COMPARATIVE DATA REPORT ON MEDICAID

A Report Submitted to the

FISCAL AFFAIRS AND GOVERNMENTAL OPERATIONS COMMITTEE

Southern Legislative Conference

December 1, 2008

H. Gordon Monk Legislative Fiscal Officer

Prepared by: Shawn Hotstream, Section Director Louisiana Legislative Fiscal Office Joel T. Chaisson,
President of the Louisiana Senate

Council of State Governments

Jim Tucker, Speaker of the Louisiana House This public document was published at a total cost of \$992.50 (\$3.97 per copy). 250 copies of this public document were published in this first printing. This document was published for the Louisiana Legislative Fiscal Office, Post Office Box 44097, Baton Rouge, Louisiana 70804 by the Louisiana State Senate, Post Office Box 94183, Baton Rouge, Louisiana 70804 in an effort to provide legislators, staff and the general public with an accurate summary of The Comparative Data On Medicaid FY 2008. This material was printed in accordance with the standard for printing by state agencies established pursuant to R.S. 43.31.

SUMMARY

INTRODUCTION

This report includes statistical tables and a summary of key findings based upon questionnaires distributed to each member state in the Southern Legislative Conference. This survey was initially conducted in 1992 and presented to the Second Congressional Summit on Federal Mandates in Washington, D. C., on April 29, 1992. Subsequent surveys have been presented each fall to the Fiscal Affairs and Government Operations Committee of the Southern Legislative Conference.

The format of the survey has been modified in an effort to present a meaningful amount of information without overwhelming the reader with excessive data. Data prior to FFY 00 has been removed from the report, but is still available upon request.

The assistance of legislative staff in each state and Medicaid agency staff that completed the questionnaires is greatly appreciated. Staff of the Centers for Medicare and Medicaid Services (formerly the Health Care Financing Administration) also provides invaluable assistance each year by locating and forwarding the information needed to complete this report. Thanks as well to several co-workers who assisted with preparation of this report: Gordon Monk, Robert E. Hosse, and Wille Scott. Comments, questions and suggestions concerning this report will be welcomed.

Shawn Hotstream, Section Director Louisiana Legislative Fiscal Office Post Office Box 44097 Baton Rouge, LA 70804

BACKGROUND

Medicaid (Title XIX of the Social Security Act) is a program of medical assistance for impoverished individuals who are aged, blind, or disabled, or members of families with dependent children. Medical benefits for needy individuals are provided based on a division of state and federal responsibilities. The federal government establishes regulations, guidelines, and policy interpretations describing the framework within which states can administer their programs. The nature and scope of a state's Medicaid program are specified in a state plan that, after approval by the Department of Health and Human Services, provides the basis for federal funding to the state.

Medicaid is a federal entitlement program established with the 1965 Title XIX amendment to the Social Security Act. This program provides medical assistance to certain individuals having low incomes or resources. The Medicaid programs are jointly funded by the federal and state governments and are designed to assist states in providing access to health services to eligible individuals. Within broad guidelines established by the federal government, each state: 1) administers its own program; 2) establishes its own eligibility standards; 3) determines the amount, duration, and scope of services; and 4) sets the reimbursement methodology for these services. As a result, Medicaid programs vary from state to state and may do so within states over time.

Funding is shared between the federal government and the states, with the federal government matching state contributions at an authorized rate between 50 and 76 percent (based on FY 06), depending on the state's per capita income. The federal participation rate is adjusted each year to compensate for changes in the per capita income of each state relative to the nation as a whole.

Federal requirements mandate the provision of certain services by any state participating in the Medicaid Program. These services include: inpatient and outpatient hospital services; prenatal care; vaccines for children; rural health services; lab and x-ray services; skilled nursing services; home health care for persons eligible for skilled-nursing services; pediatric and family nurse practitioner services; nurse mid-wife services; physician services; family planning; federally-qualified health center services; and services for the early and periodic, screening, diagnosis, and treatment (EPSDT) of those under age 21. States have considerable latitude about the scope of each of these services even though they are mandated.

Federal mandates also expanded eligibility. The Omnibus Budget Reconciliation Act of 1989 (OBRA 1989) mandated expanded coverage of pregnant women and children with incomes at or below 133 percent of the federal poverty level. This change in eligibility to extend coverage to those whose incomes exceed the federal poverty level represented a departure from the traditional link between Medicaid and the "welfare" system.

Historically, eligibility for Medicaid had been linked to actual or potential receipt of cash assistance under the AFDC/TANF or SSI programs. Thus, eligible persons had to meet the requirements of the cash assistance programs in terms of age, blindness, disability, or membership in a family with dependent children. State Medicaid programs had, at a minimum, to cover all categorically needy persons: those who received AFDC/TANF assistance and most who received SSI. Eligibility also required that income and assets satisfy certain criteria.

With passage of the Personal Responsibility and Work Opportunity Act of 1996 (Welfare Reform Bill), the automatic link between AFDC recipients and their ability to receive Medicaid benefits was completely severed. The Welfare Reform Bill amended Title XIX to read that any reference to eligibility for AFDC/TANF benefits shall be interpreted as this relationship existed as on July 16, 1996. A state had the choice to modify this relationship in three ways:

- 1) lower its income standard, but not below that level applicable under the state's AFDC state plan as of May 1, 1988;
- 2) increase income or resource standards, and medically needy income levels, by an amount not to exceed the CPI; and
- 3) use income and resource methodologies that are less restrictive than those used under the state plan as of July 1, 1996.

The federal legislation retained existing Medicaid law regarding transitional assistance. Families losing eligibility for cash assistance as a result of increased child support received four months of transitional Medicaid benefits. Those losing cash assistance due to increased earnings received twelve months of Medicaid benefits. States had the option to terminate medical assistance for persons denied cash assistance because of refusal to work. Pregnant women and minor children, however, continued to be protected under OBRA 1989. Additionally, children who lost SSI eligibility due to the change in the welfare reform law had their Medicaid eligibility grand-fathered in. However, no new individuals could qualify for this coverage.

States had the option, as of January 1, 1997, of denying Medicaid coverage to persons who are legal residents but not citizens. New immigrants were automatically barred for five years after entry. Thereafter, states could coverage, but only under certain provisions. However, there were certain exceptions for persons who have worked for forty (40) quarters in covered employment, or served in the military. Additionally, no state could deny coverage of emergency medical services to either illegal or legal aliens.

The Balanced Budget Act (BBA) of 1997 (P.L. 105-33), which was signed by the President on August 5, 1997, continued the trend of congressional action to control growth in Medicaid. This act was projected to produce gross federal Medicaid savings of \$17 billion over 5 years and \$61.4 billion from FFY 97 to FFY 07). Although there were some provisions for increases in Medicaid spending, the net effect of the legislation was federal Medicaid savings of \$7.3 billion over the first five years and \$36.9 billion over the next ten years—the most significant reduction in federal Medicaid spending since 1981.

The initial projections related to cost savings as a result of the passage of the BBA 1997 turned out to be grossly understated. Revised estimates from the Congressional Budget Office indicate that Federal health care spending for Medicare, Medicaid, and State's Children's Health Insurance Program (SCHIP) was anticipated to be reduced by more than \$226 billion.

In an effort to reverse some of the negative impact of the BBA 1997, the U.S. Congress passed the Medicare, Medicaid, and SCHIP Balanced Budget Refinement Act (BBRA) of 1999 (P.L. 106-113). The act contains numerous provisions to make corrections and refinements in all three programs. The majority of the revisions relate to the Medicare program and were designed to correct large cuts imposed on all Medicare providers—especially hospitals and long-term care facilities. For the Medicaid Program, the BBRA amended Title XIX to: 1) increase DSH allotments for the District of Columbia, Minnesota, New Mexico, and Wyoming; 2) remove the fiscal year limitation on certain transitional administrative costs assistance; 3) modify the phase-out of payment for federally qualified health center services and rural health clinic services based on reasonable costs; 4) provide for parity in reimbursement for certain utilization and quality control services; 5) eliminate duplicative requirements for external quality review of Medicaid managed care organizations; 6) make the enhanced match under SCHIP inapplicable to DSH payments; and 7) provide for the optional deferment of the effective date for outpatient drug agreements.

Additionally, the BBRA of 1999 reallocated funding for SCHIP, effective October 1, 2004. The total amount of federal SCHIP funding allotted to the sixteen states in the SLC was \$1.243 billion (down \$491 million from FFY 00) for FFY 04; states would have been required to provide \$443 million (down \$178 million from FFY 00) in state matching funds to utilize all available federal dollars. As of September of 1999, all of the states in the SLC had HCFA approved plans to participate in SCHIP, although many of them did not draw the full federal allocation available. **Table 1** and **Chart 11** provide the total amount of federal dollars allocated to each state in the SLC for FY 06 and the amount that each state plans to utilize annually.

On December 8, 2003, the Medicare Modernization Act (MMA) became law (P.L. 108-173). Under the provisions of the legislation, Medicare Part D will pay for outpatient prescription drugs through private plans effective January 1, 2006. All Medicare beneficiaries entitled to Part A or enrolled in Part B (including Medicaid dual eligibles) are eligible to enroll in Part D and receive coverage for prescription drugs. Under Part D coverage, prescription drug coverage for the dual eligible population (individuals entitled to Medicare and enrolled in Medicaid) shifted from Medicaid to Medicare. This significant development in the Medicare Program will have a substantial fiscal impact on the state Medicaid programs as a result of the financing mechanism used to pay for drug coverage for the dual eligibles. All state Medicaid programs are required to make monthly payments (termed "phased-down state contribution" or "clawback") to the federal government based on the expenditures for prescription drugs that they would have made for the dual eligibles through the Medicaid program. The major issue for Medicaid programs is the formula used to calculate the "clawback" payments uses a base year of 2003. This provision potentially inflates state payments for any state that initiated pharmacy cost containment measures and reduced pharmacy payment growth in 2004. Initial estimates from the Congressional Budget Office anticipate that state "claw back" payments will be approximately \$6 billion in FY 06 and increase to \$15 billion in FY 13 (a total of \$90 billion over the period).

METHODOLOGY

The purpose of this report is to provide legislators and staff in each state with a reference document that can be used to compare Medicaid spending in a particular state to others throughout the southern region. The first report in this series was published in April 1992 for the Second Congressional Summit on Federal Mandates. That survey utilized data collected from each state on Medicaid program expenditures for state fiscal years. Since then the surveys have used data reported by each state to the federal government for federal fiscal years (October 1-September 30).

The Centers for Medicare and Medicaid Services (CMS) collects voluminous data on state Medicaid programs on CMS Forms 37, 64, and MSIS (formerly 2082). Since each state follows the same report format and utilizes the same definitions and instructions, the information on these forms is the most accurate and consistently available. There are, nevertheless, certain inconsistencies that are introduced because of differences in interpretation about recipient, payment and service definitions. Whenever we are aware of such inconsistencies, we attempt to adjust for them when making comparisons among states. One should therefore exercise caution when comparing state expenditures for some services. For example, one state may include payments for rehabilitative services under "clinic services" while another may classify such payments as "other care."

A questionnaire was sent to each of the 16 states in the Southern Legislative Conference. Each questionnaire included several pages of data about the state taken from the CMS 37, 64 and MSIS reports submitted by the state to CMS. States were asked to verify the accuracy of this data, to provide explanations of extraordinary growth in recipients or payments and to supply certain other information, such as levels of disproportionate share payments, methods of state financing, recent state initiatives, etc.

The data collected from the federal reports and from the states have been organized into a "Medicaid State Profile" for each state. These include multi-year histories of total Medicaid spending as well as recipient and payment data for major eligibility and service categories. Information on provider taxes and eligibility criteria is also included. Each profile contains charts comparing that state to the SLC average in terms of annual payments per recipient and the number of recipients per 100,000 population. As a supplement to state responses regarding program characteristics and initiatives, information was included from a publication, *Issue Briefs*; published by the Health Policy Tracking Service in 2005. Key demographic and poverty indicators were obtained from *Health Care State Rankings* 2008 Health Care in the 50 United States and State Rankings, 2008: Statistical View of the 50 United States. Information on the Balanced Budget Act was included from a publication, Overview of the Medicaid Provisions in the Balanced Budget Act of 1997, P.L. 105-33, Andy Schneider, and September 1997. Information on the Balanced Budget Refinement Act of 1999 was included from a summary publication provided by the Government Printing Office website. Information on the MMA was included in summary publications provided by the Henry Kaiser Family Foundation website.

A large portion of this report is derived from MSIS data (FFY's 00-06) that provides detailed recipient and expenditure data by type of service and by other characteristics (maintenance assistance, basis of eligibility, age, race, and sex). For FFY 06, CMS has provided verified MSIS data to the LFO for 16 of the states in the SLC. This data for all 16 states is included in the FFY 06 CDR.

It is of importance for the reader of this report to be aware of the changes from all previous versions of the Medicaid report. From FFY 92 to FFY 98, all HCFA 37, 64, and 2082 data was complete and used to make all comparisons in the report. For FFY 99 to 04, CMS published verified MSIS data on their website that was used to revise all 16 states for that time period. For FFY 05, MSIS data was not available for Louisiana, Maryland, Oklahoma, and West Virginia at the time the report was published. These states were included in the FFY 05 CDR by projecting historical trend data provided by CMS (from FFY 99 through FFY 04). For the FFY 06 report, FFY 05 data has been revised using the latest data available published by CMS and is totally complete.

MEDICAID SPENDING IN THE SOUTHERN REGION

The rapid rate of growth in Medicaid spending which occurred during the late 1980's and early 1990's began to decline by FFY 94 in the 16-state southern region. Since that time, the growth rate has been variable; however, the trend is more toward controlled growth. Total actual Medicaid payments (administrative costs excluded) for the 16 SLC states for FFY 06 were \$95.3 billion, a decrease of \$3.5 billion (approximately -3.5%) less than the FFY 05 level of \$98.8 billion. The decrease in total payments for FFY 06 follows three consecutive years of single digit increases in total Medicaid spending. FFY 03, FFY 04, and FFY 05 spending represented a continued effort to control Medicaid growth that had exhibited double digit growth from FFY 99 to FFY 02). See "Southern Region Medicaid Profile".

Total spending for FFY 07 is projected at \$104.7 billion, administrative costs excluded, which is an increase of approximately \$9.4 billion, or 9.8% from the \$95.3 billion for FFY 06. Total spending for FFY 08 is projected at \$112.6 billion, or 7.5% over the \$104.7 projected for FFY 07. The annual rate of change projected over the entire eight-year period from FFY 00 to FFY 08 is 7.8% percent.

During the early 1990's several factors contributed to the rapid growth in Medicaid spending:

- First, program enrollment increased significantly, mainly due to federal mandates which directed states to expand coverage to pregnant women and children with family incomes at or above the federal poverty level. Such mandates had a major cost impact in southern states, which tend to have large indigent populations and a limited ability to finance health care programs at the high levels found in other parts of the nation. The number of Medicaid recipients in southern states grew from 11.1 million in FFY 92 to 14.4 million in FFY 98.
- Second, medical inflation has historically accounted for 50% of total growth.
- Third, other factors include higher utilization rates (due, in part, to federal mandates such as those calling for more thorough screening of school age children), the targeting of specific populations (AIDS patients, drug-dependent newborns) and higher payments to certain providers.
- Fourth, states have utilized creative methods to find the revenues needed to pay for Medicaid programs which in many cases have quadrupled in size over the past seven years. These include widespread use of provider taxes, disproportionate share payments and intergovernmental transfers.

Beginning in FFY 95, the ability of states to benefit from creative financing mechanisms was sharply reduced (the Waxman amendments to OBRA-93). In August of 1997, Congress changed Medicaid in three ways: 1) Repealed the Boren Amendment, which fueled mandatory inflation payments for inpatient services, nursing homes, and community health centers, 2) abolished the necessity for states to obtain a waiver in order to institute Medicaid managed care programs; and 3) provided a decreasing cap on disproportionate share allotments to the states.

Medicaid spending in the SLC states reflected double digit increases from FFY 99 to FFY 02. The following 3 years (through FFY 05) indicate a more controlled growth. Actual growth figures for FFY 06 (a reduction of 3.5% from prior year) is the result of 10 of the 16 states in the SLC having a reduction in payments. Although FFY 06 spending projects a level of spending below FFY 05, future Medicaid spending is projected to increase significantly (by almost 10% in FFY 07 and 8% in FFY 08). Projected payments in FFY 07 and FFY 08 indicate that Medicaid spending may experience a pattern of significant growth in those years despite economic uncertainty. It is probable that projections for FFY 07 and FFY 08 will be revised slightly upward as this has been the pattern for the last five federal fiscal years. The overall increase from FFY 06 to 07 is a result of 15 of the 16 SLC states estimating an increase in overall payments. Mississippi is the only state that projects a decrease in payments from FFY 06.

Over the last decade, Medicaid percentage growth in the SLC increased to its highest point in FFY 02 (13.7% from FFY 01). FFY 06 reflects an overall decline in payments from the prior fiscal year, the first in that same time period. Several factors have contributed to the decrease in spending in FFY 06.

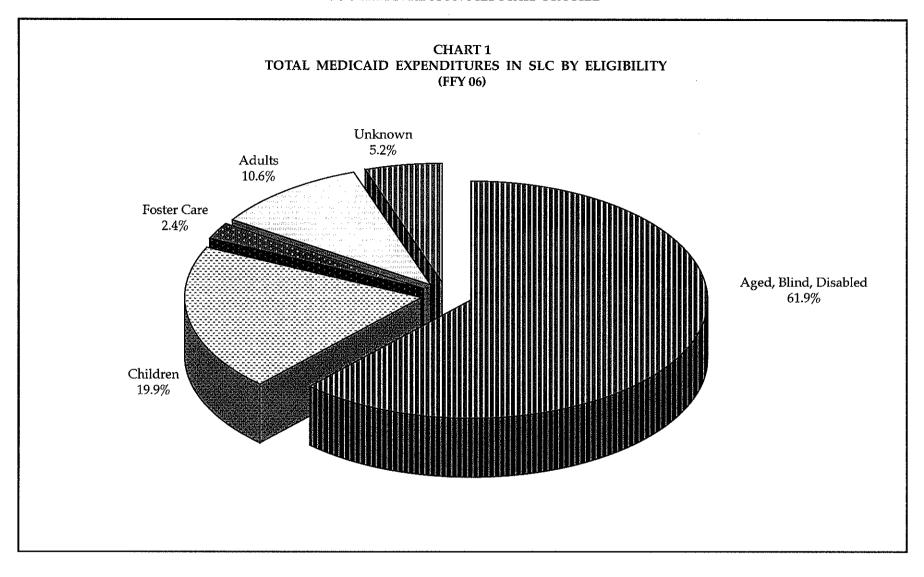

- a minimal aggregate increase in the number of Medicaid recipients in the SLC (less than ½ of 1% from FFY 05). The actual number of recipients in six states decreased from FFY 05.
- implementation of federal legislation that impacted prescription drug coverage for some Medicaid enrollees. The Medicare Modernization Act (MMA) of 2003 was implemented in January 2006. This legislation shifted the costs of prescription drug coverage for certain "dual eligibles" from Medicaid to Medicare Part D plans. States are still required to pay a state share for this coverage (what states would pay under Medicaid, called the 'clawback payment' or 'phase down'). Although the clawback payment is still considered as a Medicaid expenditure, the federal matching funds historically drawn down with this general fund is no longer recorded as a Medicaid payment, but is recorded in Medicare. (See "Payments by Type of Service Prescribed Drugs" expenditures by state.)

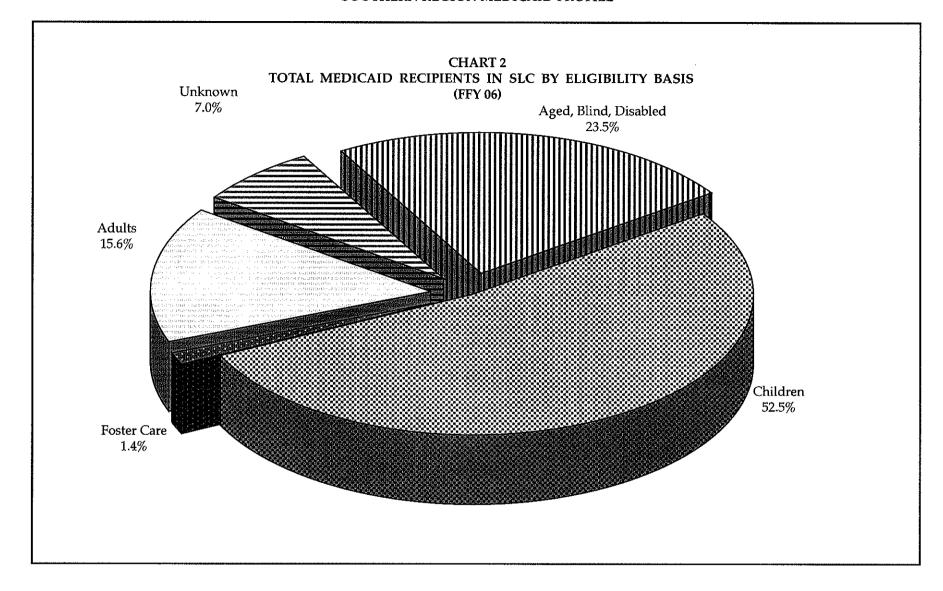

It is unknown if implementing any costs containment measures (such as selected waivers for state Medicaid populations or other initiatives through available options of the Deficit Reduction Act) or FMAP (the Federal Medical Assistance

Percentage) changes had any effect on the decline in total spending for the SLC states. The percentage that the federal government matched for state funds spent on Medicaid decreased from FFY 05 to FFY 06 in twelve (12) of the SLC states.

Total Medicaid expenditures by eligibility in the 16 Southern Legislative Conference states are illustrated in **Chart 1**. This chart divides Medicaid dollars spent by the following eligibility categories: aged (65 and older), blind, or disabled, children, foster care children, adults and other Title XIX recipients of unknown eligibility status. By far the greatest amount of Medicaid dollars is spent on those who are aged, blind, or disabled (61.9%). Expenditures for children were next, accounting for 19.9% of the payments. The remaining classifications of adults (10.6%), foster care children (2.4%), and unknown (5.2%) make up the balance (18.2%). The total amount of Medicaid payments in the SLC for FFY 06 was \$95,278,045,321. This is an average annual increase of approximately 7.8% per year over the seven-year period from FFY 00 to FFY 06.

The total number of Medicaid recipients in the 16 states was 21,142,685 during FFY 06 as compared to the FFY 00 number of 15,984,886 recipients, or an average annual increase of 4.8% per year. **Chart 2** provides a percentage distribution of these recipients by the same eligibility standards as Chart 1. The greatest number of Medicaid recipients in the southern region were children (52.5%). The aged, blind, or disabled followed with approximately 23.5%, while adults represented 15.6% of the total number of recipients. The balance of 8.4% is distributed among foster care children (1.4%) and unknown status (7.0%). The average payment per recipient for all Medicaid services in the 16 states was approximately \$4,149. This is a decrease of \$261 from FFY 05 to FFY 06 and approximately a 3.3% annual increase from FFY 00.

STATE COMPARISONS

The next few pages contain direct comparisons among the 16 SLC states relative to spending levels and recipient levels. These comparisons include measures of per capita expenditures, expenditures per recipient and recipients per 100,000 population, as well as information on payments for services and on administrative costs. These are included only to indicate broad trends and demonstrate gross levels of spending and eligibility in each state. They should be used with caution when comparing state programs in terms of recipient coverage, cost effectiveness or level of effort. Charts cited below can be found at the end of this summary.

Per Capita Expenditures. Medicaid per capita spending in the 16-state southern region has increased from \$664 in FFY 00 to \$882 for FFY 06. States with high numbers of recipients per unit of population combined with a high level of payments per recipient rank high in per capita spending. As shown in Chart 3, per capita spending for FFY 06 ranges from \$632 in Virginia to \$1,196 in West Virginia. All other SLC states ranged from \$735 to \$1,152. West Virginia has decreased per capita expenditures by \$52 (\$1,248 to \$1,196) from FFY 05, however now has the highest per capita expenditure level (\$1,196) in the SLC. West Virginia had an increase in population of approximately 6,783 (.4%) during FFY 06, coupled with a decrease in total Medicaid expenditures of approximately \$85.4 million (3.8%). Virginia maintained its position as the state with the lowest average per capita expenditure, reporting an average of \$632 per person (28.4% under the SLC average of \$882). This is due to the fact that: 1) the state's population increased from approximately 7.19 million to 7.64 million (6.3%); 2) total Medicaid expenditures (including admin. costs) increased from \$4.68 billion to \$4.83 billion (3.1%) and; 3) only 9.1% of the total population (44th in the U.S.) have incomes less than the federal poverty level in FFY 06.

<u>Payments per Recipient</u>. Average Annual payments per recipient for the southern region have increased from \$3,415 in FFY 00 to \$4,149 in FFY 06, an overall increase of 3.3% per year. Payments per recipient for FFY 06 range from \$3,324 in Georgia to \$6,876 in Maryland. (See Chart 4). Since most states report disproportionate share payments on Form 2082 (FFY 98) and MSIS (FFY's 99-04) such payments are excluded from all regular Medicaid claim payment comparisons.

Expenditure per recipient (by type of service) comparisons should be viewed with caution unless used in conjunction with a specific well-defined service. We have chosen five of the largest and, hopefully, best-defined services for inclusion here: inpatient hospitals, skilled and intermediate care nursing facilities, intermediate care for the mentally retarded, physician services and prescription drugs. Each of these services represents a large part of a state's Medicaid expenditures and each has been an area of rapid growth as well. Payments for these five services represent approximately 55.5% of all Medicaid payments in the region for FFY 06, compared to 60.5% for FFY 05.

•Payments for general hospital inpatient services in the region have increased from \$8.67 billion in FFY 00 to \$14.2 billion in FFY 06, an annual increase of 8.5%. These payments represent an average 16.2% of each state's Medicaid payments. If all disproportionate share payments were included in these figures, the growth rates and the share of total spending on hospitals would be significantly greater. The accompanying chart excludes all such payments that have been included on the MSIS (FFY 00 to 06) in order to make consistent comparisons.

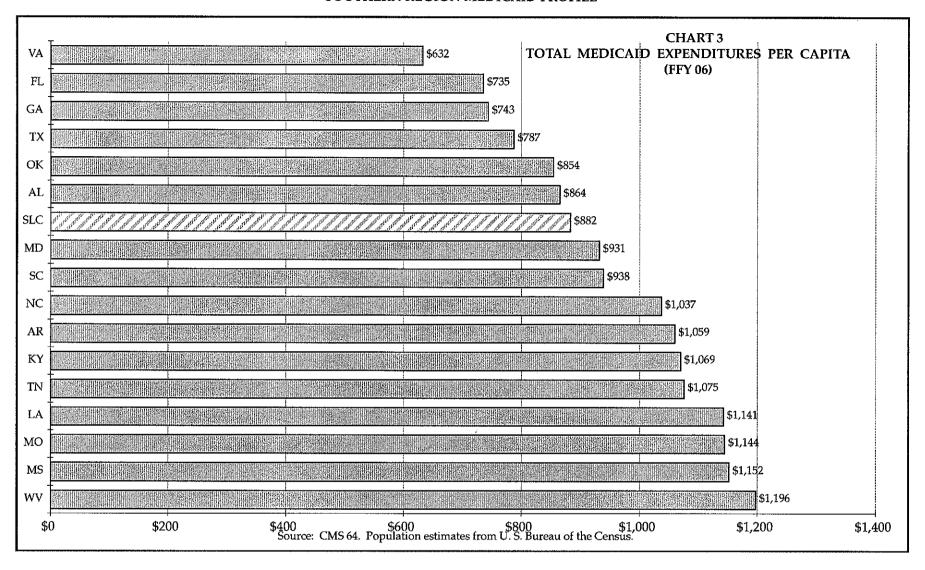

The total number of recipients for inpatient services increased at a 1.4% annual rate, from 2.43 million in FFY 00 to 2.64 million by FFY 06. The SLC average for annual payments per recipient for inpatient services has increased from \$3,571 in FFY 00 to \$5,369 in FFY 06, an annual growth rate of 7%. Payments in FFY 06 range from \$2,542 in Alabama to \$11,291 in West Virginia. Again it should be noted that these figures do not include disproportionate share payments. (See Chart 5)

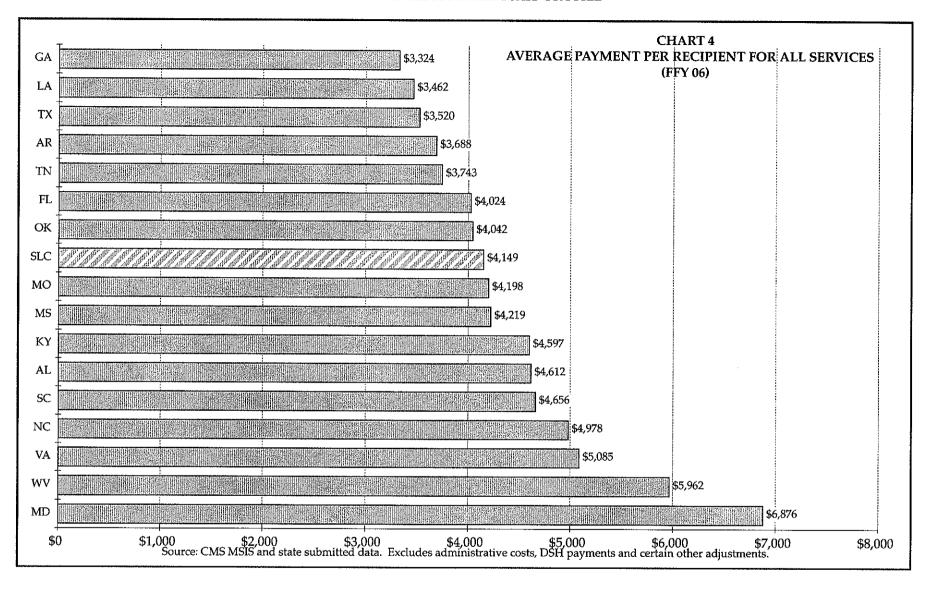

- •Payments for skilled and intermediate care nursing facilities grew from \$10.4 billion to \$13.9 billion during the period FFY 00-06, an annual growth rate of 5%. The average share of a southern state's Medicaid budget devoted to these services has fallen from 19.1% to 15.8% during the period. The number of recipients utilizing these services decreased at a 0.8% annual rate, from approximately 604,672 in FFY 00 to 576,850 in FFY 06. The SLC average for annual payments per recipient for skilled and intermediate care nursing facilities increased from \$17,193 in FFY 00 to \$24,096 in FFY 06, an annual growth rate of 5.8%. Average annual payments in FFY 06 ranged from a low of \$16,235 in Texas to a high of \$36,184 in Maryland. (See Chart 6)
- •The cost of intermediate care for the mentally retarded (ICF-MR) increased from \$3.22 billion in FFY 00 to \$3.6 billion in FY 06, an annual growth rate of 1.9%. SLC states applied an average of 4.1% of their expenditures to this service in FFY 06, down from 5.9% in FFY 00. This service experienced a decline in recipients from approximately 47,054 in FFY 00 to 41,050 in FFY 06, a 2.2% decrease during the seven-year period. The average cost per recipient has continued to increase approximately 4.2% annually, and has increased from \$68,448 to \$87,676 during the period FFY 00-06. Average payments range from \$44,089 in Arkansas to \$241,773 in Tennessee in FFY 06. (See Chart 7)

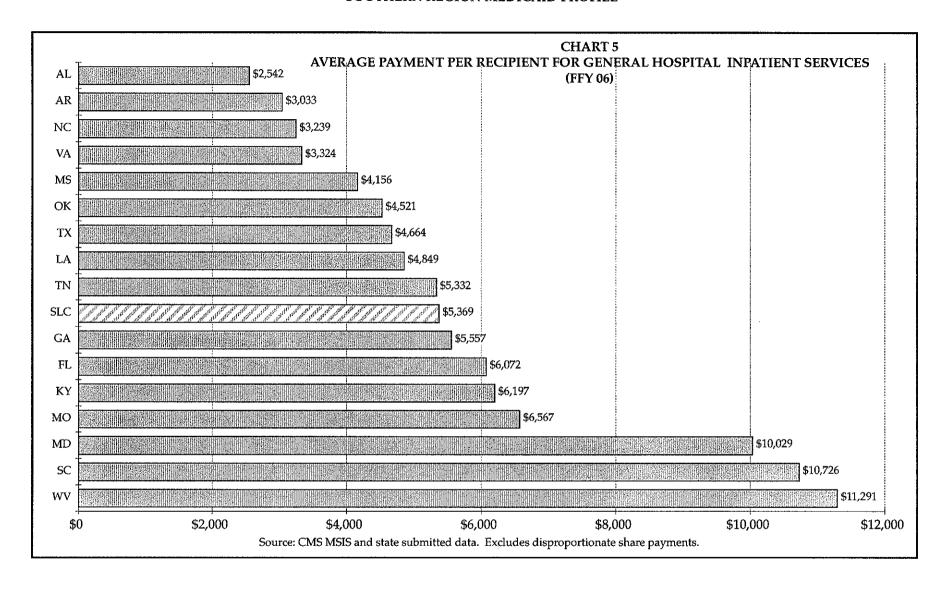

- •The cost of physician services increased from approximately \$3.69 billion in FFY 00 to \$5.97 billion in FFY 06, an annual rate of 8.4% per year. The number of recipients of these services increased from more than 9.09 million in FFY 00 to 10.8 million in FFY 06, an annual rate of 2.9% per year. Average annual payments per recipient in the region experienced growth of about 5.3% per year, from approximately \$406 in FFY 00 to \$553 per year in FFY 06. Payments per recipient vary widely from \$187 in Missouri to \$801 in Maryland for FFY 06. (See Chart 8)
- •The cost of providing prescribed drugs grew 5.4% per year from about \$8.08 billion in FFY 00 to \$11.08 billion in FFY 06. Recipients increased 2.6% annually from 9.8 million in FFY 00 to 11.45 million in FFY 06. The regional average payment per recipient grew from \$824 in FFY 00 to \$968 in FFY 06, an average growth rate of 2.7% per year. States range from a low of \$637 per recipient annually for prescription drug costs in Mississippi to \$1,429 in Missouri. Payments per recipient in Oklahoma increased from \$803 in FFY 00 to \$819 in FFY 06, an annual rate of .3%; and payments per recipient in Tennessee increased from \$307 in FFY 00 to \$792 in FFY 06, an annual rate of 17.1%. Total payments in all sixteen SLC states decreased from FFY 05 to FFY 06. Of the sixteen states, the decrease in thirteen states appears to be related to a decrease in the number of recipients receiving prescription drug services in FFY 06. (See Charts 9A, 9B, & 9C)

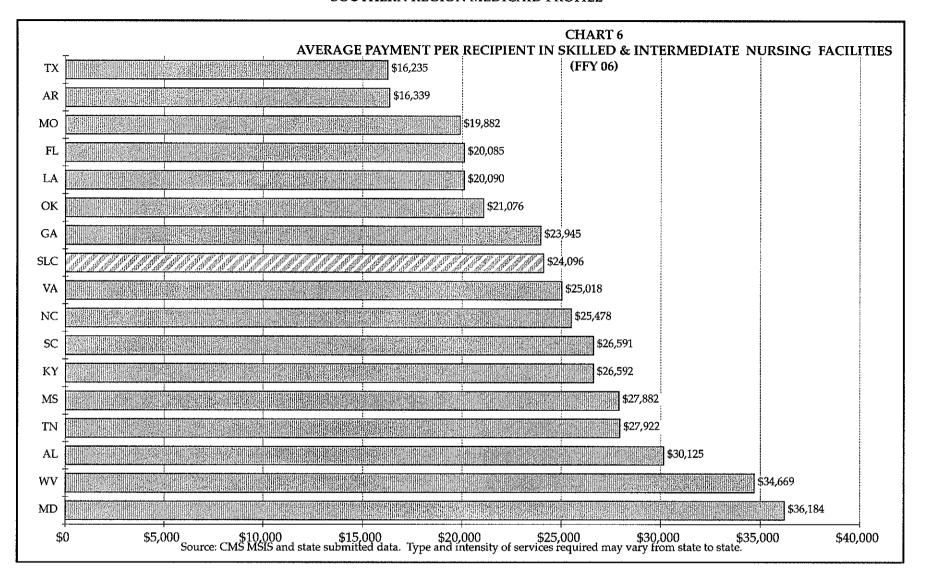

<u>Recipients per 100,000 Population</u>. The number of recipients per 100,000 population increased during FFY 00-06 from 16,461 to 18,662. According to this indicator, the highest state was Louisiana with 27,077 per 100,000 population and the lowest was Virginia with 10,741. A state's rank on this scale is influenced by how liberal its eligibility criteria are for Medicaid and children in low-income families. (See Chart 10)

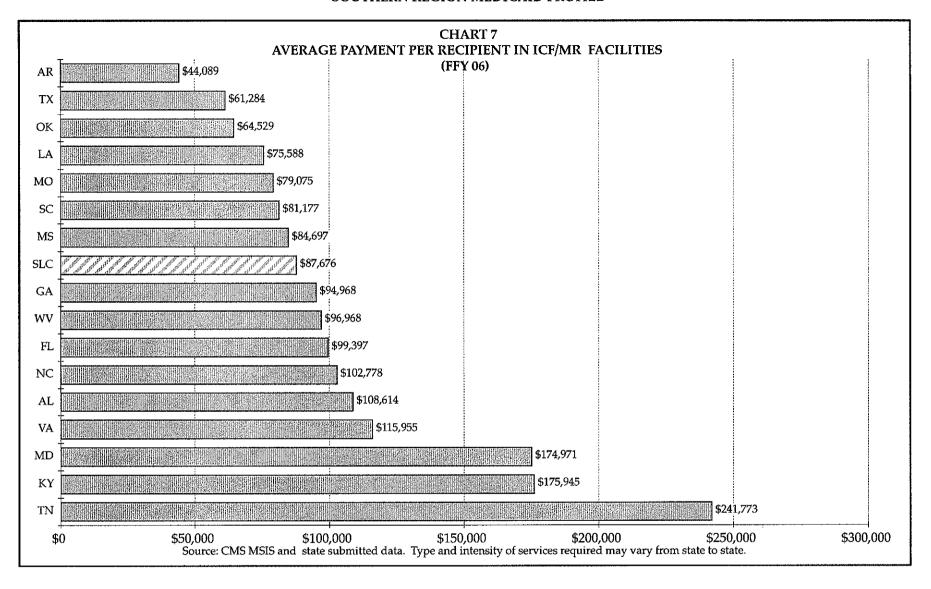

SCHIPS Allocation per State. All 16 states in the SLC have submitted SCHIP plans to HCFA. As of September 3, 1999, all 16 states had approved plans. Under the provisions of the legislation that created SCHIPs, states have the option of expanding Medicaid, designing a state plan, or doing a combination of both. In the SLC, 6 states have opted to expand Medicaid, 3 states have designed a state plan, and 7 have combined Medicaid expansion with a state-designed plan. Of the \$1.63 billion federal allocation for the 16 SLC states for which data is available in **Table 1**, \$1.74 billion (107%) has been requested to fund the various SCHIP plans for FFY 06. Texas and Florida topped the federal allocation in the SLC with \$454.7 million and \$249.3 million, respectively. Texas utilized only \$269.4 million of available federal funding (59.2%); Florida utilized \$214.1 million (85.9%) for SCHIP. West Virginia was allotted the fewest SCHIP dollars in the SLC, \$23.3 million, however, actually utilized \$33.7 million (144.6%). Overall, SLC state movement with the SCHIP initiative appears to be growing after a slow start. For the reported SLC states, 1 is using 20% or less of the total program allotment, 1 state is using between 21% and 60%, and 14 states are using over 61% (of which 12 are utilizing funds over their respective allotments). (Table 1 and Chart 11)

Public Law grants Tennessee the ability to receive some of their SCHIP allotments as increased federal match for specific Medicaid expenditures. Tennesseee does not have a separate SCHIP program.

States that exceed 100% of their annual program allotments will be "carrying forward" prior year balances to finance their programs.

Medicaid Disproportionate Share Hospital (DSH) Payment

The Medicaid Disproportionate Share Hospital (DSH) Payment program was established by the federal government in 1981. The program was designed to enable states to provide financial support to hospitals that incur high levels of unreimbursed costs due to serving a disproportionate share of Medicaid and uninsured patients. The program was not only established to enhance the financial stability of these hospitals, but also to ensure access for the low income and uninsured. Congress authorized DSH payments, or a payment adjustment, to cover these costs.

Individual states make DSH payments to hospitals through their Medicaid programs. States have some flexibility in defining what is considered a low income provider (which hospitals qualify for reimbursement) within federal guidelines, and states can further decide specific payment methodologies (payment levels based on hospital provider type). However, these state guidelines are restricted through a hospital specific DSH cap (typically can not be greater than costs), and a total DSH cap (total amount that a state can receive). The total state allotments that are currently in place are not necessarily based on state need, but historical DSH funding.

DSH payments are jointly financed by states and the federal government. The required state match to draw down federal financial participation (Federal Medical Assistance Percentage) varies by state, and typically depends on the economy of the state. Furthermore, the "state contribution" required to draw down the federal DSH matching funds or allotment may consist of resources other than state general funds, and may include provider fees, intergovernmental transfer (IGT) funds which are fund transfers from local governments or providers, and/or donations.

Chart 12 represents total DSH payments in the SLC from FY 00 to FY 08. Total DSH funding is separated by general hospital inpatient payments and mental health hospital payments. Total DSH payments grew by \$725.7 million, or 14.1%, from FFY 00 to FFY 06. However, FFY 06 total DSH payments in the SLC actually decreased by \$111,162,815, or 1.9% from FFY 05.

Table 2 reflects DSH spending as a percentage (%) of total Medicaid payments. Total DSH payments for the 16 SLC states decreased from 8.4% of total Medicaid spending in FFY 00 to 6.2% of total Medicaid spending in FFY 06. Texas, Missouri, and Louisiana were high spending states in FFY 06, spending \$1.5 billion, \$739.9 million, and \$739.8 million respectively. Four of the sixteen states reflected DSH spending at least 10% of total Medicaid spending in FFY 06. These states included Louisiana (15.8%), Missouri (11.6%), South Carolina (11.3%), and Alabama (10.8%). (See Table 2)

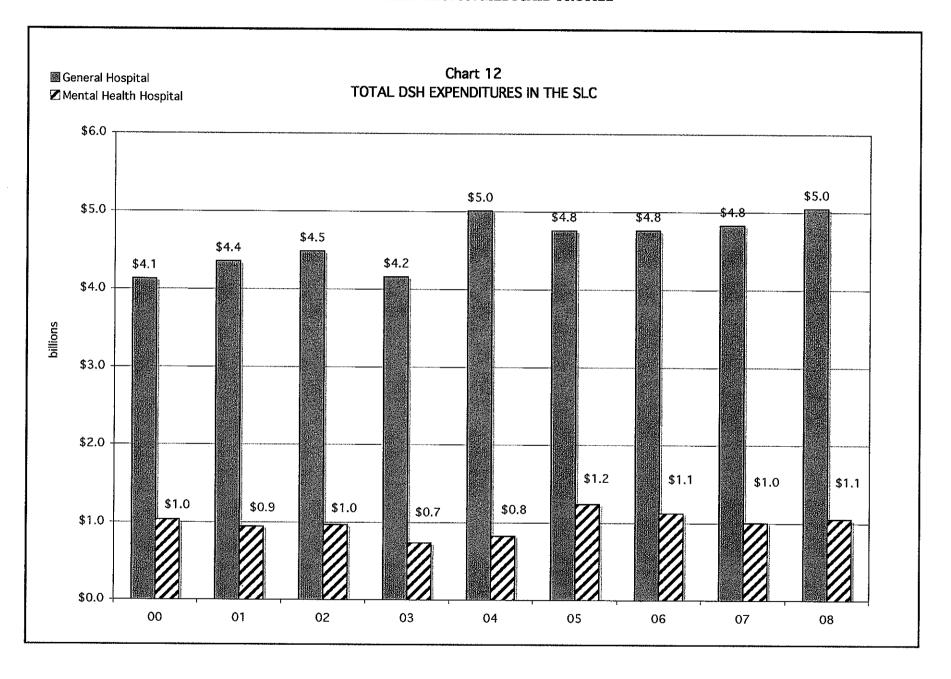

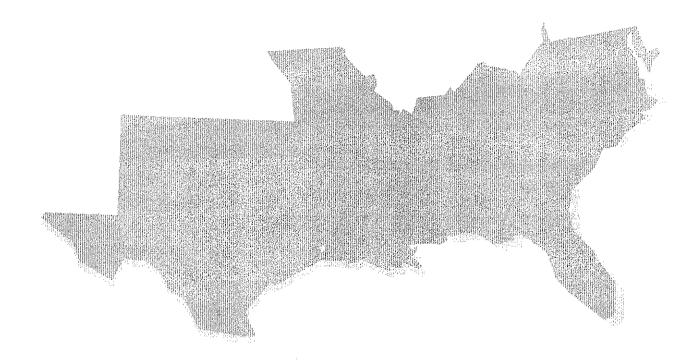

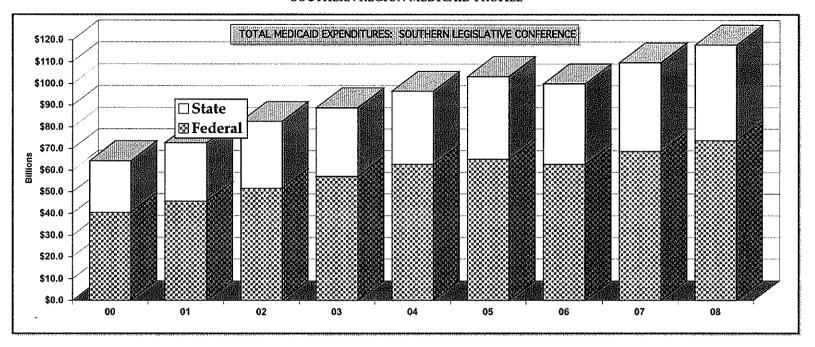

Table #2

DSH Spending as a Percentage of Medicaid Payments (FFY 06)

	2006 DSH Payments	% of Medicaid Payments
Alabama	\$416.9 M	10.8%
Arkansas	\$39.0 M	1.4%

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

Several Home and Community Based Services Waivers, under Section 1915 (c).

These waivers include:

- Mental Retardation/Developmental Disabilities: Serves 5,600 people as of 2005, operating since 1981.
- Elderly and Disabled: Serves 7,816 people as of FY 2005, operating since 1982.
- •Independent Living Program (SAIL): Serves 554 people as of FY 2005, operating since 1992.
- •Living at Home (LAH): Serves 96 people, operating since 2002.
- •HIV/AIDS: Services to individuals with diagnosis of HIV who meet the nursing facility level of care criteria, operating since 2003.
- Assisted Technology: Services to individuals that received private duty nursing (under EPSDT), and are no longer eligible due to age limit (turned 21), operating since 2003.

Managed Care

- Patient 1st: Primary Care Case Management: implemented in January of 1997 in all of the 67 counties. The program will pay physicians \$3 per member per month up to a maximum of 1,000 eligibles per physician. This 1915 (b) waiver was renewed in 2004, and serves approximately 420,000 recipients statewide.
- Partnership Hospital Program: The state contracts with 8 regional Prepaid Insurance Health Plans (PIHP) to provide inpatient hospital services to all eligibles except Medicare Part A only recipients. The PIHPs receive a per member per month capitated rate for each eligible in their region.
- Maternity Care Program authorized under 1915(b) waiver.

Coverage for Targeted Population

•The Uninsured: The state pays disproportionate share payments to the Partnership Hospital Program (Prepaid Health Plan) for payments to member hospitals that provide indigent care.

Cost Containment Measures

- Certificate of Need Program since 1978. Regulates introduction or expansion of new institutional health facilities and services. 1993 exemption from certificate of need review for health care services of rural hospitals.
- •Significant increase in the thresholds for state review of expenditures for capital and operating costs for existing HMO's and facilities in 1994.
- •Revised CON laws in 1998 to extend the review period of projects and made changes to appeal procedures related to CON decisions.
- •Rate setting. Prospective payment/per diem methodology used for Medicaid.
- Pharmacy Benefit Manager program implemented in 1998 to control increasing costs in the pharmacy program.
- •Implemented prescription limits on name brand drugs to 4 per month per recipient, except anti-psychotic and retroviral medications, effective July 1, 2004.

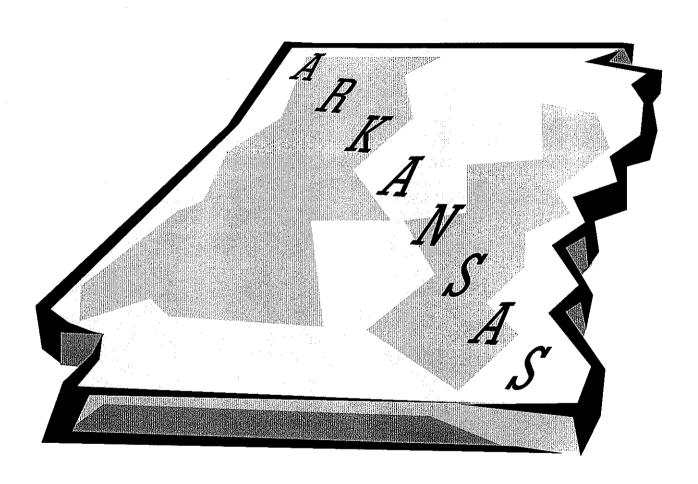

Medicaid

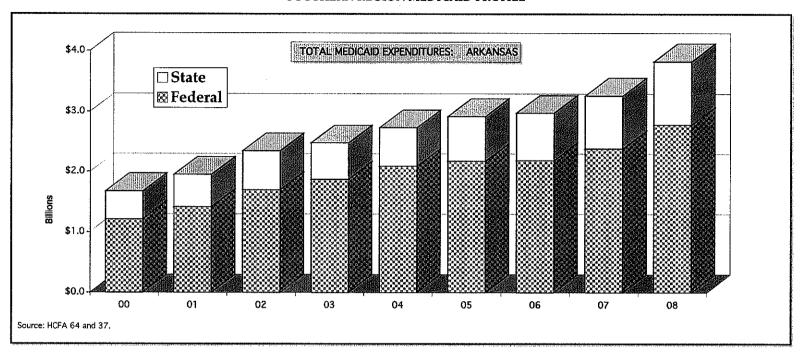

•15 optional services are offered.

Children's Health Insurance Program: A Combination of Private Insurance and a Medicaid Expansion

- •CHIP in Alabama is administered by the Alabama Department of Public Health. Phase I, approved by HCFA on January 30, 1998, is an expansion of Medicaid to cover children/adolescents through age 18 in families with incomes up to 100% of the FPL. The state enrolled 20,000 new eligibles by September of 2000.
- •Phase II (AL-Kids), approved by HCFA on August 18, 1998, is a separate state children's health insurance plan to cover children/adolescents up to age 19 in families with incomes up to 200% of the FPL. The program had a total enrollment a of 60,655 children as of September of 2004.
- •AL-Kids Plus, approved on September 28, 1999, provides a supplementary set of services for children with special health care needs.
- •AL-Kids Plus received CMS approval of a fifth plan amendment on October 30, 2003 that modified some eligibility and cost sharing criteria.
- Families with incomes up to 150% of the FPL are required to pay an annual premium of \$50 per child, with a \$150 maximum per family.
- Families with incomes above 150% of the FPL are required to pay an annual premium of \$100 per child, with a maximum of \$300.
- Families are given the option of paying premiums on an annual or monthly basis.
- •There are no cost sharing requirements for American Indians or Alaskan Natives.
- •Other cost sharing provisions for individuals in families with income less than 150% of the FPL include:
- \$1 co-payment for generic prescriptive drugs;
- \$3 co-payment for brand name prescriptive drugs, dental visits, doctor visits, and allergy treatments;
- \$5 co-payment for non-preferred prescription drugs, inpatient hospital care, allergy testing, emergency services, ambulance service, inpatient mental and chemical dependency care, and outpatient surgical services; and
- \$10 for emergency visits that are non-emergency.
- •The copays for individuals in families with income above 150% of the FPL are double the amounts paid by the below 150% group except for dental visits, doctor visits, and prescription drugs, which increase from \$3 to \$5.

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

Waivers

Several Demonstrations and Waivers have established a coordinated system of Medicaid services and providers. These include the following:

- •The Primary Care Case Management Program, under Title XIX, Section 1915 (b), of the Social Security Act, which also provides case-management services for most beneficiaries, except for dual Medicare/Medicaid eligibles, has been operating since February, 1994. Under this program, Medicaid recipients must select a primary care physician (PCP). Currently, approximately 320,000 Medicaid recipients are enrolled in the PCP managed care program.
- •The Non-Emergency Transportation Waiver, under Title XIX, Section 1915(b), of the Social Security Act, which requires beneficiaries to use the contracted transportation broker in their area for non-emergency transportation services, was implemented March 1, 1998.
- •The Women's Health Demonstration (family planning services), under Section 1115 of the Social Security Act, which provides services for women of childbearing age who have a family income at or below 200%* of the federal poverty guidelines, was implemented September 1, 1997. *Increased from 133% to 200% FPL, effective August 1, 2003.
- •ARKids First-B Demonstration, under Section 1115 of the Social Security Act, which provides services for children 18 and under whose family incomes are at or below 200% of the federal poverty guidelines, was implemented September 1, 1997. Includes provisions for copayments/coinsurance for most services. "Well health" services are excluded from cost-sharing requirements.
- •Independent Choices, a cash and counseling demonstration operating under Section 1115 of the Social Security Act, was implemented November 1, 1998. This demonstration offers cash allowance and counseling services in lieu of traditionally provided personal care services.

Several **Home and Community Based Services Waivers**, under Section 1915 (c), enable the state to provide long-term care services to people who otherwise would require institutionalization. These waivers include:

- •Developmental Disabilities Alternative Community Services waiver: Serves beneficiaries who meet the ICF/MR nursing home level of care and who experience various health and social problems. It has been operating since July 1, 1991.
- Aged and Disabled, ElderChoices: Serves 5,478 people, operating since July 1, 1991.
- Alternatives for Adults with Physical Disabilities, which provides services to the physically disabled on SSI and other individuals in need of nursing home level of care, ages 21 through 64, serves 1,110 people. Implemented July 1, 1997.
- •Living Choices Assisted Living HCBS waiver, implemented January 1, 2003, offers an alternative to private dwelling or nursing home care. Bundled Medicaid services are provided to beneficiaries in an Assisted Living Facility.

Managed Care

- Primary Care Case Management Program: ConnectCare
- Prepaid Ambulatory Health Plan (PAHP) Non emergency transportation

Coverage for Targeted Population

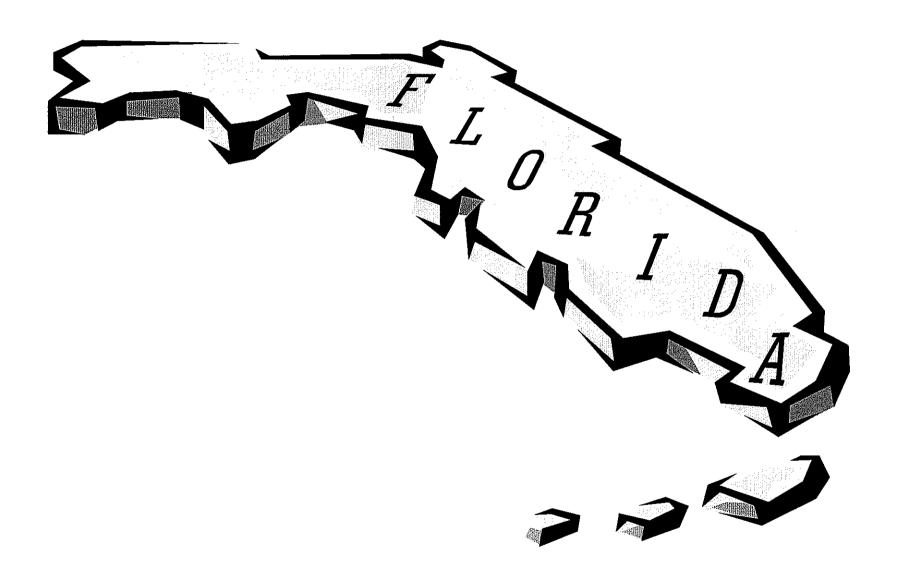

•The Uninsured: Arkansas does not have an indigent care program.

Children's Health Insurance Program: Medicaid Expansion

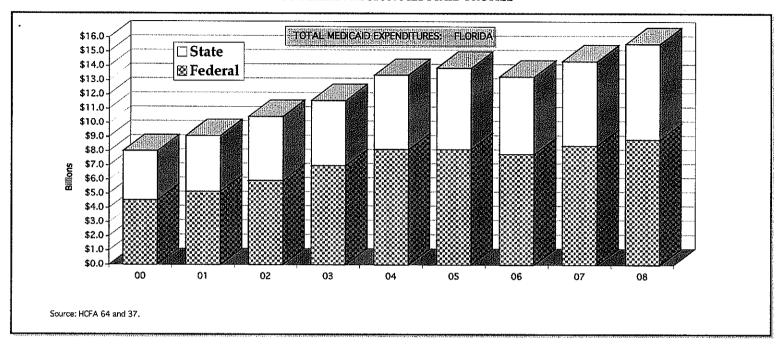

- •The State had a SCHIP medicaid expansion in place from 10/1/98 through 9/30/02. The Medicaid expansion covered children born after 9/30/82 and prior to 10/1/83 in families with incomes at or below 100% of the Federal Poverty Level. The last child aged out of the program on 9/30/02.
- •The State submitted a State Plan Amendment (SPA) for a separate state program on 12/4/98 to convert the funding for approximately one-third of the ArKids First beneficiaries and to modify the benefit package to be SCHIP compliant. The modified benefit package provided an enhanced state employee plan with the following changes in the ArKids First benefit plan: 1) providing coverage for occupational and physical therapies, hospice care and skilled nursing care; and 2) eliminating co-payments for dental well health care. This SPA was approved 2/16/01 but has not been implemented.
- •The State submitted a SPA on 4/1/04 to add the unborn child option as a separate state program; and to reflect that CMS authorized the State to use SCHIP funds for ARKids-B beneficiaries (Medicaid 1115 demonstration) that meet the definition of an SCHIP targeted-low-income child: it was approved June 30, 2004; the funding authorization was implemented retroactively; and the unborn child portion was implemented on July 1, 2004.

Cost sharing requirements for the ARKids B are as follows: \$5 co-payment for prescription drugs; \$10 co-payment for doctor's office visits other than well-child visits; 20% of the Medicaid allowed amount for durable medical equipment; and 20% of the Medicaid per diem cost for the first inpatient day. There are no deductibles or premiums for the ARKids B program

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

The state operates three Freedom of Choice Waivers, under Title XIX, Section 1115, to establish a coordinated network of Medicaid providers. These include:

- Consumer Directed Care was implemented in 1999 and approximately 1,092 participants are currently receiving a monthly budget.
- Family Planning Waiver, under Section 1115, Title IV-A, of the Social Security Act, extends family planning services to women with incomes up to 185% of the FPL for two years post partum, operating since October 1, 1998. The program serves approximately 28,650 individuals in need of family planning.

The state operates two general managed care and selective contracting waivers, under Title XIX, Section 1915 (b), to establish a coordinated network of Medicaid providers. These include:

- Primary Care Case Management Program (MediPass), which provides case management services for TANF and SSI-Non Medicare recipients statewide and has been operating since 1991.
- •Non-emergency Medical Transportation: Provides services to approximately 2 million Medicaid recipients. Implemented June 2001 and renewed December 2004.

Several **Home and Community Based** Services Waivers, under Section 1915 (b/c), enable the state to provide long-term care services to people who otherwise would require institutionalization. These waivers include:

- Prepaid Mental Health Plan through Florida Health Partnership provides mental health services for beneficiaries in a five-county area and has been operating since March, 1996. Through this program, approximately 55,000 individuals receive a broad array of mental health services.
- Aged & Disabled Adult: The waiver serves 9,557 people, operating since April 1, 1982.
- Developmental Services (MR/DD): Two waivers serve approximately 25,000 people, operating since June 14,1980.
- Assisted Living for the Elderly Waiver. Implemented statewide February 1, 1995. Serves recipients who reside in qualified ALFs.
- AIDS: Project Aids Care (PAC), operating since November 1, 1989.
- Model Waiver: Serves children with Degenerative Spinocerebellar Diseases, serves 5 people, operating since June 14, 1991.
- Nursing Home Diversion Waiver authorizes a long-term care demonstration project to allow the state to contract with various pre-paid, capitated risk-based health plans designed to provide primary and long-term health care services to individuals who are eligible for both Medicare and Medicaid. Implementation of the program began in December of 1998.
- Traumatic Brain Injury and Spinal Cord Waiver, authorized in Regular Session 1998. The state implemented the program in September of 1999.
- •The Channeling Project for the frail elderly: Provides home and community based services through an organized health care delivery system to approximately 1,500 individuals operating since 1985.
- •The Family and Supported Living Waiver is a home and community-based services program, effective October 1, 1998. It replaced the Supp. Liv. Arrang. Program.
- •Adult Day Health Care Waiver: Implemented in two areas of the state in 2004.
- Alzheimer's Disease Waiver: Began operation in 2005.
- Program of All Inclusive Care for the Elderly (PACE)
- Familial Dysautonomia
- Adult Cystic Fibrosis Waiver: Approved 2002. Provides HCBS to reduce risk of hospitalization.

FLORIDA

Managed Care

- Primary Care Case Management: The Medicaid Provider Access System, or MEDIPASS. Providers receive a \$3 case management fee per month per enrollee.
- Commercial and Medicaid-only Manged Care Organization
- Prepaid Inpatient Health Plan (PIHP)
- Prepaid Ambulatory Health Plan (PAHP)

Some plans include Provider Services Networks.

Coverage for Targeted Population

- •The Uninsured: Florida does not have a statewide indigent care program, however, there are local programs subsidized through special tax districts
- Low-income pool to cover uninsured as a component of Medicaid reform
- Health Flex Plans for eligibles under 200% of the FPL to assist in providing preventive care through basic health care coverage
- · Medicall Needy program for the aged, blind, and disbled
- Presumptive Eligibility for pregnant women

Cost Containment Measures

• Certificate of Need Program since 1973, amended in 2000. Regulates introduction or expansion of new institutional health facilities and services; exempts CON requirements for Medicare-certified home health agencies, respite care services, retirement communities and residential facilities that only serve retired military personnel and their dependents.

Medicaid

- •24 optional services are offered.
- •Florida Medicaid Reform: 5 year 1115 demonstration waiver (2005 to 2010) approved October 2005. Implementation began in 2 counties (Broward and Duval) in 2006, and expanded to 3 other counties in 2007 (Baker, Clay, and Nassau). The demonstration offers choice counseling, customized benefits, risk adjusted premiums, and a low income pool. In addition, beneficiaries may decide to opt out and participate in private employer sponsered health insurance, in which Medicaid premiums can be used to cover employer sponsered care premiums. New and existing HMO's and PSN's participate.
- Disease Management program offered under MEDIPASS through Disease Management Organization (consisting of a nurse that coordinates disease/options.
- •Drugs not on Florida's Preferred Drug List (PDL) require prior authorization and does not reimburse pharmacies for certain drugs.

Children's Health Insurance Program: A Combination expansion of Medicaid and Florida Healthy Kids (Title XXI)

- Expanded Medicaid coverage for children age 15 to 19 in families with incomes up to 100% of the FPL; provides coverage for an additional 24,369 children/adolescents. The plan received HCFA approval on March 5, 1998.
- Expanded Florida Healthy Kids Program for children/adolescents age 5 to 19 in families with incomes up to 200% of the FPL (includes premium subsidies); provides coverage for an additional 279,146 individuals. The Florida Healthy Kids Program also offers full pay buy-in above 200% of the FPL; premiums of \$110 per month per member.
- Added Medikids Program to provide coverage for children from birth to age 5 in families with incomes up to 200% of the FPL; provides coverage for an additional 33,343 children. The plan received HCFA (CMS) approval on September 8, 1998.
- Added Children's Medical Services (CMS) Network program to provide coverage for individuals under the age of 18 with special health care needs in

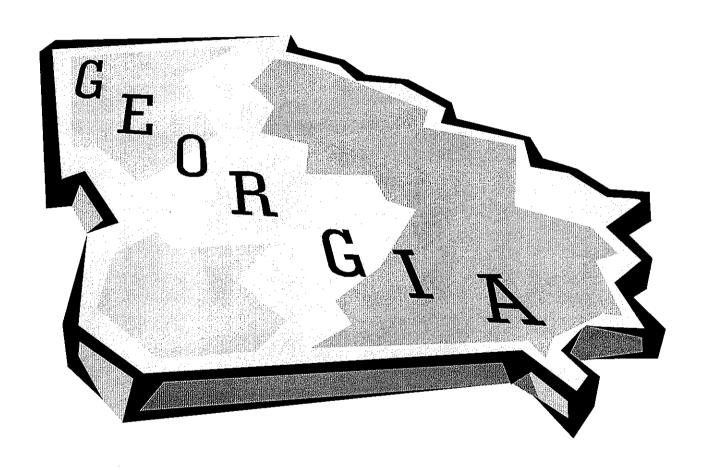

FLORIDA

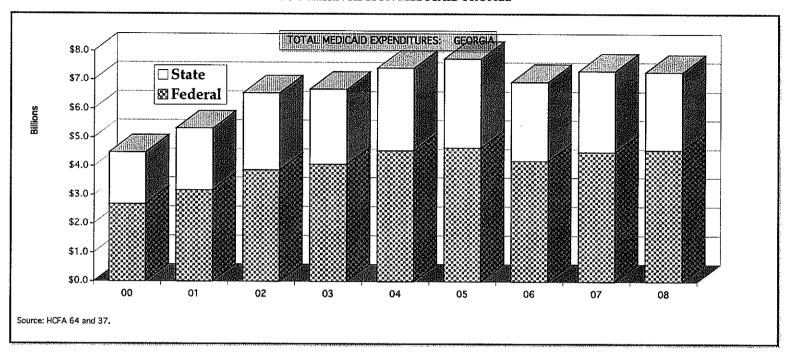

families with incomes up to 200% of the FPL; provides coverage for an additional 9,751 eligibles. CMS allows individuals with special needs to have a specialist as their primary care physician without any special authorization.

- •Shifted coverage from MediKids and CMS Network to Medicaid for children birth to age one effective July 1, 2000.
- Received HCFA approval in March 2000 to implement a dental pilot program in Palm Beach and Dade counties.
- •Expanded Medicaid coverage to enroll children under age 1 with family incomes between 185% and 200% of the FPL and eliminated coverage for this group under MediKids and Title XXI CMS Network.

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

Two Freedom of Choice Waivers, under Title XIX, Section 1915 (b), of the Social Security Act, established a coordinated network of Medicaid providers:

- •Georgia Better Health Care Program (GBHC) provides a statewide case managed health care system for TANF, TANF-related, and SSI beneficiaries. It has been operating since October 1, 1993. The state was granted an extension on this program through July 2003. Approximately 1,053,733 Medicaid recipients (around 77% of all recipients) were enrolled as of June 2002. The waiver expired in December 2002.
- Non-emergency Transportation: Serves approximately 850,000 recipients, implemented in September 1999 and renewed through January 2007.

Georgia has four Home and Community-Based Services Waivers and 1 demonstration project that have been approved by the Centers for Medicare and Medicaid Services (CMS). Some of the services provided to individuals in waiver programs include: personal support, skilled nursing, environmental modification services, specialized medical equipment and supplies, counseling, emergency response system, home health services, transportation, day care, day habilitation, personal care home, home delivered meals, respite care services, and case management services. They include:

- •Community Care Services Program: offers services to help elderly and/or functionally impaired or disabled individuals remain in the community or return to the community from a nursing home.
- •MR/DD: helps individuals that have mental retardation or a developmental disability.
- •The Independent Care Waiver Program (ICWP): helps adult Medicaid recipients with disabilities live in their own home or in the community instead of living in a hospital setting. The ICWP also includes services for adult Medicaid recipients with traumatic brain injuries.
- •SOURCE (Service Options Using Resources in a Community Environment) Project: links primary care with an array of long-term health services in an individual's home or community to avoid preventable hospital and nursing home care for frail elderly and disabled individuals.

Managed Care

- •Primary Care Case Management Program, or the Georgia Better Health Care service delivery system
- Medicaid only MCO
- •Prepaid Ambulatory Health Plan (PAHP)

Coverage for Targeted Population

- •The Uninsured: The State provides disproportionate share payments (DSH) for indigent care through the Indigent Care Trust Fund (ICTF), established in 1990.
- •The Indigent Care Trust Fund (ICTF) II, implemented in May of 1997, was specifically designed to assist hospitals in small communities and rural areas. In FFY 04, trust fund payments to 96 participating hospitals totaled \$424.7 million (does not include any state matching funds).

Cost Containment Measures

- •Certificate of Need Program since 1979. Regulates introduction or expansion of new institutional health care facilities and services. Legislation in 1994 revised composition and duties of the Health Planning Review Board and sets procedures for appeals of certificate of need decisions.
- Privatization of administrative functions, including claims payment and the Medicaid Management Information System (MMIS) which maintains the Department's claims data.

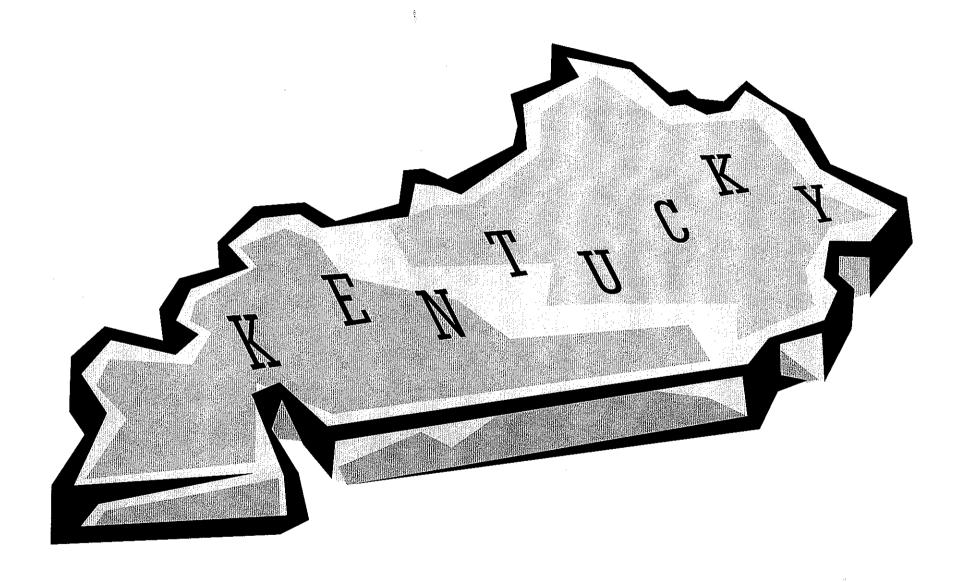

Medicaid

- •37 optional services are offered.
- Prescription Drug Outreach program: a patient assistance program that provides generic drugs to uninsured and underinsured (at or below 250% of the federal povety level). Individuals/families of all ages may participate.
- •Consumer directed care added (2005) as an option to two waivers (Independent Care and MR waivers) to add an option to direct a delivery system to fit needs.
- •Georgia's Disease Management program (Enhanced Care) are for the aged, blind, and disabled.

Children's Health Insurance Program: State Designed Plan

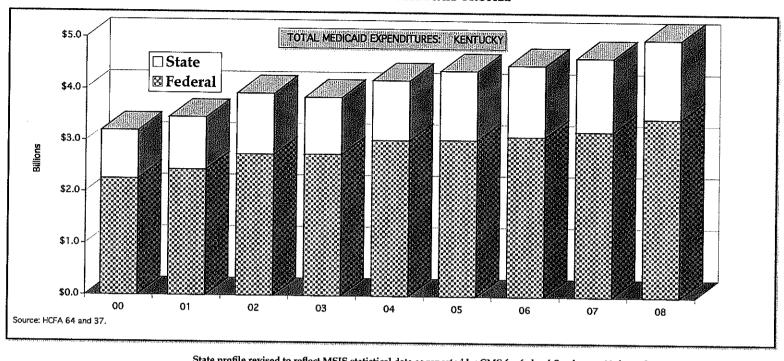

- •The state initiated and expanded health insurance coverage for the Children's Health Insurance Program with funds made available in the Balanced Budget Act of 1997. State officials estimate that Georgia has 299,000 uninsured children/adolescents at the current time.
- •CHIP in Georgia is called "PeachCare for Kids." The program is administered by the state Medicaid agency, but as a separate program and not an expansion of Medicaid. The program was approved by HCFA on September 3, 1998. As of September 2004, approximately 180,000 children/adolescents had received services under the PeachCare Program. CMS approved an amendment in February 2002 that allows an additional exception to Georgia's 3 month waiting period. The new exception applies to families who have dropped high-cost, private insurance that costs more than 5 percent of the family's income.
- •Uninsured children/adolescents will be eligible for PeachCare benefits if their families' incomes are less than or equal to 235% of the FPL.
- Families with children from birth to 18 years of age will be charged a monthly premium from \$10 to \$70 depending on the number of children enrolled and family income.
- •Children/adolescents enrolled in PeachCare for Kids have the option to use the primary care case management program or enroll in a managed care organization.

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

Waivers

Kentucky has provided transportation services since June 1998 under a Title XIX, Section 1915 (b) waiver. The Kentucky Patient Access and Care System (KenPAC) was started in 1986 under a 1915(b) waiver and converted to a state plan option in 2000. Serves approximately 620,800 Medicaid recipients.

Kentucky has one health reform demonstration wavier, The Partnership, approved October 12, 1995, under Title IV-A, Section 1115, of the Social Security Act, implemented on November 1, 1997. Under The Partnership, the state has one managed care region with a network consisting of public and private providers.

Kentucky also operates a number of **Home and Community Based Services Waivers**, under Section 1915 (c), enabling the state to provide long-term care services to people who otherwise would require institutionalization: They include:

- Elderly & Disabled: Serves 12,683 as of 2004, operating since January 1, 1987.
- Mental Retardation/Developmental Disabilities (Support for Community Living), operating since 1984.
- •Ventilator-Dependent Individuals: , operating since October 1, 1987.
- •Traumatic/Aquired Brain Injury: HCFA approved in March of 1999. Operational since April 1999.
- •Consumer Directed Option: New option offered to Kentucky Medicaid home and community based waiver recipients (and eligibles). The CDO provides flexibility by offering consumer choice in providers and services.

Managed Care

- Primary Care Case Management (PCCM), or KenPAC (Kentucky Patient Access and Care Services). Provides a medical home and a primary care physician.
- Medicaid only Managed Care Organizatoin (MCO): The Kentucky Passport Health Plan provides medicaid managed care to 16 counties to approximately 140,000 plan members.
- Prepaid Ambulatory Health Plan (PAHP)

Coverage for Targeted Population

•The Uninsured: The Medical Assistance Indigent Trust Fund provides funds for disproportionate share hospitals. The fund imposes provider taxes to generate federal revenue to be used to pay uncompensated care costs to hospitals, nursing homes, physicians, home health agencies, and pharmacies.

Medicaid

- 24 optional services are offered.
- •Medicaid Reform: Kentucky has requested and was granted waiver approval (1115) in 2006 to transform its Medicaid program.

The waiver is targeted to cover over 700,000 beneficiaries. The changes to the traditional Medicaid program incorporate the following concepts:

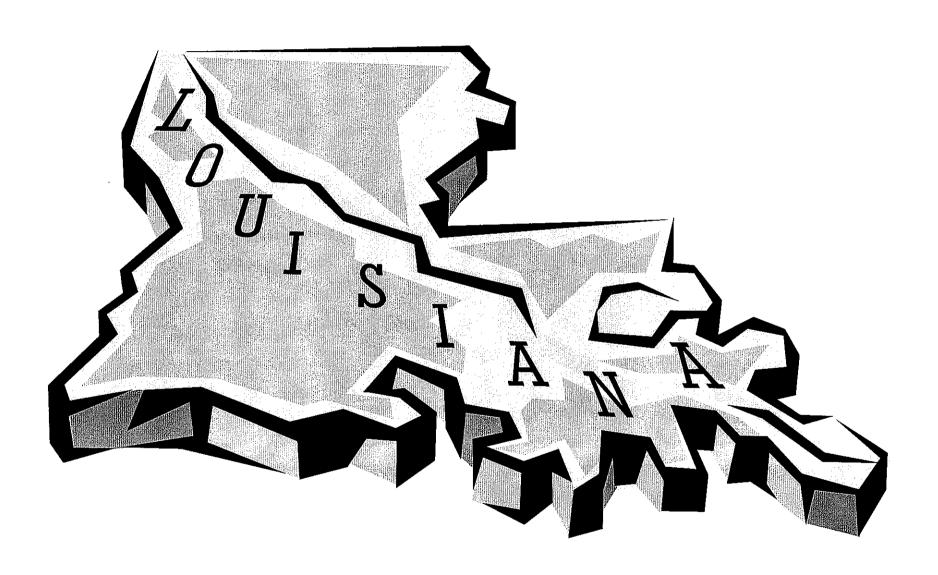

- 1) limited or targeted benfits (standard benefits offered to all recipients, with optional benefits offered to tailor the needs specifically to recipients;
- 2) 4 categories of beneficiaries, which include a general population, children, elderly, and MR/DD;
- 3) cost sharing by the majority of members (recipients), including co-payments and premiums on a sliding fee scale based on individual income;
- 4) encourages employer sponsered care when available by subsidizing premiums
- 5) implementation of disease management initiatives for recipients to address chronic illnesses such as diabetes and cardiovascular diseases.
- 6) incentives to beneficiaries to be used for health related costs

Children's Health Insurance Program: Medicaid expansion and state designed plan

- •CHIP in Kentucky, called "Kentucky Children's Health Insurance Program" (KCHIP), received HCFA approval on November 30, 1998. The program, which is a combination of Medicaid expansion and a state-designed insurance plan, is administered by the state Medicaid agency. The Medicaid expansion provides health care coverage for eligibles age 14 to 19 in families with incomes up to 100% of the FPL. The KCHIP insurance program provides health care coverage to individuals birth to 19 in families with incomes between 100% and 200% of the FPL who are not Medicaid eligible.
- For families with incomes up to 150% of the FPL, there are no cost sharing obligations.
- •Families with incomes between 151% and 200% of the FPL are required to pay premiums as follows: 151%-200%: \$20 per month per six month period (not to exceed 5% of the family's annual income)
- Additional cost sharing obligations:

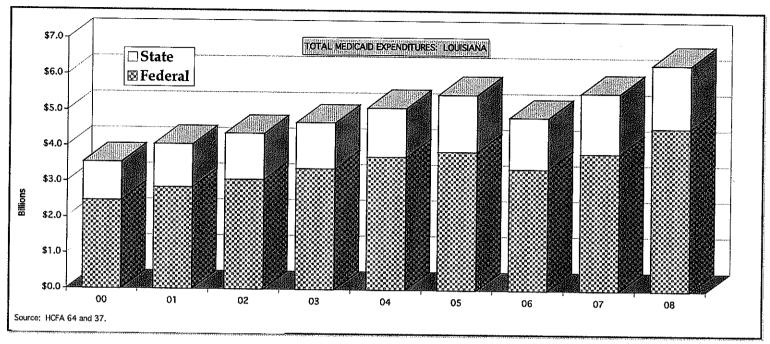

A co-payment is required for prescription drugs. Pharmacy co-payments range from \$1 to \$3 per perscription, depending on the type of prescription received. No co-payment is required for allergy shots; \$2 dollar co-pays for allergy testing

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

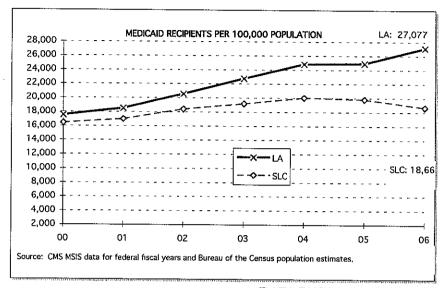

*Medicaid payments have been adjusted to remove IGT Funds that were deposited into trust as follows: FFY 01 \$306,381,184; FFY02 \$744,448,177; and FFY03 \$5,255,274.

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

Louisiana operates a Primary Care Case Management (PCCM) under the authority of a 1915(b) waiver. The program, CommunityCARE, has been in existence since June 1, 1992 and serves approximately 700,000 beneficiaries across the State.

Louisiana also has several **Home and Community Based Services Waivers** under Section 1915 (c), which enables the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- Elderly and Disabled Adult (EDA): Operating since July 1993
- •Mental Retardation/Developmental Disabilities: Operating since June 1, 1990. Beginning in October 2003, individuals were transitioned out of the MR/DD waiver into the New Opportunity Waiver (NOW), an Independence Plus waiver which encompasses additional services and an option for participants to elect consumer direction.
- Adult Day Health Care (ADHC): Certain services for 5 or more hours a day in an ADHC facility, and includes activities of daily living services, health and nutrition counseling, social services, and exercise programs. Operating since January 1985.
- •Supports: Age 18 years of older with MR or DD which manifested prior to age 22.
- Children's Choice (CC): Supplemental support to children with DD that currently live at home with families. Children's Choice is an option offered to children that are requesting services offered under the New Opportunities Waiver. Operating since February 21, 2001.
- •Long Term-Personal Care Services: A state plan service option for Medicaid eligibles age 65 or older or age 21 and older with disabilities that offer activities of daily living services.
- •1115 Family Planning Waiver: eligibility expansion for Family Planning Services to uninsured women (ages 19 to 44) with incomes up to 200% of the FPL who are not otherwise eligible for Medicaid, SCHIP, Medicare, or other insurance coverage.

Managed Care

• Primary Care Case Management: Community Care. Each enrollee is linked to a Primary Care Physician that provides a Medical Home.

Coverage for Targeted Population

- Provides coverage for the uninsured mainly through state charity hospital system. Additional indigent care provided through rural hospitals and hospitals authorized in the Community Hospital Pool.
- Medically Needy Program

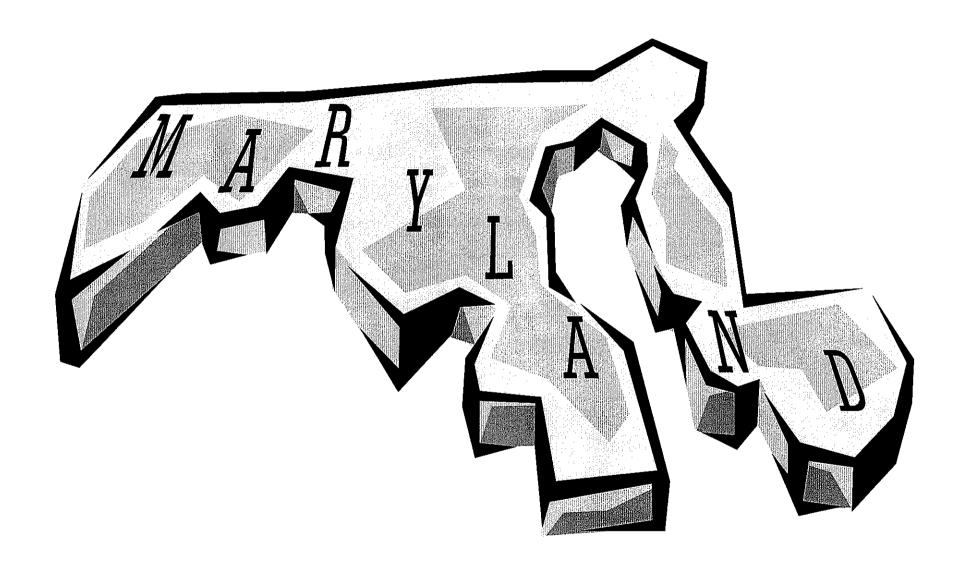

Medicaid

- Created the Jefferson Parish Human Services Authority and the Capital Area Human Services District as community based programs. These entities are restrictive to outpatient and inpatient care services in the area of substance abuse, and outpatient care services for mental retardation, mental health, and public health.
- Enacted legislation in FY 03 that created the Florida Parishes Human Service Authority (Act 594) and the Metropolitan Human Services District (Act 846). The new laws provided for DHH to implement the framework for the program by July 5, 2004, and have individual provider agreements in place by July 1, 2005.

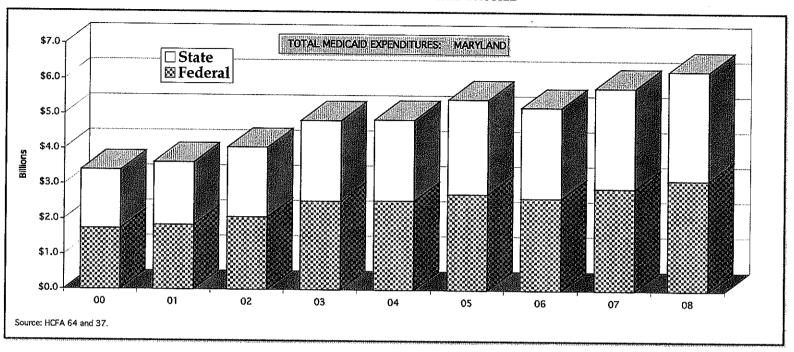

Children's Health Insurance Program: Medicaid Expansion

- •The Children's Insurance Program (LaChip-Phase I) was implemented in November of 1998. The Medicaid Program was expanded to provide health care benefits to children/adolescents from birth to age 19 in families with incomes up to 133% of the FPL. The program provided coverage to approximately 52,000 children by October 1, 1999.
- •Legislation enacted in the Regular Session of 1999 (ACT 1197) authorized the expansion of LaCHIP.
- Phase II, effective October 1999, expanded Medicaid to provide health care benefits to children/adolescents from birth to age 19 in families with incomes up to 150% of the FPL and enrolled approximately 10,000 children.
- Phase III implemented January 1, 2001 to provide health care benefits to children/adolescents from birth to age 19 in families with income from 151-200% of the FPL and enrolled an additional 12,000 children.
- Phase IV, effective May 2007, offered a separate state program (not a medicaid expansion) to pregnant women that do not meet citizenship requirements.
- •Phase V, effective July 2008, offers health care benefits to uninsured children under age 19 under a a separate state program (non medicaid expansion) whose families incomes are between 200% and 250% of the federal poverty level. The program is called the LaChip Affordable Plan. Regular LaChip only covers children in families with incomes up to 200% of the fpl. These moderate income families are required to share the cost of the program (\$50 monthly premium per family) and certain services require a co-pay (ER, prescription). The program is administered by the Louisiana Office of Group Benefits (acting as the third party administrator) which functions include claims payments and premium collections.

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

Waivers

Maryland's Medicaid managed care program is called HealthChoice. Under a §1115 waiver, approved on October 30, 1996, HealthChoice enrollment began in June of 1997. Within the program, there was a State Fiscal Year 2004 average enrollment of 510,000 recipients in MCOs, which includes Medicaid and Maryland Children's management to an expanded set of benefits known as optional services. The state has sent a letter to CMS with the intent to renew the HealthChoice demonstration in May of 2007.

- •The Rare and Expensive Case Management Program (REM): The REM, as part of HealthChoice Program, was developed to address the special requirements of waiver eligible individuals diagnosed with rare and expensive conditions and diseases. In addition to standard Medicaid benefits, this program provides intensive case management to an expanded set of benefits known as optional services. As of May 2005, 3,437 individuals were enrolled in the program.
- •Stop Loss Case Management (SLM) Program: Under the HealthChoice Program, a Managed Care Organization (MCO) may apply for stop loss protection when the plan is to be submitted to the Maryland Insurance Administration. There is one MCO for which the Department of Health and Mental Hygiene provides stop-loss protection at a rate determined by the Department. The Department assumes responsibility for 90% of the accrued inpatient hospital costs in excess of \$30,000; the MCO is responsible for the remaining 10%. The Department provides for extended stop-loss coverage if an enrollee remains hospitalized at the end of a calendar year and the costs for that stay exceed the \$30,000 threshold in the following calendar year.
- •Pharmacy Point-of-Sale: The pharmacy electronic point-of-sale claims management and prospective drug utilization review system began January 1993. This successful system provides on-line real-time pharmacy claims adjudication for all outpatient prescription drugs for the fee-for-service Medicaid population. Additionally, this system also has an enhanced feature called Coordinated PRO DUR which checks for drug interactions or conflicts with dispensing of medication and for inappropriate utilization. PRO DUR is available to both the Medicaid fee-for-service population and to the HealthChoice population.

Several **Home and Community Based Services Waivers** under Section 1915 (c) enable the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- Waiver For Older Adults: Senior Assisted Housing Waiver: Operating since 1993. Expanded statewide in 2001. Provides services to individuals, age 50, in participating licensed assisted living facilities or in their homes.
- •MR/Developmental Disabilities Waiver: For developmentally disabled individuals as an alternative to institutionalization in an ICF/MR. This waiver has been in operation since April 1, 1984. Services include day habilitation, residential options, respite, environmental modifications, assistive technology and adaptive equipment.
- Model Waiver For Disabled Children: For medically-fragile/technology-dependent children so that they can be cared for at home. This waiver has been in operation since January 1, 1985. This waiver provides services that enable medically fragile children to live and be cared for at home rather than a hospital. Services include case management, private duty nursing, shift home health assistance, and durable medical equipment.
- •Living at Home: Targets individuals age 21-59. Provides consumer directed personal assistance services for adults with physical disabilities in their own home. Services include attendant care, case management, skilled nursing supervision, and various therapies. Effective April 2001.
- Waiver For Children With Autism Spectrum Disorder: Targets children age 1-21 who are diagnosed with Autism Spectrum Disorder and who require an ICF/MR level of care. This waiver became effective July 1, 2001.

Managed Care

•Medicaid only Managed Care Organization (MCO): HealthChoice - mandatory managed care program, operational in 1997. Eligible Medicaid enrollees able to choose MCO and select a Primary Care Physician under the MCO. Currently 7 MCO's that participate in Maryland's HealthChoice program.

Coverage for Targeted Population

- •Maryland Primary Adult Care Program (PAC). Basic health care for low income adults. Limited services and medications for certain low income individuals aged 19 and over. Services include free visits to a primary care provider, counselor, or mental health professional (psychiatrist), and access to no cost or low cost prescription drugs. Some medications require a co-pay. Income guideline is \$17,170 for a family of three, with asset limits of \$4,000 per person or \$6,000 a couple.
- •Maryland Pharmacy Discount Program: A pharmacy subsidy program for certain low-income Maryland residents on Medicare as permitted by a §1115 waiver amendment. Funded primarily through the Ryan White Care Act. Assist low to moderate income Maryland residents to treat HIV. Must meet cetain income guidelines
- Maryland AIDS Drug Assistance Program: A pharmacy benefit program that helps low and moderate income Maryland residents pay for some drugs prescribed to treat HIV/AIDS. There is no co-pay, but there may be a monthly participation fee that depends on the enrollee's income. Eligibility is based on an income standard of \$35,920 a year (\$48,820 for a couple).
- Maryland AIDS Insurance Assistance Program: The State pays to maintain employee-based insurance coverage for HIV-positive individuals who can no longer work because of their illness, effective October 1997.

Coverage for Targeted Population (Continued)

• Women's Breast and Cervical Cancer Health Program: A program that pays for full coverage of medical services (physician, laboratory, pharmacy services, etc.) for women aged 40-64; not limited to cancer treatment services. Eligibility is limited to uninsured Maryland women or women who have insurance that does not cover cancer treatment and are not eligible for Medicaid or Medicare; they must have received screening services provided by the Centers for Disease Control Breast and Cervical Cancer Screening Program and have had a biopsy through the Maryland Breast and Cervical Cancer Screening Program or the Diagnosis and Treatment Program that resulted in a diagnosis of breast or cervical cancer, and require cancer treatment services. The program began on April 1, 2002 and is financed with State and federal dollars.

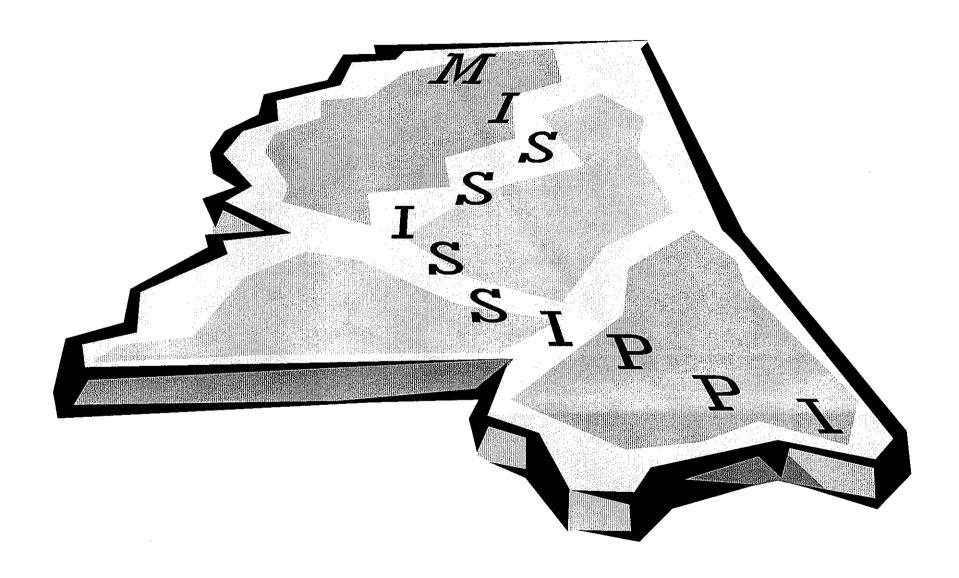

Medicaid

22 optional services are offered.

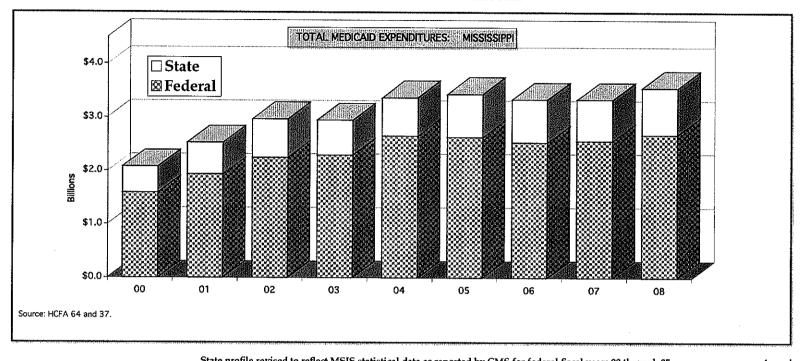

Children's Health Insurance Program: Medicaid Expansion

• Eligibility for uninsured children under age 19 whose families income is at or below 200% of the federal poverty level. In addition, pregnant women (no age limits) with income at or below 250% of the federal povety level are eligible for certain benefits. Pregnant women may receive prenatal and post partum doctor visits, doctor visits related to pregnancy, lab, dental, vision, vitamins and certain prescriptions, mental health services, and family planning services.

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

The state has a waiver from the Centers for Medicare and Medicaid Services (CMS) to operate a health reform demonstration under Section 1115.

•Healthier Mississippi will provide Medicaid services to individuals that lost coverage due to the elimination of the optional Poverty Level and Aged category, effective July 1, 2004. This waiver will serve approximately 5,000 individuals per year that do not have Medicare coverage. Received CMS approval September 10, 2004.

Several **Home and Community Based Services Waivers** under Section 1915 (c), enable the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- Elderly and Disabled: Operating since July 1, 1994. Provides case management, homemaker services, transportation, respite, and home health visits.
- •Mental Retardation/Developmental Disabilities: Operating since July 1, 1995. Services include respite, habilitation, various therapies, supplies and attendant services.
- •Independent Living: Renewed June 2003.
- •Assisted Living: Implemented Oct. 1, 2000. Waiver was renewed in December 2003. Must be 21 or older. Personal care, homemaker services, medication oversight, transportation, and supplies.
- Traumatic Brain/Spinal Cord Waiver: Case management, in home respite, environmental adaptations, specialized medical equipment and supplies.
- •Mississippi Family Planning Waiver (1115) implemented in 2003 that provides access to certain primary care services for women of childbearing age with incomes up to 185% of the FPL with the intent to reduce unintended pregnancies.

Managed Care

•Prepaid Ambulatory Health Plan

Coverage for Targeted Population

- •The state does not have a statewide indigent care program, however, legislation enacted in 1996 specifies that University of Mississippi Medical locations shall provide at least 50% of their services to indigent persons.
- •Breast and Cervical Cancer services for women

Cost Containment Measures

•Certificate of Need Program since 1979. Regulates introduction or expansion of new institutional health care facilities and services.

Medicaid

•23 optional services are offered.

Children's Health Insurance Program: Medicaid Expansion and State-Designed Program

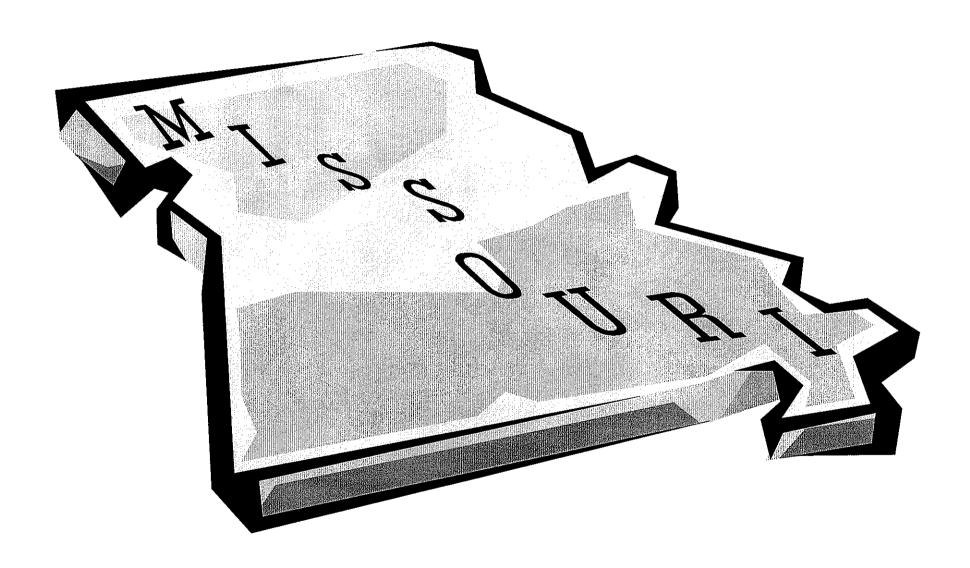

•Mississippi Children's Health Program (CHIP I) provides health insurance coverage for children age 15 through 18 in families with incomes below 100% of the FPL. The program (Phase I) received CMS approval on October 26, 1999. The benefit package is the same as the regular Medicaid program and does not include

any cost sharing provisions. Phase I expects to provide coverage to 15,000 new enrollees.

•CHIP II is a state plan option and expands coverage for children/adolescents birth through 18 in families with income from 100% to 200% of the FPL. CHIP II was submitted to CMS for approval in September 1999 and approved in December 1999. Phase II was implemented in January 2000. As of September 30, 2004, the program had an enrollment of 82,900 individuals.

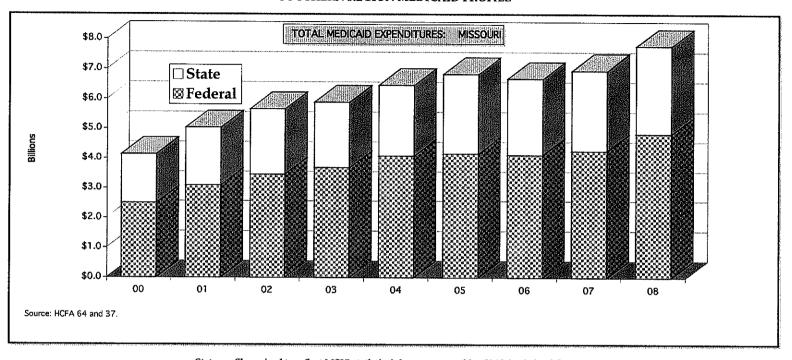

Cost sharing requirements are required in CHIP program for certain individuals.

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

Missouri has one Freedom of Choice Waiver, under Title XIX, Section 1915 (b), formally called MC+ Managed Care Plus, changed to MOHealthNet Managed Care. Effective September 2007, Missouri's Medicaid program was renamed MO HealthNet, and the managed care program was renamed accordingly.

•MO HealthNet Managed Care refers to the statewide medical assistance program for low-income pregnant women, children, and some uninsured parents. Provides health care services for beneficiaries through a managed care delivery system (MCO's). Some individuals receive their care through either a Fee-For-Service (FFS) delivery system or the managed care delivery system, depending on where the individual lives in the state. In regions of the state where MO HealthNet Managed Care health plans are operational, certain participants must enroll in a managed care health plan. In areas of the state where managed care is not operational, participants may freely choose an approved provider for health care under the FFS delivery system.

•As of 2008, each region has at least 3 separate MCO's/health plans.

	Number of	Health	Start
<u>Region</u>	<u>Counties</u>	<u>Plans</u>	Date
Eastern	10	3	9/1/95
Central	18	3	3/1/96
Western	9	4	1/1/97

Missouri also operates a number of Home and Community Based Services Waivers under Section 1915 (c), enabling the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- •Aged and Disabled: operating since April 22, 1980. In-home services to certain individuals aged 63 or over.
- •Mental Retardation/Developmental Disabilities Comprehensive Waiver: operating since July 1, 1988.
- AIDS Waiver: operating since July 1, 1998. Provides in home services to participants diagnosed as having AIDS or HIV related illness and meeting nursing home level of care.
- Children with Developmental Disabilities, to age 18: operating since October 1, 1995. This waiver allows the state of Missouri to take into account only the child's income when determining eligibility.
- Physical Disability Waiver: operating since July 1, 1998. Services to individuals with complex medical needs that no longer qualify for the Healthly Children program. Must be 21 or older.
- •Independent Living Waiver: operating since January 1, 2000. Offers additional personal assistance services beyond the services limited by the state plan for personal care services.
- •Community Support Waiver MR/DD: established July 1, 2003. Services are more limited than traditional MR/DD waiver.
- Program of All-Inclusive Care for the Elderly (PACE): comprehensive service delivery system for certain elderly (at least 55). PACE provides a full range of service including primary care and acute long term care.
- •Women's Health Services Program waiver (1115 demonstration): extends coverage to certain uninsured women (age 18 to 55) that lose MoHealthNet benefits 60 after childbirth. Services are extended for one year, and no cost-sharing is required, and services are granted through the fee for service program.

Managed Care

- Commercial Managed Care Organization (MCO)
- Medicaid only Managed Care Organization (MCO)
- •Prepaid Ambulatory Health Plan (PAHP)

Coverage for Targeted Population

•The Uninsured: The state does not have an indigent care program.

Enacted legislation in 2001 that created the Missouri Senior Rx Program, operational in July 2002. Eligible participants must pay a 40% co-payment for prescription drugs and are limited to \$5,000 per year per enrollee. Also requires payment of initial enrollment fees of \$25 to \$35.

•Breast and Cervical Cancer Treatment Program for certain uninsured women (under 65). Program has income limits.

Cost Containment Measures

- •Certificate of Need Program since 1979. Regulates introduction or expansion of new institutional health facilities and services. After December 31, 2001, CON will only be required for long-term care facilities and construction of new hospitals.
- •In 1999, amended CON laws to allow certain facilities to purchase beds from underused facilities.

Medicaid

- •11 optional services are offered for children and adults in a category of assistance for pregnant women or the blind, effective September 1, 2005.
- •State has broad-based taxes on facilities such as hospitals and nursing homes to generate funds for the state Medicaid program.
- Enacted legislation July 1, 2002 to extend Medicaid coverage to individuals that could be eligible as a result of the federal Ticket to Work and Medicaid Buy-in legislation.

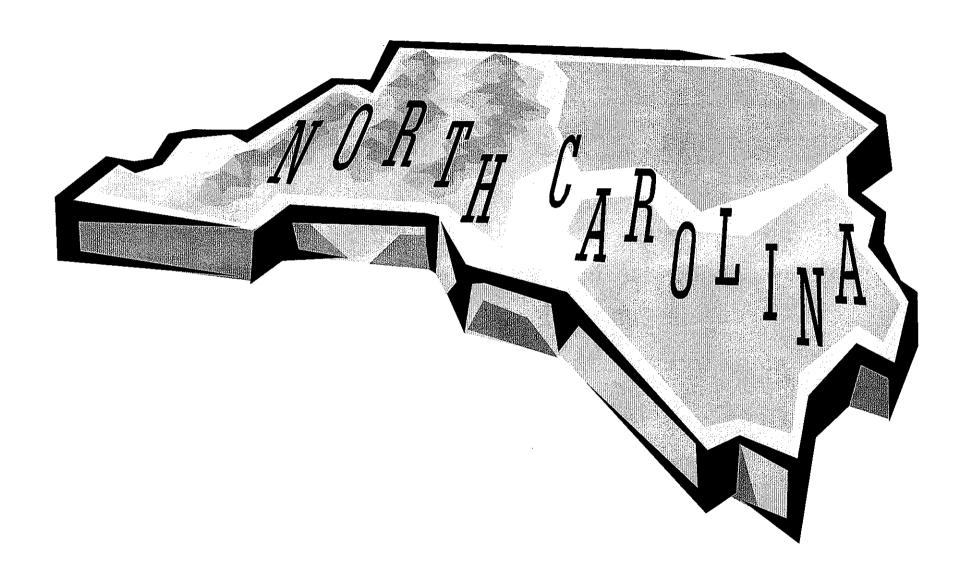

Children's Health Insurance Program: Medicaid Expansion

- •SCHIP in Missouri is administered by the Division of Medical Services through an HMO style program (MoHealthNet for Kids), as well as a FFS program.
- •The SCHIP program is an expansion of Medicaid to provide health care benefits for children/adolescents from birth to age 18 in families with incomes up to 300% of the FPL. Children must be uninsured at least 6 months before eligibility, and family assets net worth must by less than \$250,000.

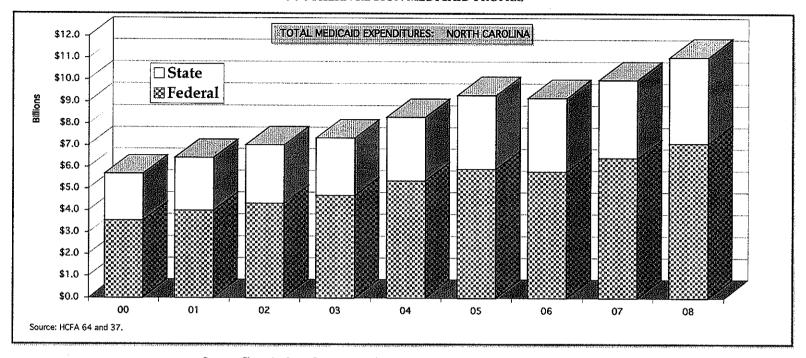

Cost Sharing Provisions of MOHealthNet for Kids:

Monthly Premiums range from a minimum fo \$12 per month to a max of \$294, and is based on family size and income. Families will not be required, however, to pay more than 5% of their income towards coverage.

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

Waivers

North Carolina has two Freedom of Choice Waivers, under Title XIX, Section 1915 (b), of the Social Security Act. They include:

- Carolina ACCESS I is a primary care case management program for Medicaid children under the age of 18, operating since 1991 and is operating in 100 counties as of December 31, 1998.
- Carolina ACCESS II, an expansion of ACCESS I, requires doctors, hospitals, community clinics and other providers to create networks similar to HMOs to serve the medical needs of low-income individuals. The expanded program is currently operating at seven different sites statewide.
- Carolina ACCESS III, a comprehensive full-risk program, is currently in the implementation phase. Two Carolina ACCESS I sites are receiving an additional \$2.50 per member per month to develop the program. As of August 2005, there were 785,153 recipients enrolled in the Access Program.

North Carolina has one Freedom of Choice Waiver, under Title XIX, Section 1115.

In addition, a number of **Home and Community Based Services Waivers**, Section 1915 (c), enable the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- •Elderly and Disabled: Operating since July 1, 1982.
- •Mental Retardation/Developmental Disabilities: Operating since July 1, 1983.
- AIDS: Operating since October 1, 1995.
- •Blind and Disabled Children under age 19 (includes individuals with AIDS): Operating since July 1, 1983.
- Implemented a mandatory HMO enrollment in one county (Macklenburg) in June 1996 via a Section 1915 (b) waiver.
- •Piedmont Cardinal Health Plan waiver: Pre-paid managed care plan that provides Medicaid covered behavioral health services to certain individuals in 5 counties. Approved by CMS in October, 2004.

Managed Care

- •Commercial Managed Care Organization (MCO)
- •Primary Care Case Management (PCCM)
- •Prepaid Inpatient Health Plan (PIHP)

Coverage for Targeted Population

- •The Uninsured: North Carolina does not have an indigent care program.
- •Breast and Cervical Cancer: Full Medicaid coverage for women that have been screened in the North Carolina Breast and Cervical Cancer Program that would not be eligible for Medicaid.

Cost Containment Measures

•Certificate of Need Program since 1979. Regulates introduction or expansion of new institutional health care facilities and services. Amended in 1993.

Medicaid

•23 optional services are offered.

Children's Health Insurance Program: State Designed

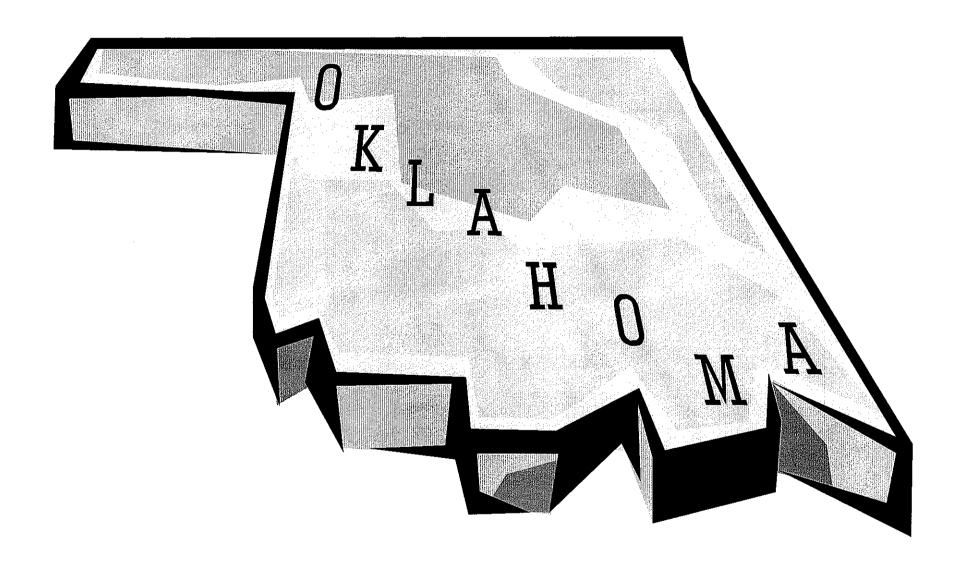

- •SCHIP in North Carolina, NC Health Choice, is administered by the Division of Medicaid Assistance through a state-designed program. The plan received HCFA approval on July 14, 1998. Non Medicaid eligible children in families with incomes at or below 200% fo the federal poverty level.
- For families with incomes up to 150% of the FPL, there are certain prescription drug co-pay requirements (\$1 for generics, \$3 for brand drugs).
- Families with incomes between 150% and 200% of the FPL are required to pay an enrollment fee of \$50 for one child and \$100 for 2 or more children. In addition, there are certain co-payment requirements

Children's Health Insurance Program: State Designed (Continued)

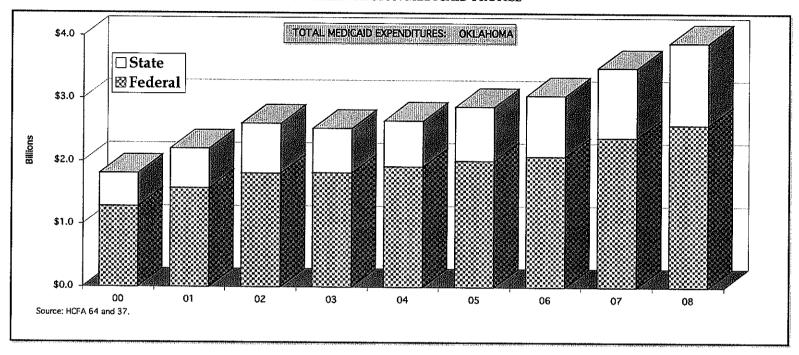

\$5 per physician visit, clinic visit, dental visit, and optometry visit, except for preventive services Either \$1 or \$10 for certain prescription drugs.
\$20 per unnecessary emergency room use

• For families with incomes above 150% of the FPL, there will be an annual enrollment fee of \$50 per child with a maximum of \$100 for 2 or more children.

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

Oklahoma had two waivers from the Centers for Medicare and Medicaid Services (CMS) to operate a health reform demonstration under Section 1115. SoonerCare Plus, a pre-paid capitated plan, served 183,503 adults and children in FY 02; and SoonerCare Choice, a primary care case management system, served 155,316 adults and children in FY 02. Starting January 2004, SoonerCare Choice became the sole model for the state. As of December 31, 2004 there were 360,076 (297,386 children and 62,690 adults) beneficiaries enrolled in the program.

Several **Home and Community Based Service Waivers**, under Section 1915 (c), enable the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- Advantage Waiver: Serves 18,850 "frail elderly" that are 65 or older and adults over 21 with physical disabilities, operating since July 1, 1993.
- Homeward Bound Waiver: Serves 800 people with mental retardation and certain related conditions, operating since July 1, 1988.
- •The In-home Supports Waiver for Children: Implemented in July of 1999 to provide waiver services for additional MR clients, serves approximately 487 children.
- •The In-home Supports Waiver for Adults: Implemented in July of 1999 to provide waiver services for additional MR clients, serves approximately 1,175 adults.
- Family Planning Waiver, or SoonerPlan: plan that offers limited family planning benefits to individuals over 18 that do not qualify for SoonerCare benefits.

Managed Care

- Primary Care Case Management (PCCM): SoonerCare Choice provides a medical home through a primary care physician (PCP)
- Prepaid Ambulatory Health Plan (PAHP)

Coverage for Targeted Population

- •Uninsured: Oklahoma Employer/Employee Partnership for Insurance Coverage (O-EPIC): premium assistance to low-income uninsured Oklahoma residents. Authorized through a HIFA demonstration waiver. Approved by CMS November 2005, currently enrolled over 1,050 employees.
- •The state has a Medically Needy Program to provide assistance to approximately 14,000 low-income individuals who do not meet the eligibility requirements for Medicaid.
- •Oklahoma Cares: Oklahoma Breast and Cervical Cancer Treamtment Program for women under the age of 65, operational January, 2005. Beneficiaries are covered either under SoonerCare Choice or Tradional.

Cost Containment Measures

•Certificate of Need Program since 1968. Regulates introduction or expansion of new institutional health care facilities and services.

Medicaid

•18 optional services are offered.

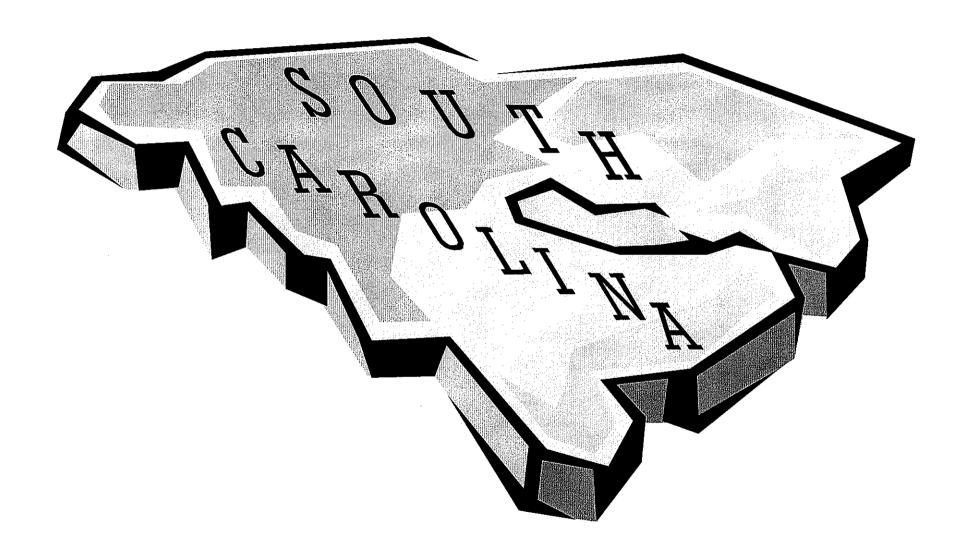

Children's Health Insurance Program: Medicaid Expansion

•CHIP in Oklahoma is called "SoonerCare". The program received HCFA approval on May 26, 1998. The program is administered by the Oklahoma Health Care

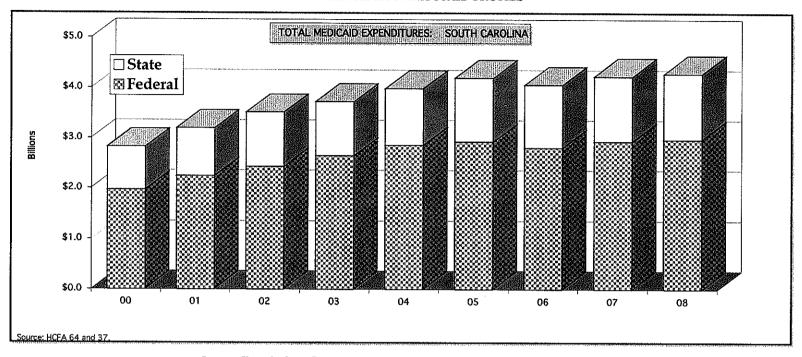

Authority through an expansion of Medicaid. SoonerCare provides health care coverage to approximately 115,000 children/adolescents and eligible pregnant women.

- •Phase I provides coverage for eligible pregnant women and children/adolescents birth through age 17 in families with incomes up to 185% of the FPL.
- •Phase II provides coverage for eligible children/adolescents birth through age 17 in families with income between 100% and 185% of the FPL. The program received HCFA approval on March 25, 1999.
- Amended the State Medicaid plan to cover children in families with incomes between 150% and 185% of the FPL, effective June 2000 and covers approximately 78,798 individuals as of 2006.

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

Created the SilverxCard program as a health reform demonstration, under Section 1115, that provides a comprehensive pharmacy to low income seniors. Through this program, non-Medicaid eligible South Carolina residents who are 65 or older, have no other prescription insurance, and are at or below 200% of the FPL receive pharmacy services through the Medicaid program.

Several **Home and Community Based Services Waivers**, under Section 1915 (c), enable the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- •Mental Retardation and Related Conditions: Operating since October 1, 1991.
- Head and Spinal Cord Injury: Operating since April 1, 1995.
- Mechanical Ventilator DependentWaiver: Individuals age 21 and over dependent on Mechanical Ventilation: Operating since December 1, 1994.

Family Planning Waiver Expansion: The South Carolina Department of Health and Human Services submitted to HCFA an expansion proposal which would revise the existing waiver to include all women at or below 185% of the federal poverty level. These individuals would be eligible for family planning services without the requirement of having a Medicaid reimbursed pregnancy. Serves 59,800 people, operating since June 1, 1997.

Medicaid Coverage of Home Care for Certain Disabled Children: Under Section 143 of the Tax Equity and Fiscal Responsibility Act of 1982, states are allowed to make Medicaid benefits available to certain disabled children ordinarily not eligible for SSI benefits because of their parents' income or resources. These children are referred to as "Katie Beckett" or TEFRA children. South Carolina began covering these children effective January 1, 1995.

Managed Care

- •Medicaid-only Managed Care Organization (MCO)
- Primary Care Case Management (PCCM)
- Prepaid Ambulatory Health Plan (PAHP)

The South Carolina Medicaid Managed Care Program offers eligibles a choice of two voluntary managed care delivery systems: (1) The Physician Enhanced Program (PEP); and (2) The HMO Program.

Coverage for Targeted Population

•The State does not have any indigent care programs for adults.

Cost Containment Measures

- •Certificate of Need Program since 1971. Regulates introduction or expansion of new institutional health facilities and services. Program revised in 1992.
- Rate setting. Prospective payment/Diagnostic-Related Group methodology used for Medicaid.

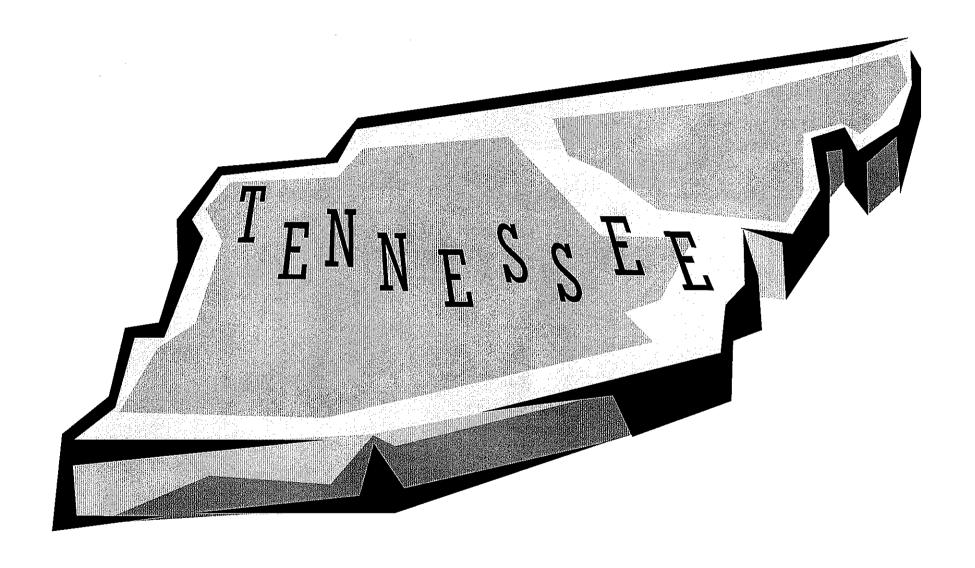

Medicaid

•19 optional services are offered.

Children's Health Insurance Program: Medicaid Expansion

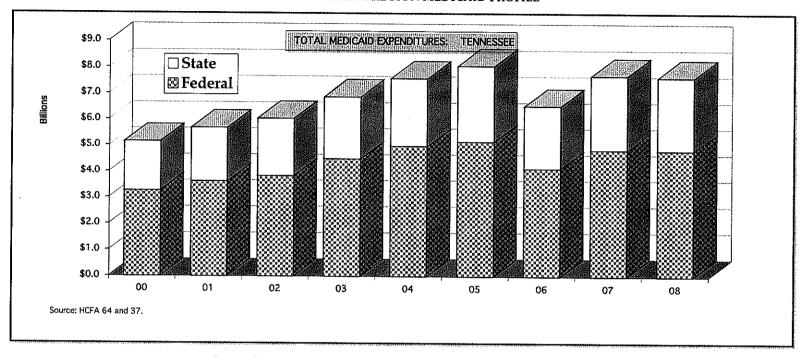

- •The Partners for Healthy Children Program (PHC) received HCFA approval on February 18, 1998. PHC provides coverage through an expansion of Medicaid to children from birth through age 18 in families with incomes at or below 150% of the FPL. The benefit package will be the same as the regular Medicaid package.
- •The Healthly Connections Kids program provides insurance coverage to uninsured children (under age 1, with income between 185% and 200%, and age 1 to 18, with incomes above 150% up to 200% of the fpl). Health insurance benefits are modeled after the health plan provided to South Carolina State employees.

STATE MEDICAID PROFILE

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

Tennessee operates a health care reform demonstration waiver under Title XIX, Section 1115. TennCare is a statewide program that provides health care benefits to Medicaid beneficiaries, uninsured state residents, and those whose medical conditions make them uninsurable. All TennCare enrollees receive services, exclusive of long-term care and Medicare costs, through capitated managed care plans that are either HMO or PPO. It limits enrollment to 1,500,000 per year with Medicaid eligibles having first priority.

- •On July 1, 2002 Tennessee reached a new five-year agreement with the federal government to continue TennCare. The agreement separated TennCare into three products: TennCare Medicaid, TennCare Standard and TennCare Assist (the Assist program will be implemented at a later date determined by the legislature).
- TennCare Medicaid is a continuation of the federal Medicaid program with a few minor changes in benefits, and a three-tiered pharmacy co-payment structure that began January 1, 2003. Tennessee added a new Medicaid eligibility category: women under 65 who have been screened by the Centers for Disease Control (CDC) and are in need of treatment for breast or cervical cancer.

TennCare received approval from CMS on March 24, 2005 to disenroll approximately 323,000 individuals in optional and expansion groups due to budget shortfalls.

- Eligibility for TennCare as a result of the plan amendment is as follows:
- 1. TennCare Medicaid will cover those that were previously enrolled in the program and receive benefits required by CMS for all Medicaid programs;
- 2. TennCare Standard will disenroll: 1) adult, non-pregnant aged, blind, disabled, and caretaker relative Medically Needy; 2) uninsured adults below 200% of the FPL; 3) adults that have medical conditions that make them uninsurable; and 4) adults that have Medicare, but not Medicaid, who met criteria for TennCare Standard as of December 31, 2001, and have continued to meet the criteria that would make them uninsured (also know as grandfathered duals). The process is expected to start as early as June 1, 2005, and provide health care coverage to approximately 1.3 million individuals.
- 3. After disenrollment, **TennCare Standard** will include: 1) uninsured children under age 19 with family incomes up to 200% of the FPL; 2) uninsured children under age 19 that are insurable and have family incomes up to 200% of the FPL; 3) uninsured children under age 19 up to 200% of the FPL enrolled before December 31, 2001, as uninsured with no access to insurance, and 4) uninsured children under age 19 that have Medicare, but not Medicaid, were enrolled before December 31, 2001, and meet the criteria for being uninsurable that were in place at that time.
- 4. TennCare Assist will cover employed, with access to group health insurance, up to 200% of the FPL. The state will cover up to 40% of the cost of employer sponsored health insurance coverage that offers at least a basic HMO package; limits employee out-of-pocket expenses to \$2,000 per individual and \$4,000 per family (to be implemented at a later date); and
- 5. Pharmacy-only will provide pharmacy benefits to grandfathered Medicare enrollees with a three-tiered pharmacy co-payment.
- Cost sharing provisions of the revised TennCare program are as follows:

There is no cost sharing for TennCare Medicaid enrollees;

For TennCare Standard enrollees there are no co-pays for preventive services, and no cost sharing for enrollees with income up to 100% of the FPL; For TennCare Standard enrollees with incomes from 100% to 200% of the FPL, the co-pays will be as follows:

- •\$25 for emergency room services (waived if admitted);
- •\$5 for pharmacy services;
- •\$5 for outpatient services; \$15 for a specialist;
- •\$15 for dental services;
- •\$100 per inpatient hospital admission; and
- •Limit out-of-pocket expenses to \$1,000 for individuals and \$2,000 for families.

For TennCare Standard enrollees with incomes above 200% of the FPL, the co-pays will be as follows:

- •\$50 for emergency room services (waived if admitted);
- •\$10 for pharmacy services;
- •\$10 for outpatient services; \$25 for a specialist;
- •\$25 for dental services;
- •\$200 per inpatient hospital admission; and
- •Limit out-of-pocket expenses to \$2,000 for individuals and \$4,000 for families.

Annual out-of-pocket maximums for grandfathered pharmacy co-payments are \$360 per individual; and

For TennCare Standard enrollees, monthly premiums range from \$20 to \$550 for individuals, and \$40 to \$1,375 for families (100% to 600% of the FPL).

A number of **Home and Community Based Services Waivers**, under Section 1915 (c), enable the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- Elderly and Disabled: Two waivers, operating since July 1, 1986. Tennessee received approval in 1995 to continue this waiver.
- •Mental Retardation/Developmental Disabilities: Operating since July 1, 1987.

Managed Care

- •Commercial Managed Care Organization (MCO)
- •Medicaid-only Managed Care Organization (MCO)
- Prepaid Inpatient Health Plan (PIHP)

Tennessee requires all MCO's to be accredited by the National Committee for Quality Assurance (NCQA)

Coverage for Targeted Population

- Medically Needy
- •Women with Breast or Cervical Cancer

Cost Containment Measures

• Certificate of Need Program since 1973. Regulates introduction or expansion of new institutional health facilities and services. The Health Facilities Commission, which operates the Certificate of Need Program, was terminated on June 30, 2003.

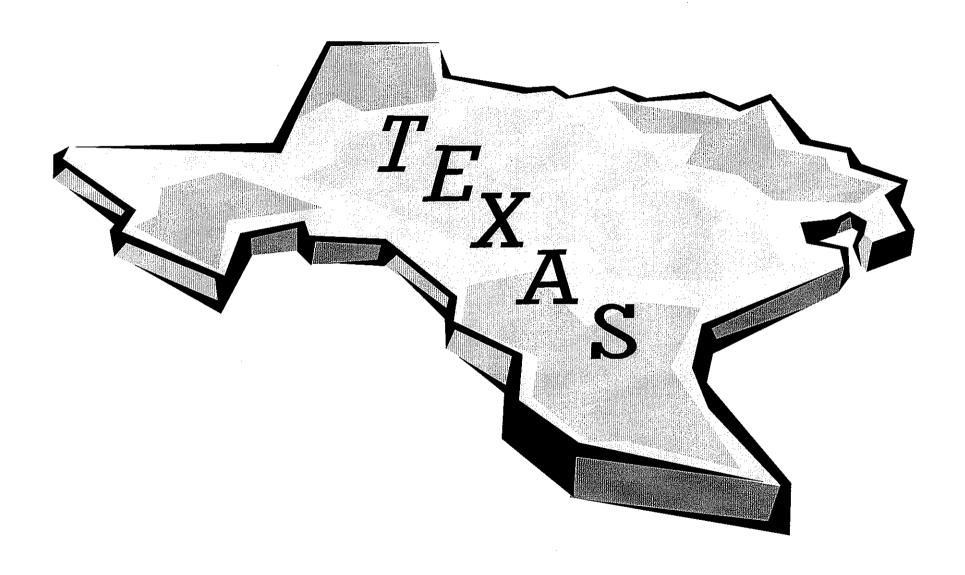

Medicaid

- •Enacted legislation in 2002 titled the "TennCare Reform Act of 2002", which authorized the state to apply to CMS for a new 1115 demonstration project.
- All Medicaid services will be provided through the revised TennCare Medicaid demonstration waiver implemented in June 2005. The waiver has CMS approval through June 30, 2007.

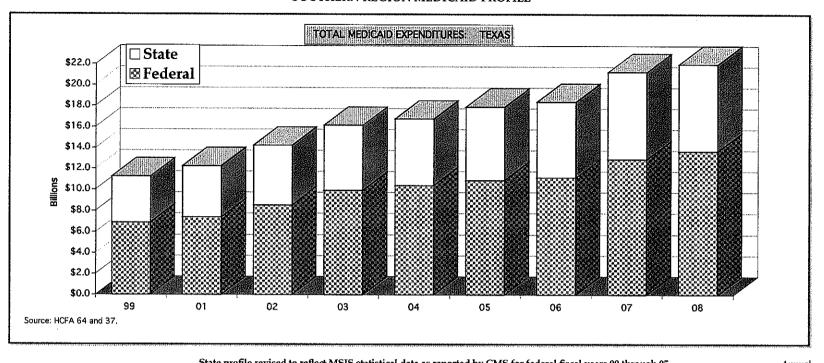

Children's Health Insurance Program: State Designed

• All eligible children will be covered under the revised TennCare 1115 demonstration waiver.

Waivers

Texas has several waiver sites operating under the provisions of Title XIX, Section 1915 (b), of the Social Security Act as follows:

- •(1) Southeast Region: PCCM model, effective December 1, 1995.
- •(2) Travis County service delivery area: HMO model, effective September 1, 1996.
- •(3) Bexar County service delivery area: HMO and PCCM model effective October 1, 1996.
- •(4) Lubbock County service delivery area: HMO and PCCM model, effective October 1, 1996.
- •(5) Tarrant County service delivery area: HMO model, effective October 1, 1996.
- •(6) Harris County service delivery area: HMO and PCCM model, effective December 1, 1997; serves (STAR) and (STAR+PLUS).
- •(7) Dallas service district area: HMO model, effective July 1, 1999.
- •(8) El Paso service delivery area: HMO, PHP, and PCCM model effective December, 1999.
- •NorthSTAR (Behavioral Health Waiver): A Medicaid pilot project designed to create a single, seamless system of public behavioral health care in which both chemical dependency and mental health services will be provided (only for Dallas area recipients). The waiver was approved September 10, 1999.

In addition, Texas has a number of **Home and Community Based Services Waivers**, under Section 1915 (c), which enables the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- Elderly and Disabled: Community Based Alternatives (CBA) program serves clients over the age of 21. Operating since September 1, 1993.
- •Mental Retardation/Developmental Disabilities and Mental Retardation-Related: Four waivers, serving clients of all ages, with the first waiver operating since September 1, 1985
- •Medically Dependent Children Under Age 21: Operating since July 1, 1988.
- Developmental Disabilities: This waiver services clients over age 18 who are deaf or blind and have multiple disabilities.
- •Texas Women's Health Waiver (1115 Family Planning Waiver): eligibility expansion for Family Planning Services to uninsured women (ages 18 to 44) with incomes up to 185% of the FPL who are not otherwise eligibile for Medicaid, SCHIP, Medicare, or any other insurance coverage.

Managed Care

- •Primary Care Case Management (PCCM): provides health care services for most Medicaid recipients in 202 Texas counties. The PCP serves as the medical home.
- Commercial Managed Care Organization (MCO)
- Medicaid-only Managed Care Organization (MCO)
- Prepaid Inpatient Health Plan (PIHP)

State of Texas Access Reform (STAR): The STAR program, the state's managed care program. And serves Medicaid recipients statewide. STAR+Plus: The state's Medicaid pilot project designed to integrate delivery of acute care and long-term care services through a managed care system. The project, effective December, 1997, serves aged and disabled Medicaid recipients in 29 Texas counties as of January, 2007.

Coverage for Targeted Population

- Medically Needy
- •Integrated Care: Services in certain counties to disbled individuals age 65 and older that have complex medical needs and require coordinated care Operational January, 2007.

Medicaid

- •23 optional services are offered.
- •Health and Human Service Commission (HHSC) implemented the Breast and Cervical Cancer Treatment Act on December 1, 2002.

Children's Health Insurance Program: Medicaid Expansion

- •The Texas Children's Health Insurance Program (Phase 1) received HCFA approval on June 15, 1998. The state plan is an expansion of Medicaid and provides health care coverage to children/adolescents age 15 to 18 in families with incomes up to 100% of the FPL. The second phase of the program projects expansion of Medicaid coverage for children/adolescents age 1-19 up to 200% of the FPL.
- Texas CHIP provides a benefit package the same as regular Medicaid to eligible individuals.
- TexCare provides for cost sharing by covered individuals as follows:

100%-150% pay an annual enrollment fee of \$15

151%-185% pay a monthly premium of \$20

186%-200% pay a monthly premium of \$25

Additional cost sharing provisions as follows:

\$3 to \$10 for office visits

\$3 to \$50 for emergency room visits

\$3 to \$5 for generic drugs

\$3 to \$20 for brand name drugs

\$10 to \$100 for inpatient hospital stays

- The 78th Legislature instituted the following for the FY 2004-2005 biennium:
- 1. Maintained income eligibility at 200% of the FPL.
- 2. Eliminated deductions to income so that eligibility is based on gross income.
- 3. Restricted eligibility to families at or above 150% of the FPL to those with assets within allowable levels.
- 4. Allowed establishment of cost-sharing at federal maximum levels.
- 5. Changed the term of coverage (continuous eligibility period) from 12 to 6 months.
- 6. Established a 90-day waiting period between eligibility determination and coverage.
- 7. Reduced provider payment rates by 5%. However, that decrease was partially restored to a 2.5% decrease.
- 8. Limited the benefits package to coverage of basic health services.

Children's Health Insurance Program: Medicaid Expansion (Continued)

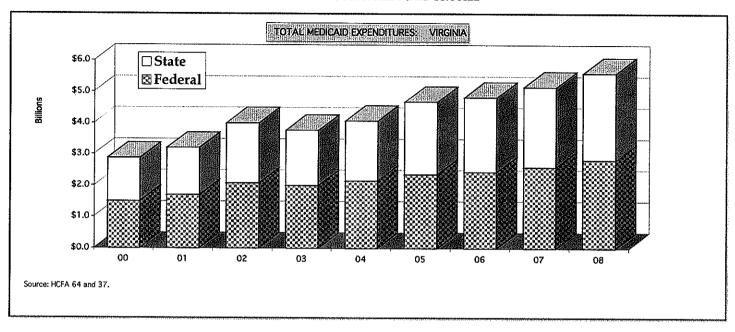

•Discontinued benefits include: most behavioral health services; dental services; hospice care services; skilled nursing facilities; tobacco cessation programs; vision (including eyeglasses and exams) and chiropractic services.

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2005; "Medicaid Services State by State", CMS, October 2004; "State Health Facts", The Henry Kaiser Foundation, January 2005; and the state Medicaid Website.

Waivers

Virginia operates two health care reform demonstrations with Freedom of Choice Waivers under Title XIX, Section 1915 (b), of the Social Security Act. They include:

- •Medallion Program, implemented in 1992, provides case management for TANF and TANF-related beneficiaries statewide. In July of 1995, this program was expanded to include the aged, blind, and disabled resident population.
- Medallion II Program requires beneficiaries to enroll in prepaid HMO health plans. It has been in operation since January 1, 1996.

services to people who otherwise would require institutionalization. They include:

- •Elderly and Disabled with Consumer Direction Waiver: Operating since July 1, 1982.
- Mental Retardation Waiver
- •AIDS Waiver: Operating since July 1, 1991.
- Technology Assisted Waiver: Operating since December 1, 1988.
- Assisted Living Waiver, operating since 2005.
- •Individual and Family Developmental Disabilities Support Waiver: Operating since July 2000.

Managed Care

- Commercial Managed Care Organization (MCO)
- Medicaid-only Managed Care Organization (MCO)
- Primary Care Case Management (PCCM)
- Prepaid Ambulatory Health Plan (PAHP)

As of December 2007, approximately 64% of Medicaid beneficiaries were enrolled in managed care, and the remaining 36% were receiving benefits in the fee for service program.

Coverage for Targeted Population

- •The Uninsured: The Indigent Care Trust Fund, which includes state general funds and funds provided by private acute care hospitals, subsidizes the cost of uncompensated care at the hospitals.
- •Disease Management: As of 2006, the Disease State Management program provides services to address targeted conditions for certain populations that decide to participate.

Cost Containment Measures

- Certificate of Need (CON) Program since 1973. Regulates introduction or expansion of new institutional health facilities and services. Nursing home moratorium which had been extended until June 30, 1996 was allowed to expire. The state implemented a new program whereby the department requests proposals for new nursing home beds based on need in each health planning district.
- •Legislation passed in 1998 added certain medical equipment to the CON review process and exempted the replacement or upgrade of existing MRI systems from CON requirements.

Medicaid

21 optional services are offered.

Children's Health Insurance Program: State Designed

• CHIP in Virginia received HCFA approval on October 22, 1998 and is administered by the Department of Medical Assistance Services through a state-designed program. The state plan is titled "The Virginia Children's Medical Security Insurance Plan (VCMSIP)". Children/adolescents birth through 18 in families with income up to 185% of the FPL are eligible for CHIP benefits.

Children's Health Insurance Program: State Designed (Continued)

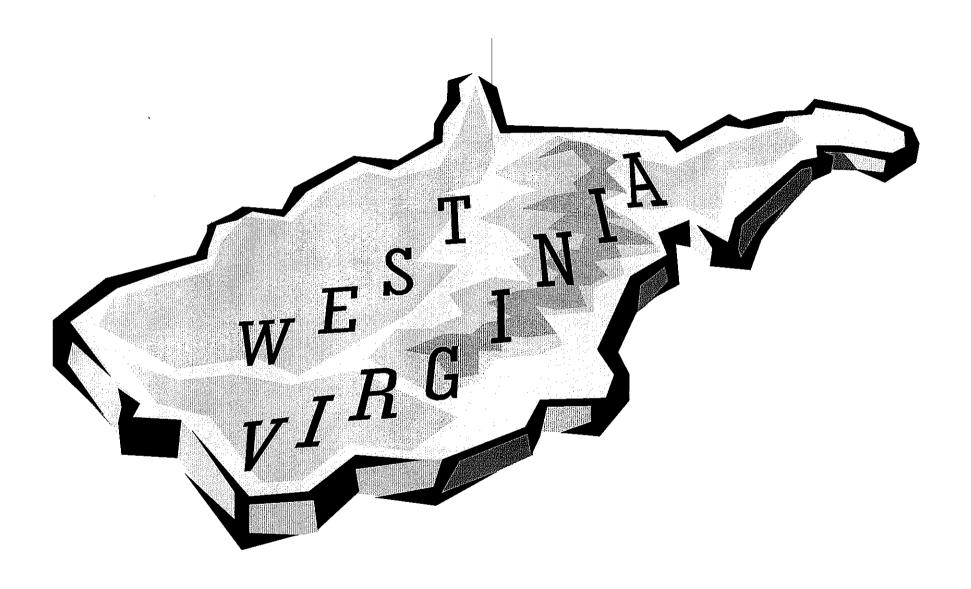

•For 2000, expanded the SCHIP program to provide health care coverage to individuals up to age 19 in families with incomes to 200% of the FPL and renamed the program the Family Access to Medical Insurance Security Plan (FAMIS). The program serves approximately 68,000 individuals. FAMIS does not require qualified families to pay yearly or monthly premiums. However, families with children that are enrolled in an MCO have co-payments for some covered services. Co-payments for some basic FAMIS services provided to eligible children are as follows:

	Status 1*	Status 2*
Outpatient Hospital or Doctor	\$2 per visit	\$5 per visit
Prescription Drugs	\$2 per prescription	\$5 per prescription
Inpatient Hospital	\$15 per admission	\$25 per admission
Non-emergency use of ER	\$10 per visit	\$25 per visit
Yearly Co-payment Limit per Family	\$180 [°]	\$350

*Status is determined by DMAS and is based on family income. Native Americans and Alaskan natives are not required to make co-payments.

- •During FY 03, children age 6 -19 under 133% of the FPL were converted to the Medicaid program but still federal funding for this population continues to be at the SCHIP rate (and out of the SCHIP allotment). The state reported that approximately 31,000 children were added to Medicaid as a result of this change, while 53,000 additional children were enrolled in SCHIP.
- •During FY 04, the SCHIP program was amended to remove the requirement that enrollees report all changes that impact eligibility before redetermination, reduce the waiting period of uninsurance from 6 months to 4 months, expand the scope of benefits to add certain mental health services, and change prior authorization requirements for some benefits.

^{*}Rate shown is for Medicaid payments only. The FMAP (Federal Medical Assistance Percentage) is based on the relationship between each state's per capita personal income and that of the nation as a whole for the three most recent years. Federal share of state administrative costs is usually 50 percent or 75 percent, depending on function and whether or not medical personnel are used. **Federal Fiscal Years 07 and 08 reflect latest estimates reported by each state (CMS 37).

ADDITIONAL STATE HEALTH CARE INFORMATION

Sources: "Issue Briefs", Health Policy Tracking Service, January 2006; "Medicaid Services State by State", CMS, October 2005; "State Health Facts", The Henry Kaiser Foundation, January 2006; state annual report for FY 05; and state Medicaid Website.

Waivers

West Virginia has a Freedom of Choice Waiver, under Title XIX, Section 1915 (b), of the Social Security Act. The West Virginia Physician Assured Access System implements a primary care case management program for TANF and TANF-related Medicaid beneficiaries.

HCFA approved a 1915(b) waiver to implement Medicaid managed care in 12 counties for acute care health services, effective July of 1999.

In 2006 West Virginia received approval from CMS to implement a Medicaid Reform health benefit package under the DRA of 2005 (state plan amendment). West Virginia's new Medicaid program, Mountain Health Choices, was implemented in 3 counties in 2006, and went statewide in 2007. Certain beneficiaries can (both children and adults) choose between a "Basic" plan, or an "Enhanced" plan, and assigned a medical home. Medicaid recipients that are not plan members continue to receive services through fee for service Medicaid.

In addition, West Virginia has several **Home and Community Based Services Waivers**, under Section 1915 (c), which enables the state to provide long-term care services to people who otherwise would require institutionalization. They include:

- Aged and Disabled: Operating since July 1, 1985.
- •Mental Retardation/Developmental Disabilities: Operating since July 1, 1985.

Managed Care

- •Commercial Managed Care Organization (MCO)
- Primary Care Case Management (PCCM)

Coverage for Targeted Population

•The Uninsured: The State pays a limited amount of disproportionate share payments to hospitals providing indigent care.

Cost Containment Measures

- •Certificate of Need Program since 1977. Regulates introduction or expansion of new institutional health facilities and services. The program was due to sunset in 1996. However, it was extended pending completion of a study of the entire CON program.
- West Virginia changed Inpatient Hospital Services reimbursement from Medicare Cost Principal to a Prospective Payment System using DRG's effective January 1, 1996.

Medicaid

24 optional services are offered.

Children's Health Insurance Program: Medicaid Expansion

- •West Virginia's Children's Health Insurance Program received HCFA approval on September 15, 1998. The CHIP program provides health care coverage for children age 1 to 6 in families with incomes up to 150% of the FPL. Phase II of the program, which includes all children/adolescents under age 19 in families with income up to 150% of the FPL, received HCFA approval on April 1, 1999. As of September 2002, there were 35,949 individuals enrolled in the program.
- CHIP expansion ended 09/30/00. The CHIP program took over this population as of 10/01/00.
- In 2000, HCFA approved a state plan amendment that raised the family income limit to 200% of the FPL and authorized co-payments on families with incomes from 150% to 200% of the FPL.
- The program does not charge co-payments for preventive, dental, or vision services. However, co-payments are charged for non-preventive services as follows:

Service	Co-Pay	-
Non-well Visit	\$ 15	
Inpatient Visit	\$25	
Outpatient Service	\$25	
Emergency Room Visit	\$35	Waived if admitted
Prescription	\$5	Generic
-	\$10	Brand Name

The annual co-pay maximum is \$250 per child, up to \$750 for three or more children.

- In 2002, the CHIP plan received approval from CMS to add cost sharing for pharmaceuticals for recipients at or below 150% of the FPL, and to place a lifetime limit of \$1 million on benefits.
- As of June 4, 2005, the state reported that approximately 25,000 children were enrolled in the CHIP program.

West Virginia's Children's Health Insurance Program, Family Access to Medical Insurance Security, or FAMIS, offers benefits through 2 separate delivery systems, either traditional fee for service, or managed care. As of 2008, only 13 counties offer fee for service only.

DEFINITIONS

Capitation: A reimbursement system in which health care providers receive a fixed fee for every patient served, regardless of how many or how few services the patient uses.

Case Management: A technique used by third party payors and self-insured employers to monitor or coordinate treatment for specific diagnosis, particularly those involving high-cost or expensive services.

Certificate of Need (CON): State programs that regulate expenditures for the introduction or expansion of health facilities, institutional health services, and/or the purchase of major medical equipment.

Clawback: (or phase down state contribution) - Required state payment to Medicare to cover the cost of dual eligiblies for Medicare prescription drug coverage offered under Medicare Part-D.

Diagnostic-Related Group (DRG): This is a system in which the hospital receives a fixed fee for each type of medical procedure regardless of the hospital's cost of providing that service.

DSH payment: Disproportionate Share Hospital payment: source of funding/reimbursement from Medicaid to hospitals serving a disproportionate share of Medicaid and uninsured patients.

Dual Eligible: senior or disabled individual enrolled in both Medicaid and Medicare.

Early Periodic Screening, Diagnosis, and Treatment (EPSDT) - Medicaid disease prevention program for children.

Federal Medical Assistance Percentage (FMAP): The federal government share of state Medicaid expenditures. Often referred to as financial participation or the federal match rate. The FMAP for each of the 50 states is formula driven and based on per capita incomes. States having low per capita incomes receive a higher federal match.

Federal Poverty Level (FPL): Poverty measure determined by the federal government based on family size.

Fee-for-Service: The traditional way of billing for health care services. There is a separate charge for each patient visit and service provided.

Federal Fiscal Year (FFY): October 1 to September 30.

Gatekeeper: A component of an independent practice association HMO that requires its subscribers to see a primary physician before seeing a specialist.

Health Maintenance Organization/Federally Qualified (HMO/FQ): A public or private organization that contracts on a prepaid capitated risk basis to provide a comprehensive set of services and is federally qualified.

Health Maintenance Organization/State Plan Defined (HMO/SPD): A public or private organization that contracts on a prepaid capitated risk basis to provide a comprehensive set of services and is a state defined plan.

Home and Community Based Services Waiver: Enable states to disregard certain federal requirements to provide home and community based services to targeted populations who would otherwise require institutionalization(ICF/MR services, and skilled and intermediate care nursing facility services).

Limited Risk Plan: A managed care plan in which the state contracts directly with providers on a per patient basis for certain services, but continues to pay on the fee-for-service for all other care. The state shares the financial risk of providing medical services with the managed care organization.

Managed Care Organization (MCO): A system of care under which a predetermined number of patients are enrolled, for a pre-determined rate for all or part of their care. The most common categories are health maintenance organizations and primary care case management.

Management Service Organization: An organization formed by one or more physician groups to manage their medical practices.

Mandatory Services: Services required to be provided (by CMS) to Medicaid eligibles as a result of operating a Medicaid program.

Medicaid Managed Care: A system of care in which a state has moved all or part of its Medicaid recipients into a managed care system. The most common categories are health maintenance organizations and primary care case management.

Medicaid: A national entitlement health insurance program authorized by Title XIX of the Social Security Act in 1965 that is jointly funded by states and the federal government and operated by the individual states. It is designed to provide medical coverage for the poor and specific groups of uninsured. Eligibility is typically limited to low income children, pregnant women, elderly and individuals with disabilities. States are granted flexibility in designing their Medicaid programs, but must cover certain groups of individuals.

Medical Saving Accounts: Individual and/or family health funds similar to individual retirement accounts into which employers and employees make tax-deferred contributions.

Medically Needy: A state option that allows Medicaid eligibility to an individual that may qualify under a certain category, but not financially (has too much income or assets to qualify under categorically needy limits). The states allow the individual to reduce their income (by spending down monthly income on medically necessary services to the provider or Medicaid program) to the Medicaid income standard/requirement for the respective category in order to qualify for Medicaid.

Open Enrollment: One period of time each year when HMOs are required to take applications regardless of the applicants' pre-existing conditions.

Point-of-Service (POS): A POS plan covers the health care services provided to members who use the network. It is similar to an HMO in that it utilizes a primary care "gatekeeper".

Preferred Provider Organization (PPO): Type of health insurance program in which a group of doctors and hospitals provide a broad range of medical care to a predetermined group of subscribers for a predetermined fee. Under this plan, a third party negotiates discounted rates for services with specific providers. Its members, however, may use providers outside the network but are encouraged by financial incentives to seek care from within the network.

Prepaid Health Plan (PHP): An entity that either contracts on a prepaid, capitated risk basis to provide services that are not risk-comprehensive, or contracts on a non-risk basis. Additionally, some entities that are defined as HMOs are treated as PHPs through statutory exemption.

Presumptive Eligibility: a state option that allows eligible providers to pre-determine (expedite) eligibility (without verification) under Medicaid before/while Medicaid eligibility is being determined. Services are temporary, or until appropriate Medicaid applications are submitted and eligibility is determined by an individual state.

Primary Care Case Management (PCCM): Programs that use a provider who receives a small fee to manage the individual's care but reimburses on a fee-for-service basis. The primary care case manager is responsible for health care

utilization and access to service. This is a freedom of choice waiver program which can be authorized by the authority of 1915(b) of the Social Security Act.

Prior Authorization: approval required from state Medicaid programs before physicians can prescribe certain medications. Prior authorization has typically been used by Medicaid programs as a cost saving tool.

Provider Taxes: Broad-based taxes on specific health providers/facilities, such as hospitals or nursing homes; and services such as pharmaceutical services which are used to generate state Medicaid funds.

SSI: Includes Supplemental Security Income recipients (or aged, blind and disabled individuals in those states which apply more restrictive eligibility requirements).

Section 1634 State: State option that requires state to provide Medicaid coverage to all aged, blind, and disabled individuals that receive cash assistance through SSI.

Section 1915(b) Waivers: Provision of the Social Security Act that allows states to waive certain programmatic rules governing Medicaid. It is typically used in implementing managed care to implement provider choices. States have generally used one of the following two approaches; capitated or primary care management programs.

Section 1915(c) Home and Community Based Services (HCBS) Waiver: Typically used to allow a state to offer long-term care services in a community based setting as opposed to institutional care.

Section 1115 Waivers (Research and Demonstration projects): Provision of the Social Security Act that allows states, subject to CMS approval, to waive certain requirements of the Medicaid program, such as eligibility rules. These waivers can be used to create small-scale demonstration projects in order to test proposed broad changes in the Medicaid program.

States Health Insurance Program (SCHIP): Federal health insurance program for targeted low income children under the age of 19 (that do not qualify for Medicaid) authorized by Title XXI of the Social Security Act. The program is jointly funded by states and the federal government, and states receive an enhanced federal match rate. SCHIP is an entitlement program that is capped by the federal government.

T19: All mandatory eligibility groups, as described by Title XIX of the Social Security Act.

The Breast and Cervical Cancer Prevention and Treatment Act of 2000: Federal act that gives states the 'option' to provide breast and cervical cancer treatment services through the Medicaid program (new eligibility category) to certain women.

The Centers for Medicare and Medicaid Services (CMS-- formerly HCFA): A federal agency within the Department of Health and Human Services. It was created in 1977 to administer the Medicare and Medicaid programs -- two national health care programs with more that 72 million beneficiaries. While CMS mainly acts as a purchaser of health care services for the Medicare and Medicaid beneficiaries, it also:

Assures that Medicare and Medicaid are properly administered by its contractors and state agencies;

•Establishes policies for the reimbursement of health care providers;

•Conducts research on the effectiveness of various methods of health care management, treatment, and financing; and

• Assesses the quality of health care facilities and services.

Utilization Review: Involves medical professionals who are outside the managed care organization reviewing and evaluating the activities and diagnoses of the individuals within the organization.

Waiver: The Secretary of the Department of Health and Human Services can waive certain Medicaid statutory requirements upon request in order to allow states flexibility in operating their Medicaid programs. Waivers are usually implemented to target specific services to specific groups, expand eligibility to new or different groups, implement a new delivery system, or provide a different service.
