formosan Termite Initiative Fund or the statutory authority that allows such expenditure.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget a federal grant award (LA Improvement for Patients & Providers Act or MIPPA) provided to the state by the Center for Medicare & Medicaid Services (CMS) for the Medicare Enrollment Assistance Program. This grant award is 100% federal funding with no state match required. The purpose of this program is to provide outreach to individuals throughout the state with a special emphasis on the rural communities and to increase public awareness and enrollment into the benefits available under Medicare Part D, Low Income Subsidy (LIS) and Medicare Savings Plan (MSP).

The LA MIPPA Outreach Grant will achieve outreach efforts through contractual agreements with the various Councils on Aging across the state. The COA's role is to reach the Medicare eligible individuals and to educate and assist in the enrollment process of the Medicare Savings Plan, the Low Income Subsidy, and the Medicare Part D programs. The anticipated expenditures are as follows:

\$70,199 - enrollment and outreach events at the various Council's on Aging (includes \$2,242 for 31 COAs targeting rural areas of the state and \$697 for Baton Rouge Sickle Cell Foundation.

\$6,465 - survey to be performed by the University of LA-Monroe to determine the number of elderly who are not currently enrolled.

\$5,000 - travel expenses.

II. IMPACT ON FUTURE FISCAL YEARS

This is a 2-year grant award. An additional award will be available to the state in the amount of \$81,664 in FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal grant funds awarded to the state by the Administration on Aging for the Statewide Legal Assistance Program. This BA-7 budgets the first year of a 3-year grant award which is designed to conduct a statewide survey on the needs of seniors and conduct outreach efforts to advise seniors of all legal resources available including those by phone and internet. The grant funds require 25% state match which will be provided through in-kind services by the Office of Elderly Affairs (11.5%) and from the LA Civil Justice Center (13.5%).

The Office of Elderly Affairs is the lead agency in this application. Other partners are the LA Civil Justice Center (LCJC), Southeast LA Legal Services, Advocacy Center, Capital Area Agency on Aging, the Pro Bono Project, and Elder Law Task Force.

A disaster hotline was created following Hurricanes Katrina and Rita. This disaster hotline became a statewide helpline which was used following Hurricane Gustav for coordinating legal services for hurricane victims, answering questions regarding hurricane related matters such as food stamps and housing, providing information on Disaster Recovery Centers, and arranging for legal service to assist with FEMA appeals. Through the grant award this helpline will now provide legal assistance for seniors with the greatest social and economic need.

Objectives of the grant are as follows:

- 1) conduct a statewide legal needs assessment on seniors
- 2) publicize the toll free legal helpline
- 3) provide a statewide toll free helpline to seniors statewide
- 4) develop packets and downloadable forms such as healthcare powers of attorney and living wills
- 5) refer seniors who need direct representation to legal service providers

The budgeted expenses for these grant funds are listed below:

\$48,729 - Professional Services (marketing and publicity campaign for legal hotline, LA Civil Justice Center to operate legal hotline, and LSU to perform survey of 500 seniors age 60 and over and analyze results to determine whether seniors have used legal services, need to use legal services, or know how to access legal services in different areas of the state)

\$38,835 - funding for contracts for project supervisor and clerical support

\$4,875 - operating services (printing, equipment rentals, and room rentals for meetings)

\$5,215 - travel (\$3,925) and supplies (\$1,290)

\$2,000 - acquisitions (laptop and printer)

II. IMPACT ON FUTURE FISCAL YEARS

As noted above, this is the first year of a 3-year grant. An additional \$99,654 will be available in both FY 11 and FY 12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$444,134</u>	Total	<u>\$444,134</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget additional federal Title V/Senior Community Service Employment funds in the amount of \$444,134. The amount requested is the balance of the federal award for FY 10 that was not originally budgeted during the 2009 Regular Session. The original amount budgeted for this program for FY 10 was \$1,475,256. However, the total amount of Title V funds available to the state for FY 10 is \$1,919,390. This BA-7 request will allow the entirety of Title V funds (authorized by the Older Americans Act and received through the U.S. Department of Labor) to be budgeted and available to the state for expenditure during the current fiscal year. Grant funding not obligated by 6/30/2010 will be unavailable.

Title V/Senior Community Service Employment grant funds are utilized to provide work experience and training opportunities to low-income individuals at age 55 and over in non-profit 501 (c)(3) eligible organizations.

No state funds are necessary to match the additional federal funds appropriated through this BA-7 request.

A 10% match will be provided by the subrecipients (local Area Agencies on Aging or catholic charities) through in-kind services or donations.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0	Parish Councils on Aging	\$0	0
		Senior Centers	\$0	0
Federal Funds:	\$61,307			
Total	<u>\$61,307</u>	Total	<u>\$61,307</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget the remainder of Federal funds (ARRA Congregate Meals and ARRA Home-Delivered Meals Programs) which were not expended in FY 09. A total of \$861,168 was originally budgeted for Congregate Meals and \$423,960 for Home-Delivered Meals and was intended to augment the current meals program to increase the number of meals served by Area Agencies on Aging to seniors and/or decrease the waiting list for such services. These grant funds were not fully expended in FY 09 due to the timing of the grant award which was received and budgeted in April 2009.

These grant funds were allocated based on the funding formula currently authorized by the Office of Elderly Affairs to distribute funding for the elderly nutrition program, authorized under Title III of the Older Americans Act. This program provides grants to state agencies on aging to support congregate and home-delivered meals to persons 60 years and older.

Of the funds being re-budgeted, a total of \$16,065 is for administrative costs and \$45,242 is to provide meals to the elderly. The administrative costs are related to increased travel associated with program auditors and monitors since the program's monitoring requirements are greater than what is currently provided in the regular audit and monitoring plans. Program monitors must travel to train each of the agencies to prepare for reporting requirements. Dieticians are required to inspect any new public meal site opened for compliance with public health standards and licensing. Additional audit assistance is also anticipated due to the agency's loss of 2 of its 4 auditors in FY 10.

A 15% match for these funds will be provided by the subrecipients (Area Agencies on Aging) and will be funded with either local millages or in-kind services).

NOTE: The ARRA grant funds allow for 25% administrative costs. The Office of Elderly Affairs will use only 5% of the total ARRA funds received for a total administrative cost of \$64,258. The \$16,065 noted above for administrative costs for FY 10 is included in the \$64,258 originally budgeted for administrative expense.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$977,977			
Total	<u>\$977,977</u>	Total	<u>\$977,977</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal funds received through a Nutrition Services Incentive Program (NSIP) grant award from the Administration on Aging. The NSIP grant provides additional funding to states, territories, and eligible tribal organizations that is used exclusively to purchase food, and may not be used to pay for other nutrition-related services or for state or local administrative costs. These funds will be passed through to the Area Agencies on Aging to supplement their meals program. The additional meals provided will benefit the seniors who are recipients at senior centers, meal sites or receive meals delivered to their homes.

The grant award will result in an increase in home delivered meals provided by the Area Agencies on Aging from 3,037,500 to 3,216,606 or an increase of 179,106 meals provided in FY 10. The average cost of these meals served is \$5.46.

Funds are disbursed to the Office of Elderly Affairs based on the ratio of eligible meals served by the state compared to the nation's total. Funds are then disbursed to each Area Agency on Aging according to the ratio of each Area Agency's meals served to the state total.

The BA-7 requested amount is determined as follows:

\$3,000,000	FY 10 NSIP existing budget
(\$1,562,105)	FY 10 Payments to Area Agencies on Aging from previous grant award
<u>(\$2,415,872)</u>	FY 10 Current NSIP grant award (75%)
(\$977,977)	FY 10 Insufficient budget for the NSIP grant

The final award of the remaining 25% of NSIP grant funds will be budgeted in FY 11.

II. IMPACT ON FUTURE FISCAL YEARS

The final award of the remaining 25% of NSIP grant funds will be budgeted in FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

Interagency Transfers:	\$0			
Self-Generated Revenue:	\$8,073,068			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$8,073,068</u>	Total	<u>\$8,073,068</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the LA Property Assistance Agency (LPAA) related to the sale of 336 generators by the Department of Natural Resources (DNR) and 6 airplanes for the Department of Agriculture & Forestry (DAF). DNR originally purchased these generators following Hurricane Gustav and has sold all but 138. In addition, the DAF has sold 6 of its 18 airplanes.

The LPAA sale of the 6 airplanes owned by the Department of Agriculture & Forestry (DAF) generated a total of \$683,862. These planes were originally purchased with monies from the Forest Protection Fund. The DAF will receive 80% of the proceeds from the sale which is \$547,090.

The DNR originally purchased 336 generators following Hurricane Gustav utilizing the Coastal Protection & Restoration Fund in the amount of \$11,417,533. According to the LPAA, these generators have been sold to police juries, parish hospitals, local offices of emergency preparedness, parish councils, and sheriff's offices across the state. Funding for the purchase of these generators is being provided to local governments by the Governor's Office of Emergency Preparedness (GOHSEP) through the Hazard Mitigation Grant Program.

GOHSEP is currently negotiating the sale of all of these generators (rather than LPAA) which will allow all of the funding from the sale to reimburse the Coastal Protection & Restoration Fund (CPRF). At such time as the sale of these generators is turned over to the LPAA (3/31/2010), revenues generated through the sales will be split with 20% to LPAA and 80% to DNR. According to the LPAA, the average purchase price of the generators sold to date has been approximately 80% of the original cost at the time of purchase.

Revenues generated from the auction of state property accrues to either the selling agency or the LPAA, depending upon the original funding source used for the purchase of such property. If the property was purchased with federal grant funds, SGR or Statutory Dedications, the LPAA typically receives 20% of the proceeds, while the selling agency receives 80%. If the property was purchased with SGF, the LPAA receives the full amount generated from the auction.

The LPAA did not anticipate the need to reimburse the aforementioned agencies for these transactions. The agency's budget is based on historical collections. In addition to these examples shown above, the recent surplus of state vehicles has also significantly impacted this agency's ability to reimburse the selling agencies their portions because of insufficient budget authority. Therefore, this BA-7 request will increase its SGR budget authority to allow such reimbursement.

The requested increase in SGR budget authority is \$8,073,068. However due to additional information received by the LFO, the revised calculation is as follows:

\$547,090 6 Aircraft sold by DAF - (80% reimbursement to DAF)
\$2,411,344 Remaining generators to be sold (104 x \$23,186 avg. price of previous sales) 34 generators will not be sold and will be held by GOHSEP for use in emergencies
\$3,168,579 Generators sold to date (198 have been sold. A portion of the total sales has previously been reimbursed. This

March 19, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

figure reflects only that amount of reimbursement to the CPRF still outstanding.

\$193,173	Negative balance exists in IAT reimbursement category due to greater than expected sales during FY 10
\$322,872	Other invoices requiring reimbursement through February 2010 - (reimbursement to state agencies)
\$296,644	Regular monthly reimbursements excluding generators and aircraft from 3/1 - 6/30/2010
\$6,939,702	Total

To date, a total of 198 generators have been sold with all funding reimbursed to the CPRF. In addition, any generators sold prior to March 31 will allow 100% reimbursement to the CPRF. As discussed previously, once the LPAA takes over the sale of these generators, only 80% of the sale price will be reimbursed to the CPRF while LPAA will maintain 20%.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$6,939,702 due to updated information obtained on the number of generators sold to date and the number of generators which will be held back by GOHSEP for use as needed.

Total	<u>\$547,090</u>	Total	<u>\$547,090</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the LA Property Assistance Agency (LPAA) related to the sale of 336 generators by the Department of Natural Resources (DNR) and 6 airplanes for the Department of Agriculture & Forestry (DAF). DNR originally purchased these generators following Hurricane Gustav and has sold all but 138. In addition, the DAF has sold 6 of its 18 airplanes. The LPAA sale of the 6 airplanes owned by the Department of Agriculture & Forestry (DAF) generated a total of \$683,862. These planes were originally purchased with monies from the Forest Protection Fund. The DAF will receive 80% of the proceeds from the sale which is \$547,090.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Military Department to allow the agency to budget funds transferred from the Governor's Office of Homeland Defense & Emergency Preparedness (GOHSEP) related to the Arkansas Ice Storm Mission in February 2009. These Federal funds are a reimbursement of personnel (\$9,125) and transportation costs (\$3,656) incurred by the State Military Department in hauling water to Camp Robinson in Arkansas for a period of 7 days following an ice storm. The Military Department incurred expenses related to the use of 15 national guard personnel, six 2,500 gallon rough terrain water tankers (HIPPOS) and one Hemi fuel truck.

LA is a member of the Emergency Management Assistance Compact (EMAC) Program which is a congressionally ratified organization that is administered by the National Emergency Management Association and was created in 1996 to provide state-to-state assistance during times of emergency.

II. IMPACT ON FUTURE FISCAL YEARS

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to collect reimbursement from GOHSEP (federal funds) based approved FEMA Project Worksheets (PWs). The approved PWs (#4294, #5003, #5173 and #1088) are expenses incurred by the Military Department due to Hurricanes Gustav and Ike.

PW #4294 (\$8,796)

These expenses are associated with the replacement of 15 vinyl coated metal storage sheds (10ft x 8ft) located at Camp Beauregard. These storage sheds were kits that had been assembled and placed adjacent to house trailers. A total of 15 of the 50 sheds were destroyed by high winds during Hurricane Gustav. FEMA pays 90% of the eligible amount of \$9,772.80 or \$8,796.

PW #5003 (\$2,219)

These expenses are associated with repair of building #554B located at Camp Beauregard. High winds, flying debris, and heavy rain caused damage to the standard asphalt shingle roof and plywood siding on building 554B. FEMA pays 90% of the eligible amount of \$2,465.26 or \$2,219.

PW #5173 (\$1,087)

These expenses are associated with damages sustained by traffic control equipment at Camp Villere in Slidell during Hurricane Gustav. High winds damaged six 36 inch tall traffic cones, three 24 inch by 18 inch traffic signs (speed limit 15), three 24 inch by 18 inch traffic signs (speed limit 20), five 24 inch by 24 inch traffic signs (STOP), and seven 8 ft. U-Channel sign posts. FEMA pays 90% of eligible amount of \$1,207.71 or \$1,087.

PW #1088 (\$14,403)

These expenses are related to Military Department emergency protective measures pertaining to Hurricane Ike including purchase of materials (\$8,300.40), rental of equipment (\$2,167.25) and contracts for emergency repairs (\$2,860.55) and reimbursement of direct administrative costs by the Military Department (\$1,075.22). FEMA reimbursed 100% of these expenses.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the State Military Department (SMD) to receive funding from DOTD (TTF-Regular) for reimbursement of expenditures related to "special leave pay". Executive Order KBB 2006-30 states that "an unclassified officer or employee who is serving in a position that earns annual and sick leave shall be given time off, without loss of pay, annual leave, or sick leave when ... the officer or employee is a member of the National Guard and is ordered to active duty incidental to a local emergency, an act of God, a civil or criminal insurrection, a civil or criminal disobedience, or similar occurrence of an extraordinary and emergency nature which threatens or affects the peace or property of the people of the state of LA or the United States."

Following Hurricane Katrina, 2 employees of DOTD who were members of the LA National Guard (LNG) were called to active duty. At that time, these employees took leave without pay for the time served on active duty. DOTD did not pay these individuals for this time as was directed by the Executive Order. This discrepancy was discovered in 2009. At this time the 2 individuals had become employees of the SMD. Following legal review by the SMD and audits by SMD, DOTD and the DOA, the SMD was directed by the DOA to pay the 2 individuals for the period in question since the employees were no longer employed by DOTD and were currently employed by the SMD. This BA-7 provides reimbursement to SMD for the payment to the 2 individuals. Payment to the 2 individuals was made by the SMD in October 2009 and reimbursement from DOTD was received in November 2009.

Amounts paid to the 2 individuals are as follows:

John P. Basillica Jr. - \$2,536.15 (9/26/2005 - 10/9/2005)
Donald Johnson- \$52,181.97 (10/24/2005 - 10/22/2006)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$100,000</u>	Total	<u>\$100,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority for the State Military Department (SMD) to receive federal grant funds (Homeland Security Grant Program) from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). States are required to ensure that at least 25% of these grant funds are dedicated towards law enforcement terrorism prevention-oriented planning, organization, training, exercise, and equipment activity. All of the funding in this BA-7 is related to that purpose. These federal grant funds will allow the SMD to provide training for its Special Reaction Teams (SRT) and force protection training/re-certification.

Approximately 75% of the funds will be used for state active duty pay for LNG members during these training exercises. The remainder of the funds will be used to purchase equipment to be used during training.

These funds will be expended as follows based upon information provided by the SMD:

Training session in April 2010 - (3 days) - \$32,625 Includes training for the current SRT in firearm qualifications (9mm and 12 gauge). Training cost is estimated at 125 members of the LNG x \$87 / day x 3 days = \$32,625

Training session in May 2010 - (3 days) - \$32,625 Includes firearm training for new applicants and trainers (9mm and 12 gauge). Training cost is estimated at 125 members of the LNG x \$87 / day x 3 days = \$32,625

Training session in July 2010- (3 days) - \$10,722 Includes advanced firearm training for new and old members.

Equipment Acquisitions - \$24,028 (includes pepper spray and pepper spray holders, batons, training mats, training cuffs, holsters, stream lights and holsters, radio pouches and breaching kits (used to enter locked doors and windows).

These grant funds do not require a state match.

II. IMPACT ON FUTURE FISCAL YEARS

Advanced firearms training is scheduled for July 2010 (FY 11). Therefore, the cost to provide this training (\$10,722) should be budgeted in the SMD budget for FY 11 rather than in the current fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$89,278 due to a portion of the training (advanced firearm) occurring in FY 11. The LFO recommends that this BA-7 be reduced by \$10,722 which will be budgeted in the SMD budget in FY 11.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority for the State Military Department (SMD) to receive grant funds from the Governor's Office of Homeland Defense & Emergency Preparedness (GOHSEP). These federal grant funds from the Department of Homeland Security (State Homeland Security Grant Program) will be used to increase overall communications throughout the LA National Guard by upgrading existing radios to allow digital communications on the LA Wireless Information Network, increase the number of radios to support existing and EMAC (Emergency Management Assistance Compact) troops during a disaster situation, and enhance tactical communications equipment through communications assets which can be deployed throughout the state for military and civilian authorities.

NOTE: LA is a member of the EMAC Program which is a congressionally ratified organization that is administered by the National Emergency Management Association and was created in 1996 to provide state-to-state assistance during times of emergency.

The SMD will acquire an additional (110) 700 mhz radios. These radios will be made available to existing units and EMAC troops that are providing support during disasters to ensure proper communication is available during times of emergency. The SMD will also purchase upgrades to existing radios that are currently operational only on the state's 800 mhz radio system. This upgrade will allow these radios to operate on the LA Wireless Information Network utilizing the 700/800 mhz digital frequencies. Finally, these funds will allow communications equipment to be deployed throughout the state and provide multiple means of communication for command and control for various military and civilian authorities.

The grant funds will be utilized for the purchase of the following:

- 110 Motorola XTS2500 Model 2 radios (\$1,725/radio) = \$189,750
- flash upgrade for analog radios (265 x \$300/upgrade) = \$79,500
- Satellite radio phones (3 x \$5,000) = \$15,000
- Software and service to operate satellite phones (3 x \$25,000) = \$75,000

The satellite phones will be used by the SMD in strategic areas in emergency response situations.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority to receive funds (source is SGF) transferred from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). These funds are to be transferred from GOHSEP to fund the costs associated with the construction of 2 modular storage buildings (10 ft x 20 ft) by LNG (LA National Guard) personnel for GOHSEP. The 2 storage units were assembled at the Gillis W. Long Center in Carville and transported to GOHSEP in Baton Rouge. Three LNG trucks were used in transporting the 2 units and one crane for delivery and set up.

Expenditures to be reimbursed by GOHSEP include:

Supplies and Materials - \$1,000

Travel - \$800

Personnel - \$10,200

Total - \$12,000

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$47,658 in the Personal Health Services Program. The source of Federal funds is the American Recovery & Reinvestment Act (ARRA) of 2009, Healthcare-Associated Infections (HAI) supplement.

The purpose of the HAI supplement is to build and sustain state programs to prevent healthcare associated infections, improve the collaboration of HAI reporting activities, and strengthen relationships with hospitals. The supplemental award is \$647,083 for 2 years and 4 months. OPH is requesting only \$343,055 of the \$647,083 HAI supplement over 3 years.

- FY 2010: \$47,658
- FY 2011: \$222,834
- FY 2012: \$72,563
\$343,055

Expenditures in this BA-7 request for the HAI supplement are as follows:

Travel and Training (\$2,115)

Travel throughout LA to various hospitals implementing the HAI plan. Attend Centers for Disease Control (CDC) meetings in Atlanta and Association for Professionals in Infection Control & Epidemiology (APIC) training.

Supplies (\$424)

Funding for general office supplies.

Professional Service (\$45,119)

Contracts for extracting, analyzing HAI data for National Healthcare Safety Network (NHSN) and posting to the web; professional consulting service to work with healthcare providers; and providing infection control employees HAI related trainings.

II. IMPACT ON FUTURE FISCAL YEARS

The Healthcare-Associated Infections supplement period is 9/1/2009 through 12/31/2011. However, OPH may carry forward any unused funds until the project period expires on 12/31/2011.

Statutory Dedications:	\$0			
Federal Funds:	\$576,302			
Total	<u>\$576,302</u>	Total	<u>\$576,302</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal Funds budget authority by \$576,302 in the Personal Health Services Program, Nutrition Services activity. The source of Federal funds is the U.S. Department of Agriculture, Food & Nutrition Service Grant.

In December 2009, the Office of Public Health (OPH) was approved to receive the Food & Nutrition Service Grant. The grant will be used to cover 4 enhancements itemized below to the LA Women, Infant, & Child (WIC) Management Information System (PHAME).

OPH has amended an existing contract with CIBER, Inc. to develop the enhancements. Originally, OPH was using Operational Adjustment grant funds awarded by the federal government for enhancements to PHAME. However, the federal government asked OPH to apply for American Recovery & Reinvestment Act (ARRA) grant funds for the IT elements of the contract in lieu of using Operational Adjustment grant funds. Therefore, OPH amended an existing contract with CIBER, Inc. to develop the enhancements with Food & Nutrition Service Grant funds. Therefore, this is essentially a grant swap replacing Operational Adjustment grant funds with the Food & Nutrition Service Grant funds. The Operational Adjustment grant funds will not be reduced and will remain in the budget. CIBER, Inc. is expected to complete the final web-based application enhancements at the end of March 2010.

Grant funding in this BA-7 request will be allocated to the expenditures as follows:

Travel (\$3,000)

Airfare and hotel accommodations for 4 days for 2 WIC vendor unit staff members will travel to Wisconsin to visit the Wisconsin WIC program that developed and implemented a vendor portal. The vendor portal is a web-based application that will allow WIC vendors to enter their food prices instead of WIC program staff.

Other Charges (\$557,302)

Contract with CIBER, Inc. for development for the four PHAME enhancements.

- Food Package Enhancements - \$326,247
- Vendor Pricing System Modifications - \$43,990
- Modification of Certification End Date - \$16,614
- Vendor Portal - \$170,451

Acquisitions (\$16,000)

2 servers for hosting the Vendor Portal application with redundancy back up.

II. IMPACT ON FUTURE FISCAL YEARS

Although the Food and Nutrition Service Grant was awarded for 2 years, 10/1/2009 – 9/30/2011, OPH is estimating that the project will be completed by the end of March 2010 and all grant funds will be expended by the end of April 2010. However,

March 19, 2010

Statutory Dedications:	\$0			
Federal Funds:	\$583,550			
Total	<u>\$583,550</u>	Total	<u>\$583,550</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$583,550 in the Environmental Health Services Program. The source of Federal Funds is from the following 2 grants: (1) Public Health Tracking Grant from the U.S. Department of Health & Human Services, Centers for Disease Control & Prevention, National Environmental Public Health Tracking Program (EPHT); and (2) Hazardous Substance Incidents Grant from the U.S. Department of Health & Human Services, Centers for Disease Control & Prevention, Agency for Toxic Substance & Disease Registry (ATSDR), National Toxic Substances Incident Program (NTSIP).

The purpose of the Public Health Tracking grant is to build a user-friendly web site on which to display health and environmental data on LA. The web site will be designed for use by state officials, researchers and the general public. The grant is \$678,510 per year for 5 years. The total Public Health Tracking grant award is \$3,392,550.

The purpose of the Hazardous Substance Incidents grant is to track hazardous chemical releases and their public health impact. Also, the grant requires that data will be analyzed to identify vulnerabilities as well as perform prevention outreach activities. The grant is \$172,794 per year for 3 years. The total Hazardous Substance Incidents grant award is \$518,382.

Expenditures for this BA-7 request are as follows:

Travel and Training (\$13,027)

Public Health Tracking Grant—participation in a mandatory grantee workshop for 3 staff members (\$1,885).

Hazardous Substance Incidents Grant—participation in mandatory annual grantee workshop and training on the SAS software and ArcGIS software (\$11,142).

Operating Services (\$33,949)

Public Health Tracking Grant—printing of grant marketing and outreach materials (\$3,500); extended warranty on 4 Dell laptops and workstations (\$1,650); and maintenance of software and licenses (\$27,800).

Hazardous Substance Incidents Grant—maintenance of Phaser 7700 software (\$999).

Supplies (\$6,320)

Public Health Tracking Grant—general office supplies and computer supplies (\$4,000).

Hazardous Substance Incidents Grant—general office supplies and computer supplies (\$2,320).

Professional Service (\$347,276)

Public Health Tracking Grant—contract for GIS activities in last 4 months of FY 10 (\$37,500); information technology contract to build the public and secure portals and oversee all IT aspects of the project (\$260,026).

Hazardous Substance Incidents Grant—contract for coordination of victim data as well as analyze data and prepare reports (\$49,750).

Acquisitions (\$18,195)

March 19, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Public Health Tracking Grant—two Dell dual processor GIS workstations, 2 desktop computers, 2 laptop computers (\$14,100); 2 network printers and In-Focus projector (\$1,270).
Hazardous Substance Incidents Grant—2 laptops for emergency response (\$2,825).

IAT Expenditures (\$38,000)

Public Health Tracking Grant—Department of Health & Hospitals (DHH) IT for project management and technical assistance while Request for Proposal (RFP) is being negotiated (\$30,000).

Hazardous Substance Incidents Grant—IAT agreement with LA State Police for labor and supplies to provide follow-up reports from companies that report chemical spills (\$8,000).

Indirect Cost (\$126,783)

Indirect costs of 22% for facilities and administration.

	Public Health Tracking Grant	Hazardous Substance Incidents Grant	Total
Travel	\$1,885	\$11,142	\$13,027
Operating Services	\$32,950	\$999	\$33,949
Supplies	\$4,000	\$2,320	\$6,320
Professional Services	\$297,526	\$49,750	\$347,276
Acquisitions	\$15,370	\$2,825	\$18,195
IAT Expenditures	\$30,000	\$8,000	\$38,000
Indirect Cost (22%)	<u>\$110,897</u>	<u>\$15,886</u>	<u>\$126,783</u>
Total	\$492,628	\$90,922	\$583,550

II. IMPACT ON FUTURE FISCAL YEARS

The Public Health Tracking Grant period is 8/1/2009 through 7/31/2014. However, OPH may carry forward any unused funds until the project period expires on 7/31/2014.

The Hazardous Substance Incidents Grant period is from 9/30/2009 through 9/29/2012. However, OPH may carry forward any unused funds until the project period expires on 9/29/2012.

Total	<u>\$60,706,514</u>	Total	<u>\$60,706,514</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget revenues from the Medicaid Trust Fund for the Elderly to address approximately half of the state's settlement for a federal disallowance of funds paid to public nursing facilities in 2001. This portion of the settlement is due to be paid by 6/30/2010. The original source of statutory dedicated revenue was supplemental Upper Payment Limit payments (federal funds) that were deposited into the Medicaid Trust Fund for the Elderly.

In January of 2001, the Centers for Medicare & Medicaid Services (CMS) approved a state plan amendment for LA that established a Medicaid payment methodology which reimbursed supplemental Medicaid payments up to the aggregate Upper Payment Limit for nursing facilities. Information provided by CMS indicates that total state UPL claims resulted in \$937.9 M in federal matching funds payments to LA. Total supplemental payments were made through an Intergovernmental Transfer (IGT) agreement, and then deposited into the Medicaid Trust Fund for the Elderly (newly created fund to receive the payments). IGT's are transfers of public funds between governmental entities. In 2007, the Department of Health & Hospitals (DHH) received a letter from the CMS that reflected a disallowance of federal funds in the amount of \$116,377,027. This disallowance is the result of the state increasing supplemental payments to non state public nursing facilities in excess of the Upper Payment Limit for the period of 4/1/2001 through 9/30/2002.

The CMS determined that a portion of the supplemental payments were considered to be unallowable due to a miscalculation in the upper payment methodology. Although the state originally appealed the disallowance, information provided by the DHH indicates that an appeal was denied. Both the state and CMS have resolved the overpayment dispute. The settlement agreement requires the state to make 4 separate quarterly payments to CMS, the first starting on 3/31/2010. The settlement payments will be paid back to CMS with 100% statutory dedicated funds. The settlement payments and schedule are reflected below (the total amount of funds required to be repaid is higher than the original amount reflected on the CMS disallowance letter due to projected accrued interest).

Due Date	Settlement Payment
March 31, 2010	\$30,244,555.52
June 30, 2010	\$30,461,958.01
September 30, 2010	\$30,680,742.67
December 31, 2010	<u>\$30,899,701.97</u>
Total settlement	\$122,286,958.17

II. IMPACT ON FUTURE FISCAL YEARS

The BA-7 only appropriates approximately half of the total disallowance, as the total refund plan falls within 2 separate fiscal years. It is assumed the remaining payments will be appropriated through a BA-7 in FY 11. The impact of this BA-7 will reduce the Medicaid Trust Fund for the Elderly Fund balance by approximately \$122 M over 2 fiscal years. As of 3/1/2010, the Treasury reflects a fund balance of approximately \$815.6 M.

DEPARTMENT: Health & Hospitals

AGENDA NO.: 30

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$42,637,571	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$7,896,478	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$0	0
Federal Funds:	\$34,741,093	Recovery Funds	\$0	0
Total	<u>\$42,637,571</u>	Total	<u>\$42,637,571</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to appropriate supplemental Medicaid payments to the Private Providers Program in Medicaid. These supplemental payments will be made to Our Lady of the Lake (OLOL) in Baton Rouge as part of a Cooperative Endeavor Agreement (CEA) between the OLOL and the LSU Health Care Services Division. The source of fees and self generated funds are restricted fund revenues generated and transferred from the LSU HSC Health Care Service Division. Restricted funds represent both collected SGR and Medicaid over-collections from prior fiscal years. The source of federal funds is Title XIX federal financial participation (federal match).

As stated in the CEA, the Department of Health & Hospitals (DHH) is obligated to begin making payments to OLOL on or before 6/30/2010, subject to the approval date of a State Plan Amendment. These supplemental Medicaid payments will be made utilizing the Medicaid Upper Payment Limit payment (UPL) Medicaid payment methodology. Utilizing the UPL methodology allows states to receive reimbursements for the difference between Medicaid and Medicare reimbursement for Medicaid services provided (UPL's are the the maximum that state's can pay for Medicaid Services). Information provided by the DHH indicates these payments will be used by OLOL to cover the transition costs associated with the hospitals staff, Graduate Medical Education, and facilities as reflected in the CEA to allow increased access to medical services for the Medicaid populations and low income uninsured populations.

In addition to the supplemental payments reflected in this BA-7, there are approximately \$52 M appropriated in HB 1 Original (\$14.3 SGF and \$37.7 Federal match) for the E.K. Long/OLOL partnership. According to language in the CEA, the state is obligated to make supplemental UPL payments to the OLOL equal to the amount of \$129 M for the period beginning 10/1/2009 through 6/30/2011. The UPL payment schedule is reflected below:

Estimated UPL reimbursement Schedule (includes reimbursement for both inpatient and outpatient costs)

<u>Pay out schedule</u>	<u>State</u>	<u>Federal</u>	<u>Total</u>
October 1, 2009 - June 30, 2010	\$7,896,478	\$34,741,093	\$42,637,571
July 1, 2010 - December 31, 2010	\$5,267,161	\$23,157,886	\$28,425,047
January 1, 2011 - June 30, 2011	<u>\$21,083,413</u>	<u>\$36,853,969</u>	<u>\$57,937,382</u>
Seven (7) quarter total	\$34,247,052	\$94,752,948	\$129,000,000
Eighth(8) quarter in 2012	<u>\$5,094,600</u>	<u>\$8,905,400</u>	<u>\$14,000,000</u>
TOTAL UPL	<u>\$39,341,652</u>	<u>\$103,658,348</u>	<u>\$143,000,000</u>

Information provided by the LSU Health Care Services Division indicates the transition of patients will begin in 2013. In addition to the schedule of UPL payments reflected above, it is anticipated that future UPL payments (same Medicaid payment methodology) will be made to cover the costs of ongoing expenses of providing care. Although the Legislative Fiscal Office does not have an out-year projection of OLOL costs associated with this merger (beyond 2012), Medicaid payments are required to be made from the state through DHH (utilizing the same UPL methodology) to cover certain costs reflected below

March 19, 2010

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

in order to comply with the CEA. The CEA stipulates that these payments will begin 90 days prior to the Graduate Medical Education start date.

Schedule of additional required funding under the CEA

Medicaid - At least 95% of OLOL's Medicaid costs for all inpatient and outpatient services.

Uninsured - At least 100% of OLOL's cost for inpatient and outpatient services provided to the uninsured.

Physician services - 100% of OLOL's costs for providing physician coverage services for the uninsured.

Shortfall - Any shortfall in reimbursement related to the cost of graduate medical education and the Trauma Center.

II. IMPACT ON FUTURE FISCAL YEARS

In addition to the \$143 M in required Medicaid payments reimbursed to OLOL over the course of 8 quarters, the C.E.A. requires additional UPL payments to cover the annual costs associated with providing care to the uninsured and Medicaid, costs associated with GME shortfall, and physician services costs incurred for delivering care to the uninsured. Out year costs will depend on patient utilization and annual cost reports that will be required to be submitted by OLOL.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon approval of the Cooperative Endeavor Agreement by the Joint Legislative Committee on the Budget and federal approval of the state plan from the Centers for Medicare and Medicaid Services (CMS). A state plan amendment was submitted to CMS in December 2009, however has yet to receive CMS approval.

Note: The LFO would like to make the JLCB aware of several unknowns related to the OLOL/E.K. Long partnership. First, information received from DHH indicates that the OLOL will not be responsible for providing patient care services for Department of Corrections inmates currently provided at E.K. Long. In addition, the OLOL will not provide Obstetrics related care currently provided at E.K. Long. At this point, there are no assurances relative to services for these patients. Second, the annual state exposure is unknown. The state will be obligated to make additional payments beginning in FY 13 (Graduate Medical Education transfer date) to cover certain costs as itemized in the C.E.A. The state will be responsible for match associated with payments made to the OLOL. Total payments will be subject to OLOL's annual costs reports.

Approved By JLCB**

DEPARTMENT: Social Services

AGENDA NO.: 31

AGENCY: Community Services

ANALYST: Patrice Thomas

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$0	Child Welfare Services	\$1,206,559	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$1,206,559			
Total	<u>\$1,206,559</u>	Total	<u>\$1,206,559</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal Funds budget authority by \$1,206,559 in the Child Welfare Services Program. The source of Federal funds is the Adoption Incentive grant from the U.S. Department of Health & Human Services.

The Adoption Incentive grant is awarded to States that increase annually the number of foster child adoptions, special needs adoptions, older child adoptions, or exceeds the State's highest foster child adoption rate. DSS was awarded the grant based on outstanding performance in finalizing foster care adoptions during FFY 08. The grant provides for incentive payments for a fiscal year in accordance with the following:

- \$4,000 for every foster child adoption over the foster child adoption FFY 07 baseline;
- \$8,000 for every older child adoption over the older child adoption FFY 07 baseline; and
- \$4,000 for every special needs adoption (that is not an older child adoption) over the special needs adoption FFY 07 baseline.

DSS was awarded the Adoption Incentive grant based upon an increase in all categories of adoptions. During FFY 08, DSS increased adoptions over FFY 07 baseline as follows:

	FFY 07	FFY 08	Difference
Foster Care Adoptions	419	587	+ 168
Special Needs Adoptions (under age 9)	210	299	+ 89
Older Child Adoptions (age 9 or older)	96	117	+ 21
Adoption Rate (AR)	10.6	11	+ 0.4

DSS must use the grant to increase the number of adoptions by Adoption Promotion and to finalize statewide cases for Termination of Parental Rights (TPR) of parents to free children for adoption. Grant funding will be allocated to the following expenditures:

Travel (\$20,000)

- Training on adoption and child permanency for staff.
- Travel to National/State Adoption conference and Child Welfare Related Conferences.

Operating Services (\$50,000)

- Professional marketing campaign, AdoptUSkids, for recruitment of foster and adoptive homes.

Other Charges (\$866,559)

- Contract with private attorneys for TPR cases.
- Contract with licenses social workers/social services agencies to clear backlog of home studies.

March 19, 2010

**LEGISLATIVE FISCAL OFFICE

I. SUMMARY/COMMENTS

The Justice Department is requesting approval to add \$2M in SGR to its budget to provide for litigation aimed at parties responsible for the Chinese drywall problem. The funding requested in this BA-7 comes from surplus collections in the consumer enforcement account. The consumer enforcement account is an off-budget escrow account maintained by the state treasurer in which collections from consumer settlement cases are deposited. Collections from the account are available for use by the Justice Department. The account has a balance of \$4.6M. Although the agency is requesting \$2M funding, it did not provide detailed information to substantiate how it anticipates expending \$2M by 6/30/10. Through 6/30/10, the agency indicates it will expend more than \$890,000. The agency anticipates expending more than \$750,000 for legal services (\$150,000 monthly), \$100,000 on expert witnesses, and \$40,000 for miscellaneous expenses.

The Attorney General filed a lawsuit for the drywall disaster in federal district court on 1/13/10 naming various defendants responsible for the Chinese drywall problem.

II. IMPACT ON FUTURE FISCAL YEARS

The agency is requesting \$2M of additional self-generated revenue funding in FY 11 to continue the drywall damage lawsuit.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the amount of \$900,000. Based on previous pre-suits filings, the agency expended approximately \$100,726 monthly on pre-suit filings for legal services. The agency believes that these services will be more expensive and may exceed \$150,000 per month. Together with anticipated expert witness costs of \$100,000 during this time period and miscellaneous expenses of \$40,000, the agency anticipates costs in excess of \$890,000 through 6/30/10.

Statutory Dedications:	\$0	Risk Litigation	\$0	0
		Gaming	\$0	0
Federal Funds:	\$473,400			
Total	<u>\$473,400</u>	Total	<u>\$473,400</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Attorney General's Office is requesting approval to add \$473,400 of federal funds to its budget. The funding source is from the Federal Justice Department. It will be utilized to provide for the cataloging of all evidence related to homicide or rape cases in possession of the Orleans Parish Clerk of Court. The funding will be used to find every item of evidence relating to a homicide or rape case in the possession of the Orleans Parish Clerk of Court, to determine the status of the case that the evidence relates to, to perform a screening of the case documents and determine the likelihood of DNA testing being determinative of guilt or innocence, and to perform evidence screening and testing in cases in which biological evidence exists, would be suitable for testing and would be determinative of guilt or innocence of the person convicted. A computerized inventory of the entire evidence room of the Orleans Parish Criminal Clerk's Office will be created. Any analysis concerning any wrongful convictions will be compiled in a report that will address the causes of the wrongful convictions.

The following agencies are involved in the project and will function as the advisory board for the project: the New Orleans Police & Justice Foundation, the Orleans Parish Clerk of Court, the Orleans Parish District Attorney's Office, the Innocence Project New Orleans, and the New Orleans Police Department.

All funds disseminated under this grant will be coordinated and administered by the New Orleans Police & Justice Foundation (NOPJF). Costs will be incurred by partner agencies (Orleans Parish Clerk of Court, Orleans Parish District Attorney's Office, Innocence Project New Orleans, and New Orleans Police Department). Invoices from each agency along with supporting documentation will be packaged and delivered to the NOPJF to ensure compliance with all federal, state, and grant requirements. NOPJF will reimburse partner agencies for eligible expenses under the grant and invoice the Attorney General's Office. The Attorney General's Office will reimburse NOPJF for eligible expenses and draw reimbursement from the federal Department of Justice.

Although the Attorney General requests \$473,400 of funding in this BA-7, the New Orleans Police & Justice Foundation indicates that it anticipates expending \$474,150 by 6/30/10. The required funding indicated by the New Orleans Police and Justice Foundation will provide for the following expenses: \$208,770 for consultants/contract employees; \$185,232 for salaries and related benefits for agency personnel; \$5,682 for travel; \$27,107 for computer equipment; \$16,959 for DNA testing supplies and evidence supplies for the New Orleans Police Department; \$29,500 for DNA screening and testing, and \$900 for a cell phone for the project director. The group will employ the following consultants or contract employees: a project director (\$37,500), a project administrator (\$24,500), ten contract employees (\$131,270), and a DNA consultant (\$15,500). Salaries and related benefits will provide for the following personnel: 2 full time assistant district attorneys (\$68,410) and a paralegal/investigator (\$31,302) in the DA's office; an attorney (\$16,000) and law clerk (\$11,489) at the Innocence Project; a grant administrator (\$2,921) and financial officer (\$2,197) at the New Orleans Police and Justice Foundation; overtime expenses for the New Orleans Police Department (\$52,500), and workers compensation insurance for the project director and administrator (\$413). The main travel involved in the project will be to interview prisoners and to retrieve old case documents from the State Archives at the LSU Law Center. The project director and 2 contract staff will attend the International Association of Property & Evidence training seminar in Birmingham, Alabama.

II. IMPACT ON FUTURE FISCAL YEARS

February 12, 2010

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

The project will cost \$1,375,196 over 18 months. This BA-7 provides funding for the amount to be expended in the current fiscal year. The balance of the funding will be requested in FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in an amended amount of \$474,150 federal funds.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Transportation & Development

AGENDA NO.: 3

AGENCY: Public Works & Intermodal Transportation

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Water Resources	\$178,058	0
Interagency Transfers:	\$0	Aviation	\$0	0
Self-Generated Revenue:	\$0	Public Transportation	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$178,058			
Total	<u>\$178,058</u>	Total	<u>\$178,058</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal grant funds from the U.S. Department of Homeland Security, specifically FEMA, and the U.S. Department of the Interior, specifically the U.S. Geological Survey, from the following federal programs: \$88,058 - Dam Safety Assistance Grant, \$90,000 - U.S. Geological Survey Grant. These monies will be appropriated within DOTD's Public Works & Intermodal Transportation agency. No state match is required for both of these grants.

The U.S. Department of Homeland Security's Dam Safety Assistance Grant provides funding for state governments for development and safety programs. The department anticipates utilizing the \$88,058 federal grant funding to continue inspections of the state's dams and assure compliance with federal rules and regulations. The anticipated expenditures include: \$5,000 for inspector travel expenses as well as out-of-state dam safety training travel expenditures, \$2,000 for miscellaneous/office supplies, and \$81,058 for professional services contractors that will: 1.) attempt to identify all public facilities within dam break inundation zones; 2.) conduct dam safety training seminars for inspectors; and 3.) various public outreach activities. The LA Dam Safety Program within DOTD (Title 38) is responsible for regulating and inspecting approximately 370 dams in LA.

The U.S. Department of the Interior's U.S. Geological Survey (USGS) Grant provides funding for program efforts in the classification of the public lands and examination of the geological structure, water, mineral and biological resources. The department anticipates utilizing the \$90,000 in federal grant funds to develop procedures for updating the National Hydrography Dataset within complex coastal wetlands. The hydrography dataset is mapping information of all water ways in the state (streams, lakes, bays, etc.). According to the department, USGS requires the states to update the national dataset associated with their state areas. These federal funds will be utilized through a professional services contract (mapping contractor) who will gather the necessary information in order to update current information included within the hydrography dataset. The information contained within the dataset is utilized to produce maps. Based upon information provided by DOTD, Louisiana's maps are out-of-date as follows: 1.) 100% of paper maps are 5 years or older; 2.) 83% of paper maps are 10 years or older; 3.) 69% of paper maps are 15 years or older; 4.) 42% of paper maps are 20 years or older; and 5.) 26% of paper maps are 25 years or older.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. However, to the extent these federal funds are not completely expended in FY 10, a carry forward BA-7 will likely be requested for FY 11 appropriation.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request, which is a companion to BA-7s #4B and #4C on the agenda, is to budget federal grant funds awarded from the Federal Motor Carrier Safety Administration (FMCSA) within DOTD's Management & Finance Program for expenditures associated with the Commercial Vehicle Information Systems & Networks (CVISN). These grant funds were originally awarded beginning in FY 06 and have continued to be awarded annually through FY 09 in the total amount of \$3.5 M to DOTD (FY 06 award - \$750,000, FY 07 - \$55,250, FY 08 - \$852,940, FY 09 - \$1,841,810). Due to technological difficulties associated with implementation, only \$700,000 of the \$3.5M has been previously appropriated and expended (FY 09 - JLCB approved BA-7, 4/17/09). This BA-7 request seeks to appropriate the remaining grant awards. There is an in-kind state match required for these funds that has been fulfilled with the current operating expenditures of DOTD and project partners (State Police, Motor Vehicles and the Department of Revenue).

The grant award is titled the Commercial Vehicle Information Systems & Networks (CVISN) and is designed to develop and deploy information systems that will support new capabilities in three areas: Safety Information Sharing, Credentials Administration, and Electronic Screening. According to the Federal Motor Carrier Safety Administration, the stated goals of CVISN are to: 1.) give roadside officers the information they need; 2.) screen entities on the road electronically so that safe and legal drivers/carriers have expedited trips; 3.) streamline the credentialing process; and 4.) share data across the nation for safety checks, credentials checks, and state-to-state fee processing. Also, CVISN is a collection of various information systems and communication networks that support commercial vehicle operations. According to DOTD, this requested funding represents the entirety of LA's eligible grant awards under this federal grant program, which was initially authorized under the federal SAFETEA-LU.

This BA-7 request will appropriate these funds in the following expenditure categories: \$147,923 - acquisitions/equipment, \$1,524,137 - other charges, \$1,127,940 - interagency transfer.

\$147,923 acquisitions/equipment expenditures:

1.) \$47,923 - Commercial Vehicle Information Exchange Window (CVIEW) server replacement and web server, sequel server license upgrade. This server provides data flow from the Office of Motor Vehicles, State Police and the Department of Revenue. The CVIEW is the central core of information in this system.

2.) \$100,000 - purchase of 6 servers associated with CVIEW enhancements. These servers will be utilized to support the roadside electronic screening process at the fixed weight scales and the enforcement duties of State Police. These specific servers will be connected to the CVIEW.

\$1,524,137 other charges expenditures:

1.) \$80,000 - phase I communications wide area network (WAN) upgrade which enables network communications across metropolitan or even national areas.

2.) \$54,827 - operations and maintenance expenditures associated with CVIEW server replacement.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

3.) \$27,500 - consultant costs associated with the development of the state's CVISN expanded plan.

4.) \$195,000 - expenditures associated with 5 enhancements to the CVIEW system. Those enhancements include: 1.) \$115,000 - design, develop and implement CVIEW modifications to support manual integrated queries with national databases (allows CVIEW users access to other national databases); 2.) \$45,000 - design, develop and implement CVIEW modifications to support e-screening queries; and 3.) \$35,000 - design, develop and implement web service interfaces to respond to queries from the following LA systems: International Registration Plan (IRP), maintained by the Office of Motor Vehicles, International Fuel Tax Association (IFTA), maintained by the Department of Revenue, and Oversize/Overweight (OS/OW) system, maintained by DOTD.

5.) \$1,000,000 - 1.) \$65,000 - contract services costs to develop functional and technical requirements of the e-screening implementation; 2.) \$850,000 - hardware/software costs to implement, integrate and deploy of a pilot at one fixed site and one mainline site. The hardware to be purchased includes: DOT readers, license plate readers, overview cameras, device-to-device communications; and 3.) \$85,000 - contract services costs for pilot project evaluation and recommendation of additional implementation sites subsequent to the pilot project.

6.) \$166,810 - specific enhancement costs to the DOTD's Permitting, Electronic Routing and Bridge Analysis (PERBA) System, which is the department's weights and standards permit system. These enhancements will allow for integrated data into the CVIEW system.

\$1,127,940 interagency transfer expenditures:

1.) \$650,000 - Office of Motor Vehicles enhancements to the International Registration Plan (IRP) System. The specific plan for this funding is as follows: \$500,000 - the development of a web-based computer application for motor carrier truck registrations, \$150,000 - the development of a web-based system that allows carriers to apply and pay registration trip permits electronically (*companion BA-7 #4C*). IRP provides for payment of licensing fees based on fleet miles operated and vehicle information.

2.) \$227,940 - State Police for expenditures related to the roadside connectivity project implementation, which gives motor carrier officers the ability to electronically record and transfer to central sources traffic citation, arrests and crash reports. This funding will address configuration issues which allow officers to access data and central systems from the road. State Police currently has enough FY 10 IAT budget authority to accept these federal funds from DOTD. Thus, no companion BA-7 is needed.

3.) \$250,000 - Department of Revenue costs related to the International Fuel Tax Administration (IFTA) agreement for license application and renewals (*companion BA-7 #4B*). These funds provide for the electronic submission of International Fuel Tax Agreement (IFTA) credentials along with e-filing and payment of IFTA tax reports, both of which are core components of the CVISN project. IFTA is a cooperative effort between the 48 contiguous states and the 12 provinces of Canada to administer and collect local motor fuel taxes based on rates and use within each taxing jurisdiction.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. However, to the extent the department and partner agencies (DPS, Revenue) do not fully expend these federal funds completely in FY 10, a carry forward BA-7 or inclusion in the FY 11 appropriations measure, will likely be needed for expenditure in FY 11. To the extent additional federal CVISN funds are not made available in future fiscal years, DOTD will be responsible for the following ongoing maintenance costs: 1.) approximately \$30,000 for annual maintenance costs associated with CVIEW; and 2.) approximately \$50,000 for annual maintenance costs associated with the e-screening functions.

In addition, the funds allocated to Motor Vehicles, State Police and the Department of Revenue are for expenditures that were determined to be necessary by the agencies anyway. These federal grant funds merely provide the agencies another revenue source to fund such needed expenditures. For example, Motor Vehicles is in the process of out-sourcing its IRP responsibilities with Affiliated Computer Services (ACS) at a cost of approximately \$1M per year for 5 years (\$5M over the life of the contract). Motor Vehicle CVISN funds of \$650,000 will allow the agency to reduce state funds used for this contract to \$4.35M as opposed to \$5M.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the reduced amount of \$2.6M, due to the Department of Revenue indicating that only \$50,000 of its \$250,000 allocated from these federal grant funds will be expended in FY 10. Due to the reduced recommendation, the Legislative Fiscal Office also recommends that \$200,000 of additional

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

federal authority be included in FY 11 for DOTD to receive this federal funding and that an additional \$200,000 of IAT authority be included in FY 11 for the Department of Revenue to allow for the transfer of these funds to this agency.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request, which is a companion to BA-7s #4B and #4C on the agenda, is to budget federal grant funds awarded from the Federal Motor Carrier Safety Administration (FMCSA) within DOTD's Management & Finance Program for expenditures associated with the Commercial Vehicle Information Systems & Networks (CVISN). These grant funds were originally awarded beginning in FY 06 and have continued to be awarded annually through FY 09 in the total amount of \$3.5M to DOTD (FY 06 award - \$750,000, FY 07 - \$55,250, FY 08 - \$852,940, FY 09 - \$1,841,810). Due to technological difficulties associated with implementation, only \$700,000 of the \$3.5M has been previously appropriated and expended (FY 09 - JLCB approved BA-7, 4/17/09). This BA-7 request seeks to appropriate the remaining grant awards. There is an in-kind state match required for these funds that has been fulfilled with the current operating expenditures of DOTD and project partners (State Police, Motor Vehicles and the Department of Revenue).

The grant award is titled the Commercial Vehicle Information Systems & Networks (CVISN) and is designed to develop and deploy information systems that will support new capabilities in three areas: Safety Information Sharing, Credentials Administration, and Electronic Screening. According to the Federal Motor Carrier Safety Administration, the stated goals of CVISN are to: 1.) give roadside officers the information they need; 2.) screen entities on the road electronically so that safe and legal drivers/carriers have expedited trips; 3.) streamline the credentialing process; and 4.) share data across the nation for safety checks, credentials checks, and state-to-state fee processing. Also, CVISN is a collection of various information systems and communication networks that support commercial vehicle operations. According to DOTD, this requested funding represents the entirety of LA's eligible grant awards under this federal grant program, which was initially authorized under the federal SAFETEA-LU.

This BA-7 request will appropriate these funds in the following expenditure categories: \$147,923 - acquisitions/equipment, \$1,524,137 - other charges, \$1,127,940 - interagency transfer.

\$147,923 acquisitions/equipment expenditures:

1.) \$47,923 - Commercial Vehicle Information Exchange Window (CVIEW) server replacement and web server, sequel server license upgrade. This server provides data flow from the Office of Motor Vehicles, State Police and the Department of Revenue. The CVIEW is the central core of information in this system.

2.) \$100,000 - purchase of 6 servers associated with CVIEW enhancements. These servers will be utilized to support the roadside electronic screening process at the fixed weight scales and the enforcement duties of State Police. These specific servers will be connected to the CVIEW.

\$1,524,137 other charges expenditures:

1.) \$80,000 - phase I communications wide area network (WAN) upgrade which enables network communications across metropolitan or even national areas.

2.) \$54,827 - operations and maintenance expenditures associated with CVIEW server replacement.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Amended: Approved by JLCB

3.) \$27,500 - consultant costs associated with the development of the state's CVISN expanded plan.

4.) \$195,000 - expenditures associated with 5 enhancements to the CVIEW system. Those enhancements include: 1.) \$115,000 - design, develop and implement CVIEW modifications to support manual integrated queries with national databases (allows CVIEW users access to other national databases); 2.) \$45,000 - design, develop and implement CVIEW modifications to support e-screening queries; and 3.) \$35,000 - design, develop and implement web service interfaces to respond to queries from the following LA systems: International Registration Plan (IRP), maintained by the Office of Motor Vehicles, International Fuel Tax Association (IFTA), maintained by the Department of Revenue, and Oversize/Overweight (OS/OW) system, maintained by DOTD.

5.) \$1,000,000 - 1.) \$65,000 - contract services costs to develop functional and technical requirements of the e-screening implementation; 2.) \$850,000 - hardware/software costs to implement, integrate and deploy of a pilot at one fixed site and one mainline site. The hardware to be purchased includes: DOT readers, license plate readers, overview cameras, device-to-device communications; and 3.) \$85,000 - contract services costs for pilot project evaluation and recommendation of additional implementation sites subsequent to the pilot project.

6.) \$166,810 - specific enhancement costs to the DOTD's Permitting, Electronic Routing and Bridge Analysis (PERBA) System, which is the department's weights and standards permit system. These enhancements will allow for integrated data into the CVIEW system.

\$1,127,940 interagency transfer expenditures:

1.) \$650,000 - Office of Motor Vehicles enhancements to the International Registration Plan (IRP) System. The specific plan for this funding is as follows: \$500,000 - the development of a web-based computer application for motor carrier truck registrations, \$150,000 - the development of a web-based system that allows carriers to apply and pay registration trip permits electronically (*companion BA-7 #4C*). IRP provides for payment of licensing fees based on fleet miles operated and vehicle information.

2.) \$227,940 - State Police for expenditures related to the roadside connectivity project implementation, which gives motor carrier officers the ability to electronically record and transfer to central sources traffic citation, arrests and crash reports. This funding will address configuration issues which allow officers to access data and central systems from the road. State Police currently has enough FY 10 IAT budget authority to accept these federal funds from DOTD. Thus, no companion BA-7 is needed.

3.) \$50,000 - Department of Revenue costs related to the International Fuel Tax Administration (IFTA) agreement for license application and renewals (*companion BA-7 #4B*). These funds provide for the electronic submission of International Fuel Tax Agreement (IFTA) credentials along with e-filing and payment of IFTA tax reports, both of which are core components of the CVISN project. IFTA is a cooperative effort between the 48 contiguous states and the 12 provinces of Canada to administer and collect local motor fuel taxes based on rates and use within each taxing jurisdiction. The total allocation for the Department of Revenue is \$250,000 of which only \$50,000 is being appropriated via this BA-7 request.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. However, to the extent the department and partner agencies (DPS, Revenue) do not fully expend these federal funds completely in FY 10, a carry forward BA-7 or inclusion in the FY 11 appropriations measure, will likely be needed for expenditure in FY 11. To the extent additional federal CVISN funds are not made available in future fiscal years, DOTD will be responsible for the following ongoing maintenance costs: 1.) approximately \$30,000 for annual maintenance costs associated with CVIEW; and 2.) approximately \$50,000 for annual maintenance costs associated with the e-screening functions.

In addition, the funds allocated to Motor Vehicles, State Police and the Department of Revenue are for expenditures that were determined to be necessary by the agencies anyway. These federal grant funds merely provide the agencies another revenue source to fund such needed expenditures. For example, Motor Vehicles is in the process of out-sourcing its IRP responsibilities with Affiliated Computer Services (ACS) at a cost of approximately \$1M per year for 5 years (\$5M over the life of the contract). Motor Vehicle CVISN funds of \$650,000 will allow the agency to reduce state funds used for this contract to \$4.35M as opposed to \$5M.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request. The Legislative Fiscal Office also recommends that \$200,000 of additional federal authority be included in FY 11 for DOTD to receive this federal funding and that an additional

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Amended: Approved by JLCB**

\$200,000 of IAT authority be included in FY 11 for the Department of Revenue to allow for the transfer of these funds to this agency.

Self-Generated Revenue:	\$0	Charitable Gaming	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$50,000</u>	Total	<u>\$50,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to agenda items 4A and 4C. The purpose of this BA-7 request is to accommodate an Interagency Transfer from the LA Department of Transportation & Development originating from the Federal Motor Carrier Safety Administration under the auspices of the Safe, Accountable, Flexible, Efficient Transportation Equity Act (SAFETEA-LU). The original award is a federal grant which is available for development/enhancement of Commercial Vehicle Information Systems and Networks (CVISN) on a reimbursable basis with a 50% state match (with existing budget to be used as in-kind match).

With this BA-7 request, \$50,000 of the \$250,000 grant award will be transferred to the Department of Revenue (LDR) to help implement the electronic submission of International Fuel Tax Agreement (IFTA) credentials along with e-filing and payment of IFTA tax reports, both of which are core components of the CVISN project. LDR currently budgets self-generated revenue from delinquent tax penalty revenue to address the upgrades to the IFTA procedures, and these dollars will serve as the state match for this federal grant.

IFTA is a cooperative effort between the 48 contiguous states and the 12 provinces of Canada to administer and collect local motor fuel taxes based on rates and use within each taxing jurisdiction.

II. IMPACT ON FUTURE FISCAL YEARS

The Department of Revenue has been allocated \$250,000 under this grant, though this BA-7 request is only for \$50,000. As eligible projects are approved, an increase in budget authority in FY 11 will be necessary to provide for the remaining \$200,000.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 4c

AGENCY: Motor Vehicles

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Licensing	\$650,000	0
Interagency Transfers:	\$650,000			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$650,000</u>	Total	<u>\$650,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of Motor Vehicles is requesting approval to add \$650,000 IAT to its budget. The IAT revenue derives from federal funds received by the state Department of Transportation & Development. The funding will be utilized to provide for computer functions (i.e. programming, develop web-base system, etc.) needed to comply with federal requirements for the registration of commercial vehicles via the Commercial Vehicle Information Systems & Network (CVISN).

Out of the total funding requested, \$500,000 is for the development of a web-based computer application for motor carrier truck registration, and \$150,000 is for the development of a web-based system that allows carriers to apply and pay registration trip permits electronically. The CVISN Program is a key component of the Federal Motor Carrier Safety Administration's (FMCSA) drive to improve commercial motor vehicle safety. The CVISN Program supports FMCSA's goals by focusing safety enforcement on high-risk operators; integrating systems to improve the accuracy, integrity, and verifiability of credentials; improving efficiency through electronic screening of commercial vehicles; and enabling online application and issuance of credentials. CVISN is also a component of the state International Registration Plan (IRP), a cooperative agreement among 48 states, 10 Canadian provinces and the District of Columbia which allows a motor carrier to register a commercial vehicle for travel in all participating jurisdictions by filing paperwork with the home (base) jurisdiction. IRP provides for payment of licensing fees based on fleet miles operated and vehicle information. The unique feature of IRP is that although license fees are paid to the base jurisdiction and distributed to various jurisdictions in which fleet vehicles are operated, only one (1) license plate and one (1) cab card is issued for each fleet vehicle.

The Office of Motor Vehicle is in the process of out-sourcing its IRP process and has selected Affiliated Computer Services (ACS) as the vendor. ACS will also be responsible for performing the computer functions required for the CVISN Program. The system developed by ACS is expected to be operational by September 2010.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Natural Resources

AGENDA NO.: 1

AGENCY: Coastal Restoration

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Coastal Restoration & Management	\$103,090,597	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$103,090,597			
Total	<u>\$103,090,597</u>	Total	<u>\$103,090,597</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority in the amount of \$103,090,597 for the Office of Coastal Protection & Restoration (OCPR) in order to receive monies from various federal agencies, including the U.S. Department of Commerce, U.S. Department of the Interior, U.S. Environmental Protection Agency and the Natural Resources Conservation Service. Additional budget authority is necessary in order to receive reimbursements from several federal agencies. Also, an increase is needed for the remaining months of this fiscal year to continue paying the state's obligations on ongoing signed contracts for construction projects and purchase orders for delivery of services related to current coastal activities.

As of 07/01/09, there were 14 projects that were in the construction phase, including Coastal Wetlands Planning and Restoration (CWPPRA) and Coastal Impact Assistance Program (CIAP) projects. CWPPRA projects require a 15% state match, while CIAP projects do not require a state match. Estimated construction expenditures for these projects was \$142,434,046. The federal share for these projects was \$126,526,481 and the state's share was \$15,907,565.

OCPR utilizes the Coastal Protection & Restoration Fund to pay contracts and purchase orders. This statutorily dedicated fund has a recurring source of funding from mineral revenue (\$60M in FY 09 and \$120M projected in FY 10) and is also used to pay the state's match for CWPPRA projects. Cost share and cooperative agreements with the federal agencies allow OCPR to be reimbursed for their share of project expenditures.

FY 10 federal budget authority for OCPR was \$23,435,884. OCPR was appropriated budget authority only to the extent that cash payments would be made for coastal projects for FY 10. Therefore, this request is for \$103,090,597 (\$126,526,481-\$23,435,884). Of this amount, approximately \$30M is needed for reimbursements from federal agencies and \$73M is needed for the remaining months of this fiscal year in order to pay the state's obligations on projects currently under construction.

This funding will be budgeted in other charges and expenses include all materials, labor, supplies, tools, and equipment necessary to complete construction projects. See attached spreadsheet for further information.

II. IMPACT ON FUTURE FISCAL YEARS

These funds will annualized for the same amount in subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$407,640			
Total	<u>\$407,640</u>	Total	<u>\$407,640</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal budget authority in the amount of \$407,640 in order to accept federal stimulus funds from the American Recovery & Reinvestment Act Port Security Grant Program. Funding is from 5 grants from the U.S. Department of Homeland Security/FEMA and will be utilized to purchase equipment that will enhance the nation's port and maritime infrastructure to prevent, protect, respond to, and recover from threats or acts of terrorism. Each of the 5 grants is for a specific port (Alexandria, Columbia, Greater Ouachita/Monroe, Iberia, Shreveport).

This funding will be budgeted in supplies (\$4,400) and acquisitions (\$403,240) and specifically will be utilized to purchase the following:

20 thermal imaging handhelds (FLIR) at \$10,000 each
20 weather proof cases for handhelds at \$220 each
5 SONARs (side scan sonar) at \$40,000 each
1 "ruggedized" laptop at \$3,240

"Ruggedized" laptops are designed to protect against various hazards, such as extreme temperatures, and resistance from water, shock and vibration. The cost of a "ruggedized" laptop exceeds the Office of Information Technology's maximum amount of \$1,500 for a normal laptop; however, it is a state contract purchase.

No state match is required in order to receive these grants.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The budget period for these grants is from 09/01/09 to 08/31/12 but all monies are expected to be expended in FY 10.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

		Program 500	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is twofold. First, this BA-7 requests to appropriate \$29M in statutory dedicated funds within the Overcollections Fund to the Medicaid Program. The original source of funds are SGF made available from the use of federal stimulus funding from the American Recovery & Reinvestment Act and subsequently appropriated to the Overcollections Fund. Additionally, the BA-7 requests to reduce other statutory dedicated funds currently appropriated in FY 10 by a like amount. The original source of these funds are provider fees appropriated in the Medical Assistance Trust Fund.

HB 802 (Act 226) of 2009 deposited \$29M in SGF made available through the stimulus bill into the Overcollections Fund (as a result of conference committee amendment No. 16). This was accomplished through a series of bills as reflected below:

HB 881 (Act 122) - (FY 09 Supplemental bill) - reduced SGF authority by \$344.5M and increased federal authority by \$344.5M. This means of finance swap appropriated federal stimulus funds that were earned in FY 09 but were not appropriated, and reduced SGF that were appropriated in Medicaid in FY 09 by a like amount.

HB 802 (Act 226) - (FY 09 funds bill) - this bill moved \$315.5M in SGF into the Medical Assistance Trust Fund (MATF), and moved \$29M in SGF into the Overcollections Fund (\$315.5M + 29M = \$344.5M)

However, according to the Legislative Auditor's Office, the deposit of these funds may be considered as being out of compliance with stimulus regulations requiring Medicaid stimulus funding to be restricted to allowable Medicaid expenditures. Due to a Legislative Auditor's recommendation, the Department of Health and Hospitals is requesting that these funds be transferred from the Overcollections Fund and appropriated as a statutory dedicated fund in the Medical Vendor Payments Program in FY 10. Additionally, the BA-7 is requesting to reduce FY 10 statutory dedication expenditure authority by a like amount in the MATF to not allow for a bottom line increase in the Medicaid program in FY 10.

For FY 10, the Overcollections Fund appropriated budget totals \$122.9M, with \$167.9M in total available revenues, resulting in a FY 10 fund balance of approximately \$45M. According to the Division of Administration, the \$29M represents a portion of that unappropriated fund balance.

II. IMPACT ON FUTURE FISCAL YEARS

If approved, the reduction in the Medical Assistance Trust Fund budget authority in the current year (FY 10) will result in an increase in the MATF unappropriated fund balance. As of December, the LFO calculates the MATF unappropriated fund balance at approximately \$298.6M (which excludes approval of this BA-7). The LFO assumes the entire amount of the fund balance related to stimulus funds will be appropriated in FY 11 for use before the stimulus eligibility period expires.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Based on the Legislative Auditor's recommendation in consult with the Centers for Medicare and Medicaid Services (CMS), the Legislative Fiscal Office recommends approval of this BA-7 request.

January 15, 2010

Federal Funds:	\$40,000	State Veteran Cemetery	\$40,000	0
Total	<u>\$40,000</u>	Total	<u>\$40,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal funds received through a burial plot allowance for the Northwestern State Veterans' Cemetery. A total of \$47,100 will eventually be received by Veterans Affairs from the U.S. Department of Veterans Affairs' Burial & Plot-Internment Allowances Program for a \$300 burial plot allowance for each of the 157 veterans interred at the cemetery in FY 09.

The Department of Veterans' Affairs has completed the appropriate paperwork and has received \$40,000 of these funds for burials. The allowances are paid by the U.S. Department of Veterans Affairs once a month. However, there is a backlog of payments due from the U.S. Department of Veterans Affairs. The additional \$7,100 is pending approval by the U.S. Department of Veterans Affairs for burials for which plot allocation has not been received and will be budgeted at such time as these funds are received. These funds can be used at the discretion of the veterans' cemetery.

The funds will be used to expand a concrete foundation for a carillon system (a set of bells sounded by hammers) that is being donated by the Veterans of Foreign Wars (VFW) and American Veterans (AmVets). The base was built at the same time as the cemetery but it is not big enough to support the carillon and does not have anchor bolts to secure the carillon. The initial estimates indicate the cost will be \$40,000. The concrete base must be in place so the carillon system can be properly installed. According to Veterans Affairs, the carillon is expected to be delivered in December 2009 and will need to be installed immediately. The installation cost will be covered under the current cemetery operating budget. There will be no additional costs to maintaining the carillon and any maintenance to the carillon system will be covered under the current maintenance budget.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$150,000</u>	Total	<u>\$150,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to receive funds from the Department of Environmental Quality (DEQ). The original source of funding is from the United States Environmental Protection Agency and will be utilized for the purposes of Senate Concurrent Resolution 60 of the 2009 Regular Legislative Session. SCR 60 requested the Coastal Protection & Restoration Authority to conduct a science-based study of the adequacy of the inland boundary of the coastal zone of LA. The study must be submitted to the legislature on or before 3/1/10.

Funding for this study is part of a larger allocation that DEQ receives from the EPA for projects that will lessen nonpoint source pollution in state waters. The EPA and DEQ recognize that there will be benefits to coastal water quality if the coastal zone boundary is defined in the most scientific way.

The total cost of the study is \$442,000, which will be done by Shaw Coastal. Other funds already budgeted for the project are federal funds from the National Oceanic & Atmospheric Administration (\$192,000) and statutorily dedicated funds from the Coastal Protection & Restoration Fund (\$100,000). The receipt and use of these funds requested in this BA-7 should allow the agency to complete this study which was initiated and funded up to this point with the NOAA and Coastal Protection funds.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

		Forestry	\$0	(9)
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is an adjustment that aligns the authorized TO as of 9/18/09, which is the existing operating budget date utilized by the Division of Administration (DOA) for FY 11 budget development purposes. This BA-7 will not result in any overall TO position increases within the department.

During the FY 10 Executive Budget development process, the DOA reduced the TO positions within the department from 785 to 710, a reduction of 75 positions. According to the department, at the time, this eliminated all vacant positions. However, the programmatic reductions of those 75 TO reductions by program do not currently reflect the commissioner of agriculture and forestry's FY 10 programatic departmental plan. Thus, this BA-7 adjusts the programmatic TO allocations and properly reflects the current FY 10 programatic TO alignment within the department.

Position funding is not being transferred between programs because the department spread its initial budget based upon the commissioner's plan for the department expenditures, which will be realized upon approval of this BA-7, and not what was initially appropriated in HB 1 and HB 881 of the 2009 Regular Legislative Session.

<u>TO Positions</u>	<u>FY 10 Appropriated</u>	<u>BA-7 Request</u>	<u>FY 10 Adjusted</u>
Management & Finance	88	20	108
Marketing	32	3	35
Agriculture & Environmental Sciences	89	7	96
Animal Health Services	119	(21)	98
Agro-Consumer Services	81	0	81
Forestry	265	(9)	256
Soil & Water	9	0	9
<u>Auxiliary</u>	<u>27</u>	<u>0</u>	<u>27</u>
TOTAL	710	0	710

NOTE: The FY 10 Adjusted column above represents the number of positions being charged to that specific program for FY 10 as of 9/18/09.

II. IMPACT ON FUTURE FISCAL YEARS

This realignment will modify the TO position allocation among the various programs of the department, which will also be reflected within the FY 11 Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 4

AGENCY: Agriculture & Forestry

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$0	0
Interagency Transfers:	\$0	Marketing	\$0	0
Self-Generated Revenue:	\$0	Agricultural & Environmental Sciences	\$0	0
Statutory Dedications:	\$0	Animal Health Services	\$573,636	0
Federal Funds:	\$573,636	Agro-Consumer Services	\$0	0
		Forestry	\$0	0
Total	<u>\$573,636</u>	Total	<u>\$573,636</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal funding in the Department of Agriculture & Forestry in the amount of \$573,636 from the U.S. Department of Agriculture's (USDA) Federal Emergency Food Assistance Program (TEFAP). These funds are for administrative costs that will pass-through the department to 5 designated food banks. No state match is required for these federal funds. The specific food banks to receive these administrative funds are: The Food Bank of Central LA, Greater Baton Rouge Food Bank, Northwest LA Food Bank, Second Harvest Food Bank and the Food Bank of Northeast LA.

These funds are from the federal stimulus dollars (ARRA funds) and outstanding allocations from prior and current federal fiscal years awarded to the department (FFY 09 & FFY 10). According to the department, there is approximately \$1.1M federal budget authority for these administrative funds within its FY 10 budget and an additional \$573,636 of federal authority is needed for anticipated FY 10 expenditures. Upon approval of this BA-7, there will be approximately \$1.7M in administrative funds appropriated within the department from this federal program (see table below).

<u>Federal FY</u>	<u>Original Allocation</u>	<u>FY 10 Proj. Expenditures</u>
FFY 09 TEFAP ARRA	\$391,142	\$16,862 (represents the remaining balance of this grant)
FFY 09 TEFAP	\$1,170,590	\$804,855 (represents the remaining balance of this grant)
FFY 10 TEFAP ARRA	\$369,803	\$369,803
FFY 10 TEFAP	<u>\$732,210</u>	<u>\$483,258</u> (the remaining balance will be drawn down in FY 11)
TOTAL	\$2,663,745	\$1,674,778
FY 10 Federal expenditure Authority needed		\$1,674,778
<u>FY 10 Federal existing operating budget (EOB)</u>		<u>\$1,101,142</u>
Federal budget authority requested (BA-7 request)		\$573,636

According to the USDA, the TEFAP makes commodity foods available to state distributing agencies. The state allocation is based upon the number of unemployed persons and the number of people with incomes below the poverty level in the state. Each state provides the food to local agencies (food banks), who distribute the food to local organizations that directly serve the public. In addition, under TEFAP states receive administrative funds (subject of this BA-7 request) to support the storage and distribution of the donated commodities, which are passed down to the local agencies (food banks).

The types of food purchased by USDA for this program include: canned fruits, canned vegetables, fruit juice, dried egg mix, meat/poultry/fish, dried beans, pasta products, peanut butter, rice/grits/cereal, and soups.

II. IMPACT ON FUTURE FISCAL YEARS

To the extent the departmental FY 10 anticipated expenditures are correct for the FY 10 TEFAP grants, the department will likely need additional federal budget authority in the amount of approximately \$250,000 appropriated in FY 11 to expend the remaining grant funds.

Total	<u>\$360,000</u>	Total	<u>\$360,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget additional IAT budget authority in the amount of \$360,000 for 2 separate grants funded by the State Homeland Security Program (a program under the U.S. Department of Homeland Security) from FFY 07 and FFY 08. The original source of this funding is federal funds from the U.S. Department of Homeland Security via the Governor's Office of Homeland Security & Emergency Preparedness (GOSHEP). According to the U.S. Department of Homeland Security, the State Homeland Security Program (SHSP) enhances capabilities through planning, equipment, training and exercise activities. The program provides funds to states in order to build capabilities at the state and local levels to implement the goals and objectives included within the state's homeland security strategies. According to GOSHEP, the state was awarded \$9.5M in FY 07 from the SHSP, of which \$160,000 has been allocated for the Department of Agriculture & Forestry. The state was awarded \$16.1M in FY 08 from the SHSP, of which \$200,000 has been allocated for the department. The IAT agreements between the department and GOSHEP were signed on 10/29/09 for these grant funds.

According to the state's latest disaster plan, the Department of Agriculture & Forestry has responsibilities in emergency support function 11, which is Agriculture. Under ESF 11 the department is responsible for food safety, animal health, animal evacuation and sheltering, animal disease detection and control, food supply, pet transportation contract support and emergency fuel supply. These grant funds provide funding resources to assist the department in accomplishing its responsibilities under ESF 11. The department also has duties under other various ESFs.

The department is requesting to expend the grant funds on acquisitions, training, planning, management and administrative and exercise costs. Those specific costs by grant are as follows:

FFY 07 - \$160,000

\$11,218 - Training costs associated with departmental personnel attending training conferences.

\$5,076 - Planning costs associated with planning workshop being conducted at the GOSHEP.

\$2,615 - office supplies.

\$141,091 - Acquisitions purchases including: medical supplies, information technology equipment (laptops, printers), power equipment, detection equipment (for detection of contaminants in food products), office equipment.

FFY 08 - \$200,000

\$15,000 - Exercise costs associated with Agricultural Response Team Tabletop exercises.

\$111,000 - Planning costs associated with conducting regional agricultural assessments and planning for incident management team training.

\$3,852 - office supplies.

\$70,148 - Acquisitions purchases including: medical supplies, information technology equipment, power equipment, detection equipment, office equipment.

NOTE: According to GOSHEP, there is typically a one and half to two year lag time before these state grants are awarded to state agencies.

I. SUMMARY/COMMENTS

State Police is requesting approval to add \$120,000 of federal funds from the U.S. Immigration & Customs Enforcement Agency to its budget. The funding will be utilized to provide for overtime expenses for commissioned personnel in the Kenner Criminal Intelligence Unit field office to assist the federal immigration agency with criminal investigations as part of "Operation Slot". The maximum reimbursement for overtime worked on behalf of "Operation Slot" is set at \$15,000 per officer for each fiscal year. The funding comes from a federal grant with a projected operational date through 9/30/11.

II. IMPACT ON FUTURE FISCAL YEARS

The agency has until 9/30/11 (FY12) to expend the funding in this grant.

Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>(\$404,615)</u>	Total	<u>(\$404,615)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 request #7B.

State Police is requesting approval to realign its budget authority for retirement payments for commissioned personnel from the Operational Support Program into other programs in the Office of State Police and the Donald J. Thibodaux Training Academy. To accomplish this realignment \$404,615 in SGR will be reduced from State Police's budget and added to the Training Academy's budget to provide for retirement payments to the State Police Retirement System for commissioned personnel. This BA-7 request provides for no overall increase or decrease in funding. It only requests approval to realign the existing budget to the appropriate entity.

Historically, State Police has typically made 2 or 3 payments yearly to the State Police Retirement System as revenue became available. In FY 09, \$14.8M was paid to the system from various sources (\$340,293 SGF; \$934,637 SGR; \$9,234 IAT; \$3,553,026 statutory dedication from the Tobacco Tax Fund; \$2,008,153 statutory dedication from the State Police Salary Fund; and \$8,000,341 statutory dedication from the Riverboat Fund). Submitting 2 or 3 large payments each year created cash flow problems for the State Police Retirement System, causing the system to have to use investment income to pay retirees. Approval of this BA-7 request will enable State Police to make biweekly payments to the State Police Retirement System, thereby improving the cash flow problems the system was experiencing.

Retirement payments for commissioned personnel are currently included in both State Police's budget and the Training Academy's budget. The amount currently budgeted totals \$23,670,507. The Training Academy's existing budget includes only \$9,500 for retirement payments. Approval of this BA-7 request will increase the retirement payments included in the Training Academy's budget to \$414,115 and decrease the amount budgeted in the Office of State Police's budget to \$23,256,392.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$1,109,776			
Total	<u>\$1,109,776</u>	Total	<u>\$1,109,776</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal budget authority by \$1,109,776 in the Personal Health Services Program. The source of federal funds is a grant from the Health Resources Services Administration (HRSA) authorized through the Ryan White Treatment and Modernization Act of 2006 for Part B Services (\$870,036) and a supplemental grant from the Centers for Disease Control and Prevention (CDC) for HIV Prevention & Testing (\$239,740). These are 100% federal funds that do not require a state match.

The Ryan White Part B supplemental funds of **\$870,036** will be used as follows:

Acadiana Cares Inc. Contract (\$783,033)

Of this funding, \$711,848 will be used to increase the amount provided in the contract with Acadiana Cares Inc. for health insurance premiums for individuals enrolled in the Health Insurance Continuation Program (HICP). OPH contracts with Acadiana Cares to process and distribute checks to insurance providers. There are currently 466 individuals enrolled in HICP. OPH projects that this funding will allow the program to serve an additional 170 individuals for one year at a cost of \$4,187.34 per person based on 2008 average premiums. The number of actual people served may be lower if health insurance premiums increase. Persons eligible for this program must be HIV infected with income less than 300% of the federal poverty level (\$66,150 per family of 4 in 2009). In addition, these persons have to meet one of these four criteria: 1) unemployed and able to access insurance through COBRA but do not have the money to pay the premiums; 2) receive Medicare but Medicare Part D (for pharmaceuticals) requires a premium payment; 3) have insurance through an employer or private insurance carrier but unable to afford the premium; and 4) have no insurance. Individuals who fall into category 4 are first referred to the LA Health Plan (State's high risk insurance pool). These individuals are placed on a waiting list and premiums are not paid for these individuals until they are accepted by LA Health Plan. The remaining \$71,185 is allocated to Acadiana Cares administrative costs.

State Allocated Costs (\$87,003)

Of the total grant award, 10% is allocated to state indirect costs which includes salaries and related benefits, supplies, and operating expenses.

The CDC supplemental grant funds of **\$239,740** will be used for HIV testing and supplies. There are currently 95,000 individuals who are tested annually. OPH contracts with LSU to perform the tests in the seven LSU HCSD medical centers emergency rooms. The funding will be allocated as follows:

\$146,300	13,300 Rapid HIV test kits at \$11 each to allow individuals to receive preliminary results within 20 minutes
\$16,200	270 Orasure devices at \$60 each to perform confirmatory tests for persons testing preliminary positive
\$3,375	135 Controls at \$25 each to test the validity of the rapid tests
\$1,558	38 Thermometers at \$41 each
\$7,580	Perinatal Educational Brochures (3,000 Protect Yourself from HIV; 1,100 HIV Women Get It Too; 5,000 Pregnancy and the HIV Test; 2,000 You, Your Baby and HIV; and 1,000 HIV testing and Info Line Posters)
\$4,792	Shipping of testing supplies (13,300 tests @ .34 each and 135 test controls @ \$2 each - test controls must be

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

\$59,935 temperature controlled during shipping).
25% of this total grant is allocated to state indirect costs which includes salaries and related benefits, supplies, and operating expenses.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The project period for the CDC grant funds expires 12/31/09 and the project period for the Ryan White Part B funds expires 9/9/10. OPH does not anticipate receiving additional supplemental funds.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Self-Generated Revenue:	\$0	Environmental Health Services	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$176,386			
Total	<u>\$176,386</u>	Total	<u>\$176,386</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal budget authority by \$176,386 in the Personal Health Services Program. The source of federal funds is a supplemental grant from the Health Resources & Services Administration (HRSA) Maternal & Child Health Bureau. These are 100% federal funds that do not require state match. This additional funding will bring this total grant award to \$326,386.

This funding will be used for the Universal Newborn Hearing Screening & Intervention (UNHSI) Program, which is legislatively mandated in LA to assure early identification and follow-up of infants at risk, hearing impaired infants, and infants at risk of developing a progressive hearing impairment. The funding will be allocated as follows:

LA Electronic Event Registry System Hearing Data Component - \$42,386

Since the inception of UNHSI, Vital Records has collected hearing data from birthing hospitals throughout the state. The hospitals fill out the hearing data which is sent with the Electronic Birth Certificate (EBC). Vital Records is redesigning its EBC to a web-based system called the LA Electronic Event Registry System (LEERS). In order for Vital Records to continue collecting this data, the hearing data component must also be redesigned for the information to be collected through the new web-based system.

Professional Services - \$134,000

The UNHSI Program currently monitors 60 birthing hospitals and 70 physician offices throughout the state through on-site visits and telephone support. The program presently has four contracted staff (one full-time equivalent and three part-time) that are only able to collectively make approximately 12 on-site visits per year because of other duties associated with the UNHSI Program. This funding will allow the agency to contract with an additional provider for two outreach specialists and a part-time parent consultant who will also be used to make on-site visits to hospitals and physician offices, to provide technical assistance, to verify that hearing screening is conducted and reported accurately, and to provide outreach to parents. With this additional contracted staff, OPH anticipates that the number of on-site visits will increase to 30 for birthing hospitals and 10 for physician offices within one year with the goal of reducing the number of screening results that are not being reported.

II. IMPACT ON FUTURE FISCAL YEARS

The agency anticipates receiving additional supplemental grant funds of \$150,000 in FY 11 and FY 12 from the HRSA Maternal & Child Health Bureau.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to collect reimbursement from GOHSEP (federal funds) for approved FEMA Project Worksheets (PW). The approved PWs include #17590, #576, #758, #6430, #4514, #4331, #4302, #4293, #4287, and #4245 and are related to expenses incurred by the Military Department following hurricanes Katrina and Gustav.

PW #4245 (\$2,596)

Includes repairs required on buildings 111, 516, 924 and 5115 at Camp Beauregard as a result of high wind and rain damage from Hurricane Gustav.

PW #4293 (\$5,161)

Includes repairs to perimeter security fence at Camp Beauregard damaged by high winds resulting from Hurricane Gustav. High winds and heavy rain caused trees to fall across this fence located on the north side of Camp Beauregard in the proximity of building #573.

PW #4287 (\$50,076)

Includes repairs to the loading area at the Camp Minden warehouse which was damaged following Hurricane Gustav. During the operation which followed Hurricane Gustav, large trucks and tractor trailers damaged the pavement which was not designed for such loads. Work is in progress but not yet completed.

PW #4302 (\$30,094)

Includes repairs to 50 state-owned mobile homes/trailers at Camp Beauregard damaged by Hurricane Gustav. High winds caused tie-downs to stretch and damage trailer skirting. Contractor removed and replaced damaged trailer skirting, re-leveled the trailers and tightened anchor straps.

PW #4331 (\$3,952)

Includes repairs to chain-link fence and bollard (fire hydrant protection) damaged at Camp Minden as a result of Hurricane Gustav.

PW #4514 (\$24,692)

Includes repairs to highway infrastructure at Camp Minden resulting from extreme heavy truck traffic to the warehouse following Hurricane Gustav.

PW #758 (\$17,994)

Includes expenses related to trailer site prep work at Camp Beauregard to house displaced Jackson Barracks personnel following Hurricane Katrina.

PW #17590 (\$116,126)

Includes expenses related to electrical and water utilities for 50 mobile homes installed in Gillis Long in Carville which housed

December 18, 2009

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

essential military personnel and their families displaced by Hurricane Katrina.

PW #6430 (\$81,075)

Includes expenses incurred to replace contents lost in the Jackson Barracks library (building #53) due to severe flooding resulting from Hurricane Katrina. Contents have been replaced with a similar style, quality and function as those destroyed by flood waters.

PW #576 (\$316,189)

Includes expenses incurred by the State Military Department following Hurricane Gustav. Such expenses include labor, rentals of tents, latrines, fork lifts, purchase of food, and contracted services.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority for the State Military Department (SMD) to receive State Emergency Response Funds (SERF) from the Division of Administration associated with the SMD's emergency response to the North LA flooding during the period 10/28/09 through 11/24/09. A State of Emergency was declared (Executive Proclamation No. 69 BJ 2009) as a result of a severe weather system which passed through the northwest part of the state which resulted in heavy rains and flooding. Parishes included in the emergency declaration included Bossier, Caldwell, Caddo, LaSalle, Morehouse, Catahoula, Red River, East Carroll, Ouachita, Jefferson Davis, Webster, Lincoln, Winn, Madison, and Union.

Expenses incurred by the SMD during this mission include the following:

State Active Duty Payroll -	\$183,222
Meals	\$48,097
Supplies	\$14,166
Fuel	\$2,888
*Misc.	<u>\$1,013</u>
Total	\$249,386

*Includes laundry, generators, etc.)

A total of 288 individuals were paid during the course of this mission.

NOTE: A total of \$875,914 in SERF funds is currently budgeted in the DOA. The balance remaining if this BA-7 is approved is \$626,528.

Federal Funds:	\$391,142	Forestry	\$0	0
Total	<u>\$391,142</u>	Total	<u>\$391,142</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal funding in the Department of Agriculture & Forestry in the amount of \$391,142 from the U.S. Department of Agriculture's (USDA) Federal Emergency Food Assistance Program (TEFAP). These funds are for administrative costs that will pass-through the department to 5 designated food banks. No state match is required for these federal funds. The specific food banks to receive these administrative funds are: The Food Bank of Central LA, Greater Baton Rouge Food Bank, Northwest LA Food Bank, Second Harvest Food Bank and the Food Bank of Northeast LA.

These funds are for Federal FY 09 and must be expended by the end of December 2009. According to the department, there is approximately \$710,000 federal authority for these administrative funds within its FY 10 budget and an additional \$391,142 of federal authority is needed to accept these additional funds. Upon approval of this BA-7, there will be approximately \$1.1M in administrative funds appropriated within the department from this federal program.

According to the USDA, the TEFAP makes commodity foods available to state distributing agencies. The state allocation is based upon the number of unemployed persons and the number of people with incomes below the poverty level in the state. Each state provides the food to local agencies (food banks), who distribute the food to local organizations that directly serve the public. In addition, under TEFAP states receive administrative funds (subject of this BA-7 request) to support the storage and distribution of the donated commodities, which are passed down to the local agencies (food banks).

NOTE: According to the USDA, in FY 09 (Federal Fiscal Year), Congress appropriated \$299.5M for this program with \$250M for food purchases and \$49.5M for administrative support. In addition, the American Recovery & Reinvestment Act of 2009 (ARRA) provided an additional \$125M for the program (\$100M - food purchases and \$25M administrative support).

The types of food purchased by USDA for this program include: canned fruits, canned vegetables, fruit juice, dried egg mix, meat/poultry/fish, dried beans, pasta products, peanut butter, rice/grits/cereal, soups.

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$227,715	3
Interagency Transfers:	\$0	Marketing	(\$416,974)	(7)
Self-Generated Revenue:	\$0	Welcome Centers	\$189,259	4
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to realign SGR budget authority and positions between the Office of Tourism's programs in order to reflect the changes made in accordance to the reorganization plan submitted and approved by the Department of Civil Service, State Civil Service Commission. LA Tourism Promotion District funding is being realigned in order to provide adequate budget authority per program for projected payroll expenditures as result of the reorganization.

The Office of Tourism's reorganization plan eliminates duplication of effort and refocuses the efforts of the staff. It was determined that agency staff was engaged in the same marketing activities of those being contracted out. The agency no longer requires staff to be engaged in marketing and communications. Eleven positions were abolished during the budgeting process, while seven other positions are being moved with this BA-7 request.

Three positions are being moved to the Administrative Program. These positions include one contract/grant reviewer supervisor and 2 reviewers. Job duties for the 2 reviewer positions are not being changed and are currently the only positions with this responsibility. The supervisor position is being added in order to assist in the increase of the number of contracts. The number of contracts for the Office of Tourism has gone from 53 in FY 05 to 196 in FY 09. The reorganization will allow for an improved focus on contracts, partnerships, and sponsorships, ensuring leverage that can improve tourism in LA.

Four positions (3 administrative coordinators and a tourism information counselor) are being moved to the Welcome Centers Program. These positions' job duties are not being changed, but are being placed in the correct program. The administrative coordinators are responsible for the delivery of materials to all the Welcome Centers, in addition to being responsible for the mailing and shipping of requested tourism literature from national and international inquiries. The tourism information counselor is part of the inquiry section of the Welcome Centers Program.

Federal Funds:	\$62,004			
Total	<u>\$62,004</u>	Total	<u>\$62,004</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of State Fire Marshal is requesting approval to add \$62,004 Federal Funds to its budget. The federal funding is from the U.S. Department of Homeland Security, Federal Emergency Management Agency. The funding will be utilized to provide for the purchase of 6 cargo trailers with portable power, lighting, hand tools, and supplies (\$10,334 per trailer) to facilitate regional arson task force operations provided by volunteer fire departments or law enforcement entities. The organization of regional arson task forces is currently being developed by the state fire marshal. The regional task forces are expected to be operational by June 2010. Arson regional task forces will be established in the following 6 parishes: northeast region in Ouachita; northwest region in DeSoto; central region in Rapides; southwest region in Jefferson Davis; south-central region in East Baton Rouge; and the southeast region in Jefferson. The arson regional task forces are designed to enhance regional fire investigation efforts by bringing resources to areas that are largely deficient. The funding in this BA-7 request is one-time, and non-recurring.

Federal Funds:	\$40,884			
Total	<u>\$40,884</u>	Total	<u>\$40,884</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request seeks approval to add \$40,884 in Federal Funds authority to the Instructional Services Program at the LA School for Math, Science & the Arts (LSMSA) to accept and expend a Small Rural School Achievement (SRSA) federal grant from the Rural Education Achievement Program (REAP).

The grant is awarded and administered by the U.S. Department of Education for the purpose of improving rural schools and restricted to activities authorized under federal programs such as IDEA, Teacher and Principal Training and Enhancing Education. The grant will be spent as follows:

Foreign Language laboratory	\$18,500
Professional Development	\$6,000
Professional Services	\$12,000
Materials and Supplies	<u>\$4,384</u>
Total	\$40,884

The professional development component of the grant will provide teachers and faculty with instruction in the areas that the school needs improvement.

Professional services includes funding to contract with adjunct teachers and facilitators for on-campus training.

Materials and supplies include purchasing classroom acquisitions, such as laboratory, textbook, computer and other academic supplies and equipment.

The expenditures are one-time in nature and LSMSA does not anticipate similar needs after the grant expires. The grant is for the 2009-2010 school year and the expenditures are planned for this fiscal year.

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$162,827,398</u>	Total	<u>\$162,827,398</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase the Recovery School District's (RSD) IAT budget authority by \$162,827,398 to receive Community Development Block Grant funds (CDBG) and FEMA funds from Office of Homeland Security & Emergency Preparedness. The funds will be used for ongoing rebuilding efforts for Phase 1 of the School Facilities Master Plan for Orleans. Approximately 90% of the transfer is FEMA funds and 10% is CDBG funds. The expenditures are for professional services (\$32,333,160) and major repairs (\$130,494,238). The professional services expenditures are for architectural services while the major repairs will be used for construction.

Currently, there are 48 buildings that are RSD controlled that are open. Some of them had storm damage and were repaired and returned to service, others had minimum damage and were cleaned and opened. In the spring of 2006 FEMA recognized the RSD as an applicant on the buildings and therefore entitled the RSD to Public Assistance to repair or rebuild facilities damaged by hurricanes Katrina and Rita. In July 2007 the New Orleans City Council formed committees to decide which schools would be included in a Quick Start rebuilding initiative. Five sites were chosen (Langston Hughes, Andrew Wilson, Lake Area High School, L.B. Landry High School, and F.C. Williams Elementary) and construction has begun on four facilities. Beginning in FY 08, the RSD and the Orleans Parish School Board worked with the City of New Orleans' Office of Recovery Management to develop a Master Plan for public schools in Orleans Parish. The Master Plan is a guide for future school renovations and new construction, and is broken into phases. There are 30 projects in Phase 1 including the Quick Start Projects (RSD has 22.5 and Orleans Parish School Board has 7.5 - one project is a 50/50 joint financial venture). Phase 1 is projected to be complete by 2013.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7's #7D and #7I.

The purpose of this BA-7 request is to transfer \$100,000 SGF and 2 vacant funded positions from the Department of Social Services (DSS), Office of Family Support (OFS), Client Services Program to the DSS, Office of the Secretary, Administration & Support Program and to the State Military Department (SMD) respectively.

The DSS, Office of the Secretary has entered into a Cooperative Endeavor Agreement (CEA) with the SMD, effective 12/1/09, to provide technical, planning, and coordination assistance to help DSS with its Emergency Support Function (ESF -6). Executive Order BJ 08-94 designates DSS as the agency responsible for mass care, emergency assistance, housing and human services. Upon approval from the Governor's Office, the SMD began providing assistance to DSS in February 2009, as a part of a task force initiative, to ensure that the state had a viable evacuation and sheltering plan that would augment and support parish disaster plans. DSS has indicated that the expertise of the SMD is needed on a more long-term basis to assist the department in effectively carrying out its emergency support function.

The SMD has requested, as part of the CEA, that DSS reimburse them \$127,895 for personnel costs for five SMD employees that assisted DSS with its emergency support function from 7/1/09 through 11/30/09. This BA-7 request will reimburse SMD \$41,666 (Salaries \$33,333; Related Benefits \$8,333) of that amount. The remaining \$58,334 (Salaries \$46,667; Related Benefits \$11,667) will be used to fund the 2 positions being transferred via this BA-7, which the SMD anticipates hiring by 12/1/09.

SMD will utilize these positions to provide assistance in coordinating staff assignments and other stakeholders for proper response to an event; to provide technical assistance in the development and execution of training exercises for DSS employees; to assist in commodities distribution planning, identifying equipment items for procurement, and other logistics planning; to assist in coordinating and managing mass care, housing, and human services delivery, including the identification and coordination of public facilities to be used as shelters; and to coordinate emergency preparedness efforts with local Offices of Emergency Preparedness and the Governor's Office of Homeland Security & Emergency Preparedness.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years for OFS as this funding will be annualized in the Office of the Secretary.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7's #7A, #7B, #7C, and #7I.

The purpose of this BA-7 is to receive \$250,000 SGF in the Department of Social Services (DSS), Office of the Secretary (OS), Administration & Executive Support Program from the Offices of Family Support (\$100,000), Community Services (\$100,000), and LA Rehabilitation Services (\$50,000), within DSS. As part of a Cooperative Agreement between OS and the State Military Department (SMD) effective 12/1/09, this funding will be used to reimburse the (SMD) for personnel costs (\$104,166) incurred from 7/1/09 through 11/30/09 for 5 employees who assisted DSS with its emergency support function (ESF-6) and to fund the five positions (\$145,834) requested to be transferred to the SMD from the respective DSS agencies via companion BA-7's.

This BA-7 is also requesting to transfer 2 vacant funded positions from the Office of Secretary to the SMD, along with the 5 positions that will be transferred by the other DSS agencies, for a total of 7 positions. This BA-7 only represents a portion of the funding SMD will receive for services. OS will also provide an additional \$192,992 from existing funds allocated in the budget for emergency preparedness activities, for a total of \$442,992 per the CEA. This amount includes \$127,895 for reimbursement costs for services rendered by SMD staff from 7/1/09 through 11/30/09 and \$315,097 for personnel costs for the seven new employees which are anticipated to be hired by 12/1/09. The amounts allocated for these costs are shown below by agency:

<u>Agency</u>	<u>Reimbursement</u>	<u>Salary for (7) New Positions</u>	<u>Total</u>
Office of the Secretary	\$23,729	\$169,263	\$192,992
Office of Family Support	\$41,666	\$58,334	\$100,000
Office of Community Services	\$41,666	\$58,334	\$100,000
LA Rehabilitative Services	<u>\$20,834</u>	<u>\$29,166</u>	<u>\$50,000</u>
TOTALS	\$127,895	\$315,097	\$442,992

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 amount is anticipated to be annualized in future fiscal years as follows: FY 11 (\$260,000); FY 12 (\$270,400); FY 13 (\$281,216); and FY 14 (292,465). These amounts include funding for a 4% merit increase as stipulated in the CEA.

The total CEA amount of \$442,992, which includes the additional funding from the Office of the Secretary, will be annualized in future fiscal years as follows: FY 11 (\$546,138); FY 12 (\$567,984); FY 13 (\$590,703); and FY 14 (\$614,331).

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority to receive funding and positions from DSS for technical assistance and coordination for emergency preparedness support. The State Military Department (SMD) has agreed through a cooperative endeavor agreement with DSS to provide technical, planning, and coordination assistance to DSS in its role as the primary operating agency under Emergency Support Function-6 or ESF-6 (Mass Care, Housing, Human Services, and the Disaster Food Stamp Program or DFSP). Planning and coordination assistance to DSS may include evacuation, registration, sheltering, mass feeding, security, recovery operations, stakeholder coordination and the implementation of their DFSP. The SMD may also provide coordination and planning for the identification of appropriate public facilities to be used as shelters in participation on GOHSEP's Sheltering Subcommittee.

This cooperative endeavor agreement will provide funding through DSS to the SMD which will allow 7 positions to be assigned to this function. These 7 positions are as follows:

Operations (1) - responsible for assistance in coordination of operations in support of a disaster response that activates ESF-6 functions. Duties may also include providing assistance in coordinating staffing assignments and other stakeholders for proper response to an event and to ensure operational readiness.

Planning (1) - responsible for assistance in coordination of the review of state and local plans and policies and to make recommendations for changes and updates. Also to assist in establishing training programs to educate DSS employees as to the requirements of their staffing assignments and ensure selected staff are scheduled for available classes as required by the agency.

Logistics (1) - responsible for assistance in coordination of providing resources to support the needs of potential emergency preparedness missions.

Regional Coordinators (4) - responsible for providing assistance in coordination in managing mass care, housing and human services delivery for citizens affected by emergencies and/or disasters in a specified multi-parish region. Coordinates with local OEP offices and GOHSEP regional coordinators.

This BA-7 funds reimbursable costs for 5 SMD employees who have been assigned to this function since 7/1/09. Personnel costs for SMD employees who have been assigned to the task for the period 7/1 - 11/30/09 total \$127,895. The remainder of the BA-7 (\$315,097) is for the personnel costs associated with seven new employees who will be hired following the approval of this BA-7. According to the SMD, the agency anticipates hiring all of these employees by 12/1/09.

NOTE: Two of the 5 SMD staff will continue with this assignment under existing T.O. Five new employees will be hired for a total of 7 assigned to this function. Two of the 7 new positions will be provided to replace the 2 SMD staff who will continue this operation under existing T.O.

Costs from 7/1/09 - 11/30/09 = \$127,895

November 20, 2009

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Costs from 12/1/09 - 6/30/09 = \$315,097

Salary for 7 employees at \$14,615/15 pay periods - \$219,225

Benefits for seven employees including retirement, FICA, and Medicare - \$57,547

Insurance (health and life) - \$365 x 15 pay periods x 7 = \$38,325

Total - \$315,097

II. IMPACT ON FUTURE FISCAL YEARS

The annualization of these costs for subsequent fiscal years is as follows and includes funding for merit increases (4%) as allowed in the cooperative endeavor agreement signed between DSS and SMD:

FY 11- \$546,138

FY 12- \$567,984

FY 13- \$590,703

FY 14- \$614,331

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer 22 positions associated with the dining facility operations at the Gillis W. Long Center in Carville from the Military Affairs Program to the Education Program. Transfer of these positions will place both funding and T.O. in the appropriate program for both audit and accounting purposes. Funding and positions for the dining facility operations at other Youth Challenge programs at Camp Minden and Camp Beauregard are budgeted in the Education Program. Therefore, this BA-7 will provide for the proper alignment of funding and positions at all 3 Youth Challenge programs in the Military Department.

The positions moved to the education are as follows:

15 cooks
1 clerk
3 supervisors
1 assistant baker
1 assistant manager
1 manager

Total funding for 22 full time positions and one part-time positions budgeted currently in the Education Program is \$625,327. Funding for this program is currently 60% federal and 40% state but the Military Department has recently been notified that the match rate is changing to 75% federal and 25% state in FY 11.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority to receive State Emergency Response Funds (SERF) from the Division of Administration for costs incurred in the Military Department's emergency water haul in Concordia Parish. A state of emergency was proclaimed by the President of Concordia Parish on 5/12/09 due to a lack of potable drinking water resulting from the ground storage tank being in a state of disrepair. According to correspondence from DHH-Office of Public Health to GOHSEP, the metal has corroded to a point that it cannot be covered or patched. The correspondence further states "the integrity of the entire tank is compromised and must be replaced." Due to this public health situation, the Military Department was called upon to haul potable water to the town of Ferriday.

Since 5/16/09 the Military Department has delivered 616,000 gallons of water. The cost of military department personnel through October 2009 was \$91,988 plus \$8,671 for fuel. The estimated costs of personnel from 11/1/09 through 12/15/09 is \$24,886 plus an additional \$2,291 for fuel. The end of the mission is scheduled to coincide with the replacement of the water system.

NOTE: The balance of SERF funding in the DOA is currently \$1M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$124,086 and is based upon revised calculations of actual personnel costs from 5/16/09 - 10/31/09 which reduces the total request by \$3,750.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in order to collect reimbursement from GOHSEP for approved FEMA Project Worksheets (PW). The approved PWs include #18050, #16208, #18193, and #750 and are all related to expenses incurred by the Military Department following Hurricane Katrina.

PW #18050 - (\$252,330)

These expenditures were related to the utilities (electricity and water) for 57 mobile homes installed at Camp Beauregard to house military personnel due to Jackson Barracks being uninhabitable following Hurricane Katrina. These costs were incurred from February 2006 through June 2008. The total costs reimbursed are as follows:

Electricity - \$227,915.64
Water - \$23,158.53
Administration- \$1,255.36

PW #16208 - (\$25,925)

These expenditures were related to dumpster rentals at Jackson Barracks following Hurricane Katrina. The total expenses related to the rental of 4 thirty yard open top dumpsters and service provided by Waste Management of New Orleans from September 2005 to June 2006 amounted to \$74,638.25. The Military Department received reimbursement of \$48,840 in August 2007. This BA-7 will budget the remainder owed to the Military Department (\$25,798) plus \$127 in administrative fees from FEMA.

PW #18193 - (\$63,953)

The Military Department will receive \$63,634.56 plus \$318.17 in administrative costs from GOHSEP. These expenses were incurred between October 2006 and February 2009. The costs to be reimbursed are as follows:

Travel trailer sewer and water - \$11,959.25
Dumpster Rental - \$3,065.54
Electric Utilities - \$2,595.52
Site Prep Materials, Maintenance, supplies, etc. - \$43,348.45
Demobilization and Restoration - \$2,665.80
Administration - \$318.17

PW #750 - (\$55,004)

These expenditures were related to 50 mobile homes installed at Gillis W. Long Center in Carville to house displaced Jackson Barracks military personnel working in the Hurricane Katrina disaster area. These expenses are for the time period September 2005 through February 2006 and include the following costs:

Rented Equipment - \$52,824.25
Materials - \$1,906

November 20, 2009

**LEGISLATIVE FISCAL OFFICE

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Natural Resources

AGENDA NO.: 1

AGENCY: Mineral Resources

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Mineral Resources Management	\$300,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$300,000			
Federal Funds:	\$0			
Total	<u>\$300,000</u>	Total	<u>\$300,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedications budget authority from the Mineral & Energy Operation Fund by \$300,000 within the Mineral Resources Management Program. This BA-7 is a result of a cost savings measure submitted by the Department of Natural Resources to the Streamlining Commission and approval will allow the department to outsource record archiving to complete the current backlog of mineral lease files.

There are over 1,939 inactive leases that have been archived, leaving approximately 9,000 inactive leases that have not been archived. In addition, there are currently 1,866 active leases. As ownership changes for these leases, the information will need to be archived as well. On average 28 new leases are issued every month. The estimated cost associated with outsourcing record archiving to complete the backlog of over 9,000 inactive leases would be a one-time cost of approximately \$240,000 to \$300,000, and would take approximately 6 to 12 months. The uncertainty in the number of documents to be archived, condition of the documents, and the time necessary to complete the project make it hard to determine the exact amount of money necessary to complete this work. It is estimated that it would take \$1.3M (salaries and related benefits for three full-time positions assuming no merit increases) and 7 years to complete this backlog in-house.

The funds being utilized would be from the Mineral & Energy Operation Fund. Monies in this fund are for the administration and regulation of minerals, ground water and related activities. Sources of funding are from court awarded judgments and settlements associated with royalty income (\$1.6M annually) and other mineral income. The current balance of the Mineral and Energy Operation Fund is approximately \$12.7M. DNR is proposing to budget \$300,000 for professional services for the archiving. If this BA-7 request is approved, the projected fund balance as of 06/30/10 will be approximately \$12.9M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request would result in an estimated cost savings of \$108,000 annually.

All contractors interviewed by the Office of Mineral Resources would require the department to prepare the leases for imaging. Currently, 3 full-time employees are utilized for these archiving purposes at a cost of \$178,000 for salaries and related benefits. It is estimated to complete prep work for the contractor would require 1 full-time employee and 1 part-time student worker at a cost of \$70,000. A reduction of 2 full-time positions would result in the annual cost savings in subsequent years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Natural Resources

AGENDA NO.: 2

AGENCY: Conservation

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Oil & Gas Regulatory	\$0	0
Interagency Transfers:	\$0	Public Safety	\$183,797	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$183,797			
Federal Funds:	\$0			
Total	<u>\$183,797</u>	Total	<u>\$183,797</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedications (Underwater Obstruction Removal Fund) budget authority for the Office of Conservation by \$183,797 in order to receive IAT funding from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). These FEMA funds from GOHSEP are reimbursing DNR for expenses related to removal of debris caused by hurricanes Katrina and Rita in FY 09.

The Underwater Obstruction Removal Program was created to locate, identify, and remove obstructions that are a hazard to commercial fishing and navigation along the coastal waters of LA. The Underwater Obstruction Removal Fund receives a transfer of \$250,000 from the Fisherman's Gear Compensation Fund annually for these purposes. The current fund balance is \$535,531. After hurricanes Katrina and Rita a comprehensive marine debris clean-up mission was implemented. These funds were utilized for a contract with the United States Corps of Engineers for debris removal and DNR monitored this work. DNR was responsible for evaluating all features of the proposed removal, including but not limited to the establishment of priorities, coordination with state and local officials of the removal, monitoring removal, and final inspection. This BA-7 request reimburses DNR's FY 09 expenditures from the fund which were redirected to aid in the federal coastwide marine debris removal effort.

Approval of this BA-7 will allow the program to rebudget these funds to increase in the number of underwater obstructions that can be removed in this fiscal year. Currently there are 45 verified underwater obstructions. Approval of this BA-7 will reduce this number by 7 to 38.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Revenue

AGENDA NO.: 3

AGENCY: Office of Revenue

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Tax Collection	\$0	0
Interagency Transfers:	\$0	Alcohol & Tobacco Control	\$0	0
Self-Generated Revenue:	\$142,918	Charitable Gaming	\$142,918	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$142,918</u>	Total	<u>\$142,918</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to fund operating services obligations that cannot be met under the current budget authority due to a miscalculation during the budgeting process. Approval of this BA-7 request would increase the budget authority for the Office of Charitable Gaming to cover operating expenses by utilizing SGR that were collected to support services related to charitable gaming and are currently available. The majority of this \$142,918 request is for rent (\$138,408) with the remainder for software maintenance (\$2,000), property and equipment maintenance (\$775), telephone services (\$710), printing (\$600), and dues and subscriptions (\$425).

This is an after the fact BA-7 since operational expenses are on-going and have already been incurred during FY 10. The Office of Charitable Gaming is funded 100% through SGR. The fees and self-generated funds are available for the increase in budget authority provided by this BA-7 request due to funds carried forward from prior years, which the Department of Revenue has the authority to retain.

II. IMPACT ON FUTURE FISCAL YEARS

The nature of this request makes it a recurring budget item which is expected to continue to grow by an inflationary factor each year. The Department of Revenue has authority through the appropriations bill to retain unappropriated SGR across fiscal years. This request will decrease the amount of SGR available. The Office of Charitable Gaming collected \$3,132,062 in FY 09 and carried forward \$2,821,758 into FY 10. The total budget of the Office of Charitable Gaming is \$1,563,270. So far in FY 10, \$342,150 in SGR has been collected.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends deferral of this BA-7 request until the November meeting of the JLCB. The LFO has requested additional documentation related to the exact amount of the budget deficit, but, as of 10/15/09, this information has not yet been received.

October 16, 2009

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 4

AGENCY: State Police

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement	\$0	0
Interagency Transfers:	\$0	Criminal Investigation	\$831,404	0
Self-Generated Revenue:	\$0	Operational Support	\$0	0
Statutory Dedications:	\$0	Gaming Enforcement	\$0	0
Federal Funds:	\$831,404	Auxiliary Account	\$0	0
Total	<u>\$831,404</u>	Total	<u>\$831,404</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of State Police is requesting approval to add \$831,404 in federal funds to its budget. The federal funds come from 3 sources, a Gulf Coast High Intensity Drug Trafficking Area (HIDTA) grant for \$50,000, an Operation Slots grant for \$120,000 and federal stimulus funding (Byrne Grant) of \$661,404 from the LA Commission on Law Enforcement.

The purpose of the stimulus funding (Byrne grant) is to improve efficiency and operations relating to child predator investigations, prescription drug diversion (doctor shopping), and narcotic trafficking. The stimulus grant will also be utilized to purchase specialized equipment for the Emergency Operations Center and the Crisis Response Section. The \$661,404 in stimulus funding from the LCLE will provide for the hiring of 3 temporary investigators who will be employed for 2 years. The funding will be utilized for the following expenditures: \$138,595 salaries and related benefits for 2 temporary investigators; \$100,800 for professional services for computer services (software design and implementation of single search capability for multiple databases); and \$422,009 for acquisitions (\$5,334 pill counter; \$5,450 digital camera with memory card; \$747 18mm-55mm camera lens; \$2,159 55mm-200mm camera lens; \$615 lithium battery; \$6,105 covert cellular phone video camera with DVR recorder; \$2,058 undercover antenna for repeater and receiver; \$20,771 macbook pro computer w/ office mac software; \$315,000 digital interface location software; \$14,100 digital video recorders; \$15,000 audio visual controller matrix \$19,570 long range acoustical device; \$7,500 weapon mounted high-intensity lights; \$6,200 night vision goggles; \$1,400 tactical emergency packs & equipment).

The \$170,000 direct grant funds (\$50,000 HIDTA Grant and \$120,000 Operation Slots Grant) will be used for overtime expenses for the remainder of the fiscal year to allow state police investigators in the New Orleans Criminal Intelligence Unit field office to assist the U.S. Immigration and Customs Enforcement Agency with criminal investigations. The funding will be utilized to supplement overtime for the criminal patrol unit assigned to the New Orleans High Intensity Drug Trafficking Area initiative and will provide an additional patrol presence.

II. IMPACT ON FUTURE FISCAL YEARS

The funding provided for in this BA-7 request is part of a two-year grant, which totals \$970,000. The remaining \$138,596 will be included in the upcoming fiscal year's budget. All funding awarded under the grants is considered a one-time award.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office (LFO) recommends approval of this BA-7 based on the following amounts: \$661,404 IAT and \$170,000 federal funds. The LFO is recommending an adjustment in the means of financing because the \$661,404 in federal stimulus funding (Byrne Grant) is from the LA Commission on Law Enforcement and should therefore be classified as IAT revenue.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office (LFO) recommends approval of this BA-7.

October 16, 2009

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 5

AGENCY: Office of Fisheries

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fisheries	\$0	0
Interagency Transfers:	\$0	Marketing	\$61,249	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$61,249			
Federal Funds:	\$0			
Total	<u>\$61,249</u>	Total	<u>\$61,249</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedication budget authority by \$61,240 from the Crab Promotion & Marketing Account within the Fisheries Program. These additional funds will be used for the costs incurred by the LA Crab Task Force to attend and promote LA Blue Crab products at the International Seafood Show in Boston (\$11,250), and to fund 50% of the Marine Stewardship Council (MSC) certification (\$49,999).

The LA Crab Task Force's goals are to promote the economic development of the Blue Crab Industry, encourage conservation of the Blue Crab resource, to provide for an efficient management program, and to improve overall value of the Blue Crab resource.

The Department of Wildlife & Fisheries will budget these funds for the International Seafood Show as follows:

travel - \$4,000 (lodging, airfare, meals for 2 attendees in March, 2010)
operating services - \$5,000 (booth space and signage)
supplies - \$2,250 (promotional items, handouts, crab meat for product demonstrations)
total - \$11,250

Funds for the 50% MSC certification will be budgeted as professional services in the amount of \$49,999. The other 50% will be paid for by the Sustainable Fisheries Fund, which is a nonprofit entity that provides financial support to fishing interests, government agencies, and non-governmental conservation organizations. A third-party certification firm that is trained in MSC standards will be used. Large retailers are increasingly relying on MSC certification as the standard measure of sustainable harvest, and acquiring of the MSC certification should assure the global buying community that LA's harvesting practices are sustainable. There are currently no blue crab fisheries in the United States that hold the certification. This certification will improve the perception of LA blue crabs and will immediately create demand in the supply chain. This will allow the local industry to justify a higher price per pound than the imported product that they are currently competing against.

The Crab Promotion & Marketing Account receives \$5 fees on crab traps from LA residents and \$20 from nonresidents. Monies in the fund are used for the development of markets for crabs and the creation of marketing strategies and market expansion for crabs harvested from Louisiana waters. The current fund balance of the Crab Promotion & Marketing Account is \$76,908. If this BA-7 request is approved, the projected fund balance as of 06/30/10 will be approximately \$31,024.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

October 16, 2009

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal funds budget authority to receive a federal grant from the U.S. Department of Justice, Office of Justice Programs in the amount of \$250,000. The title of the grant is "FY 2009 Capital Case Litigation Initiative" and the program focuses on ensuring quality representation in death penalty cases and trials. The goal is to increase the number of capital litigation attorneys trained in death penalty cases, and to ensure that defense counsel and prosecutors have the most up-to-date and comprehensive information available to them on death penalty litigation.

These grant funds will be utilized to provide the following services:

- 1) Two regionally based training sessions aimed at providing a comprehensive training program in the defense of capital cases at trial level consistent with American Bar Association (ABA) Guidelines. The training sessions will be directed to all current trial level capital defenders and at those being trained to assume this responsibility in the future. These sessions will be held in Shreveport and New Orleans.
- 2) Two one-day sessions will be aimed at enhancing the ability of prosecutors to effectively represent the public and to ensure reliable verdicts.
- 3) One joint prosecution and defense training will be conducted in the field of mental retardation.
- 4) Training materials for each of the five training sessions.

The proposed budget for these federal grant funds are as follows:

\$50,000 - Salary and related benefits for grant and compliance administrator
\$5,000- Travel for Public Defender Board staff
\$10,800 - Operating Services (rental costs for training venues)
\$11,764 - Supplies (includes postage, copying, training materials, etc)
\$37,600 - Professional Services (contracts for consultants for training sessions)
\$132,636 - Other Charges (includes travel, meals and lodging for faculty and participants)
\$2,200- Acquisitions (purchase of dual wireless microphone set, amplifier and speakers)

II. IMPACT ON FUTURE FISCAL YEARS

The term of the federal grant is 9/1/2009 through 8/31/2011. Updated information provided to the LFO indicates that the LPDB will expend only \$109,972 in FY 10 and the remainder of the grant funds totaling \$140,028 will be expended in FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$109,972. The remainder of the grant funds totaling \$140,028 will be expended in FY 11. In addition, the LFO recommends that the function of the additional

DEPARTMENT: Justice

AGENDA NO.: 8

AGENCY: Attorney General

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$179,509	Civil Law	\$0	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$179,509	0
Statutory Dedications:	\$0	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$179,509</u>	Total	<u>\$179,509</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Attorney General's Office is requesting approval to add \$179,509 IAT to its budget. The source of the IAT is federal stimulus funding from the LA Commission on Law Enforcement. The federal stimulus funding is made available under a program entitled "White Collar Crime". No state match is required. The purpose of the program is to protect consumers from predatory practices and to protect public funds by preventing the diversion of money provided in publicly funded programs from ending up in the hands of criminals (often located in other countries). The LA Attorney General is going onsite to the locations where financial incidents have occurred and providing assistance to citizens, merchants and other market participants in LA. The Attorney General's Office will also be deployed for Education Programs to be conducted by existing personnel regionally throughout LA in conjunction with trade and business organizations, organized labor and law enforcement agencies. At least four regional training sessions will be provided annually.

The funding in this BA-7 request will be utilized to provide for travel expenses (\$7,531), and to purchase new (not replacement) law enforcement vehicles (5 @ \$21,308 = \$106,540) and computer equipment (\$31,200 for 24 laptop computers; \$12,988 for wireless data cards for laptop computers; \$11,250 for 5 portable interoperable radios & enhancements; \$10,000 for 2 document scanners).

II. IMPACT ON FUTURE FISCAL YEARS

The funding provided for in this BA-7 request is part of a two-year grant, which totals \$200,000. The remaining \$20,491 will be utilized to provide for the second year of travel and wireless data cards. All funding awarded under the grant is considered a one-time award.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office (LFO) recommends approval of this BA-7 request in the amount of \$72,969. The LFO recommends disapproval of appropriating \$106,540 for 5 new vehicles in light of a recent report prepared by the state fleet manager that points to the under-utilization of existing justice department vehicles. The LFO further recommends that the agency review other needs within the agency and, after consulting with the LA Commission on Law Enforcement, redirect these available funds toward those other needs identified by the agency.

Total	<u>\$32,500</u>	Total	<u>\$32,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Attorney General's Office is requesting approval to add \$32,500 in IAT to its budget. The source of the IAT is federal stimulus funding (2009 ARRA S.T.O.P. Violence Against Women Formula Grant) from the LA Commission on Law Enforcement. No state match is required. It will be utilized to provide training workshops to 250 local law enforcement personnel on domestic violence. The Attorney General's Office intends to provide 5 two-day regional training workshops on responding to domestic violence, sexual assault, stalking, dating violence and orders of protection. The workshops are scheduled to be held in Shreveport, Monroe, Alexandria, Baton Rouge and New Orleans. The goal of the training is to assist law enforcement first responders to more effectively identify and respond to complaints of violence against women.

Expenditures provided for include: \$9,600 for meals (morning and afternoon snacks with a working lunch); \$2,940 for printing of manuals, appendices, etc.; \$1,998 for supplies (badge holders and training DVDs); \$4,462 for travel expenses incurred by consultants (mileage, lodging and meals); and \$13,500 for training services to be provided by 3 consultants (Ayn Stehr, Henry Levenson and Reggie Bryant).

II. IMPACT ON FUTURE FISCAL YEARS

The funding included in this BA-7 request is from a one-time, non-recurring federal grant. All funding is anticipated to be expended in the current fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$43,216</u>	Total	<u>\$43,216</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$43,216 in order to receive funding from the Federal Highway Administration (FHWA) via DOTD to the Office of Tourism for the LA Scenic Byways Program. The Louisiana Scenic Byways Program was established in 1990 through a partnership with the FHWA, CRT, and DOTD. Funding received for this program is used to develop a Statewide Comprehensive Scenic Byway Management Plan which provides an integrated approach to management, promotion, and preservation of the LA Scenic Byways.

The Office of Tourism received funding in FY 07 in the amount of \$277,320 from the FHWA through DOTD for this purpose. This BA-7 request merely represents the remaining unspent portion for these cooperative endeavors. The Office of Tourism is responsible for a 20% match of the participating cost. The funding source used for this match is the LA Tourism Promotion District Fund, and these funds are already included in CRT's current budget. An increase in IAT budget authority in the amount of \$43,216 together with the state's 20% match is needed to expend the remaining funds to complete the following projects this fiscal year.

Promotional Brochure for LA's Great River Road Scenic Byway (LGRRSB) - \$7,870
LGRRSB Corridor Management Plan Implementation - \$6,750
LA Byways Exhibit for Trade Shows - \$19,600
San Bernardo Scenic Byway Management Plan - \$18,600

As part of the contract to develop the Scenic Byway Master plan each byway will receive brochures, website template, and maps of the scenic byways which will all be included in the Scenic Byways master plan. Additionally, funding will be used for the development of a marketing plan, including the design and construction of an exhibit to be displayed at trade shows.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$3,030,912			
Total	<u>\$3,030,912</u>	Total	<u>\$3,030,912</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal budget authority by \$3,030,912 in the Department of Health & Hospitals, Office of Public Health, Personal Health Services Program. The source of federal funds is a grant from the Health Resources & Services Administration (HRSA) in the amount of \$2,858,853 and a grant from the Centers for Disease Control & Prevention (CDC) in the amount of \$172,059. The total state match required for these funds is \$714,713, which will be met with in-kind expenditures from the LSU Health Care Services Division.

OPH will use the HRSA grant funds of \$2,858,853 to increase existing contracts with LSU Health Care Services Division (HCSD) Medical Centers and LSU Shreveport Medical Centers to administer the Aids Drug Assistance Program (ADAP), which provides antiretroviral medications, medications for the treatment or prevention of Opportunistic Infections, and HIV related laboratory tests to persons infected with HIV in LA. This program currently serves approximately 3,200 individuals annually and is anticipated to serve an additional 150 individuals with this funding. Individuals are eligible to receive ADAP services if their income is less than 300% of the federal poverty level (\$66,150 per family of 4 in 2009) and they are uninsured. This funding will be allocated to the following contracts:

LSU HCSD MEDICAL CENTERS

Medical Center of LA at New Orleans (MCLNO)	\$ 1,162,695
Earl K. Long Medical Center	\$ 601,863
Leonard J. Chabert Medical Center	\$ 95,751
University Medical Center	\$ 218,859
W. Ollin Moss Regional Medical Center	\$ 157,305
Huey P. Long Medical Center	\$ 116,269
Washington/St. Tammany Regional Medical Center	\$ 41,036

LSU SHREVEPORT MEDICAL CENTERS

E.A. Conway Medical Center	\$ 143,626
Lallie Kemp Medical Center	\$ 102,590
LSU Shreveport	<u>\$ 218,859</u>

TOTAL **\$ 2,858,853**

OPH will use the CDC grant funds of \$172,059 to purchase 14,000 rapid testing kits at \$11 each to perform the rapid HIV test (\$154,000); 250 Orasure testing devices at \$60 each to perform confirmatory tests for persons testing preliminary positive (\$15,000); 75 Rapid Test Kit Control Devices at \$25 each to test the validity of the rapid tests (\$1,875) and 30 thermometers at \$39.47 each (\$1,184). There are currently 95,000 individuals who are tested annually. The tests are performed in the seven LSU HCSD medical centers emergency rooms. The HIV rapid tests will allow individuals to receive preliminary results within 20

October 16, 2009

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

minutes instead of the 2-week waiting period that traditional testing requires.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period for the HRSA funds ends 3/31/10; however, this grant is historically provided and is anticipated by OPH to be renewed on 4/1/10. The agency anticipates receiving \$3,001,796 in FY 11, \$3,151,885 in FY 12, \$3,309,480 in FY 13, and \$3,474,954 in FY 14.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$248,776			
Total	<u>\$248,776</u>	Total	<u>\$248,776</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal budget authority by \$248,776 in the Department of Health & Hospitals, Office of Public Health, Personal Health Services Program. The source of federal funds is a grant from the Centers for Disease Control & Prevention. These are 100% federal funds. No state match is required.

OPH received approval from the CDC to carry over unobligated funds from previous years' cooperative agreements, which were allocated for hurricane related expenditures. These grant funds can only be used for non-recurring expenditures. The funding must be used in the current funding period of 1/1/09 to 12/31/09 or returned to the CDC to be redistributed to all states in 2010.

OPH will use these funds for the Tuberculosis Control & Prevention Program to replace outdated and broken equipment that is approximately 14 to 15 years old. The funding will be allocated as follows: 6 Digital Imaging Machines (\$233,526); 1 All-in-one Printer, Copier, Scanner (\$10,500); 1 Notebook Computer (\$2,000); 1 Desk Top Printer (\$1,000); 2 Mannequin arms for skin tests (\$1,250); and 1 Four Drawer File Cabinet (\$500). The digital imaging machines will allow for digitized X-ray processing and will reduce the on-going cost of film, chemicals, personnel, time and maintenance required for mechanical processing with the current manual X-ray equipment. In addition, digital images can be sent instantly for review by physicians with expertise in tuberculosis diagnosis, follow-up, and treatment.

II. IMPACT ON FUTURE FISCAL YEARS

This is one-time funding that must be used in the current fiscal year. The agency has indicated that the use of digital imaging equipment will allow the agency to realize an estimated annual savings of \$28,320 in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$12,390,180			
Total	<u>\$12,390,180</u>	Total	<u>\$12,390,180</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal budget authority by \$12,390,180 in the Department of Health & Hospitals (DHH), Office of Public Health, Personal Health Services Program. These are 100% Federal funds from the Centers for Disease Control & Prevention. No state match is required.

These grant funds will be used for Phase III Implementation and Administration of the H1N1 Vaccination Campaign, which includes education and distribution of the vaccine. The Joint Legislative Committee on the Budget previously approved a BA-7 for \$7.4M on 9/18/09 for Phase I Preparation and Phase II Planning of the H1N1 Campaign. Approval of this BA-7 authorizes a total of \$19,791,180 for the H1N1 Vaccine Campaign.

A total of 4.3 million people in the state of LA are eligible to receive the H1N1 vaccine. Of this number, 2.2 million is considered a priority group and will be the first to receive the vaccine. OPH has received an initial supply of both nasal and injectable vaccine and is already shipping the vaccine to providers based on the LA 2009 H1N1 Vaccine Distribution Plan. The agency anticipates that the general population will begin receiving the H1N1 vaccine in January 2010.

The funding from this grant will be allocated as follows:

Salaries and Related Benefits - \$696,913

Overtime expenses for 346 nurses. The agency estimates that the nurses will work 10 hours of overtime per week for 6 weeks at a hourly rate of \$33.57.

Other Compensation - \$2,344,616

Seven (7) temporary job appointments \$291,330, 44 temporary hourly staff positions \$1,297,692, Related benefits \$93,336, and Overtime \$662,258. The agency estimates that job appointments will work 15 hours per week overtime for 40 weeks and the temporary staff will work 10 hours per week overtime for 40 weeks. These positions will be used to keep the LA Immunization Network for Kids Statewide (LINKS) databases updated with current information; to coordinate distribution and management of the H1N1 vaccine, to monitor and track vaccine deployments, to serve on strike teams to administer the H1N1 vaccine to priority at-risk groups and the general population and to provide security for the H1N1 vaccine. The job appointment positions include 2 Program Monitors \$93,312; 1 Program Manager \$51,930; 2 Administrative Assistants \$80,316; 1 Warehouse Supervisor \$45,000; and 1 Administrative Coordinator \$20,772. The temporary staff positions include 12 Public Health Nurses \$540,000, 5 Administrative Coordinators \$103,860; 9 Immunization Consultants \$306,504; 18 Security Guards \$347,328.

Interagency Contracts (\$2,650,000)

Contracts with the following state entities for media campaigns and educational training to promote awareness and preparedness for the H1N1 vaccination: Department of Social Services \$550,000; Bureau of Media & Communication \$500,000; Department of Education \$500,000; Department of Corrections \$500,000; Office of Youth Development \$250,000; DHH-Office of the Secretary \$200,000; DHH-Bureau of Primary / Rural Health \$150,000.

October 16, 2009

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

Operating Services - \$508,598

Shipping costs to mail tool kit supplies to 9 regions, \$5,598; Shipping costs to mail vaccine/antivirals to providers, community partners, and other state facilities \$500,000; Programming costs for field radios \$3,000.

Other Charges (\$5,448,973)

Administrative fee to reimburse providers who provide H1N1 vaccinations to uninsured individuals at the standard Medicaid rate of \$15.22 per individual \$2,000,000; Contracts with Board of Regents-Southern, LSU, University of LA, LA Technical & Community College \$500,000 for promotion and distribution of H1N1 educational materials to students; Morris Dickson \$200,000 to support warehouse staff in the dissemination of the vaccine/antivirals to the target sites; Scientific Technology Corporation \$125,000 for software to create and maintain electronic versions of CDC provider agreements and other data; Pastors Resource Council (PRC) \$19,500 for promotion and distribution of information to the community on H1N1; LA Home Care \$19,500 for distribution of H1N1 educational materials and assistance with mass vaccinations of home health patients; LA Interfaith Disaster Network \$19,500 for training workshops and distribution of H1N1 educational materials to faith-based organizations; LA Primary Care Association \$19,500 for personal protective equipment for federally qualified health care centers; After Action table top exercises (problem resolving meetings by OPH) \$500,000 to identify additional gaps in recommendations for the H1N1 Vaccination Plan; Indirect cost allocation charges \$2,045,973. The CDC restricts the amount of the grant funds that the agency call allocate for indirect costs such as operational, maintenance, and general administrative expenses.

Supplies - \$550,580

Educational materials for H1N1 training tool kits \$466,292 and personal protective equipment for H1N1 response \$84,288.

Travel - \$48,000

Field travel for H1N1 program staff for surveillance, meetings, and investigations.

Acquisitions - \$142,500

150 Radios at \$950 each to disseminate messages and information quickly to field staff.

II. IMPACT ON FUTURE FISCAL YEARS

The project period for which these grant funds can be utilized is 7/31/09 through 7/30/12. The agency can carry over obligated grant funds through FY 12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

The agency anticipates that the general population will begin receiving the H1N1 vaccine in January 2010.

The funding from this grant will be allocated as follows:

Salaries and Related Benefits - \$696,913

Overtime expenses for 346 nurses. The agency estimates that the nurses will work 10 hours of overtime per week for 6 weeks at a hourly rate of \$33.57.

Other Compensation - \$2,344,616

Seven (7) temporary job appointments \$291,330, 44 temporary hourly staff positions \$1,297,692, Related benefits \$93,336, and Overtime \$662,258. The agency estimates that job appointments will work 15 hours per week overtime for 40 weeks and the temporary staff will work 10 hours per week overtime for 40 weeks. These positions will be used to keep the LA Immunization Network for Kids Statewide (LINKS) databases updated with current information; to coordinate distribution and management of the H1N1 vaccine, to monitor and track vaccine deployments, to serve on strike teams to administer the H1N1 vaccine to priority at-risk groups and the general population and to provide security for the H1N1 vaccine. The job appointment positions include 2 Program Monitors \$93,312; 1 Program Manager \$51,930; 2 Administrative Assistants \$80,316; 1 Warehouse Supervisor \$45,000; and 1 Administrative Coordinator \$20,772. The temporary staff positions include 12 Public Health Nurses \$540,000, 5 Administrative Coordinators \$103,860; 9 Immunization Consultants \$306,504; 18 Security Guards \$347,328.

Interagency Contracts (\$2,650,000)

Contracts with the following state entities for media campaigns and educational training to promote awareness and preparedness for the H1N1 vaccination: Department of Social Services \$550,000; Bureau of Media & Communication \$500,000; Department of Education \$500,000; Department of Corrections \$500,000; Office of Youth Development \$250,000; DHH-Office of the Secretary \$200,000; DHH-Bureau of Primary / Rural Health \$150,000.

October 16, 2009

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Amended: Approved by JLCB

Operating Services - \$508,598

Shipping costs to mail tool kit supplies to 9 regions, \$5,598; Shipping costs to mail vaccine/antivirals to providers, community partners, and other state facilities \$500,000; Programming costs for field radios \$3,000.

Other Charges (\$5,448,973)

Administrative fee to reimburse providers who provide H1N1 vaccinations to uninsured individuals at the standard Medicaid rate of \$15.22 per individual \$2,000,000; Contracts with Board of Regents-Southern, LSU, University of LA, LA Technical & Community College \$500,000 for promotion and distribution of H1N1 educational materials to students; Morris Dickson \$200,000 to support warehouse staff in the dissemination of the vaccine/antivirals to the target sites; Scientific Technology Corporation \$125,000 for software to create and maintain electronic versions of CDC provider agreements and other data; Pastors Resource Council (PRC) \$19,500 for promotion and distribution of information to the community on H1N1; LA Home Care \$19,500 for distribution of H1N1 educational materials and assistance with mass vaccinations of home health patients; LA Interfaith Disaster Network \$19,500 for training workshops and distribution of H1N1 educational materials to faith-based organizations; LA Primary Care Association \$19,500 for personal protective equipment for federally qualified health care centers; After Action table top exercises (problem resolving meetings by OPH) \$500,000 to identify additional gaps in recommendations for the H1N1 Vaccination Plan; Indirect cost allocation charges \$2,045,973. The CDC restricts the amount of the grant funds that the agency call allocate for indirect costs such as operational, maintenance, and general administrative expenses.

Supplies - \$550,580

Educational materials for H1N1 training tool kits \$466,292 and personal protective equipment for H1N1 response \$84,288.

Travel - \$48,000

Field travel for H1N1 program staff for surveillance, meetings, and investigations.

II. IMPACT ON FUTURE FISCAL YEARS

The project period for which these grant funds can be utilized is 7/31/09 through 7/30/12. The agency can carry over obligated grant funds through FY 12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request is a companion to BA-7 #13A.

The purpose of this BA-7 request is to increase IAT budget authority by \$500,000 in the Department of Corrections, Office of Management & Finance. Funds are being transferred from the Office of Public Health. The original source of funds requested to be transferred are 100% federal grant funds from the Centers for Disease Control & Prevention. No state match is required.

These grant funds will be utilized by the Office of Management & Finance to implement the H1N1 Vaccination campaign. The funding will be used as follows:

\$300,000 - Supplies: needles, antibiotics, masks, respirators, gloves, sanitizers, bio-hazard bags, etc.

\$200,000 - Overtime: medical and security staff working on Flu preparedness and response.

The amounts budgeted above are based on receiving 6,553 vaccines, which is estimated to be sufficient to address the at-risk population and personnel anticipated to be in contact with that population. Once the number of vaccines is provided, the department will purchase supplies and distribute the vaccine accordingly. The vaccinations will be given to staff and offenders in state corrections facilities following the CDC priority list. The vaccinations will be given by the medical staff at each state facility and stored at each facility at no cost.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The grant funds are anticipated to be spent in FY 10.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #13A.

The purpose of this BA-7 is to increase IAT budget authority by \$250,000 in the Department of Juvenile Justice, Administration Program. Funds are being transferred from the Office of Public Health. The original source of funds requested to be transferred are 100% federal grant funds from the Centers for Disease Control & Prevention. No state match is required.

These grant funds will be utilized by Juvenile Justice to communicate H1N1 prevention strategies with youth in OJJ's custody and staff through the following expenditures:

- 1) \$50,000 - Staff, client training and education: Using contracted services to create a program to emphasize preventive measures and vaccinations among staff and youths; minimal staff overtime and travel.
- 2) \$3,000 - Production and distribution of educational and social marketing messages: Print signs for preventing spread of disease for residential facilities, probation offices, and community based programs.
- 3) \$197,000 - To support efficient collaboration between OJJ, LA Department of Health & Hospitals, and the Centers for Disease Control & Prevention. Includes the purchase of supplies for prevention, treatment, and quarantine of H1N1 virus for residential facilities and Regional Probation offices, reimbursement to LSU-HSC related to prevention and treatment, and minimal staff overtime and travel.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The grant funds are anticipated to be spent in FY 10.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #13A for the Office of Public Health. The purpose of this BA-7 is to increase IAT budget authority by \$850,000 in the Department of Health & Hospitals, Office of the Secretary. Funds are being transferred from the Office of Public Health. The original source of funds requested to be transferred are 100% federal grant funds from the Centers for Disease Control & Prevention. There is no state match requirement.

Grant funds will be utilized by the Office of the Secretary to implement an H1N1 vaccination campaign. This grant award will be used similarly to grant funds that were approved by the JLCB on 9/18/09. Specifically, the Office of the Secretary will provide outreach and education about H1N1 preparedness, vaccinations, and mitigation for LA citizens. The campaign will be accomplished through various media campaigns. Spending allocations are reflected below.

Public Service Announcements: TV and radio: pay for air time

\$250,000 - statewide TV campaign for 6 months (varying cost per TV spot). The TV air time will be purchased in 7 major regions (Alexandria, Baton Rouge, Lafayette, Lake Charles, Monroe, New Orleans, and Shreveport). Funding will be equally allocated to the designated regions.

\$250,000 - statewide radio campaign for 6 months (varying cost per radio commercial). Radio air time will be purchased in nine regions (Alexandria, Baton Rouge, Lafayette, Lake Charles, Monroe, New Orleans, Hammond, Houma, and Shreveport).

Overtime:

\$200,000 - anticipated overtime for DHH staff. Funding is anticipated to cover overtime related to 26 personnel across the Department of Health & Hospitals for 30 weeks (working 10 hours of overtime a week) at various hourly rates.

Prevention materials:

\$150,000 - costs associated with the purchase and distribution of pan flu prevention materials to rural health clinics (approximately 107) statewide. Materials include masks, hand sanitizers, and educational CD's.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The grant funds are anticipated to be spent in FY 10.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #13A

The purpose of this BA-7 is to increase IAT budget authority in the Department of Social Services (DSS), Office of the Secretary, Administration & Executive Support Program. The original source of the IAT is 100% federal funds from the Centers for Disease Control & Prevention. No state match is required.

This funding will be used to implement a Pandemic Influenza H1N1 Educational Outreach & Training Program for child care providers, foster care child care centers, foster care clients, and the DSS Office of Community Services (OCS) foster care staff.

The funding will be used for the following purposes:

\$50,000	Development of resource manuals for training
\$59,000	Staff and provider training
\$75,000	Development and printing of materials for Influenza Prevention Go Packets
\$40,000	Distribution of printed materials
\$20,000	Influenza Communication Tool Kit for Child Care and Early Childhood Programs
\$134,000	Childcare Site Vaccination Awareness and Education Reinforcement Campaign
\$122,000	Establishment and maintenance of an Emergency Automated Mass Communication Phone System and Foster Care Parent list-serve to disseminate messages in times of emergency
\$50,000	Establishment and maintenance of a Central emergency status notification and tracking website to allow foster parents to provide and request real-time information regarding the health, location, and needs of OCS foster care children

		Auxiliary Account	\$0	0
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #13A.

This BA-7 request increases IAT budget authority in the State Activities agency to receive \$500,000 from the Department of Health & Hospitals (DHH), Office of Public Health. The original source of the IAT is 100% Federal funds from the Centers for Disease Control & Prevention. The funds are to provide assistance for implementing a mass vaccination campaign providing information regarding precautionary measures, community mitigation strategies and the N1H1 vaccine. No state match is required.

The majority of the funds, or \$400,629, will be allocated to participating Local Education Agencies to be used to provide the vaccine to students and staff. Participating school systems will develop and plan for outreach by utilizing resources such as Parent Teacher Organizations, Coordinated School Health Teams, and LA School Nurses Organization to assist in identifying the target audience, plan for dissemination of educational materials, and create a timeline. The school systems will also develop training and workshops, and coordinate with school nurses to plan vaccination education and implementation plans.

The Department of Education (DOE) will assist the participating school systems in disseminating information regarding awareness of the vaccine. Up-to-date information and links will be maintained on the Department of Education's website for LEAs, parents and other stakeholders to access. The Department will also help to identify barriers and formulate plans to overcome those barriers, and be responsible for overseeing registered vaccination school sites and providing vaccination schedules for each site. Each month a report will be provided to DHH by DOE stating the total number of nursing staff to administer vaccines and the total number of students/staff that meet high risk group criteria.

The following expenditures (no further details are available) are anticipated by the Department of Education for administrative purposes:

Operating Services: \$7,311
Supplies: \$2,000
Travel: \$6,000
Professional Services/Contracts: \$72,000
Interagency Transfers: \$12,060 (indirect costs)

The Department anticipates contracting with a nurse to monitor each participating school system and charter school to oversee the vaccinations and provide technical support. At the time of this writing, there are at least five or more districts and charter schools that have not responded as to whether they are going to participate or not. In the event that more districts or schools participate, the amount of funding retained by DOE for administrative purposes will decrease and the amount of funding dispersed to the districts will increase.

Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 15

AGENCY: State Fire Marshal

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fire Prevention	\$2,964,309	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$2,964,309			
Federal Funds:	\$0			
Total	<u>\$2,964,309</u>	Total	<u>\$2,964,309</u>	<u>0</u>

I. SUMMARY/COMMENTS

The state fire marshal is requesting \$2,964,309 in Statutory Dedications from the 2% Fire Insurance Fund to provide for implementation of Act 304 of 2009. Act 304 requires that monies from the 2% Fire Insurance Fund be made available for the State Fire Marshal to purchase workers compensation coverage for all volunteer firefighters. The act further prioritizes the funding purposes, making funding for the purchase of workers' compensation insurance for volunteer firefighters the second priority, after first providing the funding required for the purchase of group insurance for these individuals.

There are a total of 630 fire districts, with approximately 8,500 volunteer firefighters. The \$2.9M estimate for the premium costs reflected in this BA-7 request will provide coverage for all 8,500 volunteer firefighters. The estimated premium amount is based on an estimate provided by the LA Workers Compensation Corp (LWCC). The Hartford Group also provided an estimate, but since the estimate did not meet the coverage requirement, it was not used. The funding in this BA-7 request provides for 2 premium payments: a \$988,103 payment due 10/31/09 for 6 months of coverage (11/1/09 - 4/30/10); and a \$1,976,206 payment due April 30th for 12 months of coverage (5/1/10 - 4/30/11). Based on the estimate provided by LWCC, the estimated coverage will have an average annual cost of approximately \$232 per volunteer firefighter. The State Fire Marshal will solicit bids for workers compensation coverage for volunteer firefighters from insurance carriers through state purchasing. Insurance carriers will have 10 days to respond to the bid. Insurance carriers are to submit a bid for the cost to provide unlimited medical coverage for injuries incurred in the line of duty for all 8,500 volunteer firefighters.

The LA Workers Compensation Corp. (LWCC) states it currently collects \$440,000 for premiums for workers compensations coverage for 2,800 volunteer firefighters (approximately \$157 per firefighter) from 210 fire districts. The LWCC is discontinuing its existing coverage effective 11/1/09. The existing LWCC policy provides unlimited medical coverage for in the line of duty injuries and \$7,500 for burial.

The State Fire Marshal's existing budget includes \$555,996 revenue from the 2% Fire Insurance Fund. The funding provides for premium payments to the Hartford Group for sickness and accident coverage for all volunteer fighters.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of the \$2.9M requested in this BA-7 would reduce funding to local governments by a like amount.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #1B and #1C.

The purpose of this BA-7 request is to increase Federal budget authority by \$7,481,583 in the Department of Health & Hospitals (DHH), Office of Public Health, Personal Health Services Program. These are 100% Federal funds from the Centers for Disease Control & Prevention. These federal funds were awarded to fill gaps and respond to ongoing and future emerging outbreaks of H1N1. No state match is required.

On 4/24/09, the DHH activated its Emergency Operation Center in response to emerging cases of novel Influenza A (H1N1). Following the recent H1N1 outbreak, DHH began assessing gaps in current pandemic preparedness and planning and developed a H1N1 planning initiative, which will be implemented in 2 Focus areas. Focus Area 1 will include activities such as conducting a H1N1 vaccination campaign to safely administer and distribute available H1N1 vaccine via large community clinics, public and private provider clinics, and other available dispensing locations; conducting an Influenza Public Education and Media Campaign to reach out to and educate the citizens of LA in general about seasonal and novel H1N1 influenza; increasing laboratory capacity and capability, and strengthening disease surveillance activities; table-top exercises with the Department of Education to prepare superintendents for a possible serious influenza season this fall; and technology upgrades for the Emergency Operations Center (EOC) and the LA Immunization Network for Kids Statewide (LINKS) computer systems for enhanced monitoring and tracking. Focus Area 2 will include activities such as implementation of a statewide training program to provide rapid and effective communication about Pandemic Influenza to hospitals and other clinical laboratories; expansion of Sentinel and Novel Influenza Surveillance; and utilization of electronic data sources to improve reporting and monitoring of influenza.

This funding will be allocated to the following expenditures:

Other Charges (\$2,786,675)

Emergency Alert Messaging Web-based System which will be used to communicate and send alerts to medical providers, hospitals, EMS, health units, and other public health partners involved in the emergency response process (**\$1.6M**); LINKS Web-based system programming upgrades to increase capacity to register additional medical providers and to allow for web-based training to teach medical providers how to use the system (**\$273,000**); LINKS hotline to answer medical provider questions (**\$1,200**); Equipment service contract (**\$36,957**); Extended Warranty (**\$8,450**); Transportation costs for samples (**\$14,409**); Table-top exercise training (**\$72,000**); Security costs (**\$11,275**); Shipping charges for antiviral distribution for H1N1 (**\$120,000**); Software maintenance (**\$33,120**); Indirect cost allocation charges (**\$216,664**); and Public Education and Media campaign, which includes the designing, printing, and mailing of promotional materials (**\$399,600**).

Other Compensation and Related Benefits (\$2,157,657)

Seventeen (17) temporary job appointment positions for nine months to implement the H1N1 planning initiative. These positions include one (1) Program Manager to manage and direct the statewide H1N1 vaccination planning efforts and provide supervision over regional program monitors (**\$82,621**); nine (9) Regional Program Monitors to coordinate H1N1 vaccination planning efforts and activities within their respective regions (**\$606,875**); two (2) State-Level Program Monitors to

Approved By JLCB

develop, review, and coordinate health messages and communications related to the H1N1 vaccination campaign **(\$134,861)**; one (1) Public Health Nurse to work with regional medical directors, nursing directors, and immunization consultants relative to the clinical components of the H1N1 vaccination planning efforts **(\$88,883)**; two (2) Laboratory Scientists to perform the increased H1N1 flu testing required **(\$118,425)**; and two (2) Administrative Coordinators to provide administrative and clerical support to the program manager and regional monitors, order and monitor supplies, ensure time and attendance records are properly completed and timely submitted, to process and review travel expense accounts; to perform data entry, and to answer telephone calls **(\$83,994)**; Ninety (90) temporary hourly employees for nine months to serve on strike teams to administer the H1N1 vaccine to priority at-risk groups and the general population. These positions include Fifty-four (54) Public Health Nurses **(\$594,375)**; Nine (9) Regional Immunization Supervisors **(\$99,090)**; and Twenty-seven (27) Administrative Coordinators **(\$348,533)**.

Operating Services (\$814,202)

H1N1 laboratory equipment service contracts **(\$45,407)**; Software maintenance fees for LINKS system **(\$115,920)**; Lease of 2 climate-controlled storage units for cold storage of antivirals and vaccines in each of the 9 regions **(\$399,600)**; Security for antivirals at receiving, staging, and shipping sites **(\$11,275)**; shipping charges for antiviral distribution, H1N1 planning with underserved population, and operation of a call back center to remind participants to come back for their second H1N1 vaccination shot **(\$242,000)**.

Interagency Contracts (\$784,352)

Contract with DHH-Office of the Secretary (OS) Bureau of Media & Communications for media campaign **(\$679,852)**; Contract with DHH-OS St. Tammany Tribal communities to provide for H1N1 planning **(\$19,500)**; Contract with DHH, OS Bureau of Minority Health for H1N1 planning **(\$46,000)**; Contract with Office of Aging & Adult Services for H1N1 planning with elderly population **(\$19,500)**; Contract with the Department of Social Services for H1N1 planning with childcare centers **(\$19,500)**.

Supplies (\$503,031)

Personal protective equipment for H1N1 response **(\$182,265)** and general office supplies for program staff **(\$320,766)**.

Acquisitions (\$391,202)

Laboratory equipment for H1N1 lab testing **(\$318,922)**; Seven (7) computer servers to increase current lab testing capacity from 105 tests daily to 250 **(\$35,343)**; Thirty (30) laptop computers for program staff to use for epidemiological surveillance and investigation of H1N1 cases **(\$33,500)**; EOC Reporting Module for LINKS **(\$3,437)**.

Travel (\$44,464)

Field travel for H1N1 program staff for surveillance, meetings, and investigations.

II. IMPACT ON FUTURE FISCAL YEARS

The federal grant budget period for these funds is 7/31/09 through 7/30/10; however, the agency can carry forward any unused funds until the project period expires on 7/31/12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

This BA-7 is a companion to BA-7 #1A for the Office of Public Health. The purpose of this BA-7 is to increase IAT budget authority by \$745,352 in the Department of Health & Hospitals, Office of the Secretary. Funds are being transferred from the Office of Public Health. The original source of funds requested to be transferred are 100% federal grant funds from the Center for Disease Control & Prevention. There is no state match requirement.

Grant funds will be utilized by the Office of the Secretary to implement an H1N1 vaccination campaign. Specifically, the Office of the Secretary will provide outreach and education about H1N1 preparedness, vaccinations, and mitigation for LA citizens. The campaign will be accomplished through various media campaigns and printed educational materials. Spending allocations are reflected below.

Media Campaign: TV, Radio, and Newspaper

\$94,932 - TV campaign of 3 spots per day for 2 weeks on network affiliate station and each cable network in all TV markets in the state (varying cost per TV spot)

\$46,800 - 30 second radio commercial statewide (\$650 per spot, twice a day, 3 days per week, for a total of 12 weeks)

\$150,000 - health messages in various newspapers in LA on 8 designated Sundays

Printing/Educational Material

\$54,000 - classroom materials (workbooks) used to educate children to avoid spreading flu infection. (100,000 workbooks @ 54 cents a book)

\$50,000 - educational video for public and private schools, community centers, and parish/city libraries. (10,000 videos @ \$5)

\$54,000 - educational handouts distributed to public through health fairs, community meetings and organizations (100,000 handouts/flyers @ 54 cents)

\$230,120 - internally produced brochures, flyers, handouts, posters printed for handout to public

\$19,500 - H1N1 vaccination planning and pandemic influenza preparedness through training with 7 federally recognized Indian tribes; (training exercises @ \$2,500 each, and \$2,000 for travel). OS will coordinate with the Office of Indian Affairs to facilitate prevention workshops, training, and announcements)

\$46,000 - H1N1 vaccine planning for under served populations through the Bureau of Minority Health. Contractor will assist low income communities in Grant parish with establishing their own emergency preparedness plan for hard-to-reach populations in the event of a pandemic flu outbreak. Deliverables include hosting community education through meetings, conducting health assessment surveys in the parish to gather information regarding community residents, and training on assembling emergency medical kits in the event of a pandemic flu outbreak.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. These funds are anticipated to be spent in FY 10.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 1C

AGENCY: Aging & Adult Services

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Admin Protection & Support	\$19,500	0
Interagency Transfers:	\$19,500	John J. Hainkel, Jr. Home & Rehab Center	\$0	0
Self-Generated Revenue:	\$0	Villa Feliciano Medical Complex	\$0	0
Statutory Dedications:	\$0	Auxiliary	\$0	0
Federal Funds:	\$0			
Total	<u>\$19,500</u>	Total	<u>\$19,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #1A.

The purpose of this BA-7 is to increase IAT budget authority by \$19,500 in the Department of Health & Hospitals (DHH), Office of Aging & Adult Services, Administration Protection & Support Program. The original source of the IAT is 100% Federal funds from the Centers for Disease Control & Prevention received by DHH Office of Public Health.

The agency will use these funds to implement a H1N1 vaccination campaign to prevent the spread of the flu in the elderly population. The funding will be allocated to the following expenditures: Design and printing of educational materials to mail to approximately 16,000 elderly clients (\$9,500), mailing labels and postage (\$8,000), and telephone hotline to respond to questions or concerns regarding H1N1 (\$2,000).

II. IMPACT ON FUTURE FISCAL YEARS

The federal grant budget period for these funds is 7/31/09 through 7/30/10; however, the agency can carry forward any unused funds until the project period expires on 7/31/12.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE

Interagency Transfers:	\$0			
Self-Generated Revenue:	\$500,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Office of State Parks (OSP) by \$500,000 in order to receive processing fees for reservations made by phone, internet and walk-in. OSP will collect these fees and remit them to a third party contractor. This contractor will provide all maintenance and upgrades on the equipment necessary to operate the reservation system, as well as personnel costs for the telephone reservation function.

Prior to 8/1/09, patrons were charged a \$3 processing fee for internet reservations only. The third party contractor would bill OSP monthly for the processing fees based upon the number of internet reservations. Due to the elimination of the State Parks Reservation Center, the processing fees for reservations made via the internet after 8/1/09 will increase from \$3 to \$5 per reservable facility and processing fees will be added to phone reservations (\$9 per reservable facility) and walk-in reservation (\$3 per reservable facility).

This BA-7 request for additional budget authority is based on the following historical information for the reservation types:

	Fee	# of Reservations	Amount
Internet Reservations	\$5	28,000	\$140,000
Phone Reservations	\$9	30,000	\$270,000
Walk-In Reservations	\$3	30,000	<u>\$90,000</u>
Total			<u>\$500,000</u>

II. IMPACT ON FUTURE FISCAL YEARS

These funds will annualized for the same amount in subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount \$458,333. This BA-7 request is based on historical information for a full year of reservations. Since the new fee schedule for processing fees was implemented on August 1st, the LFO recommends approval based on an 11 month prorated amount.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Public Safety

AGENDA NO.: 4

AGENCY: State Police

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement	\$917,567	0
Interagency Transfers:	\$0	Criminal Investigation	\$0	0
Self-Generated Revenue:	\$0	Operational Support	\$0	0
Statutory Dedications:	\$183,513	Gaming Enforcement	\$0	0
Federal Funds:	\$734,054	Auxiliary Account	\$0	0
Total	<u>\$917,567</u>	Total	<u>\$917,567</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Office of State Police is requesting approval to increase its budget authority to provide for increased enforcement of motor carrier safety regulations. The enforcement initiative will be centered on areas across the state identified as high crash corridors. These areas are generally I-10, I-12, and I-20. The agency is requesting approval to add \$183,513 in statutory dedications from the United Carrier Registration Agreement Fund and \$734,054 in federal funds. The statutory dedication provides for the state match, which is 20% of the total funding. The federal funds come from 3 separate federal grants, (1) the Commercial Motor Vehicle Traffic Enforcement grant (CMV), (2) the Safety Data Improvement Program grant (SADIP), and (3) the Ticketing Aggressive Cars and Trucks Readiness grant (TACT). The CMV grant, which includes \$395,101 federal funds, provides additional resources for commercial motor vehicle traffic enforcement, public education and equipment. The SADIP grant, which includes \$270,746 federal funds, provides for improvements in the collection and analysis of bus and commercial motor vehicle crash data. The TACT grant, which includes \$68,207 federal funds, provides for the planning, developing and submission of a future TACT traffic enforcement grant.

Act 724 of 2008 established the United Carrier Registration Agreement Fund. All revenue collected by the department under the unified carrier registration agreement is deposited in the fund. All unexpended money in the fund at the end of a fiscal year remains in the fund. The money in the fund is to be used exclusively by the department for motor carrier safety programs, enforcement, or the administration of the unified carrier registration plan and the unified carrier registration agreement. In FY 09 the Treasurer reports that \$1.8M was deposited in the fund. FY 09 expenditures from the fund total \$235,606, which leaves a surplus of \$1.6M in the fund from prior year collections. The agency is anticipating current year collections to total more than \$2M. FY 10 existing expenditure authority totals \$1,475,968, leaving a \$0.5M of unbudgeted revenue from current year collections. Approval of this BA-7 request will leave a balance of approximately \$1.9m of unbudgeted revenue at the end of FY 10.

The requested funding will be utilized to provide for the following expenditures: \$436,250 for overtime; \$57,625 for 25 radar devices (\$2,305 each); and \$423,692 for a professional services contract with LSU to provide crash data and violation data analysis which will be utilized to identify high crash corridors.

II. IMPACT ON FUTURE FISCAL YEARS

Based on the grant agreements signed by State Police and the federal government these are multi-year grants which extend into FY 10. The CMV and TACT grants expire on 9/30/10. The estimated date of completion for the SADIP grant is 1/29/11. The agency states that it is planning on expending all grant funding in the current fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0			
Total	<u>\$3,100,000</u>	Total	<u>\$3,100,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase budget authority for the Public Oyster Seed Ground Development Account in the Fisheries Program in the amount of \$3.1M (from \$494,000 to \$3,594,000). Monies in the fund are used to enhance the state's public oyster seed grounds through, among other uses, cultch deposition (oyster reef rehabilitation). Cultch deposition is utilized along the coast in the Gulf of Mexico and these services are contracted out to private companies, with primary costs being the cultch material (i.e. oyster shell, clam shell, limestone, crushed concrete). The source of revenue to the fund is compensation received by the Department of Wildlife & Fisheries associated with activities (primarily oil and gas) occurring on or over the public oyster areas of the state that cause damage. The balance in the account as of 7/1/09 was \$3,978,183 and projected FY 10 revenue is \$3.5M, due to the increased compensation collection efforts. If this BA-7 request is approved, the projected fund balance as of 06/30/10 will be approximately \$3.8M.

II. IMPACT ON FUTURE FISCAL YEARS

These funds will annualized for the same amount in subsequent fiscal years.

Total	<u>\$100,000</u>	Total	<u>\$100,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Office of the Secretary by \$100,000 in order to receive a grant from the LA Highway Safety Commission. The original source of this funding is from the United States Department of Transportation Alcohol Traffic Safety & Drunk Driving Prevention Incentive Grant. The purpose of the grant is to enhance the Wildlife & Fisheries DWI Cooperative Enforcement Program. Specifically, enforcement agents will assist other state and local agencies in saturation patrols (checkpoints) and by increasing DWI patrols. Enforcement agents frequently patrol on the roadways in rural parts of the state which may not have as much law enforcement presence as other areas. The department currently has 2 mobile command centers which are fully capable of processing and temporarily holding subjects suspected of DWI. Funding will be utilized for 3,050 hours of overtime (\$98,550) and related benefits-Medicare (\$1,450). No matching requirements are necessary from the State in order to receive this grant. These enforcement actions will be in addition to ongoing DWI enforcement on waterways.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$0			
Total	<u>\$193,574</u>	Total	<u>\$193,574</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Department of Wildlife & Fisheries, Office of the Secretary by \$193,574 in order to receive funding from the Governor's Office of Homeland Security & Emergency Preparedness. The source of the 2 federal grants is the United States Department of Homeland Security. No matching requirements are necessary from the State for either grant.

The purpose for the first grant in the amount of \$180,000 is to provide backup power generator service to the Wildlife and Fisheries Emergency Command Center at 2000 Quail Drive in Baton Rouge. Funding will be expended for the acquisition of a 400 Kw generator and fuel tank (\$108,900) and this installation (\$71,100). The installation of the generator will be bid out and the projected cost for installation is based on an electrician's estimate for installation which includes placement, slab modifications, electrical wiring, and testing. Upon completion the generator will power the entire complex.

The second grant in the amount of \$13,574 will provide swift water rescue training to enforcement agents for search and rescue response functions. The Department of Wildlife & Fisheries is the lead agency for the functions of Search and Rescue and Maritime Security for the State of Louisiana. Dive and Rescue Educators will provide this training to the department's agents who are the primary providers of these rescue functions.

II. IMPACT ON FUTURE FISCAL YEARS

The Department of Wildlife and Fisheries has indicated that maintenance costs of the generator will be minimal and will be incorporated in subsequent fiscal years budgets.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE

Federal Funds:	\$1,475,000			
Total	<u>\$1,475,000</u>	Total	<u>\$1,475,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$1.475M of federal funds into the Enforcement Division of the Office of the Secretary. Pursuant to a Joint Enforcement Agreement (JEA), the Federal funds were earmarked for cooperative enforcement endeavors between the U.S. Department of Commerce (DOC), National Oceanic Atmospheric Administration, Office of Law Enforcement (NOAA/OLE) and the State of LA Department of Wildlife & Fisheries Law Enforcement Division (LDWF/LE). The Joint Enforcement Agreement is to facilitate the operations, administration and funding of the LDWF/LE to enforce federal laws and regulations under the Magnuson-Stevens Fishery Conservation & Management Act and the Lacey Act. These funds will enable the State of Louisiana to aid the federal government in fishery conservation and management activities. The NOAA has the authority under these 2 Acts to utilize the personnel, services, equipment, and facilities of state agencies on a reimbursable basis or otherwise.

The Department of Wildlife & Fisheries will budget these funds as follows:

salaries - \$375,500 (13,800 hours of overtime)
related benefits - \$5,450 (Medicare)
travel - \$20,580 (routine field travel)
operating services - \$70,100 (repairs to boats and electronics and other operating services)
supplies - \$355,600 (fuel, oil, boat accessories)
acquisitions - \$636,970 (9 outboard motors, 2 replacement vehicles, and 5 patrol vessels with trailers)
major repairs - \$10,800 (major repairs to boats)

The 13,800 hours of overtime was calculated as described in the Joint Enforcement Agreement. Outboard motors range in price from \$12,000 to \$14,000. Replacement vehicles are \$27,567 each. Patrol vessels range in price from \$86,201 (21 feet) to \$106,344 (24 feet).

No matching requirements are necessary from the State.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

		Agro-Consumer Services	\$0	0
Federal Funds:	\$3,986,149	Forestry	\$3,986,149	0
Total	<u>\$3,986,149</u>	Total	<u>\$3,986,149</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget additional federal budget authority in the amount of \$3,986,149 within the Forestry Program for the remaining federal grant balances of 16 various federal grants awarded in prior fiscal years to the department from the U.S. Forest Service. The department requested and received extensions for these grants from the U.S. Forest Service. These grants fall into four broad federal programs: Urban & Community Forestry, State Fire Assistance, Forest Health and Forest Stewardship. According to the department, there is insufficient federal budget authority within the Forestry Program to expend these grant funds in FY 10. These grants are on a reimbursable basis, meaning the department must expend SGF before the department receives the federal grant funding. The amount of the requested BA-7 represents the remaining amount the department can draw down from the federal government. For the specific grant programs that required a state match, the department currently has the necessary appropriation.

Below is a table of each grant, original grant amount and the remaining balance to be appropriated via this BA-7.

<u>Program #</u>	<u>Original Award</u>	<u>BA-7 Amount</u>	<u>Program/Project</u>
4245	\$255,000	\$98,734	Forest Land Enhancement Program
4166	\$2,347,335	\$64,412	State Fire Assistance - Preparedness
4726	\$1,320,000	\$1,020,816	Emergency Forestry Conservation Reserve Program
4286	\$400,000	\$398,889	Southern Pine Beetle Insect Disease Control
4246	\$125,000	\$100,000	Forest Land Enhancement Program
4157	\$1,920,358	\$12,743	Urban & Community Forestry
4167	\$2,017,165	\$311,551	State Fire Assistance - Preparedness
4158	\$293,135	\$179,876	Urban and Community Forestry
4168	\$442,166	\$442,166	State Fire Assistance - Preparedness
4168	\$352,736	\$323,119	State Fire Assistance - Mitigation
4178	\$150,696	\$69,318	Forest Health
4268	\$310,857	\$217,171	Volunteer Fire Assistance
4618	\$9,729	\$9,729	Forest Legacy
4708	\$165,335	\$113,664	Forest Stewardship Program
4629	\$500,000	\$500,000	State Fire Assistance - Mitigation
4709	\$123,961	\$123,961	Emergency Conservation Program
TOTAL	<u>\$10,733,473</u>	<u>\$3,986,149</u>	

The line item expenditures, which have been authorized by the federal grant programs, are: \$1,237,028 - salaries, \$530,156 - related benefits, \$2,218,965 - other charges. Below are the specific expenditures for the \$3.99M requested federal budget authority.

4245 - Forest Land Enhancement Program (\$98,734): \$33,100 cost share to landowners, \$65,634 salaries.

4166 - State Fire Assistance-Preparedness (\$64,412): \$1,915 safety lights, \$13,383 apparel, \$49,114 (4) firefighting brush trucks.

4726 - Emergency Forestry Conservation Reserve Program (\$1,020,816): \$1,020,816 salaries.

4286 - Southern Pine Beetle Insect Disease Control (\$398,889): \$320,000 cost share to landowners, \$78,889 salaries.

September 18, 2009

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

4246 - Forest Land Enhancement Program (\$100,000): \$100,000 cost share to landowners
4157 - Urban & Community Forestry (\$12,743): \$12,743 cost share.
4167 - State Fire Assistance-Preparedness (\$311,551): \$193,614 pumper trucks, \$50,000 tower and radio leases statewide, \$30,000 satellite radio fees, \$37,937 district fire supplies.
4158 - Urban & Community Forestry (\$179,876): \$74,703 cost share, \$105,173 salaries.
4168 - State Fire Assistance (\$442,166): \$125,000 water handling firefighting equipment, \$50,000 fire shelters, \$30,000 fire and all-risk incident training, \$25,000 personal protective equipment, \$212,166 radios and supplies.
4168 - State Fire Assistance (\$323,119): \$144,542 contract with LA Forestry Association, \$100,000 salaries, \$30,000 Smokey billboards, \$15,000 administrative fees, \$13,577 fire prevention items for district, \$10,000 training, \$10,000 firewise publications.
4178 - Forest Health Program (\$69,318): \$18,318 salaries & supplies needed for forest health monitoring, \$51,000 contracts related to forest health.
4268 - Volunteer Fire Assistance (\$217,171): \$186,171 supplies and equipment for volunteer fire departments, \$31,000 salaries.
4618 - Forest Legacy (\$9,729): \$9,729 salaries.
4708 - Forest Stewardship Program (\$113,664): \$113,664 salaries.
4629 - State Fire Assistance-Mitigation (\$500,000): \$50,000 training for Community Wildfire Protection Plans, \$150,000 Community Wildfire Protection Plan contracts, \$250,000 Community Wildfire Protection Plans mitigation work and equipment, \$50,000 salaries.
4709 - Emergency Conservation Program (\$123,961): \$123,961 salaries.

According to the department, the Forestry Program's 265 positions were not fully funded in FY 10. The current FY 10 existing operating budget within the Forestry Program for salaries is \$12,476,517 and for related benefits is \$530,156. According to the department, these budgetary amounts only fully fund the program's 250 filled positions. Upon approval of this BA-7, the additional \$1.24M in salaries and the additional \$0.5M in related benefits could fund the additional 15 vacant positions in the salary/related benefit expenditure category. However, even if the salary/related benefit expenditure categories are fully funded, other expenditure categories, such as operating services, will not be fully funded for these 15 positions. The department has indicated to the Legislative Fiscal Office that the commissioner of agriculture and forestry is in the process of determining the level of staffing and expenditure category allotments for the Forestry Program in FY 10. At this time, it is not known as to what those potential expenditure shortfalls might be until the commissioner of agriculture and forestry determines the level of staffing and expenditure category allotments of the Forestry Program.

II. IMPACT ON FUTURE FISCAL YEARS

The department does not anticipate the U.S. Forest Service providing further grant extensions beyond FY 10. Thus, this federal budget authority can be reduced during the FY 11 budget development process.

These federal grants are one-time and are anticipated to be completely expended in FY 10. To the extent the Forestry Program is not awarded any other federal grants in FY 11, the department may need additional state general fund support in FY 11 for salaries and related benefits expenditures currently funded with these federal grants if these positions are to be maintained. However, the department does apply for new federal grants each year for funding from these same federal grant programs.

Ultimately any funding needs will be determined by the program structure, which is yet to be finally determined by the commissioner of agriculture and forestry.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the amount of \$808,717 and the remaining request of \$3,177,432 be placed in unallotted (\$1,237,028 - salaries, \$530,156 - related benefits, \$1,410,248 - other charges). The commissioner of agriculture and forestry is in the process of determining the Forestry Program structure and staffing needs. Until this plan is known, the Legislative Fiscal Office recommends that these funds be placed in unallotted, which would require the department to submit additional BA-7s to the JLCB to budget/expend these federal funds once the plan is complete.

The approved amount of \$808,717 represents contractual obligations/pass-throughs of the department associated with these federal grants. Those various obligations include: cost share to forest landowners for invasive species control measures and site rehabilitation following fire or catastrophic events, pass-through funding to various organizations for reforestation projects (planting trees) and pass-through funding to volunteer fire departments for equipment.

Total	<u>\$3,986,149</u>	Total	<u>\$3,986,149</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget additional federal budget authority in the amount of \$3,986,149 within the Forestry Program for the remaining federal grant balances of 16 various federal grants awarded in prior fiscal years to the department from the U.S. Forest Service. The department requested and received extensions for these grants from the U.S. Forest Service. These grants fall into four broad federal programs: Urban & Community Forestry, State Fire Assistance, Forest Health and Forest Stewardship. According to the department, there is insufficient federal budget authority within the Forestry Program to expend these grant funds in FY 10. These grants are on a reimbursable basis, meaning the department must expend SGF before the department receives the federal grant funding. The amount of the requested BA-7 represents the remaining amount the department can draw down from the federal government. For the specific grant programs that required a state match, the department currently has the necessary appropriation.

Below is a table of each grant, original grant amount and the remaining balance to be appropriated via this BA-7.

<u>Program #</u>	<u>Original Award</u>	<u>BA-7 Amount</u>	<u>Program/Project</u>
4245	\$255,000	\$98,734	Forest Land Enhancement Program
4166	\$2,347,335	\$64,412	State Fire Assistance - Preparedness
4726	\$1,320,000	\$1,020,816	Emergency Forestry Conservation Reserve Program
4286	\$400,000	\$398,889	Southern Pine Beetle Insect Disease Control
4246	\$125,000	\$100,000	Forest Land Enhancement Program
4157	\$1,920,358	\$12,743	Urban and Community Forestry
4167	\$2,017,165	\$311,551	State Fire Assistance - Preparedness
4158	\$293,135	\$179,876	Urban and Community Forestry
4168	\$442,166	\$442,166	State Fire Assistance - Preparedness
4168	\$352,736	\$323,119	State Fire Assistance - Mitigation
4178	\$150,696	\$69,318	Forest Health
4268	\$310,857	\$217,171	Volunteer Fire Assistance
4618	\$9,729	\$9,729	Forest Legacy
4708	\$165,335	\$113,664	Forest Stewardship Program
4629	\$500,000	\$500,000	State Fire Assistance - Mitigation
4709	\$123,961	\$123,961	Emergency Conservation Program
TOTAL	<u>\$10,733,473</u>	<u>\$3,986,149</u>	

This BA-7 appropriates additional budget authority as follows: \$298,275 - salaries, \$1,081 - other compensation, \$174,785 - related benefits, and \$3,512,008 - other charges. According to the department, there are approximately 25 vacant positions of which only 17 are funded vacant positions. The current existing operating budget within personal services is: \$10,859,537 - salary, \$22,806 - other compensation, \$3,334,739 - related benefits. Upon approval of this BA-7, all 25 vacant positions will be fully funded for personal services in FY 10. However, the department has indicated to the Legislative Fiscal Office it does not intend to fill those positions.

September 18, 2009

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Amended: Approved by JLCB

The other charges expenditure authority is for programatic expenditures associated with these various federal grant programs. Examples of those grant programs include include: cost share to forest landowners for invasive species control measures and site rehabilitation following fire or catastrophic events, pass-through funding to various organizations for reforestation projects (planting trees) and pass-through funding to volunteer fire departments for equipment.

II. IMPACT ON FUTURE FISCAL YEARS

The department does not anticipate the U.S. Forest Service providing further grant extensions beyond FY 10. Thus, this federal budget authority can be reduced during the FY 11 budget development process.

These federal grants are one-time and are anticipated to be completely expended in FY 10. To the extent the Forestry Program is not awarded any other federal grants in FY 11, the department may need additional state general fund support in FY 11 for salaries and related benefits expenditures currently funded with these federal grants if these positions are to be maintained. However, the department does apply for new federal grants each year for funding from these same federal grant programs.

Ultimately any funding needs will be determined by the program structure, which is yet to be finally determined by the commissioner of agriculture and forestry.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the full amount of \$3,986,149. In addition, the Legislative Fiscal Office further recommends that the Department of Agriculture & Forestry report back to the JLCB of its intentions concerning the additional personal services this BA-7 provides and the current 25 vacant positions.

DEPARTMENT: Executive

AGENDA NO.: 11

AGENCY: LA Commission on Law Enforcement

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Federal Programs	\$2,132,194	0
Interagency Transfers:	\$0	State Programs	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$2,132,194			
Total	<u>\$2,132,194</u>	Total	<u>\$2,132,194</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal grant funds provided to the LA Commission on Law Enforcement (LCLE) through the American Recovery & Reinvestment Act (ARRA). The title of the grant is Stop Violence Against Women and will be used to assist state, local, and tribal efforts to prevent or reduce crime and violence. Funds will be used for training and the development of a variety of programs aimed at reducing violence against women. Applications from various entities have been reviewed by the staff of the LCLE and final distribution will be determined by the commission prior to the meeting of the JLCB on September 18th. The grant funds will be distributed as follows as determined by LCLE:

- at least 25% to law enforcement
- at least 25% to prosecutors
- at least 30% to nonprofit, nongovernmental victim services groups of which at least 10% is to be distributed to culturally specific community-based organizations
- at least 5% to state and local courts, and
- 15% discretionary (LCLE notes that 5% of discretionary funds will be distributed to both law enforcement and prosecutors leaving a balance of 5% discretionary).

The grant award allows for up to 10% to be used for administration. The LCLE has requested a total of \$187,089 (8.7%) for its administrative costs related to this grant funding. Funding for salaries and related benefits of existing employees will be funded on a prorated basis for the time spent on this program.

The proposed expenditures related to these grant funds are as follows:

Salaries and related benefits - \$161,144
Travel - \$12,045
Operating Services - \$6,700
Supplies - \$3,000
Acquisitions - \$4,200
Other Charges - \$1,945,105 (distribution explained above)

Total - \$2,132,194

II. IMPACT ON FUTURE FISCAL YEARS

The LCLE notes that this is a 2 year grant. Any unexpended grant funds from FY 10 will be carried forward and spent in FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>\$37,400,000</u>	Total	<u>\$37,400,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to fund a project with ConAgra Foods Lamb Weston, Inc., (ConAgra) through the LA Mega-Project Development Fund. The project involves the construction of a large-scale, frozen sweet potato processing facility near Delhi in Richland Parish in northeast LA with emphasis on state-of-the-art technology and environmentally conscious practices. The project is split into 2 phases with phase 1 to be completed by June 30, 2011 employing at least 275 full-time workers and requiring \$156M in capital expenditures by ConAgra. Phase 2 is scheduled for completion by January 1, 2014 with at least 500 full-time employees and at least an additional \$55M in capital expenditure by ConAgra. It is expected that ConAgra will invest at least \$211M in the new facility, with a planned opening in November 2010. Approval of this appropriation will provide a grant to ConAgra for use in purchasing plant processing equipment and site infrastructure.

The agreement provides for three alternative plans, one of which will be selected by ConAgra by December 31, 2012, each with increasing capital expenditures and required job counts. In all three alternatives, the state will pay \$32.4M to ConAgra for the Phase 1 development on a reimbursable basis (50% state match) and ConAgra will provide at least \$211M in capital expenditures. The first alternative allows no additional state funding and serves as the minimum requirements of the project with 500 jobs created in years 5-15 of the agreement. The second alternative provides an additional state payment of \$2.4M if ConAgra disburses an additional \$15M on capital expenditures with 550 jobs created in years 7-15 of the agreement. The third and largest alternative is for the state to provide an additional payment of \$5M if ConAgra disburses an additional \$45M and creates 600 jobs in years 7-15 of the agreement.

The cooperative endeavor agreement also provides for the FastStart training program tailored to the ConAgra project, but LED has stated that no additional appropriation will be requested as this service can be funded through the current budget. As in other Mega-project agreements, an extensive clawback mechanism is provided in the case of default. This agreement also provides that the state will not offer any discretionary incentives to a direct national competitor for a LA sweet potato processing facility for three years from the earlier of the commencement of operations or January 1, 2011.

ConAgra operates 20 plants around the world with more than 6,000 employees. The company is traded on the New York Stock Exchange as CAG and is a Fortune 500 company. The Lamb Weston division specializes in potato products and is a leading provider to restaurants and food retailers worldwide.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have an impact on future fiscal years as a portion of this appropriation is carried forward to match the scheduled expenditures according to the requirements of the agreement, which is on a reimbursable basis.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request contingent upon approval of the associated Cooperative Endeavor Agreement for the ConAgra Foods Lamb Weston project by the Joint Legislative Committee on the Budget.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Justice

AGENDA NO.: 1

AGENCY: Attorney General

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$185,000	Civil Law	\$185,000	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$0	0
Statutory Dedications:	\$0	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$185,000</u>	Total	<u>\$185,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The agency is requesting approval to add \$185,000 IAT to its budget to be able to continue to provide legal support to the LA Coastal Protection & Restoration Authority. Although the Attorney General's Office currently provides legal support to the coastal protection authority, it receives no funding from coastal protection for providing this legal support. Due to an increase in workload and funding for coastal restoration and protection, the number of cooperative agreements have increased. In order to continue providing legal support to the coastal protection authority, the attorney general is requesting an increase in funding. The IAT revenue in this BA-7 comes from the Department of Natural Resources. It originates from the Coastal Protection Fund and the current year's projected collections is \$26.8M. The requested funding will be utilized to provide funding for the following expenditures: \$174,500 for salaries and related benefits; \$4,500 for travel; \$3,500 for supplies; and \$2,500 for computer equipment. Funding for salaries will allow the agency to fill existing unfunded vacant positions to handle the additional workload.

II. IMPACT ON FUTURE FISCAL YEARS

The Department of Natural Resources has agreed to provide two years funding for continuing legal support for the coastal protection authority. No specific funding for this service has been identified past this time period.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

August 14, 2009

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Justice

AGENDA NO.: 2

AGENCY: Attorney General

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Civil Law	\$0	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$0	0
Statutory Dedications:	\$61,008	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$61,008	0
Total	<u>\$61,008</u>	Total	<u>\$61,008</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase statutory dedicated budget authority from the Video Draw Poker Device Fund in the amount of \$61,008 for a professional service contract with Taylor, Porter, Brooks & Phillips to assist with specialized gaming legal work. According to the Office of Contractual Review (OCR), contract terms are from 5/1/08 to 4/30/11 in the amount of \$100,000 (contract #664729). The Department of Justice (DOJ) has expended a total of approximately \$18,279 on this legal services contract in previous fiscal years (FY 08 & FY 09). Due to there being \$20,713 of budget authority within the FY 10 base, the DOJ is requesting the additional unexpended contract amount of \$61,008.

According to the latest adopted revenue forecast, in FY 10 the state is projected to collect approximately \$214M from video draw poker permit fees/licenses of which approximately \$66.3M is projected to be dedicated, which is based upon prior year appropriations and statutory provisions. The various dedications, which are listed in R.S. 27:312, include: enforcement activities within the Department of Public Safety (DPS) and the DOJ, local allocation which includes \$5.4M to the District Attorneys, \$500,000 to the Compulsive Gaming Program and an allocation for horse racing purse supplements. Based upon the total FY 10 initial appropriations of \$60.7M, there is approximately \$5.6M of projected dedicated revenues not yet appropriated, but accounted for in the latest revenue estimate.

FY 10 Appropriation from Video Draw Poker Revenues:

DOJ	\$2,092,618
DPS	\$6,710,263
District Attorneys	\$5,400,000
Local allocation	\$42,607,500
Horse Supplements	\$3,350,246
Compulsive Gaming	<u>\$500,000</u>
TOTAL	\$60,660,627
REC dedicated est.	<u>\$66,300,000</u>
	<u><u>\$5,639,373</u></u>

II. IMPACT ON FUTURE FISCAL YEARS

To the extent all legal services associated with this contract are not completed in FY 10, the remaining amount on the contract will presumably be carried forward into FY 11 via a carry forward BA-7.

Although there is Video Draw Poker funding available for this BA-7 request within the DOJ, due to this fund reverting to the SGF at the end of the fiscal year (R.S. 27:312(C)(3)), any additional appropriation in FY 10 will decrease the SGF amount that would otherwise revert at the end of FY 10.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

August 14, 2009

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

historical spending data, DOJ annually expends approximately \$22,284 per year for professional legal services to Taylor, Porter, Brooks & Phillips for specialized gaming legal work. However, the department did pay the law firm approximately \$40,000 in FY 06. Due to \$20,713 being in the base budget for this contract in FY 10, the Legislative Fiscal Office recommends this BA-7 request be reduced from \$61,008 to \$19,287, which will provide the department \$40,000 in its FY 10 budget, which represents the highest expenditure over the past 5 fiscal years. The historical expenditures are as follows: FY 05 - \$20,135, FY 06 - \$38,928, FY 07 - \$10,709, FY 08 - \$26,602, FY 09 - \$15,044.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal budget authority in order to re-budget the remaining grant funds to the LA Serve Commission for distribution to AmeriCorps programs. Funds were made available from the Corporation for National & Community Service for the purpose of paying stipends to subgrantees for disaster relief activities in the aftermath of hurricanes Katrina and Rita. Disaster relief activities include gutting and restoring homes, debris removal, tutoring and mentoring of students, and identifying resources needed by the individuals affected by the hurricanes to provide them food and shelter, schooling, health and human needs and all other needs as identified through individual and community assessments.

Approximately \$6.6M of this specific AmeriCorps Formula Grant has been disbursed. Formula grants are monies available to each state based on population. Typically, LA is awarded approximately \$1.2M per year. Following the hurricanes of 2005, unused formula federal funding from across the U.S. was compiled and redistributed among the 5 coastal states for disaster recovery purposes. Distribution of these monies are decided at the state level and does not require a federal competitive process.

No state match is required in order to receive this grant.

II. IMPACT ON FUTURE FISCAL YEARS

I. SUMMARY/COMMENTS

This BA-7 transfers SGF from the Office of Secretary to the Office of Tourism's Marketing Program within the Department of Culture, Recreation, & Tourism. Act 122 (Supplemental Appropriation Bill) of 2009 appropriated \$508,877 to the Office of the Secretary. This is a technical BA-7 that places the funding into the correct agency that will utilize these funds.

The Office of Tourism's Marketing Program main funding source is the LA Tourism Promotion District (LTPD). This self-generated fund is comprised of three one hundredths of 1 cent of the sales and use tax for the purpose of assisting the state for out-of-state advertising and promoting tourism in LA. During the legislative process, a number of initiatives that are normally funded with state general funding were swapped with the self-generated funding source of the LTPD.

Funding from this BA-7 is not tied specifically to any of the Marketing Program's activities, but will supplement the LTPD in absorbing some of these initiatives.

This BA-7 is a companion to #5B, which increases the Office of Tourism's funding by like amount.

II. IMPACT ON FUTURE FISCAL YEARS

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer budget authority from the Cultural Development Program to the Administration Program within the Office of Cultural Development with the Department of Culture, Recreation & Tourism. Act 122 (Supplemental Appropriation Bill) of 2009 appropriated \$312,266 in the Office of Cultural Development for the World Cultural Economic Forum. This is a technical BA-7 that places the funding in the correct program that will administer this event.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal budget authority in order to re-budget the remaining grant funds from the U.S. Department of Interior, National Park Service for the purpose of stabilization and repair of historic and archaeological properties damaged by hurricanes Katrina and Rita and to provide technical assistance in this effort.

This BA-7 consists of two parts: Section 106 Compliance Grant and Historic Building Recovery Grant Program (HBRGP). Pursuant to Section 106 of the National Historic Preservation Act, \$1.3M was awarded to the Office of Cultural Development's State Historic Site Preservation Office (SHPO) for the costs of performing prompt reviews of all Federally funded or sponsored projects. This Act establishes that the SHPO has the responsibility for consulting federal agencies about the impact of their undertakings on historic properties in LA. This BA-7 provides for the remaining \$184,071 from this grant and will be used for personal services for existing staff.

HBRGP awards grants to owners of homes and other historic sites on the National Register of Historic Places or considered eligible to be placed on the National Register. The purpose of HBRGP is to award grants to repair homes and other historic sites damaged after hurricanes Katrina and Rita. The Office of Cultural Development promoted the grants through a public process and published grant guidelines and applications. Applications that were received were reviewed for eligibility and criteria set forth in the guidelines. Eligible applications are reviewed, scored, and ranked. Approximately 568 grants have been awarded with payments totaling approximately \$19M. This BA-7 provides for the remaining \$400,000 to be disbursed from this grant. These funds have been granted but the projects are not yet completed so final payments have not yet been made.

No state matching funds are required for these grants.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$72,043</u>	Total	<u>\$72,043</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT by \$72,043 to Dixon Correctional Institute for the personnel expenses (salary and related benefits) of a Corrections Security Officer (CSO), who supervises a work crew at Corrections' headquarters. The source of interagency transfers is Corrections Administration program. Corrections Administration is reimbursing Dixon Correctional Institute for services rendered by the CSO. CSO's supervise inmate work crews while they provide maintenance, janitorial, grounds and related services.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will require \$72,043 in interagency transfer funds to be appropriated in subsequent fiscal years to maintain these services.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

AGENDA NO.: 11

AGENCY: Adult Probation & Parole

ANALYST: Kristy F. Gary

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$600,000	Field Services	\$600,000	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$600,000</u>	Total	<u>\$600,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$600,000 in IAT from the Governor's Office Homeland Security & Emergency Preparedness (GOHSEP) to the Department of Public Safety & Corrections, Probation & Parole. The original source of funds is a federal grant through the Law Enforcement Terrorism Prevention Program. There are no matching requirements for this grant.

These funds will establish a Probation & Parole Information Integration & Applications solution that would connect critical law enforcement with Probation & Parole systems and personnel. A database system will be developed to connect the Probation & Parole case management system with the LA Civil & Criminal Information Exchange (LACCIE) system. The integration will allow local and state law enforcement personnel to have real-time access to critical parole and probation violation information in the field. \$600,000 will provide for professional services to develop, implement and support the comprehensive plan to connect and integrate the Probation & Parole and LACCIE systems.

\$600,000 in professional services provides for Phase I, which creates the essential program development and support, and includes:

- Flexible and reusable connectivity to the Probation & Parole database
- Core applications for Probation & Parole personnel
- Law enforcement user notification of possible parole and probation violations through LACCIE
- Summary reporting of all contacts by law enforcement with a brief description of outcomes
- Probation & Parole officer notification of touches and trigger events from LACCIE and AFIS LifeScan

It should be noted that the proposal for this system had 3 phases. This BA-7 only includes funding for Phase I. Funding for Phase II and III, which are considered additional upgrades to the system, would be evaluated in future years through the budget development process.

II. IMPACT ON FUTURE FISCAL YEARS

SGR derived from probation and parole supervision fees will be used to fund the \$100,000 needed in FY 11 and future fiscal years for maintenance and support of the system. The department anticipates having sufficient revenues to fund these expenditures.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal funds budget authority by \$2,900,892 in the Department of Health & Hospitals, Office for Citizens with Developmental Disabilities, Community-Based Program. These are 100% Federal American Recovery & Reinvestment Act (ARRA) supplemental grant funds received from the U.S. Department of Education Individuals with Disabilities Education Act (IDEA) Part C.

With the aid of the ARRA funding, OCDD will be able to enhance Early Step program services through additional provider training and contract with LSU Health Center Services Division to jointly develop an Early Intensive Treatment (EIT) Pilot program to provide applied behavior modification services to children with Autism Spectrum Disorders. Participants for the pilot will be identified through the current Early Steps screening process and will be limited to the southern areas of the state. The focus of this pilot is on early intervention and therefore will concentrate on children between the ages of 18 months and 3 years old.

The supplemental IDEA Part C grant funds will be allocated as follows:

Training and Service Delivery Pilot (\$1M) – Provide additional statewide training to Early Steps providers to increase provider service capacity throughout the state.

EIT Pilot (\$750,000) - Design and develop a multidisciplinary service delivery model using Applied Behavior Analysis (ABA) techniques within the Early Steps system; provide behavior modification services to children and families in the pilot; provide training to Early Steps providers to use ABA techniques identified by the model; develop cost projections to implement the model statewide.

Data Management (\$650,892) – Provide software upgrades and make data changes proposed by OCDD consultant for the Early Steps data system.

Service Delivery – Data Accountability (\$250,000) - Develop and implement an electronic system to input Individual Family Support Plan and Individual Support Plan data to enable the agency to track individual outcomes and federal IDEA Part C performance outcome requirements.

Training (\$125,000) - Provide Infant Mental Health training for providers as part of the Children's Cabinet Bright Start priority.

Provider Capacity Building/Service Delivery (\$125,000) - Provide support for current Early Steps special instructors to obtain early intervention certification through university training programs.

II. IMPACT ON FUTURE FISCAL YEARS

The total ARRA supplemental IDEA Part C grant funds awarded to the agency is \$5,801,784. The agency will receive the

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal budget authority in the amount of \$3.025M in order to accept federal stimulus funds from the American Recovery & Reinvestment Act of 2009. Funding is from the National Oceanic & Atmospheric Administration (NOAA) Coastal Marine Habitat Restoration Project and will be utilized to add approximately 50 acres of marsh restoration to the existing Bayou Dupont Restoration project located in Jefferson Parish that is currently under construction. This funding will be budgeted in other charges and expenses include project construction (\$2,916,252), contractual (\$72,500) and project administration (\$36,248). Contractual expenses include consulting contracts for the construction and supervision of the project. Project administration expenses include salaries, equipment, travel and supplies.

No state match is required in order to receive this grant.

Total	<u>\$3,000,000</u>	Total	<u>\$3,000,000</u>

I. SUMMARY/COMMENTS

The purpose of the proposed BA-7 request is to appropriate the annual allocation of taxable net slot machine proceeds collected from the licensed eligible gaming facility in Orleans Parish (Fairgrounds racetrack) as provided by Act 591 of 2006. Pursuant to that act, La. R.S. 27:392(C)(1) and (2) provide that the state treasurer is required each fiscal year to deposit 30%, not to exceed \$2M, out of the net slot machine proceeds collected from the Fairgrounds racetrack to the Beautification & Improvement of the New Orleans City Park Fund; and 20%, not to exceed \$1M, to the Greater New Orleans Sports Foundation Fund.

Act 10 of 2009 (Appropriations Bill for FY 10) appropriated \$200,000 out of the Beautification & Improvement of the New Orleans City Park Fund to the New Orleans City Park Improvement Association. Approval of this BA7 would bring the total FY 10 appropriation to the New Orleans City Park Improvement Association to \$2.2M. Approval of this BA7 would also appropriate \$1M for FY 10 out of the Greater New Orleans Sports Foundation Fund to the Greater New Orleans Sports Foundation.

II. IMPACT ON FUTURE FISCAL YEARS

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 18

AGENCY: Agriculture & Forestry

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$0	0
Interagency Transfers:	\$0	Marketing	\$0	0
Self-Generated Revenue:	\$372,568	Agricultural & Environmental Sciences	\$0	0
Statutory Dedications:	\$0	Animal Health Services	\$0	0
Federal Funds:	\$0	Agro-Consumer Services	\$0	0
		Forestry	\$372,568	0
Total	<u>\$372,568</u>	Total	<u>\$372,568</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$372,568 of SGR budget authority within the Department of Agriculture & Forestry's Forestry Program. The original source of the collected fees is from the State of Texas to compensate the department for personnel and equipment utilized by the Texas Forest Service during their recent extreme fire conditions. According to the department, firefighting services were provided from January 2008 to September 2008 and from March 2009 to the present to the State of Texas pursuant to the Southeastern States Forest Fire Compact Commission. According to the department, dry weather in the State of Texas has contributed to the increase in the number of wildfires.

To date, the total amount the department has invoiced to Texas is \$1,179,341 and the total amount received from Texas is \$806,773. The total remaining to be received from Texas is \$372,568, which is the amount of this BA-7 request. These funds were originally appropriated via an approved BA-7 in November 2008 in the amount of approximately \$1.2M SGR. The department anticipated receiving all payments from Texas during FY 09. Thus, the amount approved in November was non-recurred during the FY 10 budget development process. However, Texas still has \$372,568 remaining to be paid to the department. To the extent the department's firefighters incur additional expenditures over the \$1,179,341 total invoice amount, the department will need additional SGR budget authority over the \$372,568 to accept additional payments from Texas, which will require another BA-7 or supplemental appropriation in FY 10.

Louisiana is a member of the Southeastern States Forest Fire Compact Commission. Other state members of the compact include: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This funding should be non-recurred during the FY 11 budget development process as this is a one-time expenditure.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds donated by Wal-Mart to support GOHSEP's Get-A-Game Plan public education and outreach campaign. This campaign focuses on educating the public about all hazards, particularly hurricanes and how to prepare for them. The goal is to properly educate people about ways to keep their families safe. Funds will be used to provide announcements on radio, public service advertisements in metro newspapers, coloring books targeted to children, web banners on metro newspaper websites, web crawls on metro television stations, educational guides, and updating the Get-A-Game Plan website. GOHSEP currently has \$138,000 in the FY 10 budget for this initiative through a 2008 State Homeland Security Program (SHSP) grant which is awarded annually from the U.S. Department of Homeland Security.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funding from 2 separate federal grants. Of the amount requested above, a total of \$400,819 will be received by the Office of Elderly Affairs from ARRA funds (Title V) which supports additional training and employment opportunities for unemployed low-income seniors age 55 and older.

In addition, a total of \$567,120 will be received for the Medicare Enrollment Assistance Program of which half of the grant award (\$283,560) will be expended in FY 10 and half in FY 11. Funding will be dispersed to the Aging & Disability Resource Centers (ADRC) and Area Agencies on Aging (AAA). The purpose of the program is to reach and provide application assistance to beneficiaries who are likely eligible, but not enrolled in Medicare Part D Extra Help/Low Income Assistance, Medicare Savings Program, and/or Medicare Part D programs.

II. IMPACT ON FUTURE FISCAL YEARS

An additional \$283,560 will be appropriated in FY 11 for the Medicare Enrollment Assistance Program and will be distributed as described above.

I. SUMMARY/COMMENTS

This BA-7 request increases SGR budget authority for the Recovery School District (RSD) to re-budget funds not expended in FY 09. The following is a list of the revenue and what the funds are used for:

\$1,539,512.09 - High School Redesign - Walton Family Foundation, Inc. Grant - The Recovery School District carried forward \$1,331,129 in grant funds from the Walton Family Foundation in FY 09, and were approved to receive an additional \$1,776,509 in grant funds at the 2/20/09 Joint Legislative Committee on the Budget (JLCB) meeting. The RSD spent \$1,568,126 of the grant funds in FY 09. The funds are being used to support the planning phase of the High School Redesign Project.

\$1,500.00 - Food Service Breakfast Enhancement Grant - A grant award of \$1,500 was provided to the RSD in December of 2008. This funding is a breakfast enhancement grant from the Southeast United Dairy Industry Association (SUDIA) in partnership with the New Orleans Saints which will be used to purchase equipment for food services.

\$128,002.50 - Carnegie Corporation of New York - A grant award of \$275,000 was provided to the RSD in May of 2008. Approximately \$263,000 was carried over into FY 09. The balance of \$128,002.50 will be carried forward to FY 10 to be used for reform initiatives in RSD high schools.

\$2,191.53 - Donations totaling \$3,322.43 from various entities were provided to the RSD between February 2009 and June 2009. The remainder of \$2,191 will be carried forward in FY 10 to support the Volunteer/Donation Coordinator with performing several projects throughout the school district such as painting school buildings; major clean-up projects; and KABOOM Project initiatives.

\$4,212.53 - National Organization on Disability - A grant award of \$10,000 was provided to the RSD in January of 2009. The balance of \$4,212.53 will be carried forward in FY 10 to support seven special education students from Cohen High School participating in a special work/study program at Touro Infirmary.

\$1,524,028.54 - Harrah's Casino Revenue - At the 3/20/09 JLCB meeting, a BA-7 was approved for the RSD to receive \$1,667,323 from Harrah's Casino revenue. Approximately \$143,295 was spent in FY 09, and \$1,524,028 will be carried forward to FY 10 to be used for the construction of various schools.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funding from the State Emergency Response Fund (SERF) for maintenance of generators. The generators were originally purchased by the Department of Natural Resources (DNR) as part of the Essential Services Generator Initiative following Hurricane Gustav. This initiative provided government issued generators to privately owned essential services providers such as pharmacies, grocery stores, and service stations. A total of 336 generators were purchased at a cost of \$11.3M and were distributed to 22 parishes. DNR has since sold 78 of these generators. GOHSEP is requesting funding to provide a maintenance contract for the remaining generators.

GOHSEP has taken over the final stages of developing the scope of work for this contract and will enter into a contract with MBD Maintenance through 6/30/10 with an option for two additional years. However, GOHSEP does not anticipate additional years will be necessary as it is the intent of this agency to surplus the generators due to high maintenance costs following the close of the 2009 hurricane season. The contractor will provide maintenance of generators on a monthly basis at each site.

The 255 generators are currently located across the state and held by various parish councils and police jurys. Also, 51 generators are located in Carville at the Gillis Long facility. GOHSEP will immediately relocate these 51 generators to the vendor provided warehouse in Baton Rouge for possible deployment during the hurricane season. The remaining 204 generators will continue to be held in each of the various parishes until November 30, 2009 when they will also be transferred by the vendor to the Baton Rouge warehouse.

GOHSEP notes that \$62M in hazard mitigation grant funding has been provided to the state for the purchase of generators including \$30M to be utilized by the parish OEPs, and \$32M for the DHH generator program and medical special needs facilities. In addition, \$4.4M was provided by the DOA for generators for medical special needs facilities.

NOTE: GOHSEP indicates that generators purchased by local governments with hazard mitigation funding will be maintained with local funding.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget additional funds for the Community Water Enrichment Fund (CWEF) for FY 10. The CWEF is used to rehabilitate, improve, and construct projects for community water systems in order to provide drinking water to LA's small rural communities for the Community Development Block Grant Program (CDBG).

The CWEF received an appropriation of \$10M in FY 09 and was reduced to \$9.5M as part of the midyear budget cuts. The original appropriation was made during the November 2008 Joint Legislative Committee on the Budget through a BA-7. Contracts were not awarded until the program's rules were published in the state register in May 2009. Therefore, only 3 contracts totaling \$193,500 were fully executed by the end of FY 09 which left a balance of \$9,306,500. The FY 10 appropriation for the program is \$7.125M or a difference of \$2,181,500 which is the total amount requested above. These funds remain from the FY 09 appropriation and will be utilized for a variety of water related projects across the state.

II. IMPACT ON FUTURE FISCAL YEARS

The DOA estimates that all of these funds will be obligated through fully executed contracts but may not be expended in FY 10 as these are three year contracts.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget grant funds from the MacArthur Foundation through the National Juvenile Defender Center. These grant funds are provided to coordinate the efforts of the Juvenile Indigent Defense Action Network (JIDAN) and to develop innovative strategies and solutions to better address the legal needs of youth coming in contact with the juvenile justice system in LA. The first year's grant award was \$50,000 and has a total of \$42,272 remaining. In addition, a second year grant award for the period 7/31/09 through 6/30/10 has been received in the amount of \$117,500. The first year's expenditures of grant funds were reimbursed directly by the MacArthur Foundation but the LA Public Defender Board will administer the remaining grant funds and any grant funds which are provided in subsequent years.

LA's JIDAN team has chosen to focus on five key areas: 1) enacting juvenile defender performance standards; 2) seeking alternatives for the early appointment of counsel for juveniles; 3) exploring legislation to provide that juveniles are presumed indigent at the time of arrest; 4) developing protocols for post-disposition advocacy; and 5) developing protocols for juvenile appeals.

The funds will be expended as follows:

Travel- (\$17,272)- funding for deputy state public defender and two board members to attend several conferences during the fiscal year related to juvenile justice.

Operating Services- (\$5,500) - anticipated costs to obtain meeting rooms for meetings with the Statewide District Defenders.

Supplies- (\$15,500) - funding for supplies and software necessary to carry out project.

Professional Services- (\$100,000)- funding for twelve month contract for legal counsel to work on this project.

Acquisitions- (\$21,500)- funding to purchase equipment necessary for meetings such as laptops, projectors, etc. The agency notes that any equipment purchased will be maintained by this agency upon completion of the project.

II. IMPACT ON FUTURE FISCAL YEARS

Additional funds will be requested through the MacArthur Foundation for a third year of the project.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds from the FEMA Reimbursement Fund (unbudgeted State Emergency Response Funds or SERF will be budgeted into the FEMA Reimbursement Fund) which will be used to pay the 25% state match for assistance provided by FEMA as a result of hurricanes Gustav and Ike. The current unbudgeted SERF balance is approximately \$137.8M (including \$90M anticipated to be generated by tax amnesty program). FEMA provided assistance to disaster victims under the Other Needs Assistance Program, as provided for in 44 CFR 206.110 for these 2 disaster declarations. The Other Needs Assistance Program helps eligible individuals and families pay for items and services such as transportation expenses, household items and clothing, medical and dental care, and equipment to help repair damaged homes such as power tools and dehumidifiers. Under the terms of the FEMA-State agreement, the federal funds provided under the Stafford Act are limited to 75% of the total eligible cost, with the state being responsible for the remaining 25%. These costs include those for March 2009 only. Reimbursement for later months will be provided for in subsequent BA-7 requests.

Payment is due in full to FEMA within 30 days from the receipt of the FEMA request letter which was received on 5/19/09. Funds will be placed in escrow in the registry of the court while an audit of these expenses is performed.

The following amounts are due to FEMA:

\$423,380 for Disaster Declaration #1792 (Hurricane Ike)
\$1,207,332 for Disaster Declaration #1786 (Hurricane Gustav)

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds received as a result of an agreement with the Council of State Governments (CSG) through its affiliate, the National Emergency Management Association (NEMA) for services in connection with the Emergency Management Assistance Compact (EMAC) Mobilization Unit Pilot. This agreement will result in a pilot of the EMAC Mobilization Unit Plan which involves a planned exercise, and providing an after-action write up of the pilot to NEMA within thirty (30) days of completion. The EMAC will be activated and the stand-alone EMAC Mobilization Unit will be established at Esler Field. These funds will serve as reimbursement for expenses incurred to conduct the pilot and to provide the written report.

Funds received will be used for personnel costs, travel, equipment, supplies, and any contracts needed to implement the plan. The estimated timeline for planning and completion of the operation is six months beginning 1/6/10 and ending 7/11/10.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Total	<u>\$466,301</u>	Total	<u>\$466,301</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request increases IAT and SGR budget authority in the State Activities agency to receive a .25% administrative fee to cover administrative overhead costs related to considering charter applications, providing monitoring and oversight to the school, collecting and analyzing data of the school, and for reporting on such performance. Act 744 of 2008 authorizes a chartering authority to charge a fee to each charter school it authorizes not to exceed 2% of the total per pupil amount provided during the application period and first year of operation. The fee may be increased up to 3% in the second year of operation and thereafter. The Board of Elementary and Secondary Education authorized a fee of 2% to be charged for Recovery School District (RSD) charters, with the Department of Education, State Activities receiving .25%, and the RSD receiving 1.75%. The Department of Education will charge the rest of charter schools a .25% fee. The Type 4 charter school fees are estimated to generate \$36,702, and RSD and Type 2 charter school fees are estimated to generate \$429,599. The RSD and Type 2 charter fees are being transferred from Subgrantee Assistance and the RSD, therefore, the funds are classified as IAT.

The Department of Education will use \$50,000 for travel purposes related to authorizing the charter schools. The remaining \$416,301 will be used in professional services to pay the National Association of Charter School Authorizers to review applications from schools applying for charter status, and for contractors who will develop and maintain the Charter School Report.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

This BA-7 request increases IAT and SGR budget authority for the Department of Education to re-budget funding that was not expended in FY 09.

The funds will be used as follows:

\$489,668 IAT - Indirect cost revenue covers the salary, related benefits, and operating costs of 50 positions throughout the Department of Education for central services such as purchasing, accounting, budgets, internal audit, website, communications and personnel. The revenue also covers a large portion of the cost for post retirement health benefits.

\$377,749 SGR - School Assistance Textbooks and \$128,404 SGR - Teacher Certification - The revenue will be used to pay employees and for operating costs.

\$12,683 SGR - Teacher Advancement Foundation grant funds will be used to grant teaching certificates to candidates who complete teacher preparation programs, receive higher degrees or complete additional requirements to add endorsements to existing certificates.

\$38,095 SGR - LATEL grant funds are used to expose teachers to the Intel Teach Program for teachers which includes training for Master Teachers and Senior Trainers to explore professional development opportunities.

\$184,484 SGR - Bunkie Youth Center revenue is used for operations at the Youth Center.

II. IMPACT ON FUTURE FISCAL YEARS

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$3,213,542</u>	Total	<u>\$3,213,542</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$3,213,542 SGR (OMV Transfer-in) budget authority within the Department of Public Safety (DPS) - Office of Management & Finance to purchase hardware associated with a new mainframe due to the current mainframe's warranty ending in December 2009. According to the department, there is no option for warranty renewal and no independent vendors available for support on the current 11-year old mainframe system. The mainframe is currently utilized to collect OMV funds generated from driver's licenses, vehicle registration and reinstatements.

Originally, the current mainframe was to be replaced upon the rollout of the Next Generation Motor Vehicle Project (NGMV), which was supposed to be the replacement of an outdated computer platform used for driver's licenses and titles. NGMV intended to consolidate the drivers' license and motor vehicle registration computer systems into a more efficient system and allow for a reduction in customer wait times and the ability to accept various forms of payment. However, due to the escalating cost of the system over a 10-year period and the expenditure of \$32.4M of total funds with no working system, this project was terminated in the Fall 2008 and DPS needs to replace its current mainframe. According to DPS Data Processing, the in-house motor vehicle solution currently being developed is approximately four years from being completed and this replacement is necessary until such solution is completed.

Upon approval of this BA-7, there will be approximately \$5.2M of unappropriated OMV Transfer-in fee revenues that are available for expenditure in FY 10 and beyond.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. The annual maintenance cost of the mainframe, which is approximately \$900,000, is currently appropriated within the FY 10 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$288,644 in federal funding provided to the Department of Justice through the American Recovery & Reinvestment Act (ARRA) of 2009. LA is receiving \$623,474 in ARRA funding to support the Internet Crimes Against Children (ICAC) Task Force Program. There are no matching requirements for this grant.

The Department of Justice plans to increase its investigative and forensic capabilities within the program and provide training, public outreach material, equipment and upgrades to meet the challenges of the LA ICAC Task Force.

The funding will be utilized to provide:

- \$87,466 - Other Compensation for 2 full-time and one part-time wage positions (approximately 10 months)
- \$20,744 - Related Benefits
- \$8,752 - Travel
- \$160 - Operating Services
- \$4,800 - Supplies
- \$23,768 - Other Charges (forensic software)
- \$142,954 - Acquisitions (2 sport utility vehicles, 700 MHz mobile radio, 700 MHz Portable Radio, set of LED / Strobe warning lights, one siren amplifier and speakers, 2 laptop computers, 2 desktop computers, write blocker kit, server, 2 RAID server, 2 RAID (Redundant Array of Independent Disks) storage subsystems, and two RAID expansion chassis.
- \$288,644 Total Expenditures

II. IMPACT ON FUTURE FISCAL YEARS

The federal funding for this grant will expire on 3/31/12. The total amount of the grant is \$623,474. The agency anticipates receiving the remainder of the grant in FY 11 (\$190,256) and in FY 12 (\$144,574).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget SGR (Self-Insurance Fund) which will be used as a SGF seed advance from the Treasurer to allow for payments to the beneficiaries of LA National Guard members who lost their life or were totally disabled during periods of activation ordered by the Governor or the President of the United States as per Act 260 of 2007. Act 260 provides that "... benefits in a lump sum amount of two hundred fifty thousand dollars for death and one hundred thousand dollars for permanent total disability shall be paid by the state to such guardsmen or their beneficiaries." The Military Department and the Department of Veterans Affairs have determined that there have been 5 deaths ($\$250,000 \times 5 = \1.25M) and 2 persons determined by the U.S. Department of Veterans Affairs to have 100% permanent and total disability status which makes them eligible for these benefits ($\$100,000 \times 2 = \$200,000$). Therefore, the total amount of benefits which are currently ready to be dispersed to those members or their beneficiaries who are eligible is \$1.45M.

Five additional members have their disability status pending with the U.S. Department of Veterans Affairs. The Department of Veterans Affairs is uncertain as to when the U.S. Department of Veterans Affairs will make its final determination. Should each of these members ultimately be determined to have 100% permanent and total disability status, an additional \$500,000 will be required for distribution. Based on current information, the Department of Veterans Affairs estimates that no more than ten persons (including the seven mentioned above) may ultimately qualify for the disability payment.

Note: This BA-7 request originally included death benefits for five persons and an estimate was given for 5 who may qualify for permanent and total disability.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$1,450,000 which includes death benefits for five persons and disability benefits for the two persons who have been determined to have 100% permanent and total disability status. The LFO recommends that funding be appropriated for these persons subject to the U.S. Department of Veterans Affairs' certification of the status of these individuals.

			was new in FY 09 and is only now becoming organized enough to award contracts for implementation. Most of these carry forwards (\$1,719,636) are related to contracts providing development and/or delivery of training materials. The services created by these projects are expected to be on-going as the training materials will need to be tailored to the businesses acquiring the Fast Start service. The remainder (\$36,989) is related to the acquisition late in the year of 2 flexible fuel vehicles to help in the implementation of the program across the state. LED secured OPB approval as a carry forward before the cars were ordered.							
CF 15	05 - 252 Economic Development Business Development	N/A	<p>This carry-forward BA-7 adjusts the Mega-Project Development Fund and Rapid Response Fund appropriations that were not expended during FY 09 for various reasons, one being project approval that occurred late in the fiscal year. It also brings pass-through CDBG and TANF funding in line with expenditures expectations that cross fiscal years. In addition, it adjusts some general fund to reflect FY09 expenditures that will occur in FY 10.</p> <p>The STATE GENERAL FUND portion (\$6,033,503) contains \$1.55M of an initial appropriation of \$1.550M on 3/1/09 for the development of a video production industry in the New Orleans area and \$506,935 of an initial appropriation of \$900,000 on 7/1/08 for the operational expenses of the Louisiana Gene Therapy Research Consortium in order for them to close-out since they will receive no additional funding in FY 10. The contract was amended to extend the final date to 10/31/09 to accommodate the closeout. Additionally, the total also includes 79 additional projects with carry-forward averaging about \$50,000 each for a total of \$3,976,568.</p> <p>Major projects funded by STATUTORY DEDICATIONS (\$99,921,604) are primarily funded through the Mega-Project Development Fund and the Rapid Response Fund. From the <u>Mega-Project Development Fund</u> (\$77M), \$10M is for the Foster Farms project that was approved in May. This portion of the \$50M approved is for plant improvements that have not yet taken place. Also, \$67M from the V-vehicle project that was approved in June without time for the money to be expended during FY 09. The <u>Rapid Response Fund</u> (\$16,972,656) carryfowards consist of \$8,944,440 for the Gardner Denver Thomas project awarded \$9M on 4/9/09 for relocation and permitting costs associated with relocating its operations from Wisconsin to Monroe, \$2,766,065 of an initial appropriation of \$4M on 12/20/07 for the LaShip/Terrebonne Port Commission project for planning, construction and installation of infrastructure improvements in connection with a new state-of-the-art ship-building facility, \$2,614,441 of an initial appropriation of \$4M on 10/09/08 for the planning, engineering and construction of a multi-use dining facility at Camp Minden, \$850,918 of an initial appropriation of \$2,144,080 on 6/1/07 to help establish an advanced permanent training facility and to expand</p>	\$6,033,503	\$49,825,191	\$15,232,440	\$99,921,604	\$0	\$0	\$171,012,738

			headquarters at the Lake Charles Regional Airport, and \$846,579 of an initial appropriation of \$1.03M on 8/18/08 for infrastructure improvements at the Port near Simmesport, including a new liquid fertilizer off-loading dock. Additional projects include \$635,310 to provide occupancy to Electronic Arts in Baton Rouge (initial appropriation \$693,000) and \$314,903 for relocation expenses in moving Bercen, Inc., headquarters to Denham Springs (initial appropriation \$500,000). The statutory dedication total also includes 25 contracts funded by the LA Economic Development Fund (\$5,120,603), the <u>Overcollections Fund</u> (\$806,345) and the <u>Entertainment Fund</u> (\$22,000).							
			INTERAGENCY TRANSFERS (\$49,825,191) funding consists of \$49,550,527 in Community Development Block Grants (CDBG) to carry out the Small Firm Recovery Loan Grant Program and the Technical Assistance Program providing immediate financial relief to restart and sustain small and independent businesses in the impacted areas of the state and \$274,664 from Training Assistance for Needy Families (TANF) funds from the Department of Social Services for the Microenterprise Program to fulfill promises from the state to promote self-sufficiency offering small loans for entrepreneurial activity to needy families.							
			SELF-GENERATED REVENUE (\$15,232,440) is primarily related to the V-vehicle plant in Monroe in which local entities are infusing \$15M into the project. The total also includes an appropriation for studies in workforce/labor related to possible development of the Franklin Farms Mega-Site of \$218,791. An additional \$13,649 is for support services and HVAC repairs to the Accent Building in Monroe are also derived from local sources.							
CF 17	06 - 261 Culture, Recreation & Tourism Office of Secretary	N/A	Carry-forward of funds related to a contract with People, Places & Design Research/Dr. Jeff Hayward to develop and administer an audience interest survey for the LA Civil Rights Museum and to report the findings. CF 41	08B - 418 Public Safety Management & Finance	N/A	The purpose of this BA-7 is to carry-forward funds for repairs to the Halon Main Board, purchasing various equipment and uniform construction code contracts associated with the statewide building code. \$10,211 SGR - Repairs to the Halon Main Board. The Public Safety Data Processing Center has tanks filled with Halon chemicals that are utilized to extinguish electrical fires. The department experienced a Halon dump, meaning those chemicals were inadvertently relieved from the tanks, and now those tanks must be refilled. The Halon tanks were picked up on 6/23/08 and must be refilled and re-certified before they can be reinstalled. \$102,055 Riverboat Gaming Enforcement Fund - In June 2009 the State Emergency Command Center purchased audio/visual equipment and purchased 90 ballistic vests, but the orders were not delivered before 6/30/09. According to the ballistic vest vendor, the manufacturer has been closed for two weeks due to inventory. \$115,576 State Emergency Response Fund - This carry forward request is for the continuation of contracts that provide assistance for parish and municipal governments to obtain current construction code resources and training. According to the department, disbursement of these funds is specifically dependent upon an intergovernmental agreement. As of 06/30/09, there is approximately \$115,576 of the \$1,038,362 appropriated in FY 09 available that has not been disbursed to the following entities: City of Mandeville, City of St. Joseph and the City of	\$0	\$184,400	\$10,211	\$217,631	\$0	\$0	\$412,242

			Jean Lafitte. \$184,400 IAT - At the May 2009 JLCB meeting an additional \$1.1M of IAT budget authority was approved for construction code enforcement services for parish and/or municipal governments in the 11 parishes identified as most severely impacted by hurricanes Katrina and Rita. This funding represents the remaining portion of the \$16.4M originally allocated to the Department of Public Safety from the \$10.4B awarded to the LA Recovery Authority through the Office of Community Development in 2007 from the U.S. Department of Housing & Urban Development. Currently, DPS has a contract agreement with the Institute for Building Technology & Safety in the amount of \$15.9M to provide construction code enforcement training. This carry forward request represents the amount of authority not expended in FY 09.							
CF 43	08B - 419 Public Safety State Police	N/A	<p>This BA-7 requests to carry-forward a total of \$5.18M for various expenditures within state police. The specific statutory dedicated funds impacted by this request include: \$1,185,563 - Criminal ID Fund, \$673,775 - Riverboat Gaming Enforcement Fund, \$1,261,559 - Overcollections Fund. Below is a listing of these expenditures by program and by means of financing.</p> <p>Traffic Enforcement Program - \$45,337 <u>\$1,321 SGR (OMV Transfer-in Fees)</u> - Lexmark printer that was ordered in May 2009 that has not yet been received. The department received the printer in July 2009.</p> <p><u>\$7,137 Riverboat Gaming Enforcement Fund</u> - Motorcycle patrol pants that have not been completely delivered. In June 2009, the department received half of the order. According to state police, the vendor has stated that the delay is due to material shortages. The rest of the order was delivered in July 2009 and state police was invoiced the remaining balance of \$7,137.</p> <p><u>\$12,409 Riverboat Gaming Enforcement Fund</u> - Motorcycle patrol helmets ordered in March 2009, but were delivered in July 2009. The amount of this request represents the invoice amount for helmets delivered to State Police on 7/6/09.</p> <p><u>\$5,173 SGR</u> - Professional services contract with Dr. Timothy A. Bella who performs physicals for personnel. According to State Police, scheduling and time constraints prevented Dr. Bella from completing his services before 6/30/09. Thus, this amount represents the amount to be paid to Dr. Bella for services that were originally intended to be provided in FY 09, but were not actually provided until FY 10.</p>	\$7,317	\$0	\$6,494	\$31,526	\$0	\$0	\$45,337

			<p><u>\$11,980 Riverboat Gaming Enforcement Fund</u> - In April 2009 state police purchased a replacement gas pump for Troop L. Due to delays by the vendor, state police anticipates the order being completed in August 2009.</p> <p><u>\$7,317 SGF</u> - State police ordered 15 office chairs for Troop G in June 2009. This specific purchase was ordered on June 16, 2009, shipped on 7/6/09 and received on 7/10/09.</p>							
CF 43	08B - 419 Public Safety State Police	N/A	<p>Criminal Investigation</p> <p><u>\$125,723 SGR (Narcotics Seizure)</u> - In May 2009 state police purchased webgear, Guardian ST820 tracking unit, pocket cameras, LEA Butane Lighter Digital Recorder, license plate readers, everfocus mobile DVR, Sony SNC-RX 570N IP Cameras, Airlink Raven-x Cellular Modem, which were originally appropriated via a May 2009 approved BA-7. This equipment should be received by August 2009.</p>	\$0	\$0	\$125,723	\$0	\$0	\$0	\$125,723
CF 43	08B - 419 Public Safety State Police	N/A	<p>Operational Support</p> <p><u>\$857,823 Criminal ID Fund</u> - Professional services contract with Oracle for the Thinkstream Criminal History replacement system. According to state police, this project is 27% complete with approximately \$1.7M expended. The contract should be completed by October 2010. Due to delays in licensing, initial FY 09 deadlines were not met. Thus, FY 09 expenditures in the amount of \$857,823 need to be carried forward into FY 10.</p> <p><u>\$525,257 Overcollections Fund</u> - Think Stream Mobile Data Software replacement system is approximately 80% complete and \$1.58M paid toward the project's completion. According to state police, the project timeline has been impacted due to unanticipated technical difficulties associated with rolling over to the new 700 MHz interoperability communication system.</p> <p><u>\$15,300 SGR (OMV Transfer-in)</u> - Professional services contract with Ciber, Inc. who will migrate the old mainframe mapper systems to a new server. The department anticipates the migration to be completed by October 2009 and the requested \$15,300 represents the amount remaining on the current contract.</p> <p><u>\$223,083 SGR (OMV Transfer-in)</u> - In June 2009 state police ordered a Tecan HID Evolution that was not delivered until after 6/30/09. The Tecan HID Evolution is a liquid handling robotic system which will be utilized in the Crime Lab.</p>	\$946,894	\$0	\$238,383	\$2,921,630	\$0	\$0	\$4,106,907

			<p><u>\$4,400 SGF</u> - In June 2009 state police ordered an extraction hood for DNA analysis. The vendor did not deliver before June 30, 2009. This item was delivered in July 2009. An extraction hood is a ventilation workstation that protects the lab analyst from breathing hazardous chemicals.</p> <p><u>\$87,396 Riverboat Gaming Enforcement Fund</u> - In May 2009 state police ordered ammunition to be used for in-service training. Due to high demand and low production, the vendor did not deliver the ordered ammunition before 6/30/09. According to state police, the ammunition ordered should be delivered sometime in Fall 2009.</p> <p><u>\$94,500 Criminal ID Fund</u> - Yfiler and Minifiler professional services contract that validates new software utilized at the new State Police Crime Lab.</p> <p><u>\$75,000 Criminal ID Fund</u> - Approximately 25 cases were shipped to the Bode Technology Group to perform DNA analysis by the contract expiration date of 6/30/09. The analysis has not been completed and a contract extension was granted to August 30, 2009. According to state police, it takes approximately 6 to 8 weeks to analyze one case.</p> <p><u>\$147,720 Criminal ID Fund</u> - Approximately 60 to 100 cases were shipped to Orchid Cellmark to perform DNA analysis by the contract expiration date of 6/30/09. The analysis has not been completed and a contract extension was granted to 8/30/09. According to state police, it takes approximately 6 to 8 weeks to analyze one case and the contractor is currently working on 100 cases.</p> <p><u>\$98,700 SGF</u> - Aegis Corporation was utilized for toxicology analysis on blood and urine samples. According to state police, most of the analysis is complete except for the final reports, which will be completed by August 2009.</p> <p><u>\$800,000 SGF</u> - This request represents four individual cooperative endeavor agreements in the amount of \$200,000 each with the Acadiana Criminalistics Laboratory, Southwest LA Criminalistics Laboratory, New Orleans Police Department and North Louisiana Crime Lab for expenses incurred in FY 09. This amount was originally appropriated in FY 09, but due to delays in paperwork processing, additional time is necessary. Thus, this payment is expected in September 2009.</p> <p><u>\$250,000 Overcollections Fund</u> - These funds were originally appropriated within state police via BA-7 in December 2008 and were intended to assist the Jefferson Davis Parish Investigative Team in its investigation associated with 7 dead bodies that were found in the rural areas of Jefferson Davis Parish in the last 3 years. According to state police,</p>

			payment to the parish will not take place until certain documentation is completed. State police anticipates payment of such funds by the end of 2009.							
			<u>\$232,967 Riverboat Gaming Enforcement Fund</u> - In March 2009 state police ordered class A and B uniforms, rain suits, ties, and safety reflective vests. A partial shipment and payment has been made for delivered supplies. The vendor has indicated to State Police that the remainder of the order will be delivered in August 2009. A shortage of fabrics is attributable to the partial shipment and delay.							
			<u>\$23,676 Riverboat Gaming Enforcement Fund</u> - In June 2009 state police ordered a Chevy Tahoe and delivery has been delayed.							
			<u>\$3,275 Overcollections Fund</u> - In March 2009 state police ordered AR -15/M-16 Safe Semi-Selector Switches for auto/semi conversion for state police rifles. A partial shipment and payment has been made for delivered supplies. The remainder of the ordered was shipped in July 2009. Military contracts are attributable to the partial shipment and delay.							
			<u>\$70,840 Overcollections Fund</u> - In June 2009 state police ordered 110 ballistic vests. The delay in delivery is due to the manufacturer closing the plant for inventory for two weeks. These vests are anticipated to be delivered in August 2009.							
			<u>\$43,794 SGF</u> - In June 2009 state police purchased 1,000 gallon portable fuel tank trailers for use in emergency situations. According to State Police, the vendor was unable to build and deliver the units prior to 6/30/09.							
			<u>\$10,520 Criminal ID Fund</u> - In June 2009 state police ordered one Dell Latitude E6400 laptop and 9 Dell scanners. Shipment was delayed by the manufacturer. These items were delivered in July 2009.							
			<u>\$364,390 Overcollections Fund</u> - In December 2008 state police purchased 7 dispatch consoles. The invoice has not been paid due to restructuring of the communication resources from 9 different locations to 3 locations. State police is waiting for the equipment to be completely installed before payment is made.							
			<u>\$16,298 Overcollections Fund</u> - In June 2009 state police ordered Datamaxx Label Printers to be utilized within the Crime Lab. The vendor currently has the ordered item on backorder. The printers will be utilized by the two different sections of the Crime Lab, CODIS DNA and Toxicology.							
			<u>\$130,469 Riverboat Gaming Enforcement Fund</u> - In June 2009 state police ordered new cardio equipment for the State Police Training Academy gym.

			Both contracts will end on 11/30/09. The remaining funding (\$425,646) is for computer laptops which will be used by staff to process applications at various disaster food stamp sites. The agency ordered a total of 1,261 laptops, however the vendor was unable to deliver 510 of the laptops before June 30th.							
			<u>Louisiana Job Employment Training Contracts - \$1,191,909 (\$162,902 SGF; \$1,029,007 Fed)</u>							
			This funding is for on-going contracts with the LA Department of Labor and other city and parish entities to provide job employment training for individuals receiving food stamp benefits who are unemployed. The contracts are based on the federal fiscal year which begins October 1st and ends September 30th, thereby crossing 2 state fiscal years.							
			<u>Nutritional Services Contracts \$878,173 (Fed)</u>							
			This funding is for on-going contracts with Southern University and Louisiana State University Agriculture Center to provide educational training on good nutrition to food stamp applicants or recipients or individuals below the 85% poverty level. These contracts are based on the federal fiscal year which begins October 1st and ends September 30th, thereby crossing two state fiscal years.							
			<u>Creative Presentations & Hon Company - \$24,305 (Fed)</u>							
			This funding is for replacement of office equipment and furniture in four disability determination offices. Delivery was delayed because of late approval from the Social Security Administration to use federal funds for these purchases.							
			<u>Social Services Block Grant Funding \$1,490,181 (IAT)</u>							
			This funding is for the LA Housing Finance Authority to complete the rebuilding of child care centers in hurricanes Katrina and Rita impacted areas.							
			<u>Temporary Assistance for Needy Families (TANF) Initiatives and IAT Agreements - \$14,393,168 (Fed)</u>							
			This funding is for various TANF contracts and interagency agreements. These contracts are based on the federal fiscal year which begins October 1st and ends September 30th, thereby crossing two state fiscal years.

CF 59	12 - 440 Revenue Office of Revenue	N/A	<p>The purpose of this carry-forward BA-7 is to extend budget authority of \$2.564M to the Tax Collection Program and \$204,646 to the Alcohol and Tobacco Control Program in the Louisiana Department of Revenue (LDR). The Tax Collection Program items involve contracts for computer requirements and customer service delivery/training as specified below. The Alcohol and Tobacco Control portion involves the contract for outside attorneys for complex cases that have been continued as well as 7 replacement vehicles which have not yet been delivered due to slowdowns involved in the bankruptcy of Chrysler Corp. The funds for all of these obligations have been collected and are on deposit with the Treasurer.</p> <p>In the TAX COLLECTION PROGRAM, contract payments being carried forward are with Scan Optics, Inc. (\$213,141) to perform computer services related to annual tax form adjustments required by changes to tax law. This contract runs from 10/1/07 to 9/30/09 with a maximum amount of the full contract is \$362,000; Paperfree Corp. (\$1,134,041) to re-engineer the front-end processing of tax returns to improve efficiencies through more modern technology allowing for more timely processing of returns with lower long run costs. The contract runs from 4/1/09 through 3/31/12. The maximum amount of the full contract is \$2,029,523; Estrada Consulting, Inc. (\$239,750) to continue work on the Enterprise Data Warehouse to allow for more standardized reporting and data management for internal and external users. The contract runs from 6/1/09 through 4/30/10. The maximum amount of the full contract is \$239,750; Sparkhound (\$458,552.50) to develop e-services applications arising from mandates or the expanded need for automated taxpayer interaction. The contract began on 3/2/09 and terminates on 3/1/12. The maximum amount of the full contract is \$1,434,720; Covalent Logic, LLC (\$46,725) to perform a redesign of the LDR website. The contract runs from 11/1/08 to 10/31/09 for a maximum contract amount of \$48,750; Global Data Systems, Inc. (\$14,760) for labor services necessary to update and reconfigure network core switches at the data processing center and the LaSalle building to improve network connectivity required for successful employee and online taxpayer applications. The contract runs from 1/6/09 to 6/30/09 with a maximum contract amount of \$170,461.60; Cherbonnier, Mayer & Associates Technology Solutions (CMA) (\$49,500) for technical support services related to server infrastructure. The contract runs from 5/18/09 to 6/30/10 and allows a maximum contract amount of \$49,500; Fairfax Imaging (\$181,740) to enhance the overall performance of operations by configuring system resources to maximize efficiency in light of improved processing methods and legislative changes. The contract runs from November 15, 2008 to June 30, 2010 with a maximum contract amount of \$240,000; Info USA</p>	\$0	\$0	\$2,768,646	\$0	\$0	\$0	\$2,768,646

			<p>National Change of Address Service (\$15,300) to provide and maintain the LDR address database with the most recent and accurate addresses. The contract runs from 1/1/09 to 12/31/09 with a maximum contract amount of \$18,360. This expenditure is expected to be recurring as the change of address service is necessary each year; UNO - LSU Board of Supervisors (\$130,790) to provide customer service training to improve customer satisfaction. The contract runs from 7/7/08 to 6/30/10 and has a maximum contract amount of \$130,790; Battco Construction (\$59,700) to construct five drywall offices at LDR in the LaSalle Building (see Group Novak, LLC). The contract runs from 6/19/09 to 10/26/09 with a maximum contract amount of \$59,700; Group Novak, LLC (\$20,000) to provide design, contract documents and construction contract administration for five drywall offices at LDR in the LaSalle Building (see Battco Construction). The contract runs from 11/12/07 to 11/11/10.</p> <p>In the ALCOHOL AND TOBACCO CONTROL PROGRAM, contract payments being carried forward are with Christian Avery APLC (\$80,609) to assist in the adjudication of complex cases, many of which have been continued resulting in the need for budget authority extending into the next fiscal year. The contract runs from 9/30/06 to 9/30/09 with a maximum contract amount of \$150,000; Southland Dodge Chrysler (\$120,752) for 6 Dodge Nitros (\$16,615 each) and 1 Dodge Charger (\$21,062) as fleet replacement for use in enforcement duties within the ATC program. The delivery of these vehicles was delayed into FY 09/10 due to the restructuring of GM/Chrysler; Gulf States Dist Inc. (\$3,285) for delayed delivery of an order of ammunition due to the national shortage of ammunition. The delivery is expected in September 2009. The ammunition is used for state weapon certification and other mandatory firearms related training.</p>							
CF 60	13 - 851 Environmental Quality Environmental Compliance	N/A	Carry-forward of unexpended interagency transfer monies from the Governor's Office of Homeland Security and Emergency Preparedness. The original funding source was the Federal Emergency Management Agency (FEMA). These funds were made available by FEMA for the purpose of monitoring of demolitions and hazardous waste disposal in the New Orleans area in the aftermath of Hurricane Katrina. This work was not completed in FY 09 and the contract with Dynamac Corporation was extended to 8/31/10 from the initial end date of 8/31/09. The original funding authority was \$2,595,847 as of December 2008. DEQ had expended \$1,134,446 by the end of FY 09, leaving \$1,461,401 in funding authority. DEQ's FY 10 budget already contains budget authority of \$522,792 for these expenditures. This BA7 request will budget the remaining FEMA authorized funding of \$938,609.	\$0	\$938,609	\$0	\$0	\$0	\$0	\$938,609

<u>Agenda #</u>	<u>Schedule #</u> <u>Dept./Agy.</u>	<u>Purchase</u> <u>Order Date</u>	<u>Item Description</u>	<u>SGF</u>	<u>IAT</u>	<u>SGR</u>	<u>DED</u>	<u>IEB</u>	<u>FED</u>	<u>Total</u>
	Workforce Development		integrate Louisiana Workforce Commission data into the broad-based longitudinal research of the state's population from birth through workforce entry. This practice will help establish information regarding the supply side of the workforce as well as the impact of specific training providers for use by the Occupational Forecasting Conference to help direct training activities to the most appropriate industries. This project is part of the estimate used to determine the cost of Act 743 of 2008, which created the LA Workforce Commission. This project took longer than expected to be implemented but this BA-7 will allow the completion of about 3/4 of the project and will result in an improved, functional Occupational Forecasting Model that advances the capabilities of the LWC. The remaining 1/4 of the project involves the addition of various enhancements to the base model that would require an additional appropriation of about \$500,000 in general fund, statutory dedication or federal funds. However, if the last quarter is not completed, the product delivered by this BA-7 adjustment will be utilized by the LWC and still enhance its forecasting capabilities.							
CF 65	16 - 514 Wildlife & Fisheries Office of Fisheries	N/A	Carry-forward of funding for Dual 35 hp Gator Tail transom motor and rigging to be mounted on aquatic herbicide applicator mud boat ordered in June 2009 and was not received by 6/30/09. CF 71	19E - 610 LSU Health Care Services LSU HSC-HCSD	N/A	The purpose of this Carry-forward BA-7 request is to fund costs related to HCSD's Telehealth Program. The Legislature appropriated \$1.5M in SGF for this program in FY 09. Initially, HCSD planned to test home tele-monitoring of adult diabetic and congestive heart failure patients. However, the program has been delayed due to problems with blood sugar testing data transmission for diabetic patients. As such, HCSD has changed the focus from blood sugar testing to blood pressure monitoring for diabetic patients. Furthermore, the program's design and planning complexity necessitates duration into FY 10. HCSD will use these funds primarily for program staff at Pennington Biomedical Center and for a contract with Acadian Telehealth Monitoring. The contract with Acadian Telehealth Monitoring will fund staff and equipment to meet the program's requirements.	\$1,340,419	\$0	\$0	\$0	\$0	\$0	\$1,340,419
CF 72	19E - 610 LSU Health Care Services LSU HSC-HCSD	N/A	The purpose of this carry-forward BA-7 request is to fund construction of a levee around Chabert Medical Center. The Legislature appropriated \$370,000 for the levee in FY 09. Chabert Medical Center is coordinating servitude with the Terrebone Parish Consolidated Government. However, Terrebone Parish encountered problems obtaining necessary legal documentation from other parties in the parish, necessitating appropriation of these funds in FY 10 through this carry-forward BA-7. The Overcollections Fund is the source of these statutorily dedicated funds.	\$0	\$0	\$0	\$370,000	\$0	\$0	\$370,000

		Program 500	\$0	0
Total	<u>\$571,667</u>	Total	<u>\$571,667</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$571,667 in budget authority in the Medical Vendor Payments Program for the purpose of making additional Medicaid claims payments to the LA Special Education Center (LSEC). The source of IAT means of finance is state general fund from the LSEC. The source of federal funds is Title 19 federal financial participation (match). This is a companion to BA-7 #2-B.

The LA Special Education Center will transfer SGF (\$162,353) to the Medical Vendor Payments Program which will allow the Medicaid Program to draw down federal matching funds (\$409,314). The Medicaid Program will use both state and federal funds to pay Medicaid claims payments to the LSEC for additional bed days in FY 09. The LSEC is a special school under BESE, and is licensed as an Intermediate Care Facility for the handicapped that participates in the state Medicaid Program.

Medicaid payments to the LSEC will reimburse for additional occupancy in FY 09. The center has recently added 15 beds to its Transitional Family Life Center (TFLC). In the current year, the agency estimates that LSEC will bill for an additional 1,275 days at a cost of \$478 per day (\$609,450) and the TFLC will bill for an additional 551 days at a cost of \$694 per day (\$382,394) for total additional billings of \$991,844. The agency estimates it currently has sufficient appropriated Medicaid claims (IAT authority) to cover a portion of the cost associated with the occupancy increase (\$420,177), but will need an additional \$571,667 in IAT budget authority to bill for the remainder.

II. IMPACT ON FUTURE FISCAL YEARS

Information received from the LA Special School indicates projected future patient days are unknown, and additional Medicaid reimbursement is being requested for the current year only.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$571,667</u>	Total	<u>\$571,667</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request seeks to add \$571,667 in additional IAT budget authority so the LA Special Education Center (LSEC) may expend Medicaid Funds that are anticipated because of an occupancy increase. The center has recently added 15 beds to its Transitional Family Life Center (TFLC).

In the current year, the agency estimates that LSEC will bill for an additional 1,275 days at a cost of \$478 per day (\$609,450) and the TFLC will bill for an additional 551 days at a cost of \$694 per day (\$382,394) for total additional billings of \$991,844. The agency estimates it currently has sufficient unused IAT Authority to accept \$420,177 but will need an additional \$571,667 in IAT Authority to bill for the remainder.

The LSEC is a small urban facility serving 90 developmentally delayed, mentally disabled, and severely orthopedically challenged residential students ages 3 through 30 as well as two non-residential Rapides Parish students. The Transitional Department prepares clients (Ages 14-26) for community living by teaching vocational, transitional community, leisure, functional and independent living skills. Vocational skills are taught in classrooms, through on-campus employment and through community-based job training.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 4

AGENCY: Office of Management & Finance

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration	\$1,109,753	0
Interagency Transfers:	\$1,109,753			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,109,753</u>	Total	<u>\$1,109,753</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$1,109,753 IAT authority for construction code enforcement services for parish and/or municipal governments in the 11 parishes identified as most severely impacted by hurricanes Katrina and Rita. This funding represents a remaining portion of the \$16.4 M originally allocated to the Department of Public Safety (DPS) from the \$10.4 B awarded to the LA Recovery Authority (LRA) through the Office of Community Development (OCD) in 2007 from the U.S. Department of Housing & Urban Development (HUD). To date, DPS has expended approximately \$14.7 M of its \$16.4 M allocation with the first actual expenditures being in FY 07.

Currently, DPS has a contract agreement with the Institute for Building Technology & Safety in the amount of \$15.9 M to provide construction code enforcement training. According to the department, the remaining \$0.5 M will be utilized by the department for administrative expenditures associated with these grant funds. This BA-7 merely provides additional budget authority in order to pay the specific contract in FY 09. These grant funds are on a reimbursable basis meaning the department will spend the money and be reimbursed through OCD.

The 11 parishes identified by OCD and HUD include Orleans, Jefferson, St. Bernard, St. Tammany, Calcasieu, Plaquemines, Vermilion, Terrebonne, Cameron, Iberia and Washington.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. Upon approval of this BA-7, there will be approximately \$5.7 M appropriated for this purpose in FY 09 as there is currently \$4.6 M appropriated. To the extent these expenditures are not completely expended in FY 09, the remaining amount left on the professional services contract with the Institute for Building Technology and Safety will likely be carried forward into FY 10 via a carryforward BA-7 request.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$2,645,693			
Total	<u>\$2,645,693</u>	Total	<u>\$2,645,693</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request increases Federal Funds budget authority by \$2,645,693 in the Child Welfare Services Program. According to DSS, this BA-7 is being requested to account for all funds received from the American Recovery & Reinvestment Act. Under this Act, the Title IV-E Federal Medical Assistance Program (FMAP) percentage increased from 72.47% to 78.67% and was made effective for the period October 2008 through December 2010. The agency will receive a total of \$7,937,083 over this time period.

Title IV-E provides foster care maintenance payments to states on behalf of children who have been removed from the home, for adoption assistance, for reimbursement for administrative and training expenses. These additional federal funds will be used for existing Title IV-E eligible services such as room and board payments to foster parents and residential board payments to child caring institutions, retainer payments to foster care parents, clothing, most client related transportation, and some incidentals such as interpreter services, babysitting services, and transportation services for foster care parents to attend training.

II. IMPACT ON FUTURE FISCAL YEARS

The agency will receive Federal Stimulus funding of \$3,527,593 in FY 10 and \$1,763,797 in FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Judiciary

AGENDA NO.: 6

AGENCY: LA Supreme Court

ANALYST: Kristy F. Gary

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Supreme Court	\$1,734,000	0
Interagency Transfers:	\$1,734,000			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,734,000</u>	Total	<u>\$1,734,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$1.734 M in Interagency Transfers (Federal Funds) from Department of Social Services, Office of Family Support to the Judiciary Branch, LA Supreme Court. This funding, Temporary Assistance to Needy Families (TANF) will be used for Court Appointed Special Advocates (CASA) Assistance Program and the Drug Court Assistance Program.

\$734,000 of the funding will be used for the purpose of continuing the initiatives of CASA to needy children in accordance with federal and state regulations. The remaining \$1 M of the funding will be used by the Drug Court Assistance Program to continue providing substance abuse assessment and treatment services under judicial supervision for eligible participants in accordance with federal and state regulations (45 C.F.R. Part 260 - General TANF Provisions, L.A.C. 67 Part III Subpart 15 - TANF Initiatives and La CAC Art. 424 - 424.10 - CASA).

Act 19 of 2008 authorized the appropriation of the TANF funds to the Supreme Court for the CASA and Drug Court Assistance Program from the Department of Social Services (DSS). According to DSS, there was a total of \$8.67 M in TANF allocated for the CASA and Drug Court programs. Act 59 of the 2008 Regular Session (Judiciary Appropriation Bill) appropriated \$6.936 M in IAT from the DSS. This BA-7 request will authorize the transfer of the remainder of the appropriation to the Supreme Court.

II. IMPACT ON FUTURE FISCAL YEARS

According to the DSS, there is \$8.67 M in FY 10 TANF funding allocated for the CASA Assistance Program and Drug Court Assistance Program; however, the current version of HB 863 of 2009 (LA Judiciary Appropriation Bill) does not have the budget authority to receive the funding from DSS.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Interagency Transfers:	\$0	Management & Finance	\$0	0
Self-Generated Revenue:	\$0	Technology Assessment	\$0	0
Statutory Dedications:	\$841,000	Atchafalaya Basin	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$841,000</u>	Total	<u>\$841,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedications budget authority for the Oilfield Site Restoration Fund in the amount of \$841,000 within the Department of Natural Resources (DNR). The monies in the fund are for orphaned oilfield site restoration and are comprised of fees, penalties, judgments and other revenues associated with site cleanup activities.

In order to maximize the number of sites restored, DNR has identified 42 more wells that could be plugged during the current fiscal year, but does not have sufficient budget authority. DNR's FY 09 appropriation from the Oilfield Site Restoration Fund was reduced by \$2.5 M, from \$8 M to \$5.5 M, in order to align budget authority with expenditure needs for this year. Of this \$5.5 M, \$2.4 M in budget authority was utilized to pay prior year obligations for four contracts that were encumbered in FY 08. Additionally, the current year appropriation was reduced by \$277,388 or 5% as part of the deficit reduction plan.

The current fund balance of the Oilfield Site Restoration Fund is approximately \$2.9 M. DNR is proposing to budget \$841,000 in Other Charges for this purpose. If this BA-7 request is approved, the projected fund balance as of 6/30/09 will be approximately \$2 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$113,300</u>	Total	<u>\$113,300</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer funds from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to the Department of Revenue for the Alcohol & Tobacco Control Program within the Department of Revenue for reimbursement of expenses incurred when providing assistance as first responders following hurricanes Gustav and Ike as an Emergency Support Function (ESF) 13 Law Enforcement Agency. The expenses involved salaries for overtime (\$60,030), related benefits for Medicare contributions (\$868) and operating services (\$50,965) related to vehicle operation by the Alcohol & Tobacco Control Program. The Tax Collection program also incurred costs of \$1,437 related to the preparation of the FEMA request, costs of future audits of the request and other miscellaneous supplies. All of these expenditures have been deemed eligible for reimbursement by FEMA and GOHSEP will be able to disburse the funds immediately upon request.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time expenditure and the associated budget authority should be non-recurred during the FY 10 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 11

AGENCY: Office of State Police

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement	\$0	0
Interagency Transfers:	\$0	Criminal Investigation	\$253,322	0
Self-Generated Revenue:	\$253,322	Operational Support	\$0	0
Statutory Dedications:	\$0	Gaming Enforcement	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$253,322</u>	Total	<u>\$253,322</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$253,322 in narcotic seizure monies for replacement equipment within the Bureau of Criminal Investigations within State Police. The equipment being replaced is outdated computer forensic, crime scene and surveillance equipment. The replacement equipment will be utilized by state troopers and investigators who conduct forensic analysis, crime scene analysis, covert undercover and surveillance operations.

The specific acquisitions purchases include:

\$60,887 - Forensic Recovery of Evidence Device Center, which is a computer server that will be utilized to store electronic images that are considered forensic evidence.

\$17,000 - Forensic Recovery of Evidence Device, which is a device that allows investigators to acquire data directly from drives and storage devices and saves the forensic evidence to DVDs, CDs or hard drives.

\$26,453 - IP Video Surveillance over Wi-Fi, which will allow investigators to mount surveillance cameras indoors or outdoors and provide for covert surveillance.

\$3,460 - Access Data Mobile Phone Examiner, which is a device that will allow investigators to correlate computer evidence with cell phone evidence in the same intuitive interface.

\$63,476 - Guardian ST820 Real Time Tracker Kit, which is a GPS tracking device.

\$20,937 - Susteen DataPilot Kit, which is software and hardware that allows investigators to extract data and content from a mobile phone.

\$9,560 - LEA Butane Lighter Digital Recorder, which is a hidden microphone that will be utilized in covert operations.

\$23,250 - Adaptive Digital Systems HAWK8A Kit, which is a dual camera audio/video recorder that will be utilized in covert operations.

\$24,449 - Spider 7000 Surveillance Platform upgrade, which is the application platform utilized by state police investigators.

\$3,850 - Crime scene trailer, which will be utilized for storage of equipment necessary to process crime scenes in North LA due to the lack of crime lab personnel in that specific region of the state.

Act 19 (HB 1) of 2008 provides for prior year SGR derived from federal and state asset forfeitures to be carried forward and available for expenditure. Due to the narcotic seizure monies not reverting to the state general fund at the end of the fiscal year pursuant to Act 19, state police is requesting to expend a portion of this carry forward balance in FY 09. According to the latest collection/expenditure data provided by state police, this BA-7 will expend approximately \$0.3 M of the current narcotic fee

May 11, 2009

Statutory Dedications:	\$59,472			
Federal Funds:	\$59,471			
Total	<u>\$118,943</u>	Total	<u>\$118,943</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedication and Federal Fund budget authority in the Medical Vendor Administration Program. The source of Statutory Dedication funding is revenue from the Nursing Home Residents' Trust Fund. The source of federal funds is Title 19 federal financial participation.

This BA-7 requests funding to continue a 2-year joint project with DHH and the Governor's Office of Elderly Affairs to address staffing issues in nursing homes in the New Orleans and Lake Charles area that was approved through a prior year BA-7 (2008). The Governors Office of Elderly Affairs will coordinate the nursing home staffing project. Specifically, funds will allow for completion of the project and deliverables as set forth in the initial contract. The staffing project has three goals: 1) to work in a collaborative fashion with New Orleans and Lake Charles nursing home providers to help facility personnel implement evidence-based practices associated with attracting and retaining staff; 2) assist nursing home staffs address the particular challenges of living and working in or near the recovering cities by engaging case managers familiar with the needs of the healthcare workforce; and 3) to share with all nursing home providers the lessons learned from the project through a conference held at the end of the project.

Total anticipated cost of the two year project is \$557,315. This adjustment will allow both DHH and Elderly Affairs to meet the deliverables of the contract through FY 09. These funds will be transferred from DHH to GOEA to complete the project.

II. IMPACT ON FUTURE FISCAL YEARS

Total	<u>\$1,923,993</u>	Total	<u>\$1,923,993</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Department of Public Safety & Corrections, Adult Probation & Parole by \$1,923,993 in order to receive funding from the Governor's Office Homeland Security & Emergency Preparedness (GOHSEP). These FEMA funds are projected reimbursements to the agency for unfunded costs incurred in FY 09 as a result of hurricanes Gustav and Ike for costs associated with overtime for employees who assisted with the transport of inmates being evacuated and employees who were assigned to work the distribution points and emergency assistance centers. The budget authority requested is based on the department's current budget projections for expenditures. The department is being reimbursed at 90%, which is the same manner in which the department was previously reimbursed by FEMA. No state match is required for these FEMA funds.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Department of Public Safety & Corrections, B.B. "Sixty" Rayburn Correctional Center by \$468,980 in order to receive funding from the Governor's Office Homeland Security & Emergency Preparedness (GOHSEP). These FEMA funds are projected reimbursements to the agency for unfunded costs incurred in FY 09 as a result of hurricanes Gustav and Ike for costs associated with evacuation expenses and the housing of additional inmates. The budget authority requested is based on the department's current budget projections for expenditures. The department is being reimbursed at 90%, which is the same manner in which the department was previously reimbursed by FEMA. No state match is required for these FEMA funds.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 15

AGENCY: Office of Agriculture & Forestry

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$328,026	0
Interagency Transfers:	\$0	Marketing	\$0	0
Self-Generated Revenue:	\$0	Agricultural & Environmental Sciences	\$0	0
Statutory Dedications:	\$565,562	Animal Health Services	\$0	0
Federal Funds:	\$0	Agro-Consumer Services	\$237,536	0
		Auxiliary Account	\$0	0
Total	<u>\$565,562</u>	Total	<u>\$565,562</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget additional statutory dedication-Weights & Measures Funds in the amount of \$565,562 for programmatic expenditures within the Agro-Consumer Program, \$237,536, and the Management & Finance Program, \$328,026. This funding is from the projected FY 09 unappropriated fund balance from the Weights & Measures Fund.

The following expenditures are requested:

\$328,026 salaries - represents the indirect costs associated with the unappropriated funds being requested within this BA-7 within the Weights & Measures Fund. Although the weights and measures function is within the Agro-Consumer Services Program, the Management & Finance Program provides administrative support functions (payroll, fleet management, etc.). In order to maximize this means of financing, the Department utilizes a portion of this statutory dedicated fund for indirect costs. These funds will be appropriated for salaries of existing positions.

\$237,536 supplies - represents supplies of the following items: water detecting paste, rechargeable batteries for portable scales, stop scale violation notices, and grain forceps.

Based on current year revenue projections and the current projected expenditures, the Weights & Measures Fund is projected to have an ending FY 09 fund balance of \$0.6 M. Below is an illustration of the projected surplus.

\$1,943,651	Projected FY 09 Revenue Collections
<u>\$429,304</u>	<u>FY 08 Fund Balance</u>
\$2,372,955	Total FY 09 Revenue Available
<u>\$1,807,393</u>	<u>Less: EOB FY 09 Expenditures</u>
<u>\$565,562</u>	<u>FY 09 projected surplus</u>

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will impact future fiscal years in that the unappropriated fund balance will not be available for expenditure in FY 10 and beyond because these monies will likely be completely expended in FY 09. All of the unexpended fund balances within this statutory dedicated fund remain within the fund and do not revert to the SGF.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

		Agro-Consumer Services	\$0	0
Federal Funds:	\$391,142	Auxiliary Account	\$0	0
Total	<u>\$391,142</u>	Total	<u>\$391,142</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal funding provided to the state through the American Recovery & Reinvestment Act (ARRA) of 2009 for the U.S. Department of Agriculture's (USDA) Federal Emergency Food Assistance Program (TEFAP). These funds are for administrative costs that will pass-through the department to be divided equally among 5 food banks. The specific food banks to receive these funds are: The Food Bank of Central LA, Greater Baton Rouge Food Bank, Northwest LA Food Bank, Second Harvesters Food Bank and the Food Bank of Northeast LA.

The total amount of funding provided within the ARRA for TEFAP is \$150 M of which \$50 M may be utilized for administrative costs, \$250,000 will be utilized for offshore shipping charges and the remaining \$99.75 M will be utilized for food purchases. According to the USDA, \$25 M has been allocated in both FY 09 and FY 10 for administrative costs of which the department will receive \$391,142 each fiscal year. USDA is allocating \$99.75 M for the purchase of food and the state allocation is based upon a formula utilizing the average number of persons unemployed, unemployment index, average number of persons below poverty level and a poverty index to develop a weighted index, which equates to approximately \$1.6 M of specific food grant levels to be distributed in LA.

II. IMPACT ON FUTURE FISCAL YEARS

According to the USDA, there will be an additional \$391,142 of federal funding that will pass-through the department to be divided equally among 5 food banks. The current version of HB 1 does not include the \$391,142 of federal authority needed within the department's budget for FY 10.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 17

AGENCY: Office of State Police

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement	\$0	0
Interagency Transfers:	\$0	Criminal Investigation	\$0	0
Self-Generated Revenue:	\$1,594,697	Operational Support	\$0	0
Statutory Dedications:	\$0	Gaming Enforcement	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$1,594,697	0
Total	<u>\$1,594,697</u>	Total	<u>\$1,594,697</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$1,594,697 SGR for the Sprint/Nextel Rebanding Project. According to State Police, the Federal Communication Commission (FCC) mandated this project in 2004 and the purpose of the project is to reconfigure or update the 800 MHz band to minimize harmful interference to public safety radio communications systems. Due to FCC mandate, Sprint/Nextel will pay the state to reconfigure the impacted radio frequency allocations. Thus, the requested increase in fees and self-generated revenues represents funding provided by Sprint/Nextel to the state for this project. Because the state is in the process of providing an interoperability solution, which entails converting from the 800 MHz system to the 700 MHz system, this project will essentially provide infrastructure funding for this conversion to the new 700 MHz communication system.

The requested expenditure authority will be appropriated as follows:

\$255,095 - salaries, which are for the costs associated with the state police radio communication center updating and/or replacing all state trooper issued radios.

\$1,339,602 - acquisitions, which will be for the following purchases: \$625,000 - 700 MHz infrastructure updates, \$149,690 - 12 Channel Voice Recorders, \$405,000 - 162 additional radios for the state, \$159,912 - 6 backhaul links.

According to the IT-10 submitted to the Division of Administration (DOA) Office of Information Technology (OIT) by the Department of Public Safety (DPS), the total projected cost to state police is approximately \$6 M of which \$1.6 M is being requested to be appropriated in FY 09. The overall total cost of this project is approximately \$9.7 M in which Sprint/Nextel has agreed to pay the state in 3 agreements: \$191,530 - Planning Funding Agreement, \$6,741,929 - Frequency Reconfiguration Agreement, \$2,739,628 - Subscriber Equipment Deployment. State Police will receive \$6 M while various other state/local entities will receive the remaining \$3.7 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. However, this project is anticipated to be multiyear and the anticipated FY 10 expenditures for State Police are \$4.4 M in SGR.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,500,000</u>	Total	<u>\$1,500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT by \$1.5 in the Office of Public Health, Personal Health Services Program. The source of IAT is the Division of Administration's current year appropriation from the State Emergency Response Fund, which has a current unobligated expenditure authority of \$5.7 M.

This funding is needed for emergency preparedness activities necessary to prevent the spread of the Swine Flu (H1N1) virus. According to the Centers for Disease Control & Prevention, LA has confirmed 7 cases. As of 5/6/06, the agency has expended a total of \$1,718 on travel and encumbered \$181,483 for supplies for the Swine Flu outbreak. The agency has indicated that the funding from this BA-7 will be allocated as follows:

\$720,000 - Staff overtime (100 people for 8 weeks to man the emergency operating centers, perform lab testing, and transport lab samples).

\$600,000 - Replenishing of Personal Protection Equipment (masks, gowns, gloves).

\$75,000 - National Guard Activation (5 days @ \$15,000 per day for personnel, trucks, and fuel to transport antivirals and supplies to hospitals or other designated points).

\$47,620 - Transportation costs for lab samples (fuel and ice).

\$40,158 - Lab Supplies.

\$15,022 - Antiviral Cold Storage.

\$2,200 - Toll-free 800 number.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This funding is for one-time expenditures related to the Swine Flu outbreak.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds from the FEMA Reimbursement Fund (unbudgeted State Emergency Response Funds or SERF will be budgeted into the FEMA Reimbursement Fund) which will be used to pay the 25% state match for assistance provided by FEMA as a result of hurricanes Gustav and Ike. The current unbudgeted SERF balance is approximately \$51.3 M. FEMA provided assistance to disaster victims under the Other Needs Assistance Program, as provided for in 44 CFR 206.110 for these 2 disaster declarations. The Other Needs Assistance Program helps eligible individuals and families pay for items and services such as transportation expenses, household items and clothing, medical and dental care, and equipment to help repair damaged homes such as power tools and dehumidifiers. Under the terms of the FEMA-State agreement, the federal funds provided under the Stafford Act are limited to 75% of the total eligible cost, with the state being responsible for the remaining 25%. These costs include those for December 2008 only. Reimbursement for later months will be provided for in subsequent BA-7 requests.

Payment is due in full to FEMA within 30 days from the receipt of the FEMA request letter which was received on 2/13/09. Funds will be placed in escrow in the registry of the court while an audit of these expenses is performed.

The following amounts are due to FEMA:

\$358,686 for Disaster Declaration #1792 (Hurricane Ike)
\$755,192 for Disaster Declaration #1786 (Hurricane Gustav)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$0			
Total	<u>\$54,555</u>	Total	<u>\$54,555</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget statutorily dedicated civil fees in the Office on Women's Policy for distribution to the Crescent House of Catholic Charities in New Orleans. Current law provides for the clerk of the Civil District Court for the Parish of Orleans to collect a \$10 nonrefundable fee from every person filing any suit or proceeding for divorce, annulment of marriage, or establishment or disavowal of the paternity of children. These monies are to be used solely for the purposes of providing financial support to those non-profit organizations located and operating within the Parish of Orleans that provide shelter for battered women and their children.

Crescent House of Catholic Charities, located in New Orleans, is qualified to receive civil fees but was not eligible after Hurricane Katrina because the shelter was not operational for the period September 2005-April 2006. The shelter has reopened and this BA-7 request seeks to provide for the payment to this organization of the balance of civil fees collected in Orleans Parish. Approval of this BA-7 request will provide the necessary budget authority to distribute the residual cash balance as well as the pro rata share for FYs 07, 08 and the estimated amount for 09.

The residual cash balance to be distributed to this organization resulted from a change in the manner of distribution of funds by the Office on Women's Policy which required that all collections be dispersed annually to each eligible entity. The previous method resulted in an accumulation of funds attributable to the nonprofit agencies in the respective parishes. Any amount collected but not distributed remained in the fund as an accumulated balance and was previously distributed to all qualified organizations other than the Crescent House which is now seeking its residual balance plus its share of civil fees from FY 07 through FY 09. Funding generated by the civil fees can only be used for eligible organizations in Orleans Parish.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request. Although this organization did not provide shelter services for a portion of the time when this residual balance was generated, the statutory provision only requires that these funds be directed to "those non-profit organizations located and operating in the Parish of Orleans". The Crescent House continues to offer shelter services in Orleans Parish and is the only shelter eligible to receive these civil fees. Since the statute does not specifically disqualify an entity due to a break in continuity of service, the LFO recommends the appropriation of the entire residual balance plus the allocations for FY 07, 08 and 09 as per this request.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Executive

AGENDA NO.: 3

AGENCY: Office of Elderly Affairs

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Title III, Title V, Title VII and USDA	\$321,282	0
Self-Generated Revenue:	\$0	Action Match	\$0	0
Statutory Dedications:	\$0	Parish Councils on Aging	\$0	0
		Senior Centers	\$0	0
Federal Funds:	\$321,282			
Total	<u>\$321,282</u>	Total	<u>\$321,282</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal funding provided to the state through the American Recovery & Reinvestment Act (ARRA) of 2009 for Home Delivered Nutrition Services. Two grants have been provided to the Office of Elderly Affairs through the ARRA. A total of \$861,168 has been awarded for congregate meal services with a budget period of 3/17/09 - 9/30/10. In addition, a total of \$423,960 has been awarded for home-delivered nutrition services with the same budget period as shown above. Total grant funding appropriated for FY 09 (4 months) is based on a pro-rated portion of these grant funds over a 16-month grant period which crosses state fiscal years. The remainder of the grant funds in the amount of \$963,846 will be budgeted in FY 10.

The grant funds will be allocated based on the funding formula currently utilized by the Office of Elderly Affairs to distribute funding for the elderly nutrition program, authorized under Title III of the Older Americans Act. This program provides grants to state agencies on aging to support congregate and home-delivered meals to persons 60 years and older. Funding is provided through the Administration on Aging in the Department of Health & Human Services. Funds are allotted to states according to a formula based on each state's relative share of the population aged 60 and over.

The Office of Elderly Affairs will utilize 5% of the funds provided through the ARRA for administrative costs which is allowable under the federal provisions. Therefore, the total amount to be distributed based on the aforementioned funding formula for FY 09 is \$305,217. The FY 10 distribution will also be reduced by 5% from \$963,846 to \$915,653 for ongoing administrative costs. The total amount requested for administrative costs is \$64,258.

According to the Office of Elderly Affairs, these administrative costs include increased travel associated with program auditors and monitors since the requirements have increased in scope beyond what is included in the regular audit and monitoring plans. Program monitors will be required to travel to train each of the agencies on aging to prepare for new reporting requirements attributed to these funds. In addition, the agency's dietician will be required to inspect any new public meal site opened for compliance with public health standards, licensing and Office of Elderly Affairs procedures for opening new sites. Additional audit assistance will likely be contracted for due to the anticipated loss of one of the agency's four auditors for FY 10. The anticipated travel cost for the two year grant period is \$22,034 while the estimated cost for contracted audit assistance is \$42,224.

II. IMPACT ON FUTURE FISCAL YEARS

The remainder of the grant funds in the amount of \$963,846 will be budgeted in FY 10 and distributed in the same manner as described above (minus 5% administrative costs).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

April 17, 2009

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 4

AGENCY: Office of Public Health

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Vital Records & Statistics	\$0	0
Interagency Transfers:	\$0	Personal Health Services	\$8,127,625	0
Self-Generated Revenue:	\$0	Environmental Health Services	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$8,127,625			
Total	<u>\$8,127,625</u>	Total	<u>\$8,127,625</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal Funds budget authority by \$8,127,625 in the Personal Health Services Program. These are 100% federal funds from the U.S. Department of Agriculture Food & Nutrition Services for the Women, Infants, & Children (WIC) Program. No state match is required.

WIC is the special supplemental nutrition program for women, infants, and children that provides nutrition education and specific food benefits based on nutrients demonstrated to be low in the diets of low-income people. Due to Hurricane Gustav and the state of the economy, the program has experienced an increase of 2,934 participants from November 2008 to March 2009. OPH is projecting an additional increase of 3,797 participants for the remainder of the fiscal year. In addition, rising food costs have also contributed to an increase in food expenditures for the program.

Approval of this BA-7 request will allow the agency to continue serving WIC participants at the current participation level as well as meet the increased needs of participants requiring these services. These funds will be used for WIC vouchers (\$7,613,037) and administrative expenses (\$514,588).

II. IMPACT ON FUTURE FISCAL YEARS

The agency anticipates that this level of additional funding will be required in future fiscal years; however, any dramatic increase or decrease in the participation level can affect the amount of the federal funds received from the U.S. Department of Agriculture Food & Nutrition Services for the WIC Program.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$293,656			
Total	<u>\$293,656</u>	Total	<u>\$293,656</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal Funds budget authority by \$293,656 in the Personal Health Services Program. These are 100% federal funds from the Center for Disease Control Office for Terrorism Preparedness & Emergency Response. No state match is required.

These funds will be used to provide emergency preparedness information and supplies for pandemic influenza planning in the Region 1 area (Orleans, Jefferson, St. Bernard, and Plaquemines parishes). The funding will be allocated as follows:

Supplies (\$227,505)

Approximately 84,000 Pandemic Influenza Preparedness Kits (Germ Stop Tube Kits) will be purchased to distribute to the various service sites.

Other Charges (\$55,969)

The funding will be used for indirect costs to cover OPH cost allocation charges applicable to the project as well as miscellaneous charges such as printing of brochures, pamphlets, and other emergency preparedness planning and educational materials; additional supplies that may be needed; and facility rentals for training and meetings.

Other Compensation (\$7,000) and Related Benefits (\$2,240)

One temporary restricted appointment will be hired full-time as a program coordinator for five months to coordinate the activities of the project. This person will be responsible for developing the surveys, collecting, reviewing, and analyzing pre and post surveys, training the staff of the partnering agencies/contractors, and coordinating the dissemination of supplies. The funding in this BA-7 request is for two months (May/June).

Travel (\$942)

The funding will be used for staff to travel within Region 1 to meet with partnering agencies and community groups and to meet with program staff in Baton Rouge.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period for this funding is 9/30/08 through 9/30/09. The total grant award is \$397,885. The remaining \$104,229 will be used for three months in FY 10.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 6

AGENCY: Office of Mental Health (State Office)

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$3,246,450	Community Mental Health	\$6,949,456	0
Self-Generated Revenue:	\$0	Office of Mental Health - Area A	\$0	0
Statutory Dedications:	\$0	Office of Mental Health - Area B	\$0	0
		Office of Mental Health - Area C	\$0	0
Federal Funds:	\$3,703,006	Auxiliary Account	\$0	0
Total	<u>\$6,949,456</u>	Total	<u>\$6,949,456</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$3,246,450 and Federal budget authority by \$3,703,006 in the Community Mental Health Program. The source of IAT is the Immediate Services Program (ISP) grant from the Federal Emergency Management Agency (FEMA) and the Centers for Mental Health Services (CMHS), which was awarded through the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). The source of federal funds is the Regular Services Program (RSP) grant awarded through CMHS/Substance Abuse & Mental Health Services Administration (SAMHSA).

The ISP grant was initially awarded for 60 days, beginning September 2008 or until the RSP is approved. On 12/12/08, the Joint Legislative Committee on the budget approved a BA-7 for \$2,782,373 for the Immediate Services Program. On 3/12/09, OMH was awarded an additional ISP grant award of \$3,246,450 to continue providing immediate crisis counseling and outreach support services to residents impacted by Hurricane Gustav in 44 declared parishes until the RSP is approved. As of 4/12/09 the agency has expended or encumbered a total of \$4,497,589 of the ISP grant pursuant to authority granted in Act 19 of 2008 which states that *"Any federal funds which are classified as disaster or emergency may be expended prior to approval of a BA-7 by the Joint Legislative Committee on the Budget upon the secretary's certifying to the governor that any delay would be detrimental to the state."* Once the agency receives the official award notice for the RSP grant, the remaining ISP grant funds can no longer be used.

On 3/26/09, the agency was notified by CMHS that it was approved to receive \$15,206,405 for the Regular Services Program. Of this amount, the agency is requesting to expend \$3,703,006 in the current fiscal year to continue crisis counseling and outreach support services. The RSP grant will be allocated as follows:

\$2,985,800	Wages (\$2,351,000) and Related Benefits (\$634,800) for 229 LA Spirit temporary employees to provide outreach services to survivors of Hurricane Gustav.
\$509,200	Travel for LA Spirit employees to provide outreach services across the state.
\$45,000	Operating Services for printing, copier rental, and cell phones.
\$67,070	General office supplies, copier paper, stress management supplies, training materials.
<u>\$95,936</u>	Media and training contracts.
\$3,703,006	TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

The agency will use the remaining \$11,503,399 RSP grant funding in FY 10 to continue providing crisis counseling services.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Office recommends approval of this BA-7 request at the reduced amount of \$5,418,222. OMH received the official award notice for the Regular Services Program grant on 4/13/09 and will only need \$1,715,216 of the \$3,246,450 ISP grant award to cover expenditures through 4/12/09.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 6

AGENCY: Office of Mental Health (State Office)

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$1,715,216	Community Mental Health	\$5,418,222	0
Self-Generated Revenue:	\$0	Office of Mental Health - Area A	\$0	0
Statutory Dedications:	\$0	Office of Mental Health - Area B	\$0	0
		Office of Mental Health - Area C	\$0	0
Federal Funds:	\$3,703,006	Auxiliary Account	\$0	0
Total	<u>\$5,418,222</u>	Total	<u>\$5,418,222</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$1,715,216 and Federal budget authority by \$3,703,006 in the Community Mental Health Program. The source of IAT is the Immediate Services Program (ISP) grant from the Federal Emergency Management Agency (FEMA) and the Centers for Mental Health Services (CMHS), which was awarded through the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). The source of federal funds is the Regular Services Program (RSP) grant awarded through CMHS/Substance Abuse & Mental Health Services Administration (SAMHSA).

The ISP grant was initially awarded for 60 days, beginning September 2008 or until the RSP is approved. On 12/12/08, the Joint Legislative Committee on the budget approved a BA-7 for \$2,782,373 for the Immediate Services Program. On 3/12/09, OMH was awarded an additional ISP grant award of \$3,246,450 to continue providing immediate crisis counseling and outreach support services to residents impacted by Hurricane Gustav in 44 declared parishes until the RSP is approved. As of 4/12/09 the agency has expended or encumbered a total of \$4,497,589 of the ISP grant pursuant to authority granted in Act 19 of 2008 which states that "Any federal funds which are classified as disaster or emergency may be expended prior to approval of a BA-7 by the Joint Legislative Committee on the Budget upon the secretary's certifying to the governor that any delay would be detrimental to the state." Once the agency receives the official award notice for the RSP grant, the remaining ISP grant funds can no longer be used.

On 3/26/09, the agency was notified by CMHS that it was approved to receive \$15,206,405 for the Regular Services Program. Of this amount, the agency is requesting to expend \$3,703,006 in the current fiscal year to continue crisis counseling and outreach support services. The RSP grant will be allocated as follows:

\$2,985,800	Wages (\$2,351,000) and Related Benefits (\$634,800) for 229 LA Spirit temporary employees to provide outreach services to survivors of Hurricane Gustav.
\$509,200	Travel for LA Spirit employees to provide outreach services across the state.
\$45,000	Operating Services for printing, copier rental, and cell phones.
\$67,070	General office supplies, copier paper, stress management supplies, training materials.
<u>\$95,936</u>	Media and training contracts.
\$3,703,006	TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

The agency will use the remaining \$11,503,399 RSP grant funding in FY 10 to continue providing crisis counseling services.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Office recommends approval of this BA-7 request at the reduced amount of \$5,418,222. OMH received the official award notice for the Regular Services Program grant on 4/13/09 and will only need \$1,715,216 of the \$3,246,450 ISP grant award to cover expenditures through 4/12/09.

Approved By JLCB**

DEPARTMENT: Corrections

AGENDA NO.: 7

AGENCY: David Wade Correctional Center

ANALYST: Kristy F. Gary

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration	\$0	0
Interagency Transfers:	\$1,557,097	Incarceration	\$0	0
Self-Generated Revenue:	\$0	Rehabilitation	\$0	0
Statutory Dedications:	\$0	Health Services	\$0	0
Federal Funds:	\$0	Forcht-Wade Correctional Institute	\$0	0
		Steve Hoyle Rehabilitation Center	\$1,557,097	0
Total	<u>\$1,557,097</u>	Total	<u>\$1,557,097</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$1,557,097 in IAT from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) to the Steve Hoyle Rehabilitation Center. The FEMA funds are reimbursements to the Department of Public Safety & Corrections, Corrections Services for housing displaced offenders at various correctional facilities as a result of Hurricane Katrina. \$1,329,387 has been collected and is for prior and current year FEMA reimbursement and \$227,710 is projected to be collected for the period of January through March 2009. No state match is required for these FEMA funds.

This funding will allow for one-time expenditures to be made in FY 09 in the Steve Hoyle Rehabilitation Center to cover projected expenditures for the program. Approximately \$2 M in funding was reduced via BA-7 in January to comply with Executive Order BJ 2008-109 and BJ 2008-114 based on the closure of Steve Hoyle Rehabilitation Center by March 2009. Due to delays with the sale, closure is not expected until 6/30/09. The additional funding is needed to provide for the housing of offenders at the Steve Hoyle Rehabilitation Center through June. As of 3/11/09 there were 105 offenders at the Steve Hoyle Rehabilitation Center.

If this BA-7 request is not approved, the Steve Hoyle Rehabilitation program will run a deficit.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Natural Resources

AGENDA NO.: 8

AGENCY: Office of Coastal Restoration

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Office of Coastal Restoration	\$17,048,284	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$400,000			
Statutory Dedications:	\$16,648,284			
Federal Funds:	\$0			
Total	<u>\$17,048,284</u>	Total	<u>\$17,048,284</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the amount of \$400,000 and Statutory Dedications budget authority in the amount of \$16,648,284 for the Department of Natural Resources (DNR).

An increase in SGR budget authority is necessary to accept donations from the Baton Rouge Area Foundation and LA Foundation for Excellence in Science, Technology and Education that were made to help defray the cost of generators purchased in the aftermath of Hurricane Gustav. DNR expended approximately \$11 M from the Coastal Protection & Restoration Fund for these generators that were distributed to certain local political subdivisions.

In addition, DNR does not have sufficient statutorily dedicated budget authority in order to meet the state's obligations on ongoing signed contracts for construction projects and purchase orders for delivery of services related to coastal activities. DNR was appropriated budget authority only to the extent that cash payments would be made for coastal projects for FY 09. The current fund balance for the Coastal Protection & Restoration Fund is approximately \$79 M (Capital Outlay portion not included), however DNR's remaining budget authority is approximately \$7.5 M. The department projects that the remaining encumbered expenditures in FY 09 is approximately \$24.1 M. Therefore, this request is for approximately \$16.6 M (\$24.1 M - \$7.5 M = \$16.6 M). If this BA-7 request is approved, the projected fund balance as of 6/30/09 will be approximately \$62 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Revenue

AGENDA NO.: 9

AGENCY: Office of Revenue

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Tax Collection	\$172,619	0
Interagency Transfers:	\$172,619	Alcohol & Tobacco Control	\$0	0
Self-Generated Revenue:	\$0	Office of Charitable Gaming	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$172,619</u>	Total	<u>\$172,619</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer funds from the Department of Social Services to reimburse the Department of Revenue for expenses incurred when providing assistance in the delivery of emergency food stamps following hurricanes Gustav and Ike. The expenses involved salaries for overtime (\$157,604), related benefits for Medicare contributions (\$2,441) and travel (\$12,574).

The Department of Revenue indicates that these funds are required for use in paying overtime for existing employees to process tax forms within an acceptable timeframe in light of the hiring freeze and the reduction of positions during the current fiscal year.

The funding will be transferred from the Office of Family Support within the Department of Social Services, which acquired it through a Disaster Food Stamp grant from the U.S. Department of Agriculture (USDA) - Food and Nutrition Service. A BA-7 approved on 2/20/09, allowed DSS to draw down the federal money, and this BA-7 request is distributing it to the Department of Revenue. However, the original BA-7 acknowledged \$145,724 for the Department of Revenue while this request is for \$172,619. The difference is due to additional invoices that arrived after the first cost estimate was made. DSS has determined that all of the expenses are eligible for funding under the disaster food stamp program.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time expenditure and the associated budget authority should be non-recurred during the FY 10 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

DEPARTMENT: Workforce Commission

AGENDA NO.: 10

AGENCY: Office of Workforce Development

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Management & Finance	\$0	0
Self-Generated Revenue:	\$0	Occupational Information System	\$0	0
Statutory Dedications:	\$0	Job Training & Placement	\$43,165,579	0
Federal Funds:	\$43,165,579	Incumbent Worker Training	\$0	0
		Unemployment Benefits	\$0	0
Total	<u>\$43,165,579</u>	Total	<u>\$43,165,579</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to allow for the appropriation of \$43,165,579 of the Workforce Investment Act (WIA) and Wagner-Peyser Act provisions of the American Recovery and Reinvestment Act of 2009 (ARRA), the federal stimulus bill. The money will supplement activities related to ongoing programs as outlined in the current state plan. This BA-7 request is 100% federally funded and will require no additional monetary contribution from the state. This money must be made available to local Workforce Investment Boards within 30 days of receipt of the Notice of Obligation which was received from the U.S. Department of Labor on 3/18/09. The funds must be made available to the local boards by 4/18/09. A list of allocations by local area and parish according to the currently approved state plan is attached.

It has been determined that this portion of the stimulus package has no prerequisite program changes that may increase state expenditures in future years.

Workforce Investment Act (\$38.0M)

The WIA program is split into three components targeting youth (age 16-21), adults (age 22-72) and dislocated workers offering employment and training services in order to assist them in entering the workforce or furthering their careers. The programs provide adult education, job training, post-secondary education, registered apprenticeships, career advancement and supportive service activities. On an annual basis, the states receive funding from the federal government through a mandatory formulaic distribution provided below. The money from the stimulus package will supplement the standard fiscal year allocation that will be announced soon under the stipulations of the currently approved state plan.

The funding for each component is:

Youth	\$20.0M
Adult	8.7M
<u>Dislocated Worker</u>	<u>9.3M</u>
TOTAL WIA	\$38.0M

The state allocation is distributed to the local boards using the same basic formula used by the U.S. Department of Labor to allocate the federal funds to the states. The WIA formulas used to allocate federal funds to the states and state funds to the local boards are:

Adult and Youth Formula

- 1/3 based on the relative number of unemployed
- 1/3 based on the relative number of excess unemployed (4.5%)
- 1/3 based on the relative number of individuals determined to be economically disadvantaged. (poverty level)

Dislocated Worker Formula

Same as Adult and Youth except the final 1/3 is based on the number of individuals unemployed for 15 weeks or more.

April 17, 2009

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Wagner-Peyser Act (\$5.2M)

The Wagner-Peyser Act allows for employment services grants, particularly related to the implementation of a one-stop system whereby unemployed workers gain access to all available assistance in a centralized location. Under ARRA requirements, \$3.2 M is set aside for reemployment services to “connect unemployment insurance claimants to employment and training opportunities that will facilitate their reentry to employment.” The remaining \$1.9 M is for standard grant activity under the program. Like the WIA funding, the Wagner-Peyser programs are distributed to the states by formula, but the formula is based on the percentage of the total civilian labor force that is unemployed.

No less than 85% of the WIA funding (\$32.3 M) must be distributed to the 18 Local Workforce Investment Boards designated to administer these funds. The balance of WIA funds (\$5.7 M) and Wagner-Peyser funds (\$5.2 M) will be used for statewide activities such as program oversight and accountability, monitoring, performance management, technical assistance, capacity building, reemployment services, outreach and recruitment, services to populations with special needs, training programs in areas of high unemployment, etc.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time expenditure in the Job Training & Placement Program under the other charges category. This budget authority should be non-recurred during the FY 10 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$700,000			
Total	<u>\$700,000</u>	Total	<u>\$700,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget federal grant funds from the Federal Motor Carrier Safety Administration (FMCSA). These grant funds were originally awarded beginning in FY 06 and have continued to be awarded annually through FY 08 but have not previously been budgeted. Due to technological difficulties associated with implementation, these grant funds have yet to be utilized. The total grant award received from FMCSA to date is \$1,658,190. This BA-7 request will budget funding associated only with the FY 09 expenditures of grant funds by the Office of State Police and DOTD.

The grant award is titled the Commercial Vehicle Information Systems and Networks (CVISN) and is designed to develop and deploy information systems that will support new capabilities in three areas: Safety Information Sharing, Credentials Administration, and Electronic Screening.

The Office of State Police will receive a total of \$522,940 from DOTD for hardware acquisitions related to the roadside connectivity project implementation which gives motor carrier officers the ability to electronically record and transfer to central sources traffic citation, arrests and crash reports. This funding will address configuration issues which allow officers to access data and central systems from the road. The motor carrier enforcement section was not included in previous upgrades. The Office of State Police will receive \$230,000 in FY 10 for software upgrades. The FY 09 acquisitions include:

118 CF-30 computers - \$431,859
118 Docking Stations - \$40,328
118 Aircard Antennas - \$4,403
67 700 Mhz Program - \$15,946
60 Mounting Brackets - \$22,979
3 CF-8 Computers - \$7,425

DOTD will budget a total of \$177,060 for expenses related to the following:

- 1) \$57,646 for server replacement for the Commercial Vehicle Information Exchange Window (CVIEW). This server provides data flow from the Office of Motor Vehicles, State Police and the Department of Revenue.
- 2) \$70,000 for Phase 1 WAN upgrade which enables network communications across metropolitan or even national areas.
- 3) \$49,414 for operations and maintenance of the server.

NOTE: LA is eligible for an additional \$1.8 M of CVISN funds. DOTD is currently finalizing its proposal which will likely include a request for additional dollars to further enhance the motor carrier enforcement system.

II. IMPACT ON FUTURE FISCAL YEARS

The remainder of the funding available (\$958,190) will be appropriated in subsequent fiscal years to the agencies listed below for continuation of this effort.

April 17, 2009

Approved By JLCB**

truck registrations.

The Department of Revenue will receive \$20,000 related to the International Fuel Tax Administration (IFTA) agreement for license applications and renewals.

State Police will receive \$230,000 for software upgrades related to the hardware described above.

DOTD will receive \$208,190 for upgrades to rural weight stations which will provide improved connectivity for users including State Police and Office of Motor Vehicles.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Transportation & Development

AGENDA NO.: 12

AGENCY: Administration

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>

Federal Funds:	\$0			
Total	<u>\$291,500</u>	Total	<u>\$291,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds which will reimburse DOTD (Administration) for emergency response expenses incurred before, during and after hurricanes Gustav and Ike. These costs are anticipated to be reimbursed by FEMA (through GOHSEP) and by the Federal Highway Administration. This BA-7 includes the reimbursement for the following costs associated with the DOTD response:

Salaries	\$164,722
Related Benefits	\$89,278
Travel	\$3,500
Other Charges	\$33,000
Supplies	<u>\$1,000</u>
Total	\$291,500

The figure shown above for other charges includes indirect cost reimbursement for DOTD administration.

NOTE: DOTD notes that a state match is required. The match requirement depends upon the exact nature of each expenditure being reimbursed by FEMA and FHWA. It is anticipated that the state match requirement will be satisfied by expenditures realized by DOTD but not reimbursed by either FEMA or the FHWA. DOTD estimates this amount to be approximately \$1 M in expenditures funded originally with TTF-Regular. DOTD will likely seek to reimburse the Transportation Trust Fund with a request for State Emergency Response Funds (SERF) through a supplemental appropriation during the legislative session.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Engineering	\$291,000	0
Interagency Transfers:	\$9,200,950	CCCD Bridge	\$112,000	0
Self-Generated Revenue:	\$0	Planning & Programming	\$32,000	0
Statutory Dedications:	\$7,528,050	Operations	\$16,234,000	0
Federal Funds:	\$0	CCCD Marine	\$60,000	0
Total	<u>\$16,729,000</u>	Total	<u>\$16,729,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds which will reimburse the Office of Engineering for emergency response expenses incurred before, during and after hurricanes Gustav and Ike. These costs are anticipated to be reimbursed by FEMA (through GOHSEP) and by the Federal Highway Administration. This BA-7 includes the reimbursement for the following costs associated with the DOTD response:

Salaries	\$6,785,780
Related Benefits	\$3,177,220
Travel	\$168,000
Other Charges	\$2,316,000
Operating Serv.	\$1,780,000
Supplies	<u>\$2,502,000</u>
Total	\$16,729,000

Operating services and supplies includes the costs of supplies and equipment rental costs related to storm response as well as the reimbursement depreciation by FEMA and FHWA of DOTD equipment utilized during the storm recovery.

Other charges includes contracted services used in support of DOTD's emergency response and recovery efforts for Gustav and Ike as well as indirect cost reimbursement by FEMA and FHWA. DOTD utilized consultants to assist in assuring that the state receive all of the funding that it was eligible to receive as a result of this recovery effort. This involvement entailed reconciliation of FHWA billings and FEMA reimbursement requests, review of state projects for eligible costs, source document reviews/corrections, and development, compilation and reporting of each day's activities, accomplishments and resources used to assure that they are charged to appropriate projects. The total cost of this contract is \$504,133.

Travel costs are primarily related to employees in district operations who were directed to the storm affected areas of the state and were responsible for assisting in debris removal efforts.

NOTE: DOTD notes that a state match is required. The match requirement depends upon the exact nature of each expenditure being reimbursed by FEMA and FHWA. It is anticipated that the state match requirement will be satisfied by expenditures realized by DOTD but not reimbursed by either FEMA or the FHWA. DOTD estimates this amount to be approximately \$1 M in expenditures funded originally with TTF-Regular. DOTD will likely seek to reimburse the Transportation Trust Fund with a request for State Emergency Response Funds (SERF) through a supplemental appropriation during the legislative session.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Justice

AGENDA NO.: 15

AGENCY: Office of Attorney General

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$250,000	0
Interagency Transfers:	\$0	Civil Law	\$0	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$0	0
Statutory Dedications:	\$250,000	Risk Litigation	\$0	0
Federal Funds:	\$0	Gaming	\$0	0
Total	<u>\$250,000</u>	Total	<u>\$250,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Justice Department is requesting approval to add \$250,000 in Statutory Dedications from the Debt Collection Fund to its budget to provide for expenditures in the Collections Section. According to information from the agency, the section is underfunded due to its entering into new contracts and having to hire additional personnel to collect on past debt obligations. The number of individual debtors requiring collections by Justice increased from less than 11,000 individuals at the beginning of the fiscal year to almost 20,000 individuals currently. The bulk of this increase is due to Justice becoming the collector for the Office of Group Benefits in addition to becoming the sole collector for the Office of Student Financial Assistance.

The department has acknowledged that this BA-7 requests approval for expenditures that have already been incurred and that it did not seek approval before exceeding its expenditure authority. The existing budget for the Collections Section is \$783,467. As of 4/13/09, \$842,932 has been expended for collections. Projected expenditures through the end of the fiscal year are anticipated to total \$1,033,467.

The Justice Department's budget was reduced by a total of \$1.7 M in January of this year as part of the executive order expenditure reduction (No. BJ 2008-114). The Collection Section was included in the reduction plan and experienced a \$41,235 reduction in the Debt Collection Fund. The funding in this BA-7 request will also be utilized to offset the impact of the executive order reduction. The Justice Department states that if this BA-7 is not approved, collectors will be laid off and collections on existing contracts will not be made.

Expenditures provided for by this BA-7 request are: \$44,000 salaries; \$170,000 other compensation; \$25,000 related benefits; \$2,500 travel; \$6,000 operating services; \$500 other charges; \$500 interagency transfers; \$1,500 acquisitions.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,400,000</u>	Total	<u>\$1,400,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Department of Culture, Recreation & Tourism to allow the agency to budget federal funds from the Office of Emergency Preparedness (OEP). These funds are FEMA reimbursements for the Office of State Parks for expenses incurred as a result of Hurricane Gustav. This funding will flow through the Office of State Parks to the Office of Facility Planning & Control to cover the cost of project expenditures.

The reimbursements cover expenses related to debris removal at sixteen state parks and historic sites. The cost of the debris removal (over 40,000 cubic yards) at all facilities is approximately \$1.6 M. FEMA funding will reimburse 90% of costs with the state being responsible for a 10% cost share. A total of \$717,938 has been received as reimbursement of these costs. The department expects to receive approximately another \$680,000. The remainder of these costs is being absorbed by the Office of State Parks as part of the 10% state match requirement. The Office of State Parks utilized the State Parks Improvement & Repair Fund (Act 729 Funding). This fund is made up of SGR generated by state parks and are to be used solely for the purpose of financing improvements and repairs at state parks.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Social Services

AGENDA NO.: 17

AGENCY: Office of Secretary

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Executive Support	\$2,200,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$2,200,000			
Federal Funds:	\$0			
Total	<u>\$2,200,000</u>	Total	<u>\$2,200,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedications budget authority from one-time revenues deposited into the Overcollections Fund by \$2.2 M in the Administrative & Executive Support Program.

This funding will be used to purchase 2 mainframe Central Processing Units (CPUs) to support all of the Department's mainframe applications. One of the CPUs is replacing a 6 year old processing unit with a storage capacity of 645 million instructions per second (MIPS) with a unit that has 803 MIPS. The agency has indicated that the current CPU is at a 100% saturation rate and is not able to handle the current workload. The cost for this unit is \$1.5 M. The second CPU is replacing an existing CPU housed at LSU, which currently serves as the Department's disaster recovery backup mainframe. This CPU is being moved from LSU to DSS to support existing workload as well as the Disaster Food Stamp Program. The replacement CPU, which costs \$700,000, will now serve as the Department's disaster recovery backup mainframe at LSU. The agency was not appropriated any funding for acquisitions in the current fiscal year.

This BA-7 was originally placed on the 3/20/09 BA-7 agenda. At that time, Commissioner Angele Davis withdrew the BA-7 to address concerns by the Legislative Fiscal Office (LFO) of whether the CPUs should be included as a part of the agency's FY 10 Information Technology request to be considered by the legislature during the budget process. Subsequent to the JLCB meeting, DSS sent several emails to the LFO indicating that the CPUs were operating at 100% capacity, which was causing delays with processing data. On 4/1/09, DSS activated a new case review software application in pilot for its LA Automated Management Information System (L'AMI) in the Monroe Region, which in conjunction with end of the month batch jobs, caused a shut-down of its mainframe computer system and inhibited the processing of child support payments in a timely manner. Commissioner Davis contacted the LFO on 4/3/09 to inform this office that she was proceeding with an emergency procurement to purchase the CPUs through the LA Equipment Acquisition Fund (LEAF) to allow the agency to immediately order the CPU's. On 4/9/09, the LFO staff along with House and Senate Fiscal staff met with Commissioner Davis, the Chief Information Officer, and the Office of Planning & Budget staff to discuss the CPUs and DSS IT projects. At that meeting it was indicated that the CPUs were needed regardless of the Department's future IT initiatives and that the agency was still pursuing funding to pay for the CPUs through a BA-7 request. According to the Office of State Purchasing, if the BA-7 is approved the LEAF agreement can be rescinded as long as a check has not been processed and sent to the vendor. The CPUs will be ordered by 4/13/09 and are expected to be delivered within 10 days; therefore, there is adequate time to rescind the agreement. State Purchasing also indicated that if the LEAF check is processed, the agency has the option to pay off the loan early without penalty. If the BA-7 is not approved, the agency will have to absorb the lease payments in the current year using existing funds allocated to implement its new Disaster Food Stamp Program for the upcoming hurricane season.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is one-time funding for one-time expenditures.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request based on the demonstrated need by the agency to replace these CPUs in the current fiscal year and the Chief Information Officer's statement that these CPUs are compatible

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Office of Homeland Security & Emergency	\$300,000,000	
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$300,000,000			
Total	<u>\$300,000,000</u>	Total	<u>\$300,000,000</u>	

I. SUMMARY/COMMENTS

The proposed BA-7 will increase federal budget authority which will result in avoidance of deficit spending in the Administration Program related to the Stafford Act Public Assistance and Hazard Mitigation Programs. GOHSEP is spending approximately \$25 M monthly and has only \$20 M in federal budget authority remaining at this time. The increase in budget authority will provide sufficient budget authority for the remainder of the fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Veterans' Affairs

AGENDA NO.: 1

AGENCY: Southeast LA War Veterans' Home

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Southeast War Veterans Home	\$258,471	23
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$49,320			
Statutory Dedications:	\$0			
Federal Funds:	\$209,151			
Total	<u>\$258,471</u>	Total	<u>\$258,471</u>	<u>23</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to request additional staff to facilitate the opening of the 4th wing at the Southeast LA War Veterans' Home (SELWVH) in Reserve and to increase the agency's self-generated and federal funds budget authority for the remainder of the current fiscal year as a result of the additional residents. This facility was opened in April 2007 with 39 beds or 1 wing in operation. Two additional wings were opened in FY 08 and the final wing would be utilized with approval of this request. Currently, 110 of 156 beds are available for use in this facility. Projections for the necessity of the fourth wing have been exceeded as the waiting list is currently in excess of thirty veterans. However, the 4th wing cannot be utilized until additional staffing is authorized.

The additional utilization of the fourth wing will result in an increase in self-generated revenue from residents care and maintenance fees of \$1,664/month plus federal funds derived from the Veterans Administration daily per diem payments of \$74.42/day. This revenue will support the increased level of staffing requested in this BA-7. The SELWVH indicates the increased utilization will also result in a decrease in the level of state general fund support needed by a total of \$276,805 in FY 10 and to a more significant level in later years.

The additional staff requested in this BA-7 is as follows:

6 Licensed Practical Nurses
6 Nursing Assistants
3 Psychiatric Aide Supervisor 1
2 Custodians
1 Registered Nurse Supervisor
1 Maintenance Repairer
3 Food Specialists
1 Social Services Counselor

These positions will be phased in as new patients are added and additional self-generated and federal revenues are generated from the increased census.

Approval of these positions will bring this facility in line with the T.O. of both the Southwest and Northwest War Veterans homes which have been opened recently and have the same number of beds.

II. IMPACT ON FUTURE FISCAL YEARS

The increased census for this facility will increase both self-generated and federal revenues in subsequent fiscal years and will result in a decrease in the need for state general fund support. This facility estimates a decrease in state support of approximately \$275,000 in FY 10 and is further reduced in subsequent years. The director of the facility notes that the goal for this facility is to be nearly self-sufficient by the fifth year (currently in second full year of operation).

March 20, 2009

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

FY 10- \$806,546
FY 11- \$832,689
FY 11- \$859,877
FY 12- \$888,153

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$103,901. The LFO, in conjunction with the SELWVH, has determined that the original request of 23 positions in FY 09 can be reduced to 14 in the current fiscal year which will meet the immediate needs of the new patients housed in the fourth wing of this facility.

In addition, the revenue anticipated from the revised census should reflect only the anticipated patient increase for the remainder of this fiscal year. The SELWVH estimates a net gain of 1 patient per week for 10 weeks for the remainder of the fiscal year. Based on this methodology, this BA-7 will require an increase in budget authority in the amount of \$34,935 in self-generated revenue, \$42,866 in federal per diem payments, and an increase in federal medicare receipts of \$26,100 for a total of \$103,901.

The SELWVH will seek the nine additional positions necessary for FY 10 as well as the additional revenue estimated from the remaining admissions in the legislative session beginning on April 27.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$216,500</u>	Total	<u>\$216,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$216,500 in IAT from the Governor's Office Homeland Security & Emergency Preparedness (GOHSEP) to the Department of Culture, Recreation, & Tourism, Office of State Parks to purchase P25 compliant radios, which will be integrated with the state's 700/800 MHz radio system. The original source of funds is a federal grant from the Departments of Commerce & Homeland Security. GOHSEP received a Public Safety Interoperable Communications (PSIC) federal grant of approximately \$19.8 M of which \$1.05 M was to be forwarded to certain state agencies. Of this amount \$216,500 was allocated to the Office of State Parks. There is a 25% state match in the amount of \$4.9 M associated with the \$19.8 M federal grant that GOHSEP will pay from their current budgeted statutory dedicated funds for interoperability (Overcollections Fund/ LA Interoperable Communication Fund).

The \$216,500 in acquisitions will be expended on the replacement of approximately 90 Motorola XTX 2500 Model II and III 700/800 MHz Portable Radios (\$198,000) and software for upgrading the current communication platforms of radios not being replaced (\$18,500).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time expenditure and this budget authority should be non-recurred during the FY 10 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,667,323</u>	Total	<u>\$1,667,323</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase SGR budget authority in the Department of Education, Recovery School District. The funds are from the Orleans Parish School Board and will be used for renovation of school facilities in the New Orleans area.

The Orleans Parish School Board has pledged funding received from Harrah's Casino revenue to be used for the renovation of school facilities in the Recovery School District. The City of New Orleans has an agreement with Harrah's Casino to dedicate a certain amount of their casino revenues, which has been approximately \$2 M per year, for projects for public schools in New Orleans that are related to health, safety and security. The payments to the Orleans Parish School Board from the casino revenue increases annually by a percentage equal to the annual percentage increases in the CPI. The New Orleans City Council approves projects that are funded with such revenues. The following is a list of projects submitted to the New Orleans City Council specifying how the funds will be used: \$350,000 for classroom renovations at Clark High School and \$1,317,323 for door and door hardware replacement at various schools. However, the Recovery School District plans to modify the the project list within the next 2 months to the City Council as follows: \$34,000 for architect fees at Clark High School; \$1.4 M for roof replacement at Martin Berhman Elementary; \$75,000 to replace the boiler at Bauduit Elementary School, and other various capital repairs to be determined at a later date.

II. IMPACT ON FUTURE FISCAL YEARS

The Recovery School District will not spend all of the funds in the current year. Therefore, the funds unexpended in the current year will need to be carried forward into the next fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Military Department to allow the agency to budget federal funds related to an approved Project Worksheet (PW) resulting from debris removal at the Gillis Long Center in Carville following Hurricane Gustav. FEMA funding will reimburse 90% of costs with the state being responsible for a 10% cost share.

High winds associated with the storm severely damaged and destroyed trees throughout the property and resulted in roads being blocked which created a threat to public health and safety. According to the Military Department, 38,000 cubic yards of debris have been removed.

Federal funding transferred from GOHSEP for debris removal includes the following expenditures which have been approved by FEMA:

Personnel- (Indirect Cost Allowance for Military Dept. administration) \$8,500
Force Account Equipment- \$130,000
Force Account Labor- \$220,000
Force Account Material- \$77,000
Equipment Rental- \$1,000

NOTE: A total of \$392,850 has been received as reimbursement of these costs. The remainder of these costs is being absorbed by the Military Department as part of the 10% state match requirement.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$392,850. The original BA-7 request did not contemplate a 10% state cost share which will result in the state absorbing \$43,650 of the costs associated with debris removal at the Gillis Long Center in Carville.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds from the FEMA Reimbursement Fund (unbudgeted State Emergency Response Funds or SERF will be budgeted into the FEMA Reimbursement Fund) which will be used to pay the 25% state match for assistance provided by FEMA as a result of hurricanes Gustav and Ike. The current unbudgeted SERF balance is approximately \$53 M. FEMA provided assistance to disaster victims under the Other Needs Assistance Program, as provided for in 44 CFR 206.110 for these 2 disaster declarations. The Other Needs Assistance Program helps eligible individuals and families pay for items and services such as transportation expenses, household items and clothing, medical and dental care, and equipment to help repair damaged homes such as power tools and dehumidifiers. Under the terms of the FEMA-State agreement, the federal funds provided under the Stafford Act are limited to 75% of the total eligible cost, with the state being responsible for the remaining 25%. These costs include those for November 2008 only. Reimbursement for later months will be provided for in subsequent BA-7 requests.

Payment is due in full to FEMA within 30 days from the receipt of the FEMA request letter which was received on 1/9/09. Funds will be placed in escrow in the registry of the court while an audit of these expenses is performed.

The following amounts are due to FEMA:

\$386,841.87 for Disaster Declaration #1792 (Hurricane Ike)
\$1,531,568.19 for Disaster Declaration #1786 (Hurricane Gustav)

II. IMPACT ON FUTURE FISCAL YEARS

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds transferred from the Department of Economic Development (DED) which will be used to pay for services provided by Innovative Emergency Management (IEM) in assisting DED with estimating data related to the economic impact of the hurricanes of 2008. GOHSEP currently has a contingency contract with IEM which was activated for the services rendered for DED. This contract was entered into in August 2007 and provides that "support may include but not be limited to operations within GOHSEP and integrated emergency management activities between GOHSEP, federal departments and agencies, other state agencies and local governments." Since the contract is between IEM and GOHSEP, DED will transfer the funds to GOHSEP for payment. GOHSEP does not currently have sufficient budget authority in IAT to receive these funds from DED.

Source of funds transferred from DED to GOHSEP is federal grant dollars from the Economic Development Administration related to hurricane related activities.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office is in the process of researching issues related to this BA-7 request and will make a recommendation at the JLCB meeting on March 20th.

I. SUMMARY/COMMENTS

This purpose of this BA-7 request is to reduce Federal budget authority by \$3.5 M and increase IAT budget authority by \$3.5 M in the Department of Social Services, Office of Community Services, Child Welfare Services Program. The source of federal funds is Title IV-E and the source of IAT is Temporary Assistance to Needy Families (TANF).

Title IV-E funds are used for foster care and adoption services. The Deficit Reduction Act reduced the agency's ability to claim Title IV-E; therefore, this BA-7 is reducing the Title IV-E budget authority to the appropriate level of funding.

In addition, the agency is requesting an increase in IAT to receive TANF funding from the Office of Family Support. These are funds that were already allocated in the existing TANF plan for OCS for FY 09. These funds will be used for administrative costs related to child protection investigation services, family services, and services provided to parents to reunify them with their child. In addition, these funds will be used for substance abuse treatment services provided through a Memorandum of Understanding with the Department of Health & Hospitals, Office of Addictive Services.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request will be annualized as IAT with a corresponding decrease to Federal revenues for the same amount in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Self-Generated Revenue:	\$0	Women's Policy	\$0	0
Statutory Dedications:	\$544,697			
Federal Funds:	\$0			
Total	<u>\$544,697</u>	Total	<u>\$544,697</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutory Dedications from the LA Children's Trust Fund by \$544,697 in the Department of Social Services, Office of Community Services, Child Welfare Program.

DSS serves as the flow through agency for the LA Children's Trust Fund. Trust Fund monies are primarily derived from duplicate birth certificate fees, which generates approximately \$1 million annually. The Fund is managed by a Board that is responsible for the allocation of monies in the fund. These monies can only be used for services related to the prevention of physical and sexual abuse and neglect of children. The Board accepted applications requesting funding from various non-profit agencies in January 2008. The applications were reviewed to determine if eligibility criteria were met and, for those that were approved, monies were allocated to providers based on the Fund's FY 09 appropriated budget of \$911,179. In December 2008, the Board reviewed the Fund's balance to determine if additional funds were available to allocate to those providers who did not receive the total amount requested in their initial application and/or for sponsorships and stipends to assist individuals with the cost to attend educational conferences. At that time, there was approximately \$1.5 M available; therefore, the Board submitted this BA-7 in January 2009 to request additional funds to expand 25 existing provider contracts (\$282,147), and to provide sponsorships and stipends for educational conferences (\$262,550). The Board has indicated that approval of this BA-7 will allow providers to serve an additional 2,439 children and 673 parents.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request is for one-time funding that is not being annualized in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Social Services

AGENDA NO.: 9

AGENCY: LA Rehabilitation Services

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$0	Vocational Rehabilitation Services	\$0	0
Self-Generated Revenue:	\$0	Specialized Rehabilitation Services	\$0	0
Statutory Dedications:	\$219,130			
Federal Funds:	(\$219,130)			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This purpose of this BA-7 request is to reduce Federal budget authority by \$219,130 and increase Statutory Dedications budget authority by \$219,130 in the Department of Social Services, LA Rehabilitative Services (LRS) Program. The source of Statutory Dedications is the Traumatic Head & Spinal Cord Injury Trust Fund (\$119,130) and the Telecommunications for the Deaf Fund (\$100,000).

LRS found out through a federal audit report issued by the Office of Special Education & Rehabilitation Services on 8/8/08 that the agency was incorrectly allocating 100% of administrative costs for all programs to the Vocational Rehabilitation basic support grant. To correct this finding, the agency must allocate a percentage of administrative costs to all benefiting programs. Approval of this BA-7 request will provide the agency with sufficient budget authority in the Specialized Rehabilitation Services Program to appropriately allocate the administrative costs associated with traumatic head and spinal cord injuries and telecommunications services for the deaf activities.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request will be annualized as Statutory Dedications with a corresponding decrease to Federal revenues for the same amount in future fiscal years. Both funds have recurring revenue sources that are sufficient to cover future administrative costs.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

March 20, 2009

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Special Schools & Comm.

AGENDA NO.: 10

AGENCY: LA School for the Deaf (LSD)

ANALYST: Mark Antoon

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration/Support Services	\$0	0
Interagency Transfers:	\$175,100	Instructional Services	\$175,100	0
Self-Generated Revenue:	\$0	Residential Services	\$0	0
Statutory Dedications:	\$0	Auxiliary Account	\$0	0
Federal Funds:	\$0			
Total	<u>\$175,100</u>	Total	<u>\$175,100</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request seeks to add an additional \$175,100 in IAT budget authority to the LA School for the Deaf Instructional Services Program to allow the agency to accept an IDEA (Individuals with Disabilities Education Improvement Act) Grant. These funds will be used to send 2 emotionally disturbed deaf students to an out-of-state, in-patient residential facility at an approximate cost of \$68,000 per student per year. Specific services include therapeutic psychological testing and treatment, including individual and group therapy sessions; full residential services; nursing services; audiological testing; mental health technicians; teachers; occupational therapy; physical therapy, if needed; speech/ language therapy; one-to-one aide; job coach; laundry and housekeeping; food services; and other supports as needed.

The investigation of sexual assaults that occurred last year at LSD established the need for such services. Consequently, the Department of Health & Hospitals (DHH), along with LSD, made a determination that these services were not available in the state of LA and recommended sending the students to the National Deaf Academy in Mt. Dora, Florida. Since these students are Medicaid eligible, DHH is the state agency responsible for reviewing these cases and appropriately referring them for treatment. Because of a number of circumstances, including a Department of Social Services intervention in one of the cases, out-of-state treatment was used as the option of last resort. School personnel do not anticipate these placements will be a long term treatment option.

Treatment costs per student amount to \$68,000 per year for educational services plus an additional \$182,500 for medical treatments paid for by Medicaid for a total of \$250,500 per year. The state spends \$116,500 per student to educate a deaf child at LSD. This BA-7 is only seeking funds for the educational component of the proposed treatment at Mt. Dora.

Additional students may require such services in the future because investigations revealed additional students who need psychiatric care.

According to the Department of Education, placement of these 2 students at Mt. Dora is unusual but necessary because of their multiple disabilities. They cannot be placed in a LA DHH mental health facility because no such facility has a program for the hearing impaired. If the state did contemplate placement in a LA facility, DHH and LSD would be required to hire full-time interpreters, an expense that LSD anticipates would equal the Mt. Dora treatment cost, with significantly little improvement in outcomes. The 2 main problems with furnishing full-time interpreters are that the patient's therapy would be limited because of the need for an interpreter to attend all therapy and group sessions, and the student would have no access to hearing impaired peers and would be unable to develop appropriate social skills.

Federal law provides for such treatment. The IDEA (20 USC 1400, et seq), requires that states provide students with disabilities a "free appropriate public education" (34 CFR 300.101). This requirement includes the provision of special education and related services in an appropriate setting. The students' placement is determined by their IEP (Individualized Education Program) team.

In the case of the students at Mt. Dora, the students' health care providers and DHH (Medicaid) determined that placement in a psychiatric facility was "medically necessary." When a student is placed in a residential or hospital setting, the IDEA

March 20, 2009

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

requires that the student's current school system provide educational services to the student while they are in the hospital. The school system, in this case, LSD, may use federal IDEA dollars to fund the educational component of the placement. Finally, the IDEA specifically provides for states to "use joint agreements between the agencies involved for sharing the cost of that placement." 34 CFR 300.103(a).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The LFO recommends approval of the BA-7 request in the reduced amount of \$45,000 because the entire IDEA grant cannot be expended in the current fiscal year. The DOE anticipates this amount will cover the educational costs of 2 students at the Mt. Dora facility for the remainder of the fiscal year. The remaining budget authority should be added to the agency's budget during the upcoming legislative session.

**LEGISLATIVE FISCAL OFFICE

Federal Funds:	\$0	Parole Board	\$0	0
Total	<u>\$2,497,414</u>	Total	<u>\$2,497,414</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$2,497,414 in IAT from the Governor's Office Homeland Security & Emergency Preparedness (GOHSEP) to the Department of Public Safety & Corrections, Corrections Administration. These FEMA funds are reimbursement to the agency for point of distribution (POD) meal expenses incurred in FY 09 as a result of Hurricane Gustav. The department supplied meals through distribution centers to people in communities with considerable need based on power outages and lack of MREs. A total of 363,739 meals were provided at an average cost of \$6.87 per meal. No state match is required for these FEMA funds.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$550,000 in IAT from the Governor's Office Homeland Security & Emergency Preparedness (GOHSEP) to the Department of Public Safety & Corrections, Corrections Administration. The original source of this IAT funding is from GOHSEP from their Overcollections Fund (\$532,500) and LA Interoperable Communication Fund (\$17,500).

These funds will allow for the purchase of 700 MHz radios needed to provide key emergency response personnel with equipment necessary for interoperability of communications. The \$550,000 in acquisitions include:

- 120 portable radios at \$2,500 each for a total of \$300,000
- 85 mobile radios at \$2,895 for a total of \$246,075
- 1 dispatch console for \$3,925

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Corrections

AGENDA NO.: 3

AGENCY: Adult Probation & Parole

ANALYST: Kristy F. Gary

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration & Support	\$0	0
Interagency Transfers:	\$600,000	Field Services	\$600,000	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$600,000</u>	Total	<u>\$600,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to transfer \$600,000 in IAT from the Governor's Office Homeland Security & Emergency Preparedness (GOHSEP) to the Department of Public Safety & Corrections, Probation & Parole. The original source of funds is a federal grant through the Law Enforcement Terrorism Prevention Program. There are no matching requirements for this grant.

These funds will establish a Probation & Parole Information Integration & Applications solution that would connect critical law enforcement with Probation & Parole systems and personnel. A database system will be developed to connect the Probation & Parole case management system with the LA Civil & Criminal Information Exchange (LACCIE) system. The integration will allow local and state law enforcement personnel to have real-time access to critical parole and probation violation information in the field. \$600,000 will provide for professional services to develop, implement and support the comprehensive plan to connect and integrate the Probation & Parole and LACCIE systems.

\$600,000 in professional services provides for Phase I, which creates the essential program development and support, and includes:

- Flexible and reusable connectivity to the Probation & Parole database
- Core applications for Probation & Parole personnel
- Law enforcement user notification of possible parole and probation violations through LACCIE
- Summary reporting of all contacts by law enforcement with a brief description of outcomes
- Probation & Parole officer notification of touches and trigger events from LACCIE and AFIS LifeScan

It should be noted that the proposal for this system had 3 phases. This BA-7 only includes funding for Phase I. Funding for Phase II and III, which are considered additional upgrades to the system, would be evaluated in future years through the budget development process. The estimated cost and funding source for Phase II and III are yet to be determined.

II. IMPACT ON FUTURE FISCAL YEARS

SGR derived from probation and parole supervision fees will be used to fund the \$100,000 needed in FY 10 and future fiscal years for maintenance and support of the system. The department anticipates having sufficient revenues to fund these expenditures.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Environmental Quality

AGENDA NO.: 4

AGENCY: Office of Environmental Compliance

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Office of Environmental Compliance	\$200,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$200,000			
Total	<u>\$200,000</u>	Total	<u>\$200,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request would budget an additional \$200,000 in federal Multimedia State & Tribal Assistance Grant funds within the Department of Environmental Quality to develop application and process changes to an interface for its TEMPO data management software to facilitate the submission of required data from the department to the Air Facility System (AFS), a national database. The AFS contains compliance and permit data for stationary sources regulated by EPA, state and local air pollution agencies. States use AFS information to prepare State Implementation Plans (SIPs) and to track the compliance status of point sources with various regulatory programs under the Clean Air Act. The project will include a technical analysis of data element (information) gaps, technology approach, enhancement of its ability to link actions involving High Priority Violation processing and generating compliance status for an Air Program through an automated process. The contractual costs will cover involvement from two contractor subject matter experts approved by EPA: TRC for AFS and the national Universal Interface (UI), and CGI for TEMPO. DEQ staff from Information Technology, Permitting, Enforcement and Surveillance will provide expertise in programmatic implementation. No state match is required for receipt of this grant.

In 2003, DEQ launched an interface to extract and convert air facility data for submission through a national Universal Interface and ultimately to the AFS. The interface employed at that time allowed for required data elements (information) to be successfully submitted. The EPA added additional data elements in 2005; however the technology used by DEQ in 2003 could not accommodate the new data elements, and DEQ has not been able to report these elements through its interface to the AFS database. This grant is intended to ensure the accurate and timely submission of these data elements through its interface for inclusion in the national database.

LA has over 6,000 air permitted facilities, and of that number over 500 are classified as Title V. Title V permits are required for major stationary sources of air pollution. A major stationary source is a facility that emits, or has the potential to emit, any criteria pollutant, or hazardous air pollutant at levels equal to or greater than specific emission thresholds defined by EPA. DEQ uses its TEMPO (Tools for Environmental Management and Protection Organizations) software to manage the data related to facilities including their permit, stack testing, inspection and enforcement activities. Since TEMPO is a multimedia system, it is also used by DEQ to maintain facility data for water, solid waste, hazardous waste, radiation, remediation and the underground storage tank program.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no significant impact on future fiscal years. However, it is anticipated by the department that a successful upgrade of the interface will result in a reduction of man-hours spent addressing data issues due to conversion and missing data elements.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 5

AGENCY: Recovery School District

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>

Self-Generated Revenue:	\$2,276,509			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,276,509</u>	Total	<u>\$2,276,509</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$2,276,509 in SGR (grant dollars) in the Department of Education, Recovery School District (RSD). The Walton Family Foundation, Inc. approved a grant in the amount of \$1,776,509 to support the implementation phase of the High School Redesign Project. The City of New Orleans has also provided \$300,000 for summer school programs, and Refreshment Solutions, LLC provided \$200,000 in commissions from vending machines.

The Joint Legislative Committee on the Budget (JLCB) approved a BA-7 in May 2008 for the RSD to receive \$1.6 M from the Walton Foundation to create High School Redesign Implementation plans. The funds available to the RSD in this BA-7 will be used to support the implementation phase of the school's High School Redesign plans.

The funds from the City of New Orleans will be used to supplement the RSD's summer school programs. The commissions from Refreshment Solutions, LLC will be used to provide incentives to students to perform well on the LEAP exams.

II. IMPACT ON FUTURE FISCAL YEARS

The Department of Education anticipates the majority of the funds from the Walton Family Foundation, Inc. and Refreshment Solutions, LLC will be spent in the current year. However, it is possible that some of the funds may need to be carried forward next year if they are not all spent by the end of the fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

		School & Community Support	\$0	0
Total	<u>\$2,860,000</u>	Total	<u>\$2,860,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Department of Education (DOE). The source of the IAT is the federal Temporary Assistance for Needy Families (TANF) grant from the Department of Social Services (DSS). These funds will be used to carry out dropout prevention programs outlined in the Memorandum of Understanding (MOU), which was entered into by the DSS and the DOE. This is a companion BA-7 request with the DOE, State Activities Agency.

The DOE will administer Jobs for America's Graduates (JAG) programs and Educational Mission to Employ LA's Youth (EMPLoY) programs with the requested funding. The programs aim to keep students from dropping out of school and to capture children that are out of school and in need of a high school education. Furthermore, the students are helped to achieve academically and earn the necessary credentials to enable them to exit school and enter post-secondary education and/or the workforce.

According to the MOU, \$900,000 will be used to establish JAG model programs across the state by awarding subgrants of up to \$50,000 per program. The remaining \$1.51 M will be used for EMPLoY programs, which will operate in 14 school districts. Each school system will hire 2 Job Specialists to work with students. The programs will also use funds to purchase materials and supplies, software to improve reading and reading comprehension skills, and pay WorkKeys and GED assessment fees.

In the current fiscal year, the DOE was provided \$950,000 SGF and \$1.4 M in TANF funds to administer JAG programs. Due to budget deficits, \$900,000 SGF for JAG programs was reduced from the department's budget mid-year. This BA-7 request would essentially replace the SGF funding for the JAG programs and provide additional funds to operate EMPLoY programs.

II. IMPACT ON FUTURE FISCAL YEARS

According to the MOU, funding in subsequent years for this program is contingent upon the future availability and appropriation of TANF funds. In the event that TANF funding should be reduced, either SGF will be required to provide the same level of funding for the programs, or some of the JAG and EMPLoY programs at certain sites may be eliminated.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$2.41 M. According to the MOU agreement between DOE and DSS, \$3.71 M will be used for JAG model programs and EMPLoY programs. The department has \$1.3 M in available IAT budget authority in the Subgrantee Assistance Agency in the current fiscal year for JAG dropout prevention programs. The Department only needs an additional \$2.41 M in IAT budget authority to accept these funds. Therefore, the recommendation is to reduce the amount of the BA-7 request to \$2.41 M.

Total	<u>\$1,817,650</u>	Total	<u>\$1,817,650</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal fund expenditure authority in the Department of Education to build the LA Education Data Repository System (LEDRS), which will allow the department to organize and link all of its data into a central repository. The source of funds is the Statewide Longitudinal Data Systems Research Grant from the U. S. Department of Education's Institute of Education Sciences. The grant will extend over a three year period, and does not have a matching requirement.

The Department of Education has indicated the LEDRS project will consist of three main tasks: 1) create a data repository that will centralize and link the data that currently is housed in separate data systems; 2) create a system that will enable the department to automate its compilation and transmittal of data required by the U. S. Department of Education and provide tools for ad hoc reporting; and 3) create three new systems that will track homeless students, Section 504 students (students with impairments that substantially limits one or more life activities), and critical performance measures. The reporting system will also make standard reports readily available to external stakeholders, which can be filtered to meet their specific needs. The department has over 10 data systems that are not linked together, and they do not have an automated reporting system for ad hoc or routine reporting. According to the department, creating reports requires extensive manual effort by analysts that are experienced in the various data systems. To link the systems would allow for improved data analysis and more accurate and timely reporting. The repository will contain preliminary and finalized data, which will allow for more frequent collections of critical student performance measures.

A Request for Proposal (RFP) will be sent out to hire a vendor that will be responsible for designing, developing, and implementing the LEDRS project, which is estimated to cost \$1,732,650. Software will also be provided by the vendor and will be customized to the project specifications. The department will also need to purchase 5 servers for \$30,000 and 1 Terabyte SAN (storage server) for \$40,000 in the first year. In the grant proposal, the department estimated an expenditure of \$15,000 per year for operational supplies needed by all parties involved.

The grant funds are budgeted in the following expenditure categories in the first year:

Supplies	\$15,000
Professional Services	\$1,732,650
Acquisitions	<u>\$70,000</u>
Total	\$1,817,650

II. IMPACT ON FUTURE FISCAL YEARS

The Department of Education is requesting a total of \$4,056,510 to be expended over a three-year period. The expenditures by year are as follows: Year 1 \$1,817,650; Year 2 \$1,062,130; and Year 3 \$1,176,730.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Federal Funds:	\$15,655,290			
Total	<u>\$29,676,837</u>	Total	<u>\$29,676,837</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$14,021,547 and Federal Funds budget authority by \$15,655,290 in the Department of Social Services, Office of Family Support (OFS), Client Services Program. The source of IAT funding is Statutory Dedications from the State Emergency Response Fund (SERF). The source of Federal Funds is the Disaster Food Stamps grant. This grant requires a 50% state match. The ability of DSS to draw down a portion of the federal funds (\$1.6m) is contingent on other state agencies certification of state general fund expenditures for those employees who worked at disaster food stamp sites. These agencies include: Division of Administration, Department of Natural Resources, Department of Education, Department of Corrections, Department of Health & Hospitals, LA System, Leonard J. Chabert Medical Center, and Department of Environmental Quality.

Act 19 of the 2008 Regular Session states that “Any federal funds which are classified as disaster or emergency may be expended prior to approval of a BA-7 by the Joint Legislative Committee on the Budget upon the secretary’s certifying to the governor that any delay would be detrimental to the state. Under this authority DSS is requesting this funding to reimburse the OFS for operational expenditures related to setting up disaster food stamp sites in the aftermath of hurricanes Gustav and Ike. As of 2/4/09 the agency has expended \$26,680,586 for Hurricane Gustav and \$440,703 for Hurricane Ike for at total of \$27,121,289. Additional spending of \$2,555,548 has been incurred but the agency is waiting on invoices from the vendors to disburse payments.

The expenditures for this BA-7 are as follows:

\$6,570,655	<u>Salaries, Other Compensation, and Related Benefits</u> for 1,800 OFS employees who worked at food stamp disaster sites and processed food stamp applications.
\$18,860,311	<u>Other Charges</u> for OK Casade Company (\$16,870,515) to provide services such as tents, tables, chairs, lighting, and site security; Emergency Management Assistance Compact (\$1,678,229) for salaries for 257 out-of-state eligibility workers who had experience and knowledge of the federal disaster food stamp program; Blue Streak & Cyber (\$170,000) for computer system modifications; Travel (\$3,700); and Call center operations (\$137,867).
\$1,307,613	<u>Professional Services</u> for J.P, Morgan Chase to render Electronics Benefits Issuance transfers for EFT cards issued to eligible applicants.
\$1,633,991	<u>Interagency Transfers</u> to other state agencies (\$806,428) and other DSS agencies (\$827,563) for employees salaries, overtime, and travel related expenses. A total of 1,370 employees were utilized from other state agencies and 738 from other DSS agencies.
\$913,124	<u>Operating Services</u> for Westaff & Express Services for temporary staff and Affiliated Computer Services for call center services (\$420,000); other services (\$493,124) which includes rental of buildings, overages for utilities, advertising of site locations, printing, janitorial services, and trash pick up.
\$205,821	<u>Travel expenses</u> for approximately 990 OFS employees. Expenses were for hotel accommodations, meals, and

Approved By JLCB**

reimbursement for mileage.

\$185,322 Supplies (general office and computer).

\$29,676,837 TOTAL EXPENDITURES

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is one time funding to reimburse the agency for expenditures incurred in the current fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA7; however, there is only \$5,723,935 remaining in the Division of Administration SERF budget authority, and this BA7 requests \$14,021,547 IAT from the Division of Administration. Therefore, the LFO recommends that this reimbursement either be funded in its entirety out of the statutorily dedicated State Emergency Response Fund which has a current undesignated balance of approximately \$67 M or some combination of the available remaining SERF budget authority in the DOA with the balance out of the State Emergency Response Fund.

Total	<u>\$150,000</u>	Total	<u>\$150,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Division of Administrative Law (DAL) is requesting approval to add \$150,000 in IAT to its budget in order to handle hurricane related unemployment compensation hearings for the LA Workforce Commission. The IAT revenue derives from federal funds. The DAL is expected to conduct 3,000 unemployment hearings over 2 fiscal years, FY 09 and FY 10.

The LA Workforce Commission has agreed to pay the DAL \$80 per hour for administrative law judge services. The total amount payable under the contract, which expires 12/31/09 is \$150,000. The agency's current budget does not include any revenue from the Workforce Commission. The DAL does not know how many hearings it will be able to complete by June 30th of the current fiscal year. Therefore, it cannot anticipate the number of hours or the total payment it will bill the Workforce Commission by the end of this fiscal year. The DAL anticipates completing the balance of the hearings not heard by June 30th of this year in the next fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

The DAL is not expected to complete its contractual obligation to conduct unemployment compensation hearings for the Workforce Commission until 12/31/09.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$151,399			
Total	<u>\$151,399</u>	Total	<u>\$151,399</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$151,399 of Federal funds into the Marketing Program within the Department of Wildlife & Fisheries. The U.S. Troop Readiness Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act of 2007 provided funding to the National Oceanic Atmospheric Administration (NOAA) for necessary expenses related to the consequences of hurricanes Katrina and Rita on the shrimp and fishing industries. Pursuant to Section 4201 of the Act, the NOAA is granting funds to the Gulf States Marine Fisheries Commission for subgrant to the Gulf coastal states. LA's allocation of these funds is \$41.273M to be used to provide for hurricane fisheries disaster recovery assistance programs consistent with the authorized uses of funds as specified in Section 115 of the Magnuson-Stevens Fishery Conservation & Management Reauthorization Act of 2006 to establish assistance programs for LA Gulf of Mexico commercial and recreational fishing industries affected by the hurricanes.

Of the \$41.273M (LA's allocation), \$39,979,091 was requested for disaster assistance by the Office of Fisheries, leaving \$1,293,909 for marketing by the Seafood Promotion & Marketing Board. Of this amount, \$151,399 is being requested to be expended in the current fiscal year and will be budgeted as follows:

Other Compensation - \$13,000 (temporary job appointment - wages prorated for remaining 5 months of fiscal year)
Related Benefits - \$6,149
Operating Services - \$20,000 (advertising in trade and consumer publications)
Supplies - \$15,500 (office and computer supplies and promotional items such as t-shirts, cups, etc.)
Professional Services - \$49,000 (design, creation and maintenance of a LA Seafood Promotion & Marketing Board Web Site for the purpose of enhancing awareness of LA seafood products and promoting seafood sales)
Other Charges - \$45,000 (sponsorships with various organizations that help feature and promote LA seafood and partnerships with the state regarding its Culinary Trails Program and other major events)
Equipment - \$2,750 (computer, software and printer)

The temporary job appointment will be utilized to satisfy the administrative component of the grant. This person will help in the development of marketing strategies and will attend events at out-of-state conferences and trade shows to promote LA Seafood.

No matching requirements are necessary from the State.

II. IMPACT ON FUTURE FISCAL YEARS

Federal funding for this grant is expected to be annualized and expended over 5 fiscal years. Funding in subsequent years will be \$278,514 (FY 10), \$284,430 (FY 11), \$289,979 (FY 12) and \$289,586 (FY 13).

Approved By JLCB**

DEPARTMENT: Justice

AGENDA NO.: 2

AGENCY: Office of Attorney General

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Civil Law	\$0	0
Self-Generated Revenue:	\$0	Criminal Law/Medicaid Fraud	\$300,000	0
Statutory Dedications:	\$0	Risk Litigation	\$0	0
		Gaming	\$0	0
Federal Funds:	\$300,000			
Total	<u>\$300,000</u>	Total	<u>\$300,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Justice Department is requesting approval to add \$300,000 in Federal funds to its budget to provide for expenditures for its Internet Crimes Against Children Unit. The agency has already incurred and is awaiting reimbursement for \$64,002 of expenditures for training and other expenses that are reflected in this BA-7. The funding which comes from the U. S. Justice Department is part of a grant which totals \$430,000. The agency anticipates utilizing the balance of the funding in the upcoming fiscal year. The funding will be utilized to provide for acquisition of 2 automobiles at \$28,295 each and related equipment along with computer hardware and software equipment (\$127,410); distribution to other agencies to attend in-state computer forensic training (\$65,234); out-of-state travel for Justice Department personnel to attend training and conferences (\$30,410); automobile supplies (\$19,200); and operating expenses (\$1,156).

The existing budget for the Internet Crimes Against Children Unit includes 5 positions and \$312,212 SGF for salaries and related benefits. The agency has allocated no funding for the unit's operating expenses and has been absorbing the operating expenses within its existing budget. The agency states that in anticipation of diminishing federal funding, the Division of Administration switched funding for the unit's 5 positions from federal funds to SGF. According to the agency, the switch in the means of financing freed available federal funds for application toward travel, training, supplies and technology. The agency further states that the current grant cannot be utilized to provide for salaries and related benefits, since the agency did not seek federal approval for such utilization.

II. IMPACT ON FUTURE FISCAL YEARS

The funding in this BA-7 provides primarily for non-recurring expenditures for acquisitions (vehicles, hardware, software). The grant expires 12/31/09. The remainder of the grant, \$130,000, will be expended in FY 10. The agency expects continued funding of the grant at the same amount beyond its 12/31/09 expiration date into future fiscal years. When applying for future grant funding, the agency has indicated that it will request federal approval for the continuation of training and computer acquisition expenses.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7. The agency has indicated that it is prioritizing the activities conducted within the Internet Crimes Against Children Unit, and the funding requested in this BA-7 will address the agency's need to keep up with training and technology changes that aid in the investigation of internet crimes against children. The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$0			
Total	<u>\$5,080,120</u>	Total	<u>\$5,080,120</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget an additional \$5,080,120 in Statutory Dedications which includes the remaining unbudgeted balance of \$3,361,118 from the FEMA Reimbursement Fund and \$1,719,002 from the unbudgeted balance of the State Emergency Response Fund (\$68,719,277) which will be used to pay the state match (25%) for assistance provided by FEMA as a result of hurricanes Gustav and Ike. FEMA provided assistance to disaster victims under the Other Needs Assistance Program, as provided for in 44 CFR 206.110 for these 2 disaster declarations. The Other Needs Assistance Program helps eligible individuals and families pay for items and services such as transportation expenses, household items and clothing, medical and dental care, and equipment to help repair damaged homes such as power tools and dehumidifiers. Under the terms of the FEMA-State agreement, the federal funds provided under the Stafford Act are limited to 75% of the total eligible cost, with the state being responsible for the remaining 25%. These costs include those for October 2008 only. Reimbursement for later months will be provided for in subsequent BA-7 requests.

Payment is due in full to FEMA within 30 days from the receipt of the FEMA request letter which was received on 12/9/08. Funds will be placed in escrow in the registry of the court while an audit of these expenses is performed.

The following amounts are due to FEMA:

\$1,002,212.40 for Disaster Declaration #1792 (Hurricane Ike)
\$4,077,907.97 for Disaster Declaration #1786 (Hurricane Gustav)

II. IMPACT ON FUTURE FISCAL YEARS

Total	<u>\$3,212,406</u>	Total	<u>\$3,212,406</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Administration & Executive Support Program. The source of IAT funding is Statutory Dedications from the State Emergency Response Fund (SERF).

DSS is the agency assigned the primary emergency function of shelter operation and control during emergencies and disasters. SERF will be used for operational expenditures related to emergency preparedness functions. The projected operational expenditures for FY 09 are as follows:

\$199,025	Salaries for DSS employees assigned emergency preparedness duties
\$49,756	Other Compensation for temporary job appointments used for shelter operations
\$61,000	Travel for in-state and out-of-state meetings, conferences, and training
\$1,929,821	Operating Services (rental of 6 shelters and 2 storage facilities, telephone, DSL, janitorial)
\$731,357	Shelter Supplies (cots, blankets, baby cribs, comfort kits, hand truck, pallet jack, microwaves)
\$232,932	Acquisitions (Hand held wireless scanners, SD Cards, Air Cards Maintenance)
\$8,515	Interagency Transfers to the Office of Telecommunications Management
<u>\$3,212,406</u>	TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

DSS is requesting \$3,664,047 in FY 10 for emergency preparedness operations. SERF will have to be replaced with SGF if SERF is not available to reimburse the agency for these on-going operational expenditures.

Interagency Transfers:	\$0	Instructional Services	\$44,202	0
Self-Generated Revenue:	\$0	Residential Services	\$0	0
Statutory Dedications:	\$0	LA Virtual School	\$0	0
Federal Funds:	\$44,202			
Total	<u>\$44,202</u>	Total	<u>\$44,202</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request seeks approval to add \$44,202 in Federal Funds authority to the Instructional Services Program at the LA School for Math, Science & the Arts (LSMSA) to accept and expend a Small Rural School Achievement (SRSA) federal grant from the Rural Education Achievement Program (REAP).

The grant is awarded and administered by the U.S. Department of Education for the purpose of improving rural schools by helping them upgrade equipment and through professional development for staff, and will be spent as follows:

"Excel" Summer Program salaries	\$5,000
Other Compensation	\$4,000
"Graduation with Distinction"	
Related Benefits	\$1,525
Conference Travel	\$5,800
Software	\$2,757
Professional Services	\$3,000
Classroom acquisitions	<u>\$22,120</u>
Total	\$44,202

The "Excel" summer program is designed to help approximately 30 students who are from rural or urban schools that do not have the resources that are available at more affluent schools. These students are exposed to math, science, the humanities, and arts instruction. Completion of this program allows students from disadvantaged schools to successfully complete the LSMSA curriculum. The program has assisted such students in accomplishing the curriculum at a higher rate than the student body as a whole.

The "Graduation with Distinction" summer program is an in-depth individualized research program for which approximately 100 fourth-quarter juniors can apply. Once in the program, the student selects a research topic and a faculty member to oversee their project. Over the summer and into the following academic year, the student conducts the actual research and upon completion publishes a report.

The professional services development component of the grant is overseen by the Director of Academic Affairs and the Executive Director who identify and hire professionals in the areas that the school needs improvement. Past presenters have addressed curriculum development, student advising, using electronic media in the classroom and in homework, and electronic record keeping in addition to other areas.

Classroom acquisitions include purchasing laboratory, computer and other academic supplies and equipment.

The terms and conditions of the grant stipulate that grant monies are to be used to supplement and not supplant other funds available to the school.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$171,500</u>	Total	<u>\$171,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$171,500 in IAT to purchase 700 MHz radios for agents of the Office of Alcohol & Tobacco Control (ATC) in the Department of Revenue. These agents are first responders during state emergencies and the purchase of the radios will place them into the state P25 communication system while improving enforcement efforts during routine activities. The funding is from the Public Safety Interoperable Communications (PSIC) grant of FY 07, which is a federal grant administered through GOHSEP. This grant requires a 25% state match, which has already been appropriated through GOHSEP in the Overcollections/LA Interoperable Communication Fund. The amount of the grant available to the Department of Revenue is \$171,500.

The equipment approved by GOHSEP for purchase under the PSIC grant includes:

64 XTS 2500 Portable Model II 800/700 512 Channel Radios at \$2,145 each (Region 1)	\$137,280.00
6 XTS 5000 Portable Model III 800/700 Radios at \$3,554 each (Special Operations Assignment)	21,324.00
70 Motorola Vehicle Chargers at \$68.14 each (Regions 2, 3, 4 and 5)	4,769.80
70 Carry Cases at \$43.20 each (Statewide)	3,024.00
64 Impres NIMH 2000 MAH 7.5 Volt Batteries at \$79.56 each (Statewide)	<u>5,091.84</u>
TOTAL COST OF RADIO EQUIPMENT	\$171,489.64

In an effort to maximize efficiency and portability while cutting down time associated with hardwiring mobile units, ATC plans to exclusively utilize portable radios. ATC agents are assigned to large districts which in many cases cover several parishes. Due to the amount of time spent in the field and away from the office, a vehicle charger and heavy duty battery is necessary for proper charging of the unit. The carry case is necessary to protect the radio from damage, especially when responding during hazardous emergency conditions. ATC has selected MOTOROLA radios and equipment following field tests of the units.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time expenditure in the acquisitions expenditure category, and this budget authority should be non-recurred during the FY 10 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Approved By JLCB**

DEPARTMENT: Economic Development

AGENDA NO.: 5

AGENCY: Office of Business Development

ANALYST: Deborah Vivien

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development	\$25,000	0
Interagency Transfers:	\$0	Business Incentives	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$25,000			
Total	<u>\$25,000</u>	Total	<u>\$25,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 request will allow the Department of Economic Development to develop a strategic plan which conforms to the Delta Regional Authority (DRA) regional plan. The DRA is an organization of 8 states the purpose of which is to utilize economic development initiatives in the most economically distressed counties and parishes of the Mississippi River Valley. The plan will identify key contact personnel within the state and allow for input from persons throughout the Delta Region to help improve coordination between state and federal activities, create a means for prioritizing regional investment of state and federal funds and enhance community and economic development efforts throughout the region. The states included are Alabama, Arkansas, Illinois, Kentucky, Louisiana, Mississippi, Missouri and Tennessee. In Louisiana, all parishes are considered DRA parishes except Bossier, Caddo, Calcasieu, Lafayette, Sabine, St. Tammany, Terrebonne and Vernon. Eligible parishes must have at least one of the following:

- * An unemployment rate over the most recent 24 month period that is one percent or more above the national average,
- * Per capita income that is 80 percent or less of the national average,
- * A special need, as determined by Economic Development Administration (a Division of the U.S. Department of Commerce) arising from actual or threatened severe unemployment or economic adjustment problems resulting from severe short-term or long-term changes in economic conditions such as out-migration, underemployment, public installation closures, natural or other major disasters, extraordinary depletion of natural resources, closure or restructuring of essential industrial firms and/or destructive impacts of foreign trade.

A parish may be added to the DRA only by federal legislative authority.

The funding is derived from a U.S. Department of Agriculture Rural Business Opportunity grant of \$200,000 equally divided between the eight states of the DRA. Louisiana is apportioned \$25,000 on a 100% reimbursement basis. There is no state match requirement.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time expenditure in the other charges category, and this budget authority should be non-recurred during the FY 10 budget development process.

DEPARTMENT: Environmental Quality

AGENDA NO.: 6

AGENCY: Office of Environmental Compliance

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Compliance	\$75,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$75,000			
Total	<u>\$75,000</u>	Total	<u>\$75,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase federal funds budget authority in the Office of Environmental Compliance within the Department of Environmental Quality to allow receipt of \$75,000 in federal funds that have been made available from the U. S. Department of Energy through the Southern States Energy Board. These funds will ultimately flow through DEQ to GOHSEP through a cooperative agreement. DEQ is currently budgeted \$50,000 in these grant funds in FY 09 for the purpose of planning and coordinating shipments of radioactive waste (transuranic or TRU waste) through the state via I-20 from the Savannah River Plant near Aiken, South Carolina en route to the Waste Isolation Pilot Plant (WIPP) near Carlsbad, N.M. DEQ has expended funds from this source for this activity since 1998.

The additional \$75,000 is intended to address the need for enhanced training and resources necessary to assure that the ongoing shipments and additional planned TRU waste shipments to the WIPP via I-20 from Argonne in Illinois, Mound in Ohio and Oak Ridge in Tennessee will be conducted in a safe and reliable manner. These additional funds will assist GOHSEP in funding estimated salaries and benefits for existing positions (\$19,820) and estimated travel (\$6,950) directly related to these activities; to purchase 50 Ludlum-3 Field Survey Instruments (50 units @ \$850 = \$42,500) and 25 Radiological Check Sources (25 units @ \$115 = \$2,875) as needed for reliable detection to ensure responder and public safety; and to purchase a laptop computer (\$1,500) and projector (\$1,800) to conduct Modular Emergency Response Radiological Transportation Training (MERRTT) for first responders. This is a 100% federal grant; no state match is required.

GOHSEP will be the lead agency in assuring adequate communication with the local officials, and DEQ will provide Public Information Officers and technical advice if required by the situation. GOHSEP and DEQ are jointly responsible for coordination of the training effort. While it is anticipated that DOE will provide much of the training, GOHSEP, with the assistance of DEQ, will provide the coordination of all non-technical training activities, including scheduling of classes, determination of appropriate subject matter for the various stakeholders, arranging adequate facilities, and interfacing with local agency directors and public figures. DEQ will assume the lead role in technical training with GOHSEP providing support. Training will be provided primarily to first responders and medical providers.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. It is anticipated that federal funds should be available in future years as necessary to conduct activities to assure the safe transportation of these wastes through Louisiana.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$5,312,861			
Total	<u>\$5,312,861</u>	Total	<u>\$5,312,861</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase expenditure authority in the Management & Finance Program to maintain an existing LA hospital emergency care network. The source of funds is the Hospital Preparedness Program Grant from the Department of Health & Human Services (DHHS), Health Resources & Services Administration (HRSA). The federal grant requires no state matching funds.

DHH has indicated that this grant will be used to maintain a LA emergency preparedness program. Specifically, approval of this BA-7 request will allow the state of LA to maintain the necessary infrastructure to address the potential for a mass surge of patients with acute illness or trauma requiring hospitalization from a biological, chemical, radiological, or explosive terrorist incident. The Office of the Secretary will coordinate with the LA Hospital Association (LHA), the Office of Mental Health (OMH), and the Office of Public Health (OPH) to implement the goals of the grant. The grant funds will be used for emergency planning between providers; continuing education training of various healthcare professionals; development and maintenance of a volunteer recruitment program; and purchasing medical supplies, equipment, pharmaceuticals and chemical response medications, and warehouse storage of necessary emergency equipment.

The grant funds will be allocated as follows:

	<u>FY 09</u>
LHA - Professional services administration contract with the LA Hospital Association	\$525,000
Distribution of funds to EMS providers and hospitals to purchase medical supplies and equipment to address first wave response	\$4,006,194
OPH - Bureau of EMS	\$100,000
Nursing program	\$20,000
Community preparedness program	\$550,000
OMH - Behavioral Health disaster response	\$70,000
DHH - training equipment, supplies, travel, printing, meeting and conference costs as required by the terms of the grant	<u>\$41,667</u>
TOTAL	<u>\$5,312,861</u>

II. IMPACT ON FUTURE FISCAL YEARS

The total grant award for FY 09 is \$5,696,194, of which \$5,312,861 is anticipated to be spent in FY 08. According to the DHH, additional bioterrorism grant funding is anticipated to be available in FY 09 and future fiscal years (on a year to year basis), however the amount is unknown.

Federal Funds:	\$4,485,855			
Total	<u>\$4,485,855</u>	Total	<u>\$4,485,855</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal budget authority by \$4,485,855 in the Personal Health Services Program. The source of federal funds is a grant from the Health Resources & Services Administration (HRSA) in the amount of \$3,615,855 and a grant from the Centers for Disease Control (CDC) in the amount of \$870,000. The HRSA grant portion of this BA-7 request requires a total state match of \$903,964 which will be met with the certification of expenditures from the LSU Health Care Services Division (LSU HCSD). There is no state match required for the CDC grant.

OPH contracts with LSU HCSD to administer the Aids Drug Assistance Program (ADAP) to treat individuals infected with HIV Aids. The funding from the HRSA grant will be allocated to Other Charges for the contract with LSU HCSD (\$3,615,855) to purchase more of the antiretroviral medication needed to strengthen the immune system of individuals infected with HIV. In addition, 20 medications will be added to treat Opportunistic Infections, which are caused when HIV weakens the immune system. OPH estimates that 180 additional individuals will be served with this funding.

The CDC grant will allow the continuation and expansion of HIV testing to include pregnant women, clients with STDs, and individuals needing treatment for substance abuse. OPH estimates that this funding will allow the agency to serve an additional 20,000 individuals. The funding will be used to purchase rapid HIV testing supplies (\$600,000) and to provide HIV counseling and testing services (\$270,000).

II. IMPACT ON FUTURE FISCAL YEARS

The Division of Administration will annualize this grant in future fiscal years as follows:

FY 10 \$4,710,148
FY 11 \$4,945,655
FY 12 \$5,192,938
FY 13 \$5,452,585

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,782,373</u>	Total	<u>\$2,782,373</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$2,782,373 in the Office of Mental Health (OMH), State Office. The source of IAT is a grant from the Federal Emergency Management Agency (FEMA) and the Centers for Mental Health Services, which was awarded through the GOHSEP for OMH to provide immediate crisis counseling and outreach support services to residents impacted by Hurricane Gustav in 44 declared parishes. The agency estimates that more than 82,654 residents will benefit from services provided by the Immediate Services Program. The grant period for the Immediate Services Program is from the declaration date of 9/2/08 through 11/1/08; however, the agency has received a no-cost time extension for the grant until the Regular Services Program is approved. No state match is required.

Act 19 of the 2008 Regular Session states that *"Any federal funds which are classified as disaster or emergency may be expended prior to approval of a BA-7 by the Joint Legislative Committee on the Budget upon the secretary's certifying to the governor that any delay would be detrimental to the state.* On 10/1/08, Secretary Alan Levine notified Jimmy Faircloth that DHH needed to immediately begin providing crisis counseling services to assist individuals impacted by Hurricane Gustav.

As of 12/8/08, the agency has expended \$457,679 of existing funds in anticipation of receiving reimbursement from GOHSEP. OMH utilized this funding for salaries to hire 97 temporary job appointments to provide counseling crisis services to minimize the adverse reactions to the disaster experience and to rebuild lives and communities by providing information and emotional support to empower individuals to take care of their own recovery (\$373,665); travel to visit clients (\$324); and other charges for consultant/trainer costs, media campaign, office space rental, and uniforms and badges (\$83,690).

The remaining \$2,324,694 will be utilized for salaries to hire an additional 165 temporary job appointments (\$1,819,733); travel (\$323,806), office, computer, and stress management supplies (\$149,460); and other charges (\$31,695).

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget funds from the FEMA Reimbursement Fund (current balance is \$8.6 M) which will be used to pay the state match (25%) for assistance provided by FEMA as a result of hurricanes Gustav and Ike. FEMA provided assistance to disaster victims under the Other Needs Assistance Program, as provided for in 44 CFR 206.110 for these 2 disaster declarations. The Other Needs Assistance Program helps eligible individuals and families pay for items and services such as transportation expenses, household items and clothing, medical and dental care, and equipment to help repair damaged homes such as power tools and dehumidifiers. Under the terms of the FEMA-State agreement, the federal funds provided under the Stafford Act are limited to 75% of the total eligible cost, with the state being responsible for the remaining 25%. These costs include those for September 2008 only. Reimbursement for later months will be provided for in subsequent BA-7 requests.

Payment is due in full to FEMA within 30 days from the receipt of the FEMA request letter which was received on 11/6/08. Funds will be placed in escrow in the registry of the court while an audit of these expenses is performed.

The following amounts are due to FEMA:

\$257,390.83 for Disaster Declaration #1792 (Hurricane Ike)
\$5,044,295.34 for Disaster Declaration #1786 (Hurricane Gustav)

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT authority in the Military Department to budget federal funds transferred from GOHSEP related to expenses it incurred as a result of Hurricane Gustav. The expenses to be reimbursed are as follows:

Force Account Labor - \$813,478.95 includes overtime expenses by Military Department personnel from the period August 25th - September 15. Personnel earning overtime includes personnel at Camp Beauregard, Jackson Barracks, Gillis Long, Camp Villere, and Camp Minden. Number of Military Department personnel receiving overtime payments totaled 430.

Force Account Labor (state military active duty) - \$2,183,047 includes pay for national guardsmen on state active duty from 8/25-31/08. Number of LNG on active duty on August 25th was 738 and increased to 5,186 on August 31. Federal pay for guardsmen began on September 1, 2008.

Meals - \$142,602.38 includes meals served for LNG on active duty at various locations around the state.

Meals at Gillis Long - \$148,027.50 includes meals provided for LNG on active duty at Gillis Long in Carville and also for military department personnel evacuated to this location.

Rental Equipment - \$13,175 includes rental expenses related to frame tents and portable restrooms. Tents were obtained to provide shelter for evacuees as they prepared to be loaded onto buses and portable restrooms were placed at sites where evacuees were staged for deployment evacuation.

Contract Services - \$14,005.92 includes contracts for janitorial, drainage and laundry services. Janitorial services were obtained for support of the troops that were housed at the LA School for the Deaf. Also, drainage services were required for issues which occurred due to the increased number of troops that occupied the Gonzales Armory.

Materials - \$145,931.78 includes purchase of various supplies and materials pertaining to the response to this disaster including chain saws, radios, medical supplies, forklift, fans, etc.

Administrative Costs - \$207,616.11 includes indirect costs pertaining to the military department personnel and the costs associated with the administration of this event and the processing of the necessary paperwork.

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to provide additional IAT budget authority for SERF (State Emergency Response Funds) funding transferred from the DOA to the Military Department to fund an increase in the per diem rate for LA National Guard personnel assigned to Task Force Gator in New Orleans. The per diem rate for FY 09 has increased from \$37/day to \$41/day as per the FY 09 State Travel Regulations (PPM 49). The appropriation for Task Force Gator for FY 09 currently includes the old rate of \$37/day. This BA-7 will provide the additional \$4/day for per diem payments back to the beginning of FY 09.

These payments include the following:

July 1- August 31 (\$4 x 320 members x 62 days) = \$79,360

Sept. 1- Oct. 31 (\$4 x 266 members x 61 days) = \$64,904

Nov. 1- Dec. 31 (\$4 x 216 members x 61 days) = \$52,704

NOTE: The additional per diem cost for January 1 - March 1, 2009 for Task Force Gator is included in BA-7 #14.

II. IMPACT ON FUTURE FISCAL YEARS

Total	<u>\$1,819,041</u>	Total	<u>\$1,819,041</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget State Emergency Response (SERF) funds (transferred from the DOA) for the costs related to Task Force Gator (New Orleans Police Department Support) for 1/1/09 through 3/1/09. The City of New Orleans has requested the LA National Guard (LNG) presence remain in New Orleans through 3/1/09 to "... allow us to meet the demands placed on us without reducing the law enforcement coverage that has helped fuel the reduction in crime that we have experienced in the 3rd quarter of 2008." The LNG requests funding for the following expenditures related to this deployment:

Salary (100 LNG x \$860 avg. weekly salary x 8.6 weeks) = \$739,600

Health care costs related to LNG on state active duty status - \$45,000 (LNG on state active duty must be provided access to same medical coverage as on federal active duty as per R.S. 29:26)

Per Diem (100 LNG x \$287/week x 8.6) = \$246,820

Hotel (50 x \$560 weekly rate x 8.6) = \$240,800

Fuel - \$70,000 for 8.6 weeks (estimated expense for fuel which has been reduced from nearly \$60k/ month)

Operating Expenses - \$50,000 (various expenses including equipment rentals, laundry, cell phones, office supplies, etc)

Travel - \$5,000 (projected travel outside of New Orleans area)

Close-out expenses:

Maintenance Services and supplies - \$150,000 (LNG must restore federally owned vehicles to a specified condition. Anticipated cost per vehicle is \$1,875/ vehicle for 80 vehicles)

Site Repairs - \$35,000 (projected repair costs for use of hotel facilities, repairs to Michoud Maintenance facility in New Orleans East which was rented by the Military Department and damaged by a fire during the lease term)

Equipment Turn-In - \$80,000 (projected transportation costs for equipment relocation to various state installations)

Administrative Costs - \$156,821 Based on estimate of time (15%) devoted by 16 Military Dept. personnel engaged in support of Task Force Gator. This is the same logic used previously to provide administrative costs to the Military Department for Task Force Gator.

Total Projected Cost- \$1,819,041

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

		Auxiliary Account	\$0	0
Total	<u>\$200,000</u>	Total	<u>\$200,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget an additional \$200,000 in Interagency Transfers (IAT) within the Department of Agriculture & Forestry in order to purchase P25 compliant radios, which can be utilized on the state's 700/800 MHz radio system. The original source of this IAT funding is from the GOHSEP, which received this funding via a federal grant. GOHSEP received a Public Safety Interoperable Communications (PSIC) federal grant in the total amount of \$19,672,000 of which \$1,050,000 has been allocated for the following state agencies: Department of Agriculture and Forestry, Department of Revenue, BESE, Office of State Buildings, Office of State Parks and Department of Wildlife & Fisheries. The portion of the \$1,050,000 allocated for the Department of Agriculture & Forestry is \$200,000. There is a 25% state match in the amount of \$4.9 M associated with the \$19.8 M federal grant that GOHSEP will pay from their current budgeted statutory dedicated funds for interoperability (Overcollections Fund/LA Interoperable Communication Fund).

The \$200,000 in acquisitions will be expended on the following items:

19 - Motorola XTX 2500 Model III 700/800 MHz Portable Radios - \$40,755
80 - Motorola XTX 2500 Model II 700/800 MHz Portable Radios - \$147,600
99 - RLN4884 Motorola Vehicular Battery Chargers - \$6,785
108 - NiMH Multiplier Batteries - \$4,860

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time expenditure in the acquisitions expenditure category and this budget authority should be non-recurred during the FY 10 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

		Auxiliary Account	\$0	0
Total	<u>\$694,056</u>	Total	<u>\$694,056</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget an additional \$694,056 in statutory dedicated monies for supply needs within the following programs: Management & Finance, Agricultural & Environmental Sciences and Agro-Consumer Services. The requested \$694,056 statutory dedicated budget authority represents the budgeting of unappropriated fund balances from the following statutory dedicated funds: Seed Commission Fund - \$161,774, Weights and Measures Fund - \$429,303, Crop Pests and Disease Fund - \$24,226, Horticulture Commission Fund - \$78,753.

The \$264,753 requested for supplies within the Agricultural & Environmental Sciences Program will be expended on the following items: seed vacuum probe, seed germinator, electric microbalancer, official sample bags, seed germinating crispers, germination paper, sulfuric acid, and petri dishes. The current supply budget within the Agricultural & Environmental Sciences Program is \$127,125 and the Department has expended all available supply budget authority to date. The additional supply budget authority will allow the program to continue its normal day-to-day operations from December 2008 to the end of the fiscal year.

The \$270,461 requested for supplies within the Agro-Consumer Services Program will be expended on the following items: water detecting paste, rechargeable batteries for portable scales, stop sale violation notices, and grain forceps. The current supply budget within the Agro-Consumer Services Program is \$114,183 and the Department has expended all available supply budget authority to date. The additional supply budget authority will allow the program to continue its normal day-to-day operations from December 2008 to the end of the fiscal year.

The \$158,842 requested for supplies within the Management & Finance Program will be expended on the following items: automotive supplies, fuel and general office supplies. The amount requested within the Management & Finance Program represents the indirect costs associated with the unappropriated funds being requested within this BA-7 within the Weights & Measures Fund. Although the weights and measures function is within the Agro-Consumer Services Program, the Management & Finance Program provides administrative support functions (payroll, fleet management, etc.). In order to maximize this means of financing, the Department utilizes a portion of this statutory dedicated fund for indirect costs.

In comparing the three-year prior year actual supply expenditures to existing operating budget for supplies by program, the requested additional supply budget authority is reasonable.

SUPPLY BUDGET	Prior Actual 3-Yr Average	EOB	Upon BA-7 Approval
Management & Finance	\$1,466,200	\$351,073	\$509,915
Agricultural & Environmental Sciences	\$290,632	\$127,125	\$327,765
Agro-Consumer Services	\$50,643	\$114,183	\$384,644

NOTE: According to the Department, historically the Agro-Consumer Services Program has not had enough supply budget authority for their normal day-to-day operations for the past 3 fiscal years. Thus, other programs within the Department, specifically the Management & Finance Program, covered the following amounts: FY 08 - \$358,416, FY 07 - \$127,428, FY 06 -

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

\$161,658.

The Department has indicated to the Legislative Fiscal Office that this increase in supply budget authority will allow the Department to continue its day-to-day operations within these 3 programs. The current fund balances of these statutory dedicated funds before the approval of this BA-7 request are as follows: Seed Commission Fund - \$333,540 (\$161,774 for this BA-7, leaving \$171,766 for Treasury Seed repayment), Weights & Measures Fund - \$429,304, Crop Pests & Diseases Fund - \$24,226, Horticulture Commission Fund - \$78,753.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will impact future fiscal years in that the unappropriated fund balances will not be available for expenditure in FY 10 and beyond because these monies will likely be completely expended in FY 09. All of the unexpended fund balances within these specific statutory dedicated funds remain within the fund and do not revert to the SGF.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: State

AGENDA NO.: 18

AGENCY: Office of Secretary of State

ANALYST: Evelyn McWilliams

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Elections	\$161,426	0
Self-Generated Revenue:	\$0	Archives & Records	\$0	0
Statutory Dedications:	\$161,426	Museum & Other Operations	\$0	0
Federal Funds:	\$0	Commercial	\$0	0
Total	<u>\$161,426</u>	Total	<u>\$161,426</u>	<u>0</u>

I. SUMMARY/COMMENTS

The agency is requesting approval to add \$161,426 in Statutory Dedications to its budget. The statutory dedication originates from federal funding received as a result of the Help America Vote Act (HAVA). The funding will be utilized to assist parish governing authorities in making polling places more accessible for persons with disabilities. Examples of expenditures which qualify for funding include construction of permanent handicap ramps at polling places located on government property and construction of temporary ramps at polling places such as churches, creation of an instructional computerized audio for visually impaired voters, and voter education classes for voters with cognizance (mental) or physical disabilities.

The agency's current budget includes \$14.4 M in Statutory Dedications from federal HAVA funds. Approximately \$400,000 of the total HAVA funding included in the existing budget is dedicated to making polling places more accessible. The funding requested in this BA-7 request will be added to this amount.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 19

AGENCY: Office of the Secretary

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$65,868	1
Interagency Transfers:	\$0	Enforcement	\$0	0
Self-Generated Revenue:	\$0	Marketing	\$0	0
Statutory Dedications:	\$65,868			
Federal Funds:	\$0			
Total	<u>\$65,868</u>	Total	<u>\$65,868</u>	<u>1</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Statutorily Dedications budget authority by \$65,858 and to increase the authorized positions by 1 in the Office of the Secretary. This BA-7 request is part of the department's corrective action plan in response to a performance audit issued on 8/20/08 by the Legislative Auditor and is a companion of BA-7 request #20.

Currently a biologist in the Office of Wildlife performs all duties related to the department's land acquisition matters. During FY 08, the land management program spent approximately \$81,000 with contract attorneys for land acquisition and associated work. Rather than using a biologist, an Attorney 3 position will be created in the Office of the Secretary. This attorney will report to the Secretary through the General Counsel. Estimated annual salary and related benefits for an Attorney 3 position is \$106,299. Expenditures for FY 09 would total \$65,868 for 16 pay periods and would include Salaries (\$50,000) and Related Benefits (\$15,868).

The Wildlife Habitat & Natural Heritage Trust fund will be utilized for this purpose. This fund is derived from 25% of the revenues from the sale of basic hunting licenses for the sole purpose of land acquisition for wildlife management areas. If this BA-7 request is approved, the projected fund balance as of 6/30/09 will be approximately \$8.2 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will require additional Wildlife Habitat and Natural Heritage Trust funds to be appropriated in subsequent fiscal years. Annualization of the funding necessary for the additional position (salaries and related benefits) will be \$106,299 in FY 10 and increase thereafter by approximately 3%.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Total	<u>(\$94,720)</u>	Total	<u>(\$94,720)</u>	<u>(1)</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to eliminate 1 biologist position and associated funding in the Office of Wildlife. This BA-7 request is part of the department's corrective action plan in response to a performance audit issued on 8/20/08 by the Legislative Auditor and is a companion of BA-7 request #19.

Currently a biologist in the Office of Wildlife performs all duties related to the department's land acquisition matters. During FY 08, the land management program spent approximately \$81,000 with contract attorneys for land acquisition and associated work. Rather than using a biologist, an Attorney 3 position will be created in the Office of the Secretary. The Biologist B-DCL position will be eliminated and the associated funding for salary (\$71,740) and related benefits (\$22,980) will be reduced. Funding is being reduced from the Conservation Fund.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 request will result in a permanent reduction of \$94,720 and 1 position.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 21

AGENCY: Office of the Secretary

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$390,500	Enforcement	\$390,500	0
Self-Generated Revenue:	\$0	Marketing	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$390,500</u>	Total	<u>\$390,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the amount of \$390,500 for the Office of the Secretary in order to purchase P25 compliant radios, which will be integrated with the state's 700/800 MHz radio system. The original source of this IAT funding is from GOHSEP, which received this funding via a federal grant. GOHSEP received a Public Safety Interoperable Communications (PSIC) federal grant of approximately \$19.8 M of which \$1,050,000 was to be forwarded to certain state agencies. Of this amount, \$390,500 was allocated to the Department of Wildlife & Fisheries for the purchase of the P25 radios. The following is a breakdown of the \$390,500 in expenditures:

103 Motorola XTS 5000 Model III, 700 MHz P25 portable radios (\$366,000)
350 radio chargers for above radios and fleet vehicles and patrol boats (\$24,500)

There is a 25% state match in the amount of \$4.9 M associated with the \$19.8 M federal grant that GOHSEP will pay from their current budgeted statutory dedicated funds for interoperability (Overcollections Fund/LA Interoperable Communication Fund).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This is a one-time expenditure and this budget authority should be non-recurred during the FY 10 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 22

AGENCY: Office of Fisheries

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fisheries	\$36,580	0
Interagency Transfers:	\$71,332			
Self-Generated Revenue:	\$0			
Statutory Dedications:	(\$34,752)			
Federal Funds:	\$0			
Total	<u>\$36,580</u>	Total	<u>\$36,580</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority by \$71,332 and decrease Statutory Dedications by \$34,752 for a net increase of \$36,580 in order for the Office of Fisheries to enter into an agreement with the DEQ. The term of the agreement is from 10/1/08 to 9/30/09 and the original source of funding is the U.S. Geological Survey. The agreement allows the Department of Wildlife & Fisheries to collect biological data necessary to estimate the current condition of the Mississippi River and remit sampling forms and progress reports to DEQ.

The amount of the interagency agreement is \$71,332 and the expenditures will be budgeted as follows:

Salaries - \$28,972 (approximately 952 man hours)
Related Benefits - \$5,780
Travel - \$17,460 (In-state field travel)
Operating Services - \$1,920
Supplies - \$10,000 (gas, oil, batteries, etc.)
Acquisitions - \$7,200 (boom retrofitted for 1 boat)

The Department of Wildlife & Fisheries will utilize current personnel. All man hours utilized for this contract will be reimbursed; thus, budget authority in the amount of \$34,752 will be decreased from the Conservation Fund.

II. IMPACT ON FUTURE FISCAL YEARS

Any unexpended budget amounts will be carried forward into the next fiscal year. All funds are due to be expended by 9/30/09.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 23

AGENCY: Office of State Police

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement	\$0	0
Interagency Transfers:	\$0	Criminal Investigation	\$0	0
Self-Generated Revenue:	\$0	Operational Support	\$250,000	0
Statutory Dedications:	\$250,000	Gaming Enforcement	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$250,000</u>	Total	<u>\$250,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to appropriate \$250,000 of statutory dedicated funding from the Overcollections Fund within State Police's Operational Support Program for the Jefferson Davis Investigative Team. State Police and the Jefferson Davis Parish Sheriff's Office will enter into a cooperative endeavor agreement as these monies will pass-through State Police to the locals. The creation of this team is associated with the 7 dead bodies that have been found in the rural parts of Jefferson Davis Parish in the last 3 years. According to the Sheriff of Jefferson Davis Parish, there will be a total of 25 law enforcement personnel assigned to this team of which 10 will be full-time and 15 will be part-time (overtime). Jefferson Davis Parish Sheriff's Office, LA State Police, Federal Bureau of Investigations (FBI), Jennings Police Department, and Calcasieu Parish Sheriff's Office will all have officers represented within the 25 law enforcement personnel assigned to the team. According to State Police, there will be 2 State Troopers assigned to the team in which no additional state resources will be needed within State Police's budget as existing budgeted expenditures will be able to cover the costs of the 2 State Troopers assigned to the team.

The \$250,000 will be expended on the following items:

Overtime - \$162,000
Lexis-Nexis/ Account Subscription - \$12,000
Wireless Mesh Network for Cameras - \$25,000
Building Lease - \$7,800 (call center)
Xerox/ Fax Lease - \$2,700
Microsoft Licenses - \$23,100
Telephone (Land, Cell, Internet) - \$6,600
Utilities - \$4,500
Office Supplies (furniture lease) - \$6,300
TOTAL \$250,000

There is an approximately \$33.5 M unappropriated fund balance currently within the Overcollections Fund of which the original source of these monies is excess SGF receipts deposited into this fund via Act 513 of the 2008 Regular Session.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will impact future fiscal years in that the unappropriated fund balance from the Overcollections Fund will be \$250,000 less and will not be available for expenditure in FY 10 and beyond because these monies will be expended in FY 09. The unexpended fund balance within the Overcollections Fund remains within the fund and does not revert to the SGF. This is a one-time expenditure in FY 09 and should be non-recurred during the FY 10 budget development process.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$3,212,406</u>	Total	<u>\$3,212,406</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase IAT budget authority in the Administration & Executive Support Program. The source of IAT funding is Statutory Dedications from the State Emergency Response Fund (SERF).

DSS is the agency assigned the primary emergency function of shelter operation and control during emergencies and disasters. SERF will be used for operational expenditures related to emergency preparedness functions. The projected operational expenditures for FY 09 are as follows:

\$199,025	Salaries for DSS employees assigned emergency preparedness duties
\$49,756	Other Compensation for temporary job appointments used for shelter operations
\$61,000	Travel for in-state and out-of-state meetings, conferences, and training
\$1,929,821	Operating Services (rental of 6 shelters and 2 storage facilities, telephone, DSL, janitorial)
\$731,357	Shelter Supplies (cots, blankets, baby cribs, comfort kits, hand truck, pallet jack, microwaves)
\$232,932	Acquisitions (Hand held wireless scanners, SD Cards, Air Cards Maintenance)
\$8,515	Interagency Transfers to the Office of Telecommunications Management
<u>\$3,212,406</u>	TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

DSS is requesting \$3,664,047 in FY 10 for emergency preparedness operations. SERF will have to be replaced with SGF if SERF is not available to reimburse the agency for these on-going operational expenditures.

Approved By JLCB**

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 1

AGENCY: Office of Tourism

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Marketing	\$147,660	0
Self-Generated Revenue:	\$0	Welcome Centers	\$0	0
Statutory Dedications:	\$0	Consumer Information Services	\$0	0
Federal Funds:	\$147,660			
Total	<u>\$147,660</u>	Total	<u>\$147,660</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to increase Federal budget authority by \$147,660 in the Office of Tourism in order to receive funds from the U. S. Department of the Interior - National Park Service. The Atchafalaya Trace National Heritage Area was designated by Congress in FY 2006. In Federal FY 08, Congress allocated \$1.5M for a 10 year period with a 1.56% across-the-board rescission in National Heritage Area funding, leaving \$147,660 for this initial and subsequent fiscal years.

The Office of Tourism will implement a management plan which is being developed for the Atchafalaya Trace National Heritage Area. The plan will include establishing and maintaining interpretive sites, increasing public awareness, and encouraging sustainable economic development within the area. The funds will be utilized for Marketing and Visitor Services (\$29,500) and Phase 1 and 2 of the Management Plan - Resource, Inventory, Development and Interpretation (\$118,160). Marketing and Visitor Services include updating and redesign of the website and updating and printing of the maps for the four heritage regions (Upper, Between 2 Rivers, Bayou Teche Corridor, and Coastal Zone Regions). Included in Phase 1 and 2 of the Management Plan are an inventory of property in the Heritage Area, as well as provisions for the protection, interpretation, and enjoyment of the resources of the area.

The Federal share of the total cost of any activity under the Atchafalaya National Heritage Area Act shall be not more than 50%. For the State's share, CRT will utilize approximately \$350,000 in SGR derived from the LA Tourism Promotion District. The LTPD is authorized to levy and collect a sales and use tax not to exceed three one-hundredths of 1% for the purpose of assisting the state in the promotion of tourism. These funds are currently included in the FY 09 operating budget.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request is expected to increase federal funding by \$147,660 for the next 9 fiscal years. In order to receive this grant in subsequent years, a like amount or more will need to be budgeted from SGR from the LTPD.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
DEFERRED By JLCB**

DEPARTMENT: Public Service Commission

AGENDA NO.: 2

AGENCY: Public Service Commission

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Support Services	\$0	0
Self-Generated Revenue:	\$136,233	Motor Carrier Registration	\$136,233	6
Statutory Dedications:	\$0	District Offices	\$0	0
Federal Funds:	\$0			
Total	<u>\$136,233</u>	Total	<u>\$136,233</u>	<u>6</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$136,233 in SGR and 6 positions for the PSC to implement the Federal Railroad Safety Act. The purpose of the national Railroad Safety Program is to promote safety in all areas of railroad operations to reduce deaths, injuries and damage to property resulting from railroad accidents. Program activities include the following: routine inspections, accident investigations, formal and informal educational efforts, complaint investigations, safety assessments, special inquiries, regulatory development, research and similar initiatives. The 6 positions requested by the PSC include 2 Rail Safety Track Inspectors, 3 Rail Safety Inspectors, and a Rail Safety Manager. The PSC plans to fill 4 of the 6 requested positions in FY 09 on a staggered basis, spending all \$136,233 of these requested funds on salaries and benefits for these four positions.

Costs for the PSC's Rail Safety program rise to \$467,197 in FY 10. This increase of \$330,964 from the program's first to second year is primarily due to hiring the 2 remaining staff and annualizing costs for the 4 staff hired in FY 09 (\$289,764 increase in salaries and related benefits). The remaining \$41,200 increase from the first to second year is for the following items: travel (\$5,000), operating supplies (\$5,600), supplies (\$12,000), rent (\$15,650), and equipment (\$2,950).

The PSC will fund the proposed rail safety program by requiring each of the 16 railroad companies in the state to pay a portion of the PSC's yearly Railroad Safety budget equal to that company's proportion of miles of track statewide. The PSC will levy these annual assessments on LA railroad companies each January. The PSC cites its Constitutional authority to collect fees over regulated entities, the outcome of the case of Voicestream GSM 1 Operating Co., LLC and Cook Inlet/VIS GSM IV PSC, LLC v. LA Public Service Commission, 943 So. 2nd 349, 2005-2578 (La. 11/29/06), and legislative authority granted in Act 753 of the 2008 Regular Session as the basis for levying the proposed fees on LA railroad companies.

II. IMPACT ON FUTURE FISCAL YEARS

Cost for the PSC's Rail Safety program rise to \$467,197 in FY 10. This increase of \$330,964 from the program's first to second year is due to filling the 2 remaining positions and annualizing the 4 positions and related cost from the program's first year. Cost increases in FY 11 and thereafter should increase by an estimated 4% each year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request, but further recommends that the PSC not incur expenses for this program until fee revenue is in-hand. The LA Railroad Association asserts that the PSC has no legal authority to impose these fees and other regulatory changes. A legal challenge may delay the ability of the agency to actually collect the proposed fees, and funding the additional positions might require an alternate means of finance. The LA Railroad Association plans to contest the PSC's General Order imposing these fees and regulations before the 19th Judicial Court and the LA Supreme Court if necessary. The Legislative Fiscal Office further recommends that the Committee approve only 4 of the 6 requested positions. The PSC plans to hire the 2 remaining positions in FY 10 and can request these staff in the budget and appropriations process for FY 10.

Total	<u>\$1,943,468</u>	Total	<u>\$1,943,468</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request, is to budget \$1,943,468 in budget authority for the remaining federal funding for the hurricane supplemental grant awards. The overall program awarded to the Department from the U.S. Department of Agriculture (USDA) was \$8,618,452 in 2006. To date, the Department has expended approximately \$6.6M in FY 07 and FY 08 combined. This BA-7 represents the remaining funding of the grant excluding \$200,000 of federal budget authority for this grant, which was appropriated in FY 09.

	<u>Total Grant Award</u>	<u>BA-7 Amount</u>
Urban & Community Forestry	\$1,385,000	\$597,120
State Fire Assistance	\$5,289,000	\$1,069,542
Forest Health	\$297,500	\$87,346
Forest Stewardship Program	\$1,129,000	\$204,252
Volunteer Fire Assistance	<u>\$517,952</u>	<u>\$185,208</u>
Sub-total	\$8,618,452	\$2,143,468
Less Federal Authority (Act 19 of 2008)		(\$200,000)
TOTAL		\$1,943,468

Urban & Community Forestry - The 2 main objectives for this allocation are 1) to reduce immediate risks that survived the storm but need additional remedial care to keep or make them as safe as possible/or remove trees that will create a threat in the near future, and 2) to mitigate future negative impacts of urban forest loss through proper replanting and education about aspects of forest populations.

State Fire Assistance - The objective of this grant is to increase the agency's capacity for wildfire prevention, detection and suppression.

Forest Health Protection - Funding for this grant program will be utilized to address several forest health issues including the southern pine bark beetle.

Forest Stewardship - Funding for this grant will be utilized to increase the technical assistance provided landowners to help them recover from the impacts of the hurricanes.

Volunteer Fire Assistance - Funds are to be allocated to numerous communities in the hurricane impacted areas to improve fire department capabilities. Those specific organizations left to receive funding from the Volunteer Fire Assistance Program include: Audubon Nature Institute, Inc.; cities of Crowley, Gretna, Lake Charles, Mandeville, Morgan City, New Orleans, and Slidell; Friends of City Park; Keep Covington Beautiful; LA Urban Forestry Council; Little Leaf LA, LSU Ag Center, Save Our Cemeteries, Inc.; and St. Tammany Parish Government.

In FY 06, the JLCB appropriated \$5,367,952 federal funding and 31 positions for the first expenditures associated with the \$8.6M federal grant. In FY 08, the JLCB appropriated \$3,050,500 federal funding for the remainder of this grant. Due to the

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Department only expending approximately \$1.1M in FY 08 of the \$3.1M appropriation, this proposed BA-7 merely carries forward the remaining appropriation into FY 09.

NOTE: This proposed BA-7 is an after-the-fact BA-7. The Department has already encumbered expenditures associated with this grant in FY 09. The Department originally submitted this \$1.9M requested amount as a carry forward BA-7 for FY 09 in August 2008 to be approved in-house by the DOA. Once approved by the commissioner of administration, the Office of Statewide Reporting and Accounting Policy (OSRAP) would not approve the necessary entries in the state's financial system because the Department did not have sufficient federal budget authority to carry forward into FY 09. Thus, this BA-7 was rejected by OSRAP after the Department had already encumbered expenditures associated with the initial approved carry forward BA-7 of \$1.9M. According to OSRAP, the Department only had \$850,070 of actual FY 08 federal authority in the financial system to carry forward into FY 09. In FY 08, the Department had approximately \$18.7M of federal budget authority. According to the Department's FY 10 budget request, the Department expended \$17,860,247 in federal funds in FY 08. Of the \$17.9M in FY 08 prior year actual federal expenditures, \$2.5M is a federal means of financing Treasury seed approved by the commissioner of administration and the State Treasury in June 2008 to alleviate the cash flow problems within the Department's operating budget. The seed has been rolled forward into FY 09 and the Department is seeking to pay these funds through various fund balances within various statutory dedicated funds in FY 09.

The Department's federal programs operate on a reimbursable basis meaning expenditures are incurred within the various federal programs, paid with whatever cash is in the bank, which is most likely from the revenue sources of SGF, fees and various statutory dedications, and then reimbursed by the federal government. When the new commissioner of agriculture took office in January 2008, the Department had approximately \$5.1M of other financial obligations, which made the seed monies necessary. Those financial obligations included: \$2M in additional FY 08 expenditures associated with the Boll Weevil Program, \$0.6M in prior year risk management premiums, shortfalls in various expenditure categories in the amount of approximately \$2.5M which resulted in a spending freeze instituted in February 2008 in every expenditure category excluding payroll and utilities.

II. IMPACT ON FUTURE FISCAL YEARS

According to the Department, the federal grant period for this particular grant ends December 2008. However, the Department will maintain the 31 positions within the Department, but these positions will be funded with another means of financing for the remainder of FY 09, most likely SGF and SGR. However, included within the Department's FY 10 budget request, submitted to the Legislative Fiscal Office on 11/3/08, is a requested means of financing substitution that reduces federal funding budget authority in the amount of \$2,143,468 and increases SGF by a like amount. The requested means of financing substitution supports the following expenditures of the 31 positions: \$782,328-salaries, \$155,904-related benefits, \$847,900-equipment, \$312,386-supplies, and \$44,950-professional services. Due to this federal grant program being completed in FY 09, the Department is requesting additional SGF support to continue providing firefighting services in FY 10 and beyond with its current T.O. of 31. The Department currently has 147 firefighters on staff that are charged with the responsibility of protecting 18.9 million acres. In FY 09, the Department is projecting to assist with 4,500 wildfires according to its FY 09 existing performance standard as reported in LaPas.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 4

AGENCY: Office of Agriculture & Forestry

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$0	0
Interagency Transfers:	\$0	Forestry	\$0	0
Self-Generated Revenue:	\$0	Agricultural & Environmental Sciences	\$0	0
Statutory Dedications:	\$534,034	Animal Health Services	\$0	0
Federal Funds:	\$0	Agro-Consumer Services	\$0	0
		Auxiliary Account	\$534,034	0
Total	<u>\$534,034</u>	Total	<u>\$534,034</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget statutory dedicated funding in the amount of \$534,034 from the newly created Grain a& Cotton Indemnity Fund to the Department of Agriculture & Forestry's Auxiliary Program in order to pay claims to producers that currently qualify. Act 920 of the 2008 Regular Legislative Session created the Grain & Cotton Indemnity Fund, which includes monies deposited into the fund from assessment charges at the rate of one twenty-fifth of 1% on the value of all agricultural commodities regulated under the LA Agricultural Commodities Commission and sold to grain dealers and cotton merchants (corn, soybean, wheat, rice, cotton). According to the current market prices of those agricultural commodities regulated by the commission, anticipated collections to the fund in FY 09 will be \$534,034 (10/29/08 - Chicago Board of Trade Prices). The revenue calculation as provided to the Legislative Fiscal Office by the LA Agricultural Commodities Commission as of 10/29/08:

	<u>USDA 2008 PROJ.</u>	<u>2008 VALUE</u>	<u>\$0.0004 ASSESSMENT</u>
CORN	92,400,000	\$375,513,600	\$150,205
SORGHUM	14,550,000	\$59,131,200	\$23,652
SOYBEANS	38,220,000	\$350,477,400	\$140,191
WHEAT	20,400,000	\$107,712,000	\$43,085
RICE	20,876,000	\$317,315,200	\$126,926
<u>COTTON</u>	<u>560,000</u>	<u>\$124,936,000</u>	<u>\$49,974</u>
TOTAL	187,006,000	\$1,335,085,400	\$534,034

Act 920 provides for a fund cap of \$6M. Once the fund reaches a balance of \$6M, the commission will suspend collections of the assessment until such time the fund balance is less than \$3M, then the assessment will be in effect again.

According to Act 920, a person shall be eligible to receive indemnity payments from the Grain and Cotton Indemnity Fund if:

- 1) the licensed grain dealer become insolvent after 1/1/08,
- 2) the licensed cotton merchant becomes insolvent,
- 3) the licensed grain dealer or cotton merchant, as a result of the insolvency, does not fully compensate the producer in accordance with a sale.

According to the Department, there are currently 7 producers with a total of \$928,082 of eligible claims. Act 920 specifies that if claims for indemnity payments from the fund exceed the amount in the fund, the commission shall prorate the claims and pay the prorated amounts. Thus, the \$534,034 of projected fund collections will be prorated to the 7 producers requesting payment. These expenditures will be budgeted within the other charges expenditure category within the Department.

NOTE: The amount of requested statutory dedicated budget authority does not match the amount calculated on the fiscal note for Act 920 (HB 1253) of the 2008 Regular Legislative Session. The amount of potential revenue collections on 6/2/08, as calculated by the Chicago Board of Trade Prices, equaled \$767,189. Due to commodity monthly market price fluctuations, there is no way to specifically determine the amount of collections that will be deposited into the newly created statutory dedication. The amount presented within this BA-7 represents the latest market projections (10/28/08). To the extent the

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

commodity markets improve and additional revenue collections are realized within this statutory dedication, the Department could request additional budget authority either via BA-7 or FY 09 supplemental appropriation before the end of the current fiscal year (FY 09).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years. This BA-7 appropriates another statutory dedication within the Department in FY 09. Each fiscal year thereafter, the recommended budget authority will be based on projected claim amounts and the amount of projected assessment collections that will be deposited into the newly created fund.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 5

AGENCY: Office of Agriculture & Forestry

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$0	0
Interagency Transfers:	\$13,319,113	Forestry	\$0	0
Self-Generated Revenue:	\$0	Agricultural & Environmental Sciences	\$0	0
Statutory Dedications:	\$0	Animal Health Services	\$13,319,113	0
Federal Funds:	\$0	Agro-Consumer Services	\$0	0
		Auxiliary Account	\$0	0
Total	<u>\$13,319,113</u>	Total	<u>\$13,319,113</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$13,319,113 of IAT revenue within the Department of Agriculture & Forestry's Animal Health Services Program for hurricane related expenditure reimbursement (Hurricane Gustav - \$9,808,307 and Hurricane Ike - \$3,510,806). The original source of these IAT funds is federal funds. These funds will be sent to the Department of Agriculture & Forestry from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP), who will receive the funding from the Federal Emergency Management Agency (FEMA). The Department of Agriculture & Forestry has submitted all of the necessary paperwork and receipts to the Joint Field Office (JFO) and the requested BA-7 amount represents the amount currently approved by FEMA.

Due to the limited fuel supply in the state after Hurricane Gustav and Hurricane Ike, the Department was tasked with the allocation, storage, distribution, logistics support and security of fuel. According to the Department, fuel was provided to generators, equipment and vehicles through 5 separate departmental distribution points located in Baton Rouge, Hammond, Woodworth, Haughton and Monroe. This fuel support was provided to essential public service facilities such as fire and police departments and emergency vehicles. These costs will be budgeted as follows:

\$1,138,438 - salaries (overtime)
\$76,242 - related benefits (Medicare/Social Security)
\$987,295 - operating services (gas tank rentals and fuel transportation costs)
\$11,117,138 - supplies (diesel, gasoline, aviation fuel)

To date, the Department has incurred a total of \$18,770,284 of hurricane related expenditures. The remaining expenditures of \$5,451,171 are still in the process of being approved by FEMA.

NOTE: According to GOHSEP, Hurricane Ike does not require a federal state match and is 100% federally funded for parts A and B as long as the incurred expenditures occurred from 9/14/08 to 10/25/08. However, to date Hurricane Gustav's federal state match requirement is 25%. The state match as it pertains to this BA-7 is \$2,452,077, which is 25% of \$9,808,307. To date, there has been no decision by the Division of Administration (DOA) as to how this state match will be paid. To the extent that current FY 09 appropriations for the following statutory dedications are completely expended in FY 09, there could be approximately \$68.6M available for appropriation from the State Emergency Response Fund (SERF), approximately \$33.5M available for appropriation from the Overcollections Fund and \$8.7M available for appropriation from the FEMA Reimbursement Fund for a total of approximately \$110.8M of available funding for potential Hurricane Gustav state match requirements in FY 09.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

		Auxiliary Account	\$0	0
Total	<u>\$1,190,003</u>	Total	<u>\$1,190,003</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$1,190,003 of SGR budget authority within the Department of Agriculture & Forestry's Forestry Program. The original source of the collected fees is from the State of Texas to compensate the Department for personnel and equipment utilized by the Texas Forest Service during their recent extreme fire conditions. According to the Department, these firefighting services were provided from January 2008 to September 2008 to the State of Texas pursuant to the Southeastern States Forest Fire Compact Commission. According to the Department, dry weather in the State of Texas has contributed to the increase in the number of wildfires.

The following expenditures were incurred by the Department as a result of assisting the State of Texas:

Fire Crews (Base Pay, Overtime) - \$744,903
Per Diem (meals, lodging) - \$18,240
Chase Trucks (mileage) - \$32,153
Bulldozers (hours) - \$274,547
Transport Trucks (mileage) - \$70,456
Chase Trucks (fuel) - \$14,368
Dozers/Transport (fuel) - \$35,336

Louisiana is a member of the Southeastern States Forest Fire Compact Commission. Other state members of the compact include: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia.

II. IMPACT ON FUTURE FISCAL YEARS

Federal Funds:	\$0			
Total	<u>\$74,457</u>	Total	<u>\$74,457</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget monies from the Rural Development Fund for the renovation of the St. Bernard Parish Civic Center Auditorium. The project included purchasing materials, repairing and replacing fixtures, floors, and walls of dressing rooms. Rural Development awarded St. Bernard Parish a grant in the amount of \$79,505 on 6/30/05. An extension was approved to extend the grant until 9/30/07. According to the Governor's Office, a change in administration in St. Bernard Parish government resulted in a delay in the project and the work was not completed until June 18, 2008. Invoices were received in the Governor's Office on 7/23/08 after the deadline to submit carryforward BA-7s.

NOTE: A total of \$5,048 was paid to St. Bernard Parish on 2/14/07 leaving a balance of \$74,457 which will be reimbursed with the approval of this BA-7 request.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

Federal Funds:	\$0			
Total	<u>\$1,057,110</u>	Total	<u>\$1,057,110</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget monies from the Interoperability Communications Fund to be transferred to the Executive Office from the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP) for obligations entered into in FY 08. Two purchase orders and an intergovernmental agreement were encumbered by State Police in FY 08 but were not paid due to the invoices being delivered by Motorola to the incorrect agency for payment. All equipment in question was received by State Police prior to 6/30/08. Invoices were received by the Executive Office (as the original billing agency) subsequent to the deadline to submit carryforward BA-7s. Therefore, due to all Interoperability Communications Fund monies being budgeted in the GOHSEP budget in FY 09, this BA-7 will transfer funds to the Executive Office for payment of these obligations.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request. Approval of this BA-7 will likely result in a reduction in funds available for GOHSEP and/or State Police for its expenditures related to interoperability in FY 09. GOHSEP and State Police have indicated to the LFO that all of the funds budgeted in the current fiscal year related to interoperability have been committed. However, approval of this BA-7 will reduce funds available for these expenditures by a total of \$1,057,110. Should either agency require additional funds to address a shortfall in its interoperability obligations later in the current fiscal year, sufficient funds are currently available (not currently budgeted) in the Interoperability Fund in the treasury to replace the amount which is transferred to the Executive Office via this BA-7. This fund balance is available primarily due to the non-payment of these invoices in FY 08.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST

Statutory Dedications:	\$10,000,000			
Federal Funds:	\$0			
Total	<u>\$10,000,000</u>	Total	<u>\$10,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget \$10M from the Community Water Enrichment Fund (CWEF) to the Community Development Block Grant (CDBG) Program within the Division of Administration. Act 513 of the 2008 Regular Session directed the state treasurer to transfer from the SGF \$10M from FY 08 receipts for deposit into the Community Water Enrichment Fund. This appropriation shall be used solely to fund rehabilitation, improvement, and construction projects for community water systems to provide drinking water to Louisiana's small rural communities.

The administration of this program will be performed by the existing staff of the LA Government Assistance Program (LGAP), which also falls under the Community Development Block Grant Program. The current budget for the administration of the LGAP Program is \$230,714 (SGF) with a staff of 4. Due to the uncertainty of future appropriations to the CWEF and also the prohibition of CWEF monies being used for administrative costs, a short-term solution will include the utilization of LGAP personnel to administer these funds. In the event that this program receives additional appropriations beyond FY 09, the DOA will likely request additional funding which will be used to provide for administrative costs which are directly related to this program.

NOTE: The LGAP Program was created in FY 07. \$10M is budgeted annually in the capital outlay bill for eligible municipalities and parishes for fire protection, sewer, water, renovations to essential government buildings, police protection, demolition, equipment, roads, drainage, and reasonable engineering costs (if associated with construction). The DOA has noted that the LGAP staff will not be sufficient to administer the CWEF program in future fiscal years.

II. IMPACT ON FUTURE FISCAL YEARS

Act 513 only provides funding for FY 09 for the CWEF. Should appropriations be made in future fiscal years to this fund, additional SGF will be requested by the DOA for administrative costs. The total cost for 2 additional employees in FY 10 would be approximately \$151,000 and includes 2 CDBG program specialists (\$52,624/position plus related benefits for total personal services of \$142,000) plus travel, acquisitions, and phone costs totaling and additional \$9,000.

Federal Funds:	\$0	Senior Centers	\$0	0
Total	<u>\$193,110</u>	Total	<u>\$193,110</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 request is to budget IAT funds from the DHH (\$137,110) and from the Department of Insurance (\$56,000).

Additional funding in the amount of \$137,110 from DHH will be provided through the Nursing Home Residents' Trust Fund which is a federally mandated fund administered by DHH and is comprised of fines collected from nursing homes when they have been found out of compliance with state or federal regulations. Statutory requirements provide that these funds can only be used to improve the quality of life and care for residents in nursing homes. The Office of Elderly Affairs currently has a total of \$269,574 budgeted from this fund and is used to address the nursing home staffing and workforce issues in the New Orleans and Lake Charles areas. These additional funds will bring the total appropriation for FY 09 to \$406,684.

The project has 3 major goals: 1) to work in a collaborative fashion with New Orleans and Lake Charles providers to help them learn and implement evidence-based practices associated with attracting and retaining staff; 2) to help nursing home staffs address the particular challenges of living and working in or near the recovering cities by engaging case managers familiar with the needs of the healthcare workforce; and 3) to share with all providers the lessons learned from the project through a conference held at the end of the project.

Funding will be used for consultants which will provide nursing home management training, resources and implementation strategies to enhance workforce retention in the New Orleans and Lake Charles areas. Meeting costs include one-day conferences that are held in the New Orleans and Lake Charles areas which bring in nursing home staffs for training and discussion. Finally, LPB will create a 30 minute video which will provide educational tools for nursing homes throughout LA and the country. This video will include interviews with staff that capture best practices in staff retention and training. Total expenses for the entire FY 09 appropriation from the Nursing Home Residents' Trust Fund with approval of this BA-7 includes:

Consultants - \$333,000
Meeting Costs - \$18,684
Conference Costs - \$30,000
LPB Video - \$25,000

Total Expenses for FY 09 - \$406,684

Federal funding from the Department of Insurance (\$56,000) will be transferred to the Office of Elderly Affairs for outreach activities and providing medicare and insurance related counseling. Funding is provided through the Senior Health Insurance Information Program (SHIIP) grant.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 request will have no impact on future fiscal years.

AGENDA NO.: 1

AGENCY: Office of Youth Development

ANALYST: Kristy F. Gary

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration	(\$3,000,000)	0
Interagency Transfers:	\$0	Swanson Center for Youth	\$0	0
Self-Generated Revenue:	\$0	Jetson Center for Youth	\$0	0
Statutory Dedications:	\$0	Bridge City Center for Youth	\$0	0
Federal Funds:	\$0	Contract Services	\$3,000,000	0
		Field Services	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is a technical BA-7, the purpose of which is to transfer \$3M in SGF from the Administration Program to the Contract Services Program. This one-time adjustment is necessary because funding was inadvertently placed in the Administration Program during the budget development process. Funding is allocated in the Other Charges category to fund several prevention and diversion contracts. The pool of money allows flexible spending for the Office of Juvenile Justice to contract with entities, such as Local Courts, Parish School Boards, Boys Town LA, Volunteers of America, Big Brothers Big Sisters, etc. to provide counseling therapy, education services, substance abuse treatment, summer programs, early intervention, family centered services, and mentor/tracker services. By transferring these funds to the Contract Services Program, the funding for the contracts would be more appropriately budgeted and accurately tracked.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$142,011			
Total	<u>\$142,011</u>	Total	<u>\$142,011</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal budget authority by \$142,011 in the Department of Health & Hospitals, Office of Mental Health-Area B, Client Services Program. The source of federal funds is the renewal of a Supportive Housing Grant from the United States Department of Housing & Urban Development. This grant does not require SGF match.

The grant will be used to continue the existing New Life Program at Eastern LA Mental Health System, which is a 12-bed community residential program that provides services to mentally ill patients that are not ready to go home but no longer need inpatient treatment. The goal of the program is to provide assistance with daily living skills to transition patients back into their own community so they can function on their own with no restrictions. The program served a total of 14 clients in FY 08.

The funding will be allocated to Other Charges to pay for a contract with Options Inc. to continue providing the transitional services.

II. IMPACT ON FUTURE FISCAL YEARS

This grant expires on June 30, 2009. The agency anticipates that the grant will be renewed for the same amount in subsequent fiscal years. If the grant is not renewed, the agency will need another source of funding to continue the program.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 3A

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$803,320	Private Providers	\$0	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$2,800,000	0
Federal Funds:	\$1,996,680	Auxillary	\$0	0
		Program 500	\$0	0
Total	<u>\$2,800,000</u>	Total	<u>\$2,800,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority in the Department of Health & Hospitals, Medical Vendor Payments Program to make additional disproportionate share hospital (DSH) payments for mental health services. The source of funding is Medicaid Title XIX DSH payments for uncompensated care costs, which is comprised of both SGF match (28.69%) and federal financial participation (71.31%). This is a companion BA-7 with the Office of Mental Health (OMH) Area B.

The Office of Mental Health, Area B is requesting to maximize federal funding to cover the costs of operating an 18-bed acute unit. Information provided by the Department of Health & Hospitals indicates that East LA State Hospital is eligible to qualify for disproportionate share hospital (DSH) payments to cover expenses associated with inpatient hospital services to uninsured patients in their 18-bed acute care unit. The cost of operating the unit is \$2.8M, which is historically funded with SGF (\$2.4 M) and DHH overcollections (\$400,000). The Office of Mental Health, Area B will transfer \$803,320 in existing SGF to the Medical Vendor Payments program to be used as match to draw down federal matching funds (\$1,996,680). Both state and federal funds (\$2.8M) will be transferred back to OMH to be used to cover operational costs of the mental health unit.

Note: By leveraging federal funds, approximately \$1.6 M in SGF currently appropriated will no longer be required to support the operations of the unit. OMH, Area B is requesting to retain the excess SGF to address a projected budget shortfall in FY 09. Companion BA-7 #3B itemizes this request.

II. IMPACT ON FUTURE FISCAL YEARS

Future year funding of the 18-bed inpatient unit is anticipated to be funded with Medicaid DSH funds. The Division of Administration has indicated that this BA-7 will be annualized in the FY 10 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$0			
Total	<u>\$1,996,680</u>	Total	<u>\$1,996,680</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to decrease SGF by \$803,320 and to increase IAT by \$2.8M for a net increase of \$1,996,680 in the Department of Health & Hospitals, Office of Mental Health-Area B, Administration & Support (\$840,000) and Client Services (\$1,156,680) programs. The source of IAT is Medicaid DSH funding from Medical Vendor Payments. This funding will be used for the 18-bed acute unit at East LA State Hospital.

This BA-7 would allow the agency to maximize federal funds using Medicaid DSH payments from the Uncompensated Care Cost Program. The agency will transfer \$803,320 SGF to Medical Vendor Payments to be used as match to draw down federal matching funds (\$1,996,680). By doing this, OMH-Area B will realize a SGF savings of \$1,596,680. The savings is based on the initial SGF allocation of \$2.4M less the amount needed for the state match. OMH is requesting to retain the savings to use for budget shortfalls in Operating Services (\$700,000), Retiree Insurance (\$140,000), Professional Services for physician's contracts (\$220,000), and Other Charges for group home contracts (\$536,680).

The agency contends that the budget shortfalls began in FY 06 as a result of the 5% budget reduction per Executive Order KBB 05-82. OMH-Area B was subsequently cut \$1.5M in supplies in FY 08 after realizing a savings in the Patient Assistance Program in the previous fiscal year. In FY 09 the agency was underfunded in related benefits for retiree insurance because the actual number of retirees were higher than anticipated and because of the realignment of funding between salaries and other charges during the budget development process.

OMH used Social Services Block Grant (SSBG) Funds to restore a portion of the 5% cut and DHH overcollections to cover the remaining budget deficiencies. The agency has stated that SSBG restoration funds have been fully utilized and, therefore, are no longer available to use for these expenditures. OMH also does not anticipate that DHH overcollections will be an option for the current fiscal year.

Without approval to retain the SGF savings, the agency contends that services could be reduced or eliminated.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 will be annualized for the same amount in subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of the DSH Medicaid funding for the 18-bed acute unit in the amount of \$2.8M.

In addition, this BA-7 is requesting to use \$1,596,680 in SGF that will no longer be needed to operate the acute unit but will be used in the East LA Mental Health System Administrative and Client Services programs. OMH provided actual expenditures for Operating Services, Retirement, and Professional and Social Service Contracts from FY 06 through FY 08. These expenditures were analyzed to determine if there was a pattern of growth over those fiscal years. A three-year average of the actual expenditures was also done to see if the agency's appropriated budget was in line with historical costs. We also analyzed the agency's revenue streams and found that the agency was using non-recurring revenue sources (SSBG funds and

October 17, 2008

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Overcollections) for these expenditures. The LFO has verified that these funding streams are no longer available in the current fiscal year.

Based on this analysis, the LFO has determined that the agency does have a budget deficit in the current fiscal year in the stated expenditure categories and is therefore recommending approval for the SGF savings to be utilized to eliminate this shortfall.

DEPARTMENT: Higher Education

AGENDA NO.: 4

AGENCY: Board of Regents for Higher Education

ANALYST: Mark Antoon

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Board of Regents	\$3,000,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$3,000,000			
Total	<u>\$3,000,000</u>	Total	<u>\$3,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to add \$3M of Federal budget authority to the Board of Regents to allow the agency to expend grant monies for the LA GEAR UP Program. This program is administered by the Board of Regents through the LA Systemic Initiatives Program (LaSIP).

For the last six years, LA GEAR UP has received \$3M federal dollars annually from the US Department of Education to support its mission to increase the number of low-income students who enter and succeed in college. For each federal dollar LA GEAR UP receives, the USDOE requires a dollar for dollar match of state, local, institutional, and private funds to be contributed. The state has already met the match requirement with an in-kind match and no additional match is required if this BA-7 is approved.

For FY 09 and subsequent fiscal years, the funds will be spent as follows:

Administration

Salaries and Related Benefits	\$667,800
Travel	\$45,000
Supplies	\$15,000
Other (Printing, Conference, and temporary employees)	<u>\$64,200</u>

Subtotal \$792,000

Program

Summer Learning Camp	\$1,000,000
Subgrants	\$1,000,000
Performance Review	\$8,000
Scholarships	<u>\$200,000</u>

Subtotal \$2,208,000

Grand Total \$3,000,000

Summer Learning Camps are university-based one-week residential camps designed to promote the post-secondary education access of the students in LA GEAR UP schools. The agency budgets \$1M for 1,200 campers at a cost of approximately \$833.33 each. Students sleep in dormitories, eat meals served in university student centers, and access university facilities just as if they were attending college. The camps provide instruction in standards-based mathematics, science, technology, and/or English/language arts, as well as information about available financial aid resources and admission standards required to pursue post-secondary studies.

October 17, 2008

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

In addition to the academic activities, thematic field trips are scheduled throughout the week. In past years, LA Tech campers have explored engineering principles and taken field trips to a planetarium, Shreveport's SciPort Discovery Center, and IMAX Theater. Campers at Nicholls State University explored LA's coastal waterways with scientists and visited the LA Universities Marine Consortium (LUMCON), where campers conducted their own scientific investigations.

Also, the agency budgets \$200,000 for 500 scholarships at an average amount of \$400 per scholarship. Recipients are chosen from program completers using a rubric that ranks and compares student achievement. These scholarships can be used at any post-secondary institution.

Finally, 51 schools in 12 participating school districts are eligible for small grants that are designed to improve their students' access to post secondary education. The agency budgets \$1M for each participating school to receive a subgrant of approximately \$19,608 should the grant monies be evenly distributed. The districts that participate are; Union, Morehouse, DeSoto, Red River, Richland, Sabine, Avoyelles, Iberville, East Feliciana, Iberia, St, John the Baptist and the Orleans Recovery School District.

Administrative costs amount to \$792,000. Such costs include salaries and related benefits, travel, supplies and other expenses such as printing, annual conference, etc. The US DOE has approved the BOR administrative allocation. This grant funds 9 existing positions within the BOR and LaSIP at the following amounts:

LA GEAR Assistant Director - funded at \$80,000 annually
5 School Coordinators - funded at \$60,000 annually
Fiscal and Contracts Coordinator - funded at \$60,000 annually
Data Coordinator - funded at \$60,000 annually
Program Coordinator - funded at \$30,000 annually

All these positions are eligible for fringe benefits that amount to a total of \$137,800 (26% of wages).

II. IMPACT ON FUTURE FISCAL YEARS

There will be no impact on future fiscal years. The agency anticipates that this grant funding will be available in the foreseeable future. If this funding is not available in future years, the state will have to address the costs with state or other means of funding or eliminate the program.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$2,392,000</u>	Total	<u>\$2,392,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$2,392,000 in Federal funds for the LA Workforce Commission to pay Disaster Unemployment Assistance (DUA) benefits to persons affected by hurricanes Gustav and Ike. The Office of Workforce Development will pay these benefits to employees and self-employed individuals (such as fishermen and agricultural workers) who were living or working in areas affected by the hurricanes who do not qualify for traditional unemployment benefits. The Department will pay benefits averaging \$104 weekly for approximately 10 weeks to an estimated 2,000 individuals (2,000 claimants X \$104 per week X 10 weeks = \$2,080,000). The commission will use the \$312,000 in remaining funds for administrative costs associated with these benefits. These federal funds do not require a matching component from state government.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$4,839,472</u>	Total	<u>\$4,839,472</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$4,839,472 in Federal Reed Act funding for the LA Workforce Commission to pay administrative costs related to unemployment benefits paid to persons affected by hurricanes Gustav and Ike. These administrative costs are associated with approximately 46,000 traditional unemployment insurance claims and 18,000 disaster unemployment insurance claims from hurricanes Gustav and Ike. This federal Reed Act Funding is coming from the state unemployment insurance trust fund from monies appropriated by Congress to LA. The Office of Workforce Development will use these funds for call center operations (\$4,489,472) and for salaries and overtime of staff (\$350,000) processing claims related to these disaster benefits.

Statutory Dedications:	\$78,128	Museum & Other Operations	\$78,128	0
Federal Funds:	\$0	Commercial	\$0	0
Total	<u>\$78,128</u>	Total	<u>\$78,128</u>	<u>0</u>

I. SUMMARY/COMMENTS

The agency is requesting approval to add \$78,128 Statutory Dedications from the Shreveport Riverfront & Convention Center and Independence Stadium Fund to provide for repairs at the LA State Exhibition Museum in Shreveport. The funding requested in this BA-7 is the balance of the funding that was in the account as of June 30, 2008. The requested revenue will be utilized to provide for repair of broken concrete in the courtyard and at the south gate entrance, upgrade of lighting in display cases, upgrade of doors, locks and additional security and lighting for a new parking lot.

The revenue derives from the state's 3.97% sales tax on the furnishing of sleeping rooms, cottages or cabins by hotels in the cities of Shreveport and Bossier City and is deposited in a special fund named the Shreveport Riverfront & Convention Center and Independence Stadium Fund. Monies in the fund are subject to appropriation by the legislature. Unexpended monies in the fund remain in the fund and do not revert to the general fund. The state's 3.97% sales tax is specifically dedicated to this fund under R.S. 47:302.2 [2%], 322.30 [1%], and 332.6 [.97%]; and provides that the 2% and .97% portion collected in Shreveport and one-half of the 1% portion collected in Shreveport and Bossier City are dedicated to the fund. Out of these collections, one and one-third percent of the monies in the fund are deposited in a special account exclusively for use by the LA State Exhibit Museum in Shreveport. The amount in this BA-7 includes deposits from prior years collections. The agency projects the annual recurring collections that are deposited in the fund at approximately \$38,000.

The funding requested in the BA-7 will be added to the \$942,889 total funding that is included in the agency's existing budget for this museum. The museum's total funding in the existing budget is composed of \$904,811 SGF and \$38,078 Statutory Dedications from the Fund.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

DEPARTMENT: Economic Development

AGENDA NO.: 8

AGENCY: Office of Business Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development	\$2,500,000	0
Interagency Transfers:	\$0	Business Incentives	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$2,500,000			
Total	<u>\$2,500,000</u>	Total	<u>\$2,500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$2.5M in Federal funds from the Economic Development Administration (EDA) for economic development activities related to recovery from hurricanes Gustav and Ike. The grant includes the following components and funding amounts: technical assistance for economic development organizations (EDOs) and businesses (\$1,277,000), capacity building to increase the department's research and analysis capabilities (\$374,000), and funding for long term economic recovery strategies (\$849,000). However, the department has considerable flexibility to use the funds in manners consistent with the department's priorities related to economic development activities in the state, as well as the mission and funding priorities of EDA.

The primary components of the technical assistance funding will include costs related to 6 business assistance centers, a mobile classroom, 24/7 call center, economic development organizations (EDOs), procurement workshops, rural outreach, and other uses. The department is unable to identify the specific amounts and uses of funding for purposes and entities at this time. The 6 business counseling centers operate in the following locations: Baton Rouge, Covington, Thibodaux, Metairie, Lake Charles, and New Orleans. Under a previous EDA grant in 2005, the department funded the following EDOs: St. Tammany West Chamber of Commerce, Jefferson Parish Economic Development and Port District, Louisiana Technology Council Corporation, The Chamber/Southwest LA, LA Business & Technology Center, South LA Economic Council, Southwest LA Partnership, Acadiana Economic Development Council, and the St. Tammany Economic Development Foundation. The department reports that commitments have been made with some of these entities and many are likely to receive funding from this grant as well, but are unable to provide specific amounts.

The department is early in formulating plans on the use of funds for capacity building and long term recovery strategies. In the 2005 EDA grant, the department used funding for capacity building primarily for departmental software and hardware upgrades. The department reports they are likely to use funds for capacity building from this grant for similar purchases, including laptop computers for business counseling centers and a mobile classroom. However, the department is unable to describe proposed uses or purchases for these funds.

Eight economic development planning and development districts received the single largest funding amount (\$240,000) under the long-term recovery strategies component from the 2005 EDA grant to create jobs and further economic development in the state. The department used the remaining funding for long term recovery strategies from the 2005 EDA grant for projects such as: regional studies, recovery plans, entertainment industry assessment, real estate assessment, GO Zone mission events, site selection boot camp events, downtown development initiatives, fisheries assistance, impact of the LED bridge loan program on small businesses, data collection, minority business development, etc. The following is an illustrative list of entities receiving larger allotments from the 2005 EDA grant: Cameron Parish Police Jury (\$49,500), Association for Manufacturing Excellence (\$50,000), Competitive Strategies Group LLC (\$49,500), CIBER Disaster Recovery (\$48,600), SEEDCO (\$49,500), GNO Inc (\$100,000), New Orleans World Trade Center (\$50,000), Economic America Research Associates (\$49,000), Tamerica Management Company (\$47,500), New Orleans Downtown Development District (\$50,000), LSU Division of Economic Development & Forecasting (\$49,754), City of Baton Rouge Minority Business Enterprise (\$50,000), City of New Orleans Minority Business Office (\$50,000), Algiers Economic Development Foundation (\$100,000), West Calcasieu Port (\$49,500), and the City of Lake Charles (\$45,000). The department reports that these entities and others from the 2005 EDA grant will likely

October 17, 2008

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

receive funding under this grant. However, the department is unable to describe specific entities and amounts receiving funds through this grant.

Because Gustav and Ike impacted the entire state, this grant will allow for funding to be used statewide. The 2005 Katrina/Rita EDA grant only allowed for those areas specifically impacted by the storms. The department was formally notified of this award on September 22nd. The department is continuing to formulate the scope of work in coordination with the 8 regions of the state by evaluating the economic impact and developing strategies based upon local economic development needs. As such, the department is unable to provide specific amounts at this time regarding uses and purchases funded by this grant.

II. IMPACT ON FUTURE FISCAL YEARS

As with the 2005 EDA grant, the department is unlikely to expend this grant within FY 09. As such, funds from this grant will likely carryforward for use in subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7. It is the understanding of the Legislative Fiscal Office that the funds will be used to address, in many cases, unforeseen economic development needs which arise, but cannot be accurately or completely anticipated. Given the lack of specifics relative to this grant, the committee may want to consider having the department provide follow-up information monthly or quarterly as to the uses of these funds.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 9

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$39,578,436	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	(\$39,578,436)	0
Federal Funds:	\$0	Auxillary	\$0	0
	\$0	Program 500	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer funding from the Uncompensated Care Costs Program to the Payments to Private Providers Program within Medical Vendor Payments. The source of funding is SGF match and federal financial participation that will be used for the purpose of making payments to rural hospitals. These payments represent Title XIX claim payments for providing inpatient and outpatient services to Medicaid recipients.

For FY 09, the Department has projected a year-end deficit in the Medical Vendor Payments (MVP), Payments to Private Providers Program. Information provided by the Department of Health & Hospitals indicates that claims are projected to exceed the level of appropriation by \$81.1M. This BA-7 request represents a partial solution to an \$81M deficit reduction plan presented by DHH at the September 26, 2008 JLCB meeting. Approval of this BA-7 will eliminate approximately half of the projected deficit by transferring UCC funding that is not projected to be spent in FY 09 (as a result of FY 07 legislation) to the private providers program. The legislation (Act 327 of the 2007 Regular session) required the department to implement a new rural hospital payment methodology. Specifically, Medicaid rates increased (effective July 1, 2008) to pay cost plus 10% for providing hospital inpatient and outpatient services. As a result of making additional cost payments through the Medicaid Private Provider Program, a like amount of UCC funding appropriated for FY 09 for the rural hospitals is not anticipated to be spent in FY 09. The new payment methodology is anticipated to be budget neutral by hospital.

If approved, the FY 09 total UCC appropriation for the Rural Hospitals would be as reflected below.

FY 09 initial Rural Hospital UCC Appropriation:	\$101,412,364
BA-7 UCC adjustment :	<u>(\$39,578,436)</u>
FY 09 new UCC total:	\$61,833,928

Note: While not part of this BA-7, the department intends to decrease the balance of the projected deficit (\$41 M) by utilizing funds appropriated but not anticipated to be spent in FY 09 (for the Provider Services Network-Medical Home model of care), and by implementing new payment processes that are anticipated to create savings/efficiencies. The efficiencies will be generated from the following actions: 1) changing clinical claims edits/evaluations (determining which CPT codes are allowable) from a manual to automated process to avoid overpayments to physicians; 2) changing the criteria for the appropriateness of hospital admissions, length of stay, and level of care; and 3) reducing the nursing home rate paid to hospice providers for nursing home care (room and board) from 100% to 95% for hospice nursing home patients.

II. IMPACT ON FUTURE FISCAL YEARS

Future year Medicaid payments to the rural hospitals will reflect the new payment methodology (costs plus 10%) for providing inpatient and outpatient services. In addition, any future year UCC allocations to these hospitals are subject to increases in allowable UCC costs and subject to appropriation.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$0	Commercial	\$0	0
Total	<u>(\$89,231)</u>	Total	<u>(\$89,231)</u>	<u>0</u>

I. SUMMARY/COMMENTS

The agency is requesting approval to reduce \$89,231 of carryforward funding that was included in a BA-7 approved at the August JLCB meeting. Items approved for carryforward funding should have a bona fide obligation or encumbrance for expenditures that existed prior to June 30th. After further review by the OPB and LFO, it has been determined that the funding included in this BA-7 does not have a bona fide obligation or encumbrance for expenditures and is not eligible for approval as a carryforward item.

The \$89,231 funding in this BA-7 is unexpended revenue that is earmarked, but not encumbered at this date, to be used for ongoing major repairs and security expenses at the LA State Exhibition Museum. The funding derives from a state imposed sales tax on hotel/motel occupancy charges, and which is dedicated for the purposes of the museum. Although the funding in this BA-7 is not eligible for appropriation as a carryforward item, the agency anticipates submitting a regular BA-7 at a later date requesting approval to increase the budget for the LA State Exhibition Museum to provide for the expenses included in this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #3.

The purpose of this technical BA-7 is to correct an error which occurred during the carryforward BA-7 process at the August meeting of the Joint Legislative Committee on the Budget. Carryforward funding was incorrectly budgeted in the Office of the Secretary in the Administration agency of DOTD. This BA-7 will allow these funds to be budgeted in the proper agency and will allow DOTD (Public Works and Intermodal-Water Resources) to fund a professional service contract for hurricane flood protection.

This three year retainer contract totals \$500,000 (contractor is Cali & LaPlace, LLC) and provides geotechnical, structural, hydraulic, and general civil engineering services for hurricane flood protection projects and intermodal transportation projects. The consultant will review reports, designs, plans and specifications of water resources facilities such as levees, flood walls, flood gates, pump stations, canals, etc.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #2.

The purpose of this technical BA-7 is to correct an error which occurred during the carryforward BA-7 process at the August meeting of the Joint Legislative Committee on the Budget. Carryforward funding was incorrectly budgeted in the Office of the Secretary in the Administration agency of DOTD. This BA-7 will budget these funds in the proper agency and will allow DOTD to fund a professional service contract for hurricane flood protection.

This three year retainer contract totals \$500,000 (contractor is Cali & LaPlace, LLC) and provides geotechnical, structural, hydraulic, and general civil engineering services for hurricane flood protection projects and intermodal transportation projects. The consultant will review reports, designs, plans and specifications of water resources facilities such as levees, flood walls, flood gates, pump stations, canals, etc.

II. IMPACT ON FUTURE FISCAL YEARS

Any unexpended funds related to this contract will be carried forward to FY 10.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$233,158</u>	Total	<u>\$233,158</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget funds from the Annie E. Casey Foundation which are to be utilized to implement the Juvenile Detention Alternative Initiatives (JDAI) Program in 5 LA parishes. Of the amount shown above, \$83,158 is the unexpended balance of funds from the FY 08 grant award which is being carried forward to FY 09. In addition, the LCLE was awarded an additional \$150,000 grant from this foundation for FY 09. The combination of the balance of the FY 08 grant and the new award for FY 09 totals \$233,158.

The LCLE will work with the five pilot parishes (Caddo, Calcasieu, East Baton Rouge, Jefferson, and Orleans) to achieve measurable outcomes including reductions in: a) admissions to detention, (b) average daily population of youth in detention, (c) average length of stay, (d) racial disparities and disproportionate minority confinement, and (e) unnecessary delays in case processing. The LCLE will convene meetings with state-level stakeholders to provide statewide support and assistance to the parishes. In addition, the LCLE will provide presentations at various meetings and conferences to increase knowledge of JDAI implementation efforts in Louisiana and to assist in potential expansion to additional parishes.

The grant funds will be expended as follows (this plan has been approved by the Annie E. Casey Foundation):

\$1,839 - State coordinator travel to model sites, meetings, and various training sessions.

\$102,523 - Visits to model sites by 12-16 participants to Chicago, Portland, Albuquerque, and Santa Cruz by members of law enforcement, detention personnel, public defenders, district attorneys, and probation personnel in these five parishes. Includes lodging, meals, and airfare for up to 10 separate visits for 12-16 participants from the aforementioned parishes.

\$8,400 - Airfare and meals for 20 participants (each parish is allowed four participants) to attend a national conference on this topic in Indianapolis, Indiana. The foundation pays hotel expenses directly and is not funded through the grant funds.

\$114,595 - Other required training sessions provided at various sites in Caddo Parish, New Orleans, Jefferson Parish, and Baton Rouge. Includes hotel, and meals for 3 days (up to 30 participants for each session). LCLE notes that up to 10 separate training/quarterly meetings are budgeted in this allocation. Airfare may be paid if training is provided out-of-state.

\$5,801 - Mileage reimbursement for quarterly meetings. Reimbursement to be made as per state travel regulations.

II. IMPACT ON FUTURE FISCAL YEARS

Any unexpended grant funds will be carried forward to future fiscal years.

Federal Funds:	\$1,469,000			
Total	<u>\$1,469,000</u>	Total	<u>\$1,469,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$1,469,000 of federal funds into the Enforcement Division of the Office of the Secretary. Pursuant to a Joint Enforcement Agreement (JEA), the Federal funds were earmarked for cooperative enforcement endeavors between the U.S. Department of Commerce (DOC), National Oceanic Atmospheric Administration, Office of Law Enforcement (NOAA/OLE) and the State of LA Department of Wildlife & Fisheries Law Enforcement Division (LDWF/LE). The Joint Enforcement Agreement is to facilitate the operations, administration and funding of the LDWF/LE to enforce federal laws and regulations under the Magnuson-Stevens Fishery Conservation & Management Act and the Lacey Act. These funds will enable the State of LA to aid the Federal Government in fishery conservation and management activities. The NOAA has the authority under these 2 Acts to utilize the personnel, services, equipment, and facilities of state agencies on a reimbursable basis or otherwise.

The Department of Wildlife & Fisheries will use the funds for overtime hours paid, repairs to equipment, fuel, oil, and acquisitions. The funds will be budgeted as follows: salaries-overtime (\$563,640), related benefits (\$8,173), travel (\$56,603), operating services (\$23,000), supplies (\$393,584), acquisitions (\$419,000) and major repairs (\$5,000). Specifically, the Department will purchase 9 replacement vehicles and 10 outboard motors. It is anticipated that the Enforcement Division will work a total of 15,657 of man-hours of overtime. These figures were calculated as described in the Joint Enforcement Agreement.

No matching requirements are necessary from the State.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Federal Funds:	\$0			
Total	<u>\$400,000</u>	Total	<u>\$400,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority for the Public Oyster Seed Ground Development Account in the amount of \$400,000 (from \$120,000 to \$520,000). Monies in the fund are used to enhance the state's public oyster seed grounds through, among other uses, cultch deposition (oyster reef rehabilitation). The source of revenue to the fund is compensation received by the Department of Wildlife & Fisheries associated with activities (primarily oil and gas) occurring on or over the public oyster areas of the state that cause damage. The balance in the account as of July 1, 2008 was \$756,169 and projected FY 09 revenue is \$500,000, due to the increased compensation collection efforts.

II. IMPACT ON FUTURE FISCAL YEARS

These funds will continue to be budgeted in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 7

AGENCY: Office of Fisheries

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fisheries	\$21,042,933	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$21,042,933			
Total	<u>\$21,042,933</u>	Total	<u>\$21,042,933</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$21,042,933 of Federal funds into the Office of Fisheries within the Department of Wildlife & Fisheries. The U.S. Troop Readiness Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act of 2007 provided funding to the National Oceanic Atmospheric Administration (NOAA) for necessary expenses related to the consequences of hurricanes Katrina and Rita on the shrimp and fishing industries. Pursuant to Section 4201 of the Act, the NOAA is granting funds to the Gulf States Marine Fisheries Commission for subgrant to the Gulf coastal states. LA's allocation of these funds is \$41.273M to be used to provide for hurricane fisheries disaster recovery assistance programs consistent with the authorized uses of funds as specified in Section 115 of the Magnuson-Stevens Fishery Conservation & Management Reauthorization Act of 2006 to establish assistance programs for LA Gulf of Mexico commercial and recreational fishing industries affected by the hurricanes.

The allocation and distribution of these funds was conceptually based on the 2003 LA Shrimp Industry Disaster Assistance Program which was utilized by the Department in order to rehabilitate the shrimp industry. Input was gathered from fishermen and representatives of the fishing industries during a series of 8 public meetings conducted in October 2007. The Department will administer the distribution of personal assistance payments on a pro rata basis to qualified commercial resident fishermen, commercial fishing vessel owners and wholesale/retail seafood dealers utilizing trip ticket report records and to qualified charterboat vessel owners using license records and survey participation information. Trip ticket report records from the twelve-month period September 1, 2004 to August 31, 2005 were utilized.

Of the \$41.273M (LA's allocation), \$1,293,909 will be requested for the Seafood Promotion & Marketing Board with a separate BA-7 at a later JLCB hearing, leaving \$39,979,091 for assistance. In December 2007, a BA-7 was approved for the Office of Fisheries in the amount of \$31,901,501 for FY 08, leaving \$8,077,590 to be appropriated in FY 09. Of this amount, \$1,390,489 was expended in FY 08, leaving \$38,588,602 of the federal funds unexpended. Since the Department received budget authority through the Appropriations Bill (Act 19) in the amount of \$8,077,590 for FY 09, an additional \$21,042,933 is estimated by the Department as needed for the current year and \$9,468,079 for FY 10.

Operating Services - \$1,500 (advertising for outreach to fishery participants)
Professional Services - \$900,000 (contracts for project audit, management & administration)
Other Charges - \$20,134,433 (disaster assistance payments)
Acquisitions - \$7,000 (computers for data acquisition and office-based data management and analysis for assistance program implementation and office computer software upgrades)
No matching requirements are necessary from the State.

II. IMPACT ON FUTURE FISCAL YEARS

Total funding in the amount of \$9,468,079 is anticipated to be expended in FY 10.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$3,224,593</u>	Total	<u>\$3,224,593</u>	<u>0</u>

I. SUMMARY/COMMENTS

Carryforward of funds for the following:

Includes \$807,629 Statutory Dedications (source is Interoperability Fund) funding for equipment to be installed on 3 towers after 6/30/08 related to interoperability. Also related to construction of a platform for communications tower in Theriot (Terrebonne Parish). In addition, funding includes \$1,848,411 for obligations associated with the Oil Spill Coordinator's Office and to be funded with the LA Oil Spill Contingency Fund.

In addition, a total of \$283,566 (IAT-TANF from DSS) is carried forward for private pre-k school payments. Further, a total of \$263,887 (IAT from DOA) is related to funding awarded to the Children's Cabinet through the LA Technology Fund. The grant was originally awarded in August 2003, but was granted an extension through 12/31/08. The Children's Cabinet, in partnership with the LA Supreme Court, the LA Commission on Law Enforcement, the LA Association of Juvenile and Family Court Judges, and the Office of Youth Development will complete the Integrated Juvenile Justice Information System (IJJIS). This project will develop a general case management component. The system will be based on national standards and will enable data sharing among statewide and local juvenile justice agencies.

Finally, a total of \$21,100 SGF is associated with a contract for web design services, support and maintenance (\$10,300) and a contract which provides broadcast monitoring and clipping software and provide assistance and services (\$10,800).

II. IMPACT ON FUTURE FISCAL YEARS

Total	\$0	Total	\$0	0

I. SUMMARY/COMMENTS

The proposed BA-7 moves \$5.4M SGF from the Management & Finance Program into the Agricultural & Environmental Services Program within the Department of Agriculture & Forestry. This is a technical BA-7 that places the SGF into the correct agency program for FY 09 expenditure.

These monies were originally appropriated within Act 511 (HB 1287 - Supplemental Appropriations Bill) of the 2008 Regular Legislative Session and then proposed to be carried forward into FY 09 for the projected FY 09 shortfall within the Boll Weevil Eradication Program (CF BA-7 #12). The Department requested \$5,394,313 in SGF to fully fund the Boll Weevil Program in FY 09 due to the projected shortfall. However, these monies were appropriated within FY 08 and are being proposed to be carried forward into FY 09.

Carryforward BA-7 #12, if approved by the Joint Legislative Committee on the Budget (JLCB), will carryforward a FY 08 SGF appropriation of \$5.4M within the Management & Finance Program into FY 09 for expenditure. This BA-7 merely transfers those monies from the Management & Finance Program to the Agricultural & Environmental Services Program.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. This is a technical BA-7 that places the SGF into the correct Departmental program for FY 09 expenditure.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

To the extent that CF BA-7 #12 is approved by the Joint Legislative Committee on the Budget (JLCB), the Legislative Fiscal Office recommends approval of this BA-7.

			<p>On 3/25/08, the agency ordered an EMAR (Electronic Medication Administration Record) system for the pharmacy for \$23,136. The agency has received partial components of this order and the vendor has not completed the process of downloading the software to the agencies computers. The process must be complete before the agency can implement the new system. The vendor estimates the new system should be in operation by the end of August 2008.</p> <p>On 3/6/08, Forcht-Wade ordered one 15-passenger van for \$21,052. Due to a strike at the plant that supplies axles for the vans, which shut down the production lines for the vans, the van will not be built until the end of July or beginning of August. Delivery should be made by the end of August 2008.</p> <p>On 3/11/08, Steve Hoyle ordered one 15-passenger van for \$21,052. Due to a strike at the plant that supplies axles for the vans, which shut down the production lines for the vans, the van will not be built until the end of July or beginning of August. Delivery should be made by the end of August 2008.</p>							
CF 31	08A - 416 Corrections B.B. "Sixty" Rayburn	02/01/2008	Carryforward BA-7 for acquisitions. On 2/1/08, two 15-passenger vans (\$14,917) and one 7-passenger van for the handicapped (\$13,285) was purchased. The 15-passenger vans are delayed due to a parts shortage from the factory supplier; therefore, the delivery will not occur until after 6/30/08. The agency was sent a memo from the vendor about the 7-passenger vans stating there was an issue with the chassis and the delivery date would not occur until after 6/30/08.	\$28,202	\$0	\$0	\$0	\$0	\$0	\$28,202
CF 32	08B - 418 Public Safety Office of Management & Finance	N/A	The Department of Public Safety, Office of Management & Finance is requesting to carryforward Statutory Dedicated funding from the State Emergency Response Fund (SERF) to provide assistance for parish and municipal governments to obtain construction code resources and training. According to the Department, disbursement of these funds is specifically dependent upon an intergovernmental agreement. As of 6/30/08, there is approximately \$1,038,362 of the \$3.5M appropriated in FY 08 available that has not been disbursed to the following local governmental entities: town of St. Joseph, city of Westlake, town of Jean Lafitte, city of Denham Springs, Lafayette City-Parish Consolidated Government, city of Carencro, town of Mansfield, city of Mandeville, Bienville Parish, Sabine Parish, St. Bernard Parish, city of Baker, and city of West Monroe.	\$0	\$0	\$0	\$1,038,362	\$0	\$0	\$1,038,362

CF 32	08B - 418 Public Safety Office of Management & Finance	06/23/2008	The Department of Public Safety, Office of Management & Finance is requesting to carryforward SGR derived from OMV Transfer-in for electrical equipment purchases not received before the end of FY 08. The bid for the equipment was awarded in June 2008 and not delivered before the end of the fiscal year. The Department anticipates installing the new data equipment within the first quarter of FY 09.	\$0	\$0	\$17,895	\$0	\$0	\$0	\$17,895
CF 32	08B - 418 Public Safety Office of Management & Finance	5/30/2008	The Department of Public Safety, Office of Management & Finance is requesting to carryforward SGR derived from OMV Transfer-in to S & S Sprinkler for fire suppression expenditures. The Public Safety Data Processing Center has tanks filled with Halon chemicals that is utilized to extinguish electrical fires. The Department experienced a Halon dump, meaning those chemicals were inadvertently relieved from the tanks, and now those tanks must be refilled. The Halon tanks were picked up on 6/23/08 and must be refilled and re-certified before they can be reinstalled.	\$0	\$0	\$18,103	\$0	\$0	\$0	\$18,103
CF 32	08B - 418 Public Safety Office of Management & Finance	6/10/2008	The Department of Public Safety, Office of Management & Finance is requesting to carryforward Statutory Dedicated funding from the Riverboat Gaming Enforcement Fund for 3 Lexmark printers purchased on 6/10/08. According to the Department, the printers were delayed in shipping due to the Lexmark plant closing and the order did not initially ship as planned. The Department received the ordered printers in July 2008.	\$0	\$0	\$0	\$4,832	\$0	\$0	\$4,832
CF 33	08B - 419 Public Safety Office of State Police	N/A	State Police is requesting to carryforward funding within the Traffic Enforcement Program for equipment associated with the 700 MHz recording system. The system was originally ordered in December 2007 and all of the equipment including the 12 workstations have been received by the Department. Due to a DVD drive failure, 3 workstations for Troops E, F and G have not been completely installed. This system will be completely installed at the end of July 2008, which is after the end of FY 08. The original source of the IAT is Federal funding from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). During the FY 09 budget development process, this IAT funding budgeted in FY 08 was non-recurred. No corresponding carryforward BA-7 is needed within GOHSEP because that agency has the necessary expenditure authority to send State Police its funding for this equipment in FY 09.	\$0	\$360,000	\$0	\$0	\$0	\$0	\$360,000

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal budget authority by \$464,444 in the Community Mental Health Program. The source of funding is a grant from the Substance Abuse Mental Health Services Administration (SAMHSA) for the FEMA Regular Services Plan phase of the Federal Crisis Counseling Program for those individuals affected by the hurricanes in the 33 undeclared parishes of the state. This grant does not require a state match.

DHH has been granted a second no-cost time extension of the initial federal grant that was approved by the Joint Legislative Committee on the Budget on 10/20/06, which was originally scheduled to end on 6/30/07. This extension has been granted from 3/1/08 to 12/31/08. The funding will be used to provide continuing crisis counseling and outreach services to address the challenges and stresses facing those survivors who remain in temporary living conditions. Priority populations will include people with mental illness, addictive disorders, developmental disabilities, medically fragile including those with HIV/AIDS, pregnant women, the elderly or those with co-occurring disorders. The parishes that will be served are: Allen, Avoyelles, Beauregard, Bienville, Bossier, Caddo, Caldwell, Catahoula, Claiborne, Concordia, DeSoto, East Carroll, Evangeline, Franklin, Grant, Jackson, LaSalle, Lincoln, Madison, Morehouse, Natchitoches, Ouachita, Rapides, Red River, Richland, Sabine, St. Landry, Tensas, Union, Vernon, Webster, West Carroll, and Winn.

The total funding will be allocated to Other Charges for contracted services provided by Volunteers of America of Greater Baton Rouge.

II. IMPACT ON FUTURE FISCAL YEARS

The total amount of the grant award is \$914,055. The Office of Planning and Budget has indicated that upon approval of this BA-7, the remaining \$449,611 will be amended into HB 1.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$912,267			
Total	<u>\$912,267</u>	Total	<u>\$912,267</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal budget authority by \$912,267 in the Community Mental Health Program. The source of funding is a grant from the Substance Abuse Mental Health Services Administration (SAMHSA) for the FEMA Regular Services Plan phase of the Federal Crisis Counseling Program for those individuals affected by Hurricane Rita in the State of LA. This grant does not require a state match.

DHH has been granted a second no-cost time extension of the initial federal grant that was approved by the Joint Legislative Committee on the Budget on 10/20/06, which was originally scheduled to end on 6/30/07. This extension has been granted from 3/1/08 to 12/31/08. The funding will be used to provide continuing crisis counseling and outreach services to address the challenges and stresses facing those survivors who remain in temporary living conditions. Priority populations will include people with mental illness, addictive disorders, developmental disabilities, medically fragile including those with HIV/AIDS, pregnant women, the elderly or those with co-occurring disorders. The parishes that will be served are: Acadia, Allen, Ascension, Beauregard, Calcasieu, Cameron, Evangeline, Iberia, Jefferson, Jefferson Davis, Lafayette, Lafourche, Livingston, Plaquemine, Sabine, St. Landry, St. Mary, St. Martin, St. Tammany, Terrebone, Vermillion, Vernon, and West Baton Rouge.

The funding will be allocated to: Other Compensation (\$50,717) and Related Benefits (\$13,693) for three existing temporary job appointments; Other Charges (\$847,857) for contracted services provided by Volunteers of America of Greater Baton Rouge

II. IMPACT ON FUTURE FISCAL YEARS

The total amount of the grant award is \$2,176,176. The Office of Planning and Budget has indicated that upon approval of this BA-7, the remaining \$1,263,909 will be amended into HB 1.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$157,843</u>	Total	<u>\$157,843</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide additional budget authority to receive a federal grant from the United States Coast Guard, State Recreational Boating Safety Programs. In general, these funds are used for promoting boating safety and to decrease the number of accidents, injuries and fatalities on U.S. waters.

The Department has budget authority to collect \$1,884,055 of these federal funds for FY 08. Out of this amount \$977,759 has been received this fiscal year, leaving budget authority of \$906,296 available. An additional amount of \$1,064,139 is due to the Department of Wildlife & Fisheries for the months of October 2007 - March 2008. Budget authority of \$157,843 (\$1,064,139-\$906,296) is needed to enable the Department to expend these funds.

The following is a breakdown of the \$157,843 in expenditures:

Salaries - \$20,000 (overtime for increase field patrol and maritime search and rescue related activities)
Travel - \$5,000 (in-state travel - field travel for boating enforcement and education)
Supplies - \$132,843 (fuel for boats and patrol vehicles, replacement of uniforms)

The grant for Enforcement Program in FY 08 is \$2,128,277 and requires a 50/50 state match. The Enforcement Program has expended \$3.9M (Conservation Funds) to date on boating safety; therefore, providing the necessary matching requirements.

Federal Funds:	\$608,567			
Total	<u>\$608,567</u>	Total	<u>\$608,567</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide federal budget authority of \$608,567 for the Recovery School District to be used for current year operations.

The following is the breakout of federal funds being requested:

Jr. Reserve Officers' Training Corps (ROTC)	\$76,067
National School Lunch Program	\$263,003
Charter School Grant	<u>\$269,497</u>
Total	<u>\$608,567</u>

The expenditures are budgeted as follows:

Supplies	\$339,070
Other Charges (Charter School Grant)	<u>\$269,497</u>
Total Expenditures	<u>\$608,567</u>

The Recovery School District currently has \$276,005 budgeted for the ROTC program. The Department of Education projects to collect an additional \$76,067 for the program by the end of the fiscal year. The program is a college-based, officer commissioning program. The monies will be used to purchase items such as text materials, uniforms, and awards for cadets. The National School Lunch Program funding provides low-cost or free lunches to eligible school children. The monies will be used to purchase supplies to prepare meals.

The Charter School Grant funding provides assistance for the planning, and implementation of charter schools. The charter school funding will be provided to five schools in the Recovery School District.

Total	<u>\$1,700,000</u>	Total	<u>\$1,700,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$1.7M SGF for the Recovery School District. The Walton Family Foundation approved a one-time grant for the Recovery School District in the amount of \$1.6 M to support the planning phase of the High School Redesign project. The National Basketball Association provided \$100,000 to create Family Resource Centers in the Recovery School District. The funding will be budgeted as follows: \$664,250 for operating services, \$764,250 for supplies, and \$271,500 for professional services.

The Walton Foundation grant will provide resources to enable the Recovery School District to create High School Redesign Implementation Plans. The foundation allows \$271,500 to be used to support central office expenses, including 3 consultants. The remaining \$1,328,500 is to be used to support school-level planning in up to nine schools. The Recovery School District may use the funding to hire consultants, for travel, to compensate principals, and fees for industry experts. High School Redesign Plans must include the following:

- 1) a description of the redesigned school;
- 2) a market analysis including a 5 year enrollment projection, and student recruitment plans;
- 3) plans for achieving academic excellence at the school;
- 4) staffing plans, recruitment plans, professional development plans, and compensation plans for faculty and leadership;
- 5) projected facilities needs;
- 6) description of proposed board, board development, and responsibilities of the board;
- 7) projected annual operating budgets with projected revenues and expenses;
- 8) and a timeline for implementation.

The plans will be submitted to the Walton Foundation for review. If the plan is approved, the school will be eligible for additional funding in future fiscal years to be used to implement the plan.

The \$100,000 from the National Basketball Association is to be used to create Family Resource Centers. Family Resource Centers are created to serve as an outreach for parents. The Recovery School District plans to open Family Resource Centers in all 21 K-8 schools. The centers will be operated by part-time staff. One percent of federal Title I funds are required to be spent on parental involvement. The Recovery School District will use a portion of that 1% to pay the part-time staff operating the centers in the future.

II. IMPACT ON FUTURE FISCAL YEARS

The Recovery School District may be eligible for future grant funds from the Walton Family Foundation in the amount of \$4.7 M that will be used to implement approved High School Redesign plans. In addition, the Recovery School District will use a portion of the federal Title I allocation in future fiscal years to pay part-time staff to operate the Family Resource Centers.

Statutory Dedications:	\$0			
Federal Funds:	(\$1,600,000)			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The BA-7 is a Means of Financing Substitution to increase IAT budget authority by \$1,100,000 and SGR by \$500,000 and to decrease Title IV-E Federal Funds by \$1.6 M in the Child Welfare Services Program. The source of IAT is Child Care Development Block Grant funds from the Office of Family Support. The SGR is from parental contributions and increased child support payments for children in OCS custody. Title IV-E Federal Funds are being reduced in accordance with the Federal Deficit Reduction Act of 2005 which limited the agency's ability to draw down these funds for administrative and maintenance costs.

This funding will continue to be used to provide foster caregivers with the supportive services of daycare for children too young to be left at home. Daycare services are also provided to prevent children receiving protective services from being placed in foster care. DSS is providing daycare services for 3,897 children as of 4/30/08.

II. IMPACT ON FUTURE FISCAL YEARS

HB 1 includes IAT (\$450,000) and SGR (\$1,273,612) for daycare services in FY 09. The agency anticipates receiving the same source of funding in future fiscal years.

Federal Funds:	\$0	Contract Services	\$90,000	0
		Field Services	\$0	0
Total	<u>\$90,000</u>	Total	<u>\$90,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR by \$90,000 within the Contract Services Program of the Office of Youth Development (OYD). According to the latest collection projections for FY 08, OYD's fees and self-generated revenues are projected to be \$90,000 higher than current existing operating budget authority. The source of the SGR is increased collections in state tax refund garnishments. The monies will be budgeted as other charges. The funding will allow for expenditures to be made in FY 08 in the Contract Services Program for current private providers for youth residential treatment services.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 1

AGENCY: Office of State Fire Marshal

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fire Prevention Program	\$235,996	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$235,996			
Federal Funds:	\$0			
Total	<u>\$235,996</u>	Total	<u>\$235,996</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the statutory dedicated budget authority from the 2% Fire Insurance Fund in the amount of \$235,996 within the Office of State Fire Marshal to the pay the increased insurance premiums of 14,000 volunteer firefighters as specifically provided for within R.S. 40:1593. This statute provides for a portion of the fire insurance premium tax, R.S. 22:1583, to be utilized to fund the payment of insurance premiums for a group insurance policy to provide medical benefits, death benefits and burial benefits for volunteer firefighters. The vendor for this insurance policy is the Hartford Group, which had not requested an increase since 5/1/05. The State Fire Marshal rebid the contract for one year, 5/1/08 to 4/30/09, and the bid came back in the amount of \$555,996, an increase of \$235,996. There is currently \$320,000 appropriated in FY 08 from the 2% Fire Insurance Fund within the State Fire Marshal's Office.

On behalf of the state, the commissioner of insurance collects a 2% premium tax from fire insurance companies premium, which is deposited into the 2% Fire Insurance Fund, R.S. 22:1583. Statutory law, R.S. 22:1585, provides for a prioritized order of appropriation of these funds each fiscal year by the legislature. The order as specifically provided for by law is as follows: 1.) State Fire Marshal Office (amount necessary to satisfy volunteer firefighters insurance premium needs); 2.) \$70,000 to the Pine Country Education Center (LSU Fire and Emergency Training Institute); 3.) \$70,000 to the Delgado Community College (LSU Fire and Emergency Training Institute); 4.) Remaining amount is allocated to each parish based upon population, except Orleans Parish; and 5.) Amount allocated to the Orleans Parish Firefighter's Pension and Relief Fund.

Although the 2% Fire Insurance Fund has been appropriated within Act 18 for FY 08, because the State Fire Marshal is first within the prioritized list as presented within R.S. 22:1583, the State Fire Marshal can be appropriated the amount necessary to pay the volunteer insurance premiums as provided for R.S. 40:1593. However, approval of this BA-7 will reduce the local allocation in the actual amount of \$235,996. See illustration below.

Current Budget - FY 08:

08-422	State Fire Marshal	\$320,000
19-600	LSU Board	\$210,000
20-932	Local allocations	<u>\$16,570,000</u>
TOTAL		\$17,100,000

If BA-7 is Approved - FY 08:

08-422	State Fire Marshal	\$555,996
19-600	LSU Board	\$210,000
20-932	Local allocations	<u>\$16,334,004</u>
TOTAL		\$17,100,000

NOTE: Based upon the latest adopted revenue forecast, the 2% Fire Insurance Fund will collect \$17.2 M in FY 08 and \$18.8 M in FY 09. Assuming all current FY 08 appropriations are completely expended, the projected ending FY 08 fund balance will be \$100,000.

II. IMPACT ON FUTURE FISCAL YEARS

An adjustment to the FY 09 budget in the amount of \$235,996 during the 2008 Regular Legislative Session will be necessary as the State Fire Marshal is anticipating the costs of the volunteer firefighters insurance premiums to remain at \$555,996 level in FY 09. HB 1 - Original has currently appropriated \$320,000 within the State Fire Marshal from the 2% Fire Insurance Fund,

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

Because the current bid is for only 1 year, 5/1/08 to 4/30/09, the State Fire Marshal could incur additional costs associated with the insurance premium payments depending upon the new bids for this service in FY 09. Thus, another budget adjustment may be needed in FY 09 depending on the premium cost of the policy.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Ancillary

AGENDA NO.: 2

AGENCY: State Police Training Academy

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$369,256			
Self-Generated Revenue:	(\$369,256)			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	\$0	Total	\$0	0

I. SUMMARY/COMMENTS

This BA-7 is a means of financing substitution that decreases SGR in the amount of \$369,256 and increases IAT by the same amount within the Administrative Program of the Donald J. Thibodeaux Training Academy in order for the agency to pay operational costs such as utilities for the remainder of FY 08. According to the agency, collection projections for the remainder of FY 08 for fees will be \$956,056 less than current fees budget authority, \$2,561,300, while IAT is projected to be \$369,256 higher than current existing operating budget (EOB), \$1,843,266.

<u>Revenue</u>	<u>FY 08 Budgeted</u>	<u>FY 08 Year-to-Date</u>	<u>Projected Collections</u>	<u>Total</u>	<u>Total Collections Over/Under</u>
IAT	\$1,843,266	\$2,157,942	\$54,580	\$2,212,522	\$369,256
Fees	\$2,561,300	\$1,494,928	\$110,316	\$1,605,244	(\$956,056)

IAT

The Training Academy's IAT is collected from State Police. In FY 08, the Training Academy is projected to collect \$2.2 M in IAT revenue from State Police, or \$369,256 more than budgeted in current year. The means of financing within State Police being sent to the Training Academy for operating expenditures is the Riverboat Gaming Enforcement Fund. During the current year, the State Police-Operational Support Program has experienced unforeseen expenditure savings in the IAT expenditure category, which will allow State Police to send the Training Academy \$369,256 in order to cover projected utilities for the remainder of FY 08. Those specific costs include: gas - \$29,951, electricity - \$249,398, water - \$89,907.

SGR

The Training Academy collects fees from both locals and private firms. Per R.S. 40:1375, the Training Academy may promulgate rules and regulations to charge reasonable fees for participation in its training school and courses for the use of its training facilities.

*Locals: City and Sheriff departments utilize the Training Academy facilities for P.O.S.T. certifying its officers and pay the Training Academy fees for services.

*Private Sector: Businesses utilize the Training Academy facilities for retreats. The Joint Emergency Services Training Center (JESTC) opened its Business Center in Fall 2007, which will allow the Training Academy to attract additional private sector clients to utilize the facility.

*Antiterrorism Assistance Program (ATAP): The objective of ATAP is to offer the best courses, instructors and logistical support to train law enforcement officers to combat terrorism around the world. The U.S. State Department grants federal funds to the Training Academy for ATAP and the federal dollars are spent on supplies, acquisitions and personal services. The Training Academy also collects SGR from ATAP via indirect costs. Indirect costs include ATAP participants who utilize dorms and classrooms of the Training Academy. The Training Academy charges fees to ATAP for the classroom and dorm usage and collects these monies which are classified as SGR. ATAP no longer exists and the Training Academy is no longer collecting fees from the program. The agency is projecting a shortfall in the amount of \$956,056 in fees in FY 08 because the ATAP no longer

April 18, 2008

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

exists and the Business Center at the Joint Emergency Services Training Center (JESTC) opened later in the fiscal year than initially anticipated.

Even though current FY 08 projections indicate a shortfall in fee collections of \$956,056, the Department has indicated that upon approval of this BA-7, the Training Academy will be able to pay its remaining FY 08 obligations with actual collections of \$2.2 M in IAT and \$1.6 M in SGR.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. Because the JESTC Business Center will be fully operational for the entire FY 09, the agency is currently projecting an increase in fee collections from FY 08 to FY 09 of approximately \$2.0 M.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 4

AGENCY: Office of Agriculture & Forestry

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$0	0
Interagency Transfers:	\$0	Marketing	\$699,436	0
Self-Generated Revenue:	\$0	Agricultural and Environmental Services	\$0	0
Statutory Dedications:	\$0	Animal Health Services Program	\$0	0
		Agro-Consumer Services Program	\$0	0
Federal Funds:	\$699,436	Forestry	\$0	0
Total	<u>\$699,436</u>	Total	<u>\$699,436</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget federal pass-through funding in the amount of \$699,436 within the Marketing Program for the Catfish Grant Program Phase I, \$594,486, and the Specialty Crop Block Grant Program, \$104,950. The federal granting agency is the U.S. Department of Agriculture (USDA). This funding will be budgeted within the other charges expenditure category.

Catfish Grant Program:

According to the Department, there are approximately 25 catfish vendors who will receive funding from this entitlement grant award, which is associated with the catfish feed losses caused by the 2005 hurricanes in addition to drought, excess rain and flooding. The amount of assistance is calculated based upon the following formula: 1.) Number of tons of catfish feed purchased in 2005 by the producer, approximately 15,242 tons in aggregate, times, 2.) \$39, the 2005 average 30 day catfish feed supply rate per ton. Some of the vendors receiving these monies include: Old Whiskers Catfish, Eame Company, D&K Ensiz Fish Farm, Limco Inc., LA Aquaculture Inv., Harbor Fish Farm, Franklin Catfish Growers, 4-T Catfish Farms, Kroemeke Crowville Catfish, Tensas Fish Farm, 4 M Farm, G&J Catfish, Nightingale Catfish Farm, Priest Catfish Firm, Sunrise Catfish Farm, Hope Estate, Stephens Fish Farm.

Specialty Crop Block Grant Program:

The purpose of this grant program is to increase the competitiveness of LA specialty crops in the areas of market research, trade promotions, point of sale promotions and advertising. The proposed estimated budget for the grant's \$104,950 is as follows: \$27,500 - market research, \$16,000 - trade promotions, \$20,900 - point of sale promotions, \$30,055 - advertising, \$10,495 - Department administrative costs. The Department is actively working with farmers markets in the development of advertising and promotions of LA specialty crops. According to the Department, the definition of specialty crops includes: nursery stock & foliage, Christmas trees, strawberries, cabbage, tomatoes, sweet peppers, hot peppers, okra, southern peas, watermelons, pecans, citrus, sweet potatoes, mushrooms and wine. Based upon the amount of monies being granted, the Department is scheduled to work with: nursery stock, sweet potatoes and strawberries.

NOTE: In past fiscal years, similar grant programs were never budgeted within the Department's budget. To expedite funding to the farmers, the Department employed the practice of flowing these federal grant monies through the LA Agricultural Finance Authority (LAFA). In an effort to align the true financial responsibilities of each entity, LAFA and the Department, the Department is transferring these grant functions to the Department via this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. This is one-time federal passthrough funding. The Department is anticipating an additional award of approximately \$100,000 for Phase 2 of the Catfish Grant Program and an additional \$104,950 in the Specialty Crop Grant Program. Once the Department is notified by the USDA of grant award, a BA -7 or an amendment to the FY 08 supplemental appropriations bill will be requested.

DEPARTMENT: Agriculture & Forestry

AGENDA NO.: 6

AGENCY: Office of Agriculture & Forestry

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management & Finance	\$0	0
Interagency Transfers:	\$0	Marketing	\$0	0
Self-Generated Revenue:	\$0	Agricultural and Environmental Services	\$0	0
Statutory Dedications:	\$0	Animal Health Services Program	\$0	0
		Agro-Consumer Services Program	\$0	0
Federal Funds:	\$3,050,500	Forestry	\$3,050,500	0
Total	<u>\$3,050,500</u>	Total	<u>\$3,050,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$3,050,500 in federal budget authority for the remaining federal funding for the hurricane supplemental grant awards. The overall program awarded to the Department from the U.S. Department of Agriculture (USDA) was \$8,618,452 in 2006. To date, the Department has expended approximately \$5.4 M in FY 07 and projected FY 08. This BA-7 represents the remaining funding of the grant, excluding \$200,000, which will be budgeted in FY 09 for the first 3 months of the fiscal year.

	<u>Total Grant Award</u>	<u>BA-7 Amount</u>
Urban & Community Forestry	\$1,385,000	\$764,225
State Fire Assistance	\$5,289,000	\$1,260,000
Forest Health	\$297,500	\$125,000
Forest Stewardship Program	\$1,129,000	\$383,323
Volunteer Fire Assistance	<u>\$517,952</u>	<u>\$517,952</u>
TOTAL	\$8,618,452	\$3,050,500

Urban & Community Forestry - The 2 main objectives for this allocation are 1.) to reduce immediate risks that survived the storm but need additional remedial care to keep or make them as safe as possible/or remove trees that will create a threat in the near future, 2.) to mitigate future negative impacts of urban forest loss through proper replanting and education about aspects of forest populations. The \$1.4 M is allocated as follows: \$500,000 - risk mitigation, \$746,500 - forest restoration, \$138,500 - educational program.

State Fire Assistance - The objective of this grant is to increase the agencies capacity for wildfire prevention, detection and suppression.

Forest Health Protection - Funding for this grant program will be utilized to address several forest health issues including the southern pine bark beetle.

Forest Stewardship - Funding for this grant will be utilized to increase the technical assistance provided landowners to help them recover from the impacts of the hurricanes.

Volunteer Fire Assistance - Funds are to be allocated to many communities in the hurricane impacted areas to improve fire department capabilities. Those specific departments receiving an allocation from the \$517,952 include: Acadia/Evangeline Fire District, Allen Parish Fire District #4, Allen Parish Fire District #6, Broussard Volunteer Fire Department, DesAllemands Volunteer Fire Department, Egan Volunteer Fire Department, Galvez-Lake Volunteer Fire Department, Gonzales Fire Department, Grosse Tete Volunteer Fire Department, Hahnville Volunteer Fire Department, Kentwood Volunteer Fire Department, LaFourche Crossing 308 Volunteer Fire Department, Lobdell Volunteer Fire Department, Oakdale Fire Department, Plaquemine Fire Department, St. Tammany Parish Fire Dist. #9, St. Tammany Parish Fire Dist #11, and White Castle Fire Department.

April 18, 2008

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

In FY 06, the Joint Legislative Committee on the Budget (JLCB) appropriated \$5,367,952 federal funding and 31 T.O. positions for the first expenditures associated with the \$8.6 M federal grant. Out of the total positions, 30 of the 31 T.O. positions are firefighter positions associated with the State Fire Assistance portion of the grant. These monies were originally budgeted within the other charges expenditures. Upon approval of this BA-7, the Department will submit an expenditure budget adjustment (EB Adjustment) to the Division of Administration (DOA) - Office of Planning and Budget (OPB) realigning these budgeted expenditures from other charges into the appropriate expenditure categories such as salaries and related benefits.

II. IMPACT ON FUTURE FISCAL YEARS

Included within the FY 09 Executive Budget Recommendation is \$200,000 of federal funding, which represents the remainder of this federal grant. The \$200,000 is for salaries of the 31 T.O. positions for the months of July, August and September. The federal grant period for this particular grant ends in September 2008. However, the Department will maintain the 31 T.O. positions within the Department, but these positions will be funded with another means of financing for the remainder of FY 09, which will most likely be SGF.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Executive

AGENDA NO.: 7

AGENCY: LA Recovery Authority

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA Recovery Authority	\$11,030,145	3
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$11,030,145			
Total	<u>\$11,030,145</u>	Total	<u>\$11,030,145</u>	<u>3</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget federal grant funds for the Alternative Housing Pilot Program (AHPP). The grant award is part of the \$400 M appropriated by Congress in the 2006 Emergency Appropriations Act which provided funding to address ongoing housing challenges created by the 2005 hurricane season in Louisiana, Alabama, Florida, Mississippi, and Texas. The total grant award to LA is \$74,542,370 and will result in the construction of 410 units. The LA Housing Finance Authority (LHFA) was initially selected to administer this program. However, the LA Recovery Authority (LRA) will now serve as the grantee as part of its effort to lead all recovery-related projects.

These units will be constructed at sites which include Jackson Barracks, with optional sites at Lake Charles, Renaissance Village (Baton Rouge), Cameron Parish, HANO (New Orleans), Plaquemines Parish and NORA (New Orleans Redevelopment Authority) sites which include Hoffman, Treme/Lafitte, Lower 9th Ward, Central City, Lakeview, and Ponchartrain Park.

Estimated expenditures for the remainder of FY 08 are as follows:

\$1,071,620 - Architecture Fees for project. Total architectural fees through grant period is \$1.4 M.

\$5,058,550 - Jackson Barracks construction related expenses including construction site costs (\$406,126), infrastructure costs (\$568,861), material costs (\$1,097,088) subcontractor costs (\$1,991,012), performance and payment bond (\$142,215), developer fee (\$284,416), general contractor mobilization and demobilization (\$243,785) and builder profit and overhead (\$325,047). Total cost for Jackson Barracks construction is estimated to be \$12,433,053 through the grant period.

\$106,970 - LRA administration which includes 2 positions transferred with the program from LHFA and a new clerical position. Positions include 2 project managers (\$75,000 and \$65,000 annual salaries) and a clerical position (annual salary of \$34,000). A total of \$50,000 is also included in this request for the cost of a part-time architect (estimated to be paid \$218,400 or \$175/24 hrs/week). This BA-7 includes salary and related benefits for the remainder of FY 08. Total budget for LRA administration is \$1,066,058 through FY 11.

\$68,400 Contractual Services - Includes funding for construction management and outside legal services. Total for contractual services through FY 11 is \$1.14 M.

\$38,005 Social Services Funds - The LA Family Recovery Corp (LFRC) will provide social services to persons who are selected to occupy these homes. These services include education in the areas of financial literacy/credit education, development of a family recovery plan, pre and post homeownership education, and tenants rights and responsibilities. Total budget for social services through FY 11 is \$1,900,235 and is an allowable expense for these grant funds. This cost is based upon a contract between the LHFA and the LFRC which provides services to approximately 450 families over a 20 month period. A new contract will be required between LRA and the LFRC now that the program is now under the LRA, but should not change materially.

\$600,000 - Expenses related to developer submitting the proposal and moving the project forward.

April 18, 2008

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

\$202,000 - Funding budgeted for land acquisition. Total budget for land acquisition through FY 11 is \$525,000.

\$3,884,600 - Insurance on cottages prior to turning them over to homeowners.

Total program expenses (equal to total grant award of \$74,542,370) are as follows (includes expenses for FY 08 as explained above):

Architects - \$1,400,000
Jackson Barracks (77 units) - \$12,433,053
Lake Charles Cottages (80 units) - \$12,917,457
New Orleans (100 units)- \$17,321,550
Baton Rouge Site (83 units) - 13,307,521
Potential Site #5 (35 units) - \$5,651,388
Potential Site #6 (35 units) - \$5,651,388
"Other Program Expenses"- \$5,860,013

NOTE: The construction costs for each site listed above include the following expenses:

-Developer Fee is 7% of the respective site's total cost of construction. Total developer fees for this grant is \$3,109,039.
-Performance Bonds is insurance in an amount equal to the project that provides the owner a sufficient guarantee against any liability related to the construction phase of the project. The total amount expended on performance bonds is \$622,930.
-General Contractor Mobilization and Demobilization fee is 6% of the respective site's total cost of construction. The total amount expended for this purpose is \$3,731,969.
-Builder Profit and Overhead is 8% of the respective site's total cost. The total amount expended for this purpose is \$869,701.
"Other Program Expenses" as shown above in the amount of \$5,860,013 includes the following expenditures throughout the grant period:

LRA Oversight	\$1,066,058
Contractual Services (as described above)	\$1,140,000
Social Services Funds	\$1,900,235
Land Acquisition	\$525,000
Pre-award(detailed above)	\$600,000
*Growth (detailed below)	\$628,720
Total	\$5,860,013

*\$628,720 - Expansion of units. The design of the cottages allow for expansion of the units to accommodate larger families. These funds will be used to expand the standard units as needed.

II. IMPACT ON FUTURE FISCAL YEARS

The remainder of the grant funds will be expended through FY 11. However, the majority of the funds will be expended in FY 09 for the purposes described above.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the amount of \$7,095,545. The LFO has requested that the LRA eliminate the funding for the part-time architect and have these responsibilities absorbed by the construction manager to avoid duplication of effort. This will reduce the BA-7 amount by \$50,000 and will reduce expenses for the life of the grant by \$470,950. These funds will be utilized in construction related expenses in one of the sites to be chosen at a later date. In addition, the LRA is reducing the insurance expense mentioned above as this will be unnecessary with the performance bonds already anticipated in this budget. This will also result in a reduction in the amount of \$3,884,600 and will be shifted to construction related expenses.

The LFO also recommends that the positions requested in this BA-7 be funded in other charges due to the temporary nature of the grant funding and also due to the pending "sunset" of the LRA in 2010. The LRA will continue to merge its functions with the Office of Community Development over the next 2 years.

<u>Means of Financing</u>		<u>Expenditures by Program</u>	<u>T. O.</u>
State General Fund:	\$0	Office of State Museum	\$664,319
Interagency Transfers:	\$664,319		
Self-Generated Revenue:	\$0		
Statutory Dedications:	\$0		
Federal Funds:	\$0		
Total	<u>\$664,319</u>	Total	<u>\$664,319</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority in order to receive interagency transfers in the amount of \$664,319 from the Office of Emergency Preparedness (OEP) to the Office of State Museum within Department of Culture, Recreation & Tourism. This funding is FEMA reimbursements for expenditures incurred as a result of Hurricanes Katrina and Rita.

During Hurricane Katrina the roof of the Old U.S. Mint was damaged; therefore, the contents needed to be moved, stored, and stabilized. The contents of the museum were packed, loaded, and transported to Baton Rouge for either storage or stabilization by freeze drying at LSU. The contents are being stored during the repair of the Old U.S. Mint and will be returned when completed.

The reimbursements cover the following list of expenditures: Professional Services - \$315,358 (expenses related to moving the collection back to the Old U.S. Mint) and Interagency Transfers - \$348,961 (reimbursement of expenses made by the Office of Risk Management). Specifically, the reimbursements of expenses made by the Office of Risk Management include storage of approximately 200,000 artifacts in climate controlled facilities from May 2007 to March 2008.

II. IMPACT ON FUTURE FISCAL YEARS

Federal Funds:	\$360,000	CCCD Marine	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget additional federal grant funds made available to the Crescent City Connection Division of DOTD by the U.S. Department of Transportation (Federal Transit Administration). These funds are provided to urban areas and are awarded based upon population and ridership. The Crescent City Connection Division currently has \$500,000 budgeted in FY 08 from this federal grant but has been awarded an additional \$360,000 to be used for preventive maintenance for the New Orleans ferry system which consists of 3 locations and six ferry boats. This preventive maintenance includes expenses associated with the boats as well as terminals.

Due to the increase in the federal grant funds in FY 08, the CCCD will reduce its SGR appropriation for FY 08 by a like amount and will allow the agency to carry these self-generated revenues forward for expenditure in FY 09.

II. IMPACT ON FUTURE FISCAL YEARS

The Crescent City Connection Division notes that this additional federal funding will also be available in FY 09. These funds are not currently in the FY 09 Executive Budget and will require either an amendment to the appropriations bill during the 2008 Regular Session or through a BA-7 subsequent to the legislative session. Federal grant funding may be reduced for this purpose beyond FY 09 due to the FTA's renewed consideration of population and ridership in the New Orleans area following a period of suspension following Hurricane Katrina.

Statutory Dedications:	\$0			
Federal Funds:	\$11,864,921			
Total	<u>\$11,864,921</u>	Total	<u>\$11,864,921</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal budget authority by \$11,864,921 in the Personal Health Services Program. The source of federal funds is a grant from the U.S. Department of Agriculture (USDA) Food & Nutrition Service for the Women, Infants, & Children (WIC) Program. There is no state matching requirement for this grant.

WIC is a nutrition program which serves pregnant, breast-feeding, and postpartum women, infants, and preschool children. The number of WIC participants served before Hurricane Katrina was approximately 144,000 according to FY 05 data reported by the Office of Public Health. In FY 06, the amount of participants had declined to approximately 126,000. According to OPH, as of November 2007, the number of participants has increased to 137,209 and is anticipated to continue to increase to 140,527 by June 2008. In response to the increase in population served, the USDA has awarded an additional \$11,864,921 so that all WIC participants can be served. This brings the total funding for FY 08 for the WIC Program to \$103,844,920.

The funding will be used for the following expenditures:

\$64,987	Operating Services for Media Campaign which includes printing and advertising
\$264,312	Supplies for the purchase of breast pumps and accessories for the Breastfeeding Peer Counselor Program
\$62,000	Professional Services for special outreach initiatives, Spanish Translation Line Services, Contracts with speakers
\$11,388,433	Other Charges for WIC food, WIC contract sites, Mississippi Delta Initiative (transportation to health unit)
\$6,989	Interagency Transfers for the reprinting of approved WIC Food List brochures
\$78,200	Travel for staff to attend two breastfeeding education conferences and the USDA and National WIC Association Conferences. The breastfeeding conferences will cost \$62,500 for 50 staff to attend and will be held in Jackson, MS and Marrero, LA. The remaining \$15,700 will be used for 14 staff to attend WIC and USDA conferences in Virginia, Texas, Atlanta, and Minnesota.

\$11,864,921 TOTAL EXPENDITURES

II. IMPACT ON FUTURE FISCAL YEARS

Federal funds will have to be annualized at a cost of \$3,839,480 for FY 09 and \$2,965,389 for subsequent fiscal years. According to the Office of Planning & Budget, the Executive Budget will be amended to include the annualized cost for FY 09.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

March 19, 2008

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 5

AGENCY: Office of Mental Health - Area B

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration and Support Program	\$0	0
Interagency Transfers:	\$2,157,842	Client Services Program	\$0	0
Self-Generated Revenue:	(\$2,157,842)	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$2,157,842 and to decrease SGR by \$2,157,842 in the Client Services Program. The source of IAT is Medicaid Disproportionate Share Hospital (DSH) payments.

On 1/1/08, East LA Mental State Hospital (ELMSH) assumed the licensure of 48 Earl K. Long (EKL) psychiatric hospital beds which are located at the Greenwell Springs Campus East Acute Unit. In response to a survey done by the Centers for Medicare and Medicaid Services (CMS) that found a lack of coherence between the 2 facilities, a joint decision was made by LSU/EKL and OMH staff to resolve the issues raised by CMS by operating under one license. Cost and staffing efficiencies will also be realized because the East Acute population will no longer have to operate with separate staffing, dining, recreation, and visitation. Previously, LSU/EKL paid ELMSH \$4,315,683 annually through a contract to operate these beds. This BA-7 would allow the agency to collect Medicaid DSH payments directly for these beds through IAT and will eliminate the SGR budget authority for the contract with EKL. The \$2,157,842 represents 6 months of funding for FY 08.

II. IMPACT ON FUTURE FISCAL YEARS

For FY 08/09, \$4,315,683 Medicaid revenue will have to be annualized as IAT with a corresponding decrease to SGR for the same amount. According to the Office of Planning & Budget, the Executive Budget will be amended to reflect this technical adjustment.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

March 19, 2008

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 6

AGENCY: Subgrantee Assistance

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Disadvantaged or Disabled Student Support	\$0	0
Interagency Transfers:	\$0	Quality Educators	\$0	0
Self-Generated Revenue:	\$0	Classroom Technology	\$0	0
Statutory Dedications:	\$192,164	School Accountability and Improvement	\$0	0
Federal Funds:	\$0	Adult Education	\$0	0
		School and Community Support	\$192,164	0
Total	<u>\$192,164</u>	Total	<u>\$192,164</u>	<u>0</u>

I. SUMMARY/COMMENTS

The proposed BA-7 would appropriate an additional \$192,164 from the St. Landry Parish Excellence Fund to implement a plan approved by the St. Landry Parish School Board on 11/1/07 to enhance vocational/technical education projects across St. Landry Parish. The current appropriation from the fund is \$250,000, and will be increased to \$442,164 with the passage of this BA-7. The St. Landry Parish Excellence Fund receives revenue from Pari-mutuel Live Racing, and according to the Department of Treasury the balance of the fund was \$2,566,158 as of 2/12/08.

The funds requested would be used in the following manner:

Professional & Contract Services	\$12,164
Instructional Supplies	\$130,000
Acquisitions & Major Supplies	<u>\$50,000</u>
Total	\$192,164

Funding designated for instructional supplies will be used to purchase items such as carpentry supplies, electrical supplies, electronics, sewing machines, textbooks, art and music supplies. The acquisitions and major supplies budget would be used to purchase 6 embroidery machines and 3 greenhouse kits. The professional services budget will be used for an electrical contract to provide lighting and heating in the greenhouses. These items will be used to enhance current Career and Technical Education course offerings to high school students across St. Landry Parish. According to the St. Landry Parish School Board, there are approximately 4,000 students that participate in this program.

The \$250,000 that is currently appropriated to the St. Landry Parish School Board is being used to build a junior high Career and Technical Education program at Opelousas Junior High. The school district plans to engage junior high students in Career and Technical Education in the areas of Industrial Technology Shop and Lab, Family & Consumer Sciences, Information Technology, Instrument Band, and Art. These courses would be available to approximately 530 students at Opelousas Junior High.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 1

AGENCY: Office of Mental Health (State Office)

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration and Support	\$0	0
Interagency Transfers:	\$1,922,200	Community Mental Health Program	\$1,922,200	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,922,200</u>	Total	<u>\$1,922,200</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$1,922,200 in the Community Mental Health Program. DHH has projected an unappropriated surplus resulting from over collected revenue within various agencies of the Department. This surplus can be used for expenditures as authorized by Act 18 of 2007 once appropriated by the Joint Legislative Committee on the Budget.

The funding will be used to address the mental health crisis in the Greater New Orleans area. Specific services that will be provided include:

\$1,045,000 - Housing subsidies and Supported Housing Services

Monthly transitional housing subsidies to enable individuals to afford rental units until they can obtain a rental subsidy through the traditional HUD and other rental subsidy programs. The agency projects the housing subsidies to cost \$720,000 (400 subsidies at \$600 per subsidy per month for 3 months). Recent incidents in the New Orleans and Baton Rouge area have raised concerns that homeless individuals suffering from mental illness are not getting the treatment they need. In addition to the housing subsidies, supported housing services will also be provided at a cost of \$325,000. These services will assist people with access to community health services; monitoring of self medication; assistance in employment, education, money management, primary health, legal issues, and assistance in securing a permanent subsidy.

\$583,500 - Assertive Community Treatment and Crisis Respite

Two Assertive Community Treatment (ACT) Teams and one Forensic ACT (FACT) team will be utilized in the Orleans and Jefferson Parish areas to provide mental health services. ACT Teams will deliver services in homes and at various community locations. The ACT team will consist of 1 psychiatrist, 2 mental health professionals, 2 nurses, 2 employment specialists, 2 substance abuse specialists, 1 peer specialist, and 1 program assistant. The total cost for the ACT teams is \$366,750. FACT will be a mobile outreach team which will go to the patient in need of treatment rather than relying on the patient to seek out and utilize community resources. This team will consist of a full-time and a part-time psychiatrist, 4 psychiatric nurses, 1 peer specialist, 4 mental health professionals, and 1 substance abuse counselor. The total cost for the FACT Team is \$216,750. Various mental health services will be provided by these teams. Some of these services include symptom management, substance abuse treatment, medication management, case management, and interpersonal relationships and daily living skills development. All services will be provided through contracts.

\$117,200 - Child and Adolescent Response Team

Child and Adolescent Response Team will consist of a program director, 4 social workers, 4 outreach workers, a data entry clerk, and a secretary. This team will provide 24/7 access to children, youth, and their families who perceive the need for crisis intervention. The program will provide a centralized telephone triage process with guaranteed face-to-face assessment in homes or in the community within two hours of contact when determined necessary. In-home crisis stabilization/resolution will be provided for a maximum of seven days. All services will be provided through contracts.

February 29, 2008

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

\$135,000 - Oversight Team

A team of 3 mental health and system development experts will be deployed to the Greater New Orleans area to assess the current service delivery and implement changes to ensure a coordinated, functioning system of care. This team will also assure the implementation of the programs included in this BA-7.

\$41,500 - Crisis Respite Services

Crisis Respite services are designed to provide stabilization and temporary residence for persons who are experiencing a psychiatric/behavioral emergency to prevent use of a higher level of care such as emergency rooms, mental health emergency room extension, and acute inpatient psychiatric care. Respite services are provided 24/7 in a structured, non-locked environment with 6 beds.

II. IMPACT ON FUTURE FISCAL YEARS

State General Fund will have to be appropriated at an annualized cost of \$6.293 M for FY 09 and subsequent fiscal years. According to the Office of Planning & Budget, this BA-7 is only part of a mental health plan for the New Orleans area for which funding is being recommended in the FY 09 Executive Budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office has requested additional information regarding this BA-7 request and pending receipt of that information will have a recommendation at the time of the committee hearing. Information needed by the Legislative Fiscal Office to make a recommendation includes further details regarding expenditures for each activity as described above along with the ability to spend all of the funding requested in this BA-7 in the current fiscal year.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Ancillary

AGENDA NO.: 3

AGENCY: LA. Property Assistance Agency

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA. Property Assistance Agency	\$1,465,600	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$1,465,600			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,465,600</u>	Total	<u>\$1,465,600</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget funds generated by the LA Property Assistance Agency (LPAA) through auction of state property. The LPAA has sold 113 mobile homes (\$1,730,600) surplus by the LSU-HSC that were used to house dental school employees and students on the LSU-BR campus following Hurricane Katrina, a large boat from Wildlife & Fisheries (sale price anticipated to be approximately \$100,000), and an airplane surplus by State Police which could generate \$150,000 or more.

The LA Administrative Code determines the percentage of sale proceeds which must ultimately be reimbursed to the originating agency. According to LAC Title 34, Part VII, Section 505.E, if the originating purchase was made with federal funds and has a unit acquisition cost of \$1,000, or more, 10% of the total sale will be retained by the LPAA for handling expense and the remainder will be refunded to the agency. In this particular case, LSU originally purchased the mobile homes but was reimbursed for 100% of the cost by FEMA. Therefore, FEMA will be reimbursed a total of \$1,557,540 (through LSU-HSC) and LPAA will retain \$173,060.

In addition, the LPAA estimates a sale price of \$100,000 for a boat (Wildlife & Fisheries) plus \$150,000 for a plane (State Police) to be made later this fiscal year. The LAC provides that "unless contractual or legal disposition requirements specify otherwise, agencies will be reimbursed 80% of the proceeds received by the LA Property Assistance Agency for any item originally purchased by other grants, funds, etc., which require reimbursement. Therefore, based on these projections, the LPAA will be required to reimburse Wildlife & Fisheries \$80,000 and State Police a total of \$120,000.

The total amount to be reimbursed to state agencies is \$1,757,540.

NOTE: The LPAA has sufficient budget authority to receive its handling fee and is not included in this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request in the amount of \$1,757,540. This BA-7 was submitted prior to the sale of these mobile home units and must be amended to reflect the higher than anticipated sale price of these units at auction.

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$85,500			
Total	<u>\$85,500</u>	Total	<u>\$85,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal budget authority by \$85,500 in the Community Mental Health Program. The source of federal funds is a Real Choice Systems Change Person-Centered Planning (PCP) Implementation grant from the Centers for Medicare & Medicaid Services (CMS). This grant will require a total state match of \$10,750. The agency will use in-kind expenditures to satisfy the state match requirement.

The Department of Health & Hospitals will serve as the Lead Agency for the Wellness & Recovery Action Plan (WRAP) which is a statewide initiative where participants identify internal and external resources for facilitating recovery, and then apply these to create an individualized plan for successful living for persons with mental health illness that reside in the community.

The grant will be used to train 30 mental health consumers as WRAP facilitators (with representation of at least 3 individuals from each geographic area of the state). A minimum of 2 persons will be certified as WRAP trainers for future expansion of the model. The facilitators will be used to lead group discussions covering information-gathering aspects of the WRAP model such as identifying triggers, early warning signs, and choice activities that contribute to daily wellness. The consumer, supported by the facilitator, then develops the plan based upon his or her own customized choices. These plans will include the use of self-help, information, and formal supports to achieve life goals and maximize the strengths of the individual, his/her relationships, and support network. Initial implementation will occur in the Drop-In Centers which are located in each region of the state.

The funding will be allocated as follows: \$56,000 for a training contract with the Copeland Center for Wellness & Recovery, \$29,000 for travel costs for WRAP participants to attend the training, and \$500 for office supplies.

II. IMPACT ON FUTURE FISCAL YEARS

This is a 3-year grant that will expire 9/29/10. The total amount of the grant is \$215,000. The agency anticipates receiving the remainder of the grant in FY 09 (\$94,000) and in FY 10 (\$35,500).

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$661,906 in the Office of the Secretary. The source of funding is statutorily dedicated State Emergency Response Funds (SERF) from the Division of Administration.

DHH has indicated that these funds will be utilized for a medical support plan in DHH Administrative Region 1 during the 2008 Mardi Gras in New Orleans (from January 31st to February 6th) to provide acute medical and trauma care support as a result of an anticipated medical surge. Specifically, this funding will be used to support a temporary Urgent Care Clinic (\$533,382) and additional hospital triage and transport staffing (\$128,524) to relieve pressure on emergency departments in 6 area hospitals. DHH will contract with Van Meter & Associates to provide appropriate staffing for the clinic. The estimated clinic and emergency department (ED) decompression costs are itemized as follows:

Clinic costs

\$95,310 - clinic medical staffing
\$18,500 - Medical Director and in-take/registration staffing
\$45,000 - insurance
\$115,000 - diagnostic/treatment support (lab, x-ray, medical supplies, pharmaceuticals, durable medical equipment)
\$92,500 - site preparation, electrical, plumbing, cubicles, dividers, beds
\$22,800 - consumable supplies, housekeeping and waste removal, medical waste removal
\$74,700 - ground and air surge ambulance costs
\$69,572 - requested for unforeseen costs
\$533,382

Emergency Department decompression team costs by hospital

\$17,280 - East Jefferson
\$8,640 - Ochsner (Kenner)
\$11,160 - Ochsner (West Bank)
\$30,480 - Tulane
\$18,360 - University
\$25,840 - West Jefferson
\$16,764 - requested for unforeseen costs
\$128,524

Total	<u>\$10,460,806</u>	Total	<u>\$10,460,806</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget SERF (State Emergency Response Fund) monies for the expenses related to Task Force Gator (New Orleans Police Department Support) for the period J1/15/08 through 6/30/08. The current estimate for expenses related to this detail for FY 08 is \$24,060,807. The Joint Legislative Committee on the Budget (JLCB) has previously approved BA-7's totaling \$13,600,001 for these expenses for the period 7/1/07 through 1/14/08.

The Military Department has expended a total of \$11,821,474 from 7/1/07 through 12/31/07 on this operation. These expenses include state active duty payroll (\$6,924,579), hotel expenses (\$1,952,265), per diem (\$2,241,001), fuel (\$102,046), equipment (\$137,496), auto maintenance (\$50,271) plus other expenses (\$413,816) associated with the deployment. In addition, the Military Department has encumbrances totaling \$58,473.

The estimated expenses for the LA National Guard (LNG) for February 08 through June 08 total \$2,214,702 per month and an additional half-month's expenses (\$1,107,351) for 1/15-31/08 which equates to \$12,180,861 for this period. These totals take into account the increased presence of LNG in this detail from 300 to 360 due to the withdrawal of 60 state troopers at the end of November 2007. As in previous BA-7s for this detail, these estimated figures include state active duty payroll, housing, fuel, travel, miscellaneous supplies/repairs, per diem, and insurance costs.

Total cost for this BA-7:

Actual Expenses July-December	\$11,821,473
LNG encumbrances-	\$58,473
Estimate for Jan. 15-June 30	\$12,180,861
BA-7s previously approved	<u>(\$13,600,001)</u>
TOTAL BA-7	\$10,460,806

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase interagency transfer authority (IAT) in order to allow funding to be transferred to the Military Department from various state agencies.

The Recovery School District (RSD) will transfer a total of \$684,222 for FY 08 expenses related to a contractual agreement in which the Military Department provides its construction management expertise in conjunction with building the RSD's new schools in New Orleans. Personnel provided by the Military Department consist of temporary employees in the LA National Guard or its retirees and not personnel on the agency's current staff.

A total of \$210,000 will be transferred from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) for renovations to a supply warehouse at Camp Minden. The purpose of these renovations is to make this facility climate controlled for the storage of water and MREs (meals ready to eat).

Reimbursement for PWs (project worksheets) for contents and equipment damaged by hurricane-related flooding at Jackson Barracks totals \$1,048,298 which includes amounts already received and estimated to be received by the end of FY 08. These funds will be transferred from GOHSEP to the Military Department.

A total of \$169,422 will be transferred to the Military Department by GOHSEP for expenses related to the purchase of communications equipment for a mobile command center which is located at Camp Beauregard.

Finally, a total of \$503,315 will be transferred from the Office of Risk Management for hurricane-related damages incurred at Jackson Barracks.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$0			
Total	<u>\$11,850,001</u>	Total	<u>\$11,850,001</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT authority in the Military Department to receive SERF (State Emergency Response Fund) monies for the expenses related to Task Force Gator (New Orleans Police Department Support) for the period 8/1/07 through 1/14/08. The Military Department has expended a total of \$9,704,795 from 7/1/07 through 11/30/07 on this operation (a previous BA-7 approved by the JLCB in August 2007 appropriated \$1.75 M for this operation). These expenses include state active duty payroll (\$5,727,036), hotel expenses (\$1,799,702), per diem (\$1,534,585), fuel (\$102,046), equipment (\$106,500), auto maintenance (\$50,112) plus other expenses (\$384,814) associated with the deployment. In addition, the Military Department has encumbrances totaling \$85,433.

The estimated expenses for the LL National Guard (LNG) for December 2007 totals \$2,214,702 and an additional \$1,107,351 for 1/1-14/08. These totals take into account the increased presence of LNG in this detail from 300 to 360 due to the withdrawal of 60 state troopers at the end of November 2007. As in previous BA-7s for this detail, these estimated figures include state active duty payroll, housing, fuel, travel, miscellaneous supplies/repairs, per diem, and insurance costs.

In addition to the aforementioned costs, this request includes a total of \$448,000 for the purchase of 20 new vehicles for the LNG for this detail. The LNG previously purchased vehicles surplus by the LA State Police. Maintenance and repair expenses for these vehicles has proven to be cost prohibitive. Additionally, National Guard HMVEES must be returned for operational readiness and further creates the need for new vehicles in New Orleans. The cost for these vehicles is listed below:

Vehicles (\$17,900/vehicle*20) - \$358,000
Equipment (\$3,500/vehicle*20) - \$70,000
Installation (\$1,000/vehicle*20) - \$20,000
Total Vehicle Expense - \$448,000

Finally, a total of \$39,720 is included for the cost of Special Reaction Team (SRT) training which is similar to SWAT training. This request would pay for national guard members who have already served or will serve in the New Orleans detail. This cost includes food, state active duty pay, travel, and training costs.

Total cost for this BA-7:

Actual Expenses July-November	\$9,704,795
LNG encumbrances	\$85,433
Estimate for December 2007	\$2,214,702
Estimate for 1/1-14/08	\$1,107,351
Vehicle expense	\$448,000
SRT Training	\$39,720
BA-7 previously approved	<u>(\$1,750,000)</u>
TOTAL BA-7	\$11,850,001

NOTE: This BA-7 only considers the expenses related to deployment of the LA National Guard (LNG) through 1/14/08. Any

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$8,000,000</u>	Total	<u>\$8,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget SGR from the LA Stadium & Exposition District (LSED) working capital account. The working capital account was created to fund shortfalls in this agency's operations. The LSED restructured and refinanced \$195 M of its outstanding debt following Hurricane Katrina and resulted in \$25 M in new funds to pay operating expenses of the District (as well as \$40 M for capital improvements and \$34 M in cash flow relief). These funds will allow the LSED to address its budget shortfall and meet its contractual obligations to the New Orleans Saints in FY 08. A total of \$11.3 M has been expended to date from this working capital account leaving a balance of \$13.7 M prior to the passage of this BA-7.

The state is obligated to pay the Saints \$20 M in FY 08 as part of its memorandum of understanding with the organization. This annual payment to the Saints will increase to \$23.5 M in each of the next 3 fiscal years (through FY 11). Annual inducements to the New Orleans Saints began in FY 02 as part of a 10-year agreement. The annual contractual obligation over the 10-year period are as follows:

FY 02- \$12.5 M
FY 03- \$12.5 M
FY 04- \$15 M
FY 05- \$15 M
FY 06- \$15 M*
FY 07- \$20 M
FY 08- \$20 M
FY 09- \$23.5 M
FY 10- \$23.5 M
FY 11- \$23.5 M

*The state's contractual obligation was reduced in FY 06 due to the displacement of the Saints due to Hurricane Katrina. The state's payment for this year totaled \$2.5 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

AGENDA NO.: 4

AGENCY: Metropolitan Human Services District

ANALYST: Brian Crow

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Metropolitan Human Services District	\$264,433	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$264,433			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$264,433</u>	Total	<u>\$264,433</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the expenditure authority of the Metropolitan Human Services District (MHSD) by \$264,433 in SGR. The source of the funding (Supreme Court SGF appropriation for the statewide Drug Court program) is a contract with the Orleans Parish Criminal Court that will allow MHSD to provide and perform substance abuse assessments on individuals referred by the Court and its Drug Court.

Information provided by MHSD indicates that the contract for substance abuse services was awarded to the agency when the Drug Court terminated a prior contract with another provider due to poor service delivery. MHSD further indicates that approximately 250 individuals that are Orleans Parish Criminal Court clients will be served through the program. The major deliverables in the contract require MHSD to do the following: 1) Provide and perform abuse assessments on individuals referred by the Court and its Drug Court to determine if such individuals are suffering from substance abuse and/or dependence and whether the services offered by the Drug Court and MHSD would be an appropriate treatment program. It is agreed and understood the the Addiction Severity Index assessment instrument will be utilized in this process; 2) MHSD will admit all eligible participants if the assessment indicates the individual has a substance abuse and/or dependence problem and if the individual is medically and psychiatrically appropriate for the program. MHSD will maintain a written record of justification for denial of clients to the program; and 3) MHSD will provide the services of a physician licensed by the state of Louisiana to act as Medical Director. The Medical Director will provide oversight to a) staff training on an ongoing basis; b) screening of all individuals for infectious disease who seek admission to the program, and such screening will be through means customarily utilized by the medical community, including initial laboratory testing with follow-up as needed; and c) other program needs (supervision of all treatment related activities, relapse program, etc). The contract between MHSD and the Court provides that the treatment facility for individuals accepted into the program will be located at 2601 Tulane Avenue, New Orleans, 8th floor and that the facility will be solely utilized for individuals referred by the Drug Court.

II. IMPACT ON FUTURE FISCAL YEARS

The initial contract for \$264,433 is for 8.5 months (contract effective 10/15/07) in FY 08. MHSD indicates that full year contracts in FY 09 and subsequent fiscal years will be for \$375,015.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

AGENCY: Metropolitan Human Services District

ANALYST: Brian Crow

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Metropolitan Human Services District	\$1,535,048	0
Interagency Transfers:	\$137,275			
Self-Generated Revenue:	\$952,969			
Statutory Dedications:	\$0			
Federal Funds:	\$444,804			
Total	<u>\$1,535,048</u>	Total	<u>\$1,535,048</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the expenditure authority of the Metropolitan Human Services District (MHSD) by \$1,535,048 (\$137,275 IAT, \$952,969 SGR, & \$444,804 FED). The source of the funding is IAT (federal funding) from OPH, SGR (federal grant) from LA Public Health Institute (LPHI), and federal grant funds from the U.S. Department of Housing & Urban Development (USHUD). No state match will be required to utilize this federal funding.

Information provided by MHSD indicates that the funding will be utilized as follows:

1) \$137,275 IAT from OPH will allow MHSD to continue providing mental health and addictive disorder services through School Based Health Clinics (SBHCs) to students registered at McMain Secondary, McDonough 35, O.P. Walker High, and Chalmette High School (approximately 8-12 students per day at each SBHC). Additionally, MHSD will provide behavioral health services at the New Orleans Charter Science & Math High School;

2) \$952,969 SGR from LPHI Bureau of Primary Care & Rural Health to stabilize baseline primary care services (approximately 6,500 per year) and increase access to primary care (approximately 975 additional visits), including behavioral health care, in the greater New Orleans area.

3) \$444,804 FED from USHUD Shelter Plus Care Grant to provide rental assistance for homeless people with disabilities for approximately 121 units in the new Orleans area. These additional funds increase the total available for rental assistance to \$1,221,876 (\$772,072 currently in the MHSD budget for FY 08), which equates to approximately \$842 per month per unit.

II. IMPACT ON FUTURE FISCAL YEARS

The impact on subsequent fiscal years beginning in FY 09 is as follows:

1) \$137,275 IAT from OPH is anticipated as a recurring expenditure for FY 09 and subsequent fiscal years, depending on need for the continuation of such services;

2) \$952,969 SGR from LPHI is for FY 08 only (the amount is anticipated to decrease to \$233,120 in FY 09 and subsequent fiscal years); the remaining \$719,849 could be available to MHSD for 3 additional years if the agency demonstrates satisfactory performance (determined on a year-to-year basis), and

3) \$444,804 FED is added to the current one-year grant of \$772,072 and is anticipated to be renewed on a year-to-year basis through FY 12.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #6B DHH-Office of the Secretary.

The purpose of this BA-7 is to increase federal budget authority by \$1,394,510 in the Administration Protection & Support Program. The source of federal funds is a Systems Transformations Grant from the Center for Medicare & Medicaid Services that is currently allocated to DHH Office of the Secretary. No state match is required for this grant.

DHH has determined that the funding and program for this grant belong in OAAS and not the Office of the Secretary to ensure that these services are delivered in the most efficient and effective manner possible. The program's focus is to improve the quality of management and information systems for long-term support and services and to develop and identify community housing for the elderly and people with disabilities. Four non-T.O. positions that are funded with this grant will also be transferred from the Office of the Secretary to OAAS.

The funding will be allocated as follows:

\$941,836	Professional Services for contracts for program evaluation, consumer training, and IT system design
\$340,174	Compensation for 4 job appointments (project director, project assistant, data analyst, automation specialist)
\$90,000	Development of a housing/registry locator for ADA accessible housing
\$8,000	Operating Services for telephone lines, computer networking, and postage
\$5,000	Office and computer equipment
\$3,000	Office supplies and meeting supplies
\$6,500	Travel for staff to attend meetings and to assist individuals with disabilities who serve on advisory committees with travel expenses
<u>\$1,394,510</u>	Total Expenditures

II. IMPACT ON FUTURE FISCAL YEARS

The grant period for the Systems Transformation Grant is September 2005 through September 2010. The total amount of the grant is \$3,022,545. The agency has already expended \$689,683 of the grant. The agency anticipates that the remaining \$938,352 of the grant will be used in FY 09 (\$820,828) and FY 10 (\$117,524).

Total	<u>(\$1,394,510)</u>	Total	<u>(\$1,394,510)</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (companion to BA-7 #6A) is to transfer 100% federal funds and 4 temporary positions (job appointments) from the Management & Finance Program to the Office of Aging & Adult Services (OAAS). The source of the federal funding is the Real Choice Systems Transformation Grant from the Centers for Medicare & Medicaid Services (CMS). The Real Choice Systems Transformation Grant is intended to provide for long-term supports to the elderly through accessible and affordable housing.

This transfer of funds is considered a technical adjustment, and is intended to place existing grant funds and program responsibility in the appropriate agency for management purposes. According to the DHH, operation of the grant in the OAAS is anticipated to result in greater efficiencies in services to the elderly as this program is set up for such supports.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. The management of the grant is anticipated to continue to be operated from the OAAS.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 (companion to BA-7 # 7B and 7C) is to increase expenditure authority in the Management & Finance Program to maintain an emergency care network. The source of funds is a federal grant (Bioterrorism Hospital Preparedness Program) from the federal Department of Health & Human Services (DHHS), Health Resources a& Services Administration (HRSA). There is no state match requirement.

The Department of Health & Hospitals has indicated that the HRSA grant award will be used to develop and maintain a bioterrorism preparedness program, and includes an emergency care network for a mass surge of patients with acute illness or trauma requiring hospitalization from a biological, chemical, radiological, or explosive terrorist incident. The Office of the Secretary will coordinate with the LA Hospital Association (LHA), the Office of Public Health (OPH), and the Office of Mental Health (OMH) to implement the goals of the grant.

The grant funds will be allocated as follows:

<u>Requirement</u>	<u>FY 08</u>	<u>FY 09</u>
Professional services administration contract with LHA;	\$625,000	\$475,000
Distribution of funds to EMS and hospital providers;	\$4,864,571	\$0
Transfer of funds to OPH for continuing ed. programs for various healthcare professionals, development of a volunteer recruitment program, EMS training, and purchase of pandemic influenza supplies;	\$980,000	\$0
Transfer of funds to OMH for purchase of communication and computer equipment for interface with DHH command center;	\$110,000	\$0
Funding to cover cost of supplies, travel, regional meetings and training events and printing and mailing as required by the terms of the grant	<u>\$41,667</u>	<u>\$8,333</u>
TOTAL	<u>\$6,621,238</u>	<u>\$483,333</u>

II. IMPACT ON FUTURE FISCAL YEARS

The total grant award is \$7,104,571, of which \$6,621,238 is anticipated to be spent in FY 08 and \$483,333 is anticipated to be spent in FY 09. According to the Department of Health & Hospitals, additional bioterrorism grant funding is anticipated to be available for LA in FY 09, however the amount is currently unknown.

I. SUMMARY/COMMENTS

This BA-7 is companion to BA-7 #7A DHH-Office of the Secretary.

The purpose of this BA-7 is to increase Interagency Transfer budget authority in the Personal Health Services Program. The source of IAT is Health Resources & Services Grant funds through an Interagency Agreement with the Department of Health & Hospitals. No state match is required.

The funding will be used to provide the following services:

- 1) Continuing Education programs for physicians, nurses, paramedics, and health care professionals
- 2) Development of an electronic registration system for recording and managing volunteer information to ensure effective management and inter-jurisdictional movement of volunteer health personnel in emergencies
- 3) Development and implementation of a plan to recruit and retain volunteers as well as the development of protocols for deploying volunteers
- 4) Enhancement of the statewide mutual aid plan to deploy EMS units in jurisdictions/regions they do not normally cover in response to a mass casualty incident due to terrorism
- 5) Purchase, maintenance, upkeep and storage of surge pandemic influenza supplies consisting of personal protective equipment and body bags to support medical and health operations and mitigate disease spread during a declared emergency

The funding will be allocated as follows: Other Compensation for 4 temporary job appointments (\$144,865), Overtime for staff to plan and prepare for regional medical training classes which are conducted 3 to 4 times a year (\$16,000), Travel (\$12,500), Operating Services (349,382), Supplies (\$374,750), Other Charges (\$9,003), and Equipment (\$73,500).

II. IMPACT ON FUTURE FISCAL YEARS

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 #7A DHH-Office of The Secretary.

The purpose of this BA-7 is to increase IAT budget authority by \$110,000 in the Community Mental Health Program. The source of IAT is Health Resources and Services Grant funds through an Interagency Agreement with the Department of Health & Hospitals. No state match is required.

The Office of Mental Health (OMH) will serve as the lead agency with the responsibility for facilitating a coordinated behavior health disaster response in collaboration with the Office for Addictive Disorders (OAD) and the Office of Citizens with Developmental Disabilities (OCDD) per a cooperative agreement with the Office of the Secretary/Office of Emergency Preparedness.

The funding will be used to purchase equipment which include 14 laptops, 4 docking stations, 3 printers, 10 notebook computers, 1 projector and 31 Blackberries for behavioral health teams to interface with DHH Incident Command Center during declared emergencies to ensure a continuity of operations in designated shelters and staging sites and to assist with on-site documentation of briefings, screenings, and psychosocial care of OMH, OAD, and OCDD clients.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. The cooperative agreement for this funding expires on 6/30/08.

Federal Funds:	\$1,320,916			
Total	<u>\$1,320,916</u>	Total	<u>\$1,320,916</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal fund expenditure authority by \$1,320,916 in the Management & Finance Program. The source of funding is the Medicare Rural Hospital Flexibility Health Information Technology grant from the federal Department of Health & Human Services, Health Resources & Services Administration (HRSA). There is no state match requirement.

The funds will allow for implementation of Health Information Technology (HIT)/electronic medical record infrastructure for qualifying Critical Access Hospitals (CAH). Once implemented, these hospitals will have the capacity to communicate and exchange health information with a designated network of various health care providers for efficient management of health care delivery. According to the Department of Health and Hospitals, there are 27 Critical Access Hospitals in LA, of which only 10 have existing IT infrastructure required to move toward a networking capacity. DHH has indicated that Pointe Coupee General Hospital (PCGH) is the sole recipient of the Health Information Technology grant from DHH, Bureau of Primary Care & Rural Health based on their overall plan, existing infrastructure, and network partners. DHH will contract with PCGH for the deliverables as outlined in the grant, and the hospital is anticipated to subcontract for the IT implementation.

The grant funds are anticipated to be allocated as follows:

Requirement	<u>FY 08</u>	<u>FY 09</u>
Sub contract costs (project staffing)	\$120,126	\$57,714
Travel, equipment, supplies (contract staff)	\$10,850	\$3,625
Electronic Medical records/ Practice management software, licensing, installation and training	\$1,074,971	\$145,008
EMR hardware purchases	\$95,588	\$0
DHH personnel costs	\$9,381	\$9,630
Project evaluator (required by grant)	<u>\$10,000</u>	<u>\$10,000</u>
TOTAL	<u>\$1,320,916</u>	<u>\$225,977</u>

II. IMPACT ON FUTURE FISCAL YEARS

The total grant award is \$1,546,893, of which \$1,320,916 is anticipated to be spent in FY 08 and \$225,977 is anticipated to be spent in FY 09.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR budget authority by \$71,500 in the Administration Protection & Support Program. The source of funding is a private grant from the Hurricane Fund for the Elderly, administered by Grantmakers in Aging. No state match is required.

The goal of this grant is to develop an emergency preparedness campaign that will be directed specifically at low-income, frail older adults. The campaign will provide a training film to address specific items regarding assisting frail elders to prepare for an emergency; support coordinator/provider brochures that contain checklists and other practical information for emergency preparedness; promotional postcards reminding recipients that May is Hurricane Preparedness Month; direct service worker cards which contain DHH contact information; key tags and refrigerator magnets with DHH emergency telephone numbers, and calendars which contain tips, checklists, and prompts to replenish items (what to bring in the case of an evacuation).

The funding will be allocated as follows:

\$37,700	Operating Services for printing, postage, and specialty printing
\$25,000	Professional Services for campaign design services, graphic services, and film production
\$7,800	General office and meeting supplies
\$1,000	Travel to go to film sites for assistance in developing the training film and for employees to train agencies and organizations on the use of the emergency materials
<hr/>

Federal Funds:	\$55,371			
Total	<u>\$55,371</u>	Total	<u>\$55,371</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal budget authority by \$55,371 in the Administration Protection & Support Program. The source of federal funds is a Real Choice Systems Change Person-Centered Planning (PCP) Implementation grant from the Center for Medicare & Medicaid Services (CMS). No state match is required for this grant.

The grant will be used to develop programs which will enable people with disabilities to reside in their homes and participate fully in community life. The types of services offered to help these individuals could include assistance with dressing, bathing, shopping, preparing meals, eating, or help with personal budgeting. An individual needs assessment will be conducted to determine the types of services an individual may need.

The funding for this grant will be allocated as follows:

\$40,029	Other Compensation for a temporary program manager position to act as Project Director
\$7,892	Office and computer equipment
\$5,000	Professional Services for qualified consultants to assist with the planning of the PCP model
\$1,500	Travel expenses for project director and stakeholders
\$600	Operating Services for telephone lines, computer networking charges, and postage
\$350	Basic operating and meeting supplies and training materials
<hr/>	
\$55,371	Total Expenditures

II. IMPACT ON FUTURE FISCAL YEARS

The total amount for the CMS grant is \$285,000. The agency anticipates that the remaining \$229,629 of the grant funding will be used in FY 09 (\$98,836), FY 10 (\$102,744), and FY 11 (\$28,049).

		Field Services	\$0	0
Total	<u>\$50,000</u>	Total	<u>\$50,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority by \$50,000 in Federal Funds for the Administration Program within the Office of Youth Development (OYD). The source of funding is the Project Safe Harbor grant administered by the Office of Justice Programs, Bureau of Justice Assistance. The grant will establish a State work group, which will include collaborations among State child service agencies, to address juvenile system reforms, juvenile competency issues, and revisions to the State's Medicaid plan to expand resources available for mental health services. The collaborative agencies will be Youth Services (Office of Youth Development), Department of Health & Hospitals (Office of Mental Health, Office for Addictive Disorders, and Office for Citizens with Developmental Disabilities), Department of Social Services, and the Children's Cabinet.

The funding for this grant will be allocated to Other Charges. The \$50,000 in federal funds is for a contract for a Project Coordinator. The Project Coordinator will devote 32 hours a week for 52 weeks to the project (\$30 hour and includes state travel to planning meetings). The grant requires a match of \$19,347, which will be funded with an in-kind State match. The in-kind match will be met through personnel (.10 FTE contract for a project director), fringe benefits, travel and supply expenses, evaluation and "next steps" recommendation by the State work group.

II. IMPACT ON FUTURE FISCAL YEARS

The project period for the grant funds is 10/1/07 to 9/30/08. If federal funding is not expended by the end of FY 08, OYD will request that the remaining portion be carried forward for FY 08-09.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Social Services

AGENDA NO.: 12A

AGENCY: Office of Secretary

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration and Executive Support	\$3,426,187	0
Interagency Transfers:	\$3,426,187			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$3,426,187</u>	Total	<u>\$3,426,187</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$3,426,187 in the Office of the Secretary. The source of IAT funding is State Emergency Response Funds (SERF) from the Division of Administration.

The Department of Social Services is assigned the primary emergency function of shelter operation and control during emergencies and disasters per Executive Order KBB 2004-20. SERF will be used to reimburse the agency for on-going expenditures related to emergency preparedness duties which are not eligible for federal reimbursement. As of 9/13/07, the agency has already expended \$1.7 M of this funding. The remaining \$1.7 M is a projection of expenditures the agency plans to expend in the current fiscal year.

The funding will be allocated as follows:

\$1,487,384	Rental space for 5 shelters and 2 storage facilities
\$698,307	Shelter supplies such as cots, tables, chairs, baby cribs, refrigerators, microwaves, dollies
\$593,100	Software Maintenance, server licenses, wireless scanner equipment and wireless routers
\$277,395	Operational Services for printing costs, data and telephone lines, cellular service, shelter maintenance
\$248,781	Salaries for 23 employees (for the portion of the employee's time allocated to emergency preparedness duties)
\$78,220	Radios and batteries
\$26,000	Travel for conferences, regional meetings, FEMA training, and out-of-state conferences
\$17,000	Cargo/Passenger Van for staff to travel statewide for training, routine duties, and meetings
<u>\$3,426,187</u>	Total Expenditures

II. IMPACT ON FUTURE FISCAL YEARS

DSS projects that \$3,387,483 will be needed in FY 09 and subsequent fiscal years for Emergency Preparedness activities based on the agency's request for 10 additional T.O. (one for each region) who will be solely responsible for emergency preparedness duties and 9 additional cargo/passenger vans which will be used by these individuals for travel to carry out routine duties. This amount could be reduced to approximately \$2.8 M if the agency's request is not approved in the FY 09 appropriation. SGF or another revenue source will be needed to fund these expenditures if SERF is not available.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Social Services

AGENDA NO.: 12B

AGENCY: Office of Community Services

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration and Support	\$0	0
Interagency Transfers:	\$66,473	Child Welfare Services	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	(\$66,473)			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$66,473 and to decrease Federal budget authority by \$66,473, resulting in a zero net adjustment in the Office of Community Services. The source of IAT funding is State Emergency Response Funds (SERF) from the Division of Administration.

The Department of Social Services is assigned the primary emergency function of shelter operation and control during emergencies and disasters per Executive Order KBB 2004-20. SERF will be used to reimburse OCS for Salaries and Related Benefits for 5 existing DSS employees who have been performing Emergency Preparedness duties since 7/1/07. The agency employees are normally paid with 50% federal and 50% state funds; however, federal funds cannot be used to pay salaries for emergency preparedness related functions. Therefore, approval of this BA-7 will allow the agency to use SERF to replace the federal funds that were appropriated for salaries in FY 08 and reduce its federal budget authority accordingly.

II. IMPACT ON FUTURE FISCAL YEARS

DSS anticipates that the same level of funding will be needed in subsequent fiscal years for Emergency Preparedness activities. SGF or some other revenue source will be needed to fund these expenditures if SERF is not available.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$0			
Federal Funds:	(\$60,282)			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$60,282 and to decrease Federal budget authority by \$60,282, resulting in a zero net adjustment in the LA Rehabilitation Services (LRS). The source of IAT funding is State Emergency Response Funds (SERF) from the Division of Administration.

The Department of Social Services is assigned the primary emergency function of shelter operation and control during emergencies and disasters per Executive Order KBB 2004-20. SERF will be used to reimburse LRS for Salaries and Related Benefits for nine (9) existing DSS employees who have been performing Emergency Preparedness duties since 7/1/07. The agency employees are normally paid with 50% federal and 50% state funds; however, federal funds cannot be used to pay salaries for emergency preparedness related functions. Therefore, approval of this BA-7 will allow the agency to use SERF to replace the federal funds that were appropriated for salaries in FY 08 and reduce its federal budget authority accordingly.

II. IMPACT ON FUTURE FISCAL YEARS

DSS anticipates that the same level of funding will be needed in subsequent fiscal years for Emergency Preparedness activities. SGF or some other revenue source will be needed to fund these expenditures if SERF is not available.

Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$175,000 and to decrease Federal budget authority by \$175,000, resulting in a zero net adjustment in the Office of Family Support (OFS). The source of IAT funding is State Emergency Response Funds (SERF) from the Division of Administration.

The Department of Social Services is assigned the primary emergency function of shelter operation and control during emergencies and disasters per Executive Order KBB 2004-20. SERF will be used to reimburse OFS for Salaries and Related Benefits for 34 existing DSS employees who have been performing Emergency Preparedness duties since 7/1/07. The agency employees are normally paid with 50% federal and 50% state funds; however, federal funds cannot be used to pay salaries for emergency preparedness related functions. Therefore, approval of this BA-7 will allow the agency to use SERF to replace the federal funds that were appropriated for salaries in FY 08 and reduce its federal budget authority accordingly.

II. IMPACT ON FUTURE FISCAL YEARS

DSS anticipates that the same level of funding will be needed in subsequent fiscal years for Emergency Preparedness activities. SGF or some other revenue source will be needed to fund these expenditures if SERF is not available.

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Public Safety

AGENDA NO.: 13

AGENCY: Office of State Police

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement Program	\$0	0
Interagency Transfers:	\$0	Criminal Investigation Program	\$0	0
Self-Generated Revenue:	\$0	Operational Support Program	\$0	0
Statutory Dedications:	\$244,893	Gaming Enforcement Program	\$244,893	5
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$244,893</u>	Total	<u>\$244,893</u>	<u>5</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the statutory dedication budget authority from the Pari-Mutuel Live Racing Facility Control Fund in the amount of \$244,893 and 5 T.O. positions within State Police's Gaming Enforcement Program in order to oversee the statutory and regulatory gaming mandates and operations at the Fair Grounds racetrack slot casino operations within Orleans Parish.

Act 352 of 2003 added Orleans Parish to the list of parishes that allow racing facilities to be licensed to conduct slot machine gaming at Churchill Downs, who is the current owner of The Fair Grounds. Other parishes that allow slot machine gaming at the racetracks include St. Landry Parish, Bossier Parish and Calcasieu Parish. Originally, the slot machines within Orleans Parish were to be phased in over a 3-year period from 2003 to 2005. According to the agency, the original phase-in plan never took place due to Hurricane Katrina. Also, Act 591 of 2006 removes language in statute that provided for the phase-in, but retains the language authorizing a maximum of 700 slot machines. Churchill Downs began operating 250 slot machines in September 2007 with the goal of the maximum under the law of 700 slot machines in 2008. State Police is in need of this funding and associated 5 T.O. positions to assist in regulating these slot machines. This request was not budgeted during the FY 08 budget development process because the operational unknowns associated with the Fair Grounds in the aftermath of Hurricane Katrina. Churchill Downs notified State Police in July 2007 of its anticipated reopening in September 2007.

The \$244,893 total expenditures requested within this BA-7 in FY 08 are as follows: salaries - \$163,782, related benefits - \$56,786, operating services - \$1,000, supplies - \$1,375, interagency transfers - \$1,500, acquisitions - \$20,450.

The requested amount budgeted within salaries and related benefits has been annualized to only include the 14 remaining pay periods within FY 08 (26 pay periods within most fiscal years). The 5 T.O. positions are 1 Intelligence Analyst, 2 Auditors and 2 Information Technology Technical Support Specialists (ITTS). An ITTS position monitors electronic devices and systems to ensure compliance with relevant laws and statutes and to also detect any tampering, alteration or other means of manipulation that could impact lawful operation. An Intelligence Analyst position researches various databases to determine suitability of individuals and companies attempting to associate with the gaming industry in the state. The requested positions are civilian positions and not State Troopers, therefore no cadet class will be needed to fill these positions.

The means of financing requested within this BA-7 is the Pari-Mutuel Live Racing Facility Control Fund (R.S. 27:392), which was created via Act 142 of the 1998 1st Extraordinary Legislative Session. The revenue source for this fund is the racing slots at the various racetracks in Calcasieu Parish, Bossier Parish and St. Landry Parish. In FY 07, this fund collected \$55.5 M. As of the latest adopted revenue forecast by the Revenue Estimating Conference (REC), racetrack slots are projected to collect \$54 M in FY 08 with \$21 M in revenue dedications for a net deposit into the state general fund of \$33 M. After satisfying the dedications as outlined in statute (R.S. 27:392), the remaining collections transfer to the SGF, which has been approximately \$29 M to \$33 M the past 3 fiscal years (FY 05, FY 06, FY 07).

Upon approval of this BA-7, the requested amount, \$244,893, will increase the dedications in FY 08 within State Police. However, there will be a minimal impact upon the SGF transfer in FY 08 due to the fact that the REC projections do not include the Fair Grounds racetrack slots in its revenue projection for racetrack slots due to the slots only being open a short

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

period of time.

II. IMPACT ON FUTURE FISCAL YEARS

If approved, this BA-7 will impact subsequent fiscal years as follows: FY 09 -\$ 429,622, FY 10 - \$446,652, FY 11 - \$464,363, FY 12 - \$482,783. These expenditures are associated with a full fiscal year's salary for the 5 T.O. positions and associated expenditures. The SGF impact will be minimal to none as the projected expenditures will more than likely be made up for in the revenue collections of the racing slots in Orleans Parish. If approved, this BA-7 will need to be annualized during the FY 09 budget development process. The annualized adjustment needed within State Police will be an increase in the amount of \$429,622 and 5 T.O. positions.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 14

AGENCY: Office of State Police

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement Program	\$0	0
Interagency Transfers:	\$0	Criminal Investigation Program	\$644,484	0
Self-Generated Revenue:	\$0	Operational Support Program	\$0	0
Statutory Dedications:	\$644,484	Gaming Enforcement Program	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$644,484</u>	Total	<u>\$644,484</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the statutory dedication-Insurance Fraud Investigation Fund budget authority within State Police's Insurance Fraud Unit in the amount of \$644,484 for an increase in overtime, travel, operating services (rent increase), supplies and acquisitions. The State Police Insurance Fraud Unit is responsible for investigating referrals of suspected fraudulent insurance acts; assisting federal and local law enforcement in the investigation of fraudulent insurance acts; cooperating with local prosecutors and the attorney general's office in the prosecution of fraudulent insurance acts; and promoting awareness of insurance fraud throughout the state.

Of the total \$644,484 requested \$361,284 is one-time expenditures. According to the agency, these additional funds will allow the Insurance Fraud Unit to handle increased proactive investigations and increased workload after a merger between the State Police Insurance Fraud Unit and the Auto Theft Unit that was officially completed in January 2007. Also, the Insurance Fraud Unit is currently working on 3 large scale auto theft investigations.

The requested \$644,484 expenditures are for the following: salaries - \$130,000, travel - \$26,000, operating services - \$24,000, supplies - \$23,200, other charges - \$80,000, acquisitions - \$361,284.

Salaries - The requested salary amounts are for overtime expenditures. According to the Insurance Fraud Unit, out of a total table of organization of 31 positions, there are currently 29 filled positions. As of 10/30/07, the Insurance Fraud Unit has \$50,000 budgeted in overtime with \$47,677 already spent in FY 08. In previous years, the overtime budget authority has been in excess of \$100,000, but due to increases in other expenditures such as building rent, overtime has been reduced. This BA-7 requests additional expenditures of \$130,000 for a total amount budgeted of \$180,000 in FY 08 for overtime expenditures.

Acquisitions - The requested \$361,284 in acquisitions is for 10 replacement vehicles and various replacement equipment. The average current milage of the vehicle to be replaced is over 100,000 miles. The various replacement equipment includes: camera equipment, automated license plate reader and computer equipment.

Operating Services - The requested \$24,000 in additional operating services is for the increase in building rent of 4 of the 6 office locations and advertising expenditures. The rent locations are: Insurance Fraud Alexandria, Insurance Fraud Lafayette, Bureau of Investigation Monroe, Insurance Fraud Shreveport. According to the agency, during the FY 08 budget development process, the agency was not aware of the increase in rental expenditures.

According to State Police, this BA-7 cannot wait until FY 09 due to current financial strain on overtime, operating services (rent increase), travel funding and the need to complete the three major auto theft cases currently open. In the past, the agency has redirected expenditures to cover these expenditure shortfalls such as building rent and car fleet costs. However, due to large scale investigations and the unanticipated increase in other expenditures, transferring budget expenditures between expenditure categories will not be sufficient to cover the total projected expenditures in FY 08. As of October 2007, the Insurance Fraud Unit has expended 35% of its total budget. During a normal timeframe of operation, the Insurance Fraud Unit should have only expended 25% of its total budget. The 10% expenditure pattern difference is due to the projected expenditure increases discussed above.

December 19, 2007

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

The requested means of financing for these expenditures is the Insurance Fraud Investigation Fund. Act 1312 of 1999 created this fund in the State Treasury for the cost of investigation, enforcement and prosecution of insurance fraud in this state. Revenues generated in this fund come from fees assessed on direct premiums received by each insurer licensed by the Department of Insurance (DOI). The following percentages set in statute are as follows: 1.) 75% of the fees collected are allocated to the Insurance Fraud Investigation Unit within State Police; 2.) 15% of fees are collected are allocated to the Insurance Fraud Support Unit within the Department of Justice; 3.) 10% is allocated to the DOI.

According to the State Treasury, there is an ending FY 07 fund balance in the amount of \$421,157 within State Police's portion of this statutory dedication. Overall the Insurance Fraud Investigation Fund is budgeted \$2,905,137 in FY 08 and of that amount \$1,997,055 is currently budgeted within State Police. To the extent that no additional appropriations are made from the Insurance Fraud Investigation Fund within FY 08, all currently budgeted expenditures are expended in FY 08 and the revenue projection for FY 08 is correct, the projected ending FY 08 fund balance for the Insurance Fraud Investigation Fund within State Police will be \$1,091,421. However, if this BA-7 is approved in the amount of \$644,484, the State Police projected FY 08 ending fund balance will be reduced to \$446,937.

Historically, the State Police Insurance Fraud Unit has been supported with only the Insurance Fraud Investigation Fund. Over the past 5 years, 98.47% of the State Police Insurance Fraud Unit's total actual expenditures have been from the Insurance Fraud Investigation Fund with the remaining 1.53% expenditures being from other non-state general fund means of financing. Historically, SGF has NOT been utilized to support State Police's Insurance Fraud Unit. However, in the current FY 08 existing operating budget is a small portion of SGF. According to the agency, there is currently \$349,768 of state general fund funding the State Police Insurance Fraud Unit in FY 08. These state general fund monies could be substituted with additional Insurance Fraud Investigation Fund monies in FY 08 or FY 09.

II. IMPACT ON FUTURE FISCAL YEARS

If approved, this BA-7 will impact the agency in subsequent fiscal years by approximately \$303,000 each fiscal year. This total expenditure amount represents expenditures as follows: \$180,000 - salaries, \$20,000 - travel, \$13,000 - operating services, \$90,000 - other charges. This amount, \$303,000, will need to be annualized during the FY 09 budget development process.

NOTE: This BA-7 will reduce the projected ending FY 08 fund balance of the Insurance Fraud Investigation Fund within State Police from \$1,091,421 to approximately \$446,937. There will be approximately \$3,205,220 in total revenue available for expenditure from this statutory dedication by State Police in FY 09. Upon approval of this BA-7, there will be \$2,641,539 budgeted within the Insurance Fraud Investigation Fund within State Police's FY 08 budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7. The Legislative Fiscal Office also recommends a means of financing substitution be included within the FY 09 Executive Budget Recommendation reducing the SGF in the amount of \$349,768 and increasing the Insurance Fraud Investigation Fund in the like amount. Thus, State Police's Insurance Fraud Unit will be completely supported by a non-state general fund revenue source as has been the practice historically. To the extent that all currently budgeted appropriations for this fund are completely expended in FY 08, and the FY 08 and FY 09 DOI revenue projections for this particular fund are accurate, there should be approximately \$3.2 M available for appropriations within State Police for FY 09. Upon inclusion of the recommended means of finance substitution in FY 09, the total revenue available for expenditure in FY 09 will be reduced to approximately \$2.9 M.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 15

AGENCY: Office of State Police

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement Program	\$2,161,975	0
Interagency Transfers:	\$2,161,975	Criminal Investigation Program	\$0	0
Self-Generated Revenue:	\$0	Operational Support Program	\$0	0
Statutory Dedications:	\$0	Gaming Enforcement Program	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$2,161,975</u>	Total	<u>\$2,161,975</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the IAT budget authority within State Police's Traffic Enforcement Program for expenditures associated with 60 State Troopers stationed within the New Orleans area on special detail at the request of the Governor. According to the agency, these State Troopers are expected to remain in the New Orleans area through December 2007. The original source of the IAT requested is from the statutory dedication-State Emergency Response Fund (SERF) currently budgeted within the Division of Administration (DOA), which currently has \$25,198,655 budgeted in FY 08. This funding is for expenditures incurred from July 2007 to December 2007.

The total expenditure breakdown of the \$2,161,975 request is as follows: salaries - \$1,477,587, other compensation - \$21,504, related benefits - \$144,120, travel - \$312,307, supplies - \$206,457. Based upon the requested BA-7, the per month cost of the 60 State Trooper T.O. being stationed in New Orleans is approximately \$360,000 per month, which is in line with State Police's monthly expenditures for this special detail in FY 06-07.

The original source of funding for these interagency transfer (IAT) funds is the State Emergency Response Fund (SERF), which was created during the 2006 Regular Legislative Session via Act 642 (R.S. 39:100.31). According to the State Treasury, as of November 2007, the fund balance for SERF is \$99,707,701. Included within the DOA's current year budget is an appropriation from the SERF in the amount of \$25,198,655. This BA-7 seeks to increase the IAT budget authority within State Police in order for them to receive \$2,161,975 from the DOA for expenditures requested within this BA-7.

Currently, there is \$39,315,727 of SERF budgeted in FY 08. By approving this BA-7, as well as the other BA-7s on the agenda that impact the SERF, there will be approximately \$3.9 M remaining of the \$25.2 M in SERF currently appropriated to the DOA. Assuming all FY 08 SERF budget authority is completely expended and no additional expenditures are appropriated in FY 08, the FY 08 ending fund balance for the SERF will be approximately \$65.2 M.

NOTE: This BA-7 only addresses expenditures associated with the 60 Troopers stationed in New Orleans through December 2007. Any additional costs incurred beyond December 2007 will be dependent upon whether the Governor-elect continues stationing these 60 State Troopers in New Orleans.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. This is a one-time expenditure in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the IAT budget authority within State Police's Traffic Enforcement Program for expenditures associated with special detail reinforcements sent to Jena for the Jena 6 protest march. Approximately 200 State Police personnel were stationed in Jena from 9/19/07 to 9/22/07. The positions assigned to duty in Jena included Intelligence Agents, Crime Scene Investigators, Troopers, Command Staff and Communications Support.

This is an after-the-fact BA-7 as these expenditures have already been incurred by the agency. If not approved, State Police will be forced to absorb these costs within its existing operating budget. The \$204,818 budgeted expenditures include: salaries - \$191,148, other compensation - \$277, related benefits - \$6,668, travel - \$2,140, operating services - \$4,585.

The original source of funding for these IAT funds is the State Emergency Response Fund (SERF), which was created during the 2006 Regular Legislative Session via Act 642 (R.S. 39:100.31). According to the State Treasury, as of November 2007, the fund balance for the SERF is \$99,707,701. Included within the Division of Administration's (DOA) current year budget is an appropriation from the SERF in the amount of \$25,198,655. This BA-7 seeks to increase the IAT budget authority within State Police in order for them to receive \$204,818 from the DOA for expenditures requested within this BA-7. Currently, there is \$39,315,727 of SERF budgeted in FY 08. By approving this BA-7, as well as the other BA-7s on the agenda that impact the SERF, there will be approximately \$3.9 M remaining of the \$25.2 M in SERF currently appropriated to the DOA. Assuming all FY 08 SERF budget authority is completely expended and no additional expenditures are appropriated in FY 08, the FY 08 ending fund balance for the SERF will be approximately \$65.2 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. This is a one-time expenditure in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$417,628	Auxiliary Account	\$0	0
Total	<u>\$417,628</u>	Total	<u>\$417,628</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget federal funding in the amount of \$417,628 received from the Edward Byrne Memorial Discretionary Grant Program of the U.S. Department of Justice's FY 2007 Targeting Violent Crime Initiative. State Police and its partners, New Orleans Police Department (NOPD), U.S. Attorney's Office, U.S. Alcohol, Tobacco & Firearm (ATF), seek to address violent crime in the City of New Orleans. The overall purpose of this grant is to reduce violent crime in the New Orleans area. The total grant award is \$547,628 with \$417,628 to be budgeted in FY 08 and \$130,000 to be budgeted in FY 09. No state match is required. State Police was awarded this grant on 9/13/07.

The 2007 Edward Byrne Memorial Discretionary Grant Program will focus on funding local, regional and national projects within these 6 major priorities: 1.) Target violent crime; 2.) Prevent crime and drug abuse; 3.) Enhance local law enforcement; 4.) Enhance local courts; 5.) Enhance local corrections and offender reentry; 6.) Facilitate justice information sharing. This grant was funded under priority 1, which is targeting violent crime.

This grant will fund overtime hours, training for law enforcement officers, software development and system integration, equipment and supplies. The grant's activities have no relation to the current 60 State Troopers stationed in the New Orleans area and will utilize State Police investigative personnel.

According to State Police, the following partners will have the responsibilities listed:

*State Police - analytical support for area surveillance, arrest support, IT system oversight

*NOPD - crime mapping and target selection

*ATF - ensure cases referred for federal prosecution meet guidelines defined by the U.S. Attorney

*U.S. Attorney - prosecute cases generated by grant

State Police will utilize crime mapping to assist the NOPD with personnel positioned in high crime areas. According to the agency, intelligence will be gathered from the arrestees on knowledge of other crimes and combined with existing information about crimes will be utilized to identify suspects in unsolved crimes.

The requested FY 08 expenditures are: salaries - \$85,128, other charges - \$332,500. The specific professional services expenditures requested include a software development contract and a database integration contract. The training of law enforcement officers will increase training on raid planning and tactics for those individuals assigned this project within State Police. The specific acquisitions requested include computer equipment.

Overall, this grant funding will potentially increase State Police's overall number of investigations initiated and investigations closed by 1% and will potentially increase the overall number of agency assists and number of assists per staff by 5% in FY 08.

II. IMPACT ON FUTURE FISCAL YEARS

The total grant award is \$547,628 of which \$417,628 is being budgeted in FY 08. The remaining amount of this grant, \$130,000, will be budgeted in FY 09. The FY 09 expenditures will be budgeted as follows: salaries - \$30,000, other charges - \$100,000.

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Public Safety

AGENDA NO.: 18

AGENCY: Office of State Fire Marshal

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fire Prevention Program	\$310,380	4
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$310,380			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$310,380</u>	Total	<u>\$310,380</u>	<u>4</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the SGR budget authority within the State Fire Marshal's Fire Prevention Program in the amount of \$310,380 and 4 T.O. positions for expenditures associated with the implementation of Act 364 of 2007, the Industrialized Building Act.

The Industrialized Building Act provides for guidelines associated with the compliance of the building code of modular building units which arrive at a site of installation with all of its electrical, mechanical, plumbing and other systems already built into the unit and not able to be inspected at the site without disassembly or destruction. Act 364 provides that the State Fire Marshal will provide by rule for registration and regulation of manufacturers or builders of industrialized buildings and for the State Fire Marshal or a registered third-party inspector to inspect the modular building construction. The basic purpose of Act 364 is to prove that these units are code compliant before the units are delivered to Louisiana retailers or the State Uniform Building Code would mandate these units be torn apart to determine code compliance.

There is language within Act 364 that allows the State Fire Marshal to establish reasonable plan review fees. The agency is projecting to collect approximately \$355,000 SGR in FY 08 and in subsequent fiscal years if the agency inspects the projected 1,000 industrialized buildings annually at an estimated cost of \$280 per inspection and \$75 per required decal ($1,000 \times \$280 = \$280,000$; $1,000 \times \$75 = \$75,000$; $\$280,000 + \$75,000 = \$355,000$). Act 364 also provides that the State Fire Marshal provide a decal or insignia on each transportable modular section, of which the State Fire Marshal is planning to charge \$75 per decal on inspected units.

The requested expenditure breakdown of the requested \$310,380 SGR is as follows: salaries - \$112,863, related benefits - \$43,151, travel - \$3,000, operating services - \$9,996, supplies - \$9,200, professional services - \$70,000, other charges - \$1,170, and acquisitions - \$61,000.

The \$156,014 for salaries and related benefits has been annualized to include only 14 pay periods of FY 08 expenditures to be incurred. There are 26 pay periods in most fiscal years. According to the agency, the 4 T.O. positions are needed in order to review the designs of each structure prior to the manufacture, inspection and application of decals for each structure. The requested 4 T.O. positions are: Architect, Deputy State Fire Marshal Supervisor, Administrative Program Specialist and Deputy State Fire Marshal.

The \$70,000 in professional services is needed by the agency to hire third party provider contract employees. These third party providers will be utilized to provide plan review services, in-state inspections and out-of-state inspections that the State Fire Marshal cannot handle. The Act allows the agency to authorize an inspection of industrialized buildings constructed in another state to be performed by a third party provider. The majority of the \$70,000 will most likely be utilized for out-of-state third party inspectors due to the fact that most of these units are currently manufactured out-of-state (Texas). According to the agency, there is 1 industrialized building manufacturer within LA. There are numerous retailers.

The \$61,000 in acquisitions is for: office equipment - \$19,800, data equipment - \$9,200, two vehicles - \$32,000. The 2 vehicles are needed for 2 reasons: 1.) A requirement of Act 364 is for the State Fire Marshal to inspect the industrial homes as they are being

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

produced at the various plants. Before modular homes leave the plant, a decal certifying the industrial building has been inspected by the Fire Marshal must be visible on the building, 2.) The State Fire Marshal must also inspect these buildings after they are installed at their designated locations.

NOTE: The excess fees collected from this service that are not spent will revert to the state general fund at the end of FY 08. The agency is projected to collect \$355,000 in SGR, while only expending \$310,380. To the extent that all budgeted funds requested within this BA-7 are expended, \$310,380, the remaining \$44,620 of fees will revert to the SGF.

II. IMPACT ON FUTURE FISCAL YEARS

Because this BA-7 is requesting 4 T.O. positions and the expenditures associated with these positions, the agency is projecting the following expenditures in subsequent fiscal years: FY 09 - \$393,683, FY 10 - \$405,728, FY 11 - \$450,255, FY 12 - \$440,482. The projected expenditure increase is due to merit increases and increases in the cost of operating expenditures. The agency is projected to collect \$355,000 SGF in FY 08 and in subsequent fiscal years to be utilized to fund these expenditures with the remaining funding source being the LA Fire Marshal Fund. The current FY 08 appropriations for this fund is \$10,077,544. The latest adopted revenue forecast is projecting this fund to collect approximately: FY 09 - \$14.6 M, FY 10 - \$15.9 M, FY 11 - \$17.3 M and FY 12 - \$18.9 M. There should be sufficient funding within the LA Fire Marshal Fund for these expenditures in FY 08 and in subsequent fiscal years instead of appropriating SGF for this service.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Revenue

AGENDA NO.: 19

AGENCY: Office of Revenue

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Tax Collection	\$556,000	0
Interagency Transfers:	\$0	Alcohol and Tobacco Control	\$0	0
Self-Generated Revenue:	\$556,000	Office of Charitable Gaming	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$556,000</u>	Total	<u>\$556,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR by \$556,000 in the Tax Collection Program at the LA Department of Revenue (LDR). The additional SGR is derived primarily from increased late payment/delinquent fees and negligence fees. LDR will use these additional funds to maintain and enhance the following computer applications: Natural Disaster Sales Tax Refunds, Non-resident Contractor Reporting, Legal Case Tracking System, Sales Tax Tracking on Motor Vehicles, Receipt Books Tracking, Policy Services Rulings Tracking, and Fiduciary Returns Tracking. Specifically, LDR will use these funds to hire CSSA (Consulting Service & Support Agreement) vendors to work on these applications as needed. LDR projects the department will need 4,000 hours of contract services at an average cost of \$139 per hour (4,000 hours X \$139 per hour = \$556,000).

II. IMPACT ON FUTURE FISCAL YEARS

The appropriations bill gives the Department of Revenue authority to retain unappropriated SGR from late payment/delinquent fees and negligence fees from one fiscal year to the next. Appropriation and expenditure of an additional \$556,000 for this request will decrease the SGR available for appropriation in future fiscal years. In the current year (FY 08), the Office of Revenue has carried forward approximately \$30.6 M in excess collections from prior fiscal years due to higher than expected self-generated revenues from late payment/delinquent fees and negligence fees.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$516,000</u>	Total	<u>\$516,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase self-generated revenues by \$516,000 in the Tax Collection Program at the LA Department of Revenue (LDR). The additional SGR is derived primarily from increased late payment/delinquent fees and negligence fees. LDR will use these additional funds to maintain and enhance the following computer applications: Individual Income Tax Web Filing (State only), Individual Income Tax Federal/State Filing, Corporation Taxes Electronic Filing, Electronic Transmission of Federal and State W-2 Information, Withholding Web Filing, Excise Taxes Filing, Bank Management System for electronic payments and direct deposits, Refunds Status System, and the Business Registration System. Specifically, LDR will use these funds to hire CSSA (Consulting Service and Support Agreement) vendors to work on these applications as needed. LDR projects the department will need 4,000 hours of contract services at an average cost of \$129 per hour (4,000 hours X \$129 per hour = \$516,000).

II. IMPACT ON FUTURE FISCAL YEARS

The appropriations bill gives the Department of Revenue authority to retain unappropriated SGR from late payment/delinquent fees and negligence fees from one fiscal year to the next. Appropriation and expenditure of an additional \$516,000 for this request will decrease the SGR available for appropriation in future fiscal years. In the current year (FY 08), the Office of Revenue has carried forward approximately \$30.6 M in excess collections from prior fiscal years due to higher than expected SGR from late payment/delinquent fees and negligence fees.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Tax Collection	\$0	0
Interagency Transfers:	\$0	Alcohol and Tobacco Control	\$0	0
Self-Generated Revenue:	\$58,765	Office of Charitable Gaming	\$58,765	2
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$58,765</u>	Total	<u>\$58,765</u>	<u>2</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase self-generated revenues by \$58,765 in the Tax Collection Program at the LA Department of Revenue (LDR). LDR will use these additional funds to hire 2 auditors to handle a significant increase in the number of video bingo machines used by charitable organizations due to the charitable gaming market introducing a new version of the video bingo machine. This new machine looks and operates in a manner similar to a video poker machine, with the exception of a small window on the face of the machine containing an electronic bingo card.

The number of charitable organizations regulated by LDR is increasing due to the proliferation of these new video bingo machines. Nonprofit organizations are using the machines as another fund raising mechanism to attract clientele different from traditional bingo players. Additionally, Charitable Gaming has seen the number of distributors and manufacturers of these machines grow significantly. These vendors must register with the Office of Charitable Gaming and have their products tested for compliance by the Office. The following are the past and projected number of video bingo machines regulated by the Office of Charitable Gaming: FY 06 (355 units), FY 07 (483 units), November 2007 (828 units), January 2008 projected (1,013 units).

II. IMPACT ON FUTURE FISCAL YEARS

These 2 additional positions are permanent and will increase costs in future fiscal years. Specifically, the projected annual costs for these 2 positions including benefits are the following: \$118,908 (FY 09), \$123,665 (FY 10), \$128,611 (FY 11), and \$133,756 (FY 12). Furthermore, the appropriations bill gives the Department of Revenue authority to retain unappropriated SGR from late payment/delinquent fees and negligence fees from one fiscal year to the next. As such, appropriation and expenditure of an additional \$58,765 for this request will decrease the SGR available for appropriation in future fiscal years. In the current year (FY 08), the Office of Revenue has carried forward approximately \$30.6 M in excess collections from prior fiscal years due to higher than expected SGR from late payment/delinquent fees and negligence fees.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 22

AGENCY: Office of the Secretary

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0

Statutory Dedications:	\$0			
Federal Funds:	\$84,530			
Total	<u>\$84,530</u>	Total	<u>\$84,530</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide additional budget authority to receive a federal grant from the U.S. Department of Commerce, National Oceanic Atmospheric Agency (NOAA). The grant has been awarded to the Seafood Promotion & Marketing Board for the purpose of developing a new program focused on assessing, improving and certifying the quality of LA seafood products, beginning with shrimp.

Since hurricanes Katrina and Rita, the Board has been working in collaboration with the LSU Food Services Department and the Department of Agriculture to develop and implement a certification program for seafood. A product certification program will focus on quality improvements and will link harvesters, docks, and processors through product traceability and best practices, which will increase financial return to all components of the fishery industry. Because the shrimp industry is the largest and most challenging seafood crop, the Board decided it made the most sense to implement a certification program specifically for this area first. This will lay the groundwork for all other seafood certification programs.

The amount of the grant is \$248,136 and the grant period is 1 1/2 years starting in September 2007 and is scheduled to end in March 2009. This BA-7 is for \$84,530, which represents the amount of funding needed in the current fiscal year. The funds for the current fiscal year will be budgeted as follows:

Salaries - \$20,215 (salary for 1/2 year for job appointment - Public Info Officer 3)
Related Benefits - \$7,115
Travel - \$2,000 (field travel for meetings with participants in the programs)
Supplies - \$1,000 (office and training materials)
Other Charges - \$50,000 (contract with LSU for education portion of program)
Acquisitions - \$4,200 (computer, printer, desk and chair)
Total - \$84,530

The State matching requirements to receive the grant is \$100,000. The Seafood Promotion & Marketing Board has sufficient funds from the Shrimp Marketing & Promotion Account to provide the necessary match.

II. IMPACT ON FUTURE FISCAL YEARS

The grant period is 1 1/2 years starting in September 2007 and is scheduled to end in March 2009. Funding in subsequent years will be \$107,660 (FY 09) and \$55,946 (FY 10).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

DEPARTMENT: Wildlife & Fisheries

AGENDA NO.: 23

AGENCY: Office of Fisheries

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fisheries Program	\$31,901,501	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$31,901,501			
Total	<u>\$31,901,501</u>	Total	<u>\$31,901,501</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$31,901,501 of federal funds into the Office of Fisheries within the Department of Wildlife & Fisheries. The U.S. Troop Readiness Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 provided funding to the National Oceanic Atmospheric Administration (NOAA) for necessary expenses related to the consequences of hurricanes Katrina and Rita on the shrimp and fishing industries. Pursuant to Section 4201 of the Act, the NOAA is granting funds to the Gulf States Marine Fisheries Commission for subgrant to the Gulf coastal states. LA's allocation of these funds is \$41.273 M to be used to provide for hurricane fisheries disaster recovery assistance programs consistent with the authorized uses of funds as specified in Section 115 of the Magnuson-Stevens Fishery Conservation & Management Reauthorization Act of 2006 to establish assistance programs for LA Gulf of Mexico commercial and recreational fishing industries affected by the hurricanes.

The allocation and distribution of these funds was conceptually based on the 2003 LA Shrimp Industry Disaster Assistance Program which was utilized by the Department in order to rehabilitate the shrimp industry. Input was gathered from fishermen and representatives of the fishing industries during a series of 8 public meetings conducted in October 2007. The Department will administer the distribution of personal assistance payments on a pro rata basis to qualified commercial resident fishermen, commercial fishing vessel owners and wholesale/retail seafood dealers utilizing trip ticket report records and to qualified charter boat vessel owners using license records and survey participation information. Trip ticket report records from the 12-month period 9/1/04 to 8/31/05 were utilized. Of the \$41.273 M, \$1,293,909 will be requested for the Seafood Promotion & Marketing Board with a separate BA-7 at a later JLCB hearing, leaving \$39,979,091 for assistance.

Administrative expenses were estimated at 5% of the total funding or \$2,063,650 which will be expended over the course of 2 fiscal years. The administrative expenses estimate is the maximum amount necessary and could possibly be less. These expenses include salaries and related benefits, travel, operating services, supplies, acquisitions and professional services. Two temporary professional-level positions will be hired for the term of the grant to oversee the work of contractors, conduct field monitoring, coordinate interagency activities, collect and analyze logbook and survey data, and provide liaison functions with the fishing industries. Disaster assistance payments will total \$37,915,441 over 2 years.

This BA-7 is for \$31,901,501, which represents the amount of funding needed in the current fiscal year. Estimated funding for FY 08 is \$1,517,391 for administrative expenses and \$30,384,110 for disaster assistance payments. No matching requirements are necessary from the State.

II. IMPACT ON FUTURE FISCAL YEARS

Total funding in the amount of \$8,077,590 will be expended in FY 09.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget Coastal Restoration Funds transferred from the Department of Natural Resources (DNR) which will provide public education and risk awareness of floodplain management and hazard mitigation throughout the state. These funds will be utilized by the Floodplain Management Unit within the Office of Public Works. The Floodplain Management Unit is designated as the State Coordinating Agency for the National Flood Insurance Program. In order to accomplish its mission, it proposes to develop and initiate public education outreach programs with these funds.

DOTD will utilize professional consultants to develop and execute an outreach program for sound floodplain management and hazard mitigation and present it to numerous and varied audiences throughout the state. Specific training modules will be created for public officials (including parish, municipal, local and statewide), floodplain managers, professional engineers, land surveyors, developers, real estate agents, insurance agents, mortgage lenders, levee and conservation district commissioners, and homeland security officials (local and state). In addition, general training modules will be created for kiwanis, rotarians, private societies, church groups, neighborhood associations, and parent/teacher associations.

Consultants will schedule public meetings, town hall meetings, and professionally produced media that will establish this statewide campaign. Public service or paid announcements will be aired on television, radio, and in newspapers, etc. promoting sound floodplain management and risk awareness.

NOTE: DOTD is currently in the process of choosing a consultant to administer this program. Therefore, a detailed listing of proposed expenditures is unavailable.

II. IMPACT ON FUTURE FISCAL YEARS

DOTD anticipates expending a portion of these funds into FY 09.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$30,000 from the Office of Lieutenant Governor, LA Serve Commission to the LA Outdoor Outreach Program (LOOP) within the Office of State Parks. These funds are an AmeriCorps grant received by the LOOP program from the Corporation for National & Community Service.

The objective of the LOOP program is to provide quality outdoor education to underserved and at-risk youth by providing educational, recreational, and related outdoor programs. This funding will supplement LOOP by providing volunteers at various locations around the state to assist with taking groups through a series of organized, adventure-based activities designed to develop skills and a base of knowledge for such youth. Funding will be used to provide stipends to the volunteers working with the LOOP program.

State matching requirements are dollar for dollar. The LOOP program has sufficient SGF to provide the necessary match. Including this BA-7, total funding for the LOOP program during this fiscal year will be \$176,092.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0	Consumer Information Services	\$0	0
Federal Funds:	\$0			
Total	<u>\$6,500,000</u>	Total	<u>\$6,500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR by \$6.5 M from the LA Tourism Promotion District's (LTPD) fund balance into the Office of Tourism's Marketing Program. Funding will be utilized to expand a revised advertising campaign that will accelerate the rebuilding of the LA tourism industry as a top destination by enhancing the perception of the State and increasing the visitation to LA from regional, national, and international markets.

The LTPD is authorized to levy and collect a sales and use tax not to exceed three one hundredths of 1% for the purpose of assisting the state in the promotion of tourism. However, funds for such purpose were capped at certain levels for each fiscal year. The funds requested in this BA-7 are available as a result of Act 30 of 2007 which removed the cap on the LTPD fund. The cap for FY 08 was \$18.7 M, but current projections for tax collections for the LTPD is \$24.2. The \$5.5 M from removal of the cap and an additional \$1 M from the leftover fund balance allow for the increase in the spending capability for direct advertising and media placements. If the proposed BA-7 is approved, the LTPD fund balance as of 6/30/08, is estimated to be \$1.6 M.

The new advertising campaign is scheduled to launch in January and is an augmented version of the "Come Fall in Love" campaign. The new version is "Come Fall In Love With My LA" and instead of major celebrities, local residents will be featured.

The monies will be utilized for professional services and are estimated as follows:

\$1,479,534 print media (national magazines in peak travel season of March thru May)
\$281,107 national cable spots
\$1,543,527 TV spots in high frequency markets (New York, Chicago, Atlanta, etc.)
\$787,762 radio (XM and Entercom)
\$500,000 media in international markets of UK and France
\$300,000 culinary publications (national magazines May thru October 2008)
\$221,000 TV, print, and radio public service announcements in correlation with NBA All-Star game
\$600,000 production costs for all above
\$600,000 online campaign and media
\$187,070 contingency funds

Including this BA-7, total funding for tourism marketing and advertising during this fiscal year is \$18.8 million.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Economic Development

AGENDA NO.: 27

AGENCY: Office of Business Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development Program	\$68,000,000	0
Interagency Transfers:	\$68,000,000	Business Incentives Program	\$0	0
Self-Generated Revenue:	\$0	Governor's Supplementary Budget Rec	\$0	0
Statutory Dedications:	\$0	0	\$0	0
Federal Funds:	\$0			
Total	<u>\$68,000,000</u>	Total	<u>\$68,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT by \$68 M to fund combination grants/loans associated with Round 2 of the Business Recovery Grant & Loan Program. These funds are Federal Community Development Block Grant (CDBG) funds appropriated to the LA Office of Community Development (OCD) as part of Action Plan Amendment 16 approved by the U. S. Department of Housing & Urban Development (HUD). The Department of Economic Development will use another \$12 M in residual funding from Round 1 of the Business Recovery Grant & Loan Program to fund Round 2. Total funding for Round 2 of the program is \$80 M (\$68 M from this BA-7 and another \$12 M in residual funding from Round 1). These funds do not require a matching component from the state of LA.

The goal of the Business Recovery Grant & Loan Program is to assist small firms in hurricane affected parishes that have a chance to survive, contribute to the economy, and maintain and create jobs. DED will use the \$80 M to pay combination grants/loans to participating businesses. Grants/loans provided with these funds will target small firms with 1 to 100 employees. Each combination grant/loan will range from a minimum of \$10,000 to a maximum of \$100,000. Each business' award will be 20% grant (no repayment required) and 80% interest free loan. Repayment periods on the interest free loans will be 3 to 7 years. DED estimates that the requested funds will provide approximately 2,000 combined grants/loans with an average combined award of \$40,000 each.

Businesses eligible for these grants must have been in operation prior to the storms and must have reopened. Eligible businesses must also demonstrate a minimum of a 25% decline in revenues due to Hurricane Katrina or Rita and must have had at least \$20,000 in annual revenues prior to the storms. DED will also allow business to qualify for grants/loans based on percentage asset losses due to the storms. At this time, DED was unable to provide a specific percentage or other criteria for awarding grants/loans based on asset losses. Businesses from the following parishes will be eligible to participate in Round 2 of the program: Calcasieu, Cameron, Jefferson, Orleans, Plaquemines, St. Bernard, St. Tammany, Vermilion, Acadia, Allen, Beauregard, Iberia, Jefferson Davis, Lafourche, St. Charles, St. John the Baptist, St. Mary, Tangipahoa, Terrebonne, and Washington.

II. IMPACT ON FUTURE FISCAL YEARS

DED hopes to distribute all \$80 M in grants/loans as soon as possible, hopefully by the end of FY 08. To the extent that funds remain unexpended at the end of FY 08, DED may request that a portion of this funding be reappropriated in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Insurance

AGENDA NO.: 28

AGENCY: Commissioner of Insurance

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative / Fiscal	\$0	0
Interagency Transfers:	\$0	Market Compliance	\$29,000,000	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$29,000,000			
Federal Funds:	\$0			
Total	<u>\$29,000,000</u>	Total	<u>\$29,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$29 M statutory dedication-Insure LA Incentive Program Fund within the Department of Insurance's Market Compliance Program as part of the first round of insurance company applications for the Commissioner's Insure Louisiana Incentive Program, which was created via Act 447 (HB 678) of the 2007 Regular Legislative Session.

The following property insurers have applied and have met the qualifications of the program to be granted the award:

- *Occidental Fire & Casualty of North Carolina - \$10 M grant (Most recent A.M. Best rating: A-)
- *Companion Property & Casualty Insurance Company - \$2 M grant (Most recent A.M. Best rating: A)
- *Southern Fidelity Insurance Company - \$7 M grant (Most recent A.M. Best rating: A)
- *Imperial Fire & Casualty Insurance Company - \$5 M grant (Most recent A.M. Best rating: B++)
- *ASI Lloyds - \$5 M grant (Most recent A.M. Best rating: B++)

If approved, the Department of Insurance will budget the \$29 M in the other charges expenditure category and the awarded companies will receive awards on 1/4/08.

The grant receiving companies are entitled to earn the grant at the rate of 20% per year for each year the insurer is in compliance with the reporting requirements of Act 447 of 2007 and Regulation 82 of the Administrative Rules. This requirement is in place so the insurer can earn the entire grant award after five years of full compliance with the requirements. The insurance companies must pledge the full amount of the grant to the Department of Insurance (DOI). For example, if an insurer receives a \$2 M grant award, the funds must be placed in qualifying investments such as stocks, bonds, CDs, savings accounts, etc. The insurance companies will have immediate access to all interest earned on the grant award from the beginning of the program. Each year the insurer complies with program requirements, 20% of the award or in this example \$400,000 will be fully accessible by the insurer. According to Regulation 82, if the insurer does not meet the program requirements during any year, but shows promise of future compliance based on good cause, the Commissioner of Insurance may extend the time period in order for the insurer to earn the entire grant. This program could potentially last up to 6 years.

Reporting Requirements:

Each grantee shall report annually by March 1 of each year on a form acceptable to the Commissioner of Insurance the following information: 1.) The amount of premium written under the program, 2.) The amount of premium associated with policies for which the LA Citizens Property Insurance Corporation was the immediate previous insurer, 3.) The amount of premium associated with properties located in the Federal Gulf Opportunity Zone Act of 2005 (GO ZONE).

Declaration of Default:

An insurer can be considered in default of program requirements if the following situations exist: 1.) Insurer fails at any time to meet the specific minimum requirements, 2.) Insurer fails to maintain a certificate of authority for the line or lines of insurance written pursuant to the grant program, 3.) Insurer fails to comply with any other applicable provisions of R.S. 22:3301 or Regulation 82. Any grantee in default is liable for and will repay all grant funds that have not been earned.

Means of Financing:

December 19, 2007

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

The Insure LA Incentive Program Fund was created via Act 447 (HB 678) of the 2007 Regular Session. Of the \$972.3 M in SGF deposited into various statutory dedicated funds within Act 208 (HB 615) of the 2007 Regular Session, \$100 M of the \$972.3 M was deposited into the Insure LA Incentive Program Fund for this program.

Upon approval of this BA-7, there will be \$71 M remaining within the Insurance LA Incentive Program Fund to be appropriated for other potential grant recipients during the second round of applications, which is expected to begin 2/1/08 with a deadline to receive applications of 2/29/08. The Department of Insurance is anticipating to review the second round of applications in March 2008 and seek approval from the Joint Legislative Committee on the Budget (JLCB) in April with the first checks being awarded 5/1/08.

Program Guidelines:

The Insure Louisiana Incentive Program was created via Act 447 (HB 678) of the 2007 Regular Session and has been designed to stimulate additional property insurance capacity within LA. The program is a state match program for property insurers who commit to writing new business in LA. The commissioner of insurance may grant matching capital funds to qualified property insurers. The provisions of the program as outlined within statute are as follows:

- 1.) Participating insurers must be in business and have assets of at least \$25 M and have reinsurance.
- 2.) Participating insurers must agree to write the new property insurance policies for a minimum of 5 years.
- 3.) Insurers who leave LA before the 5-year period will have to return the grant money on a prorated basis.
- 4.) 25% of the new business must come from policyholders now covered by the LA Citizens Property Insurance Corporation.
- 5.) Within the initial allocation of grants, the commissioner of insurance shall allocate 20% of the total allocation appropriated by the legislature to domestic insurers.
- 6.) Grant recipients shall have 24 months to meet the requirement of taking 25% of Citizens' book of business.
- 7.) At least 50% of the net written premium shall be received from policyholders whose property is located in parishes included within the GO ZONE.
- 8.) Of the 25% policyholders that must come from the Citizens book of business, at least 50% of those policyholders must have property located within the GO ZONE.
- 9.) The maximum grant award is \$10 M and the minimum is \$2 M.
- 10.) Requires insurers to write \$2 in new premiums for each \$1 of capital (2 to 1).
- 11.) Capital and surplus in an amount not less than \$25 M.
- 12.) A.M. Best rating of B++ or better or an equivalent rating by a nationally recognized rating service.

Example of How the Program Will Work:

Company XYZ commits \$10 M of its own money, the state will match the \$10 M and therefore under the proposal the insurer will be required to write \$40 M in new property coverage. Of this new property coverage, 25% or \$10 M must come from current Citizens Property Insurance Corporation's book of business. Also of the \$10 M that must come from current Citizens Property Insurance Corporation's book of business, at least 50% or \$5 M must have property located within the 37 parishes included within the Federal Gulf Opportunity Zone Act (GO ZONE).

According to the DOI, the overall program is expected to increase the private insurance market capacity within LA by approximately 15%.

II. IMPACT ON FUTURE FISCAL YEARS

This is one-time grant funding in FY 08. Per statute, any monies remaining in the fund at the end of FY 08 will revert to the SGF.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$0			
Total	<u>\$3,355,400</u>	Total	<u>\$3,355,400</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget interagency transfer funding (State Emergency Response Funds or SERF) to GOHSEP for the purchase of generators for the medical special needs shelters as identified and recommended by DHH and DSS. A redundant power source must be provided on site in order for DHH to open a medical special needs shelter. These generators will assure power for patients who are on life-support systems and are sheltered on these sites during times of emergency evacuations.

This funding will result in generators being installed in the following locations:

Generators	Cost	Installation	Fuel Cost	Total
LSU Field House	\$220,000	\$70,000	\$200	\$290,200
Bossier City	\$700,000	\$70,000	\$200	\$770,200
UL-Monroe	\$700,000	\$43,000	\$200	\$743,200
Heymann Ctr-Laf	\$350,000	\$70,000	\$200	\$420,200
Southeastern	\$200,000	\$43,000	\$200	\$243,200
Nichols	\$400,000	\$43,000	\$200	\$443,200
McNeese	\$400,000	\$43,000	\$200	\$443,200
TOTAL	\$2,970,000	\$382,000	\$1,400	\$3,353,400

In order to ensure and maintain proper operating capability, each generator must be run periodically, optimally twice a month for two hours at a time. This will require 10 gallons of fuel for each site per month or 120 gallons per year per site. For FY 08, GOHSEP is requesting \$1,400 for fuel and \$2,000 for travel. Travel costs are estimated to be approximately \$2,000 in FY 08 for testing of the generators and periodic inspection.

Note: Individual generator costs are dependent upon the size necessary for each of the facilities listed above.

II. IMPACT ON FUTURE FISCAL YEARS

The estimated cost to maintain, provide fuel, and travel for maintenance of these generators is anticipated to be approximately \$45,000 annually. This includes \$35,000 for maintenance (assumed to be provided at no cost in FY 08), \$4,000 for fuel, and \$6,000 for travel for inspection and testing (full year cost).

Total	<u>\$1,000,000</u>	Total	<u>\$1,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget 2 separate grants totaling \$1 M. The first grant is a research grant from the U.S. Army Corp of Engineers (USACE) in the amount of \$150,000 (federal). This grant funding will allow DOTD to research the elevation of existing levees under the USACE jurisdiction in Plaquemines, St. Bernard, Orleans, and Jefferson Parishes.

In addition, the BA-7 budgets \$850,000 in TTF-Federal related to the Innovative Bridge Research & Construction (IBRC) Program Project Awards. These funds are 100% federal funds with no state match required. These funds will be used in conjunction with three innovative research projects which include:

1) The Missouri-Pacific Railroad Bridge in Iberia Parish. DOTD will expend a total of \$100,000 on this project in FY 08, with \$100,000 to be expended in FY 09. This project includes demonstrating fiber reinforced polymers to this bridge as a corrosion free bridge strengthening repair material. The long-term performance of this bridge will then be monitored to determine the success of this new approach to enhancing the transportation infrastructure in LA.

2) In addition, \$350,000 will be expended on the Caminada Bay Bridge (Grand Isle) in FY 08, with \$50,000 to be expended in FY 09. The proposed research will be to field-instrument, monitor, and analyze the design and construction of full integral abutment bridges for LA's soft and stiff soil conditions. Comparison of results will be submitted to the DOTD Bridge Design and Geotechnical Sections in the form of guidelines to incorporate into future designs.

3) Finally, \$400,000 of these IBRC funds will be utilized on the I-10 twin span bridge over Lake Pontchartrain. The main objective of this research project is to establish a bridge substructure health monitoring system for use in short-term and long-term monitoring purposes.

II. IMPACT ON FUTURE FISCAL YEARS

As previously mentioned, \$150,000 of this amount will be expended in FY 09.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Special Schools & Comm.

AGENDA NO.: 2

AGENCY: LA. Educational Television Authority

ANALYST: Mark Antoon

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration/Support Services	\$0	0
Interagency Transfers:	\$215,000	Broadcasting	\$215,000	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$215,000</u>	Total	<u>\$215,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT authority by \$215,000 in the Broadcasting Program to allow the agency to receive and expend monies from the Federal Emergency Management Agency (FEMA) earmarked to repair a transmitter damaged by Hurricane Katrina in FY 05. These funds are disbursed by the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP). No state match is required.

This repair is part of the ongoing reconstruction of the New Orleans transmitter site. The financing mechanism is the same one used for the previous repairs to this transmitter that have been funded through this process and approved by the JLCB in February 2007. The necessary equipment and services will be purchased through the capital outlay process. The agency will request FEMA reimbursement and FEMA will then authorize the GOHSEP to pay LETA, which, in turn transfers the funds to capital outlay. Facility Planning & Control has already approved this expenditure.

The expenditures for this project are as follows:

Transmitter Equipment

Triveni Digital Guidebuilder	\$9,000
ATSC Reference Receiver	\$4,800
Transport Stream ReMultiplexer	\$10,100
Integrated Receiver Decoders	\$20,300
PSIP Generator	\$29,100

Transmitter Support

Raised floor for transmitter	\$34,800
UPS backup power supply	\$3,500
MTM 400	\$26,800
Air conditioning	\$24,000

10% of prior year reimbursement which was withheld by FEMA in FY 07 but paid in FY 08.	\$52,600
<u>Total</u>	<u>\$215,000</u>

Flooding and other damage in the aftermath of Hurricane Katrina completely destroyed the New Orleans transmitter which is located at WLAE in Chalmette. Approval of this BA-7 and replacement of the transmitter will allow the agency to restore programming to the area which is currently not being served.

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 3

AGENCY: Subgrantee Assistance

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Disadvantaged or Disabled Student Support	\$0	0
Interagency Transfers:	\$0	Quality Educators	\$22,367,428	0
Self-Generated Revenue:	\$0	Classroom Technology	\$0	0
Statutory Dedications:	\$0	School Accountability and Improvement	\$0	0
Federal Funds:	\$22,367,428	Adult Education	\$0	0
		School and Community Support	\$0	0
Total	<u>\$22,367,428</u>	Total	<u>\$22,367,428</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$22,367,428 of a \$22,593,361 grant in Federal Funds from the U.S. Department of Education Hurricane Educator Assistance Program. The remaining \$225,933 is to be budgeted in the State Department of Education's State Activities Agency and will be used for the administration of these funds (see BA-7 #7). No state match is required.

The purpose of this grant is to provide funding to help recruit, retain, and compensate educators who commit to work for at least 3 years in an area in which a major disaster area was declared as a result of Hurricane Katrina or Hurricane Rita. The funds may be used for new and current teachers, principals, assistant principals, principal resident directors, assistant directors, and other educators. The Department of Education must allocate the grant funds by first giving priority to school districts with the highest percentages of public elementary and secondary schools that were closed as a result of the hurricanes as of 5/25/07. The next priority would be local school districts with public schools having a student-teacher ratio of at least 25 to 1, while remaining funds may be given to school districts with demonstrated needs as determined by the Superintendent of Education.

Local school districts are allowed to use the funds for the following:

salary premiums;
performance bonuses;
housing subsidies;
signing bonuses;
relocation costs;
loan forgiveness; and
other mechanisms aimed at recruiting and retaining educators.

The funds may not be used to provide a base salary for an educator; they may be used only as a supplement. School districts must give priority to teachers, principals, assistant principals, principal resident directors, assistant directors, and other educators who previously worked or lived in one of the affected areas; are currently employed in one of the schools in the affected area; and who commit to continue such employment for 3 years. However, educators from outside of the disaster areas are also eligible to receive such compensation if they commit to work for three years in an affected area.

II. IMPACT ON FUTURE FISCAL YEARS

The period of the grant award is from 8/15/07 through 8/14/12. Unexpended funds from this award are anticipated to be appropriated in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$300,000			
Federal Funds:	\$0			
Total	<u>\$300,000</u>	Total	<u>\$300,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the Statutory Dedications budget authority by \$300,000 in the Client Payments Program. The source of funding is the LA Military Family Assistance Fund which was established per Act 151 of 2005. The Military Family Assistance Fund was created to provide assistance to military families and is funded with donations from individual and corporation income tax returns and from private entities. As of August 2007, the balance in the fund is \$215,963. The State Treasurer's Office has projected that the total balance in the fund for the current fiscal year will grow to approximately \$300,000.

The funding will be used to provide need-based and lump-sum awards to active military persons or their families. Claims for need-based awards may be submitted for daily every day living expenses, such as utility bills, day care expenses, car maintenance costs, and medical bills. Claims for one-time lump sum awards may be submitted for extenuating circumstances for costs directly related to a service-related death or a service-related injury with a greater than 50% residual disability of the qualified military person. In addition, up to 5% of the funding can also be used to pay for state administrative expenses incurred by DSS and up to 5% of the fund can be used to pay for third party administrative expenses incurred by the Attorney General's Office. For the current fiscal year, DSS and the Attorney General's Office have indicated that any expenses related to the administration of this fund will be absorbed in the agencies budgets.

This BA-7 is contingent upon the Joint Legislative Committee on the Budget approval of the Cooperative Agreement between the Office of the Attorney General and the Military Family Assistance Board. This Cooperative Agreement is on the Joint Legislative Committee on the Budget agenda.

II. IMPACT ON FUTURE FISCAL YEARS

DSS anticipates that the LA Military Family Assistance Fund will generate, at a minimum, the same level of funding in future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$361,840 in the Client Services Program. The source of IAT is FEMA funds (100% federal) from the Governor's Office of Homeland Security & Emergency Preparedness. These are one-time funds to reimburse the agency for equipment and furniture lost or damaged in offices that were located in hurricanes Katrina and Rita impacted areas.

This funding will be used to replace equipment and furniture in Support Enforcement Services (\$29,284.32) and Field Operations (\$332,555.68).

II. IMPACT ON FUTURE FISCAL YEARS

A total of \$1.3 M was approved by FEMA to reimburse the Office of Family Support for equipment and furniture lost or damaged in hurricanes Katrina and Rita impacted areas. This BA-7 represents the portion of the reimbursement that the agency needs for the current fiscal year. The agency has until FY 09 to request the remainder of the funding.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$963,000 in the Administration & Executive Support program. The source of IAT is FEMA funds (100% federal) from the Governor's Office of Homeland Security & Emergency Preparedness. These are one-time funds to reimburse the agency for equipment and furniture lost or damaged in offices that were located in hurricanes Katrina and Rita impacted areas.

This request was previously submitted in FY 07 and approved by the JLCB on April 20, 2007; however, the agency encountered some unexpected restrictions in the FEMA guidelines that hindered the reimbursement request. The agency has since resolved these issues with FEMA and has received approval to be reimbursed. The funding will be allocated to offices in the following regions:

Office of Community Services

New Orleans	\$ 25,988
St. Bernard	\$ 76,235
Jefferson	<u>\$ 488</u>
	\$102,711

LA Rehabilitative Services

Approved By JLCB**

DEPARTMENT: Elem. & Secondary Educ.

AGENDA NO.: 7

AGENCY: State Activities

ANALYST: Mary Kathryn Drago

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Executive Office Program	\$0	0
Interagency Transfers:	\$0	Office of Management and Finance	\$0	0
Self-Generated Revenue:	\$0	Office of Quality Educators	\$225,933	0
Statutory Dedications:	\$0	Office of Student and School Performance	\$0	0
		Office of School and Community Support	\$0	0
Federal Funds:	\$225,933	Regional Service Centers Program	\$0	0
Total	<u>\$225,933</u>	Total	<u>\$225,933</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$225,933 in Federal Funds from the U.S. Department of Education Hurricane Educator Assistance Program. This amount of funding represents 1% of the amount provided to LA for the program, and will be used for the administration of those funds (see BA-7 #3). No state match is required.

The administration dollars will be budgeted as follows:

Salaries	\$173,795
Related Benefits	<u>\$52,138</u>
Total	\$225,933

These funds may be used to supplement current employees' salaries that provide assistance for the administration of these funds. The period of the grant award is from 8/15/07 through 8/14/12. Therefore, the Department of Education estimates that a small percentage of a program staff and a fiscal staff employee's salaries will be prorated using these grant funds over the 5-year period.

II. IMPACT ON FUTURE FISCAL YEARS

The period of the grant award is from 8/15/07 through 8/14/12. Unexpended funds from this award are anticipated to be appropriated in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

DEPARTMENT: Executive

AGENDA NO.: 8

AGENCY: Manufactured Housing Commission

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$22,656	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$13,856			
Federal Funds:	\$8,800			
Total	<u>\$22,656</u>	Total	<u>\$22,656</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is twofold. First, the LA Manufactured Housing Commission's (LMHC) current office lease will expire on 12/9/07. The agency has outgrown its 800 sq. ft. office and is scheduled to move into a larger space. This new space will cost an additional \$2,700 (\$450 X 6 months) for the second half of FY 08 and an additional \$2,700 (\$1,350 X 2 months) for November and December of 2007 as the LMHC must complete this transition prior to the beginning of its licensing renewal process in December 2007. Also, an additional \$4,156 is budgeted for office supplies and \$2,400 for utilities.

In addition, the LMHC is requesting an additional \$10,700 for the expenses related to the completion of its web-based installation program to be used in conjunction with the agency's inspection staff and is designed to collect more complete and accurate data which will accelerate the agency's response to complaints regarding improper installation. The current budget for this contract contains a total of \$10,000. These additional funds were originally anticipated by the LMHC but not included in its FY 08 budget.

Source of Statutory Dedications is licensing and inspections fees while the federal funds are provided by the Department of Housing & Urban Development (HUD) to perform services in connection with the National Manufactured Home Construction & Safety Standard Act of 1974. Additional federal funding in the amount of \$8,800 is also available from HUD through the LMHC inspection program and will be budgeted via this BA-7.

NOTE: The LMHC has sufficient sufficient statutory dedication revenue beyond its current budget to absorb this additional cost.

II. IMPACT ON FUTURE FISCAL YEARS

The additional cost related to the move into the new facility is approximately \$6,000 in subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

AGENDA NO.: 9

AGENCY: LA. Commission on Law Enforcement

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Federal Programs	\$18,000,000	0
Interagency Transfers:	\$0	State Programs	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$18,000,000			
Total	<u>\$18,000,000</u>	Total	<u>\$18,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget funding received through the Justice Assistance Grant program (JAG) of the U.S. Department of Justice to provide for local law enforcement initiatives in communities identified as being in great need and significantly impacted by the hurricanes of 2005. The total award to the state is \$24,579,509 with the remaining \$6,579,509 to be budgeted prior to 6/30/11. No state match is required. A total of \$8 M (minus 5% administration) of this award is earmarked for specific programs as detailed below:

\$1 M to the Greater New Orleans Knowledge Works (private non-profit) for the Greater New Orleans After-School Partnership for after school programs in conjunction with the New Orleans Police Department for the city of New Orleans;

\$1 M to the Supreme Court of LA for the creation of a Criminal Justice Resource Center;

\$1 M to the LA District Attorneys' Association for electronic file interoperability system;

\$500,000 to the Gulf Coast Regional Community Policing Institute for training and professional development services to law enforcement departments in Katrina affected parishes;

\$4.5 M to the New Orleans Police and Justice Foundation to support the New Orleans Crime Coalition Initiative.

The remainder of the funding less \$165,589 for administrative costs in FY 08, shall be distributed through a competitive, needs based, priority driven process to the sheriffs' offices affected by Hurricane Katrina (Orleans, St. Bernard, Plaquemines, and Washington) for local law enforcement initiatives which primarily consists of paying salaries. According to the LCLE, Washington Parish will expend its funds on equipment. Jefferson and St. Tammany Parishes were eligible but chose not to participate.

The FY 08 administrative costs include pro-rated salaries for staff of the LCLE who directly administer these funds as well as indirect costs for administrative employees with oversight into this grant. The grant authorizes 5% or \$1,228,975 to be expended on administrative costs through 6/30/11. FY 08 administrative costs related to this grant are as follows (additional expenses will result through the end of the grant period in 2011):

Salaries - \$60,700
Related Benefits - \$16,389
Travel - \$6,000
Operating Services - \$4,500
Supplies - \$3,000
Acquisitions - \$75,000
Total - \$165,589

Note: Acquisitions expenses include the purchase of 2 vehicles (\$25,000/vehicle) to be utilized by the grant staff and \$25,000

October 25, 2007

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

for other equipment necessary for this project such as computers, laptops, etc.

According to the LCLE, the total grant will be distributed as follows:

Orleans Parish - \$9,262,981
Plaquemines Parish - \$5,743,326
St. Bernard Parish - \$5,832,054
Washington Parish - \$137,170
All Parishes - \$2,375,000
Administration - \$1,228,978
Total Funding - \$24,579,509

II. IMPACT ON FUTURE FISCAL YEARS

The total award to the state is \$24,579,509 with the remaining \$6,579,509 to be expended prior to 6/30/11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Executive

AGENDA NO.: 10

AGENCY: Office of Financial Institutions

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Office of Financial Inst Program	\$659,599	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$659,599			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$659,599</u>	Total	<u>\$659,599</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget additional SGR to the Office of Financial Institutions (OFI) which will allow the agency to institute a new policy concerning special entrance rates for Compliance Examiners and related positions. All employees in the affected job titles (85 members of the staff) who will be impacted by this plan on the date of implementation (11/5/07) shall either be brought up to the new hire rate or receive a 20% increase, whichever is greater. OFI began discussions regarding its need to address retention issues with Civil Service in 2005. This new policy has received approval from Civil Service. OFI was notified on 8/5/07.

According to OFI, the agency has hired 58 examiners since January 2000. Of this number, approximately 50% have left to pursue other higher paying job opportunities (with the same duties) with entities such as the Federal Deposit Insurance Corporation (FDIC), the Federal Reserve and the National Credit Union Association (NCUA). OFI began discussion with Civil Service in 2005 but only recently received approval with the proposed plan. According to OFI, this proposal will have a positive impact on retention rates for these positions.

While retention of higher level examiners is not an issue, the proposal will also increase the pay of higher level individuals in the agency to the same degree in order to prevent salary compression between lower level examiners and higher level supervisors. The agency anticipates that this will encourage supervisory employees who are nearing retirement to remain employed for a longer period which will allow for further training of individuals to ultimately fill these positions in the future.

While not part of this BA-7, OFI has indicated that it has initiated a Civil Service job study which would further increase these salaries in the future if approved by Civil Service. Approval of this job study would result in an increase in salary and related benefits of \$20,433 in FY 08 and will increase to \$208,758 in FY 12. Any additional funding required for implementation will likely be requested in the 2008 Regular Legislative Session as the Civil Service response is anticipated in April 2008.

NOTE: The proposed pay plan will cost \$659,599 in FY 08 and will increase to \$1,155,219 in FY 12. Half will be absorbed by assessments to the industry. The remainder will be funded with excess SGR which currently revert to the state general fund.

II. IMPACT ON FUTURE FISCAL YEARS

The annualization of this BA-7 for FY 09 is \$1,090,963 and will increase to \$1,155,219 in FY 12. Approval of the job study would result in an increase in salary and related benefits of \$20,433 in FY 08 and will increase to \$208,758 in FY 12.

Statutory Dedications:	\$0	Museum and Other Operations	\$0	0
Federal Funds:	\$0	Commercial	\$0	0
Total	<u>\$70,501</u>	Total	<u>\$70,501</u>	<u>0</u>

I. SUMMARY/COMMENTS

The agency is requesting approval to increase its existing budget by \$70,501 to provide for additional microfilm services. Microfilm services are based on agency requests and are not controlled by the Secretary of State's office. The Secretary of State says that additional microfilm services have been requested by local and state agencies. These requests exceed the current authorized budget. Therefore the Secretary of State is requesting an increase in budget authority in this BA-7.

The funding source for state agencies is IAT (\$47,501). The funding source for local governments is SGR (\$23,000).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Federal Funds:	\$0	Commercial	\$0	0
Total	<u>\$50,000</u>	Total	<u>\$50,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The agency is requesting approval to add \$50,000 of IAT received from the Office of Emergency Preparedness (OEP). The source of the IAT funding is federal FEMA funding received by OEP. No state match is required. The revenue is to provide for replacement of 2 scanning systems (one in St. Bernard Parish and one in Plaquemines Parish) that were destroyed during Hurricane Katrina. The scanning equipment is utilized on election night to electronically count absentee ballots. Until the damaged equipment in these two parishes is replaced, the parishes will utilize back up equipment, if available, or count absentee ballots by hand.

Statutory Dedications:	\$99,978	Museum and Other Operations	\$99,978	0
Federal Funds:	\$0	Commercial	\$0	0
Total	<u>\$99,978</u>	Total	<u>\$99,978</u>	<u>0</u>

I. SUMMARY/COMMENTS

The agency is requesting approval to add \$99,978 of statutory dedications from the Shreveport Riverfront Convention Center Fund to provide for repairs at the LA State Exhibition Museum in Shreveport.

The revenue derives from a tax on the furnishing of sleeping rooms, cottages or cabins by hotels in the city of Shreveport and is deposited in a special fund named the Shreveport Riverfront & Convention Center and Independence Stadium Fund. Monies in the fund are subject to appropriation by the legislature. Unexpended monies in the fund remain in the fund and do not revert to the SGF. One and one-third percent of the monies in the fund are deposited in a special account exclusively for use by the LA State Exhibit Museum in Shreveport. The amount in this BA-7 includes deposits from prior years collections and reflects the total year to date deposits that are in the special fund. The agency projects the annual recurring collections that are deposited in the fund at approximately \$38,000. The amount requested in the BA-7 will be added to the \$948,706 total funding that is included in the agency's existing budget for this museum. The museum's total funding in the existing budget is composed of \$910,628 general fund and \$38,078 statutory dedications from the Shreveport Riverfront & Convention Center Fund.

The requested revenue will be utilized to provide for repairs to 22 dioramas (miniature display scenes valued at \$1 M), replace broken concrete in the courtyard and entrances, lighting for the new parking lot and to upgrade existing doors and locks.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>(\$14,245)</u>	Total	<u>(\$14,245)</u>	<u>(2)</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer funding associated with 2 vacant positions and the SGF associated with these positions for the remainder of this fiscal year to the Northeast LA War Veterans' Home (NELWVH). This transfer of positions and funding will allow the NELWVH to increase its table of organization (T.O.) in order to meet the Office of Risk Management's requirement of a Safety Program Coordinator and a position to coordinate compliance under medicare rules and regulations that cannot be absorbed with existing staff.

According to the LA War Veterans' Home staff, it will eliminate 2 vacant certified nursing assistant (CNA) positions at its facility (this facility currently has 13 CNA vacancies). This reduction in its staff will not impact operations due to the ongoing reduction in census at this facility from 156 to 117 in FY 09. The current census is 137 and will be reduced to 117 prior to FY 09. The LA War Veterans' Home currently has a total of 48 CNAs on staff.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 will result in a permanent reduction of the BA-7 amount from this agency's budget.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$14,245	Northeast War Veterans Home	\$14,245	2
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$14,245</u>	Total	<u>\$14,245</u>	<u>2</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the SGF budget and the Table of Organization (T.O.) at the Northeast LA War Veterans' Home (NELWVH). These funds and 2 positions will be transferred from the LA War Veterans' Home (LWVH) to allow this agency to meet requirements in the areas of risk management and medicare compliance.

The Safety Program Coordinator is being requested due to requirements by 3 areas of jurisdiction over this facility which includes the Office of Risk Management (ORM), Veterans Administration (VA) and Medicare. Additional requirements by ORM Compliance & Reporting, and compliance with new federal VA and Medicare regulations and expectations on tracking and trending, and reporting of incidents and accidents have generated the need for this additional position. The annual salary of this position is \$35,069 and will be funded with a combination of SGF (transferred from the LWVH), Federal and SGR.

In addition, an Auditor 3 position with a salary of \$52,624 is being requested to provide oversight, coordination, control and accountability of the Medicare Program. This position, housed at the NELWVH, will assure that all of the LA Department of Veterans Affairs nursing facilities remain in compliance with the Medicare Program and avoid any penalties associated with non-compliance. Funding for this position will be provided by a combination of SGF, Federal and SGR in FY 08. However, this facility will request that this position be funded entirely with SGF in subsequent fiscal years due its work with all nursing facilities.

II. IMPACT ON FUTURE FISCAL YEARS

The annualized cost of the 2 new positions at the NELWVH for FY 09 is approximately \$110,000. As noted previously, the NELWVH will request 100% SGF for the Auditor 3 position which would equate to approximately \$65,000. The Safety Coordinator position will be funded with a combination of SGF (15%), Federal (50%) and SGR (35%) with a total cost of approximately \$45,000.

Federal Funds:	\$184,077			
Total	<u>\$368,154</u>	Total	<u>\$368,154</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (Companion to 17) is to increase the expenditure authority of Medical Vendor Administration by \$368,154 (\$184,077 Stat Ded and \$184,077 Federal). The source of the Statutory Dedications is revenue from the Nursing Home Residents' Trust Fund. The source of federal funds is Title XIX federal matching funds.

Information provided by the Department of Health & Hospitals (DHH) indicates that the department will enter into a memorandum of understanding (MOU) with the Governor's Office of Elderly Affairs (GOEA), and transfer these funds to the GOEA for the purpose of providing assistance to nursing homes regarding workforce retention. The funding will be directed for workforce issues in the New Orleans and Lake Charles regions (hurricane impacted areas).

II. IMPACT ON FUTURE FISCAL YEARS

The total funding to be provided to the GOEA is \$557,314 over 2 fiscal years. The remaining \$189,160 (\$94,580 Stat Ded and \$94,580 Federal) is anticipated to be appropriated in FY 09.

Federal Funds:	\$0	Senior Centers	\$0	0
Total	<u>\$269,574</u>	Total	<u>\$269,574</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority in order to expend funding received from the Department of Health & Hospitals. DHH will transfer a total of \$368,154 to the Office of Elderly Affairs, but an increase of budget authority of only \$269,574 is needed as excess budget authority of \$98,580 was provided during the budget process in anticipation of these funds. These funds are designed to address the nursing home staffing and workforce issues in the New Orleans and Lake Charles areas. The project has 3 major goals: 1) to work in a collaborative fashion with New Orleans and Lake Charles providers to help them learn and implement evidence-based practices associated with attracting and retaining staff; 2) to help nursing home staffs address the particular challenges of living and working in or near the recovering cities by engaging case managers familiar with the needs of the healthcare workforce; and 3) to share with all providers the lessons learned from the project through a conference held at three sites at the end of the project.

Funding for this project will be provided through the Resident Trust Fund which is a federally mandated fund administered by DHH and is comprised of fines collected from nursing homes when they have been found out of compliance with state or federal regulations. Statutory requirements provide that these funds can only be used to improve the quality of life and care for residents in nursing homes.

FY 08 Expenses include:

Consultants - \$205,959
Meeting Costs - \$37,500
Case Mgt - \$67,195
Louisiana Public Broadcasting (LPB) - \$35,000
Conference - \$22,500
Total - \$368,154

These costs include fees for consultants \$205,959 from BNF Consulting from Rhode Island which will provide nursing home management training, resources and implementation strategies to enhance workforce retention in the New Orleans and Lake Charles areas.

Meeting costs of \$37,500 include learning sessions which are one-day conferences that are held in the New Orleans and Lake Charles areas which bring in nursing home staffs for training and discussion.

Case management services \$67,195 includes a person tasked with helping to meet the daily living challenges of the staff in such areas as day care, transportation, health care, shopping, housing, etc. Elderly Affairs will contract for these services with the Jefferson Parish Council on Aging.

LPB will be contracted with at a cost of \$35,000 to create a 30 minute video which will provide educational tools for nursing homes throughout Louisiana and the country. This video will include interviews with staff that capture best practices in staff retention and training.

October 25, 2007

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Finally, conferences will be held in New Orleans, Lafayette, and Shreveport in FY 08 to disseminate the New Orleans project findings. An additional conference will be held in FY 09 to disseminate the Lake Charles area findings. A site for this conference has yet to be determined.

II. IMPACT ON FUTURE FISCAL YEARS

Elderly Affairs anticipates receiving an additional \$189,161 in FY 09 to continue work in the New Orleans and Lake Charles areas.

Federal Funds:	\$407,203			
Total	<u>\$407,203</u>	Total	<u>\$407,203</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the federal budget authority by \$407,203 in the Community Health Program. The source of funding is the Mental Health Block Grant (MHBG) from the Substance Abuse & Mental Health Services Administration. This BA-7 increases the total MHBG allocation amount for FY 08 to \$6.3 M. This grant does not require a state match.

This grant will be used to carry out the State plan for Comprehensive Community Mental Health Services through community programs. Services provided include, but are not limited to, outpatient services for children, the elderly, individuals with a serious mental illness, and residents of the services areas of the centers who have been discharged from inpatient treatment at a mental health facility; 24-hour per day emergency care services; day treatment or other partial hospitalization services and psycho-social rehabilitation services; and screening for patients being considered for admissions to state mental health facilities.

Total	<u>\$1,048,995</u>	Total	<u>\$1,048,995</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the federal budget authority by \$1,048,995 in the Community Mental Health Program. The source of funding is a grant from the Substance Abuse & Mental Health Services Administration (SAMHSA) for the FEMA Regular Services Plan phase of the Federal Crisis Counseling Program for those individuals affected by Hurricane Katrina in the 33 undeclared parishes of the State. This grant does not require a state match.

This BA-7 is an extension of the \$2 M federal grant that was approved by the Joint Legislative Committee on the Budget on 10/20/06, which was scheduled to end on 6/30/07. The State received a no-cost time extension of the grant through February 2008. Under this grant, crisis counseling and outreach services will continue to be provided to evacuees in shelters and those spread out through the community who may be living on their own or with relatives and friends as well as priority populations. Priority populations will include people with mental illness, addictive disorders, developmental disabilities, medically fragile including those with HIV/AIDS, pregnant women, the elderly or those with co-occurring disorders. The parishes that will be served are: Allen, Avoyelles, Beauregard, Bienville, Bossier, Caddo, Caldwell, Catahoula, Claiborne, Concordia, DeSoto, East Carroll, Evangeline, Franklin, Grant, Jackson, LaSalle, Lincoln, Madison, Morehouse, Natchitoches, Ouachita, Rapides, Red River, Richland, Sabine, St. Landry, Tensas, Union, Vernon, Webster, West Carroll, and Winn.

The funding for these services will be allocated to Personnel Costs (\$166,421) and Contracts (\$882,574).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. The Regular Services Program Crisis Counseling Program was scheduled to end on 6/30/07; however, the State requested and was approved for a no cost time extension of the budget and program period through 2/29/08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7; however, it should be noted that in anticipation of receiving the grant extension, the agency has already expended \$377,459 in the current fiscal year for these services under the authority granted in the Preamble of Act 18 (2007 Regular Legislative Session) which states that *"Any federal funds which are classified as disaster or emergency may be expended prior to approval of a BA-7 by the Joint Legislative Committee on the Budget upon the secretary's certifying to the governor that any delay would be detrimental to the state"*.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the federal budget authority by \$29,255,892 in the Community Mental Health Program. The source of funding is a grant from the Substance Abuse & Mental Health Services Administration (SAMHSA) for the FEMA Regular Services Plan phase of the Federal Crisis Counseling Program for those individuals affected by the hurricanes in the 31 declared parishes of the State. This grant does not require a state match.

This BA-7 is an extension of the \$34 M federal grant that was approved by the Joint Legislative Committee on the Budget on 10/20/06, which was scheduled to end on 6/30/07. The State received a no-cost time extension of the grant through February 2008. Under this grant, crisis counseling and outreach services will continue to be provided to individuals who evacuated and were victimized again by Hurricane Rita, individuals who stayed in the New Orleans Metropolitan Region, individuals who evacuated safely, individuals residing in mobile homes and travel trailers, registrants who were able to live in the same homes as prior to Katrina, rented homes, or with others, and individuals who were indirectly affected. The parishes that will be served are: Acadia, Ascension, Assumption, Calcasieu, Cameron, East Baton Rouge, East Feliciana, Iberia, Iberville, Jefferson, Jefferson Davis, Lafayette, Lafourche, Livingston, Orleans, Plaquemines, Pointe Coupee, St. Bernard, St. Charles, St. Helena, St. James, St. John the Baptist, St. Mary, St. Martin, St. Tammany, Tangipahoa, Terrebonne, Vermillion, Washington, West Baton Rouge, and West Feliciana.

The funding for these services will be allocated to Personnel Costs (\$11,235,234) and Contracts (\$18,020,658).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. The Regular Services Program Crisis Counseling Program was scheduled to end on 6/30/07; however, the State requested and was approved for a no-cost time extension of the budget and program period through 2/29/08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7; however, it should be noted that in anticipation of receiving the grant extension, the agency has already expended \$7,169,465 in the current fiscal year for these services under the authority granted in the Preamble of Act 18 (2007 Regular Legislative Session) which states that *"Any federal funds which are classified as disaster or emergency may be expended prior to approval of a BA-7 by the Joint Legislative Committee on the Budget upon the secretary's certifying to the governor that any delay would be detrimental to the state"*.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Environmental Quality

AGENDA NO.: 22

AGENCY: Office of Environmental Assessment

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Assessment	\$473,421	8
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$473,421			
Federal Funds:	\$0			
Total	<u>\$473,421</u>	Total	<u>\$473,421</u>	<u>8</u>

I. SUMMARY/COMMENTS

The Department of Environmental Quality (DEQ) is requesting to budget an additional \$473,421 in Environmental Trust Funds and add 8 positions in FY 08 for the purpose of meeting the requirements of the Underground Storage Tank (UST) Compliance Act portions of the Federal Energy Act of 2005. The requested funding is sufficient for 8 months of employment for the additional positions and associated costs. The UST Compliance Act shifts the focus of UST activities toward the prevention of releases into the environment rather than the clean up that takes place after a release has occurred. The key requirements of the Act which will require increased effort/expenditures by DEQ include: (1) implementation of the Delivery Prohibition (identification of and prevention of delivery of fuel to underground tanks that are grossly out of compliance), (2) Recurring Inspection component (requires inspection of all underground tank facilities at least once every three years), (3) Operator Training (ensures all underground tank facility operators have received training beginning August 2009), and (4) Public Record (States must make available information on number and causes of UST system releases). The Act also requires Secondary Containment or Financial Responsibility for all newly installed Underground Storage Tanks or UST's that undergo major repairs; and a State Compliance Report for all government owned tanks.

According to DEQ, the ability of the agency to conduct ongoing UST activities has been strained by the focus on accomplishing additional inspections and the other requirements of the Energy Act. Staff members have not been able to work as many of the installations, closures and remediation issues that they were able to work prior to this work load being added. As well, \$11 million in federal grant monies have been used to accomplish almost 1,800 site inspections (conducted by a combination of EPA inspectors, privately contracted inspectors and DEQ inspectors) in FY 07 to address concerns related to tanks in the areas affected by Hurricanes Katrina and Rita. These inspections have brought to light additional sites that will need to be closed and remediated; adding to the immediate workload of DEQ staff.

There are approximately 12,000 tanks at approximately 4,700 operating facilities in LA. DEQ currently inspects 15% of facilities each year (approximately 708 facilities). Requiring that all 4,700 tanks be inspected within a 3-year time frame will more than double the number of inspections (to approximately 1,567) required to be conducted by DEQ on an annual recurring basis. Out of the 8 additional positions requested, 4 of these positions (Environmental Scientists) will be used to accomplish the increased site inspections. DEQ has indicated that the 2 additional positions (Environmental Scientist Supervisors) are working supervisors that are needed to coordinate existing and new field staff as well as gather the required data on UST releases. These positions will also conduct and oversee inspections required by the Act. DEQ currently employs approximately 20 positions to accomplish its current inspections. These 6 additional positions, together with existing staff, will be used when fully trained to inspect roughly twice the number of installations per year.

The Delivery Prohibition program will require recurring field and office activities to implement the regulations currently being promulgated. The Public Record report will be an annual report that will require recordkeeping and report writing each year. The Operator Training program will require significant resources from the UST Division to work with the regulated community continually in implementing this requirement and the associated recurring training component. DEQ has indicated that the remaining 2 additional positions (Environmental Scientist Staff) will be used to administer the public records as required by the Act as well as establish and manage the Operator Training Program. These positions will also coordinate the delivery prohibition program and will assist with remediation activities that are no longer being performed by

October 25, 2007

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

staff who are primarily inspectors.

FY 08 expenditures for 8 months are categorized as follows:

Salaries	\$266,004
Retirement	\$54,265
Medicare	\$3,857
Group Insurance	\$45,515
Travel	\$12,000
Operating Services-Telephone	\$500
Field Supplies	\$1,000
Office Supplies	\$2,000
Uniforms	\$2,280
Automotive Supplies-Gas, oil, etc.	\$16,000
Vehicles (4)	<u>\$70,000</u>
Total Cost in FY 08	\$473,421

II. IMPACT ON FUTURE FISCAL YEARS

The annualization of the additional 8 positions and associated expenses, with merit increases in subsequent years, will result in an increase in expenditures in FY 09 of \$609,419, \$632,485 in FY 10, \$656,474 in FY 11, and \$681,421 in FY 12. These expenditures will be funded by Environmental Trust Funds; but are reimbursable by the Motor Fuels Trust Fund (MFTF) as costs incurred by DEQ to administer the program. Proper oversight of installation and closure activities should lead to fewer sites entering the remediation process. Reducing the number of sites in the remediation universe will reduce long-term expenditures from the Motor Fuels Tank Fund which provides for reimbursement for the clean up of most UST sites. The Motor Fuels Tank Fund is funded by a fee of \$72 per 9,000 gallons (8 tenths of 1¢ per gallon) on the first sale or delivery of each separate bulk withdrawal of motor fuels. The MFTF had a balance of \$28 M as of 6/30/07. In FY 07 the Trust Fund generated \$22.3 M and withdrew \$18.1 M for expenses (\$16.6 M for reimbursement for remediation and cleanup of leaking underground storage tanks, and \$1.5 M for administrative reimbursement cost to the Environmental Trust Fund).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

Statutory Dedications:	\$0			
Federal Funds:	\$1,500,027			
Total	<u>\$1,500,027</u>	Total	<u>\$1,500,027</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$1,500,027 of federal funds into the Enforcement Division of the Office of the Secretary. Pursuant to a Joint Enforcement Agreement (JEA), the federal funds were earmarked for cooperative enforcement endeavors between the U.S. Department of Commerce (DOC), National Oceanic Atmospheric Administration, Office of Law Enforcement (NOAA/OLE) and the LA Department of Wildlife & Fisheries Law Enforcement Division (LDWF/LE). The Joint Enforcement Agreement is to facilitate the operations, administration and funding of the LDWF/LE to enforce federal laws and regulations under the Magnuson-Stevens Fishery Conservation & Management Act and the Lacey Act. These funds will enable the State of LA to aid the Federal Government in fishery conservation and management activities. The NOAA has the authority under these 2 Acts to utilize the personnel, services, equipment, and facilities of state agencies on a reimbursable basis or otherwise.

The Department of Wildlife & Fisheries will use the funds for overtime hours paid, repairs to equipment, fuel, oil, and acquisitions. The funds will be budgeted as follows: salaries-overtime (\$858,920), related benefits (\$12,454), travel (\$30,000), operating services (\$34,653), supplies (\$290,000), and acquisitions (\$274,000). Specifically, the Department will purchase 24 Satellite 2-way radios (offshore capable) and 10 Outboard motors. It is anticipated that the Enforcement Division will work a total of 13,389 of man-hours of overtime. These figures were calculated as described in the Joint Enforcement Agreement.

No matching requirements are necessary from the State.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$31,901,501			
Total	<u>\$31,901,501</u>	Total	<u>\$31,901,501</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$31,901,501 of federal funds into the Office of Fisheries within the Department of Wildlife & Fisheries. The U.S. Troop Readiness Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 provided funding to the National Oceanic Atmospheric Administration (NOAA) for necessary expenses related to the consequences of hurricanes Katrina and Rita on the shrimp and fishing industries. Pursuant to Section 4201 of the Act, the NOAA is granting funds to the Gulf States Marine Fisheries Commission for subgrant to the Gulf coastal states. LA's allocation of these funds is \$41.3 M to be used to provide for hurricane fisheries disaster recovery assistance programs consistent with the authorized uses of funds as specified in Section 115 of the Magnuson-Stevens Fishery Conservation & Management Reauthorization Act of 2006 to establish assistance programs for wild LA Gulf of Mexico commercial and recreational fishing industries affected by the hurricanes. The federal project is scheduled to begin in October 2007.

Two temporary professional-level positions will be hired for the term of the 5-year grant to oversee the work of contractors, conduct field monitoring, coordinate interagency activities, collect and analyze logbook and survey data, and provide liaison functions with the fishing industries.

The funds will be budgeted as follows:

Other Compensation - \$86,330 (pro-rated for eight months)
Related Benefits - \$22,704 (pro-rated for eight months)
Travel - \$8,472 (approximately 225 in-state trips involving overnight lodging and one day per diem)
Operating Services - \$32,738 (advertising for outreach to fishery participants, maintenance for auto, truck, and computers, and mail, delivery, and postage)
Supplies - \$35,017 (office and computer supplies, operating supplies i.e. gas and oil)
Professional Services - \$1,294,000 (contracts for accounting/auditing and project management consulting)
Other Charges - \$30,384,110 (assistance to commercial and recreational fishing)
Acquisitions - \$38,130 (nine computers for data acquisition and management and computer software upgrades)
Total - \$31,901,501

No matching requirements are necessary from the State.

II. IMPACT ON FUTURE FISCAL YEARS

Total funding in the amount of \$8,077,590 will be expended in FY 08-09.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Revenue

AGENDA NO.: 25

AGENCY: LA Tax Commission

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Property of Taxation Regulatory/Oversight	\$1,750,000	0
Interagency Transfers:	\$1,750,000	Supervision and Assistance to Local Assrs	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,750,000</u>	Total	<u>\$1,750,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT by \$1.75 M for contractual services at the LA Tax Commission (LTC) to hear property tax appeals by taxpayers and assessors from Orleans Parish. The source of IAT funding is SGR from the Tax Collection Program within the Office of Revenue. The Tax Collection Program derives approximately 45% (\$39.2 M in FY 08) of its operating budget from SGR that are primarily from late payment/delinquent fees and negligence fees related to collecting taxes. The Office of Revenue reports that tax collections and related late payment/delinquent/negligence fees are greater than anticipated during the appropriations process. As such, the Office of Revenue estimates \$1.75 M in SGR above the \$39.2 M appropriated by the Legislature is available for transfer to the LA Tax Commission to fund a contractor to assist in hearing tax appeals from taxpayers and assessors from Orleans Parish.

The LA Constitution requires local tax reassessments of property every 4 years. The required reassessments in Orleans Parish resulted in an unprecedented number of over 6,800 appeals in 2007. The LA Tax Commission is mandated by R.S. 47:1989 to hear property tax appeals after they are brought before the parish Board of Review, and a taxpayer or Assessor does not agree with the decision set forth by the Board of Review. Due to the unprecedented volume of appeals, the LA Tax Commission plans to engage a private firm to administer and hear the appeals filed for Orleans Parish. In years past, the LA Tax Commission has averaged approximately 150 appeals each year from the entire state.

Many factors have contributed to the large number of property tax appeals in Orleans Parish in 2007. Hurricane Katrina and its aftermath, in part, acted as the catalyst for the large number of appeals. Local tax assessors determine property values based on geographical and economic information applied to groups of residences and businesses. The sporadic nature of hurricane damage to residences and businesses, and sporadic refurbishing/rebuilding, has lead to inaccuracies in the tax values assigned to individual residences and businesses. Also, many taxpayers in Orleans Parish expected their assessed values to decline due to the storm and its aftermath. This situation was further exacerbated by historical under valuation of property tax values in Orleans Parish according to some experts on the subject.

The LA Tax Commission issued a request for proposals (RFP) on 9/28/07 seeking a consultant to manage all phases of appeals from Orleans Parish for the LTC. The deadline for submission of proposals for the RFP is 11/5/07. State law requires that the LTC complete taxpayer appeals by 12/31/07 for residential properties and by 1/15/08 for commercial properties. The RFP requires the proposer to administer 5,000 appeals. The RFP also states that an estimated 11% of these 5,000 appeals will be for commercial property.

The Orleans Parish Board of Review must submit its final property tax valuations to the LA Tax Commission no later than Monday, 10/22/07. Taxpayers and assessors have another ten days after 10/22/07 to challenge these property valuations with the LTC. The LTC will not know the exact number of appeals from Orleans until after this 10-day period.

There are a few potential problems with the LTC's efforts to obtain a contractor to handle these appeals. The Request for Proposal (RFP) by the LA Tax Commission requires the proposer to administer 5,000 appeals. At this time, there is no way to estimate how many appeals the contractor may have. It is also possible that percentage of commercial appeals may be greater

October 25, 2007

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

than 11% of the disputed appeals. Commercial appeals are much more time consuming and costly than residential appeals. The LTC could pay too much per appeal if the actual number of appeals is significantly less than the 5,000 described in the current RFP.

The LTC has suggested modifying the RFP to include the following bid increments:

1. Bid should include a lump sum cost for 250 – 1,500 appeals.
2. Bid should include a lump sum cost for 1,501 – 3,000 appeals.
3. Bid should include a lump sum cost for 3,000 appeals and above.

Adoption of these proposed changes should lessen the risk that the LTC will pay too much per appeal.

II. IMPACT ON FUTURE FISCAL YEARS

The appropriations bill gives the Department of Revenue authority to retain unappropriated SGR from late payment/delinquent fees and negligence fees from one fiscal year to the next. Appropriation and expenditure of an additional \$1.75 M for this request will decrease the self-generated revenues available for appropriation in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Economic Development

AGENDA NO.: 26

AGENCY: Office of Business Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development Program	\$4,144,080	0
Interagency Transfers:	\$0	Business Incentives Program	\$0	0

Statutory Dedications:	\$4,144,080			
Federal Funds:	\$0			
Total	<u>\$4,144,080</u>	Total	<u>\$4,144,080</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Statutorily Dedicated funds by \$4,144,080 to reimburse the department for Rapid Response Funds used to pay invoices from the Business Recovery Grant and Loan Program (BRGLP). The source of these statutorily dedicated funds are the Federal Community Development Block Grant (CDBG) from the Office of Community Development (OCD) for the BRGLP. The goal of the Business Recovery Grant & Loan Program is to assist small firms in hurricane affected parishes that have a chance to survive, contribute to the economy, and maintain and create jobs.

The Department of Economic Development submitted invoices totaling \$5.1 M to OCD on 5/24/07 for the second phase of the BRGLP program. To get funds to businesses quickly, DED "seeded" reimbursement for the second round of the BRGLP with SGF appropriated for the Rapid Response fund. During this time, the LA Legislative Auditor Office began conducting a sample audit of the second phase dispersal requests and found some inconsistencies among the records being maintained by intermediaries who administer the BRGLP. On 6/21/07, OCD suspended reimbursements to DED for the second round of the BRGLP pending audit work by the Legislative Auditor. Since that time, OCD has paid \$3.3 M in Phase 2 invoices. However, DED received these funds too late to submit a carry-forward BA-7 for these funds. DED is requesting a total of \$4,144,080 in additional appropriation authority and believes OCD will eventually reimburse the department for \$4.1 M of the funds seeded by the Rapid Response Fund.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$75,000</u>	Total	<u>\$75,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR budget authority by \$75,000 in the Administration & Executive Support Program. The source of funding is a private grant from the Annie E. Casey Foundation, which expires 12/31/07. No SGF match is required.

The agency received this funding in FY 07 via BA-7 approved by JLCB on December 15, 2006, but was unable to contract with two consultants to assist with the planning of neighborhood-based, family-centered service delivery systems in Orleans and Calcasieu Parishes as specified by the grant before 6/30/07.

The agency will use approximately \$45,000 of this funding in FY 08 to hire a consultant to document the results of a pilot program called "Working Together for Families", that was implemented in Calcasieu Parish. The purpose of the program is to improve outcomes for juveniles and to establish a collaboration of services offered to these youth by the local probation office, the Office of Youth Development, and the Department of Social Services, Office of Community Services (OCS). The program has been in existence for approximately 5 months and has served 15 youth. The funding will also be used to develop training materials to eventually expand the program to other areas of the state. The remaining \$30,000 will be used to hire a consultant to work with OCS in developing a plan that will establish a better collaboration of services between OCS and the Orleans Parish Juvenile Court System.

II. IMPACT ON FUTURE FISCAL YEARS

The contract period for this grant is 7/1/06 through 12/31/07.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

August 14, 2007

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Service Commission

AGENDA NO.: 2

AGENCY: Public Service Commission

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Support Services	\$0	0
Self-Generated Revenue:	\$0	Motor Carrier Registration	\$0	0
Statutory Dedications:	\$0	District Offices	\$0	0
Federal Funds:	\$0			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The proposed BA-7 changes the statutorily dedicated funding sources for the Support Services Program within the Public Service Commission. Act 234 of 2007 made changes to the fees charged by the Public Service Commission. Act 234 eliminated the "Economics & Rate Analysis Division and Hearing Examiners' Division Supplemental Fee Fund" for a reduction of \$711,076 in statutorily dedicated funds. Act 234 also expanded the carriers paying the "Utility and Carrier Inspection & Supervision" fees for an increase in \$711,076 in statutorily dedicated funds. The changes to both fees result in no net change in the statutorily dedicated revenues of the Public Service Commission.

Approved By JLCB**

DEPARTMENT: Culture, Recreation & Tourism

AGENDA NO.: 3

AGENCY: Office of Cultural Development

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Cultural Development	\$7,150,435	0
Interagency Transfers:	\$0	Arts Program	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$7,150,435			
Total	<u>\$7,150,435</u>	Total	<u>\$7,150,435</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide additional budget authority to receive a federal grant from the U.S. Department of Interior, National Park Service for the purpose of stabilization and repair of historic and archaeological properties damaged by hurricanes Katrina and Rita and to provide technical assistance in this effort.

The Office of Cultural Development (OCD) received \$11.2 M in the last fiscal year for this program, which allowed the agency to distribute almost 300 grants. OCD promotes the program through a public process and publishes grant guidelines and applications. Applications that are received are reviewed for eligibility and criteria set forth in the guidelines. Eligible applications are reviewed, scored, and ranked. OCD will seek to go as far down the rank as possible with the new dollars and is projected roughly to award an additional 300 grants.

The term of the grant is from 7/1/07 to 12/31/09 and the total amount of the grant is \$10 M. OCD is expecting to utilize \$7,150,435 in FY 08. The following is a breakdown of these expenditures that will be budgeted as Other Charges:

Wages - \$169,682 (3 Project Officers and 1 Deputy Director - all non-permanent positions)
Other Compensation - \$3,120 (temp services)
Related Benefits - \$46,190
Travel - \$9,468 (in-state travel)
Operating Services - \$20,344 (rentals, postage, printing, etc.)
Supplies - \$10,493
Professional Services - \$15,172 (advertising)
IAT - \$2,238 (maintenance)
Acquisitions/Major Repairs - \$61,602 (car, computers, equipment, and office furniture)
Grants - \$6,812,126 (grants to stabilize and repair historic and archaeological properties)

No state match is required in order to receive this grant.

II. IMPACT ON FUTURE FISCAL YEARS

This is a one-time federal grant award allotment that is anticipated to be expended within a 3-year budget period. All unexpended budget amounts will be carried forward into the next fiscal year. Expenditures in subsequent years are anticipated to be \$2,165,610 in FY 09 and \$683,955 in FY 10. All funds are due to be expended by 12/31/09.

DEPARTMENT: Natural Resources

AGENDA NO.: 4

AGENCY: Office of Coastal Restoration

ANALYST: Stephanie C. Blanchard

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Coastal Restoration and Management	\$212,706	0
Interagency Transfers:	\$127,544			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$85,162			
Federal Funds:	\$0			
Total	<u>\$212,706</u>	Total	<u>\$212,706</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority for both IAT in the amount of \$127,544 and statutory dedications by \$85,162 in order to receive funding for 3 projects. These 3 projects will be funded with 60% IAT funding from the U.S. Environmental Protection Agency and the National Oceanic & Atmospheric Administration's Office of Ocean & Coastal Management via DEQ and 40% state match from the Coastal Resources Trust Fund.

The purpose of the grants is to meet remaining conditions of the LA Coastal Nonpoint Pollution Control Program for urban stormwater runoff, urban stormwater runoff - roads, highways and bridges, and hydromodification.

The match is included in the Department of Natural Resources' current budget. The following is a list of contract periods, funding from DEQ and the DNR match for each project.

<u>Description of Contract</u>	<u>Contract Period</u>	<u>DEQ (60%)</u>	<u>DNR Match (40%)</u>
LA Coastal Nonpoint Pollution Control Program			
Best Management Practices (BMP) Manuals	04/01/07-12/31/07	\$59,867	\$39,911
LA Coastal Nonpoint Pollution Control Program			
BMP Manual Training & Outreach	07/01/07-04/30/08	\$41,100	\$27,400
Wastewater Treatment Plant Assistance in Northshore Watersheds	07/01/07-06/30/08	<u>\$27,477</u>	<u>\$18,318</u>
		\$128,444	\$85,629

Survey and engineering services totaling \$1,367 was expended in FY 07 for the LA Coastal Nonpoint Pollution Control Program BMP Manuals.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Labor

AGENDA NO.: 6

AGENCY: Office of Workforce Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Management and Finance Program	\$0	0
Self-Generated Revenue:	\$899,483	Occupational Information System Program	\$0	0
Statutory Dedications:	\$0	Job Training and Placement Program	\$899,483	0
Federal Funds:	\$0	Incumbent worker Training Program	\$0	0
		Unemployment Benefits Program	\$0	0
Total	<u>\$899,483</u>	Total	<u>\$899,483</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase agency self-generated funds by \$899,483 to fund the Disability Program Navigators (DPNs) program administered by the Louisiana Department of Labor (LDOL). Of this amount, \$315,771 represents the balance of unexpended funds from FY 07. The remaining \$583,712 represents new funding for this program that was approved after the appropriations process.

The Joint Legislative Committee on the Budget (JLCB) approved initial funding for the DPN program by BA-7 on April 26, 2006 in the amount of \$218,750. In an unusual funding arrangement, funds for the DPN program come from the Wisconsin Department of Workforce Development. However, the original source of funds is the U. S. Department of Labor.

Initially in April 2006, LDOL intended to administer the program directly. However, LDOL, the Wisconsin Department of Workforce Development, and the U. S. Department of Labor have decided to decentralize administration of the DPN program by distributing some funding to seven Local Workforce Investment Areas (LWIAs) and by allowing these LWIAs to hire one Disability Program Navigator position each. Additionally, LDOL will employ one DPN Project Coordinator and the United Houma Nation will hire one DPN position. LDOL has not requested an additional position in their T. O. because the DPN Project Coordinator position will expire when the grant funding is expended.

The funding in this BA-7 will be used for the following specific purposes:

1. Personal Services (\$103,500) to fund the salary and benefits for the DPN Project Coordinator at LDOL (\$69,000) and salaries and related benefits for LDOL staff partially assigned to the DPN program (\$34,000).
2. Travel (\$20,000) for the DPN Project Coordinator, the eight local DPN positions, and LDOL staff working on the DPN program.
3. Supplies (\$249,423) to purchase adaptive equipment at One-Stop centers statewide to better assist disabled persons.
4. Contractual Services (\$410,000) for the following entities to hire one DPN position and related benefits: Desoto Parish Police Jury (\$50,000), Franklin Parish Police Jury (\$50,000), Institute for Indian Development (\$60,000), Lafayette City-Parish Consolidated Government (\$50,000), LaSalle Parish Police Jury (\$50,000), St. Bernard Parish Government (\$50,000), Tangipahoa Parish Council (\$50,000), and Vernon Parish Police Jury (\$50,000).
5. Other Charges (\$100,000) for staff training.
6. Indirect Charges (\$16,560) for cost allocation of other indirect costs at LDOL.

II. IMPACT ON FUTURE FISCAL YEARS

The U. S. Department of Labor and the Louisiana Department of Labor anticipate another \$300,000 in federal funding for this program in FY 09 contingent upon expenditure of funds in this BA-7 by the end of FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

August 14, 2007

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Labor

AGENDA NO.: 7

AGENCY: Office of Workforce Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Management and Finance Program	\$0	0
Self-Generated Revenue:	\$0	Occupational Information System Program	\$0	0
Statutory Dedications:	\$0	Job Training and Placement Program	\$15,550,000	0
Federal Funds:	\$15,550,000	Incumbent worker Training Program	\$0	0
		Unemployment Benefits Program	\$0	0
Total	<u>\$15,550,000</u>	Total	<u>\$15,550,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal funds by \$15,550,000 to fund the YouthBuild USA Program, Corps Network, Regional Innovation Grants (RIGs), and assistance to workers displaced by the closing of the Tembec plan in West Feliciana Parish. The Louisiana Department of Labor (LDOL) will use \$15 million of the requested funding to assist New Orleans and surrounding parishes to continue hurricane clean-up and rebuilding efforts and to develop youth employment initiatives in the region. To ensure that these funds are used strategically, LDOL proposes that the State first use \$250,000 for Regional Innovation Grants (RIGs) to develop an implementation plan focused on youth. Targeted youths pose a significant challenge if they are not fully engaged and given the opportunity to contribute to the recovery efforts in their communities. These programs will specifically target youths with no employment history in the most heavily impacted parishes and will include academic and skills training components that complement the employment focus. A grant totaling \$550,000 will assist workers displaced by Tembec corporation in obtaining retraining, placement assistance, support services, and relocation expenses.

II. IMPACT ON FUTURE FISCAL YEARS

The grants providing the requested funding are two years in duration. As such, the LDOL will likely request that unexpended grant funds be appropriated in next fiscal year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

August 14, 2007

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Environmental Quality

AGENDA NO.: 8

AGENCY: Office of Environmental Compliance

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Compliance	\$205,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$205,000			
Federal Funds:	\$0			
Total	<u>\$205,000</u>	Total	<u>\$205,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Department of Environmental Quality (DEQ) is requesting to budget \$205,000 in Environmental Trust Funds for the purpose of purchasing a Mobile Command Center Trailer for the Emergency & Radiological Services Division. DEQ's existing mobile command post is nearly 25 years old and does not have the technological capabilities to meet current emergency response needs. This existing mobile command post is a converted Airstream RV which is subject to water leaks, electrical problems, and is not compatible with necessary upgrades. Response experiences in the aftermath of hurricanes Katrina and Rita revealed that DEQ must have a mobile command post with emergency communications equipment that will allow DEQ to quickly transmit information and data that are integral to the incident command structure. Having this equipment will enable DEQ to share information from the field in real-time mode. In addition to the use of the mobile command center for weather related emergencies, major cleanup incident emergencies such as train derailments, and possible radiological incident emergencies, the department anticipates using this unit for major multi-media inspections at fixed site facilities if a presence is required for longer than 24 to 48 hours. The existing mobile command center will be surplus.

DEQ has sufficient Environmental Trust Funds (ETF) to cover this expenditure. DEQ projects an end of year balance in ETF in FY 07 of roughly \$13 M. Collections to the fund were approximately \$1.6 M greater than initially projected; and expenditures were approximately \$11.4 M less than finally budgeted in FY 07 due to a higher than expected attrition rate (\$6.1 M unexpended budget for Salaries and Related Benefits), \$2.7 M less expenditures in operating expenses than budgeted, \$1.3 M less expenditures for professional services than budgeted, \$300,000 less in acquisition expenditures than budgeted, and \$800,000 in interest earnings in excess of projections. Based on ETF projections for the current year, DEQ should have this approximate balance at the end of the current fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$165,160			
Total	<u>\$165,160</u>	Total	<u>\$165,160</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal funds by \$165,160 in Medical Vendor Administration to assist various health care providers in restoring/expanding access to primary care in communities impacted by Hurricane Katrina. The source of funding is the Primary Care Access Stabilization Grant from the Centers for Medicare & Medicaid Services (CMS), under the authority of Section 6201(a)(4) of the Deficit Reduction Act of 2005. There is no state match requirement.

This BA-7 is a companion to BA-7 #10 and represents federal grant funding for administrative expenses associated with the Primary Care Access Stabilization Grant. This funding will be allocated for the following:

\$63,677 - Other compensation - 1 full time job appointment (program manager) to administer LPHI invoices, CMS rule oversight, and program integrity
\$18,148 - Related benefits
\$1,501 - Travel (from Baton Rouge to New Orleans, review applications for eligibility)
\$876 - Supplies
\$2,564 - Acquisitions (computer, printer, phone, and other supplies)
~~\$78,394~~ - Professional Services (contract with CPA firm to perform desk audits to ensure program integrity)
\$165,160 TOTAL

II. IMPACT ON FUTURE FISCAL YEARS

The total grant award (3 years) from CMS for administrative expenses associated with the Primary Care Access Stabilization Grant is \$500,000. DHH anticipates to draw down the remaining federal grant funds in FY 09 (\$165,718) and FY 10 (\$169,122) for costs associated with administrative expenses as defined in the grant.

Total	<u>\$45,463,000</u>	Total	<u>\$45,463,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (companion to BA-7 #9) is to increase federal funds by \$45.4 M in Medical Vendor Payments to assist various health care providers in restoring/expanding access to primary care in communities impacted by Hurricane Katrina. The source of funding is the Primary Care Access Stabilization Grant from the Centers for Medicare & Medicaid Services (CMS), under the authority of Section 6201(a)(4) of the Deficit Reduction Act of 2005. There is no state match requirement.

A total of \$100 M federal grant funding is authorized over a three year period to fund payments to eligible primary care clinics to help stabilize and expand primary care access, including primary mental health care, in the greater New Orleans area. According to CMS, clinics in the parishes of Jefferson, Orleans, St. Bernard, and Plaquemines will be eligible. The grant funding will cover various preventive health services that fall within categories of family medicine, internal medicine, pediatrics, obstetrics, gynecology, psychiatry, mental health, or care for substance abuse, and include screenings, pharmacy, diagnostic lab and radiological services, and dental services (in a clinic or mobile clinic only). These services will be available without regard to a patient's ability to pay. In addition to reimbursement for direct services (non Medicaid or Medicare), these payments can cover costs associated with medications, recruitment of physicians and any allied health practitioner associated with direct patient care, purchasing equipment, limited renovations to existing clinics, and office supplies.

DHH will partner with the LA Public Health Institute (LPHI) to determine clinic eligibility, carry out day to day oversight and technical support for grantee clinics, develop payment methodology, and make payments to such clinics. DHH has currently identified 91 clinics that are potentially eligible to qualify for payments, and has indicated this list is not all inclusive (anticipate additional eligible clinics). According to grant regulations, the grant funds will be allocated to the following entities over 3 years:

\$500,000	- DHH, Medical Vendor Administration
\$4,000,000	- City of New Orleans Health Department
\$5,000,000	- LA Public Health Institute
<u>\$90,500,000</u>	- Eligible clinic payments
\$100,000,000	Total

For FY 08, DHH anticipates to allocate \$165,160 for MVA (reflected in companion BA-7 #9), \$1.6 M for the LPHI, \$4 M for the New Orleans Health Department, and \$39.6 in actual payments to clinics.

II. IMPACT ON FUTURE FISCAL YEARS

The total grant award from CMS is \$100 M. DHH, Medical Vendor Payments anticipates to draw down the remaining federal grant funds in FY 09 (approximately \$27 M) and FY 10 (approximately \$27 M) for clinic payments and contractual obligations as defined in the grant.

Approved By JLCB**

DEPARTMENT: Health & Hospitals

AGENDA NO.: 11

AGENCY: Office of the Secretary

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Management and Finance Program	\$247,200	0
Interagency Transfers:	\$0	Grants Program	\$34,300,000	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$34,547,200			
Total	<u>\$34,547,200</u>	Total	<u>\$34,547,200</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal funds by \$34.5 M in the Office of the Secretary for professional workforce enhancement in communities affected by Hurricane Katrina. The source of funding is the Hurricane Katrina Healthcare Related Professional Workforce Supply Grant from the Centers for Medicare & Medicaid Services (CMS), under the authority of Section 6201(a)(4) of the Deficit Reduction Act of 2005. There is no state match requirement.

This requested funding represents a supplemental award to the existing Healthcare Related Professional Workforce Supply Grant (\$15 M added to the FY 08 budget for the Greater New Orleans Health Service Corps) in the amount of \$34.5 M in federal grant funding. The intent is to promote recruitment and retention of healthcare professionals in designated healthcare professional shortage areas (HPSA's) in the greater New Orleans area (Orleans, Jefferson, St. Bernard, and Plaquemines). The healthcare professionals being targeted include various physicians (pediatricians, internists, family practitioners, obstetricians, and psychiatrists), dentists, registered nurses (including nurse practitioners and physicians assistants), clinical faculty (for the medical, dental and other post-secondary health profession training programs), and other licensed professional staff (allied health).

Grant funds will be used for administrative costs and direct payments to practitioners in association with the Greater New Orleans Health Services Corps. Specifically, direct payments are anticipated to be used for income guarantees, annual medical malpractice payment relief, loan repayments, and incentive payments (such as relocation expenses and sign-on bonuses). DHH has indicated that the state (DHH) will have flexibility in determining the policy, payment methodology, and types of incentive activities that will be considered in distributing these grant funds. Although the state has flexibility, payments are subject to CMS approval, cannot be made for direct patient care services, and payments are limited to licensed healthcare professionals (and are made directly to those individuals).

For FY 08, \$247,200 will be allocated to the Management & Finance Program for administrative expenses, and is allocated as follows:

- \$111,040 - Other compensation - 2 full-time job appointments (project support specialist @ \$35,000 and placement coordinator @ \$50,000), and a part-time job appointment (practice manager @ \$26,040)
- \$34,160 - Related Benefits
- \$18,000 - Travel - for recruiting efforts in New Orleans
- \$50,000 - Operating Services (advertising, national and local media recruitment campaign)
- \$34,000 - Other charges (national and local health job fairs)
- \$247,200 - Total**

II. IMPACT ON FUTURE FISCAL YEARS

According to DHH, the intent is to disperse all grant payments (\$34,300,000) during FY 08. DHH anticipates additional grant funding in FY 09 (\$247,008) and FY 10 (\$205,792) for administrative expenses associated with this grant.

DEPARTMENT: Health & Hospitals

AGENDA NO.: 12

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$0	0
Interagency Transfers:	\$0	Public Providers	\$0	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$3,045,566	0
Federal Funds:	\$3,045,566	Auxillary	\$0	0
		Governor's Supplementary Bdgt Rec	\$0	0
Total	<u>\$3,045,566</u>	Total	<u>\$3,045,566</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase federal fund authority by \$3,045,566 in Medical Vendor Payments, Uncompensated Care Costs (UCC) Program for the provision of mental health services. The source of funding is Title XIX federal financial participation from the Centers for Medicare & Medicaid Services (CMS). There is no state match requirement.

The Department of Health & Hospitals will enter into a cooperative endeavor with West Jefferson Hospital to draw down federal funds through the certified public expenditure (C.P.E.) process with the intent to fund the build out (capital component) and operation of 12 additional inpatient psychiatric beds at the hospital. According to the DHH, West Jefferson Hospital will certify future (FY 08) UCC expenditures initially based on previous years (12/31/06) costs reports in order to draw down disproportionate share hospital (DSH) payments (federal financial participation only).

According to the preliminary cooperative endeavor agreement, approximately half of the amount requested in this BA-7 will be seeded to the hospital for initial build out/construction of 12 inpatient psychiatric beds, with the other half/balance to be paid upon completion (with total build out reimbursement not to exceed \$3 M). DHH has indicated that the preliminary estimate for the capital payment is \$2.5 M. In addition to infrastructure payments, DHH will provide on-going reimbursement in the form of per diem payments for inpatient psychiatric services (not to exceed allowable costs) for both existing beds (16) and new beds (when completed and operational) for the term of the agreement. Specifically, these payments are anticipated to cover uninsured costs and Medicaid shortfall (difference between Medicaid costs and Medicaid rates). The CEA further implies that the payments will be audited by DHH to ensure that all claims are accurate and reimbursable (allowable).

II. IMPACT ON FUTURE FISCAL YEARS

According to the preliminary CEA, DHH has agreed to make ongoing reimbursements for the operation of the additional beds for 3 years from the opening of the expansion. It is anticipated that FY 09 payments will include the balance of the capital payment, plus recurring per diem payments on 28 beds (estimated payments of \$4.9 M), and FY 10 payments will include recurring per diem payments only (estimated payments of \$3.9 M). The LFO would like to note that although the preliminary CEA is projected for 3 years, it is subject to the state's ability to engage in the C.P.E. process, and thus may be year to year.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7. Although this BA-7 requires no state match, the LFO would like to make the committee aware of several components of this request as they relate to state liability. Historically, C.P.E.'s have not been used for reimbursing capital outlay/construction of hospital beds (but reimbursement for patient care only). In addition, these payments represent DSH payments above those currently appropriated in the community hospital pool for eligible community hospitals in HB 1 (\$87 M appropriation for community hospitals). Careful consideration must be given to any additional DSH payment requests in FY 08 that may close the gap between the state appropriated DSH cap and the federally imposed DSH cap, as any UCC payments over the federal cap will not be able to be leveraged (will require 100% SGF). The current appropriated level of DSH funding places the state within approximately \$20 M of the federal DSH cap. Approval of this BA-7 reduces the gap to approximately \$16 M for FY 08.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,200,000</u>	Total	<u>\$1,200,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 seeks to add \$1.2 M in SGR to the Executive Office in the Office of the Governor to allow the agency to receive and expend Wallace Foundation Grant monies that will be used to train education system leaders by redesigning teacher preparation programs. In FY 07, the foundation gave the state 2 grant installments totaling \$1.2 M of which the agency only expended half. This BA-7 will carry forward \$600,000 in unexpended funds and budget an additional \$600,000 to fully expend the grant in the current year.

This grant was awarded to the state to address the need to create a pipeline of effective leaders in education by focusing on establishing a cohesive leadership structure. To reach this goal, the bulk of these funds will be allocated to 4 universities and used for professional development. The universities that will receive these funds are Southern University in Baton Rouge, the University of LA at Lafayette, the University of New Orleans and Southeastern University. These universities will house district leadership centers serving a region surrounding the campus.

The agency anticipates expending the grant as follows:

\$30,000 Travel
\$10,000 Operating Services
\$25,004 Supplies
\$760,233 Professional Services
\$2,783 Acquisitions
\$371,980 IAT Agreement (to DOE)

These funds will go to the following contractors:

Southern Regional Education Board (SREB) - Technical Support
Tilt, Inc. - Web maintenance and design
Mid-Continent Research for Education and Learning (McREL) - Grant Evaluation
Angela DeGravelles - Public Relations/ Advertising
Data Collection
The 4 district/university partnerships named above

Total	<u>\$153,715</u>	Total	<u>\$153,715</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is threefold. The Patients Compensation Fund (PCF) requests an additional \$118,815 in statutorily dedicated funds (premiums paid by private health care providers) which will allow the agency to increase a professional services contract with Sparkhound, Inc. for the development of a comprehensive computer application for the collection of payments by providers. PCF initially entered into a contract with Sparkhound, Inc. in FY 07 in the amount of \$945,750. PCF has identified additional functionality and features (including greater accounting detail that will allow the agency to match its revenues with the state's financial system and to allow for greater accountability) that would enhance this system to allow this agency to better serve its clients and increase productivity and efficiency. This additional funding will provide for a new contract totaling \$1,064,565. The additional contract amount includes \$13,590 in project management (\$90 x 151 hours) and \$105,225 in design, development, training and deployment (\$75 x 1,403 hours) for a total increase of \$118,815.

PCF is also requesting an additional \$32,500 to satisfy the requirements of SCR 111 of the 2007 Regular Legislative Session. This resolution requires PCF to provide an annual actuarial report to specified Senate and House committees. This report will require the services of an actuary. PCF anticipates the cost of these services to be approximately \$30,000. In addition, the PCF Board has requested that a copy of the report be sent to specified parties who have a vested interest in this information. The anticipated cost to prepare these reports annually is \$2,500.

Finally, implementation of PCF's new computer system necessitated 2 additional bank accounts, which were approved by the Cash Management Review Board in early 2007. Service charges of approximately \$200/month or \$2,400 annually are anticipated.

NOTE: Funding is currently available for this BA-7 as the PCF fund balance is approximately \$350 M.

II. IMPACT ON FUTURE FISCAL YEARS

Passage of this BA-7 will result in increased expenditures of approximately \$5,000 of statutorily dedicated funds in subsequent fiscal years for the increased cost to prepare the annual actuarial report plus the cost of the 2 additional bank accounts.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the amount of \$123,715. Upon further review, the submitting agency (PCF) anticipates that the actuarial services necessary to satisfy the requirements of SCR 111 of the 2007 Regular Legislative Session can be absorbed within the agencies' existing current actuarial contract. Therefore, this BA-7 is reduced by the \$30,000 originally included for these services.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget federal community development block grant (CDBG) funds from the U.S. Department of Housing & Urban Development for disaster recovery. The State of LA has been awarded a total of \$4.2 B by Congress under P.L. 109-234. HUD has approved and is making available \$3.65 B of the total award for activities listed in the State's Action Plan, as amended. Of this amount, approximately \$3.61 B is for housing programs as noted below and the remaining \$41.2 M is for state administrative costs. The remaining \$550 M will be made available as the State submits further amendments to its Action Plan.

The housing programs include assistance to owner occupants to compensate them for losses resulting from the hurricanes; a small rental repair program designed to serve small properties and target assistance to small owners; supportive housing for special needs population; and an additional rental program involving the low income housing tax credits related to public housing developments. According to data provided in the approved action plan, the rental programs funded through this allocation will create an estimated 28,000 units, in a broad mixture of mixed income developments, small rental properties, and other tax credit projects.

This allocation is to be expended as follows:

Assistance to Owner Occupants	\$2,496,150,000
Low Income Housing Tax Credits/Piggyback Program	\$593,970,000
Supportive Housing	\$25,980,000
Small Rental Property Repair Progra	\$492,700,000
State Administration	\$41,200,000
Unallocated	\$550,000,000
Total	\$4,200,000,000

II. IMPACT ON FUTURE FISCAL YEARS

Any funding not expended for these purposes will be carried forward to subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

CF 34	08B-418	Public Safety	Management & Finance	N/A	Funding for expenditures associated with providing uniform building code enforcement activities for local governments within the 11 parishes that have been identified as the most severely impacted by hurricanes Katrina and Rita. Within the state's original CDBG funding allocation of \$10.4 billion for hurricane recovery, approximately \$11.4 million was allocated for building code enforcement expenditures. Of this \$11.4 million, \$6.8 million was budgeted in FY 07 via an approved JLCB BA-7 in November 06. The \$1,032,979 to be carry forwarded into FY 08 are from the original BA-7 amount of \$6.8 million. Upon approval of this BA-7 in November 06, this funding was thought to be one-time, however, the extension of the professional services contract will force these expenditures into FY 08. This funding is received on a reimbursement basis from U.S. HUD-CDBG Program.	\$0	\$1,032,979	\$0	\$0	\$0	\$0	\$1,032,979
				N/A	Funding from the State Emergency Response Fund (SERF) for expenditures associated with providing assistance to local governments to obtain the appropriate construction code resources and training in implementing the statewide uniform building code. The funding of \$8.0 million SERF was originally budgeted in FY 07 via an approved December 06 JLCB BA-7 and was to be a one-time appropriation and expenditure in FY 07. However, because these funds are dependent upon the receipt of inter-governmental agreements from the local governmental entities, these expenditures will be carrv forward into FY 08.	\$0	\$0	\$0	\$1,954,402	\$0	\$0	\$1,954,402
					Total CF 34	\$0	\$1,032,979	\$0	\$1,954,402	\$0	\$0	\$2,987,381
CF 35	08B-419	Public Safety	State Police	3/1/07	Traffic Program: Funding for the purchase of a canopy for Troop I. This order has been delayed due to specifications and vendor problems. The original source of the SGR is OMV transfer-in. Included within State Police's current FY 08 budget is \$19.6 million SGR from OMV transfer-in out of total FY 08 SGR budget authority of \$34.5 million.	\$0	\$0	\$30,825	\$0	\$0	\$0	\$30,825
				6/7/07	Traffic Program: Funding from the GOSHEP via FEMA for the final payment of generators stationed at the communication towers around the state. This funding is received on a reimbursement basis.	\$0	\$28,841	\$0	\$0	\$0	\$0	\$28,841

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Workforce Commission

AGENDA NO.: 1

AGENCY: Office of Workforce Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	\$0	Management and Finance Program	\$0	0
Self-Generated Revenue:	\$0	Occupational Information System Program	(\$1,400,000)	0
Statutory Dedications:	\$4,845,248	Job Training and Placement Program	\$0	0
Federal Funds:	(\$4,845,248)	Incumbent worker Training Program	\$4,845,248	0
		Unemployment Benefits Program	(\$3,445,248)	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 increases Statutorily Dedicated funds from the Workforce Development Training Account to pay pending invoices in the Incumbent Worker Training Program. The Workforce Development Training Account has \$61,739,774 in unappropriated funds available as of 5/1/07. This BA-7 also decreases Federal appropriations by the same amount to keep the total Department of Labor budget by all means of finance unchanged. The \$1.4 M reduction in Federal Funds from the Occupational Information System Program was originally budgeted for aid to local governments to assist clients in acquiring job skills. The LA Department of Labor no longer plans to provide this assistance to local governments. The \$3,445,248 from the Unemployment Benefits Program was originally budgeted to develop the automated LA Claims & Tax System. The Department does not plan to expend funds for this system prior to FY 08. As such, the Department plans to use these funds to pay pending invoices in the Incumbent Worker Training Program in the current year.

The budget for the Incumbent Worker Training Program is short in the current year for 3 reasons. The first reason is because the Division of Administration funded the Incumbent Worker Training Program in the Executive Budget at an amount equal to approximately \$1.6 M less than requested by the Department of Labor. The Office of Planning and Budget reports that they reduced the funding by \$1.6 M because the Department of Labor did not provide adequate justification for the higher amount. The second reason is that the Department of Labor paid approximately \$2 M in training invoices from FY 06 in the current fiscal year. The Department had no spending authority left from FY 06 to carryforward into FY 07 to pay these invoices from the previous fiscal year. The third reason is due to the multi-year nature of training contracts under the Incumbent Worker Training Program. It is difficult to estimate when contractors will actually provide the needed training and submit invoices to the Department of Labor.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$0			
Federal Funds:	\$856,281			
Total	<u>\$856,281</u>	Total	<u>\$856,281</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide additional budget authority to receive a federal grant from the United States Coast Guard, State Recreational Boating Safety Programs. In general, these funds are used for promoting boating safety and to decrease the number of accidents, injuries and fatalities on U.S. waters.

The Department has budget authority to collect \$1,635,516 of these federal funds for FY 07. Out of this amount \$1,025,158 has been received this fiscal year, leaving budget authority of \$610,358 available. An additional amount of \$1,466,639 is due to the Department of Wildlife & Fisheries for the months of October 2006 - June 2007. Budget authority of \$856,281 (\$1,466,639-\$610,358) is needed to enable the Department to collect these funds.

The following is a breakdown of the \$856,281 in expenditures:

Travel - \$40,000 (instate field travel)

Supplies - \$416,281 (fuel for boats, 80 life jackets, and other boat supplies)

Acquisitions - \$400,000 (35 mobile and 65 portable radios for enforcement agents to update their primary communications equipment which is obsolete and no longer repairable)

No state match is required in order to receive this grant.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$200,000</u>	Total	<u>\$200,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$200,000 in Interagency Transfers from the Office of Emergency Preparedness (OEP) to Winn Correctional Center. These funds are FEMA revenue to the agency for expenses incurred in FY 07 as a result of Hurricane Katrina. Winn Correctional Center is projecting approximately \$200,000 in unfunded costs. Expenditures are for costs associated with the housing of additional inmates. Winn Correctional Center, instead of being reimbursed for actual expenditures, is being reimbursed based on a per diem rate derived from a formula that allocates funding on a net cost impact. This is the same manner in which the Department of Corrections was previously reimbursed by FEMA.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$200,000 in Interagency Transfers from the Office of Emergency Preparedness (OEP) to Allen Correctional Center. These funds are FEMA revenue to the agency for expenses incurred in FY 07 as a result of Hurricane Katrina. Allen Correctional Center is projecting approximately \$200,000 in unfunded costs. Expenditures are for costs associated with the housing of additional inmates. Allen Correctional Center, instead of being reimbursed for actual expenditures, is being reimbursed based on a per diem rate derived from a formula that allocates funding on a net cost impact. This is the same manner in which the Department of Corrections was previously reimbursed by FEMA.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

AGENDA NO.: 1

AGENCY: Medical Vendor Payments

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Private Providers	\$69,302,750	0
Interagency Transfers:	\$0	Public Providers	\$2,330,742	0
Self-Generated Revenue:	\$0	Medicare Buy-Ins & Supplements	\$0	0
Statutory Dedications:	\$0	Uncompensated Care Costs	\$0	0
Federal Funds:	\$71,633,492			
Total	<u>\$71,633,492</u>	Total	<u>\$71,633,492</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the expenditure authority of Medical Vendor Payments (MVP) by \$71,633,492 in 100% federal funding. The source of the federal funds is the Hurricane Katrina Healthcare Related Provider Stabilization Grant from the Centers for Medicare & Medicaid Services (CMS). DHH is granted approval under the authority of Section 6201(1)(4) of the Deficit Reduction Act of 2005.

This grant will provide financial relief to qualifying acute care hospitals and skilled nursing facilities in hurricane impacted communities by making payments to specific facilities that are paid under a Medicare prospective payment system (PPS). According to the DHH, this one time payment will specifically address wage index increases, which is a reimbursement component under traditional Medicare Perspective Payment Systems. The grant payment will assist in covering facility costs (\$66.5 M to hospitals and \$5.1 M to skilled nursing facilities) associated with increased wages in hurricane impacted areas that have not yet been adjusted in the Medicare payment methodology.

Although Medicare is not a federal-state program and is not administered by the state, DHH has been charged with implementing a methodology to pay out these funds. DHH will not retain any portion of this grant for administrative costs. If approved, approximately \$69.3 M will be allocated to private providers and \$2.3 M will be allocated to public providers. Specific grant payment amounts by hospital are represented in attachment A, and payment amounts by skilled nursing facility are represented in attachment B.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. This grant represents a one time payment to hospitals and skilled nursing facilities.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Self-Generated Revenue:	\$0	Welcome Centers	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$277,320</u>	Total	<u>\$277,320</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$277,320 from the Federal Highway Administration (FHWA) via DOTD to the Office of Tourism for the LA Byways Program. The LA Byways Program was established in 1990 through a partnership with the FHWA, CRT, and DOTD. Funding received for this program will be used to develop a Statewide Comprehensive Scenic Byway Management Plan which will provide an integrated approach to management, promotion, and preservation of the LA Scenic Byways. The Office of Tourism will contribute a 20% match of the participating cost (\$69,330) and the FHWA contributing the remaining 80% (\$277,320) through DOTD. The state match is included in CRT's current budget. The following is a list of projects and the federal portion of the costs which are included in this BA-7.

Statewide Comprehensive Management Plan - \$176,000
Promotional Brochure for LA's Great River Road Scenic Byway (LGRRSB) - \$24,000
LGRRSB Corridor Management Plan Implementation - \$25,000
Management Plan for LA Scenic Byway Program - \$16,640
Louisiana Byways Exhibit for Trade Shows - \$15,680
San Bernardo Scenic Byway Management Plan - \$20,000

As part of contract to develop the Scenic Byway Master plan each byway will receive brochures, website template, and maps of the scenic byways and they will all be included into the Scenic Byways master plan. Additionally, funding will be for the development of a marketing plan, including the design and construction of an exhibit to be displayed at trade shows.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$1,700,000</u>	Total	<u>\$1,700,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR by \$1.7 M from the LA Tourism Promotion District's (LTPD) fund balance into the Office of Tourism's Marketing Program. Funding will be utilized for advertising and media placements to extend the current national campaign designed to attract travelers to the State of LA.

This funding will be utilized to fund a television advertisement campaign in the major brand development index markets (Dallas, Houston, Atlanta, etc.). These ads will run in May and June and will market the entire State of LA in an effort to counter and reverse the perceived negative images portrayed during and immediately after the storms, bring tourists back to the state, and reignite the tourism industry.

The LTPD is authorized to levy and collect a sales and use tax not to exceed three one hundredths of 1% for the purpose of assisting the state in the promotion of tourism. If the proposed BA-7 is approved, the LTPD fund balance as of 6/30/07, is estimated to be \$1.1 M.

The Department's current advertising contract is with Peter A. Mayer Advertising, located in New Orleans, and will be used for this campaign. Native Louisiana celebrity talent is being utilized at no cost in the ads.

The monies will be utilized for professional services and are estimated as follows:

\$1,290,000 - continue "Come Fall in Love" message on national cable

\$410,000 - begin utilizing "Come Fall in Love" message through radio offering visitation incentives (Travelocity packages that include savings on lodging, attractions, etc. giving consumers an incentive to visit)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. However, this money will be unavailable for use in future years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

AGENDA NO.: 4

AGENCY: State Police Training Academy

ANALYST: Travis McIlwain

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$0	0
Interagency Transfers:	(\$383,026)			
Self-Generated Revenue:	\$383,026			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	\$0	Total	\$0	0

I. SUMMARY/COMMENTS

This BA-7 is a means of financing substitution that decreases IAT in the amount of \$383,026 and increases Fees and Self-generated Revenues by the same amount within the Administrative Program of the Donald J. Thibodeaux Training Academy in order for the agency to pay operational expenditures for the remainder of FY 07. According to the agency, collection projections for the remainder of FY 07 for IAT will be \$383,026 less than current IAT budget authority, \$3,119,214, while SGR is projected to be \$885,003 higher than current existing operating budget (EOB), \$524,095.

Revenue	FY 07 Budgeted	FY 07 Y-T-D	Projected Collections	Total	Total Collections Over/Under Budgeted
IAT	\$3,119,214	\$1,920,226	\$815,962	\$2,736,188	(\$383,026)
Fees	\$524,095	\$1,172,082	\$237,016	\$1,409,098	\$885,003

IAT

The Training Academy only bills State Police for services it provides. In FY 06-07, the Training Academy is projected to collect \$2.7 M in IAT revenue from State Police, or \$383,026 less than budgeted in the current year. In addition to the \$1,920,226 already collected in the current year, State Police is projected to send \$815,962 to the Training Academy for anticipated services for the remainder of FY 07.

Of the agency's \$1,920,226 IAT year-to-date collections, \$1,525,000 is non-recurring. Of the \$1,525,000 non-recurring in the current year, \$1.3 M is one-time funding from State Police for continuing education courses (firearms re-certification, defensive tactics re-certification, defensive driving refresher, legal updates) for DPS Commissioned Officers and \$225,000 is also from State Police for one-time funding associated with a 25-member cadet class conducted 3/27/06 thru 9/22/06 (the \$225,000 represent expenditures incurred between July 1, 2006 thru September 22, 2006). Of the projected \$815,962 in IAT to be collected for the remainder of FY 07, \$187,613 is fixed cost and \$481,550 is variable costs associated with a 50-man cadet class scheduled for 1/29/07 thru estimated graduation date of 6/15/07.

SGR

The Training Academy collects Fees and Self-generated Revenues from locals, private firms and the Anti-Terrorist Assistance Program (ATAP). Per R.S. 40:1375, the Training Academy may promulgate rules and regulations to charge reasonable fees for participation in its training school and courses and for the use of its training facilities.

***Locals:** City and Sheriff departments utilize the Training Academy facilities for P.O.S.T. certifying its officers and pay the Training Academy fees for services.

***Private Sector:** Businesses utilize the Training Academy facilities for retreats. The Joint Emergency Services Training Center (JESTC) is scheduled to open its Business Center in July 2007, which will allow the Training Academy to attract additional private sector clients to utilize the facility.

***Anti-Terrorist Assistance Program:** The objective of ATAP is to offer the best courses, instructors and logistical support to train law enforcement officers to combat terrorism around the world. The U.S. State Department grants federal funds to the

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

Training Academy for ATAP and the federal dollars are spent on supplies, acquisitions and personal services. The Training Academy also collects SGR from ATAP via indirect costs. Indirect costs include ATAP participants who utilize dorms and classrooms of the Training Academy. The Training Academy charges fees to ATAP for the classroom and dorm usage and collects these monies which are classified as SGR.

SGR in FY 07, \$524,095, is 71% less than the FY 06 budgeted SGR, \$1,821,686. This decrease is directly attributable to a reduction in the number of ATAP classes conducted at the Training Academy. During FY 07 budget development process, the Academy indicated to the Division of Administration (DOA) that SGR would decline due to ATAP classes being reduced. The reduction in the number of ATAP classes is due to the decrease in federal funding and changes to the program on the federal level. During FY 07 budget development, the agency became aware of the U.S. State Department's plan to end the current ATAP program in December 2006. According to the Training Academy, the U.S. State Department has granted the Training Academy until 5/31/07 to officially finish and close-out the program. Of the agency's \$1,172,082 SGR year-to-date (Y-T-D) collections, \$533,962 is non-recurring and are revenues collected from ATAP, which is scheduled to end 5/31/07. Because of the extension, the agency has had the ability to collect unanticipated SGR in FY 07, which is the reason there is additional SGR available for expenditure in the current year.

II. IMPACT ON FUTURE FISCAL YEARS

Although the current ATAP program officially ends 5/31/07, there is a strong possibility the Training Academy could be a subcontractor in the Federal Grant provisions for the new ATAP program. The new program involves private companies receiving the federal funding and involving various subcontractors. The Training Academy is seeking to be a subcontractor under the rules of the new program. Per the Department of Public Safety, the bidding and award process is secret and the Department is not aware of all of the companies involved. However, the Department has entered into teaming agreements with 3 of the companies that submitted proposals for the funding. Therefore if one of the 3 companies is awarded the grant for the new ATAP program, then the Training Academy will be a subcontractor. The Department is bound by nondisclosure agreements that prevent them from releasing the companies' names in the public domain. The Training Academy is hopeful the JESTC Business Center, which opens July 2007, will be a reliable source of SGR no matter the outcome of the new ATAP RFP process. Whether or not this source of SGR will be sufficient to support the agency if the agency is not a part of the new ATAP is not known at this time.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$0			
Total	<u>(\$650,000)</u>	Total	<u>(\$650,000)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 5B. The purpose of this BA-7 is to transfer \$650,000 from the Department of Social Services (DSS), Office of Secretary, Administration and Executive Support program to the Office of Elderly Affairs. The source of IAT is Social Services Block Grant (SSBG) funds.

The funding will be used to provide living assistance services to approximately 1,200 seniors, age 60 or over, and individuals with an adult onset disability to enable them to return to their home or to provide services to facilitate their recovery from the hurricanes. To receive assistance under this program, clients also must have resided in one of the 37 federally declared disaster parishes at the time of the hurricanes.

The Office of Elderly Affairs has allocated 8% or \$52,000 of this budget for administrative costs. The agency is allowed to use up to 9% of the total funding for this purpose. The remaining \$598,000 will be distributed to 13 local offices as follows:

Allen AAA	\$12,500
Beauregard AAA	\$12,500
CAJUN AAA	\$90,000
Calcasieu AAA	\$45,500
Cameron AAA	\$50,000
Capital AAA	\$90,000
Jefferson AAA	\$70,000
Jefferson Davis AAA	\$12,500
Orleans AAA	\$70,000
Plaquemines AAA	\$10,000
St. Tammany	\$45,000
Terrebone AAA	\$70,000
Vernon AAA	\$20,000

All AAA boundaries are along parish lines except CAJUN AAA and Capital AAA. CAJUN AAA covers parishes of Acadia, Evangeline, Iberia, Lafayette, St. Landry, St. Martin, St. Mary, and Vermillion. Capital AAA covers parishes of Ascension, Assumption, East Feliciana, Iberville, Pointe Coupee, St. Helena, Tangipahoa, Washington, West Baton Rouge, and West Feliciana.

II. IMPACT ON FUTURE FISCAL YEARS

The Memorandum of Understanding (MOU) agreement between DSS and the Office of Elderly Affairs is dated 4/1/07 through 8/31/07 to allow time for completion of payments to service providers and sub-contractors before the grant expires on 9/30/07.

Federal Funds:	\$0	Senior Centers	\$0	0
Total	<u>\$650,000</u>	Total	<u>\$650,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide budget authority to receive Social Security Block Grant (SSBG) funds from the Department of Social Services. These funds will be used to provide services to seniors who are age 60 or over, and individuals with an adult onset disability who have a need for living assistance as a result of hurricanes Rita or Katrina in 2005. Adult onset disability is determined by a local agency case worker when a client claims to be unable to independently perform two of the six standard activities of daily living (ADL) which includes bathing, dressing, eating, toileting, transportation, and walking.

To receive assistance under this program, clients must have resided in one of the 37 federally declared disaster parishes at the time of hurricanes Katrina and Rita of 2005. An estimate of 1,200 clients will be served. Services may be provided by subcontractors, reimbursement to clients and/or vouchers for services. These services may include minor home repairs needed as a result of the hurricanes, material aid including but not limited to assistance with prescription drugs not covered by another program, chore services, and safety and access installations which includes the installation of access ramps and safety and grab bars in bathrooms. In addition, transportation services, home care, and home delivered meals will be available.

Funding will include a total of \$52,000 (8%) for administrative costs incurred by the Office of Elderly Affairs to administer this program. No more than 9% of the program budget is allowed to be spent on administrative functions. The remaining funds in the amount of \$598,000 will be distributed as follows:

Allen AAA- \$12,500
Beauregard AAA- \$12,500
CAJUN AAA- \$90,000
Calcasieu AAA- 45,500
Cameron AAA- \$50,000
Capital AAA- \$90,000
Jefferson AAA- \$70,000

DEPARTMENT: Social Services

AGENDA NO.: 6

AGENCY: Office of Community Services

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration and Support	\$0	0
Interagency Transfers:	\$725,000	Child Welfare Services	\$0	0
Self-Generated Revenue:	\$200,000			
Statutory Dedications:	\$0			
Federal Funds:	(\$925,000)			
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to decrease Federal budget authority by (\$925,000), to increase IAT budget authority by \$725,000, and to increase SGR by \$200,000 in the Department of Social Services, Office of Community Services, Child Welfare Services program resulting in a net adjustment of zero. The source of IAT is federal Child Care Block Grant funds (100% federal) and the source of SGR is parental contributions for foster care children.

Federal funds are being reduced because policy changes in the Federal Reduction Act of 2005 have resulted in a decrease in the number of children who could be considered for Title IV-E administrative costs/claims. The agency is offsetting this decrease with a increase in IAT and SGR.

The IAT is additional Child Care Block Grant (CCBG) funds from the Office of Family Support. Due to Acts 148 and 338 of the 2005 Regular Session and Act 278 of the 2006 Regular Session, the number of child abuse investigations performed by the agency has increased which has caused a corresponding increase in the amount of expenditures which are funded with CCBG funds.

The increase in SGR is due to an increase in parental contributions from court ordered support or from parents who are able to contribute more monetary support to children who are placed in foster care. These funds can only be used for the care of the child.

II. IMPACT ON FUTURE FISCAL YEARS

The Division of Administration has indicated that this BA-7 will be annualized in FY 07-08.

DEPARTMENT: Youth Services

AGENDA NO.: 9

AGENCY: Office of Youth Development

ANALYST: Kristy F. Gary

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration	\$0	0
Interagency Transfers:	(\$246,821)	Swanson Center for Youth	\$0	0
Self-Generated Revenue:	\$194,000	Jetson Center for Youth	\$0	0
Statutory Dedications:	\$48,000	Bridge City Center for Youth	\$0	0
Federal Funds:	\$4,821	Acadiana Correctional Center For Youth	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is a means of financing substitution that decreases IAT in the amount of \$246,821 and increases SGR (\$194,000), Statutory Dedications (\$48,000), and Federal Funds (\$4,821) within the Contract Services Program of the Office of Youth Development (OYD). According the latest collection projections for FY 07, OYD's IAT will be \$246,821 less than current IAT budget authority and SGR, Statutory Dedications, and Federal Funds are projected to be \$194,000, \$48,000, \$4,821, respectively, higher than current existing operating budget.

The source of the funds to supplant the IAT funding is a result of increased collections in tax refund garnishments (SGR), supervision fees (Statutory Dedications), and Social Security Administration collections (Federal Funds). The source of the reduction in IAT is Title IV-E federal funds from the Department of Social Services (DSS). Due to the Deficit Reduction Act, which made changes regarding Title IV-E eligibility for administrative claims and maintenance costs, the Office of Community Services within the DSS has not reimbursed OYD for Title IV-E expenditures. OYD anticipates they may receive some reimbursements, but the payments may take longer and the payments may not be at the same level.

This funding will allow for expenditures to be made in FY 07 in the Contract Services Program for current private providers for youth residential treatment services.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Total	<u>\$270,076,307</u>	Total	<u>\$270,076,307</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$270,076,307 in IAT funds from the Office of Homeland Security and Emergency Preparedness. The funds are FEMA reimbursements for recovery efforts of the Recovery School District. The expenditures are broken out as follows:

Construction (2 sites and accounts payable)	\$38,469,220
Modular Construction (12 sites)	\$73,718,282
Contents (14 sites and accounts payable)	\$23,500,505
Content Removal (103 sites)	\$1,823,300
School Gutting/Demolition (52 sites)	\$125,000,000
Boarding Up/Fencing (52 sites)	\$1,820,000
Deferred Maintenance (13 sites)	\$3,625,000
Rekeying of Schools (53 sites)	<u>\$2,120,000</u>
Total	\$270,076,307

The Department of Education has \$50 M in Community Development Block Grant (CDBG) funds budgeted in the current fiscal year that may be used for any matching funds required by FEMA.

Currently, the Recovery School District is managing 22 public schools and 17 charter schools that serve over 17,000 students. The Orleans Parish School Board has control over 13 charter schools and 5 public schools that serve over 9,000 students. The Department of Education anticipates that over 81 schools will be available for FY 08 with a capacity of over 40,000 students; however, these figures change often depending on the return of students and changes to the Master Plan.

II. IMPACT ON FUTURE FISCAL YEARS

The payment for all expenditures will begin in the current fiscal year; however, the payment timeframe for some activities continues into FY 08. Funds will need to be carried forward for those activities.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$0	School Accountability and Improvement	\$0	0
Federal Funds:	\$0	Adult Education	\$0	0
		School and Community Support	\$0	0
Total	<u>\$0</u>	Total	<u>\$0</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to accept \$25.2 million in Federal Hurricane Katrina Foreign Contributions Grant funds from the U.S. Department of Education. The Louisiana Department of Education has sufficient budget authority to accept this grant in the School & Community Support Program; therefore, no additional budget authority is requested. The excess budget authority is from the Emergency Impact Aid award. The Impact Aid award estimated the cost of tuition of nonpublic schools; however, the actual cost to the nonpublic schools was less than estimated leaving excess budget authority. The funds in the BA-7 will be used to address educational needs of public and nonpublic schools in the Recovery School District, Orleans, St. Bernard, and Plaquemines Parishes that are in operation during the 2006-2007 school year.

Each local school district and nonpublic school wishing to receive assistance under the Hurricane Katrina Foreign Contributions Program is required to submit an application to the Department of Education. The Foreign Contribution Funds may be used for the following:

- 1) Libraries: classroom or centralized school libraries, books, materials and supplies, electronic media, computer technology and related resources.
- 2) Academic Labs: establish, replace, and update/enhance academic labs in areas such as Science, Math, Computer/Technology, and Language Acquisition. Equipment, materials and supplies, and computer technology items may be purchased.
- 3) Early Learning Centers: replace, enhance, or establish Early Learning Center programs. Expenditures are allowed for developmentally and age appropriate equipment, materials and supplies, and computer/instructional technology that promotes active hands-on learning, oral language development, and phonological awareness.

The amount on average estimated for each school to receive is approximately \$198,000. Once all of the applications are approved, funds will be allocated to schools with an approved application, and the schools will be notified of the increase or decrease in their award.

II. IMPACT ON FUTURE FISCAL YEARS

The grant is available until 11/30/07; however, the grant period will be extended on a year by year basis until all funds have been expended.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$454,916 from the Office of Emergency Preparedness (OEP) to the Department of Culture, Recreation, & Tourism. These funds are FEMA reimbursements for the Office of State Parks for expenses incurred during the aftermath of Hurricanes Katrina and Rita. This funding will flow through the Office of State Parks to the Office of Facility Planning and Control to cover the cost of project expenditures.

The reimbursements cover the following list of expenditures:

Debris removal at Bayou Segnette - \$222,705

Debris removal at Fort Pike - \$162,711

Maintenance and repairs to the Limestone Trail at Fountainbleau State Park - \$34,580

Maintenance and repairs to the 3 damaged sewer treatment plants at Sam Houston Jones State Park - \$34,920

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget FEMA reimbursement of overtime and related expenses incurred in FY 06 by the Crescent City Connection Division (CCCD) due to Hurricane Katrina. Reimbursement of these allowable costs has been approved by FEMA and funding will be transferred from the Governor's Office of Homeland Security & Emergency Preparedness (GOHSEP) upon approval of this BA-7. In response to the receipt of these federal funds, DOTD has requested that its self-generated revenue budget authority be reduced. The CCCD originally funded these expenses in FY 06 with its SGR and will utilize the federal funds in place of SGR in the current fiscal year. The SGR reduced through this BA-7 will be carried forward in the CCCD Trust Fund for use in subsequent fiscal years.

II. IMPACT ON FUTURE FISCAL YEARS

SGR reduced in this BA-7 will be held in the CCCD Trust and will be available for budgeting in subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$3,220,000</u>	Total	<u>\$3,220,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget funds to pay for the LA Swift Bus Services provided through a contractual agreement with NORTA (New Orleans Regional Transit Authority) for the period 12/1/06 through 6/30/07. This service provides free transportation between New Orleans and Baton Rouge, with stops in Laplace and Sorrento. This service was previously provided by FEMA with federal funds through November 30, 2006 but was discontinued due to FEMA's contention that the emergency period following Hurricane Katrina was over.

The source of funds for this BA-7 includes:

State Emergency Response Fund (SERF)	\$1.2 M
Federal Rural Transportation Funds (FTA)	\$2.02 M

The cost of this service is \$1.62 M (for period 12/1/06 to 3/31/07) to be funded entirely with Federal Transit Authority (FTA) Rural Transportation Funds. For the period 4/1/07 through 6/30/07, this program will be funded with a total of \$1.2 M in SERF funds and \$400,000 from the FTA.

According to DOTD, the FTA has provided a waiver for NORTA to provide this service without an RFP process. However, this waiver is allowed only through the end of June 07 and a bid process will be required should this service be continued beyond this period.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. However, the LFO assumes that funding will be provided in the Executive Budget to be submitted on March 16th to continue this service in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Total	<u>\$2,327,967</u>	Total	<u>\$2,327,967</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide \$2,327,967 in funding for the Office of State Police. The funding will provide for the continued deployment of 60 LA State Troopers in the New Orleans area on a special detail at the Governor's request. The Troopers were originally assigned to New Orleans from June 20, 2006 through December 2006. The detail was extended and the Troopers are expected to remain in New Orleans through June 2007. The source of funds is the State Emergency Response Fund (SERF). These funds will provide reimbursement of prior expenditures and also projected expenditures until 6/30/07.

\$1,630,239	Salaries & Related Benefits
389,700	Travel (meals and lodging)
<u>308,028</u>	Operating Services & Supplies (communications, fuel, maintenance, wear and tear)
\$2,327,967	

The purpose of this detail is to apply law enforcement presence and provide additional enforcement in support of the New Orleans Police Department. The LA State Police are handling a majority of policing and calls for service in this district.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Total	<u>\$54,598</u>	Total	<u>\$54,598</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$54,598 from the Office of Emergency Preparedness (OEP) to the Department of Wildlife & Fisheries. These funds are FEMA reimbursements for repairs and expenses incurred related to hurricanes Katrina and Rita.

The reimbursements cover the following list of expenditures: operating services (\$30,168), supplies (\$2,179), acquisitions (\$11,604) and major repairs (\$10,647).

During the search and rescue phase after Hurricane Katrina, the Department volunteered its services using both man hours and supplies. The Department is getting reimbursed for 297.5 man hours at \$90 per hour for a total of \$26,775 in labor costs. Additionally, the Department is being reimbursed for equipment used during the rescue in the amount of \$3,393.

During the search and rescue phase, a Motorola portable radio fell overboard when an airboat capsized. Reimbursement for a replacement radio is \$2,179.

During Hurricane Katrina the Lakefront Airport was inundated with flood water including the hanger, which housed a spare parts locker for the Department's Cessna aircraft. The locker was split open and several items were destroyed or lost. Items that were lost were a pressure washer, Bow wheel assembly, electric hydraulic pump, alternator, and cylinder assembly. The cost to replace the items is \$8,646.

When Hurricane Rita struck the Rockefeller Wildlife Refuge, the storm surge destroyed an outboard motor that was housed in the lumber shed. The Department is being reimbursed \$2,958 to replace the outboard motor.

During the search and rescue phase after Hurricane Katrina 2 triton boats from the Department were used and suffered substantial damage while in use. The Department is being reimbursed \$10,647 for repairs to these boats.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$4,893,706 in IAT from the Office of Emergency Preparedness (OEP) to Local Housing of State Adult Offenders. These funds are FEMA revenue to the agency for expenses incurred in FY 07 as a result of hurricanes Katrina and Rita and the limited number of beds in the Orleans area. Expenditures are for costs associated with the housing of additional inmates. Local Housing of State Adult Offenders, instead of being reimbursed for actual expenditures, is being reimbursed based on a per diem rate derived from a formula that allocates funding on a net cost impact. This is the same manner in which the Department of Corrections was previously reimbursed by FEMA. Of the \$4,893,706, \$4,210,706 is the amount of current FEMA reimbursements received and \$683,000 is the amount of projected FEMA reimbursements to be received.

Federal Funds:	\$0			
Total	<u>\$12,846,672</u>	Total	<u>\$12,846,672</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget State Emergency Response Funds (SERF) to the Military Department for the expenses related to the deployment of national guard troops in New Orleans through the end of FY 07. The Military Department was budgeted a total of \$13,530,629 at the 11/17/06 meeting of the Joint Legislative Committee on the Budget (JLCB) for the anticipated deployment expenses from June 06 through December 06. Actual expenses incurred during this period was \$11,649,950 which leaves a balance of \$1,880,678.

The Military Department projects a total of \$14,727,350 in deployment expenses for January 07 through June 07. As the balance available from the first BA-7 is \$1,880,678, the Military Department requests a total of \$12,846,672 through this BA-7. Projected expenses per month total \$2,320,500 and includes active duty pay, per diem, housing, fuel, travel, repairs, equipment rentals, and laundry. The total cost of the monthly expenditures through the end of FY 07 is \$13,923,000. The total cost per day is anticipated to be \$77,350.

In addition to the previously mentioned expenses, this request includes a total of \$428,150 for vehicle purchases and related expenses, and communications costs. These expenses include the purchase (through state surplus) of 33 used state police vehicles (\$49,500) at a cost of \$1,500 per vehicle plus \$2,650 for license, registration and title costs. These vehicles will begin to phase out the current fleet of humvees which are currently being used. A total of \$10,000 is included for maintenance costs including tire replacement and any other necessary work needed on these high mileage vehicles. The purchase of decals for these vehicles and the cost to remove existing decals and replacement is included at a cost of \$16,000. Finally, a total of \$350,000 is anticipated for the installation of a communications system which will allow the national guard to communicate on state police's 700 mhz frequency. The total cost includes the purchase of 100 radios (\$2,900/radio) plus currently installation costs, programming, and tower costs.

Also included in the request is \$66,200 for the cost of Special Reaction Team (SRT) training which is similar to SWAT training. This request would pay for national guard members who have already served or will serve in the New Orleans detail. The cost of each session, provided at Camp Beauregard is approximately \$33,000 and will fund the training of approximately 65 guardsmen. This cost includes food, state active duty pay, travel, and training costs.

Finally, a total of \$310,000 is requested for administrative costs in the Military Department related to this deployment. A complete explanation of this request has been requested but has yet to be received by the LFO at the time of this writing.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office has requested additional information regarding the \$310,000 requested by the Military Department for administrative expenses and will make a recommendation to the JLCB upon receipt of that documentation.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$150,000</u>	Total	<u>\$150,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget grant funds from the Annie E. Casey Foundation which will allow for the implementation of the Juvenile Detention Alternatives Initiative (JDAI) in 5 LA parishes which include Caddo, Calcasieu, East Baton Rouge, Jefferson, and Orleans. JDAI promotes changes to policies, practices, and programs to reduce reliance on secure confinement, improve public safety, save taxpayer dollars, and to stimulate overall juvenile justice reforms.

These funds will allow each of the five parishes previously mentioned to have representatives attend national conferences, regional training sessions, pay for travel expenses for attending quarterly meetings, and attend four model sites in which these types of programs have been implemented. The individual parishes will be responsible for funding the programs in their communities with oversight and coordination provided by staff from the LA Commission on Law Enforcement (LCLE). A portion of salaries of the state coordinator, coordinator assistant and a secretary will be funded through existing federal funds (Juvenile Justice & Delinquency Prevention Formula Block Grant) which can be used for administration of similar federal programs. The state participation is anticipated to be approximately \$42,000 in FY 07. According to the LCLE, state participation in this manner was strongly recommended.

The LCLE has received one-half (\$75,000) of the grant funds and will receive the remainder upon receipt and approval of both the Interim Progress and Interim Expenditure Reports which are due on 5/31/07.

Anticipated expenses are as follows:

\$11,016 - State coordinator and/or assistant travel to 4 model site visits, national conference, training, meetings
\$68,144 - four model site visits (Chicago, Portland, Albuquerque, and Santa Cruz). Lodging, meals, and airfare for 12-16
\$2,280 - Detention alternatives conferences in New Orleans. Mileage and meals for 20 participants @\$114 pp.
\$66,000 - Other required training (possible 3) location TBA. Airfare, hotel, and meals for 3 days x 20 participants @ \$1,000 pp
\$2,560 - Mileage reimbursement for quarterly meetings

II. IMPACT ON FUTURE FISCAL YEARS

The grant period runs from 11/1/06 through 10/31/07.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Recovery School District	\$91,904,466	0
Interagency Transfers:	\$91,860,047			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$44,419			
Total	<u>\$91,904,466</u>	Total	<u>\$91,904,466</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide budget authority of \$91,860,047 in IAT, and \$44,419 in Federal Funds for the Recovery School District. The federal funds are ROTC and Food Service program funds. The funds are to be used for current year operations of the Recovery School District.

The following is the breakout of IAT funds being transferred:

Type of Funds	Source of Funds	Amount
Title I, Federal	DOE, Subgrantee Assistance	\$18,626,380
Title II, Federal	DOE, Subgrantee Assistance	\$532,959
Title IV, Federal	DOE, Subgrantee Assistance	\$42,015
Title V, Federal	DOE, Subgrantee Assistance	\$24,843
IDEA-B, Federal	DOE, Subgrantee Assistance	\$4,408,788
IDEA-Preschool, Federal	DOE, Subgrantee Assistance	\$223,060
Food Services, Federal	DOE, Subgrantee Assistance	\$1,899,436
Minimum Foundation Program, State	DOE, Minimum Foundation Program	\$5,643,399
FEMA, Federal	Office of Emergency Preparedness	\$31,550,517
CDBG, Federal	Office of Emergency Preparedness	\$28,808,650
Charter School Loan Fund, Stat Ded	Board of Elementary and Secondary Education	<u>\$100,000</u>
Total IAT		\$91,860,047

The expenditures are budgeted as follows:

Other Compensation	\$12,849,187
Related Benefits	\$1,823,063
Travel	\$185,000
Operating Services	\$1,965,590
Supplies	\$16,517,545
Professional Services	\$6,904,806
Other Charges	\$598,676
Interagency Transfer	\$1,456,124
Acquisitions	\$565,008
Major Repairs	<u>\$49,039,467</u>
Total Expenditures	\$91,904,466

The funds transferred from the Department of Education are being used for expenses of the schools and central office of the Recovery School District for the current school year. The Recovery School District is completing the applications to receive the

March 16, 2007

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

federal grants and now will be eligible to draw their allocations. The Recovery School District has been operating these federal programs throughout the year. The funding from these grants will reimburse the district for expenses paid from other sources of funding to run the programs, or supplement funding for the programs. The funds are used to pay for items such as temporary unclassified positions that staff the central office and schools, supplies, equipment and professional development activities. The increase in MFP funds results from an October 2, 2006 membership count for the MFP. If a district's October 2, 2006 count exceeds the 5/1/06 count by 50 students or 1%, a mid-year adjustment will be provided equal to one-half of the district's MFP per pupil amount times the number of increased students.

The Community Development Block Grant funds (CDBG) and FEMA funds are being used for major repairs, and education acquisitions and supplies for schools. The Recovery School District is financially responsible for repairing certain schools in Orleans Parish. The budget authority requested for FEMA funds will pay contracts for supplies, acquisitions and major repairs for 11 schools that are occupied this year and 7 that will be open next Fall. The budget authority requested for Community Development Block Grant funds will allow the Department to receive CDBG funds that will be used to pay for major repairs and items that are not FEMA eligible such as the 10% match to draw the funds. The Department does not have detail as of this date as to the amount of current and future costs that are not FEMA eligible.

The funds from the Board of Elementary & Secondary Education are being used to retain counsel to defend the State in litigation involving the Recovery School District.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

DEPARTMENT: Health & Hospitals

AGENDA NO.: 1

AGENCY: Office of Public Health

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Vital Records and Statistics	\$0	0
Interagency Transfers:	\$0	Personal Health Services	\$1,403,419	0
Self-Generated Revenue:	\$0	Environmental Health Services	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$1,403,419			
Total	<u>\$1,403,419</u>	Total	<u>\$1,403,419</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Federal budget authority by \$1,403,419 in the Office of Public Health (OPH), Personal Health Services Program for pandemic influenza planning and preparedness. The source of federal funds is a grant from the U.S. Centers for Disease Control (CDC) Cooperative Agreement for Public Health Emergency Preparedness & Response. The total grant award is \$3,458,374. The agency has already received \$1,383,350 of this grant through a BA-7 approved by the Joint Legislative Committee on the Budget on 11/17/06. No state match is required for this grant.

The distribution of funding as approved by the CDC is as follows:

\$261,190 - Other Compensation - To continue salaries for 15 of the 16 job appointments approved by JLCB in November 2006. Positions include 1 program manager, 2 program monitor positions, 9 program specialists, 1 public health nurse 7, 1 social worker 6, and 1 EMS training specialist. The agency had originally requested 16 job appointments; however, the administrative coordinator 3 position is still pending approval by the CDC and is therefore not included in this request.

\$70,521 - Related Benefits for the 15 job appointments

\$44,068 - Travel for 15 professional-level staff assigned to the Pandemic Flu Program at the state and regional levels.

\$545,184 - Operating Services - printing costs for the Pandemic Influenza Family Readiness Guide, facility rentals for local and regional meetings, costs associated with licensing of a credentialing and management system, and Microsoft server licensing and software licensing required for use with the Outbreak Management System.

\$33,776 - Supplies - costs of supplies associated with office, computer, training, workshops, community events, disposable masks and gowns, and protective equipment.

\$246,910 - Other Charges - costs of contract for IT professional services for programming associated with the Outbreak Management Specs application and Microsoft software training and for expenses incurred by external partners/agencies for pandemic flu planning and preparedness activities/initiatives.

\$54,610 - Interagency Transfer - printing services from State Printing and LSU Print Shop.

\$147,160 - Acquisitions - computer application and database servers to facilitate use of the Outbreak Management Specs (software for disease surveillance) and 150 radios for use in mass vaccination sites.

OPH anticipates that at least half of the funding allocated to Other Compensation, Related Benefits, and Travel may not be spent because 14 of the 16 positions are still in the process of being filled with only 4 months remaining in the fiscal year. However, OPH has determined that upon approval from the CDC, these funds can be redirected to Operating Services for the printing and distribution of educational materials to all Louisiana citizens regarding the Pan Flu.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 is granting \$1,403,419 of the remaining grant award of \$2,075,024. The OPH anticipates utilizing \$365,591 of the remaining grant in FY 08. In addition, \$306,014 of the remaining grant is restricted pending further clarification and additional information. The agency anticipates that these funds will also be made available for use in FY 08. OPH does not anticipate that CDC will approve the carry forward of any funds not spent by the expiration of the grant period which is 8/30/07.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO.: 2

AGENCY: Office of Motor Vehicles

ANALYST: Jay Eckert

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Licensing Program	\$94,555	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$94,555			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$94,555</u>	Total	<u>\$94,555</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget an additional \$94,555 in SGR to the Office of Motor Vehicles within the Department of Public Safety. Funding will provide infrastructure repairs at the Leesville Public Service Facility that houses the district Office of Motor Vehicles.

Act 22 of the 2001 Regular Session authorized renovations to the state owned Leesville facility. Renovations included a new roof, new windows, new HVAC, a new parking area, plumbing fixtures, and electrical and interior renovations were provided. The existing driveway between Hwy 171 and Hwy 8 were not included in previous infrastructure improvements to the parking lot, which were renovated in 2002. This project will provide upgrades and renovations to the driveway by replacing the existing 4' culvert with a new 5' culvert. Also, to meet LA Department of Transportation & Development standards, 540' of existing drive will be broken up and compacted and a new 2" asphalt drive will be constructed in its place.

Additionally, the old concrete waste management grinder station shall be removed from the site and replaced by a new fiberglass pump station with new electronic controls that will meet LA Department of Environmental Quality regulations. The 1.5" PVC force main that is currently in place will be capped and a new 2" PVC force main will run 1,300' and terminate at the city's collection well, located on the corner of LA Hwy 1213 and LA Hwy 8.

These funds are generated through transactions related to drivers' licenses and motor vehicles in the state of LA. Current revenue projections for FY 07 are \$49,646,103. Existing operating budget is \$49,429,847.

<u>ITEM</u>	<u>AMOUNT</u>
<i>Grinder Station</i>	
Station/Electrical Force Main	\$35,000
Contingency	5,250
<i>Driveway</i>	
24" x 60" BCCMP	2,400
Restabalize Base	13,500
2" Asphalt Overlay	18,975
15% Contingency	5,230
<i>Engineering/Surveying</i>	<u>14,200</u>
TOTAL	\$94,555

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

DEPARTMENT: Revenue

AGENDA NO.: 3

AGENCY: LA. Tax Commission

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Property of Taxation Regulatory / Oversight	\$50,000	0
Interagency Transfers:	\$0	Supervision and Assistance to Local Assessors	\$0	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$50,000			
Federal Funds:	\$0			
Total	<u>\$50,000</u>	Total	<u>\$50,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase statutorily dedicated funds by \$50,000 to fund a study of the Tax Commission's policies and procedures relative to evaluating the uniformity of property tax assessments. The Tax Commission annually evaluates the uniformity of property tax assessments within each parish in LA. The Tax Commission will use these additional funds to pay a taxation and property assessment firm to study how the Commission evaluates the uniformity of property tax assessments in each parish. The Commission has chosen the firm of Almy, Gloudemans, Jacobs, and Denne to perform the study.

Funding for the study will come from the Tax Commission Expense Fund. This fund receives monies from any audits that produce additional tax revenue for parish government. In such cases, the Louisiana Tax Commission receives 10% of those additional tax revenues. The fund also receives monies from assessment fees that are levied annually for the service provided by the Commission in the appraisal and assessing of public service companies, banks and insurance companies. The Tax Commission Expense Fund is budgeted at \$540,000 currently in FY 07. The Commission conducted two large audits that resulted in unanticipated audit fees for FY 06.

The LA Tax Commission anticipates that they will collect \$485,000 in fees for their Expense Fund in the current fiscal year. The Tax Commission also carried forward \$464,296 in this fund in the current year. After subtracting anticipated current year expenditures of \$540,902, the fund will have approximately \$408,394 for BA-7s in the current year, or will carry these funds into FY 08.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no direct impact on future fiscal years. However, the assessment study may make recommendations that may have costs in future fiscal years. There is no way to estimate what those costs might be.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$3,546,917</u>	Total	<u>\$3,546,917</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide \$3,546,917 in additional budget authority for Prison Enterprises due to additional revenues generated from sales to other state, parish, and local governmental entities. Of the \$3,546,917, \$2,146,917 is from prior year (FY 06) collections being carried forward and \$1.4 M is from Office of Motor Vehicles for license plates. These funds will be used to purchase raw materials and inventory for Prison Enterprises' current product lines, such as the Canteen Distribution Center, License Plates, Janitorial Services, Metal Products, Garments, and Soap Products.

II. IMPACT ON FUTURE FISCAL YEARS

Prison Enterprises has requested in the FY 08 Continuation Budget Package additional budget authority in subsequent fiscal years totaling \$5 M to annualize this BA-7.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Total	<u>\$3,456,000</u>	Total	<u>\$3,456,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$3,456,000 in additional SGR to the Field Services Program within Probation & Parole. Probation & Parole will use the funds to purchase 165 replacement vehicles for probation and parole officers. The average purchase price of the vehicles, such as Ford Crown Victoria, Dodge Charger, and Dodge Ram, are approximately \$20,945 each.

Currently, Probation & Parole has a total of 493 vehicles and approximately half of those have over 100,000 miles, while half of the other remaining vehicles are over 5 years old. The new replacement vehicles are needed for probation and parole officers to perform their job duties.

The source of revenue is from probation and parole supervision fees from prior years (approximately \$2.8 M) and current year over collections (anticipated to be \$656,000).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

AGENDA NO.: 6

AGENCY: LA. Educational Television Authority

ANALYST: Mark Antoon

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration/Support Services	\$0	0
Interagency Transfers:	\$73,354	Broadcasting	\$73,354	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$73,354</u>	Total	<u>\$73,354</u>	<u>0</u>

I. SUMMARY/COMMENTS

The LA Educational Television Authority (LETA) is seeking an additional \$73,354 in IAT budget authority to allow the agency to accept funding to replace the master control/studio equipment at WLAE in New Orleans which was destroyed by Hurricane Katrina. The Federal Emergency Management Agency (FEMA) is the source of this funding.

The transmitter will be purchased through the capital outlay process. The agency will request FEMA reimbursement and FEMA will then authorize the Governor's Office to pay LETA, which, in turn transfers the funds to capital outlay. Facility Planning and Control has already approved this expenditure. In October 2006, the JLCB approved a BA-7 in the amount of \$529,325 for the transmitter restoration with the understanding that future funds might need to be budgeted as they become available to complete this work. Again, other items may be needed to make the site operational and these items will be funded as work on the project progresses.

Flooding and other damage in the aftermath of Hurricane Katrina completely destroyed the New Orleans transmitter which is located at WLAE in Chalmette. Approval of this BA-7 and continued replacement of the transmitter will allow the agency to restore programming to the area which is currently not being served.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB

DEPARTMENT: Higher Education

AGENDA NO.: 7A

AGENCY: Board of Regents for Higher Education

ANALYST: Mark Antoon

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Board of Regents	\$28,086,814	0
Interagency Transfers:	\$28,086,814			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$28,086,814</u>	Total	<u>\$28,086,814</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Board of Regents initially sought an additional \$28,086,814 in IAT budget authority in order to receive U.S. Department of Housing & Urban Development (HUD) economic development block grant funds through this BA-7. These funds are a portion of a \$332.5 M grant set aside under HUD's economic development category and are designed to stimulate short and long-term recovery in the hurricane-damaged areas. However because of a change in HUD reimbursement requirements, the BOR is now seeking additional IAT authority in the amount of \$28,168,800.

The BOR will utilize these funds as part of its Research Commercialization & Education Enhancement Program (RC/EEP) which is intended to restore research as well as education and training capacity at impacted post-secondary institutions and create an infrastructure to enhance transfer of the technology developed within these institutions to LA companies. Investing these funds will help to get labs and universities back on track and resume training the workforce needed to support the targeted research areas and technology-based economic development.

Specifically, the BOR anticipates using these funds to enhance three separate areas: Research, Commercialization, and Education and Training in higher education.

Research
The BOR plans to create an Eminent Scholars program which is designed to attract and retain top faculty and will also use funds to provide core resources, such as laboratory upgrades, for these scholars.

Commercialization
The BOR plans to create an entity to support the development of technology before a company is formed.

Education and Training
The BOR plans on allocating funding to retain key faculty by providing salary enhancements, summer funding for teaching and research, and release time to enable key faculty members to devote more time to education and training efforts. Also, these funds will be used to expand student education and training by awarding need and merit-based scholarships. Further, lost or damaged equipment will be replaced.

These funds are restricted to the following eligible institutions:

Baptist Theological Seminary
Delgado Community College
Dillard University
LSU Agricultural Center (hurricane-impacted facilities)
LSU Health Sciences Center - New Orleans
Louisiana Universities Marine Consortium
Loyola University of New Orleans
McNeese State University

February 16, 2007

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not approved by JLCB**

Nunez Community College
Our Lady of Holy Cross College
Southern University-New Orleans
SOWELA Technical Community College
Tulane University and Health Sciences Center
University of New Orleans
Xavier University

These funds will be allocated to the institutions using a competitive grant process similar to the one already used in the 8g process in which request for proposals are solicited and the submissions are reviewed by an impartial out-of-state committee which makes the actual award. This competitive process does not guarantee funding to any particular institution in any specific amount.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the amount of \$28,168,800 to reflect the accurate amount of the actual funds to be transferred to the BOR from DOA. Initially, the DOA planned on spending \$413, 186 in Other Charges for the formulation of a strategic plan as required and approved by HUD. The actual cost of the strategic plan was less than originally anticipated because HUD only agreed to pay a portion of the planning costs in the amount of \$331,200. Originally, the BOR contracted for a strategic plan to cover the entire state but HUD only agreed to pay for a prorated amount reflecting the storm- affected 37 parishes. The BOR will pay the additional costs of the plan out of existing funds within the agency. This means that an additional \$81,986 will be available to the institutions.

I. SUMMARY/COMMENTS

This is a companion to BA-7 # 7A.

The purpose of this BA-7 is to budget funds from the U.S. Department of Housing & Urban Development (HUD) to the Office of Community Development within the Division of Administration (DOA). These funds will be budgeted in the DOA budget and a total of \$28,168,800 will be transferred to the Board of Regents (BOR) to be expended in conjunction with Action Plan Amendment #5 which has already been approved by HUD. These disaster recovery funds are part of the \$332.5 M set aside under the economic development category to stimulate short and long-term recovery. The economic development programs are designed to provide capital, to provide technical assistance, to rebuild the customer base and provide trained employees for existing businesses and to rebuild the customer base for developing new, higher wage jobs for the region.

The BOR will utilize these funds as part of its Research Commercialization & Education Enhancement Program (RC/EEP) which is intended to restore research as well as education and training capacity at impacted post-secondary institutions and create an infrastructure to enhance transfer of the technology developed within these institutions to LA companies. Investing these funds will help to get labs and universities back on track and resume training the workforce needed to support the targeted research areas and technology-based economic development.

A total of \$331,200 from this appropriation will be utilized by the Office of Community Development to develop a strategic plan and create a pilot program based on this plan to spur research commercialization and educational enhancement in higher education institutions in the severely impacted areas.

Detailed explanation of expenditures related to this program are provided in BA-7 #7A.

I. SUMMARY/COMMENTS

This BA-7 request is to increase the Interim Emergency Board's operating budget by \$8,700. Approximately \$7,100 of the increase will be used for the payment of 4th quarter FY 06 obligations out of current year funds due to an oversight in the billing/reimbursement process. Remaining funds will be used for postage, per diem and travel for the remainder of the fiscal year. The IEB operating budget has been \$35,451 for a number of years. Funding will be made available from the \$19,771,805 of constitutionally required funding level for the IEB as determined by the State Treasurer.

II. IMPACT ON FUTURE FISCAL YEARS

The Office of Planning & Budget has indicated that sufficient funding will be included in the Executive Budget recommendation for the operations of the Interim Emergency Board.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 request.

February 16, 2007

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Economic Development

AGENDA NO.: 9

AGENCY: Office of Business Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development Program	\$105,000,000	0
Interagency Transfers:	\$105,000,000			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$105,000,000</u>	Total	<u>\$105,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase interagency transfer funds by \$105 M to fund grants associated with the Business Recovery Grant & Loan Program. These funds are Federal Community Development Block Grant (CDBG) funds first appropriated to the LA Office of Community Development (OCD) by the Joint Legislative Committee on the Budget (JLCB) by BA-7. These funds are part of \$711,865,025 for OCD adopted by JLCB on 9/19/06 (agenda item 26A). On 2/9/07 the U. S. Department of Housing & Urban Development (HUD) approved a revised action plan for the use of these CDBG funds. HUD approved reallocation of \$27 M from the Long Term Recovery Loan Guarantee Program to fund this BA-7. HUD also authorized allocation of \$78 M from the Bridge Loan Program to fund this BA-7. These funds do not require a matching component from the State of LA.

The goal of the Business Recovery Grant & Loan Program is to assist small firms in hurricane affected parishes that have a chance to survive, contribute to the economy, and maintain and create jobs. DED will use \$100 M of the requested funds to pay grants to participating businesses. Grants provided with these funds will target small firms with 1 to 50 employees. Each grant is capped at \$20,000. DED estimates that the requested funds will provide 5,000 to 6,000 grants in total. The deadline to apply for these grants is 2/16/07.

Businesses eligible for these grants must demonstrate a significant decline in revenues due to hurricanes Katrina and Rita. Eligible businesses must have been in operation for at least 6 months prior to storms and must have reopened or show potential to reopen.

DED plans to use up to \$5 M of this requested funding for administrative costs of non-profit lenders and Community Development Financial Institutions (CDFIs) approved and monitored by DED. These intermediaries will review and distribute grants and loans to participating businesses. Loans by these intermediaries are funded with \$38 M in CDBG funds approved by the JLCB on 11/17/06. DED will pay each intermediary a maximum of:

1. \$7,500 (\$7000, for processing + \$500 for technical assistance) for each loan closed, not to exceed 20% of loan value;
2. \$750 (\$700 for processing + \$50 for technical assistance) for each grant closed, not to exceed 20% of grant value, regardless of eventual award by State;
3. \$300 for each loan processed but rejected; and
4. \$100 for each grant processed but rejected.

In addition, intermediaries may receive an allocation of up to \$75,000 to defray start-up expenses. DED will make these reimbursements based upon presentation of appropriate documentation.

II. IMPACT ON FUTURE FISCAL YEARS

DED hopes to distribute all \$100 M in grants as soon as possible, hopefully by the end of FY 07. The LFO believes it is unlikely that DED will expend the entire requested amount by the end of the fiscal year. As such, DED will likely request that a significant portion of this funding be reappropriated in future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$11,435,690			
Total	<u>\$11,435,690</u>	Total	<u>\$11,435,690</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is provide additional budget authority to receive federal funding from the Corporation for National & Community Service for disaster relief programs in the aftermath of hurricanes Katrina and Rita. This supplemental appropriation was made to the LA Serve Commission for distribution to AmeriCorps programs for grants to assist with disaster relief activities. Disaster relief activities include the following in hurricane affected areas: gutting and restoring homes; tutoring and mentoring of students; and identifying resources needed by the individuals affected by the hurricanes to provide them food and shelter, schooling, health and human needs and all other needs as identified through individual and community assessments.

Funding is being made available for three different grants to assist with disaster relief activities. A new AmeriCorps Formula Grant is being made in the amount of \$7,154,718. Formula grants are monies available to each state based on population. Typically, LA is awarded approximately \$1.2 M per year. Following the hurricanes of 2005, unused formula federal funding from across the U.S. was compiled and redistributed amongst the 5 coastal states for disaster recovery purposes. Distribution of these monies are decided at the state level and does not require a federal competitive process. Programs recommended to receive funding from this grant are America's Wetland, City Year LA (NO), Civic Justice - Catholic Charities New Orleans, Habitat for Humanity, JUMPSTART, Operation REACH, ReLEAF New Orleans, Trinity Christian Community, and the University of LA at Lafayette.

The second purpose for the funding is to augment the yearly grant for the Delta Service Corps in the amount of \$846,454 and Southwest LA Health Education Center in the amount of \$1,784,677. These grants are AmeriCorps Competitive Grants. Competitive grants for AmeriCorps funding are distributed to those applicants that go through a federal competitive process after they go through the state level.

The final purpose for funding is to augment the yearly grant for the Trinity Christian Community in the amount of \$1,649,841. This grant is also an AmeriCorps Competitive Grant.

Specifically, the funding will be used by subgrantees to pay stipends to participants and for operating costs of the programs. Typically, there are no operating costs involved with the distribution of these funds because these funds are directly awarded to the grantee. The LA Serve Commission is allowed to capture 1% of the federal share for the purposes of supporting the work of the commission. Beginning with all programs funded from January 2007 forward the Commission will require each funded program to include in their budget 1% of their total share for the operations. This amount is not yet determined, as all of the awards have not been made to date.

No state match is required in order to receive these grants.

The Office of the Lieutenant Governor has expended approximately \$500,000 from other federal sources in anticipation of receipt of these grant awards.

January 19, 2007

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

II. IMPACT ON FUTURE FISCAL YEARS

These are one time federal grant award allotments that have a three year budget period. All unexpended budget amounts will be carried forward into the next fiscal year. All funds are due to be expended by 12/31/09.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

DEPARTMENT: Public Safety

AGENDA NO.: 2

AGENCY: Office of State Fire Marshal

ANALYST: Jay Eckert

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Fire Prevention Program	\$88,154	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$88,154			
Federal Funds:	\$0			
Total	<u>\$88,154</u>	Total	<u>\$88,154</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$88,154 in Statutory Dedicated funds in the current fiscal year from the LA Fire Marshal fund to the Office of State Fire Marshal within the Department of Public Safety. The source of revenue to the LA Fire Marshal fund is from a fee paid for licenses from firms or individuals in the business of installing or servicing fire extinguishers, fire alarms, fire detection, and fire extinguisher equipment as well as a tax of 1 1/4% of the gross annual premium from any business which insures property against fire loss in the state of LA. Collections for the current fiscal year in the LA Fire Marshal fund are expected to be approximately \$10.6 M. Including this BA-7, projected current expenses from the fund for this fiscal year will increase to \$8.6 M leaving a balance of approximately \$2 M.

The Emergency Response Unit was created in May 2006 as part of the agency's support role to the Governor's Office of Homeland Security & Emergency Preparedness for coordinating fire service response to emergencies and disasters. The Office of State Fire Marshal has created a ten-man field emergency response team from current agency staff and is currently changing its arson and fire investigation truck into a command and communication vehicle. The response vehicle and team will be listed as a resource in the LA Fire Service Statewide Emergency Response Plan and will be available to any local fire department in need. These funds will allow the Office of State Fire Marshal to equip its Emergency Response Unit with communications equipment and tactical supplies to allow it to effectively respond to any emergency or disasters in the state.

Total	<u>\$99,504</u>	Total	<u>\$99,504</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase agency self-generated funds by \$99,504 for a disaster recovery data storage system for the Department of Revenue. The source of these fees and self-generated revenues are excess collections carried forward from FY 06. The specific fees are primarily late payment and delinquent fees. Revenue will use these additional funds for the following items:

1. \$14,030 for the 1st of 5 yearly payments for Restorer Basic System hardware (total 5 year cost of \$70,150),
2. \$52,336 for optimization engine software,
3. \$18,000 for duplication software,
4. \$4,050 for software installation,
5. \$11,088 for hardware maintenance.

II. IMPACT ON FUTURE FISCAL YEARS

The Department of Revenue will incur annual costs of \$25,118 for the following items:

1. \$14,030 for the 1st of 5 yearly payments for Restorer Basic System hardware (total 5 year cost of \$70,150)
2. \$11,088 for hardware maintenance.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration	\$0	0
Interagency Transfers:	\$804,105	Jetson Center for Youth	\$0	0
Self-Generated Revenue:	\$0	Swanson Center for Youth	\$0	0
Statutory Dedications:	\$0	Bridge City Center for Youth	\$0	0
Federal Funds:	\$0	Field Services	\$0	0
		Contract Services	\$804,105	0
Total	<u>\$804,105</u>	Total	<u>\$804,105</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$804,105 from the Office of Emergency Preparedness (OEP) to the Office of Youth Development (OYD). These funds are FEMA reimbursements to OYD for expenses incurred in FY 06 as a result of Hurricane Katrina. Expenditures reimbursed include the services OYD provided for the housing and evacuation of state and local youthful offenders. OYD, instead of being reimbursed for actual expenditures, is being reimbursed based on a per diem rate derived from a formula that allocates funding on a net cost impact. This is the same manner in which the Department of Corrections was reimbursed by FEMA.

This funding will allow for one-time expenditures to be made in FY 07 in the Contract Services Program for services needed as requested by judges, district attorneys, and regional probation and parole staff to address juvenile delinquency during summer months when youth are not in school. OYD will contract with entities, such as Parish School Boards, Boys & Girls Club, LA Goodwill Services, etc., to provide summer enrichment, life skills, leadership and character development, mentoring, and other programs for at-risk youth for 3 months (April through June). OYD estimates that there would be an increase of 608 children served with this funding.

If the BA-7 is not approved, OYD will not have the funding for these summer programs.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$38,418			
Federal Funds:	\$0			
Total	<u>\$38,418</u>	Total	<u>\$38,418</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide funding which will enable the LA Manufactured Housing Commission (LMHC) to fill one of its vacant inspector positions and to fund the purchase of 2 automobiles from LA Federal Property Assistance (federal surplus). The LMHC is unable to meet its performance goal of inspecting 60% of all reported manufactured home installations with the four inspectors currently on staff. The LMHC will fill one of its 3 existing inspector positions currently vacant with this additional funding. The anticipated annual salary is \$21,000 for this inspector and the BA-7 includes funding for the salary and related benefits for the remainder of the fiscal year (\$16,718) and a total of \$5,700 for associated operating services, supplies, and the purchase of a laptop computer for this position.

The LMHC has experienced a significant increase in revenues from licensing and installation permits in the aftermath of Hurricane Katrina. This level of revenue is sufficient to fund the additional inspector and the purchase of the 2 vehicles.

Any collections generated over what is budgeted is carried forward in the LA Manufactured Housing Commission Fund. The LMHC anticipates collections over its current expenditures for FY 07 in the amount of \$306,089, with surplus from FY 06 totaling \$252,759. The total amount of surplus in the LA Manufactured Housing Commission Fund at the end of FY 06 was \$707,939 and is expected to grow to over \$1 M in FY 07.

Two vehicles will be purchased through LA Federal Property Assistance (federal surplus) at an estimated cost of \$8,000 per vehicle to replace 2 vehicles with over 140,000 miles.

II. IMPACT ON FUTURE FISCAL YEARS

The total annualized salary of the new inspector plus associated costs for FY 08 is \$38,973 and will rise each fiscal year by approximately 4% for salary adjustments and inflation.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

AGENDA NO.: 7

AGENCY: Board of Tax Appeals

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$6,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$6,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$6,000</u>	Total	<u>\$6,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget additional SGR which will allow the Board of Tax Appeals to add a part-time employee to assist in data entry, scanning cases, preparing case information sheets, and additional research in tax cases. Due to a limited staff of 3 permanent employees and a significant increase in tax appeals to the Board, this agency has fallen behind the targets set in its performance indicators for the percentage of open cases up-to-date with scanning and entering data in its docketing system. A total of 140 new cases have been received since November 06 that have yet to be scanned or entered into the docketing system. The 5 year average for new cases filed per year is 113. This increase has added to the backlog of cases which has already existed and has made the hiring of a temporary staffer necessary to meet its performance standards.

Due to the agency's limited budget, this request seeks to budget additional SGR for this purpose. The Board increased filing fees in June 2006 and is estimated to increase its collections by a minimum of \$6,000 and could reach nearly \$10,000 annually based on the average number of appeals for the past 5 years. These additional fees would accrue to the state general fund if not budgeted through this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

The Board of Tax Appeals notes that this additional funding will be requested in future fiscal years in order to meet the aforementioned performance requirements.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget monies from the State Emergency Response Fund (SERF) necessary to fund the required state match for Public Assistance (PA) management costs. These costs include a FEMA approved Project Worksheet (PW) for \$11,654,311 (State Match of 10% is \$1,165,431) for the technical assistance provided to GOHSEP by James Lee Witt Associates, L.L.C. (JLW) for the period September 06 through February 07. This original PW anticipated a reduction in the JLW staff during that specific time period. However, FEMA has determined that a significant portion of the original PWs would have to be rewritten due to increased construction costs. Therefore, JLW has requested an additional \$5,476,324 for its increased costs for technical assistance during this same period (State Match of 10% is \$547,632). Finally, \$10,822,149 is the estimated cost of technical assistance by JLW for the period March 07 through June 07 (State Match of 10% is \$1,082,215). GOHSEP is in the process of preparing an RFP for PA technical assistance. Therefore, it is possible that this amount may change if JLW is not the successful bidder on this contract. The \$10.8 million and \$5.4 million PWs have been submitted to FEMA but have yet been to be approved.

In addition, this BA-7 budgets state match dollars totaling \$674,075 for personnel costs of approximately 100 temporary employees, DPS server fees, computers and communication devices, and supplies for September 06 through the remainder of this fiscal year. In addition, a document imaging system will be purchased at a cost of \$180,000 (state match is \$47,576) which will enable GOHSEP to preserve the large volume of documents processed at the Joint Field Office. Finally, a total of \$62,012 will allow for the extension of four temporary employees who are assisting in relocating hurricane commodities and supplies being stored temporarily by FEMA to a GOHSEP warehouse in Minden.

II. IMPACT ON FUTURE FISCAL YEARS

The state match for FY 08 is anticipated to be \$4.1 million with a full year of costs for technical assistance as well as personnel and operating costs with minor growth in subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	(\$470,000)			
Total	<u>\$50,000</u>	Total	<u>\$50,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is twofold. This BA-7 will properly classify funding (based on FY 06 appropriation) of the nonpublic school salary supplement which is transferred from the Department of Education to the Military Department for reimbursement of costs of full-time and part-time school support employees at the 3 Youth Challenge programs statewide and the Job Challenge program in Carville. These funds have been incorrectly classified in previous years as federal funds and will be correctly budgeted as IAT funding through this mechanism.

In addition, this BA-7 will establish a self-generated canteen at Jackson Barracks to be used by workers taking part in rebuilding efforts at this facility and troops located in New Orleans.

II. IMPACT ON FUTURE FISCAL YEARS

The Jackson Barracks Canteen will request additional self-generated budget authority in subsequent fiscal years totaling \$75,000 and may be adjusted if estimates are incorrect.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$240,000</u>	Total	<u>\$240,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide budget authority for the Office of Financial Institutions (OFI) for revenue received in conjunction with implementation of Act 36 of the 2006 Legislative Session. This legislation authorizes OFI to obtain certain state and federal criminal history records of applicants for licensure for mortgage originators to further ensure that unqualified applicants do not receive a license or charter.

The fee for a state background check is \$26, while the cost of a federal background check is \$24. OFI estimates that a total of 4,800 background checks will be required in FY 07 which will result in an increase in SGR of \$240,000 ($4,800 * \$50 = \$240,000$).

II. IMPACT ON FUTURE FISCAL YEARS

According to OFI, background checks will be performed every 5 years. Therefore, revenue received for this purpose will ultimately depend upon the number of applicants for licensure.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget statutorily dedicated monies from the State Emergency Response Fund (SERF) into the newly created LA Interoperability Communications Fund (Act 2 of the 2nd Extraordinary Session 2006). These funds will be utilized to establish, design, develop, acquire, construct, administer, operate, and maintain an interoperability communications system within the state to serve state and local emergency and first responders and to meet National Incident Management Systems (NIMS) communications requirements. This funding includes salaries and related benefits for 4 additional personnel for the remainder of FY 07 in the Executive Office to administer this program. These positions include a director, 2 design engineers, and an administrative professional. Funding for these positions for FY 07 including salary and related benefits is \$222,750 plus an additional \$25,000 for travel expenses. In addition, this amount includes \$100,000 for professional services and \$244,194 for transfer to the Office of State Police for the additional personnel (4 new radio technicians) and equipment necessary for maintenance of the expanded system. The 4 new employees at State Police will be hired as job appointments (temporary) and consideration will be given to adding these employees to the table of organization (T.O.) at a later date. The remainder of the expenses for FY 07 are as follows:

\$250,000 for mutual aid repeaters which will allow non 700/800 mhz users to establish interoperability as a short term solution. The repeaters will be placed on all mobile units and selected towers.

\$1.5 M for 3 new radio towers for complete radio coverage for the southern part of the state. The tower location will be in Ramah, Vermillion Parish, and Breaux Bridge.

\$1.65 M for 2 new mobile units plus satellite connections which will provide additional radio coverage. The mobile units will be placed throughout the state to respond quickly when needed.

\$3.75 M for 1,500 mobile radios. Providing these radios to the local entities will prepare them to assist in the areas 700 mhz coverage is available.

\$2,062,500 for IP based interoperability solution which is a short-term solution that will also continue to provide services with the eventual implementation of the long-term solution. This includes hardware and installation.

II. IMPACT ON FUTURE FISCAL YEARS

The remaining cost of the short-term solution is \$11,468,930 which, according to the Governor's Office, will be funded with state general fund in FY 08. Ongoing maintenance and personnel costs in FY 09 is anticipated to be \$7.8 M and will also be funded with SGF.

NOTE: According to the DOA, implementation of a long-term solution will cost approximately \$352 M.

Federal Funds:	\$0	State Veteran Cemetery	\$100,000	0
Total	<u>\$100,000</u>	Total	<u>\$100,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is a companion to BA-7 #13B.

The purpose of this BA-7 is to budget additional state general funds (reduced in BA-7 #13B) for operating costs of the newly constructed Northwest State Veterans Cemetery in Caddo Parish (Keithville). Construction of the cemetery was projected to be completed on 4/2/07 but was completed 6 months ahead of schedule. This cemetery was originally appropriated only 3 months of funding for its operations and has limited the facility's ability to complete its staff and fund necessary expenses. This additional funding will enable the NW Veterans Cemetery to fill the remainder of its staff (5 positions which will bring the total staff to 9) and fund additional expenses which were not included in its original appropriation. The total expenses are as follows:

Salaries	\$24,373
Related Benefits	\$16,708
*Travel	\$10,000
Operating Serv.	\$10,000
Supplies	\$5,000
Acquisitions	<u>\$33,919</u>
Total	\$100,000

Travel funding is necessary to send 3 employees to the Veterans State Cemetery in Kentucky in February 2007 for training. This will be a weeklong training on federal procedures and guidelines for burials. There will also be a need for staff training in Baton Rouge for Department of Veterans Affairs policies and procedures, ISIS, civil service, property control, and other professional level training for specific job classifications.

Also, the Department of Veterans Affairs has been working with federal and other state cemetery personnel to identify additional equipment requirements for the Caddo cemetery beyond what was originally provided for through federal sources. These items are not on state contract and will be purchased through a bid process.

II. IMPACT ON FUTURE FISCAL YEARS

Salary and related benefits costs of the 5 additional positions will be annualized in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Total	<u>(\$100,000)</u>	Total	<u>(\$100,000)</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is a companion to BA-7 #13A.

The purpose of this BA-7 is to reduce the FY 07 appropriation for the Southeast LA War Veterans' Home in Reserve (SELWVH) and shift this funding to the Department of War Veterans Affairs (BA-7 #13A) to be used for operating costs of the newly constructed Northwest State Veterans Cemetery in Caddo Parish. Construction of the cemetery was projected to be completed on 4/2/07 but was completed 6 months ahead of schedule. This cemetery currently has only 3 months of funding for its operations.

The SELWVH facility was originally projected to be completed on 10/1/06 and was appropriated funds for 8 months of operation. The estimated completion of this facility has been changed to 2/4/07 due to labor issues resulting from the aftermath of Hurricane Katrina. Therefore, due to the delay in the opening of this facility, sufficient funds are available to transfer to the Department of Veterans Affairs to be used for the operations of the Caddo cemetery.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$494,389</u>	Total	<u>\$494,389</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$494,389 in the Jefferson Parish Human Services Authority. The funds will be used for the provision of physical, mental, and addiction services in the JPHSA target area. The source of funds are various federal grant funds from the Department of Health & Human Services (DHHS) that are being transferred from the Office of Mental Health, Office for Addictive Disorders, and the Office for Citizens with Developmental Disabilities. The net increase in IAT being requested by the JPHSA is the result of the following budget adjustments with OMH, OAD, and OCDD.

Office of Mental Health	\$214,297
Office of Addictive Disorders	\$290,290
Office for Citizens with Developmental Disabilities	<u>(\$10,198)</u>
	\$494,389

Office of Mental Health - \$214,297

The OMH is transferring federal block grant funding to the Jefferson Parish Human Services Authority for adult employment (\$40,000), homeless outreach programs (\$8,966), and for the Louisiana Spirit program which provides for crisis counseling for Katrina victims (\$165,331).

Office for Addictive Disorders - \$290,290

The JPHSA is requesting to increase IAT authority by a net of \$290,290. This is the result of 5 separate adjustments with OAD as itemized below.

\$208,845 - Transfer Compulsive and Problem Gaming Stat Ded funding for intensive outpatient gambling prevention
\$150,000 - Transfer federal block grant funding for crisis counseling provided by the Celebration Church
\$39,310 - Transfer TANF Funds to provide substance abuse services for women with dependent children
(\$60,645) - Reduction in Partners in Prevention grant (decrease federal funding for substance abuse prevention activities)
(\$47,220) - Elimination of the National Teen Institute federal grant (that provided teen substance abuse awareness conferences)
\$290,290

Office for Citizens with Developmental Disabilities - (\$10,198)

The OCDD is reducing federal grant funding to the JPHSA that was used for the OCDD Consumer Training Program. This program provided personal care training to families with developmentally disabled children.

II. IMPACT ON FUTURE FISCAL YEARS

The Office of Planning & Budget has indicated that this BA-7 will be annualized for FY 08. Annualized costs are projected to be \$289,058 for future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$11,919,497			
Total	<u>\$11,919,497</u>	Total	<u>\$11,919,497</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the Federal budget authority by \$11,919,497 in the Department of Health & Hospitals, Office of Mental Health (State Office), Community Mental Health Program. The Office of Mental Health (OMH) has been awarded an additional \$11,919,497 from the Substance Abuse Mental Health Services Administration for Crisis Counseling Assistance & Training. The agency previously received \$34,751,835, through a BA-7 approved by the JLCB on 10/20/06. This brings the total award amount to \$46,671,332. The grant period is 9/1/06 through 5/31/07. This grant does not require a state match.

Approval of this BA-7 will allow the agency to continue providing crisis counseling outreach, community education, and referral services to communities within the 31 parishes designated under FEMA 1603-DR-LA (Declared). The total grant award of \$46.6 M is expected to serve approximately 835,972 individuals.

The funding for this BA-7 will be allocated as follows: OMH State Office **(\$4,447,838)**, OMH Region 3 - **(\$65,136)**, OMH Regions 4 & 5 **(\$64,886)**, Florida Parishes Human Service Authority **(\$5,500)**, Capitol Area Human Service Authority **(\$5,500)**, Jefferson Parish Human Service Authority **(\$5,500)**, Metropolitan Human Service District **(\$5,400)**, Catholic Charities of the Archdiocese of New Orleans contract **(\$1,109,114)**, Volunteers of America-New Orleans contract **(\$153,829)**, Options of Independence contract **(\$55,856)**, Catholic Charities subcontract **(\$5,466,748)**, Harmony Center contract **(\$497,686)**, and Volunteers of America-Baton Rouge contract **(\$36,504)**.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. The grant period is 9/12/06 through 5/31/07.

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE

ANALYSIS OF BA-7 REQUEST

Original: Not Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 16A

AGENCY: Medical Vendor Payments

ANALYST: Brian Crow

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	(\$9,045,277)	Private Providers	(\$10,461,416)	0
Interagency Transfers:	\$0	Public Providers	\$498,128	0
Self-Generated Revenue:	\$0	Uncompensated Care Costs	\$918,011	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>(\$9,045,277)</u>	Total	<u>(\$9,045,277)</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (Companion to BA-7s 16B through 16K) is to reduce the expenditure authority of Medical Vendor Payments (MVP) by \$9,045,277 in SGF. This funding will be used in other agencies (See companion BA-7s for details) within the Department of Health & Hospitals (DHH) to fund items that are part of the Healthcare Redesign Initiative. The net effect of this BA-7 is as follows: SGF is being reduced by \$9,474,509 and Federal Funds by \$986,907 in the Private Providers Program; SGF is being increased by \$150,983 and Federal Funds by \$347,145 in the Public Providers Program; and SGF is being increased by \$278,249 and Federal Funds by \$639,762 in the Uncompensated Care Costs Program. The source of the funding is from anticipated excess in the Payments to Private Providers Program for FY 07, based on the surplus year end projection of \$28 M. Information provided by DHH indicates that the reduction of funding in MVP will be distributed to the various agencies as follows:

<u>Agency</u>	<u>Amount (SGF)</u>	<u>Purpose</u>
Jefferson Parish Human Services Authority (16B)	\$335,356	Restoration of Supervised Housing Services Florida
Parishes Human Services Authority (16C)	\$335,358	Restoration of Supervised Housing Services
Capital Area Human Services District (16D)	\$335,356	Restoration of Supervised Housing Services
Metropolitan Human Services District (16E)	\$335,356	Restoration of Supervised Housing Services
John J. Hainkel Jr. Home and Rehab Ctr. (16F)	\$149,325	Salary increases relative to staff retention
John J. Hainkel Jr. Home and Rehab Ctr. (16G)	\$292,560	Reopen 40 skilled and intermediate beds Mental
Health Area C (16H)	\$1,006,068	Restoration of Supervised Housing Services
Mental Health Area B (16I)	\$1,861,712	Restoration of Supervised Housing Services and expansion of forensic services
Mental Health Area A (16J)	\$2,710,576	Adds Crisis Intervention Unit and Crisis Respite beds, and restores Supervised Housing Services at NOAH
Office of Addictive Disorders (16K)	<u>\$2,737,500</u>	Adds Medical Detox and SA / Mental Illness beds
TOTAL of BA-7s	<u>\$9,045,277</u>	

Information provided by DHH and the Office of Planning and Budget (OPB) indicates that existing funding (not included in this BA-7) of \$32,844,782 (\$9,955,253 SGF and \$22,889,529 FED) in Medical Vendor Payments will be redirected and used to fund 2 additional items that are also part of Healthcare Redesign as follows:

100 Emergency Waiver slots (NOW, Children's, and Residential)	\$1,414,652 (\$428,781 SGF and \$985,871 FED)
Reimbursement increase for Direct Service Workers	\$31,430,130 (\$9,526,472 SGF and \$21,903,658)

II. IMPACT ON FUTURE FISCAL YEARS

DHH indicates that the total cost of the Healthcare Redesign (includes Direct Service Workers and 100 Waiver slots) for a full year of operation will be approximately \$113.6 M (SGF \$51.5 M; IAT \$4.6 M; and FED \$57.5 M). The OPB has indicated that funding for such purpose will be added to the Executive Budget for FY 08 and subsequent fiscal years.

January 19, 2007

LEGISLATIVE FISCAL OFFICE

ANALYSIS OF BA-7 REQUEST

Original: Not Approved By JLCB

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of the services as submitted in this BA-7 and the companion BA-7s. However, the LFO recommends an alternate financing mechanism, Social Services Block Grant (SSBG) funds, be used to provide funding for these services where the use of such funding is appropriate in FY 07. DHH has indicated that of the \$101 M in SSBG funds allocated to the department, \$16.4 M has not been committed to any specific project and/or purpose and could be used to finance these services pursuant to BA-7s 16A through 16K. The SSBG funds are 100% federal monies and revert back to the federal government if they are not spent by 9/30/07. SSBG funds are not available for Hainkel Home services, inpatient beds at NOAH, or sheriff's housing in Mental Health Area B.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$149,325</u>	Total	<u>\$149,325</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 16A. The purpose of this BA-7 is to increase SGF budget authority by \$149,325 in the Department of Health & Hospitals, John J. Hainkel Jr. Home & Rehabilitation Center, Patient Services Program. SGFs are being redirected from an anticipated surplus in the Medical Vendor Payments Agency.

For FY 07, the funding will be used for salaries (\$125,378) and related benefits (\$23,947) to aid in retention of nursing staff. The agency has had difficulty retaining and recruiting staff for patient care because salaries are less than comparative salaries paid in the New Orleans area as a result of Hurricane Katrina. As of 1/11/07 the agency has 27 nursing staff positions that are vacant (this number includes employees who have given notice of termination or transfer).

II. IMPACT ON FUTURE FISCAL YEARS

SGF will have to be appropriated at an annualized cost of \$350,000 for FY 08 through 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

I. SUMMARY/COMMENTS

This BA-7 is a companion to BA-7 16A. The purpose of this BA-7 is to increase IAT budget authority in the Department of Health & Hospitals, John J. Hainkel, Jr. Home & Rehabilitation Center, Patient Services Program. The source of funding is IAT from the Medical Vendor Payments Program. SGF and the matching Federal funds are being redirected from an anticipated surplus in the Medical Vendor Payments Agency.

This funding will be used to reopen the 40-bed skilled and intermediate nursing facility unit closed as a result of Hurricane Katrina. Pre-Katrina the agency operated a total of 142 staffed beds. During the 2006-07 Regular Legislative Session, 102 beds were restored. Approval of this BA-7 will allow the agency to restore services at the Pre-Katrina level. For FY 07, the agency will utilize \$178,252 to hire (1) Registered Nurse, (5) Licensed Practical Nurses, (19) Certified Nursing Assistants, (2) Housekeepers, and (1) Therapeutic Recreation Specialist Assistant. The remaining \$114,308 will be used for operating services (\$19,109), supplies (\$37,942), acquisitions (\$33,000), professional services contracts (\$5,250), travel (\$813), and bed fees paid to DHH (\$18,194).

II. IMPACT ON FUTURE FISCAL YEARS

State General Fund will have to be appropriated in the Medical Vendor Payments Public Providers Program to fund an annualized cost of \$914,671 for FY 08 through FY 11. The agency will receive the funds as IAT.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$1,861,712</u>	Total	<u>\$1,861,712</u>	<u>52</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to 16A. The purpose of this BA-7 is to increase SGF budget authority by \$1,861,712 in the Department of Health & Hospitals, Mental Health Area B, Client Services Program. SGFs are being redirected from an anticipated surplus in the Medical Vendor Payments Agency.

The funding will be used to expand crisis respite and supervised supportive housing services for persons in Area B. For FY 07, the funding will be allocated as follows:

FORENSIC BEDS AND SHERIFF'S HOUSING PAYMENTS (\$1,191,000) - Funding will be used for sheriff housing payments (\$275,000 SGF), salaries for 52 additional positions to staff a 25-bed expansion of the Forensic ward at East LA Hospital for 24 hours a day, 7 days a week (\$380,000), major repairs (\$125,000), acquisitions (\$300,000), food and medical supplies (\$100,000), operating services (\$9,000), and telephone and laundry expenses (\$2,000).

HOUSING-SUPERVISED INDEPENDENT LIVING (\$244,526) - Funding will be used to provide individualized supports and services in the homes of adults with mental illness. There will be one program in each region/district/authority and each of the ten programs will serve 60 persons annually. Services that will be provided include psychiatric management coordination, monitoring of self medication, intensive strengths based case management, assistance with personal care needs, money management, assistance in obtaining personal income, and other personal skills training and support services.

HOUSING-INTENSIVE SUPERVISED RESIDENTIAL BEDS (\$241,386) - Funding will be used for beds to provide for the board, care, and on-site supervision (24 hours a day, 7 days a week) for up to 240 indigent adults with serious mental illness annually. Services will include assistance with personal care needs, monitoring of self medication, money management, assistance in obtaining personal income, and other personal skills training and support services. The beds will be distributed across the 10 regions/districts/authorities.

HOUSING-CRISIS RESPITE (\$184,800) - Funding will be used for beds to provide stabilization and temporary residence for children and youth with emotional/behavioral disorders who are experiencing psychiatric/behavioral emergencies. Services may be provided to groups of children in a respite facility, a therapeutic camp or other community locations, or in the child's home for the purpose of preventing inpatient and other out-of-home placements. The beds will be distributed across the ten regions/districts/authorities.

II. IMPACT ON FUTURE FISCAL YEARS

SGF will have to be appropriated to fund an annualized cost of \$6,302,136 in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of the services as submitted in this BA-7. However, the LFO recommends an alternate financing mechanism to provide funding for these services in FY 07 with the exception of sheriff housing payments (\$275,000 - SGF). DHH has indicated that of the \$101 M in SSBG funds allocated to the department, \$16.4 M has not

Federal Funds:	\$0			
Total	<u>\$2,710,576</u>	Total	<u>\$2,710,576</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to 16A. The purpose of this BA-7 is to increase SGF budget authority by \$1,949,246 and IAT budget authority by \$761,330 in the Department of Health & Hospitals, Mental Health Area A, Administration and Support (\$25,296) and Client Services (\$2,685,280) programs. The source of IAT is Medicaid payments.

The funding will be used to expand crisis respite and supervised supportive housing services for persons in Area A. For FY 07, the funding will be allocated as follows:

ACUTE I/P BEDS AT (NOAH) (\$761,330) - Funding will be used for salaries for 51 additional positions (\$480,513) to staff 20 additional beds at NOAH to serve acute patients, operating services (\$25,296), supplies (\$75,000) and professional services (\$180,521).

CRISIS INTERVENTION UNIT (\$1,526,290) - Funding will be used for salaries for 68 additional positions (\$731,023) to staff a Crisis Intervention Unit which will serve as a single drop-off point for the New Orleans area community for psychiatric emergencies, operating services (\$103,600), supplies (\$66,667), and acquisitions (\$625,000).

CRISIS RESPITE BEDS (\$87,600) - Funding will be used for beds to provide stabilization and temporary residence for adults with mental illness and children and youth with emotional/behavioral disorders. Services will be provided in a structured environment by 24-hour staff and are designed to prevent use of a higher level of care including emergency rooms, acute units, and intermediate psychiatric hospitals.

HOUSING-SUPERVISED INDEPENDENT LIVING (\$122,263) - Funding will be used to provide individualized supports and services in the homes of adults with mental illness. There will be one program in each region/district/authority and each of the 10 programs will serve 60 persons annually. Services that will be provided include psychiatric management coordination, monitoring of self medication, intensive strengths based case management, assistance with personal care needs, money management, assistance in obtaining personal income, and other personal skills training and support services.

HOUSING-INTENSIVE SUPERVISED RESIDENTIAL BEDS (\$120,693) - Funding will be used for beds to provide for the board, care, and on-site supervision (24 hours a day, 7 days a week) for up to 240 indigent adults with serious mental illness annually. Services will include assistance with personal care needs, monitoring of self medication, money management, assistance in obtaining personal income, and other personal skills training and support services. The beds will be distributed across the ten regions/districts/authorities.

HOUSING-CRISIS RESPITE (\$92,400) - Funding will be used for beds to provide stabilization and temporary residence for children and youth with emotional/behavioral disorders who are experiencing psychiatric/behavioral emergencies. Services may be provided to groups of children in a respite facility, a therapeutic camp or other community locations, or in the child's home for the purpose of preventing inpatient and other out-of-home placements. The beds will be distributed across the 10 regions/districts/authorities.

ANALYSIS OF BA-7 REQUEST**

Original: Not Approved By JLCB

II. IMPACT ON FUTURE FISCAL YEARS

SGF will have to be appropriated to fund an annualized cost of \$7,051,608 in FY 08. SGF will also have to be appropriated in Medical Vendor Payments to fund an annualized cost of \$3,655,245. The agency will receive these funds as IAT.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of the services as submitted in this BA-7. However, the LFO recommends an alternate financing mechanism to provide funding for these services in FY 07 with the exception of Acute I/P beds at Noah (\$761,330 - Medicaid payments). DHH has indicated that of the \$101 M in SSBG funds allocated to the department, \$16.4 M has not been committed to any specific project and/or purpose and could be used to finance the services in this BA-7. The SSBG funds are 100% federal monies and revert back to the federal government if they are not spent by 9/30/07. SSBG funds cannot be used to pay for sheriff housing.

AGENCY: Office for Addictive Disorders

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$2,737,500	Administration	\$0	0
Interagency Transfers:	\$0	Prevention and Treatment	\$2,737,500	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,737,500</u>	Total	<u>\$2,737,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (companion to BA-7 16A) is to increase State General Fund by \$2,737,500 in the Office for Addictive Disorders (OAD) for substance abuse and mental health services. The source of funding is anticipated State General Fund surplus transferred from the Department of Health and Hospitals, Medical Vendor Payments Program.

As part of an initiative to restore and increase mental health and substance abuse services, the Office for Addictive Disorders is requesting to use these funds to provide for medical detoxification services and residential inpatient facility services for dual diagnosis (mental health and substance abuse). Specifically, the OAD will contract to offer 20 medical detoxification beds, and anticipate treating 488 individuals annually for the remaining 4 months of FY 06/07. Similarly, the OAD anticipates to contract to provide residential inpatient services for individuals with dual diagnosis (mental health and addictive disorders). The OAD estimates serving approximately 81 individuals for the remaining of FY 06/07.

II. IMPACT ON FUTURE FISCAL YEARS

The Office of Planning and Budget has indicated that these services will be annualized for FY 07/08. Annualized costs are projected to be \$8,212,500 for future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of the services as submitted this BA-7. However, the LFO recommends an alternate financing mechanism to provide funding for these services in FY 06/07. DHH has indicated that of the \$101 million in Social Services Block Grant (SSBG) funds allocated to the department, \$16.4 million has not been committed to any specific project and/or purpose and could be used to finance the substance abuse and mental health services in OAD as discussed in this BA-7. The SSBG funds are 100% federal monies and revert back to the federal government if they are not spent by September 30, 2007.

Statutory Dedications:	\$500,000			
Federal Funds:	\$0			
Total	<u>\$500,000</u>	Total	<u>\$500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority in order to receive statutorily dedicated funds (Coastal Wetland & Restoration Trust Fund) in the amount of \$500,000 for the creation of the regional flood protection authorities. Act 43 of the 2006 First Extraordinary Session created the regional flood protection authorities.

The current year fund balance is approximately \$134 M and current year anticipated revenue is \$25 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 is expected to increase statutorily dedicated funding by \$500,00 in future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

In order to complete an analysis, the Legislative Fiscal Office is waiting on additional information. This BA-7 was a late addition to the original agenda for the January meeting.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

DEPARTMENT: Public Safety

AGENDA NO.: 1

AGENCY: Office of Motor Vehicles

ANALYST: Jay Eckert

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Licensing Program	\$542,050	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$542,050			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$542,050</u>	Total	<u>\$542,050</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget an additional \$542,050 in SGR to the Office of Motor Vehicles within the Department of Public Safety.

Funds will be used to provide replacements for 2 high-volume printers for the Data Center. Currently, the Data Center has 2 laser printers through which all high-volume printing is routed. The Data Center is staffed continually and annually prints several million forms and reports for the Office of Motor Vehicles, as well as other offices within the Department of Public Safety. These printers currently process over 1.2 million titles per year. The new printers will reduce the amount of time necessary for printing titles and will allow for enhanced security features, such as a readable bar code. The new printers will also be network capable.

	<u>Quantity</u>	<u>Cost per Unit</u>	<u>Total Cost</u>
Mainframe high-speed laser printers	2	\$234,145 =	\$468,290
Hardware maintenance	1	\$61,360 =	\$61,360
Installation	2	\$6,200 =	<u>\$12,400</u>
			<u><u>\$542,050</u></u>

These funds are generated through transactions related to drivers' licenses and motor vehicles in the state of LA. Current revenue projections for FY 06 are \$49,686,458. Existing operating budget is \$48,887,797.

II. IMPACT ON FUTURE FISCAL YEARS

Out year expenditures will be \$48,960 for continued hardware maintenance on the high-volume printers.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$0			
Total	<u>\$75,000</u>	Total	<u>\$75,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR budget authority by \$75,000 in the Department of Social Services (DSS), Office of the Secretary, Administration & Executive Support Program. The source of funding is a private grant from the Annie E. Casey Foundation. This grant will cover the period 7/1/06 through 12/31/07. No SGF match is required.

The grant will be used to contract with 2 consultants to help facilitate the department's No-Wrong Door initiative per Act 88 of the 2005 Regular Session. The purpose of this initiative is to provide for a integrated case management system to more efficiently deliver services to clients. The consultants will assist with the planning of neighborhood-based, family-centered service delivery systems in Orleans and Calcasieu parishes.

II. IMPACT ON FUTURE FISCAL YEARS

The contract period for this grant is 7/1/06 through 12/31/07. DSS plans to use all of the funding by 6/30/07 but has not determined at this time if some of the funding will need to be used in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Total	<u>\$14,680,178</u>	Total	<u>\$14,680,178</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority in the Department of Social Services, Office of the Secretary, Administration and Executive Support Program. The source of funding is Community Development Block Grant (CDBG) funds from the State of LA Road Home Plan. The funds will be IAT from the Division of Administration, Office of Community Development Disaster Recovery Unit. The funding period is through December 2009. No SGF match is required.

The funds will be used to immediately restore and expand housing capacity in hurricane impacted areas, provide permanent supportive housing for the homeless, and provide short-term rental and other assistance to those persons at risk of becoming homeless or who have already fallen into homelessness. These persons include low wage workers, victims of domestic violence, low income seniors, and people with disabilities.

This funding will be allocated to the following expenditures:

Permanent Supportive Housing (\$6,000,000) - provides funding for financial assistance to non-profit organizations for renovation of approximately 300-500 housing units that will be used to provide housing for "at-risk" or homeless individuals with special needs. Funding will also be used to provide rental subsidies for those individuals who move into the housing units and to provide supportive services such as counseling, meals, and job training.

Homelessness Prevention (\$6,000,000) - provides funding for rental assistance, utility assistance, and supportive services directly related to the prevention of homelessness to eligible individuals and families who are in danger of homelessness.

Repairs and Restoration Contracts (\$2,500,000) - provides funding to repair and restore damaged structures in existence and operating at the time of the hurricanes. The funds are not intended for constructing new replacement facilities.

Personnel Services (\$132,600) - provides funding for three temporary job appointments (one Program Manager 1 - \$61,000; two Program Specialists - \$41,000 total) and related benefits (\$30,600). These positions are needed to manage the grant program. The persons will be responsible for monitoring compliance with CDBG guidelines, for reporting requirements to DSS, OCD, and HUD, for visits to project sites, and for training contract providers.

Operating Services (\$43,178) - provides funding for supplies (\$2,178), advertising (\$1,000), equipment (\$12,800), rent and phones (\$24,000), printing/postage/books/pamphlets (\$3,200).

Training/Travel (\$4,400) - provides funding for conferences for staff development related to HUD initiatives and other national housing practices (\$2,000), eight technical training workshops for sub-recipients of funds to assure compliance with CDBG regulations (\$2,000) and meeting expenses (\$400).

II. IMPACT ON FUTURE FISCAL YEARS

This is one-time funding for FY 06. The funding period is through December 2009.

December 15, 2006

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Original: Not Approved By JLCB**

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends reducing this BA-7 by \$24,000 to the amount of \$14,656,178. The \$24,000 represents indirect costs for rent and phones that are not reimbursable costs allowed by the CDBG grant. The agency will absorb the indirect costs out of their FY 07 appropriation.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority in the Department of Social Services, Office of the Secretary, Administration & Executive Support Program. The source of funding is Community Development Block Grant (CDBG) funds from the State of LA Road Home Plan. The funds will be IAT from the Division of Administration, Office of Community Development Disaster Recovery Unit. The funding period is through December 2009. No SGF match is required.

The funds will be used to immediately restore and expand housing capacity in hurricane impacted areas, provide permanent supportive housing for the homeless, and provide short-term rental and other assistance to those persons at risk of becoming homeless or who have already fallen into homelessness. These persons include low wage workers, victims of domestic violence, low income seniors, and people with disabilities.

This funding will be allocated to the following expenditures:

Permanent Supportive Housing (\$6,000,000) - provides funding for financial assistance to non-profit organizations for renovation of approximately 300-500 housing units that will be used to provide housing for "at-risk" or homeless individuals with special needs. Funding will also be used to provide rental subsidies for those individuals who move into the housing units and to provide supportive services such as counseling, meals, and job training.

Homelessness Prevention (\$6,000,000) - provides funding for rental assistance, utility assistance, and supportive services directly related to the prevention of homelessness to eligible individuals and families who are in danger of homelessness.

Repairs and Restoration Contracts (\$2,500,000) - provides funding to repair and restore damaged structures in existence and operating at the time of the hurricanes. The funds are not intended for constructing new replacement facilities.

Personnel Services (\$132,600) - provides funding for three temporary job appointments (one Program Manager 1 - \$61,000; two Program Specialists - \$41,000 total) and related benefits (\$30,600). These positions are needed to manage the grant program. The persons will be responsible for monitoring compliance with CDBG guidelines, for reporting requirements to DSS, OCD, and HUD, for visits to project sites, and for training contract providers.

Operating Services (\$43,178) - provides funding for supplies (\$2,178), advertising (\$1,000), equipment (\$12,800), printing/postage/books/pamphlets (\$3,200).

Training/Travel (\$4,400) - provides funding for conferences for staff development related to HUD initiatives and other national housing practices (\$2,000), eight technical training workshops for sub-recipients of funds to assure compliance with CDBG regulations (\$2,000) and meeting expenses (\$400).

II. IMPACT ON FUTURE FISCAL YEARS

This is one-time funding for FY 06. The funding period is through December 2009.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to reclassify a federal grant from FEMA for floodplain management. This program is intended to identify, prevent and solve flood plain management issues before they develop into problems requiring enforcement issues. These funds have historically been transferred from the Governor's Office of Homeland Security and Emergency Preparedness (upon receipt of funds from FEMA) but will now be provided to DOTD directly from FEMA. Therefore, this BA-7 merely provides sufficient budget authority to properly budget these funds in the federal funds category.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Total	<u>\$5,500,000</u>	Total	<u>\$5,500,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$5.5 M in federal funding from the Office of the Secretary to the Office of Tourism. The Department of Culture, Recreation, & Tourism was awarded \$28.5 M in Community Development Block Grant funds from the Office of Community Development. This funding was approved for the Office of the Secretary by JLCB at the September meeting. The Office of Tourism will utilize 2 grants from this funding in order to invest in the marketing and public relations components of a national campaign and other initiatives designed to bring out-of-state travelers back to the areas devastated by the hurricanes.

Of the 2 grants, \$5 M will be used for a marketing component and \$500,000 will be used for the public relations component of a Post Hurricane Domestic Consumer Advertising and Image Rebuilding Campaign. The marketing component will enhance and extend the advertising initiative ("Come Fall in Love with Louisiana") launched post-hurricanes in 2005. The companion grant will be used to develop and implement an image campaign to address concerns and fears of potential visitors to LA. Strategies will include marketing the New Orleans region and Southwest LA as national and international tourist destinations, highlight family attractions, festivals, and cultural assets unique to these areas, and attract conventions and travel agents. Expenditures will be budgeted as professional services. Specifically, expenditures will include media (\$4.2 M) and production costs (\$800,000), and public relations professional services (\$500,000).

The following is a breakdown of the \$5.5 M in expenditures:

\$1,915,000 for enhancing and expanding the existing campaign through national and regional print and multicultural media buys;

\$448,000 for enhancement of LA's presence on the World Wide Web through media buys, key search results, key word locations, links, and "e-marketing";

\$862,000 for utilizing research findings of Gourmet & Travel Association of America to reach culinary travel markets (Explore My Louisiana);

\$975,000 for utilizing National Geographic Traveler's outlets of television, print, and online to promote LA's cultural economy to visitors nationwide (Come Fall in Love with Louisiana Culture);

\$800,000 for print and interactive productions;

\$270,000 for PR counsel, direction, messaging and tactical development to meet "Come Fall in Love" campaign's overall objectives;

\$150,000 for building and promoting LA's raw talent in the culinary arts (Explore My LA); and

\$80,000 for showcasing LA's Cultural Economy to a national audience on National Geographic Traveler.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$418,270</u>	Total	<u>\$418,270</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (Companion to 6B) is to increase the IAT budget authority by \$418,270 in the Office of Public Health, Personal Health Services Program. The source of funding is a Health Resources Services Administration (HRSA) Bioterrorism Hospital Preparedness grant being transferred from the Department of Health & Hospitals, Office of the Secretary.

This grant will allow the Office of Public Health and the Office of Mental Health to enhance the state's capacity to respond to and address mental health needs of the public, victims, emergency responders, or other allied health professionals involved in the response to a disaster or emergency event. Specifically, these funds will be allocated for continuing education for nurses and physicians, pharmaceuticals, for regional disaster training of all health care professionals and organizations, and Emergency Medical Services (EMS) education, disaster training, and planning.

Expenditures will be allocated as follows:

\$81,030 - other compensation and related benefits for 2 job appointments (EMS training specialist and an Admin. Coordinator)
\$7,000 - field travel for training and out of state training for EMS conferences;
\$69,845 - operating services including cost associated with printing training brochures and other mail outs, and warehouse and storage unit rental for emergency response medical equipment;
\$50,000 - supplies, including office supplies for EMS and nursing response staff, computer and printing supplies, and medical consumable supplies;
\$95,395 - professional services contracts for EMS/Hospital preparedness planning summits and training;
\$15,000 - acquisitions associated with disaster related software and hardware; and
\$100,000 - funding for interagency agreement between the Office of Public Health and the Office of Mental Health.

Of the \$418,270 added to the OPH budget for FY 07 by this BA-7, \$103,718 is transferred from Office of the Secretary in BA-7 6B; the remaining \$314,552 is from carryforward HRSA grant funds awarded in FY 06 that need to be budgeted for FY 07.

II. IMPACT ON FUTURE FISCAL YEARS

The total grant award from HRSA is \$464,552, of which \$418,270 is being requested for FY 07 and the balance of \$46,282 will be requested in FY 08.

Federal Funds:	\$6,690,070			
Total	<u>\$6,690,070</u>	Total	<u>\$6,690,070</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (Companion to 6A) is to increase the expenditure authority of the Office of the Secretary by \$6,690,070 in 100% federal funds. The source of the funds is a federal grant (Bioterrorism Hospital Preparedness Program) from the federal Department of Health & Human Services (DHHS), Health Resources & Services Administration (HRSA).

Information provided by DHH indicates that the HRSA awarded DHH with a one-time grant (supercedes award dated 9/1/06) to be used to develop and maintain a bioterrorism preparedness program, and includes an emergency care network for a mass surge of patients with acute illness or trauma requiring hospitalization from a biological, chemical, radiological, or explosive terrorist incident. Funding from the grant will primarily go to EMS providers (approximately 85) and hospitals statewide (approximately 200), and will be administered through a professional services contract with the LA Hospital Association.

Terms of the Memorandum of Understanding between the LA Health Care Services Centers (LHCSC), the LA Hospital Association (LHA), and the Department of Health & Hospitals (DHH) indicates that funds from the Bioterrorism Hospital Preparedness Program grant will be allotted as follows:

<u>Requirement</u>	<u>FY 06-07</u>	<u>FY 07-08</u>
Professional services contract with LHA (administration).	\$786,522	\$387,391
Distribution of funds to EMS providers and hospitals.	\$5,463,313	\$0
URS Corporation for mitigation planning, including the development of building codes for new construction and retrofitting standards for existing healthcare facilities located in hurricane prone areas of LA.	\$200,000	\$0
Transfer of funds to OPH for training costs of EMS, administration of bioterrorism office, training of nurses, and rotation of pharmaceuticals for a bioterror event.	\$103,718*	\$46,282
Acquisitions, including replacement of 2 PCs and training equipment used at the Carville training facility.	\$105,000	\$0
Funding to cover the cost of supplies, in and out of state travel, regional meetings and training events, printing/ mailing and meeting/ conferences (required by terms of the grant).	<u>\$31,517</u>	<u>\$15,523</u>
Total	<u>\$6,690,070</u>	<u>\$449,196</u>

*In addition to the \$103,718 shown in this BA-7 for OPH, the agency will actually increase expenditure authority by another \$314,557 (See BA-7 #6A) to utilize carryforward HRSA funds from FY 06.

II. IMPACT ON FUTURE FISCAL YEARS

The grant award provides funding of \$6,690,070 in FY 07 and \$449,196 in FY 08. Continued funding will be required to

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

support the bioterrorism program in subsequent fiscal years (this is the 4th year of the grant). The amount of such funding is not known at this time. Additionally, DHH indicates that the program will be adjusted to match the level of federal funding available.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,843,575</u>	Total	<u>\$1,843,575</u>	<u>42</u>

I. SUMMARY/COMMENTS

The purpose of the BA-7 (Companion to 7B through 7F) is to increase the expenditure authority of the DHH Office of the Secretary by \$1,843,575 in SGF. The source of the funding is state general fund from 5 other budget units (Med. Vendor Admin., OPH, OMH, OCDD, and OAD) in the department. Additionally, the BA-7 transfers 42 positions, 5 job appointments, and 2 restricted appointments.

Information provided by DHH indicates that the current decentralized information technology (IT) structure is inefficient and poses difficulties in achieving desired outcomes. Additionally, the Legislature through Senate Concurrent Resolution 59 of the 2004 Regular Session directed DHH to investigate, study, and develop a plan or strategy to expedite intradepartmental information sharing. Relative to the recommendation to study the IT structure, DHH contracted with the University of Lafayette (ULL) to produce a report on such structure. One essential finding in the report concludes "The IS/IT function within DHH is currently both decentralized and fragmented and there is an absence of a strong, persuasive and empowered spokesperson to champion the cause of building and sustaining an "enterprise core" of IS/IT infrastructure that encompasses human resources, policies and procedures, and technology resources. A loose confederation of fragmented IS/IT units, such as is currently in place within DHH, can witness conflicts between local allegiances and enterprise partnerships, even where there is strong interest in advancement of enterprise goals."

It is the intent of DHH to remedy this situation based on recommendations in the report from ULL. Approval of BA-7s 7A through 7F will allow DHH to bring IT positions, salaries, equipment and associated costs into the Office of Management and Finance under the leadership of a single Chief Information Officer. The funding and positions are being transferred as follows:

<u>Agency</u>	<u>Amount Transferred</u>	<u>Positions</u>
7B Office for Addictive Disorders:	(\$167,544)	(3)
7C Office for Citizens with Developmental Disabilities:	(\$148,016)	(4)
7D Medical Vendor Administration:	(\$59,842)	(2)
7E Office of Mental Health :	(\$218,530)	(5)
7F Office of Public Health:	<u>(\$1,249,643)</u>	<u>(28)</u>
TOTAL	<u>(\$1,843,575)</u>	<u>(42)</u>

Additional information provided by DHH indicates that 41 of the 42 civil services positions are currently filled; and that 5 job appointments and 2 restricted appointments are also being transferred to perform the activities in the reorganized IT section.

II. IMPACT ON FUTURE FISCAL YEARS

The department estimates that the annualized cost to continue the operations of the IT section will be approximately \$3.73 million for a full year in FY 08 and subsequent fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 (Companion to 7A) is to transfer \$167,544 in SGF and 3 information technology (IT) positions to the Office of the Secretary, Department of Health & Hospitals. The source of the funding is state general fund currently budgeted for FY 07 expenditures.

Senate Concurrent Resolution 59 of the 2004 Regular Session directed the DHH to investigate, study, and develop a plan or strategy to expedite intradepartmental information sharing. The intent of this transfer is to centralize the IT function within DHH. Specifically, this BA-7 will allow DHH to facilitate information sharing between DHH agencies, to create efficiencies in the use of software applications and personnel, and create an IT system within DHH with defined priorities under one Chief Information Officer.

See BA-7 7A for additional details relative to the reorganization of the IT section within DHH.

II. IMPACT ON FUTURE FISCAL YEARS

The annualized cost for for one full year is \$349,774 in FY 08 and in subsequent fiscal years.

Total	<u>(\$148,016)</u>	Total	<u>(\$148,016)</u>	<u>(4)</u>

I. SUMMARY/COMMENTS

This BA-7 is companion to 7A. The purpose of this BA-7 is to decrease SGF by \$148,016 and a total of 4 positions in the Department of Health & Hospitals (DHH), Office of Citizens with Developmental Disabilities (OCDD). Funding of \$53,673 and 1 position will be moved from the Administration Program and funding of \$94,343 and 3 positions will be moved from the Community Based Program. The funding and associated positions will be moved to DHH, Office of the Secretary effective 7/1/07.

Senate Concurrent Resolution 59 of the 2004 Regular Session directed the DHH to investigate, study, and develop a plan or strategy to expedite intra-departmental information sharing. Currently, DHH has a de-centralized IT structure in place, which has made it difficult to share information across agencies as well as externally. Upon recommendation of the University of LA at Lafayette, which was hired as a consultant to evaluate how the department administers its information and technology systems, DHH plans to centralize its resources by bringing IT positions, salaries, equipment, and associated funding into the Office of the Secretary under the leadership of a single Chief Information Officer.

Approval of this BA-7 will allow DHH to move the requested staff and funding from OCDD to the Office of the Secretary to create a centralized IT structure with defined priorities to allow coordination of information across budget units. This system will provide better management of software and equipment as well as human resources.

II. IMPACT ON FUTURE FISCAL YEARS

The annualized decrease to OCDD will be approximately \$309,700 for a full year in FY 08 and subsequent fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of the BA-7 (Companion to 7A) is to transfer funding (\$59,842 SGF) from Medical Vendor Administration (MVA) as part of the total increase in expenditure authority in the DHH Office of the Secretary of \$1,843,575 in SGF (BA-7 7A). The source of the funding is SGF from MVA and 4 other budget units (OPH, OMH, OCDD, and OAD) in the department. Additionally, the BA-7 transfers 2 IT positions from MVA to the Office of the Secretary.

See BA-7A for details of the reorganization of the IT section within DHH.

II. IMPACT ON FUTURE FISCAL YEARS

The department estimates that the annualized decrease to MVA for continued operations of the IT section will be approximately \$125,281 for a full year in FY 08 and subsequent fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget surplus civil fees for distribution to 9 battered women shelters across the state. Currently, a \$10 nonrefundable fee is collected in certain parishes from persons filing a suit or proceeding for divorce, annulment of marriage, or establishment or disavowal of the paternity of children. These funds are then distributed to qualifying shelters for the purpose of providing fiscal support to these non-profit organizations located and operating within the respective parishes that provide shelter for battered women and children.

Beginning on 7/1/06, the DOA (which provides the fiscal support for the Office of Women's Policy) began to distribute these funds within 30 days of receipt of these funds as provided by law (R.S. 13:998). Previously, distributions were made monthly based on prior years collections, but only to the extent that was initially appropriated at the beginning of the fiscal year as a result of the budget process. The budgeted amount was never adjusted and has resulted in the aforementioned balance accumulating over many years. This BA-7 will distribute these funds to the following shelters:

YWCA of Northwest LA (Caddo Parish)	\$30,594.29
DART of Lincoln (Jackson, Lincoln, and Union Parishes)	\$6,707.01
Wellspring Alliance (Caldwell, East Carroll, Franklin, Morehouse Ouachita, Richland, Tensas, and West Carroll Parishes)	\$24,229.16
Project Celebration (Desoto and Sabine Parishes)	\$4,357.28
Calcasieu Women's Shelter (Calcasieu Parish)	\$10,103.81
Faith House (Lafayette, St. Landry, and Vermilion Parishes)	\$21,780.12
Capital Area Family Violence Intervention Center (EBR Parish)	\$40,070.06
*St. Bernard Battered Women's Program (St. Bernard Parish)	\$3,738.73
*Crescent House, New Orleans (Orleans Parish)	<u>\$16,915.07</u>
Total	<u>\$158,495.53</u>

The distribution proposed above is based on a 5 year history of collections in these parishes calculated by the Division of Administration's Office of Finance & Support Services.

*Both the Crescent House and St. Bernard Women's Program are not currently eligible since both shelters were destroyed by Hurricane Katrina. However, both shelters still operate non-residential family violence programs and have arranged with other shelters in the area to provide residential services. According to the Office of Women's Policy, both shelters plan to reopen within the next 12 months. As a result, the amounts calculated for both of these shelters will be held in the Battered Women's Shelter Fund until such time as the shelters reopen and become eligible to receive this distribution.

II. IMPACT ON FUTURE FISCAL YEARS

The distribution of funds to the shelters in the New Orleans area will be dependent upon the reopening of these shelters and may not occur until FY 08.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

DEPARTMENT: Public Safety

AGENDA NO.: 9

AGENCY: Office of Management & Finance

ANALYST: Jay Eckert

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration	\$8,000,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$8,000,000			
Federal Funds:	\$0			
Total	<u>\$8,000,000</u>	Total	<u>\$8,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$8 M in Statutory Dedicated State Emergency Response Fund (SERF) to the Office of Management & Finance within the Department of Public Safety (DPS). These funds are being utilized in order to provide construction code enforcement for parish and/or municipal governments not included in the 11 disaster parishes declared as the most severely impacted by hurricanes Katrina and Rita.

These funds will assist the Office of State Fire Marshal in the initial start up costs for the Construction Code Council as well as to get the local governments established on Code compliance. The cost was estimated by taking the number of permits calculated (16,000) in the areas of the state not included in the 11 parishes that were not considered disaster parishes multiplied by the cost paid to the local governments per permit (\$500). The number of permits includes residential (12,000) and commercial (4,000) permits. Initial costs will include software, code books, training, temporary inspectors as well as office space and equipment.

Act 12 of the 1st Extraordinary Session of 2005 mandated that a Construction Code Council be created within the Department of Public Safety.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$0			
Total	<u>\$462,000</u>	Total	<u>\$462,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is twofold. First, this BA-7 budgets a total of \$219,000 associated with the purchase of an air-conditioning unit and related utilities to operate this unit for storage of perishable food supplies (MREs and bottled water) for disaster situations. Warehouse space totaling 25,000 square feet at Camp Minden (Military Department property) will be used for this purpose. The cost of the air-conditioning unit is \$199,000 plus anticipated utilities for 6 months totaling an additional \$20,000. The State Emergency Response Fund will be utilized for this expense.

In addition, technical assistance will be required on the Presidentially Declared Disaster (DR #1668) which involved severe storms and floods in western and northern parts of LA. The technical assistance will be provided by a contractor selected through a bid process. The total cost is projected at \$972,000, with the state match equaling \$243,000 (25%). Federal assistance will be provided for the remainder of the cost. Technical assistance will include development and implementation of strategies to maximize public assistance funding available as a result of this disaster situation. The State Emergency Response Fund will be utilized for this expense.

II. IMPACT ON FUTURE FISCAL YEARS

The ongoing utilities cost for the warehouse in Minden is anticipated to be approximately \$40,000 and will be necessary for the duration of the time in which this facility is used for this purpose. The DOA notes that it will budget SGF dollars for this cost in subsequent fiscal years.

I. SUMMARY/COMMENTS

This is a companion to BA-7 #s 1B, 1C, 1D, 1E, 1F, 1G, 1H, 1I, and 1J.

The purpose of this BA-7 is to budget an additional \$5,082,779 of statutorily dedicated State Emergency Response Funds (SERF) to the Division of Administration (DOA) in order to fund a variety of activities (as described in companion BA-7s) in state agencies related to emergency preparedness. Act 642 of the 2006 Regular Session provided a total of \$150 M for the creation of the SERF. The current level of (SERF) funding in the DOA is \$25,198,655. This additional funding will bring the total appropriation to \$30,281,434 and will allow the DOA to transfer funding to the aforementioned state agencies through the companion BA-7s to address a variety of expenditures related to emergency preparedness and planning efforts.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

I. SUMMARY/COMMENTS

This is a companion to BA-7 #s 1A, 1C, 1D, 1E, 1F, 1G, 1H, 1I, and 1J.

The purpose of this BA-7 is to budget funds transferred from the Division of Administration (DOA) from the State Emergency Response Fund (SERF) to the Governor's Office of Homeland Defense & Emergency Preparedness (GOHSEP) for various expenses related to emergency operations center upgrades to become NIMS (National Incident Management System) and EMAP (Emergency Management Accreditation Program) compliant, and various "unmet needs" for the agency for the current fiscal year.

The NIMS system was developed in 2003 to improve coordination and cooperation between all public and private entities in a variety of domestic incident management activities. The federal government requires all state and local organizations to adopt NIMS standards as a condition to receiving federal preparedness assistance. The expenses associated with meeting these standards include:

\$115,000 - new phone system for the Emergency Operations Center (EOC) which will support rapid additional phone line activations during an emergency activation of the EOC. The FY 07 budget for this agency included \$135,000 for this purpose. This additional funding will provide for remaining upgrades to system.

\$405,000 - Funding to provide an alternate EOC or command center at Camp Beauregard. NIMS and EMAP compliance requires a fully operational alternate EOC. This cost includes 20 laptops (\$60,000), 50 phones (\$10,000), audio and video equipment (\$150,000), furniture (\$25,000), telecommunications/internet service (\$5,000/month = \$60,000. These figures are based on cost of data circuits to connect different locations and include a fixed cost plus a variable cost per mile for the lines running from Baton Rouge to Alexandria (figures are provided to GOHSEP by Bell South). In addition, servers, CISCO switches, supporting software, and routers (\$100,000) are included.

\$665,000 - Funding for backup data center at LA Tech in Ruston to support the EOC and alternate EOC in the event the state EOC data center has a catastrophic disaster. This includes servers (\$100,000), phone server (\$25,000), storage area network system (\$200,000), software MC exchange, enterprise, routers, SQL (standard query language), archive software (\$150,000), CISCO switch (\$100,000), telecom/internet (\$6,000/month = \$72,000. These figures are based on cost of data circuits to connect different locations and include a fixed cost plus a variable cost per mile for the lines running from Baton Rouge to Ruston (figures are provided to GOHSEP by Bell South). In addition, rent with LA Tech for backup space and generator power for E-team and phone switch (\$18,000) is included.

\$914,093 - Funding for Tropical Storm Ernesto expenses of GOHSEP for storm readiness, including sandbags. Includes purchase of sandbags to replenish stock depleted by hurricanes Katrina and Rita for distribution to local public entities to give out for flood protection (\$902,865).

\$406,147 - Other hurricane season readiness expenses by GOHSEP. Includes cost of state share for three Rapidcom or mobile command units (\$83,648.76), four temporary employees (three months) to support logistical efforts of GOHSEP (\$50,000),

November 17, 2006

electrical wiring for upgrades to EOC (\$14,650), upgrade of cameras at EOC for security purposes (\$14,538.99), upgrade EOC to meet NIMS requirements (\$109,548.50). Remainder of expenses (\$133,760.75) are primarily related to associated upgrades to the EOC to meet NIMS requirements.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

Total	<u>\$13,530,629</u>	Total	<u>\$13,530,629</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is a companion to BA-7 #s 1A, 1B, 1D, 1E, 1F, 1G, 1H, 1I, and 1J.

The purpose of this BA-7 is to provide budget authority for the Military Department to receive a total of \$13,930,629 to be transferred from the Division of Administration related to the deployment of national guard troops in New Orleans from June through December 2006. The source of these funds is the State Emergency Response Fund (SERF). The Military Department received approval of a seed advance in the amount of \$12 M (SGF) from the Commissioner of Administration on 8/2/06. This BA-7 will allow the repayment of the seed advance and fund the expenditures which have been made and those which are projected through the end of calendar year 2006.

The expenses already incurred for this detail include:

\$4,350,104	State Active Duty Payroll (300 guardsmen)
\$14,673.48	Meals
\$72,949.86	Supplies (Operating and Office)
\$36,223.41	Fuel
\$8,912.40	Laundry Services
\$5,135.98	Telephone Services
\$1,157,866	Per Diem (300 guardsmen)
\$539.05	Auto Repairs
\$621,537	Hotel Charges

\$6,267,941.18 Total

Projected Expenditures include:

\$291,058.59	Current Encumbrances (includes police radios, police belts, holsters, ammo, laundry and pistols)
\$10,100	Bus Driver Education for guardsmen (in event of mass evacuations)
\$250,000	Pistols (500 @ \$500/pistol) *THIS FIGURE IS ALSO INCLUDED IN CURRENT ENCUMBRANCES
\$2,370,510	October
\$2,370,510	November
\$2,370,510	December

\$7,662,688.59 Total

\$13,930,629.77 Grand Total

Projected expenditures for October, November, and December include active duty pay, per diem, housing, fuel, travel, repairs, equipment rentals, laundry, and helicopter support. The projected cost per day of this activity is \$79,017. The Military

Department is unable to provide any information regarding helicopter usage from June-September. Therefore, the LFO cannot justify the request for \$150,000 included in these projections for October- December. The LFO recommends that this amount be reduced from this BA-7 and defer consideration of this request until further information on this expense is obtained.

In addition, the LFO has requested additional information pertaining to the purchase of 500 pistols. As of this writing, the LFO had yet to receive the requested documentation. The LFO recommends that the amount designated for the reimbursement of this expense be reduced from this BA-7 until this documentation is provided.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the amount of \$13,280,629. The BA-7 request double-counted the amount expended for the purchase of pistols (\$250,000) and further justification is needed for the request for projected helicopter expenses (\$150,000) and the purchase of 500 pistols. Therefore, the LFO recommends that this BA-7 be reduced by \$650,000.

I. SUMMARY/COMMENTS

This BA-7 is a companion with agenda item number 1a. The purpose of this BA-7 is to budget \$1,422,328 in IAT budget authority from the Division of Administration to the Animal Health Services Program within the Department of Agriculture & Forestry. These funds will be used to purchase, store, and transfer pets and supplies in the event of a natural disaster. The source of funds is the State Emergency Response Fund (SERF). The pet recovery and storage supplies will be kept in 3 facilities throughout the state and shall be utilized in the event of another catastrophic natural disaster. The facilities will be located in Woodworth, Haughton, and Monroe. The cost to provide storage at the three facilities will be approximately \$75,000.

Woodworth LA Department of Agriculture & Forestry Complex

- 157 pallets of metal cages
- 12 pallets of cat litter
- 4 pallets of rubber gloves
- 2 pallets of rubbermaid hoppers
- 2 pallets of fans
- 2 pallets paper food bowls
- 2 pallets of litter boxes
- 1 pallet of extension cords
- 3 pallets of miscellaneous items (dog leashes, electrical cords, first aid kits, plastic ties, spray paint, and plastic bottles)

Haughton Facility

- 140 pallets of metal dog cages
- 9 pallets of cat litter
- 3 pallets of rubber gloves
- 2 pallets of cat litter trays
- 2 pallets of Solo 5 oz. food containers
- 2 pallets of air circulators
- 1 pallet of water hoses
- 1 pallet of tables, chairs, Frontline flea and tick
- 1 pallet of plastic stretch flex wrap and 6 hand wrappers
- 1 pallet of miscellaneous items (dog leashes, electrical cords, first aid kits, plastic ties, spray paint, and plastic bottles)

LA Department of Agriculture and Forestry - Monroe Facility

- 44 pallets of wire cages

I. SUMMARY/COMMENTS

This BA-7 is a companion with agenda item number 1a. The purpose of this BA-7 is to provide IAT budget authority for the Office of State Police to receive a total of \$1,899,945 to be transferred from the Division of Administration related to the deployment of 60 LA State Troopers in the New Orleans area on a special detail at the Governor's request. The Troopers have been assigned to New Orleans from June 20th through December 2006. The source of IAT funds is the State Emergency Response Fund (SERF) from the Division of Administration. These funds will provide reimbursement of prior expenditures and also projected expenditures until December 31, 2006.

\$1,009,766	Salaries & Related Benefits
333,446	Overtime
168,000	Meals
<u>388,733</u>	Mileage (includes fuel, maintenance, and wear and tear)
\$1,899,945	

The purpose of this detail is to apply law enforcement presence and provide additional enforcement in the French Quarter's 8th District in support of the New Orleans Police Department. The LA State Police are handling a majority of policing and calls for service in this district.

Federal Funds:	\$1,383,350			
Total	<u>\$9,169,037</u>	Total	<u>\$9,169,037</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion with agenda item number 1A. The purpose of this BA-7 is to budget \$7,785,687 in IAT budget authority and \$1,383,350 in federal budget authority (\$9,169,037 total) in the Personal Health Services Program for pandemic influenza planning and preparedness. The source of IAT is State Emergency Response Funds (SERF) from the Division of Administration and the source of federal funds is a U.S. Centers for Disease Control Cooperative Agreement for Public Health Emergency Preparedness grant.

According to the Department of Health & Hospitals, OPH will use SERF funds to purchase antivirals for pandemic influenza treatment and use grant funds for salaries and supplies to assist with community education and preparation for pandemic influenza. The funding from both IAT and federal grant monies will be allocated as follows:

\$361,481 - Other Compensation - To cover salaries for 16 job appointments. Positions include 1 program manager, 1 administrative coordinator 3, 2 program monitor positions, 9 program specialists, 1 public health nurse 7, 1 social worker 6, and 1 EMS training specialist.

\$97,599 - Related Benefits for job appointments

\$40,002 - Travel - travel in-state for new and existing program staff.

\$396,788 - Operating Services - printing costs for the Pandemic Influenza Family Readiness Guide, facility rentals for local and regional meetings, costs associated with licensing of a credentialing and management system, and Microsoft server licensing and software licensing required for use with the Outbreak Management System.

\$7,814,871 - Supplies - costs of supplies associated with office, computer, training, workshops, community events, disposable masks and gowns, and purchase of antiviral medicine and protective equipment. Of the funds allocated to supplies, approximately \$7,685,687 is allocated for the purchase of the antivirals.

\$208,032 - Professional Services - costs to cover various contracts associated with web-site development, development of web-based training courses, provision of 1(800) pan flu information lines, and contracts with external partners to foster community preparedness for pandemic influenza.

\$33,600 - Other Charges - costs of contract for IT professional services for programming associated with the Outbreak Management Specs application and Microsoft software training.

\$80,824 - Interagency Transfer - costs associated with a memorandum of understanding with other offices within DHH and with other state agencies or governmental entities for preparing Louisiana communities and special populations for an outbreak of pandemic influenza. Identified agencies include DHH Bureau of Primary Care and Rural Health and the Governor's Office of Indian Affairs.

November 17, 2006

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

\$135,840 - Acquisitions - computer application and database servers to facilitate use of the Outbreak Management Specs (software for disease surveillance), tablet pc's for nursing staff working at mass vaccination sites statewide, and 150 radios for use in mass vaccination sites.

II. IMPACT ON FUTURE FISCAL YEARS

This BA-7 is granting only 40% of the total funds allocated by the CDC for FY 06/07 (\$1,383,350). The Office of Public Health anticipates receiving the additional 60% (\$2,075,024), which is pending approval from the CDC. These additional funds are expected to be utilized in FY 08 to continue the job appointments and pay for various supplies.

The IAT funds (SERF) are being used to purchase antivirals, and considered non-recurring.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Client Services	\$20,165	0
Interagency Transfers:	\$169,936			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	(\$149,771)			
Total	<u>\$20,165</u>	Total	<u>\$20,165</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to 1A. The purpose of this BA-7 is to increase IAT budget authority by \$169,936 and to decrease Federal budget authority by \$149,771, resulting in a net adjustment of \$20,165 in the Client Services Program. The source of IAT funding is State Emergency Response Funds (SERF) from the Division of Administration.

The Department of Social Services is assigned the primary emergency function of shelter operation and control during emergencies and disasters per Executive Order KBB 2004-20. SERF will be used to reimburse OFS for operational expenditures related to emergency preparedness functions performed since 7/1/06.

The agency used 28 existing employees to perform emergency preparedness duties. The agency employees are normally paid with 50% federal and 50% state funds; however, federal funds cannot be used to pay salaries for emergency preparedness related functions. Therefore, approval of this BA-7 will allow the agency to use \$149,771 of the SERF to replace the federal funds that were appropriated for salaries in FY 07 and reduce its federal budget authority accordingly. The remaining \$20,165 will be used to reimburse the agency for travel (\$5,000) and shelter supply (\$15,165) expenditures that were above its FY 07 appropriation.

II. IMPACT ON FUTURE FISCAL YEARS

The agency will need to have the one-time State Emergency Response Funds replaced with SGF in FY 08. If these funds are not replaced, the agency will not be able to fully fund the salaries of the 28 existing employees who are performing the emergency preparedness duties.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,382,952</u>	Total	<u>\$2,382,952</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is a companion BA-7 to 1A. The purpose of this BA- 7 is to increase IAT budget authority by \$2,382,952 in the Administrative & Executive Support Program. The source of funding is Statutory Dedications from the State Emergency Response Fund.

According to Executive Order KBB 2004-20, the DSS is the agency assigned the primary emergency function of shelter operation and control during emergencies and disasters. All DSS employees are subject to assignment to work in a shelter during emergencies and disasters in fulfilling the department's shelter responsibility.

This funding will be used to reimburse the Office of the Secretary for operational expenditures related to emergency preparedness duties performed since 7/1/06. These expenditures include Joint Field Office housing costs (\$15,000) and supplies, equipment, and utilities for six shelters (\$2,291,427). In addition, funding is provided for salaries and related benefits for 9 existing OS employees (\$76,525). The agency employees are normally paid with 50% federal and 50% SGF by IAT from the Office of Community Services (OCS), the Office of Family Support (OFS), and LA Rehabilitative Services (LRS). However, federal funds cannot be used to pay salaries for emergency preparedness related functions. Therefore, approval of this BA-7 will allow the agency to use \$76,525 of the SERF to replace the federal funds that were appropriated for salaries in FY 07. A corresponding reduction in federal budget authority will need to be made to reflect the replacement of federal funds by SERF in OCS, OFS, and LRS. This agency will also have to reduce its IAT budget authority to reflect the adjustments made in federal budget authority by the other agencies. These corrections can be made via supplemental appropriation or future BA-7.

II. IMPACT ON FUTURE FISCAL YEARS

The agency will need to have the one-time State Emergency Response Funds replaced with SGF in FY 08. If these funds are not replaced, the agency will not be able to fully fund the salaries of the nine existing employees who are performing the emergency preparedness duties.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

The purpose of this BA-7 is to increase IAT budget authority by \$92,306 and to decrease Federal budget authority by \$78,261, resulting in a net adjustment of \$14,045 in the Child Welfare Services Program. The source of IAT funding is State Emergency Response Funds (SERF) from the Division of Administration.

The DSS is assigned the primary emergency function of shelter operation and control during emergencies and disasters per Executive Order KBB 2004-20. SERF will be used to reimburse OCS for operational expenditures related to emergency preparedness functions performed since 7/1/06.

The agency used 10 existing employees to perform emergency preparedness duties. The agency employees are normally paid with 50% federal and 50% state funds; however, federal funds cannot be used to pay salaries for emergency preparedness related functions. Therefore, approval of this BA-7 will allow the agency to use \$78,261 of the SERF to replace the federal funds that were appropriated for salaries in FY 07 and reduce its federal budget authority accordingly. The remaining \$14,045 will be used to reimburse the agency for travel (\$9,350), operating services (\$1,492) and shelter supply (\$3,203) expenditures that were above its FY 07 appropriation.

II. IMPACT ON FUTURE FISCAL YEARS

The agency will need to have the one-time State Emergency Response Funds replaced with SGF in FY 08. If these funds are not replaced, the agency will not be able to fully fund the salaries of the 10 existing employees who are performing the emergency preparedness duties.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Total	<u>\$410</u>	Total	<u>\$410</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion to 1A. The purpose of this BA-7 is to increase IAT budget authority by \$92,411 and to decrease Federal budget authority by \$92,001, resulting in a net adjustment of \$410 in the Vocational Rehabilitation Services Program. The source of IAT funding is State Emergency Response Funds (SERF) from the Division of Administration.

The DSS is assigned the primary emergency function of shelter operation and control during emergencies and disasters per Executive Order KBB 2004-20. SERF will be used to reimburse LRS for operational expenditures related to emergency preparedness functions performed since 7/1/06.

The agency used 11 existing employees to perform emergency preparedness duties. The agency employees are normally paid with 50% federal and 50% state funds; however, federal funds cannot be used to pay salaries for emergency preparedness related functions. Therefore, approval of this BA-7 will allow the agency to use \$92,001 of the SERF to replace the federal funds that were appropriated for salaries in FY 07 and reduce its federal budget authority accordingly. The remaining \$410 will be used to reimburse the agency for the cost of shelter supply expenditures that were above its FY 07 appropriation.

II. IMPACT ON FUTURE FISCAL YEARS

The agency will need to have the one-time State Emergency Response Funds replaced with SGF in FY 08. If these funds are not replaced, the agency will not be able to fully fund the salaries of the 11 existing employees who are performing the emergency preparedness duties.

DEPARTMENT: Environmental Quality

AGENDA NO.: 2

AGENCY: Office of Management & Finance

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Support Services	\$509,029	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$509,029			
Total	<u>\$509,029</u>	Total	<u>\$509,029</u>	<u>0</u>

I. SUMMARY/COMMENTS

The Department of Environmental Quality is requesting to budget \$509,029 in additional federal funding from 2 separate grants: \$312,029 from the Environmental Information Exchange Network Grant Program, and \$197,000 from the Capacity Building Grant and Cooperative Agreement for States & Tribes. Neither grant requires any state match.

DEQ has been awarded a federal grant to participate in EPA's Exchange Network (EN); and will use the \$312,029 in federal funds from that program to upgrade its web services framework to implement an Exchange Network node to enhance security controls, web procedures, and data management processes needed to participate in the Exchange Network. This will provide the foundation which will allow a flow of data to EPA's Central Data Exchange for the Facility Registry System and the National Emissions Inventory System. This capability will significantly improve DEQ's methodology for submitting required data elements to EPA. Anticipated expenditures to accomplish this project include \$35,000 for travel, training information services personnel on XML format, web services and the maintenance of the EN node; \$45,750 for the purchase of Web and Firewall servers for the EN node; \$231,279 in estimated Other Charges expenditures for contractors to perform requirements analysis, system modifications, development of the Facility Registry System and National Emission Inventory system flows, data conversion, acceptance testing, and documentation. The total amount of the grant is \$498,250; however, DEQ is requesting a budget increase from this grant of only \$312,029. The difference of \$186,221 is the amount for personnel and indirect cost included in the grant but not needed in this BA-7 because it is already included in the department's FY 07 budget.

The department has also been awarded a grant to incorporate missing Water Enforcement National Database (WENDB) data elements into the EPA Permit Compliance system for all minor National Pollutant Discharge Elimination system (NPDES) permits in the state. DEQ will use the \$197,000 in funds from the Capacity Building Grant and Cooperative Agreement for States and Tribes for a contractor to encode missing data elements for the affected NPDES permits in the state and make TEMPO enhancements to better accommodate the data. TEMPO is the department's data management and tracking system, and includes all department data regarding permits, enforcement, surveillance and other facility data.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no significant impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7. The projects will lead to the development and expansion of DEQ's ability to report on new federal /state NPDES areas of emphasis, and will eliminate dual entry of data and pre-printing and distribution of paper Discharge Monitoring Reports.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$1,101,689</u>	Total	<u>\$1,101,689</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$1,101,689 from the Office of Emergency Preparedness (OEP) to the Department of Culture, Recreation, & Tourism. These funds are FEMA reimbursements for the Office of State Museum for expenses incurred during the aftermath of Hurricane Katrina. The Office of Risk Management will be reimbursed for any payments that were made to the Office of State Museum.

During Hurricane Katrina the roof of the Old U.S. Mint was damaged; therefore, the contents needed to be moved, stored, and stabilized. The contents of the museum were packed, loaded, and transported to Baton Rouge for either storage or stabilization by freeze drying at LSU. The contents are being stored during the repair of the Old U.S. Mint and will be returned when completed. According to the Department, the interior repairs will be completed by March 2007 and the contents will be moved back in early June 2007. Reimbursement is limited to a total of 6 months storage.

The reimbursements cover the following list of expenditures.

Salaries - \$21,692 (overtime costs during the Katrina aftermath)

Related Benefits - \$3,311

Other Compensation - \$41,689 (wages for employees assessing the collection)

Supplies - \$20,000 (supplies and equipment used during assessment)

Professional Services - \$499,001 (expenses related to packing, loading, transporting, storing, repairing, and returning contents to the Old U.S. Mint after repairs are made)

Interagency Transfers - \$515,996 (reimbursement of expenses made by the Office of Risk Management)

Total - \$1,101,689

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

DEPARTMENT: Public Safety

AGENDA NO.: 4

AGENCY: Liquefied Petroleum Gas Commission

ANALYST: Jay Eckert

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative Program	\$22,780	1
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$22,780			
Federal Funds:	\$0			
Total	<u>\$22,780</u>	Total	<u>\$22,780</u>	<u>1</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget an additional \$22,780 in Statutory Dedicated funds to the Liquefied Petroleum Gas Commission to fund an additional position. The prorated annual salary for this additional Administrative Assistant III is budgeted at \$12,147, with \$7,658 budgeted for related benefits. This funding will provide for salary for the remaining 16 of 26 pay periods. Funding will also provide \$675 for operating services and office supplies, as well a one time charge of \$2,300 for and computer and printer. The full year salary of this additional position would be \$32,183 including salaries and related benefits (\$19,739 - Salary; \$12,444 - Related Benefits).

The source of funds is the LPGas Rainy Day Fund. This fund was created by the Legislature in 1998. These monies were set aside in this fund to provide for operational expenses of the Commission in years that could have a shortfall in revenues. LPGas Rainy Day Fund includes all fees, penalties and other revenues received by the Commission.

The Liquefied Petroleum Gas Commission has inspectors that perform service and inspections and office personnel process the inspections and enter the results into a database. The additional position is needed because the current office staff is unable to process all of the inspections done by the Liquefied Petroleum Gas Commission inspectors. The workload has increased the past few years and there has not been a new position added in over a decade to maintain these increased activities. There was also an increase in the number of inspections caused by the 2 hurricanes that came through LA last fiscal year. The additional personnel is necessary to allow the Liquefied Petroleum Gas Commission to deposit state funds in a timely manner, to issue permits in a timely fashion, adjudicate safety violations timely by providing current information to the field staff or permit holders, and to have current information available for accountability reports.

The Liquefied Petroleum Gas Commission is currently budgeted \$712,659 in Statutory Dedicated LPGas Rainy Day Fund. Approval of this BA-7 will increase that amount to \$735,439. The LPGas Rainy Day Fund has \$325,600 remaining as of 11/14/2006.

II. IMPACT ON FUTURE FISCAL YEARS

The Liquefied Petroleum Gas Commission will expend funds from the LPGas Rainy Day fund for this additional position in future fiscal years. Out year expenditures include funding for payroll, retirement and medicare with an increase of approximately 4%, and funding for maintenance, telephone and office supplies.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Traffic Enforcement Program	\$0	0
Interagency Transfers:	\$0	Criminal Investigation Program	\$1,035,500	0
Self-Generated Revenue:	\$1,035,500	Operational Support Program	\$0	0
Statutory Dedications:	\$0	Gaming Enforcement Program	\$0	0
Federal Funds:	\$0	Auxiliary Account	\$0	0
Total	<u>\$1,035,500</u>	Total	<u>\$1,035,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget an additional \$1,035,500 in self-generated narcotics seizure revenue to the Office of State Police. There are 2 type of narcotics seizure revenue involved in this request. The State Narcotics Seizure funds are to be used in the furtherance of narcotics law enforcement. The Federal Narcotic Seizure funds are to be used in the furtherance of law enforcement.

Funds will be used to provide replacements for 57 high mileage special-use/under cover vehicles in the Criminal Investigations Program within the Office of State Police. All of the vehicles being replaced have over 100,000 miles as well as many having worn parts and leaks. These "special use" vehicles are necessary so that they may be used in under cover operations.

	<u>Quantity</u>	<u>Cost Per Vehicle</u>	<u>Total Cost</u>
Chevy Monte Carlo	19	\$18,000	\$342,000
Dodge Charger SXT	19	\$19,000	\$361,000
Ford Mustang	<u>19</u>	<u>\$17,500</u>	<u>\$332,500</u>
	57		\$1,035,500

The source of revenue to this fund is from the sale of all property and all funds seized by the department as a result of involvement in illicit drug trade. The Federal Narcotics Seizure fund currently has approximately \$1.4 M and the State Narcotics Seizure fund has approximately \$3.3 M for FY 07.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

AGENDA NO.: 6

AGENCY: LA Racing Commission

ANALYST: Evan Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	LA State Racing Comm Program	\$100,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$100,000			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$100,000</u>	Total	<u>\$100,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to provide additional funding for a contract with LSU for equine drug testing. The new contract with LSU, which began on 6/30/06, will now include pre-race and random testing of race horses for elevated levels of total dissolved carbon dioxide to prevent the illegal practice of "milkshaking". A "milkshake" cocktail usually contains alkalizing agents such as baking soda, plus sugar and other substances which are believed to fend off fatigue and possibly mask other illegal performance enhancing drugs. The previous contract was limited to post-racing only. The pre-race testing will be administered in all major statewide racing jurisdictions. The new 3-year contract, effective on 7/1/06, has an increase of \$300,000 over the life of the contract (from \$581,600 to \$681,600 annually). The increased cost of the contract will be funded with SGR. The LA Racing Commission (LRC) anticipates a sustained increase in OTB revenue (primarily in the New Orleans area) to fund this increase over the contract period.

II. IMPACT ON FUTURE FISCAL YEARS

As noted earlier, the additional cost of this contract is to be funded with self-generated monies which the LRC anticipates to be available due to increased OTB activity in the New Orleans area.

Approved By JLCB**

DEPARTMENT: Social Services

AGENDA NO.: 9A

AGENCY: Office of Community Services

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Child Welfare Services	\$400,000	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$400,000			
Total	<u>\$400,000</u>	Total	<u>\$400,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is companion to 9B. The purpose of this BA-7 is to increase Federal budget authority by \$400,000 in the Child Welfare Services Program. The source of funding is a new allocation from the existing Title IV-B Part II grant, from the Department of Health & Human Services, Administration for Children & Families. This grant requires a 10% state in-kind match which will be met partially by LSU School of Social Work and through the purchase of supplies, printing, and travel expenses incurred by DSS.

The agency will use the funding to develop a LA Kinship Integrated Service System to improve outcomes for 450 children who receive both formal and informal kinship care in 4 parishes of the Greater New Orleans (GNO) Region. These parishes are Orleans, Jefferson, Plaquemines, and St. Bernard. The project will target families already involved in the child welfare system and also serve as a means of prevention of child abuse and neglect for those who are not. The GNO region was selected as a pilot site for the project because of the prevalence of issues such as insufficient income, lack of housing, food, and transportation, physical and mental health of caregivers, childcare, education of child and parents, extended family involvement, relationship with birth parents, and the physical, emotional and behavioral health of the child.

Currently, OCS and OFS serve similar populations, yet there is little joint planning and operation between the 2 agencies. OCS has the responsibility for child abuse prevention and child welfare services. OFS responsibility is providing families with financial assistance, education, and training. Specifically, this grant funding will be used to provide cross training through a contract with LA Youth Enhancement Services (LA Y.E.S.) Network. LA Y.E.S. will provide orientation and training to OCS/OFS representatives on system of care principals, cultural competency, evidence-based practices and other topics related to collaboration and networking. The grant funding will also be used for project evaluation services which will be provided through a contract with LSU School of Social Work. LSU will provide ongoing and summary evaluation of both the collaborative process and its impact on the efficiency of interventions provided through the system of care providers. In addition, Child Welfare Services will use this grant funding to hire care managers who will be available to provide additional prevention and intervention services through referrals and coordinate services for kinship families with OFS and other community service providers.

Funding for salaries has been budgeted for 2 Social Service Specialist 1's (\$36,088 each) and a Social Service Specialist 2 (\$41,330) at a total cost of \$113,506 plus related benefits at \$40,167. These will be new employees hired on temporary job appointments as care managers. The remaining funding is budgeted for database management services (\$25,000), travel (\$4,246), 3 computers with printers for the new employees (\$4,500), contracts with LSU School of Social Work (\$52,174) and Office of Mental Health, LA Youth Enhancement Services (\$12,000), and IAT to the Office of Family Support (\$148,407).

II. IMPACT ON FUTURE FISCAL YEARS

This grant is renewable for 5 years beginning FY 07 and ending FY 11.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority by \$484,372 in Statutory Dedicated funding for the Field Services Program. Funding for the Youthful Offender Management Fund is derived from probation and parole supervision fees received and also from any amounts appropriated by the Legislature to the fund. The fund balance is \$274,417. The interest earnings and expected collections for the Youthful Offender Management Fund are higher than anticipated for FY 07 by \$209,955. The Office of Youth Development is requesting that the total estimated funds for this fiscal year be available for the increased costs associated with 28 additional field services staff that was added during the budget process for FY 07.

This appropriation includes:

\$295,513 Retirement Contributions for State Employees

\$38,859 In State Travel

\$150,000 Acquisitions - Equipment for regional offices, such as office furniture, guns, vests, cars, etc.

\$484,372 Total

Federal Funds:	\$0			
Total	<u>\$217,800</u>	Total	<u>\$217,800</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion with agenda item #13. The purpose of this BA-7 is to budget \$217,800 in IAT budget authority from the Department of Public Safety, Office of Management & Finance. Public Safety is receiving the funds from the Office of Community Development (OCD). OCD is receiving a federal grant from the Department of Housing & Urban Development (HUD). HUD is granting funds to LA in order to provide construction code enforcement for parish and/or municipal governments in the 11 parishes identified as the most severely impacted by hurricanes Katrina and Rita. No state match of these funds is required.

The 11 parishes identified by OCD and HUD include Orleans, Jefferson, St. Bernard, St. Tammany, Calcasieu, Plaquemines, Vermillion, Terrebonne, Cameron, Iberia and Washington.

The Office of Community Development and HUD regulations require that construction or repair of single family and multi family dwellings that were damaged by hurricanes Katrina and Rita must comply with nationally recognized construction codes. The Department of Public Safety and the Office of State Fire Marshal are permitted by state law to establish contract agreements with the Authority Having Jurisdiction (AHJ) over a parish or municipality and a qualified third-party provider in order to provide code enforcement on their behalf.

The Office of State Fire Marshal is requesting to add 4 temporary job appointments in order to assist the 11 parishes most affected by the hurricanes in obtaining the appropriate construction code resources and training. This program is to be provided over an approximate 6 month time period so that construction and repair can proceed in a timely manner. Expenditures are to employ and equip 3 architects and 1 engineer. The additional appointments are necessary in order to perform the estimated 785 multi family residential code reviews in the affected parishes.

\$110,699	Other compensation
56,301	Related Benefits
10,000	Travel
2,200	Operating Supplies - (printing, postage, and maintenance)
5,100	Supplies - (office supplies and miscellaneous items)
<u>33,500</u>	Acquisitions - (workstation, chair, file, computers and printers)
\$217,800	

II. IMPACT ON FUTURE FISCAL YEARS

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$6,863,883</u>	Total	<u>\$6,863,883</u>	<u>0</u>

I. SUMMARY/COMMENTS

This BA-7 is a companion with agenda item number 12. The purpose of this BA-7 is to budget \$6,863,883 in IAT budget authority from the Office of Community Development (OCD) to the Office of Management & Finance. OCD is receiving a federal grant from the Department of Housing & Urban Development (HUD). HUD is granting these funds to LA in order to provide construction code enforcement for parish and/or municipal governments in the 11 parishes identified as most severely impacted by hurricanes Katrina and Rita. DPS is permitted by state law to establish contract agreements for construction code enforcement with parish and/or municipal governments and a qualified third-party provider. No state match of these funds is required.

The 11 parishes identified by OCD and HUD include Orleans, Jefferson, St. Bernard, St. Tammany, Calcasieu, Plaquemines, Vermillion, Terrebonne, Cameron, Iberia and Washington.

Funding for this BA-7 breaks down into three categories:

- 1) A \$217,800 IAT from the Office of Management & Finance to the Office of State Fire Marshal for the purpose of performing approximately 785 multi family residential building code reviews in the 11 parish area.
- 2) The Office of Management & Finance will enter into a contract with a qualified third party provider at an estimated cost of \$6,596,377. The purpose of the contract will be to provide construction code enforcement personnel for construction code inspections, code enforcement training and plan review training to local and/or municipal governments. The contractor shall provide a master plan to the Department of Public Safety outlining in detail all services to be provided including plan review, inspections and training. The contractor will also provide management support, staffing and necessary resources to complete their tasks as well as assist the Office of State Fire Marshal. It is estimated that 60 certified personnel may be needed to provide assistance for construction code enforcement and that approximately 60,000 residential housing units will begin reconstruction during the six month emergency funding period.
- 3) \$49,706 will be expended by the Office of Management & Finance to employ an Administrative Program Specialist on a job appointment, as well as statewide travel, administrative supplies and computer equipment.

Act 12 of the 1st Extraordinary Session of 2005 mandated a Construction Code Council be created within the Department of Public Safety.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

DEPARTMENT: Economic Development

AGENDA NO.: 14

AGENCY: Office of Business Development

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Business Development Program	\$47,821,000	5
Interagency Transfers:	\$47,821,000			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$47,821,000</u>	Total	<u>\$47,821,000</u>	5

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase interagency transfer funds by \$47.821 M to fund the Small Firm Recovery Loan Program and the Technical Assistance to Small Firms Program. These funds are Federal Community Development Block Grant (CDBG) funds first appropriated to the LA Office of Community Development (OCD) by the Joint Legislative Committee on the Budget (JLCB) by BA-7. These funds are part of \$711,865,025 for OCD adopted by JLCB on 9/1906 (agenda item 26A). These funds do not require a matching component from the State of LA.

The Small Firm Recovery Loan Program comprises \$38 M of the requested funding. The goal of the program is to assist small firms in hurricane affected parishes that have a chance to survive, contribute to the economy, and maintain and create jobs. DED anticipates that many participating firms may not qualify for bank and/or Small Business Administration (SBA) loans. This program will target small firms with 2 to 25 employees.

Non-profit lenders and Community Development Financial Institutions (CDFIs) approved and monitored by DED will make the loans for the program. The maximum loan amount per firm will be \$250,000. A component of each loan may be a grant that will not require repayment. The grant component is intended to reimburse affected firms for documented tangible property losses. The grant component is capped at 20% of the loan amount up to \$25,000. DED and participating lenders will provide technical assistance to participating firms. Technical Assistance may include help with basic business issues, like accounting and regulatory compliance, entrepreneurial issues like business planning and financial issues like obtaining appropriate capital.

The Technical Assistance to Small Firms Program comprises \$9.5 M of the requested funding. This program will provide assistance to small, locally owned firms in Southeast and Southwest LA that were seriously affected by the storms. DED will use requested funds to contract (after an RFP process) with intermediaries to provide: 1) technical assistance to small firms, including nonprofits, adversely affected by the hurricanes; and 2) assistance to entrepreneurs or individuals seeking to start a new business that would be located in the impacted area. The state will seek contracts from groups that provide services to entrepreneurs, minority & women-owned businesses, specific industry sectors, firms in rural areas, and nonprofits. DED will select contractors based on evidence of quality of services, sustainability, and building capacity that will remain in the region.

DED is also requesting \$321,000 and 5 positions to administer these 2 new programs. This amount is based on employment and related costs for 8 months in the current fiscal year. The annualized cost for these 5 positions and related costs is anticipated to be approximately \$497,000 in FY 08.

II. IMPACT ON FUTURE FISCAL YEARS

Total funding for both programs and related costs is limited to \$49 M in "one-time" Federal CDBG funds. It is unlikely that DED will expend the entire requested \$48.821 M in FY 07. As such, DED will likely request that a significant portion of this funding be reappropriated in future fiscal years. Furthermore, DED is funding recurring staffing and administrative costs with "one-time" federal funding. When the funding is exhausted, DED will need to request additional funding, or lay off staff associated with these new programs.

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administration/Support Services	\$0	0
Interagency Transfers:	\$529,325	Broadcasting	\$529,325	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$529,325</u>	Total	<u>\$529,325</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT by \$529,325 in the Broadcasting Program to allow the agency to receive and expend monies from the Federal Emergency Management Agency (FEMA) earmarked to repair a transmitter damaged by Hurricane Katrina last year. These funds are disbursed by the Governor's Office of Homeland Security & Emergency Preparedness.

The transmitter will be purchased through the capital outlay process. The agency will request FEMA reimbursement and FEMA will then authorize the Governor's Office to pay LETA, which, in turn transfers the funds to capital outlay. Facility Planning & Control has already approved this expenditure. The total funding needed for this project amounts to \$529,325 of which Facility Planning & Control has already approved \$440,000 for the transmitter. Other items will be needed to make the site operational and these items will be funded as work on the project progresses.

Flooding and other damage in the aftermath of Hurricane Katrina completely destroyed the New Orleans transmitter which is located at WLAE in Chalmette. Approval of this BA-7 and replacement of the transmitter will allow the agency to restore programming to the area which is currently not being served.

Federal Funds:	\$0			
Total	<u>\$613,687</u>	Total	<u>\$613,687</u>	<u>0</u>

I. SUMMARY/COMMENTS

This is a companion to BA-7 #2.

The purpose of this BA-7 is to budget unexpended funds originally received in FY 06 from the National Governor's Association (NGA) Center for Best Practices as part of the first phase of its Honor Grant Program. A carryforward BA-7 was not submitted in a timely fashion by the Executive Office for the August meeting of the JLCB, which has necessitated budgeting these funds again through this mechanism. A total of \$386,313 of the original \$1 M grant has been expended to date.

These funds are part of a two-year, \$2 M grant to LA that will enable the state to continue high school reform aimed at preparing all students for success in college and work. Ten states were originally selected by the NGA to receive these funds for both short and long-term strategies for high school reform. Each proposal focused on increasing college and work readiness of students through efforts such as improving standards, aligning curricula and assessments, and increasing the rigor of graduation requirements.

The original term of the first year of this grant was to end in July 2006. Due to the hurricanes of 2005, the NGA has allowed for an extension of the first year to 11/30/06. The second phase of the NGA grant depends upon the successful completion of the first phase. Should this be accomplished, another BA-7 will be necessary to budget the remaining \$1 M at a later date.

Of this amount, a total of \$520,000 will be transferred to the Department of Education for its expenses related to High School Redesign (these funds are already budgeted for the DOE), \$10,000 to the Board of Regents for its associated expenses (see BA-7 #2) and the remaining \$83,687 will remain in the Executive Office for travel expenses of staff and the high school redesign commission members, supplies, and professional services associated with this task.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$10,000</u>	Total	<u>\$10,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT authority in the amount of \$10,000 to allow the Board of Regents to receive and expend funds received from the Governor's Office to implement the ePortal (see below).

A BA-7 was approved at the December 2005 JLCB meeting in the amount of \$245,000 to provide funding to BOR for this project. The Board expended \$235,000 in FY 06 for this purpose and needs additional IAT Authority to use the remaining \$10,000 in FY 07. These funds will be used for training teachers and counselors in secondary and post-secondary institutions.

These funds were transferred from the Office of the Governor to the Board of Regents to pay for the creation and implementation of an "ePortal" which is a website that would allow high school and college students to manage their academic work to better enable them to attain gainful employment. These funds are part of a 2-year, \$2 M grant to LA that will enable this state to continue high school reform aimed at preparing all students for success in college and work.

The ePortal will be used as a vehicle to inform students, parents and teachers about high school requirements, academic enhancements, careers and career opportunities. Students will register for an ePortal account where that student can monitor academic progress in high school and use the information to schedule coursework to prepare for a career in the workforce or in higher education. In the future, the LA Systemic Initiatives Program (LaSIP) and the Office of Student Financial Assistance (OSFA) would like to participate in the portal to better deliver services but have not at this point in time committed financial resources.

The ePortal is currently in the limited testing and training phase. The BOR anticipates the portal will be available for student use in the FY 07 Spring Semester.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget FEMA funds to be transferred from the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP) for reimbursement of losses experienced due to Hurricane Katrina at Jackson Barracks and Camp Villere in Slidell, preparation of temporary facilities near Alexandria, and site preparation at Camp Beauregard. The reimbursement of losses through approved project worksheets include \$439,617 for reimbursement for lost contents and equipment at various buildings at Jackson Barracks, erection of temporary facilities at various locations to provide logistical support to the evacuation and rescue efforts, and treatment of museum items at Jackson Barracks. In addition, a total of \$4,322,777 is requested for additional reimbursement for costs of various project worksheets which include additional structures and contents associated with Jackson Barracks.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in the amount of \$7,367,998. The Military Department has provided additional information to the LFO and OPB substantiating that it now has approved project worksheets in the aforementioned amount and is awaiting transfer of funds from FEMA upon approval of this BA-7.

I. SUMMARY/COMMENTS

The purpose of this technical BA-7 is to move \$2,169,611 in Statutory Dedication funding (Youthful Offender Management Fund) from the Administration Program to the Field Services and Contract Services Program. During the 2006 Regular Legislative Session, additional Statutory Dedication funding was appropriated in the Administration Program. This BA-7 attempts to align the funding for the intended purposes in the Field Services and Contract Services Program. Information provided by Office of Youth Development indicates that the funds will be used for costs associated with additional field services staff for their related benefits and with nonresidential, community reintegration, tracker, and other prevention and diversion programs in contract services.

II. IMPACT ON FUTURE FISCAL YEARS

With approval of this BA-7, the Office of Youth Development will recommend these adjustments be incorporated into the budget for future fiscal years in the FY 08 budget request.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to grant budget authority in the Nonpublic Education Assistance agency to enable the transfer of \$629,698 for the support worker salary supplement and associated retirement costs for nonpublic school lunch employees.

During the 2006 Regular Legislative Session, funding was appropriated in the Minimum Foundation Program formula and the Subgrantee Assistance Program to provide non-certificated support workers a \$500 salary supplement. This BA-7 will allow for the transfer of the funding from Subgrantee Assistance for the nonpublic school lunch employees. According to the 2006 -2007 performance indicators for the School Lunch Supplements Program, there are 1,055 full-time employees and 117 part-time employees. The part-time employees will receive half of the \$500 salary supplement.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget \$62,790 in federal funds to the Office of State Fire Marshal within the Department of Public Safety. These funds are a FEMA Fire Prevention and Education grant for the purpose of purchasing fire education equipment to be used for educating children in injury prevention. No state match is required for these funds.

The funds will be used to purchase 3 Hazard House Educational Tools. One Hazard House Educational Tool costs \$20,930. (20,930 * 3 = \$62,790) The Hazard House is a three-dimensional dollhouse equipped with smoke pots and electric "zappers". It is an interactive tool which includes illuminated effects to reveal hazards within the house. The Hazard House has been praised for its ability to appeal to the energy and imagination of children, holding their attention for a long period of time. The 3 Hazard House Tools will be utilized throughout the state by local fire departments to use in schools, fairs, and other events.

II. IMPACT ON FUTURE FISCAL YEARS

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$62,000</u>	Total	<u>\$62,000</u>	<u>1</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR by \$62,000 to fund an additional position and purchase a vehicle that will be used for auditing, tracking, and reporting of new electronic video bingo machines. Of this amount, \$38,000 will fund the position and related costs for the second half of FY 07. The annual salary for this additional position is budgeted at approximately \$39,400. The Department of Revenue will also use \$24,000 of these requested funds to purchase a vehicle to be used in the regulation and enforcement related to additional electronic video bingo machines.

These additional funds result from an annual \$600 fee the Department of Revenue charges per electronic video bingo machine. The Department of Revenue anticipates that 145 additional machines will be added in the current fiscal year, for a total revenue increase of \$87,000. The uses of the remaining \$25,000 (not part of this BA-7) are explained in BA-7 agenda item # 10.

A distributor has developed a new concept where they are placing these machines at new locations known as "video bingo parlors". According to the Department of Revenue, the new concept concentrates more on video bingo machines than in traditional bingo halls. According to the Department, 35 of these new machines were permitted in Alexandria in July 2006. Another 70 new machines were permitted in Hammond at 2 locations in September 2006. Furthermore, 35 new machines will be permitted in Richwood (near Monroe) in October 2006. Finally, the department estimates that approximately 5 additional machines will be permitted in Richwood and Baton Rouge prior to the end of fiscal year.

II. IMPACT ON FUTURE FISCAL YEARS

The Department of Revenue will collect revenues from these 145 additional electronic video bingo machines in future fiscal years. Furthermore, the Department of Revenue will expend funds for this additional position in future fiscal years.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase SGR by \$25,000 to fund additional rent and maintenance costs. The Department of Revenue will use \$11,578 for rent increases at the department's facility at 8549 United Plaza Boulevard, Suite 301 in Baton Rouge. The department will use the remaining \$13,422 for additional maintenance costs. Specifically, the department will use \$12,000 for software maintenance agreements that the department failed to include in the FY 07 budget. Finally, the department will use the remaining \$1,422 for miscellaneous expenses including higher copier rent, additional cell phone charges, and other smaller items.

These additional funds result from an annual \$600 fee the Department of Revenue charges per electronic video bingo machine. The Department of Revenue anticipates that 145 additional machines will be added in the current fiscal year, for a total revenue increase of \$87,000. The uses of the remaining \$62,000 (not part of this BA-7) are explained in BA-7 agenda item #9.

A distributor has developed a new concept where they are placing these machines at new locations known as "video bingo parlors". According to the Department of Revenue, the new concept concentrates more on video bingo machines than in traditional bingo halls. Federal Funds:	\$0			
Total	<u>\$39,625</u>	Total	<u>\$39,625</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority in order to receive statutorily dedicated funds (Derelict Crab Trap Removal Program Account) in the amount of \$39,625. This fund was created during the 2005 Regular Legislative Session for the purpose of implementing and administering the derelict crab trap removal program.

The funding will be budgeted as follows: operating services (\$9,000), supplies (\$5,625), and acquisitions (\$25,000). Specifically, operating services include waste disposal of derelict crab traps and the acquisitions include two shallow-draft boats and motors.

The source of revenue to this fund is from annual fees from the purchase of crab trap gear licenses. The current year fund balance is \$43,850 and anticipated revenue is \$28,000.

II. IMPACT ON FUTURE FISCAL YEARS

Budgeted amounts in future fiscal years is dependent upon the amount of crab trap gear licenses sold. The annual fees for the licenses will continue to be collected to administer the derelict crab trap removal program.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds:	\$16,100,417			
Total	<u>\$16,100,417</u>	Total	<u>\$16,100,417</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is provide additional budget authority to receive federal funding from the U.S. Department of Commerce, National Marine Fisheries Service. This supplemental appropriation was made to provide technical assistance to states and industry in response to the impacts of hurricanes Katrina, Rita, and Cindy.

Specifically, the funding made available by Public Law 109-234 will aid in the recovery of Louisiana coastal fisheries from the impacts of hurricanes Katrina and Rita. The funds are designated for oyster bed and shrimp ground rehabilitation, cooperative research to monitor the recovery of Gulf fisheries, and reseeding, rehabilitation and restoration of oyster reefs.

Ten temporary professional-level positions will be hired for the term of the 5-year grant to oversee the work of contractors, conduct field monitoring, coordinate interagency activities, collect and analyze logbook and survey data, and provide liaison functions with the fishing industries.

Other Compensation - \$315,067 (10 temporary positions salaries prorated for 8 months)

Related Benefits - \$121,050

Travel - \$28,000

Operating Services - \$2,375,000 (installation & operation of shoreline protection features, deposition of oyster cultch, restore and provide laboratory features, printing, maintenance, postage)

Supplies - \$451,300

Professional Services - \$6,000,000 (contracts for project audit (management of payments to fishermen), contract with professional land surveyors, contracts for project management specialist, data management consultants, and environmental consultants)

Other Charges - \$3,000,000 (contracts for recruiting survey participants, data and debris management, biological monitoring)

Interagency Transfers - \$3,000,000 (agreements DHH, DEQ and DNR regarding oyster relay, water quality monitoring, & underwater obstruction removal)

Acquisitions - \$615,000 (six commercial grade marine monitoring vessels fully outfitted and trailers, nine computers)

Major Repairs - \$195,000 (auto, plant, boat/motor repairs used in corrosive (saltwater) environments)

Total - \$16,100,417

II. IMPACT ON FUTURE FISCAL YEARS

The 5-year grant is scheduled to begin in October 2006 and end in September 2011. Funding in subsequent years will be \$14,950,250 (FY 08), \$9,408,000 (FY 09), \$6,303,500 (FY 10) and \$6,154,500 (FY 11).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

October 20, 2006

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Environmental Quality

AGENDA NO.: 14

AGENCY: Office of Secretary

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Administrative	\$23,500	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$23,500			
Federal Funds:	\$0			
Total	<u>\$23,500</u>	Total	<u>\$23,500</u>	<u>0</u>

I. SUMMARY/COMMENTS

DEQ is requesting to budget \$23,500 in additional Statutorily Dedicated Environmental Trust Funds (ETF) for the purpose of employing students (\$18,500) to perform administrative functions which will free full-time employees to perform more technical functions, and to assist in covering additional fuel costs (\$5,000) necessary to meet the demands of traveling to hurricane affected areas to oversee debris sites, demolition sites and landfill operations.

The additional funding is available due to a larger actual Environmental Trust Fund end of year balance in FY 06 (\$13.6 M) than originally projected during the budget process (\$6.18 M). This larger balance occurred due to several factors: (1) DEQ's actual fee collections in FY 06 were approximately \$3 M greater than projected (\$50 M rather than \$47 M); (2) Hazardous Waste Site Cleanup Funds which overflow into the Environmental Trust Fund once a \$6 M cap is reached amounted to \$5.47 M rather than the projected \$4.5 M; (3) Miscellaneous, Federal and other fund reimbursements were \$2,735,639 rather than the originally projected \$2.015 M; (4) Interest earnings were approximately \$378,000 greater than projected; and (5) actual expenditures in FY 06 were approximately \$2.3 M less than projected because of cuts and expenditure restraint (\$62,321,665 rather than \$64,651,238).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will appropriate a portion of DEQ's end of FY 06 balance of Environmental Trust Funds. Appropriation and expenditure of these funds will preclude the carryforward of these funds into FY 08. It is anticipated that the additional expenditures in this BA-7 will be of a recurring nature and will need to be funded in subsequent fiscal years if the student employees are maintained and fuel costs to the department remain at the current level.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$520,750			
Federal Funds:	\$0			
Total	<u>\$520,750</u>	Total	<u>\$520,750</u>	<u>0</u>

I. SUMMARY/COMMENTS

DEQ is requesting to budget \$520,750 in additional Statutorily Dedicated Environmental Trust Funds (ETF) for the purpose of employing students (\$45,750) to perform administrative functions which will free full-time employees to perform more technical functions, and upgrading DEQ's TEMPO system which includes the cost of updated software licenses at \$55,000 and Professional Services at an estimated \$420,000. TEMPO is the department's data management and tracking system, and includes all department data regarding permits, enforcement, surveillance and other facility data.

The additional funding is available due to a larger actual Environmental Trust Fund end of year balance in FY 06 (\$13.6 M) than originally projected during the budget process (\$6.18 M). This larger balance occurred due to several factors: (1) DEQ's actual fee collections in FY 06 were approximately \$3 M greater than projected (\$50 M rather than \$47 M); (2) Hazardous Waste Site Cleanup Funds which overflow into the Environmental Trust Fund once a \$6 M cap is reached amounted to \$5.47 M rather than the projected \$4.5 M; (3) Miscellaneous, Federal and other fund reimbursements were \$2,735,639 rather than the originally projected \$2.015 M; (4) Interest earnings were approximately \$378,000 greater than projected; and (5) actual expenditures in FY 06 were approximately \$2.3 M less than projected because of cuts and expenditure restraint (\$62,321,665 rather than \$64,651,238).

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will appropriate a portion of DEQ's end of FY 06 balance of Environmental Trust Funds. Appropriation and expenditure of these funds will preclude the carryforward of these funds into FY 08. It is anticipated that the additional expenditures in this BA-7 relative to employment of students and software license costs will be of a recurring nature and will need to be funded in subsequent fiscal years if the student employees are maintained and to maintain the necessary software license. Professional Services expenditures for the software upgrade will be incurred in FY 07 and will not impact future fiscal years.

ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Environmental Quality

AGENDA NO.: 16

AGENCY: Office of Environmental Compliance

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Compliance	\$680,150	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$1,330,150			
Federal Funds:	(\$650,000)			
Total	<u>\$680,150</u>	Total	<u>\$680,150</u>	<u>0</u>

I. SUMMARY/COMMENTS

DEQ is requesting to budget \$1,330,150 in additional Statutorily Dedicated Environmental Trust Funds (ETF), which represents a net increase in funding of \$680,150, for the purpose of supplanting federal Performance Partnership Grant funds (\$650,000) which DEQ has been informed by the Environmental Protection Agency (EPA) will not be made available to the department; employing students (\$36,750) to perform administrative functions which will free full-time employees to perform more technical functions; to assist in covering additional fuel costs (\$95,000) and travel costs (\$100,000) necessary to meet the demands of traveling to hurricane affected areas to oversee debris sites, demolition sites and landfill operations; to purchase replacement vehicles for 14 high mileage vehicles (\$280,000); and to purchase portable emergency communications equipment (\$168,400). The communications equipment is to be used to supplement the mobile air monitoring capabilities and support communications in emergencies, and will allow DEQ to share information from the field in a real time or near real time mode.

The additional funding is available due to a larger actual Environmental Trust Fund end of year balance in FY 06 (\$13.6 M) than originally projected during the budget process (\$6.18 M). This larger balance occurred due to several factors: (1) DEQ's actual fee collections in FY 06 were approximately \$3 M greater than projected (\$50 M rather than \$47 M); (2) Hazardous Waste Site Cleanup Funds which overflow into the Environmental Trust Fund once a \$6 M cap is reached amounted to \$5.47 M rather than the projected \$4.5 M; (3) Miscellaneous, Federal and other fund reimbursements were \$2,735,639 rather than the originally projected \$2.015 M; (4) Interest earnings were approximately \$378,000 greater than projected; and (5) actual expenditures in FY 06 were approximately \$2.3 M less than projected because of cuts and expenditure restraint (\$62,321,665 rather than \$64,651,238).

The Department of Environmental Quality budgeted \$14.5 M in FY 07 in federal Performance Partnership Grant (PPG) funds from the U.S. Environmental Protection Agency based on information obtained from the EPA. Subsequently, EPA determined they can only fund the PPG at \$10.5 M. The PPG is used by DEQ for continuing department operations, and the expenditures budgeted with this grant are used by the department to maintain the level of services it is currently providing within the state. As a result of the reduced grant dollars made available, the department is requesting a \$4 M means of financing swap from federal funds to Environmental Trust Funds. This BA-7 reflects \$650,000 out of the \$4 M swap.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will appropriate a portion of DEQ's end of FY 06 balance of Environmental Trust Funds. Appropriation and expenditure of these funds will preclude the carryforward of these funds into FY 08. It is anticipated that the additional expenditures in this BA-7 relative to student employment, fuel costs and travel costs will be of a recurring nature and will need to be funded in subsequent fiscal years if the student employees are maintained and fuel and travel costs to the department remain at the current level.

Federal Funds:	(\$2,100,000)			
Total	<u>\$129,550</u>	Total	<u>\$129,550</u>	<u>0</u>

I. SUMMARY/COMMENTS

DEQ is requesting to budget \$2,229,550 in additional Statutorily Dedicated Environmental Trust Funds (ETF), which represents a net increase in funding of \$129,550, for the purpose of supplanting federal Performance Partnership Grant funds (\$2.1 M) which DEQ has been informed by the Environmental Protection Agency (EPA) will not be made available to the department; employing students (\$45,550) to perform administrative functions which will free full-time employees to perform more technical functions; to assist in covering additional fuel costs (\$15,000) and travel costs (\$20,000) necessary to meet the demands of traveling to hurricane affected areas to oversee debris sites, demolition sites and landfill operations; and to cover additional cost for advertising public notices in newspapers (\$25,000), printing notices (\$15,000), mailing notices (\$5,000), and the supplies for producing those notices (\$4,000). The increased costs for public notices is due to the dislocation of residents from the hurricane affected areas, and the department has modified the public participation process in order to reach those individuals.

The additional funding is available due to a larger actual Environmental Trust Fund end of year balance in FY 06 (\$13.6 M) than originally projected during the budget process (\$6.18 M). This larger balance occurred due to several factors: (1) DEQ's actual fee collections in FY 06 were approximately \$3 M greater than projected (\$50 M rather than \$47 M); (2) Hazardous Waste Site Cleanup Funds which overflow into the Environmental Trust Fund once a \$6 M cap is reached amounted to \$5.47 M rather than the projected \$4.5 M; (3) Miscellaneous, Federal and other fund reimbursements were \$2,735,639 rather than the originally projected \$2.015 M; (4) Interest earnings were approximately \$378,000 greater than projected; and (5) actual expenditures in FY 06 were approximately \$2.3 M less than projected because of cuts and expenditure restraint (\$62,321,665 rather than \$64,651,238).

The Department of Environmental Quality budgeted \$14.5 M in FY 07 in federal Performance Partnership Grant (PPG) funds from the U.S. Environmental Protection Agency based on information obtained from the EPA. Subsequently, EPA determined they can only fund the PPG at \$10.5 M. The PPG is used by DEQ for continuing department operations, and the expenditures budgeted with this grant are used by the department to maintain the level of services it is currently providing within the state. As a result of the reduced grant dollars made available, the department is requesting a \$4 M means of financing swap from federal funds to Environmental Trust Funds. This BA-7 reflects \$2.1 M out of the \$4 M swap.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will appropriate a portion of DEQ's end of FY 06 balance of Environmental Trust Funds. Appropriation and expenditure of these funds will preclude the carryforward of these funds into FY 08. It is anticipated that the additional expenditures in this BA-7 relative to student employment, fuel costs, travel costs, and public notice costs will be of a recurring nature and will need to be funded in subsequent fiscal years if the student employees are maintained and the fuel, travel, and public notice costs to the department remain at the current level.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

October 20, 2006

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Environmental Quality

AGENDA NO.: 18

AGENCY: Office of Environmental Assessment

ANALYST: Robert E. Hosse

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Environmental Assessment	\$1,257,850	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0

Federal Funds:	(\$1,250,000)			
Total	<u>\$1,257,850</u>	Total	<u>\$1,257,850</u>	<u>0</u>

I. SUMMARY/COMMENTS

DEQ is requesting to budget \$2,507,850 in additional Statutorily Dedicated Environmental Trust Funds (ETF), which represents a net increase in funding of \$1,257,850, for the purpose of supplanting federal Performance Partnership Grant funds (\$1.25 M) which DEQ has been informed by the Environmental Protection Agency (EPA) will not be made available to the department; employing students (\$104,450) to perform administrative functions which will free full-time employees to perform more technical functions; to assist in covering additional fuel costs (\$95,000) and travel costs (\$65,000) necessary to meet the demands of traveling to hurricane affected areas to oversee debris sites, demolition sites and landfill operations; and to provide for payment annual certification fees, renewal fees and associated accreditation costs with the National Accreditation of the DEQ Laboratory (\$19,000). DEQ also intends to convert 4 ambient monitoring sites in Baton Rouge from Trigger Canister to Trigger Gas Chromatograph units at a cost of \$60,000 for Supplies, \$340,000 for equipment, and \$200,000 for professional services contract to operate the Gas Chromatograph unit portion of each of those sites. The additional requested funding would also be used for the following:

Professional Services contract (\$23,000) to provide for technical support for the LA Environmental Laboratory Accreditation Program's database. This database maintains current accreditation status on all laboratories accredited through the state.

Equipment purchase of \$150,000 to acquire a GCMS unit for the Mobile Air Monitoring Laboratory for greater organics analysis capability.

Equipment purchase of \$99,000 to acquire a Scientific Data Management System for the DEQ Laboratory. This system will provide for the management, storage, efficient access, and analysis of the laboratory's scientific data. Data requests will be produced directly from the system rather than each individual instrument. This system will increase the data availability to LDEQ users.

Equipment purchase of \$5,400 to replace the Remediation Division's laminating machine, binding machine and projector. The current equipment is old and unreliable.

Purchase of 5 vehicles (\$97,000) to replace the same number of high mileage or excessive maintenance cost vehicles.

The additional funding is available due to a larger actual Environmental Trust Fund end of year balance in FY 06 (\$13.6 M) than originally projected during the budget process (\$6.18 M). This larger balance occurred due to several factors: (1) DEQ's actual fee collections in FY 06 were approximately \$3 M greater than projected (\$50 M rather than \$47 M); (2) Hazardous Waste Site Cleanup Funds which overflow into the Environmental Trust Fund once a \$6 M cap is reached amounted to \$5.47 M rather than the projected \$4.5 M; (3) Miscellaneous, Federal and other fund reimbursements were \$2,735,639 rather than the originally projected \$2.015 M; (4) Interest earnings were approximately \$378,000 greater than projected; and (5) actual expenditures in FY 06 were approximately \$2.3 M less than projected because of cuts and expenditure restraint (\$62,321,665 rather than \$64,651,238).

The Department of Environmental Quality budgeted \$14.5 M in FY 07 in federal Performance Partnership Grant (PPG) funds

October 20, 2006

Federal Funds:	\$0	Auxiliary Account	\$200,000	0
Total	<u>\$200,000</u>	Total	<u>\$200,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$200,000 from the Department of Environmental Quality to the Department of Natural Resources for the Home Energy Rebate Option (HERO) Program. DEQ received these funds as a grant from the U.S. Environmental Protection Agency. The HERO program is administered by DNR and offers cash incentives in the form of rebates to LA homeowners that build new custom homes or retrofit their existing homes to meet a high level of energy efficiency. Homeowners expenses incurred in order to receive these rebates will be considered as the 40% state match for this grant. These HERO rebates will be budgeted as other charges.

The current amount budgeted for this program is approximately \$14 M. The maximum amount of a rebate is \$2,000 per homeowner. During the last two fiscal years 1,943 (FY 05) and 1,224 (FY 06) homeowners have applied and received a rebate.

II. IMPACT ON FUTURE FISCAL YEARS

Statutory Dedications:	\$250,000			
Federal Funds:	\$0			
Total	<u>\$250,000</u>	Total	<u>\$250,000</u>	<u>4</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase budget authority in order to receive statutorily dedicated funds (Oil and Gas Regulatory Fund) in the amount of \$250,000 and to increase authorized positions by 4 due to the passage of SB 655 of the 2006 Regular Session. This funding will be used for the purpose of evaluating and responding to plans for evaluation or remediation of environmental contamination of oil field sites and exploration and production sites upon referral by the court.

The following is a list of expenditures for the current fiscal year.

Salaries - \$149,154 (4 positions salaries prorated for 16 pay periods)
Related Benefits - \$51,417
Other Compensation - \$6,229 (environmental student intern)
Operating Services - \$14,000 (telephones, travel)
Professional Services - \$25,000 (laboratory costs associated with site evaluation)
Acquisitions - \$4,200
Total - \$250,000

The 4 positions include Environmental Impact Manager 1, Geologist 3, Environmental Impact Specialist 3, and Administrative Specialist 5.

The current year fund balance for the Oil and Gas Regulatory Fund is \$968,468 and anticipated revenue is approximately \$10.3 M.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will require additional statutorily dedicated funds to be appropriated in subsequent fiscal years. Annualization of the funding necessary for the 4 positions (salaries and related benefits) will be \$257,371 in FY 08 and increase thereafter by approximately 3%.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to transfer \$1 M in federal funding from the Department of Health & Hospitals, Office of Public Health to the Department of Natural Resources. OPH received these monies from the U.S. Environmental Protection Agency (EPA) Capitalization Grant.

The purpose of the funds is to provide low interest loans to public water systems to assist them to maintain with the National Drinking Water Standards or other assistance approved by the EPA to allow for public water systems projects and drinking water infrastructure improvements. Specifically, these funds will be used to assess damaged water wells from hurricanes Katrina and Rita and possibly cap damaged wells, if required, to prevent contamination of drinking water aquifers. It is estimated that 3,600 drinking water wells were damaged by the storms. DNR will obtain a contractor to survey the wells and cap the damaged wells.

No state match is required in order to receive this grant.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

October 20, 2006

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 21B

AGENCY: Office of Public Health

Statutory Dedications:	\$0			
Federal Funds:	\$1,000,000			
Total	<u>\$1,000,000</u>	Total	<u>\$1,000,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase expenditure authority in the Environmental Health Services Program by \$1 M in federal grant funds. The source of funds is a U.S. Environmental Protection Agency (EPA) Capitalization Grant for the Drinking Water Revolving Loan Fund (DWRLF).

The purpose of the DWRLF is to provide low interest loans to public water systems to assist them to maintain standards required with national drinking water standards, or other assistance approved by the EPA to allow for public water systems projects and drinking water infrastructure improvements. Specifically, these funds will be used to survey damaged water wells from hurricanes Katrina and Rita and temporarily cap wells, if required, to prevent contamination of drinking water aquifers. DHH currently estimates that approximately 3,600 drinking water wells located across the hurricane affected areas have been damaged.

This BA-7 is a companion with agenda item 21A. The monies received by DHH will be transferred to the Department of Natural Resources (DNR). DNR will obtain a contractor to survey the wells and provide the drinking water well caps.

II. IMPACT ON FUTURE FISCAL YEARS

The total grant award from the EPA is \$1.275 M. However, only \$1 M is being approved by the US EPA for this purpose for FY 07. According to the Department of Health & Hospitals, OPH will be able to apply for the remaining federal grant allowance if necessary for FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$0			
Federal Funds:	\$34,751,835			
Total	<u>\$34,751,835</u>	Total	<u>\$34,751,835</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the federal budget authority by \$34,751,835 in the Office of Mental Health (State Office). The Office of Mental Health (OMH) has been awarded a grant from the Substance Abuse Mental Health Services Administration for implementation of the Regular Services Program (RSP) phase of the Federal Crisis Counseling Program (CCP). The grant period for the RSP is 9/1/06 with an end date of 5/31/07. This grant does not require a state match.

The Regular Services Plan (RSP) is principally a continuation of services approved for the Immediate Services Program grant, but with additional program elements which will allow the RSP to effectively address the community-level recovery initiatives. The CCP services will be provided to communities within the 31 parishes designated for crisis counseling services under FEMA 1603-DR-LA (declared). The targeted number of individuals to be served is approximately **2.4 million**. Those targeted for outreach and counseling services include: 100,000 individuals who evacuated and were victimized again by Hurricane Rita, 270,000 individuals who stayed in the New Orleans Metropolitan Region, 500,000 individuals who evacuated safely, 204,220 individuals residing in mobile homes and travel trailers, 1,086,585 registrants who were able to live in the same homes as prior to Katrina, rented homes, or with others, and 290,000 individuals who were indirectly affected.

The funding from this grant will be allocated as follows: Catholic Charities of the Archdiocese of New Orleans contract (\$7,246,566), Volunteers of America contract (\$13,164,850), Options for Independence contract, (\$2,172,477), Harmony Center of Baton Rouge contract (\$7,627,036); OMH - Personnel Costs (\$3,475,025), Office Space (\$175,950), Supplies (\$47,250), Travel (\$116,756), Training (\$125,925), Crisis Hotline (\$250,000), and Evaluations (\$350,000). Personnel costs are for 39 temporary positions that will be funded for 9 months beginning 9/1/06.

II. IMPACT ON FUTURE FISCAL YEARS

This is a one time appropriation and is not expected to have an impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the federal budget authority by \$2,044,724 in the Office of Mental Health (State Office). The Office of Mental Health has been awarded this grant from FEMA for implementation of the Regular Services Program (RSP) phase of the Federal Crisis Counseling Program (CCP).

The Regular Services Plan (RSP) is principally a continuation of services approved for the Immediate Services Program grant, but with additional program elements which will allow the RSP to effectively address the community-level recovery initiatives. The CCP services will be provided to communities within the parishes not previously designated for counseling services under

FEMA-DR-1603 (Katrina) or FEMA-DR-1607 (Rita). These parishes are locations where evacuees from the directly impacted parishes sought refuge immediately following the storm, and where many of our residents still remain. There are a total of 33 undeclared parishes that will be served: Four of these parishes will be served under the grant designated for Rita Parishes in BA-7 agenda number 24. These parishes are **Beauregard, Evangeline, St. Landry, and Vernon**. The remaining 29 parishes that will be served by this grant are: **Allen, Avoyelles, Bienville, Bossier, Caddo, Caldwell, Catahoula, Claiborne, Concordia, De Soto, East Carroll, Franklin, Grant, Jackson, LaSalle, Lincoln, Madison, Morehouse, Natchitoches, Ouachita, Rapides, Red River, Richland, Sabine, Tensas, Union, Webster, West Carroll, and Winn**. The targeted number of individuals to be served is 57,239. This number is based on an estimate of the evacuees and the number of FEMA registrants.

The funding from this grant will be allocated as follows: Personnel Costs (\$166,422), Office Space/Liability Insurance (\$375), Office Supplies (\$10,800), Travel (\$15,795), and Volunteers of America GBR contract (\$1,851,331.40). Personnel costs are for 3 temporary Stakeholder Coordinator positions that will be funded for 9 months beginning 9/1/06.

II. IMPACT ON FUTURE FISCAL YEARS

This is a one time appropriation and is not expected to have an impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

Federal Funds:	\$2,308,237			
Total	<u>\$2,308,237</u>	Total	<u>\$2,308,237</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the federal budget authority by \$2,308,237 in the Office of Mental Health (State Office). The Office of Mental Health has been awarded a grant from FEMA for implementation of the Regular Services Plan phase of the Federal Crisis Counseling Program (CCP) for those individuals affected by Hurricane Rita in the State of LA.

The Regular Services Plan (RSP) is principally a continuation of services approved for the Immediate Services Program grant, but with additional program elements which will allow the RSP to effectively address the community-level recovery initiatives. The targeted number of individuals to be served is 159,588. This number is based on the number of FEMA registrations. The parishes that will be served are: **Acadia, Allen, Ascension, Beauregard, Calcasieu, Cameron, Evangeline, Iberia, Jefferson, Jefferson Davis, Lafayette, Lafourche, Livingston, Plaquemine, Sabine, St. Landry, St. Martin, St. Mary, St. Tammany, Terrebone, and Vermillion, Vernon, and West Baton Rouge.**

The funding from this grant will be allocated to the following expenditures: Personnel Costs (\$138,684), Consultant Costs (\$50,000), Office Supplies (\$9,750), Travel (\$24,918), Training (\$12,550), Evaluations (\$25,000), and Volunteers of America GBR Contract (\$2,047,334.78). Personnel costs are for three temporary positions (Fiscal Manager, Admin. Assistant, and Southwest Operations Director) that will be funded for 9 months beginning 9/1/06.

II. IMPACT ON FUTURE FISCAL YEARS

Federal Funds:	\$400,000			
Total	<u>\$400,000</u>	Total	<u>\$400,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the federal budget authority by \$400,000 in the Office of Mental Health (State Office). The Office of Mental Health has been awarded a 3-year grant of \$400,000 annually from the Substance Abuse Mental Health Services Administration for suicide prevention efforts.

The impact of the hurricanes have caused an increased risk for experiencing emotional and psychological problems, which are factors that contribute to youth suicide, among young people who lived in the affected areas. The funding will be used to strengthen and expand the LA Partnership for Youth Suicide Prevention Initiative project. This project previously served approximately 1,000 youth annually. Approval of this BA-7 will allow the project to target approximately 10,000 youth and young adults ages 10 to 24 over the 3-year grant period. These are individuals who lived in the hurricane impacted parishes of St. Bernard, Plaquemine, Jefferson, Orleans, Calcasieu, Cameron, Vermillion, and evacuees who live in FEMA-housing trailer sites in East Baton Rouge. The agency will provide these services in collaboration with the Department of Education, Department of Social Services, and DHH Offices of Public Health and Addictive Disorders. The agency will also partner with public and private entities such as the B.R. Crisis Intervention Center, Big Buddy Program, the YWCA of Greater Baton Rouge, and TeenScreen.

The funding will be allocated to the following expenditures: Other Compensation (\$95,360), Travel (\$25,624), Professional Services (\$204,730), Supplies (\$9,540) and Other Charges (\$64,746). Other Compensation includes funding for a part-time Project Coordinator position and a full-time Executive Management Assistant position.

II. IMPACT ON FUTURE FISCAL YEARS

The Office of Mental Health was awarded a total of \$1.2 M for 3 years. The agency will received the grant in increments of \$400,000 for FY 07, FY 08, and FY 09. The time period for the grant is 9/30/06 through 9/30/09.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$13,500,418</u>	Total	<u>\$13,500,418</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$13,500,418 in the Metropolitan Human Services District. The source of funds is Social Services Block Grant (SSBG) monies transferred from the Department of Health & Hospitals, Office of the Secretary - Bureau of Primary Care & Rural Health for primary, preventive, and behavioral health services.

These funds were appropriated by the legislature in DHH, Office of the Secretary for primary care services during the 2006 Regular Legislative Session. According to DHH, this grant will support the restoration and development of primary care services in New Orleans. Specifically, the MHSD will contract with appropriately licensed or authorized subcontractors that will provide both ambulatory primary, preventive and behavioral health services to residents in the greater New Orleans area provided up to 7/31/07. A list of sub contractors/providers is represented below.

Sub-contractor /health services provider

Daughters of Charity Services of New Orleans - (health centers in Metairie, Bywater, and Carrollton-Uptown)
Excelth, Inc. - (health centers and mobile clinics in Baton Rouge, New Orleans, and New Orleans east)
Jefferson Community Health Center - (health centers at Avondale and Marrero)
LSU Health Sciences Center - (school based health centers, and MCLNO hutchinson clinics)
New Orleans Health Department (health clinic in Algiers, St Bernard, and mobile health clinics)
St Charles Community Health Center
St Thomas Community Health Center
Tulane Health Sciences Center - (adolescent and adult clinic services at Covenant House)
LA Public Health Institute - (Fiscal Intermediary services provided to the MHSD - monitoring sub contracts)

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. DHH anticipates that all grant funds will be spent within the current fiscal year (FY 07).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST**

Original: Not Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 27

AGENCY: Florida Parishes Human Services Authority

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Florida Parishes Human Services Authority	\$214,507	0
Interagency Transfers:	\$40,340			
Self-Generated Revenue:	\$174,167			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$214,507</u>	Total	<u>\$214,507</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$40,340 and SGR budget authority by \$174,167 in the Florida Parishes Human Services Authority (FPHSA). The source of SGR is revenue from the 22nd Judicial District Court. The source of IAT funds is SGF transferred from the Office for Citizens with Developmental Disabilities (OCDD) for vocational services contracts and Statutory Dedication funds transferred from Office for Addictive Disorders (OAD) for gambling disorder counseling.

SGR - The FPHSA is entering into a Memorandum of Understanding with the 22nd Judicial District Court to provide drug treatment services at the Northlake Addictive Disorders Clinic for offenders enrolled in Adult Drug Treatment Court. According to the FPHSA, 4 additional positions (3 counselors and 1 administrative coordinator) will be required to provide the addictive disorder services. The original MOU results in annual revenue of \$174,167 to the FPHSA.

IAT funds - The FPHSA is requesting to increase IAT authority by a net \$40,340. This is the result of 3 separate adjustments as itemized below.

1. The OCDD will reimburse the FPHSD for providing vocational rehabilitation services. According to the FPHSA, this funding arrangement will be for one year only, as DHH is currently implementing/phasing in a waiver program to cover these services under Medicaid. The amount of funds estimated to cover these services during the transition period is \$53,804. Support waiver vocational services includes such activities as Supported Employment (both individual jobs and group employment), Day Habilitation, and pre-vocational services.
2. The OAD will reimburse the FPHSA for a Problem & Compulsive Gambling Resource Awareness Coordinator to provide public awareness services. The amount of the contract is \$43,000.
3. The Office of Mental Health is reducing funding that it transfers to the the FPHSA for mental health services by \$56,464 due to excess authority.

\$53,804 OCDD + \$43,000 OAD + (\$56,464) OMH + \$40,340 Total

Although this measure adds 5 new positions, they are not reflected in the table above due to the authority not having an established T.O.

II. IMPACT ON FUTURE FISCAL YEARS

According to the FPHSA, the fees are anticipated to be recurring, and the Division has indicated that the BA-7 will be annualized for FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7 in an amount lower than submitted. The SGR are recommended at \$155,830 based on the services provided by the FPHSA to the court starting a month later than originally anticipated (starting in October vs September). The total recommended level for this BA-7 is \$196,170 (\$155,830 Fees, \$40,340 IAT).

ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 28A

AGENCY: Capital Area Human Services District

ANALYST: Shawn Hotstream

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Capital Area Human Services District	\$2,244,636	0
Interagency Transfers:	\$2,244,636			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$2,244,636</u>	Total	<u>\$2,244,636</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase IAT budget authority by \$2,244,636 in the Capital Area Human Services District. The source of funds is Social Services Block Grant (SSBG) monies transferred from the Department of Health & Hospitals, Office of the Secretary - Bureau of Primary Care & Rural Health for the provision of primary care services to qualified recipients (evacuees).

These funds were appropriated by the legislature in DHH, Office of the Secretary for primary care services during the 2006 Regular Legislative Session. According to DHH, this adjustment will allow the CAHSD to pay for primary care services in DHH region 2 provided from October 2005 through September 2007. A list of funding allocated by grantee is represented below.

<u>Sub-contractor/health services provider</u>	<u>Amount</u>
Our Lady of the Lake	\$310,743
Southern U. School of Nursing	\$283,347
Eastside Community Health Center	\$147,735
Capital City Community Health Center	\$220,500
St. Helena Community Health Center	\$113,500
Baton Rouge Primary Care Collaborative	\$157,500
Baton Rouge General Hospital	\$160,875
Earl K. Long Medical Center	\$160,875
Office of Public Health, Region 2	\$541,832
Capital Area Human Services District	<u>\$267,100</u> -to perform health screenings, and to monitor other grantees expenditures
Total SSBG	\$2,364,007

The total IAT increase requested in this BA-7 (\$2,244,636) is \$119,371 less than the expenditures itemized above (\$2,364,007) from the grant. This is a result of some other IAT contracts being reduced within the CAHSD existing budget. The net effect is a requested increase in IAT budget authority of \$2,244,636.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. The CAHSD has indicated that all SSBG funds are anticipated to be expended in FY 07. If not, the CAHSD intends to submit a carry forward BA-7 for FY 08 for the balance of unspent funds.

Total	<u>\$541,832</u>	Total	<u>\$541,832</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this companion BA-7 (to 28A) is to increase expenditure authority in the Personal Health Services Program by \$541,832 in IAT means of financing. The source of funds is federal Social Services Block Grant funds being transferred from the Capital Area Human Services District. The funds will be used for primary care services.

According to the Department of Health & Hospitals, the Capital Area Human Services District will contract with OPH, region 2, to provide preventive health services onsite or nearby to those evacuees living in transitional housing. Specific services include general health education, diet and nutrition, high blood pressure, cancer screenings, family planning, prenatal care and immunizations. The funds will be allocated as follows:

Other compensation	\$335,018 - (for 8 job appointments)
Related benefits	\$83,755
Travel	\$5,777 - (in state travel for job appointments)
Supplies	\$109,282 - (patient educational pamphlets and consumable medical supplies)
Acquisitions	<u>\$8,000</u> - (lap top computers, printers, and supplies for various job appointments)
Total	\$541,832

The temporary job appointments are anticipated to be 2 Disease Intervention Specialists (to investigate TB and STD cases), 3 Public Health Nutritionist (of which one will be a certified diabetic educator), 1 Epidemiologist intern (to track and present health data), 1 Public Health Nurse, and 1 Administrative Coordinator 3.

II. IMPACT ON FUTURE FISCAL YEARS

Total	<u>\$1,601,141</u>	Total	<u>\$1,601,141</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase the expenditure authority in the Environmental Health Services Program by \$1,601,141 in federal grant funds. The source of funds is a Centers for Disease Control & Prevention (CDC) grant through the Emergency Supplemental appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery. This funding is intended to provide financial support to local governments to conduct mosquito and other pest abatement during the hurricane and West Nile Virus season.

According to the Department of Health & Hospitals (DHH), this funding will be released to local mosquito abatement districts through contracts with OPH. A grant committee consisting of 2 OPH representatives, including the Medical Entomologist, and a representative of the LA Mosquito Control Association will be established to decide the distribution of funds, to monitor progress, and verify expenditures. Initial distributions by parish are projected as follows:

<u>Parish</u>	<u>Award</u>

ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 30B

AGENCY: Medical Vendor Administration

ANALYST: Brian Crow

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$151,400	Medical Vendor Administration	\$302,800	0
Interagency Transfers:	\$0			
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$0			
Federal Funds:	\$151,400			
Total	<u>\$302,800</u>	Total	<u>\$302,800</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this technical BA-7 (Companion to 30A) is to move funding of \$302,800 (\$151,400 SGF & \$151,400 Fed) from Medical Vendor Payments (MVP) to the Medical Vendor Administration (MVA). The funds were incorrectly placed in MVP during the legislative process and cannot be used for the intended purpose (E-Prescribing Application) in MVP.

Information provided by DHH indicates that the funds will be used to enhance the Medicaid Pharmacy Program through a qualified proposer (determined by RFP) to implement E-Prescribing as follows:

1. Deliver a wireless handheld (approximately 420 devices) drug information application to physicians at the point of care that offers continuous updates of clinical pharmacology drug information;
2. Integrate the Medicaid Preferred Drug List (PDL) with the drug information database and update as specified by DHH;
3. Integrate 100 days of patient specific medication history to allow for immediate utilization review by the physician;
4. Prepare physician offices with the necessary hardware and software to facilitate daily updates of patient history to the handheld devices;
5. Educate physicians to effectively use the database and provide ongoing support for the services; and
6. Implement a totally wireless application using the most secure technology that will assure privacy and security that provides for the electronic transmission of prescriptions (E-Prescribing).

The addition of the funding provided in this BA-7 will bring the total available for the E-Prescribing initiative to approximately \$803,000 (\$500,000 was appropriated to the MVA during the 2006 Regular Session in Act 17). The 420 handheld devices are estimated to cost \$1,800 each, or approximately \$756,000 for all units.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years as these are one-time funds to be used primarily for the purchase of the 420 handheld devices.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO.: 31A

AGENCY: Office of the Secretary

ANALYST: Brian Crow

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$26,250	Management and Finance Program	\$1,916,171	13
Interagency Transfers:	\$0	Grants Program	\$0	0
Self-Generated Revenue:	\$0	Auxiliary Account	\$0	0
Statutory Dedications:	\$375,000			
Federal Funds:	\$1,514,921			
Total	<u>\$1,916,171</u>	Total	<u>\$1,916,171</u>	<u>13</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 (Companion to 31B) is to increase the expenditure authority of the Office of the Secretary by \$1,916,171 (\$26,250 SGF; \$375,000 SD; and \$1,514,921 Fed) and to transfer 13 positions (the BA-7 indicates that 14 positions will be transferred, but 13 is the actual number) from the Office of Public Health (OPH) to allow DHH to transfer the activities for the Chronic Disease program to the Office of the Secretary. The source of the funding is mixed, with \$26,500 SGF provided as match to the federal funds received for the Tobacco program; \$375,000 SD from the LA Fund; and \$1,514,921 in federal matching funds.

According to the Secretary of DHH, the transfer of the Chronic Disease unit from OPH to the OS will allow the Bureau of Primary Care & Rural Health to achieve more efficiencies with federal grant funding. Specific activities being transferred include tobacco cessation, diabetes, heart disease and stroke prevention, and asthma and behavior risk surveillance systems. The expenditures being transferred are based on the projected unexpended amounts effective as of 11/1/06, and are itemized below.

Salaries	\$565,233
Related Benefits	\$183,330
Other compensation	\$16,939
Travel	\$17,467
Operating Services	\$37,605
Supplies	\$27,299
Professional Services	\$11,857
Other Charges	\$576,531
Interagency Transfers	\$477,365
Acquisitions	\$2,545

The 13 positions that are being moved are currently domiciled in New Orleans and Baton Rouge. There are no immediate plans for the New Orleans incumbents to move to Baton Rouge, however, some of their time will be spent in Baton Rouge as they work on Redesign and other community projects. Their function is actually statewide, so routinely should involve some travel. As some of the vacant positions are filled, it is likely that they may be Baton Rouge based.

II. IMPACT ON FUTURE FISCAL YEARS

Approval of this BA-7 will have no impact on future fiscal years. DHH anticipates that all grant funds will be spent within the current fiscal year (FY 07).

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications:	\$0			
Federal Funds:	\$0			
Total	<u>\$38,120,835</u>	Total	<u>\$38,120,835</u>	<u>3</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget funding provided to the state from the U.S. Department of Housing & Urban Community Development Block Grant Program to create sector-based training programs to address the need for trained workers, and to support the recovery and rebuilding of the areas most affected by hurricanes Katrina and Rita. A total of \$38 M has been provided for this purpose. Administrative costs are to be funded separately through the administrative funding allocation of \$139,869,600 which was provided in Amendment No. 1 of the Action Plan for the CDBG Disaster Recovery Funds. A total of \$130,324,362 remains unbudgeted. As these funds will be utilized for the administrative costs of this program, the entire grant allocation will be expended on training programs.

The training programs that will be funded through this grant will be for occupations in six sectors that have been identified as critical for the physical and economic recovery of the state. These sectors include construction, health care, transportation, advanced manufacturing, oil and gas, and the cultural sector. Contracts awarded through this process must cease no later than 36 months after the start date of the contract, or no later than 12/31/09, whichever comes first. The Workforce Commission anticipates awarding the first contracts at the beginning of 2007.

The Workforce Commission will select qualified contractors to provide this training through a competitive selection process. Entities that form alliances, preferably regional alliances, led by a workforce intermediary and including key stakeholders to create sector strategies are eligible to receive contracts. Key stakeholders may include but are not limited to: employers in a specific sector, business groups and/or industry/trade associations, local educational agencies, public and private post-secondary educational institutions, Workforce Investment Boards, labor or community based organizations, other training providers, and other interested parties. The alliance must designate a fiscal agent who is responsible for the fiduciary transactions of the contract and must be either a governmental or educational entity that is a budget unit of the State of Louisiana, a parish or municipal government, or local educational entity, or a non-profit entity with a tax-exempt status.

The Workforce Commission requests an additional three positions for the administration of these grant funds. These positions include a fiscal manager and 2 program managers. The fiscal manager will be responsible for the fiscal and budgetary management of the grant funds, procurement, fiscal reporting, and providing technical assistance to CDBG grantees and service providers. The salary for this position will begin at \$40,000 annually. In addition, 2 program managers will be responsible for programmatic functions, developing methodology for monitoring grantees, implementing methodology and providing technical assistance to the CDBG grantees and service providers. The annual salary for both positions is anticipated to be \$45,000 annually. Total administrative expenses for FY 07 for 8 months is anticipated to be \$120,835 (includes \$112,913 for salaries and related benefits, with the remainder expended on new computers (\$1,200), software (\$500), travel (\$3,000), professional services (\$2,000), and miscellaneous expenses such as telephone, statewide email, etc. (\$1,222).

II. IMPACT ON FUTURE FISCAL YEARS

Expenses for this program will be ongoing through FY 09. Therefore, available balances will be carried forward in each subsequent fiscal year. In addition, annualized administrative costs are estimated to be \$181,322 in FY 08 and \$184,738 in FY 09. Total administrative costs over these three fiscal years is anticipated to be \$486,895.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget a total of \$95,697,183 from the FEMA Reimbursement Fund to the Governor's Office of Homeland Defense and Emergency Preparedness (GOHSEP) to provide the necessary funds to make the required state match payment (25%) under FEMA's Individuals and Household Program and the Other Needs Assistance Program. The FEMA Reimbursement Fund was originally created by Act 640 of the 2006 Regular Legislative Session. Act 642 of the 2006 Regular Legislative Session appropriated a total of \$428,099,140 to that same fund. This request will be added to the amount currently budgeted in the GOHSEP budget for this purpose (\$284,293,450) to make the required payment to FEMA. The total payment required to be paid to FEMA is \$379,990,633. No payments have been made to date for the state's share of costs. Of the total amount owed to FEMA, \$354,382,919.30 is attributable to Hurricane Katrina and the remaining \$25,607,713.49 is attributable to Hurricane Rita.

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to budget federal funds from the U.S. Department of Housing & Urban Development-Supplemental Community Block Grant for Disaster Recovery. These funds will be transferred to the Workforce Commission (BA-7 #32) for the cost of administering the \$38 M grant which will be used to address the need for trained workers in the most affected hurricane-impacted parishes. The source of these funds is from a total allocation provided in Amendment No. 1 of the Action Plan for the CDBG Disaster Recovery Funds. This allocation of \$139,869,600 has an unbudgeted total of \$130,324,362 from which this funding will be drawn. The total amount of administrative costs anticipated for the Workforce Commission through FY 09 is anticipated to be \$486,895 which equates to 1.3% of the total grant award.

II. IMPACT ON FUTURE FISCAL YEARS

Total costs for through FY 09 are anticipated to be \$486,895, which includes \$120,835 for FY 07, \$181,322 for FY 08, and \$184,738 for FY 09. The same source of funds is anticipated for the administrative costs for both FY 08 and 09.

AGENDA NO.: 35

AGENCY: State Sales Tax Dedication

ANALYST: Charley Rome

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T. O.</u>
State General Fund:	\$0	Alexandria/Pineville Exhibition Hall Fund	\$155,000	0
Interagency Transfers:	\$0	Alexandria/Pineville Area Tourism Fund	\$125,000	0
Self-Generated Revenue:	\$0			
Statutory Dedications:	\$280,000			
Federal Funds:	\$0			
Total	<u>\$280,000</u>	Total	<u>\$280,000</u>	<u>0</u>

I. SUMMARY/COMMENTS

The purpose of this BA-7 is to increase Statutory Dedicated funds by \$280,000 to fund the Alexandria/Pineville Exhibition Hall Fund (\$155,000) and the Alexandria/Pineville Area Tourism Fund (\$125,000). Both items represent state sales taxes collected on hotel-motel rentals in Alexandria and Pineville. These items were erroneously removed from the General Appropriations bill by Amendment No. 683 adopted by the House Appropriations Committee on 5/22/06.

The Alexandria/Pineville Exhibition Hall Fund's authority is defined under L.R.S. 33:4574.7(K). Monies can be used for "planning, designing, purchasing, or preparing for the purchase of land, and otherwise preparing for the construction, and for the construction, operation, and maintenance of an exhibition hall". The Alexandria/Pineville Area Tourism Fund is defined under L.R.S. 47:302.30, 322.32. Monies can be used for economic development purposes in Rapides Parish and for tourism promotion in Rapides Parish by the Alexandria/Pineville Area Convention & Visitors Bureau.

According to the Department of Treasury, both funds have adequate balances for the requested appropriation amounts. Specifically, the Exhibit Hall's Fund had a balance of \$48,136 as of 8/15/06. Revenues to the Fund in FY 06 were \$203,136. As such, the requested appropriation amount of \$155,000 is well within the resources available in FY 07. Furthermore, the Tourism Fund had a balance of \$75,268 as of 8/15/06. Revenues to the Fund in FY 06 were \$181,151. As such, the requested appropriation amount of \$125,000 is well within the resources available in FY 07.

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST
Approved By JLCB**

DEPARTMENT: Public Safety

AGENDA NO: 1

AGENCY: Office of State Police

ANALYST: Jay Eckert

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T.O.</u>
State General Fund	\$0	Traffic	\$1,631,143	0
Interagency Transfers	\$0	Criminal	\$0	
Self-Generated Revenue	\$285,205	Operational	\$0	
Statutory Dedications	\$0	Gaming	\$0	
Federal Funds	<u>\$1,345,938</u>	Auxillary	<u>\$0</u>	
Total	\$1,631,143	Total	\$1,631,143	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget \$285,205 in SGR and \$1,345,938 in federal funds from the Department of Transportation, Motor Carrier Safety Assistance Program (MCSAP) through 3 separate grants to the Office of State Police. The state will be required to match 20% of the funding from 2 of the 3 grants, which total \$305,477 (\$285,205 in FY 07 and \$20,272 in FY 08).

MH-06-22-1

The first grant provides for new vehicles and for increased surveillance on the interstate highways between Baton Rouge and New Orleans. The grant total is \$1,420,383, of which 20% or \$284,077 will be matched by the state. \$918,313 of these funds are to replace 25 high mileage vehicles used by the Weights and Standards Section. These vehicles will be replaced with 2006 Chevrolet Tahoe Police vehicles.

\$502,070 (\$400,710 for FY 07 and \$101,360 for FY 08) will fund the overtime initiative provided specifically to address increased traffic volume and crash rates on I-10 between Baton Rouge and New Orleans, I-12 between Baton Rouge and Hammond, and the I-55 corridor between I-10 and I-12. The initiative would employ unconventional surveillance techniques such as aircraft, or semi or unmarked police units to engage violators. This overtime initiative should produce 10,000 additional inspections above the previous amount stated in the FY 07 performance indicators resulting in an increase of approximately \$370,000 of self-generated revenue to the Department of Public Safety. The revenues generated through the overtime initiative will be used for the state's match of this grant. Any funds collected over the match will revert to the SGF. (\$918,313 + 502,070 = 1,420,383)

MH-06-22-2

\$107,000 (\$84,600 federal share and \$21,400 state share) will fund the provisions of Act 841 (HB 1204) passed during the 2006 Regular Session. Act 841 mandates the Department of Public Safety, Motor Carrier Safety Assistance Program, to have the capability to electronically capture and transfer roadside inspection data by January 2007.

September 19, 2006

MN-06-22-1

\$280,437 (\$205,120 for FY 07 and \$75,317 for FY 08) will supplement 2 existing New Entrant Safety Audit Program grants that are nearing completion. This will ensure that the Office of State Police will have the funds necessary to meet a federal mandate to conduct new entrant safety audits on LA based interstate carriers. If the state fails this obligation, the affected carriers will have their authority to operate in interstate commerce revoked by the Federal Motor Carrier Safety Administration. There is no state match required for these funds.

II. IMPACT ON FUTURE FISCAL YEARS:

The remainder of the grant will be budgeted in FY 08. The grant awarded provides federal funding of \$156,405 in FY 08. The state match for FY 08 is \$20,272.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

**LEGISLATIVE FISCAL OFFICE

Interagency Transfers	\$0			
Self-Generated Revenue	\$1,400,000			
Statutory Dedications	\$0			
Federal Funds	<u>\$0</u>			
Total	\$1,400,000	Total	\$1,400,000	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget an additional \$1.4 M in SGR to the Office of Motor Vehicles within the Department of Public Safety. These funds are generated through various transactions related to drivers' licenses and motor vehicles in the state of LA. Collections are projected to be \$2.4 M over the amount that was budgeted because of increased transactions due to the hurricanes. The existing budget authority for license plates is \$1.2 M.

This funding will address increased operating costs facing the Office of Motor Vehicles related to a shortage of license plates and the rising costs of sheet metal. Additional plates are needed due to an increasing number of specialty plates to maintain inventory and prior years' plate surplus have been depleted due to the hurricanes. Approval of this BA-7 will allow the Office of Motor Vehicles to maintain an adequate supply of license plates.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 will require additional SGR to be appropriated in subsequent fiscal years. Annualization of the funding necessary to maintain an adequate supply of license plates will be \$700,000 in FY 08 and subsequent years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications	\$0			
Federal Funds	<u>\$0</u>			
Total	\$15,000	Total	\$15,000	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase SGR budget authority in order to receive grant funding pursuant to a Cooperative Endeavor Agreement between Keep LA Beautiful, Inc. and the Department of Wildlife & Fisheries Enforcement Program. The purpose of the agreement is to increase gross littering enforcement activities and investigations by providing overtime funding for law enforcement personnel.

Revenues are being received from funds obtained by the Keep LA Beautiful, Inc., a 501(c)3 nonprofit organization. The Department will invoice work (approximately 550 man hours) to the organization in accordance with the agreement in the amount of \$15,000. The in-kind match requirement will be met by documenting regular litter enforcement hours worked and expenses incurred throughout the state associated with normal littering enforcement patrol effort consistent with the Department's enforcement mission.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 will have no significant impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

Self-Generated Revenue	\$0	Marketing	<u>\$0</u>	<u>0</u>
Statutory Dedications	\$0			
Federal Funds	<u>\$1,320,008</u>			
Total	\$1,320,008	Total	\$1,320,008	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget \$1,320,008 of federal funds into the Enforcement Division of the Office of the Secretary. Pursuant to a Joint Enforcement Agreement, the federal funds were earmarked for cooperative enforcement endeavors between the U.S. Department of Commerce, National Oceanic Atmospheric Administration (NOAA), Office of Law Enforcement and the State of LA. The Joint Enforcement Agreement is to facilitate the operations, administration and funding of the LA Department of Wildlife and Fisheries' Enforcement Division to enforce Federal laws and regulations under the Magnuson-Stevens Fishery Conservation and Management Act and the Lacey Act. These funds will enable the State of LA to aid the Federal Government in fishery conservation and management activities. The NOAA has the authority under these 2 Acts to utilize the personnel, services, equipment, and facilities of state agencies on a reimbursable basis or otherwise.

The Department of Wildlife & Fisheries will use the funds for overtime hours paid, repairs to equipment, fuel, oil, and acquisitions. The funds will be budgeted as follows: salaries-overtime (\$723,522), related benefits (\$10,491), travel (\$10,000), operating services (\$75,000), supplies (\$200,000), professional services (\$50,000), acquisitions (\$240,995) and major repairs (\$10,000). Specifically, the Department will purchase 2 replacement Outboard motors, 4 Outboard motors, 2 mid range patrol vessel boats and trailers, 2 radar/GPS/plotters and 3 patrol vehicles. It is anticipated that the Enforcement Division will work a total of 11,174 of man-hours of overtime. These figures were calculated as described in the Joint Enforcement Agreement.

No matching requirements are necessary from the State.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 will have no significant impact on future fiscal years.

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget statutorily dedicated funds from the Crab Promotion and Marketing Account in order for the Seafood Promotion and Marketing Board to conduct a "Crab Education Day" as a marketing strategy.

The Crab Promotion and Marketing Account was created by Act 172 of 2005 for the creation of marketing strategies for the development and market expansion for crabs harvested in LA waters. Monies from the account are generated by a fee on commercial crab trap gear licenses. Expenditures will include the following:

Operating Services - \$1,500 (advertising and rentals for the Crab Education Day)
Supplies - \$3,500 (refreshments and supplies needed to host the event)
Total - \$5,000

The current fund balance is approximately \$17,000.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 will have no significant impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

Total	\$5,367,952	Total	\$5,367,952	31

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget \$5,367,952 in federal funds in the current fiscal year from the U.S. Department of Agriculture Forest Service through 2 grants to the Office of Forestry. One grant will be funded entirely by federal funds with the other grant requiring a 50% state match.

\$5.289 M (\$4 M in FY 07 and \$1,289,000 in FY 08) will be provided to State Fire Assistance for fire protection in areas impacted by the hurricanes. \$1 M will be used to fund 30 additional Forestry Crew Specialists needed to effectively respond to the increased risk of wildfires. One Accountant 2 will also be needed to complete and monitor all documentation. \$3 M will be used for Personal Protective Equipment to outfit the firefighters, firefighting tools, four heavy bull dozers with specialized blades, specialized trucks and trailers to transport the bull dozers to the fires, and 4 specialized fire engines capable of supplying water, foam, and fire retardant application to wildfires.

\$297,500 (\$100,000 in FY 07 and \$197,500 in FY 08) will be provided to Forest Health to assess and monitor insect and disease impacts to hurricane affected forestland, develop and apply treatment practices as necessary, obtain enhanced Geographical Information System related equipment to track and analyze insect and disease activity.

\$1.385 M (\$250,000 in FY 07 and \$1.135 M in FY 08) will be provided to Urban & Community Forestry Assistance as sub-grants to communities and non-profits who will likely be contracted in the current fiscal year.

\$1.129 M (\$500,000 in FY 07 and \$629,000 in FY 08) will be provided the Forest Stewardship Program to provide technical assistance to forest landowners, publications and programs to educate forest landowners on hurricane relief and mitigation options.

September 19, 2006

\$517,952 will be provided to Volunteer Fire Assistance to solicit applications from Volunteer Fire Departments in affected areas. The 50% matching funds for this grant will be provided "in kind" by local fire departments receiving supplemental funds.

II. IMPACT ON FUTURE FISCAL YEARS:

The remainder of the grants, \$3,250,500, will be appropriated for FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

Total	\$2,345,000	Total	\$2,345,000	0

I. SUMMARY/COMMENTS:

DEQ is requesting to budget \$2.345 M in additional federal grant funds to be used for air quality monitoring and assessment activities that are in support of or attributable to hurricane recovery related efforts. The EPA grant is authorized by Public Law 109-234, Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery 2006; and EPA must make the award of the funds to the state in this fiscal year. The grant requires no state match. DEQ intends to expend the funds for Operating Services, Professional Services and Acquisitions related to operation, maintenance and upgrade of its air monitoring network.

Expenditures on Operating Services (\$1.255 M) will be used for air monitoring sites maintenance, operation, and audit, and would include the extension of a current EPA contract for operation of some portable particulate monitors in the New Orleans area. Expenditures for Professional Services (\$190,000) will be used to contract for the development of a consolidated on-line air database. Expenditures for Acquisitions (\$900,000) would include the purchase of \$340,000 in replacement equipment to enhance/upgrade equipment to convert 4 existing sites (Chalmette High School, Vista, and Entergy in Chalmette, and Kenner) from trigger canisters to trigger gas chromatograph units that will provide more timely information relative to the concentration of toxic air pollutants, \$440,000 in equipment for 2 new air monitoring sites (Mereaux in St. Bernard Parish and the Northshore of Lake Pontchartrain), and \$120,000 for purchase of 5 replacement vehicles for air monitoring site maintenance and operation. The new air monitoring site in Mereaux is to assist in characterization of the sources and levels of air pollutants in the area and the site on the Northshore of Lake Pontchartrain is to be used to address population shifts as a result of Hurricane Katrina.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 is expected to have no significant impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

I. SUMMARY/COMMENTS:

DEQ is requesting to budget \$250,000 in additional federal grant funds to be used to develop an Environmental Results Program (ERP) for the oil and gas production sector under EPA's Innovation Program. This project is intended to reduce the permitting burden while providing regulatory flexibility and improving the environmental stewardship of participants. Through this ERP project, DEQ will replace the traditional permitting process and incorporate the air and water requirements for the oil and gas industry by consolidating all the permitting and regulatory requirements into a multi-media, self-certification compliance assistance program. DEQ has indicated that through implementation of on-line permitting applications, internal and external stakeholders will realize improved data quality, increased data accessibility, and reduced administrative burden in their business process. The need for paper submissions of permit applications will be eliminated and thus reduce the effort and expense associated with document handling and data processing. The creation of a data exchange between DEQ and the Department of Natural Resources (DNR) will identify all oil and gas production facilities in the state and reduce effort spent on data maintenance and improvements. No state match is required for receipt of this grant.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 is expected to have no significant impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

I. SUMMARY/COMMENTS:

DEQ is requesting to budget an additional \$5 M in Statutory Dedicated Waste Tire Management Funds to pay projected processor payments in FY 07. In FY 06 the department was budgeted \$8,530,435 for the waste tire processor payments and paid monthly reports through April 2006, totaling \$8,523,534 for the fiscal year. DEQ was unable to process \$1,824,285 in FY 06 for the May and June 2006 processor payments due to budget constraints from the KBB-2005-82 budget cut (\$489,315) and higher than expected processor requests (\$1.3 M). Based on the average monthly processor requests anticipated in FY 07 (\$1.03 M) together with the May and June 2006 processor requests paid in the current fiscal year, DEQ projects the FY 07 processor requests to total \$14 M. The current FY 07 budget for processor payments is \$9 M. The Waste Tire Management Fund beginning FY 07 balance was \$2,896,997. These funds together with FY 07 projected fee collections of \$12,360 M and projected interest earnings of approximately \$60,000 are anticipated to make available \$15.3 M in the current year for the projected processor payments of \$14 M and budgeted administrative expenses of \$736,386.

II. IMPACT ON FUTURE FISCAL YEARS:

There will be no impact on future fiscal years. DEQ attempts to pay waste tire processors with funds available in the Waste Tire Management Fund on an ongoing basis.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

DEPARTMENT: Social Services

AGENDA NO: 10

AGENCY: Office of Community Services

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T.O.</u>
State General Fund	\$0	Admin. & Executive Support	\$0	0
Interagency Transfers	\$0	Child Welfare Services	<u>\$5,490,000</u>	<u>0</u>
Self-Generated Revenue	\$0			
Statutory Dedications	\$0			
Federal Funds	<u>\$5,490,000</u>			
Total	\$5,490,000	Total	\$5,490,000	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase the federal budget authority by \$5.49 M in the Office of Community Services, Child Welfare Program. The source of funding is a Title IV-E grant received from the Department of Health & Human Resources, Foster Care Program. The funds will be transferred via Interagency Transfers to the Department of Public Safety & Corrections, Office of Youth Development (OYD). This funding is already included in the FY 07 appropriation for OYD, therefore there is no companion BA-7 for that agency.

The funding will be used by OYD for the cost of caring for delinquent youth housed in residential treatment facilities and for court prevention and diversion efforts that keep youth out of costly secure care. This funding will also allow OYD to increase the existing slots in non-residential and residential programs. At this time the agency cannot determine the number of increased slots but they have allocated \$2 M of this funding for courts to participate.

II. IMPACT ON FUTURE FISCAL YEARS:

This funding will be included in the base budget for OYD in future fiscal years. The amount the agency can receive is contingent upon the number of youth in the program that qualify for Title IV-E funding.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

Interagency Transfers	\$0	Quality Educators	\$0	0
Self-Generated Revenue	\$0	Classroom Technology	\$0	0
Statutory Dedications	\$0	School Accountability & Imp	\$0	0
Federal Funds	<u>\$79,514,290</u>	Adult Education	\$0	0
		School & Community Supp	<u>\$79,514,290</u>	<u>0</u>
Total	\$79,514,290	Total	\$79,514,290	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget \$79,514,290 in Federal Funds from the U. S. Department of Education Emergency Impact Aid for Displaced Students Program. These funds are a one-time emergency grant to be used by both public and nonpublic schools to assist with expenses of educating students displaced by Hurricanes Katrina and Rita during the 2005-2006 school year.

The total estimated amount available to LA from the U.S. Department of Education Emergency Impact Aid for Displaced Students Program during FY 06 was \$186,693,287.50 for public school students and \$26,118,540.59 for nonpublic school students for a total of \$212,811,828.09. Of that total amount, \$132,082,412 was expended during FY 06. Congress has made an additional \$79.5 M available to the LA Department of Education (LDE) for this program, and will allow these and any remaining funds from FY 06 to be expended by 9/30/06. The LDE anticipates that a total of \$250,820,113 will be needed for public schools and \$28,533,970 will be needed for nonpublic schools for a total of \$279,354,083 for the whole program. An in-house BA-7 will be prepared to adjust for the residual budget authority needed to carryforward and spend the remaining funds from FY 06.

A displaced student is defined as a student who resided in, and was enrolled in or eligible to enroll in a school in an area for which the federal government declared a major disaster related to Hurricane Katrina or Rita and enrolled in a different school as a result of the storm. A displaced student must have been enrolled in a different school on the any of the following dates as a result of the storms: 10/3/05, D12/1/05, 2/1/06 and 4/1/06. The federal government is providing \$1,500 per quarter for a displaced regular education student up to a total of \$6,000, and \$1,875 per quarter for displaced special education students up to a total of \$7,500. Payments for nonpublic students may not exceed these amounts or the cost of tuition and fees at the nonpublic school for the 2005-2006 school year. Nonpublic school students eligible to receive funds will receive funds through an account set up on behalf of the student from the local education agency where the nonpublic school is located.

September 19, 2006

All funds must be expended by 9/30/06, and can only be used for expenditures that occurred in the 2005-2006 school year. The funds may be used for 1) paying the compensation of personnel, including teacher aides; 2) identifying and acquiring curricular material and classroom supplies; 3) acquiring or leasing mobile educational units or leasing sites and spaces; 4) providing basic instructional services for displaced students including tutoring, mentoring, or academic counseling; 5) paying reasonable transportation costs; 6) providing health and counseling services; and 7) providing education and support services.

II. IMPACT ON FUTURE FISCAL YEARS:

There will be no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

		School & Community Supp	<u>\$0</u>	<u>0</u>
Total	\$1,883,294	Total	\$1,883,294	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget \$1,883,294 in Statutory Dedications from the Education Excellence Fund into the Disadvantaged and Disabled Student Support Program to be dispersed to schools according to Article VII, Section 10.8(C)(3) of the Constitution of LA, which specifies the distribution of the Education Excellence Fund. The amount requested in this BA-7 is the increased amount available from the fund per the Revenue Estimating Conference meeting of 5/16/06. The funds requested were previously appropriated in HB 1 of the 2006 Regular Session to be allocated solely to the charter schools. The appropriation did not consider any distribution to school districts. The Governor vetoed this appropriation stating that providing the funding solely to the charter schools would be in conflict with the Constitution of LA.

Education Excellence Funds are restricted to expenditures for prekindergarten through twelfth grade instructional enhancements for students. This includes early childhood education programs focused on enhancing the preparation of at-risk children for school, remedial instruction and assistance to children who fail to achieve the required scores on any tests, passage of which are required pursuant to state law or rule for advancement to a succeeding grade, or other educational programs approved by the legislature. Expenditures for maintenance or renovation of buildings, capital improvements, and increases in employee salaries are prohibited. The state superintendent of education shall be responsible for receiving and allocating all money due private schools.

II. IMPACT ON FUTURE FISCAL YEARS:

There will be no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

DEPARTMENT: Economic Development

AGENDA NO.: 13

AGENCY: Office of Business Development

ANALYST: Charley Rome

Means of Financing		Expenditures by Program	T.O.
State General Fund	\$0	Business Development	\$500,000 0
Interagency Transfers	\$0	Business Incentives	<u>\$0</u> <u>0</u>
Self-Generated Revenue	\$0		
Statutory Dedications	\$0		
Federal	<u>\$500,000</u>		
Total	\$500,000	Total	\$500,000 0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase Federal Funds by \$500,000 to supplement funds provided last year by the Federal Economic Development Administration (EDA). The Joint Legislative Committee on the Budget, at its meeting on 10/14/05, approved \$4 M in Federal EDA funds to provide economic development assistance to Louisiana in the aftermath of Hurricanes Katrina and Rita. Receipt of these funds does not require a matching component from the State of Louisiana.

This additional \$500,000 will supplement previous funding for Technical Assistance/Capacity Building to displaced regional planning districts and Economic Development Organizations (EDOs). Specifically, DED will use these additional funds to extend operations of 6 business-counseling centers statewide. The counseling centers are located in Baton Rouge, Thibodaux, Covington, Lake Charles, New Orleans, and Kenner. Previous funding for these centers expires between November 2006 and January 2007. This additional funding will allow these centers to operate through the end of FY 07.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 will have no significant impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

Self-Generated Revenue	\$0			
Statutory Dedications	\$0			
Federal	<u>\$0</u>			
Total	\$15,000	Total	\$15,000	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase interagency transfer funds by \$15,000 to provide technical assistance to small and minority owned businesses through entrepreneurial training programs. The original source of these funds is Federal Funds awarded to Southern University from the Department of Housing & Urban Development. Receipt of these funds does not require a matching component from the State of LA.

Southern University is contracting with the Department of Economic Development (DED) to provide these entrepreneurial training programs. Specifically, DED will help these small and minority businesses address the following:

1. Define their organization
2. Legal concerns
3. Market definition
4. Costs of production
5. Advertising
6. Customer service
7. Product quality
8. Facilities
9. Financial and information systems
10. Distribution
11. Debt financing
12. Business plans

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 will have no significant impact on future fiscal years.

Statutory Dedications	\$0			
Federal Funds	<u>\$0</u>			
Total	\$22,447	Total	\$22,447	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to provide a mechanism to receive funding from DHH for building services and utilities expenses incurred in July 07. DHH was originally anticipated to be vacating the DOTD east annex wing prior to the beginning of FY 07 and therefore, this transfer of funding was not provided for in the FY 07 budget. DHH did not vacate until mid-July, which has resulted in a need to provide this transfer of funds from DHH to DOTD. DOTD notes that these funds will be expended on travel by the DOTD secretary, much of which is to Washington D.C. in association with hurricane recovery.

II. IMPACT ON FUTURE FISCAL YEARS:

This BA-7 will have no impact on future fiscal years.

Statutory Dedications	\$110,077
Federal Funds	\$0

Expenditures by Program

Administration	<u>\$110,077</u>	<u>0</u>
----------------	------------------	----------

T.O.

Total	\$110,077	Total	\$110,077	0
--------------	------------------	--------------	------------------	----------

I. SUMMARY/COMMENTS:

The agency is requesting approval to add \$110,077 statutory dedications from the Municipal Fire & Police Civil Service Operating Fund. The funding requested is to provide post-hurricane recovery for local fire and police civil service boards, and to assist fire and police departments in their recruitment efforts. Specifically, the requested funding will be utilized to provide for expenses associated with enactment of Act 493 of 2006 and for restoration of funding that was reduced in the agency's Executive Budget recommendation.

During FY 06, 2 executive orders were issued (KBB 2005-84 and KBB 2006-13) for OSE to respond to the special staffing needs of fire and police departments statewide due to hurricanes Katrina and Rita. The orders authorized OSE to call for and administer entrance firefighter and police officer tests independently without requiring action by the civil service board. These provisions were subsequently enacted into Act 493 of 2006. The agency absorbed the cost during FY 06 to carry out the executive orders; however the agency is requesting funding to continue to provide for post hurricane recovery for local fire and police civil service boards. The agency is requesting \$66,520 to provide for enactment of Act 493. (\$39,856 salaries funding; \$6,312 gasoline and car maintenance; and \$20,360 for automobile acquisition).

The agency is also requesting \$19,000 to provide for replacement of older examinations which it feels cannot be delayed without increasing the state's liability. The agency reports that it was prohibited from replacing at least one of the exams during the previous fiscal years by an executive order that called for a spending freeze due to Hurricane Katrina. The agency's current budget includes \$5,000 for replacement of old tests.

The agency is requesting \$24,549 to provide for the continuation of an on-line recruitment registry utilized by chiefs and potential employees of the fire and police services. The agency states that its existing budget is not sufficient to continue this service beyond the first quarter of the fiscal year. The agency also

September 19, 2006

states that if additional funding is not approved, it will be forced to discontinue this service.

LA R.S. 22:1419 A. (2) provides for the deposit of a percentage of the premiums from all insurers doing business in the state into the Municipal Fire & Police Civil Service Operating Fund. The Treasurer's Office has verified that \$1,576,185 from FY 07 year to date collections has been deposited into the fund. The agency's current budget includes \$1,286,023 from the fund. To date, the agency has \$290,162 unbudgeted revenue, which is more than enough to provide for the expenditures requested in this BA-7.

II. IMPACT ON FUTURE FISCAL YEARS:

With the exception of the \$24,549 to provide for the on-line recruitment registry, most of the funding associated with the post hurricane recovery and replacement of old tests may be non-recurred in the upcoming fiscal year. Any additional funding in future years would depend on the continued testing needs of local governments and the number of outdated tests the agency is able to replace with the recommended funding.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

Although the agency did not mention any critical funding shortages when testifying about its proposed budget before legislative committees during the previous legislative session, the LFO feels that the expenditures requested in this BA-7 are of such importance that the requested funding should be provided.

The Legislative Fiscal Office recommends approval of this BA-7.

Total **\$786,478** **0**

I. SUMMARY/COMMENTS:

The agency is requesting approval to add \$786,478 IAT to its budget. The IAT revenue is from the Office of Emergency Preparedness for FEMA reimbursements due to the catastrophic events of Hurricane Katrina. The requested funding will be utilized to provide for damages at the Registrar of Voters offices in New Orleans and Plaquemines parishes and at warehouses in New Orleans, East Jefferson and Saint Bernard parishes.

The requested revenue will be utilized to provide for the following expenditures:

\$124,248 - reimbursement for salaries paid Secretary of State employees involved in securing, cleaning and moving voting machines and for equipment damaged at the New Orleans Registrar's and warehouse offices;

\$33,084 - to restore voting records at the Plaquemines Registrar's Office;

\$479,907 - to replace 90 voting machines, 1 cartridge reader and 1 computer at the St. Bernard Parish warehouse;

\$149,239 - to replace voting machine parts & supplies and office supplies and equipment damaged at the East Jefferson Parish warehouse.

II. IMPACT ON FUTURE FISCAL YEARS:

The funding requested in this BA-7 is nonrecurring one-time funding.

Total	\$716,232	Total	\$716,232	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget funds through the LA Technology Innovation Fund (LTIF) to complete the web-based Juvenile Offender Information Network that was originally begun in 2003 as part of a grant awarded to the Children's Cabinet. The goal of this system is to enable data sharing among statewide and local juvenile justice agencies. The project was initially approved in October 2003 but full funding was not available which delayed startup. Other delays, including change of administrations and hurricanes, have also delayed the completion of this project. At present, the project is approximately 70% complete and the balance of funding of \$277,102 being requested through this BA-7 will allow for completion of the original project and for implementation by May 2007.

The LA Technology Innovation Council has also recommended an award (8/28/06) of an additional \$124,950 to the Children's Cabinet to enhance this project by developing automated interfaces to link stand alone juvenile justice programs and to develop automated case management systems for child support, mental health, domestic abuse, voluntary transfer of custody, and other minor case types. All of these systems have been paper-based to this point. The new system will be based upon national standards, will reduce redundant data entry, improve accuracy, quality, and timeliness of data and reduce delays in processing. The target for completion is 18 months.

This BA-7 also will provide the LA Technology Council with \$314,180 of funding for consideration of other technology innovation proposals from state entities in FY 07. The total amount of this BA-7 represents the residual cash balance in the LTIF as of 8/28/06.

II. IMPACT ON FUTURE FISCAL YEARS:

Passage of this BA-7 should have no impact on future fiscal years. However, should all funding not be obligated in FY 07, these funds will likely be carried forward for this same purpose in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

Self-Generated Revenue	\$0			
Statutory Dedications	\$807,711			
Federal Funds	\$0			
Total	\$807,711	Total	\$807,711	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to budget funds generated through the Video Draw Poker Device Purse Supplement Fund to the LA State Racing Commission. These funds are provided for the sole purpose of supplementing purses for Louisiana bred horses. Two-thirds of the funds appropriated are provided to racing associations which conduct live thoroughbred horse racing, based on the proportion of the number of thoroughbred race days each association conducted for the preceding calendar year. One-third of the funds appropriated are allocated to the LA Quarterhorse Breeders Association to be used to supplement LA bred quarterhorses.

Distribution of funds is based on the preceding year's collections. A total of \$3,407,142 was collected in FY 06 and a total of \$2,688,505 was appropriated in FY 07, leaving an unappropriated balance of \$718,637. In addition, a carryforward balance exists for FY 05 in the amount of \$89,074. Therefore, the total amount of funds being budgeted in this BA-7 is \$807,711.

II. IMPACT ON FUTURE FISCAL YEARS:

This BA-7 will have no impact on future fiscal years.

Interagency Transfers	\$0			
Self-Generated Revenue	\$0			
Statutory Dedications	\$0			
Federal Funds	<u>\$0</u>			
Total	\$0	Total	\$0	0

I. SUMMARY/COMMENTS:

This is a technical BA-7 which realigns funds that were inadvertently appropriated within the incorrect statutorily dedicated fund. Funding in the amount of \$3 M for the state's match for hazard mitigation and \$500,000 for the legislative audit match were incorrectly budgeted in the State Emergency Response Fund during the previous budget process. This BA-7 will correctly budget these funds in the FEMA Reimbursement Fund.

The \$3 M state match for hazard mitigation represents the state's 25% match requirement on federal dollars. Funding is for personnel and travel-related expenses to administer the program. Total federal funding is \$9 M.

The \$500,000 state match requirement for the Legislative Auditor is for services provided for disaster recovery audits. This is the state's 10% state match. The contract provides for monitoring the application and payment process to ensure compliance with FEMA and state regulations. The total contract is for \$5 M with \$4.5 M being provided by the federal government.

II. IMPACT ON FUTURE FISCAL YEARS:

Passage of this BA-7 will have no impact on future fiscal years.

AGENDA NO: 21

AGENCY: Elderly Affairs

ANALYST: Evan J. Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T.O.</u>
State General Fund	\$0	Administrative	\$0	0
Interagency Transfers	\$150,980	Title III, V, VII, and USDA	\$150,980	0
Self-Generated Revenue	\$0	Action Match	\$0	0
Statutory Dedications	\$0	PCOA	\$0	0
Federal Funds	\$0	Senior Centers	\$0	0
Total	\$150,980	Total	\$150,980	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 (companion to BA-7 #22) is to budget funds provided by DHH through IAT for the purpose of focusing on staffing and workforce issues within nursing homes in the New Orleans area. The source of funds is the Nursing Home Residents' Trust Fund (50%) and Federal Medicaid Funds (50%). This project has 3 major goals: working with providers to help them learn about and implement evidenced based practices associated with attracting and retaining staff, help nursing home staff to address the particular challenges of living and working in and near a recovering city by addressing the needs of the health care workforce, and sharing with all nursing home providers throughout the state lessons learned which should aide in workforce issues across the state.

The proposed expenditures are as follows:

Expenditures	FY 07	FY 08	Total
Consultant Costs	\$67,760	\$50,820	\$118,580
Meeting Costs	\$17,820	\$8,910	\$26,730
Case Management	\$60,000	15,000	\$75,000
Conference calls	\$5,400	\$1,350	\$6,750
Outcomes conferences	\$0	\$22,500	\$22,500
Total Request	\$150,980	\$98,580	\$249,560

These costs include fees for consultant from BNS Consulting from Rhode Island which will provide nursing home management training, resources, and implementation strategies to enhance workforce retention. Four consultants from BNS will provide these services at \$750/day. There will be an associated cost for meeting space and meals for 6 meetings which is shown above.

September 19, 2006

These costs also include the services of a case manager who will be tasked with helping to meet the daily living challenges of the staff in such areas as day care, transportation, health care, shopping, housing, etc. that might become more difficult to manage following the recent hurricanes. Elderly Affairs will contract for these services with the LSU-HCSD.

In addition, conferences will be held in Baton Rouge, Alexandria, and Shreveport to reach the larger audiences of nursing homes throughout the state.

II. IMPACT ON FUTURE FISCAL YEARS:

Total funding to be provided to the Office of Elderly Affairs is \$249,560 over 2 fiscal years. The remaining \$98,580 will be appropriated in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

LEGISLATIVE FISCAL OFFICE

Approved By JLCB

DEPARTMENT: Health & Hospitals

AGENDA NO: 22

AGENCY: Medical Vendor Administration **ANALYST:** Brian Crow

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T.O.</u>
State General Fund	\$0	Administration	<u>\$150,980</u>	0
Interagency Transfers	\$0			
Self-Generated Revenue	\$0			
Statutory Dedications	\$75,490			
Federal Funds	<u>\$75,490</u>			
Total	\$150,980	Total	\$150,980	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 (Companion to 21) is to increase the expenditure authority of Medical Vendor Administration by \$150,980 (\$75,490 SD & \$75,490 Fed). The source of the state matching funds is Statutory Dedications from the Nursing Home Residents' Trust Fund.

Information provided by DHH indicates that the funds added by this BA-7 will enable the department to transfer funds to the Governor's Office of Elderly Affairs (GOEA), to provide assistance to Nursing Home providers in the New Orleans area relative to staffing and workforce issues caused by Hurricane Katrina. See BA-7 21 for details.

II. IMPACT ON FUTURE FISCAL YEARS:

Total funding to be provided to the GOEA is \$249,560 over 2 fiscal years. The remaining \$98,580 will be appropriated in FY 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

		Ruston DC	\$0	0
		Southwest DC	\$0	0
		Auxiliary	<u>\$0</u>	<u>0</u>
Total	\$0	Total	\$0	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to transfer 20 positions to the Community-Based Program from Hammond Developmental Center (10) and Pinecrest Developmental Center (10). During the FY 07 budget process, 20 positions and the respective funding was cut from the agency's budget. The funding for these positions was restored to the program but the positions were inadvertently left out. In lieu of asking for 20 new positions, the agency determined that there were vacant, unfilled, and unfunded positions in the Hammond and Pinecrest Developmental Centers that were not needed and could be transferred to the Community-Based Program. These positions are needed in this program to provide the staffing necessary to assure that adequate support is in place for individuals residing or moving into community settings.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 is expected to have no impact on future fiscal years.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

		Ruston DC	\$0	0
		Southwest DC	\$0	0
		Auxiliary	<u>\$0</u>	<u>0</u>
Total	\$0	Total	\$0	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to transfer 170 positions back to Metropolitan Developmental Center (MDC). These positions will be transferred from Hammond Developmental Center (85) and Pinecrest Developmental Center (85). In the initial FY 07 budget request, MDC was slated for closure. Most of the funding and positions for this program was moved to other developmental centers. During the budget process, some funding was restored to MDC to provide community-based option services but positions were not restored at that time because the agency had not developed a plan for converting the facility to community service units. The agency has now developed a plan and has determined that they will need 170 positions transferred back to MDC to support the individuals that have chosen or will choose the community options that will be supported by MDC and Peltier-Lawless.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 is expected to have no impact on future fiscal years.

Commercial	<u>\$0</u>	<u>0</u>

Total **\$13,504,886** **0**

I. SUMMARY/COMMENTS:

The agency is requesting approval to add \$13,504,886 Statutory Dedications from the Help LA Vote Fund (HAVA) to its budget. The requested funding is the remaining balance in the HAVA accounts that was not expended/encumbered during the previous fiscal year.

Although it did not identify specific expenditures, the agency states that the requested funding will be utilized for the following projects: (1) statewide voter registration system upgrading; (2) outreach and educational programs on voter registration and voting; (3) election administration; (4) outreach and educational program for individuals with disabilities and residents of nursing homes; and (5) making polling places in LA accessible. The agency has indicated that these projects are roughly estimated to cost \$15.5 M (see attachment of HAVA proposed budget); however, the actual cost may be less than preliminary estimates when competitive bids are received. The agency intends to expend the monies available through this BA-7 to accomplish the projects in the priority as specified on the attachment.

II. IMPACT ON FUTURE FISCAL YEARS:

The funding requested in this BA-7 is nonrecurring one-time funding.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

August 11, 2006

HAVA Proposed Budget		
Title	Description	Estimated Cost
Scanning Project - Phase I	Install hardware and software including high capacity scanners in all 64 parishes, complete the imaging of voter registration records and provide for on-line storage and retrieval of records	750,000
Scanning Project - Phase II	Integration of scanned images into ERIN system so that images are available through voter registration system, extension of imaging system to include reports and other paper documents maintained by the registrars	150,000
ERIN Phase II	Integration of existing LASOS Elections System into ERIN, includes candidate qualifying, ballots, elections results, commissions	1,000,000
ERIN Phase III	Elections data warehouse - develop a warehouse of data for statistical information on elections, developing more sophisticated election night viewer and providing for broadcasting via RSS feeds	750,000
Geographic Information System	Map voter registration data and provide more effective means to redistrict and provide statistical data based on geographical information	700,000
Intelligent Character Recognition Program/Process	Implement software that reads typed or handwritten forms, convert to text and upload to the ERIN system, minimizes manual data entry	750,000
Web based on-line voter registration	Develop a web based form that allows a user to add, update or change voter registration data by completing an on-line form. The voter will print and sign the form which contains a bar code, uniquely identifying the record. The data will be saved to a database and upon receipt of the document, the registrar will scan the bar code and the system will automatically make the required additions or changes in the ERIN system.	200,000
Interface with OMV	Develop an interface with the Office of Motor Vehicles and streamline the motor voter process. Note: projection includes programming costs for OMV office as well as SOS	300,000
Signature recognition	Implement software that reads signatures on images and compares them to the latest signatures on file for the voter (images previously scanned during the scanning project). This is imperative in conducting absentee voting by mail and to assist in the detection of voter fraud.	500,000
Interface with voting system	Develop an interface to be used with the absentee voting system that will generate the ballot style for a voter and transmit this to the Edge voting system so that the voter gets the correct ballot style. An affidavit number will be transmitted back to the ERIN system and retained in the event of a challenged vote.	200,000
Label Printing	Install hardware and software including scanners in all 64 parishes allowing for the local printing of labels (absentee by mail, finger labels, etc.). Note: requires ERIN system changes in numerous reports to print to a different type of printer	40000
Printing	Improve the printers located in local registrars offices (one large in 64 offices, one small in all offices)	250,000
Web enable commercial request system and estimating	Allow users to enter commercial requests specifications, get an on-line estimate of costs and order lists/labels	80,000
Electronic Poll Book Programming	Creating data extracts for Electronic Poll Books	100,000
Barcode enable poll list	Provide bar code scanners in all parishes to facilitate easier entry of poll lists and modify ERIN system to accept entry	100,000
Inventory barcode system	Development of a barcode system to track voting machine inventory in warehouses throughout the state (note: significant network improvements required)	750,000
Social Security Death Index	Incorporation of SS data as an additional validation of registrants that have died (recommended in HAVA legislation)	20,000
On-Line address & Confirm Processing with USPS	Automate deliverable address confirmation in ERIN system and implement CONFIRM processing (mail tracking) for all absentee mail	50,000
Provisional voting	ERIN enhancements to better track and report provisional ballots	50,000
Recall processing	ERIN enhancements to verify signatures against existing imaged records and to better track and report recall petitions	75,000

**LEGISLATIVE FISCAL OFFICE
ANALYSIS OF BA-7 REQUEST**

Approved By JLCB

DEPARTMENT: Executive

AGENDA NO: 2

AGENCY: Manufactured Housing Comm

ANALYST: Evan J. Brasseaux

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T.O.</u>
State General Fund	\$0	Administrative	\$60,000	0
Interagency Transfers	\$0			
Self-Generated Revenue	\$0			
Statutory Dedications	\$60,000			
Federal Funds	\$0			
Total	\$60,000	Total	\$60,000	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to provide funding to allow the La. Manufactured Housing Commission (LMHC) to enter into a contract for legal services. The LA Department of Justice can no longer provide these services to the LMHC and has caused this agency to seek alternative legal representation. This contract will provide services that include working with the Board's investigator to investigate and conduct disciplinary hearings and assist with enforcement actions and adoption of rules. The LHMC has entered into a contract with Shows, Cali, Berthelot, & Morris, LLP for a period beginning 5/30/06 and ending 6/30/08. No expenses have been incurred on this contract to date but allows for up to \$60,000 in legal costs per fiscal year through FY 08. The source of funding for this contract is additional licensing fees and funds received through additional collections from violations. The LHMC currently has approximately \$250,000 in funds which are not currently budgeted in its operating budget.

II. IMPACT ON FUTURE FISCAL YEARS:

This contract provides for legal expenses of a maximum of \$60,000 for FY 07 and 08.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

DEPARTMENT: Health & Hospitals

AGENDA NO: 3

AGENCY: Office of Mental Health

ANALYST: Myra Lowe

<u>Means of Financing</u>		<u>Expenditures by Program</u>		<u>T.O.</u>
State General Fund	\$0	Administration and Support	\$0	0
Interagency Transfers	\$0	Community Mental Health	<u>\$400,000</u>	0
Self-Generated Revenue	\$0			
Statutory Dedications	\$0			
Federal Funds	<u>\$400,000</u>			
Total	\$400,000	Total	\$400,000	0

I. SUMMARY/COMMENTS:

This BA-7 is a companion to BA-7 #4.

The purpose of this BA-7 is to increase the federal budget authority by \$400,000 in the Community Mental Health Program. The source of funding is a \$1.2 M Jail Diversion Grant received from the Department of Health & Human Services, Substance Abuse & Mental Health Services Administration (SAMHSA).

The SAMHSA Jail Diversion Grant has been awarded for grant period 09/03/05 through 09/30/08. The Joint Legislative Committee on the Budget approved the budgeting for the first year of this 3-year grant or \$400,000 on 12/16/05. Approval of this BA-7 is necessary because the funds were inadvertently left out during the FY 07 Budget Development Process.

Contingent on approval of this BA-7 and BA-7 #4, this grant will be administered through OMH; however, Mental Health Area B will provide the services and will receive the funding from this grant via Interagency Transfer from OMH.

The grant will be used to fund a 3-year Jail Diversion Project in the Lafayette Area. The Office of Mental Health will collaborate with the Office of the Criminal Sheriff at Lafayette Parish Prison and the Community Forensic Services Program in Lafayette to plan and implement a post-booking jail diversion program to divert offenders with mental illness and a co-occurring disorder to community-based services and care. The services provided will include medication management, gender-related trauma services, mental health treatment services, substance abuse treatment services, vocational rehabilitation, living skills, supported housing and other individualized services.

To provide these services, OMH plans to use some existing staff (Project Director and RN Clinical Coordinator) and hire some personnel on restricted appointments (Project Coordinator, Case Manager, Social Worker, and Data Analyst) at a cost of \$283,829 for salaries and related benefits. Other expenditures include travel (\$12,188), supplies and

August 11, 2006

equipment (\$3,940), and contractual services (\$100,043). Contractual services will consist of: LSU Evaluation Team, stipends and vouchers for childcare and transportation, workshops, consultant fees, and computer upgrades.

OMH will provide the in-kind state match (\$122,656) required for these federal funds by utilizing existing expenditures.

II. IMPACT ON FUTURE FISCAL YEARS:

The total grant awarded for this program is \$1.2 M. Funding for this grant will be received in three-year increments of \$400,000. The grant period is from 9/30/05 through 9/30/08. Continued funding of this grant for subsequent future fiscal years is dependent upon the approval of this BA-7.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

Statutory Dedications	\$0			
Federal Funds	<u>\$0</u>			
Total	\$350,000	Total	\$350,000	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase the expenditure authority of the Office of the Secretary by \$350,000 in SGR. The source of the funds is a contract with the Research Triangle Institute (RTI).

Information provided by DHH indicates that the Department of Health & Hospitals has been awarded a contract with the Research Triangle Institute after responding to a Request for Proposal put out by RTI, and has been awarded the contract for FY 07. This BA-7 will allow DHH to receive and expend funds from the RTI for the purpose of participating in a study/project which examines privacy and security policies and best business practices regarding electronic health information exchange in order to permit interoperable health information exchange. According to DHH, 39 other states are involved with the study, and the combined results of these statewide collaborations will be further used to inform and direct state and national information exchange policy.

The SGR will be used primarily for temporary job appointments and professional services. The expenditures are allocated as follows:

Wages - other compensation (\$112,660) and related benefits (\$29,291) funding for temporary job appointments. Job appointments include a) 2 program coordinators who will be responsible for coordinating work groups, a steering committee, and compilation of data for reports, and b) 1 executive secretary to provide administrative support to the project management team.

Professional services contract- \$150,130 for legal consultation services and project management (development and monitoring of overall work plan and directing work of Job Appointments).

Supplies - \$15,630 for computer and general supplies, and \$29,144 for hardware and software (computer printers and software).

August 11, 2006

Travel - \$13,145 – travel to National RTI meeting, various in-state meetings, and reimbursement of travel expenses for steering committee members.

II. IMPACT ON FUTURE FISCAL YEARS:

Approval of this BA-7 will have no impact on future fiscal years, as these funds are one-time and will allow the DHH to participate in the RTI project in FY 07.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.

Federal Funds	<u>\$5,000,000</u>			
Total	\$5,000,000	Total	\$5,000,000	0

I. SUMMARY/COMMENTS:

DEQ is requesting to budget \$5 M in additional federal grant funds for the purpose of evaluation and remediation of hurricane impacted underground storage tank sites. DEQ's prompt response is necessary to avoid additional environmental damage and possible increased remediation costs to the State in the future. The EPA grant is authorized by Public Law 109-234, Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery 2006. The grant requires no state match and is available through 9/30/07. DEQ intends to expend the funds by contracting for both the evaluation/remediation of tank sites and the oversight of the evaluation/remediation work.

II. IMPACT ON FUTURE FISCAL YEARS:

The funding requested in this BA-7 is nonrecurring although additional funds may be available in the future.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

Total	\$147,686	Total	\$147,686	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase IAT budget authority for the Enforcement Program within the Office of the Secretary to receive FEMA reimbursements of expenditures incurred as a result of Hurricanes Katrina. FEMA reimbursements are received as IAT revenue from the LA Office of Homeland Security & Emergency Preparedness (LOHSEP). No state matching funds are required.

FEMA Project Worksheet #2137 covered the purchase of computers and rifles during the disaster, totaling \$291,098. Initially, FEMA approved as eligible only half of these costs. They have since approved the Department's appeal for full reimbursement. This BA-7 includes the initially approved half plus the administrative fee (\$145,549 + \$1,456 admin fee = \$147,005).

FEMA Project Worksheet #1883 covered removal of an Enforcement vessel, which had been pushed onto land by the hurricane. The Department has received \$68,781 from LOHSEP. This amount includes the contractor cost to move the boat (\$68,100) and the administrative fee (\$681). The cost of moving the boat was covered by Risk Management; therefore, the \$68,100 was transferred to them. This BA-7 only includes the \$681 administrative fee.

Costs incurred due to the hurricanes were paid for with Conservation Funds in FY 06. Since the emergency work was covered by the Fund, all planned purchases were prevented during last fiscal year. The receipt of these funds included in this BA-7 will enable the Department to purchase these items during FY 07. The Department intends on purchasing six vehicles at \$24,614 each.

II. IMPACT ON FUTURE FISCAL YEARS:

There will be no impact on future fiscal years.

DEPARTMENT: Revenue

AGENDA NO.: 8

AGENCY: Office of Revenue

ANALYST: Charley Rome

Means of Financing		Expenditures by Program		T.O.
State General Fund	\$0	Tax Collection	\$0	0
Interagency Transfers	\$45,000	Alcohol & Tobacco	\$79,000	0
Self-Generated Revenue	\$0	Charitable Gaming	\$0	0
Statutory Dedications	\$0	Unalloted	<u>\$0</u>	0
Federal	<u>\$34,000</u>			
Total	\$79,000	Total	\$79,000	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase IAT by \$45,000 and increase Federal Funds by \$34,000 for enforcement of underage drinking laws. The Office of Alcohol & Tobacco Control (ATC) will use IAT funds of \$45,000 for the Cops in Shops Underage Alcohol Enforcement Program. Furthermore, ATC will use \$34,000 in Federal funds from the Office of Juvenile Justice & Delinquency Prevention (OJJDP) for underage drinking enforcement. None of the additional monies in this BA-7 require matching funds from the state. These funds were erroneously not included in ATC's budget during the appropriations process. Funding for these same purposes in FY 06 was approved by the JLCB on 5/23/06.

IAT funds come from The LA Highway Safety Commission. The Federal government provides these additional federal funds for this program to the LA Highway Safety Commission to increase enforcement of prevention of underage drinking. The Highway Safety Commission is transferring these funds to ATC. ATC will use the funds to increase the number of enforcement operations statewide. Specifically, ATC will use the funds to pay overtime and related benefits for existing staff participating in the additional enforcement operations. ATC will also use the funds to fuel and repair vehicles, to purchase equipment, and for professional services contracts stressing enforcement, education, and public awareness.

ATC will use additional federal funds of \$34,000 for other enforcement efforts related to underage drinking. Specifically, ATC will use these funds for Project Focus aimed at reducing underage drinking at 10 colleges and universities state-wide. As with the Cops in Shops Program, ATC will use these funds to pay overtime and related benefits for existing staff involved in Project Focus and other enforcement efforts related to underage drinking. ATC will also use additional funds to fuel and repair vehicles, to purchase equipment, and for professional services contracts stressing enforcement, education, and public awareness.

II. IMPACT ON FUTURE FISCAL YEARS:

ATC anticipates receiving \$45,000 per year through FY 09 from the LA Highway Safety Commission for the Cops in Shops Program.

Federal	\$0			
Total	\$51,091	Total	\$51,091	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase IAT by \$51,091 to reimburse the Office of Alcohol & Tobacco Control (ATC) for items damaged by hurricanes Katrina and Rita. The source of IAT funds is the Governor's Office of Homeland Security (GOHS), formerly Department of Military Affairs. GOHS received these funds from the Federal Emergency Management Agency (FEMA) and does not require a matching component from the state.

These funds were originally appropriated to ATC by the JLCB on 5/23/06. ATC was not able to expend or obligate these funds prior to 6/30/06. ATC will use these funds to replace flooded items (portable radios, bullet proof vests, duty belts, binoculars, pistol, camera, first aid kit, etc.) and to replace emergency protective measures (damaged uniforms, battery packs, duty belts, bullet proof vests, cell phone, camera, etc.).

Total	\$12,500,000	Total	\$12,500,000	0

I. SUMMARY/COMMENTS:

The purpose of this BA-7 is to increase federal budget authority for the Office of Cultural Development in order to receive \$12.5 M from the Department of Interior for the State's apportionment of Hurricane Disaster Relief Grants. No state matching funds are required.

This BA-7 consists of two parts: Section 106 Compliance and Technical Assistance and Repairs to Historic Properties. \$1.3 M has been awarded to the Office of Cultural Development's State Historic Preservation Office (SHPO) for the costs of performing prompt reviews of all proposed Federally funded or sponsored projects pursuant to Section 106 of the National Historic Preservation Act. This Act establishes that the SHPO has the responsibility for consulting federal agencies about the impact of their undertakings on historic properties in LA.

\$11.2 M will be used to provide technical assistance and to stabilize and repair historic and archeological properties damaged by hurricanes Katrina and Rita. These funds will be distributed in the form of grants. These properties must be listed in, or eligible for listing in, the National Register of Historic Places.

The Office of Cultural Development plans to hire nine administrative support and technical staff members in order to keep the Section 106 process properly functioning. The 9 new positions will be permanent and will include 2 architectural historians, 2 archaeologists, 4 administrative managers, and a contracts/grants reviewer. The following is a list of expenses:

Personal Services - \$947,072 (salaries, overtime, & related benefits for 9 positions)
Travel - \$57,000
Operating Services - \$18,000
Supplies - \$13,428
Professional Services - \$196,000
Other Charges - \$11.2 M (recovery grants)

August 11, 2006

Acquisitions - \$68,500 (2 cars, furniture, computer equipment)
TOTAL - \$12.5 M

II. IMPACT ON FUTURE FISCAL YEARS:

The deadline to expend these funds is 12/31/08. Any unexpended funds from FY 07 will be carried forward in subsequent years. The Department expects that Section 106 consultation caseload to continue for several years and additional funds may be made available in future fiscal years to sustain this program.

III. LEGISLATIVE FISCAL OFFICE RECOMMENDATION:

The Legislative Fiscal Office recommends approval of this BA-7.
