III. Current Year Items Requiring Action

IV. Horizon Issues Not Contained in 5-Year Plan

State share owed to FEMA upon the final closeout of various disasters, including Hurricane Katrina, for public assistance (state, local, and private non-profits) and hazard mitigation projects. Final closeouts of the various disasters are not expected until FY20 at the earliest, but could extend beyond the 5-year baseline projection window.

In 2008, the State of Louisiana through the Coastal Protection and Restoration Authority Board entered into a Project Partnership Agreement with the United States Army Corps of Engineers to construct a Hurricane and Storm Damage Risk Reduction System (HSDRRS) around the greater New Orleans area. The HSDRRS project is a cost share agreement whereby the State is required to pay a percentage (about 35%) of the total costs of the project. Payback will occur over a 30 year period with the first payment due once the HSDRRS project is completed, which is expected to be in Fiscal Year 2021.
